JULY 2024 EDITION VERSION 5

EFFECTIVE JULY 2025

SECURITY WARNING NOTICE

THIS DOCUMENT IS THE PROPERTY OF HIS BRITANNIC MAJESTY'S GOVERNMENT

It is issued solely for the information of those who need to know its contents in the course of their official duties. Outside Government service, this document is issued on a personal basis: each recipient is personally responsible for its safe custody and for ensuring that its contents are disclosed only to authorised persons. Anyone finding this document should hand it to a British Forces unit or to a police station for its safe return to MINISTRY OF DEFENCE, Defence Security, Zone J (Mail Point), Level One, Main Building, Whitehall, LONDON SW1A 2HB, with details of how and where found.

THE UNAUTHORISED RETENTION OR DESTRUCTION OF THIS DOCUMENT MAY BE AN OFFENCE UNDER THE OFFICIAL SECRETS ACT 1989 AND THE NATIONAL SECURITY ACT 2023.

CONDITIONS OF RELEASE

This information is released by the United Kingdom Government to the recipient Government for Defence purposes only.

This information must be afforded the same degree of protection as that afforded to information of an equivalent classification originated by the recipient Government or as required by the recipient Government's National Security Regulations.

This information may be disclosed only within the Defence Departments of the recipient Government except as otherwise authorised by the UK Ministry of Defence.

This information is subject to UK MOD Crown Copyright, it may also be covered by privately owned copyright. Therefore no part of this publication may be reproduced, used commercially, adapted or transmitted in any form or by any means electronic, mechanical, photocopying, recording or otherwise without the prior permission of the publishing authority identified on page ii.

By Command of the Defence Council

Second Sea Lord and Fleet Commander

SPONSOR INFORMATION

This publication is sponsored by the Deputy Director People Strategy (DDPS), with editorial control delegated to SO1 Publications in the People Strategy and Policy team of the People and Training Directorate, NCHQ.

Individual parts and chapters of the publication have designated points of contact (POC), to whom all proposals for amendment of that part should be sent in the first instance. POC contact details are provided later in these preliminary pages. In cases where the POC cannot be identified due to ongoing organisational change, or in any other case of doubt, the Editor BRd 3(1) should be contacted by email via NAVY PEOPLE-PSP PolDev Gov SO1.

All other correspondence concerning this publication should be sent to:

OIC Navy Warfare Publications
Pepys Building
HMS COLLINGWOOD
FAREHAM
Hants

DIVERSITY AND INCLUSION EQUALITY ANALYSIS

Chapter POCs are responsible for conducting Equality Analysis on any new policy which affects the employment of personnel in order to ensure that it does not have a disproportionate impact on those in the Protected Characteristic groups.

CONVENTIONS

The following conventions are used throughout this publication.

WARNING

AN OPERATING PROCEDURE, PRACTICE OR CONDITION THAT MAY RESULT IN INJURY OR DEATH IF NOT CAREFULLY OBSERVED OR FOLLOWED.

CAUTION

An operating procedure, practice or condition that may result in equipment damage if not carefully observed or followed.

Note. *An operating procedure, practice or condition that is essential to emphasise.*

Hyperlinks within chapters/annexes will work in this publication although links outside the chapter/annex are not provided due to web browser limitations. where this icon is observed, visit the publication's Home Page to access files of interest. Files are available under the following Home Page buttons; Forms, Video, Sound.

NAVIGATION

This book can be navigated by opening the side navigation menu. This is accessed by selecting the three line navigation bar adjacent to the page count at left of the tool bar. It will open the navigation menu sidebar, including access to a List Abbreviations and Glossary of Terms.

PREFACE

1. This Naval Book of Reference (BR) exists in electronic form only (hence the letter 'd', denoting 'digital', after 'BR'). The publication is very large. Printed extracts will become invalid if not re-printed following the issue of a later edition.

2. How to Use this BR

References to external material within the BRd are listed throughout; these can be accessed via the user's internet/intranet access platform, where the relevant permissions are held. The BRd may be searched in two ways: by using the Search button in the File Toolbar to search within an open Chapter, or by looking in the Index which lists paragraph titles throughout the BR in alphabetical order – clicking on the selected item will take the reader to the paragraph in question. **Sponsors can be found on the first page of each Chapter and are the first point of contact for any policy queries/amendments (see page x also).**

3. Aim

The aim of this publication is threefold: to define Royal Navy personnel policy and regulations, to lay down doctrine on processes, and to provide guidance to all involved in this subject.

4. Scope

BRd 3(1) provides Naval Personnel Management policy direction for all uniformed parts of the whole force. A separate volume, BRd 3(2) is a Schedule to the Regulations for the Reserve Naval and Marine Forces 2015, created under the powers delegated to the Defence Council by Section 4 of the Reserve Forces Act 1996, providing policy direction where this is needed to meet Parliamentary requirements.

5. Structure of BRd 3(1)

Following these preliminary pages, which incorporate a List of Abbreviations and Glossary of Terms accessible via the navigation sidebar, BRd 3(1) is comprised of the following parts:

a. **Part 1 (People Management Organisation and Strategy).** Part 1 summarises the organisation of Naval People Management, outlines how the overall process works, and shows the linkages between the individual components of the process. Details of each component are provided in the subsequent Parts.

b. **Part 2 (Establishment Administration).** Part 2 explains how the total demand for trained Naval workforce is defined today and in the future in Establishment Lists. It lays down policy and practice and gives rules, guidance and limitations on the formulation and change of Establishment Lists.

c. **Part 3 (Personnel Planning and Costing).** Part 3 outlines how Naval personnel planning is conducted, drawing on the workforce Planning Liability that is derived from summations of Naval positions in Establishment Lists and subsequent adjustments. It also gives a brief insight to personnel costing.

d. **Part 4 (Recruiting).** Part 4 delivers recruiting policy and processes.

e. **Part 5 (Life Management).** Part 5 covers policies on discipline and the administration, welfare and well-being of individual Service personnel, including the Divisional and Regimental System.

f. **Part 6 (Uniform Regulations).** Part 6 provides the necessary direction for the wearing of uniform by RN, RM, Maritime Reserves, Royal Fleet Auxiliary, Naval Retail Staff and Royal Corps of Naval Constructors. It also covers policy and regulations on appearance, the wearing of uniform in public, and laundry provision.

g. **Part 7 (Career Structures).** Part 7 shows how an individual's career may be shaped and managed over the full time span of commitment to the Service, including Commissions, Careers, Engagements, associated Terms and Conditions of Service, the assignment process (including for augmentation and in response to crisis), Career and Branch Management and Security Vetting policy.

h. **Part 8 (Promotion).** Part 8 covers the officer and rating/RMOR promotions policy, processes and regulations.

i. **Part 9 (Individual Training, Learning Development and Resettlement Policy).** Part 9 outlines the policies under which Naval individual training, education, and resettlement are conducted.

j. **Part 10 (Maritime Reserves).** Part 10 gives details on Maritime Reserve policy, regulations and administration not covered as Secondary Legislation in BRd 3(2) .

k. **Part 11 (University Royal Naval Units and Cadet Forces).** Part 11 contains policy regulations governing the administration of the University Royal Naval Units (URNU) and Royal Naval Cadet Forces.

7. Terminology

Considerable effort has been put into standardising terminology used in the Royal Navy. Terms used are in accordance with those included in the Tri-Service Common Workforce Lexicon in JSP 755. Some terms, primarily where they are not covered in JSP 755, are given in the Glossary. Terminology is always evolving. Examples of changes already widely (but not exhaustively) incorporated include; gender neutrality, liability in place of requirement and assignment in place of appointment or draft. Some personnel management terminology is quite specialised and so, to improve readability, the use of 'Plain English' has been maximised. Common abbreviations are used widely (as defined in the List of Abbreviations) and personnel groups have usually been identified explicitly; fewer common terms are often being given in full. Unless stated otherwise, the following assumptions should be recognised when specific terms are used:

a. 'Naval' and 'Naval Service' refers to the Royal Navy as a whole;

b. 'Ratings' include RMOR, except where stated;

c. 'Ships' include Submarines, Mine Countermeasures, Fishery Protection and Patrol Boat Vessels.

d. 'Units' generally refers to deployable organisations that have their own Establishment List.

e. RN ranks (which includes rates) encompass RM and QARNNS equivalents (an equivalent rank table may be found later in these preliminary pages.)

f. In the very rare cases where a gender-neutral expression is not readily available, male/female terminology has been used.

8. Associated Information

In order to minimise duplication, links or references are provided to associated subjects and areas of activity. Furthermore, in view of the relatively frequent changes to policy and processes, it is essential that recent DINs and RNTMs are also scrutinised. The following, not connected by links, are key sources of related information:

a. **RN Regulations.**

(1) **BRd 8374 (RN and RM Officer Training Regulations).** BRd 8374 provides policy and guidance on officers' training, from Phase 1 through to higher level staff training and Defence Fellowships.

(2) **BRd 3(2) Naval Personnel Management - Reserves.** Policy, instructions and guidance on the Maritime Reserves are governed by the provisions of the Reserve Forces Act 1996 (RFA 96) and summarised in BRd 3(2).

b. **Joint Service Regulations.**

(1) **JSP 753: Regulations for the Mobilisation of Reserve Forces**.

(2) **JSP 462: Financial Management and Charging Policy Manual.**

(3) **JSP 419: Adventurous Training in the UK Armed Forces.**

(4) **JSP 440: The Defence Manual of Security.**

(5) **JSP 464: Tri-Service Accommodation Regulations.**

(6) **JSP 750: Centrally Determined Terms of Service.**

(7) **JSP 751: Joint Casualty and Compassionate Policy and Procedures.**

(8) **JSP 752: Tri-Service Regulations for Expenses and Allowances.**

(9) **JSP 754: Tri-Service Regulations for Pay.**

(10) **JSP 755: Centre-Determined Policy for Career Management and the Admin of Tri-Service Positions and Assignments** (includes a lexicon of personnel terms).

(11) **JSP 757: Tri-Service Appraisal Reporting Instructions.**

(12) **JSP 760: Tri-Service Regulations for Leave and Other Types of Absence.**

(13) **JSP 761: Honours and Awards in the Armed Forces.**

(14) **JSP 830: Manual of Service Law.**

(15) **JSP 831: Redress of Individual Grievances: Service Complaints.**

(16) **JSP 835: Alcohol and Substance Misuse and Testing.**

(17) **JSP 887: Diversity, Inclusion and Social Conduct.**

(18) **JSP 950: Medical Policy.**

CHANGE PROPOSALS/FEEDBACK

1. Change Proposals. Change proposals are to be forwarded using the form available from the button at the bottom of NWP's Publications' Portal.

2. Every publication has a Desk Officer (DO) who sponsors the publication. As such, the DO 'owns' the publication and is accountable for its accuracy and content. NWP will forward all proposals for change to the DO. For this publication, each chapter has a Subject Matter Expert (SME) Sponsor. Any proposals sent directly to the DO will be forwarded to the relevant SME Sponsor for approval (if not already approved) before inclusion.

3. Feedback. Submit feedback about NWP's services using the 'Feedback' button at the bottom of NWP's Publications' Portal.

CONTENTS

PRELIMINARY PAGES

PART 1 - PEOPLE MANAGEMENT ORGANISATION AND STRATEGY

Chapter 1 People Management Organisation and Strategy

PART 2 - ESTABLISHMENT ADMINISTRATION

Chapter 2 Establishment Administration

PART 3 - PERSONNEL PLANNING AND COSTING

Chapter 3 Personnel Planning and Costing

PART 4 - RECRUITING

Chapter 4 Introduction and Overview
Chapter 5 Careers Counselling
Chapter 6 Service Constraints
Chapter 7 Eligibility and Entry Standards
Chapter 8 Testing Processes
Chapter 9 Ratings and Other Ranks Selection Processes
Chapter 10 Officer Selection Processes
Chapter 11 RFA Recruiting Processes
Chapter 12 Re-Entering the Royal Navy
Chapter 13 Transferring Into the Royal Navy
Chapter 14 Entering the Royal Navy
Chapter 15 Recruiting Glossary
Chapter 16 Royal Marines Reserve (RMR) to General Service (RMGS) Transfers
Chapter 17 *Spare*
Chapter 18 *Spare*

PART 5 - LIFE MANAGEMENT

Chapter 19 Supporting Commonwealth and Non-UK Naval Personnel
Chapter 20 Discipline Policy and Processes
Chapter 21 The Divisional and Regimental System
Chapter 22 Personnel Functional Standards
Chapter 23 Service Complaints
Chapter 24 Welfare
Chapter 25 *Spare*
Chapter 26 Leave, Absence and Separated Service
Chapter 27 Pay and Allowances, Pensions and Terminal Benefits
Chapter 28 Medical and Dental Care
Chapter 29 Physical Development
Chapter 30 Diversity and Inclusion
Chapter 31 Religion and Belief
Chapter 32 Service Funds, Charities and Associated Organisations

Chapter 33 Royal Navy Recovery Pathway (RNRP) Policy
Chapter 34 The Management of Operational Stress for Members of the Royal Navy and Royal Fleet Auxiliary
Chapter 35 Maternity, Paternity and Adoption - Management and Care of Personnel
Chapter 36 Flexible Working and Flexible Service

PART 6 - UNIFORM REGULATIONS

Chapter 37 Uniform - Introduction and Organisation
Chapter 38 Policy and Appearance
Chapter 39 Royal Navy Officers and Ratings
Chapter 40 Royal Marines Officers and Other Ranks
Chapter 41 Royal Fleet Auxiliary Officers, Ratings and STO(N) Personnel Serving in RFAs
Chapter 42 Civilian Personnel Embarked in Maritime Units Afloat
Chapter 43 Joint Service Dress Tables
Chapter 44 Orders and Decorations, Medals and Medal Ribbons
Chapter 45 Maritime Reserves Uniform Regulations
Chapter 46 Royal Corps of Naval Constructors
Chapter 47 Dry Cleaning and Laundry

PART 7 - CAREER STRUCTURES

Chapter 48 Entry and Re-Entry to the Royal Navy
Chapter 49 Commission Transfers and Continuance in Service
Chapter 50 Promotion to Officer by Ratings and Other Ranks
Chapter 51 Branch and Specialisation Transfers
Chapter 52 ‘Transfers’ from the Royal Navy to Another Service
Chapter 53 Return of Service
Chapter 54 Leaving the Service
Chapter 55 Holistic Transition, Leave Well & Veterans
Chapter 56 Ratings Policy - Loans to and from Commonwealth Navies
Chapter 57 Appraisal and Warnings
Chapter 58 Management of Career
Chapter 59 Assignment Principles
Chapter 60 Specific Types of Assignment
Chapter 61 Assignment Process
Chapter 62 Professions and Specialisations Management and Structures
Chapter 63 Security Vetting Policy
Chapter 64 *Spare*

PART 8 - PROMOTION

Chapter 65 Promotion Policy - General
Chapter 66 Officer Promotions
Chapter 67 Ratings Policy - Selective Promotion
Chapter 68 Ratings Policy - Non-Selective Promotion (Advancement)
Chapter 69 Ratings Policy - General Promotion Issues
Chapter 70 Ratings Policy - Re-Promotion After Disrating and Reversion
Chapter 71 Royal Navy Executive Specialisation

Chapter 72 *Spare*
Chapter 73 Engineering Submarine Accelerated Schemes
Chapter 74 Engineering Profession - Marine Engineering
Chapter 75 Engineering Profession - Weapon Engineering General Service (WEGS) and Weapon Engineering Submarine Service (WESM)
Chapter 76 Engineering Profession - Air Engineer Specialisation - Air Engineering and Survival Equipment Technicians
Chapter 77 Warfare Profession
Chapter 78 Warfare Profession - Diver
Chapter 79 Warfare Profession - Submarine Service
Chapter 80 Logistics and Personnel Profession - Royal Navy Police
Chapter 81 Warfare Profession - Fleet Air Arm
Chapter 82 Logistics and Personnel Profession - Physical Training Instructor
Chapter 83 Warfare Profession - Coxswain (Submarine)
Chapter 84 Warfare Profession - Cryptologic Technician
Chapter 85 Logistics and Personnel Profession – Writer, Supply Chain and Catering Services
Chapter 86 Logistics and Personnel Profession – Royal Navy Welfare
Chapter 87 Medical Profession - Medical Assistant and Medical Technician
Chapter 88 Medical Profession - Dental Nurse
Chapter 89 Medical Profession - Queen Alexandra's Royal Naval Nursing Service
Chapter 90 Royal Navy Special Forces Profession
Chapter 91 Royal Marines Other Ranks Promotion
Chapter 92 Warfare Profession - Photographer
Chapter 93 Warfare Profession - Fast Track Scheme
Chapter 94 Warfare Profession – Intelligence Specialisation

PART 9 - INDIVIDUAL TRAINING, LEARNING, DEVELOPMENT AND RESETTLEMENT POLICY

Chapter 95 Individual Training
Chapter 96 Learning, Development and Resettlement
Chapter 97 Royal Marine Professional Military Education (PME)
Chapter 98 *Spare*
Through to
Chapter 100 *Spare*

PART 10 - MARITIME RESERVES

Chapter 101 Maritime Reserves
Chapter 102 Full Time Reserve Service - Terms and Conditions of Service
Chapter 103 Additional Duties Commitments (Part-Time Reserve Service) – Terms and Conditions of Service
Chapter 104 Call-out of RN Reserve Forces (Maritime Reserves and Royal Fleet Reserves)
Chapter 105 Reserves Engineer Branch – Direct, Ex-Regular and Maritime Cadets' Entrants (Reserves) - Marine And Weapon Engineers Only
Chapter 106 *Spare*
Through to
Chapter 150 *Spare*

PART 11 - UNIVERSITY ROYAL NAVAL UNITS AND CADET FORCES

Chapter 151 University Royal Naval Units
Chapter 152 Royal Naval Cadet Forces

EQUIVALENT SERVICE RANKS AND GRADES

NATO CODE	ROYAL NAVY inc QARNNS[1]	ROYAL MARINES	ARMY	ROYAL AIR FORCE	CIVILIAN STAFF
OF 10[2]	Admiral of the Fleet	-	Field Marshal	Marshal of the Royal Air Force	PUS 2nd PUS
OF 9	Admiral	General	General	Air Chief Marshal	
OF 8	Vice Admiral	Lieutenant General	Lieutenant General	Air Marshal	SCS Pay Band 3
OF 7	Rear Admiral	Major General	Major General	Air Vice-Marshal	SCS Pay Band 2
OF 6	Commodore	Brigadier	Brigadier	Air Commodore	SCS Pay Band 1
-	-	-	-	-	Band B1
OF 5	Captain	Colonel	Colonel	Group Captain	Band B2
OF 4	Commander	Lieutenant Colonel	Lieutenant Colonel	Wing Commander	Band C1
OF 3	Lieutenant Commander	Major	Major	Squadron Leader	Band C2
OF 2	Lieutenant	Captain	Captain	Flight Lieutenant	Band D
OF 1	Sub Lieutenant Midshipman (both junior to Army & RAF equivalents)	Lieutenant	Lieutenant Second Lieutenant	Flying Officer Pilot Officer Acting Pilot Officer (junior to Army equivalent)	-
OR9	Warrant Officer, Class 1	Warrant Officer, Class 1	Warrant Officer, Class 1	Warrant Officer Master Aircrew	
OR 8	Warrant Officer, Class 2	Warrant Officer, Class 2	Warrant Officer, Class 2	-	
OR 7	Chief Petty Officer Master at Arms	Colour Sergeant	Staff Corporal Staff Sergeant	Flight Sergeant Chief Technician	
OR 5/6	Petty Officer	Sergeant	Sergeant Corporal of Horse	Sergeant	E1
OR 4	Leading Hand	Corporal	Corporal Bombardier	Corporal	
OR 3	-	Lance Corporal	Lance Corporal Lance Bombardier	Lance Corporal (RAF Regt only)	
OR 2	Able Rate 1 Able Rate 2	Marine	Private Class 1-3 however described, e.g. Driver, Trooper, Ranger, Sapper	Air Specialist (Class 2)/Air Specialist (Class 1)/Air Specialist (Class 1) Technician Air Recruit	
OR 1		-	Private Class 4	-	

Chaplain equivalents are shown in the similar table in JSP 752 Para 02.0141.

1 In the performance of their duties in wards etc., nursing personnel are to use professional titles eg. Nurse, Sister (Charge Nurse in respect of male nurses), Senior Sister, Matron, etc.
2 Promotion to Admiral of the Fleet, Field Marshal and Marshal of the Royal Air Force is held in abeyance in peacetime.

LIST OF ABBREVIATIONS

For a list of acronyms for Naval Branches and Specialisations, see Annex 1A. For a Glossary of terms and abbreviations used in Naval Recruiting, see Chapter 16. A Relative Rates Table, which gives acronyms and full titles of all Ranks and Rates in each Specialisation, is at Annex 65A.

A

AAO	Accused's Assisting Officer
ACAS	Assistant Chief of the Air Staff
ACGS	Assistant Chief of the General Staff
ACLO	Area Careers Liaison Officer
ACNS	Assistant Chief of Naval Staff
ACOS	Assistant Chief of Staff
ACOS(RP)	ACOS (Resources and Plans)
ACSC	Advanced Command and Staff Course
ADC	Additional Duties Commitment (a form of part-time Reserve Service)
AFA	Armed Forces Act
AFCEI	Armed Forces Careers Enquiry Interview
AFCO	Armed Forces Careers Office
AFCO ME	AFCO Medical Examiner
AFPRB	Armed Forces Pay Review Body
AFPS	Armed Forces Pension Scheme
AG	Adjutant General (Army PPO)
AHR	Acting Higher Rank/Rate
AIB	Admiralty Interview Board
AinU	Articles in Use
AIP	Accelerated Incremental Progression
AMP	Air Member for Personnel (RAF PPO)
AMS	Acquisition Management System
AP	Accounting Period
ARC	Area Redeployment Centre
AT	Adventurous Training
ATL	Above the Line
AUN	Authorised Numbers

DSP	Defence Strategic Plan
Dstl	Defence Science and Technology Laboratories
DS(N)	Defence Statistics (Navy)
DTE	Defence Training Establishments
DTR	Defence Training Review
DTUS	Defence Technical Undergraduate Scheme
DSUS	Defence STEM Undergraduate Scheme
DV	Developed Vetting
DVA	Defence Vetting Agency

E

E	Engineering
EA	Executive Assistant or Establishment Administrator
EAF	Establishment Amendment Form
EC	Extended Career
ECC	Equipment Capability Customer
EFQM	European Foundation for Quality Management
EMF	Embarked Military Force
EN	Employer Notification
EOS	Extension of Service
ERC	Education and Resettlement Centre
ERO	Education and Resettlement Officer
ES	Engagement Stage (followed by 1, 2 or 3)
ET	Early Termination (of Service)
EWO	Establishment or Executive Warrant Officer

F

FAA	Fleet Air Arm
FATs	Flying Aptitude Tests
FBNW	(Fitted) For But Not With

FC	Full Career
FCS	Full Commission Stage
FD(N)	Finance Director (Navy)
FE	Functional Employer
FEMO	Final Examining Medical Officer (recruitment)
FLC	Front Line Commander
FMC	Finance and Military Capability (Fin Mil Cap)
FN	Future Navy
FNV	Future Navy Vision
FNOC	Future Navy Operating Concept
FOC	Full Operating Capability/First of Class
FOO	Forecast of Outturn
FOST	Fleet Operational Standards and Training
FRI	Financial Retention Incentive
FS	Family Services
FSC	Future Surface Combatant
FSD/A	First Sea Draft/Assignment
FSL	Foreign Service Leave
FTR	Fit to Receive
FTRS(FC/LC/HC)	Full Time Reserve Service (Full/Limited/Home Commitment)

G

GB	General Billet
GCB	Good Conduct Badge
GCHQ	Government Communications Headquarters
GS	General Service
GSP	Geographic Squad Pooling
GTS	Gains to Trained Strength

H

HA	Higher Authority
HMS	His Majesty's Ship
HOD	Head of Department/Division
HR	Human Resources
HRR	High Readiness Reserve

I

IBD	Incremental Basic Date
ICR	Initial Career Reporting
ICS	Initial Commission Stage
ICSC	Initial Command and Staff Course
IDPA	Interim Defence Planning Assumptions
IG	Initial Gate (in Project Management)
ILC	Interactive Learning Centre
INM	Institute of Naval Medicine
INT	Initial Naval Training
IPT	Integrated Project Team
IOC	Initial Operating Capability

IS	Information System
ISD	In Service Date
IT	Information Technology
ITEA/P	Integrated Test, Evaluation and Acceptance/Plan
ITP	Initial Training Pipeline
IY	In-Year

J

JFAG	Joint Force Air Group
JMES	Joint Medical Employment Standard
JOFB	Junior Officers' Fleet Board
JPA	Joint Personnel Administration
JR	Junior Rate/Rating (Royal Navy)
JSP	Joint Service Publication
JSU	Joint Support Unit

K

KPI	Key Performance Indicator
KRRN	King's Regulations for the Royal Navy (BRd 2) (to be issued)
KUR	Key User Requirement

L

L	Logistics
LANTERN	Literacy and Numeracy Testing and Education in the Royal Navy
LFS	Local Foreign Service
LoD	Line of Development
LOS	Length of Service
LOV	List of Values
LPD	Landing Platform Dock
LS	Liability Substitution
LSSA	Longer Separated Service Allowance
LSSB	Long Service at Sea Bonus

M

MA	Margin Area/Military Assistant
MAA	Minor Administrative Action
MC of OC	Moral Component of Operation Capability
MCMV	Mine Countermeasures Vessel
MDG(N)	Medical Director General (Navy)
ME	Marine Engineering
MFD	Medically Fully Deployable
MG	Management Group/Main Gate (in Acquisition)
MO	Medical Officer
MoD	Ministry of Defence
MPAR	Mid-Period Appraisal Review
MSFT	Multi-Stage Fitness Test
MSL	Manual of Service Law (JSP 830)
MTA	Minimum Time Ashore (obsolete)

MTS	Minimum Time to Serve
MUSA	Married Unaccompanied Service Allowance
MWV	Minor War Vessel

N

NA	Naval Assistant
NAMET	Naval Mathematics and English Test (obsolescent)
NAVB	Navy Board
NavSec	Naval Secretary (see Dir P&T)
NBC	Naval Base Commander
NBPCP	Navy Board Personnel Change Programme
NCXT	Navy Command Executive Team
NETE	New Entry Training Establishment
NETS	Naval Education Training and Skills
NFGP	Naval Force Generation Plan
NGO	Non-Governmental Organisation
NGT	Naval General Training
NMC	Nursing Midwifery Council
NO	Nursing Officer
NOK	Next of Kin
NPGO	Navy Publications and Graphics Organisation
NPP	Navy Performance Plan
NPS	Naval Personnel Strategy
NPT	Naval Personnel Team
NRC	Naval Regional Commanders
NS	Naval Service

WLC	Whole Life Costs
WMO	Waterfront Manning Office (obsolete, see CMC)
WSB	Watch and Station Bill
WTC	Waterfront Training Centre

GLOSSARY OF TERMS

(See also the Tri-Service Common Workforce Lexicon in JSP 755)

TERM	DEFINITION
Acting Higher Rank/Rate	A rank that is higher than a Service Person's substantive Rank and is awarded for a temporary period. Paid at the Acting Rank/Rate. In RM referred to as Acting Rank.
Arm	A top-level breakdown of a Service on functional grounds.
Assignment	A former, current or future allocation of a Service Person to a given Position.
Augmentation	Augmentation is the temporary re-distribution of individuals (regular, reserve or civilian) to wherever they are needed to meet directed operational Military Tasks and Events that cannot be achieved within peacetime establishments.
Branch	A professional functional sub-division which can be further divided into specialisations.
Competition Position	A Position which is filled by competition across and/or outside the Services.
Donor Position	A pre-determined and flagged Position which does not itself have a Crisis or Exercise function and that is filled by a Service Person who may be required for (later) Augmentation duties.
Dual Assignment	A Position which does not have a Crisis or Exercise function which is annotated to provide its incumbent to fill a specific Position, in another Unit, which has a Crisis or Exercise role only.
End Dated Position	A Position which counts towards Liability and which has a defined end date.
Enduring Position	A Position which counts towards Liability and which has no end date.
Establishment	An authorised account of the numbers and details of Positions in an Organisation.
Establishment Administration	The term used to describe the maintenance of Establishment documentation.
Hierarchy	An arrangement of Units, Organisations and/or Positions for command and administrative purposes.
JOB	A JPA term comprising three elements: Service/Domain/Detail, which is applied to every Position as a generic descriptor to assist Workforce Authorities in Assigning personnel appropriately.
Junior Rank/Rate/Rating	A Service Person having a Rank up to NATO Rank OR4.
Liability	Liability refers to the requirement for specified types of trained military personnel. A baseline 'Service Liability' is agreed for each of the Services against which Workforce Balance and the Public Sector Agreement is measured. These Service Liability totals are adjusted through the Departmental Planning process and endorsed by the Defence Board.
Local Foreign Service	Positions in an overseas Organisation that is not classified as SEA.
Local Rank/Rate	An unpaid rank that is different to a Service Person's substantive Rank and is awarded for a temporary period. Paid at the substantive Rank/Rate, unless also holding Acting Higher Rank/Rate.

(Continued)

GLOSSARY OF TERMS (*Continued*)

TERM	DEFINITION
Maritime Reserves	See Volunteer Reserve Forces.
Officer	A Service Person holding a Royal Commission.
Organisation	A discrete Service group of any size and at any level.
Other Rank	A Service Person having a Rank up to NATO Rank OR9.
Phase 1 Training	All new entry training to provide basic military skills.
Phase 2 Training	Initial individual specialisation, sub-specialisation and technical training following Phase 1 Training prior to joining the Trained Strength.
Phase 3 Training	A period of individual training undertaken at any stage in a Serviceperson's career after GTS.
Planned Augmentation	Planned Augmentation reflects a known requirement for augmentees during times of crisis. It is reflected in Joint HQ augmentation manning lists and as "M Role" Positions in an Establishment for a Naval Unit.
Position	Position is an authorised personnel element of an Organisation to which one or more individuals may be Assigned.
Regular Reserve Forces	The Royal Fleet Reserve, Army Reserve and Royal Air Force Reserve. It is primarily (but not exclusively) comprised of ex-regular personnel who carry a reserve Liability.
Rotational Position	A Position filled in turn by more than one Service in a pre-determined cycle. Such Positions can include foreign service personnel.
Royal Navy	Royal Navy (including QARNNS, Chaplains, Welfare Service), Royal Marines, Royal Fleet Reserve, Royal Naval Reserve, Royal Marines Reserve, and Royal Naval Careers Service.
Senior Rank/Rate/Rating	A Service Person having a NATO Rank of OR5 or above, up to OR7.
Service Person	A member of the UK Armed Forces. Includes the Royal Navy, Army and RAF.
SEA Organisation	Positions in these Organisations meet specific criteria associated with an expectation of a high degree of separated service (BRd 3(1) Chapter 2 refers).
SHORE Organisation	Positions in these Organisations do not meet the SEA or Local Foreign Service criteria.
Specialisation	A professional sub-division of Branch likely to reflect a particular field of expertise. Specialisations can be further divided into Sub-specialisations.
Status	Status is the operational stance in which an Organisation or Unit is operating.
Strength	The number of personnel in an Organisation. It may be further sub-divided by a number of groupings e.g. Service, Arm, Branch, Specialisation, sub-Specialisation, or rank.
Sub-Specialisation	A division of Specialisation on professional grounds. This is the lowest recognised level within the tri-Service structure.
Temporary Position	A Position that is created for a specific purpose and for a specific, finite period of time and does not count towards Liability.

(Continued)

GLOSSARY OF TERMS (*Continued*)

TERM	DEFINITION
Trained Strength	The number Service Personnel who have completed Phase 2 Training having reached Training Performance Standard (TPS).
Unit	A collection of Positions and/or Organisations grouped together for a particular purpose. It may contain several sub-units.
Untrained Strength	Number of serving military personnel who have yet to complete Phase 2 training.
Volunteer Reserve Forces	The Royal Naval Reserve, Royal Marines Reserve, Territorial Army and Royal Auxiliary Air Force. They are volunteers who are required to train and are legally liable to be mobilised. Members may be ex-regulars. Naval volunteer Reserve Forces are also known as Maritime Reserves.
Warrant Officer	A Service Person holding a Royal Warrant and equivalent to NATO Rank OR8 or OR9.
Warrant Officer 1	A Service Person having NATO Rank OR9. Also referred to as Warrant Officer Class 1 or Warrant Officer 1st Class.
Warrant Officer 2	A Service Person having NATO Rank OR8. Also referred to as Warrant Officer Class 2 or Warrant Officer 2nd Class.

JULY 2024 VERSION 5

EFFECTIVE JULY 2025

SUMMARY OF CHANGES

1. BRd 3(1) July 2024 Version 5 supersedes BRd 3(1) July 2024 Version 4.

2. This Version is effective on publication and any copies held of the previous version are to be deleted/destroyed iaw local guidance.

3. A significant number of Chapters and/or Annexes have been updated with minor policy amendments, corrected contact details, typographic errors and inclusivity language and/or formatting. **Some contain more substantial updates to policy.** Policy updates and/or amendments are made visible by the use of sidelining where changes have been made to a line of text or paragraph. Sidelining is not used for deletions.

4. The following RNTMs have been incorporated or reflected in the publication:

a. 05-035/23 – Medical Emergency Relief Pool
b. 01-082/24 – Changes to Pre-Selection Eligibility Criteria for Promotion
c. 01-111/24 – Weapon Engineering General Service Maritime College Cadetship
d. 01-125/24 – Removal of Requirement for Professional Examinations for Engineer (General Service) Ratings
e. 01-004/25 – Marine Engineer General Service Maritime College Cadetship
f. 01-014/25 – Royal Navy Pre-Joining Medical Employability Board Referrals and Terms of Reference
g. 01-046/25 – Entry into RNR Training Branch (Acting Leading Hand) Scheme
h. 01-048/25 – GS(X) Intelligence Specialisation Military Command Selection Process
i. 01-050/25 – Introduction of Acting Higher Rank for WO1 and WO2
j. 01-051/25 – Changes to the Aircraft Controller Branch training pipeline and promotional requirements
k. 01-063/25 – Update to BRd 3(1) – Reserve Liability
l. 07-008/25 – Engineering General Service – Ratings Training Pipelines
m. 07-009/25 – Revised Application Process for Defence Diversity and Inclusion Advisor and Practitioner Course for RN Personnel

5. The User is responsible for ensuring that they check content relevant to them to ensure that their knowledge remains current.

CHAPTER 1

PEOPLE MANAGEMENT ORGANISATION AND STRATEGY

(Sponsor: NAVY PEOPLE-HQ DCOS)

The P&T Organisational Design work is ongoing, an update to this chapter will be published in the next update to BRd 3(1). Further information is contained in HQ P&T Directive 07-2022[1], including the full P&T Operating Model[2]. Similarly, the People and Training Strategy 2020 is being refreshed, but remains available[3]. In the meantime, any significant changes to governance will be issued via P&T Directives. Any enquiries about the Service's Personnel Management and Organisation Strategy should be directed to the P&T Chief of Staff (NAVY PEOPLE-HQ COS) or Deputy Chief of Staff (NAVY PEOPLE-HQ DCOS).

0201. Introduction

The purpose of this Chapter of BRd 3(1) - Establishment Administration - is to give guidance and direction for maintaining and making changes to JPA Establishments (Ship, Unit, or other Organisation) containing Royal Navy workforce requirement elements.

Note. *For simplicity a ship, unit or other organisation will hereafter be referred to as a (JPA) Unit.*

0202. Governance

a. **Authority.**

(1) Establishments within the Ministry of Defence are authorised by the Permanent Under Secretary (PUS) who has delegated some complementing powers and responsibilities to the Principal Personnel Officers (PPOs) of the single Services. The Navy Command Workforce Change Management (WCM) team (previously known as the Establishments Team), under 2SL as the PPO, has responsibility for maintaining and implementing endorsed changes to all Royal Navy positions within the JPA Establishment. Delegation by the PPO allows WCM to create positions up to and including OF5 (Capt RN / Col RM).

(2) The policy and procedures here apply to Royal Navy positions within Navy Command and TLBs that employ RN personnel. Army and RAF positions in Royal Navy organisations are administered by the owning Service, not by the WCM team.

(3) Navy Command operates a delegated model. Therefore, some elements of this chapter are in RNTM 01-039/23. Each directorate has a Whole Force Management Group (WFMG) that can aid any Establishment amends.

b. **Organisation.**

(1) **Senior Posts.** The PPO organisation is at Chapter 1.

(2) **Strategic Personnel Planning.** The responsibility for strategic personnel planning for the Royal Navy resides in the Workforce Planning and Talent (WFP&T) area of the People and Training Directorate (Dir P&T). In conjunction with Fin Mil Cap (FMC), sustainable plans are made to ensure that the right quantities and types of Royal Navy personnel are available to meet the authorised demand (Workforce Requirement, previously known as Liability). This long-term planning is covered in detail in Chapter 3.

(3) **Augmentation Crisis Personnel Planning.** People Ops Aug is the Dir P&T empowered authority for dealing with all Royal Navy augmentation requirements. Some of the augmentation demands for Royal Navy personnel will be authorised through the Defence Single Tasking Authority (DSTA) and are known as Above the Line (ATL) augmentation. Internal augmentation to the Royal Navy as part of the single Service force generation process are known as Below the Line (BTL) augmentation. Crisis Augmentation and Donor Positions are explained further below and in Chapter 59.

(4) **Branch Managers (BM).** Information on Branch Management is in Chapter 62. BMs take a medium to long-term view to manage each branch. They aim to enable the branch to remain sustainable, both to ensure that personnel can be grown to meet demand and to ensure that individuals within the branch have a coherent career structure. The BM (in liaison with Career and Talent Managers) has input to the acceptability (or not) of proposed changes to Establishments.

(5) **Career and Talent Managers (CTM).** Information on Career and Talent Management is at Chapters 58 to 61. The roles of the CTM include assigning personnel to meet current customer demand (as reflected in a unit's Establishment), as well as managing everyone's career.

(6) **Navy Command Workforce Change Management (WCM) Team.** The WCM Team (previously known as the Establishments Team) makes all authorised changes to Royal Navy positions (with the exception that PJHQ is authorised to make changes to ATL non-workforce requirement-driving augmentation positions) and processes all customer change requests that seek changes to the Establishment. It also deals with the Civil Service as a Whole Force team.

(7) **Military People Partners (MPP).** Each NC 2* WFMG will have a Military People Partner (MPP) to provide advice and guidance on military workforce change. They are there to assist sponsors in implementing strategic and tactical in year change and provide mitigation to structure and people delivery. Sponsors of all military change should seek these out at earliest opportunity on any proposed or planned change.

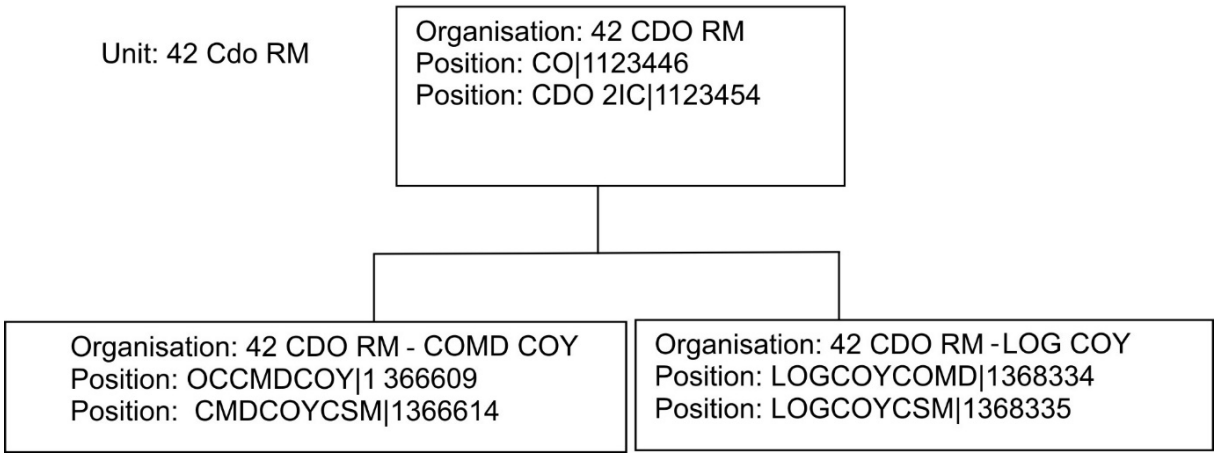
(8) **Unit Establishment Administrator (UEA).** The UEA has a key role in managing the position hierarchies for a unit. This role is explained further in Para 0203.d, JPA Organisations – Hierarchies and Workflows. Each 2* Directorate at a minimum will have a UEA, but most geographical establishments will also have a UEA.

(9) **Whole Force Management Groups (WFMG).** Each 2* directorate has a Whole Force Management Group (WFMG). The Whole Force Management Group construct is designed to facilitate; the delivery of Whole Force change, particularly where change demands cannot be dealt with at unit level, support their Directorate in making informed strategic decisions in support of their workforce priorities and requirements, and support the delivery of Navy Command TLB objectives. WFMGs should be centrally involved in the 2* directorate Workforce Planning activity, screening any investments and disinvestments that include an annual workforce change coming from within the directorate before submission to Strat Plans. This is to be accomplished using the Annual Strategic Prioritisation and Balance of Investment round which feeds into the Annual Budget Cycle (ABC). The Business Manager is critical in this, overseeing these processes and supporting the sponsor in completing business cases and necessary documents to enact workforce change. They are to oversee and solve short-term internal workforce needs and develop longer term requirements. They will operate within allocated resources and, as part of future savings measures, choose Compensating Reductions (CR) when directed. If a sponsor wishes to make a Major Change (Para 0204.c), the WFMG should be made aware and kept informed. If a sponsor wishes to make an Establishment change without a CR, then they first need to raise this with their WFMG, which will assist them in finding an internal CR if the requirement is approved. This is explained in RNTM 05-029/24.

0203. JPA Establishments

a. **Composition of a JPA Establishment.** An Establishment is comprised of several Organisations and Positions on JPA, as illustrated below:

Figure 2-1. An Establishment Comprising of Organisations and Positions



Notes:

1. It is common for the command Organisation to have the same title as the overall Unit.

2. Each Organisation can have only one UIN, but more than one Organisation can share a common UIN.

3. The figure shows only a few of the Organisations and Positions that make up a Unit.

b. **JPA Positions.**

(1) **Entitlement.** JPA is the single authorised data source showing an entitlement to Royal Navy personnel and it is the Position data within JPA that shows each Unit's entitlement for personnel. For those positions that count towards Workforce Requirement (WR), the entitlement is continuous while the position remains valid (if a position counts towards WR then it is considered for recruiting, training, and promotion targets). Even though Defence has agreed a Whole Force Workforce Cost Envelope model, a baseline WR ceiling is agreed for each of the single Services against which Workforce Balance is measured (see Para 0302.d). For positions that do not count towards WR, the entitlement is active only for a specified purpose and period. It should be noted that, although there is an entitlement to specify personnel requirements, if there are any constraints on the supply of personnel then some posts will be gapped (common constraints are personnel being unavailable due to illness, being temporarily employed on an operational augmentation task or general personnel shortage in that branch or specialisation).

(2) **Enduring Position.** An Enduring Position is the standard position type. It represents a funded and enduring (permanent) demand for personnel of the type specified.

(3) **End Dated Position.** An End Dated Position represents an authorised demand for personnel until a specific date, when it eliminates (often with the WR and funding being utilised elsewhere). Any requests to extend this type of position will be treated as a request for a new position and will follow the change request rules. This rule applies as funding assumptions will not extend past the end date. Personnel Planners and Branch Managers will have planned on the basis of not having to provide personnel past the end date, with the WR and funding element likely to be planned and scored against a future role. Continuing to provide personnel to an end dated position could be at the expense of gapping an authorised position elsewhere.

(4) **Temporary Position.** A Temporary Position is created to meet a specific short-term high priority demand for personnel. It is created for a finite period between three months and one full assignment (usually 18-48 months). Temporary positions do not count towards WR and, consequently, do not drive recruiting and promotion targets. They can usually be filled only by gapping a WR driving post elsewhere. This is clearly undesirable, so therefore BM/CTM agreement via the formal carding process is required. The Temporary Position will then be created from either a Workforce Requirement Substitute or gapping another whole force position within its 2* WCE.

(5) **Rotational Position.** A Rotational Position is filled in turn by either two or all three Services with the Positions counting ½ towards Workforce Requirement in the bi-rotational case and $^{1}/_{3}$ where each Service is involved. Rotational Positions exist in Joint organisations, and they represent an authorised demand for Naval personnel for the rotation that the Royal Navy has agreed to fill the post. They can also exist in multinational organisations such as NATO and the rotation may be shared between more than one nation.

(6) **Competition Position.** A Competition Position does not belong to any Service and candidates 'compete' for selection. As with Rotational Positions, they predominantly exist in Joint organisations and follow the rotational rules for Workforce Requirement attribution. They represent an authorised demand for RN personnel for the period that the RN agrees to fill the post as part of the 'competition'.

(7) **Exchange Position.** There may be exchanges with other nations or Services. Exchange Positions are normally paired with one in each nation or Service, and only the 'exchange in' post from each pair counts towards Workforce Requirement.

(8) **Crisis Augmentation and Donor Positions.** Crisis Augmentation positions are activated only for a specific period and for a specific reason. Donor Positions are Enduring Positions that have been identified in advance as being suitable for providing personnel to fill the activated Crisis Positions. Some of these Donor Positions are designated as Dual Positions and in this case the incumbent is linked to a specific Crisis Position. As with all augmentation issues, People Ops (formerly ACMP/PCAP PLANS) staff has the lead. Mobilisation policy is covered in JSP 753 - Naval Force Generation, Augmentation and Crisis Management are expanded upon in Chapter 59.

(9) **Workforce and Resilience Training Margin (WRTM) and Untrained Strength (UTS) Pool Positions.** Within JPA there are many WRTM and UTS pool Positions that are used for assigning personnel who are temporarily unavailable for normal duties. For example, when an individual is medically downgraded, on a training course or on Post Operational Tour Leave. The PPO policy on WRTM and UTS Positions is to strike a balance between having sufficient to support customer business needs without Establishment administration becoming unwieldy. Therefore, the WCM Team will authorise the minimum necessary. Illustrative structures for margin activity organisations and positions are at Annex 2A.

It should be noted that MA10 Positions for Exercises [10A] or Events [10B] are created only as required for specific Exercises or Events. A more detailed explanation of WRTM Positions and how they are managed is at Part 3 Annex 3B. These are all within the Deputy PPO element of the delegated financial model and 2* Directorates are therefore not financially penalised for UTS/WRTM.

(10) **Compensating Reduction.** A Compensating Reduction (CR) is an enduring position that is offered for deletion to create a new enduring position within a TLB. The CR offered by the employing TLB, or agreed to be transferred from another TLB, will be deleted when the new position is created such that Workforce Requirement within the TLB remains in balance. CRs are to be offered at the same rank/rate and specialisation as that required for the new Position. The use of CRs of differing rank/rate and specialisation may be considered in exceptional circumstances if TLB funding and Branch structural sustainability allows via the normal carding process and early engagement via the appropriate MPP is recommended.

(11) **Workforce Requirement Substitution.** A Workforce Requirement Substitution (WRS) is an Enduring Position that is formally gapped within the employing TLB's Establishment, to create a Temporary Position of between three months and one full assignment. A WRS underpins the structural sustainability of the supplying branch and ensures Workforce Requirement within the TLB remains in balance. This has a key advantage in that it does not reset the clock on positional fill and is useful to pivot someone into a change of job specification to fulfil a higher priority task or project.

(12) **JPA Supplementary Positions.** With increases in Gains to Trained Strength (GTS), there is an enlarged requirement for additional non-workforce Requirement positions within seagoing units and air stations, solely for the purpose of pulling through SQEP. The introduction of SUPP positions is a direct replacement for the legacy Overborne Strength (OBS) and the policy detailed within Annex 2E will assist Branch Managers in delivering sustainable Branch structures. In addition, the policy clearly articulates the purpose of the SUPP position and provides CMs and unit staff with clear instructions to deliver the pull through of personnel.

c. **JPA Positions and Organisations.** JPA positions are tagged with the Position Category (sometimes referred to as the Role) in which they are to be filled. A position may have multiple categories. For a position to be active, it must have a category that matches the status of its parent Organisation and have a valid EIT status. For Shore Positions a blank EIT status should be treated as valid. The Organisation will only ever have one status active at any time (e.g. a ship under construction (crewed) will be in the 'Z' Role) and this will determine which of the positions within that Organisation require filling. Position Categories used by the Royal Navy are shown at Annex 2B.d.

d. **JPA Organisations - Hierarchies and Workflows.** When creating a JPA Organisation for the first time, or moving a JPA Organisation, the following JPA functions need to be set up:

(1) **Command and Administration Hierarchies.** The Command Hierarchy shows where a JPA Organisation features in the Chain of Command, whereas the Administration Hierarchy facilitates support functions for a Unit's personnel. The Command and Administration Hierarchies are set up by the Establishment Administrator. These Hierarchies are explained in more detail at Annex 2C.

(2) **Organisation Workflow Responsibilities.** Organisation Workflow Responsibilities are essential to the administrative functioning of an Organisation and should be set up by the UEA. Organisation workflows include those for the Unit Personnel Office (UPO), the medical facility, the UEA and the Commanding Officer. The latter workflow facilitates the organisation's appraisal process.

(3) **Position Hierarchy.** Position Hierarchy enables the movement of workflows between staff and their line managers for functions e.g. leave requests (Junior Rates only), job preferences and personal objectives (the latter two being critical parts of the appraisal process). The Position Hierarchy is set up solely by the UEA (although the Establishment Administrator can also do this), using data drawn from the Position Occupancy Report and Unit Position List for the organisation. Both these reports can be run by the UEA.

0204. Policy

a. The existence of a position in an Establishment is the Naval authority for the provision of personnel. Although employers have a major input in determining the demand for different types of personnel, these demands need to be reconciled with several factors which impinge on the overall structural sustainability of the Royal Navy. These factors include funding, structural impact, Workforce Requirement control, timing, and the need to meet the planned augmentation and force generation requirement. The PPO will apply the following tests before authorising an Establishment change.

b. **PPO Tests.** When considering changes to the Establishment, the PPO examines four key criteria prior to creating or making amendments to the JPA Establishment. All 2* WFMGs/sponsors should be aware that the four tests outlined below must be passed prior to the creation of temporary positions or changes to permanent Workforce Requirement positions within JPA. If the requirement is urgent then the process will be applied quickly and potentially at risk if the need is a 3* or 4* Urgent Operational task, but a failure either to obtain the necessary approval or apply the tests will result in rejection by the PPO and incur a delay:

(1) **Funding.** Demands for RN personnel must be supported financially. Additionally, when requests are made to increase the requirement for Royal Navy personnel, evidence of FINBP approved budgetary provision must be given.

(2) **Structural Impact.** The PPO must ensure that proposed Establishment changes do not place unmanageable stress on branch structures and that the affected specialisations remain controlled and sustainable. This is managed through the carding process where Branch Managers, in consultation with Career and Talent Managers, consider the following factors with regards to Structural Impact:

(a) **Sustainability.** A sustainable Branch will normally have a broad base at the junior level which narrows at each higher rank. An unsustainable branch does not allow the PPO to grow enough of the required personnel at each level and it will not offer an acceptable career for personnel within the branch.

(b) **Harmony.** One of the PPO Personnel Functional Standards (PFS) relates to maintaining individual harmony. Some organisations incur a large amount of separation from home while others do not:

i. **SEA Organisations.** Service in an organisation such as a ship or other front-line unit is recognised as incurring significant time on duty away from home. These organisations are classified in JPA as SEA.

ii. **SHORE Organisation.** Service in an organisation such as the Navy Command HQ or a training establishment is recognised as having a relatively stable work/life balance. These organisations are classified in JPA as SHORE.

iii. **Local Foreign Service (LFS).** Service in an organisation permanently based overseas is classified in JPA as either SEA or LFS. If it meets the SEA criteria it is marked as SEA and if it does not it is marked as LFS.

iv. **Assessment.** When assessing PFS, Branch Managers take account of the balance between SEA positions and the combination of SHORE and LFS positions.

(c) **Planned Augmentation.** Planned Augmentation reflects a known requirement for augmentees during a time of crisis. This requirement is reflected in augmentation manning lists and as ’M Role’ Positions in Establishments with Royal Naval personnel. The PPO has a remit to maintain sufficient Donor Positions to meet this crisis demand and any requests for change need to be considered against the Planned Augmentation situation. Augmentation issues affecting Establishment Administration are discussed in more detail at Annex 2D. Pers Ops can also mobilise people for Planned Augmentation for Ops and Exercises and can request Temporary Augmentation Positions for such a requirement.

(3) **Workforce Requirement Control.** Historically, MOD Head Office set the Workforce Requirement (WR) ceiling for the RN, which equated to the total number of workforce driving positions it could maintain; the Service was not authorised to increase this ceiling. However, MOD direction has effectively removed this ceiling and mandated TLBs remain within a structurally sustainable Workforce Cost Envelope (WCE). To control workforce costs, it is imperative that the Service remains within its allocated WCE, and that robust policies and processes are in place to protect the integrity of workforce structures and budgets whilst detailing the ways in which resource change can be submitted, screened, approved, and implemented. To stay within this agreed WCE, the PPO must be provided with a CR to offset the creation of new enduring posts or a WRS or agreement that this is affordable within its current underspend in WCE to stand up temporary posts. Further detail on the use of a CR or WRS is given at Annex 2E.

(4) **Timing.** CTMs have the right to apply a rule whereby an employer may have to wait up to 12 months to have a new JPA position filled or vacated. This ensures that short notice assignments do not cause excessive churn, disrupt unit plans or personal conditions of service. The Service may also need time to grow/reduce personnel within a specified category. To ensure that expectations for change are realistic, it is strongly advised that agreement is reached with the relevant CTM prior to a request for JPA action being submitted via normal engagement with MPPs. For larger changes (raised as an option or choice) an Implementation Order should be agreed by all stakeholders which clearly articulate People Delivery timelines

c. **Changes to Establishments.** This section outlines the general principles associated with requesting an Establishment change. Deleting a post is also an Establishment change that must be subject to the change request process and cannot be actioned without PPO approval. Supplementary information on the detailed Establishment amendment process is given at Annex 2E.

(1) **Minor Change.** Simple amendments that do not alter Workforce Requirement or funding do not require full staffing; a Navy Change Request (NCR) outlining the requested change will suffice. Examples in this category are changing a position name, organisation/location, competencies or supporting remarks.

(2) **Major Change.** All requests for major in-year change should follow the procedures and process currently laid down in RNTM 05-029/24 Navy Command Military Workforce Control Process.

(3) **Changes Agreed at Higher Defence Level.** Some personnel changes are agreed at a higher level in Defence (e.g. Defence Board) and are often associated with setting up or enhancing an existing Joint capability. These changes often involve a change in the authorised RN Workforce Requirement and to the centrally agreed funding for personnel. A modified version of the PPO tests is then applied, which is not detailed any further in this publication.

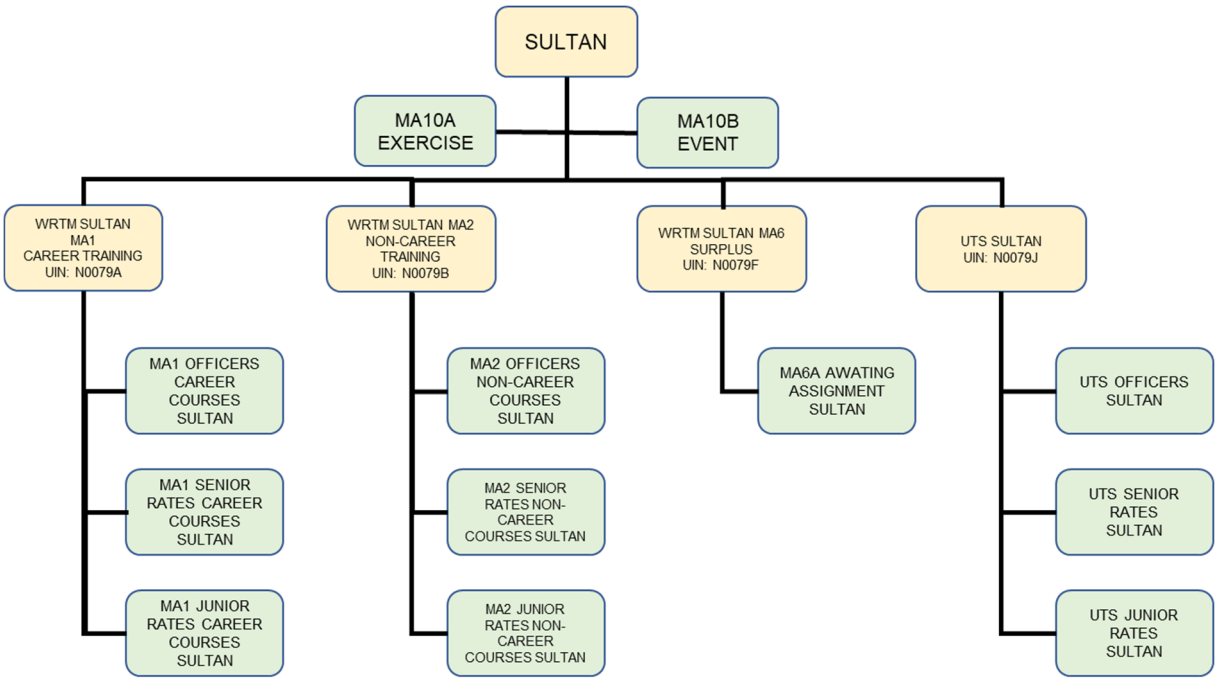
(4) **Transformational Change.** Defence or Navy Command will sometimes impose wholesale change across the Royal Navy portfolio; whilst this is achieved in consultation with Finance and WFP&T it is often forced on the current employer or Branch Manager and, as an exception, does not follow the four PPO tests. Whether the change being proposed is an organisational redesign or the transfer of organisations between 2* areas, all changes must be considered within the parameters of workforce delegation. TLBs/WFMGs must consider the end goal of the large-scale change and the impact this will have on both the Directorates ability to deliver outputs and the capability of the TLB/Navy Command. The sponsor is to draft an Implementation Order (IO) with the relevant stakeholder agreement. Further guidance can be found in RNTM 05-029/24 Navy Command Military Workforce Control Process.

d. **Ships and Submarines.** There are very specific procedures associated with the Establishment for ships and submarines in build. These procedures are explained in detail at Annex 2F. Any changes to current ship or submarine UPL must be agreed with the Dir FGEN or Dir SM Class lead before a Navy Change Request is raised as per RNTM 05-029/24 Navy Command Military Workforce Control Process. .

ANNEX 2A

ILLUSTRATIVE STRUCTURES FOR MARGIN ACTIVITY IN ORGANISATIONS AND POSITIONS

Figure 2A-1. Generic Example of Training Establishment WRTM and UTS Structure



Key to Illustrations:

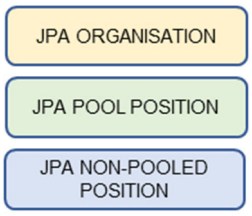


Figure 2A-2. Generic Example of Ship Establishment WRTM & UTS Structure

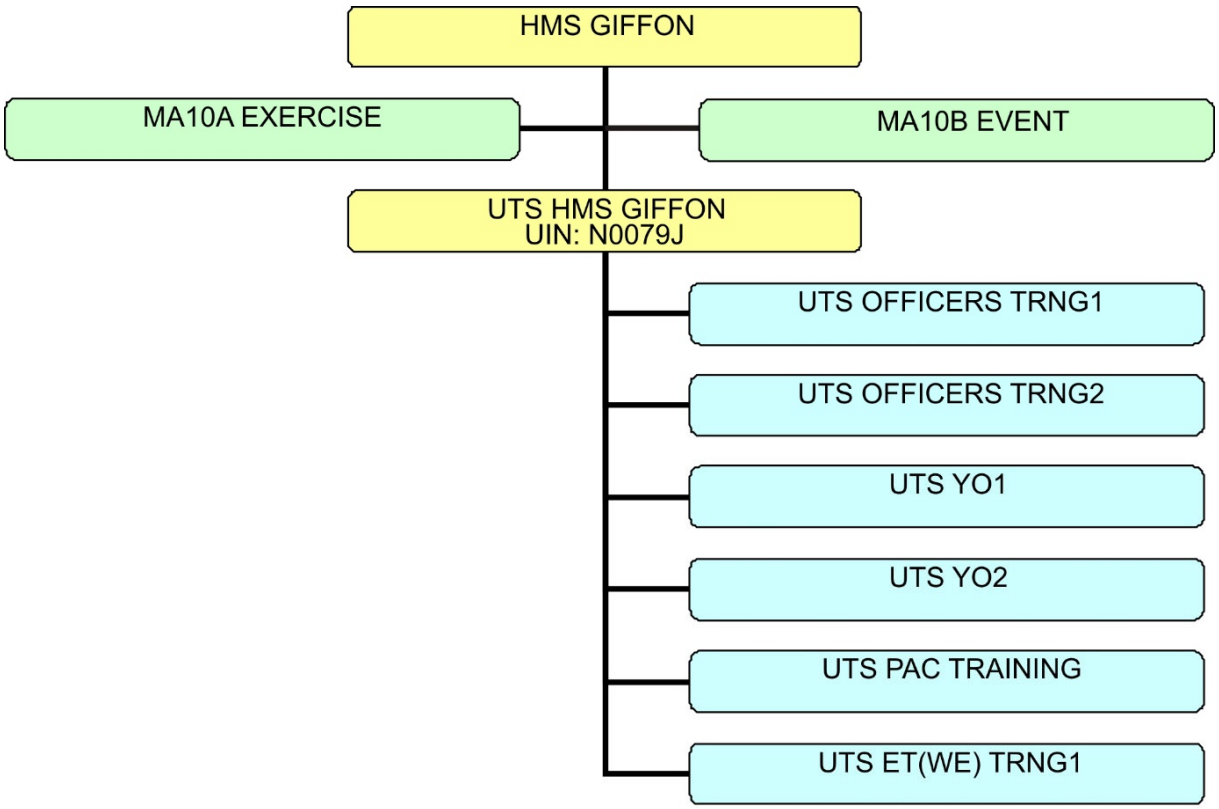
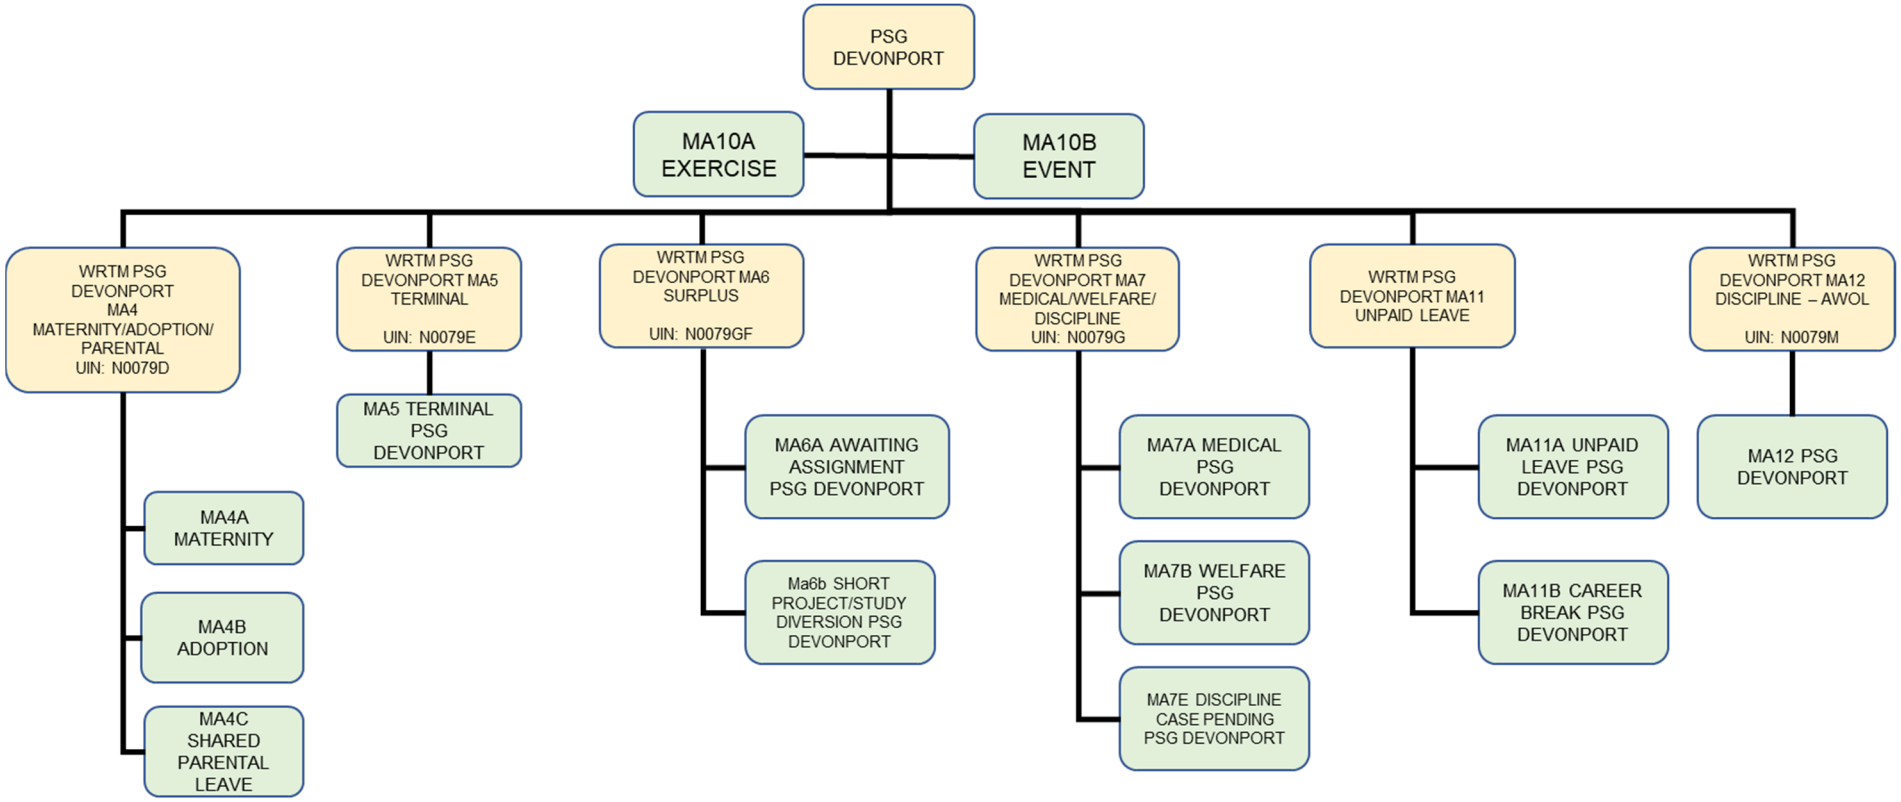


Note. *Unlike shore establishments UTS positions on ships/SMs are not pool positions.*

Figure 2A-3. Generic Example of Naval Base Establishment WRTM Structure



ANNEX 2B

POSITION CATEGORY AND ORGANISATION STATUS

1. Introduction

Within JPA, each Organisation will be allocated a Status according to its programme. Each position may have one or more Categories. The Organisation Status must match one of the Position Categories for the Position Status EIT to be valid.

a. Positions that are usually dormant but may be required in Crisis are designated as Planned Augmentation positions (M Category when inactive).

b. Ships' and submarines' Status will change according to their programme.

c. Front Line Air Squadron and Flight Establishments will operate totally within the B Status, irrespective of changes in numbers of airframes or of multiple crewing which would be enacted by Establishment changes.

d. RM units will use the same Status options as defined for Front Line Air and Shore Service units.

Table 2B-1. Naval Establishment Status and Position Categories

Category Status Meaning	SHIP	SM	Front Line RM / Air Units	SHORE Unit
Basic Establishment	B	B	B	P
Reduced Sea Going Crew (Adaptive Force)	A	A		
SM prepared for disposal	-	E	-	-
SSBN enhanced single crew	-	G	-	-
Reduced Harbour Crew (Ship preservation by operation, SM lay-up and preparation or Harbour Training Ship)	J	J	-	-
Planned Augmentation Position that may be activated during crisis	M	M	M	M
Non-Crewed ('Nil'). Including Refit / Overhaul for SHIP and SM	N	N	N	N
Operational (Crisis)	O	O	O	O
SM flood up and undock	-	Q	-	-
SM prepare overhaul	-	R	-	-
Upkeep	S	S	-	-
Under Construction (Crewed)	Z	Z	-	-

2. Updating Ship / Submarine Roles in JPA

a. **In Build.** The WCM Team will initially set the Organisation Status to N (Non-Crewed) and then subsequently to B (Basic) as advised by the NAVY PEOPLE-PEP PTP DEV ACQ Team.

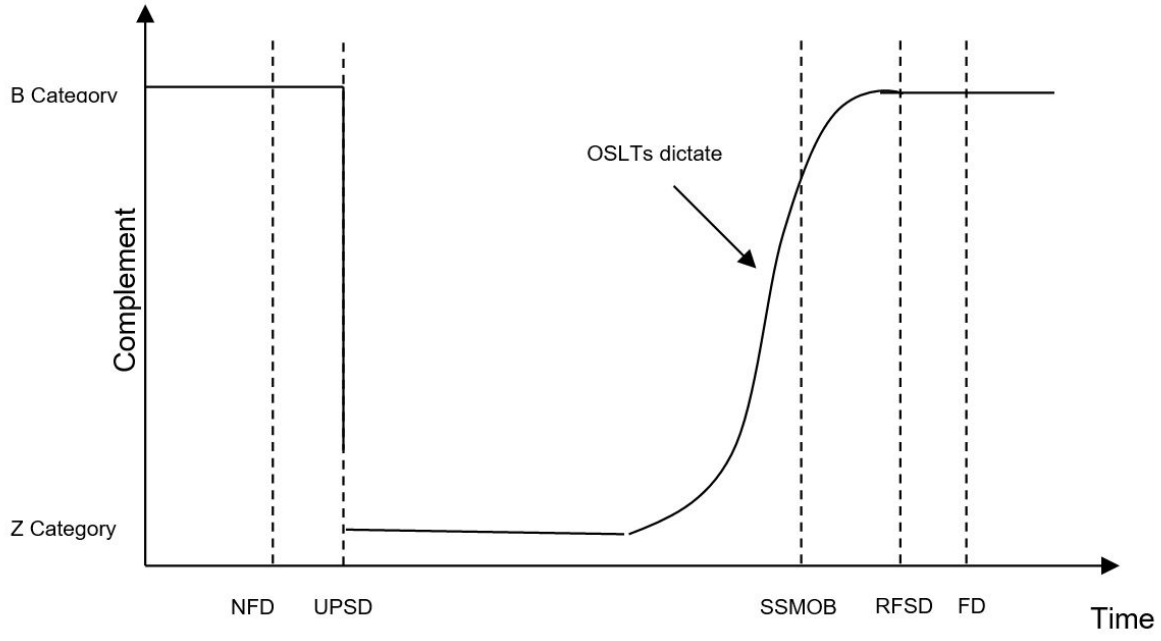
b. **In Upkeep**

(1) For ships/SMs approaching an Upkeep Period, the WCM Team will normally set the S Status to commence at the Upkeep Period Start Date (UPSD), and the B Status Date to re-commence at Fleet Date (as advised by the Complex Warship Support Programme (CWSP).

(2) Once the ship/SM's Upkeep Schedule is known, any required changes to On Stream Lead Times (OSLTs), in order to safely meet the prescribed SARC process and equipment STW prior to SSMOB date, should be forwarded by the Unit to Navy RP and the relevant CDT for approval before being actioned by the WCM Team on JPA.

c. A typical crew profile for a ship in refit is illustrated in the figure below:

Figure 2B-1. Typical Ship Upkeep Crew Profile



d. For ships approaching a docking period or Contractor Support Period (CSP), the WCM Team will normally maintain B Status throughout Non-Fleet Time or the CSP.

3. Final Non-Operational Date

The WCM Team will set the Organisational Status to N (Non-Crewed) on the Final Non-Operational Date as detailed in the RN Command Plan.

ANNEX 2C

JPA ORGANISATIONAL HIERARCHIES

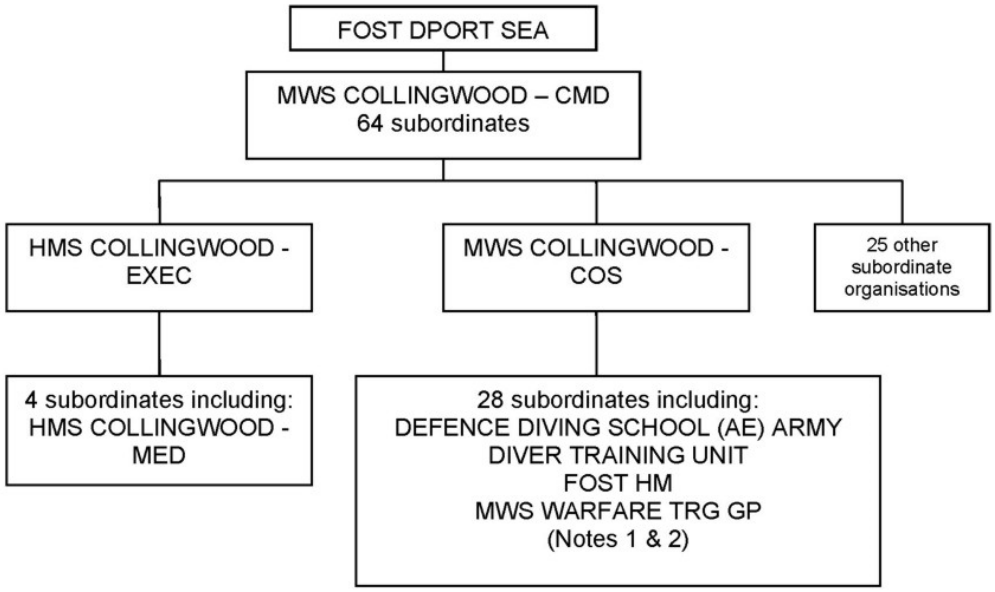
1. Introduction

Each JPA organisation has a Command Hierarchy and an Administration Hierarchy which needs to be set up by the WCM team when a JPA organisation is created. These Hierarchies, which are explained below, need to be agreed with the unit.

2. Command Hierarchy

The Command Hierarchy indicates where an organisation sits within the Chain of Command for a unit and the wider Royal Navy. The Unit Establishment Administrator (UEA) can use the Command Hierarchy (as well as the Administrative Hierarchy) to run Unit Position List (UPL) reports for units and their subordinate organisations (see also Para 4). Business Process Guides are available on JPA to carry out this UPL function. For all other JPA users, the Command Hierarchy does not link to any other JPA activities, which includes SJAR / OJAR functions and Workflow. An example of a Command Hierarchy is shown below:

Figure 2C.-1. Command Hierarchy Linking JPA Organisations in MWS Collingwood



Notes:

1. *The Command Hierarchy is not limited by location or Service but is a representation of the chain of command for a unit. For example, the MWS Command Hierarchy includes subordinate organisations such as DEFENCE DIVING SCHOOL (AE) ARMY DIVER TRAINING UNIT and DIVING STANDARDS ORG that are located at Whale Island, not the COLLINGWOOD site.*

2. *The JPA organisation DEFENCE DIVING SCHOOL (AE) ARMY DIVER TRAINING UNIT is part of a joint RN/Army unit that is part of MWS.*

3. Administration Hierarchy

The Administration Hierarchy determines which unit administers a JPA Organisation in terms of UPO and Medical Centre. This Hierarchy enables a UPO or Medical Centre to see the records of those personnel within their charge. In JPA terms, the UPO or Medical Centre needs to be in a JPA Organisation that is at the top of the Administration Hierarchy of the group of organisations within their charge. The UPO or Medical Centre can then see the JPA Positions and incumbents in their subordinate organisations. The other necessary JPA component that works with the Administration Hierarchy to enable administrative support is the organisation workflow. An example of an Administration Hierarchy is below (note that the details contained may not be up to date):

4. Unit Position List (UPL)

The Administration Hierarchy can be used by the UEA, as well as EAs, to run UPL reports of organisations and their subordinates. This Administration Hierarchy enables, for example, the UEA of COMSTRKFOR to run a UPL for the whole 3 CDO Bde unit, including its subordinate organisations (Business Process Guides are available on JPA for this function). The filter ‘Command Hierarchy’ can also be used in this way and can also be used to view subordinate organisations from a Command rather than administration perspective.

ANNEX 2D

PLANNED AUGMENTATION AND ESTABLISHMENT ADMINISTRATION

1. Introduction

a. Planned Augmentation is part of the Force Generation process and is a procedure whereby units identify, in advance, the augmentation they will require to bring them to endorsed operational levels of personnel. The Planned Augmentation requirement is not based on a specific scenario, but it assumes that there is an overriding need to activate quickly all available front-line units.

b. The additional augmentation posts are labelled on a JPA Establishment as M Category Positions and when activated they are additional to the Positions held on a unit's peacetime Establishment. The summation of the M Category Positions in all units represents the overall Naval personnel Planned Augmentation requirement and it is specified by rank/rate and specialisation. Donor Positions are earmarked to fill this known M Category requirement. These Donor Positions are mostly in shore units and are identified and endorsed in advance as being posts that can be gapped during a crisis. They are identified in a JPA Establishment as P Positions.

c. Managing the force generation requirement for crisis M Category receiver Positions and developing the associated Donor Positions is the responsibility of P&T PEOPLE OPS AUG (Augmentation Cell) Team, with the administrative JPA action carried out by the Workforce Change Management (WCM) Team. To meet this task, each request for an Establishment change must be viewed against the impact it will have on the ability to meet the Planned Augmentation workforce requirement.

2. Position Categories and Planned Augmentation

a. The most common Position Categories having a bearing on Planned Augmentation are shown in the table below:

Table 2D-1. Planned Augmentation Common Position Categories

Position Category	Meaning	Comment
P	SHORE Position required in peace but not crisis.	These are Donor Positions for Planned Augmentation.
PO	SHORE Position required in peace and in crisis.	Incumbents are not earmarked as Planned Augmentation donors.
BO	SEA Position required in peace and in crisis.	Used for ships and frontline RM and aviation units. Also used for temporary crisis Augmentation eg., Operations TELIC and HERRICK.
M	Crisis Position inactive during Peace but activated during Crisis.	Used for enduring crisis Augmentation that requires widespread activation of RN operational units.

b. Incumbents of P Positions are at 30 days' Notice to Move (NTM) for Planned Augmentation purposes. Some of the P Positions are further annotated as being either an 'A Donor' or 'Dual Donor'.

c. **A Donors.** Incumbents of a P Position that is also tagged as an A Donor are at 20 days NTM. These positions have been matched against the known M Category requirement by rank and Specialisation. The aim is to maintain A Donors at 120% of the M Category requirement, but this is not possible in all cases and some ranks and Specialisations may have a shortfall. When M Category Positions are activated, the A Donors are sent to any M Category Position for which they have the necessary rank and Specialisation.

d. **Dual Donors.** Positions marked as Dual Donor are matched to a specific M Category Position. When a specific M Category Position is activated, the intention is to fill it with the Dual Donor incumbent. Personnel in Dual Donor Positions have a training liability in preparation for their M Category commitment and are at 10 days NTM.

3. Establishment Changes and Planned Augmentation

a. Requests for Establishment changes that impact on the M Category requirement or the pool of Donor Positions are subject to extra checks before the change can be approved. These checks are conducted in consultation with P&T PEOPLE OPS AUG staff and seek to keep the pool of Donor Positions in balance with the M Category Augmentation requirement.

b. **Deleting a P Donor Position.** If a P Donor Position has not also been designated as an A Donor, then it means the donor pool for that rank and Specialisation should be in surplus. Once that situation has been confirmed then there is no Planned Augmentation barrier to the Position being deleted.

c. **Deleting an A Donor Position.** To offset the proposed deletion of an A Donor Position, a replacement P Position will be sought that can be converted to an A Donor. The P Position must be of the same rank and Specialisation and, once it has been changed to an A Donor, the proposed deletion may take place. If no P Position is available, then the same effect may be achieved by negotiating the deletion of an M Category Position of the same rank and specialisation. Should both these events not be possible then P&T Staff will adjudicate. The deletion proposal will either be rejected or will be allowed to proceed with the acceptance that the donor pool for that rank and Specialisation will be below the required level.

d. **Creating a new M Donor Position.** If P&T PEOPLE OPS AUG staff confirm there is a genuine new Planned Augmentation requirement, then a search will be made for a suitable donor. If a Donor Position is found, or if a less deserving M Category Position of the same rank and Specialisation can be negotiated for deletion, then the new M Category Position can be created. If these outcomes are not identifiable, then the bid will either be rejected or be allowed to proceed with the acceptance that the donor pool is in deficit.

e. **Deleting a Dual Donor Position.** A Dual Donor Position must be replaced before it can be deleted. The creation of a new Donor Position requires careful negotiation and in the first instance the TLB and/or 2* Directorate in navy Command wishing to delete the Dual Donor will be asked to find its replacement. Should it not be possible to find a replacement then the deletion proposal will be rejected.

f. **Creating a New M Donor Position with Dual Donor Linkage.** P&T PEOPLE OPS AUG staff confirm the requirement for a new M Category Position linked to a specific Dual Donor Position, then negotiations will take place to find a suitable Dual Donor. If a Dual Donor is found, then the new M Category Position will be created; if one cannot be found then the new M Category Position will be rejected or will be created without Dual Donor Linkage.

ANNEX 2E

DETAILED ESTABLISHMENT AMENDMENT PROCESS

1. Introduction

The use of JPA across all three Services provides a standardised Manage Establishment process for creating and making changes to Service Positions and organisations. Under current agreement, each Service will amend its own positions within JPA. All proposed RN Workforce Requirement related changes to JPA Establishment Organisations and Positions are to be raised by or through the relevant TLB Workforce Coordinator. They are to be submitted using either the Workforce Amendment System (WAS) for Navy TLBs or the Establishment Amendment Form (EAF) for other TLBs requests. The WAS is submitted via SCIO and the EAF forwarded by e-mail to the PPO. The latest version of the EAF may be found in the JPA home page – JPA Forms. Access to the WAS App is for Navy Command (NC) TLB Change Requests only and application for the app should be submitted to the WCM team[1]. For large scale re-organisations or bulk changes, please engage with the WCM Team for advice on how to proceed.

2. Establishment Amendment Background

Outside of the Annual Budgetary Cycle (ABC), it is the responsibility of employing TLBs to manage their Workforce Requirements and for the PPO to implement the changes when the four fundamental tests have been met. As the RN possesses a finite resource, all Establishment changes requested by TLBs must be realistic in terms of anticipating the availability of personnel in terms of rank, rate, and specialisation. When processing NCRs in the WAS or EAFs, the PPO needs to consider, via the carding process, the collective effect on the RN which may lead to increased churn, higher VO rate and excessive gapping, all of which undermine the ability to deliver a sustained supply of people. Therefore, all requests to create new permanent WR positions or temporary positions must be carefully managed.

3. TLBs are to be aware that the following Establishment policy exists for the creation of Permanent or Temporary Positions:

a. **Permanent Positions.** The creation of permanent Workforce Requirement within the Establishment will only be authorised when:

(1) An ABC enhancement Choice or Option is issued to authorise uplift in liability.

(2) The TLB provides a suitable Compensating Reduction (CR) of the same rank/rate and specialisation to create the new position or with agreement by Branch Managers via the process above.

Note. *It is the responsibility of the employing TLB and/or Directorate in NC to identify the CR which will be used to create the new requirement. Proposals to create permanent Workforce Requirement positions without a valid CR or endorsed ABC uplift will not be authorised and sponsors should engage with TLB or in NC their 2* Workforce Management Group (WFMG) points of contact.*

[1] Via the WCM Multiuser - NAVYPEOPLE-WFPTWCMNC@mod.gov.uk

b. **Temporary Positions.** Temporary Positions are posts created for a specific purpose of between three months and one full assignment. Requests for temporary position of longer than one full assignment will normally be rejected. Temporary positions do not count towards WR and, therefore, do not drive recruiting and promotion targets. Temporary positions are usually filled by gapping a position with WR elsewhere or within NC TLB from unspent workforce budget known as the Workforce Cost Envelope (WCE). Temporary positions cannot be used as a means of masking a genuine enduring requirement and the PPO will pay close scrutiny to all requests.

(1) In order to stand up a Temporary Position, the employing TLB should try to identify a position with "Like for Like" [L4L] WR to be Gapped for the duration of the Temporary Position. This Workforce Requirement Substitution (WRS), is the Gap that will be tied to the Temporary Position for the duration of the requirement if necessary. This is also known as "Authorised Elsewhere" by the Army, RAF, and Other TLBs. The WRS Posn will continue to underpin sustainability of the supplying Branch. Prior to the assignment being completed, the employing TLB should conduct a formal review of the requirement for the Temporary Position and the WRS. If as part of the review the position is viewed as enduring rather than temporary (greater than one full assignment), the TLB will need to provide a CR, in order that an enduring WR position can be created. If a suitable L4L Position cannot be found but a TLB has the funding for a Temporary Position, then they can ask if one can be created by exception. If the CTM can fill the temporary position, it will be considered for approval. For NC TLB which operate under a delegated model, with agreement between Branch and Career Manager, a Temporary Position can be established from unspent WCE or gapping a whole force role (FTRS, CS or REG MIL).

(2) The WRS provided to stand up a Temporary Position should be one that:

(a) Has been or is about to be gapped, or;

(b) Through forecast, is unable to be filled by the CM during the forthcoming length of assignment requested.

(3) Regardless of the method selected, the employing TLB will be responsible for prioritising as to which position is used as a WRS. This process ensures overall liability within the TLB remains in balance and physically ties WR to a Temporary position for the duration of the requirement. Non-compliant applications will be treated on merit and may be approved as an exception. For NC, please follow the delegated Workforce controls as set out in Chapter 2.

Note. *The creation of Temporary positions or Permanent WR to meet future ABC enhancements earlier than approved by FMC will only be approved if the TLB provides a WRS, or by exception. This must occur as a gap will need to be created elsewhere within the TLB to provide the resource (strength) to meet the new requirement.*

4. Establishment Supplementary Positions Policy

With increases in Gains to Trained Strength (GTS), there is a requirement for additional Non-Workforce Driving positions within seagoing units and air stations, solely for the purpose of pulling through SQEP. The introduction of SUPP positions is a direct replacement for the legacy Overborne Strength (OBS) position and the policy detailed below will assist Branch Managers to deliver sustainable branch structures and allows CTMs to manage personnel to support the pull through of SQEP.

a. **RN SUPP.** RN SUPP positions are used for the sole purpose of providing sustainable branch structures and are not to be used as a means of addressing Unit Position List (UPL) or Whole Ship Watch and Station Bill shortfalls. Similarly, CTMs should only fill SUPP positions on the basis that the individual is conducting branch/career specific training. Use for any other purpose requires the approval of the WCM Team. In addition, Units are not to retain an individual in a SUPP position once the intended branch/career specific training requirement has been achieved. Once the intended training requirement has been met, Unit staff should advise CTMs accordingly. The CTM should then re-assign the individual to fill a gapped enduring liability position within the same Unit, or elsewhere, or to another assignment.

b. **RM SUPP.** RM SUPP positions are aligned to each RM sub-Unit for the sole purpose of transitioning personnel within Unit JPA architectures to onward assignments and are not to be used as a means of addressing manning/UPL shortfalls. Use for any other purpose requires the approval of the WCM Team. CTMs should only fill a SUPP position when an individual is required to vacate a position in lieu of new arrival but is required to remain within the existing Chain of Command.

5. Type of Position

The type of SUPP position within JPA is dependent upon rank/rate and branch as outlined below.

a. AB2 positions are to be pooled, multi-occupancy.

b. All other ranked positions are to be single occupancy. In situations where handover periods are required, however, shared positions will be authorised by the PPO.

c. RM positions, regardless of rank, are to be pooled and rank ranged.

d. Positions attracting Recruitment and Retention Pay (RRP) are to be single occupancy unless BMs can demonstrate to PPA that all pooled personnel within the SUPP position qualify for RRP. If a requirement for RRP exists, BMs should submit full justification to REM using policy detailed in JSP 754 Chapter 5 Section 2 (RRP Policy).

6. Position Details

SUPP positions will be created using the following criteria:

a. All positions are to be prefixed with SUPP, e.g. **SUPP PWO1|1234567**.

b. The JOB Value for all SUPP positions is to be **RN|Common|Supplementary**.

c. All SUPP positions are to be correctly CM tagged.

d. All SUPP positions are to be created as Non-Workforce Driving and enduring (no end-date applied).

e. SUPP positions shall only exist within NC TLB and not within other TLB organisations.

7. Establishment Amendment Detail

Proposed changes for JPA Positions and Organisations must be submitted using either the Workforce Amendment System (WAS) or JPA Form JPA A001 (EAF), the latest version of which may be found in the JPA home page – JPA Forms. Navy TLB units must submit their establishment changes using the WAS App in SCIO. For large scale re-organisations the WCM Team must be consulted in addition to the relevant MIL PP.

a. **Workforce Amendment System (WAS) New Change Requests (NCR)/Establishment Amendment Form (EAF).** The WAS NCR/EAF has been designed to ensure that the following conditions are met:

(1) An audit trail is in place and covers all associated authorisations (see below).

(2) Requested proposals contain the mandatory details required by JPA to make the changes.

b. **Completion of the WAS NCR/EAF.** The WAS NCR/EAF is to be fully completed (where appropriate) by the originator before submission to the Workforce Change Management Team. As appropriate, WAS NCR/EAF submissions should include supporting e-mails where appropriate which give evidence of the following:

(1) Financial authority from the appropriate TLB Finance Business Partner especially for all major changes and inter TLB transfers.

(2) WAS/NCR approvals will seek confirmation from the appropriate Branch Managers, (in consultation with Career and Talent Managers) that the proposed amendments are acceptable from a branch/specialisation sustainability perspective.

(3) Where there are DV security requirements associated with the amendments, that approval has been obtained from the respective Service specialist security authority.

(4) Agreement from all Units involved in the WAS NCR/EAF process. For example, if creating a Temporary Position in one Unit, by using a WRS Gap in

another, then both Units should provide evidence that they are content with the submission.

c. **Common Errors in Submitting Establishment Changes.** Some common errors which should be avoided when submitting Establishment change proposals are as follows:

(1) The amendment has not used the latest Establishment/UPL in JPA as the baseline and has not identified Positions by their unique JPA number.

(2) Changes that increase WR without supporting financial approval, CR or WRS.

(3) Requesting a Rotational or Competition post without approval from DS Sec and the single Services' agreement.

(4) Requesting an Exchange/Loan Scheme where the P&T lead/International Policy and Planning (IPP) has not been consulted.

(5) Requesting change to an Establishment when the appropriate authority has not been sought.

8. JPA Data Requirements

Only data that appears in the list of authorised JPA Data Reference values may be used to request changes. The remainder of this section outlines some of the more common fields and terms used for making an Establishment change in JPA.

a. **Rank/Rate.** NATO Rank Codes (equivalent ranks tables across all Services are laid down in JSP 752 (Allowance Regulations), JSP 754 (Pay Regulations) and in this BR's Preliminary Pages) are used in JPA, NATO and tri-Service documentation as follows:

Table 2E-1. NATO Rank Codes

NATO Grade	Royal Navy	Royal Marines
OF-10	Admiral of the Fleet	-
OF-9	Admiral	General
OF-8	Vice Admiral	Lieutenant General
OF-7	Rear Admiral	Major General
OF-6	Commodore	Brigadier
OF-5	Captain RN	Colonel
OF-4	Commander	Lieutenant Colonel
OF-3	Lieutenant Commander	Major
OF-2	Lieutenant RN	Captain
OF-1	Sub-Lieutenant / Midshipman	Lieutenant / 2nd Lieutenant
OR-9	Warrant Officer 1	Warrant Officer 1
OR-8	Warrant Officer 2	Warrant Officer 2
OR-7	Chief Petty Officer	Colour Sergeant
OR-6	Petty Officer	Sergeant
OR-5	Not used in RN	Not used in RM
OR-4	Leading Hand	Corporal
OR-3	Not used in RN	Lance Corporal
OR-2	Able Seaman	Marine
OR-1	Not used in RN	Not used in RM

***Note**. Although OR1 is not a rank in the RN, some Positions in ships are created as OR1 to identify sea training positions for personnel not yet at Operational Performance Standard (OPS).*

b. **JPA Job Value.** The JOB value comprises of three segments: Service, Domain and Skill.

***Note.** The JOB value for all single Service RN/RM Positions starts with RN.*

(1) Examples are:

RN|Warfare|Warfare (Above Water)
RN|Logistic Services|Logistics
RN|Aviation|Pilot
RN|RM|Adjutant

(2) The JOB value is an essential field when describing or searching for specific Positions or groups of Positions. Once a JPA Job Value has been attributed to a Position it cannot be amended. Any changes to this field will necessitate the Position being eliminated and a new Position being raised to show the revised value. It is therefore essential that the correct value is shown on the WAS/EAF. JPA Data Reference Values should be used to identify the most appropriate value for any new Positions.

c. **JPA Competence.** JPA Competence comprises the skills, competences or accomplishments allocated against a given position to enable the incumbent to carry out the role. Requests to add competences may be referred to Capability Delivery Team (CDT) / Branch Manager and TRA Gen WO1 for approval, as the change may have safety or operational implications or may result in increased tasking on training schools and can restrict the number of personnel available to fill a post. When possible, Platform UPLs should remain aligned.

d. **Recruitment and Retention Pay (RRP) Markers.** RRP Markers may be applied to specific Positions and approving their use depends on several factors, including that the post should only be filled by a person with the appropriate specialist qualification. The WCM Team will not add or remove RRP Markers to/from a position unless approval has been given by the appropriate RRP authority [REM], in accordance with JSP 754 Chapter 5.

e. **Normal Tour Length.** The tour length is shown in months and, where continuity is required beyond normal assignment length, justification and CTM approval is required.

f. **Temporary Positions.** A Temporary Position is created to meet a specific short term high priority demand for strength. It is created for a finite period between three months and one full assignment. Temporary positions do not count towards liability and, therefore, do not drive recruiting and promotion targets; they still require budgetary approval by the TLB. In the current manning situation, they are usually filled by gapping a position with WR elsewhere, which is clearly undesirable. No Temporary Position will be created until the appropriate Career and Talent Manager has agreed to provide an incumbent at the Positions start date.

g. **Rotational/Competition Positions.** Requests for new posts are to be staffed for approval by the appropriate authority:

Table 2E-2. Staff List Authorities

List	Authority
Senior tri-Service Appointment List (STAL)	DS Sec
Junior Rotational List (JRL)	DS Sec
Rotational Appointment Committee (Medical) RACM	DS Sec
Other Ranks Rotational List (ORRL)	DS Sec

h. Staffing rules vary; JSP 755 is the authoritative reference for both Rotational and Competition Positions. Tours for rotational posts are projected several years into the future and the WCM Team ensures that they are kept up to date and in accordance with the appropriate authorised list.

i. **Exchange Positions.** All requests to change Inter-Service and International Exchange Positions must be staffed via the P&T lead:

NAVY PEOPLE-CM COS

j. **Loan/Secondment Positions.** All requests to create or amend a loan or a secondment position must have International Policy and Planning (IPP) approval as detailed in JSP 755 Chapter 4 and JSP 468.

k. **On-stream Lead-time.** A sea-going unit may be assigned a Status that requires a joining profile leading up to full B Status manning. Thus, in the Z, S and Q roles, a figure such as 0032 will mean that the Position concerned should be filled 32 weeks before the unit assumes B Status. Changes to On-Stream Lead Times can have an impact on Liability and so full justification using a Change Proposal Form (CPF) and WAS NCR/EAF is required when the request is made to Navy RP and the CDT.

l. **Dual Appointments.** The Position Planning Extra Information Table (EIT) in JPA allows requirements for Dual Assignments to be specified. All requests involving Donor Positions and Dual Appointments are cleared with Pers Ops staff prior to their endorsement.

m. **UIN.** An Organisation must have a UIN annotated to it and all Positions in an Organisation are costed to the same UIN. Where a unit is comprised of personnel funded by more than one UIN, then its Establishment must be comprised of multiple Organisations. UINs are to be supplied by the TLB Budget Manager who is responsible for funding that Organisation. If the UIN does not exist in SLIM/JPA, then it is the responsibility of the submitting TLB Budget Manager to have it added (actioned by means of completing a MoD Form 942).

n. **Overlap.** Overlap indicates the handover period, in days. Where the field is blank in JPA then either the standard handover period of four days applies or there is no handover period. Career and Talent Manager authorisation is required for any increase to the standard handover period as this inevitably causes a longer gap elsewhere.

o. **Margin Pooled Positions.** Units requiring the creation of additional pooled Positions should email their needs to the WCM Team. The team will assess whether these can be met by the existing margin structure, ensuring that the number of pooled positions are the minimum to meet the requirement. The criterion is that pool positions should exist wherever managers need to exercise administrative oversight of the individuals assigned to the margin areas. In the case of MA5, it is appropriate that there is a pooled position wherever a unit has a Service pay facility.

ANNEX 2F

ESTABLISHMENT POLICY SPECIFIC TO SHIPS AND SUBMARINES

1. Introduction

This section describes the manning process for new build ships and submarines. The key elements in this process are the Quarter Bill (QB), the Establishment, the accommodation requirement, the Ship Specification, and Concept of Use.

2. The Workforce Allocation Process

a. The workforce allocation process for new build platforms starts on initiation of the Concept Phase. During that phase, an initial QB is produced by DE&S using tasks derived from the platform's User Requirements Document (URD), Ship Specification and Concept of Use documentation. From this QB an initial Establishment will be generated by DE&S in consultation with People Future Capability, Workforce Change Management (WCM) Team, key stakeholders and other SMEs. Once agreed, the WCM Team is issued with the QB Spreadsheet and creates the organisation and positions on JPA, as directed, with the future start dates.

b. As the project moves forward DE&S will progressively develop a more targeted QB and Establishment. In liaison with the WCM team, the overall numbers and Specialisations of the Positions in the Establishment will be refined, and the accommodation requirement will be calculated. The accommodation requirement is determined by the number and rank/rate of the Positions in the Establishment plus an Accommodation Margin.

3. The Quarter Bill (QB)

a. The basic working tool during the assembly of an Establishment for a new class of ship is the QB (not used for Minor War Vessels (MWV) and Submarines). This is a statement of the Positions that need to be filled by personnel to work on a unit. It identifies where there is a job to be done and the lowest level of SQEP needed to fulfil the task.

b. At an appropriate stage, responsibility for the QB will be transferred from DE&S to the platform. It will be a guide to the stationing of the platform's company and will show how the numbers allowed in the Establishment have been assessed. Each individual platform will also produce a Watch and Station Bill (WSB) which further breaks down the QB and allocates individual names to specific tasks, including whole ship responsibilities.

4. Organisational Build Status

The Establishment is the detailed means by which the personnel requirement of the QB is fulfilled and caters for the heaviest demand for the total workforce on board that can routinely be expected. An Establishment will be in force from build to disposal and during the lifecycle of the platform it will go through different phases from initial build (Z Status), to Operational (B Status), to refit (S Status) and finally disposal. The Positions required within an Establishment vary depending on the Organisational Status (for example in upkeep (S Status) a ship's company may be significantly reduced from the full (B Status) complement). The Organisational Status is reflected in JPA (a full listing of the various status codes is at Annex 2B) and used to make Positions 'Invalid' when they are not required. Another example of this is if a new item of equipment is fitted. The Platform will need to assess whether personnel will have to have new competencies allocated to their position, or if a change of structure within the affected department is required; in both these instances a Workforce Amendment System (WAS) request should be submitted via the relevant Capability Delivery Team (CDT) to the WCM Team.

5. Through Life Management of the QB and Establishment

Once created, the QB and Establishment continue to be reviewed and managed as required by changes to policy, concept of operations, the introduction of new equipment and, most importantly, to reflect class 'best practice'. All such activity involves close liaison between the platform EWO/UEA/Senior Management, Unit Establishment Administrator, and the RN WCM Team.

6. Pre-joining Training Requirements

Once the Business Case (BC) for a new class of vessel has been approved, a Training Needs Analysis (TNA) is conducted to identify the best means of providing the training required for the platform. The resulting competences requirement should be input onto JPA by way of a WAS via the RN WCM Team. Seek consultation with the WCM Team in the first instance.

7. Accommodation Margin

a. The Establishment of a platform will dictate the minimum number of bunks required on board. In addition to this minimum, further bunks will be required to account for extra boarded personnel as well as flex within the unit itself. The calculation of the Accommodation Margin is very platform specific, depending on size, role, and design use. Once established the Accommodation Margin will be controlled by the EWO/Cox'n.

b. For each new project build, DE&S will use the Establishment, calculating in other factors as detailed in the Accommodation Margin Elements (see para 8), to find the accommodation requirement for the platform. The additional requirement for bunks is given by the Accommodation Margin and the total accommodation requirement is therefore driven by the Establishment plus the Accommodation Margin.

8. Accommodation Margin Elements

The following is a list of different Accommodation Margins that can be utilised:

a. **Board Margin.** A defined number of bunks allow for changes in Establishment policy during the life of the platform.

b. **Advancement Margin.** A defined number of bunks for LHs (where applicable), CPOs and POs to allow for personnel promoted during assignment.

c. **Training Margin.** A defined number of bunks for officers and ratings to allow for training needs identified to be fulfilled for the specific platform.

d. **Staff Margin.** A defined number of bunks for officers and ratings to allow for visiting staff; this could include FOST staff, inspection teams, METOCs, medical/Chaplaincy Staff, embarked forces, embarked flight crew/air groups, Battle Staff etc.

e. **Flexibility Margin.** A margin of two JR bunks for each gender, or cabin if applicable to provide a variation of the onboard mix of gender personnel.

CHAPTER 3

PERSONNEL PLANNING AND COSTING

SECTION 1 - REGULAR PERSONNEL

0301. General Workforce Policies

a. This part describes the process of personnel planning and explains how the Workforce Requirement (WFR) is derived and how Strength is matched to meet the requirement. Career progression and Profession structures have to be taken account of in this process, which require a detailed knowledge of the personnel characteristics in each specialisation, rather than relying on a 'one size fits all' approach. Current and future workforce policies have a big impact on this work. The aim is to ensure that suitably qualified officers and other ranks are available to meet the requirements of the Service in peace and crisis within allocated resources and, at the same time, offer rewarding careers that will encourage retention.

b. The methodology for this is through utilisation of Forecasting Models that compare the current and future WFR, i.e. the ‘Demand’, previously referred to as ‘Liability’ with projections of the Trained Strength, the ‘Supply’, that are developed, based on set assumptions and variable ‘Workforce Control Levers’; these can be categorised as Inflow, Throughflow and Outflow. The categories include but are not limited to are Gains to Trained Strength (GTS), Sideways Entry, Promotions, Extended Career take up and realistic Voluntary Outflow forecasts (See Para 0307).

0302. Workforce Requirement (WFR or Demand) and Strength (Supply)

a. The number of trained people the Service needs in uniform at any one time is set by the WFR. In general, this refers only to active Service (‘Regular’) posts. Volunteer Reserves (RNR and RMR) have separate WFR managed by CMR and the Reserves Strategic Planner/Professions Manager.

b. The number of trained Regular Service personnel who can be deployed to satisfy the Workforce Requirement is known as the Trained Strength (TS); the Trained Strength is sustained by those undertaking initial training in the Untrained Strength (UTS). The WFR was previously widely known as the Requirement (Capital ‘R’) and the Strength was known as the Bearing.

c. The WFR comprises the two key elements shown in Figure 3-1. In simple term, these are the sum of all ‘Workforce Requirement Driving’ Positions in Establishments/Units that are marked as counting towards Workforce Requirement plus allowances (Margins) because there are occasions when, for a variety of reasons, the Trained Strength will always include some people who are not available for filling normal WFR driving positions.

Figure 3-1. The Workforce Requirement

WORKFORCE REQUIREMENT	
Establishment positions counting towards Workforce Requirement (Workforce Requirement Driving)	**Allowances** eg. Workforce Resilience and Training Margin (WRTM)

d. Each of the Armed Forces has a Workforce Requirement Planning Baseline (WRPB) set by Head Office at the conclusion of every Annual Budgetary Cycle (ABC). The WRPB articulates the endorsed Trained Strength (i.e. Regular and Full Time Reserve Service personnel filling Regular positions) requirement for each Service, and is linked to the Workforce Cost Envelope (WCE). Whilst there is no longer a structural headmark ceiling, the WRPB acts as a planning baseline to ensure the RN recruits, trains and promotes sufficient SQEP to meet Defence requirements.

e. A number of tasks and activities need to be undertaken by Service personnel in addition to filling those Positions that count towards the WFR; these do not drive WFR and include Temporary Positions, activated Crisis Positions and Augmentation tasks such as loans to other units for short periods for extraneous events, e.g. major exercises, ceremonial duties or military tattoos. The sum of these positions cannot be used to justify a growth in Strength.

f. **Margin Workforce Requirement.** This is the allowance provided in the total WFR for predictable and planned use of the Margin that needs additional personnel to be grown. The Margin WFR is defined as a single Workforce Resilience and Training Margin (WRTM) entity; Margin usage is sub-divided into two categories: Training Margin (previously known as Higher Training Quota (HTQ)); and Workforce Resilience Margin. A full explanation of these is at Annex 3B.

g. **Establishments.** Full information on Workforce Change, Positions and WRTM is provided in Chapter 2.

0303. The Live Workforce Requirement

The sum of all Positions counting towards WFR plus the WRTM allowance is called the Live Workforce Requirement. Once produced, it shows the requirement for trained personnel at each rank level within every specialisation monthly for the next 10 years. The Live Workforce Requirement is the responsibility of Deputy Director People Strategy (DDPS) and is updated continuously in JPA by the Director Personnel and Training (Dir P&T) Workforce Change Management (WCM) team.

0304. The Planning Workforce Requirement (formerly known as the 'Headmark')

a. Whilst the Live Workforce Requirement is used for Career Management, it cannot be used, in isolation, for workforce planning. Therefore, the Live Workforce Requirement is subjected to adjustment by Strategic Workforce Planning staff. The result, known as the Planning Workforce Requirement (still abbreviated as PL; 'Planning Liability' for ease) (see Note) (formerly the 'Headmark Requirement'), takes account of known and anticipated changes in the Workforce Requirement such as ABC options and TLB choices, and provides a corporate aiming point which inevitably includes a level of risk which Dir P&T is prepared to accept. The PL will therefore contain adjustments at risk made in anticipation of future agreed options. Examples of measures include assessments of the impact of changes to Top-Level Budget (TLB) organisations, the Equipment Programme, Partnering, Private Finance Initiatives (PFI), contractorisation and Planning Round Options and Choices. The result is used as the basis for planning the future requirement for officers and ratings by rank/rate, profession and specialisation. This is illustrated in Figure 3-2 (not to scale) and the sequence is as follows:

Note. *'Planning Liability' is defined within the Tri-Service Workforce Lexicon as 'A derivation of Liability that takes account of anticipated (but not authorised) changes'.*

(1) The first adjustment is the addition of all known and agreed programme measures (specified in detail) which are planned to occur during the 10 year planning period but which have yet to be reflected in the relevant JPA Establishments.

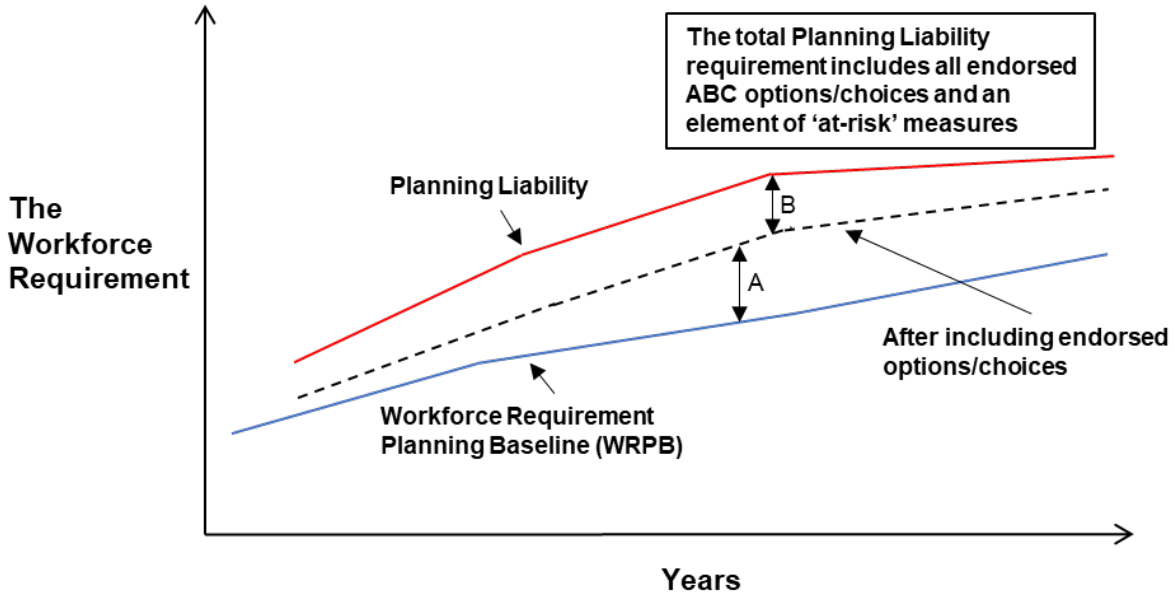
(2) Anticipated changes over the 10 year planning period are incorporated, such as may result from reorganisation, contractorisation, ABC Options and Choices.

(3) An element of risk may be added by the PPO to reflect realism, taking account of historical trends and experience. The result is the 'unsmoothed' PL which includes details such as the various measures, Organisation/Position Name and TLB.

(4) Finally, the 'unsmoothed' PL is smoothed by Rank/Rate, Profession and specialisation only to remove sudden peaks and troughs.

b. The resultant 'smoothed' PL is used by Strategic Workforce Planners to prime Analysis (Navy) Workforce modelling tools (see Para 0306 sub para c) so they can decide what targets need to be set for the growth of the right numbers of trained personnel (the Trained Strength (TS)), broken down by rank/rate, Profession and specialisation in the same way as the Workforce Requirement. It is important that the 'smoothed' Planning Liability is at or below the WRPB; in simplistic terms, any WFR above the endorsed WRPB is funded at risk, which means there is direct onus on all TLBs to ensure they have sufficient WCE for the forecast strength.

Figure 3-2. Workforce Requirement and Planning Liability



A = Endorsed Options or Choices not yet reflected in JPA Establishments
B = Add 'At-Risk' measures not formally endorsed or funded

c. While the upkeep of the Live Workforce Requirement (in JPA) is a continuous process, the PL is formerly generated in Mar/Apr for the Annual Workforce Modelling process; exact timings being determined by the demands of the ABC Planning Round. Following each issue of a new PL and subsequent modelling by Defence Statistics (Navy) (DS(N)), it is possible to update workforce levers, such as recruiting targets and promotion numbers.

d. To support any Adhoc Workforce Modelling demands the Strategic Workforce Planning team will iteratively monitor the requirement in order to generate an updated PL where significant change is highlighted.

0305. Matching Workforce Requirement and Strength

a. The aim of Dir P&T is to match continuously the current Live WRPB with an equivalent Trained Strength having the correct mix of rank/rate and skills. The high-level aim is to achieve a Trained Strength within +1% and -2% of the Workforce Requirement at the global level; termed as 'In balance'.

b. The challenge is to improve the match between Workforce Requirement and Strength when the former is vulnerable to rapid and frequently ill-defined change (as employers amend their Establishments) and the latter is only able to react much more slowly as people enter, move through and exit the system.

c. Management of the Workforce Requirement is covered in Chapter 2, for Establishments, and Annex 3A for Margin. Management of the Trained Strength is the output of Personnel Planning.

0306. Management of the Trained Strength

a. Managing the size of the Trained Strength to match the WFR aims not simply to achieve an overall balance of total numbers, as this could also accommodate surpluses in one category that are balanced by deficits in another. The ideal match is pursued by understanding and measuring the impact of factors that affect the size of the Trained Strength, some of which have an effect in the short and medium term, and others have longer-term effects. Discussed in more detail later in this Part, these factors are as follows:

(1) Gains to the Trained Strength (GTS) (Para 0307 sub para b);

(2) Promotion numbers (Para 0307 sub para d);

(3) Commission Transfers (officers) and Engagement Transfers (ratings/other ranks (ORs)); (Para 0307 sub para e)

(4) Flows from rating/OR to officer (Para 0307 sub para f);

(5) Branch and specialisation transfers (Para 0307 sub para g);

(6) Acting Higher Rank use (Para 0307 sub para h);

(7) Extensions of Service (Para 0307 sub para i);

(8) Re-entrants (Para 0307 sub para j);

(9) Voluntary retirement/release constraints and influences (Para 0307 sub para k);

(10) Financial Retention Incentives (Para 0307 sub para l);

(11) Commitment bonuses;

(12) As a last resort, Directed Early Retirement and Redundancy (Para 0307 sub para m).

b. Other factors that affect the numbers of Trained personnel available include:

(1) Wastage other than Voluntary Outflow (VO), primarily including Discharges (Medical, Welfare, Services No Longer Required, Death). There is little scope for control of these factors.

(2) Reservist Service, primarily Full Time Reserve Service (FTRS), Additional Duties Commitment (ADC), Mobilisation and Recall. These are controlled at the tactical level by Dir P&T. JSP753 (Mobilisation), and Chapter 59 give more details.

c. **Planning Models.** Because the WFR changes with time, a forecast of how the Strength will change with time is also required. The future Strength is forecast by modelling techniques that look at past, current and predicted inflow and outflow rates and promotion/transfer numbers in order to predict the numbers that are likely to be delivered to each Profession and specialisation at each rank. These are then compared to the future WFR to derive recruiting targets and other personnel regulators. The DS(N) Officer and Rating Planning Models are the prime tools for managing the size of the Trained Strength. As with any forecasting process, the result is only as accurate as the information from which it is derived. The models are particularly susceptible to changes in the WFR, wastage and inflow from New Entry Training. In recognition of this, the models are run annually with an option to re-run on an Adhoc basis where significant change to supply or demand assumptions occur. The assumptions that underpin the models are agreed for each modelling round between Strategic Workforce Planners, Profession Managers (PM) and DS(N), following extensive detailed scrutiny.

d. Profession/Specialisation structures are hierarchical and remain generally bottom-fed, in the short to medium term. This means that careful consideration has to be given to ensure that the requirement at the upper levels can be achieved and sustained in the long term by sufficient, but not limited to, input at the bottom, given the projected attrition of personnel in the years after they join the Trained Strength. This is demonstrated by using a Sustainable Experience Profile (SEP), generated on request only, which illustrates whether the future demand can be met and whether a Profession is ultimately sustainable. Generally, it is accepted that there must be a progressively smaller requirement for the higher ranks than the lower ranks, however, the actual sustainable ratio is unique to individual specialisations and will depend on flow rates and ‘length of service’ at each rank.

0307. Personnel Strength Control Mechanisms (‘Workforce Levers’)

a. **The Supply and Growth of Personnel.** Historically, the skill and experience required of most Naval personnel has demanded that they be grown from the lowest level. However, there have always been some areas where this is not the case and work is in hand to explore the potential for increasing the number of these categories. Current examples of categories that do not fall within the ‘bottom-fed’ mould include Warrant Officer Commissioning Scheme (WOCS), Senior Upper Yardmen (SUY), Upper Yardmen (UY), Senior Corps Commission (SCC RM), Corps Commission (CC RM) and Lateral Entry specialisations. Introduction of the Haythornethwaite Review of Armed Forces Incentivisation (HRAFI) recommendations for flexible (Spectrum of Service) careers will expand the scope of Inflow schemes. Despite these current and potential future exceptions, the majority of officers and ratings join at the bottom of their structures, within flexible but set age limits, and remain for as long as their commission or engagement allows while progressing up the rank scale. Education and training to satisfy the requirements of rank, specialisation and specific sea going positions is provided, and individual careers are managed by Career Managers (CMs) so as to provide a broadening of experience within the rank and capability of each Service Person. In the future this will include but not be limited to growing the supply focused of skills too.

b. **Gains to the Trained Strength (GTS).** The numbers of trained officers, ratings and other ranks each Profession and specialisation requires to be introduced on to the Trained Strength is determined by Dir P&T, taking account of the training pipeline capacity. The number of personnel that should be recruited to meet the required GTS is determined subsequently by the Training Pipeline Manager (see Para 1102).

c. **Promotion to Workforce Requirement.** Promotion is the key regulator used by Dir P&T to keep the Trained Strength of the Service at the correct levels to meet its commitments within its personnel budget. Therefore, given the modelled future Strength at each rank, officers and ratings are promoted to meet the WFR. As the WFR changes, so too will the numbers and specialisations of those required to be promoted. For officers and most ratings, the basis of promotion is selection on merit through a Selection Board process.

d. **Promotion Targets.** These are determined by the Strategic Workforce Planners, guided but not solely determined by DS(N) Planning Model outputs; consultation with each Professions Manager and CM is critical. The Maximum Authorised Numbers (MAuNs) are based on the current and future Strength and WFR, with agreed assumptions on future inflows and outflows, and (for officers) smoothed over the subsequent years to reduce large year-to-year fluctuations. The MAuNs are then used by Promotion Boards to control promotion numbers.

e. **Commissions, Careers and Engagements**

(1) **Commissions.** Officers' career progression will be linked to changes in commission. Figure 3A.1 shows how that progression will occur; most Lt RN/Capt RM will follow a path to Lt Cdr/Maj on a Career Commission Stage (CCS) and then transfer to FCS from there (for further details see Paras 4901-4903). As with promotions, the number of Commission transfers is set by the Strategic Workforce Planner (Officers), guided by DS(N) Planning Model outputs together with consultation with each Professions Manager and CM. The MAuNs are established at levels to maintain Strength within endorsed WFR at each rank and are implemented by Commission Transfer boards.

(2) **Careers and Engagements.** Other Ranks are selected for Engagement Transfers against a quota for each profession/specialisation. The aim of the quota system is to ensure, as far as possible, that the requirement for Senior Ratings/SNCOs can be met without undue delay to the average length of service on promotion to CPO/Colour Sergeant. The detailed calculation of quotas is carried out by Professions Managers using the Ratings' Planning Models as part of the annual planning round. The calculated quotas are passed to Strategic Workforce Planners for use by the Engagement Transfer Selection Board (for further details see Paras 4922-4925).

f. **Promotion from Other Ranks to Officer (PtO).** The number of places available for SUY and SCC RMs at BRNC and CTCRM respectively is determined annually for all Professions/specialisations by Strategic Workforce Planners in consultation with Professions Managers and forms part of the overall GTS. Details of the promotion process are in Chapter 50.

g. **Branch/Specialisation Transfers.** Movement between Professions or specialisations, which includes Lateral Entry, affects the Trained Strength in the supplying and receiving category. Strategic Workforce Planners set the planning assumptions for Professions Transfers annually and co-ordinate the transfer process. Officer transfers are considered on a case-by-case basis.

h. **Acting Higher Rank (AHR).** AHR is not normally used as a workforce regulator, although it does naturally affect the numbers of personnel available to fill posts in each rank and it may need to be limited to specific cases if necessary to avoid breaching Defence Planning Ceilings (for further details, see Paras 6503,6914-6916) Approval for AHR (for the duration of one assignment and no longer than 36 months) can be granted by CM. Any application where it is suspected a deviation from policy may be occurring is not to be approved without consultation and agreement from WFPT (for further details see paras 6648-6653).

i. **Extensions of Service.** Approval of 'Full EoS' (for the duration of one assignment and no longer than 36 months) can be granted by CM. Any application where it is suspected a deviation from policy may be occurring is not to be approved without consultation and agreement from WFPT. Such activity will be captured by Professions Managers in preparation for Workforce Modelling.

j. **Re-entrants.** Recruitment and Attraction (R&A) will process all officer and rating/OR re-entrant candidates to both the Trained and Untrained Strengths. Staffing will include relevant Professions Manager input. The individuals' experience and rank will be considered together with the state of the specialisation which they wish to re-enter.

k. **Voluntary Outflow.** Voluntary Outflow (VO) through early termination to leave the Service is a regulator over which Professions Managers have little control, but which is nevertheless closely monitored and projected forward, so as to inform the planning models. It is most influenced by Conditions of Service, career expectations, domestic pressures and civilian employment conditions. Personnel policy can therefore exert an influence on the rates of uptake, generally in an un-targeted manner, but CMs may decide not to approve requests for VO withdrawal, drawing on advice from Strategic Workforce Planners. When necessary to avoid exceeding funded personnel levels, approval of requests for VO withdrawal may be restricted to those requests that would help relieve Workforce Capability Gaps (*formerly known as Pinch Points*) or for specialisations that are predicted to be significantly under borne. See the following paragraphs for measures to affect outflow rates.

l. **Financial Retention Incentives (FRI) and Re-Joining Bounties (RJB).** FRI and RJB measures are available for selective use, with necessary higher approval - normally Ministerial or PPO - and last for a clearly defined, short period. They aim to encourage personnel to continue serving or to re-enter the Service, respectively, where a severe and damaging shortage exists. Strict controls are placed on eligibility for such an award, and individuals are targeted in very discrete groupings by age, seniority and/or length of service to offset the precise area of shortage. The introduction of each measure will be announced by signal and DIN and full details may be found in JSP 754 Chapter 5 Section 21.

m. **Redundancy and Directed Early Retirement (DER).** In the event of the Trained Strength exceeding the requirement and when all other means of regulation have been unable to contain the surplus, redundancy may be considered. Due to the cost, loss of expertise and the detrimental impact upon Service cohesion, redundancy is only ever considered as a last resort. Approval at Ministerial level will always be necessary before initiating a programme. Details of compensated compulsory retirement, known as Directed Early Retirement, may be found in JSP 764 Part 6 Chap 1.

0308. Factors Affecting Target-Setting in Personnel Planning

a. It is recognised that personnel generally 'flow' up through the Service rank structure. Furthermore, growth and development of suitably qualified and experienced personnel (SQEP) is a medium-to-long-term activity. Therefore changes in target numbers must be carefully judged to ensure that their effect meets the required timescale.

b. **Smoothing.** To maintain a spread of personnel lengths of service within the Trained Strength, it is necessary to maintain a certain level of recruiting, even when the outflow is being increased by suppression of EC or by Directed Early Retirement/redundancy.

c. **Time in Rank.** The rate of flow up the system, determined by length of time in a particular post or rank can be adjusted. The shorter the time in rank, the fewer posts in that rank are required to be filled in a sustainable system.

d. **Reserve Service.** Full Time Reserve Service (FTRS) and Additional Duties Commitment (ADC) (the part time equivalent of FTRS) are filled by ex-regulars (RFR) and Royal Naval/Royal Marines Reserves (RNR/RMR). FTRS and ADC can be used to relieve Workforce Capability Gaps or where a specialisation is significantly under borne (subject to constraints from FTRS Authorised Numbers (AUN). The decision on whether to approve an FTRS request will draw on advice from other Professions Managers and the Strategic Workforce Planners. An AUN may be applied by Dir P&T, planning for a set amount of FTRS/ADC usage to ensure that the combined total of personnel on FTRS and in the (Regular) Trained Strength is affordable and does not exceed the WFR. Personnel Planning targets will take any FTRS AUN and decisions on the award of FTRS commitments into account but will ultimately aim to meet the full WFR with regular personnel. More details on FTRS and ADC are Chapter 59 and BRd 3(2) Chapters 18 and 19.

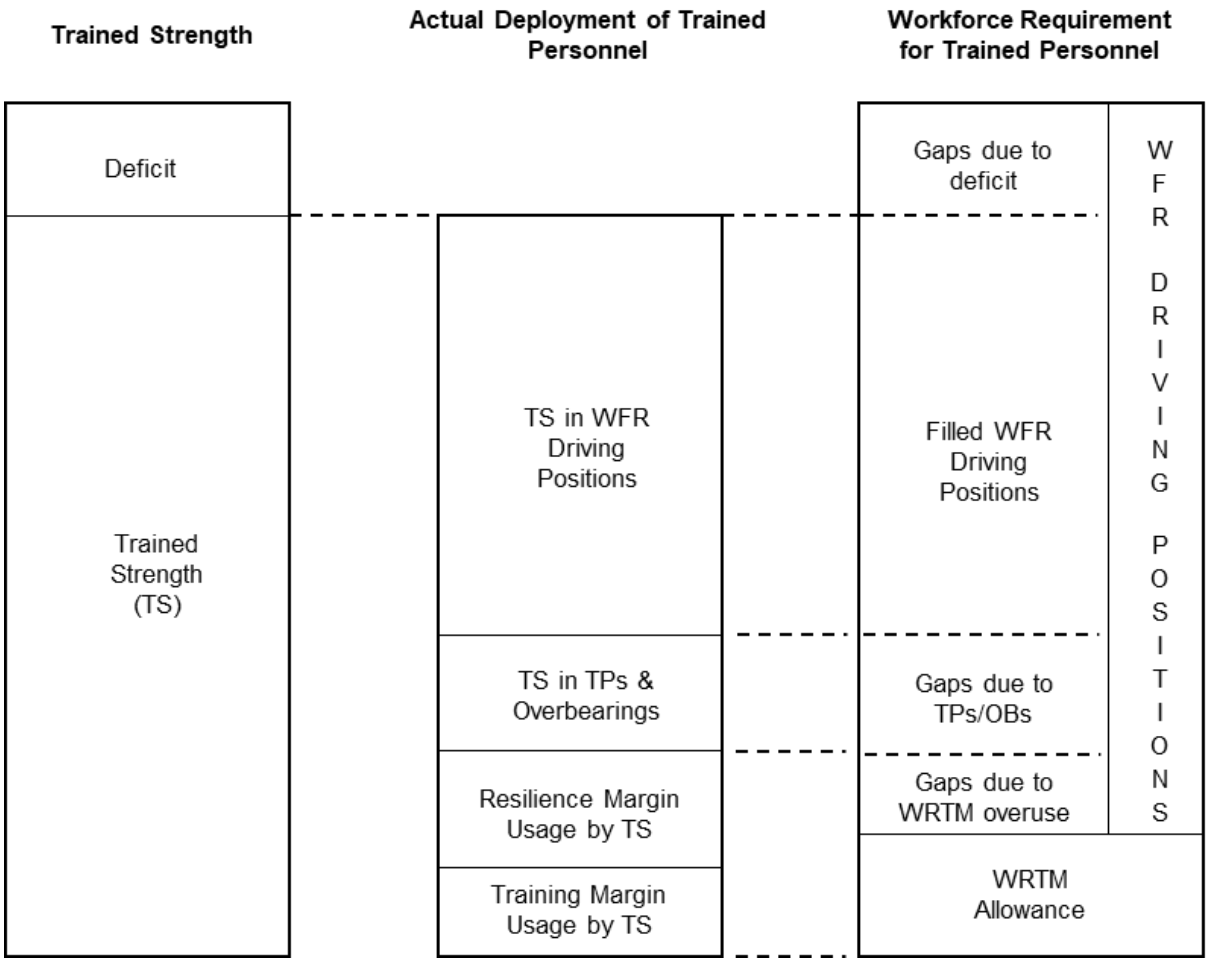
e. **Wastage Other Than Through Notice.** Rates of discharges for reasons outside the control of the Service are carefully monitored and placed as an assumption in the Planning Models. These rates are fairly consistent and low. Medical discharge may be directed by RN Medical Employment Boards (RNMEB), following RN Medical Boards of Survey (MBOS). Run monthly, except in August, December and April, these boards assess the suitability of permanently downgraded personnel for further employment in the Service. A detailed description of regulations and procedures may be found in BRd 1991 Chapter 8.

f. **Return of Service.** A return of service applies for many courses in recognition of the investment made in the individual. Promotion does not carry any return of service. Chapter 53 contains detailed regulations. In view of the relatively frequent changes, it is recommended that recent DINs and RNTMs are also scrutinised.

0309. Gapping and Workforce Capability Gaps (WCG) (*formerly known as Pinch Points*)

a. **Gapping.** Despite the provision of personnel to meet the WFR, gaps will usually still occur. Firstly, there may be a shortage of Trained Strength compared with the WFR. Secondly, allowance is not made for all Margin usage, so total Margin usage will nearly always be larger than Margin allocation. Thirdly, there will always be a mix of surpluses and deficits, reflecting a mismatch at rank and specialisation level between the actual deployment of trained personnel and WFR. Finally, personnel filling Temporary Positions (TP) (see Para 0203.b(4)) or engaged on Augmentation tasks are not allowed for in the Workforce Requirement. Figure 3-3 illustrates - but not to scale - how these elements might contribute to overall gapping levels.

Figure 3-3. Gapping in the RN and RM



b. **Usable Strength.** The usable strength is "The number of individuals in the military workforce who are trained and capable of performing a role in some capacity" and is a function of the number of the trained strength minus those who are not employable in any capacity owing to their status at the time. This is the definition that should be used in the formulation of Workforce Capability Gaps and other centrally reportable products.

Usable Strength = Total Full time Trained Strength - Non-Employable Personnel

c. Non-Employable Personnel is strictly defined as:

(1) Personnel who are MND or MLD where they cannot work in any capacity. (This pertains to personnel within the MA7 medical margin within Navy TLB).

(2) Personnel on Terminal Leave.

(3) Personnel on Statutory Maternity Leave

(4) Personnel Absent without Leave (AWOL)

d. **Deployable Strength.** Whilst usable strength defines those who are directly non-employable, deployable strength is "The number of individuals in the military workforce who are immediately deployable and employable on the front line".

Deployable Strength = Usable Strength – Non-Deployable Personnel

e. Non deployable personnel are defined as personnel with:

(1) Non-deployable margin positions (Training/Post Operational Tour Leave (POTL) etc);

(2) A medical category equal to or less than L3(RM)/M3(RN);

(3) Personnel restricted shore by Sea/Shore ratio;

(4) Shore based Person in Dual Parental Service Couples (previously SWDC);

(5) Non longer suitable for branch medically (e.g. TMU Diving);

(6) Within the last 6 months of service;

(7) On a Career Intermission.

f. Workforce Capability Gaps (WCG)**.** The WCG process is a key component of SWP Gap Analysis following Baselining and Demand / Supply analysis. This process is used to provide a systemic understanding of where there are mismatches in the supply and demand for workforce capabilities that are, will or may impact on the delivery of Defence Outputs (now or in the future); or where outputs are being maintained but with a detrimental impact on the people in that cadre.

g. The WCG process seeks to understand the likelihood and severity of both current issues and/or future risks and helps us to understand and to mitigate Defence people risks as part of the Defence governance process.

0310. Costing Personnel and the Annual Budgetary Cycle Process

a. Defence Workforce Planning Instructions (DWPIs) issued by FinMilCap annually, provides guidance on TLB Workforce freedoms and constraints as the MoD transitioned from previous structural headmarks accounting to Workforce Cost Envelope (WCE) allocations. TLBs need to remain within their WCE and can veer and haul workforce as needed within the confines of the WCE. Despite this approach, Head Office will maintain the Workforce Requirement Planning Baseline (WRPB) relating to the level of regular military workforce (by TLB) required to deliver force structures and to show the annual change resulting from changes to input assumption because of the ABC process. This approach does not constrain growth; it simply means that growth in the planned number of regular military workforce driving positions should only occur if TLBs have the supporting WCE or if there is an expectation that a Centre funded WCE uplift will be provided as part of the ABC.

b. Under ABC process, each TLB reassesses its personnel costings for the forthcoming ABC period. Bids are made on the basis of the actual personnel that the TLB expects to have (i.e. the Forecast Strength) and not the Workforce Requirement. In order to do this, the TLB needs information on the personnel costs associated with each of the TLB's employers. The information required to assemble realistic costings for financing its uniformed personnel includes:

(1) The level of personnel detailed in the Establishment (Permanent positions on the TLB's Trained Strength), noting how this changes throughout the ABC period as new positions start and existing ones are end-dated - i.e. the Live Workforce Requirement.

(2) The anticipated Strength, by judging how much the unit expects to be gapped or overborne over the period (TLB costs include all those in Temporary Positions, donated as temporary augmentees and over bearings.)

(3) The Margin Usage associated with its personnel for which the TLB expects to be charged. This covers the Margin Workforce Requirement which is planned for and costed.

(4) The capitation rates associated with the above personnel. These are dependent upon rank, arm, Profession and specialisation. They will also vary with TLB not least because of relative seniority of personnel and the likelihood of RRP.

c. The personnel numbers forecasting process, and its accuracy, is essential in determining the personnel costs for the Forecast of Outturn (FOO), monthly Accounting Period (AP) and the ABC bid/baseline. The PL plays a key function in this, which in turns feeds into setting both GTS targets and hence UTS numbers. By applying UTS capitation rates to the numbers, the UTS costs can also be calculated.

d. The PPO plays a key part in the costing process in three ways:

(1) Ensuring that the individual bids from all employers of RN personnel, including the Workforce and Resilience Training Margin, when added together, match the forecast of total Trained Strength. This is achieved through the ABC process. (IY personnel balance is achieved through TLB Strategic Workforce Planners through the use of like-for-like personnel compensators to ensure no growth in personnel numbers or costs.)

(2) Estimating the size and distribution of gaps, surpluses and Margin usage between TLBs, by using historical records and forecast trends. This information is passed to the TLBs in order to assist in the compilation of their personnel costings.

(3) Ensuring Professions structures are sustainable, both structurally and numerically.

e. The PPO recognises the need to provide information to TLBs on the probability of their personnel requirements being met, the degree to which they may be gapped and their probable Margin costs.

f. Individual TLBs play a key role in costing personnel during the ABC process, using locally-derived methods, and taking account of a number of factors that will determine the cost/savings profile over the ABC. The factors are similar to those used by PPO staff for personnel planning.

SECTION 2 - MARITIME RESERVE PERSONNEL

0311. Personnel Considerations in the Maritime Reserve

The following factors determine the personnel requirements for the RNR and RMR:

a. **Personnel Ceiling.** The Reserves Personnel Ceiling for the RNR/RMR is agreed and authorised by Parliament. The ceiling represents the total number of Naval Volunteer Reservists that may be borne on the Active List (Officers) or serve on RNR/RMR Engagements and Extensions of Service (Other Ranks) at any one time, both Trained and Untrained.

b. **Personnel Requirement.** The total requirement (Workforce Requirement) for trained personnel is based on the following:

(1) **Operational Task Requirement (OTR).** The OTR is determined by Functional Employers based on personnel requirements.

(2) **Margin.** A margin which is added to the OTR to reflect the fact that, in the event of call-out, a proportion of personnel will inevitably seek exemption or deferral.

(3) **Volunteer Contingency Quotient (VCQ).** VCQ is added to the OTR and Margin to enable Capability Managers to meet the additional personnel requirements for exercises and other contingencies where compulsory call-out cannot be expected and where the numbers defined as OTR plus Margin are insufficient.

(4) **Trained Strength.** The total number of trained officers and ratings considered able to meet the Operational Performance Statements set by Functional Employers. Ideally, the Trained Strength should match the Personnel Requirement in each category, by rank/rate and branch/specialisation.

(a) In the RNR this is normally Lieutenants and above, and Able Ratings who have completed Initial Branch Training.

(b) In the RMR this is normally all ranks who have successfully completed Royal Marine Phase 1 and 2 training.

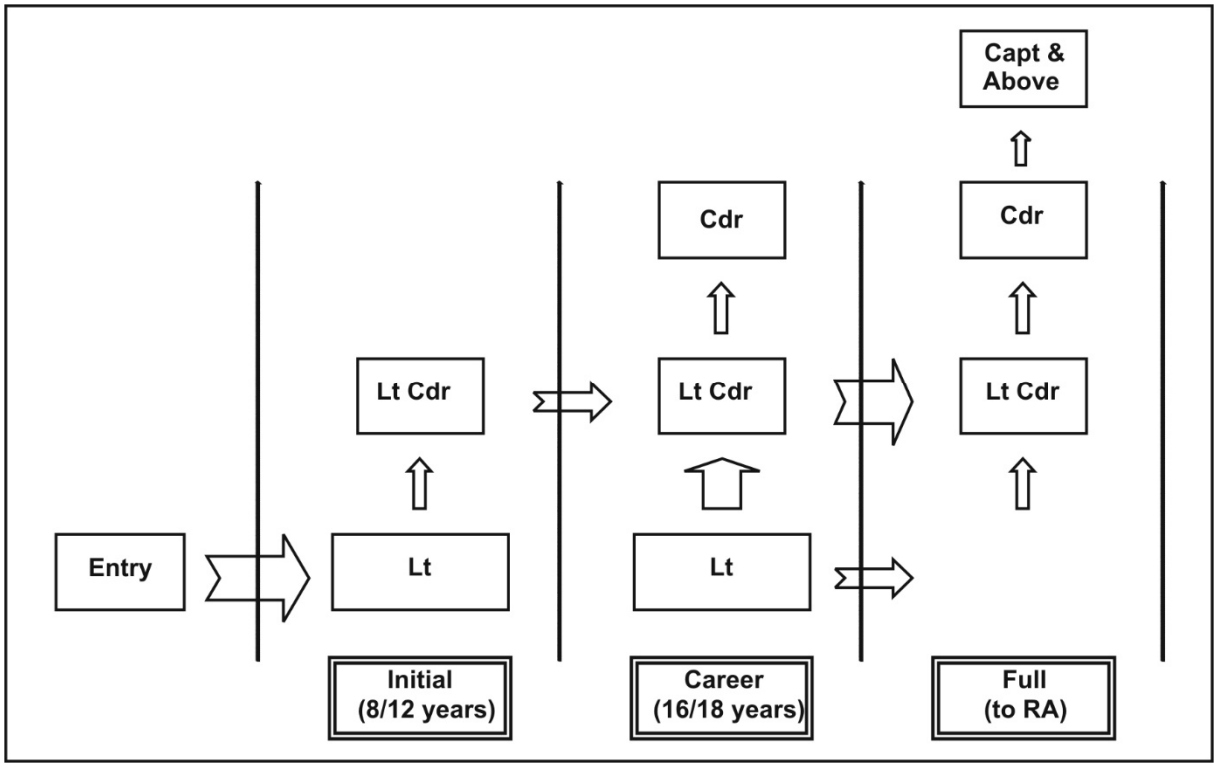
(5) **Untrained Strength.** The total number of personnel in the training pipeline necessary to maintain the Trained Strength at a satisfactory level. The combined Trained and Untrained Strength must not exceed the authorised Reserves Personnel Ceiling.

ANNEX 3A

COMMISSION STRUCTURES

The following diagram illustrates an Officer Commissions structure and transfer paths (RM equivalent ranks are assumed). There are variants of this structure that use different lengths of Initial Commission.

Figure 3A-1. Commission Structures



Note. *Bigger arrows indicate the major flow routes.*

ANNEX 3B

PERSONNEL MARGINS AND COSTING

1. Margin Definitions

a. Care is needed in work concerning the Margin, to identify whether the issue concerns Workforce Resilience and Training Margin (WRTM) Workforce Requirement, (which was previously known as Manning and Training Margin (MTM)), WRTM usage or both. Workforce Requirement (WFR) is considered as a single entity - the WRTM, while usage is sub-divided into two categories: Training Margin (or, previously, Higher Training Quota (HTQ)); and Workforce Resilience Margin. All usage is defined in Tri-Service agreed Margin Area (MA) numbers to which personnel are assigned. The MAs currently used are listed at the end of this Part, in Table 3B-1 and Table 3B-2.

b. **Margin Requirement.** Previously calculated as separate Workforce Resilience and Training components, WRTM is now representative and based on analysis of all Margin usage. The WFR is defined in a number of separate Establishment Lists that are currently managed by Dir P&T staff externally to JPA, and the WRTM allowance totals are added to the Planning Workforce Requirement (PL); these aim to provide some of the extra numbers needed in the Liability to compensate for those who are removed from Unit Positions for a number of discrete reasons. The WRTM allowance is shown for each Profession and specialisation at each rank/rate level. It is calculated on the broad basis that a relief for an individual should be provided if there would otherwise be an absence to an agreed minimum of at least three months or where absences of less than three months consistently and predictably place an ongoing demand on personnel within a category. WRTM numbers take account of the aggregate demand. The size and breakdown of the allowance is recalculated periodically. Reasons for WRTM include pre-joining training for sea service (PJTs), Post Operational Leave, career training, educational training such as MBAs, long term sickness and Terminal Leave.

c. **Margin Usage.** When personnel are placed in the Margin for any reason, they may be assigned or Move and Tracked to an MA. Margin usage is broken down in three ways: by type of absence (Workforce Resilience or Training Margin); by type of position; and by funding authority (PPO or employer). MAs differentiate between each of those components and in further detail, as listed at Table 3B-1 and Table 3B-2. Dir P&T monitors margin usage and applies the agreed WRTM to the Planning Workforce Requirement (PL). The following example may help to illustrate the thought process involved. If an individual is too ill to remain in their unit, the CM decides whether to arrange a relief or to leave the position gapped. This determines into which MA the individual should be placed. If the individual is likely to be absent for less than three months, unless in a critically important operational position, benefit to the gapped unit would normally be insufficient to justify finding a suitable replacement. A replacement might need to be assigned at short notice (possibly leaving a position gapped), provided with any necessary training, moved to the position, and moved away again within three months. However, if the individual is likely to be absent from their position for more than three months, it is reasonable to expect that a relief should be provided.

2. Margin Size and Shape

a. The number, rank and specialisation of those 'in the Margin' at any given time varies considerably and is very difficult to forecast with certainty, although total usage is usually stable; a toolset providing the previous 24 months of usage and the allowance is updated periodically. To attempt to provide a reserve of people of exactly the right match for every such occasion would neither be sensible nor practical. Agreeing the appropriate size of the WRTM Workforce Requirement is important, as it creates a funding overhead and, also, it may cause the system to grow people that do not match Margin usage, resulting in both deficits and surpluses at different rank/rate/Profession/specialisation levels even though the total WRTM allowance is less than the total used. The rationale differentiates between those events which are measurable and predictable and over which the Personnel Planner has no control and those events which are theoretically subject to management control and do not create an authorised and funded overhead.

b. From the MAs that are counted for Margin Workforce Requirement, it is possible to calculate or estimate from experience, with reasonable accuracy, the numbers in each rank and rate that should be added to the Workforce Requirement.

c. **Seagoers Leave (SGL).** SGL is an example over which Dir P&T has no control (it is a condition of service), but it is reasonably predictable and consistent over time, so it legitimately contributes to the Margin Workforce Requirement. To calculate, for example, the SGL Margin for POET(ME)s, the total number of POET(ME)s serving at sea can be determined from JPA; then, knowing the average length of a sea assignment and the entitlement to SGL, it is comparatively simple to calculate how many additional POET(ME)s are required in the Service to compensate for those on SGL at any one time; this number contributes to the Margin Workforce Requirement. While this appears straightforward, even with something as predictable as SGL, there are complications, as the requirement for additional people is not evenly distributed throughout the year – for example, traditionally the requirement peaks around the school holiday periods when the bulk of turnovers occur and individuals take their outstanding leave.

3. Funding and Paying for the Margin

Unlike occupied positions in Establishments, which are paid for entirely by the owner of the UIN specified against the organisation concerned, some elements of the Margin are paid for by the employer and some by Navy Command on behalf of the PPO (2SL). The breakdown of 'who pays for what' is also shown in Table 3B-1. Because Margin usage is the most volatile component of the workforce equation it is therefore the most difficult to estimate and cost by TLB and by category. Excessive use of the Margin can incur costs to one TLB while leading directly to gapping in another; this may necessitate a re-distribution of (rather than additional) resources. Whilst TLBs cost the workforce resources required by their programmes on the basis of forecast average strength during the scrutiny process, towards the end of each ABC planning round it is necessary for Dir P&T and Dir Fin to reconcile the TLBs' costings in order that the total of all the individual bids matches Dir P&T's global estimate. Cash allocations and risk assessments are then made based on this reconciled count.

4. Margin Efficiency

Improvement of the efficiency and effectiveness of Margin allowance and usage helps to maximise the number of filled Positions. This can be achieved by concentrating on two aspects: by improving the 'match' between the planned Margin and those in the Margin most likely to require reliefs; and by reducing usage of the Workforce or Training Margin. This twin track approach is illustrated in Figure 3B-1.

Figure 3B-1. The Approach to Reducing 'Margin-Derived' Gapping

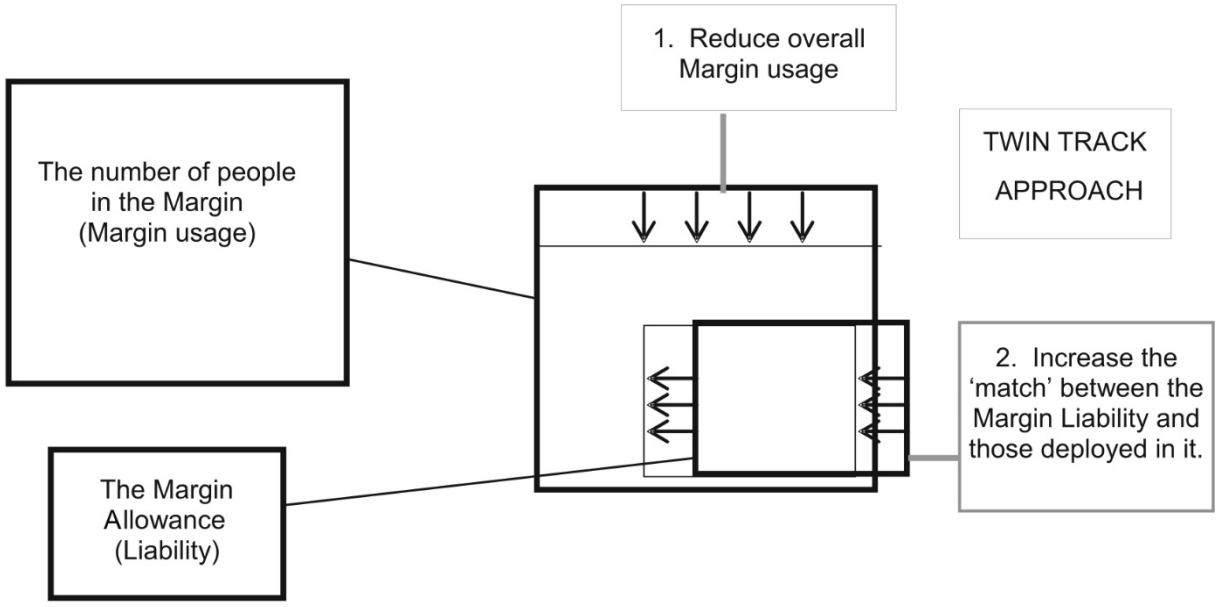


Table 3B-1. Royal Navy WRTM Assignment Categories

Category (Note 1)	Term	UIN	Definition	Trigger Point for Assignment (Note 3)	Trigger Point for Costing	Paid by (Note 4)	Comment/JPA Structure
MA1	Career Courses	N0079A	WRTM for a Service Person on a Career Course that in duration meets or exceeds the single Service trigger point for assignment.	30 days	Day 1 of course	PPO	Pool position per course type in each Naval and joint training unit
MA2	Non-Career Courses	N0079B	WRTM for a Service Person on a non-Career Course that in duration meets or exceeds the single Service trigger point for assignment.	30 days	Day 1 of combined courses over 30 days	PPO except where activity occurs within current unit without reassignment, then individual should be Move and Tracked and paid for by parent TLB. Note: the margin only funds courses for sea service.	Pool positions per training school in each Naval Base and joint training unit
MA4A	Maternity Leave	N0079D	WRTM for a Service Person on authorised maternity leave having met the qualifying criteria as defined in JSP 760 Chapter 24.	One day	Day 1	PPO except where activity occurs within current unit without reassignment, then individual should be M&T and paid for by parent TLB.	At each of three NB PSGs,
MA4B	Adoption Leave	N0079D	WRTM for a Service Person on authorised adoption leave having met the qualifying criteria as defined in JSP 760 Chapter 25	One day			
MA4C	Shared Parental Leave	N0079D	WRTM for a Service Person on authorised unpaid leave having met the Parental Leave qualifying criteria as defined in JSP 760 Chapter 27.	One day			

(Continued)

Table 3B-1. Royal Navy WRTM Assignment Categories (*Continued*)

Category (Note 1)	Term	UIN	Definition	Trigger Point for Assignment (Note 3)	Trigger Point for Costing	Paid by (Note 4)	Comment/JPA Structure
MA5	Terminal Leave	N0079E	WRTM for a Service Person on authorised paid leave, in their last 28 days of service in the UK, having met the Terminal Leave qualifying criteria as defined in JSP 760 Chapter 19.	One day	Day 1	PPO (see Note 3)	NB PSGs, RNRC Hasler and RM Cdo units
MA6A	Awaiting Assignment	N0079F	WRTM for a Service Person who is awaiting assignment	30 days	Day 1	PPO	As deemed appropriate and at each of three NB PSGs[1]
MA6B	Miscellaneous - Short Project/Study Diversion	N0079F	WRTM for a Service Person employed on a project or a study.	30 days			Not in use
MA6C	Miscellaneous - Display Team	N0079F	WRTM to enable a Service Person to take to take a specified period of time away from their mainstream duties in order to undertake duties on a specified display team.	30 days			Only at TEMERAIRE
MA6D	Miscellaneous - Elite Sports Diversion	N0079F	WRTM for a Service Person who is not employable as they have an authorised full-time commitment to training for sport (at present special paid or unpaid leave is used for this activity as defined in JSP 760 Article 2.026).	30 days			Only at TEMERAIRE

(Continued)

Table 3B-1. Royal Navy WRTM Assignment Categories (*Continued*)

Category (Note 1)	Term	UIN	Definition	Trigger Point for Assignment (Note 3)	Trigger Point for Costing	Paid by (Note 4)	Comment/JPA Structure
MA6E	Miscellaneous – Missing in Action	N0079F	WRTM for a Service Person that is Missing in Action (MIA).	The Service Person will be assigned to the WRTM once they have been declared as MIA.			Only at NELSON
MA6F	Detainee	N0079F	WRTM for a Service Person that is a Prisoner of War (PW) and or a detainee (legal and illegal).	The Service Person will be assigned to the WRTM once it is assumed/ known that they are a detainee as judged by the chain of command.			Only at NELSON

(Continued)

Table 3B-1. Royal Navy WRTM Assignment Categories (*Continued*)

Category (Note 1)	Term	UIN	Definition	Trigger Point for Assignment (Note 3)	Trigger Point for Costing	Paid by (Note 4)	Comment/JPA Structure
MA7A	Medical - Long Term Sickness.	N0079G	WRTM for a Service Person who for medical reasons cannot be employed in their current job and are not able to be assigned to another position; the absence duration is expected to meet or exceed the single Service trigger point for assignment.	Three months	Three months	PPO except for squadded JRs and personnel where activity occurs within current unit without reassignment: individual should be M&T and paid for by parent TLB. (see Note 4)	At each of three NB PSGs, two Air Station PSGs, RNRC Hasler and each RM Recovery Troop
MA7B	Welfare Diversion	N0079G	WRTM for a Service Person who for welfare reasons (as defined in JSP 760 Chapter 22) cannot be employed in their current job and are not able to be assigned to another position, and the duration is expected to meet or exceed the single Service trigger point for assignment.	There are no fixed rules for assignment thresholds; it is an individual career management issue as the CM will try to employ the Service Person within their welfare limitations			
MA7C	Discipline - Under Sentence Retained	N5370J	WRTM for a Service Person who is not employed due to being formally held under custody at the Military Correction Training Centre Colchester, and who is to be retained upon completion of their period of custody (JSP 760 Chapter 18), and their custody duration meets or exceeds the single Service trigger point for assignment.	One day	Day 1	TLBH	Only at Military Correction Training Centre Colchester

(Continued)

Table 3B-1. Royal Navy WRTM Assignment Categories (*Continued*)

Category (Note 1)	Term	UIN	Definition	Trigger Point for Assignment (Note 3)	Trigger Point for Costing	Paid by (Note 4)	Comment/JPA Structure
MA7D	Discipline - Under Sentence Discharged	N5370J	WRTM for a Service Person who is not employed due to being formally held under custody at the Military Correction Training Centre Colchester, and who is to be discharged upon completion of their period of custody (JSP 760 Chapter 18), and their custody duration meets or exceeds the single Service trigger point for assignment.	One day			
MA7E	Discipline - Case Pending	N0079G	WRTM for a Service Person who is categorised as Discipline - Case Pending who is unable to be assigned to another position.	There are no fixed rules for assignment thresholds; it is an individual career management issue to liaise with the PSG.	Three months	PPO except for squadded JRs and personnel where activity occurs within current unit without reassignment: individual should be M&T and paid for by parent TLB. (see Note 4)	At each of three NBs PSGs
MA10A	Miscellaneous - Exercise Diversion	Own Unit's UIN	WRTM to enable a Service Person to take a specified period of time away from their mainstream duties in order to meet the requirements of a specific exercise.	30 days	Day 1	TLBH	Pool position at all units employing RN personnel
MA10B	Miscellaneous - Event Diversion	Own unit's UIN	WRTM to enable a Service Person to take a specified period of time away from their mainstream duties in order to meet the requirements of a specific event.	30 days			

(Continued)

Table 3B-1. Royal Navy WRTM Assignment Categories (*Continued*)

Category (Note 1)	Term	UIN	Definition	Trigger Point for Assignment (Note 3)	Trigger Point for Costing	Paid by (Note 4)	Comment/JPA Structure
MA11A	Unpaid Leave	N0079L	WRTM for a Service Person on authorised unpaid leave for an exceptional absence as defined in JSP 760 Chapter 4.	One day	Day 1	TLBH	At each of three NB PSGs
MA11B	Miscellaneous - Career Breaks	N0079L	WRTM for a Service Person to take authorised unpaid leave for a specified period of time out of their Service career to meet personal objectives or to deal with personal circumstances which they would otherwise be unable to do using leave entitlements.	One day			
MA12	Discipline – AWOL	N0079M	WRTM for a Service Person that is absent from their place of duty without their line manager's approval and where they have not informed the unit of their reason for non-attendance, and they are not employed due to being formally categorised as AWOL (as defined in JSP 760 Chapter 17), and the absence duration meets or exceeds the single Service trigger point for assignment.	One day	Day 1	TLBH	Only at NELSON

Table 3B-2. Other Tri-Service WRTM Categories (Absence Types)

Category	Term	Definition	Remarks
MA4	Paternity Leave	WRTM for a Service Person on authorised paid leave having met the Paternity Leave (paid) qualifying criteria as defined in JSP 760 Chapter 26.	This is a JPA absence type and there is no assignment to the WRTM.
MA6	Post Tour Leave - Sea Goers Leave	WRTM for a Service Person on authorised paid leave having met the Post Tour Leave/Sea Goers Leave qualifying criteria as defined in JSP 760 Chapter 12.	This is a JPA absence type and there is no assignment to the WRTM.
MA6	Post Tour Leave - Foreign Service Leave	WRTM for a Service Person on authorised paid leave having met the Post Tour Leave/Foreign Service Leave qualifying criteria as defined in JSP 760 Chapter 10.	This is a JPA absence type and there is no assignment to the WRTM.
MA6	WRTM Post Tour Leave - Post Operations Leave.	WRTM for a Service Person on authorised paid leave having met the Post Tour Leave/Post Operations Leave qualifying criteria as defined in JSP 760 Chapter 11.	This is a JPA absence type and there is no assignment to the WRTM.
MA6	Post Tour Leave - Relocation Leave	WRTM for a Service Person on authorised paid leave having met the Re-engagement Leave qualifying criteria as defined in JSP 760 Chapter .	This is a JPA absence type and there is no assignment to the WRTM.

Notes:

1. Revised WRTM (formally MTM) categories were introduced in June 2010, following a tri-Service requirement to accurately capture WRTM usage in greater detail, (Reference 2010DIN01-100 Tri-Service Workforce and Training Margins).

2. There are two types of WRTM Category, those in which individuals will be assigned into (Table 3B-1), and those in which the individual will be recorded as absence (on leave), by their unit HR Team, whilst in their current assignment (Table 3B-2).

3. Individuals are only to be assigned into the WRTM if they are expected to remain there for a period equal to or greater than the Assignment Trigger Point. For shorter periods the individual should be move and tracked only.

4. An assignment, but not a Move and Track (M&T), drives costs. Therefore, personnel costs remain with the UIN of the assigned Position, even after an M&T into a MA that is shown above as being funded by the PPO.

5. Personnel on Resettlement will remain assigned to their existing Positions, irrespective of whether reliefs have been provided to undertake the Positions' tasks.

6. Need to capture medical downgrades etc. less than three months from other JPA data e.g. MEDCAT. Service Person remains in unit or M&T to hospital, for example, so costs remain with parent TLB. The three month threshold will be reviewed by Dir P&T after further experience with JPA.

7. Untrained strength does not count towards the Workforce Resilience and Training Margin.

CHAPTER 4

Important Note from Head of Recruitment and Attraction on Recruiting Instructions

It is often necessary to implement Recruitment and Attraction policy changes outside of BRd 3(1)'s routine updates. This is done via Recruiting Instructions (RIs), which are provided to inform and direct the Recruitment Force, Careers Advisers (CAs) and Specialist Attract Teams (SAT) prior to being subsumed into this BR. Consequently, RIs should always be consulted in conjunction with this publication and other related RN and tri-Service policy.

CHAPTER 4

INTRODUCTION AND OVERVIEW

0401. Application of Recruiting Rules

All guidance outlined in this part of BRd 3(1), unless otherwise stated, apply to all candidates regardless of application to Regular Service (Royal Navy (RN), Royal Marines (RM) the Royal Fleet Auxiliary (RFA)) or the Maritime Reserve (MR). Any changes to recruiting policy will be announced via Recruiting Instructions (RI) or RNTMs and are to be adhered to until included in the next revision of this BRd. A plan of the structure of part 4 is here:

Structure Diagram (Forms)

0402. Recruiting Requirements

In order to achieve Navy Command HQ objectives through delivery of the Director People and Training's Effects, the Royal Navy requires the ability to identify, attract and recruit sufficient eligible, motivated and capable Service personnel from the UK and Commonwealth societies, to join the Trained Strength.

0403. Royal Navy Recruiting Policy

Royal Navy Recruitment and Attraction (R&A) is to:

a. Deliver recruits that reflect the eligible population of UK and Commonwealth societies, through the implementation of a recruiting process that is inclusive, fair and free of bias.

b. Deliver recruits that meet the quality requirements of the RN, through the operation of validated assessment and selection processes.

c. Ensure potential recruits, from initial contact to entering the RN, are well informed and aware of the loyalty, determination and personal commitment required of them to join the RN as a fighting Service; to enable them to make an informed career choice.

d. Ensure potential recruits are fully informed of the employment options available, whilst having their expectations managed appropriately and their eligibility assessed. Achieving realistic, appropriate and accepted employment in the role of their preference is paramount in motivating a potential recruit to persevere with the recruiting process; to succeed in their training and subsequently, be retained on the trained strength.

e. Provide effective support to candidates who are committed to joining the RN to prepare them for entry and initial training, and provide realistic expectations of life and employment in the RN.

f. Provide potential recruits with opportunities to interact with RN personnel. These contacts are a powerful tool that can: dispel misconceptions, convert awareness into a desire to find out more, and may be the final motivator that leads an applicant to join. These constitute an integral part of RN outreach marketing activities and will be supported by the Fighting Arms.

g. Provide the 'gatekeepers' of potential recruits (the families, friends, and community leaders) with sufficient information to enable them to support their young peoples' choices and understand the commitment necessary to undertake a career in the RN.

h. Conduct research to determine that the recruiting message reaches the target audiences in an appropriate and acceptable manner, whilst complying with HM Government, MoD and Navy Command standards for media and public engagement.

i. Develop and utilise appropriate media to distribute the RN recruiting message to target populations and to ensure regular revision of this to recognise technological development, research findings and marketing initiatives.

j. Comply with all relevant legislation of MoD and Navy Command.

k. Ensure that media messages / activity raise awareness of the RN in pools of potential recruits, and are:

(1) Included in Navy Command strategic communications and engagement plans.

(2) Provided to DDC (Public Relations) to influence and enable coherence of their activity.

(3) Reflective of Navy Command Work Force priorities.

(4) Co-ordinated with Navy Command Youth and Cadets strategy, to ensure a coherent approach is taken to encourage this important pool of potential recruits.

(5) Distributed through appropriate communication channels for targeted marketing campaigns.

(6) Compliant with Cabinet Office, MoD and Navy Command direction.

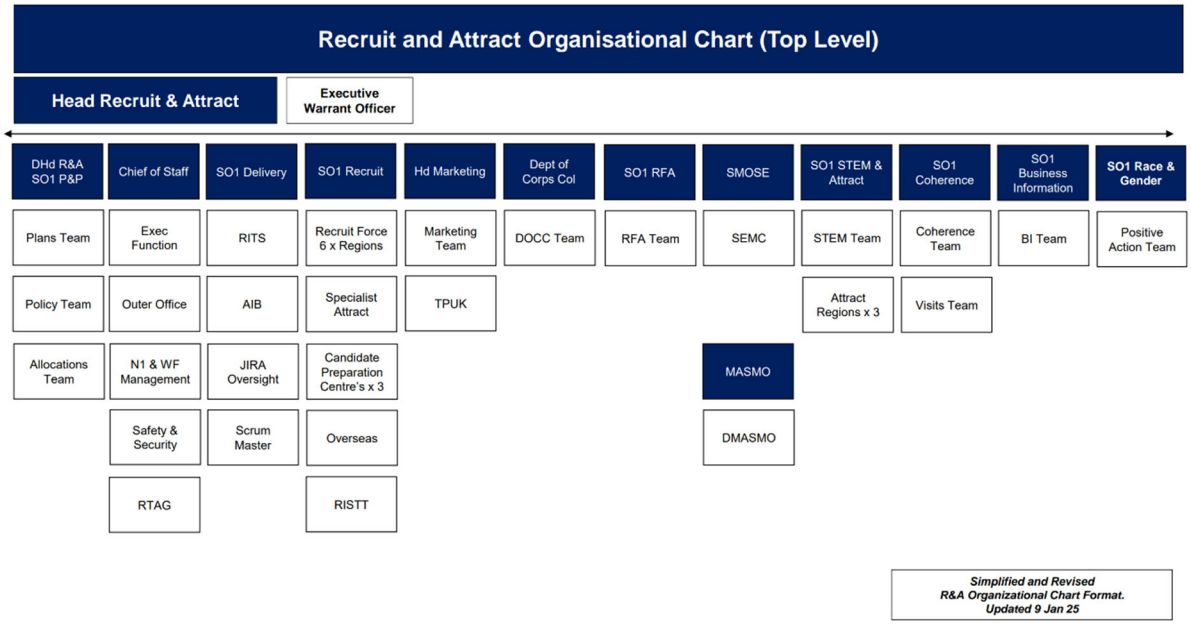
0404. Head of Recruitment and Attraction - Functions and Responsibilities

Head of Recruitment and Attraction (Hd R&A) is responsible for interpreting tri-Service recruiting policy to design and implement a recruiting strategy to deliver RN recruiting targets. This is achieved through the provision of a validated recruiting process and its key enablers (training, information systems, marketing tools, visits), advising on resource issues, coordinating national and cross-regional boundary matters, the conduct of market research, and providing enabling contracts for Engagement and Outreach activity. R&A also provides a specialist recruiting role for RFA and medical personnel.

0405. Recruitment and Attraction Organisation

Figure 4-1 below illustrates the composition of RN R&A:

Figure 4-1. R&A Organisation



0406. Candidate Definitions

a. **Candidate.** A generic term for any individual in the recruitment process, irrespective of where they are in the recruitment journey.

b. **Contact.** A member of the target audience who seeks information about a Service career. They become a contact once personal details, to enable future correspondence, have been recorded to an electronic database and they have agreed to correspond in the future.

c. **Applicant.** An individual who has successfully submitted an application form.

d. **Potential Entrant.** An individual who has successfully completed the selection process (assessment, medical, fitness, interview etc.) and has accepted an offer to join the Service.

e. **Entrant.** A candidate who has entered the Service.

f. **Re-entrant.** A candidate who has former service in the UK Armed Forces (UKAF).

0407. Legislative Exclusions

a. There are some exemptions to the Equality Act 2010 that apply to the Armed Forces. Most pertinent to recruitment, is that Service in UKAF is excluded from the Equality Act employment provisions (Part 5) for the protected characteristics of disability and age (footnote Schedule 9 paragraph 4(3) of the Equality Act 2010). (Employment as a Ministry of Defence civilian, without a rank, should still fall within the Equality Act). Other qualified exemptions also exist, as do exemptions on the basis of national security. If in doubt legal advice can be sought from NLS SO1 Employment Law (NAVY LEGAL-EMPLOYMENT LAW SO1).

b. RFA recruiting is not exempt from the law that allows the RN to legally discriminate and exclude candidates for certain protected characteristics. The criteria and entry standards for the RFA, is detailed in chapter 14.

0408. Proposals for Change to Recruiting Process

Any changes to the Recruitment policy are co-ordinated centrally under the oversight of Deputy Head R&A (DHd R&A), to ensure coherence. Guidance on how to propose changes to the recruitment process, including changes that will result in the generation of Recruiting General Memorandums (RGM), Recruiting Instructions (RI), amendments to the Recruiting Operations Manual (ROM) or changes to BRd 3(1) part 4, are to be directed to NAVY R&A Policy SO2, who will liaise with the relevant Subject Matter Experts within the R&A organisation, to review the proposal and include any approved changes into extant recruitment policy.

0409. Recruiting Operations' Manual (ROM) - Function and Referencing

a. The ROM augments BRd 3(1), part 4 chapters, to provide the extant mandatory desk level instructions for R&A processes and procedures to the Recruitment Force, Attract Teams and Royal Naval Careers Service (RNCS) personnel, to achieve R&A's objectives.

b. The ROM is maintained by the Recruiting Force HQ team (RF HQ), to provide a standardised governance structure and processes to support Recruiting Staff to meet the operational intent. The document is developed against a process of 'learning from experience' and continuous improvement and is therefore directly influenced by input from the RF, RNCS and assurance visits completed by the Recruiting Training Assurance Group (RTAG).

0410. Recording of Candidates Complaints About the Recruiting Process

Complaints against RF personnel or the R&A process should be managed at the lowest level, where feasible. Any complaints should be recorded in individual Complaints Logs for each region. and escalated via the chain of command and directed to SO1 Recruitment as the CO RF via the XO RF as appropriate, noting that some information could be sensitive. The escalation process does not remove the autonomy of the Senior Recruitment Officer (SRO), Recruitment Officer (RO), Recruitment Manager (RM) or Team Manager (TM) to deal with issues whenever possible.

The process to record formal candidates' complaints that cannot be addressed at lower level is:

a. The candidate is to write to R&A to state their complaint by either:

(1) A formal written letter posted directly to:

R&A Complaints and Feedback
Recruitment and Attraction
Room 202
Building 1 / 180
JAGO Road
HMNB Portsmouth
Hampshire
PO1 3LU

(2) An Email addressed to:

navyra-recruitmentcomplaints@mod.gov.uk

b. R&A HQ to issue confirmation of receipt via a holding letter within 5 working days of receipt.

c. The complaint is to be addressed within 20 working days. By exception, if a complaint cannot be addressed in this time, a further holding letter is to be provided to the candidate explaining the reason for delay**.**

d. Correspondence is to be sent via mail (signed for 1st class delivery), unless the complaint was received by email without a postal address, the relevant postal address in RITS is considered inaccurate, or a rapid response is essential.

e. All complaints are to be centrally recorded on a Limited R&A HQ SharePoint folder including dates of despatch.

f. All received correspondence is to be uploaded to SharePoint and MIS for historical capture.

CHAPTER 5

CAREERS COUNSELLING

0501. Initial Commission Periods (Officers)

a. **Initial Commission Stage.** Following the New Employment Model, from 1 Apr 15, all Royal Navy officers join on a 12-year Initial Commission Stage (ICS), with the exception of:

(1) Direct Entry Medical, Dental and QARNNS Officers - 6 years.

(2) Medical and Dental Cadets - 7 years.

(3) Chaplains - 6 years. RN Chaplains hold the Sovereign's Commission but no Naval rank; their status is defined in BRd 2.

b. **Career Commission Stage (CCS).** For those joining on or after 1 Apr 15, or transferring from an ICS (or equivalent commission) after this date, transfer to a CCS. This automatically extends an officer's career through to 20 years' service from the date of entry or until age 40, whichever is the later (subject to retirement age).

c. **Full Commission Stage (FCS).** Full Commission Stage (FCS) further extends an officer's career to a retirement age of 55.

d. See chapter 48 for more detail.

0502. Initial Engagement Periods (Ratings and Other Ranks)

a. Ratings and Other Ranks join the Royal Navy on a 12-year Engagement Stage 1 (ES1), with the possibility thereafter of transferring to an Engagement Stage 2 (ES2) - to 20 years' service or age 40, whichever is later – and then to Engagement Stage 3 (ES3). See chapter 48 for more detail.

b. All MR join for an Initial Engagement of 5 years with subsequent re-engagements every 5 years. Ratings/ORs over 40 will normally only be re-engaged until their 45th birthday. A separate application for an extension of service is required to serve beyond the normal retirement age of 55. More detail is at BRd 3(2), chapter 2.

0503. Profession and Role - General Guidance

a. Some candidates will be unaware of which professions and roles are available to them and may have limited knowledge of what they would like to do. These candidates will need specific and considerate counselling towards an appropriate profession/ role. All roles are outlined in the Careers' section on the Royal Navy website.

b. It is essential that, at the time of application, candidates are made aware of the full range of possibilities for which they are eligible and suitable. The Defence Aptitude Assessment will provide guidance on suitable roles, dependent on the candidate's achieved scores.

c. During career counselling, CAs must advise their candidates that not all roles may be available in every entry. If a candidate's first preference role becomes unavailable or is over-subscribed during their recruitment, the CA must advise them of this. CAs must not advise candidates that they will be able to transfer from their streamed role once in the Service.

d. Candidates who may be considered by Careers Staff to be more suitable for a profession/role other than the role chosen, based on eligibility and aptitude assessment, are to be carefully counselled and have alternative opportunities explained to them.

e. The final choice of profession/role must be left to the candidate. It must be a role for which they are eligible, suitable, and qualified. Waivers should not be authorised for over-subscribed roles.

f. RNR candidates are recruited to the Naval Service and only allocated on completion of Phase 1 Training – approximately 9 to 12 months after attestation. They may express a preference for a particular specialisation, but they are allocated as directed by the MR BM.

0504. Careers Advisers - Candidate Relationship Management (CRM)

a. In order to improve conversion rates of Expressions of Interest, enquirers will be initially categorised as per their Request For Processing (RFP) status. This categorisation will enable enquirers who have already decided on a role to have early interaction with Careers staff to start their recruiting journey without delay.

b. **Categorisation.**

(1) An 'Active' enquirer is an individual who is actively seeking a career in the RN; this could be online, a walk-in at an AFCO or at an event.

(2) A 'Passive' enquirer is an individual who has a latent interest in joining the RN, they too could be online, a walk-in at an AFCO or at an event.

(3) An 'Informed' enquirer is an individual who has researched their job choice and considers themselves to be eligible.

(4) An 'Ill-informed' enquirer is an individual who needs further careers guidance and should not yet submit an application.

c. It is vital to ensure that all eligible 'Active' enquirers are handed off as soon as they have made their MIS application to a CA for immediate processing. Enquirers who are confident they want to join the RN but are uncertain of their preferred profession, should be offered early interaction with a CA.

d. It is vital to ensure all 'Passive' and 'Ill-informed' enquirers are nurtured throughout the process and sufficiently engaged by the Contact Management Centre (CMC) and Recruiting Staff to make an informed career choice prior to commencing the application process.

e. Failure to make contact with enquirers is a main reason for loss of potential recruits. The CMC is contracted to adopt a multi-communication approach over a number of days to maximise success. This involves a combination of e-mail, text, and telephone contact. Specific effort is made to contact potential candidates for Recruitment Priority Group (RPG) roles.

f. **Withdrawal of Application.** If attempts to contact the candidate are not successful, or the candidate fails to respond to confirmed contact, iaw ROM the Recruiting Information Technology System (RITS) (MIS) record is to be withdrawn three days after the final contact attempt[1].

g. **Medical Advice.** Should the potential candidate, during discussion, disclose further medical information relating to their specific conditions, the CA must politely halt the conversation and clearly state that they are not medically trained and cannot offer advice on medical conditions.

h. The CA is to advise the candidate that they will be able to discuss all medical issues and concerns in detail during the Face to Face medical at their CPC or MedFit, which are conducted by qualified medical staff.

0505. Ratings and Other Ranks - Statutory Right of Discharge

a. Ratings/OR enlisting in the RN for the first time have a statutory right to claim discharge within their first 6 months of service, subject to completing 4 weeks of effective service (excluding leave periods and any forfeited service) from date of entry. Recruits who exercise this right will be entitled to release no later than 14 days after giving notice in writing to their Commanding Officer (see paragraph 5404). Ratings/ORs who re-enter the same service e.g., ex RN re-entering the RN, do not have this statutory right. Former RN ratings entering the RM and vice versa have this right of discharge.

b. Ratings/ORs whose 6 month option point has passed, but who are still under the age of 18 years, have a statutory right to end their service up until their 18th birthday by giving notice in writing to their Commanding Officer. In such cases, individuals may leave after a 3 month 'cooling-off period', or earlier if agreed between the recruit and Service authorities (see paragraph 5404).

[1] Number of attempts will vary according to candidate circumstance but must be at least 5 over a period of no less than a month. Attempts to contact the candidate should be made over all mediums available.

0506. Ratings and Other Ranks - Early Termination (Following End of Phase 1 and Phase 2 Training)

Having completed 6 months of service, or reached the age of 18 (if this comes after the end of the 6 month period), ratings and ORs must complete a minimum of 2.5 years' service from the point of becoming Gained to Trained Strength (GTS) before they are eligible to exercise their right to give 12 months' notice to leave the Service. Naval Nurse (Student) personnel must complete 3 years' Return of Service before they are eligible to apply for Early Termination (as outlined in chapter 53).

0507. Dietary Requirements (Health/Religion)

The RN aims to cater for all special religious dietary requirements where possible; generally, vegetarian options or halal / kosher meat is provided. Preparation of kosher food in strict observance of the Jewish faith cannot be guaranteed. Coeliacs and gluten intolerant sailors can be provided gluten-free options in many working environments (in line with medical limitations), but the possibility of minor cross-contamination cannot be excluded. Vegetarian, halal and kosher Operational Ration Packs are available when deployed on operations and exercises.

0508. Religion and Religious Observances

a. The RN places great importance on the spiritual development of Service personnel and is committed to giving individuals the opportunity to practise their religious observances wherever possible. A number of religious leaders act as advisers to UKAF on matters of Christian and non-Christian religious requirements. Every reasonable effort is made for personnel to have contact with their religious leaders and visit places of worship (e.g. a church, synagogue, mosque, temple etc.). Wherever practicable, areas for worship will be made available at all Service establishments, including in HM ships and submarines at sea.

b. Every effort is made to allow the celebration of religious festivals/holidays. In most circumstances, arrangements can be made for daily prayer, although this may not always be practicable. Muslims will normally be allowed to fast during Ramadan. In operational conditions or when the physical demands on an individual are high and fasting may prove hazardous, adherence may not be permissible.

c. For more details see Chapter 31.

0509. Specific Religious Dress

a. **General.** The RN recognises the need to observe specific codes of dress in accordance with a number of religious beliefs. Specific rules are detailed below. In general, no exceptions are made to standard Naval uniform regulations (see chapter 38, section 2). R&A HQ should be contacted in the event of any doubt regarding what can and cannot be worn.

b. **Sikhs.** In the RN, Sikhs are permitted to wear the 5 K's[2]; male Sikhs may also wear a turban. Some constraints regarding the wearing of a turban and keeping facial hair uncut do exist, and are as follows:

(1) **Turbans.** Some trades require specialist headgear to be worn, especially under operational circumstances. Examples of this are Commanders' helmets in armoured fighting vehicles, combat helmets, breathing apparatus (full hood) for fire-fighters, and flying helmets for aircrew in some types of aircraft. Turbans are incompatible with specialist headgear which must be worn on health and safety grounds. Male Sikh personnel may normally wear a patka under specialist headgear, however, this is not possible under a flying helmet which must be closely fitted to the contours of the head. Any aircrew with long hair may be required to have their hair cut short in order to achieve a satisfactory fit of an aircrew helmet.

(2) **Facial Hair.** For occupational or operational reasons, where a hazard clearly exists, personnel authorised to wear beards on religious grounds will have to be prepared to modify or remove them to such an extent as to enable the correct wearing of a respirator or breathing apparatus.

(a) **Aircrew.** It is unlikely that a male Sikh will be able to obtain an effective seal on his oxygen mask without trimming his beard.

(b) **Respirator.** An effective seal on a respirator can only be achieved when the skin is clean shaven. In an operational environment where there is an Chemical Biological Radiological and Nuclear (CBRN) threat, all personnel with beards will be required to shave. When practicing CBRN drills or damage control drills, however, male Sikh personnel do not need to shave their beards.

(3) Candidates attending a R&A acquaint or pre-joining courses will be required to wear protective headgear, but if a candidate refuses on religious grounds, they must be allowed to sit out that particular element of the exercise. It should be explained to any attendee who refuses to wear protective headgear that, were they to join the RN, there will be circumstances where they would be required to wear protective headgear. These pre-courses include but are not limited to:

(a) Candidate Preparation Course; RM (OR only) and RN (rating only).

(b) Officer Selection Course RM.

(c) Royal Marine Band Service (RMBS) Audition

(d) Any RN Look At Life courses.

[2] Kara (steel bangle), Kesh (uncut hair), Kanga (small comb), Kaccha (special design knee length underwear) and Kirpan (small sword).

(4) Certain RM selection activity mandates the wearing of helmets to comply with Health and Safety standards, with some elements being mandatory completion by all candidates. Additionally, non-completion of all activities may give an unfair advantage as that candidate would be able to rest between activities. Other areas of RM selection mandates full immersion in water in a confined space; long or loose hair could pose a safety risk if not fully tied up or covered.

c. **Muslim Men - Facial Hair.** For occupational or operational reasons, where a hazard clearly exists, personnel authorised to wear beards on religious grounds will have to be prepared to modify or remove their beards to such an extent as to enable the correct wearing of a respirator or breathing apparatus.

(1) **Aircrew.** It is unlikely that a male Muslim will be able to obtain an effective seal on his oxygen mask without trimming his beard.

(2) **Respirator.** An effective seal on a respirator can only be achieved when the skin is clean shaven. In an operational environment where there is an CBRN threat, all personnel with beards will be required to shave. When practising CBRN or DC drills, however, male Muslim personnel will not be required to shave their beards.

d. **Muslim Women.** Muslim women are allowed to wear uniform trousers, rather than a skirt and may wear a hijab except when operational or health and safety considerations dictate otherwise. Long sleeve shirts may be worn with all forms of Service dress. Tracksuit bottoms may be worn for sport. All RN personnel are required to achieve a basic swimming standard as part of their training. Although every effort will be made to ensure that these tests take place in an all-female environment, it should be stressed to female Muslim personnel that this may not always be possible.

e. **Jewish Men.** A male member of the Jewish faith may wear a dark plain patterned yarmulke whenever he removes another head-dress.

0510. Childcare Provision During and After Initial Training

a. Providing care for a child or children as a married, single or lone parent is not incompatible with Service life, nor is it a bar to entry into the RN. Life in the RN, however, makes unique demands upon all Service personnel and their families. All serving personnel are required to serve away from home for extended periods of time, often at short notice and no guarantees can ever be given about the pattern of working hours or the amount of time that will be spent away from home.

b. Provision for full time care of children, which does not depend on the presence of the primary parent, must be made. If both parents are serving personnel, this will usually mean that a third person will have to be ready to take responsibility for childcare, since either or both parents might be required to serve away from home at the same time and at short notice (see part 7, chapter 58, paragraph 5807).

c. During Phase 1 Training, accommodation for families is not provided.

d. Candidates who are parents will need to demonstrate their ability to provide full-time childcare, if required, at the interview stage of the recruitment process. There are many ways in which this might be provided. The following list is not exhaustive, but provides guidance over typical arrangements:

(1) Child cared for by spouse/civil partner/partner/other relative.

(2) Child living with grandparents.

(3) Either of above supported by part-time childcare.

(4) Full-time nanny employed.

(5) Full-time boarding school (but arrangements during holidays must be made).

e. Single or lone parents must also think seriously about the provision of childcare during and after Phase 1 training. Although family accommodation is available after initial training, no special arrangements can be made for working hours or assignments for single or lone parents, and there will be many occasions when 24 hour childcare is essential on a long-term basis.

0511. Disabilities and Specific Learning Difficulties (SpLD)

a. SpLDs are not a bar to entry, nor do they have to be declared. If a SpLD is declared, the candidate will not be entitled to more time or assistance to complete aptitude tests or other recruitment activities.

b. Careers Staff must not attempt to diagnose SpLDs themselves or make reference to claimed SpLDs in recruiting documentation. The severity or impact on RN entry standards will be assessed during the medical process.

c. As a general rule, if an applicant's level of literacy is not adequate enough to cope with completion of application forms and complete the DAA (in accordance with the normal conditions and standards) then it is unlikely that their performance will improve sufficiently for them to complete training and deal successfully with the demands of a Service career.

d. RFA recruiting is not exempt from the employment law that allows the RN to legally discriminate and exclude candidates with certain protected characteristics. RFA candidates who declare disability or learning difficulties will receive no adjustment to the assessment process or recruiting standards and will be required to meet the basic criteria. No additional allowance is to be made during the recruiting process for any declared disability or learning difficulties, and each candidate’s suitability for employment in the RFA is measured against the current standards.

0512. Sexual Orientation

Candidates are not to be asked about their sexual orientation by the Recruiter. Sexual orientation is regarded as a private matter for the individual. If at any stage during the recruiting process a candidate discloses the fact that they are heterosexual, lesbian, gay, bisexual or transgender, this fact is not to be recorded by the Recruiter.

0513. Transgender

a. Candidates identifying as transgender are to be processed and treated in the same manner as any other candidate. They must meet the same entry criteria for their chosen role as other applicants.

b. Individuals who are receiving medical counselling or treatment towards gender re-assignment should have their entry deferred until all treatments are complete. For those who have undergone gender re-assignment and continue to require hormone replacement therapy, this is not a bar to entry once they have affirmed gender (JSP 889, part 1).

c. In cases where there are additional concerns, from either the candidate or the CA, candidates can be referred to the SMO SE. The candidate must provide confirmed consent for this line of referral.

d. All personnel are to be reminded of the right to privacy and prohibition of disclosure of 'Protected Information'. Section 22 of the Gender Recognition Act 2004 establishes a right to privacy for the transgender person; it is a criminal offence for another person to disclose information that they have acquired in an official capacity about an individual's application for a Gender Reassignment Certificate or about the gender history of an applicant.

0514. Financially Supported Education Schemes and Awards

a. A range of financially supported education schemes and awards are available to candidates considering a career in the Service in certain roles, including:

(1) A-Level Scholarship Scheme: eligibility, selection and progression to DSUS or UCE possible. For engineer officer candidates only.

(2) Defence STEM Undergraduate Scheme (DSUS) commenced in Sep 22 and replaced DTUS in supporting engineer officer candidates through universities.

(3) UCE is a scheme for high achieving A-Level students, which enables them to enter BRNC on completion of A-Levels and then conduct an engineering degree while salaried.

(4) Cadetships for medical and dental students (final three years).

b. Further explanatory detail regarding these schemes and awards may be found at Annex 10A.

0515. Accelerated Apprentice (AA) Scheme

a. Eligibility criteria for the AA Scheme are documented in chapter 9, para 0915.

b. **Terms of Service.**

(1) **Length of AA Career.** Due to the predicted future requirement within the engineering role, an Engagement Stage 1 (ES1) standard career of 12 years will be made to Accelerated Apprentices. Candidates will be transferred to NEM Engagement Stage 2 (ES2) on completion of their probation requirements – this will take them to 20 years' length of service or age 40, whichever is later.

(2) **Maximum Age at Joining.** The age ceiling for applicants is 25 years of age.

(3) **Minimum Time to Serve Before Eligible to Submit Notice.** A period of 30 months must have elapsed from achieving GTS before a successful applicant can submit their notice.

(4) **Gains to the Trained Strength.** Candidates will be considered as GTS on completion of INT(R), LRLC, LETQC/LAETQC and subsequent streamed training. Under normal conditions without back-classing or other delay, this is approximately 24 months after joining the RN.

(5) **Entitlement to Role Transfer.** Successful applicants are not entitled to role transfer whilst UTS or during their MTS period. But thereafter, subject to normal transfer rules, i.e. need for staffing clearance/needs of the Service, they may do so. Note - Achievement of staffing clearance is considered unlikely as they are joining as specialists to a shortage category.

CHAPTER 6

SERVICE CONSTRAINTS

0601. Undischarged Bankruptcy, IVA, or Significant Debts

a. Financial problems may, through worry and other pressures, seriously reduce an individual's efficiency. Moreover, if an individual is financially irresponsible, particularly if it leads to dishonesty, it will affect future advancement, the award of higher security clearances, and may ultimately lead to discharge from the Service. The examination of personal finances is therefore an important part of the recruitment process. CAs must assess the candidate's suitability in terms of financial responsibility. In particular, information must be obtained about the candidate's debts, assets, monthly outgoings and income and any unpaid County Court Judgments (CCJ), which can be a bar to entry.

b. Candidates who are declared ‘Undischarged Bankrupt’ are not eligible for entry into the RN until they can produce proof of ’Discharge from Bankruptcy’.

c. Candidates who declare significant debts are offered the opportunity to demonstrate their ability to cope with the repayment of the debts.

d. Independent Voluntary Agreements (IVA) (or Trusted Deeds in Scotland) are themselves not a bar to entry. A candidate who has entered into an IVA will automatically get a financial check as part of the SC, which may or may not result in the candidate being given an SC. Being given a SC means such candidates are not a security risk from a financial viewpoint, but it does not mean they are eligible from an employment point of view. When processing candidates with an IVA, consideration should be given to the time to run before expiry, time before entry, past performance in maintaining IVA payments, and the candidate’s attitude to debt.

e. Following the SI, an assessment must be made of the candidate's likely trustworthiness and ability to survive financially on future Service pay, without becoming an administrative burden. In making this assessment the primary concern must be whether the candidate is financially responsible, alongside their attitude towards incurring debts.

f. It is not possible to define a figure which represents an unacceptable level of debt: a mortgage (or other secured loan) or student loan are a totally different level of risk to monies owed to a debt agency or credit card. Careers Staff must use their judgement and experience but, in all cases, when total outgoings exceed 50% of the candidate's expected rate of pay on entry, the candidate must demonstrate that their outgoings will not present any undue pressure during training. They should also be offered the opportunity to assess and articulate their financial situation by completing a financial summary.

0602. Credit Reference Checks

a. As part of the SC, UKSV carries out a credit reference check for all candidates aged nineteen or over. The check may reveal serious financial difficulties and the existence of any unpaid CCJs against a candidate.

b. Candidates must be informed that a credit reference check forms part of the SC.

c. CCJs, when declared, must be cleared before a SC can be applied for. This may be achieved by the candidate obtaining a 'Certificate of Satisfaction' from the Court which made the Judgement. Records of CCJs are maintained on a central register and once a judgement is registered there are only two ways it may be removed:

(1) By application to the issuing court with evidence that the debt has been paid in full or,

(2) By providing sufficient evidence to the issuing court that the original judgement was entered against the debtor in error.

0603. Political Activities Within the Royal Navy

a. Regular personnel are not to take an active part in the affairs of any political organisation, party, or movement. They are not to participate in political marches or demonstrations and are not permitted to participate in industrial action or in any form of political activity organised by civilian trade unions or professional associations.

b. No restriction is to be placed upon attendance at political meetings of such personnel provided uniform is not worn, Service duties are not impeded, and no action is taken which could bring the Service into disrepute.

c. More detailed regulations regarding political activities within the RN are at BRd 2, Chapter 66.

0604. Membership of Political Parties

a. As described above, Service personnel are not permitted to take an active part in the affairs of any political organisation, party or movement.

b. There is, however, no restriction on the membership of a political party or trade union and there is no restriction on the attendance at political or trade union meetings where attendance at such a meeting is intended to enhance trade skills or knowledge. Uniform is not to be worn at such meetings.

0605. Membership of Extremist Groups

a. Service life precludes membership or support for extremist groups or organisations whose purpose includes incitement to racial hatred or violence.

b. There are numerous such groups and organisations with frequently changing names and objectives. Candidates who, during the recruiting process, declare themselves a member of such groups, or who have unspent convictions for racially motivated offences, or who express extreme racial views, are to be interviewed and rejected on grounds of personal qualities contrary to Royal Naval values.

c. R&A SO2 Policy is to be contacted for clarification if Careers Staff have any doubt about such a group or organisation.

0606. Police Cautions and Fixed Penalties

a. The civil police in England, Wales, and Northern Ireland, may use discretion and not put a case to the Crown Prosecution Service but instead award a Police Caution (PC) (formerly known as a Formal Police Caution) or, for those under the age of 18 years, a Reprimand or Final Warning. In Scotland, the sanction which corresponds to the PC is the Fixed Penalty.

b. PCs, Reprimands and Final Warnings are held on Police records for up to 5 years but are not subject to the Rehabilitation of Offenders Act 1974. There is no requirement for Careers staff to ask questions relating to PCs, Reprimands, Final Warnings or Fixed Penalties. Candidates must declare, in confidence, however, all convictions to UKSV when application is made for SC. The rehabilitation period is taken as expired when the PC is given.

0607. Penalties for Anti-Social Behaviour

a. Although still applicable in Scotland, the Anti-Social Behaviour Order (ASBO) was replaced in England, Wales, and Northern Ireland in 2014 by a Civil Injunction, Community Protection Notice (CPN) or Criminal Behaviour Order (CBO). Technically, these sanctions are not punishments in their own right, but may be ordered in conjunction with punishment, e.g., a fine. Any sanctions listed in this section should be considered ‘spent’ once they cease to have effect, but where the sanction has been joined with a punishment, the rehabilitation period is the period associated with the punishment.

b. Candidates with an ‘unspent’ sanction for anti-social behaviour are not to be processed.

0608. Care and Restraining Orders

a. Candidates who are the subject of Care or Supervision Orders which have been made for reasons other than for the committing of a crime, e.g., because of parental neglect or any need of care and protection, may be considered for entry before the Court Order has run its full course, provided they are suitable in all other respects. Application is to be made to the relevant local authority for a letter of recommendation for military service for the candidate. The local authority letter of recommendation must be uploaded to documents on MIS for visibility by the NETE.

b. Candidates who are subject to restraining orders are not to be processed until the Order has passed its expiry date.

0609. Custodial Sentences

All enquiries received from those serving custodial sentences are to be referred to R&A Policy WO1.

0610. Police Involvement - Future and Prior to Entry

a. All candidates, whether they have declared criminal convictions or not are, on completion of interview, to be given a verbal caution relating to future Police involvement, as stated on the post-interview caution paperwork available on the MIS.

b. Those who declare Police involvement prior to entry are not to be entered into the RN until the outcome of the Police investigation or court appearance is known. Those who are subsequently sentenced are to be processed in accordance with these instructions.

0611. Declared Criminal Convictions - Spent and Unspent

a. The lives of those in the RN depend on the reliability and integrity of each and every member of the Service. Those recruited into the RN may operate complex machinery and work in independent teams. They will also handle weapons and explosives. It is the duty of the RN to preserve the safety of all, and to ensure that young, impressionable personnel are not corrupted by those lacking in integrity.

b. The assessment of the reliability and suitability for employment in the RN is the responsibility of R&A Policy SO2. Certain criminal convictions, while they may be acceptable and tolerated in civil society, are not acceptable in the RN. As a general rule, candidates with criminal convictions that are ‘unspent’ will not be eligible for entry. Where the ‘unspent’ conviction meets certain conditions laid down in Chapter 7 and the ROM Chapter 14, however, a waiver, or dispensation, may be sought from R&A DHd. Each application will be considered on its merits. The gravity and nature of the offence(s) are the main factors when considering dispensation.

c. CAs may openly discuss ‘unspent’ convictions with the candidate to establish suitability for entry on completion of the Selection Interview (SI); ‘spent’ convictions must not be discussed (see sub-paragraph d. below for exceptions).

d. Candidates applying for medical roles and Royal Navy Police (RNP) are excluded from the Rehabilitation of Offenders Act 1974 and are not afforded protection from it (Note 6 MoD Form 493). Accordingly, candidates for medical roles may be questioned about 'spent' and 'unspent' convictions. These candidates must comply with the requirements of the Disclosure & Barring Service (DBS). Refer to R&A Policy WO1 for roles currently requiring DBS clearance prior to entry.

e. Only 'unspent' criminal convictions need be disclosed to CAs, unless the candidate is applying for entry into a medical/dental role (or QARNNS) or RNP, in which case **all** convictions must be disclosed. All criminal convictions (including Police Cautions) must be declared, however, in confidence and by all candidates, to the UKSV when an SC application is made. Candidates must also inform CAs of any Police involvement, including the requirement to attend court as a witness, prior to their entry.

f. Candidates who have declared 'unspent**'** criminal convictions (and 'spent' for medical/dental, QARNNS and RNP candidates) must meet the requirements shown above. If there is a mandatory rehabilitation period required for a specific offence or sentence, then the candidate must not be processed until that period is complete, unless a waiver can be applied.

g. CAs are to question the candidate and establish details of convictions after the SI. On completion, if the candidate is considered suitable, an application for a waiver should be made in accordance with ROM, chapter 14.

0612. Criminal Convictions - Failure to Declare

a. On receipt of the UKSV 001, the UKSV will compare the criminal conviction declarations made with those revealed during the Security Check.

b. Except in the most serious cases, those candidates who fail to declare 'spent' convictions will be sent a 'second chance letter' by UKSV requesting them to reconsider their criminal convictions' declaration. If the candidate further refuses to admit convictions, UKSV would normally refuse a SC on the grounds of 'dishonesty during the vetting process' and inform the sponsor. A rejection letter is to be sent by the sponsor directly to the candidate giving the reason for rejection as "dishonesty during the recruiting process". If appropriate, the letter may state a waiting period, which must elapse before the candidate may reapply.

0613. Drugs

a. Drug misuse may be tolerated in some walks of life, but the lives of those in the RN depend on the reliability of each and every member of the Service. Drug misuse is not only illegal, but also incompatible with the duty of the RN to preserve the safety of all personnel. More detail is at Chapter 21. Correspondingly, candidates with certain drug-related unspent convictions are ineligible to join the RN; see Chapter 7.

b. **Compulsory Drug Testing (CDT).** All RN personnel are subject to CDT; a positive test result may lead to Administrative Discharge:

(1) **Ratings/Other Ranks.** Discharge SNLR (CDT) - see part 7, para 5448.

(2) **Officers.** Administrative Discharge (Misconduct) - see part 7, para 5441.

c. Both Discharge categories are a bar to re-entry into the RN. Personnel discharged from the Army or RAF after a positive CDT test result are also ineligible for entry into the RN.

0614. DBS/Disclosure Certificate

a. Government legislation requires people working with children and vulnerable persons to be subject to checks by the Disclosure and Barring Service (D&BS) and issued with a Disclosure Certificate (DC). D&BS administer the application process for the MoD and all MoD clearances are conducted at the 'enhanced' level.

b. The requirement to comply with this legislation includes all Careers Staff, members of presentation teams and Candidate Preparation Centre Staff. The DC procedures for members of R&A Staff are contained within R&A Standing Orders..

c. A DC that is acceptable to the MoD may only be obtained from the D&BS when application is made on a Disclosure Application Form (DAF) through Defence Business Services (DBS), which is the MoD focal point for processing requests for DCs.

d. **DC Requirements for Specific Roles.** This procedure applies only to candidates for the following roles[2]:

(1) Chaplain.

(2) Dental Officer and Dental Officer Cadet.

(3) Medical Officer and Medical Officer Cadet.

(4) Dental Hygienist, Dental Nurse (Qualified) and Dental Nurse (Student).

(5) Nursing Officer Qualified (Adult), and Nursing Officer Qualified (Mental Health).

(6) Medical Assistant, Medical Technician (Qualified)[3], Medical Technician (Student)[4].

(7) Naval Nurse Qualified (Adult), Naval Nurse Qualified (Mental Health), Naval Nurse Student (Adult), Naval Nurse Student (Mental Health).

e. During initial discussions, Careers Staff must inform candidates that, for the roles listed above (including RNR), there is a legal requirement for their application to undergo disclosure checking by D&BS and the production of an acceptable DC. A statement to this effect will be included on all appropriate Careers Information.

f. **D&BS Appeals.**

(1) The CA is to ensure the following rights must be explained.

(2) In the event that a candidate believes that the information listed in the DC is in error, the candidate has a right to contact D&BS on the Disclosure Dispute line 0300 0200 190, or complete an online form[5] to challenge disclosure information.

(3) Disputes must be raised within 3 months of a certificate's issue date.

g. **DAF - Disposal of Unused Forms.**

(1) Each DAF is uniquely numbered by the D&BS.

(2) CAs are to inform Navy People Discipline[6] of any candidates who have withdrawn from the recruitment process so their D&BS application can be cancelled.

[2] Although D&BS clearance is not required to join, CAs should inform candidates who have applied for RNP or PTI roles that there may be a requirement to obtain this whilst in-Service.

CHAPTER 7

ELIGIBILITY AND ENTRY STANDARDS

0701. Job Eligibility Matrix (JEM) - RN, RM, RFA and Maritime Reserves

The JEM contains the eligibility requirements for entry into the RN, RM, RFA and MR in the capacity of Officer or Ratings/Other Rank. It is a living document that is regularly amended to reflect eligibility changes for each role. The JEM is available via Defence Intranet - JEM Link[1].

0702. Eligible Candidates - Entry into Recruiting Procedure

Once eligibility has been confirmed at the online application and initial CRM (Chapter 5, paragraph 0504) has commenced, the candidate will be asked to complete the Medical RFI, a Tattoo Proforma and MoD Form 493 (and Parental Consent Form where applicable), and may be invited to sit a supervised or unsupervised DAA. On successful completion of DAA they will continue with the selection process depending on their chosen pathway, iaw RoM.

0703. Ineligible Candidates

a. During the CRM process it is essential that the proper procedure for ineligible candidates is followed. Candidates who are not eligible to continue with their application are only to be rejected after careful consideration. It is most important that any reason for rejection is explained and conveyed as sympathetically as possible. Rejections are to be made by R&A careers staff only (not including re-entrants).

b. **Maritime Reserves.** Candidates in certain occupations are ineligible to join the MR, as follows:

(1) Serving members of UKAF or Volunteer Reserve Forces (including Sponsored Reserves), Commonwealth or foreign equivalents – including members of the Naval Careers Service without reckonable regular-service prior to entry.

(2) All members of the Sponsored Reserves including RFA personnel who have accepted Sponsored Reserve status.

(3) Serving members of a URNU including Honorary Midshipmen and Training Staff.

(4) Other candidates in receipt of any form of sponsorship detailed in Annex 10A.

c. Whilst there are no longer any Reserved Occupations, employees are to be strongly encouraged to verify their employer's local policy for employment of Reservists.

[1] https://modgovuk.sharepoint.com/:x:/r/sites/IntranetNavy/_layouts/15/Doc.aspx?sourcedoc=%7B3BB95ABC-ED6B-4D2A-9FAF-078D8519DB0A%7D&file=JEM_15Nov24-O.xlsx&action=default&mobileredirect=true

d. Officers with an existing liability for call-out as officers on the Retired or Emergency Lists must inform the Naval Secretary of their intention to join the RNR. Once they have joined, call-out will normally be in their capacity as an RNR, as opposed to RFR officer.

e. Former Regular Service ratings with an RFR liability are required to sign a declaration acknowledging that they will be re-enrolled into the RFR to complete remaining RFR time, should they be discharged from the RNR before their RFR liability is fulfilled. This declaration is administered by the parent RNR unit during attestation.

f. **Criminal Convictions**. Candidates are not to be processed into Regular or Reserve service with any of the following unspent convictions:

(1) Hospital order.

(2) Sexual offences.

(3) Offences involving loss of life.

(4) Arson.

(5) Terrorist activities.

(6) Offences involving explosives.

(7) Misuse of drugs:

(a) Any offence relating to trafficking or supply of drugs.

(b) Any offence relating to the use of Class A drugs.

(c) More than one conviction for 'possession for personal use' of a Class B or C drug (see drugs classifications[2]).

(8) Three or more offences against persons, property, dishonesty or serious motoring offences.

g. Offences under schedule 2 of the Road Traffic Offenders Act 1988 attract a rehabilitation period of 5 years. This includes speeding, driving without a licence etc. Minor driving offences, such as those attracting penalty points only, may be considered for a waiver and so will not usually be a bar to entry; see ROM Chapter 14.

h. Candidates with 'spent' or 'unspent' convictions for sexual offences, drugs related offences, violence or dishonesty, or those who have been subject to a custodial sentence or hospital order are not eligible for entry into Medical, Dental or Nursing roles/specialisations.

[2] https://www.gov.uk/government/publications/controlled-drugs-list--2.

i. Candidates are also not eligible to be processed if they:

(1) Are on bail or awaiting criminal prosecution.

(2) Have unpaid fines or compensation orders.

(3) Have unexpired conditional discharge, bound over or curfew orders.

(4) Have probation, community service or combination orders which have not been completed.

(5) Are subject to a supervision requirement/order; community supervision order, care order, or fit person order for committing a criminal offence.

j. Candidates subject to the notification requirements of Part 2 of the Sexual Offences Act 2003, because they have been convicted, cautioned, reprimanded or warned for a relevant sexual offence, will not normally be awarded a security clearance, even if any associated conviction is spent. Failure to gain a security clearance will mean such candidates are ineligible to join.

0704. Rejecting Candidates

a. It is R&A policy that candidates who are rejected may, at the discretion of the CA, be either verbally rejected or rejected by letter. A rejection reason is to be entered on MIS and the AFCO Form 101. The reasons for their removal from the recruitment journey and the minimum time to re-apply are to be iaw RoM and clearly and sensitively explained by the CA to encourage the candidate to address their issues and re-apply when appropriate.

b. Previously rejected Candidates may be re-interviewed provided they meet the DAA requirement for the new profession. The timescale for the re-interview is at the discretion of the CA, and the appropriate MIS letter sent.

c. It is essential that details of any candidates who refuse to attest or engage at the NETE are recorded on MIS by R&A PLANS OA/RA.

0705. Appearing as a Witness

Candidates who will be required to appear as a witness in a criminal or civil court may be processed, however they should be counselled that given the tempo of Phase 1 Training they may wish to defer entry until after their appearance in court.

0706. Age Requirements and Restrictions

a. **Age Requirements on Application.**

(1) An application for entry to the RN may be accepted from an individual provided that:

(a) **Ratings/Other Ranks Entry.** The candidate is aged at least 15 years and 9 months before application can be accepted. Note: candidates are not to be forwarded for selection boards or auditions which commence before they are 16 years of age. Candidates entering either intelligence roles cannot enter until 17 years old as they cannot achieve DV.

(b) **Officer Entry.** The candidate is aged at least 15 years and 9 months other than potential scholars who may become enquirers at age 14 years, but may not apply until they are 15 years and 9 months. If required, the first year's A-Level scholarship payment may be backdated.

(c) The candidate will be eligible to leave school under the Local Education Authority rules prior to joining the RN.

(d) **Sixth Form Scholars.** Sixth Form scholars may apply to join via the A-Level Scholarship scheme from 15 years and 9 months old but can become an enquirer from age 14 to support payment in Year 12. The scheme is open only to Engineer officer candidates who will go onto study for a degree via the DSUS or UCE scheme.

(2) Conditions of Service and Reserve liability are to be fully explained to all candidates at the enquiry stage. It is essential that Career Staff evidence that candidates under the age of 18 understand the full implications of the undertaking they are considering entering into.

b. **Age Restrictions on Entry - Ratings/Other Ranks.**

(1) **Minimum Age.** Candidates must not enter INT any earlier than their birthday on which they reach the minimum age for the role/specialisation as directed in the JEM.

(2) **Maximum Age.** All candidates must be entered into INT before they exceed the 'Max to join' age as published in the JEM. Therefore, candidates for most RN roles must enter before they reach 40 years of age, however, some roles have now extended to a higher age threshold, and others having a lower threshold due to physical demands. Careers Staff must use discretion when considering processing candidates who are approaching the upper age limit. Consideration must be given to the requirement to complete the DBS, obtain SC and enter the candidate before the upper age limit is reached.

c. **Age Restrictions on Entry - Officers.**

(1) **Direct Entry.** Officer entrants must be over 18 on the first day of the month of entry to BRNC or CTCRM.

(2) **Sixth Form Scholars.** All candidates will be a minimum of 18 years old on joining BRNC and entering the RN.

(3) **Defence STEM Undergraduate Scheme.** Candidates must be under 23 at the commencement of their degree course and under 26 on entry to the RN. Candidates are usually accepted for a 3-year course but can be exceptionally selected for a 4-year course. Candidates may have been A-Level Scholarship candidates and as such will commence the DSUS immediately after Year 13.

d. **Maritime Reserves Recruiting Process - Age Limits and Waivers.**

(1) Age limits are detailed in the JEM. P&T WF CM, may approve age waivers for candidates who do not meet the age criteria.

(2) **Age Waivers.** If the candidate falls outside the MR age limits, Careers Staff are to take the following actions:

(a) Make a formal application for an age waiver to R&A MR RECRUIT SO2 using the standard approval to process method. Once received, the application will be forwarded to the RNR BM for RNR candidates and RMR CM for RMR candidates.

(b) If approved, eligible and recommended candidates are to be processed in the normal way.

0707. Statutory School Leaving Ages (Age of Participation)

a. Students must stay in some form of education or training until their 18th birthday. Their options are as follows:

(1) Full time education.

(2) An apprenticeship or traineeship which may include the UKAF.

(3) Part time education or training – as well as being employed, self-employed or volunteering for twenty hours or more a week.

b. It is illegal to employ a child full-time until the laid down statutory school leaving age is reached. This requirement is binding on all children, their parents and guardians, whether or not the child is enrolled in a school. Children educated outside school, whether under arrangements made by the parent or by a local authority, are also prohibited from taking full-time employment until the relevant date.

c. The specific limitations are as follows:

(1) **Schools in England and Wales.** Pupils may leave school on the last Friday in Jun in the school year in which they reach the age of 16. The school year normally ends on 31 Aug.

(2) **Schools in Northern Ireland.**

(a) Pupils whose 16th birthday falls between 1 Sep and 1 Jul may leave school after 30 Jun.

(b) Pupils whose 16th birthday falls between 2 Jul and 31 Aug may leave school after 30 Jun the following year.

(3) **Schools in Scotland.**

(a) Pupils whose 16th birthday falls between 1 Oct and the last day of Feb inclusive, may leave school at the Christmas holiday.

(b) Pupils whose 16th birthday falls between 1 Mar and 30 Sep may leave school after 31 May.

0708. Parental Consent for Candidates and Enquirers Under 18

a. Parental consent must be obtained for those under the age of 18 before any processing can take place. This is sought when the initial Request For Information (RFI) are sent via MIS.

b. Parental consent must be checked prior to the DAA; this consent is then valid for the remainder of the candidate's recruitment journey.

c. Parental Consent Form for u18s:

(1) A MoD Form 486 is required for all candidates under the age of 18 on entry. This form is sent as an RFI using MIS, and must be signed by parents post SI.

(2) The form is to be given to the candidate for parental consent signature and uploaded by the candidate to MIS on completion. Although the details of the form are computer generated, they must be checked by the CA for accuracy. The 'Notes' relating to parental consent are to be explained to the candidate and it must be stressed that the 'witness to signature' is to be signed by a person with some standing in the community. The MoD Form 486 is to be uploaded to MIS for visibility.

(3) Recruiting personnel are to issue the parental consent form for photography of u18s at the same time as the MoD Form 486. The consent form should be uploaded to MIS for visibility by NETE.

0709. Under 18 and Active Service - UN Convention on the Rights of the Child

a. The purpose of this complex legislation is to strengthen the rights of children by prohibiting their participation in armed conflict.

b. The legislation has no direct impact on R&A but, should a query be raised by a candidate, parent or member of the general public concerning this subject, the following points may be made:

(1) Those aged under the age of 17 will not be assigned to HM ships, submarines, or an RM operational unit.

(2) Those few personnel under the age of 18 serving in HM ships, submarines or with an RM operational unit will, wherever feasible, be removed from situations in which the Fleet Commander or Chief of Joint Operations deem there to be a "greater than low risk of direct involvement in hostilities".

0710. Sighting of Certificates and Qualifications

a. Candidates applying for any form of entry requiring educational qualifications are to produce certificates, during initial CRM unless awaiting results, when they are required to complete RFI from MIS; these certificates must be uploaded to MIS by the candidate.

b. Qualifications that have been obtained overseas are to be presented by the candidate translated into English accompanied by a Certificate of Translation Accuracy by a professional translation service.

c. CAs are to verify academic qualifications by sighting original certificates over the Shine Video platform and comparing against the copy the candidate has uploaded to RITS. Detailed educational qualifications are outlined in the JEM and found in the entry matrices at paragraph 0716 and paragraph 0717.

d. Candidates may be processed whilst awaiting results of examinations but are not to be entered until qualifications are confirmed. If any doubt exists about the acceptability of educational qualifications, guidance is to be sought from R&A Policy WO1.

e. In the absence of original educational certificates, Statements of Academic Results issued by the examining boards are acceptable. Provisional Statements and letters from educational establishments are not acceptable. For roles that require a degree as a pre-requisite, only an original degree certificate is acceptable.

0711. Educational Requirements - Ratings/Other Ranks

a. Entry into most rating/other rank roles in the RN does not require any formal educational qualifications.

b. All candidates, unless eligible for a waiver[3], must, pass the DAA. There are minimum DAA scores required by each role. The candidate and the CA will receive a report on which roles the candidate has passed the DAA for on completion of the test.

c. In tandem to the DAA, the following roles also require GCSE or equivalent grades as detailed in the JEM:

(1) Cryptologic Technician.

(2) Medical Technician (Radiographer).

(3) Medical Technician (Biomedical Scientist).

(4) Medical Technician (Operating Department Practitioner).

(5) Dental Nurse.

(6) Dental Hygienist.

(7) Naval Nurse (Adult or Mental Health).

(8) Medical Assistant.

(9) Aircrewman.

(10) Royal Navy Police.

(11) Accelerated Apprentice Scheme.

d. **Qualified Medical Experience.** For individuals wishing to join the RN as Medical Professionals who have not trained in the UK healthcare system, 2 years (full time equivalent) of UK NHS experience is preferred, working in the professional role for which they are applying. Waivers will be considered on an individual basis and can be applied for through R&A-SRT MED SO3.

e. **Registration.** Several of the roles listed below may require registration to the appropriate governing body. The candidate may be in the process of gaining the listed registration at the time of application. Clarification of acceptable registration standards may be obtained from R&A-COHERENCE SR MED PO.

f. **Medical Technician Student (Radiographer).** The educational eligibility standards for Medical Technician Radiographer (Student) are set by Birmingham City University (BCU). They are as follows:

(1) A minimum of 120 UCAS Tariff points or equivalent are considered on an individual basis.

[3] Further guidance regarding DAA waivers can be found within Chapter 8.

(2) Education criteria and other equivalent qualifications can be found at this web address:

http://www.bcu.ac.uk/courses/diagnostic-radiography[4].

g. **Medical Technician Student (Biomedical Scientist).** The educational eligibility standards for Medical Technician Biomedical Scientist (Student) are set by Aston University, Birmingham. They are as follows:

(1) Three A-Levels at minimum BBB; including Biology or BBC; including Biology and B in either Core Maths or Extended Project Qualification (EPQ).

(2) Education criteria and other equivalent qualifications can be found at this web address[5]:

h. **Medical Technician Student (Operating Department Practitioner).** The educational eligibility standards for Medical Technician Operating Department Practitioner (Student) are set by BCU. They are as follows:

(1) A minimum of 88 UCAS Tariff points or equivalent are considered on an individual basis.

(2) Education criteria and other equivalent qualifications can be found at this web address:

https://www.bcu.ac.uk/courses/operating-department-practice[6].

(3) From 2024, the Healthcare & Professions Council (HCPC) will be increasing the level of qualification required for entry to the ODP register. As a result, 120 UCAS Tariff points or equivalent will be required.

i. **Naval Nurse Student (Adult or Mental Health).** The educational eligibility standards for Naval Nurse (Student) are set by BCU. They are as follows:

(1) A minimum of 120 UCAS Tariff points or equivalent are considered on an individual basis.

(2) Education criteria and other equivalent qualifications can be found at this web address:

http://www.bcu.ac.uk/courses/nursing-adult[7].

(3) Evidence of study within the last 5 years.

(4) Evidence of clinical experience/exposure in adult health care.

[4] https://www.bcu.ac.uk/courses/diagnostic-radiography.
[5] https://www.aston.ac.uk/study/courses/biomedical-science-bsc.
[6] https://www.bcu.ac.uk/courses/operating-department-practice.
[7] https://www.bcu.ac.uk/courses/nursing-adult.

j. **Dental Nurse Student.** Eligibility standards are as follows: Educational qualifications: 2 GCSEs at Grade 4 or above (formally C), including English Language.

k. **Medical Technician Qualified (Radiographer).** Eligibility standards are as follows:

(1) Educational qualifications: BSc in Diagnostic Radiography.

(2) Registration: Candidates must be registered prior to entry with Health Care and Professions Council (HCPC) as Radiographer.

l. **Medical Technician Qualified (Biomedical Scientist).** Eligibility standards are as follows:

(1) Educational qualifications: Institute of Biomedical Science (IBMS) accredited Degree in Biomedical Sciences. Non-accredited degrees will be considered; guidance from R&A-COHERENCE SR-MED PO is available, as not all are acceptable.

(2) Registration: Candidates must be registered prior to entry with HCPC as Biomedical Scientist.

m. **Medical Technician Qualified (Operating Department Practitioner).** Eligibility standards are as follows:

(1) Educational qualifications: DipHe or BSc Degree in Operating Department Practice.

(2) Registration: Candidates must be registered prior to entry with HCPC as Operating Department Practitioner.

n. **Naval Nurse Qualified (Adult).** Eligibility standards are as follows:

(1) Educational qualifications: BSc/MSc or BN in Adult Nursing.

(2) Registration: Candidates must be registered prior to entry with Nursing and Midwifery Council (NMC) as Naval Nurse Qualified (Adult).

o. **Naval Nurse Qualified (Mental Health).** Eligibility standards are as follows:

(1) Educational qualifications. BSc/MSc or BA in Mental Health Nursing.

(2) Registration: Candidates must be registered prior to entry with Nursing and Midwifery Council (NMC) as Naval Nurse Qualified (Mental Health).

p. **Dental Hygienist Qualified.** Eligibility standards are as follows:

(1) Educational qualifications: DipHe or BSc in Dental Hygiene & Therapy.

(2) Registration: Candidates must be registered prior to entry with GDC.

q. **Dental Nurse Qualified.** Eligibility standards are as follows:

(1) Educational qualifications: Diploma in Dental Nursing.

(2) Registration: Candidates must be registered prior to entry with GDC.

r. **RNR Nurse (Officer and Rating) Candidates.** Candidates must meet the following criteria:

(1) Registered General Nurse (RGN) or Registered Nurse (RN) (Adult) on sub-part 1 (RN1, RNA) or alternatively sub-part 2 (RN2, RN7) of the NMC.

(2) Officer candidates must hold a degree or diploma in Adult Nursing.

(3) Ratings are to hold a Nursing degree or must be currently working towards a Nursing degree.

(4) Currently working in an acute clinical setting.

(5) The candidate should be directed to forward a CV to R&A Nurse Recruit Adviser (NRA) at RA-MR Recruit WO. This will be appended to the candidate's journal by NRA. On NPT(Res) BM's authority, the NRA will hand the candidate off to the processing CA with the authority to proceed with application.

(6) RNR Nurses are not required to attend an acquaint visit but do need to be interviewed and assessed by the R&A Specialist Recruiter.

s. **RNR Medical Technician Qualified (Radiographer).** Eligibility standards are as follows:

(1) Minimum age on entry is 20 years.

(2) Educational qualifications: BSc in Diagnostic Radiography.

(3) Registration**:** Candidates must be registered prior to entry with HCPC as a Radiographer.

t. **RNR Medical Technician Qualified (Biomedical Scientist).** Eligibility standards are as follows:

(1) Minimum age on entry is 20 years.

(2) Educational qualifications: IBMS accredited Degree in Biomedical Sciences. Non-accredited degrees will be considered; guidance from R&A-COHERENCE SR MED PO is available, as not all are accepted.

(3) Registration**:** Candidates must be registered prior to entry with HCPC as a Biomedical Scientist.

u. **RNR Medical Technician Qualified (Operating Department Practitioner).** Eligibility standards are as follows:

(1) Minimum age on entry is 20 years.

(2) Educational qualifications: DipHe or BSc Degree in Operating Department Practice.

(3) Registration**:** Candidates must be registered prior to entry with HCPC as an Operating Department Practitioner.

v. **Accelerated Apprentice Scheme.** Candidates for the Accelerated Apprentice Scheme must meet the following criteria:

(1) A minimum of 3 GCSEs (or Scottish equivalent) at Grade C (4 on the new grading system) or higher including Maths, English Language and at least 1 science-based subject.

(2) The AA scheme requires applicants to hold specified Level 3 qualifications which provide a minimum of 48 UCAS points. There are two options available to applicants:

(a) **Vocational.** A vocational qualification in an engineering discipline at Level 3, generally carrying the title ‘Level 3 Diploma in Engineering’. There are many sub-disciplines or ‘pathways’, including mechanical, electrical/electronic, manufacturing or aeronautical engineering as required by the individual specialisation.

(b) **Academic.** 2 GCEs (A-Levels or equivalents – Mathematics (or further Mathematics)) and a STEM based subject from the list below.

i. Physics.

ii. Chemistry.

iii. Physical Science.

iv. Electronics.

v. Engineering.

vi. Computer Studies/Science.

vii. Design and Technology.

(c) Applicants who have a combination of A/A2 Level Maths and a STEM vocational course from the subject table above at the following level or higher (minimum 24 UCAS points):

i. Diploma - minimum Grade PP.

ii. Subsidiary Diploma - minimum Grade M.

iii. 90 Credit diploma - minimum Grade PP.

iv. Certificate - minimum Grade D.

(d) DAA – Overall Score of 60 for AA AE, 55 for ME, SM, WE & CIS. No discretion is to be applied unless service need dictates.

0712. Educational Requirements - Officers (Non-Graduate)

a. The JEM shows the educational standard for non-graduate officer entry. Candidates must demonstrate they have achieved, or are expected to achieve, the required standards in GCSEs or equivalent and the required UCAS points. Level 6 or above higher degrees will be considered as alternatives for candidates applying for non-graduate officer roles that do not have evidence of the required A-Level or UCAS points.

b. If unsure of overlapping subject areas, CAs should seek advice from Specialist Recruitment Teams or R&A Policy WO1.

c. All officer candidates must have passed the DAA, unless eligible for waiver iaw policy. No discretion is to be applied unless Service need dictate.

0713. Educational Requirements - Officers (Graduate)

a. All graduate candidates will be required to hold a suitable UK degree, or equivalent, and they must satisfy the non-graduate standard above (except Chaplains who only require only a Chaplaincy degree). In exceptional cases this condition may be waived, but only at the discretion of the appropriate BM (if a waiver is granted, CAs are to annotate the MIS journal to this effect). There is no specified criterion on the Quality of Degree which states that the degree must be of honours standard; a standard degree is acceptable.

b. **Degree Requirements.** Degrees are required only for Engineer Officer, Medical Officer Entrants, and Chaplains. While the experience and education gained at university may be beneficial to other officer entrants, the degree qualification is not a requirement.

c. **Engineer Officer - Degree Requirements.** Within the Engineering Branch, each engineering specialisation will have its own engineering degree requirements. Relevant engineering degrees, as detailed at sub-paragraph e. are to be accredited by the UK Engineering Council[8] [9] to IEng or CEng. This is aimed to attract, recruit and subsequently train individuals with the most suitable educational background to each individual engineering specialisation. This in turn should minimise training risk and deliver optimum Gains to Trained Strength (GTS). Furthermore, this should lead to enhanced professional developments as people will be recruited to the most relevant engineering specialisations in accordance with their educational backgrounds.

d. **Engineer Officer - Broader accepted Degrees.** Subject to approval by the relevant Engineering BM, candidates with broader STEM degrees, and/or outside the criteria described above, may be considered. Positive attributes of the candidate such as motivation to learn, leadership capability and previous experience should also be considered. Candidates should be made aware that degree accreditation is critical in some specialisations, due to the regulatory environment within which Service engineering is conducted; candidates given approval to join with non-accredited or broader STEM degrees may be ineligible for some specialisations and this will influence their streaming under Recruit by Profession.

e. **Individual Engineer Specialisation Educational Requirements.** The educational requirements for each engineering specialisation are stipulated as follows:

(1) **WE/WESM.** Requirement for UK-Recognised Degree accredited by the IET, BCS, RAeS, IMechE, IMarEST, IOP, IM or Nuclear Institute with fundamentals based in Electronic Engineering, Computer Systems Engineering, Applied Maths or Physics. Additionally, completion of a degree in one of the subjects listed below is also permitted. If the number of applicants exceeds the number of places available, then primacy will be afforded to those holding degrees in engineering/computing disciplines.

[8] https://www.engc.org.uk/.
[9] An accredited course search facility is available on the Engineering Council Website.

Aero-Mechanical Systems Engineering	Aeronautical & Electronic Engineering	Aeronautical Systems Engineering
Artificial Intelligence & Mechanical Engineering	Automation & Control	Computer Science
Computer & Robotic Systems	Computational Intelligence & Robotics	Digital Systems Engineering
Electronic Control & Robotics Engineering	Electrical Power Engineering	Embedded Systems & Robotics
Engineering Management	Engineering Physics	Mathematics
Mechanical & Marine Engineering	Mechanical Engineering	Mechanical Systems Engineering
Mechatronics & Robotics	Robotics	Robotics & Automated Systems
Robotics & Cybertronics	Robotics, Cybernetics & Process Automation	Robotics & Electronic Engineering
Physics	Physics & Maths	Mechanical Engineering

(2) **ME/MESM.** Requirement for UK-recognised degree in Mechanical or Marine Engineering accredited to CEng or IEng level. Degrees outside this remit will be subject to consideration by the ME/MESM BM.

(3) **AE.** Requirement for UK-recognised degree accredited to CEng or IEng level in Electrical, Electronic or Mechanical Engineering, or an Aeronautically-related degree similarly accredited. Degrees outside this remit will be subject to consideration by the AE BM. If the number of applicants exceeds the places available, however, primacy will normally be afforded to those holding aeronautically related qualifications.

(4) For WE/WESM, ME/MESM and AE the route to Incorporated or Charted status is clearly defined. Provided that the degree studied is recognised by the UK Engineering Council, the RN's training package for Engineer Officers meets their requirements for corporate membership. For those Engineer Officers joining with non-UK Engineering Council recognised qualifications, a route to IEng and CEng status remains, but it is not as clearly defined and may need additional experience-based evidence to fulfil the requirements for membership.

f. **Educational Waivers (EW) - Engineer Officers.** There are two waivers which can be granted to Engineer Officer candidates in relation to educational qualifications. Primarily, candidates will be put forward for shortfalls in one area/competency only. Only in the most exceptional circumstances will a waiver be considered for those falling short across multiple areas. Waivers can be issued in the following circumstances:

(1) **UCAS.** Less than 96 UCAS points held. If 64 or more points are held in maths and an engineering-based science the candidate may be granted an EW following referral to, and approval by ESRT.

(2) **Degree.** Not accredited by the relevant approving body or compliant with Engineering BM guidance. Any EW issued for a non-compliant degree **must** be granted by the relevant BM via the ESRT. The candidate is then limited to the role that approved the EW.

g. **Medical and Dental.**

(1) **Medical Officers.** DGE Medical Officers require a medical degree and full General Medical Council registration (no conditions), and 4 months foundation training in Emergency Medical and General Practice.

(2) **Dental Officers.** DGE Dental Officers require a dental degree, full General Dental Council registration (no conditions), and are to have completed Dental Foundation Training.

(3) **Nursing Officer (Adult).** Nursing Officers need to have a BSc/MSc or BN in Adult Nursing as a minimum, and be registered with the Nursing and Midwifery Council (NMC).

(4) **Nursing Officer (Mental Health).** Nursing Officers need to have a BSc/MSc or BA in Mental Health Nursing as a minimum, and be registered with the NMC.

(5) **Environmental Health Officer.** EHOs are required to hold a BSc or MSc in Environmental Health from an accredited institute and be registered (or working towards registration) with the Environmental Health Registration Board (EHRB).

(6) **RNR Pharmacist Officer.** Pharmacist officers are to hold a pharmacist degree, and are to be GPC registered.

(7) **RNR Physiotherapist Officer.** Physiotherapist officers are to hold a physiotherapist degree, and are to be HCPC registered.

(8) **Educational Waivers (EW).** Where a qualified candidate has obtained a qualification that is higher than the GCSE results required for officer entry, an EW can be applied for through the Medical Branch Manager. The Specialist Medical Recruitment Team must be contacted to facilitate this.

(9) **Qualified Experience.** For individuals wishing to join the RN as Medical Professionals who have not trained in the UK healthcare system, 2 years (full time equivalent) of UK NHS experience is preferred, working in the professional role for which they are applying. Waivers will be considered on an individual basis and can be applied for through R&A-SRT MED SO3.

0714. UCAS Points Requirement

a. The JEM lists the minimum UCAS point requirement against each role.

b. UCAS points requirement: Unless specified higher at the JEM, i.e., for Engineer, some Medical or sponsored education roles, every officer entrant must have at least 72 UCAS points. These can be accrued from either GCE A/AS Levels (or equivalent) or National Diplomas (e.g., BTEC) or replaced by a level 6 degree or above for non-graduate candidates that do not have evidence of the required A-Level or UCAS points (see 0712a).

c. Overlapping subjects may be counted as two qualifications for the purpose of assessing UCAS points, e.g. Mathematics/Further Mathematics. For other potentially over lapping subjects, clarification is to be sought from the R&A Policy WO.

d. UCAS points attained at AS Level are overridden by UCAS points gained at A Level in the same subject. Only the higher tariff is to be counted.

e. For qualifications other than A/AS/H Level; all accepted UCAS qualifications can be found on the UCAS calculator[10].

f. Level 4 and Level 5 qualifications do not carry UCAS points and will not be found in the UCAS calculator.

0715. Educational Equivalency - General Guidance

a. Educational equivalency is a complex area, and the GCSE and UCAS tables below provide only limited guidance. Any qualification which is not covered by these tables should be referred to the R&A Policy WO1 or the appropriate Specialist Recruitment Team.

b. Queries must be accompanied by a copy of the certificates of qualifications in question, when issued, and details of all qualifications held including those in question.

c. Level 1/Level 2 Certificates are regarded as being the equivalent of GCSEs and are acceptable where GCSEs are required for education eligibility. Level 1 Certificates will be comparable to GCSE grades 1-3/G-D and Level 2 Certificates will be comparable to GCSE grades 4-9/C-A*. The certificate should state the grade attained although does not in all cases.

[10] https://www.ucas.com/undergraduate/applying-university/entry-requirements/calculate-your-ucas-tariff-points.

0716. Convertibility of New Scottish Qualifications

a. The new Scottish qualifications can be mapped to the current qualifications using the equivalence table below:

SCQF Level	New Scottish Qualifications	Previous Scottish Qualifications	QCF/NQF Level	BRd 3(1) Eligibility Matrix Qualifications
1 and 2	National 1 and National 2	Access 1 and Access 2	Entry Level	Entry Level Certificates
3	National 3	Access 3 Standards Grade (Foundation Level)	Entry Level	Entry Level Certificates
4	National 4	Standard Grade (General Level) Intermediate 1	1	GCSE Grades D-G Level 1 Qualifications, Foundation Certs/Diplomas etc
5	National 5	Standard Grade (Credit Level) Intermediate 2	2	GCSE Grades A*-C Level 2 Qualifications Certs/Diplomas etc
6	Higher (New)	Higher	3	AS/A Level
7	Advanced* Higher (New)	Advanced Higher	3/4	A Level HNC

b. Within a National 5, a student will receive a Grade A to D. There is no A* however Grades A to C map across to the equivalent GCSE grade (A to C). Therefore, where the matrix currently stipulates that a candidate must hold a GCSE A* to C, this will equate to a National 5 Grade C or above.

0717. Acceptable Alternatives to GCSE Mathematics and English Grade 4/C

	Accept	Do Not Accept
Mathematics	SCE Ordinary Grade: A, B, C *	CSE Grade 1 in Arithmetic
	SCE Standard Grade: 1, 2, 3 *	CSE Grade 1 in Applied Mathematics
	Irish Leaving Certificate Ordinary Level; 01 – 04 or A – C/A1 – C3 *	SCE pass in Arithmetic
	For Maths equivalence a candidate must present a full Mathematics level NII unit passed at a minimum of Merit level or a pass at the Higher level (indicated on certificates as NIII or H).	GCSE/SCE pass in Statistics
	Relevant Open University Credits	'Application Of Numbers' Key Skills
		GCSE pass in Computer Studies
English Language	A pass in a full unit of General and Communications studies at BTEC NC, ND, HNC or HND.	CSE Grade 1 in English and Business Communication
	Irish Leaving Certificate Ordinary Level; 01 – 04 or A – C/A1 – C3	A compensatory award in SCE H Grade English
	SCE Ordinary Grade: A, B, C *	'Communications' Key Skills
	SCE Standard Grade: 1, 2, 3 *	

0718. Medical Standards for Candidates - General

a. CAs are not, in any circumstances, to comment on, advise or guide candidates on their individual medical conditions.

b. All candidates must be medically fit to serve world-wide. In general, physical defects of the body, impediment of speech, defect of sight or hearing, and pre-disposition to constitutional or hereditary disease or illness may cause rejection if these conditions are considered to be of such a nature as to render the candidate incapable of performing general duties in the RN ashore and afloat.

c. Automatic rejection may apply to those suffering from active asthma, epilepsy, diabetes, the majority of childhood cancers (even if successfully treated), colitis, Crohn's Disease or any other long standing bowel disorder or removal of spleen, rheumatoid arthritis, or other major bone or joint disorders. An application may be rejected due to other medical conditions which are not listed but which are subject to the discretion of the examining doctor or Service Medical Authorities in accordance with JSP 950 6-7-7. Selected medical appeals will be examined by a board chaired by SMO SE, or a delegated Registered Medical Practitioner and should be submitted directly to SEMC Medical Appeals Inbox. Medical appeals will be conducted dependent on the needs of the Service, no candidate is entitled to a medical appeal.

0719. Physical Standards for Candidates - Height

a. The minimum height standards for candidates are:

(1) RN General Service, RM and Reserves: 145cm.

(2) Submariner: 157 cm.

(3) RN aviation: 151.5 cm.

(4) RFA personnel are not required to meet a minimum height standard.

b. Candidates must, without exception, meet the minimum height criteria.

0720. Physical Standards for Candidates - Weight

a. Candidates should have a Waist Circumference to Height ratio of between 0.4 and 0.49. Candidates with a Waist Circumference to Height ratio of below 0.4 or above 0.59 will be considered unfit. Candidates with a Waist Circumference to Height ratio of 0.5-0.59 will be considered on a case-by case basis by the Service Entry Medical Cell / Medical Employability Board. JSP 950, Leaflet 6-7-7, Annex C contains further information. [11]

[11] RNTM 01-133/24 contains the RN's interim policy in this area, which will be incorporated into BR 1750A in due course.

b. Candidates who are deferred for weight should be counselled to contact their GP for advice and referred to the pre-joining fitness programme, available on the RN Careers Website and Navy Ready App.. Candidates should also be advised that height and weight will be measured at CPC and on joining Phase 1 training.

c. **RM (excluding RMBS).** All RM officers, OR and RMR candidates must weigh at least 65kg; or have a minimum BMI of 23 before commencing New Entry Training. Weight is to be measured during the F2F medical. Candidates must be guided to maintain this minimum eligibility weight/BMI between the F2F medical and joining; a candidate who is underweight during the entry medical check at CTCRM may not be accepted for RM entry. No waivers are to be issued to those who fall short of these metrics.

0721. Sickle Cell Trait (SCT)

a. During the CRM process CAs will issue a Family Origin Questionnaire (FOQ). The completed FOQ will be used to determine if the candidate is either low SCT risk or high SCT risk. If high risk, the candidate requires further screening. In addition, and attached to the FOQ, each candidate will receive a SCT/Exercise Collapse Associated with Sickle Cell Trait (ECAST) information document.

b. The candidate's FOQ will be processed by the pre-entry medical service provider, if determined high risk, they will be referred for a SCT blood test to determine their SCT status.

c. Candidates who decline to consent to the blood test are to inform the pre-entry medical service provider immediately so that advice can be sought from SEMC.

d. The MME will discuss the results with the candidates during the F2F medical at the CPC.

e. SCT Positive blood test result. The criteria to determine the fitness of a confirmed SCT positive candidate is detailed in JSP 950 6-7-7 Section 4 Annex N para 4. Candidates determined as FIT by the MME will have their medical records annotated with an E2 Marker (FIT for unrestricted duties but with a medical risk) for onward inclusion in the MOD integrated health record by the NETE.

f. SCT Negative blood test result. If candidates are found not to have SCT they will have their medical records annotated as negative at the F2F medical and proceed with the medical process.

g. Overseas Candidates. Overseas candidates who are considered high risk on review of their Medical FOQ will require Blood Tests on arrival in the UK. The CA is to inform the pre-entry medical service provider when the date of arrival is known and include where the candidate will be residing. The candidate will be contacted to book a suitable appointment prior to their CPC and F2F medical. The CA is to ensure the candidate understands the SCT blood test process and is to set reminders on MIS to ensure the blood test is complete before the F2F medical.

0722. Eyesight Standards for Candidates - General and Corrected Vision

a. Eyesight standards are promulgated in JSP 950 to be read in conjunction with BRd 1750A, Chapter 6. Individual role standards are shown in the JEM.

b. There are a large number of abnormalities of the eye or visual system (congenital, traumatic or pathological) which may be a cause of rejection regardless of visual acuity. These are detailed in JSP 950 Lft 6-7-7, section 4, Annex A, and include those candidates who have monocular or uniocular vision, or who have suffered a detached retina or undergone lens implantation or corneal grafting.

c. Candidates who have undergone certain types of surgery for correction of refractive errors may be acceptable for service subject to certain criteria and following specialist assessment as detailed in JSP 950 6-7-7 Annex A. It should be noted however that any form of surgical correction of myopia or hypermetropia is an absolute bar to entry as aircrew (Pilot or Observer). Candidates seeking advice on corrective laser surgery should be given a copy of the letter available on the MIS which encompasses eye surgery.

d. There is no general restriction to the wearing of spectacles or contact lenses to improve visual efficiency provided the eyesight standards, aided and unaided, are met. Candidates must not wear contact lenses, however, for a minimum of 48 hours prior to the eyesight test.

e. If a candidate who does not possess spectacles or other visual aids fails the eyesight test, but the F2F medical considers that their visual acuity could be correctable within the prescribed limits for entry to the Service, then SEMC should advise the CA to book another eyesight test using the SEE contract to confirm this.

f. It is a PJHQ mandate that all personnel deploying to an operational theatre must have passed the Annual Personal Weapon Test (APWT). To fire an SA80 rifle effectively, the user must be able to independently close the left eye. As part of the Entry Medical, candidates must demonstrate the ability to close the left eye independently. Those unable to do so may be declared unfit for entry.

0723. Eyesight Standards for Candidates - Colour Perception (CP)

a. CP testing will be conducted during the Service entry medical using the Ishihara 38 Plate Booklet. The test is to be conducted in a well-lit area. Fluorescent lighting is acceptable.

b. Candidates who are graded ‘Not CP2’ at F2F medical will be required to undertake a further CP test using the Colour Perception Trade Wire Test (TWT). All wires are to be correctly matched by colour and connected to the wire on the opposite side of the board. The candidate is to complete the test within 3 minutes in a well-lit area. Results are to be recorded as follows:

(1) All wires correct - CP4.

(2) Any wire incorrect - CP5.

c. Candidates requiring testing to CP1 and CP3 standard who fail the Ishihara test and pass the TWT as CP4, are to book a Colour Assessment Diagnosis (CAD) test via their CA.

d. The candidate may wear glasses if necessary.

0724. Dental Standards for Candidates - General and Orthodontics

a. Candidates may be rejected for excessive dental decay or other oral conditions that are identified during the recruiting medical examination (see JSP 950 Lft 6-7-7 Annex M).

b. Due to the proven difficulties of continuing orthodontic treatment during the initial training period, recruits who are undergoing active orthodontic treatment with fixed or removable appliances are to be strongly encouraged to complete the course of treatment prior to entry. If orthodontic treatment cannot be completed prior to entry, the entry date may need to be deferred (with the exception of DTUS/DSUS/UCE and joining URNU). Career staff are to seek advice from SEMC for these candidates.

0725. Food Allergies and Related Conditions

Generally, a history of gluten enteropathy or gluten sensitivity, serious food allergy (e.g. peanuts), lactose intolerance and inborn errors of metabolism are incompatible with military Service. Exceptions to this general guidance may be permitted under certain circumstances and will be determined by the Service entry medical process, referring to SMO SE as required.

0726. Pregnant Candidates - Acceptance for Training, Deferrals and Cancellations

a. To refuse or defer an offer of employment to a candidate solely on the grounds that they are pregnant constitutes unlawful discrimination. Careers Staff are not to ask candidates if they are, or intend to become, pregnant.

b. If during the recruiting process, a candidate reveals that they are pregnant, in accordance with the RN's duty of care obligations, their application may be deferred to allow the requisite selection tests to be taken at a later timescale to protect the health and safety of the candidate and their unborn child. Following the birth however, the candidate is free to continue their application and should be referred to SEMC as part of the normal recruiting process. The requirement for the provision of childcare should be explained at the earliest opportunity. Refer to Chapter 5, paragraph 0510 (Childcare provision during and after initial training).

c. If a candidate declares themselves to be pregnant after they have received an Offer of Service date, their entry into the Service must be allowed to proceed providing the conditions are met. Legal advice must be sought from NAVY-LEGAL EMPLOYMENT LAW SO1 (through **R&A Policy WO1**) on **all** occasions this paragraph applies. If the candidate gives birth whilst awaiting entry, the candidate is free to continue their application after childbirth and should be referred to CPC medical or the medical contractor using the Change of Medical Circumstances process. The requirement for the provision of childcare should be explained at the first opportunity via a bespoke SHINE interview, which must be recorded.

d. Should a pregnant candidate wish to defer or cancel their entry to the Service, this is to be recorded on MIS with all subsequent actions outlined, including Medical re-assessment and the intent for deferral or withdrawal. The candidate should not, however, be forced to do so.

e. A candidate who requests advice on possible health and safety risks should be referred to their own GP. Careers Staff must not offer medical advice. RF Staff may seek advice from SEMC.

f. Advice on maternity, paternity and adoption in the RN is at chapter 35. Prior to a candidate's entry into the RN, Medical advice may be sought from SEMC; legal advice may be sought from NAVY LEGAL- EMPLOYMENT LAW SO1 (through **R&A Policy WO1**).

0727. Body Piercing and Wearing of Jewellery

a. The risk of injury, infection and the requirement for an individual's bearing to be neat, discreet and have a restrained personal appearance when in uniform, combine to make body piercing inappropriate within a Service environment.

b. No jewellery is to be visible with uniform other than the following items:

(1) Signet and wedding rings for men.

(2) Signet, engagement, wedding rings and small plain gold sleeper or stud earrings for females.

(3) All medical personnel (MOs, NOs, NNs, Dental Officers and MAs) must follow current clinical guidelines when in a clinical environment or clinical uniform.

c. **Flesh Tunnels.** Should a candidate elect to remove a flesh tunnel, the hole resultant of the piercing must be resolved to enable eligibility on health and safety grounds.

d. No other form of jewellery will be allowed to be worn on the body even where a part of the body has been pierced or prepared, whether for any ring, stud or sleeper. Body piercing does not include a piercing of the ear lobe for the wearing of a stud or sleeper.

0728. Tattoos

a. Individuals applying for entry into the RN are to be rejected if they have any tattoo, whether visible or not, which is obscene or offensive (e.g., racist, anti-religious, crude, overtly sexist, drugs-related or of an extreme political nature). RN tattoo policy is stated in Chapter 38, paragraph 3817 and only repeated here. The Service Entry Medical Examiner is to bring to the attention of Careers Staff any applicant with a tattoo which is considered unacceptable.

b. The interpretation of whether a tattoo is offensive, or not, is an executive function. It is not the responsibility of the Service Entry Medical Examiner to make such a decision but they are to highlight the existence and description of any tattoos to the CA who is empowered to make a judgement as to whether it is offensive. If there is doubt, advice should be sought via the chain of command.

c. Tattoos to the hands, neck and face are no longer an outright bar to entry, noting para a. above. Tattoos to the face (above the jawline/below the hairline) are to be referred to Dep Hd R&A for approval.

d. On no account are Careers Staff to advise candidates to have tattoos removed, but should state that the candidate cannot join the RN whilst wearing the non-compliant tattoo.

e. In cases of doubt, advice is to be sought from R&A Policy WO1.

0729. Option for Medical Discharge During Phase 1 Training

a. Ratings and other ranks who, during Phase 1 Training, are found to be unfit for Service due to a medical condition which existed prior to entry, and has materially worsened as to render the recruit unfit to continue training will be discharged from the Service on medical grounds. Phase 1 is interpreted as the first 10 weeks of training for RN recruits, and the first 18 weeks for RM recruits. For any individual, this method of discharge period may cover periods of back-classing, rehabilitation and leave, but with an absolute upper limit of 12 months of joining NETE. The following administrative action will be taken by the NETE:

(1) A letter will be sent to the recruit (or parents/guardians if under 18), explaining the reasons underlying the decision and indicating whether they can re-apply in the future and, if so, what conditions will have to be met prior to that re-application.

(2) A discharge letter will be forwarded to the recruit's GP as part of transferring primary care. The FMed 133 will normally suffice but PMOs may provide additional information as appropriate.

(3) A letter will be forwarded to the appropriate CA indicating that the recruit has been medically discharged and whether they may re-apply in the future.

(4) A letter will be forwarded to SMO SE providing full medical details of the condition leading to the discharge and indicating whether this was pre-existing and could reasonably have been expected to have been identified at the initial medical. Information on any prior treatment or specialist assessment should also be provided.

(5) For officers and recruits from Commonwealth and non-UK countries, who are granted exemption from UK Immigration Control while in Service, reference should be made to Chapter 54, paragraph 5465.

b. Candidates who, prior to entry, deliberately withhold information concerning a pre-existing medical condition will be discharged as 'Fraudulent Entry'.

0730. Baseline Personal Security Standard (BPSS)

BPSS is a collective term for pre-employment enquiries made to ensure that suitability has been properly established and checked, of those who may have uncontrolled access to, or knowledge or custody of, Government assets. The BPSS is an essential part of the MoD's system of protection against risks from terrorism, espionage and crime by providing assurance about the identity and integrity of individuals.

0731. BPSS - Use within Recruiting Process

a. The Baseline Personnel Security Standard (BPSS) is the mandatory pre-employment control required for all Civil Servants, members of the Armed Forces (including Reserves and Cadet Instructors), temporary staff and government contractors. It is not a National Security clearance, but its rigorous application underpins National Security Vetting. Other than in exceptional circumstances, vetting must not be undertaken before the BPSS controls have been applied.

HMG Baseline Personnel Security Standard – May 2018[14].

b. Other Ranks candidates' BPSS checks are conducted over SHINE by the CA during the recorded SI. Officer candidates' BPSS checks are conducted following hand-off via the 'Officers BPSS Check', also recorded over SHINE. In respect of candidates requiring attendance at RAF Cranwell for CBAT, their BPSS is to be conducted in advance of this attendance and checking of documents must be conducted in person with Careers Staff at the nearest AFCO.

c. For information regarding the BPSS process at SI refer to Chapter 8, paragraph 0813.

[14] https://www.gov.uk/government/publications/government-baseline-personnel-security-standard.

d. Recording. The passport is to be copied, verified and uploaded to MIS as early as possible in the process.

e. It is a candidate's responsibility to obtain and pay for their own passport. Candidates requiring new or renewed British passports should be encouraged to visit the nearest post office for a passport application form. See Chapter 8, paragraph 0833 for candidates that express difficulty with passport fees.

f. Further information and guidance on Security and Vetting policy is located in BRd3(1) Chapter 63.

0732. Nationality Eligibility Criteria for Recruitment into the Royal Navy

Up to date Nationality eligibility criteria is listed in the JEM.

a. For entry into the RN, a candidate must satisfy one of the following nationality criteria:

(1) **Sole British Citizen**[15]**.** An individual who was:

(a) Born in the UK (including the British Crown Dependencies of the Channel Islands and Isle of Man) and has been a British citizen at all times since birth.

(b) Born outside the UK but qualifies for British citizenship from birth by descent e.g., parent(s) who, at the time of birth, was employed on Crown Service in a country other than a Tier 1 Country and the birth was registered at a British Military unit or British Embassy / Consulate.

(2) **Sole Republic of Ireland (ROI) Citizen.** Someone who was born in the RoI and has been a citizen at all times since birth.

(3) **Sole Commonwealth Citizen.** Someone who was born in the independent Commonwealth country of which they are now a citizen and has been a citizen of the country at all times since birth. A full list of Commonwealth countries is shown at sub-paragraph f.

(4) **Dual Nationals**. The following individuals are also eligible to apply to enter the RN (subject to award of SC):

(a) British citizens who hold nationality of any other country, with the exception of Tier 1 restricted countries[16].

(b) ROI citizens, as described at 0732. a. (2), who hold nationality of another country, with the exception of Tier 1 countries.

[15] The following are **not** British citizens unless they qualify under historical nationality criteria: British Overseas Territories citizen, British Overseas citizen, British subject, British National (Overseas) or a British Protected person. All are classed as Commonwealth citizens. Refer to the website www.gov.uk/types-of-british-nationality or contact the Home Office/UK Visas and Immigration for further information if required.
[16] Up to date list is available on demand from Area Co-Ordinators

(c) Commonwealth citizens, as described at 0732. a. (3), who hold nationality of another country, with the exception of Tier 1 restricted countries.

(d) Born outside the UK but now holds dual British citizenship following naturalisation. Their former nationality is also retained[17]. These candidates will not be eligible if they are dual UK and Tier 1 and/or Tier 2 restricted countries.

(e) Dual nationals are not eligible for some roles as detailed in the JEM.

(5) **Gurkhas.** The Armed Forces (Aliens) Regulations 2009 exempts citizens or nationals of Nepal, who joined before 2018, who serve or have served for not less than 5 years in the Brigade of Gurkhas, from the prohibition on aliens serving in the UKAF. This means that they are ineligible to join the RN before 5 years has elapsed. For those who joined after 2018 they have to have served for 7 years before they can join the RN.

b. **Asylum Seekers or Refugees.** Asylum Seekers or Refugees are not eligible for entry into the RN.

c. **National Service Liability.** Candidates who are citizens of a country other than the UK or the RoI (as indicated below) must present written confirmation from the Government of the nation(s) concerned that they are not required for national service (or military service), either now or at some future date. Documentation must be produced by the candidate before an application can be processed further. Due to the list of affected countries being updated regularly, Careers Staff should liaise with the Overseas Recruitment team to check the relevant affected Nationalities.

d. **Rescindment of Nationality.** For a previously Non-British or Dual Nationality candidate to be declared Sole British, they must have rescinded their former nationality. A Certificate of Rescindment issued by the country of origin government authority is to be presented by the candidate to their Careers Adviser.

e. **Promotion to Officer from the Ranks.** RN and RM candidates holding sole Commonwealth citizenship should be advised that, in most branches, they will not be able to be promoted to officer from the ranks (via the Upper Yardman/Corps Commission or Senior Upper Yardman/Senior Corps Commission schemes) due to nationality employment rules which stipulate the need to hold British citizenship.

[17] Unless voluntarily rescinded to be considered a Sole British Citizen. Evidence of the rescindment is required.

f. **Full list of Commonwealth countries**.

Antigua and Barbuda	Australia	Bahamas, The	Bangladesh	Barbados	Belize
Botswana	Cameroon	Canada	Cyprus	Dominica	Fiji
Gabon	Ghana	Grenada	Guyana	India	Jamaica
Kenya	Kiribati	Lesotho	Malawi	Malaysia	Maldives
Malta	Mozambique	Namibia	Nauru	New Zealand	Nigeria
Pakistan	Rwanda	Saint Lucia	Samoa	Seychelles	Sierra Leonne
Singapore	Solomon Islands	South Africa	Sri Lanka	St Kitts and Nevis	St Vincent and the Grenadines
Togo	Tonga	Trinidad and Tobago	Tuvalu	Uganda	United Republic of Tanzania
Vanuatu	Zambia				

0733. UK Immigration Exemptions for Commonwealth Candidates

a. Under section 8(4) of the Immigration Act 1971 members of the UKAF are exempt from immigration control for the duration of their service. On discharge, however, immigration exemption is no longer valid and in these circumstances, reference should be made to Chapter 19. Commonwealth candidates with a valid UK visa, who pass all elements of the recruitment process, including SC, may be entered into the RN. The appropriate MIS Letter is to be raised by R&A Overseas Desk and must be included with Entry Papers when forwarded to the NETE. All candidates must hold a valid passport and visa/residency permit before entering the RN. Where a candidate comes from a non-visa country, then a flight boarding pass or airline ticket with date of entry to the UK must be provided.

b. Once engaged/attested, the NETE UPO/HR Admin Office is to forward the candidate's passport and the covering MIS letter to the Home Office, a template for which can be found at Annex A to Chapter 19. The letter must state that the candidate has now entered the UKAF, and request an exemption stamp to be placed in their passport.

0734. Residency Criteria

a. Generic information regarding Residency Criteria is in BRd3(1) Chapter 63 Annex A.

b. **Cryptologic Technicians, Warfare Specialist (Int), Warfare Specialist (SM), Cyber Reservist, Warfare Officers (Int).** Candidates for entry into the above roles require DV and must have resided in the UK for a minimum of 10 years continuously, immediately prior to making an application. A residency waiver will only be considered in exception. In addition to holding sole British citizenship, candidates considering these roles must satisfy the following requirements:

(1) Their parents must be sole British.

(2) Their spouse/cohabitant and their surviving parents must hold sole British nationality.

(3) Their immediate family, and any other person to whom the candidate is bound by affection or obligation, should not be subject to physical, mental, or other forms of duress by a foreign power.

0735. Residency Rules - Waiver Application

a. Refer to BRd3(1) Chapter 63 for full policy on Residency Waivers.

b. Residency waivers cannot be given for DVs; all personnel must have lived in UK for a minimum of 8 years continuously to be eligible for DV. Some roles require personnel to have a DV at a very early stage of their career, therefore any candidate requiring a residency waiver would not be eligible for any of the 4 DV roles or for WEO(SM) or X(SM) officer.

0736. Security Clearance and Travel Requirements for Overseas Candidates

Overseas candidates may be required to attend pre-selection courses, auditions or selection boards.

a. **Security Clearance (SC).** candidate cannot join the RN or RM until SC has been issued. Career staff are to advice candidates to confirm possession of an SC before making any travel arrangements to the UK for this purpose. If a candidate's joining date is known, they must be issued SC at least one month prior to this date to enable them to make appropriate travel plans. Of note, the candidate will also be required to complete a full F2F Medical, RN/RM Candidate Preparation Course and DAA in the UK.

b. **UK Resident Sponsor.** The candidate must provide details of a genuine sponsor who is resident in the UK. The candidate must understand, and confirm, that this sponsor will be able to, where required:

(1) Support the candidate's travel from the UK point of entry to the nominated sponsor's address. The MoD will not fund travel to UK. The MoD will fund travel only from the sponsor's address to the Phase 1 Establishment.

(2) Provide accommodation for the candidate from arrival in UK to commencing Phase 1 Training. The sponsor must be aware that the date of joining is subject to change due to factors outside MoD control and must be able to provide accommodation until the revised joining date. The MoD will not provide or fund accommodation for candidates.

(3) Provide the recruits with support to accommodation during main leave periods when the Phase 1 Training establishment is closed.

c. **Return Travel to Country of Origin.** The candidate must have sufficient funds in their bank account to support a journey back home if the career in the RN/RM does not work out for them at an early stage. Their visa will not support remaining in the UK on leaving the Service and MoD will not fund their travel home.

0737. Security Clearance - Applying to UKSV

SC is required for all Candidates, except for Cryptologic Technician (CT), Cyber Operative, Warfare Intelligence Specialist and X (INT) Officer Candidates who require Developed Vetting (DV). All SC and DV applications are to be initiated at the earliest opportunity on successful completion of BPSS and SI, or Officers' BPSS Check. If a candidate is withdrawn or is rejected from the recruitment process for any reason, the CA is to ensure the SC / DV application is terminated.

a. Once the candidate has passed the DAA, references are to be obtained and the BPSS check completed. The SC is to be initiated at the earliest opportunity.

b. DV applications are to be routine and raised to priority if required when a joining date is known[18]. Candidates requiring DV will not be permitted to enter Service unless they have been awarded a clearance[19].

c. A record of the date of initiation of the UKSV 001 to UKSV is to be made on MIS.

d. Candidates may attend CPC, MedFit, AIB, OSC, Aircrew recruitment serials and selection boards in parallel with the SC application.

e. Security clearance is to be confirmed prior to entry. A check of SC applications is conducted on candidate successful completion of CPC. If there are any issues affecting timely award, Candidates are to be given the option to continue with allocation to entry or deferring their entry date according to their personal circumstances.

f. Careers Staff must inform UKSV, by cancelling on NSVS, of those candidates who are rejected or withdraw their application after submission has been made to UKSV for SC or DV.

[18] To raise the DV case to priority please contact NAVY PSYA Personal Security.
[19] Careers Advisor to liaise with R&A Plans Rating Allocator.

g. Should the candidate already hold a National Security Vetting clearance (by checking NSVS portal) UKSV may transfer/share the clearance without a new NSV 001.

h. **Security Clearance Waivers.** Waivers will only be considered where a candidate's entry date is driven by a Phase 2 training date and/or delaying the candidate would significantly disadvantage them or lead to a very long holdover. Waivers must all be approved by Dir P&T. Administration to support a potential waiver should be considered as early as possible, within the 31 days to the allocated entry date, to allow time to seek the required higher command approval. A Risk Balance Case (RBC) is to be drafted by R&A Plans Officer Allocator in readiness to submit a waiver request at least2 weeks before the candidate's allocated entry date. The vetting application is to continue in these 2 weeks, and the waiver withdrawn if the clearance is confirmed prior to entry.

0738. UKSV Processing of Security Clearance Applications

a. The process is laid down in JSP 440 leaflet 2B.

b. Where overseas enquiries are needed and a residency waiver required, the vetting application is not to be submitted until the residency information has been gathered and submitted accordingly to the appropriate focal point.

c. In certain circumstances and in the interests of national security, Security Clearance may be denied. A reason for denial will not be given to the CA, however the candidate may be informed by UKSV. It is therefore vital that, on completion of successful interview, the candidate is cautioned using MIS-generated Post Interview Caution.

0739. UKSV Notification of Security Clearance

a. UKSV will forward notification of award of clearance to the sponsor electronically.

b. On receipt of clearance notification, the number and date of award is to be inputted into MIS. The notification is also to be uploaded to documents on MIS thus making it available to NETE.

0740. Security Clearance Validity Periods

a. A Security Check (SC) is typically valid for 10 years, provided that the candidate enters the Service within 12 months from the date of issue. The candidate's SC will lapse 12 months from the date of issue if the candidate has not entered the Service and an application for renewal will need to be made.

b. Applications for renewal of SC should not be made until 11 months from the date of initial applications. If an existing application has previously been awarded, then arrangements must be made to cancel the clearance in preference to the renewal (UKSV will cancel the review if they see an existing valid clearance on the basis that they are unaware if personnel are employed or not).

0741. UKSV Security Clearance Denial Procedure

a. Navy PSYA Per Sy will inform the CA when a candidate has been denied Security Clearance. UKSV additionally informs the sponsor.

b. UKSV will write directly to the candidate denying the Security Clearance application. The candidate has no right of appeal as they are not employed. Once it is apparent that the Security Clearance has been denied, a period of 7 days is to be allowed for UKSV to issue their letter, then reject the candidate on MIS. A further application is not to be accepted without permission from R&A HQ. Queries or complaints from the candidate must be forwarded to R&A HQ and a holding letter sent to the candidate to this effect, as per Chapter 4, paragraph 0410.

0742. Security Clearance Applications - Guidance to Candidates

a. Careers Staff must fully explain to the candidate the significance of the UKSV 001 and MoD Form 493 when they are issued. The candidate must be warned that failure to disclose relevant information when completing these forms is likely to be regarded as evidence of unreliability and an indication of a lack of integrity, and may result in rejection for entry into the RN.

b. Candidates are to be instructed to complete the UKSV 001 using identical data to that inserted by the CA when initiating the form. CAs may need to provide guidance or assistance to the candidate when they are filling out the form. Guidance notes for the applicant and sponsor are on the UKSV website.

0743. Maritime Reserves Entries - Security Clearance Waivers

a. If a candidate has not received their SC 4 weeks after submission of SC application, then the CA is to request a waiver from CMR SO2 Training (NAVYMR-HQRNRTRAININGSO2@mod.gov.uk). Any such waiver is granted at risk; candidates must be reminded that SC is mandatory for acceptance into Service.

b. Candidates in receipt of an SC waiver are not to progress beyond Phase 1 training until full SC is granted. If SC is subsequently refused, the candidate will be discharged.

0744. Disclosure and Barring Service (D&BS)

a. The medical roles listed below require enhanced D&BS prior to entry. This should be applied for immediately after a pass at the Selection Interview and the Candidate’s identification has been verified.

(1) Medical Officer/Medical Officer Cadet

(2) Medical Services Officer Submarines Health Physicist

(3) Dental Officer/Dental Officer Cadet

(4) Nursing Officer - Adult/Mental Health

(5) Naval Nurse Rating - Adult/Mental Health (Qualified or Student)

(6) Medical Technician Radiographer (Qualified or Student)

(7) Medical Technician Operating Department Practitioner (Qualified or Student)

(8) Medical Technician Biomedical Scientist (Qualified or Student)

(9) Medical Technician Dental Hygienist (Qualified)

(10) Dental Nurse (Qualified or Student)

(11) Medical Assistant General Service/Submariner

(12) Chaplain

b. For any other roles that are believed to require D&BS prior to entry, refer to the R&A Policy team.

c. In the event of a D&BS having not been cleared by the time the Candidate is ready to be Bid for Allocation, R&A Policy team is to be consulted and a waiver will be considered by Dep Hd R&A to permit the candidate to enter Initial Naval Training. The D&BS must be received prior to the candidate commencing a patient or client facing role.

0745. References

References are no longer routinely processed by the CA, with the following exceptions:

a. Candidates with residency issues.

b. If the CA has any doubts.

0746. Cryptologic Technicians, Cyber Operatives, Warfare Specialist (Int), Warfare Officers (Int)

a. Once candidates have passed SI, DV clearance applications are to be initiated by the CA.

b. On award, DV clearance will not exceed 7 years. There are certain circumstances when a clearance awarded will be for a shorter period; authority remains with NAVY PSyA. Clearance will remain valid until the candidate enters Service, regardless of how long the candidate is in the recruitment pipeline and will automatically be refreshed once the candidate joins SCU.

c. A candidate with full SC clearance may enter NETE prior to DV being confirmed as long as the DV process has been initiated. If the DV is not in place prior to the new entrant joining Phase 2 Training, this will be managed in-Service.

0747. Specialist Entry RNR Officers

a. **Pharmacist/Physiotherapist Officer.** All qualified pharmacists or physiotherapists must have been registered with the GPC or HCPC respectively, without restrictions. All potential candidates will be assessed by Specialist Medical Recruiter Reserves (R&A MR Recruit WO) by F2F/telephone/virtual means and via submission of CV.

b. **RNR Chaplain.** Newly qualified and accredited clerics / practitioners can apply for Probationary RNR Chaplaincy. They will not enter INT until they have been endorsed by their relevant organisation. Eligibility advice is available from the Chaplain Specialist Recruiter - NAVY RA-Chaplain. Further information on Chaplaincy entry are provided in chapter 10.

CHAPTER 8

TESTING PROCESSES

0801. RN Website

Candidates searching the Profession Finder are presented with two options:

a. **"Application Process".** EOI form sent to the Contact Management Centre (CMC) for basic eligibility checking.

b. **"Register Your Interest".** EOI form sent to the CMC outbound communications.

0802. Contact Management Centre Teleperformance (TP)

The RN CMC initial application support system:

a. **Inbound Calling.** Handling of all telephone Career Enquiries for RN, RM, RFA and Maritime Reserves, including providing application URL if candidate is ready to apply.

b. **Outbound Calling.** Contacting all priority roles as promulgated from HQ.

c. **Level 3.** Careers Advice. Potential applicants who request further information are offered a call from embedded CA's.

d. **Webchat.** Provide information, advice and support on Royal Navy Careers Website via the webchat feature.

e. **Email Support.** Provide information, advice and support via email feature on Royal Navy Careers Website.

f. **Social Media.** Monitoring of all posts and comments on Royal Navy recruiting sites (Facebook, Instagram and Twitter) including replying to relevant queries.

g. **MIS Handoffs.** Embedded CAs conduct basic eligibility checks (nationality and previous service) then assign to the relevant Area Co-ordinator on MIS or reject as appropriate.

h. **Portal Support.** Embedded CA email portal support for candidates experiencing technical issues on their recruiting portal.

0803. Management Information System (MIS) Form

a. Once registered on MIS the candidate will receive the following:

(1) Day 0 - Communication email sent to candidate with link to register to RITS portal.

(2) One MIS communication per month until either application is completed or reaches 12 months of inactivity.

(3) After 12 months of inactivity, MIS account is deleted.

b. If a candidate does not complete an application form:

(1) Day 5 - Carpe Diem will send the candidate an email reminding them to apply via the link.

(2) Day 10 - Further reminder from Carpe Diem, with additional information to contact Specialist Recruiting Team who also have access to Carpe Diem (can commence eCRM).

(3) Day 15 - Carpe Diem will send the candidate a further communication reminding the candidate to apply via the link.

(4) Day 35 - Carpe Diem will send the candidate a survey email.

(5) Day 60 - Carpe Diem will send the candidate an email advising of closing of their enquiry. No further communications sent.

c. Upon receipt of a completed application form the CMC will:

(1) Check all the fields are complete.

(2) Using the JEM, the system automatically checks that the candidate satisfies the basic eligibility criteria for the role about which they are enquiring. If a candidate is ineligible, the system sends them an email.

(3) Email the candidate acknowledging receipt of the form and send them a text, whilst also nominating a region.

(4) Transfer ‘Ready’ MIS forms into MIS and allocate them to the nominated region. The application will either create a new record or marry up with an existing MIS record.

d. For ‘Unready’ forms, the CMC will either request further information from the candidate or reply with an email explaining why they are ineligible.

e. Once transferred to MIS, the CA has 7 days to contact the candidate and initiate the CRM procedure, which requires:

(1) Discussing role(s).

(2) Confirming eligibility for RN and selected role.

(3) Discussing application including process, fitness concerns and any questions etc.

(4) Arranging DAA.

(5) Confirming awareness of practice DAA facilities and recommending a completion timeframe.

f. All overseas candidates, apart from the Republic of Ireland (RoI), are to be processed by the Overseas Desk.

g. All RoI candidates are to be processed by the Northern Ireland component of the RF.

h. Re-entrant candidates select the option via the website that they have previously served and in all cases are initially processed by RISTT.

(1) If the candidate has achieved GTS and is returning to their original role, then RISTT will liaise with BM and check JMES, then process accordingly.

(2) For candidates that are UTS, the RISTT will process as per sub-paragraph (1) then hand to the RF for processing in addition to issuing the Approval to Process letter.

(3) For officers: forward those documents to AIB.

0804. Defence Aptitude Assessment (DAA)

The Defence Aptitude Assessment (DAA) is an assessment to predict a candidate's aptitude for a specific profession/ role. Whilst prior educational ability and acquired learning are important, the likelihood of a candidate to succeed in their RN training is best measured, and training risk reduced, by an aptitude assessment. The DAA offers a solution which enables objective testing of aptitude via virtual (unsupervised) and in-person (supervised) methods, to provide more agile accessibility to candidates. The DAA is to be conducted in accordance with ROM chapter 4 - DAA. It measures aptitude of all candidates (ratings and officers) across each of the 6 areas listed in the table below:

1	Verbal Reasoning (VR)
2	Numerical Reasoning (NR)
3	Spatial Reasoning (SR)
4	Work Rate (WR)
5	Electrical Comprehension (EC)
6	Mechanical Comprehension (MC)

0805. DAA - Waiver Process

a. DAA waivers will be considered on a case-by-case basis with the following considering factors:

(1) Preference role must be one for which waivers are accepted iaw JEM.

(2) Score within 10 Percent of the overall required threshold score.

(3) Score must be 1 point below requirement in no more than two stanine scores.

(4) A combination of overall and stanine shortfalls will not be accepted.

b. A waiver request is only to be submitted after the candidate has been unsuccessful at two DAA attempts. Requests after only one DAA attempt will be denied.

c. Requests will arrive as a 'TASK' to WO1 Policy and WO2 Ratings Allocations RITS Accounts.

d. **CA Actions.** The DAA 'Waiver Request Button' is located in the Score card Tab in the candidate 360 but will only appear when the candidate has completed a DAA. Click on the Waiver Request button and complete the reasons for waiver adding any relevant comments for the R&A policy team and submit. Once the waiver has been submitted the details are available in the actions tab.

0806. DAA - Trial and Mock Test

A practice version of the DAA is hosted on the RN careers website. This allows candidates to practice the test and familiarise themselves with its layout, functionality and understand its flow. Immediately prior to the DAA, all candidates will need to confirm on their own device/tablet that the device is of an appropriate size and that they have attempted at least one mock test prior to undertaking the assessment. This is aimed at ensuring they are adequately prepared to enable them to perform to their best.

0807. DAA - Basic Administration Instructions

a. The candidate will be invited to complete the test on their own device, which should have a minimum screen size of 10.1 inches, as detailed in the supporting advice and guidance provided within the DAA invite. If this is not possible, the candidate can opt to complete the test at their local careers office on an RN provided i-Pad or another tablet.

b. The candidate will need to confirm the size of their device screen immediately prior to undertaking the DAA. This is to mitigate against the risk of potential under-performance by the candidate through attempting to complete the test on smaller devices e.g., smart phones. It is the candidate who accepts this risk if they complete the test on an inappropriate device, sufficient warnings are provided to inform the candidate of this.

c. On completion of an assessment, a candidate's scores are not to be disclosed to the candidate, or the candidate's representative e.g., family or schoolteacher etc until they have been appropriately reviewed by the Career Adviser.

0808. DAA - Careers Office Assessment

In the event that a candidate does not possess the necessary device to conduct the DAA as paragraph 0807 outlines, ROM chapter 4 provides guidance on preparing the test room for a candidate to sit the assessment within a Careers Office.

0809. DAA - Overseas Candidates

a. Eligible overseas candidates can now conduct the DAA before arrival in the UK. The process for administration of the DAA link to eligible candidates residing overseas is to be applied in accordance with Chapter 4 of the ROM.

b. **Non-Eligibility.**

(1) Candidates residing in Tier 1 or 2 countries are not to be issued DAA The recruiting process for these candidates is to continue IAW the ROM, with the DAA to be issued once the candidate is in the UK.

(2) Indian and Nigerian candidates are not eligible for a residency waiver and the DAA is not to be issued to candidates residing in either of these countries. Indian and Nigerian candidates must have resided in the UK for 5 years and be confirmed as legally entitled to live and work full time in the UK up to the date of entering Service.

c. **Supervised DAA.** There is currently no process to support supervised DAA testing overseas. If overseas candidates are not able to complete the DAA unsupervised outside of the UK for any reason they will need to complete the DAA on arrival in the UK, unsupervised or supervised via an RN AFCO or CPC. CAs are to ensure these candidates are supported to sit the DAA once they arrive in the UK.

d. **Branch Transfers.** In the event a candidate fails to achieve the DAA score for their preferred role, CAs are to offer a suitable alternative role, depending on eligibility IAW the JEM.

0810. DAA - Candidates Failure Process

If the candidate does not achieve the required pass marks for the profession they have selected within their application, they will be provided with the following options:

a. Candidates can attempt the DAA twice[2]. Exceptionally, a third attempt is to be offered by Careers Adviser with justification for a third attempt to be recorded in the candidate's 360 Notes. All DAA 3rd attempts must be supervised. Staff are to advise the candidate they may re-sit the DAA earlier than 28 days if the candidate feels confident and requests to do so. Candidate Relationship Management (CRM) is to be given, reminding candidates that the score they achieve in the final attempt will be the score used in the score card to support their application.

[2] Occupational Psychologists and test designers recommend 28 days elapse between tests, however a candidate may re-sit the DAA earlier than 28 days if they confident and request to do so.

b. Post CRM with a CA, the candidate may change their profession to another that they are suited and eligible for based on their DAA result. This CRM is to be influenced by RPG priorities.

c. If a candidate does not achieve the required DAA score for their preferred profession/role, and does not wish to consider an alternative that is aligned to their DAA result, their application will be rejected. Their results will be held for 3 years within MIS, should they re-apply. The candidate can re-apply at any time for another profession for which they are qualified and have the requisite DAA score. Should a candidate wish to attempt the DAA again as part of a new application for a role they were previously ineligible for, they must wait at least 12 months since their last DAA attempt. Their DAA attempts are rest to zero. Rules of para a above will re-apply.

0811. DAA - Test Counter Compromise Measures

a. The nature of the online DAA makes it susceptible to potential compromise, most commonly by people using a calculator (or other electronic/computer based assistance) or by having someone else sit the test on a Candidate's behalf. There are a number of counter compromise measures that aid in the detection of someone attempting to 'game' the assessment or gain an unfair advantage. The DAA test, scoring and outcomes are audited by R&A HQ to monitor and highlight any suspect test results. R&A HQ also continually review the score thresholds to ensure they are appropriate to meet the recruitment requirement.

b. Within the terms and conditions of the non-supervised test, the RN retains the right to subject those who have completed successful tests to a supervised confirmatory re-test, as part to the audit process. Additionally, the RN retains the right to re-test or reject anyone suspected of attempting to compromise the DAA. Any candidate suspected of compromising the DAA should be invited to conduct a supervised re-test; CAs should look for cases where index scores in a second test are more than 20 points different to that in the first, across 2 or more employment categories, where the candidate does not provide justification for their initial poor performance.[3] If a Candidate declines to sit a supervised re-test, their application should be rejected.

c. If they complete the supervised test and their index score is more than 20 points less than they previously scored, across three or more employment categories, then this is to be highlighted to R&A SO2 Plans for review. If the Candidate scores less than a 20 point difference, but is no longer eligible for their preference role/s, they may be required to select another role aligned to this new score or complete a final supervised re-test. If they refuse this, their application will be rejected as per the terms and conditions of the test.

d. Following review by R&A HQ, if it is felt that on the balance of probability the Candidate had compromised the integrity of the test on one of their attempts, they are to be rejected as per the DAA terms and conditions. Such Candidates are usually to be rejected for a minimum period of 12 months.

[3] Justification might include using an incompatible device, connectivity issues etc. A very poor first test and normal-looking second test should not automatically require a 3rd supervised test - CAs are to exercise discretion based on their knowledge of the Candidate.

0812. DAA - Copyright Protection

a. The DAA is protected by Crown Copyright; any individual, or company, found to be attempting to record or publish the test online without the permission of the RN will be deemed to have breached its copyright. If a breach is detected, the RN will pursue the individual(s), or company concerned, using both civil and criminal legal means to protect the copyright and the integrity of the test. There are indicators embedded in the test that will allow the RN to identify video recording or stills taken of the test. If this happens, it will be treated as a breach and the RN will retain the legal means to redress this issue.

b. The DAA has over 75,000 question variants within the test battery. A candidate, therefore, has a 1 in 75,000 chance of having the same test as another candidate. As the test matures, more questions will be added to the battery. This reduces the impact of a test being recorded and published online.

0813. Initiating BPSS at Selection Interview

a. The CA is to conduct initial searches to provide verification and documentary evidence for the BPSS for all candidates.

b. The CA carries out BPSS at the Selection Interview via SHINE[4], and when completed, this is recorded on MIS. SC applications for all ranks should be initiated at the earliest opportunity on successful completion of BPSS and SI, or Officers' BPSS Check.

c. For more information on BPSS, refer to HMG Baseline Personnel Security Standard – May 2018[5].

0814. Eyesight Test - Booking

a. The CA is to issue the candidate with an unused access code (depending on entitlement), authorising the candidate to have an optician's test carried out by the contractor. The candidate will be responsible for completing the online booking process, taking note of the eyecare voucher code as this will be required when attending their contractor eye test. The optician will send a report electronically to the contracted Pre-Entry Medical Service Provider. For certain locations or roles, this process may be adapted to allow flexibility as to when the test is completed and outcome of results which may be given in hard copy and prior to full medical. Once received, the eyesight report will be uploaded with the candidate's NMHQ onto the medical portal.

b. Where an eyecare scheme is not fully integrated into a candidate's local region, CAs can issue the Candidate Miscellaneous Personal Payment Form RFI such that the candidate can reclaim reasonable travel costs.

[4] All Candidates that are required to attend RAF Cranwell for CBAT are to have their BPSS documents physically F2F verified by a CA, in an AFCO, prior to attendance at RAF Cranwell for CBAT.
[5] https://assets.publishing.service.gov.uk/media/5b169993ed915d2cbae4af03/HMG_Baseline_Personnel_Security_Standard_-_May_2018.pdf.

0815. Initial Aviation Eye Examinations (IAEEs) for Aircrew Candidates

Aircrew candidate eyesight tests are to be conducted by Contractor Opticians prior to the Initial Aviation Medical Examination. See reference: ROM Chapter 1.

0816. Service Entry Medical Policy

a. Designated Medical Examiners (MEs) include RN MOs (General Practitioners (GPs) and other assigned MOs) and contracted Civilian GPs. They are authorised to conduct candidate pre-Service medical examinations using JSP 950 Leaflet 6-7-7, BRd 3(1) Chapter 7 and BRd 1750A.

b. All MEs will be provided with RN-specific induction training on the medical examination process by Medical Assessment Senior Medical Officer (MASMO).[6] This will include the requirements of the examination and Candidate Preparation Centre (CPC) processes. Copies of training materials will be provided for the MEs reference.

0817. Pre-Service Medical Examinations

a. Pre-Service Medical Examinations are to be conducted at CPCs. MEs are to assess candidates against RN and Joint entry standards. Candidates who meet entry standards are awarded an unrestricted Permanent JMES of Medically Fully Deployable MFD A4 L1 M1 E1. This remains valid for up to 3 years whilst the candidate awaits the start of Phase 1 training.

b. Candidates who do not meet entry standards are to be discussed with an RN Occupational Medicine (OM) Specialist who will decide whether the candidate is fit for entry (MFD), determine the best JMES for consideration of admission in a reduced JMES, or determine if the candidate is UNFIT. This is primarily assigned to Senior Medical Officer Service Entry (SMOSE) however authority is granted to other RN and Civil Service OM Specialists to conduct this activity.

c. Candidates awarded a reduced JMES at or above the minimum of MLD A4 L4 M2 E4 will be presented to a RNMEB for a final decision on their suitability for entry and progress to Phase 1 training. These candidates will be awarded a Temporary JMES with suitable Medical Limitations (MedLims), which must include MedLim 1302,[7] for 12 months.

d. Candidates who are awarded a TJMES below the minimum of MLD A4 L4 M2 E4 are generally graded UNFIT but may be presented to the RNMEB for consideration in exceptional circumstances (for example priority trade groups). The medical appeals process for those deemed UNFIT can be found at 0818. Full details of medical outcomes are shown in Table 1.

[6] Also known as Service Entry Medical Cell (SEMC) Medical Advisor: An OF4 Medical Officer, typically a GP and not an Occupational Medicine Specialist. The training task may be delegated to military or civilian trainers.
[7] Med Lim 1302 – Enlisted below entry standards

Table 8-1: Pre-Service Medical Outcomes

Outcome	Description	JMES Awarded	Disposal
FIT	Meets Medical Entry Standard. Fit to undertake entry training and Service without restriction. This could include candidates MFD with E2 marker for Trial of Training	MFD Perm 3 years (maybe with E2 marker)	FIT, TOT
UNFIT	Not fit to undertake entry training and Service without significant[8] additional medical risk. Requires MASMO or OM discussion before being declared UNFIT	None. Includes those who normally would be awarded a MES below MLD A4 L4 M2 E4	UNFIT
Normally UNFIT	Does not meet current entry standards but could be awarded a reduced JMES. Requires OM discussion and MEB the same week. The outcomes could include UNFIT, FIT with appropriate limitations or Trial of Training (TOT), or MOH pending further Ix	MLD A4 L4 M2 E4 and above, Temporary, for 12 months. Must include MedLim 1302 and any other relevant MedLims	FIT, TOT, MEB, MOH, or UNFIT
Medical On Hold (MOH)	Requires further information or testing; refer back to GP. No JMES awarded. Might require OM discussion on a case-by-case basis	None	MOH

e. At the time of publishing, the Contractor providing MEs are in the process of implementing an alternative Electronic Healthcare Record. This will replace DMICP for use at Pre-Service medical.

f. **Preliminary Observations (Prelims)**. Prelims are to be completed prior to the medical examination iaw JSP 950, Leaflet 6-7-7 Annex B and entered into DMICP ready for the ME. One hour is to be allocated for the completion of all Prelims. Further detail is available in a CPC Medical Assessment Centre (MAC) SOP. These are to include:

(1) Verification of candidate identity

(2) Height, weight, waist circumference, WCHtR, and Body Mass Index (BMI)

(3) Distant Visual Acuity (entered from optician's report)

[8] "significant" is a policy addition to enable in-Service medical standards to be used.

(4) Colour perception: Ishihara plates and Trade Wire Test

(5) Blood pressure

(6) Urinalysis

(7) Peak expiratory flow rate (PEFR)

(8) Audiogram

g. MEs will follow the examination guidance at JSP 950 Leaflet 6-7-7 Annex B, and provided by MASMO during induction training, discussing with the MASMO or nominated OM Specialist as required. If the ME has any doubt regarding their findings and is unable to resolve the uncertainty, or they consider a Service Specialist opinion is warranted, the case should be referred to SMOSE.

h. The ME is allocated one hour of time per candidate. Within this period, the ME is to scrutinise the full primary healthcare record (PHCR) and the candidate self-declaration form, conduct a full examination of the candidate, and award a JMES on DMICP.

i. **Instructions for Candidates**. Candidates will be provided instructions by RN Recruitment ahead of the examination. These are to include completion of the medical self-declaration form, provision of an optician visual correction prescription and instructions regarding spectacles and contact lenses.

j. **Chaperones**. Chaperones are to be used in accordance with best practice and the name of the chaperone should be recorded. If a chaperone is declined, this must also be recorded.

k. **Access to Primary Healthcare Records (PHCR) and Optician Reports.** MEs should have access to a candidate's full PHCR prior to conducting the entry medical. All candidates will have a DMICP record created prior to attendance for their medical examination. Candidates' complete PHCR, or summary in lieu, will be scanned into their DMICP records.[9] Optician reports are provided by an external contractor. The report will be uploaded to DMICP prior to attendance at the medical.

l. **Physical Standards.** Candidates who meet the standards for their chosen branch are to proceed with the rest of the medical examination. Candidates who do not meet the standards for their chosen branch but do meet the standards for other branches are to proceed with the rest of the medical examination with an annotation to their records and communication to CPC staff and/or RNMEB.

[9] Candidates with a partial or no PHCR are subject to further policy and case-by-case determination by the RN and Contractor.

m. **Waist Circumference to Height Ratio (WCHtR).** All candidates with a WCHtR of 0.4-0.49 are considered to be at no increased risk and therefore FIT. Candidates with a WCHtR of 05.-0.59 are to be referred to MASMO for assessment. If they are otherwise FIT, they may be admitted with an E2 marker. All candidates with a WCHtR of <0.4 or ≥ 0.6 are UNFIT until their weight is stable within the acceptable range.

n. **Colour Perception**. Candidates who fail Ishihara plates (more than 3 mistakes on the first presentation and any errors on a second presentation) will conduct the Trade-Wire Test (TWT). Those who pass the TWT are awarded CP4. If CP4 meets the chosen branch requirement they will proceed with the rest of the examination. If CP4 does not meet the chosen branch requirement they will proceed with the rest of the examination but are awarded Medical on Hold pending further testing with Colour Assessment and Diagnosis (CAD). Those who fail both Ishihara plates and TWT are awarded CP5 and graded UNFIT.

o. **Sickle Cell Trait (SCT)**. Candidates who are identified as high risk for SCT through a Family Origins Questionnaire (FOQ) will undergo blood testing for SCT. MEs are to apply an E2 marker to all candidates who are SCT positive. In the absence of a blood test result, candidates who are identified as high risk from FOQ are graded E2. If candidates are fit in all other respects they are graded FIT MFD E2 Perm. SCT E2 candidates are to be communicated to CPC staff.

p. **Mental Health (MH)** MEs are to examine candidates using Service entry criteria in BRd1750A and JSP 950 6-7-7 Section 4 Annex L. Candidates with a MH history may only be awarded MFD or FIT status if it is specifically allowed in Service entry criteria policy, or after discussion with OM. Those who are normally UNFIT but may be awarded a reduced JMES are to be discussed with OM.

q. **Dental Conditions**. MEs are to consciously examine candidate oral health. Candidates with dental diseases or other oral conditions treatable by a general dental practitioner are not normally rejected. However, specific circumstances such as gross oral neglect, dental phobia, or active orthodontic treatment are normally graded UNFIT.

r. **Food Handling**. Candidates should be free from infective diseases, particularly gastrointestinal and skin, which may affect their fitness to handle food.

s. **New Diagnoses**. MEs may detect a potential new diagnosis during examination of a candidate. They are to continue with the full examination and outcome in light of a previously not-known diagnosis in a sensitive manner. Depending on the significance, MEs are advised to consider writing separately to a candidate's NHS GP to communicate their findings and recommend next steps.

t. **Royal Navy Pre-Joining Medical Employability Board (PMEB)**. Candidates who were not declared MFD at CPC can be awarded a temporary JMES (TJMES) and, in consultation with SEMC, can be presented to PMEB for an assessment against in-Service medical standards. This procedure for PMEB is as follows:

(1) The ME will complete the medical examination and award a TJMES, as agreed with the OM Specialist, then complete a Form 5A. The Form 5A will include all personal details of the Candidate and their selected profession/role, along with the proposed JMES and Medical Limitations (MedLims).

(2) A copy of the completed Form 5A is to be forwarded to the RNMEB Secretary (NAVYSEC-NSMEBADMIN@mod.gov.uk) by SEMC no later than 1000 hours each Thursday during a CPC week for every case requiring consideration. The forms will be stored in a limited access area so Board Members can pre-read as required.

(3) A formal letter detailing the TJMES and supporting MedLims will be given to the candidate on completion of their medical for their personal reference. This letter will detail the clinical reasons and outline the subsequent PMEB process (incl. the right to appeal). In addition to the formal letter, candidates will be provided with a JMES certificate by the CPC on completion of their medical.

(4) The PMEB will typically convene on the Thu afternoon of a CPC week to decide if the TJMES6 and limitations awarded provide sufficient employability in the relevant profession, from entry into Service, through Phase 1 training requirements and onto the end of their initial RoS.

(5) The PMEB will consider those cases referred to them and determine the following:

(a) ‘Accept’ on Employability Grounds.

(b) ‘Reject’ on Employability Grounds.

(c) ‘Deferred’ awaiting more information from relevant medical or employment area SMEs.

(6) The RN PJMEB will forward results to NAVY RA-Pol WO for RITS notification and tracking and NAVYRA-CPCMEDICAL@mod.gov.uk for update to medical documentation.

(7) HQ R&A, DHd R&A will oversee necessary administrative action to inform the Candidate, dependant on outcome, via RITS/Formal letter. On receipt of RITS notifications, Careers Advisers will be required to inform individual candidates of the RN PJMEB decision and provide appropriate follow-on advice and guidance, including how to appeal if needed.

(8) Those candidates rejected on employability grounds will be given the opportunity to lodge an appeal. Appeals are to be initiated on RITS by the Careers Adviser with appeals being considered by the SEMC Assessment Board under current process.

(9) The PMEB Secretary, with support from the SWP team, will maintain complete records of decisions and follow up at 12 and 24-month points to ascertain longer term outcomes of personnel during and post initial training.

(10) Standing members the PMEB, its roles and responsibilities and standing agenda are included at Annex 8A.

u. **University Royal Naval Units (URNU) Candidates.** From 1 Oct 24, URNU candidates are to be examined by MEs at RN CPCs. Details relating to URNU Candidates can be found at Annex 8B.

v. **Travel**. As described in paragraph 0814, should a candidate have to travel outside of their region to attend a medical examination, their CA can issue the Candidate Miscellaneous Personal Payment Form RFI.

0818. Medical Appeals

a. Candidates made PMU will receive a letter stating the medical reasons they have been made PMU. In some cases, the letter will also contain additional medical conditions for which the candidate must also provide supporting evidence.

b. The PMU letter will instruct the candidate on proceeding actions to take in liaison with their CA. The CA is to electronically forward the appeals pack, available on MIS, to the candidate. The CA is to make a note of the request to appeal on MIS. The initiation of an appeal is fully detailed in the ROM, chapter 5.

c. Candidates are responsible for gathering all the information required to compose their appeal and for submission directly to the SEMC Appeals email address, NAVYRA-SEMCAPPEALSMAILBOX@MOD.GOV.UK.

d. On receipt, SEMC will scrutinise the appeal, inform the candidate if it has been accepted for consideration or rejected, and record this on MIS. If rejected, the candidate will be notified of the reason why or if any change or additional information is required.

e. When an appeal is accepted, the SEMC will create a Service medical record within the current electronic Integrated Health Record (eIHR) and upload all appeal documentation. SEMC will then conduct Assessment Boards consisting of an Occupational Medical Consultant, CPOMA or CPONN and LNN.

f. Administration of the Board results will include:

(1) Informing the candidate via e-mailed letter.

(2) Uploading the results to the Capita portal.

(3) Updating the Cas via MIS.

g. **Eligibility for Appeal.** It is fundamental that eligibility is considered against Service need iaw JSP 950 Lft 6-7-7 and is not dependant on the medical, physical or personal status of the candidate. The appropriate Specialist Recruiting Team is to be consulted before processing an appeal for a candidate applying for one of the following roles:

(1) **RMBS.**

NAVY CNR-COHERENCE SRT RMBS CSGT

(2) **RNR Cyber Warfare.**

NAVY PEOPLE-MR HQ RECRUIT SO2

(3) **Chaplains.**

NAVY MWC-LOGS SO2

0819. Medical Eligibility

a. CAs should direct candidates to the medical 'conditions' that may bar them from entry and explain the entry standards using the JSP 950 Lft 6-7-7 as a point of reference and, if necessary, seek advice from SEMC. It is important that the medical requirement is explained and conveyed as sympathetically as possible by a qualified CA. SEMC is the point of contact for additional information regarding the current standards for Service entry.

b. Careers Staff must not offer medical advice or be drawn into conversation relating to specific medical conditions. Candidates who request advice on medical conditions should be advised to reference the entry standards SEMC is the point of contact for additional information regarding the current standards for Service entry.

c. Should the Candidate require more detailed information advice can be sought by the Careers Staff from SEMC. On receipt of advice the Candidate can either decide to make an informed withdrawal from the recruitment process; or if they decide it is not clear or they do not accept the policy, then they should be put through the Contractor medical process.

0820. Medical Requirements - Reserves/Re-Entrants

a. All candidates with former Service and who fulfil the criteria below must be initially scrutinised by the RISTT against JMES on JPA and BM's approval, before moving on to one of the processes below and final approval for re-entry processing is issued from R&A:

(1) Candidates who left the Service due to medical reasons or in a reduced medical category regardless of length of service.

(2) For Regular Service, candidates who have left the Service within 12 to 36 months of applying to re-join will complete a new NMHQ and undergo a contractor MME review and Telephone Triage to determine fitness to re-enter regardless of the reason for discharge.

(3) All re-entrants who have been out of the Service for more than 24 months must undertake the full entry medical process.

(4) For Reserve Service, applicants who have left the Service within 24 months of re-applying (regardless of the reason for discharge), must be reviewed by SEMC.

b. Serving MR candidates must undergo the full medical recruitment process. The Reserve Forces Medical Cell cannot access their current full medical records.

c. Previous Service medical records must be obtained from the relevant discharging authority. Service medical records will not be released by the discharging authority without the written consent of the candidate. The MIS produced proforma must be used for medical document requests. This will ensure that no medical records are handled by the Recruiting Staff and previous service records will be released directly to the medical contractor.

0821. Medical Documentation of Candidates

a. Under no circumstances are Careers Staff to take part in, or assist with, any part of the medical examination of candidates.

b. Recruiting Staff should not have access to or hold any documents designated 'Official Sensitive Personal - Medical in Confidence'. If any records are found or received, they are to be dispatched to SEMC in accordance with ROM chapter 5 - Medical, Eyesight and Dentist.

c. The only medical document that Careers Staff should have regular access to is a Candidate Medical Examination Result (CMER) on MIS. Although marked as 'Official Sensitive – Medical in Confidence', the information contained within it is not of a sensitive nature. It is because these results are taken from a broader (sensitive) document, that it carries this marking. Should any Careers Staff have access to any other digital/physical medical documents with 'Official Sensitive Personal - Medical in Confidence' (or the legacy: 'Protect - Medical') markings, they are to inform SEMC and await further instructions.

0822. Medical - Candidates Who Meet Medical Standards

a. Careers Staff must check and download the CMER from the contractor portal on completion of the medical examination to ensure that it has been correctly completed and that the candidate meets the role entry standards.

b. **Role of Preference.** Candidates who are medically unfit for their chosen role, but meet the medical entry criteria for an alternative role or Service, may be counselled towards another role or Service without further referral to the ME.

c. **Medical Examination - Period of Validity.** Whilst in the recruitment process, the medical examination will remain valid for 3 years from the date of the initial F2F Medical, even if TMU at that medical and subsequently declared Fit to Enter at a later paper review. All candidates who have not entered service at the 36-month point will require a full new **entry** medical with the current medical contractor. Specialist medicals for Aircrew and Divers are valid for twelve months. Diver candidates must have an in date 'fitness to dive' certificate when attending Pre-Entry Diving Assessment (PDA). All candidates must be 'in date' for medical on the day of entry.

0823. Medical - Entry

a. On allocation of an entry date, candidates must complete the Acknowledgement/Medical Certificate (and, for those under the age of 18 years, their parent/guardian must sign the MoD Form 486). Candidates who declare illness or injury since their medical examination are to be referred to the medical contractor using the MIS form for a change of medical circumstance review The completed MoD Form 486 must be forwarded to the NETE with Part Entry Papers. NETE medical centres will be able to access all medical documentation directly from the medical contractor portal.

b. All candidates entering the RN will be medically scrutinised by a Medical Officer and their medical documents examined to determine whether any medical condition has arisen since the MME's examination.

c. **Waist Circumference to Height Ratio**. All candidates will have their WCHtR rechecked on arrival at Phase One. Recruits who have moved into either Category 1 (WCtHR <0.4) or Category 4 (WCHtR ≥ 0.6) must be discussed with SMOSE and will be subject to a risk assessment before they can commence training. They may be placed "Medically on Hold" or discharged NFA Med based on the outcome of this assessment. It is candidates' personal responsibility to maintain a healthy weight prior to entry. Following discussion with SMOSE, The Principal Medical Officer (PMO) at HMS RALEIGH (RAL) or Britannia Royal Naval College (BRNC) will make a recommendation to the Training Commander (Cdr T) as to whether the candidate is safe to start Ph1 training, be placed "Medically on Hold", or be discharged NFA Med.

0824. Medical - Candidates Temporarily Medically Unfit (TMU)

Candidates will receive an explanation of why they cannot be passed medically fit at that time. They will be advised what needs to occur before their medical fitness can be re-considered using referral for third party information or Service Specialist/SMO SE opinion. The CA will not be advised of the TMU reason, only the fact the candidate is TMU and, in general terms, the management of candidates to reach a medical decision on fitness to serve will be conducted by the medical contractor.

0825. Medical - Candidates Below Medical Standards

a. The Medical Contractor will reject candidates as Unfit for Service and annotate the SEMR and CMER accordingly. The relevant reject code is to be entered onto MIS.

b. For Warfare and Aircrew officer candidates Colour Perception testing: all potential Warfare and Aircrew officers must be assessed as CP1 before R&A PLANS OA will allocate an entry date. Aircrew officers will be required to attend a further Aircrew medical as part of the normal assessment process. Those candidates who do not meet CP1 standards are PMU for their selected role, but alternative roles may be offered. CP2 is a higher standard than CP1; only those Warfare and Air candidates recorded as not CP2 at entry medical will require further testing to ascertain if they can meet Warfare or Air entry standards.

c. The medical reject letter must be sent to all candidates who are declared medically unfit. The medical contractor will comment to the candidate on any prognosis of the defining condition leading to a PMU decision. Candidates who are dissatisfied with the ME/specialist decision are to be advised to consult their own general practitioner and/or submit a written medical appeal to SEMC using the MIS form.

d. Candidates who are dissatisfied with the ME’s final decision on fitness to enter can appeal in writing using the MIS form and submitted directly to SEMC. For further information on appeals, see paragraph 0817.

0826. PJFT

a. All Regular, overseas, URNU, DSUS and Reserve RN applicants, with the exception of RM and Diver candidates, are required to pass the PJFT. RM and Diver candidates are required to pass PJFT+ outlined below. Candidates considered fit to continue with their application at PHCR Scrutiny will be considered fit to attend PJFT.

b. The following exceptions when re-entering the Service apply:

(1) If it can be ascertained that a re-entrant will still be in date for RNFT/RMFT on re-entry/transfer, then the PJFT requirement can be waived, with an explanatory journal entry on MIS, otherwise the procedure is as below.

(2) **Trained RN (GTS).** The PJFT is to be completed as soon as practicable post medical as per the instruction above. Candidates re-entering the RN who are aged 40 or over are allowed to undertake the PJFT (Rockport Walk) but are warned that the RNFT rules will apply from their date of re-entry, and they will be rejected if they fail this.

(3) **Untrained RN (UTS/PTS).** The normal PJFT process applies to all re-entrants who are required to undertake any part of initial training (i.e. Phase 1 or 2) on re-entry.

(4) **Trained RM (GTS).** The normal PJFT+ process applies to all GTS re-entrants.

(5) **Untrained RM (UTS/PTS).** The normal PJFT+ process applies to all untrained or part-trained re-entrants.

0827. PJFT - Conduct

a. The PJFT and PJFT+ are now predominantly conducted internally, at CPC. Those who are continuing to conduct their PJFT by an external contractor (currently Nuffield Health (NH)) include some RM candidates, CPC failures/re-tests, URNU, DSUS, Reserve and re-joining candidates in accordance with the instruction found at ROM chapter 6 - PJFT.

b. All candidates who attend an external contractor for their PJFT are to have their Blood Pressure (BP) checked prior to the fitness assessment. This is an external contractor procedure and does not form as part of RN medical policy. If candidates fail the BP test, the following process is to be adhered to:

(1) At the first BP check failure, the candidate will be requested by NH to return no sooner than 24 hours for a PJFT at the candidate's convenience.

(2) In the event the candidate fails a second BP test they will be declined the opportunity to attempt the PJFT and advised to visit their GP for a health check to gain a letter of confirmation that they are safe to attempt a PJFT at NH.

(3) On production of a GP letter confirming there are no underlying health conditions a third and final pre-PJFT BP check will be conducted by NH staff.

(4) If the candidate fails the BP check, NH will refuse the candidate’s attempt iaw NH mandated H&S regulations, despite the GP confirmation and the candidate is to be rejected.

(5) Candidates who fail the third pre-PJFT BP check are to be counselled by their CA to seek alternative methods of testing. In conjunction with the Sickle Cell Trait (SCT) policy in chapter 7, the PJFA/PJFT+ is a strength test designed to not cause undue cardiac exertion and is therefore suitable for all RM and Diver candidates to conduct. Candidates who have tested positive for SCT may inform the PJFT assessor if they wish, but no action is to be taken to impact the conduct of the PJFT+. Policy for the standard PJFT and SCT can be found in chapter 7.

0828. PJFT/PJFT+ and PJFA - Pass Criteria

a. **RN and RNR Candidates.** The table below defines the level of fitness Candidates are to demonstrate when completing the 2.4km run/Multi-Stage Fitness Test (MSFT) while attending RN CPC or a Nuffield Health gym. Further guidance is provided regarding actions that should be taken to ensure appropriate CRM, dependent on performance.

Gender	Age	RNFT Pass	PJFT Pass (+10%)	PJFT Pass (+25%)	Fail	MSFT Pass	MSFT Pass (+2 Lvl)	Fail
Male	16-24	11.09	12.16	13.56	>13.56	9.10	7.09	<7.09
	25-29	11.33	12.42	14.26	>14.26	9.04	7.03	<7.03
	30-34	11.58	13.09	14.57	>14.57	8.09	6.08	<6.08
	35-39	12.23	13.37	15.28	>15.28	8.03	6.02	<6.02
	40-44	12.51	14.08	16.03	>16.03	7.08	5.08	<5.08
	45-49	13.18	14.38	16.37	>16.37	7.02	5.02	<5.02
Female	16-24	13.10	14.29	16.27	>16.27	7.04	5.05	<5.05
	25-29	13.37	14.58	17.01	>17.01	6.09	4.08	<4.08
	30-34	14.05	15.29	17.38	>17.38	6.05	4.04	<4.04
	35-39	14.33	1600	18.11	>18.11	5.09	3.08	<3.08
	40-44	15.04	16.34	18.50	>18.50	5.06	3.05	<3.05
	45-49	15.35	17.08	19.28	>19.28	5.02	3.01	<3.01

b. **RM Candidates and RN Divers.** The table below defines the standard required to pass the Royal Marines Fitness Assessment (RMFA). For RM candidates, these standards are also applied during PJFA training sessions delivered around the country by the DoCC Commando In-Reach Team (CIT), from which candidates should receive a recommend to attend RM CPC. The same standard is then applied in the RMFA which is the first physical element of RM CPC. RM Candidates that continue to show little or no progress during PJFA training sessions will be considered for career counselling to alternate roles. For RN Divers, these standards are applied at RN CPC.

PJFA Result	Pass	Re-attempt
Event	**RM PJFA minimum level / reps**	
MSFT	10.5	<10.5
Press Ups	30	<30
Sit Ups	40	<40
Pull Ups	4	<4

c. **PJFT+.** The PJFT+ remains in place as a Pre-Joining Fitness Test process for RM Overseas candidates and is usually delivered virtually. The table below provides the requirements:

RM (Overseas candidates): PJFT+ Standards	
All	a. Circuit completed three times for RM OR candidates and 4 times for RM officer candidates: (1) Burpees x 20 (2) Sit-ups x 30 (3) Press ups x 20 (4) Plank x 1 minute b. On completion, and after a 2-minute recovery, all candidates will be required to conduct 5 pull ups. c. If exercise form is below standard, PT staff can adopt the '3 strike' rule which can result in a 'fail'.
RMBS: PJFT Standards	
All	As advised by RMBS SRT prior to Audition attendance.

d. Candidates applying to join the RN are to be encouraged to use the Navy/Commando Ready apps as early as possible in the recruiting process. CAs are to ensure that the candidate has links to the appropriate guidance on the RN Careers Website at the earliest stage of the recruitment process.

e. All Candidates are to be informed that they must maintain or improve their fitness throughout the whole recruiting process. All RN and RM candidates will have to attend a Candidate Preparation Course (CPC), or Officer Selection Course (OSC) (RMO only).

(1) At CPC (RM) and OSC, RM and RMO candidates will be required to pass the PJFA under RM supervision, as well as complete other physical tasks.

(2) At CPC(RN)/MedFit all RN candidates, including officers and Divers, will be required to conduct a PJFT/PJFA to ensure they are fit to commence Naval training. The PJFT +25% times described in para a above are to be applied for non-Diver candidates. Any candidate who fails to meet the required standard will be counselled accordingly by CPC staff and/or their CA.

0829. PJFT - Booking

The following detail is provided for those who remain on the contractor provided PJFT (e.g. candidates who have previously attempted CPC and did not pass the PJFT element, or were medically unable to attempt the fitness elements).

a. Candidates are to be sent the appropriate instruction via MIS to book their PJFT as soon as they have passed medical triage/are fit to re-attempt. Candidates are to be advised of the contact details for their local Nuffield or third-party fitness centre.

b. The PJFT standard applied for a test at Nuffield using a running machine is PJFT +10%, not PJFT +25%; see 0828 a.

c. On receipt of the results email, the CA is to enter the results into MIS.

d. Duration of pass: PJFT passes remain valid for a period of 12 months from the date of successful completion. Candidates still in the recruiting process 12 months after passing their initial PJFT are to re-take the test as 'first attempt candidates'. Candidates must be within the 12-month period prior to attending preselection courses and when joining NETE.

e. The CA and the candidate are responsible for ensuring the results are correctly recorded and any subsequent actions are taken in appropriate time.

f. If a candidate cancels a test within 24 hours or fails to attend, the CA will be informed by the Fitness Centre and the RN will be charged for that appointment. Cancellation and re-booking by a candidate outside of 24 hours' notice will not be notified to the CA.

g. The CA is to contact the candidate as soon as possible and establish the reason for non-attendance. If deemed appropriate, the CA may authorise the candidate to book another date. If a candidate fails to attend a second appointment the CA is to update MIS. The candidate is to be sent a MIS letter, which informs them that their application is being withdrawn.

0830. PJFT - Testing Procedures

a. CAs are to brief RN and RNR candidates on the PJFT (PJFA for Divers) during initial CRM, covering the following points:

(1) The implication of failing:

(a) They will not be allocated a specialist board or audition, if required for their role, but will be given more time to get fit and re-take the PJFT.

(b) The candidate will not be considered for an Offer of Service or Notice of Eligibility for Final Selection Process but will be given more time to get fit and re-take the PJFT as detailed above.

(2) Candidates should also be advised that to cope better with the physical demands of Phase 1 Training, they should aim to achieve the RNFT fitness level before joining. Furthermore, failing the week-1 RNFA or week-5 RNFT of NETE may result in discharge.

(3) RN/RNR/RMBS candidates aged 40 or over must complete the Rockport Walk. For RNR, this must be within three months of joining the RNR; failure to pass within this time will result in discharge.

b. CAs are to brief RM candidates on the PJFA/PJFT+ during initial CRM, covering the following points:

(1) The implication of failing, i.e. RM candidates will not be given an Offer of Service or Notice of Eligibility for Final Selection Process and should be given more time to get fit and retake the PJFA/PJFT+.

(2) RM candidates should also be advised that the ROP is much more physically demanding than the PJFA/PJFT+, and that they are not to assume that passing the PJFA/PJFT+ is an indicator of success at CTCRM.

c. **Travel Costs.** Travelling expenses to attend CPC/MedFit/PJFT/PJFA/PJFT+ are to be covered by R&A iaw extant policy. This is to be determined by individual CAs on a case-by-case basis.

d. **Remote Candidates.** RN Diver/RM candidates from remote areas of UK (e.g., Channel Islands, Orkneys, Shetland) can conduct PJFT+ when required; these tests will be arranged by exception on a case-by-case basis and when CTC capacity allows.

e. **Contract/Booking Difficulties.** Any problems with fitness centres are to be reported to R&A Policy SO2 as soon as they become evident. CAs are not to enter into dialogue with fitness centres directly, other than for purely administrative issues.

0831. PJFT - Overseas Candidates

a. The Overseas Recruitment Team (ORT) is to advise all overseas candidates, before travelling to UK, about the requirement to undertake the PJFT when in the UK for the selection process. All candidates are to provide STRAVA evidence of their 2.4km run time before being invited to travel to UK (candidates who require an SCT test when they arrive in the UK are exempt from providing STRAVA evidence).

b. All overseas RM candidates are to conduct a virtual PJFT+ while in their home country and must pass this as one of the conditions to be invited to travel. The PJFT+ is conducted by CTC PT Staff.

0832. PJFT - Failure Procedures

a. **Failure Routine After First Attempt.**

(1) Call and discuss reasons for failure and brief on further attempts (2 maximum).

(2) Candidate is to be given maximum 30 calendar days to prepare and resit the test. Task to be set on MIS if candidate hasn't contacted stating ready to proceed to second attempt.

(3) Create a retrospective PJFT event and book the candidate on it. Enter the results in the results form to provide details of failure. Candidate to remain ‘Active’. Set appropriate task to prompt re-issue 2nd PJFT attempt message if required, or to contact candidate if PJFT not attempted in relevant time frame.

b. **Failure Routine After Second Attempt.**

(1) Discuss with candidate the implications of this failure; ensure they understand that failure of the third attempt may result in their application being rejected

(2) Inform candidate they must conduct their 3rd and final PJFT between 30 and 90 days of the 2nd PJFT failure.

(3) Issue PJFT 3rd attempt attachment via MIS. Update the body of the text of communication to reflect that this is the 3rd attempt.

(4) Create a retrospective PJFT event and book candidate on to it. Enter results to provide details of failure.

(5) Candidate to remain ‘Active’. Set appropriate task to review application if PJFT not attempted in relevant time.

c. **Failure Routine After Third Attempt.**

(1) Send the ‘PJFT Final Fail’ attachment as part of the PJFT paperwork to the candidate. Update the body of the communication to reflect the failure of the final attempt.

(2) MIS is to be updated to the appropriate end state (rejected, with ‘Fitness’ as reason), the ‘period of ineligibility’ to 3 months, and additional comments to reflect circumstances of candidate’s final failure to be entered in the ‘comments’ box. The terms of the rejection, as with any rejection, are to be clearly and sensitively explained by the CA to encourage the candidate to address their issues and re-apply when appropriate.

0833. PJFT+ - Failure Procedures

a. If a candidate fails a PJFT+, they must understand why they have failed and how they can address this shortfall and can book another PJFT+ in not less than 28 days.

(1) **RM OR (Overseas).** Candidates may attempt the PJFT+ up to 3 times. After 3 failures, the candidate should receive CRM to advise them that their application will be rejected, with advice on how to improve fitness and re-application timelines according to role applied for.

(2) **RM Officer (Overseas).** Candidates may attempt the PJFT+ a maximum of 2 times. After two failures the application is to be rejected. An otherwise good candidate can be advised to re-apply in not less than 6 months having improved their fitness levels.

(3) Failure to attend, or not being properly prepared to complete the test will count as a failure and therefore, be regarded as an attempt.

(4) All PJFT+ attempts are to be recorded on MIS by the CA to ensure an accurate record of all attempts leading to successful completion or candidate rejection.

(5) Re-attempts must be annotated as appropriate:

(a) RM OR 2nd Attempt.

(b) RM OR 3rd and FINAL Attempt.

(c) RM Officer 2nd and FINAL Attempt.

b. Whether RM OR or RM officer, if candidates are unsuccessful after maximum attempts, CAs are to reject candidates and advise them to improve their fitness iaw the guidance at the RN Careers Website. Candidates are not to re-apply to join the RN until a minimum of 3 months from the date of rejection. The terms of the rejection, as with any rejection, are to be clearly and sensitively explained by the CA to encourage the candidate to address their issues and re-apply when appropriate.

0834. Miscellaneous Fees - Payments by Candidates and Reimbursements

a. In the event of the candidate expressing a genuine difficulty with miscellaneous fees (e.g., passport), then a claim re-imbursement can be made via an MoD form available on MIS, the "Candidate Miscellaneous Personal Payment Form". The measure of genuine hardship of the candidate should be at the discretion of the CA. Hardship must be fully proven to the full satisfaction of the CA and always be considered the exception. Candidates without a passport may be processed up to and including the SI. The candidate must request a receipt when they send their application to the passport office/post office. This receipt will need to be attached to the MoD Form 1108 claim form, then emailed to R&A Desk Officer in Navy Command HQ, Finance Section, Leach Building, as per the address on the claim form. These requests will be processed by DBS Liverpool, and payment will be by BACS transfer to the candidate's nominated bank account[10].

b. Travel will normally be booked by the CA, however, in exceptional cases candidates may be refunded distance or hardship expenditure at public expense for various categories of travel as follows, using HR Form 088_v11.0-OSP.doc.[11]

(1) Travel to Careers Office attendance.

(2) Travel to Defence Aptitude Assessment (DAA) location (e.g., public library or AFCO)

(3) Travel to Pre-Joining Fitness Test (PJFT)/Pre-Joining Fitness Assessment (PJFA)/Pre-Joining Fitness Test+ (PJFT+).

(4) Travel to Medical Examination.

(5) Travel to Eyesight Test.

(6) Travel to Candidate Preparation Course (RN and RM).

(7) Travel to MedFit (at CPC locations).

(8) Travel to RM Officer Selection Course (RM OSC).

[10] Passport fee reimbursement queries can be made to 'Navy FD-Fin Ops P&T Spt'.
[11] https://gbr01.safelinks.protection.outlook.com/ap/w-59584e83/?url=https%3A%2F%2Fmodgovuk.sharepoint.com%2Fsites%2FIntranetCivilianHRPeoplePortal%2FHRForms%2FHR%2520Form%2520088_v11.0-OSP.doc&data=05%7C02%7CEmily.Vickery401%40mod.gov.uk%7C61e6de5928054acd49ea08dc474b145a%7Cbe7760ed5953484bae95d0a16dfa09e5%7C0%7C0%7C638463634982864899%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C0%7C%7C%7C&sdata=CpspFrz4Ec1Ed1SZyqQV6EKYY0DKflas%2FX0YKHt9SCo%3D&reserved=0

c. Assistance should not be offered, but given only when the individual explicitly requests help, when it is evident to the CA that the candidate will be required to travel a considerable distance within the UK, or the candidate would incur genuine financial hardship in meeting the cost, then, , assistance with attending these events is to be offered. A similar process is to be adopted for the reimbursement to candidates of passport expenses. Candidates must be encouraged to use public transport at all times and the actual fare incurred may be claimed on submission of receipts. Candidates wishing to use a private vehicle are to state the mileage for the journey on the form; claims will be paid at appropriate mileage rate. The use of taxis must be in exceptional circumstances only; a reason for use must be stated on the form.

d. When exceptional instances merit authorisation of a distance/hardship payment the UIN of N6032A is to be used.

e. Under no circumstances should money be withdrawn from contingency accounts and given to candidates.

f. Further information relating to this process is located in the ROM.

ANNEX 8A

PRE-JOINING MEDICAL EMPLOYABILITY BOARD STANDING MEMBERS, ROLES & RESPONSIBILITIES AND STANDING AGENDA

1. PMEB Standing Members. Standing members of the MEB will be:

Chair	Navy People PSP Hd / Navy People-WFPT Hd	Core
Workforce Planning	Navy People WFPT STRAT SO1/SO2	Core
Occupational Medicine	Navy INM RN AvMed Head	Core
Navy R&A	Navy RA DHd RA	Core
Navy Training	Navy People TMG RAL CDR INT	Core
Secretary	Navy People PSP MEB SEC	

Supplementary:

Legal	Navy Legal Emp Law SO1	A/R
Profession Advisors	W / L / E / RM SO1	A/R
CPC HQ Medical Lead[1]	Senior CPC RN Medical Officer	A/R
SEMC[2]	Navy RA SEMC SMOSE	A/R
Navy Training	BRNC/CTC representatives	A/R

2. PMEB Roles and Responsibilities. Roles and responsibilities of RN PJMEB are as below:

a. **Chair:** The Board is to be chaired at OF5 and will have final decision-making responsibility.

b. **Workforce Planning:** To represent each profession as required.

c. **Occupational Medicine:** To provide specialist advice on JMES and medical employability. To be prepared to discuss candidates presented from all CPC locations, having been on-call through the week to advise CPC Medical Officers.

d. **Navy R&A:** To present Navy R&A position including recruiting shortfalls.

e. **Navy TMG:** To represent new entry training establishment(s) and inform of outcomes. Ph1 PMO and Cdr T to be invited where review involves a potentially NFA candidate.

f. **Secretary:** Will collate Form 5As, make a record and provide outcome to Navy R&A. In the Secretary's absence Navy PSP will provide an alternate.

3. Standing members make a quorum for decisions. If Chairing OF5s are not available cases are to be deferred to the following week.

4. Supplementary members are to be available (or nominate a suitably empowered and qualified representative) to answer any medical, legal or profession specific questions.

[1] The Senior CPC Medical Officer may attend as requested by MEB.
[2] SMOSE for any SEMC referrals.

5. PMEB Standing Agenda. The standing agenda will be as follows:

Serial	Item	Owner
1.	Introduction	Chair
2.	CPC Candidates	Sec / Occupational Medicine
3.	Candidates Carried Over	Sec / Occupational Medicine
4.	SEMC Referrals	Sec / SEMC
5.	Actions	Sec / Chair
6.	AOB	Chair

ANNEX 8B

URNU CANDIDATES

1. Background

a. University Royal Naval Units (URNUs) recruit university students from around the UK to undertake voluntary RN activity during their time at university. URNU personnel fall under the command of CO BRNC and, for administrative purposes, are managed on the Royal Naval Reserve List 7[1] iaw BRd 3(1) Chapter 151 and BRd 3(2) Chapter 1 Section 2. Members of this List are not Volunteer Reservists, have no call-out liability and form no part of the Maritime Reserves. In order to ensure the safety of URNU personnel and the Regular and Reserves Personnel working alongside them, all URNU candidates undergo entry medical examination.

2. Direction

a. URNU candidates are to be medically examined at a RN CPC with the same preliminaries and available full PHCR. They are subject to the same medical standards as applicants to the Regular and Reserve Service as laid out in JSP 950 Lft 6-7-7 and BRd 1750A. They are to be awarded a JMES iaw this Annex.

b. Where an URNU candidate does not meet the Entry Standards, their case will be considered by an OM Specialist and a reduced JMES may be awarded. This must be ratified by the MEB before the candidate can undertake any URNU activities.

c. Where an URNU candidate is a retired Regular or Reserve SP[2], careful consideration should be given to their JMES on discharge, and their medical fitness and records since discharge. There may be situations where seamless transfer is appropriate however this should only be considered on a case-by-case basis. The default action should be to complete a fresh medical examination as per other candidates.

d. When a URNU candidate is deemed FIT, they are awarded MFD Perm for 3 years. Should they subsequently join Regular or Reserve Service during the validity of this medical, they will not require another full medical examination, which aligns with RN candidates who are not in the URNU. However, as URNU candidates do not select a Branch, consideration must be given to whether their physical standards match their selected Branch on joining the RN.

e. Previous URNU categories such as ‘Fit for URNU +/- Shore only’ are not to be awarded.

[1] List 7A (Training Officers), List 7B (URNU Officer Cadets), List 7C (Defence STEM Undergraduate Scheme (DSUS))
[2] E.g. joining as Training Officers

3. Guidance for Medical Examiners

a. **Physical Standards[3].** The following physical standards must be met for an award of MFD. This is because the medical examination is valid for 3 years and URNU personnel may subsequently join Regular or Reserve Service within the validity period without a further pre-entry medical examination. At this stage URNU personnel may not have determined which RN Branch they are joining. Physical standards for the RN vary by branch and specialisation, and these will be matched to the Branch during application. Therefore, at this stage URNU require the minimum RN-Branch specific physical standards. Those that do not meet these criteria may be awarded a lower JMES if appropriate, after discussion with an OM Specialist.

(1) Minimum height: 145cm

(2) Minimum BMI: 17 (under 18) or 18 (over 18)

(3) Maximum BMI: 27 (under 18) or 28 (over 18)

(4) Visual Acuity: VA 3

(5) Colour Perception: CP4

(6) Hearing: H2

b. **URNU Activities.** URNU personnel conduct activities including sea time in Ships (P2000 through to QEC), flying as a passenger in fixed and rotary aircraft, parachuting and other Type 4 Adventurous Training, representative sport, and RN / RM-specific training such as RAS Rig, Damage Repair Instructional Unit (DRIU) and assault courses.

c. This broad range of activity overlaps with Service Personnel however URNU personnel do not hold responsibility for safety-critical duties and are not deployed operationally. When at sea they are considered sea-riding observers of RN activity. URNU personnel may not be required to go to sea beyond visiting Ships alongside but will require a level of robustness commensurate with the role being applied for. For example, Training Officers should be capable of leading hill-walks and sea-riding embarkations.

[3] BRd 3(1) Ch 7 - Eligibility and Entry Standards and RN Recruit & Attract Job Eligibility Matrix (https://modgovuk.sharepoint.com/sites/IntranetNavy/SitePages/jem.aspx)

4. JMES Guidance for Medical Examiners

a. **Training Officers (TOs).** TOs are required to lead, teach and motivate Cadets and are required to match JMES for Regular or Reserve Entry. Therefore, TOs who may be awarded a JMES of lower than MLD A4 L4 M2 E4 are to be discussed with an OM Specialist with a view to presentation to PMEB.

b. **Officer Cadets.** Students may be permitted to join as Officer Cadets provided they meet the minimum standard which is to be able to visit a Ship alongside. Therefore, URNU candidates who may be awarded a JMES of no lower than MND A4 L4 M3 E4 are to be discussed with an OM Specialist with a view to presentation to MEB as per Table 8B-1 below.

Table 8B-1: Outcomes from Medical Examination for URNU Officer Cadets.

Outcome	Description	JMES Awarded	Disposal
FIT	Meets Medical Entry Standard. Fit to undertake entry training and Service without restriction. This could include candidates MFD with E2 marker for Trial of Training	MFD Perm 3 years (maybe with E2 marker)	FIT, TOT
UNFIT	Not fit to undertake entry training and Service without *significant*[4] additional medical risk. Requires MASMO or OM discussion before being declared UNFIT	None. Includes those who normally would be awarded a MES below MND A4 L4 M3 E4	UNFIT
Normally UNFIT	Does not meet current entry standards but could be awarded a reduced JMES. Requires OM discussion and MEB the same week. The outcomes could include UNFIT, FIT with appropriate limitations or Trial of Training (TOT), or MOH pending further Ix	MND A4 L4 M3 E4 and above, Temporary, for 12 months. Must include MedLim 1302 and any other MedLims relevant to URNU role and potential future RN role	FIT, TOT, MEB, MOH, or UNFIT
Medical On Hold (MOH)	Requires further information or testing; refer back to GP. No JMES awarded. Might require OM discussion on a case-by-case basis	None	MOH

5. Appeals and Documentation

URNU candidates are entitled to appeal Service Entry and MEB decisions as per Regular and Reserve Entry.

[4] "significant" is a policy addition to enable in-Service medical standards to be used.

CHAPTER 9

RATINGS AND OTHER RANKS SELECTION PROCESSES

SECTION 1 - RATINGS AND OTHER RANKS SELECTION INTERVIEW

0901. Recruitment Process for Ratings, RMOR and RMBS

a. **The Process.** The various elements of the recruitment (and selection) process are listed in paragraphs later in this chapter, and in earlier chapters within part 4 of BRd 3. This paragraph provides a singular reference for the generalised rating (and RMOR/RMBS) recruitment pathway to provide time-bound recruitment objectives along a candidate's journey into the RN. Included below are some of the Key Performance Indicators (KPIs) to which Recruitment Staff will adhere to as standard procedure whenever possible.

b. **Application and Initial CRM.** The candidate applies via the RN Website using a link to MIS and is contacted by an ACA. On immediate receipt of the application, but NLT 7 days, assigned Careers Staff will conduct and record initial CRM and issue RFIs including:

(1) Baseline Personal Security Standard (BPSS) and Photograph Identification[1].

(2) DAA link.

(3) Eligibility triage, including educational eligibility for the chosen role. All candidates are required to provide any GCSE certificates held at this stage to ascertain any Functional Skills requirements.

(4) Parental Consent form covering all activities which are a part of the recruitment process, including entering the Royal Navy. Only applicable to under 18 years old.

(5) The CA is to send the medical RFI to the Candidate, including Royal Navy Medical Questionnaire (RNMQ)[2] and Consent for Request for Primary Health Care Record (PHCR)[3]. The RNMQ and PHCR Consent must be completed and returned to NAVYRA-CPCMedical@mod.gov.uk within 7 days. The Eyesight test routine remains unchanged and is to be completed concurrently with the completion of the RNMQ and PHCR consent, in addition to SC application and DAA.

[1] To be verified during the SI for ORs. For Officer Candidates, CAs are to book 'Officers BPSS Check' to be conducted on 'SHINE' upon receipt of hand off, to include RFI 'Post BPSS Caution.'
[2] RNMQ includes the Family Origins Questionnaire (FOQ).
[3] Overseas Candidates are to complete as consent for medical processing only, GP details and request of PHCR are not required from Overseas Candidates.

(6) **PHCR.** For RN Officers, Ratings, RMBS and DSUS Candidates, CAs to confirm PHCR consent has been received by SEMC Medical via weekly checks of the SEMC PHCR Tracker. Once the CA has received a RITS Action Task Reminder from SEMC Medical, queue Candidate to MedFit/CPC:

(7) To manage expectations, CAs are to advise Ratings Candidates that they will typically attend CPC within 6 - 8 weeks of completing application[4].

(a) **MR/RMBS:** PHCR should be requested to assist processing of any TMU Candidates.

(b) **RM:** Required to conduct medical and fitness assurance prior to attending CPC/OSC as outlined at sub-paragraph g. below.

(8) RN candidates are not to be rejected at SI if they declare they cannot swim or are a weak swimmer.

(9) Other RFIs will be required following a review of the Application Form.

c. **Defence Aptitude Assessment (DAA).** All Candidates are required to sit the DAA except for Professionally Qualified candidates who can provide the requisite degree qualification for the profession they are applying for (e.g., Med, Eng[5], and Chaplain). Professionally Qualified officer candidates are to be queued straight to AIB without conducting the DAA. The candidate is to be instructed to complete the DAA as soon as feasible but NLT 7 days after receiving the DAA link. Candidates are to be advised they can complete the DAA unsupervised on a personal device or supervised on a MOD device within an AFCO.

(1) **ESM.** ESM is to be completed for all candidates. This provides the details of functional skills training requirements during RN training.

(2) The candidate is to be informed of their DAA result by the Careers Staff. Failures are to be counselled towards alternative roles once they have expended their DAA attempts.

(3) **DAA attempts.** Candidates can attempt the DAA twice. Exceptionally, a third attempt is to be offered if a CA considers there is suitable justification for a third attempt which is to be recorded in the candidate's MIS Notes. All DAA 3rd attempts **must be supervised**. Staff are to advise the Candidate they may re-sit the DAA earlier than 28 days if the candidate feels confident and requests to do so.

(4) **DAA Waivers.** DAA waivers will be considered by HQ Policy WO1 to meet Service needs.

[4] This can be sooner if PHCR are received to SEMC earlier, and Candidate is available.
[5] This includes DSUS candidates who will be educationally qualified by the time they enter INT(O), bringing DSUS in line with DE Engineering Officers..

(5) **DAA threshold amendment.** DAA threshold scores will be amended by R&A HQ Policy team, with approval from respective Work Force Planners, based on objective analysis of current thresholds to meet the needs of the Service, as appropriate. Any changes in DAA thresholds will be articulated in the DAA Roles Threshold Matrix[6] and notification of these changes will be published to Careers Staff via R&A Teams Key Announcements and on RTAG SharePoint page. Amended DAA Threshold scores cannot be applied retrospectively to candidates that previously failed the DAA for their preferred profession. Candidates may retake the DAA should they wish to change role, though this should not be offered or encouraged if the candidate has switched to a Fast Track role. Comprehensive policy on DAA can be found in BRd3(1) Chapter 8.

d. **Selection interview (SI).** To be completed, and recorded, using the SHINE application. The CA is to conduct a BPSS during the SHINE recording. Face to Face SIs are to be recorded on SHINE VIP for Assurance purposes. The first SI of a candidate is to be conducted within 14 calendar days of completion of the DAA and achieving eligibility for a chosen or agreed profession. Candidates can have 3 attempts at passing the SI. If a candidate fails their SI at all 3 attempts their application is to be rejected. RN candidates are not to be rejected at SI if they declare they cannot swim or a weak swimmer.

e. **Security Clearance (SC).** (SC) is required for all candidates, except for Cryptologic Technician (CT), Warfare Intelligence Specialist, Warfare Specialist (SM), Warfare Officer (Intelligence) and Cyber Reservist candidates who require Developed Vetting (DV). All SC and DV applications are to be initiated at the earliest opportunity on completion of BPSS conducted over SHINE during SI. If a candidate is withdrawn or is rejected from the recruitment process for any reason, the CA is to ensure the SC / DV application is terminated.

(1) Security clearance must be confirmed prior to entry. A check will be performed of all SC applications on successful completion of CPC; if there are any issues affecting timely award, candidates are to be given the option of deferring their entry date according to their personal circumstances.

(2) Residency Waivers should be applied for at this stage. A candidate requiring a Residency Waiver is not eligible for any DV roles.

(3) **DV Application.** All CT, Warfare Intelligence Specialist, Warfare Specialist (SM), Warfare Officer (Intelligence) and Cyber Reservist DV applications are to be submitted as priority requests. Candidates requiring DV will not be permitted to enter Service unless they have been awarded a DV, or a short notice SC, in the interim of the DV being completed.

(4) The SC waiver policy is contained within BRd3(1) Chapter 63.

f. **CBAT.** All ACMN candidates are to complete CBATs. Application for ACMN is to be made via AIB on successful completion of the SI.

[6] https://modgovuk.sharepoint.com/:x:/r/teams/55758/_layouts/15/Doc.aspx?sourcedoc=%7BB41D1B69-6709-47E2-A4F2-12D523E985BB%7D&file=20230112-DAA%20Roles%20Threshold%20matrix-os.xlsx&action=default&mobileredirect=true&DefaultItemOpen=1

g. **Candidate Preparation Course (CPC).**

(1) **Ratings Candidates.** As soon as the candidate is allocated to CPC the CA's are to send the Self Measurement, Declarations and Parental Consent RFI. CPC will include the following events:

(a) Full medical performed in first 2 days with reference to PHCR. The following outcomes are possible:

i. Declared Medically Fit to Enter (MFD) – continue through CPC.

ii. Declared Not Medically Fit to enter (MND) – return home, application on hold.

iii. Assigned a JMES category detailing limitations (MLD) – continue through CPC but referred to Pre-Entry Medical Employability Board.

iv. Declared Medical on Hold (MoH) with either of the following:

a. Fit CPC where Cds will continue through CPC.

b. Unfit CPC where Cds will return home and application put on hold.

(b) PJFT conducted at RNFT standard +25% added.

(c) Candidate will fail CPC if their conduct and behaviours are deemed to be unsuited to Service life.

(d) A candidate will fail CPC if they are unable to effectively communicate in English.

(e) RN CPC is valid for 12 months and must be completed and passed prior to Offer of Service. Candidates may have up to 3 attempts to pass CPC, if unsuccessful the application is to be rejected. CPC will provide an unsuccessful candidate with feedback on areas for improvement and recommend a suitable period before the candidate should re-attend, not normally less than 3 months. Candidates are only to repeat the elements that they fail at CPC[7].

(f) Successful RN CPC candidates are to be submitted for intake on MS. To manage expectations, candidates are to be informed they will be allocated entry at 31 Days, or earlier if candidate elects to do so. Candidates wishing to join INT beyond 31 days will be by exception.

[7] PJFT resits can be taken via Nuffield Health or CPC depending on availability.

(2) **RM Candidates.** Due to the physical rigours of CPC, all RM will be required to be medically and physically assessed before being eligible for RM CPC. From passing SI, all candidates are to receive CRM to encourage them to physically prepare for PJFA and CPC, noting this preparation is unsupervised and done entirely at the candidate's own risk.

(a) RM CTC Medical assessment will take place when RM CTC Medical assessors receive a candidates PHCR. Both the RNMQ and PHCR will be considered.

(b) Before attending RM PJFA, all Candidates must be medically triaged and have a PHCR check. The PJFA RFI is then to be issued no later than 7 days after SEMC state that a candidate is 'Ready for RM PJFA' . The candidate is to be booked onto a PJFA no later than 7 days after CTC medical assessment. The RM PJFA matrix located in Chap 9 of the ROM provides the PJFA scoring levels. The candidate will be encouraged to re attempt the PJFA no longer than 4 weeks from their previous attempt with no limit on the number of attempts until they score the required standard, with candidates that continue to show little or no progress being considered for termination of application to the Royal Marines.

(c) Following successful PJFA RMOR Candidates are to be queued to the next available CPC. The target time from RM CTC Medical Assessment to completion of CPC is NLT 30 days.

(d) A RM CPC pass is valid for 6 months and must be completed prior to any 'Offer of Service'. RM Candidates may have up to 3 attempts to pass CPC, if unsuccessful the application is rejected. CPC will provide an unsuccessful candidate with feedback on areas for improvement and recommend a suitable period before the candidate should re-attend, not normally less than 6 months[8]. If a candidate fails CPC for any reason other than medical, they will not have to repeat the medical process if they remain medically eligible for entry. The candidate will repeat the remainder of CPC.

(e) **RMBS.** RMBS candidates are now incorporated within the NRP for medical processing prior to attendance at the RMBS audition, which incorporates PJFT. All Candidates are to receive CRM to encourage them to use the time between booking and attending the audition to physically prepare for the PJFT. If a Candidate fails audition for any reason, they will be advised on the next steps by RMBS staff. Following medical scrutiny RMBS candidates are to be queued for RN MedFit in RITS. At RN MedFit only the F2F Medical will be conducted, fitness testing will be conducted during auditions.

[8] If a candidate in UK on a limited visa only fails RMSA, they are to be offered swimming lesson assistance and allowed to re-attempt RM CPC in 3 months.

h. **Specialist Medicals.**

(1) **Diver.** Candidates that are declared fit at CPC medical process are to complete the Diver Medical process as detailed in the Recruiting Operators Manual (ROM) para 0524.

(2) **Aircrew.** Candidates that are declared fit at CPC medical process and pass CPC are to undertake an Aircrew Medical. The Aircrew Medical is booked by R&A Allocations for all ACMN and AC candidates. Aircrew candidates are not to be submitted for intake until they have passed Aircrew Medical.

i. **Mandatory Compliance Checks.** This must be completed by the Team Manager (TM) prior to 'Submit for Intake' on MIS. A final check will be conducted by the RMs and uploaded to MIS. The MCC must be downloaded to the Desktop, completed, and uploaded to MIS, then deleted from Desktop and the deleted items folder.

j. **Submit for Intake.**

(1) **RN Candidates.** Are to be ‘submit for intake’ on successful completion of RN CPC by the CA.

(2) **RM Candidates.** Are to be ‘Submit for Intake’ on successful completion of RM CPC.

k. **Selection Boards.** RNP, Medical and AA roles are required to pass Specialist selection boards.

(1) **AA and Medical Roles.** Specialist Boards (SB) and assessments are conducted iaw Branch requirements, after successful completion of SI and are to be undertaken at the earliest opportunity to prevent any delay in entry.

(2) **RNP.** RNP SB is conducted at RN CPC South, on planned dates throughout the year, as agreed by RNP Branch Manager. These dates are incorporated into the RN CPC programme. Careers Staff are to liaise with NAVY RA-RF CPC S OIC, to confirm booking of RNP candidates onto RNP selection at RN CPC(S). RNP candidates must complete RNP SB at CPC(S).

l. **Overseas Candidates.** Overseas candidates are not to be loaded to CPC without approval of the Overseas Team. Refer to ROM chapter 13 and the Overseas policy for further information.

m. **Offer of Service.**

(1) The 'Offer of Service' will only be generated once JPA issues a Service Number. Once completed, 'Intelligent Guidance' is populated on MIS. The CA creates the 'Offer of Service' which must include the Vetting Number. The candidate should receive the 'Offer of Service' as soon as they have passed CPC and are medically eligible (Aircrew and Divers) and no later than 31 days[9] prior to the entry date, allowing them sufficient time to complete necessary administration and prepare for Entry to the RN.

(2) All candidates within 31 days of an allocated entry date, with an SC in progress are to be highlighted by the Allocation Team to PSYA and to have their SC application raised to Priority if appropriate. The Allocation Team are to forward the list of prioritised Candidates to the relevant RMs, to disseminate accordingly. Candidates are to be informed of this escalation by the Careers Staff, to manage candidate expectations and planning. Candidates will not be removed from their allocated entry date at this point unless they choose to withdraw.

n. **Final Entry Brief.** The FEB is completed during RN and RM CPC.

o. **Final Update Interviews.** Final Update Interviews are to be completed within 31 days prior to an entry date.

p. **Candidate Withdrawal or Rejection.** Whenever a candidate is Withdrawn or Rejected from the recruitment process, the reasons for their removal from the recruitment journey should be recorded on the candidate RITS account and the candidate is to be sent the MIS RFI to conduct the appropriate survey. The minimum time to re-apply is to be clearly and sensitively explained by the CA to the candidate. The CA is responsible for ensuring all subsequent events, bookings, or tasks for the affected candidate, including SC / DV and Medical, are cancelled.

0902. Ratings and Other Ranks Selection Interview

a. Candidates applying to join the Regular Service and Maritime Reserves (MR) as ratings/OR are to be interviewed by a qualified CA. The purpose of the SI is to assess the candidate's suitability for service, their selected profession and that they are ready to start training. Re-entries (trained, part trained and untrained) and transfers from other Services are also to be interviewed; re-entrants' SIs are conducted by members of the RISTT. The SI may be conducted virtually or in a Careers Office; the interviewer's decision is final. If the interview is conducted in-person, this must be recorded on the SHINE platform for Assurance purposes.

b. The interview lasts for approximately 45 mins and is semi-structured, covering the candidate's background, education, work record, spare time activities and motivation for joining the Service and reasons behind their choice of profession.

[9] This can be reviewed for short notice Service Entry, with Candidate consent. This can be reduced for Commonwealth candidates with candidate consent.

c. On completion of the SI, the CA will calculate the Selection Score (SS) for the candidate based upon the following areas: personal situation, teamwork, physical and mental resilience, discipline and trustworthiness and development/motivation.

d. The candidate is told of the outcome of the SI and subsequent actions required. This is completed by the same individual who conducted the interview.

e. There are three possible outcomes from the SI, as follows:

(1) **Successful.** Candidates who are successful are moved forward to the next stage. An update interview is required for all successful candidates at 6 monthly intervals, or when required, through to entry.

(2) **Not Suitable at Interview (Reject).** Candidates who are deemed unsuitable for RN and who are very unlikely to become suitable in the future.

(3) **Not Suitable at Interview (User Defined Time Period).** Candidates who are presently unsuitable but may become suitable within 12 months. The amount of time before the candidate is re-interviewed is at the discretion of the CA. An update SI is then conducted, SS assessed, and suitability decision made.

f. Candidates can have 3 attempts at passing the interview. If a candidate fails the interview on the 3rd attempt, the candidate's application is to be rejected.

g. Post SI, the CA produces an Interview Report (AFCO Form 101). This form contains all the information required by the respective NETE PSOs to assess eligibility to change profession during Phase 1 Training. It contains all the evidence gained during the SI and is used to produce the SS. It also contains an 'Interviewer's General Impression' which details the CA's selection decision. In conjunction with NETE PSOs, the content and layout of the AFCO Form 101 is determined by RTAG. Candidates who change profession before entry must be re-interviewed completely, and a new AFCO Form 101 produced.

h. SIs for re-entries, role transfers and the MR are based on the standard SI but are amended to deal with the different requirements and circumstances.

i. **Conduct.** SIs for ratings and ORs are only to be conducted by qualified CAs/RISTT personnel. ROM chapter 7 contains instructions on the conduct and marking of these interviews.

j. **Update Interviews.** The following are categories of Update Interviews:

(1) **Not Suitable at Interview.** If, following an unsuccessful outcome at the initial SI, the CA identifies potential to meet the required standard, the candidate is to be re-interviewed at a later date as agreed with the CA. During this re-interview the CA is to concentrate on all areas of concern raised previously. Once the interview has been completed the same method of scoring is to be used across all competencies.

(2) **Routine Update Interviews.** Routine 6 monthly updates are to concentrate only on the mandatory information required in the AFCO Form 101. The required narrative is to record only changes or new information.

(3) **Final Update Interviews.** The aim of the final update interview is to ensure that the mandatory information required by the NETE is up-to-date and current prior to the candidate commencing training.

(4) **Other Occasions for Update Interviews.** Other occasions for an update interview include any changes in the candidate's situation, or failure at any further selection serial including RMBS Audition, Boards, or pre-selection courses. This does not include failure at medical, PJFT or SC where a comment in the journal will suffice.

0903. Competences Assessed in Ratings and Other Ranks Selection Interview and Selection Scores Awarded

The full matrix for assessing the Selection Scores is available via the RTAG SharePoint page.

0904. Selection Scoring Rules

a. With a maximum of 6 per competence the total equates to 36.

b. Pass score for all roles equates to 21.

c. A SS of 1 or 2 in any competence is considered a failure, apart from a score of 2 in either 'Personal Situation' or 'Mental Resilience', but not both.

0905. Overseas Candidates

Overseas candidates are referred to the Overseas Recruitment Team (ORT) to conduct initial eligibility checks, for eligible overseas candidates to then be 'handed-off to CAs to complete any outstanding events and administration.

a. **Specialist Roles.** Candidates with applications for specialist roles are to be referred by the ORT to the respective Specialist Attract Teams (SATs) to conduct pre-screening and confirm educational eligibility of these candidates for these roles. Eligible candidates are then to be handed back to the ORT, to continue the application process.

b. All Dual National and British candidates living overseas are to be handed off to CAs directly after Nationality checks have been conducted.

c. All overseas candidates, not in specialist roles, assessed TMU at Medical Triage are to be 'handed-off' to RF CAs to process.

d. The ORT are to have 'read only' access to the RF Candidate Management Tracker (CMT) to assist collaborative processing of overseas Candidates.

SECTION 2

RATINGS AND OTHER RANKS SPECIALIST SELECTION PROCESSES

0906. Naval Airman Aircrewman (NA(ACMN))

a. Eligibility criteria for NA(ACMN) can be found in the JEM.

b. A return of service of 6 years will apply on completion of Operational Conversion Unit Training.

c. On completion of SI, NA (ACMN) are to complete additional specialist testing (CBAT) as per ROM chapter 12.

d. Candidates who fail CBAT or are assessed as being 'PMU Aircrew' are to be contacted by the CA and career counselled with a view to either role-change, re-sit CBAT or withdraw. For those candidates assessed as 'PMU Aircrew' and who elect to change role, the CA is to contact SEMC to confirm that the candidate remains fit for the alternative role and that medical issues have not been exposed during the Aircrew medical that would make them unfit for that role.

e. A candidate who fails CBAT may re-sit, provided that they remain eligible in all other respects. There must be an interval of at least 12 months, which applies to those seeking to improve their grade as well as failures; candidates will only be permitted to take the tests twice.

f. Rejection or withdrawal of any Aircrew candidate post CPC, but prior to Specialist Medical, must be notified to R&A PLANS RA immediately.

g. Recruiting Staff are reminded that there can be significant delays in undertaking the Aircrewman specialist testing and should take this into account when processing candidates to meet known entry dates. Additionally, they should manage candidates' expectations with regard to the timescales for entry and possibility of failure at CBAT, selection or medical.

0907. Royal Marines Band Service (RMBS) - Auditions

a. Auditions are held throughout the year; Royal Marines School of Music (RMSOM) will inform R&A of the dates. The audition lasts 3 days and consists of a comprehensive musical audition, fitness profiles, tests and a personal interview.

b. Audition dates and administration procedures will be issued as a Recruiting Instruction (RI).

c. The recruiting process for RMBS is contained in ROM - Chapter 12.

0908. Naval Nurse and Medical Technician Selection Boards - (Student)

a. Student Naval Nurse and Medical Technician Boards are held bi-annually on the virtual platform SHINE.

(1) **November.** Mental Health Naval Nurse (Student), Radiographer (Student), Operating Department Practitioner (Student) and Biomedical Scientist (Student).

(2) **February.** Adult Naval Nurse (Student).

b. **Eligibility Standards.** Educational eligibility standards are at chapter 7, paragraphs 0711.

c. The recruiting process for Naval Nurse (Student) is contained in ROM - chapter 12**.**

d. All administration is co-ordinated by R&A-COHERENCE SR MED PO. Candidates receive full guidance from the Specialist Medical Attraction team.

e. Final Selections boards are facilitated 1 to 2 weeks following the Assessment Board and candidates are informed of the outcome by phone directly by R&A-COHERENCE SR MED PO or SO3. To further guide candidates, CAs and relevant stakeholders are informed by formal letter.

0909. Naval Nurse and Medical Technician Assessment Boards - (Qualified)

a. Naval Nurse and Medical Technician (Qualified) Boards are held on an ad hoc basis on the virtual platform SHINE. The Board President for assessments is the RN Nurse Education Adviser (NEA).

b. **Eligibility Standards.** Educational eligibility standards are at chapter 7, paragraph 0711.

c. The recruiting process for Naval Nurse (Qualified) is contained in ROM - Chapter 12 - Specialist Selection.

d. All administration is co-ordinated by NAVY RA-SAT MED PO. Candidates receive full guidance including joining instructions from the Specialist Medical Attraction team.

e. Final Selections boards are facilitated 1 to 2 weeks following the Assessment Board and candidates are informed of the outcome by phone directly by NAVY RA-SAT MED PO or NAVY RA-MED SO3. To further guide candidates, CAs and relevant stakeholders are informed by formal letter.

0910. Diving Assessments

The Diving Assessment will take place at the Defence Diving School, Horsea Island, Portsmouth. The assessment will take place as part of Part II training. Failure will result in recruits being offered an alternative role or to leave the Service.

0911. Royal Navy Police (RNP) - Direct and Inter-Service Entry

a. All RNP candidates will be required to complete an RNP Specialisation Selection Board. The Board will consist of a group discussion, to present an individual spot-brief, and an interview to determine a candidate's aptitude and suitability for the RNP.

b. A Direct Entry RNP candidate will carry out their Board during their CPC; dates for which are incorporated into the CPC programme. In exceptional circumstances, a Board will be held separately to a CPC. All Direct Entry candidates will attend CPC (South) at HMS SULTAN, irrespective of their resident location. CAs are to liaise with OiC RN CPC (S), to confirm booking RNP Candidates onto RNP selection/RN CPC. RNP candidates must complete RNP Specialisation Selection Board before being given any offer of Service.

c. An in-Service role or inter-Service transfer RNP candidate will only need to attend the Board in isolation, which will also be held in HMS SULTAN.

0912. Royal Navy Candidate Preparation Course/MedFit

a. All RN entrants into Initial Naval Training (INT) must attend the CPC, which is conducted at either CPC(N) in HMS Caledonia, CPC(S) in HMS SULTAN or CPC(W) in HMS Cambria. A CPC 'pass' will remain extant for 12 months. Re-entrants to the RN are not required to complete CPC.

b. **RN CPC Waivers.** RN CPC waivers can be considered in exception for candidates (other than under-18s and Foreign and Commonwealth candidates) CPC waiver requests are to be made to R&A Policy SO2 with justification for non-attendance. Justification for any approved CPC waiver is to be recorded in MIS and must include confirmation from the candidate that they understand the waiver process and the potential impact on their preparation for Phase 1 training.

c. As 'bid for' candidates are allocated to an entry by R&A PLANS RA, the CPC will liaise with the candidate's CA to agree a date for attendance which shall be no more than 6 months prior to their planned entry date. The CPC will complete RITS booking procedures and issue the joining letter and instructions via RITS.

d. In exceptional circumstances, and for training pipeline management purposes only, with the authority of R&A Policy SO2, attendance at CPC may be waived if the candidate has passed their F2F Medical and has a Pre-Joining Fitness Test (PJFT) pass in place.

e. CPC content is provided in the candidate's joining letter.

f. The delivery of CPC is as directed within the CPC Formal Training Statement, Role Performance Statement and all candidates are assessed in accordance with the CPC Assessment Strategy and Specification. On completion of CPC each candidate will be assessed as:

(1) **At Standard.** The candidate has achieved all CPC training objectives: demonstrated suitable fitness standards in their Initial Fitness Assessment (INTFA) and, or their PJFT. Candidate to continue as planned to INT.

(2) **Not At Standard.** The candidate has not achieved all CPC training objectives and/or failed their PJST and/or failed their RNFA. Candidate to be invited back to complete CPC having addressed noted shortfalls.

(3) **Unsatisfactory.** The candidate has demonstrated standards and behaviours that are not acceptable in readiness for INTFA of PJFT. Candidate deemed not suitable for INT, application to be withdrawn and candidate to reapply in 12 months' time having addressed shortfalls.

(4) **Voluntary Withdraw.** The candidate decides to withdraw from the recruitment process and directed to return to their CA for counselling and to process withdrawal of their application.

g. A candidate who demonstrates the potential to meet the Phase 1 Training entry standards may be allowed up to 3 attempts at CPC. Continued failure will deem the candidate ineligible. The candidate is not to re-apply to join the RN within the subsequent 12 months as standard.

h. During a CPC, RN rating candidates will also receive a FEB to aid in the administration of joining an NETE. Guidance on this can be found in chapter 14, paragraph 1406.

0913. Royal Marine Candidate Preparation Course (RMCPC)

a. The RM CPC is the process that selects candidates who are assessed to have the necessary physical preparedness, and to equip candidates with an understanding of the rigours of mainstream training, to guard against voluntary withdrawals and to maximise training success. Re-entrants to the RM are not required to complete RMCPC.

b. A candidate who has successfully completed their PJFA[10] is able to attend a RMCPC. Overseas candidates are not to be loaded to RM CPC without approval of the Overseas Team.

c. The candidate is to be directed to attend a specific CPC to which they have been loaded, if they are unable to attend on these dates, they are to be offered a choice of alternative dates depending on availability.

[10] The extant PJFT+ will remain for Overseas candidates until further notice.

d. Joining Instructions are to be issued via MIS.

e. Travel to CTCRM will be arranged by the CA via HRG Portal. Candidates are encouraged to travel by train; travel by car is to be discouraged as there is no parking for candidates at CTCRM.

f. **Prior to Arrival**. All candidates must bring with them the completed Fitness Declaration and Consent Form (Annex within Joining Instructions), and section 2 of this Annex must be completed if the Candidate is under 18. The Candidate will also be required to be complete a further medical declaration which will be screened by the CTCRM Sickbay staff to assess the Candidate's fitness to commence Recruit Orientation Phase (ROP).

g. The RM CPC will be facilitated at the following location:

RM Candidate Preparation Course - Dept of the Corps Colonel.
Commando Training Centre Royal Marines (CTCRM)
Lympstone
Exmouth
EX8 5AR

h. **Final Entry Brief**. On completion of the course a final brief will be conducted by either the Officer Commanding (OC) or Chief Instructor (CI) Royal Marines Commando Selection Team (RM CST) which will include the ROP brief and RM FEB. One of following possible results will be provided to the candidate:

(1) **Suitable.** Such candidates will then be processed through F2F Medical and await issue of their SC. When all have been passed or attained, they will receive a confirmed joining date no less than 31 days before that joining date, and sent JIs accordingly by their CA. This result will remain extant for a period of 6 months.

(2) **Deferred Suitability.** Such candidates will be advised to contact their CA if further advice is required. This result will require a period of 3 months to elapse before a candidate can re-attend a CPC.

(3) **Unsuccessful.** Such candidates will be advised on what their next course of action should be, depending on their individual circumstances. They will be advised to contact their CA if further advice is required. RM candidates may have up to 3 attempts to pass CPC, if unsuccessful, their application is to be rejected. This result will require a period of 6 months as standard to elapse before a candidate can re-attend a CPC.

i. **Voluntary Withdrawn.** Such candidates will be directed to return to their CA for either CRM into another role within the RN or processed for withdrawal from their application.

j. During a CPC, successful RM OR candidates will also receive a FEB to aid in the administration of joining an NETE.

k. **CPC Failures.** CPC is valid for 6 months and must be completed prior to any 'Offer of Service'. RM candidates may have up to 3 attempts to pass CPC, if unsuccessful the application is rejected. CPC will provide an unsuccessful candidate with feedback on areas for improvement and recommend a suitable period before the candidate should reattend, not normally less than 6 months[11]. If a Candidate fails CPC for any reason other than medical, they will not have to repeat the medical process if they remain medically eligible for entry. The candidate will repeat the remainder of CPC regardless of the point of failure.

l. **CPC Expired.** Where a candidate has passed CPC more than six months ago but has not yet entered service, the candidate is to re-attend a RM PJFA to check that the required level of physical fitness has been maintained prior to service entry. The maximum time permitted between passing CPC and service entry is 9 months, after which the candidate is to re-attend CPC.

0914. Direct Entry Petty Officer Technicians (DEPOT/DET)

a. Eligibility criteria can be found within the JEM matrix. See chapter 7, paragraph 0701.

b. Minimum time to serve before becoming eligible to submit notice is 30 months from achieving GTS. Length of notice period is 12 months following successful completion of GTS.

c. Standard eligibility criteria for ET(ME) will apply, with the following exceptions:

(1) Applicants must commence training before their 40th birthday.

(2) Applicants must reach either a combined academic and experienced base line or display an increased academic ability as below:

(a) A National Qualifications Framework Level 4 in an appropriate engineering discipline and a minimum of 3 years' experience working in a similar engineering related field including supervisory experience responsible for line managing a minimum of 2 subordinate technicians.

(b) Completed a Level 5 academic qualification in Marine Engineering following the MCA's approved programme MSN 1857 within the last 12 months.

(3) Applicants must have a National Qualifications Framework Level 4 qualification in an appropriate engineering discipline.

(4) DAA is to be recorded in MIS but there is no set pass mark.

(5) BPSS are to be checked by the applicant's CA.

[11] If a candidate in UK on a limited visa only fails RMSA, they are to be offered swimming lesson assistance and allowed to re-attempt RM CPC in 3 months.

d. DET will attend a one day CPC which will include the following:

(1) Briefing on and exercises in practical leadership.

(2) Engineering case study.

(3) Competence and suitability interview.

e. The selection process may be found in the ROM - chapter 12.

0915. RNR Cyber Reserves

a. The RNR Cyber Reserves branch will recruit only SQEP who have demonstrated they have the requisite cyber skills and experience developed in academia and/or employment. The skill sets sought by the Joint Cyber Unit (Reserves) (JCU(R)) are in extremely short supply.

b. Candidates who do not meet the RNR standard criteria for age, fitness, medical or appearance criteria will still be considered for entry to the RNR Cyber Branch with the requisite waivers being assessed on a case-by-case basis (RNR POC is NAVY IW-MCSU MCU(R) OC).

c. There is no requirement to apply for approval to process for over-age applicants.

d. DAA and medical interviews are to be conducted as normal, including verification of BPSS. However, no formal interview is required for these candidates they will have already been accepted by branch.

0916. Accelerated Apprentice (AA) Scheme, including AAPO for Marine Engineering General Service (MEGS) and Weapon Engineering General Service (WEGS)

a. The Accelerated Apprentice Scheme is a well-established and popular route of entry for those with advanced engineering academics. Since its introduction in 2016 the Scheme has been successful in providing an accelerated route to Leading Engineering Technician (LET) in all RN Engineering disciplines and Petty Officer where required and suitable.

b. Eligibility criteria must be met for a candidate to be considered for the AA Scheme. Academic and vocational qualifications are notoriously difficult to understand and interpret. Where doubt exists whether a qualification is acceptable, the CA is to contact the AA Coordinator (R&A SRT ENG AA) and record the response in the candidate’s application notes.

c. The scheme requires applicants to hold specified Level 3 qualifications. There are 2 options open to applicants:

d. **Educational Qualification - GCSE Requirements.** All applicants must have 3 GCSEs at Grade C or above (4 - 9) in the following subjects:

(1) English Language.

(2) Mathematics[12].

(3) Science based subject.

(4) Acceptable GCSE equivalents:

(a) SCE Ordinary Grade. Grade C or above.

(b) SCE Standard Grade (Credit (Grade 1-2)).

(c) Scottish Intermediate. Grade A to C.

(d) Scottish National 5. Grade C or above.

(e) Irish Leaving Certificate Ordinary Level, Grade C or above.

(f) Functional Skills at Level 2 in Mathematics and English.

e. **Further Academic Requirements.** The AA scheme requires applicants to hold an additional higher-level qualification. Paragraph 9 a to e states the 5 clearly defined options where an individual must meet all the requirements listed within a particular applicable route. There is also an option to request an Academic Waiver[13] if a candidate holds equivalent, but not listed, qualifications:

(1) **Vocational Route.** A vocational qualification in an engineering discipline at Level 3, generally carrying the title “Level 3 Diploma/Extended Diploma in Engineering”. There are many sub-disciplines or ‘pathways’ including:

(a) Mechanical.

(b) Electrical or Electronic.

(c) Manufacturing.

(d) Aeronautical.

(e) Computing.

[12] Candidates who have the revised Welsh GCSE mathematics syllabus are required to have conducted both parts (Numeracy and Mathematics) and achieved a minimum of Grade C in each part.
[13] Academic Waivers differ from Educational Waivers. Academic Waivers are achieved by contacting the R&A AA Co-ordinator.

(2) **Academic Route 1.** 2 x GCEs/A Levels in Mathematics and another STEM subject both are to be at Grade D or above and carry a total of 48 UCAS points[14] .

(a) Further Mathematics.

(b) Physics.

(c) Chemistry.

(d) Physical Science.

(e) Electronics.

(f) Engineering.

(g) Computer Science or studies.

(3) **Academic Route 2.** 1 x T Level in an engineering discipline at Grade P (D or E) or above. There are many sub-disciplines or 'pathways' including:

(a) Design and Development Engineering.

(b) Engineering, Manufacturing, Processing and Control.

(c) Maintenance, Installation and Repair for Engineering and Manufacturing.

(4) **Mixed Route.** Applicants who have a combination of GCE/A Level at Grade D or above, and a STEM vocational course from the subjects listed at paragraph 6a at the following level:

(a) Diploma: Minimum Grade PP.

(b) Subsidiary Diploma: Minimum Grade M.

(c) 90 Credit Diploma: Minimum Grade PP.

(d) Certificate: Minimum Grade D.

[14] Scottish equivalent qualifications are Highers & Advanced Highers.

(5) **Level 4 or Higher Qualifications.** Level 4 or higher qualifications in a STEM or Engineering Discipline are acceptable in lieu of Level 3 qualifications and include:

(a) HNC Engineering.

(b) HND Engineering.

(c) FdEng Engineering.

(6) Any applicant presenting with a bachelor's degree (BEng, BSc) in an approved Engineering discipline or STEM based subject, as a part of their application, are to be immediately counselled by their CA for consideration of the Direct Graduate Entry (DGE) Engineer Officer entry route. CAs are to inform the R&A AA Coordinator and SAT Eng SO3 of this educational standard for specialist engineering CRM support to be provided to the applicant.

f. **Governing Bodies.** Acceptable governing/awarding bodies include, but are not limited to the following:

(1) Business and Technology Education Council (BTEC).

(1) Oxford Cambridge and RSA (OCR).

(3) City and Guilds.

(4) Pearson.

(5) Excellence, Achievement and Learning (EAL).

g. **Alternate Qualifications**. Any applicant presenting a qualification not listed in this RI but clearly of an engineering discipline at level 3 or above may be considered on a case-by-case basis. Further advice can be gained from the R&A AA Coordinator.

h. **Defence Aptitude Assessment (DAA).** The minimum eligible scores for all roles within the AA Scheme are as follows; no discretion or DAA waiver can be applied.

i. Details for AA Terms of Service can be found in chapter 5, paragraph 0515.

0917. Direct Entry Fast Track Engineering Technician (DEFT)

a. Direct Entry Fast Track (DEFT) Engineering for MEGS and WEGS have been introduced IOT identify suitable candidates earlier in the recruiting process and provide an improved promotion opportunity to those who do not fully meet the eligibility for Accelerated Apprenticeship Schemes.

b. **Eligibility Criteria.** The FT Technician scheme will be monitored by EGS Work Force planners against the requirement and updated to reflect changes in educational qualifications as they are introduced, and the scheme matures.

c. **Academic requirements.** The FT Scheme requires applicants to hold specified Level 2 qualifications. There are 2 options open to applicants:

(1) **Option 1 –** Applicants must have Mathematics and English Language GCSE Grade 4/C and above or equivalent and a STEM based subject at Grade C or above (4-9):

(a) Physics

(b) Chemistry

(c) Physical Science

(d) Electronics

(e) Engineering

(f) Computer Science or Studies

(g) Acceptable GCSE Equivalents

(h) SCE Ordinary Grade, Grade C or above

(i) SCE Standard Grade (Credit (Grade 1-2))

(j) Scottish National 5, Grade C or above

(k) Irish Leaving Certificate Ordinary Level, Grade C or above.

(2) **Option 2 –** Applicants must have Mathematics and English Language GCSE Grade 4/C and above or equivalent and a vocational qualification in an engineering discipline at Level 2, generally carrying the title “Level 2 Diploma in Engineering” with a minimal grade of ‘Pass’. There are many sub-disciplines or ‘pathways’ including:

(1) Mechanical

(2) Electrical or Electronic

(3) Manufacturing

(4) Aeronautical

(5) Computing

d. **DAA.** Respective DAA Threshold (Index) scores with specific stanine scores to meet the ET requirements, are detailed in the DAA Threshold Scoring Matrix. Waivers will be considered iaw RI 02/24, on a case-by-case basis. These scores are continually reviewed and are subject to change following guidance from respective Workforce Planners, depending on service requirements.

(1) Governing Bodies

(2) Acceptable governing/awarding bodies include but are not limited to:

(3) Business and Technology Education (BTEC)

(4) Oxford Cambridge and Royal Society of Arts (OCR)

(5) City and Guilds

(6) Pearson

(7) Excellence, Achievement and Learning (EAL)

e. Any applicant presenting a qualification that is not listed in this RI but is clearly an engineering discipline, at level 2 or above, may be considered on a case-by-case basis in consultation with the respective BM.

0918. Final Selection Boards

a. Where any profession or role is oversubscribed, or where limitations are applied to the number of applicants (such as for non-UK Candidates), there may be a requirement to hold a Final Selection Board (FSB). The function of an FSB is to select the most suitable Candidates for intake to the Service.

b. FSBs should always be conducted by a panel, with a nominated chair and at least 2 further members. One member of the panel should be from the appropriate Workforce Planning and Talent area (e.g. the relevant BM).

c. FSBs should use as much information as is available to make their selection decisions. This could include:

(1) DAA score

(2) Selection Interview Score

(3) Evidence of Skills and Experience gathered at Selection Interview

(4) Evidence of Skills and Experience gathered through curriculum vitae/specialist application form

(5) CBAT score

(6) Educational qualifications

(7) Evidence relating to previous service in HM Armed Forces

(8) Conduct of a specialist selection interview

d. Candidates should generally be presented to no more than 3 successive FSBs. Where a Candidate is unsuccessful at one or more FSBs, and is unlikely to be selected in the future, they should be counselled by their CA to consider alternative professions/roles for which they are eligible.

e. Where Candidates will be presented to an FSB for their chosen profession or role, they should be made aware of this and informed of the timescales involved. FSBs should be held such that the Candidate and relevant NETE are given at least 6 weeks' notice of their potential entry to Service.

CHAPTER 10

OFFICER SELECTION PROCESSES

SECTION 1 - INITIAL OFFICER SELECTION PROCESSES

1001. Recruitment Process for Officers

a. **The Process.** The various elements of the recruitment (and selection) process are listed in paragraphs later in this chapter, and in earlier chapters within part 4 of BRd 3. This paragraph provides a singular reference for the generalised RN and RM officer recruitment pathway to provide time-bound recruitment objectives along a candidate's journey into the RN. Included below are the Key Performance Indicators (KPIs) to which Recruitment Staff will adhere to as standard procedure whenever possible.

b. **Application.** The candidate applies via the RN Website using a link to the Management Information Systems (MIS) and is contacted by the Recruitment Force. On immediate receipt of the application, but NLT than 7 days, the assigned Career Adviser (CA) is to conduct and record initial Candidate Relationship Management (CRM) and issue Request For Information (RFI) including:

(1) Baseline Personal Security Standard (BPSS) and Photograph Identification.

(2) DAA link.

(3) Eligibility triage, including educational eligibility for the chosen profession. All candidates are required to provide any GCSE certificates held at this stage to ascertain any Functional Skills requirements.

(4) Parental Consent form covering all activities which are a part of the recruitment process, including entering the Royal Navy. Only applicable to under 18 years old.

(5) The CA is to send the medical RFI, including Royal Navy Medical Questionnaire (RNMQ which includes the Family Origin Questionnaire (FOQ)) and Consent for Request for Primary Health Care Record (PHCR)[1]. Once completed the RNMQ and FOQ is returned to NAVYRA-CPCMedical@mod.gov.uk automatically. The Eyesight test routine is to be completed concurrently with the completion of the RNMQ and FOQ, in addition to SC application and DAA.

[1] Overseas Candidates are to complete as consent for medical processing only, GP details and request of PHCR are not required from Overseas Candidates.

(6) **PHCR.** It is the candidates responsibility to email or take personally the PHCR Consent Form 2 to their NHS GP.

(7) RN candidates are not to be rejected at SI if they declare they cannot swim or a weak swimmer. Swimming declaration RFI is to be sent to all RN candidates for completion iaw policy.

c. **Defence Aptitude Assessment (DAA).** All Candidates are required to sit the Defence Aptitude Assessment (DAA) except for Professionally Qualified Candidates who can provide evidence of the requisite degree qualification[2] for the role they are applying for (e.g., Med, Eng, and Chaplain). Professionally Qualified Officer candidates are to be queued straight to AIB, without conducting the DAA. All new applicant DSUS, UCE and Scholar candidates are required to conduct the DAA[3] Candidates that however, if they have already been successfully selected onto a scheme, they are not required to conduct the DAA retrospectively

(1) **DAA.** The candidate is to be instructed to complete the DAA as soon as feasible but NLT 7 days after receiving the DAA link. Candidates are to be advised they can complete the DAA unsupervised on a personal device or supervised on a MOD device within an AFCO.

(2) **Education Scoring Matrix.** This is to be completed for all candidates. This provides the details of functional skills training requirements during RN training.

(3) The candidate is to be informed of their DAA result by their CA. Failures are to be counselled towards alternative roles once they have expended their DAA attempts.

(4) **DAA Attempts.** Candidates can attempt the DAA twice. Exceptionally, a third attempt is to be offered by Careers Staff with justification for a third attempt to be recorded in the candidate's MIS Notes. All DAA 3rd attempts must be supervised. Staff are to advise the candidate they may re-sit the DAA earlier than 28 days if the candidate feels confident and requests to do so.

(5) **DAA Waivers.** DAA waivers will be considered by HQ Policy and Plans to meet Service needs.

(6) **DAA Threshold Amendment.** DAA threshold scores will be amended by R&A HQ, P&P, with approval from respective Work Force Planners, based on objective analysis of current thresholds to meet the needs of the Service, as appropriate. Amended DAA Threshold scores cannot be applied retrospectively to candidates that previously failed the DAA for their preferred role. Candidates may retake the DAA should they wish to change role, though this should not be offered or encouraged if the candidate has switched to a Fast Track role.

[2] If BMs provide an Educational Waiver for degree type, then this negates the requirement for a DAA. The candidate would be deemed Professionally Qualified.
[3] With exception of UCE candidates who must achieve a DAA pass for standard score (Officer). DSUS and Scholars do not require a pass, and score provides additional data for any FSB only.

d. **Security Clearance and Developed Vetting.**

(1) **Security Clearance (SC).** SC is required for all candidates, except for X (INT) officer candidates who require Developed Vetting (DV). All SC and DV applications are to be initiated at the earliest opportunity on completion of BPSS and conducted over SHINE during officers' BPSS Check. If a candidate is withdrawn or is rejected from the recruitment process for any reason, the CA is to ensure the SC / DV application is terminated.

(a) Security Clearance must be confirmed prior to entry. Careers Staff are to inform candidates that should their SC not be granted 7 days before their allocated entry date; this date will be deferred. A check will be performed of all SC applications on successful completion of CPC; if there are any issues affecting timely award, candidates are to be given the option of deferring their entry date according to their personal circumstances.

(b) Residency Waivers should be applied for at this stage. A candidate requiring a Residency Waiver is not eligible for any of the 4 DV roles or for WEO(SM) or X(SM) Officer.

(2) **DV Application.** All X(INT) Officer DV applications are to be submitted as routine and raised to priority if required when a joining date is known. Candidates requiring DV will not be permitted to enter Service unless they have been awarded a DV, or a short notice SC, in the interim of the DV being completed.

(3) The SC waiver process is to be used in extremis, on a case-by-case basis. Guidance to be sought via R&A Policy WO1.

e. **Admiralty Interview Board - All Officers.** RN and RM officer candidates who have passed DAA, should be queued for AIB Multistage Assessment process which includes a Pre-Recorded Interview (PRI) and Group Planning Exercise (GPE). RN Candidates should also be queued for MedFit at this point. A-Level scholarship, DSUS and UCE candidates must undertake their AIB to support qualification for the relevant supported educational scheme.

f. **CBAT.** All X(P), X(O), and ATC candidates are to complete CBATs. Officer Aircrew CBATs are to be completed concurrently with the AIB process. Candidates applying for Pilot can only sit CBAT once.

g. **MedFit.** As soon as the candidate is allocated to MedFit the CA's are to send the MedFit RFI. MedFit will include the following events:

(1) Full medical performed on arrival. The following outcomes are possible:

(a) Declared Medically Fit to Enter (MFD).

(b) Declared Not Medically Fit to enter (MND).

(c) Assigned a JMES category detailing limitations (MLD).

(2) PJFT conducted as INT FA[4].

h. **RM OSC.** Due to the physical rigours of OSC all RM will be required to be medically and physically assessed before being eligible for OSC. From passing SI, or officers' BPSS check, all candidates are to receive CRM to encourage them to physically prepare for PJFA[5] and OSC, noting this preparation is unsupervised and done entirely at the Candidates own risk.

(1) RM CTC Medical assessment will take place when RM CTC Medical assessors receive a candidates PHCR following the request at paragraph 1001, sub-paragraph b. Both the RNMQ and PHCR will be considered.

(2) Following successful completion of the CTC Medical Assessment the PJFA RFI is to be issued. The candidate is to be booked onto a PJFA no later than 7 Days after CTC medical assessment. A pass at RM PJFA is valid for 6 months. There is no limit to the number of attempts a RM Candidate may have at the RM PJFA and will be advised as necessary by the DoCC Commando In-Reach Team (CIT).

(3) CAs are to queue RM officers to the next available OSC following successful PJFA and AIB pass. The target time from RM CTC Medical Assessment to completion of OSC is NLT 30 days.

(4) Successful RMO Candidates will be presented to FSB in July and allocated for entry by the Officer Allocator.

(5) Candidate who fail OSC will normally receive a recommendation from OC OSC (e.g. to return in 6 weeks, or return in 12 months). The CA needs to ascertain whether the candidate wishes to continue with Royal Marines officer selection at a later date or consider alternative careers in the RN, either as an officer or rating, or as an OR. If the candidate is intent on pursuing a Commission in the RM, the next steps will be guided by the recommendations from OC OSC.

(6) Candidates who have passed OSC but are not selected can be given the option of making an RMOR application with the requirement to pass the Recruit Orientation Phase (ROP) waived so long as entry is within one year of passing the OSC. All other elements of the RMOR process are to be completed in accordance with the ROM**.** Of note, this is not the case of a ROP 'pass' being used instead of an OSC, as in addition to physical attributes.

[4] Candidate not to continue with INT FA if deemed MND. Candidates may continue within MLD categories on medical direction.
[5] PJFA also refers to vPJFT+ for Overseas candidates and PJFT+ for Northern Ireland candidates.

(7) Legacy RM University Bursary candidates will be required to pass a complete OSC in the September or October of their final year at university, in order to allow sufficient time for remedial training, plus a second attempt at OSC should that be required. Once the candidate has passed OSC, they will join RM officer training the following September.

(8) Bursars who do not pass the complete OSC prior to commencement of training, or drop out of the selection process, will be required to repay the cost of their Bursary or apply to join the RN in an alternative specialisation.

i. **Aircrew Medicals.** Candidates that are declared fit at MedFit and pass AIB are to undertake an Aircrew Medical. The Aircrew Medical is to be booked straight after AIB for all X(P), X(O), and ATC candidates and is to take place ASAP. Aircrew candidates are not to be submitted for intake until they have passed Aircrew Medical.

j. **Mandatory Compliance Check (MCC).** The MCC is to be uploaded to RITS as a word document, completed and verified by the CA prior to the candidate being submitted for intake, as per detailed on the form. A final entry check must be conducted by the TMs, setting a task for the RM to verify. The MCC must be downloaded to the Desktop, completed, and uploaded to RITS as a PDF for final entry, then deleted from Desktop and the deleted items folder. RMs must complete a 100% check of MCCs which is verified on RITS

k. **Overseas Candidates.** Overseas Candidates are not to be loaded to an AIB or OSC without approval of the Overseas Team. Refer to the Recruiting Operating Manual (ROM) and the Overseas policy for further information.

l. **Offer of Service.**

(1) The ‘Offer of Service’ will only be generated once JPA issues a Service Number. Once completed, ‘Intelligent Guidance’ is populated on MIS. The CA creates the ‘Offer of Service’ which must include the Vetting Number. The candidate should receive the ‘Offer of Service’ as soon as they have passed CPC and are medically eligible (Aircrew) and no later than 31 days prior to the entry date, allowing them sufficient time to complete necessary administration and prepare for Entry to the RN.

(2) All candidates within 31 days of an allocated entry date, with an SC in progress are to be highlighted by the Allocation Team to PSYA and to have their SC application raised to Priority if appropriate. The Allocation Team are to forward the list of prioritised candidates to the relevant RMs, to disseminate accordingly. Candidates are to be informed of this escalation by the Careers Staff, to manage candidate expectations and planning. Candidates will not be removed from their allocated entry date at this point unless they choose to withdraw.

m. **Final Entry Brief (FEB).** The FEB is completed by INT staff prior to entry via digital means.

n. **Candidate Withdrawal or Rejection.** Whenever a candidate is Withdrawn or Rejected from the recruitment process, the reasons for their removal from the recruitment journey should be recorded in RITS and the candidate is to be sent the MIS RFI to conduct the appropriate survey. The minimum time to re-apply is to be clearly and sensitively explained by the CA to the candidate. The CA is responsible for ensuring all subsequent events, bookings, or tasks for the affected candidate, including SC/DV and Medical, are cancelled.

1002. Officer Recruiting - AIB/OSC/CBAT Briefings and De-Briefings

The CA is to brief each candidate before attendance at AIB/OSC+/CBAT. The purpose of the brief is not to coach candidates to pass, but instead to ensure candidates understand the format and expectations of each assessment and have prepared accordingly. Upon completion of an assessment the CA is to de-brief the candidate, discussing feedback (available on MIS) and what level of suitability the candidate is displaying for their chosen profession, discussing other options (such as rating/OR) if suitability is low. All briefs and de-briefs can be conducted remotely and recorded in notes on MIS.

1003. Maritime Reserves (MR) Officers' Recruiting Process

a. In overview, the recruiting process for Maritime Reserves officers is the same as that for Regular Service officers.

b. **Royal Navy Reserve (RNR) Officers.** There are 4 routes for officers to enter the RNR:

(1) **General Entry Officer.** General Entry officer candidates will be allocated to the Warfare profession. Upon successful completion of Fleet Board, they may then choose to specialise further.

(2) **Medical and Nursing Officers.** For Medical and Nursing Officers who have transferred to new Common Terms and Conditions of Service, or who joined after 1 Apr 05, the Regulations in JSP 527 (Career Management Regulations for Defence Medical Services Medical Services, Dental Officers and Nursing Personnel) take primacy. For Medical and Nursing Officers who have not transferred to new CTOS, legacy regulations continue to apply in full.

(3) **Chaplains.** Chaplain candidates are to provide a CV for forwarding to (NAVYCHAPLAINCY-GROUPMAILBOX@mod.gov.uk)On receipt of the CV, it will be required to be uploaded to the MIS.

(4) **Temporary Commissions in Times of Emergency.** The Defence Council may grant a temporary commission in the MR, in such rank as may be deemed appropriate, to suitable persons who volunteer their services in times of emergency. Temporary officers of the MR will be entitled, while so employed, to the rank, pay and allowances of the corresponding permanent rank in the MR and generally will be treated in all other respects, and be subject to the same regulations, as permanent MR officers. Such officers will be liable to service either ashore or afloat as may be directed by the Defence Council, until their commission is terminated.

(5) All RNR officer candidates are to be actively encouraged to maintain ongoing contact with their local RNR unit prior to officer assessment, but care must be taken to manage expectations and to ensure that such contact is kept at an 'acquaint' level.

(6) CAs are to ensure that candidates are invited to meet the local RNR unit Commanding Officer (CO) but there is no requirement for the CO to provide a reference or recommendation for the candidate. Specifically, the RNR unit CO is not interviewing or approving candidates for entry.

(7) The MR does not currently require competitive selection or a Final Selection Board post-assessment. CMR HQ will confirm the candidate's specific terms and conditions of service (TACOS) including date of entry, uniform grant, pay scale and rank on entry.

c. **MR Officers (RN/RM).** Candidates with a previous Commission who have also successfully attained their Green Beret are eligible to apply for seamless transfer as a FireFly transferee within 24 months of completion of Regular Service (POC for engagement of FireFly 24 is NAVY RA-Project Firefly WO1). Entry for all such candidates, however, is subject to manning clearance from the MR Career Manager (NAVY PEOPLE-MR BM RES WO).

d. Undertaking Officer Assessment is not required for an officer who has already held a Commission, e.g.:

(1) Former RN officers.

(2) Former officers of the other UK Regular and Reserve forces and former officers of Commonwealth Armed Services.

SECTION 2 - ADMIRALTY INTERVIEW BOARD (AIB)

1004. General Information

a. **Aim of Officer Candidate Assessment.** The aim is to assess the suitability of applicants to be trained as officers.

b. **Direct Entrant Candidates.** All candidates are eligible to sit their AIB post successful completion of their DAA. Other elements of the recruitment process should be completed concurrently.

c. **In-Service Candidates.**

(1) **Application.** The process for In-Service candidates is different to that for DE. Guidance for In Service candidates is in BR3 Chapter 50: Chapter 50 - Promotion to Officer by Ratings and Other Ranks (mil.uk). All RN and RM candidates are to be nominated by completion of Annex 50H form which is to be submitted to the relevant Recording Authority (RA) located at Annex 50A. RAs will make note of the candidates' details, check their eligibility and upload the document to the AIB RA Teams Channel before notifying the AIB Operations team. While candidates are able to complete the AIB Multistage Assessment process in any MedCat, they must meet the medical criteria to promote to the officer core in line with Chapter 50, para 5014 (UY/CC), para 5026 (SUY/SCC).

(2) **Process.** It is the responsibility of the AIB Operations Team to liaise with UY/CC candidates to facilitate their DAA. Once an UY/CC candidate passes the DAA, candidates' will normally be informed of the date of their AIB Multistage Assessment process at least one month in advance. All candidates' will receive a link to RITS, which they must open and complete in order to proceed with their application. The AIB Operations Team will upload the completed electronic copy of the Annex 50H to the candidate's RITS account. The normal waiting time for an AIB is no more than 3 months. Recording Authorities will liaise with the AIB Operations Team and candidates to deconflict any front-line requirements to enable completion of AIB in time for the branch Final Selection Board (FSB) where necessary. The AIB Operations Team will also liaise with In-Service candidates to establish candidate availability, prior to loading the candidate to the AIB Multistage Assessment process.

(3) **Timing.** The AIB Multistage Assessment process is designed to be completed in quick succession. The maximum period between Pre-Recorded Interview (PRI) and Group Planning Exercise (GPE) should be no more than two months and where operational or other personal commitments impede this, candidates will be required to restart the process. Where candidates' move or delay their AIB on more than two consecutive occasions, they will be required to commence the AIB assessment process in full. RAs will liaise with the AIB Operations Team and candidates to deconflict any front-line requirements to enable completion of AIB in time for the branch FSB Board where necessary.

(4) **Information Technology.** The 'Tazio' platform is not compatible with MODNET or DII Afloat. For those who are abroad or deployed, individual Chain of Commands should make every effort ensure candidates can conduct their AIB using appropriate technology. Where possible, the AIB Operations Team will book a candidate on a AIB Multistage Assessment prior to deployment.

(5) **Results.** In-Service candidates will receive their AIB results in the form of an 'AIB Outcome Letter' via RITS. The letter will be loaded to the AIB RA Microsoft Teams Channel for RA review and successful candidates will be awarded a JPA competency administered by the AIB Operations Team.

(6) **Exemptions.** Warrant Officer Commissioning Scheme (WOCS) candidates do not have to conduct an AIB and will continue to be managed through the WOCS by their respective branches. While Senior Corps Commission candidates are required to conduct an AIB, they do not attend a Royal Marine Officer Selection Course.

d. **AIB Multistage Assessment.** The AIB assessment process is 2 stages and is the same for RN, RM, RFA, RNR, RMR candidates, regardless of entry type (DE or In-Service). The process is delivered by the Royal Navy's commercial partner Sopra Steria, and is an online assessment which is accessed by laptop or a PC using the Tazio virtual platform. Candidates will receive instructions on the compatibility requirements of the technology required to conduct the PRI and GPE when loaded for their AIB. The format is as follows:

(1) **Pre Recorded Interview (PRI) – Stage 1.** Candidates will be loaded to a Candidate Cohort List and will receive a AIB Holding Notice within RITS. They will subsequently receive an invitation to conduct a PRI using a link which will be valid for 7 days from the point of being sent. On completion, candidates will move forward to Stage 2. Candidates will be asked 8 questions and will have 2 minutes to provide their answer. Competencies which are assessed during Stage 1 are motivation, awareness and communication skills.

(2) **Group Planning Exercise (GPE) – Stage 2.** Candidates will receive an email notification to book their GPE. Working against the clock, candidates must read the briefs provided and adopt teamwork and problem-solving skills to identify the issues and decide on the best available solution with the assets and resources at your disposal. At the end of the group session, candidates will be moved into a separate virtual room where they will be asked one to one question which centre around scenario information and changes which require dynamic decision making. Competencies which are assessed during Stage 2 are Teamwork and Collaboration, Problem Solving, Confidence and Resilience, Communication and Effective Intelligence.

(3) Where a candidate fails to attend their PRI or GPE, they will be removed from the AIB Multistage Assessment process, unless they contact Sopra Steria to explain their absence. Where a candidate fails to attend a pre-arranged second attempt, they will be removed from the AIB process in its entirety. Relevant RF/RA will be notified to this effect.

(4) The AIB Multistage Assessment is designed to be completed in quick succession. The maximum period between PRI and GPE should be no more than two months and where operational or other personal commitments impede this, candidates will be required to restart the process.

e. **AIB Misconduct Policy.** The AIB has recently introduced a Misconduct Policy which provides a standard response to the detection or suspected detection of misconduct at any point during the AIB Multistage Assessment process. Misconduct in this respect, is considered to mean unacceptable or improper behaviour and can be described as, but is not limited to:

(1) **Plagiarism. To use another person's idea or a part of their work and pretend that it is your own.** This includes ideas or work, including paraphrasing, which originates from someone other than the candidate. This includes any material which is considered to have originated by someone who is in the current assessment process, as well as those who have taken part in any previous assessments, whether in the current AIB format or otherwise.

(2) **Collusion. To do something secretly with another person or group, in order to deceive or cheat others.** Whilst group work is utilised and encouraged at certain stages within the assessment, the following activities are prohibited:

(a) Secret or illegal co-operation, to cheat or deceive.

(b) Preparing a piece of work with others, then claiming it as your own.

(c) Allowing someone to copy your work, to subsequently present it as being their own. This includes the sharing of any interview questions or planning scenario details and questions.

(3) **Cheating. To behave in a way that is not honest or fair, to win something or gain something.** This is the use or attempted use of unauthorised assistance which is not permitted within the assessment process. It can be described as, but not limited to:

(a) Copying answers from another person(s) or candidate.

(b) To have a person(s) present in the room during any part of the assessment process.

(c) Communicating with any other person(s) during any part of the assessment process; unless authorised to do so by Sopra Steria or AIB staff.

(d) Use of any unauthorised material including the use of AI technology or device. **Heavy reliance on notes** or **reading from a script** will have a **negative** impact on PRI scoring.

(e) The use of Group Planning Exercise documents/material, following direction to close down any windows or information relating to the assessment.

(f) Obtaining and using an unauthorised copy of any assessment paperwork or material.

(g) Impersonation.

(h) Plagiarism and collusion.

(4) **Fraud.** False representation in this context is when a candidate deliberately lies or misrepresents the truth when conducting their AIB Multistage assessment process, to make a gain for themselves or a loss to another candidate.

f. **Misconduct Penalties.** Any person who is found to have assisted, either directly or indirectly, a person to commit an act considered to fall within the scope of this misconduct process will be managed in the same way as if they had themselves committed an act of misconduct. Any candidate suspected of misconduct at any stage of the AIB Multistage assessment process will be reported to Officer Commanding AIB (OC AIB) and a full review will be initiated. Any candidate found on the balance of probabilities, to have breached the AIB Misconduct Policy will not be permitted to re-attempt the AIB Multistage Assessment process for a minimum of 12 months, unless stated otherwise by OC AIB.

g. **Booking and AIB.** CAs must ‘Queue’ candidates to ‘Event Type’ - ‘Admiralty Interview – Holding Notice’ in RITS. Candidates will then be loaded to an ‘event’ by the AIB Operations Team and a AIB Holding Notice will be distributed via RITS. This notice advises the candidate they have been loaded to an AIB Cohort, and to prepare for communications from Sopra Steria to commence the AIB Multistage Assessment process. Each Cohort has a maximum of 66 candidates.

(1) If a candidate chooses to defer their application, or wishes to withdraw their application, the CA must inform the AIB Operations Team as soon as practicable.

(2) The CA must contact the AIB Operations Team and advise of any situational change which results in the candidate being ineligible during AIB Multistage Assessment process. The AIB Operations team will remove the candidate from the AIB ‘Event’ and advise Sopra Steria accordingly. CAs should requeue their candidate to an AIB ‘Event’, if and AIB is required at a later date.

h. **Loading Candidates to AIB Events.** The AIB Operations Team will initially check a candidates' RITS diary to establish availability to commence the AIB process. Where diaries have not been populated, the AIB Operations Team will engage with the candidate to establish a viable date to commence the AIB Multistage Assessment process. On completion, the Operations Team will load candidates to an AIB 'Event' on RITS and distribute an AIB Holding Notice. The candidates' details are subsequently forwarded to Sopra Steria who administer the AIB Multistage Assessment process in its entirety.

i. **AIB Results.** The AIB Operations Team mark the candidate as either pass or fail on RITS. AIB will provide a list of all successful candidates including AIB scores, in advance of any FSB. AIB Results will be distributed via RITS each Tuesday. The CA is to contact candidates (by phone if appropriate) within 7 days of their AIB result, irrespective of their performance and provide CRM as required. Should the candidate fail the AIB they should be counselled towards RPG priority rating roles.

j. **AIB Re-attendance Policy.** Candidates will be allowed a maximum of 2 attempts at the AIB, each appearance being separated by a minimum period of 3 months, provided they remain eligible. In exceptional circumstances, this timeline may be reduced at the discretion of OC AIB where there is a Service need. Any justifiable request for a third attempt at AIB must be passed directly to SO2 N5. Each request will be considered by OC AIB and in only the most exceptional circumstances will a third attempt be permitted. Candidates who are unsuccessful at AIB may reapply to commence the process 12 months post their final AIB attempt. AIB pass will expire after 5 years; however, candidates must remain eligible for selection. Where a candidate requests to conduct a further AIB to improve their score, a formal request must be made via email to the AIB Operations Team. Requests will be considered on a case-by-case basis and authorised by OC AIB. Where a candidate has fallen foul of the AIB Misconduct Policy and has been formally removed from the AIB process by OC AIB, CAs should 'Defer' candidates on RITS, manage accordingly, before re-loading their candidate to AIB iaw OC AIB's direction.[6]

1005. Candidate Becomes Ineligible During Application or Selection

After submitting an application, a candidate may become ineligible. It is most likely that this ineligibility will be determined in the first instance by the CA. **Reference: ROM** contains administrative direction to be taken in such circumstances.

1006. Pre-Assessment Eligibility Checks and Admin Procedures

a. **Reference: ROM** contains supporting instructions.

b. **Fleet Air Arm Assessment.** The AIB Operations Team book candidates to AIB and CBATs concurrently. Candidates who have taken the tests before will be reviewed to decide if further tests are permissible. When a re-test is approved, there must be a minimum of 12 months between tests.

[6] All Misconduct Decision Letters are loaded to RITS and will specify when a candidate should be reloaded to AIB.

1007. Selection Categories and Follow-up Procedures

a. By passing the assessment process, including satisfying the medical standards, and security clearance requirement, a candidate has demonstrated sufficient potential to be expected to successfully complete INT(O) at either BRNC or Phase 1 Training at CTCRM. This does not mean that a candidate has been selected for entry as an officer, which should be made very clear to candidates throughout the recruiting and selection process.

b. **Candidate Selection.** Those candidates that satisfy all requirements at point 1007a of the assessment process will be forwarded to a Final Selection Board (FSB) sat before each NETE intake. A candidate is only selected for entry as an officer if successful at FSB.

c. **Candidate Selected for Officer Training.** Upon selection, the candidate will receive an Offer of Service stating the profession, Commission, seniority and joining date being offered for BRNC/CTCRM.

d. **Candidate Selected for a Scholarship and Defence STEM Undergraduate Scheme (DSUS) Award.** Upon being awarded sponsorship, the candidate will receive a Deed of Acceptance stating the Commission, financial value and start date of the award being offered.

e. **Pre-Joining Medicals for Scholarship and DSUS Award Holders.** Prior to NETE entry, all sponsored candidates must remain in date for medical and fitness assessments.

SECTION 3 - OFFICER SPECIALIST SELECTION PROCESSES

1008. Specialist Recruitment for Medical, Dental, Nursing and Environmental Health Officers

a. Due to the individual assessment required, specialist qualifications and relevant experience, recruitment of candidates interested in gaining commissions as Medical, Dental, Nursing and Environmental Health Officers is handled in concert with the relevant Specialist Recruiter in R&A HQ. CAs are to ensure Medical Specialists are aware of candidates early in the process. The CA is to email the candidate's details to NAVY RA-MEDMAILBOX@MOD.GOV.UK.

b. Medical Officer (MO) and Dental Officer (DO) cadets can apply once they commence medical or dental school training to ensure all recruitment elements are completed in good time ahead of the FSBs which sit in the Jun before they start their 3rd year of training. Failure to get candidates to the FSB can result in all places being taken (MO: 16 per year, DO: 2 per year) with very limited opportunities for a second chance at selection. DGE MO and DO candidates can apply once they commence their Foundation Years (FYs) of training (FY1 or FY2). MO candidates enter BRNC on completion of FY2 and DO candidates enter on completion of FY1 on the Sept BRNC intake and complete 15 weeks Initial Naval Training (INT(O)).

c. Newly qualified nurses can start applying in their third year of nurse training. No one will enter INT until they have their Nursing and Midwifery Council (NMC) Personal Identification Number (PIN). Nursing Officers (NOs) selection takes place bi-annually in Mar and Oct. Those selected will undertake 30 weeks of phase 1 training at BRNC followed by an assignment to a Joint Hospital Group (JHG) unit.

d. CAs are to contact R&A Medical Specialist Attract Team (MSAT) with any queries, or to give the contact details to candidates for further information.

e. All qualified candidates will need to email a CV for approval to the MSAT at the earliest opportunity; to include their registration or PIN number, if they have it.

f. Invitations and guidance for attending the Student Assessment Boards will be sent a month prior to board date. Candidates need to be ready in all respects to be invited.

g. Candidates with international certificates of education will require educational equivalency from NARIC (National Academic Recognition Centre) to demonstrate qualifications to UK standards.

h. After a candidate completes the initial officer selection process outlined above, the selection pathway for each respective medical pathway for officers is as follows:

(1) **Medical Officers (MO)/Medical Officer Cadets and Dental Officers (DO)/Dental Officer Cadets.**

(a) Due to the lengthy recruitment process, candidates can apply as soon as they are in medical or dental school to ensure they have met all required elements to be eligible to attend an FSB. The cut off for candidates applying for a cadetship is 4 months prior to their FSB. Candidates should be ready for the June FSB prior to entering their third year for funding to commence. Delays in this could result in cadetships being filled as they remain competitive.

(b) Candidates are required to submit a 'Why Me?' personal statement to the R&A MSAT 2 weeks prior to their FSB. This will be presented to the FSB board members along with their AIB result. . Guidance on the 'Why Me?' statement will be provided by the MSAT CPO.

(c) FSBs take place in Jun of each year.

(2) **Nursing Officers - Adult.** FSBs take place in Feb, Jun and Oct each year.

(3) **Nursing Officers - Mental Health.** FSBs take place in Feb, Jun and Nov each year.

1009. Chaplain Branch

a. The eligibility criteria for the Chaplaincy Branch has been widened to incorporate suitably qualified and experienced non-religious practitioners, celebrants and clerics from other major World Religions in addition to the existing Christian denominations that commend Chaplains to the Armed Forces.

b. Chaplains do not complete an AIB Multistage Assessment, but instead complete a formal face to face Final Selection Board. The panel comprises of the Chaplain of the Fleet, Deputy Chaplain of the Fleet, the Chaplain Branch Manager, and an AIB representative who acts as an independent.

c. Updates are driven by the Chaplain of the Fleet and the Armed Forces Chaplaincy Policy Board which ensures coherence across all three Services.

d. Newly qualified and accredited clerics/practitioners can apply for Probationary RNR Chaplaincy. No one will enter INT until they have been endorsed by the relevant authority. Eligibility advice is available from the Chaplain Specialist Recruiter.

e. All candidates for RN Chaplain or RNR Chaplain must be currently engaged as a Christian, Hindu, Humanist or Non-Religious, Jewish, Muslim, or Sikh cleric or practitioner and commended to the Naval Chaplaincy Service by an officially recognised Endorsing Authority - see below.

f. Contact details of Endorsing Authority:

Email: NAVY CHAPLAINCY-GROUP MAILBOX (MULTIUSER)

Postal address:

Naval Chaplaincy Headquarters
Second Floor
Tanner Building
HMS EXCELLENT
Whale Island
Portsmouth
HANTS
PO2 8ER

1010. Computer Based Aptitude Test (CBAT)

a. Attendance at CBAT is a key milestone in their application process. Though there is limited preparation which can be conducted for CBAT, CAs are to ensure that they engage with candidates prior to attendance to ensure they fully understand the process they are about to undertake.

b. Officer CBATs are to be completed concurrently with the AIB process. A check for previous attempts will be made and all eligible candidates will be booked onto the next available CBAT. When booked, the event will appear in the event tab on the candidate profile in RITS as a ‘Future Event’ and the booking request will no longer appear.

c. Once the AIB Operations Team have allocated a place on CBAT, joining instructions will be sent to the candidate via a CBAT RITs Event. As CAs engage prior to CBAT, they must ensure that the candidate is in receipt of this booklet and confirm that it has been read and understood. This will include a request for the candidate to confirm attendance. Candidates are required to stay at RAF CRANWELL overnight. Testing lasts a full day and candidates are informed of the test results by the Senior Naval Instructor RAF CRANWELL and their staff. All aptitude tests are computer based and include verbal, numerical and spatial reasoning, work rate, mental capacity, and psychomotor psychometric tests. Officer candidates are processed as Aircrew and sit Pilot, Observer and ATC tests with their profession preference noted.

d. RAF CRANWELL will send all CBAT results to Recruit & Attract Allocations Team for input onto RITS and CA action. The CA is to contact the candidate to discuss the implications of the CBAT on the career options open at the time. Unsuccessful candidates must wait a minimum of 12 months before returning to CBAT. Pilot candidates are only allowed to undertake CBATs once, this includes any previous CBAT attempt with other services. A Pilot candidate who fails CBATs can be reconsidered only for Observer or Air Traffic Controller following a resit. CAs should contact all unsuccessful candidates within 7 days to discuss their options. Recruit & Attract Allocations Team should be notified by email if candidates who are not recommended to re-take the tests wish to be considered for another profession. CAs are responsible for managing their returning candidates. Candidates will be allowed to retake the tests up to the age of 26.

e. Sitting the aptitude tests for the Special Flying Award (which is separate from the CBATs) will not preclude a candidate from sitting the full CBATs.

f. It is important to note that if a candidate passes for more than one area, it is the Final Selection Board which will select their profession, not the candidate's preference. Pilot candidates have no opportunity to re-take CBAT and must pass every stanine. CBAT passes are valid for 3 years.

g. Candidates who fail to meet the special requirements for an Aircrew specialisation, but who are appropriately qualified for other specialisations, arms or branches may be considered for an alternative entry. The CA should advise the candidate on the alternative career options available within the Fleet Air Arm. Every effort should be made to maintain the candidate's enthusiasm in a Fleet Air Arm career despite the setback. The candidate may also wish to consider a naval career outside the Fleet Air Arm, which may require a further interview. If the candidate is content to continue in an alternative aircrew sub-specialisation offered by the Board, or to pursue a second choice role, then the candidate is to confirm this decision to the CA.

h. Where candidate fail CBATs, the CA will need to advise the candidate on the alternative career options available within the RN. Every effort should be made to maintain the candidate's enthusiasm for a Naval career despite the setback, and this may well necessitate a further interview to re-evaluate motivation and awareness and understanding for a different role. The candidate may wish to take time to consider the options available before progressing further and may therefore, decide to withdraw the application in the meantime.

i. The RAF and Army CBAT omits the full battery of tests required to assess aptitude for role of Observer. A candidate who has valid CBAT results from an RAF or Army application may re-attend RAF Cranwell to complete the Observer element of CBAT only, in order to ensure a complete set of results.

1011. Final Selection Boards

a. Where any profession or role is oversubscribed, or where limitations are applied to the number of applicants, there may be a requirement to hold a Final Selection Board (FSB). The function of an FSB is to select the most suitable Candidates for intake to the Service.

b. FSBs should always be conducted by a panel, with a nominated chair and at least 2 further members. One member of the panel should be from the appropriate Workforce Planning and Talent area (e.g. the relevant BM).

c. `FSBs should use as much information as is available to make their selection decisions. This could include:

(1) DAA score

(2) AIB Score

(3) Evidence of Skills and Experience gathered through AIB

(4) Evidence of Skills and Experience gathered through curriculum vitae/specialist application form

(5) CBAT score

(6) Educational qualifications

(7) Evidence relating to previous service in HM Armed Forces

(8) Conduct of a specialist selection interview

d. Candidates should generally be presented to no more than 3 successive FSBs. Where a Candidate is unsuccessful at one or more FSBs, and is unlikely to be selected in the future, they should be counselled by their CA to consider alternative professions/roles for which they are eligible.

e. Where Candidates will be presented to an FSB for their chosen profession or role, they should be made aware of this and informed of the timescales involved. FSBs should be held such that the Candidate and relevant NETE are given at least 6 weeks' notice of their potential entry to Service.

ANNEX 10A

SPONSORSHIP

1. Candidate Ownership

During the application phase (prior to assessment) candidates are managed by the Recruiting Force (RF) with CRM support from Engineer Specialist Recruitment Team (ESRT) where requested. Once ready for Assessment and Allocation, R&A's Officer Allocation and Assessment Team take ownership of the candidate. Assuming the candidate passes and is given a place on a Scholarship/Sponsorship programme, BRNC then take over as the candidate's studies begin. R&A CAs will assist in ensuring the candidates are fully eligible to commence IOT , including making sure the candidate is in date for MedFit and SC as close to the start of the final year at university as possible. All should be complete within term one of the final academic year (before Christmas).

2. Scholarship Scheme

a. The Scholarship Scheme is designed for young people, aged 15 years and 9 months to 18 years old, who wish to join the RN as Engineer Officers. It is open to those who are about to take GCSE or SCE Ordinary/Standard Grade examinations, and are intending to study for A Levels, Higher Grade, Certificate of Sixth Year Studies, or other equivalents. Those who reach the qualifying educational standard, satisfy the medical criteria, and successfully undergo the selection procedure will have places reserved for them to join the RN (or, if 'E' branch, to attend university) conditional upon their passing of A Levels (or equivalent).

b. The parents/guardians of those awarded a Scholarship will receive financial assistance towards the cost of keeping their child at school or college in order to qualify for entry to the RN (or, if 'E' branch, university). The current value of an award may be found in CP22 (Rates of Pay). Parents/guardians of those awarded a Reserved Place only will not receive financial assistance.

c. Candidates may apply for either a 2-year Scholarship and Reserved Place, or a 1-year Scholarship and Reserved Place. Candidates applying for a 1-year Scholarship and Reserved Place may also be considered for University Sponsorship, the DSUS, UCE or Non-Graduate Entry without having to reappear at the AIB. Except for Engineers, candidates who are awarded a 2-year Scholarship and Reserved Place and subsequently wish to apply for University Sponsorship, will be required to re-attend the AIB and be considered for selection along with other applicants. When Engineers are awarded the Scholarship, they are guaranteed a place on the DSUS or UCE (if selected).

d. Some scholars subsequently apply for Financial Assistance (FA) and are not selected, but still wish to go to university and join the RN on completion of a degree. Strict adherence to the regulations requires recovery of the scholarship, but in practice the recovery of a scholarship debt from unsuccessful FA candidates will not be pursued, provided that the candidate still wishes and applies to join the RN on completion of their degree course.

e. **Requirements.** The minimum acceptable academic requirements are: 5 acceptable GCSEs at Level 7 or higher including English Language and Mathematics. Ideally, there is to be no break in education between GCSE and further qualifications. However, in exceptional circumstances, a waiver may be considered. Such situations are to be raised to the Engineer Coherence Team to ascertain whether an application for a waiver is viable. Formal application for a scholarship is to be submitted by 1 June of the year of selection. The candidate will be required to achieve A Level results (or equivalent) suitable for DSUS. Final Entry to BRNC is taken according to one of the schemes below.

3. University Cadetship Entrant (UCE)

a. **Background.** UCE(Engineering) was originally developed as an elite entry scheme for high achievers wishing to join the Royal Navy as Engineer Officers. The scheme offers the benefit of completing Initial Naval Training (Officer) (INT(O) before proceeding to university, drawing pay as a regular Service person during their study; this means of entry has been held in abeyance since 2008. Throughout its history, the scheme has provided retention and secondary recruitment benefits, attracting high-quality applicants who provide a Naval presence at top-flight universities and invariably perform at the top of their peer group within the Service. Workforce analysis of the engineer officer cadre supports the reintroduction of the scheme for a small number of applicants per annum, which commenced in 2021.The UCE scheme is an agreed sS variation within the DSUS[1] programme, which has previously been shown to expand the recruiting pool, rather than introduce inter-Service competition within it.

b. **Scheme.** Candidates who are successfully recruited[2] via the scheme, will join Britannia Royal Naval College (BRNC) on an Initial Commission Stage (ICS) within the Engineering Branch, and complete Initial Naval Training (Officer) (INT(O)). Upon successful completion of INT(O), they will proceed to join their university and study for a 3, or exceptionally 4, year degree.

c. **UCE Terms and Conditions of Service (TACOS).** Service personnel on the UCE scheme have bespoke TACOS that differ from Direct Graduate (Engineer) entrant officers; these differences include: rank and seniority; rates of pay; promotion eligibility and allowances. UCE Officer TACOS are:

(1) Applicants will be selected prior to the opening of the UCAS University Selection Window. Upon their acceptance of a formal UCE Cadetship Offer, cadets are required to delay their university start date by 1 year[3] to enable them to attend and successfully complete INT(O).

(2) Cadets must accept and agree to the 5-year Return of Service (RoS), acknowledging the RoS commences once the Cadet has attained 'Gained Trained Strength' (GTS) status as per their training pipeline. This will be upon completion of Phase 2 technical training. Electronic copies are to be retained by Recruit and Attract (R&A) and uploaded to the RITS system.

[1] DSUS is a quad-Service scheme designed to improve the recruitment of STEM Graduates into Defence as Engineering Officers.
[2] All Service recruitment and selection process' are iaw current Recruit and Attract Policies.
[3] R&A provide template letters as part of the formal offer letter, that can be passed to the universities.

(3) Cadets Join BRNC on the date specified in their offer letter on an ICS.

(4) They will be categorised as Officer Cadet throughout the duration of INT(O) and whilst at university.

(5) They will hold the substantive rank of Midshipman with seniority based upon date of entry into Service. This rank will be retained until graduating from university.

(6) They receive an annual salary, starting on UCE Pre-Career pay spine OF0-1[45] and receive annual increments up to OF0-3, where they will remain on a Stand Still Rate of Pay (SSRP) until commencement of Phase 2 training. UCE cadets are not eligible for the Golden Hello Financial Incentive or an annual bursary whilst at university.

(7) Cadets will receive additional financial benefits of which they will agree to a financial undertaking with the Secretary of State for Defence; failure to meet their obligations will result in these benefits having to be repaid (further detail under Removal from Cadetship below). The addition financial benefits are:

(a) The Cadet will receive an Education Grant which is calculated on a Daily Rate of Pay (DROP)[6].

(b) Their university tuition fees will be paid. If applicable, the designated university will be instructed to send accounts for tuition fees to the Sponsored Undergraduate Administration Officer (SUAO) at BRNC. If the cadet is in receipt of a grant from Public Funds in respect of their further education they should, upon receipt of their Naval salary, inform the appropriate education or other authority that they have been awarded a University Cadetship, stating the date from which the Cadetship commenced. They must be prepared to repay any money received from their education authority after the date of the award of the Cadetship.

(8) Upon completion of INT(O), be appropriately assigned by BRNC Universities Department, to continue initial training until commencing university.

(9) The cadet must not attempt to change their accepted degree without first seeking prior approval from their Commanding Officer[7].

(10) They must accept the obligation to pass their university course and obtain their degree.

(11) Their Divisional Officer will be whomever is assigned as Sponsored Undergraduates Staff Officer (SUSO)[8].

[4] AFPRB 51st report
[5] JSP 754, Pt 1 (V38), Ch 4, Sect 10.
[6] Formal Offer letter will provide current DROP.
[7] Commanding Officer is Captain BRNC.
[8] R&A formal offer letter will provide detail of individual assigned as SUSO.

(12) As an officer under training, their conduct, professional performance, character and leadership qualities remain governed by current policy[9].

(13) Their reckonable service will not start until they commence Phase 2 Training[10].

(14) Notwithstanding that UCEs are Serving Regulars, they will not be entitled to allowances, except[11]:

(a) If required to travel for Service reasons.

(b) During authorised duty abroad (UCE cadets are not eligible for LSA but are entitled to duty travel and LOA as required)[12].

(15) Officers serving on an ICS are members of the Armed Forces Pension Scheme (AFPS15); however, UCE cadets pensionable pay will not commence until they start Phase 2 training (OF0 rates of pay are non-pensionable), but they will accumulate qualifying service.

(16) As a serving member of the armed forces, they are subject to the Armed Forces Act 2006[13].

(17) As a member of the armed forces, they will be subject to compulsory drug testing as per current Service policy[14].

(18) They will undertake compulsory training as directed by extant RN policy and Jolly Division Standing Orders[15]. This includes, but is not limited to, mandatory attendance at BRNC training weekends, remaining in date for RNFT and becoming a member of the University Royal Naval Unit (URNU). Further detail is available from SUSO.

(19) Qualifying service for promotion and commission transfer will commence on day 1 of INT(O). The UCE cadets will promote to Sub-Lieutenant on day 1 of Phase 2[16] training following successful graduation.

(20) During INT(O) and University, UCE cadets will be paid from the UCE pay spine, at OF0 rates. This will accrue annually and will standstill at OF0-3 until commencement of Phase 2 training. Payment from the OF1 pay spine will occur on promotion to Sub-Lieutenant at the start of Phase 2 training so aligning UCE Cadets with their Direct (Engineer) peer group.

[9] BRd3(1), Ch 57, Sect 5.
[10] JSP 754, Pt 1 (V38), Ch 2, Sect 3, Para 02.0310.
[11] The Sponsored Cadet Manager (SCMAN) at BRNC will provide advice and guidance regarding allowances in these circumstances.
[12] JSP 752, Ch 10, Para 10.0107(i).
[13] BRd3(1), Ch 20, Para 2204 Jurisdiction.
[14] JSP 835, Alcohol and Substance Misuse and Testing.
[15] All engineering Officer Cadets are members of Jolly Division and administered through BRNC Universities Department.
[16] Phase 2 training aligns with the start of System Engineering and Management Course (SEMC) for the relevant engineering stream.

d. **Eligibility.** This scheme is for high achievers, and unlike other entry routes, the expectations are set higher and the competition fiercer with only 5 places available per year (2 x ME, 2 x WE * 1 x AE). To become eligible for the scheme, candidates must meet all Engineer Officer entry requirements for the Royal Navy, as per extant Recruit & Attract policy, and meet the additional requirements below:

(1) Age: 18-23 at commencement of INT(O).

(2) Degree type: Candidate must be accepted onto an approved Engineering, or STEM degree at any UK university, as detailed below in Table 10A-1.

(3) Education Requirements: 5 GCSEs at Grade 7 or higher including English Language and Mathematics. At GCE level, the candidate must have a minimum of 144 UCAS points in non-overlapping subjects, including at least Grade B in A-Level maths and an engineering-based science.

(4) The scheme is competitive and successful applicants will be selected at the UCE Final Selection Board which will consider academic results and performance through the recruiting process.

e. **Withdrawal from Cadetship.** A UCE Cadet may request to leave the service up to the Premature Termination of Career Training (PTCT)[17] point; they will have to repay all their Education Grant, University Fees and uniform grant received up to the point of exit, in accordance with current regulations and as per financial undertaking. After this point, only in exceptional circumstances, will a Cadet be permitted to leave before completing their 'Return of Service'.

f. Poor performance of a Cadet in either academia or general military performance will be managed in accordance with current policy[18]. Cadets should always maintain a high standard of behaviour throughout their sponsorship. Should they fail to meet and maintain the standards expected of a future Naval Officer, they will be subject to the professional warnings process as INT(O), as detailed in BRNCs Standing General Orders (SGO). BRNC Universities Department Joining instructions will provide the finer detail of the warnings system.

4. Defence STEM Undergraduate Scheme (DSUS)

a. This scheme provides university sponsorship to students wishing to join the RN as Engineer Officers. Study may be undertaken at any UK university; applicants may apply for a sponsorship at any time before the start of their final year, provided they are aged 18 to 35 years old. Aimed at scholars or direct applicants wishing to join the RN as Engineer Officers and read for an approved engineering degree or STEM degree at a UK university, whilst receiving FA.

b. Candidates must be studying (with at least one year remaining) or have applied to a UK university via the UCAS system. Support whilst at university will be provided by membership of a University Royal Navy Unit (URNU) if one is available within one hour’s travelling time of campus.

[17] BRd3(1), Ch 54, Para 5402 & Table 54-1 The PCPT point is classified as the last day before passing out of BRNC.
[18] BRd3(1), Ch 57, section 5.

c. Direct entrant applicants must complete the officer recruitment process by 31 January of the academic year of entry. Successful applicants will receive a £5,000 pa FA and will have all university tuition fees paid up to a maximum of £9,250 pa; the amount of FA received will be abated from the RN Engineer 'Golden Hello' Financial Incentive (FI) for DGE, Engineer Officers. They could also earn training pay (up to 45 person training days, approx. £2,000 pa) as a member of the associated URNU. On joining the URNU, they will become listed 7C Reservists (borne for pay and admin only).

d. Applicants will be required to sign a financial undertaking which guarantees their entrance to IOT and a 3-year Return of Service thereafter on attainment of GTS.

e. All DSUS entrants will commence their undergraduate studies as General 'E' engineers. At the end of their second academic year, they will be streamed by AE, ME, or WE. Streaming of ME and WE students to SM will take place at BRNC.

f. DSUS does not provide any entitlement for extension of studies to include Masters degrees for the following reasons:

(1) No RN requirement.

(2) Not a justifiable use of funds.

(3) RN need is for OC to join BRNC on planned date to achieve GTS as planned.

(4) There will be opportunities for full time Masters study on full pay later in career.

g. There is the opportunity however for DSUS OCs to study for a fourth year to achieve a MEng if they prove to be of the highest academic standard and are engaged and remain fully eligible for the RN throughout their time at university. The following restrictions will apply to ensure only the most talented and committed individuals are permitted to extend to a MEng.

(1) No DSUS candidate will commence their university course on an undergraduate Masters degree programme. Only application for an undergraduate Bachelors degree programme will be supported by DSUS.

(2) There will be no entitlement to transfer or extend to a Masters course prior to entry as this will delay entry and GTS, as a result DSUS retain the right to reject the request.

h. Requests to extend to a Masters degree will be considered only when the following conditions are met:

(1) OC is predicted to achieve, and subsequently does achieve, a first class Bachelor degree pass.

(2) OC has not had to resit any exam in subsequent academic years due to failure.

(3) OC is in date for Fitness Test.

(4) OC is in date for medical with no changes to medical status that could affect RN entry.

i. If initial (post Bachelors degree) anticipated entry date is over 3 years since Service Entry Medical was conducted the OC must pass another Service Entry Medical prior to commencing a Masters course.

j. OCs who are permitted to extend to MEng will receive DSUS support and funding through the additional one year study.

k. Funding of the scheme is set at 35 entrants from 2022 and a maximum of 105 in 2024. This strict financial cap may limit the numbers of direct entry applicants trying to join DSUS partway through their degree. It may also restrict the numbers of candidates capable of undertaking a master's course.

l. DSUS candidates will be eligible for the £27,000 'Golden Hello' upon joining the RN; however, this will be abated against the RN component (£4,000 pa) of the FA already received.

m. **Requirements.** The minimum acceptable academic requirements are: 5 acceptable GCSEs at Level 4 or higher, including Grade 6 or higher in both English language and mathematics. At GCE, candidates must have minimum of 96 UCAS points, of which 64 are made up of mathematics and an engineering science. Candidates must have been accepted onto a degree course in a UK university studying an approved engineering degree or acceptable STEM subject, which are listed below at Table 1.

5. Defence Technical Undergraduate Scheme (DTUS) - Legacy

Applications for DTUS ended in September 21. The DTUS scheme will close when the last intake from 2021 graduate in 2024.

6. Medical Financial Incentives

a. **Medical and Dental Officers.** Students may apply in their first year of a UK Medical/Dental school. Medical and Dental students are eligible for cadetships which generates an annual salary of approximately £18,000 to £22,000 for up to the final 3 years of study. Students may apply in their first year of a UK Medical/Dental school for sponsorship, which also includes the payment of tuition fees and additional academic support.

Note. *Medical Degree Apprenticeships (MDA) do not currently make an applicant eligible for the cadetship programme. Further advice on eligibility can be sought from R&A Coherence SR MED CPO.*

b. **Environmental Health Officers.** Environmental health students have 2 means of gaining a financial incentive:

(1) If non-chartered or EHRB registered, they join on £27,818 a year and will receive support to complete the 2-year CIEH programme.

(2) Those with full registration join on £42,850 a year plus they receive a 'Golden Hello' of £27,000 (£10,000 on entry, £7,000 on completing BRNC, £10,000 after a year's service).

c. **Nursing Officers and Qualified Naval Nurse Ratings.** A 'Golden Hello' of £30,000 is offered to specialist nurses if they hold 60 credits of post-graduate study in Critical Care, Emergency Care, Burns and Plastics, Trauma and Orthopaedic and Primary Health Care. SR-Med SO3 will verify this before selection and commencement of INT.

CHAPTER 11

RFA RECRUITING PROCESSES

1101. RFA General Information and Background

Recruitment into the RFA Service is based on the need to achieve projected workforce requirements in order to maintain efficiency and meet operational commitments.

a. R&A is responsible for RFA recruiting and provides marketing support and processes RFA candidates as follows:

(1) Carry out recruitment functions in accordance with this policy and to the level required by the RFA Recruitment Plan.

(2) This is to include administration of the routes of entry to the RFA:

(a) Qualified Entry.

(b) Non-Qualified Entry.

(c) Re-employment of former employees (responsibility for those who return within 12 months of leaving remains with RFA PER OPS).

(d) Lateral recruitment for internal candidates

b. Provide marketing advice and support in designing suitable advertisements for use by RFA units.

c. In consultation with R&A Marketing and appropriate stakeholders, design and produce recruiting publications, posters and publicity material.

d. Include RFA in national and regional ‘spotlight’ advertising campaigns where appropriate.

e. Include information about the RFA on the RN recruitment website.

f. Forward any enquiries concerning the RFA – received via TPUK, CAs or other means – to R&A RFA Recruitment.

g. Refer candidates to CAs for DAA for RFA candidates iaw ROM chapter 4 – DAA, should the candidate be unable to use their own device.

1102. References and Impact

a. All recruitment is to be in accordance with BRd 3(1), and with Civil Service and RFA PRG as per the following references.

(1) BRd 875 (Regulations for the Royal Fleet Auxiliaries) (including but not limited to), paragraph 0209. CP 04.5 Personnel Management.

(2) Recruiting Operations Manual V2.3 External Recruitment - Recruitment - Policy (Civil Service).

(3) BRd 3(1), Chapters 7 to 10, and 63, and JEM_RM_RN_RFA (see Chapter 7, paragraph 0701).

b. **Management Responsibilities.**

(1) Ensuring that all selection decisions are transparent, fair and equitable.

(2) Ensuring that the selection process does not discriminate on grounds of gender, race, colour, nationality, ethnic or national origin, disability, marital status, sexual orientation, age, religion or belief.

(3) Ensuring that the department's specialist skills base is maintained by adhering to the minimum entry qualifications requirement.

(4) Acting in accordance with data protection legislation by treating information provided for the purposes of recruitment for selection function only.

c. **Applicant's Responsibility.** The applicant's responsibility is to provide evidence and information which is honest, accurate and in a timely manner.

1103. Application Criteria and Process

a. Applications are to be made to R&A RFA and:

(1) All applications must be made through the MIS.

(2) After initial contact, all candidates must generate a profile on MIS. All application forms and information required during the process will be despatched and collected by R&A RFA.

b. All RFA candidates must comply/pass/obtain:

(1) With the minimum age standards:

(a) Aged 17.5 years or above to be processed for recruitment.

(b) And aged 18 years or above to join.

(2) With nationality requirements laid down in Chapter 7 and JEM_RM_RN_RFA (Chapter 7, paragraph 0701).

(3) With the minimum qualification and experience requirements (for qualified entry).

(4) With minimum academic qualification requirements as per the JEM_RM_RN_RFA. Other qualifications, including advanced diplomas, will be considered on a case-by-case in accordance with chapter 7 if the minimum GCSE (or equivalent) requirements have not been met.

(a) All officer cadet candidates will be entered on an approved training course; candidates with a minimum of 64 UCAS points in relevant subjects will be assessed and may be allowed to follow a Foundation Degree study programme. Otherwise, officer cadets will follow an HND study programme.

(b) Officer cadet candidates who are graduates or Higher National Diploma (HND)/Higher National Certificate (HNC) holders in Mechanical or Marine Engineering, or in an engineering subject that covers at least four of the following 6 subjects:

i. Mathematics.

ii. Engineering.

iii. Applied Mechanics.

iv. Applied Heat.

v. Electrotechnology.

vi. Naval Architecture.

(c) Candidates may be allowed to follow an ‘alternative route’ designed for those with relevant engineering qualifications. They must apply directly to a Maritime and Coastguard Agency (MCA) approved nautical college for an action plan detailing the requirements they must meet to obtain an Engineering Officer of the Watch Certificate of Competency. This function was previously carried out by the MCA and known as a Letter of Initial Assessment (LIA). The college will assess the applicant’s qualifications and experience and issue an action plan that, along with MIN511(M), will detail the requirements for the applicant to meet Engineer Officer of the Watch (EOOW) unlimited, STCW Convention regulation III/1 standard. Candidates will be expected to obtain a LIA before proceeding to the DAA stage and the cost of this will not be reimbursed.

(5) A DAA as per JEM_RM_RN_RFA requirements.

(6) An ENG1 seafarer’s medical certificate - this must be unrestricted for worldwide sea service with a periodicity of 2 years.

(7) Internal applicants with 5 years or more service, an ENG1 seafarer’s medical certificate - this must be unrestricted for worldwide sea service with a periodicity of 1 year.

(8) A Ministry of Defence (MoD) Security Clearance at a level appropriate for the rank employed.

(9) All vaccinations as required by JSP 950 leaflet 7-1-1.

1104. Recruiting Process

Unless otherwise stated, candidates will be processed as follows:

a. Residency, nationality, unspent criminal convictions and educational requirements will be checked by R&A RFA.

b. A DAA can be completed remotely by candidate using a suitable personal electronic device or arranged at the local Careers Office by R&A RFA Staff. All candidate scores are held within the MIS and can be accessed by RFA R&A Staff, irrespective of location of test.

c. Supplementary application forms and MOD Form 493 to be completed.

d. R&A RFA Staff and SME carries out sift of applicants on strength of DAA and supplementary application (for Apprentice candidates).

e. R&A RFA SO3 carries out review of supplementary application and provides feedback as necessary to candidate.

f. Interview by SME and R&A RFA (for Apprentice candidates). Interview by R&A RFA SO3 for suitability at AIB (for officer candidates).

g. RFA AIB (for officer candidates).

h. Provisional job offer. This becomes a formal offer once the following have been received by R&A RFA: ENG1, SC, proof of vaccinations, discharge book and other personal details. Commence initial training at relevant establishment, as follows:

(1) BRNC Dartmouth - Officer candidates.

(2) HMS Raleigh - Deck Rating candidates.

(3) HMS Collingwood - CIS Rating candidates.

(4) HMS Sultan - ME Rating candidates.

Lateral entrants will be assigned to any training establishment with the most suitable start date.

1105. Recruiting Entry Levels

a. Non-qualified applicants may be recruited into training posts, or suitably qualified applicants may be recruited into active roles.

(1) **Qualified Entry.** Qualified Entry (QE) is the method of recruiting qualified personnel. Qualified personnel will be recruited to meet demand in accordance with the RFA recruitment plan.

(a) QE candidates are recruited because of the qualifications and experience they already have and, therefore, are only subject to minimal transfer training in order to take up a substantive post within the RFA. As the DAA is designed to determine suitability for training and likelihood of success, it is not required for the majority of QE candidates. One notable exception to this is QE Deck Officer candidates – due to the intensive nature of RN Navigation training, all Qualified Deck Officers must pass DAA with the appropriate score.

(b) QE candidate certification and CV must be passed to the relevant SME for initial sift and agreement sought to proceed to interview. QE candidates are not to be grouped together for sift as with trainee candidates – this approach does not achieve results as QE candidates are mostly already in successful careers and are very unlikely to wait for significant periods for sift results. All eligible candidates who apply within a given recruiting year and are accepted by the SME for interview will be selected if successful in that interview. On the rare occasion that significant numbers of applications are received for a given role/rank, then a traditional sift can be completed IAW Trainee procedure.

(c) At interview RFA R&A representative will conduct core competency-based questions, and maintain overall control of the interview timeline, noting the requirement to allow significant time for SME questioning of functional competencies. All SMEs must utilise existing functional competency question sets, however these can be amended upon request, this is to ensure consistency of questioning and relevance to current practice. RFA R&A will maintain a depository of SME questions. At the end of the interview, RFA R&A and SME will debrief the candidate and inform them of an approximate timeline to notification of interview result. The decision of grade/rank of entry must be cognisant with targets set by workforce planning, the experience of the individual and their aspirations, but also in respect of the SME opinion of their suitability for the role. The final decision on entry band sits with the interview SME.

(d) Following a successful interview, RFA SME staff alongside R&A Staff, will complete a Lateral Entry Action Plan (LEAP) (Annex 11A) for each QE recruit. This document will detail the route to be undertaken to close knowledge/skill/experience gaps found between existing RFA personnel and the qualified entrant. The founding principle of the LEAP is to fulfil all of the obligations of the Career Development Framework (CDF) that are **mandatory** for the QE grade/rank of entry. Performance objectives must be completed by the recruit once on board RFA ships and measured against the framework. Experience requirements will be achieved by completing appointments to RFA ships – if the interview SME feels there is a need to complete some supernumerary time, this must be detailed in the LEAP. Skills requirements must be detailed on the LEAP and should include an aspirational timeline for completion.

(e) Once a LEAP is agreed this document is to be uploaded into the personnel file of the recruit so that it can be accessed by the Career management team. These Staff Officers are responsible for delivering the contents of the LEAP and protecting both the individual and the role from too high a level of expectation in their early period of employment with the RFA. QE recruits are only to be 'handed over' from the Trainee Career Managers once **all** the mandatory elements of the relevant CDF are complete.

(f) Waivers can be provided by the interview SME in circumstances whereby the training found in the CDF is not appropriate given the experience held by the candidate and must be recorded in MAGELLAN in all events. Where an individual's existing certification has been deemed equivalent to that found in the CDF for existing employees, then this competence must be added to their MAGELLAN record via the waiver function. This task must be completed by RFA HR DEVELOPMENT such that the new entrant is not penalised for their QE status at future Career Development Panels (CDP).

(2) **Non-Qualified (Trainee) Entry**

(a) Qualified Logistics Supply Officers. Qualified LS Officers are recruited into 3/O training rank, and on completion of a training package are graded substantive 3/O (LS).

(b) Officer Cadet is an approved training course, split between nautical college and service onboard RFA ships which results in certification as a 3/O. This applies to Executive, Engineering, and Systems Engineering roles.

(c) Apprenticeships are used as a means of entry which train personnel for roles in all branches as ratings. On completion of an apprenticeship a formal offer of employment may be made. Apprenticeships are available in all departments.

b. Trainee Officer recruits (Cadets, 3/O LSO(T)) will be required to pass interview board and RFA AIB. If successful, they will attend a ten week course at BRNC Dartmouth before commencement of vocational training.

(1) **Internal Lateral Entrants**

(a) Current Employees may apply for positions advertised externally. R&A Staff will only ask for documentation to support the application as organisation already holds records for the candidate.

(b) LE candidate details must be passed to the relevant SME for initial sift and agreement sought to proceed to interview. LE candidates are not to be grouped together for sift as with trainee candidates – this approach does not achieve results as LE candidates are already in successful careers within the service and are very unlikely to wait for significant periods for sift results. All eligible candidates who apply within a given recruiting year and are accepted by the SME for interview will be selected if successful in that interview. On the rare occasion that significant numbers of applications are received for a given role/rank, then a traditional sift can be completed IAW Trainee procedure.

(c) At interview RFA R&A representative will conduct core competency-based questions, and maintain overall control of the interview timeline, noting the requirement to allow significant time for SME questioning of functional competencies. All SMEs must utilise existing functional competency question sets, however these can be amended upon request, this is to ensure consistency of questioning and relevance to current practice. RFA R&A will maintain a depository of SME questions. At the end of the interview, RFA R&A and SME will debrief the candidate and inform them of an approximate timeline to notification of interview result. The decision of grade/rank of entry must be cognisant with targets set by workforce planning, the experience of the individual and their aspirations, but also in respect of the SME opinion of their suitability for the role. The final decision on entry band sits with the interview SME.

(d) Following a successful interview, RFA R&A Staff will complete a Lateral Entry Action Plan (LEAP) for each LE recruit. This document will detail the route to be undertaken to close knowledge/skill/experience gaps found between existing RFA personnel and the qualified entrant. The founding principle of the LEAP is to fulfil all of the obligations of the Career Development Framework (CDF) that are mandatory for the QE grade/rank of entry. Performance objectives must be completed by the recruit once on board RFA ships. Experience requirements will be achieved by completing appointments to RFA ships – if the interview SME feels there is a need to complete some supernumerary time, this must be detailed in the LEAP. Skills requirements must be detailed on the LEAP and should include an aspirational timeline for completion.

(2) **Waiver Criteria - RFA AIB.** Assessment designed to test academic and Leadership potential of candidates. Reasons for waiving this requirement could include:

(a) Previous in date pass of AIB.

(b) Previous recent experience of leadership at sea, possession of a Merchant Navy CoC.

(3) **Waiver Criteria - BRNC.** An introductory course to build leadership skills, gain RFA knowledge, and prepare one for the strains of life onboard an operational ship. Reasons for waiving this requirement could include:

(a) Previous completion of the entire RN BRNC course.

(b) Previous RFA service at officer rank where suitable leadership was demonstrated.

(c) Previous recent experience of leadership at sea, possession of a Merchant Navy CoC. Candidates who already possess these qualifications will be invited to attend a two week induction at BRNC in lieu of the ten week course.

1106. Re-Employment of Personnel

a. Persons who left the organisation less than 12 months before reapplication will be immediately transferred to RFA PERSOPS for processing/re-employment. Persons who left the organisation more than 24 months before re-application will be recruited using the standard entry process (either qualified or non-qualified positions). Any applicant who left the RFA between 12 and 24 prior to re-application, and if applying for the same or similar role, will be subject to the following process:

(1) Sift of application and qualification check for suitability by departmental SME.

(2) SHINE interview with R&A RFA and SME.

(3) Suitability for re-employment assessment based on experience, qualifications, interview results and service requirements as stated in the RFA Recruitment Plan.

(4) Security Clearance.

b. The requirement for DAA, RFA AIB, and BRNC are removed for personnel applying for re-employment within 24 months.

1107. Post-Interview Medical and Security Clearance

a. All roles with the RFA require SC. This should be applied for after a provisional job offer has been made. R&A RFA will provide guidance and advice.

b. ENG1 appointments are to be carried out by an MCA approved doctor and are booked by the applicant.

1108. Disability and Learning Difficulties - Guaranteed Interview Scheme

The Royal Fleet Auxiliary Service is committed to the employment and career development of disabled people. Under the scheme, the RFA guarantees to interview anyone with a disability whose application meets the minimum criteria as set out in paragraph 1103, sub-paragraph b. Details of declared disability or learning difficulty are to be recorded in the candidate's application. The following conditions will be applied:

a. RFA candidates who declare disability or learning difficulties will receive no adjustment to the assessment process or recruiting medical/academic standards and will be required to meet the basic criteria. No additional allowance is to be made during the recruiting process for any declared disability or learning difficulties, and each candidate's suitability for employment in the RFA is to be measured against the current standards.

b. For successful candidates who are offered employment with the RFA, reasonable adjustment will be made during training and in employment following assessment at the training establishment of the type and degree of disability or learning difficulty.

c. Candidates who declare a disability or learning difficulty are to be informed verbally of this policy.

1109. Contracts, Training Agreements, and Sponsored Reserve

a. Qualified entrants must sign an RFA Company Service Contract (CSC) effective from their first day of service.

(1) Prior to a CSC, entrants are required to sign a Sponsored Reservist agreement to become a special member of the RNR (this is activated only during times of conflict). Failure to sign this agreement will negate all clauses of the contract and any offer of employment will be withdrawn – iaw RFA probation policy.

(2) All entrants will complete a probationary period. This will be a minimum of 6 months or 2 appointments. During probation the RFA may terminate employment, with 4 weeks' notice, at any time if it is clear that the new employee will not meet the required standards of conduct, attendance and/or performance – iaw RFA probation policy.

b. Cadets/Apprentices are covered by the terms of their Cadet/Apprentice Agreement during their cadetship/apprenticeship. Officer Cadets and Apprentices will be advanced upon satisfactory completion of training, in accordance with performance and to meet the business need. This will involve the signing of the CSC and SR on an agreed date from which point any probation will begin.

1110. Personal Appearance

BRd 875 contains staff regulations for all RFA personnel. The personal appearance of all members of the RFA, all recruits and successful applicants is to be in accordance with BRd 875, ‘Dress and Personal Appearance’.

CHAPTER 12

RE-ENTERING THE ROYAL NAVY

1201. Re-Entry Policy

No officer/rating/Other Rank (OR) is to be re-entered after a break in Regular Service without eligibility checks being performed by the RISTT and Service need being confirmed by Branch Management. R&A's approval is required irrespective of the length of the break in service or the time that the candidate had served. SPVA and the NETE will not action re-entrants' pay indocs without written authority from R&A RISTT, using the appropriate MIS letter.

1202. Re-Entry References

a. Terms of Service for entry and re-entry to the RN are contained in chapter 48.

b. Pay scales for those awarded Former Service are contained in JSP 754.

1203. Re-Entry Process

A condensed processing sequence is shown below to illustrate the recruiting process for candidates with former Regular or Maritime Reserve (MR) Service applying to enter or re-enter on Full or Tailored Careers. All actions are carried out by R&A HQ's Re-joiners and Inter-Service Transfer Team (RISTT) unless specified otherwise:

a. Sight candidate's JPA Service record and discharge documents (including SMIT return where applicable) and establish eligibility for entry/re-entry. Note: Service leavers are no longer issued with a Service Certificate.

b. Liaise with Branch Managers (BMs) as required and follow the approval process protocols to obtain initial rate of pay. The RISTT will assess eligibility for re-entry/entry and issue an approval or rejection letter.

c. Confirm re-entry Service/role eligibility i.e. role-specific requirements.

d. **Age Eligibility.** All fully trained re-entrants (entering as GTS) are eligible up to 60 years old - i.e. they must re-enter before their 60th birthday. All part trained (PTS) or untrained (UTS) re-entrants must be eligible for the role they are entering iaw the JEM.

e. Process eligible candidates.

f. **Re-Entry/Entry - Rank/Rate.** The Authority to Process letter will state the candidate's approved rank/rate and level on re-entry; candidates should be encouraged to contact their relevant Career Manager (CM) for assignment advice. Re-entrants may then be processed and informed of the approved returning rank/rate. Care must be taken to ensure that OF1 seniority is coherent with the rank upon re-entry.

g. **Re-Entry/Entry - Allocation.** The Permission to Enter letter will allocate a provisional entry date for trained and part trained re-entries. Untrained re-entries are to be processed for entry in the same way as new entrants but still require a Permission to Enter letter from RISTT once found suitable in all respects.

h. Allocation and entry brief.

i. The R&A Permission Letters are provisional and subject to final approval at CTCRM/HMS RALEIGH.

1204. Re-Entrant - Definitions

Trained and Untrained definitions are as follows:

a. **Trained Re-Entrant - Definition.** A fully trained and qualified junior or senior rating who applies to return to the RN in the same role/specialisation from which they exited. Manning approval will be sought in all cases from the relevant BM, and for those whose date of re-entry is more than 3 years since leaving the Service, training requirements will also need to be determined. Thereafter, movements are controlled by Assignment Order, in liaison with the appropriate Career Management. Trained re-entrants join HMS RALEIGH for administrative purposes only. Trained Re-entries have no right to Early Termination.

b. **Part Trained Re-Entrant - Definition.** A trainee who completes Phase 1 Training before electing to leave the Service, who re-enters the Service within 18 months. The majority of part trained re-entry candidates will have left the Service immediately prior to, or during, Phase 2 Training, and may re-enter into their original role/specialisation, or into a different role. Any Trained Strength Service Transfer from the Army/RAF who requires Phase 2 training, Marinisation/Trade training. This category of re-entrant will join HMS RALEIGH for administrative purposes only, and thereafter will be assigned to their appropriate Lead School for Phase 2 Training. RMOR re-entrants will rejoin CTCRM to continue with recruit training. The date of joining will generally coincide with the commencement of their Phase 2 course. Part trained re-entrants have no right of Early Termination.

c. **Untrained Re-Entrant - Definition.** A recruit who did not complete Phase 1 Training prior to discharge. Untrained re-entrants will re-join in their original or a new role in order to undertake Phase 1 and Phase 2 Training. Unless previously discharged under the 56 day rule, untrained re-entrants will generally have no right of Early Termination. Once eligibility has been confirmed by RISTT UTS candidates will be handed over to an AFCO.

1205. RN Ratings - Trained Re-Entries

a. Trained and part-trained RN re-entries will be allocated to enter HMS RALEIGH by 1200-hours, normally, on the nominated dates. R&A will forward nominal lists to HMS RALEIGH at least two weeks before the planned entry dates.

b. HMS RALEIGH aims to process candidates as quickly as possible. On completion of documentation and kit issue, candidates will be given a PSO interview and training assessment. On completion, they will be assigned to Phase 2 Training or, in the case of fully trained personnel, immediately onto the trained strength. In the normal course of events, re-entries will be processed and onward moved within the first week of joining. Those who left the Service prior to 1991, however, will require a Military Training package and onward assignment will therefore be delayed until the end of the second week.

c. Candidates in-date for the RN Fitness Test (RNFT) (i.e. carried out the test within the past 12 months), will not have to re-take the New Entry physical tests or the Naval Swimming Test (NST), however RISTT Staff must stress to candidates that they need to follow an appropriate fitness programme prior to entry. Candidates out of date for the RNFT will have to undertake sub-maximal training (Rockport Walk) in lieu of PJFT.

d. Candidates are also to be advised that they may make an application for a Service Family Accommodation (SFA). RISTT Staff should advise individuals to write to the relevant area SFA officer.

e. Trained re-entries may use their own transport and are to be issued with a C30; the Regional HQ UIN is to be used. Overnight accommodation is available for those arriving after midday on the day preceding their re-entry date. There will be no service transport available from Plymouth rail station to HMS RALEIGH.

f. HMS RALEIGH main gate staff will direct junior ratings to the Ship's Company accommodation, and senior ratings to the Warrant Officers' and Senior Rates' Mess and instruct them to report to the New Entry Division.

g. Normal night and weekend leave may be granted whilst at HMS RALEIGH.

1206. RN Ratings - Untrained Re-Entries

Untrained re-entries will enter HMS RALEIGH as new entrants. HMS RALEIGH will decide the training requirement for untrained re-entries. Re-entrants will be assessed individually and will undergo training at HMS RALEIGH and Phase 2 Training at the school appropriate to their role. The stage of training reached on discharge and the time spent out of the Service will be taken into account when making the training assessment.

1207. RM Other Ranks - Untrained Re-Entries

a. Untrained RM re-entries will enter with new entries on allocated Troop entry dates and their training requirement will be assessed by CTCRM.

b. RN transferees and candidates joining the RM with previous Army/RAF Service will be similarly assessed by CTCRM. Candidates normally complete the full training syllabus, including ROP.

c. Former Untrained RM ORs will be administered using the following process:

(1) RISTT confirms candidate's eligibility for re-entry based on discharge category and recommendation from CTCRM Wastage Return.

(2) Candidate is handed off to an AFCO for full pre-selection process including Enhanced CPC..

(3) Candidate processed as a New Entrant, with the following addition:

(4) Full update interview after recovering original AFCO 101 if necessary.

Note. *If candidate was medically discharged, SMO SE approval required prior to processing. Mandatory requirement to sight former service Medical Documents in all cases. See paragraph 1221.*

(5) If necessary an over-age waiver requested from the BM.

(6) Final Permission to Enter requested from RISTT.

(7) Bid for Entry.

(8) Assessment of training requirement made by CTW once recruit has re-joined Service.

d. Candidates who re-enter do not have the option for 6 month statutory discharge. Eligibility to give notice is iaw Chapter 54 (i.e.. must complete Standard Initial Training Period plus a minimum time to serve period of 2 years and 6 months, before being eligible to give 12 months' notice).

e. Individual queries regarding eligibility, recommendations from wastage returns etc. are dealt with on a case-by-case basis by RISTT, seeking advice from PSO CTCRM.

f. UTS RM Re-entrants are not eligible to reapply for a minimum for 6 months from the date they leave Service. This could be longer, depending on recommendations from CTCRM. The only exceptions to this could be when a candidate decides to withdraw from training on compassionate grounds.

g. **RMBS Musician Re-Entries - Audition.** Prior to re-entry, former untrained RMBS Musicians must undertake a further audition.

h. Untrained former RMBS re-entrants will enter with new entrants at HMS NELSON on completion of audition.

1208. Discharge Categories

a. **Shore - Unsuitable During Training.** Candidates who were discharged 'Unsuitable During Training' may be processed and the discharge recommendation shown on the Wastage Return used for guidance. Discharge recommendations are valid for a maximum of 3 years from date of discharge after which time candidates may be interviewed and processed on their merits.

b. **Shore - Unhappy Under-18s.** This discharge category applies to Ratings/ORs whose 6 month discharge option point has passed, but are still under the age of 18, and it is considered that they are so unhappy with Service life that it is unlikely that they will ever settle down. Candidates' applications for re-entry are not to be processed until a minimum of 12 months has elapsed since their discharge. Candidates may then be processed and each candidate considered on a case-by-case basis.

c. **Shore - All Other Categories.** Before candidates are processed, R&A must be contacted for all other categories of discharge 'SHORE'. R&A will consider each case on its merits, consulting the Commodore Naval Legal Services Casework Cell as necessary.

d. **Discharge as of Right - Wastage Return Recommendations.** Candidates who exercised their 'Discharge as of Right' during their first 6 months' service may be processed using the discharge recommendation shown on the Wastage Return as guidance. Wastage Return recommendations are valid for a maximum of 3 years from date of discharge after which time candidates may be interviewed and processed on their merits.

e. **Fraudulent Entry.** Former ratings/other ranks discharged 'Fraudulent Entry' will normally be refused re-entry. Each application will, however, be considered by R&A on its merits.

1209. Discharge Categories - Former Army

a. Former Army personnel are not permitted to enter the RN if discharged under any of the following categories:

(1) QR (Army) 9.411 to 9.414: Not Required/SNLR. Personnel discharged from the Army after a positive CDT result are ineligible for entry into the RN.

(2) QR (Army) 9.396 or 9.397: Discharge by Court-Martial.

(3) QR (Army) 9.403 or 9.404: Misconduct, Indiscipline.

(4) QR (Army) 9.405: Retention Undesirable.

(5) QR (Army) 9.382: False Statement.

b. Before candidates are processed, RISTT must be contacted in cases of the following discharge categories:

(1) QR (Army) 9.375 or 9.402: Compassionate Grounds.

(2) QR (Army) 9.383: Unsuitable for Army Service During Training.

(3) QR(Army) 9.406 or 9.434 to 9.436 inclusive: Mentally/Temperamentally Unsuitable.

(4) QR (Army) 9.381 and 9.385 to 9.387 inclusive: Medical.

1210. Discharge Categories - Former RAF

a. Former RAF personnel are not permitted to enter the RN if discharged under any of the following categories:

(1) QR (RAF) 607(22): SNLR. Personnel discharged from the RAF after a positive CDT test result are ineligible for entry into the RN

(2) QR (RAF) 607(6) and 607(7): Dismissed.

(3) QR (RAF) 607(20): False Statement.

b. Before candidates are processed RISTT must be contacted in cases of the following discharge categories:

(1) QR (RAF) 607(11): Compassionate.

(2) QR (RAF) 607(15) to (18) inclusive: Medical.

1211. Discharge Categories - All Former Regular Service: Medical

a. Candidates who are currently in receipt of a Disability or Invalid Pension can be considered for re-entry but must be advised that if proved fit for re-entry they will no longer be in receipt of this pension and may suffer financial penalties..

b. Candidates previously medically discharged are not to be processed without the prior approval of RISTT. This category includes: ‘56 Day Rule’, ‘Invalided’, ‘Not Finally Attested’, ‘Defect in Enlistment Procedure’, ‘Unsuitable for Further Army Service’, ‘Ceasing to Fulfil Medical/Physical Standards’ and ‘Temperamentally Unsuitable’.

c. Candidates are to complete the online application form. RISTT will then consult SEMC for consideration for re-entry by the SMO SE. Each case will be considered on its merits and, in most cases, forwarded to a Service Medical Consultant for opinion.

1212. Discharge Categories - All Former Regular Service: Compassionate

Candidates who were discharged ‘Compassionate’ are to be interviewed formally to ascertain their suitability for further Service.

1213. Discharge Categories - All Former Regular Service: Redundant

a. If an individual re-enters the RN after being made redundant, they may be required to re-pay a portion of the special capital payment determined by the duration of the break in service and the relevant period

(1) The relevant period is determined by:

(P x 365days)/FRE; where P is the amount of the Payment, FRE is the amount of the person's Final Relevant Earnings used for calculating P.

(2) Repayment is calculated by:

(RP-SB)/RP; where RP is the number of days in the Relevant Period. SB is the number of days in the Service break.

b. Any re-entrant will be expected to repay their payments in full on re-joining.

c. The provisional entry date is not to be given to the candidate until receipt is acknowledged by Veterans UK. The receipt is to be included with the MCC when uploaded to MIS.

d. In the event of a candidate making a repayment and then subsequently not re-entering the RN, they are to be advised to contact Veterans UK for a refund.

1214. Discharge Categories - Unaccepted

a. RISTT must be contacted if there is any doubt about the validity of former service documents or discharge categories.

b. No former rating/OR is permitted to re-enter who was discharged:

(1) Deserted.

(2) Dismissed.

(3) Services No Longer Required (SNLR) (including those discharged following a Compulsory Drug Test (CDT)).

(4) Not recommended for further service in the RN.

1215. Recommendation for Further Naval Service

a. With the exception of those to be discharged Deserted, Dismissed, or SNLR, all ratings/ORs who have served less than 22 years are assessed as to their suitability for further naval service prior to discharge. This recommendation is recorded on the candidate's personal copy of the Form S3300c – RORRS 3 Appraisal Report/SJAR.

b. Candidates 'Not Recommended for Further Naval Service' are not permitted to re-enter and have no RFR liability.

c. In the absence of a recommendation notation on the Form S3300c/SJAR, the RISTT is to use the following guidance when assessing eligibility for re-entry:

(1) To be recommended as suitable for further naval service, during the last 3 years of former service, the 'Conduct' of a rating/OR is to have been no less than 'Good' on one occasion, and the remainder 'Very Good'. The 'Efficiency' of a rating/OR is to have been no lower than 'Moderate' on one occasion with the remainder 'Satisfactory' or higher.

(2) 'Career Records' were introduced on 1 Jan 2000. To be recommended as suitable for further naval service, a rating/OR should be free from any 'Career Checks' during their last 3 years of service. Their 'Effectiveness' assessments during the same period should be commensurate with rate, experience, qualifications and seniority.

1216. Sighting of Candidate's Discharge Documents and Grounds for Refusal

a. The RISTT must sight the candidate's discharge Service history on JPA and documents before processing can begin. If service was pre-JPA it the responsibility of the candidate to present their former service discharge documents.

(1) **Former RN or RM - Discharge Documents.** Former RN or RM personnel must produce either their Service Certificate, Certificate of Discharge or Form S3300c – RORRS 3 Appraisal Report/SJAR. Candidates who cannot produce their discharge documents must be instructed to provide a Subject Access Request (SAR) to the address shown.

(2) **Former RAF or Army - Discharge Documents.** Former RAF or Army must produce either their Certificate of Service or Full (not Temporary) Certificate of Discharge. Candidates who cannot produce either of these documents must be instructed to contact the relevant discharging authority and request a 'Certified Record of Service'.

1217. Discharge - Repayment of Gratuity/Grants/Pension etc.

Candidates who are in receipt of a pension/Early Departure Payment (EDP) under AFPS 75 or AFPS 05 may be subject to abatement (including repayment of unexpired portion of EDP 05 lump sum). EDP or Pension payable under AFPS 15 is not subject to abatement. If in receipt of a Resettlement Grant (RG), repayment terms depend on the pension scheme under which the RG was paid. For further details see Pension Scheme Booklet MMP/116.

1218. Commonwealth Regular Service

The RN may award former service towards qualification for promotion and advancement to those with former Commonwealth Regular Service provided that the candidate achieved at least OR2/3 and held that rank for a minimum of 12 months. The decision for an award will be made during Part 2 Training, iaw BRd 3(1), part 7.

1219. Eligibility and Branch Vacancies

a. **Trained Re-Entrants - Former RN 1st Class Designation and MNE 1st Class on Discharge.** Candidates may be processed provided that their role is open to recruiting and they were not qualified for OR4 on discharge.

b. **Trained Re-Entrants - Former Senior Rates/SNCOs/OR4 (Re-Entering their Former Branch).** Each application will be assessed individually by the relevant BM.

c. **Role - Untrained Re-entries.** Untrained re-entries can be processed provided their role is open to recruiting and they meet the requirements laid down in the JEM.

d. **Re-Entry Eligibility - Former Officers.** Former officers who apply to enter as rating/OR may be processed provided that they did not complete officer training. Former trained officers will not normally be considered for entry as ratings/ORs.

e. **Eligibility - Serving Personnel in UKAF.** SP in the RN/RM, RAF and Army wishing to transfer to a new Service are to be given the relevant CPs and instructed to make an application to transfer through their Unit CO. Personnel who are on terminal leave may be considered for re-entry.

f. **Eligibility - Personnel in Commonwealth Regular Armed Forces.** Serving Commonwealth personnel are not eligible to 'Transfer' to the RN. Candidates must be discharged from their relevant Service before entry into the RN. Candidates may be eligible, however, for the award of former Commonwealth Service.

g. **Eligibility - Full Time Reserve Service (FTRS).** Applications from candidates who are serving on FTRS commitments to enter or re-enter the RN are to be referred to the Whole Force Cell via R&A.

1220. Medical

a. All candidates with former Regular or Reserve Service will fall into one of the three re-entrant categories below. MR personnel may be accepted without a further medical examination provided that they have had a recruiting medical within the last thirty-six months and they have had no medical problems as directed by SEMC.

(1) **Trained Strength.** Up to 24 months. A self-declaration is required and a referral to SEMC for scrutiny of previous service medical documents and decision on medical requirements.

(2) **Trained Strength.** Over 24 months. RNMQ, opticians report and consent forms to be issued on MIS sent directly to the MME for full recruit medical process.

(3) **Untrained Strength.** RNMQ, opticians report and consent forms to be issued on MIS. Once completed, candidates will be required to undertake the full recruit medical process.

b. Previous service medical records must be obtained for review by the medical contractor from SEMC, in accordance with local policy. Previous service medical records will not be released by the discharging authority without the written consent of the candidate.

1221. Trained Re-Entrant - RITS/RNFT

a. **RITS.** All branches should be allocated a trained category for RITS input. Any queries should be addressed to RISTT.

b. **RNFT.** If the candidate has not undertaken the RNFT within the previous 12 months, they are required to carry out the PJFT.

1222. Security Clearance

a. Re-application for Security Clearance (SC) may not be necessary if there is a gap of not more than one year between leaving the RN and re-joining. The candidate should not have lived overseas for more than 6 months during this time. The validity of any former/suspended SC can only be ascertained by UKSV; SC clearance must be confirmed prior to any candidate re-entering service.

b. The following procedure is to be followed by Careers Staff: Conduct a VSI check to confirm the particulars of the applicant (full names, date of birth, Service number, etc.) and that the criteria are met.

c. Documentation for trained re-entrants is not to be forwarded to the RISTT for Permission to Enter until candidates have been allocated SC.

d. Serving MR candidates must complete a new MoD Form 493. Unspent declared criminal convictions must meet the relevant eligibility criteria. Candidates who are eligible in all other respects with their current SC details are available will not need further SC clearance.

e. When applying for SC, former service details are to be shown on the BPSS and the relevant section of the UKSV 001. If known, the previous SC number is also to be shown on the BPSS.

f. If a nationality waiver has been given for the original entry then this remains extant and a further application for a waiver is not required.

g. Applicants who have lived overseas since previous discharge are to be processed within the residency rules.

1223. Engineering Ratings

a. **Eligibility.** Regular and Reserve basic eligibility remains unchanged.

b. **Qualifications.** Candidates must have achieved RPS.

c. **Initial Meeting.** Arranged online to ascertain identity and gain permission to access personal data. The relevant BM is then to decide whether an Offer of Service should be made.

d. **Selection Interview (SI).** If the relevant BM provisionally approves for the candidate to enter, a standard SI is to be conducted by the RISTT.

e. **Medical.** Candidate must be fully deployable and administered in accordance with paragraph 1221.

f. **SC.** All documentation required to assist with the provision of SC e.g. passport, birth certificate etc. needs to be sighted in order to complete the BPSS check on MIS. By verifying the documents, this makes them visible to NETE/UPO. Scanned documents will suffice to initiate SC; however, once an allocation date has been confirmed, candidates' documents must be sighted by their CA; during the SI for ratings/ORs and at a time convenient for both CA and candidate for officers – using the Shine platform.

g. **RNFT.** An RNFT is to be completed by all those aged under forty. Candidates aged over forty may elect to take an RNFT or complete a RPW during their re-entry induction process.

h. **Allocation to Entry.** In order to complete the three-day re-entry process, allocation will be in liaison with R&A PLANS OA/RA.

1224. Naval Nurses

R&A SRT MED SO3 is to be contacted for trained Naval Nurses to be assessed prior to re-entry.

1225. Trained Re-entrant - LPT

Leading Physical Trainers (LPT) who wish to re-enter must have an Enhanced Disclosure and Barring Service (D&BS) check before re-entering.

1226. Trained Re-entrant - DAA Requirements

a. Former OR2/3 and above re-entering in their former role are not required to re-take the DAA.

b. Former OR2/3 and above re-entering in a different role or Service from previously must meet the current DAA part and total scores for their chosen role. Candidates who do not meet the current DAA requirement for their new role are to be re-tested. Candidates will be allowed the same number of DAA attempts as a first time applicant.

1227. Untrained Re-entrant - DAA Requirements

a. Irrespective of the candidate's former rank/rating or role, untrained re-entrants must meet the current role entry standards.

b. Candidates who had previously achieved the necessary DAA total and part scores for their role need to re-take the DAA.

1228. Selection Interview (SI)

a. The original AFCO 101 is to be obtained from RISTT provided that it is less than 3 years old from the date the candidate was discharged. The relevant MIS letter is to be used.

b. Irrespective of the length of break in service, a new AFCO 101 is to be raised for each candidate. The RISTT will have a great deal more information available concerning a candidate re-entering the Service than those entering for the first time. Prior to the interview, RISTT Staff should make full use of the following documents:

(1) The original AFCO 101 (if less than 3 years old).

(2) Training record (if available).

(3) Training wastage return (if available).

(4) Notations recorded on the Service Certificate.

c. Since more information is available about the candidate, the re-entry interview will differ significantly from an initial SI. It is essential that the reason the candidate was discharged from the Service, and motivation for re-entry, are fully investigated and recorded on the AFCO 101.

d. All candidates who are interviewed are to be given a full SI, which is to be recorded on the AFCO 101. The SI should reflect the interviewer's assessment of the candidate's suitability for training and Service life irrespective of test scores. The SI score should be calculated immediately after the interview and prior to a final selection decision being made. Discretion is not to be awarded for an SI score below the minimum acceptable SI for a given role.

e. **Trained Re-Entrants.** Candidates in this category will be former RN/RM who achieved at least OR2/3 before discharge and are re-entering the RN in their former role. It also applies to serving RFR/RMR candidates entering on a Special Short Service Engagement. Since the trained re-entrant will re-join the trained strength very quickly, it is essential that the Selection Report is as comprehensive as possible. The SI should concentrate on the following areas:

(1) Family circumstances and, if applicable, how they differ from when the re-entrant was previously in the Service. What provision is being made for the care of any children; future housing requirements should also be noted.

(2) Educational qualifications are to be compared with those noted on the applicant’s Service Certificate. Only further education and qualifications obtained since leaving the Service need to be covered in this section.

(3) Details of employment or unemployment since leaving the Service and steps taken to find employment. Financial outgoings and debts must be fully covered and the individual’s ability to manage on future Service pay.

(4) Spare time activities and physical / sporting involvement, or interests since leaving the Service.

(5) Reasons for leaving the Service and changes in circumstances to prompt application to re-enter and, if entering a new role, motivation and role knowledge.

(6) Previous notice submissions, decorations received, advancement qualifications, poor character and efficiency assessments.

f. A comprehensive Selection Report and recommendation is to be made on the AFCO 101. It is important to note that the Form 101 are frequently referred to in the event of in Service representations and complaints.

g. **Untrained Re-Entrants.** The SI should follow the formal interview format but additional emphasis must be placed on changes to the candidate's circumstances, work record and achievements since leaving the Service. If applicable, the steps taken by the candidate to rectify adverse comments shown on Training Records or Training Wastage returns are to be recorded on the AFCO 101.

1229. Trained Re-entrants - Royal Marines

a. **Selection.** There is no requirement for trained RM or trained RMR ORs to undertake any form of pre-selection prior to re-entry unless stated by the BM.

b. **Trained Musician - Audition.** RISTT is to be contacted to establish whether or not a trained RMBS Musician is required to undertake an audition prior to re-entry.

1230. Officer Re-Entry - Application and Selection Process

a. Officers may re-enter the RN from a wide variety of source areas including those presently serving on FTRS or from the MR.

b. The single point of contact for all re-entry candidates, including ex-regulars or ex-reservists wishing to enter or re-enter the Royal Navy, is RISTT. Re-entry candidate applications sent to any other authorities, for example the CM, should be forwarded to RISTT and the candidate informed.

c. For trained re-entrants a request should then be made to RISTT. By production of BM Proforma, which will be forwarded to the relevant BM. For untrained re-entrants, R&A will produce a BM Proforma and forward to the relevant BM for approval.

d. RISTT will then determine, in liaison with the appropriate BM and CM, whether the individual meets the Service requirement, paying particular regard to the workforce strength within the re-entrant candidate's specialisation cohort and the relevant skills, experience and qualifications they are able to offer. This is a GO/NO GO decision point. If 'NO GO', the file is to be returned RISTT, who will issue a rejection letter to the candidate. It is important that an accurate reason for the rejection is included; this should be minuted when the application was staffed by R&A Recruiting Staff in conjunction with the appropriate BM and CM.

e. If a 'GO' decision is made, BM Proforma will be returned to RISTT who will produce the permission letter. The RISTT will obtain the candidate's previous service medical documents and book an MME appointment, if required (see paragraph 1221). The BM should recommend an initial seniority date, commission and pay increment level to enable the creation of terms and conditions for re-entry by STRATPOL.

f. BM/CMs are to make direct contact with the candidate in order to determine the exact timing of a potential re-entry and the candidate's individual preferences on assignment. Additional discussions should cover any bespoke training package, probable career path and promotion opportunities.

g. The Terms of Service Team, in liaison with the Officer Promotion Section, will assign the type of commission for re-entry, rank and seniority on re-joining, reserved rights owing from service prior to 1 Apr 99, return of service liability for bespoke training (if appropriate) and the appropriate pay increment level which should have been proposed by Hd NPS and DDPD. Once completed, the BM Proforma should be passed to BMs to determine any entitlement to special service pay, FRI payments, uniform issue/allowances, pension information and, in a small number of cases, gratuity repayment details.

h. The proforma is then to be returned to the relevant CM who, once an entry date and assignment have been agreed, will complete the offer conditions and pass to the relevant DACOS CM for clearance. The full offer details are to be forwarded to the RISTT who will issue the approval letter, once SC process has been satisfactorily completed.

i. If the candidate wishes to proceed, they should accept the TACOS/Offer in writing, whereupon they can be administered for re-entry to the Service.

1231. Officer Re-Entry - Untrained Re-Entrants

a. In considering untrained candidates who have left the training pipeline at an early stage, CAIB will utilise Final Board Mark and BRNC/CTCRM recommendations to decide whether to reject or re-board a candidate. If a re-board is necessary, the candidate will proceed as if they were a new entrant. Close liaison between the RISTT, CAIB, DDPD and the P&T SO1 Training Pipeline Manager will be required to define the re-boarding criteria.

b. The details of candidates who have left the training pipeline at a later stage, but who have not joined the Trained Strength, and have sufficient previous service records to reflect a satisfactory performance in training, will be forwarded directly to the Training Pipeline Manager for consideration. Whenever candidates would be able to quickly alleviate shortfalls in GTS targets or specific manning shortfalls, there should be close liaison between all parties. All successful applications will be administered by the RISTT for re-entry to the Service.

1232. Officer Re-Entry - Entry Dates and Joining Instructions

a. Trained RN re-entries will enter at BRNC for a one-day induction.

b. If candidates are in-date for the RNFT (i.e. carried out the test within the past 12 months), they will not have to re-take the New Entry physical tests or the Naval Swimming Test. The RISTT must stress to candidates, however, that they need to follow an appropriate form of fitness programme prior to re-entry. Candidates out of date for RNFT must undertake a fitness test within the first month of re-joining.

c. Once an entry date has been allocated, candidates should be advised to contact the relevant CM for advice. If eligible, candidates should also be advised that they may apply for Service Family Accommodation. The CM should advise individuals to submit an application to the relevant Defence Estates Housing Information Centre (HIC) in accordance with JSP 464.

d. Trained re-entrants may use their own transport for joining their assignment and submit a travel claim via JPA using the receiving unit’s UIN. Alternatively, they may request a train ticket from RISTT LWTR.

1233. Officer Re-Entry - Royal Marines

a. The single point of contact for all re-entry candidates, including ex-regulars or ex-reservists wishing to enter or re-enter the Royal Navy, is the RISTT. Re-entry candidate applications sent to any other authorities, for example the CM, should be forwarded to RISTT and the candidate informed.

b. The basic process is as per RN officers detailed above.

c. All RMOs will be initially assigned to CTCRM for any update training as specified by RM BM/CM. These will normally be specified in their TACOS and on their Permission to Re-enter Service letter.

CHAPTER 13

TRANSFERRING INTO THE ROYAL NAVY

1301. Definition

The term 'transfer' is used throughout this Chapter however, it is defined as: the individual being 'prematurely discharged from one Service to enter another' – see chapter 48, section 3.

1302. Reserve Forces

Transfers between the Reserve Forces should be dealt with in a similar manner to their Regular equivalents, as described in the paragraphs below. Refer also to BRd 3(2), chapter 2, paragraphs 0216 and 0227 for further information.

1303. Transfer to the RM from the RN

Processing is as follows:

a. Rating requests to Commanding Officer (CO) to transfer iaw chapter 48.

b. CO forwards rating's application to R&A's Re-joiners and Inter-Service Transfer Team (RISTT) CA2 requesting staffing clearance.

c. RISTT will apply for staffing clearance to relevant Work Force Planners (for those on the Trained Strength) and to Pipeline Management (for ratings under training).

d. The RISTT will forward the application to CTCRM PSO for ratings who are given workforce clearance.

e. The CTCRM PSO will liaise with rating's CO to arrange RM PJFT+ and PSO interview.

f. CTCRM PSO will inform the RISTT if the rating is recommended for RM entry.

g. For recommended ratings, RISTT will:

(1) Liaise with DDPD CM for a suitable date for the rating to be discharged from the RN.

(2) Allocate rating to a suitable Troop entry (R&A PLANS RA).

(3) The R&A RISTT CA2 will issue the transfer letter to rating's CO detailing RM entry date and processing instructions.

h. RISTT will liaise with rating for documentation and MME for medical examination.

i. Obtain rating's current SC number from UKSV for use on entry to the RM.

j. Rating is processed by the RISTT to enter CTCRM as a new entry.

1304. Transfer to the RM from the Army or RAF

Processing is as follows:

a. Airman/rank requests to Unit CO to transfer iaw individual Service instructions.

b. Army/RAF Personnel HQ forwards application to R&A RISTT CA2.

c. RISTT forwards application to RM BM.

d. The CTCRM PSO will liaise with aviator/rank's Unit CO to arrange RM PJFT+ and ROP.

e. RISTT will inform R&A RISTT CA2 if aviator/rank is recommended for RM entry.

f. For a recommended aviator/rank, the RISTT will:

(1) Liaise with Army/RAF Personnel HQ for a suitable date for the aviator/rank to be discharged.

(2) Allocate aviator/rank to a suitable Troop entry (R&A PLANS RA).

g. RISTT will issue the transfer letter to aviator/rank's Unit CO and Personnel HQ giving RM entry date and instructions for the aviator/rank to be processed.

h. Airman/rank liaises with RISTT for documentation and MME for medical examination.

i. RISTT will process Airman/rank to enter CTCRM on the allocated Troop entry date.

j. Obtain rating's current SC number from UKSV for use on entry to the RM.

k. Army/RAF transferees will join with their allocated Troop and will be assessed by CTCRM. They will normally complete the full training syllabus including ROP, though this may be shortened for those with suitable previous training and experience.

1305. Transfer to the RN from the RM

Processing is as follows:

a. Other Rank (OR) requests to CO to transfer iaw Chapter 48.

b. CO forwards OR's application to the RISTT requesting workforce clearance.

c. RISTT will apply for staffing clearance to RM BM and BM of intended role with a no-move before date from current trade.

d. For ORs who are given workforce clearance, the RISTT will process as required.

e. Candidate liaises with RISTT for processing into requested role and must:

(1) Meet the role entry criteria laid down in the Job Eligibility Matrix (JEM).

(2) Undertake a DAA if the original DAA does not meet the entry requirements for selected role.

(3) Be recommended for entry by the RISTT at SI.

(4) Be passed medically fit by the MME.

(5) Be in date for the RNFT or re-take PJFT.

f. Obtain OR's current SC number from UKSV for use on entry to the RN.

g. For recommended ORs, the RISTT will:

(1) Liaise with R&A RISTT CA2 for a suitable date for the OR to be discharged from the RM.

(2) Arrange an entry date.

h. The RISTT will then issue the transfer letter to OR's CO and HQ RM giving date of entry to RN.

i. OR is processed by the RISTT to enter RN as a new entry.

1306. Transfer to the RN from the Army or RAF

Processing is as follows:

a. Airman/rank requests to Unit CO to transfer iaw individual Service instructions.

b. Army/RAF Personnel HQ forwards application to the RISTT.

c. RISTT will assess availability of requested role.

d. The RISTT will process as required.

e. Candidate liaises with RISTT for processing into requested role and must:

(1) Meet the role entry criteria laid down in the JEM.

(2) Undertake the DAA.

(3) Be passed medically fit by the MME.

(4) Conduct PJFT.

(5) Be recommended for entry by the RISTT at SI.

f. Obtain aviator/rank's current SC number from UKSV for use on entry to the RN.

g. For a recommended aviator/rank, the RISTT will:

(1) Liaise with Army/RAF Personnel HQ for a suitable date for the discharge.

(2) Arrange an entry date.

h. RISTT will issue transfer letter to aviator/rank's Unit CO and Personnel HQ given date of entry to RN.

i. RISTT will process candidate to enter RN as a new entry.

1307. Transfer To RM Full Career - Trained RMR Other Ranks

a. Trained RMR ranks transferring to Full Career are required to undertake a 12-month probationary period on FTRS in a regular RM unit (ideally a CDO) and be approved for transfer by the regular unit CO.

b. It is preferable for the RMR rank to be on Mne Commando Duties (CD) FTRS commitment; during periods of Mne workforce balance, there may not be any Mne CD gaps, and only FTRS Specialist commitments will be available for the probationary period.

1308. Transfer To RM Full Career - Serving RNR/RMR

a. Trained RMR ranks on transfer to Full Career will be allocated to enter CTCRM by 0800 on, normally, the first Tuesday of each month.

b. Candidates may not make application for Service Family Accommodation until they have successfully completed the induction programme.

c. Trained re-entries may use their own transport and are to submit a travel claim via JPA using the regional HQ UIN. Overnight accommodation is available.

d. Normal night and weekend leave may be granted whilst at CTCRM.

e. CTCRM will process Trained re-entries and draft them to the Trained Strength, normally within the first month of joining CTCRM. It must be stressed to Trained RM re-entries, however, that they will be required to pass all elements of the Training Assessment listed below within 4 weeks of arrival at CTCRM.

f. **CTCRM Joining Routine and Initial Training Assessment.** Re-entrants report to SO3 Human Resources and undertake an Initial Training Assessment (ITA) and complete enlistment/joining brief/documentation checks. Dependent upon the outcome of the ITA, individuals will join Infantry Support Wing (ISW) for up to 4 weeks. Within ISW they will be administered by the Central Training Team (CTT) Staff and complete the following criteria checks:

(1) PSO interview.

(2) Medical and dental checks.

(3) Kit and AGR issue.

(4) Using SA80, complete Weapon Handling Tests, Annual Personal Weapon Test, and weapon training revision.

(5) Pass Basic Fitness Test and Basic Swimming Tests.

(6) Complete fieldcraft and related revision.

(7) Complete CBRN theory and practical and annual CBRN tests.

(8) Written military skills and knowledge tests.

(9) Formal interview with CO CTCRM.

g. On successful completion of applicable tests, SO3 Human Resources will inform DDPD of those who have successfully completed re-entry training. Trained re-entrants will then be assigned. Trained re-entrants who do not successfully complete re-entry training will be Discharged SHORE.

1309. Transfer to RN Full Career – Serving RNR/RMR

Candidates who are currently serving RNR/RMR, including those serving on FTRS, can often join full-time Service more quickly than direct entrants. Where Candidates are already in-date for PES, have an acceptable in-date JMES recorded in DMICP, hold an in-date security clearance etc. these elements need not be repeated to facilitate their transfer. In practice, this means that CPCs should often not be required for those transferring from the Reserves.

CHAPTER 14

ENTERING THE ROYAL NAVY

1401. Allocation of Personnel to Support Recruiting Targets

a. The Pipeline Manager provides R&A with the annual RN and RM recruiting targets. The targets show the entry pattern to BRNC, HMS RALEIGH, CTCRM and the RMSOM, segregated into roles and numbers required over 3 terms.

b. Allocation of entry dates is carried out centrally by R&A Allocations (R&A PLANS OA/RA). From the annual recruiting target, R&A Allocations will:

(1) Produce a Recruiting Sitrep, outlining the R&A requirements for each term.

(2) Action bids from Careers Staff on the MIS system.

(3) Inform the entry establishments, a minimum of 4 weeks prior to the entry date, of the number of ratings/ORs joining by name and role.

c. The monthly RPG output and the quarterly ‘Recruiting Sitrep’ will also update the Recruitment Force (RF) on those role rosters that are over-subscribed. Where the recruiting targets are small and a role is over-subscribed, Careers Staff must take care to explain to candidates the likely waiting time to enter those roles before the DAA.

d. For rating/OR candidates: R&A PLANS RA will allocate a provisional entry date to meet the planned training requirement on MIS, no less than 3 months before the planned entry date. This will be notified to the candidate via MIS within 2 working days.

e. For officer candidates: R&A PLANS OA will allocate select entrants at FSB 2 months prior to entry date. This will be notified to the candidate via MIS as an Offer of Service, conditional on medical fitness, security clearance and physical readiness, within 2 working days.

1402. Offer of Service - Regular Service Ratings and Other Ranks

a. As part of expediting the recruitment process, there is no longer a ‘Provisional Offer of Service’ for ratings and ORs. Candidates are now provided an ‘Offer of Service’, as outlined in the following sub-paragraphs.

b. Following a pass at CPC a bid for an entry date is to be made to R&A. For those in the following categories, a bid for an entry date is not to be made until SC has been received:

(1) Trained re-entries.

(2) Candidates with declared criminal convictions.

(3) Overseas candidates.

c. Bids for entry places are to be forwarded to R&A PLANS RA. CAs will establish candidates' earliest availability for entry and annotate on MIS. CAs will advise candidates that the allocation date offered will be the confirmed entry date, unless the candidate provides justification for this to be deferred, which is to be annotated on MIS. Candidates are to be made aware that deferment could delay entry into Service, dependent on availability of the candidate's preferred/amended entry date, which is based on Service requirement.

d. When R&A allocates an entry date, the Offer of Service is to be sent to the candidate. The CA is also to:

(1) Check the candidate has Medical/MedFit booked.

(2) Ensure the candidate progresses their SC application.

e. The Offer of Service is to be issued not less than 31 days before the entry date, unless the candidate elects for an early entry date (<31 days).

f. Candidates who withdraw their application or become ineligible after being bid for but before being allocated an entry date are to be withdrawn or rejected on MIS which will automatically remove them from the waiting list. Should a candidate wish to re-apply to join the Service, a new application is to be made.

1403. Notice of Eligibility for Final Selection (Allocation) - Regular Service RN and RM Officers

a. Following DAA, Medical and AIB/OSC, a candidate who is ready for FSB is to be forwarded to R&A PLANS OA. For those in the following categories, a bid for an entry date is not to be made until SC/DV has been received:

(1) Trained re-entries.

(2) Candidates with declared criminal convictions.

b. The candidate must only be considered at FSB when their availability for the subsequent entry is confirmed. When R&A allocates an entry date, the Confirmed Offer of Service is to be sent to the candidate. The CA is also to:

(1) Check the candidate has passed or has a medical booked.

(2) Monitor the progress of their SC/DV application, if not awarded.

(3) Is in-date for PJFT/PJFT+.

c. To enable time for the candidate to complete the remaining parts of the recruitment process, in accordance with the recruiting process outlined in chapter 10, the Notice of Eligibility for Final Selection Process should be made more than one month prior to FSB. FSB is conducted 2 months prior to entry. When all parts of the recruiting process at sub-paragraph b, are complete the Confirmed Offer of a Joining Date is to be issued to a candidate who has been successful at FSB, not less than 31 days before the entry date.

d. Candidates who withdraw their application or become ineligible after being bid for but before being allocated an entry date are to be withdrawn or rejected on MIS which will automatically remove them from the waiting list. Should a candidate wish to re-apply to join the Service, a new application is to be made.

1404. Notice Eligibility for Final Selection Process - Informing Officer Candidates

a. Great care must be taken by Careers Staff to ensure that candidates understand that entry is not yet guaranteed. This is made very clear in the associated MIS communication but should be reinforced with effective CRM.

b. The CA is to ensure that candidates are informed of their Notice of Eligibility for Final Selection Process, initially by telephone and then by MIS communication. All candidates must be sent this communication. Before talking to the candidate, and sending the communication, all time-sensitive elements of the selection process are to be completed; any that are going to become out-of-date before the entry date are to be re-booked. Consideration and planning for the dates of the MedFit, OSC (RM only), and SC/DV (pre-confirmed offer) are also to be made, as appropriate. Any elements that require re-taking or completing are to be explained to the candidate and are to be completed as early as possible.

c. The CA must inform R&A Allocations immediately if, during the SC/DV process, UKSV ask for additional information. R&A Allocations will then discuss with the CA the feasibility of the provisional entry date. Candidates who are contacted during the SC/DV process regarding undeclared criminal convictions or debt should be made aware of a possible delay in entry or rejection of their application. If the SC has not been awarded 31 days prior to joining, the Confirmed Offer will not be made, and the entry date should be deferred.

1405. Confirmed Entry Dates - Candidates not Cleared or Waived Within 31 Days of Entry

a. For all candidates, it is possible that some candidates will have their Offer of Service (rating or OR)/Eligibility for Final Selection Process (officer) withdrawn because SC/DV has not been received. It will take great care and professionalism by the CA to ensure this disappointing news is given to the candidate in a sympathetic and clear manner immediately when the decision is known. The candidate should, if possible, be informed by telephone, and must be told by a qualified CA. This is to be followed up by the appropriate MIS letter.

b. The security authorities are not obliged to give a reason for refusal or delay in giving SC/DV. Therefore, the candidate must be left in no doubt that the delay is because R&A has not yet been given final approval. The candidate is to be reassured that all efforts are being made to obtain approval, and as soon as it is received the candidate will be informed. The candidate is not to be allocated a further provisional entry date until SC/DV has been received.

c. Understandably the candidate, and their family, may feel some disquiet when given this news. Careers Staff must frequently keep in touch with the candidate and their family to assure them that every effort is being made to obtain approval and that they have not been forgotten. Therefore, all candidates unable to achieve SC/DV 31 days prior to entry should have their entry day deferred, where possible.

d. Once SC/DV is received, R&A will endeavour to allocate the candidate to the first available entry and inform the CA immediately.

1406. Final Entry Brief (FEB)

a. All FEBs for officer candidates are delivered by the respective NETE for which they are applying. These will be delivered in the weeks prior to an intake, the details for which will be promulgated following the FSB via MIS.

b. All FEBs for ratings and OR candidates will be delivered during their CPC. RN CPC will deliver the FEB to all attendants, whilst RM CPC will deliver the FEB to all successful attendants.

c. Should any candidate not be able to attend their FEB, whether digitally or at their respective CPC, their CA is to organise a bespoke FEB (digital or face to face), which is to be recorded on the SHINE platform and the event registered on MIS.

d. R&A are still responsible for the delivery of FEBs for Royal Marine Band Service candidates.

1407. Mandatory Compliance Checks (MCC)

a. CAs are to ensure the MCC (available on the RTAG SharePoint page) has been initially completed prior to an issue of a Notice of Eligibility (officer candidates)/Offer of Service (ratings/RMOR). This is to be countersigned by a CA2.

b. Further checks are to be completed by the Confirmed Offer of Service (all candidates). Specifically, MCCs are required to be completed by the Final Update Interview (ratings/OR candidates) or by the FEB (officer candidates). This final check is to be countersigned by a CA1, ready for the candidate's entry.

c. Upon completion, all completed MCC forms are to be stored on the candidate's MIS.

d. **Maritime Reserves.** MR MCCs are not required as candidates are advised on the attestation letter to take the following documents to attestation:

(1) Identification documents that includes photograph (passport, driving licence etc.).

(2) Birth certificate.

(3) The completed MR Attestation papers to be produced at attestation.

1408. Entry Establishments - Arrival

All RN and RM candidates are to arrive at their NETE as per their joining instructions and FEB. If a candidate informs a CA of their late-notice withdrawal, the CA should inform the HQ Allocations Staff, who will then notify the NETE accordingly.

1409. RNR Entries - Attestation

a. RNR candidates may only attest once their SC has been completed and is held. They are not a RNR recruit until all elements of the recruitment process are completed in full.

b. After attestation the recruiting process continues until all elements are completed in full.

1410. RNR Entries - RNR Documentation for Entry

a. In addition to the required MCC documents (paragraph 1407) the following documents are required:

(1) Photocopy of passport.

(2) PJFT certificate.

b. The following forms are to be completed by all candidates during the in unit induction day, retained at the RNR unit and married up with MCCs in due course:

(1) MOD Form 134: Official Secrets Act.

(2) JPA Standard Journey Claim (HDT details).

(3) SPVA Form F Ident 1024 (Rev 05/09) ID Card Application Form.

(4) JPA N006: Privately held Wills Form.

(5) NoK details.

1411. RNR Entry Process

a. Once an application for SC has been made, UKSV will inform the CA once SC has been given. SC details are then to be entered into MIS.

b. A standard allocation pattern will be followed by R&A Allocations RA for all new entries, with the following dates: 1 Jan, 1 Mar, 1 May, 1 Jul, 1 Sep and 1 Nov.

c. Once allocated, an 'Offer of Service' letter advises the candidate they have successfully completed the recruitment process:

(1) **For RNR Ratings.** The candidate's CA is to generate 'RNR Offer of Service' letter in RITS.

(2) **For RNR Officers.** RA-MR Recruit SO2 will generate a 'RNR Officer Offer of Service'. The letter is then sent to the CO of the parent RNR Unit.

1412. MR Officers - Rank on Entry

The regulations concerning the rank of officers on entry are at part 7, chapter 48.

1413. RNR Officer Entries - Entry Letter

a. On successful completion of the AIB the candidate will receive an Offer Letter.

b. Once all elements of the recruiting pipeline are completed, an allocation date will be identified. The candidate will be allocated on MIS and once the allocation is completed, an Entry Letter will be sent to the candidate by R&A-MR Recruit SO2 copying in the unit, the training management area, and the respective RSU so that Phase 1 training can commence, and the appropriate pay and uniform be issued.

CHAPTER 15

RECRUITING GLOSSARY

(Sponsor: NAVY RA-DHd RA)

AA	Advanced Apprenticeship	
AC	Aircraft Controller	
ACA	Assistant Careers Adviser	
AE	Air Engineering	
AFCO	Armed Forces Careers Office	A Tri-Service Careers Office
AFCO Form 101	The report used to record the Selection interview	
AFCO Form 104	Application for a Commission in the Naval Service (Supplement to Application Form)	
AFCO ME	Armed Forces Careers Office Medical Examiner	
AF	Application Form	
AIB	Admiralty Interview Board	The selection board for officer candidates
Applicant	An individual who has successfully submitted an application form.	
APWT	Annual Personal Weapons Test	
APC	Army Personnel Centre	
ASAP	as soon as possible	
AV MED	Aviation Medical	
BFT	Basic Fitness Test	
BCU	Birmingham City University	
BI	Business Insights	
BM	Branch Manager	
BOP	Branch of Preference	
BPSS	Baseline Personnel Security Standard	
BRd	Book of Reference	
BRNC	Britannia Royal Naval College Dartmouth	New Entry Training Establishment
BSVR	Baseline Standard Verification Record	
C&NB	Commonwealth and Non-British	
CA	Careers Adviser	
CA1	Careers Adviser Level 1	
CA2	Careers Adviser Level 2	
CA3	Careers Adviser Level 3

Annex 16B RMR on FTRS to RMGS Transfer Process Flow Chart
Annex 16C RMR to RMGS Transfer Application

CHAPTER 16

ROYAL MARINES RESERVE (RMR) TO GENERAL SERVICE (RMGS) TRANSFERS

1601. Introduction

Transfer from the RMR to the RMGS has previously risked being a lengthy process. Following a review of fully trained RMR Service Personnel (SP), in most cases, can now transfer to the RMGS without having to go via an Armed Forces Careers Office (AFCO). This streamlined process creates more certainty for the individual and enables Dir P&T to react more quickly to workforce requirements.

1602. Eligibility

This policy is aimed at trained RMR SP only, (individuals who are currently on RMR List 3 are not eligible). Exceptionally, RMR UTS SP can transfer under this system but will be required to carry out the full RMGS training at CTCRM including Recruit Orientation Phase (ROP)[1].

1603. Process

A summarised version of the process is[2]:

a. SP requests to join the RMGS.

b. Eligibility verified by Recruitment and Attraction (R&T) Re-entrant Processing (RP) and background checks conducted.

c. Terms and Conditions of Service (T&CoS) agreed and offer extended to SP.

d. SP confirms with RP that they are content to proceed.

e. Transfer date agreed between all parties.

f. SP joins CTCRM for induction tests, re-training assessment and Attestation.

g. SP joins gaining unit on completion of re-training.

1604. Terms and Conditions of Service

a. RMR SP transferring to RMGS will be placed on a bespoke TACOS based on the needs of the Service at the time of entry.

b. All relevant stakeholders[3] in consultation will consider prior service, seniority and any Specialist Qualifications when determining the SP's T&CoS. A letter of offer will then be sent to R&T RP who will forward to the SP with supporting joining instructions.

[1] SP will enter as UTS to conduct full RMGS Recruit Training. However, CTW CO has the right to fast track if deemed suitable.
[2] A detailed flow diagram of the process is at Annex A, B and C.
[3] P&T including RMBM/CM Whole Fleet Managers.

1605. Royal Marines Fitness Test

If not in date, the SP will be required to undertake the RM Fitness Test (Alternative) (RMFT(A))[4] on entry at CTCRM. Failure will result in RTU and risks the SP's application to transfer stalling. Regulations pertaining to the RMFT(A) will be in accordance with service policy.

1606. Mandated Individual Training and Re-Training

The SP must be in date for relevant mandated individual training (MATTS/NCTs) prior to joining their Unit and will not be assigned out of CTCRM before these are completed. In addition, if required the SP will be directed to Specialist Wing so an assessment can be made of their Specialist Qualification skills and ability. Any training shortfalls will be rectified prior to the SP joining a Unit and the length of time the SP spends at CTCRM will depend on currency and competency levels.

[4] RMFT(A): 'Predictor', Annual In-Service test, where resources to conduct the full RMFT are not available but the results of this suite of gym-based tests will determine physical ability to succeed at RMFT.

CHAPTER 19

SUPPORTING COMMONWEALTH AND NON-UK NAVAL PERSONNEL

SECTION 1 - GENERAL

1901. Introduction

This chapter provides Royal Navy policy for supporting Commonwealth and non-UK Royal Navy personnel (including Royal Marines). This policy acknowledges the immigration challenges faced by Commonwealth and non-UK Royal Navy personnel and their entitled family members in establishing a service family life, termination of service and transition back to civilian life [1 & 2].

1902. Policy Background

This policy applies to all members of the regular Royal Navy whose status is 'exempt immigration control' by virtue of their service, and also to entitled family members who are subject to immigration control (including where the Royal Navy person is a UK national). It also applies to the Royal Naval Reserve and veterans where practicable and manageable. This chapter does not replace MOD or Tri-Service policy or instructions covered in Joint Service Publications (JSPs) which apply to all Service personnel and their families, regardless of nationality.

1903. Aim

The aim of this policy is to give direction to the Chain of Command (CoC) and individuals in supporting and advising Commonwealth and non-UK Royal Navy personnel throughout their service in the RN, up to and including termination of service. It is primarily concerned with matters related to immigration status.

1904. Definitions

The following definitions are used in the context of this policy:

a. **Foreign.** The only foreign nationals eligible for recruitment to the Royal Navy are citizens of the Republic of Ireland (ROI): citizens of the ROI are not subject to immigration control. EU/EEA[3] nationals are not eligible to join, with the exceptions of Malta and Cyprus, which are members of the Commonwealth.

b. **Alien[4].** A citizen or national of Nepal who serves or has served for not less than five years in the Royal Navy is considered as an 'Alien' under the Armed Forces Act.

c. **Commonwealth.** A Commonwealth citizen is a person who is a national of any country within the Commonwealth member countries[5].

---

[1] The terms 'termination of service' and 'termination' are used throughout to encompass the various ways in which service personnel leave the Royal Navy. Other terms relating to discharge or dismissal are included only when referring to a specific route for leaving.
[2] Army General Administration Instructions Chapter 50 (April 2019).
[3] Member states of the European Union (EU)/European Economic Area (EEA). https://www.gov.uk/eu-eea
[4] Defined under the British Nationality Act 1981 as "a person who is neither a Commonwealth citizen nor a British protected person nor a citizen of the Republic of Ireland".
[5] Commonwealth citizens are defined within the British Nationality Act 1981 as being those within Schedule 3 of the Act. A list of Commonwealth countries may be found at http://thecommonwealth.org/member-countries.

d. **Naturalisation.** Naturalisation is the legal act or process by which a non-citizen in a country acquires citizenship or nationality of that country.

e. **Settlement.** Settlement is an immigration status granted to a person who does not hold the right of abode, through citizenship, in the United Kingdom. Indefinite Leave to Remain (ILR) is a status granted to those who have been admitted to the UK without a time limit on their stay and are free to take up employment or study. When indefinite leave is granted to persons outside the UK it is known as Indefinite Leave to Enter (ILE).

SECTION 2

TERMS AND CONDITIONS OF SERVICE

1905. Terms and Conditions of Service

Non-UK nationals enlisting in the Royal Navy do so under the same Terms and Conditions of Service (TACOS) as their UK counterparts. Commonwealth, non-UK and ROI citizens enlisted in the UK and have the same employment, career opportunities and entitlement to Royal Navy Family and People Support (Welfare) service as their British counterparts.

1906. Immigration Exemption

When a Commonwealth or non-UK national enlists in the Royal Navy, they will enter the Service with a valid residency visa and remain subject to UK immigration control rules during the period of service. They may be granted an exemption from immigration control under section 8(4)(a) of the Immigration Act 1971 (except for the provisions relating to deportation). The rules for UK exemption of immigration may be found at the GOV.UK website[6]. Royal Naval Reservists are not granted exempt immigration control under section 8(4)(a) of the Immigration Act 1971, unless they are called-out for permanent service under the Reserve Forces Act 1996 (RFA 96) Sections 52, 54 or 56 (commonly known as 'mobilisation').

1907. Home Office Immigration Rules Appendix - Armed Forces

The rules contained in the Home Office Immigration Rules appendix - Armed Forces[7], apply to regular non-UK members of HM Armed Forces only (on termination of service) and their entitled family members who are seeking to enter or remain in the UK.

1908. Consular Protection Arrangements

When any non-UK Service Person (SP) is placed in custody or detained[8], it is the responsibility of their Commanding Officer (CO) and/or Service Police to ensure that the individual is informed of their right for the appropriate consulate to be advised of their detention[9]. If the individual exercises this right, the CO must notify the consulate without delay and where possible arrange or facilitate unfettered consular communication and consular access to the detainee.

[6] https://www.gov.uk/government/publications/armed-forces-exempt-from-immigration-control
[7] https://www.gov.uk/guidance/immigration-rules/immigration-rules-appendix-armed-forces
[8] Including held in Service custody or is ordered into arrest or custody without the involvement of Service Police.
[9] There is no obligation for the CO to inform the consulate of the individual as a matter of course.

1909. Arrest Overseas

If a non-UK Service Person is arrested by authorities overseas, the following actions are to be undertaken (See also BRd 2 (QRRN) Chapter 39 (Civil Power and Report of Arrests), JSP 830, Manual of Service Law Volume 1 Chapter 3 and FLAGO Chapter 16):

a. **On Authorised Leave.** Any Service Person who is arrested by a civil power, or summoned on a criminal charge, whether in the UK or overseas, is to report such arrest or summons to their Commanding Officer without delay. When overseas, individuals are to contact either the nearest consular department of the passport they are travelling under or the British Embassy/Consulate; they are also to inform their unit (see also BRd 2 (QRRN) Articles 3902 and 3909).

b. **On exercise, official visit or Short Term Training Team.** When on exercise, official visit or as a member of a Short Term Training Team, units must contact their Commanding Officer for advice over jurisdictional responsibilities in accordance with the Vienna Convention on Consular Relations. The CO should advise the individual requiring assistance that they have the option of contacting either the nearest consular department of the passport they are travelling under or the British Embassy/Consulate.

c. **On Operational Deployment.** When on operational deployment, unit COs must contact the Duty Fleet Controller (+441923 956367), who will contact the Duty Fleet Legal Adviser.

SECTION 3

GUIDE TO SUPPORTING COMMONWEALTH AND NON-UK SERVICE PERSONNEL AND NON-UK FAMILIES OF SERVING PERSONNEL

1910. Royal Navy Guide to Supporting Commonwealth and Non-UK SP and Non-UK Families of Serving Personnel

The Royal Navy Guide to Supporting Commonwealth and non-UK SP and non-UK Families of Serving Personnel is a comprehensive reference document that directly supports this chapter. It provides guidance to the CO, unit, individual and dependent family members on the immigration and cultural challenges that may be expected by non-UK nationals during their career in the Armed Forces and their families. The RN D&I team are the holders of the guide.

1911. Awareness Briefings

It is essential that regular awareness briefings are conducted on immigration matters relating to Commonwealth and non-UK Royal Navy personnel and their families. The NFF continues to brief Phase 1 and Phase 2 trainees, and delivers ad hoc awareness presentations as requested by ships and units (where feasible). Briefings should be conducted for personnel and, where possible, their families, and also those in the Chain of Command (CoC) responsible for their management.

a. **Immigration Awareness Briefings for Non-UK Royal Navy Personnel.** Units are to deliver an awareness brief for non-UK Royal Navy personnel and their entitled family members on the following occasions:

(1) Recruitment.

(2) Phase 2 Training.

(3) As required by the Unit.

(4) Immediately prior to termination of service.

b. The brief is to cover the following mandatory subjects:

(1) The immigration status of personnel when serving and the actions to be taken for renewal of non-UK passports.

(2) The immigration challenge, costs of establishing a service family life and the substantial costs and challenges of settlement on termination of service[10].

c. The awareness brief should also be delivered to UK Royal Navy personnel with non-UK dependants, and to Naval Reserve non-UK personnel on joining the unit, especially if a reservist is to be mobilised, demobilised or about to undertake an FTRS commitment.

[10] Including, but not limited to, ensuring that families have the correct immigration status, the Minimum Income Threshold, and the costs associated with naturalisation or travel back to country of origin on discharge.

SECTION 4

REGULAR ROYAL NAVY

1912. Regular Recruiting

The recruiting criteria for all regular Royal Navy personnel are contained in Part 4 Recruiting (Chapters 7-17). With regard to non-UK nationals, additional recruitment eligibility criteria are outlined at Chapter 7 (Basic Eligibility and Entry Standards) and Chapter 63 (Security Vetting Policy) which includes rules regarding nationality and residency. In addition, 2019DIN01-045, Recruitment and Management of Commonwealth Nationals in the Armed Forces,[11] provides further information. The most important factor is for all Commonwealth and non-UK candidates to be made aware of the visa and immigration rules, associated costs and implications for any family members and dependants[12].

1913. Application for Immigration Exemption

When a Commonwealth or non-UK citizen enlists in the regular Royal Navy, the New Entry Training Establishment (HMS RALEIGH, Britannia Royal Naval College (BRNC) or CTCRM Lympstone) is to apply for an exemption of immigration control under Section 8(4)(a) of the Immigration Act 1971. Both applications for new enlistments or renewal of passports are to be made using the guidance at Annex 19A. Individuals should be briefed on the content of Annex 19A Appendix 1 and given a personal copy, including a copy of their submitted non-UK passport personal information page. UK Visas and Immigration (UKVI) (which is part of the Home Office (HO)), will write to individuals outlining the conditions of their exempt immigration control status. Immigration Exemption does not apply to dependants of serving personnel.

1914. British Naturalisation

Naturalisation is not required for Service reasons[13]. Becoming a British citizen is a significant, life changing event and is the personal choice of the individual. Commonwealth and non-UK Royal Navy personnel (excluding non-UK dependants) may apply for naturalisation whilst serving. The decision to naturalise is a personal one and all costs/expenses associated with naturalisation are a personal responsibility[14] (for more information refer to 'Apply to Become a British Citizen by Naturalisation (Form AN)[15].

1915. Updating JPA

Naturalisation is classed as a change in personal circumstance and the individual must report this to their UPO/HR administration office for updating of their JPA account. They will either be solely a British national or hold dual nationality and will cease to be serving as a Commonwealth and non-UK person; this will affect entitlement to certain allowances. Failure to notify the CoC of naturalisation could result in fraudulent claiming of Get You Home (Overseas) or DOMCO, and could also affect pre-deployment checks and readiness for overseas assignments or deployments. It forms part of an individual's self-service responsibility.

---

[11] 2019DIN01-045

[12] Awareness of the visa and immigration rules and understanding of the implications on their families as well as associated costs with specific reference to the Minimum Income Threshold.

[13] All Commonwealth and non-UK serving personnel who enter the Armed Forces are exempt immigration control under section 8(4)(a) of the Immigration Act 1971 whilst subject to Service law.

[14] Standard Learning Credits (SLC) are permitted for the Life in the UK test.

[15] https://www.gov.uk/government/publications/become-a-british-citizen-by-naturalisation-form-an

1916. Termination of Service

When a regular Commonwealth or non-UK individual's service is due to be terminated (including medical discharge or discharge under training), the releasing unit must carry out additional procedures in accordance with Para 5465. Annex 54H is to be completed by the UPO/HR Admin prior to termination/discharge final date, its contents briefed to the individual and then sent to UKVI, with a personal copy being given to the individual.

1917. UK Settlement

a. Commonwealth and non-UK Royal Navy personnel may apply for settlement in the UK on termination of service through the naturalisation application process. This is subject to them being able to meet the Home Office suitability and eligibility requirements of a veteran of HM Forces. The decision to apply for settlement is a personal choice and is made at personal expense. Provided all other Home Office criteria are met, from 6 April 2022 personnel who have served at least six years, or were discharged due to an injury or illness attributable to service (irrespective of length of service), and some non-UK veterans, living in the UK, are eligible for a fee waiver[16]. Applications may be made up to 10 weeks prior to termination of service by using the form at the link below[17].

b. Settlement may not be applied for from overseas. Career Managers of non-UK Royal Navy personnel serving overseas who intend to seek settlement after termination of service are therefore to move them back to UK (with their entitled family members) by at least a minimum of 10 weeks prior to their termination of service date. This is in order to allow UKVI to process their application(s).

1918. Entitled Service Family Members

Entitled Service Family Members who are subject to immigration control, including where the SP is a UK national, may seek to establish a family life in the UK by following the immigration rules at footnote 14 and using the form VAF AF which may be found at the link below[18]. An example of the letter of support required from the sponsoring unit is at Annex 19B. Family members who enter the UK by this method are no longer required to pay the Immigration Health Surcharge and may reclaim the cost if applications cannot be made via the new UKVI online system. Entitled service family members must not enter the UK on a standard visitor visa if they intend to remain in the UK permanently i.e. not as visitors. Any spouse/partner/child travelling on a standard visitor visa will not be entitled to accompanied status or Service Family Accommodation (SFA).

1919. Maintaining Passports and Visas

Units in the UK and overseas are to ensure that all non-UK Royal Navy personnel and entitled family members maintain valid passports and visas. They must inform individuals that, if a valid entry visa should lapse, UKVI will register the dependant as an overstayer in the UK, which will adversely affect their ability to work, access NHS facilities and prevent them from being able to travel abroad in an emergency or return to the UK. They will not be enroute to settlement, which may adversely affect future immigration applications. Non-UK Royal Navy personnel may make application to UKVI to extend a visa up to 28 days prior to the expiry date, at their personal expense[19].

[17] https://www.gov.uk/guidance/immigration-rules/immigration-rules-appendix-armed-forces
[18] https://www.gov.uk/government/publications/application-for-uk-visa-as-member-of-hm-armed-forces-vaf-af
[19] See also Para 0726.

1920. Assignment from Overseas to UK

Unit staff are to ensure that, prior to their travelling back to the UK on assignment, non-UK entitled family members have a valid settlement entry visa for the UK. Those without a valid entry visa will need to meet UKVI entry requirements, including basic English language and minimum level of income. The policy for the public upkeep of visas for entitled families outside the UK may be found in JSP 752 Chapter 9, Section 13[20].

1921. Assignment from Overseas to Overseas

Unit staff are to manage the movement of entitled family members on assignment between overseas locations through Global Removals and Family Services[21].

1922. Home Office Notification

The Home Office is to be informed of changes in personal circumstance of non-UK Royal Navy personnel. It is the unit's responsibility to inform UKVI of the following occurrences, using Annex 54H:

a. **Bereavement.** On the death of a non-UK Royal Navy person, when the individual or entitled family members are subject to immigration control.

b. **Estrangement.** When an estrangement has taken place and the non-UK Royal Navy person has changed their PStat, there is no chance of reconciliation, and the individual or entitled family members are subject to immigration control.

c. **Termination of Service.** When a non-UK Royal Navy SP's service is to be terminated or when the individual's service is terminated in accordance with Para 1916 above. The notification is also to include entitled family members who are subject to immigration control.

[20] https://modgovuk.sharepoint.com/sites/defnet/HOCS/Pages/Armed-Forces-Allowances-and-Expenses.aspx

SECTION 5

ROYAL NAVAL RESERVE

1923. Reserve Recruiting

All non-UK Royal Naval Reservists are recruited under the residency requirements described in Chapter 4 (Recruitment Introduction and Overview), Chapter 7 (Basic Eligibility and Entry Standards) and 2019DIN01-045 – Recruitment and Management of Commonwealth Nationals in the Armed Forces[22].

1924. Immigration Status

Non-UK Royal Navy Reservists are not granted 'exempt immigration control' status under section 8(4)(a) of the Immigration Act 1971, unless they are called-out for permanent service under the Reserve Forces Act 1996 (RFA 96) Sections 52, 54 or 56 (more commonly known as 'mobilisation'). At all other times they must have valid leave to remain in the UK.

1925. Full Time Reserve Service (FTRS)

FTRS is a reserve commitment and the non-UK reservist remains under the immigration rules that govern them as a civilian. The reservist must hold a valid right to work visa for the duration of the FTRS and units must not apply for immigration exemption on behalf of reservists on FTRS. If the reservist has settlement they can undertake FTRS in the UK, but it is not recommended that they undertake FTRS overseas as this could affect their ILR/E status, since UKVI will consider them to have left the country. Reservists on FTRS are subject to annual right to work checks, in accordance with Para 1928.

1926. Mobilised Reserve

When non-UK reservists are mobilised, the unit or Mission Training and Mobilisation Centre (MTMC) must carry out the immigration control actions at Annex 19D, explain the contents of Annex 19D Appendix 1, and give the reservist a copy. Units are to ensure that the reservist's passport will remain valid throughout the period of mobilisation. If successfully mobilised, the reservist's passport will be endorsed 'exempt immigration control' under Section 8(4)(a) of the Immigration Act 1971. UKVI will confirm in writing the conditions of the reservist's exemption.

1927. Demobilised Reserve

When non-UK reservists are demobilised, MTMC or the demobilising unit must inform UKVI by carrying out the additional procedures in accordance with Para 5465. Annex 54H must be completed prior to their demobilisation final date and sent to UKVI. The unit must brief the reservist that UKVI will be informed of their demobilisation and that the 'exempt immigration period' has ceased. The reservist must be warned that *"even though their passport stamp is not physically cancelled when they are demobilised, the reservist will not have permission to work or remain in the UK unless they have a valid civilian UK visa".* The reservist's parent unit should also conduct the annual right to work check prior to the reservist resuming training, in accordance with Para 1928.

[22] 2019DIN01-045

1928. Unit Responsibility - Reservists Annual Right to Work Checks

Units have a statutory requirement to conduct and record annual right to work document checks of their non-UK reserve personnel who are subject to immigration control. To ensure that a right to work remains extant, these checks should be carried out prior to the start of each training year. For further government advice see the Right to Work Checklist and for Unit actions see 2014DIN01-181 Employment of Foreign and Commonwealth Reserve Service Personnel[23] and the Guide to Supporting Commonwealth and non-UK Service Personnel and non-UK Families of Serving Personnel (Para 1910).

1929. Incorrect Immigration Exemption

If a non-UK reservist is found to have an 'exempt immigration endorsement' as a result of previous regular or mobilised service, the unit must inform UKVI in accordance with Para 5465, stating that the reservist has previously had their regular service terminated or that they have been demobilised from reserve service. The reservist must be informed that they are not exempt from immigration control and must regularise their immigration status in accordance with the regulations at footnote 21 and the Guide to Supporting Commonwealth and non-UK Service Personnel and non-UK families of Serving Personnel (Para 1910).

1930. Reserve Training Overseas

When there is a requirement for non-UK reservists to train overseas, the unit must check whether a NATO Travel Order[24] or additional visa is required by contacting Defence Travel[25] for advice. The requirements to obtain visas for official duty are constantly changing and this list is frequently updated. If there is any doubt, then contact should be made with DSCOM Visa Section (Tel Mil 9621 84366). For guidance on payment for official visas refer to JSP 752 Chapter 9 Section 13[26]. Units are not to apply for 'exempt immigration control' for training reasons.

1931. Individual Responsibility

Units are to remind the non-UK reservist that it is their responsibility to report any changes to their immigration status that affects a right to work to the UPO/HR Admin staff. It is an individual's personal responsibility to regularise their immigration status after demobilisation and before commencing any further training.

1932. Reserve Family Entitlement

There are no provisions within the immigration rules for the dependant of a non-UK reservist to enter or remain in the UK based solely on their sponsor's reserve service[27]. This includes family members of those who have been mobilised or are on FTRS. The unit should ensure that the reservist is aware of the implications for family members and dependants.

1933. Changes to Reserve Immigration Status

When a non-UK reservist is issued an exempt vignette for mobilised service, the status of their dependants does not change. Their dependants will remain on the immigration conditions for which they were given leave to enter or remain in the UK. If a reservist is granted 28 days' leave outside the rules as they no longer hold valid leave on return from mobilisation, their dependants are not entitled to be considered simultaneously.

[27] https://www.gov.uk/guidance/immigration-rules/immigration-rules-appendix-armed-forces

1934. Supporting Letters - Royal Naval Reserve

Reserve units or individuals should not write official letters on headed paper to UKVI in support of a reservist's application to change their immigration status due to a change in their civilian circumstances. Regular or reserve personnel should not attend any subsequent inquiries in an official capacity; this includes appearing in uniform at a hearing to give expert advice on reserve service or at any tribunal or court case dealing with a reservist's civilian immigration issue.

1935. Home Office Notification

The Home Office is to be informed of changes in the personal circumstances of Commonwealth or non-UK reserve personnel. It is the unit's responsibility to inform UKVI of the following occurrences, using Annex 54H:

a. **Demobilisation.** When a non-UK reservist has demobilised.

b. **Termination of Service.** When a non-UK reservist's service has been terminated.

c. **Death.** On the death of a non-UK reservist.

ANNEX 19A

ROYAL NAVY REQUEST FOR AN 'EXEMPT UK IMMIGRATION' CONTROL ENDORSEMENT FOR REGULAR COMMONWEALTH OR NON - UK ROYAL NAVY PERSON

Maintaining Immigration Status - Regular

1. When a non-UK passport holder has been accepted into regular service or has a Country of Origin passport renewed during regular service, the UPO/HR Admin Office is responsible for carrying out the following actions:

a. Send the non-UK passport with a covering letter by registered mail and enclose two passport style photographs no more than three months old with the name of the individual written on the back of each (expenses may be recovered in accordance with JSP 752).

b. Prior to dispatch the unit must issue the individual with a copy of their passport personal page and any valid visa pages, explain and give the individual a personal copy of Appendix 1: Immigration Conditions During Regular Service and Termination of Service.

c. The Armed Forces Team at UKVI will insert the 'exempt' immigration endorsement into the passport and confirm the conditions of issue in writing to the individual.

d. A covering letter should be sent to UKVI on Unit headed paper addressed as below and contain the following information:

Armed Forces/FCO Team
Visa & Citizenship, UK Visas and Immigration
7th Floor Apollo House
36 Wellesley Road,
Croydon
CR9 3RR Date

Dear Sir/Madam,

ROYAL NAVY REQUEST FOR AN 'EXEMPT UK IMMIGRATION' CONTROL ENDORSEMENT FOR REGULAR COMMONWEALTH OR NON-UK NAVAL SERVICE SERVING PERSONNEL

[Paragraphs do not need numbering]

I am the Unit HR Administrative Officer of (insert unit) responsible for Non-UK Exemption from Immigration Control applications.

I can confirm that (insert service number, rank/rate, full name, DoB and nationality) enlisted as a regular Service Person in the Royal Navy/Royal Marines on (insert start date)**.** Having enlisted in the Royal Navy/Royal Marines as a regular, the above-named individual is exempt UK Immigration Control under Section 8(4)(a) of the Immigration Act 1971.

I have enclosed the individual's Country of Origin Passport (Passport Number) and two Passport photographs with the individual's name on the back of each and request that UKVI insert an 'exempt' from immigration control endorsement (vignette) and inform the individual of the conditions of issue.

Please do not hesitate to contact me if you require any additional information.

Signed

Name
Rank/Rate/Position
Job Title, if not included in Unit Letter Template.
For Commanding Officer

Enclosures:

1. (*Insert*) *Service Person's Full Name* (*Insert Nationality*) Passport (*Insert Serial Number*).
2. Two Passport Photographs with individual's name on the back.

APPENDIX 1 TO ANNEX 19A

IMMIGRATION CONDITIONS DURING REGULAR SERVICE AND TERMINATION OF SERVICE

Copy to be provided to Non-UK Royal Navy/Royal Marines Service Person for their Records

1. Regular Service. Your passport has been forwarded to UK Visas and Immigration (UKVI) in order for it to be endorsed with an Exempt UK Immigration Control vignette. UKVI will write to you to confirm the conditions of your exempt status. As a non-UK citizen currently serving in HM Forces you will be exempt from immigration control under section 8(4)(a) of the Immigration Act 1971 until your service is terminated or you naturalise as a British citizen. **Your exemption does not extend to your family dependants.**

2. Exempt Immigration Control Travel.

a. Your immigration exemption only allows you to travel to the UK; it is not valid for travel to other countries, if you undertake personal travel you must ensure you meet the visa requirements of the countries to which you are travelling and those you pass through in transit. The authorities in the country or territory to which you are travelling are responsible for setting and enforcing the rules for entry. If you are unclear about any aspect of the entry requirements, or need further reassurance, you will need to contact the embassy, high commission or consulate of the country or territory to which you are travelling. You should also consider checking with your transport provider or travel company to make sure that your passport and other travel documents meet their requirements. Generally, your passport should be valid for a minimum period of 6 months from date of entering the country you are visiting.

b. If you are required to travel for MOD official purposes your UPO/unit administration office will contact Defence Travel to determine which type of visa you require and will assist you with obtaining that visa prior to travel. The office will also assist you in reclaiming any expenses incurred in obtaining the visa.

3. Passport Renewal. When you are required to renew your passport, you must report to the UPO/unit administration office with your new passport in order that the ‘exempt immigration control’ status may be transferred to your new passport.

4. Establishing a Family Life.

a. If your spouse/legal partner and children are non-UK citizens and you wish them to join you, they may be subject to immigration control. This means that they must apply for a settlement entry visa through UKVI using a HM Forces Application Form VAF AF[1]. **The Royal Navy has no liability to pay for visa or travel expenses for your family.** The settlement entry visa cost changes every April and is in excess of £1,500. Current visa fees may be found at the link below[2]. If your spouse/partner is not a national of a predominately English-speaking country, then they may be required to be A1 (fluent in) English. The Home Office has a Minimum Income Requirement that you must meet for spouses/partners and children to legally enter the UK, The minimum threshold of the UK Armed Forces pay has been adjusted so that all those serving will earn this once training is completed. This will support service personnel with foreign national family members to bring their loved ones to the UK allowing the family to stay together and give the recruit the support they need throughout their career in the Royal Navy. Additionally, there is no longer an additional income requirement for children the MIR will now be the same regardless of the number of children brought to the UK.

b. If you are successful, you will receive a Biometric Residence Permit (BRP) and be placed on a five year route to settlement based on your Royal Navy service under the Immigration Rules Appendix Armed Forces[3].

5. Termination of Service.

a. When you reach your termination of service it is your personal responsibility to inform the UK Home Office as soon as possible. Your discharging/releasing unit will also inform the Home Office of your impending termination of service. **It is then your responsibility to regularise your own UK immigration status, and that of your family.** You can begin this process up to 18 weeks prior to your termination of service (final date of paid service), at your expense; if you choose to do this you should take action as soon as possible. **Your 'exempt immigration control' status will cease on the date of termination of service.** If, after termination, you remain in this country without a valid settlement status you will not be entitled to work, or have access to local authority housing, benefits or any other form of public funding. Even if your passport has an exemption stamp, the UKVI will have recorded you as having left the Armed Forces. This will also appear when any prospective employer conducts a statutory right to work check. It may also affect any future application to remain in the UK.

b. You are strongly advised to start saving money from the date of your enlistment in the Royal Navy/Royal Marines to meet family entry visa costs and future settlement visa costs both for you and your family. This can be achieved in a number of ways, including through an Armed Forces Credit Union. See 2019DIN08-010 Credit Union Services - Access for Armed Forces Personnel and Former Personnel in Receipt of an Armed Forces Pension.

ANNEX 19B

ROYAL NAVY LETTER OF CONFIRMATION OF A SPONSORING ROYAL NAVY PERSON'S DETAILS FOR HM FORCES VAF AF APPLICATION

(Letter of confirmation of sponsor's details to be submitted with spouse/partner's application for an entry visa to the UK - NOT TO BE USED TO SPONSOR A VISITOR VISA)

1. A covering letter should be sent to UKVI on Unit headed paper addressed as below and contain the following information:

For the Attention of:
The Entry Clearance Officer
British High Commission (BHC)
(Insert Country of application address) Date

Dear Sir/Madam,

ROYAL NAVY LETTER OF CONFIRMATION OF SPONSORING NAVAL SERVICE PERSON

Paragraphs do not need numbering.
Sponsoring Service Person Details:
Surname Forenames Service Number Nationality

Entitled Armed Forces Family Members Leave to Enter Visa applications for:

(Insert all named applicants)
Surname Forenames Date of Birth Nationality and Relationship to Marine/Sailor

I am the Unit Administration Officer of *(insert unit name).* Under Appendix Armed Forces**,** the sponsoring Service Person above has requested a Royal Navy letter to confirm the above-named sponsoring service person's details in respect of sponsorship of a UK Leave to Enter Visa application[1] for those entitled family members listed above.

The above named service person is currently serving in the United Kingdom*[2] and I can confirm that as a condition of the service the named serving person has been provided with/will be provided* with suitable Service Family Accommodation to accommodate the family prior to their arrival in the United Kingdom (**provide allocated SFA address if available or if a contact house is being used as an interim or use the full unit address)**.

Please do not hesitate to contact me if you require additional information.

Signed

Name
Rank/Rate/Position
Job Title, if not included in Unit Letter Template.
For Commanding Officer

[1] This letter is not to be used to sponsor a visitor visa.
[2] Overseas HQs should use an amended letter template.

ANNEX 19C

COMMONWEALTH AND NON-UK SERVICE PERSONNEL - ADDITIONAL TERMINATION OF SERVICE PROCEDURES TO BE PROVIDED TO UPO/UNIT HR ADMIN, CAREER MANAGERS AND THOSE WITH DISCHARGING RESPONSIBILITIES

1. The service of all non-UK Royal Navy personnel is terminated in accordance with the regulations at Para 5465. As soon as the individual is warned that their service is to be terminated the Career Manager, Unit Administration Officer and Releasing Unit must check the immigration status of the transitioning individual and entitled family members to determine if they can apply for settlement and calculate the costs involved. Those who have not regularised their immigration status should be briefed by their Career Manager and Divisional Officer at least six months prior to termination of service or as soon as notification of termination is received, with the following information:

a. It is the non-UK Royal Navy person's responsibility to apply for settlement, both for themself and their entitled family members, or to leave the country after termination of service. Applications are to be made on Home Office Form SET (AF)[1], in accordance with the Immigration Rules Appendix Armed Forces[2].

b. All applicants must complete the Biometric Residence Permit (BRP) registration process[3] in order for settlement to be granted.

c. The effects of criminality or Service discipline offences on applications for Settlement or Citizenship have been incorporated into 2017DIN01-049 (see also the Home Office publication 'HM Forces: Criminality'[4]). Applicants for settlement or naturalisation must declare all criminal convictions (spent or unspent) on their application forms. If in doubt, individuals with criminal convictions should seek qualified immigration advice before applying for settlement.

d. On the day that a non-UK Service person's service is terminated their 'Exemption from UK Immigration Control' is cancelled and they become subject to UK immigration control. UKVI will issue the individual with 28 days' notice to regularise their immigration status only if it has been notified by the unit or the individual being discharged.

e. If an application is submitted after termination of service date but during the 28 days' notice period, the individual may remain in the UK legally during the consideration process (with civilian status). Individuals will not have permission to work legally, or remain in the UK, even if their passport endorsement has not been physically cancelled by the unit on termination of service, since UKVI will have been notified to cancel the exempt status.

[1] https://www.gov.uk/government/publications/application-to-settle-in-uk-as-former-member-of-hm-forces-setaf
[2] https://www.gov.uk/guidance/immigration-rules/immigration-rules-appendix-armed-forces
[3] https://www.gov.uk/biometric-residence-permits
[4] https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/488261/HM_Forces_-_Criminality_v1.0.pdf

f. Termination of service normally takes place in the UK. Units terminating non-UK personnel outside the UK must have authority from the overseas Command to do so. Once that authority has been granted, the Commanding Officer will notify the relevant Career Manager that the individual's service will be terminated overseas. Units **must** advise non-UK personnel on housing and immigration implications and status (including for entitled family members) including any UK entry restrictions and issues if they decide to attempt to regularise immigration status overseas.

g. Where an early departure termination (Medical, Discipline, Administrative or Discharge Under Training) has been recommended for non-UK Naval Service personnel, the unit managing the termination must take account of the UK immigration policies and time-lines for settlement application, and raise any concerns about the individual's settlement, and implications for their entitled family members, to the Chain of Command as soon as possible. For overseas units this includes the timely return of the individual and entitled family members to the UK in order to prepare for termination, noting the policy for entitlement to occupy SFA in JSP 464.

h. Commonwealth and non-UK Service Personnel whose service has been terminated and are settled in the UK are liable for the same Regular Reserve liability as their UK counterparts.

i. Commonwealth, non-UK or Nepalese Service Personnel who opt to leave the UK after termination of service have 24 months to apply for settlement (Indefinite Leave to Enter (ILE)) through their local UK Visa Application Centre.

2. Additional Unit Information in Support of Non-UK serving personnel

a. **Termination After Four years' Service.** Inform individuals that, if they wish to regularise their immigration status, their applications should be submitted 18 weeks before their termination date or up to six months before a redundancy termination date. This will enable UKVI to grant settlement the day after termination (providing that the Immigration Rules are met).

b. **Medical Discharge.** Units who administer Commonwealth and non-UK Service Personnel being considered for discharge on medical grounds must also take account of any additional vulnerability issues, especially if the individual has severe physical/mental disability, or if they are single and need additional family support that require support from the immigration authorities. Welfare casework should be raised well in advance of discharge, including any referral under the Veterans' Welfare Service protocols[5]. In all cases where the discharge is complex and requires immigration consideration, the casework team should engage with Royal Navy Family and People Support (RN FPS), Naval Families Federation (NFF) and the Seafarers' Advice and Information Line (SAIL) who will raise a referral to the appropriate authorities and Naval charities both for immigration and eligibility for welfare support.

[5] https://www.gov.uk/government/collections/veterans-welfare-service-protocols

c. **Medical Discharge - Less than Four Years' Service.** Where a non-UK Service Person is medically discharged with less than four years' service, UKVI will consider settlement applications where the medical discharge is due to injuries sustained during operations or whilst on training. When medical discharge occurs for other reasons, with less than four years' service, the non-UK Service Person may still be able to apply for settlement. In both cases individuals will need to submit supporting medical evidence to UKVI and, if required, may need to seek immigration advice from an authority accredited by the Office of the Immigrations Services Commissioner (OISC). Extensions to discharge dates are not given for immigration reasons.

d. **Other Forms of Termination of Service with Less than Four Years' Service.** There is no discretion within the rules for settlement to be granted to those terminating with less than four years' service. Units should advise non-UK Service Persons to seek OISC qualified immigration advice before they submit an application to UKVI for leave to remain ('outside the rules'). On the day of termination, the unit should receive a 28-day notice letter by fax from UKVI. Those individuals who have not regularised their immigration status may apply for further Leave to Remain; otherwise they will be expected to leave the country.

e. **Warning UKVI of Termination of Service.** Units are to give UKVI warning of the date of termination from the Armed Forces by completing the additional policy in accordance with Para 5465. Annex 54H is be completed prior to termination day and sent to UKVI. On receipt of Part A, UKVI will issue a receipt to the unit and a notice to those personnel who have not regularised their immigration status (separate letters are provided for dependants). On the final day of service, the unit must complete Part B of Annex 54H, ensuring that both the individual and unit sign the declaration to UKVI.

f. **Indicative Letter.** Once UKVI receives, checks and assesses a settlement application, it may issue an indicative letter[6]. This letter is to assist the individual in planning for future employment, housing, healthcare and benefits as part of the transition to civilian life[7]. Where an indicative letter has been issued and is not accepted by providers during transition, the individual should raise the issue with their unit, which should contact RN FPS, NFF and SAIL with details of those providers who have not accepted the letter.

3. Day of Termination

a. On receipt of the completed Part A, notice is normally 28 days and will be issued effective from the planned date of termination. However, in practice if the date of termination is imminent then UKVI will normally withhold notice until Annex 54H is also received.

b. If the non-UK Service Person has not applied to regularise their immigration status by their date of termination, then UKVI will send the unit a fax/email/letter giving the individual a 28-day notice letter to regularise their immigration status or leave the country. When the email/letter is received, the unit should give one copy direct to the individual and confirm receipt by signature of both the individual and the discharging unit. The signed copy is then to be sent back to UKVI.

[6] The Home Office can only issue an 'Indicative Letter' if it receives the application in good time (10 weeks prior to discharge).
[7] The 'Indicative Letter' is not a guarantee of settlement.

4. Custodial Sentence Family Support. When a non-UK Service Person has received a custodial sentence that will lead to dismissal and termination, the supporting unit must immediately engage with the individual's family. There may be issues of entitlement to SFA and/or Family Maintenance Grant and, if overseas, immigration issues on repatriation to the UK. Further immigration advice should be sought from NLS, RN FPS, NFF and SAIL.

5. Termination Prior to or After Custodial Sentence. Before an individual's service is terminated prior to or after a custodial sentence, the terminating unit must consider any welfare, financial or immigration issues that will impact on the family. When service is terminated under these conditions UKVI must be informed using Annex 54H.

ANNEX 19D

ROYAL NAVY REQUEST FOR AN 'EXEMPT UK IMMIGRATION' CONTROL ENDORSEMENT OF ROYAL NAVAL RESERVE SERVICE PERSON FOR MOBILISATION

1. When a non-UK passport holder (with a right to work visa) in the Royal Naval Reserve has been selected for mobilisation the employing unit must take the following actions:

a. Send the non-UK passport with a covering letter by registered mail below and enclose two passport style photographs no more than three months old with the name of the individual written on the back of each (expenses may be recovered in accordance with JSP 752).

b. Prior to despatch the unit must issue the reservist with a copy of their passport personal page and any visa pages, explain and give the individual a personal copy of Appendix 1: Immigration Conditions for Reserve Mobilisation Service and Demobilisation.

c. The Armed Forces team at UKVI will insert the 'exempt' immigration endorsement into the passport and confirm the conditions of issue in writing to the individual.

d. A covering letter should be sent to UKVI on Unit headed paper addressed as below, containing the following information:

Armed Forces/FCO Team
Visa & Citizenship, UK Visas and Immigration
7th Floor Apollo House
36 Wellesley Road,
Croydon
CR9 3RR Date

Dear Sir/Madam,

ROYAL NAVY REQUEST FOR AN 'EXEMPT UK IMMIGRATION' CONTROL ENDORSEMENT FOR ROYAL NAVAL RESERVE SERVING PERSONNEL MOBILISED

[*Paragraphs do not need numbering.*]

I am the Unit HR Administrative Officer of (insert unit) responsible for Non-UK Exemption from Immigration Control applications.

I can confirm that (Insert service number, rank/rate, full name, DoB and nationality) enlisted as a reservist in the Royal Naval Reserve on (Insert mobilisation start date)**.** Having enlisted in the Royal Naval Reserve the above-named service person is exempt UK Immigration Control under Section 8(4)(a) of the Immigration Act 1971 for the duration of the period of mobilised service.

I have enclosed the individual's Country of Origin Passport (Passport Number) and two Passport photographs with the individual's name on the back of each and request that UKVI insert an 'exempt' from immigration control endorsement (vignette) and inform the individual of the conditions of issue.

The individual's unit will inform you when the above-named reservist demobilises from the Royal Naval Reserve. Please do not hesitate to contact me if you require any additional information.

Signed

Name
Rank/Rate/Position
Job Title, if not included in Unit Letter Template.
For Commanding Officer

Enclosures:

1. (Insert) Reservist's Full Name (Insert Nationality) Passport (Insert Serial Number).
2. Two Passport Photographs with Reservist's name on the back.

APPENDIX 1 TO ANNEX 19D

IMMIGRATION CONDITIONS FOR RESERVE MOBILISATION SERVICE AND DEMOBILISATION INFORMATION FOR THE RESERVIST

1. Immigration Control Mobilised Service

As a member of the Royal Naval Reserve, you must have a valid visa which allows you to work and reside in the UK for the duration of your mobilised service. If you have a valid visa, your passport will be stamped with an exemption from immigration control under section 8(4)(a) of the Immigration Act 1971. The exemption lasts only for the duration of mobilised service with the Royal Navy.

2. Immigration Status Demobilisation

When you are demobilised, you must contact UK Visas and Immigration (UKVI) to inform them of your demobilisation. MTMC or your demobilising unit will also inform UKVI of your demobilisation in accordance with Para 5465. Prior to your mobilisation you had an immigration status and you will resume that immigration status automatically; you do not need to make another application providing that your immigration status remains in-date and valid. **If you do not contact UKVI when you are demobilised, and you attempt to remain in the UK without permission, you may become liable to removal.**

3. Immigration Status - Civilian

Once your exemption has been cancelled, if your visa has lapsed you will require permission to remain in the UK and will normally be given 28 days to regularise your immigration status or leave the country. Even if your mobilisation passport stamp remains in your passport, it will have been cancelled by UKVI and you will not have permission to work or remain in the UK. If you are in doubt your unit HR staff can explain this Appendix and direct you to qualified sources of immigration advice (e.g. Royal Navy Family and People Support (RN FPS), Naval Families Federation (NFF) and Seafarers' Advice and Information Line (SAIL).

4. Right to Work Checks

If you remain subject to immigration control, your unit has a statutory requirement to conduct and record right to work document checks on you. Your unit will check this before you resume your reserve training. This check will be carried out prior to the start of each training year to ensure that you continue to have a valid right to work. If during a right to work check it is found that you have an 'exempt immigration endorsement' remaining in force from a previous mobilisation, your unit will seek advice from UKVI regarding your immigration status.

5. Termination of Service

If, due to a lack of right to live and work in the UK status, your service is terminated, you must inform UKVI of your termination. The terminating unit will also inform UKVI. As reserve service is classed as secondary employment, it does not entitle you to settle in the UK under Immigration Rules Appendix Armed Forces. Even if your passport has a mobilised service exemption stamp, the UKVI will have recorded you as having left the Armed Forces. This will also appear when any prospective future employer conducts a statutory right to work check.

SECTION 1 - GENERAL

2001. Why Discipline Matters

a. The values and standards of the Royal Navy are established, upheld and sustained by a combination of leadership by example, education and training, and by regulation through the Royal Navy's discipline system. Discipline is founded in the doctrine of command which places the responsibility for maintaining discipline on commanders. In order to fulfil their disciplinary responsibilities, commanders are granted appropriate authority. Most professions and organisations have regulatory or disciplinary codes. For the Royal Navy, Commanding Officers (COs) are granted statutory powers under the Armed Forces Act 2006, including the authority to issue lawful commands, in order to support their disciplinary role. One of the objects of military law is to provide for the maintenance of good order and discipline among members of the Services and, in certain circumstances, among others who live or work in a military environment. This it does by supplementing the ordinary criminal law of England and Wales with a special code of discipline and a special system for enforcing it. Such special provision is necessary in order to maintain, in time of peace as well as war, and overseas as well as at home, the operational efficiency of an armed force. It is for this reason that acts or omissions which in civil life may amount to no more than breaches of contract (like failing to attend work) or indeed mere rudeness (like being offensive to a superior), become in the context of Service life punishable offences.

b. Discipline is one of the Royal Navy's Six Core Values:

The Royal Navy must be a disciplined service if it is to be effective. We must therefore obey all lawful orders from our superiors. Self-discipline is fundamental; being able to discipline ourselves will earn us the respect and trust of others, and equip us to cope with difficult, individual decisions we will have to make during our service.

c. Discipline in the Service is underpinned through:

(1) **Formal Disciplinary Action.** Action taken to uphold good order and Service discipline using statutory powers.

and,

(2) **Administrative Action.** Action taken to rehabilitate, censure or initiate sanctions to correct professional or personal failings.

d. The fundamental purpose of the disciplinary and administrative processes is to foster and promote the discipline and behaviour required for the maintenance of operational effectiveness.

SECTION 2

DISCIPLINE POLICY, GOVERNANCE AND CHAIN OF COMMAND

2002. Governance

Governance of discipline and related legal matters in the Armed Forces is the responsibility of the Service Justice Board (SJB). This sits at the head of the Service Justice System and comprises uniformed, MOD civilian, and other governmental, legal and judicial authorities with a shared and vested interest in the maintenance of discipline in the Armed Forces in direct support of the Moral Component of Operational Capability. The Service Justice Executive Group (SJEG) transacts routine Service discipline and other legal business in support of the SJB.

2003. Discipline Policy

a. The generation, articulation, correlation and implementation of Discipline Policy for the Service is the responsibility of Head Naval Legal Services, drawing on executive input from other NCHQ directorates and Royal Navy commands as required. Broad legal policy for the Service is contained within References A to G in addition to this Chapter of BRd 3(1).

b. Of note, in October 2009 the Armed Forces Act 2006 (AFA 06) replaced the single Service Discipline Acts and is the single, primary, statutory base (complemented by approximately 80 pieces of secondary legislation) for the disciplinary regime in force for members of the Armed Forces, including reservists and former members, as well as civilians or other individuals whose professional, geographic or familial links to the Armed Forces confer certain status and jurisdiction.

2004. Jurisdiction

The Armed Forces Act 2006 applies to all regular Service personnel, wherever they are in the world at all times and to reservists at certain times. Certain civilians may also be subject to the Act at certain times and in certain locations. Detailed guidance is contained in Chapter 3 to JSP 830 Manual of Service Law (the MSL).

2005. Processes

Disciplinary processes are set out primarily within the MSL and this chapter. See also FLAGO Chapter 16.

2006. Authority

The authority for the investigation, bringing of charges, summary hearing or Court Martial is set out in AFA 06, QRRN and this chapter.

2007. Service Law Harmonisation

AFA 06 harmonised Service law and provides a tri-Service system that is designed to ensure consistency and parity when dealing with personnel, regardless of their Service. The increasing trend towards joint operations and joint defence organisations means that operational effectiveness is more efficiently supported by this single system of Service law.

a. **Summary Discipline.** Summary Hearings and the role of the CO are at the heart of Service discipline and remain the mechanism by which most offences are addressed. Summary offences and powers are harmonised across the Services. Personnel of one Service of the UK Armed Forces who serve in or with one of the other Services of the UK Armed Forces may come under the jurisdiction of the CO of the unit in which they serve or are attached. Similarly, Service personnel serving in Joint organisations come under the jurisdiction of the CO of that unit or formation. All personnel dealt with at Summary Hearing have the right to appeal to the Summary Appeal Court.

b. **Service Prosecuting Authority.** There is a single independent Service Prosecuting Authority (SPA), staffed by lawyers from all three Services and civilian lawyers, and headed by a civilian Director. The SPA determines whether or not to prosecute those who are alleged to have committed offences contrary to Service law where cases are referred to it by the Service Police, the CO or on election by the accused, and the SPA conducts the prosecution in the Court Martial.

c. **The Court Martial.** The Court Martial is available to deal with the most serious offences or where the accused elects for trial by Court Martial. The Court comprises a Judge Advocate and a minimum of 3 or 5 Service members, depending on the seriousness of the offence. The unqualified right for all personnel to elect for trial by Court Martial regardless of the seriousness of the offence is a fundamental tenet of the Service Justice System.

SECTION 3

ROYAL NAVY HIGHER AUTHORITIES, DISCIPLINE CHAINS OF COMMAND AND SOURCES OF LEGAL ADVICE

2008. Organisation

a. The CO is central to the Service discipline system and is responsible for the effective administration of discipline at unit level. AFA 06 requires the CO to seek Higher Authority permission before exercising certain functions (in essence, for permission to hear certain specified charges, or to be granted 'extended powers' to impose certain punishments).

b. In general terms, powers of summary discipline are vested in officers who are COs of units (meaning ships or establishments) or appointed as the 'Commanding Officer' of a body of service personnel. AFA06 also empowers 'Subordinate Commanders' who may exercise powers of summary discipline under the authority of the CO.

c. Service policy requires that those who exercise powers of summary discipline are authorised in advance (either as COs of ships or establishments, or as otherwise authorised) – and that the relationship between subordinate commander, Commanding Officer and Higher Authority is approved.

d. AFA 06 defines a Higher Authority (HA) as any officer in the CO's disciplinary chain of command who is superior in that chain of command to the CO. Within the Service, those appointments in which officers may act as HAs for discipline purposes are as follows[1]:

Fleet Commander
Second Sea Lord and Deputy Chief of Naval Staff
Director Strategy and Policy
Director Develop
Director People and Training/Naval Secretary
Director Force Generation
Director Acquisition
Director Submarines
Director Naval Staff
Commander Operations
Commander Strike Force
Commandant General Royal Marines
Commander British Forces Gibraltar
United Kingdom Maritime Component Commander Bahrain
Commodore Surface Flotilla
Commodore Submarine Flotilla
Deputy Director Aviation and Commodore Fleet Air Arm
Deputy Director Policy and Engagement
Operational Advantage Centre Director
Naval Base Commanders: Portsmouth, Devonport and Clyde

[1] These changes reflect the structural changes to the RN as implemented through the 2020 RN Transformation programme.

Head of Navy HealthcareCommander Fleet Operational Sea Training
Commander Maritime Reserves
Commander Littoral Strike Group
Commander Carrier Strike Group
Commander 3 Commando Brigade Royal Marines
Assistant Chief of Staff Maritime Warfare
Chief of Staff Navy Command Headquarters

e. The Service disciplinary chain of command is set out in the table at Table 20-1. This reflects wherever possible the administrative and operational chains.

f. Where HA authority is required, COs are to apply to the HA specified in the table, unless the HA is unavailable or directed to do otherwise by that HA.

g. Reference B Chapter 9 and this chapter give detailed instructions for making applications to HA for disciplinary matters.

h. Legal advice to COs and HA is available from the appropriate Legal Adviser listed in Table 20-2 below.

2009. Meaning of 'Commanding Officer'

a. The CO is central to the functioning of AFA 06. Under the Act he or she is responsible for making key decisions throughout the whole of the disciplinary process, including (as applicable) authorising custody, bringing a charge, hearing a charge summarily or referring a case to the SPA for trial by Court Martial. Under the Armed Forces Code of Practice for Victims of Crime 2015 as outlined at Annex 20K, the CO also has responsibilities in relation to certain complainants.

b. In most circumstances the identity of the CO will be readily apparent and will be the officer appointed in command of the ship, unit or establishment in which an individual is serving. The Armed Forces (Meaning of 'Commanding Officer') Regulations ('the meaning of CO Regulations') specifies that a person must be appointed 'in command' of a unit, ship, establishment, and if any doubt arises over the authority of an individual to act as a CO for discipline purposes, the appropriate Career Manager and JPA record should be consulted (see also Chapter 59 and the Annexes thereto). Where doubt remains, the matter should be referred to CNLS SO1 Discipline Law.

c. Regulation 3 of the Meaning of CO Regulations also allows the appointment of other officers to be the CO for purposes under the Act, such as exercising disciplinary functions. Such 'Regulation 3' or 'bespoke CO' appointments may be made in circumstances where the normal CO is unavailable, such as when elements of a unit are on detached duty, or when it would be inappropriate for the normal CO to exercise disciplinary functions. An example of the latter would be when a number of individuals from different units are accused of joint offending which may be appropriately dealt with by Summary Hearing. Rather than holding several separate summary hearings, one CO can be nominated under Regulation 3 to hold a single hearing.

d. The Defence Council has authorised Royal Navy officers (this includes officers of the Royal Marines) in Command at 1* rank or above to appoint officers for Regulation 3 purposes with respect to personnel within their chain of command. In determining the chain of command, Table 20-1 should be consulted. Where it is necessary to make such an appointment for a large number of individuals across a range of commands, Dir P&T/Naval Secretary will normally be the most appropriate officer to make such appointments. Legal advice should be sought.

e. It should be noted that Regulation 3 'bespoke CO' appointments carry no authority broader than that which is contained in the appointment itself. Thus, where the appointment is made for 'disciplinary purposes', the officer so appointed has the full powers that the original parent CO would have had to authorise custody or bring charges etc. but they do not have powers in relation to other non-disciplinary matters (for example, the handling of Service Complaints) which remain the responsibility of the parent CO. Similarly, the appointment relates only to matters regulated under AFA 06. It does not convey any authority in relation to matters not regulated by the Act, such as the disposition of forces or the conduct of operations.

f. Wherever practical before exercising a function likely to have a significant impact on an individual (e.g. imposing a sentence of detention or reduction in rank) a Regulation 3 CO should normally consult the parent unit CO. The decision remains, however, that of the Regulation 3 CO.

2010. Personnel Embarked in RFA Vessels

a. **Royal Fleet Auxiliaries.** RN and RM personnel embarked in RFA vessels remain subject to AFA 06 at all times and are not subject to the RFA's own disciplinary or administrative procedures. Key to the successful integration of Naval personnel into a RFA vessel is the maintenance of the highest professional standards and a culture of mutual respect and trust. There have been occasional cases where this respect and trust has been undermined by a perception that the Service Justice System is slow and unresponsive; this has been particularly so where cases have had to be referred to parent units for decisions and authorisations. To avoid delay, units should consider the appointment, whenever practicable, of a temporary CO in accordance with the provisions of Regulation 3 of the Armed Forces (Meaning of "Commanding Officer") Regulations (see Para 2009 above). The appropriateness of such an appointment will vary according to the type and number of personnel embarked and the length of the deployment. For example, there may be little utility in appointing a Regulation 3 CO where only a few individuals are embarked for a two-week exercise, but more benefit may be gained when a large number are drawn from disparate units for a prolonged deployment. Any Regulation 3 CO appointed may only exercise their powers in relation to those under their command and has no authority over the vessel or its RFA crew.

b. Whether a Regulation 3 CO is appointed or not, the senior officer of embarked RN/RM personnel is responsible for ensuring that all those subordinate to them comply with the orders and directions of the ship's Commanding Officer. The CO of a RFA vessel remains ultimately responsible for the safety of the ship and personnel onboard and retains the right to have any individual removed from the vessel in order to ensure the safety of the ship. BRd 875[2] 0322 gives guidance to RFA COs on the circumstances in which they can exercise their right to remove embarked RN/RM personnel and the procedure to be followed, including the requirement to consult DACOS RFA Personnel Ops SO1 and the Regional Legal Office.

c. The RFA alcohol testing policy does not apply to embarked RN/RM personnel. Whilst it is not unlawful to require embarked personnel to comply with RFA breath testing, this should only be used as a last resort, where existing AFA 06 disciplinary provisions - s.20 (drunkenness) and s.20A (exceeding prescribed limits) – are not practicable.

2011. Embarked Army, RAF and Royal Marines Units

a. The MSL Chapter 2, paragraph 22 provides that, as a general rule, when Army and RAF personnel are embarked in HM Ships they are subject to the exclusive jurisdiction of the CO of the ship. It also provides that, when a 'formed unit' of the Army or RAF is embarked, the default position is that the CO of that ship (or ships if the embarked unit is dispersed across a number of vessels) will exercise disciplinary powers over the unit unless prior notification has been given by HQ Land Forces or Air Command, in which case the COs of the Army and RAF formed units may retain their full disciplinary powers when embarked. This special arrangement for formed units is subject to the caveat that the CO of the ship may take jurisdiction in any case where an alleged offence committed by one of the embarked personnel affects the operational efficiency of the ship or the incident occurs overseas where the sovereign immunity of the ship is an operative factor.

b. Although not specifically mentioned in the MSL, the above policy applies in relation to embarked RM personnel. Where RM personnel are embarked as singletons or sub-units in warships (including those units which form part of the Ship's Company, e.g. the Assault Squadrons embarked in amphibious shipping or a FSRT in FF/DDs) the CO of the ship will be their CO for disciplinary purposes, although they may delegate subordinate commander powers to, for example, OCRM. Where RM units embark as formed units (i.e.. units which have their own COs) the unit CO retains their disciplinary powers, subject to the CO of the ship (or ships) having the discretionary right to take jurisdiction over those matters outlined in sub-para a above. This aligns RM units with embarked Army and RAF units. While formal notice in writing will not be required for RM units (unlike the other Services) COMOPS is to be informed of any RM CO's declared intent to exercise retained disciplinary powers, e.g. at pre-embarkation conferences.

Notes:

1. The disciplinary powers of sub-commanders are not inherent in their appointments. These powers must be specifically delegated – in writing – by the CO and the exercise of those powers by sub-commanders will remain subject to certain limitations (see the MSL Chapter 6).

2. A SNO does not automatically acquire powers as CO but may be appointed as CO for disciplinary purposes under 'Regulation 3' (see Para 2009).

3. Where the nominated 1 or 2* Higher Authority is unavailable, another Higher Authority from the list at Para 2008 may act in lieu.*

4. In accordance with 2018DIN01-073 (see the MSL Chapter 44), disciplinary responsibility for joint units is divided between the three Services. Lodger dental and medical units will fall under the disciplinary chain of their host units.

5. Special arrangements apply to Army Air Corps units located within Naval Air Stations – Cos should seek legal advice.

6. Special arrangements apply to lodger sub-units (see the MSL Chapter 2 for definition) within Naval Establishments, e.g. Submarine School and Board and Search School at HMS RALEIGH. Refer to relevant local memoranda and seek legal advice as required.

7. 1 Has are defined where there exists an applicable Command position to fulfil this function.*

8. The roles of COBs and NBCs in fulfilling these roles remain extant but will be reviewed in the event of further developments arising out of the RN Transformation Programme.

*9. As part of the restructuring and alignment of the CSF Enterprise under RN Transformation, COS CSF, COM LSG and COS CSG have all been appointed as Cos under AFA 06 and ACOS MARWAR has been nominated as a 1*HA as per Fleet Cdr decision of 30 Jul 20.*

10. Joint Hospital Groups South and South West replace the names Defence Medical Group Portsmouth and Derriford, respectively.

SECTION 4

DISCIPLINARY AND ADMINISTRATIVE ACTION

2012. Discipline and Administrative Action - the Distinction

a. Separate to, but running in parallel with, the formal disciplinary system, there exists a range of administrative measures and sanctions that may be used to deal with personal or professional failings or minor indiscipline. Guidance on the administrative sanctions which may be imposed following a minor, serious or gross security breach committed by Royal Navy or Royal Marines personnel is outlined at Annex 20P.

b. The distinction between disciplinary action and administrative action is an important one. As a general rule, disciplinary action should be used where an offence is suspected which is wholly deserving of the consequences of the application of Service law and where an individual should, if convicted, expect to be punished. Administrative action – which is intended to address professional and personal shortcomings – should be used where it is clear that criminal and/or disciplinary measures are not necessary, appropriate or desirable. Any administrative sanction must be proportionate to the professional failing and must seek to correct the shortcoming, rather than punish the individual. While distinct, the two forms of action are not mutually exclusive, however; ‘upholding good order and Service discipline’ and ‘correcting personal or professional failings’ may cover the same central ground and, typically, disciplinary action may be appropriate where (e.g. minor) administrative action has patently failed for personal shortcomings such as lateness or slackness.

c. The availability of an administrative action regime does not preclude the Command from proceeding directly to disciplinary action where that is considered to be the more appropriate course. Placing an individual under warnings for discharge or reversion (as applicable) should always be considered where that person displays repeated indiscipline, even when administrative action alone has been used to seek to address the behaviour. Warnings may be particularly effective in dealing with persistent minor absence or minor but repeated negligence by an individual in the conduct of their duties. Where consideration is being given to administrative action other than warnings in the context of matters that are the subject of disciplinary proceedings, Cos should normally wait for the conclusion of the Summary Hearing or Court Martial before deciding on administrative measures.

d. Minor Administrative Action (MAA) may not be taken in conjunction with disciplinary action for the same misdemeanour, but it may be appropriate where there is insufficient evidence to support a formal charge but, on the balance of probabilities, there remains clear evidence of some other failing. Similarly, some professional failings can be dealt with appropriately without recourse to disciplinary action, MAA or major administrative action. For example, minor transgressions can and should be corrected informally and immediately, often verbally.

2013. Deciding on Method of Investigation

a. **Generally.** The decision whether to have a matter investigated by RN Police (RNP)[6], or through some other, formal, disciplinary investigation must be taken with care. In the event that an allegation or apparent shortcoming is amenable to MAA or other administrative disposal, an RNP investigation may not be required. Cos should ensure that the authority to consider and use MAA is clearly understood within their unit. Superior officers (at every level) should be supported in their decision to use MAA, but they should be guided on when it will be appropriate to use it (and crucially, when it will not be) by the CO and the unit management. The process for deciding whether and how to use MAA is set out in JSP 833 Chapter 3 which should form the basis of unit orders and training. It should be noted that, under AFA 06, 'prescribed circumstances' or 'Schedule 2' offences **must** be reported to the RNP as a matter of law and regardless of whether the CO believes that administrative disposal would be more appropriate. Guidance is contained within the MSL Chapter 6.

b. **Alleged Sexual Offences.** All alleged sexual offences are to be reported to the RNP for investigation.

[6] The term RNP embodies the Royal Marines Police Troop (RMPT) and, for the purposes of this Chapter, RNP can also be read as 'Service Police'.

SECTION 5

MINOR ADMINISTRATIVE ACTION

2014. Introduction

a. Minor Administrative Action (MAA) gives the power to all Service personnel from Leading Hand/Corporal upwards to impose 'minor sanctions' to rectify minor professional and personal failings (e.g. minor leave breaking, poor turnout, failure to comply with Standing Orders, failure to attend, etc). A similar but distinct system of Remedial Training is used in training establishments for the management of personnel during Phase 1 and 2 Training, but this is distinguished from the MAA regime which applies in all units.

b. The tri-Service policy is contained in JSP 833 – Minor Administrative Action (Ref A). All ships, units and establishments are to follow JSP 833 for the guiding principles and administrative arrangements for MAA. This section provides single Service guidance to supplement the JSP.

2015. Aim

This Section aims to guide RN/RM Cos in the application and administration of MAA within RN/RM units.

2016. Overview

a. MAA is part of the overall system for the maintenance of Service ethos and standards that encompasses everything from the immediate rebuke to minor and major administrative action, summary trial and Court Martial. The CO is central to the maintenance of discipline within their unit; they set the standard that is essential for operational efficiency and timely justice.

b. This Section is designed to give Cos a framework on which to write their own unit orders based on the context in which their unit operates.

2017. Whether to Take Minor Administrative Action or Disciplinary Action

a. It will be up to Cos to decide and define whether MAA or disciplinary action is the appropriate route to take depending on the circumstances. Seagoing units will operate different routines to shore establishments, which may in turn differ from air stations, while submarines operate differently to surface units and units undergoing extended maintenance periods may adopt tailored working practices. Some guidance on the types of individual shortcoming, which might amount to a disciplinary offence but which could also be suitable for MAA, is at Para 2028 below. Cos should also consider including a requirement that, where it is unclear whether MAA is an appropriate response, such cases should be referred to the Chain of Command.

b. Superior Officers (Leading Hands and above in the RN, LCpl and above in the RM) are able to use MAA instead of instigating formal disciplinary action to deal with minor professional and personal failings. MAA is never to be taken in conjunction with disciplinary action for the same misdemeanour or shortcoming. The freedom to choose to deal with a shortcoming through MAA as an alternative to disciplinary action persists only up to the point at which a person committing the personal or professional failing is charged in relation to that failing. The moment that a charge is brought (i.e.. the accused has been served with a charge sheet and relevant supporting papers) is that when MAA is no longer an option for the Command.

c. However, MAA must not be confused with major administrative action. This description of administrative action (which includes, for example, Discharge Shore or SNLR, Reversion and warnings for these procedures etc), may - and often should - be taken in conjunction with disciplinary action. In addition, personal failings may be noted in appraisal reports in accordance with current guidance if necessary. If in doubt as to the potential combination of desired measures, legal advice should be sought.

d. Administrative action is intended to set straight professional or personal shortcomings and should not be used in response to matters which are clearly criminal in nature. The action taken should fit the failing and be clearly designed to correct it. MAA policy has been developed to correct inefficiency, unacceptable behaviour and minor misconduct. This supports all levels of leadership, particularly at lower levels, by ensuring that personnel are empowered to take the most appropriate action and to prevent any temptation to take unofficial ‘punitive’ action.

2018. Minor Administrative Action and the Chain of Command

Authority to impose MAA lies throughout the chain of command, subject to the direction of the CO. By granting more junior personnel the authority to deal swiftly with failings in their subordinates, MAA strengthens the chain of command and emphasises the importance of leadership by superior Officers (Leading Hands and above). Cos are therefore encouraged to delegate authority to impose MAA to the lowest level commensurate with the efficient management of their ships, establishments and units.

2019. Imposition of Minor Administrative Action

a. The guidance in JSP 833 is to be followed in all cases. All matters should be dealt with at the lowest level commensurate with maintenance of discipline and standards and the efficient management of the unit. It is therefore important to decide as quickly as possible the most appropriate course of action. Delay in imposing MAA may undermine the system, and all MAA should usually be initiated within 48 hours of discovery of the failing. This time limit may be extended where necessary, such as where a disciplinary investigation was initially considered appropriate but subsequently terminated without bringing a charge. It may be possible to deal with a professional or personal failing immediately, without resorting to MAA or formal disciplinary action. For example, someone who turns to in an unacceptable state of dress may be ordered to clean their boots or iron their shirt; but where someone turns to 15 minutes adrift MAA may be appropriate depending on the ship's programme and impact on the unit (disciplinary action may be necessary where the ship is under sailing orders). Guidance as to the types of AFA 06 offence which might be suitable to be dealt with by MAA as an alternative to disciplinary action is given below.

b. In order to make this judgement, all personnel involved in the process of imposing and administering MAA should be given appropriate training and guidance within the unit concerned, including instruction on the content and application of the CO's policy for the individual unit, contained in Ship's Standing Orders or a CO's Temporary Memorandum as appropriate.

c. Any MAA sanction imposed must fit the failing identified in order to restore the service person's efficiency. Guidance as to which sanction might be appropriate to given situations should be provided during such internal training in order to ensure consistency within units. Superior Officers authorised to impose MAA, and Reviewing Officers, should also be instructed on the two-stage test to be applied before imposing any sanction:

(1) Has a failing occurred, on the balance of probabilities (i.e. is it more likely than not that the person has failed to meet the required standard, committed the misdemeanour alleged etc.)?; if so;

(2) Is the Service test satisfied? i.e. *'Have the actions or behaviour of a serviceperson adversely impacted or are they likely to impact on the efficiency or operational effectiveness of the Service?' "Service"* in this context includes the duty watch, department, ship, unit etc. as appropriate to the situation.

d. Consideration should be given to advising those imposing sanctions, if in doubt as to whether to impose a sanction or which sanction to impose, to seek advice from an appropriate person of Reviewing Officer rank (see paragraph 2021 below) before any action is taken. In the interests of empowering Leading Hands and above to take appropriate action to correct failings as swiftly as possible, however, with proper training and published guidance it should not usually be necessary for designated superior officers to seek prior approval for such action. Training in the purpose and application of MAA is included in Command Courses and the Divisional Officers Course.

2020. Available Sanctions

a. There are a number of authorised minor administrative actions available and these are set out below. In addition, Table 20-4 is to be consulted on the sanctions applicable to each rank/rate:

(1) **Report Back Muster/Parades.** Up to three musters/parades (45 minutes maximum duration) between 0700–2300, in whatever appropriate uniform and equipment as directed by the superior rank imposing the sanction. These may be appropriate in cases of poor timekeeping, turnout or standards of equipment. Relevant skills training, such as properly supervised drill and physical training, may be included if the service person's failing warrants it. A drill lesson can only be imposed as a sanction to address failings in drill. All training is to be conducted by an appropriately qualified instructor. Presenting at a poor standard may result in an order to 'show again', up to a maximum of two 'show again' musters for each Muster/Parade imposed.

(2) **Extra Duties/Tasks.** Up to three extra tasks or duties may be imposed to correct a professional failing directly connected to an individual's normal work or duty. The additional task or duty nominated must be of the same nature as the duty in which the individual failed. For example, a minor failure on gangway watch as QM could result in extra QM duties, or poor task-book progress may lead to further task-book training. Any duty or task should be of the same or lesser duration than the normal period of duty. A duty should not extend beyond 24 hours and there should be at least 48 hours between each 24-hour period of extra duty.

(3) **Extra Work.** Up to three periods of four hours (maximum) of extra work can be given. Work is to be of a type that benefits the unit but is not associated with the individual's normal duties. Such an action would be appropriate to address a failing not directly associated with an individual's normal tasks or duties. For example, a failure to conduct a chart outfit spot-check may result in the imposition of further spot-checks or similar administrative tasks.

(4) **Return to Unit (RTU).** RTU can be used during non-career courses or temporary loan (for example a squadded rating loaned to another unit for employment); in most circumstances the person should have been previously warned and their unit informed of the situation.

(5) **Informal Interview.** An Informal Interview may be conducted in order to brief a serviceperson on their shortcomings and to give advice on how they may be rectified. Such an interview would normally be expected to take place within the divisional system when a serviceperson needs to be made aware of minor failings, weaknesses, or mishandling of personal affairs (for example financial irresponsibility).

(6) **Formal Interview.** A Formal Interview is intended to make a serviceperson aware of their shortcomings and advise them on how to rectify their behaviour. It would be appropriate when an individual's persistent personal and professional failings need to be addressed before more formal action becomes necessary. The interview should be noted on the form T-WS-MAA02 'Record of Formal Interview', giving details of the failing and the actions required to correct it. For a rating this will normally be conducted by the Divisional Officer or Divisional Senior Rating; for an officer this would be conducted by the training Officer, HoD or CO as appropriate. Failure to respond to a Formal Interview may result in disciplinary or major administrative action such as formal warning or censure.

b. No sanctions other than these, and the relevant limitations on imposition, are permissible (albeit noting the provision below at Para 2026.c regarding the realignment of leave balances for incidents of AWOL). All minor sanctions except for Informal and Formal Interview are to have been completed within eight days of being issued. Imposition of report back musters and associated skills training, extra tasks and extra work may not be combined, i.e. only one type may be imposed to correct a failing. All must be properly supervised, at an appropriate level, throughout.

2021. Reviewing Officers

a. Cos should designate Reviewing Officers within their units, **both** within departments (it is recommended that DEPCOs be designated for MAA imposed to Junior Ratings, and that HODs be designated to review MAA imposed to Senior Ratings) **and** on a whole ship basis (it is recommended that EWO/BWO be designated for CPO/CSgt Ratings and below and the XO (of at least SO2 rank) for WO1s, WO2s and officers). These designations should be promulgated within the unit. Reviewing Officers will decide whether or not MAA is appropriate in the circumstances. If the Reviewing Officer considers that MAA is appropriate, they must offer the subject of the sanction the opportunity to request a formal review, and in all cases ensure the person in receipt of MAA is informed about the sanction and the reasons for its imposition.

b. The table below shows those ranks and rates that may be made the subject of sanctions; who can impose sanctions; who reviews the imposition and which sanctions may be imposed upon certain ranks or rates. A CO may vary upwards the rank or rate of those who have power to impose a minor sanction if this would be more appropriate to the maintenance of operational effectiveness within the unit; the precise authority of personnel will be dictated by the CO of a unit, based on the needs of that unit.

Table 20-4. Naval Sanctions

Ser (a)	Subject (b)	Minor Sanction imposed by (Lowest Rank/Rate) (c)	Minor Sanction Reviewed by (Lowest Rank/Rate) (d)	Sanctions available (e)
1	Cdr/Lt Col	Capt RN/Col	Cdre/Brig	RTU, Informal Interview, Formal Interview
2	Lt Cdr/Maj	Cdr (Note 1)/Lt Col	Capt/Col

8	LH/Cpl	PO/Sgt	CPO/CSgt	
9	LCpl	LH/Cpl	PO/Sgt	
10	AB/Mne	LH/LCpl	PO/Sgt	All Available

Notes:

1. Except that a CO of the rank of Lt Cdr/Maj may impose sanctions at this level.

2. Except that a CO or MWV XO of the rank of Lt may impose sanctions at this level.

3. Except that a CO of the rank of Lt may impose sanctions at this level.

2022. Conduct of MAA Review

a. Whenever MAA has been imposed it must be reviewed by a Reviewing Officer. The Reviewing Officer is to ensure that it has been appropriately investigated by the person initiating the action; that correct procedures have been followed; and that the sanction is an appropriate one in the circumstances. The Reviewing Officer may decide that MAA is inappropriate and cancel the sanction. This might be because they consider that either disciplinary or major administrative action should be taken instead or, equally, it may be that they deem that no action is necessary. If, having reviewed the matter, a Reviewing Officer decides that MAA is appropriate, they may then either uphold or reduce the sanction imposed.

b. Having confirmed that MAA is appropriate, the Reviewing Officer must offer the recipient of the sanction the opportunity for a formal review. If the individual does not request such a review, then the sanction is to be performed. If, however, the subject of the MAA requests a review, that person is to be offered the opportunity to say why they believe the finding to be unfair or why they should not receive the sanction imposed. The Reviewing Officer is then to consider the matter considering the representations made by the subject of the sanction and any other relevant factors. The Reviewing Officer may decide to uphold the sanction imposed, to reduce it or to cancel the MAA altogether.

c. In conducting a review, the Reviewing Officer must ensure that:

(1) On the balance of probabilities, the alleged incident took place;

(2) The Service Test has been satisfied; and

(3) The sanction imposed is fair and proportionate.

d. The person seeking formal review should normally be given the opportunity to appear before the Reviewing Officer to state their case. In certain circumstances, for example when a ship is at sea, it may not be possible to take the individual before an officer of appropriate rank; in such cases review may be carried out by other means (including telephone and electronic means), and the Reviewing Officer should sign the form at the first reasonable opportunity thereafter.

e. The review is normally to take place as soon as possible after imposition of the sanction and, in any event, within 24 hours and before any sanction is performed.

2023. Complaints and Redress

If, after review by an appropriate superior, an individual considers him or herself to have been wronged by any administrative action taken then they are entitled to submit a Service complaint under AFA 06 and JSP 831. The submission of a complaint must not delay the conduct of any sanction imposed.

2024. Records and Subsequent Action

a. The administrative process is quicker and simpler than the disciplinary process. The action must be properly recorded, however, to ensure fairness, to discourage misuse and to facilitate audit by higher authority. A full audit trail is also required in order to ensure the MAA system is used appropriately. Continual failings on the part of an individual should lead to a formal warning (e.g. DO's warning for Discharge Shore (Inadequacy) or Reversion) or, if a particular failing is repeated several times and it amounts to an offence under the AFA 06, disciplinary action should be taken. It will rarely be appropriate for one superior Officer to take MAA against an individual repeatedly. All cases of repeated failing should be discussed with a Reviewing Officer, Head of Department or the CO as necessary.

b. Once approved, the action should be formally recorded on form T-WS-MAA01 'Record of Minor Sanction Awarded' and placed in a unit folder[7], in a Departmental subsection. In addition, if a Formal Interview is conducted this must be recorded on form T-WS MAA02 'Record of Formal Interview' and placed with the individual's service documents for the period of their current assignment. Both forms are contained in JSP 833 and are available from JPA.

c. The recording proforma is straightforward and contains the details of the individual involved, details of the personal and/or professional failing and the remedial action proposed. It must be signed by the subject and the imposing officer and countersigned by the Reviewing Officer. This will ensure that the action is properly endorsed and allows for formal review. Having endorsed the imposition of a sanction the Reviewing Officer is to inform a rating/other rank's DO or an Officer's 1RO of the decision. When a sanction is completed the tear-off slip is to be signed by the person supervising the conduct of the sanction.

d. Departments are to keep a record of MAAs awarded which is to be inspected monthly by the XO/HoD/OC and quarterly by the CO. Records of Formal Interviews are also to be retained with the individual's Divisional Documents or personal files as appropriate for the duration of their assignment and a copy held by the individual subject to the interview. If an individual is assigned when subject to the review period of a Formal Interview, the CO must decide whether the receiving unit should be made aware of the circumstances. Records of MAAs are to be held by the unit for 2 years for audit and inspection. Flotilla Commanders and FOST will inspect records during routine visits/OST periods to monitor consistency of standards.

2025. Requirement for Returns

There is no requirement for a formal return on MAA: units should retain records of individual MAAs until the individual leaves the unit, or for two years, whichever is less. The register of MAAs imposed should be retained and archived iaw JSP 441 for statistical purposes. There is no facility or requirement to record MAA on JPA.

2026. Unauthorised Absence

a. **Use of Minor Administrative Action (MAA).** In the first instance, where it has been established on the balance of probabilities that an individual has been absent without leave, units should consider whether or not the matter can be dealt with appropriately by means of MAA. Disciplinary action should only be taken against an absentee where a decision has been made not to use MAA. Unless the Command determines that there are exceptional reasons to merit departure from this policy, administrative action should be taken in the following circumstances:

(1) For ships and submarines alongside in the UK which are not under sailing orders, unauthorised absence up to a maximum of 48 hours.

[7] 'Unit' denotes the level in the chain of command at which the day-to-day management of MAA is devolved. There should normally be only one MAA Folder per Unit, with subsections for Departments; held by the EWO/COX'N/BWO for that Unit. Dependent upon the size and complexity of a unit or establishment, however, the CO may deem it necessary to hold more than one.

(2) For ships and submarines alongside abroad, which are not under sailing orders, unauthorised absence up to a maximum of four hours.

(3) For all UK shore establishments, unauthorised absence up to a maximum of 48 hours.

b. Exceptionally, unauthorised absence may be dealt with by disciplinary rather than administrative means when:

(1) The ship or submarine is under sailing orders.

(2) Previous use of MAA or disciplinary action has proved ineffective in addressing an individual's misconduct or unauthorised absence. In these cases, units should consider whether the individual is fit to retain their rate or rank or to remain in the Service, instigating warning procedures where necessary.

(3) Due to their absence, the absentee was unable to perform their duty as a member of the Duty Watch or in support of a major evolution (e.g. ammunitioning ship).

(4) The absentee ignored orders to return immediately to the unit or establishment.

(5) The individual was absent deliberately in order to avoid an arduous duty or pre-deployment training.

(6) For deployed units, significant resources were expended trying to locate the individual.

(7) Individuals breached a local curfew.

(8) The Command determines that disciplinary action is necessary in the circumstances to maintain operational capability.

c. **Leave Account Regularisation.** For absences of between four and 48 hours, one day's leave may be deducted from an individual's leave account for each day or part of a day of unauthorised absence. Deductions to a leave account may only be imposed by the CO or an officer designated by the CO.

d. Whether or not a decision is made to take administrative or disciplinary action against an absentee, units must still comply with Provost Marshal (Navy)'s Technical Instruction Number 8 and take the necessary action in relation to missing persons.

2027. Conclusion

MAA has a proven track record for dealing with minor personal and professional failings without resort to time consuming, resource intensive disciplinary procedures, or worse, failing to take appropriate action or resorting to unofficial 'punishments'. Used properly, it is a powerful weapon in the management arsenal. Cos are to ensure it is used appropriately within their units, that consistency of approach within units is maintained, that Leading Hands and above are thus suitably empowered to enforce ethos, discipline and standards, and that the appropriate use of MAA is recognised.

2028. Guidance On Offences Which May Or May Not Be Dealt with Using MAA

This is at Table 20-5 below.

Table 20-5. Guidance on Offences Which May or May Not Be Dealt with Using MAA

s.9 AFA 06	**ABSENCE WITHOUT LEAVE CONTRARY TO SECTION 9 OF THE ARMED FORCES ACT 2006**
Administrative Action	• IF THE UNIT CIRCUMSTANCES ARE CONSIDERED APPROPRIATE BY THE CO - ABSENCES OF UP TO 48 HOURS MAY BE DEALT WITH BY MAA. HOWEVER, THIS IS NOT MANDATED AND IF THERE ARE AGGRAVATING FACTORS THEN COMMAND IS ENTITLED TO USE DISCIPLINARY MEANS IF IT IS DEEMED TO BE MORE APPROPRIATE IN THE CIRCUMSTANCES. • Consult JSP 833 for guidance.
s.10 AFA 06	**FAILURE TO CAUSE APPREHENSION OF DESERTERS AND ABSENTEES CONTRARY TO SECTION 10 OF THE ARMED FORCES ACT 2006**
Administrative Action	• May not be dealt with by MAA.
s.11(1) and 28(1)(b) and 28(2) AFA 06	**MISCONDUCT TOWARDS A SUPERIOR OFFICER CONTRARY TO SECTION 11(1) (USING VIOLENCE) and RESISTANCE TO ARREST CONTRARY TO SECTION 28(1)(b) and 28(2) (USING VIOLENCE) OF THE ARMED FORCES ACT 2006**
Administrative Action	• May not be dealt with using MAA.
s.11(2), s.12, s.28(1)(a) and s.28(1)(c) AFA 06	**MISCONDUCT TOWARDS A SUPERIOR OFFICER CONTRARY TO SECTION 11(2) (NO VIOLENCE), DISOBEDIENCE TO LAWFUL COMMANDS CONTRARY TO SECTION 12 and RESISTANCE TO ARREST (NO VIOLENCE) CONTRARY TO SECTIONS 28(1)(a) or 28(1)(c) OF THE ARMED FORCES ACT 2006**
Administrative Action	• Insubordination must be suppressed as soon as possible. The rapid institution of MAA may be more appropriate and have more impact than a protracted disciplinary investigation. MAA, however, will generally only be appropriate when the overall incident is minor and there are mitigating factors.
s.13 AFA 06	**CONTRAVENTION OF STANDING ORDERS CONTRARY TO SECTION 13 OF THE ARMED FORCES ACT 2006 (General guidance)**
Administrative Action	• May be dealt with by MAA except where the contravention would have been dealt with under the Road Traffic Act had an equivalent offence been committed on the public highway.
s.15(1)(a) and s.15(1)(b) AFA 06	**FAILURE TO ATTEND FOR A DUTY CONTRARY TO SECTION 15(1)(a) and UNAUTHORISED LEAVING OF DUTY CONTRARY TO SECTION 15(1)(b) OF THE ARMED FORCES ACT 2006**
Administrative Action	• May be dealt with by MAA, unless there are aggravating factors.

(Continued)

Table 20-5. Guidance on Offences Which May or May Not Be Dealt with Using MAA (Continued)

s.15(1)(c) and s.15(2) AFA 06	**NEGLECT OF DUTY CONTRARY TO SECTION 15(1)(C) and FAILURE TO PERFORM DUTY CONTRARY TO SECTION 15(2) OF THE ARMED FORCES ACT 2006**
Administrative Action	• May be dealt with by MAA, unless there are aggravating factors. • For Negligent Discharges see specific guidance in the MSL.
s16(1)(a) and s16(1)(c) AFA 06	**MALINGERING CONTRARY TO SECTION 16(1)(a) or 16(1)(C) OF THE ARMED FORCES ACT 2006**
Administrative Action	• May not be dealt with using MAA.
s.17 AFA 06	**DISCLOSURE OF INFORMATION USEFUL TO AN ENEMY CONTRARY TO SECTION 18 OF THE ARMED FORCES ACT 2006**
Administrative Action	• May not be dealt with using MAA.
s.18 AFA 06	**MAKING FALSE RECORDS CONTRARY TO SECTION 18 OF THE ARMED FORCES ACT 2006**
Administrative Action	• May be dealt with by MAA if very strong mitigating factors.
s.19 AFA 06	**CONDUCT PREJUDICIAL TO GOOD ORDER AND DISCIPLINE CONTRARY TO SECTION 19 OF THE ARMED FORCES ACT 2006 (General guidance)**
Administrative Action	• May be dealt with by MAA, unless there are aggravating factors. Aggravating factors include any sexual element to the behaviour, and any demonstration of hostility based on a protected characteristic.
s.20 AFA 06	**UNFITNESS THROUGH ALCOHOL OR DRUGS CONTRARY TO SECTION 20 OF THE ARMED FORCES ACT 2006**
Administrative Action	• Poor turnout, attitude or work as a result of previous overindulgence in alcohol may be dealt with by MAA. • Unfitness through drugs may not be dealt with by MAA. • Administrative action may be ordered (not under MAA) which does not form part of a disciplinary sentence, but which might be an appropriate ancillary measure to deal with alcohol abuse. For example: • Restriction of beer or spirit ration, or use of bar facilities on board, base or camp for up to one month. Guidance on alcohol education can be obtained from: DRST CDT MAA: 93832 8885 Alcohol Treatment Unit - Ft Blockhouse 93806 65146/65379 HMS DRAKE 9375 67593.
s.20A AFA 06	**EXCEEDING ALCOHOL LIMITS FOR PRESCRIBED SAFETY CRITICAL DUTIES**
Administrative Action	• The circumstances where MAA is appropriate for such an offence will be rare. • Where a person is actually performing a safety-critical duty (s.20A(1)(a)), MAA may not be used. • In exceptional circumstances, MAA may be used where: • the accused might reasonably be expected to perform such a duty but are not actually performing it (s.20A(1)(b)); • the duty is subject to the upper limit (i.e.. MAA may not be used for lower limit duties); and • the proportion of alcohol is only marginally above the prescribed limits. • In all circumstances where MAA is being considered for this offence, legal advice should be sought. • The additional administrative measures detailed above for s.20 offences also apply.

(Continued)

Table 20-5. Guidance on Offences Which May or May Not Be Dealt with Using MAA (Continued)

s.21 AFA 06	**FIGHTING OR THREATENING BEHAVIOUR CONTRARY TO SECTION 21 OF THE ARMED FORCES ACT 2006**
Administrative Action	• May not be dealt with by MAA.
s.22 AFA 06	**ILL TREATMENT OF SUBORDINATES CONTRARY TO SECTION 21 OF THE ARMED FORCES ACT 2006**
Administrative Action	• May not be dealt with by MAA.
s.23 AFA 06	**DISGRACEFUL CONDUCT OF A CRUEL OR INDECENT KIND CONTRARY TO SECTION 23 OF THE ARMED FORCES ACT 2006**
Administrative Action	• Where an incident involves lawful activity which is considered inappropriate because of Service context MAA may be used however incidences of this kind will be extremely rare. In all other cases disciplinary action will be appropriate.
s.25 AFA 06	**MISAPPLYING OR WASTING SERVICE PROPERTY CONTRARY TO SECTION 25 OF THE ARMED FORCES ACT**
Administrative Action	• May be dealt with by MAA.
s.27 AFA 06	**OBSTRUCTING OR FAILING TO ASSIST A SERVICE POLICE OFFICER CONTRARY TO SECTION 27 OF THE ARMED FORCES ACT 2006**
Administrative Action	• May not be dealt with by MAA.
s.29 AFA 06	**ESCAPING FROM LAWFUL CUSTODY OR USING VIOLENCE OR THREATENING BEHAVIOUR AGAINST A PERSON IN WHOSE CUSTODY AN OFFENDER IS IN CONTRARY TO SECTION 29 OF THE ARMED FORCES ACT 2006**
Administrative Action	• May not be dealt with by MAA.
s.30(1) AFA 06	**NEGLIGENTLY ALLOWING ESCAPE OF PRISONERS CONTRARY TO SECTION 30(1) OF THE ARMED FORCES ACT 2006**
Administrative Action	• May not be dealt with by MAA.
s.34 AFA 06 s.35 AFA 06	**LOW FLYING AND CONTRARY TO SECTION 34 OF THE ARMED FORCES ACT 2006 and ANNOYANCE BY FLYING CONTRARY TO SECTION 35 OF THE ARMED FORCES ACT 2006**
Administrative Action	• May not be dealt with by MAA.
s.36 AFA 06	**INACCURATE CERTIFICATION CONTRARY TO SECTION 36 OF THE ARMED FORCES ACT 2006**
Administrative Action	• May not be dealt with by MAA.
s.42 AFA 06 AND s.39 CJA1988 or s.47 OAPA 1861	**COMMON ASSAULT AND BATTERY CONTRARY TO SECTION 42 OF THE ARMED FORCES ACT AND SECTION 39 OF THE CRIMINAL JUSTICE ACT 1988 and ASSAULT OCCASIONING ABH CONTRARY TO SECTION 42 OF THE ARMED FORCES ACT AND SECTION 47 OF THE OFFENCES AGAINST THE PERSON ACT 1861**
Administrative Action	• Very minor offences constituting a 'technical' assault may be suitable for MAA where there is strong mitigation and no aggravating factors; legal advice is always to be sought. • It will only be in exceptional circumstances that an assault, other than common assault, can appropriately be dealt with by way of MAA.
s.42 AFA 06 AND s1(1) TA 68	**THEFT CONTRARY TO SECTION 42 OF THE ARMED FORCES ACT AND 1(1) OF THE THEFT ACT 1968**

(Continued)

Table 20-5. Guidance on Offences Which May or May Not Be Dealt with Using MAA (Continued)

Administrative Action	• May not be dealt with by MAA.
s.42 AFA 06 +	**DISHONESTY OFFENCES OTHER THAN THEFT**
Administrative Action	• May not be dealt with by MAA.
s.42 AFA 06 AND s.1(1) CDA 1971 s.24 AFA 06	**DAMAGE TO OR LOSS OF SERVICE PROPERTY CONTRARY TO SECTION 24 OF THE ARMED FORCES ACT 2006 and CRIMINAL DAMAGE CONTRARY TO SECTION 42 OF THE ARMED FORCES ACT AND SECTION 1(1) OF THE CRIMINAL DAMAGE ACT 1971**
Administrative Action	• May be dealt with by MAA where there are strong mitigating factors.
s.13 AFA 06 OR s.42 AFA 06 AND s.139 CJA 88 or s.1 PCA 53	**CONTRAVENTION OF STANDING ORDERS (weapon offence) CONTRARY TO SECTION 13 OF THE ARMED FORCES ACT 2006 or HAVING OFFENSIVE WEAPON IN PUBLIC PLACE CONTRARY TO SECTION 42 OF THE ARMED FORCES ACT 2006 AND s1 PREVENTION OF CRIME ACT 1953 or HAVING ARTICLE WITH BLADE OR POINT IN PUBLIC PLACE CONTRARY TO SECTION 42 OF THE ARMED FORCES ACT 2006 AND S139 CRIMINAL JUSTICE ACT 1988**
Administrative Action	• May not be dealt with by MAA.
s.42 AFA 06 AND s.5(2) MDA 71	**POSSESSION OF A CONTROLLED DRUG CONTRARY TO SECTION 42 OF THE ARMED FORCES ACT 2006 AND SECTION 5(2) OF THE MISUSE OF DRUGS ACT 1971**
Administrative Action	• May not be dealt with by MAA. • Administrative Discharge (Major Admin Action), which is quick, cheap and less resource-intensive than disciplinary action, will be appropriate in the following circumstance: • Personnel who test positive for Class A, B or C drugs (whether by CDT, disciplinary investigation, PIDAT or any other investigation) but who are not caught in physical possession of them; and may be appropriate when: • Personnel voluntarily admit to drug misuse. Where the only evidence in a case is a confession, a conviction is by no means certain, although it is still possible providing the Trying Officer is sure that the confession is reliable and credible. Care should be taken, however, to spot the false confession. Difficulties can arise where the confession is disputed, and in all cases legal advice must be taken with a view to deciding whether application for Discharge or warning and monitoring is appropriate, or whether the case should be directed for trial by court-martial.
ss. 93A, 93E, AND 93G AFA 06	**FAILURE TO COMPLY WITH PRELIMINARY TESTING REQUIREMENT, FAILURE TO PROVIDE A SPECIMEN, FAILURE TO CONSENT TO LABORATORY TEST OF A SPECIMEN CONTRARY TO SECTIONS 93A, 93E OR 93G AFA 06**
Administrative Action	• May not be dealt with by MAA.

SECTION 6

MAJOR ADMINISTRATIVE ACTION

2029. Choice of Administrative Action

a. Where an event or behaviour is not suitable for MAA, Cos must consider whether other Administrative Action is appropriate – either alone, or in conjunction with disciplinary investigation and action. For Officers, QRRN Chapter 38 should be read in conjunction with this Chapter.

b. Administrative Action includes censure, reversion, recommendation for re-assignment, discharge for inadequacy or recommendation for special reporting. This Chapter is limited to guidance on the applications of censures for officers and letters for guidance, and administrative action available to ratings. Further guidance is contained in BRd 2 Chapter 38 (Misconduct and Negligence of Officers), BRd 2 Chapter 39 (Civil Power), BRd 3(1) Chapter 54 (Discharges), BRd 3(1) Chapter 57 (Appraisal and Warnings), BRd 3(1) Chapter 60 (Removal from Assignment), and BRd 3(1) Chapter 70 (Reversion).

c. Where an issue arises over the appropriate disposal, Cos should take legal advice before disclosing their intended course to the subject concerned. Where a matter is or may be linked to a protected characteristic[8], this should be highlighted when advice is sought. Such behaviours are not in keeping with RN values and standards and will inevitably be considered serious.

d. **Ratings.** Where a rating is found to have breached Service policy which is not disposed of via disciplinary action, the following administrative actions are available:

(1) **Discharge SHORE/SNLR.** Discharge is appropriate in the most serious of cases indicated in the relevant policy. See Chapter 54 for further guidance.

(2) **Reversion.** Reversion is appropriate in circumstances where the CO decides that the individual's actions call into question their suitability to continue in their current rate. See Chapter 70 for further guidance.

(3) **Career Check.** A Career Check (CC) may be awarded in instances where the CO decides that the incident warrants a permanent marker in the individual's record and that the incident should not go unchecked in their career. The level of authority to award a CC is as for the award for a CC for a Service Penalty.

(4) **Administrative Formal Warning.** Notwithstanding the above, COs are reminded that the formal warning process remains available and may be an appropriate option. See Chapter 57 for further guidance.

[8] As defined in the Equality Act 2010, Part 2.

SECTION 7

CENSURES AND LETTERS FOR GUIDANCE

2030. Administrative Censure of Officers

Administrative censure constitutes Major Administrative Action and is not a punishment. It reflects the right of the Service as an employer, after due process which includes the rules of natural justice, to admonish employees for failing in their duties or for failing to maintain the required standards of performance or conduct. Officers may be censured as a result of a conviction by a civil court (see Section 19), as well as for certain acts of misconduct and negligence as well as for poor or inadequate professional performance. A censure stands in its own right as a formal correction and as a warning about future performance or conduct and may properly be taken into account in decisions concerning the officer's career.

2031. Scope

Nothing in this guidance is intended to inhibit Commanding Officers from warning officers informally about their conduct should it fall, or risk falling, from the high standards expected; nor does it affect action taken in general to accord with the customs of the Service (e.g. stopping the use of bar facilities). The award of an administrative censure is not a bar to subsequent trial by Court Martial on the same issue if this is considered necessary.

2032. Available Censures and Their Effects

a. The censures which may be awarded, and their practical effects, are as follows:

(1) **Admiralty Board's Severe Displeasure.** Always to be available to Career Boards and Career Managers. Discretion to direct that the recipient is not to be considered at Career Boards and/or direct de-selection.

(2) **Fleet Commander's or Second Sea Lord's Severe Displeasure.** Always to be available to Career Boards and Career Managers. Discretion to direct that the recipient is not to be considered at Career Boards and/or direct de-selection.

(3) **Fleet Commander's, Second Sea Lord's or other 2* Higher Authority's[9] Displeasure.** Not to be made available to Career Boards or Career Managers.

(4) **Commanding Officer's Logging.** Not to be made available to Career Boards or Career Managers.

[9] Other Higher Authorities authorised to award these censures are those officers listed in Para 2008. sub para d of 2* rank or above.

b. **Career Effects.**

(1) **Prevent consideration by Career Boards**. When awarding a Severe Displeasure, the awarding officer must decide whether consideration by Career Boards should be barred, and if so, for how long (**one or two** years). The censure will stipulate the period for which an individual will be prevented from consideration within the overall censure period. Thus, an individual can receive a Severe Displeasure which prevents consideration by Career Boards for 2 years and thereafter, is available to Career Boards for the remainder of the directed period.

(2) **De-select.** If an individual has been selected for promotion, commission transfer or command/professional command, but it has yet to become effective, the officer awarding a Severe Displeasure has the discretion to direct that they be de-selected[10]. It is possible to both de-select and prevent from future consideration for one or two years.

c. Consideration of Censures by Career Boards and Career Managers

(1) As directed above a Severe Displeasure is to be made available to all Career Boards and Career Managers for the period stated.

(2) A Displeasure is not to be made available to Career Boards or Career Managers. Such a censure is designed to make the recipient aware of the Higher Authority's disapproval of their conduct or performance, but it is a standalone re-proof.

d. **Length of Censure.** A Severe Displeasure can be awarded for up to five years. However, censures that are awarded as a result of a civil conviction(s) will be treated as spent after the period appropriate to that conviction as specified in the Rehabilitation of Offenders Act 1974. The letter of censure will stipulate the end date of the censure.

2033. Commanding Officer's Logging

A logging is retained locally in the unit, until the officer leaves that unit. A logging is not available to Career Boards or Career Managers. Should a Commanding Officer subsequently report a matter to Higher Authority for consideration of administrative action, which has been subject to a logging from them, the record of the logging is to be included in that report. It is also inappropriate for any mention of loggings to be made in an officer's OJAR, although the behaviour or error which led to the logging may influence the content of the report[11]. The wording to be used in a logging is at Annex 20A.

2034. Censure and Subsequent Misconduct

If an individual has received a censure and falls below the expected standard again, the existence of a previous censure is a factor that should be considered and may be reflected in the award of a subsequent sanction.

[10] The requirement for an adverse report as detailed at BR3(1) Chapter 66 paragraph 6624 is removed, paragraph 6624 is to be updated to reflect that the award of a censure can direct de-selection.
[11] Refer to direction in JSP 757 Volume 1, Chapter 4, Paragraphs 13-14.

2035. Procedure for Imposition of Censures

a. **Commanding Officer's Report and Recommendations.** If an officer falls below the standard in performance or conduct, the Commanding Officer[12] must first obtain legal advice from the Regional Legal Offices as to the appropriate level of administrative action. Application for censure will then be sent directly to the relevant office, via the RLO. The individual will be given opportunity to comment when they receive the Letter of Allegation. The Commanding Officer would wish to ensure that their immediate superior in the chain of command is informed of the application.

b. Where the **Higher Authority, Second Sea Lord or Fleet Commander agrees** that an officer appears to have been at fault, the specific allegations will be presented to the officer through their Commanding Officer. In cases where the censure is to be considered by the Admiralty Board, the Fleet Commander or 2SL will arrange for this to be staffed through the relevant Regional Legal Adviser.

c. **Individual's Right to Comment on Allegations.**

(1) Before any censure is awarded to an officer, they must have been acquainted with the specific allegations against them and invited to comment or put forward any relevant matters for consideration if they so wish. Such an explanation should normally be obtained in writing.

(2) If the allegation arises from the report of a Service Inquiry, the officer will, at the President's discretion, be supplied with a copy of the relevant part of the report of proceedings. Evidence before a Service Inquiry or similar fact-finding investigation, or of an officer's account submitted before specific allegations have been made against them, should not properly be regarded as a rebuttal to the allegations. An explanation, however, may already exist when, for example, the recommendation for administrative censure is the result of a trial before a civil court and the officer has made their defence or mitigation. Even in such cases, the officer may make representations, should the officer so wish. If the officer does, the explanation is to be forwarded with the report of the conviction.

d. **Administration (Same Assignment).** When an officer who is still serving in the unit in which the matter arose is to be censured:

(1) Two copies of the letter of censure[13] are sent to the officer's Commanding Officer under a covering letter of instruction.

(2) The Commanding Officer is to hand the officer the original letter of censure for their retention and obtain the officer's signature acknowledging receipt of the censure on the duplicate.

[12] There may be occasions where the report of conduct/performance is made directly to a Higher Authority or when a matter needs to be brought to the attention of a CO when the individual is in a new assignment. Examples may include, but are not limited to, the decision of a Service Complaint where administrative action is recommended, or when the matter under scrutiny is removed in time and place from its occurrence.
[13] Promotions (NAVY PEOPLE - PROMS Hd) are to be copy addressees on the censure letter.

(3) The signed duplicate is to be sent by the Commanding Officer to office of the awarding officer for retention of the paper record.

e. **Administration (New Assignment)**. Where an officer is no longer serving in the same ship/assignment in which the matter arose, for which a previous Commanding Officer made report to Higher Authority, any correspondence will normally be addressed to the officer personally at their new place of work and not through their present Commanding Officer[14]. The officer is, however, at liberty to bring it to the notice of their new Commanding Officer if they so wish.

f. **JPA action**. The staff of the awarding officer are to input the award onto JPA into the Warning and Sanction area.

(1) A Severe displeasure is to be placed in the 'Severe Displeasure' option, with the from and to dates completed. Where an individual is de-selected or prevented from consideration by Career Boards, that detail is to be input into the 'Description' line.

(2) A Displeasure is to be placed in the 'Letter of Censure' option. As this is a standalone reproof, the from and to date will be the same.

g. **Censure of Ship's or Establishment's Commanding Officer**. In the event of a Higher Authority other than the Fleet Commander or Admiralty Board taking action against a ship's or establishment's Commanding Officer, the Fleet Commander is to be informed.

2036. Letters for Guidance

The issue of 'Letters for Guidance' (LFG) is a well-established customary practice. A LFG is neither a warning nor a censure but is intended to provide guidance to an officer, following an incident or investigation in which the officer's conduct or performance may have been under scrutiny. Nor should a LFG be used as a 'back door' route to warn or censure an officer, although a LFG may accompany or follow the imposition of a censure. A LFG is time sensitive, relates to a particular event and the Chain of Command's perspective of the officer's part in that event, with a view to offering guidance in respect of future conduct and/or performance. Only two copies are to be produced, one for the recipient and one which is to be kept by the author. The author's copy is to be retained only until such time that either the recipient or the author is reassigned when it must be destroyed. A LFG is always addressed to the individual officer personally, and it is not to be recorded by way of being placed in an officer's official records. If an error of judgement or shortcoming is considered significant enough to merit being recorded (e.g. by placement in an officer's official records) then a recorded censure is to be issued, either in place of or alongside a LFG.

[14] It may be necessary to involve the new CO, if for example, a matter hitherto undealt with manifests when in a new assignment.

2037. Letters for Guidance and the Appraisal Process

Legal advice should be sought prior to writing a Letter for Guidance (LFG) in all but the most straightforward cases. Reference is not to be made to the fact of a LFG in an officer's report (JPA Appraisal - OJAR), although there is no bar to mentioning that an officer has "responded to advice" or "required advice and guidance" in respect of a potential shortcoming. A LFG is not a substitute for ongoing assessment of an officer's general and/or professional performance, which the appraisal process should cover.

2038. Letters for Guidance - Other Considerations

Commanding Officers and others in the chain of command enjoy a wide discretion to give LFGs; this should be exercised with due regard to the nature of the incident, conduct or performance; the specific, related evidence which suggests that guidance is called for; consideration of which officer is the most appropriate person to give such guidance; ensuring that the language used does not appear censorious and the possibility that the LFG may have to be disclosed subsequently[15].

2039. Professional Negligence by Ratings

It is the general policy that professional negligence by ratings should be dealt with by disciplinary proceedings rather than by major administrative action because the duties of a rating generally provide less risk of their being accused of professional negligence. Minor instances of professional negligence by ratings may be dealt with via Minor Administrative Action.

2040. Warrant Officers

Warrant Officers may be regarded as an exception to the above principle since they have wider responsibilities than other ratings. Cases which do not therefore involve gross negligence yet require warning and censure action beyond that available to a Commanding Officer may be dealt with under the procedures at Para 2032 sub-para b, sub-para c or sub-para d. Admiralty Board censures or warnings are not considered appropriate, as cases likely to require such a high degree of censure would normally attract disciplinary action. Any censure given is to be conveyed orally to the Warrant Officer concerned by the Commanding Officer and an official record of the censure, and the circumstances that led to it, retained by the Commanding Officer.

2041. General

Nothing in this guidance is intended to affect the normal practice by which any rating may be formally warned by an officer (recorded as necessary in appraisal records) or the procedure for reversion.

[15] Following a Subject Access request under the Data Protection Act 2018, under the terms of the Freedom of Information Act 2000 or through the disclosure process attendant on civil litigation.

SECTION 8

FORMAL DISCIPLINARY PROCESS

2042. Investigation of Offences

a. The MSL Chapter 6 gives detailed guidance on the conduct of investigations. All investigations which are not conducted by the RNP are referred to as 'Commanding Officer's investigations'. This includes investigations by RN Cox'ns and RM CSMs. RN Cox'ns are nevertheless in a different position to others who conduct CO's investigations. Having received basic training in Police and Criminal Evidence Act (PACE) procedures, Cox'ns should use those procedures where disciplinary action is anticipated, providing that they fulfil the requirements in accordance with the relevant Provost Marshal (Navy) Technical Instructions (PM(N) TI). Cox'ns should bear in mind that any offence for which a charge is brought for Summary Hearing may end in a Court Martial or in the SAC. The best evidence available is always to be sought. Cox'ns should always seek advice from Regional Police Commanders (RPCs) before conducting PACE interviews. It will normally be inappropriate for a Cox'n to conduct an interview where the accused has legal representation. Disciplinary action under AFA 06 cannot be taken by units until a disciplinary investigation has been completed and a report made to the CO. Where borne on the Ship's books, either the RNP or RN Cox'n should investigate offences which require a formal disciplinary investigation. Where no RNP or Cox'n is borne, other than for minor offences, COs should seek legal advice before directing an investigation.

b. All disciplinary investigations need to be thorough, yet expeditious, and will benefit from early legal advice in all but the most minor (and factually and evidentially straightforward) cases. Whatever the nature of the offence, RNP should be prepared to seek early legal advice through their RPC and, where the issues cannot be resolved at that level, the SPA in accordance with established protocols (see PM(N)'s TIs). Cox'ns should seek such advice through RPCs and RM CSMs through local RMPT or their RPC. The SPA's role is to advise the RNP on their investigations up to the point at which a charge is recommended. Pre-charge advice is particularly important because it can assist in the identification of evidence to support the more serious charges, or conversely suggest alternative charges that may be easier to prove. In this way, hard-pressed RNP can focus their resources more effectively. NLS Regional Legal Advisers advise the Command throughout. Service legal advice will only be available to personnel post-charge (save in relation to custody hearings) and only where a Service lawyer is available; civilian legal advice may be taken by individuals at any stage. See the MSL Chapter 6 and below for circumstances in which COs must seek legal advice before bringing a charge or deciding the appropriate disposal of a case.

c. When conducting investigations, RNP are independent of the chain of command. This is essential in order that they fulfil their statutory duties. COs should be aware that when conducting higher level investigations, RNP often act under the guidance of the DSP. The senior RNP will need to prioritise disciplinary investigations (especially those where SPA may be engaged) and balance these against unit duties or other non-police tasking. But, commensurate with the primary role and purpose of the RNP and the exercise of their statutory duty to investigate, discipline will normally come first. Any member of the RNP who believes that they are subject to improper interference in the conduct of an investigation should report that fact without delay to the senior RNP member in their unit, RPCs, or PM(N). Reporting officers who are not members of the RNP are not to comment in OJARs/SJARs on an individual RNP member's exercise of their investigatory functions. COs may however comment on RNP member's general qualities. For example, comments such as "PO(Police) Smith manages her busy workload well" would be appropriate but "PO(Police) Smith conducted a prolonged investigation into a serious assault entirely to my satisfaction" would not.

2043. Better Case Management in the Service Justice System: Avoidance of Delay

a. Delay has an adverse effect on the impact of the process and undermines operational efficiency. It may:

(1) Reduce the prospects of a proper conviction or hinder the mounting of a proper defence;

(2) Result in a significant reduction in sentence on appeal following successful prosecution; and

(3) Contribute to the discontinuance of proceedings by the Director Service Prosecutions (DSP) or their decision not to contest summary appeals.

(4) Ultimately, unreasonable delay may result in the effectiveness and credibility of the Service Justice System being undermined.

b. To address delay in the progress of disciplinary cases, on 1 Sep 16 the initiative 'Better Case Management in the Court Martial (BCM(CM))' was introduced. The key features of BCM(CM) are as follows:

(1) The RNP's completion of an expedited Initial Detail of the Prosecution Case (IDPC) which will be forwarded to the accused's CO or DSP as applicable as soon as the Evidential Sufficiency Test (EST) is met. The IDPC will contain the following:

(a) The Service Police Case Referral (SPCR), which will include a summary of the circumstances of the offence and any account given by the accused in interview[16], whether contained in that summary or in another document;

[16] Where the RNP consider that the EST is met prior to any interview, they may decide to refer without conducting an interview.

(b) Any available supporting statements;

(c) Details of the accused's previous convictions and disciplinary record;

(d) Any CCTV recording (as applicable) if available; and

(e) Any other documents which support the case against the accused.

(f) Submission of the IDPC to the CO or DSP will not be delayed pending receipt of evidence which does not impact on the EST. COs or the DSP will not receive full transcripts of interviews if this will delay progress of the case; summaries will suffice.

(2) Target timelines for the referral of a case to the CO or DSP. In straightforward cases, the target timeline is 21 days after a complaint or report of an offence. The Judge Advocate at a CM will make some allowance for the impact of deployments or the complexity of a case on an RNP investigation.

(3) Target timelines for decisions to be made by the Service Prosecuting Authority (SPA). The SPA should direct straightforward cases within 21 days, and all but very complex cases within 28 days, from receipt of the case referral by the RNP or from the CO.

(4) A revised timetable for proceedings in the CM, as part of which the prosecution and the defence will be required to indicate to the Court the matters in issue at an early stage. The case thereafter will be carefully managed by the Judge Advocate, with time permitted for further evidence to be gathered and disclosure matters to be dealt with as required.

c. The RNP will apply the BCM(CM) provisions in all cases noting that, with the universal right to elect for trial by CM, any disciplinary case may be referred for trial by CM. Accordingly, where a case is referred by the RNP to the CO of the accused, the CO will receive an IDPC which may contain less evidence than RNP reports which were produced prior to 1 September 2016. This is a function of the expedited referral process and the IDPC will still contain information deemed sufficient to meet the EST. The RNP will identify two main areas: 'Key evidence', which is evidence that is available and relates to an evidential point to prove; and 'Non-Key evidence', which is evidence that is available but has not been gathered because it is not key. If the CO determines that disciplinary action should be taken, they will then proceed in accordance with JSP 830 Chapter 6 Part 4, namely:

(1) Decide whether or not they has initial powers in respect of the case; then

(2) Decide the appropriate mode of trial; then

(3) If a decision is taken to deal with the matter summarily, decide whether or not to bring a charge. Generally, a CO should not charge a person with a Service offence if it is plain that either there is no basic evidence against the suspect or the evidence is clearly outweighed by evidence in the suspect's favour. Legal advice must be sought where mandated as a matter of policy[17].

d. If the CO requires further evidence in order to decide any of the matters outlined at sub-paragraphs (1)-(3) above, they should request that the RNP gather that evidence accordingly. Any requests for additional evidence should be clear and focussed, with the justification for the request articulated. The Regional Legal Offices remain available to support the CO should they require advice on evidential sufficiency or similar matters.

e. The CO's options in relation to a case which has been referred to them by the RNP are unaffected by BCM(CM) and remain as follows: request that the RNP conduct further enquiries; hear a charge which is listed in Schedule 1 of the Armed Forces Act 2006; refer the case to the DSP for trial by CM; discontinue the case and take no further action; or discontinue the case and take administrative action.

f. Other than in exceptional circumstances, on receipt of an SPCR or conclusion of a CO's Unit Investigation, any Summary Hearing is to be held within 21 days. Exceptional circumstances may include, for example, illness of the accused or the non-availability of a key witness. Unless the CO determines that there is an exceptional need to do otherwise, leave should not be prioritised over discipline matters. Where the 21-day time limit is exceeded, detailed reasons must be recorded on the Record of Summary Hearing form.

g. Units are to promptly and accurately record the progress of disciplinary cases on the JPA system. Minimum recording standards are outlined at Sections 16 and 20 below.

h. COs are responsible for ensuring that there is no unreasonable delay in completion of the disciplinary process for personnel within their units, and for those landed for squad rotation or other purposes pending the outcome of proceedings. For the avoidance of doubt, this includes:

(1) Timely completion of investigation;

(2) Prompt analysis and decision to determine whether administrative or disciplinary action is appropriate;

(3) Seeking early legal advice as to disposal of the case and, if disciplinary, any appropriate charge(s);

(4) Timely appearance of accused at Summary Hearing;

[17] BRd 3(1) Chapter 20 Para 2048.

(5) Where the matter (either a case or a charge(s)) is referred to the DSP, timely despatch of appropriate documentation to the SPA and Military Courts Service (MCS) as appropriate;

(6) Timely bringing of charges at the direction of the DSP and service of papers on the accused;

(7) Ensuring availability of the accused (and witnesses if appropriate) for CM and SAC hearings;

(8) Ensuring the accused has the opportunity to receive early and appropriate legal advice; and

(9) Ensuring the accused is appropriately supported by the Divisional System, including attendance of DO or other appropriate person (as Defendant's or Appellant's Assisting Officer) at CM or SAC hearing.

(10) Ensuring that appropriate progress, recording and sentencing action is taken on JPA and the record is forwarded to the Summary Hearing Review Cell for closure in a timely fashion.

i. COs should take a personal and direct interest in the effective processing of disciplinary cases in their unit. Whilst COs cannot interfere in any investigation being undertaken by the RNP, they are nevertheless entitled to inquire into general progress with a case and should ensure RNP (and Cox'ns and CSMs) are progressing investigations and reports - including recommending charges where appropriate - in a timely manner. COs should note that the administration of summary justice should take priority over leave, such that the accused's leave may be postponed in order to conduct interviews, bring charges and serve papers on the accused, and complete the Summary Hearing process. The use of a routine meeting to discuss the administration of pending disciplinary cases is encouraged (this is wholly viable, as the CO is not precluded from dealing with the case before hearing it summarily).

2044. Commanding Officer's Delegations

Under AFA 06, COs have authority to delegate certain statutory duties relating to investigation and bringing of charges to personnel under their command. Guidance on delegations to subordinate commanders is given in the MSL Chapter 9 Part 1 and FLAGO Chapter 16. On appointment, COs should consider the need for, and effectiveness of, delegations to other personnel in their unit.

2045. Delegation of Disciplinary Powers to a Subordinate Commander

a. COs may delegate (in writing) their disciplinary functions to one or more Subordinate Commanders (Sub Cdr), for example the XO or OC. The Sub Cdr must be of OF2 rank or higher (see also FLAGO Chapter 16).

b. When the Sub Cdr is temporarily unavailable to exercise their responsibilities for the administration of justice, the CO of a ship, unit or establishment may delegate another officer to assume such responsibilities. This delegation must be in writing, is to be promulgated within the ship, unit or establishment and is to specify the period during which the named officer is to fulfil these duties.

c. Only one Sub Cdr may hold the CO's delegation for a particular charge. In effect this means that the CO may delegate disciplinary powers to the XO/OC, but if the XO's/OC's powers are insufficient to deal with a particular charge then the CO would have to revoke the delegation in respect of that charge and deal with the matter personally. Such revocation need not be in writing, but may be executed by the action of bringing the charge or hearing the charge personally. Ideally, however, the revocation should be in writing.

2046. Recommending, Bringing and Serving Charges

a. Where an investigation is completed, the RNP will either refer the case to the CO or the DSP. If referred to the CO, the CO must then decide whether a charge is brought, what that charge should be, or whether they should refer the matter direct to the DSP without bringing a charge. Guidance on recommendation, bringing and serving of charges is contained in FLAGOs Art 1606 and below.

b. Where authority to bring charges has been delegated, care is required - powers of punishment will be capped at the level of the officer who brings the charge, which may not always be the same as the officer who hears the charge (see Section 9 - Mode of Trial (Para 2049 et seq.) below).

c. Whenever RNP investigate a case with a view to disciplinary action, they must consider, where necessary having consulted with the SPA, whether there is sufficient evidence to bring a charge. Where there is sufficient evidence to bring a charge, they must either recommend a charge to the CO or, if the offence is not a 'CO Offence' i.e.. it is a Schedule 2 offence, one suspected of having been committed in prescribed circumstances or is unlisted, the case must be referred to the DSP. Recommended charges should normally be produced in writing. Where there is sufficient evidence to bring a charge, it is most important that the RNP recommend potential charges to the CO (see the MSL Chapter 6 paragraphs 51-53).

d. If the RNP does not recommend a charge(s), the CO has no power to bring a charge in relation to that case unless the case has been referred to the DSP and the DSP:

(1) Directs that charge(s) be brought; or

(2) Refers the case to the CO.

e. Where the DSP directs that a charge(s) be brought, the CO must bring the charge(s). Where the DSP refers the case to the CO, the CO should decide the most appropriate course of action, taking into consideration any advice and charge(s) recommended by the DSP, seeking further legal advice as necessary.

f. Those conducting CO's investigations (as distinct from RNP investigations) should recommend charge(s) but if they do not, then the CO may nevertheless bring a charge if one is potentially capable of proof. Other than in very minor and non-criminal conduct cases, COs should seek legal advice before doing so.

g. Except where the DSP directs the CO to bring a charge, wherever the CO has power to bring a charge, which charge is brought is a matter entirely for the CO, or that of the person acting on the CO's delegated authority. Legal advice on the appropriate charge should be sought in all but the most simple or routine cases, however, and in particular if the CO wishes to bring a charge different to that recommended in an SPCR.

h. Under AFA 06, when an offence is to be heard summarily, the CO (or delegated Officer not below the rank of OF2 (such as the XO/OC)) will be required to 'bring' the charges. Guidance on delegation of this function is given in FLAGO Chapter 16. Bringing a charge is a three stage process:

(1) Preparation of the charge sheet.

(2) Signature by CO or delegated Officer.

(3) Service of the charge sheet on the accused.

i. In RN units the RNP or the Cox'n, having investigated the offence, should normally prepare the draft charge sheet with a recommended charge. In RM units, this should be done by the G1 Discipline Adviser or the CSM.

j. The person preparing the charge sheet should then present the case papers, including the draft charge sheet, to the CO (or XO/OC etc. as appropriate) for consideration. It is the responsibility of the charging Officer to decide whether, and if so how, to charge based on the information given, but if they decide not to proceed with charges recommended then legal advice must be sought before informing the accused of the decision. If borne, the LO or DLO should advise the person finalising the charge sheet, having sought legal advice as required. The CO (or XO/OC etc.) should sign the charge sheet only if they are content that the charge is appropriate, having ensured that the evidential sufficiency and Service interest tests are met (see the MSL Chapter 6 paragraphs 93 and 94) and that they are the appropriate officer to hear the case. If in doubt as to the most appropriate charge, legal advice is to be sought. A Sub Cdr may also seek the CO's guidance on whether they should hear a case (and therefore whether they should bring a charge).

k. Service of the charge is the process of giving the charge sheet and associated case papers to the accused individual. This will normally be carried out by the RNP or Coxswain or in the RM by the G1 Disc Adv or CSM, but it may be more appropriate for the CO to serve charges on officers or Warrant Officers or charges directed to be brought by the DSP. Once a charge sheet has been signed and served, the charge is said to have been “brought”.

l. When appropriate the CO can delegate power to bring charges to an officer under their command (not below the rank of OF2). The delegation can be subject to such conditions the CO might consider appropriate and can be revoked at any time. See FLAGO Chapter 16.

2047. Preparation and Service of the Case Summary

a. After the charge is brought, the CO or a person authorised by them must also serve a Case Summary. Guidance on its content may be found in the MSL Chapter 9 Article 34. The Case Summary is a summary of the evidence which the CO considers relevant to the charge. In RN units this will normally be prepared by the Command Adviser. Best practice requires that the Case Summary is prepared and agreed by the CO (or officer hearing the case) before the charge is brought. It should provide sufficient information to put the offences in context and indicate any particular aggravating or mitigating features. The CO (or officer hearing the charge) must approve the content of the Case Summary before it is served.

b. The Case Summary is not evidence, and is only to form part of the Summary Hearing where the accused admits the charge. Before approving a Case Summary, COs must satisfy themselves that there is sufficient, relevant evidence relating to each element of the offence to be charged and any aggravating features. Any cases of doubt should be referred for legal advice before a charge is brought. There will be no opportunity to ‘top up’ the evidence once a charge is brought. In particular, if a case is subject to summary appeal (either against finding or punishment) sufficient evidence setting out the relevant features of the offence (including any aggravating features) will be required.

c. Where evidence is not already gathered, the RNP may be asked to re-visit an issue. There are limitations on whether they may interview an accused after recommending a charge, but other evidence, including witness statements, may be taken (provided they are served on the accused in the proper way before a summary hearing). Where a fact will be important to the determination of a case, or the level of sentence likely to be imposed, COs should ensure that evidence is gathered before the charge is brought.

d. The case summary, with the other case papers, is to be served no less than 24 hours before the Summary Hearing.

2048. Seeking Legal Advice

a. COs should not hesitate to seek legal advice at any stage in the process, particularly when they do not have a Command Adviser or RNP on board. Advice should normally be sought, via the Command Adviser, from the Regional Legal Office set out in Table 20-2.

b. Legal advice must be sought by completing the form at Annex 20S in the following circumstances:

(1) Where the offence alleged is a Schedule 2 offence, one suspected of having been committed in prescribed circumstances or is unlisted (the MSL Vol 1 Chapter 6). Note, however, that such offences should be referred by the RNP direct to the DSP; it would be unusual, therefore, for a CO to deal with an offence in one of these categories.

(2) Where the CO requires the permission of Higher Authority to hear the charge (offences listed in the MSL Vol 1 Chapter 6 Annex B).

(3) Where, were the charge to be proved, the CO may require extended powers of punishment.

(4) Where the CO is considering the following punishments if the charge is proved:

(a) A period of detention;

(b) A period of suspended detention;

(c) A financial penalty, the combined effect of which is in excess of 14 days' pay; or

(d) A Service Supervision and Punishment Order.

(5) Where the offence alleged was committed while the accused was under a suspended sentence of detention.

(6) Where the CO intends to refer the case or charge to the DSP.

(7) Where the CO intends not to proceed with a charge(s) recommended by the Service Police.

(8) Any offence alleged to have been committed by an officer.

(9) Where the circumstances of the case indicate a sexual element to the offending (though note these are likely to amount to Schedule 2 offences in any event).

(10) Any case in which the offence alleged had, at any stage, been suspected of having been committed in prescribed circumstances.

(11) Any offence which involves a person under the age of 18 years, whether that be as accused, alleged victim or witness.

(12) Any offence alleged to have been committed by a member of the Reserve Forces.

(13) Where the charge(s) recommended by the Service Police are recordable on the Police National Computer, namely all Criminal Conduct offences and the following Service offences:

(a) s11 - Misconduct towards a superior officer (but only when the offence is under s11(1));

(b) s14 - Using force against a sentry;

(c) s24 - Damage to or loss of public or Service property (but only when the offence is under s24(1) and relates to damage to property and not loss of property);

(d) s27 - Obstructing or failing to assist a Service Police Officer (but only where the offence is for obstructing a Service Police Officer and not failing to assist);

(e) s28 - Resistance to arrest (in the case of an offence under section 28(1), only where the conviction is for conduct within section 28(1)(b) or (c));

(f) s29 - Offences in relation to Service custody;

(g) An offence under s30(1) of negligently carrying out an act that results in a person's escape, or an offence under section 30(2), allowing escape, or unlawful release, of prisoners (but only where the conviction is for conduct within s30(4)(a));

(h) s96 or s97 of the Reserve Forces Act 1996.

c. The application for advice should include all the information required for an application for extended powers of punishment and to hear a charge summarily and any guidance issued separately by legal advisers. With the exception of the imposition of the sentences in Para 2048.b sub para (4) above, however, and personnel under suspended sentence of detention, the relevant legal adviser may, in exceptional cases, dispense with the requirement to forward full documentation. Where advice is sought by the command, written advice will be provided by the relevant legal adviser.

d. Where legal advice has been sought, a record that advice has been sought is to be made on the Record of Summary Hearing (T-SL-SH01 - the MSL Vol 1 Chap 9 Annex C) under 'Miscellaneous matters', and in the case of Activation Hearings, on the Record of Activation Hearing (T-SL-SH02 – the MSL Vol 1 Chap 9 Annex I). The name of the legal adviser providing the advice is to be recorded on these forms, in case of a requirement to contact the relevant legal adviser, e.g. on review of the case by the Summary Hearing Review Cell.

e. **RNP and Coxswains.** Advice to the RNP and Cox'ns on the investigation, up to the point of recommending a charge, is provided by the RPC who will seek further advice from DSP Service Police Liaison staff as appropriate. Procedural advice may be sought from the appropriate DSP legal adviser at any stage. Once a charge has been recommended, legal advice (for example on formulating the final charge) may also be sought. Where a case is to be referred to the DSP, the investigator should always consult DSP Service Police Liaison staff.

f. **Legal Advice to the Accused.** An accused person is to be informed that they have the opportunity to seek legal advice on whether to elect for trial by CM when the charge sheet and case papers are served before a hearing. They should also be given a copy of the guide 'Your rights if you are accused of an offence under the Service Justice System' (the MSL Chapter 6, Annex G). Legal advice and representation may be obtained from a naval barrister post charge, subject to their availability. Legal Aid is also available for those considering mode of trial, facing CM or the SAC. The Accused's Assisting Officer (AAO) (see below) should ensure that the accused is aware of the opportunity to seek advice and should assist the accused in that matter if required. Further guidance on Legal Aid, including personal contribution towards costs, in contained in JSP 838. Requests for a naval barrister to assist an accused should be made to:

Email: NAVY PEOPLE-SCL SC MC CPO

g. The accused is not allowed legal representation at the Summary Hearing but may be assisted by their AAO. A naval barrister may only assist as an AAO if the barrister is the accused's Divisional Officer.

SECTION 9

MODE OF TRIAL

2049. Importance of Mode of Trial

a. The structure of the Service Justice System relies on careful selection of the Mode of Trial, which may be a Summary Hearing or CM.

b. Guidance on Mode of Trial is in the MSL Vol 1 Chapter 6. Where it is intended the case should be heard summarily, the proposed Hearing Officer should bring the charge(s) against the accused. Where the case is more appropriate for CM, the CO should refer the case to the DSP without bringing a charge (see also Para 2052 below).

2050. Choosing the Hearing Officer

The most appropriate Hearing Officer (usually CO or XO/OC) should be determined before any Summary Hearing, usually on the advice of the unit's command adviser (LO, DLO, EA or G1 Disc Adv), such that the case is dealt with at the correct level, and preferably by the same officer, from the outset. It should be noted that only the CO can hear a charge summarily when the offence alleged was committed during the operational period of a suspended sentence of detention.

2051. Hearing Officer's Decision

Before bringing any charge, Hearing Officers must always consider whether they have sufficient powers of punishment to deal with an offence in the event of an admission of the charge or finding the charge proven, in accordance with their delegated powers of punishment and the limitations in the MSL Vol 1 Chapter 13 Annex A. If the proposed Hearing Officer considers their powers of punishment to be inadequate, they must pass the case on to the next higher authority (e.g. XO/OC refers to CO; CO refers the case to the DSP for CM trial) without bringing a charge. The person who is to hear the charge (i.e.. who intends to conduct the disciplinary process) should then, if they consider it appropriate to do so, bring the charge(s) against the accused. In the event that a charge has already been brought, and the Hearing Officer considers their powers of punishment to be inadequate, then they should consult the CO. The CO may then revoke the delegation to hear the charge, and hear the charge, or refer the charge to the DSP. In cases of doubt, advice on the correct procedure to follow should be sought from the appropriate Regional Legal Adviser.

2052. Referral for Court Martial (No Option)

a. In some cases, it will be either mandatory or appropriate to refer the **case** to the DSP for consideration for a CM trial, without bringing a charge and without giving the accused the option. In other circumstances it will be appropriate to refer a charge to the DSP, without giving the option. Once a case or charge has been so referred, the CO loses their powers to deal with it (although they remain responsible for completion of the JPA discipline record).

b. Situations when a CO has no discretion whether to refer a case to the RNP/DSP are as follows:

(1) **Prescribed Circumstances.** Offences suspected of having been committed in certain circumstances are considered inherently more serious and must always be reported to and investigated by the RNP. The RNP will then either refer the case to the DSP or consult with the DSP before reporting the case to the CO (see the MSL Vol 1 Chapter 6 paragraphs 59 and 60). Where the case has been referred to the DSP the CO has no power to deal with it summarily unless the DSP refers it back to the CO. Where the RNP have consulted the DSP, however, and the DSP is satisfied that there is insufficient evidence to charge an offence committed in prescribed circumstances, the RNP may refer the case to the CO. The CO will then have the power to bring a charge capable of being tried summarily. Unless the DSP directs the CO to bring a charge(s), COs dealing with a case in which the offence alleged had at any stage been suspected of having been committed in prescribed circumstances, must seek legal advice before bringing any charge(s).

(2) **Serious Offences.** Serious offences which are capable of being tried only by CM are listed in Schedule 2 to AFA 06 and in the MSL Vol 1 Chapter 6 Annex C. These cases must be referred to the DSP. Certain other offences (listed at the MSL Vol 1 Chapter 6 Annex B) may be tried summarily only with permission from the relevant HA. If the CO brings such a charge, and subsequently the HA refuses permission to hear the charge, the charge must be referred to the DSP without giving the accused the option. Even where the charge is capable of being heard summarily, the CO has the choice of whether to bring such a charge or refer the case to the DSP.

(3) **Unlisted Offences.** On 1 July 2019, an amendment was enacted to Part 5 AFA 06 such that offences which are not listed in either Schedule 1 or 2 of AFA 06 must be referred by the RNP direct to the DSP.

c. Situations when a CO has discretion, but should normally refer a case are as follows:

(1) **Sentencing Threshold.** Where a conviction, following denial of the offence(s), is likely to merit a sentence beyond the CO's maximum powers (either with or without extended powers of punishment), the CO should refer the case for CM. COs should be aware that when an accused elects for trial by CM, the sentencing powers of the CM will be capped at the CO's maximum (the MSL Vol 1 Chapter 13 Annex A). If the CO has been granted extended powers of punishment before giving the accused the option, the CM's powers are capped at the CO's maximum with extended powers. In all other cases, regardless which Hearing Officer gave the accused the option, the CM's powers are capped at those of the CO without extended powers.

(2) **Witness Difficulties.** Where a ship, unit or establishment will have difficulty securing or co-ordinating the attendance of witnesses, for example when there are civilian witnesses involved or Service witnesses are scattered, a CM may be the most convenient method of trial. Legal Advice should be sought.

(3) **Legal Difficulties/Complexity.** Where the case is legally complex, e.g. the proposed charge is technical or involves multiple witnesses, difficult 'points to prove', the case involves expert evidence or there are issues of admissibility, the CO should consider referral to the DSP. The CO should seek legal advice before referring any case to the DSP.

d. In all circumstances where the CO refers the case for trial by CM, the DSP will have full powers to deal with the case in the manner most appropriate. This includes preferring charges they deem have a realistic prospect of conviction and referring the case or part thereof back to the CO, as well as discontinuing the case. Significantly, the sentencing powers of the CM will not be limited to those of the CO, as they would be if the accused elected for trial by CM.

2053. Accused's Option for Trial by Court Martial

a. It is obligatory to give all personnel the option of trial by CM (the MSL Vol 1 Chapter 9) (unless the case or charge is to be referred direct for trial by CM).

b. If an accused elects to exercise their right to trial by CM at a Summary Hearing, charges will already have been brought and hence it is the charge which will be referred to the DSP, not the case. This is very significant, because the DSP's powers to deal with the case in terms of preferring different or additional charges will be limited. Furthermore, where an accused elects for trial by CM the powers of punishment of the CM will be limited (see above). In addition, once a charge has been referred to the DSP, the CO will no longer have powers to deal with it. If the accused wishes to withdraw their election for trial by CM, they will have to make a representation to the DSP through the CO and the DSP will decide whether to refer it back to the CO.

2054. Referral of a Case or Charge to the DSP for Trial by Court Martial

Whether the matter is proceeding towards CM as a case or charge via direct referral by the CO, or at the Accused's option, the procedures for referring a case or charge to the DSP are detailed in the MSL Vol 1 Chapter 6 (Investigation, Charging and Mode of Trial). When referring cases and charges to the DSP, COs should ensure that a covering letter includes full particulars of factors that the CO took into account when deciding whether the case should be dealt with by CM. In addition, if the RNP have referred a case directly to the DSP, the CO of the accused is entitled to provide the DSP with any additional information relevant to the case. Such information may assist the DSP in deciding whether it is in the Service interest to prosecute the case. COs must seek legal advice when considering referring a charge or case for consideration of trial by CM. If the DSP decides to allocate a case for CM, the CO will be directed to bring a specified charge(s); the CO should sign the charge sheet and serve it on the accused (see paragraph 34 for service of charges).

2055. Applications for Extended Powers or for Authority to Hear Certain Charges Summarily

a. COs of below 2* rank must apply to Higher Authority *in advance* for extended powers of punishment if the offence to be charged, if proved, would merit one of the following punishments:

(1) Detention of more than 28 days.

(2) Detention for Leading Hand/Lance Corporal.

(3) Forfeiture of seniority (officers only).

(4) Disrating/reduction in rank (one step only).

b. Applications for extended powers of punishment should be submitted to the appropriate HA by completing Annex 20T, supported by the documents listed in the MSL Vol 1 Chapter 9 paragraph 18, including a copy of the Case Summary. If the application is approved by the HA, the HA will notify the CO in writing, and the CO must provide the accused with a copy of the notification not less than 24 hours before the hearing. The notification need not be signed by the HA personally.

c. In addition, COs must apply to HA for permission to hear certain summary offences in advance of the proposed Summary Hearing. These include more serious but not uncommon ‘summary level’ offences, such as assault occasioning actual bodily harm, unlawful possession of an offensive weapon, fraud/dishonesty; such offences are listed in the MSL Vol 1 Chapter 6 Annex C and Chapter 9 paragraph 13. Applications for permission to hear such charges summarily should be submitted to the appropriate HA by completing Annex 20T, supported by the documents listed in the MSL Vol 1 Chapter 9 paragraph 14, including a copy of the Case Summary. If the application is approved, the HA will notify the CO in writing, and the CO must provide the accused with a copy of that notification not less than 24 hours before the hearing.

d. Applications for extended powers of punishment and for permission to hear a charge summarily should be accompanied by an application to impose forfeiture of GCB(s) if the CO considers it appropriate and if forfeiture is not an automatic consequence of the proposed punishment. In the event of a finding that the charge is proved, where relevant, the imposition of a Career Check, which is obligatory depending on the punishment imposed, and the forfeiture of GCB(s) should be notified to the accused when the sentence is imposed. See below and Annex 20C on the Administrative consequences of punishments.

e. Applications should normally be prepared by the LO/DLO (where borne) assisted by the senior Logs (Pers) rating. In MWVs an application should be prepared by CORRO assisted by the Coxswain. In RM units the Adjutant should prepare the application, assisted by the G1 Disc Adv. In all cases the CO should approve and sign the application.

SECTION 10

OFFENCES BY OFFICERS

2056. Choice of Administrative Action, Summary Discipline or Court Martial

a. The most minor professional or personal failings by officers up to the rank of Cdr/Lt Col may be dealt with by Minor Administrative Action (see JSP 833). For officers below the rank of Capt RN/Col RM, where the Hearing Officer determines that they have sufficient powers of punishment, offences amounting to misconduct may be dealt with by means of a Summary Hearing. More serious offences should be considered for trial by CM. In certain circumstances, Administrative censure action may provide a suitable alternative to disciplinary action. BRd 2 Chapter 38, the MSL Chapter 12, this Section and Para 2012 should be considered before a decision is made on the appropriate disposal.

b. Careful judgement is needed to weigh the factors which determine the appropriate course to adopt in any given situation and, in order to ensure consistency of treatment throughout the Service, guidance should be sought from Legal Advisers in all but the most straightforward cases.

2057. Negligence

a. An officer's wide responsibilities make them more susceptible than a rating/other rank to allegations of negligence, and censure action provides an effective and convenient way of dealing with less serious instances of this kind. BRd 2 Article 3802 advises that negligence of a serious or gross degree will normally lead to disciplinary proceedings against the officer concerned whereas other cases may be dealt with administratively. In cases of professional negligence, a view can be taken, based on the findings of a Service Inquiry or Immediate Ship’s Investigation/RM Unit Inquiry and dependent upon the degree of negligence involved, on whether the matter requires disciplinary action or administrative censure.

b. Negligence is defined in the MSL Chapter 12. In essence, an officer is negligent if either they have done something which a reasonably capable and careful person of their seniority and experience in the Service would not have done, or has failed to or omitted to do something which a reasonably capable and careful person in their position in the Service would have done. The degree of negligence is not determined by the consequences of the act or omission, but by the extent to which the conduct failed to reach the standard of the reasonably capable and careful person. Where something has gone wrong, it does not necessarily mean someone must have been negligent. Similarly, a person may have been negligent but have caused no loss or injury.

c. Serious or gross negligence can be regarded as a marked or notable failure to act in the way that a reasonably capable and careful person would have done. Wilful negligence, which is to say negligence with a reckless regard to the possibility of loss, damage or injury, will almost always be serious.

d. For negligence that is not serious, administrative censure action is normally the most appropriate course of action where:

(1) Culpability is not disputed;

(2) The degree of negligence is assessed, having regard to all the circumstances, as being unlikely to attract a punishment (should the allegations be proved summarily or in CM) greater than a Severe Reprimand; and

(3) There are no overriding considerations demanding disciplinary action.

e. Where the evidence suggests that disciplinary action is appropriate, then consideration should be given to whether the matter can be heard summarily or whether referral should be made for trial by CM. Summary Hearing will not be appropriate where serious negligent failings are identified by Immediate Ship's Investigation/RM Unit Inquiry or Service Inquiry. Nevertheless, Summary Hearing may be appropriate in some cases, e.g. persistent minor neglect to carry out routine but essential tasks. Referral for trial by the CM would also be appropriate where the issues are complex. In all cases, legal advice should be sought.

2058. Officers Under Training

The option of administrative action for minor misconduct may sometimes be more appropriate for officers under training because of their lack of naval (and perhaps general) experience. Cases in which misconduct is clearly attributable to misplaced exuberance may, where the circumstances and interests of discipline allow, fall into this category. Young Officers and officers under training who have, however, previously been warned about their conduct but have nevertheless repeated such or similar misconduct are less likely to avoid disciplinary action than might otherwise be the case.

2059. Senior Officers

a. An officer of the rank of Capt RN/Col RM (or other Service equivalents) and above cannot be dealt with summarily. For officers below this rank, COs may hear a case summarily, provided there is at least a two-rank separation between the Hearing Officer and the accused officer. If the two-rank separation does not exist but a CO considers that Summary Hearing is appropriate, they should forward the case to their relevant Higher Authority who will appoint a bespoke CO for the purposes of hearing the case.

b. COs themselves, and Chaplains, may similarly be dealt with summarily. The Fleet Commander is to be informed where charges are being considered against a CO. For summary discipline purposes, Naval Chaplains are to be treated as though they hold the rank of Commander.

2060. Available Punishments

The punishments which may be imposed summarily upon officers are laid down in JSP 830 Chapter 13 Annex B, and include the following:

a. Forfeiture of seniority (extended powers of punishment required).

b. Fines not exceeding 28 days' pay.

c. Severe Reprimand.

d. Reprimand.

e. Admonition.

f. Service Compensation Order.

2061. More Serious Cases

Any offence thought to justify punishment in excess of the CO's summary powers should be referred to the DSP for CM using normal procedures. COs must take legal advice before bringing any charge against an officer and proceeding to Summary Hearing.

2062. The Obligatory Option of Court Martial

As is the case for ratings/other ranks, it is obligatory to give officers the option for trial by CM in every case, unless the CO refers the case to the DSP for consideration for trial by CM or the DSP has referred a case back to the CO with the written consent of the accused.

2063. Joint Hearings with Ratings/Other Ranks

Unless the interests of justice require it, the Summary Hearing of officers and ratings/other ranks should be conducted separately. Therefore, if it appears an officer and rating/other rank are both involved in an incident likely to give rise to disciplinary proceedings, legal advice on the method of trial/hearing should be sought at the earliest opportunity.

2064. Sentencing

The general sentencing principles set out in the MSL Chapter 14 apply equally to the summary punishment of officers as for ratings. Whilst the starting point in the detailed MSL guidance should be at least that for experienced senior ratings/SNCOs (bearing in mind the limitations on punishment) COs should have particular regard for the status and responsibilities of officers when deciding what punishment to impose.

2065. Reporting and Recording

a. Punishments imposed summarily upon officers are to be recorded on JPA but, as is the case for ratings, are subject to the Rehabilitation of Offenders Act 1974[18]. Offences may be considered for promotion and appointing purposes until the individuals have become rehabilitated and therefore may be included on the official record as follows:

(1) **Forfeiture of Seniority.** Spent immediately; not to be recorded.

(2) **Fine.** Recorded at the discretion of the officer imposing the fine. A fine of over 14 days' pay should normally be recorded for one year from the date of conviction (six months if imposed upon a person under 18).

(3) **Admonition.** Spent immediately; not to be recorded.

(4) **Reprimand.** Recorded at the discretion of the officer imposing the reprimand. A reprimand should normally be recorded for one year from the date of conviction (six months if imposed upon a person under 18).

(5) **Severe Reprimand.** Recorded for one year from the date of conviction (six months if imposed upon a person under 18).

(6) **Service Compensation Order.** Recorded until the date on which payment is made in full.

b. Administrative censures are recorded in JPA and are included in the Personal File record held by Career Manager.

[18] As amended by the Legal Aid, Sentencing and Punishment of Offenders Act 2012 and the Armed Forces Act 2021.

SECTION 11

PREPARING FOR THE SUMMARY HEARING

2066. Preparation by the Hearing Officer

Before the Hearing, the CO (or officer conducting the SH) must familiarise themself with the case papers, including the evidence. They must understand the issues in the case, and the facts which must be proved for the offence charged to be made out.

2067. Role of the Accused's Assisting Officer (AAO)

The role of the AAO is an important one. The CO must satisfy themself that the individual acting as AAO is capable of doing so, and that they have been afforded adequate time and facilities to prepare for the Hearing. The AAO's role begins when a charge is brought – and they should be involved with the accused from that point forward. Guidance on their role is contained in the MSL Chapter 9 Annex G and in Section 23 to this chapter, which the AAO must read. HODs should be encouraged to take an interest in the progress of the case, including the role and responsibilities of the AAO.

SECTION 12

SUMMARY HEARING PROCEDURE, ROLES AND RESPONSIBILITIES

2068. Inquisitorial Summary Hearing

The Summary Hearing is inquisitorial rather than accusatorial; there is no 'prosecution' by XO, RNP or Coxswain, but rather the Hearing Officer plays the role of investigator. The CO must consider the case, examining evidence from witnesses in support of the charge, the accused and witnesses for the accused before coming to a finding. The Hearing Officer will have seen the case papers beforehand and will usually have brought the charge. Because it is a hearing, not a trial, the accused will not plead guilty or not guilty, but will instead admit or deny the charge(s). The finding of the Hearing Officer will be that the charge is proved or not proved. The Summary Hearing procedures under AFA 06 are essentially the same across the Services, but with slight Service-specific differences in terms of the 'ceremony' of the Summary Hearing. Before the hearing begins, the accused will be afforded the opportunity to elect for trial by Court Martial. If the accused elects for Summary Hearing, they will then be asked to admit or deny the charge. If they deny the charge, the evidence of witnesses will be considered and, if necessary, the witnesses may be questioned before the Hearing Officer comes to a finding. The accused will be supported and represented by an Accused's Assisting Officer who may question witnesses on their behalf and give mitigation and character evidence. The MSL Chapter 9 describes in detail the procedure to be followed, and the form 'Record of Summary Hearing' (RSH) is to be used as a guide and made out by the Hearing Officer during the proceedings. A CO should not find a charge proven unless they are sure that the accused committed the offence as charged.

2069. Requirement for Global Sentence

Where a Hearing Officer records findings that two or more charges against a person have been proved, the sentence they impose must be a single 'global' sentence and not separate sentences for each charge.

2070. Role of the Hearing Officer

a. The Hearing Officer will be the CO or delegated Sub Cdr (normally the XO/OC but may be any officer of Lt RN/Capt RM rank or above who has delegated disciplinary powers). The CO will follow the procedure laid down in the RSH (Annex C to the MSL Vol 1 Chapter 9) in considering the case, coming to a finding and, if the charge is found proved, imposing a sentence.

b. In cases where the accused admits the charge it will be the Hearing Officer who reads out the Case Summary. If the accused denies the charge, the Hearing Officer will read out the witness evidence and, if necessary, question witnesses before giving the accused the opportunity to do so. If the accused states (in advance of the hearing) that they wish to challenge the evidence of the witnesses, or ask further questions of them, then the CO is to require the attendance of those witnesses. The CO may also question the accused. Detailed instructions on the Summary Hearing procedure are in the MSL Vol 1 Chapter 9.

2071. Completion of the Record of Summary Hearing

The officer hearing the case should normally maintain the RSH themself. Where necessary, they must make a written record of any oral evidence; since the record is likely to be a paraphrase of what was said it is important that what is recorded is the understanding of the Hearing Officer, not a third party, and that it is completed at the time of the Hearing and treated as a live record. There is no requirement for a fair copy to be typed after the hearing. The RSH must be retained in the unit for two years before archiving iaw JSP 441.

2072. Role of RNP/Coxswain/Company Sergeant Major (CSM)

Before the hearing the RNP or Coxswain/CSM who investigated the charge should prepare the case papers, including the draft Case Summary (which in an RN unit will be prepared by the Command Adviser) and the draft Charge Sheet with the recommended charge and present them to the Hearing Officer, normally through the Command Adviser. Once the Hearing Officer has signed the charge sheet it should normally be the RNP/Coxswain/G1 Discipline Adviser or CSM who serves the charge sheet and case papers on the accused. The Hearing Officer may, however, decide to do this personally in appropriate cases, e.g. CO bringing a charge on the direction of the DSP. The CO should conduct the Summary Hearing in person, including, should the matter be admitted, reading out the Case Summary, and the written evidence of any witnesses where it is not. At the direction of the CO, the RNP/Coxswain/RSM/CSM should continue to arrange and stage manage the table/hearing. They should muster and march in the accused (and witnesses) and ensure that customary Service procedures are followed. They must not act as 'prosecutor' or read out the case summary or other evidence. If the RNP/Coxswain/RSM/CSM is to be a major witness at the hearing, in order to preserve the fairness of the proceedings, another suitable rating/rank such as the EWO, CBM/senior Logs (Pers)/alternative CSM should assume this role.

2073. Accused's Assisting Officer (AAO)

a. All accused Service personnel are entitled to an AAO to help them before, during and after the hearing. In the RN it is expected that the AAO would normally be the DO or DSR of the accused, and must be an officer or Senior Rating. In the RM it is expected that the AAO would normally be the Tp Cdr/HOD/Tp Sgt of the accused, and must be an officer or SNCO. The potential AAO must consent to being nominated, and there may be circumstances under which the candidate is unable to act for the accused, for example if they are a witness. If the accused is unable to secure the services of an AAO the CO must nominate two suitable officers or senior ratings/SNCOs between whom the accused can choose. The services of an AAO are not mandatory and a hearing can go ahead if the accused chooses not to be supported by an AAO.

b. During the hearing the AAO may question witnesses on behalf of the accused. The AAO may make a plea in mitigation also give character evidence on behalf of the accused. The AAO may present an appraisal report or assessment of the performance of the accused for the Hearing Officer's perusal if the accused so wishes, but to do so is not mandatory; negative inference should not be drawn if the appraisal or assessment is not presented, it is simply an opportunity for mitigation which has not been taken. Detailed instructions are in Annex G to the MSL Vol 1 Chapter 9 – which must be read and understood by the AAO, together with the relevant Annex to that Chapter.

2074. Witnesses

Witnesses may be required to attend the hearing if the Hearing Officer or the accused wish to question them. The accused will be notified of the witnesses whose evidence the Hearing Officer wishes to use when they are served with the case papers. The accused should also notify the Hearing Officer of the witnesses whose evidence they wish to call at least 24 hours in advance where possible; this is not a legal requirement but allows for effective management of the case, and is in the interest of all concerned.

2075. Command Adviser

If borne, the LO, DLO or CorrO will normally advise the command before and during a Summary Hearing. In RM units the Adjutant or G1 Discipline Adviser will normally advise the command. When required they will prepare the applications to HA for permission to hear certain charges summarily or for extended powers of punishment (see above). Under direction of the Hearing Officer, they shall also finalise the Case Summary. In RM units the Case Summary will be prepared by the G1 Discipline Adviser or CSM. The Command Adviser shall supervise the completion of all post-hearing actions (including the RSH, JPA record and submission of materials for review). It remains the CO's responsibility that the review process is followed (see Para 20103).

SECTION 13

SENTENCING (INCLUDING GIVING REASONS)

2076. Sentencing Guidance

Guidance on the sentencing process and summary punishments is contained in the MSL Chapter 13. The MSL Chapter 14 includes a Sentencing Guide, which sets out the features and considerations in different cases, and gives guideline sentences. Both chapters should be consulted by officers exercising powers of summary discipline, and by AAOs. Guidance on the imposition of specific punishments, and the processes involved, are set out in this section.

2077. Requirement to Give Reasons

When sentencing, Hearing Officers must give reasons, which should include an explanation of the facts which they found proved, whether any credit has been given if the charge was admitted, and any aggravating or mitigating features. In order to consider sentence and prepare their reasons, Hearing Officers should not hesitate to break proceedings after finding the case proved and hearing any mitigation. The RSH should be used to record the reasons given. Hearing Officers should take care to set out the salient facts proved, particularly where these have been disputed by the accused, or where they form features which aggravate the offence and had an effect on the sentence. Hearing Officers must explain any discount they apply to the sentence.

2078. Announcing Sentence or Imposing Sentence in the Presence of the Ship's Company

a. Under AFA 06 there is no equivalent to the former RN warrant punishment, and consequently no requirement to conduct a formal reading of a Warrant to announce the sentence imposed. As part of the Summary Hearing process, the Hearing Officer will, in all circumstances of imposing punishment summarily, inform the accused of the sentence.

b. COs may open the sentencing phase of the Summary Hearing to the Ship's Company. This should only be done where legal advice on the charge and sentence has been received. This procedure is only to be used in relation to ratings and other ranks below the rank of Warrant Officer.

c. It is left to the CO's discretion when such a procedure should be followed, but in the majority of cases such a procedure will not be appropriate. The procedure is to be used only where the CO considers there will be a tangible benefit in terms of the maintenance of discipline in the ship, unit or establishment.

d. There is no formal procedure for opening the sentencing part of the Summary Hearing to members of the Ship's Company. COs will invariably wish to consider and prepare their sentencing remarks before conducting the proceedings, however, and a stand over prior to the sentencing part of the hearing will be necessary. The CO should then re-convene the hearing before members of the Ship's Company. The CO should then sentence the accused and give reasons for the sentence in the usual manner. COs may then wish to call a short stand over and then re-convene in the absence of the Ship's Company to complete the summary hearing process. This will include ensuring the accused understands their rights and, in the case of Detention, asking the accused whether they wish to go to Detention immediately or wait until the initial appeal period has passed.

e. Announcement of sentences imposed can be an important reminder to the Ship's Company of the Royal Navy core values and standards. Where, in more serious cases, the CO does not consider it appropriate to announce the sentence in front of members of the Ship's Company but does wish the sentence to be fully understood, the CO should consider conducting a Clear Lower Deck of the Ship's Company or relevant Department in the absence of the accused to explain the sentence and reasons for it. This method has considerable benefits: it can be timed to occur after the accused has commenced the sentence, reducing the artificiality involved in a sentence of detention being announced but not implemented; it allows the CO to explain the context and reasons for the sentence – and explain what they expect of the Ship's Company in future; and the risk of an intemperate response from the accused or others may be reduced. The normal management practice by which the ship's senior management (XO, EWO, HOD, DOs) may informally debrief the Ship's Company as to the effect of a severe punishment, e.g. on loss of pay, pension, eligibility for the LS&GC medal, promotion opportunity etc, continues under AFA and is to be encouraged. In all cases COs will wish to consider publishing punishments on Daily Orders. Where an accused subsequently appeals, the fact of the appeal and the outcome of any appeal should also be published. Consideration should be given to explanatory notes following conviction at CM.

SECTION 14

GUIDANCE ON PARTICULAR SENTENCES

2079. Dismissal

Dismissal is not available as a summary punishment under AFA 06. It remains the responsibility of the accused's CO to take the necessary administrative actions, however, that give effect to dismissal where it is awarded by CM. For certain offences, for example drugs offences, COs should consider administrative discharge (see FLAGO Chapter 16 and BRd 3(1) Chapter 54). In addition, where a sentence of imprisonment is imposed by the CM, administrative discharge must be considered and is the responsibility of the accused's CO to action. Administrative discharge may also be considered where a CM has not imposed dismissal, but the CO considers discharge to be appropriate. In all such circumstances, legal advice should be sought.

2080. Detention and Short Term Detention

a. **Sentencing Approach.** The correct approach is to consider **first** whether a proved offence justifies a sentence of Detention, **second**, if so, what period, and **third**, whether the sentence should be committed or suspended. Legal advice must be taken if a CO is considering a sentence of detention, no matter what length.

b. **Is a Sentence of Detention Justified?** There are restrictions on Award of Detention. A CO may only impose detention summarily to personnel of or below Leading Rate or Lance Corporal RM. The CO may not summarily sentence a PO or Cpl RM, or above, to detention. The CO may not impose a sentence of detention, of any permitted length, to a Leading Hand/Lance Corporal unless they have applied for, and been granted, Extended Powers of Punishment. When imposing a sentence of detention to a Leading Hand/Lance Corporal the CO should consider, separately, whether or not to impose a separate sentence of Disrating/Reduction in Rank; the CO may (but need not) impose that accompanying punishment. Re-promotion following reduction in rank is governed by Chapter 70 and requires a minimum of 12 months Career Check free service. In any event, during the time that any Royal Navy offender is in custody at MCTC, they are for all purposes treated as being of the rank or rate of able rate or marine.

c. **Offences Justifying Detention.** Advice on offences justifying detention is given in the MSL Chapter 14 under each specific offence.

d. **Length of Sentence.** When calculating the appropriate length of sentence, COs should take the following matters into consideration:

(1) **MCTC Colchester Training Programmes.** Sentences of Detention for RN/RM personnel will normally be served at MCTC Colchester. The minimum effective course of corrective training at MCTC is 21 days. MCTC will take personnel into Service Detention for periods of less than 21 days, but the corrective training value and rehabilitative effect will be severely limited. After 21 days, the next natural training step is set at 28 days. Where COs conclude that, in all the circumstances, a longer period of training is merited, consideration should be given to imposing a sentence in excess of 28 days. In cases where the CO believes that the offender is not likely immediately to respond to corrective training and taut discipline, consideration should be given to imposing 36 days. The next steps up in length of sentence are generally accepted as being 42 days, then 60 days, and finally the summary maximum of 90 days.

(2) **Remission.** Remission is not granted for sentences up to 24 days. Beyond 24 days, $^{1}/_{3}$ sentence is automatically remitted to a minimum of 24 days. Therefore, for sentences of 25 days to 36 days the sentence that will be served is 24 days, for a sentence of 42 days it will be 28 days, for 60 days it will be 40 and for 90 days 60 will be served. For sentences of detention over 90 days, further remission of up to $^{1}/_{6}$ of the portion of the sentence over 90 days may be earned for exceptional behaviour. Sentences in excess of 90 days may only be imposed by CM.

(3) **Intermediate Periods of Detention and Time Spent in Custody.** COs retain the lawful authority to impose a sentence of less than 21 days, but must in all cases consider suitable alternatives. It will be the exception to the norm that other punishments, or a combination thereof, are not far more appropriate and effective. In addition to seeking legal advice, where sentences of less than 21 days are under consideration, COs must contact the RPC to ensure suitable arrangements can be made for detention either at MCTC or, if necessary and/or desirable, regional facilities run by the Army. It should be noted that regional facilities may well require additional supervisory personnel to be provided by the discharging unit, and for operational/logistical reasons, RPCs may not be in a position to provide either transport or escorts. Time spent in pre-trial custody after charge should be credited against any sentence of detention (see the MSL Chapter 13). COs should impose the full sentence of detention and MCTC will calculate the time remaining where time spent in custody is to count as time served. There is no legal requirement for time spent in custody before charge to be counted against any period of detention subsequently imposed, but a CO may take such periods into account when determining the length of a sentence to be imposed. Periods spent under arrest during interview will usually be so short as to be not worthy of taking into account in calculating the 'discount'.

(4) **Travelling Time.** COs should take into consideration the impact of travelling time when determining whether the period of detention proposed is adequate, subject to the principle that the length of detention proposed must still be appropriate to the offence and to the offender. Therefore, even where a sentence of 21 days detention or more would be appropriate, an alternative punishment might be better where it would not be possible to transfer the offender to and from MCTC within the requisite timescale.

(5) **Escorting Detainees.** Historically, RNP facilitated the transportation of Detainees Under Sentence (DUS), however, this is now a unit Command responsibility. Guidance is contained within JSP 837 Part 2 'Service Code of Practice – Custody and Detention and Committal to Civil Prison'. It is advisable that, where possible, the I/C Escort is of superior rank or seniority to the detainee. The driver should not routinely be counted as an escort. For example, a unit sending an offender to the MCTC by a road move would require I/C Escort, second escort, and driver (total of three personnel) in order to safely move the detainee. RPCs are available to provide support and guidance where concerns exist that an offender is likely to become violent and/or abscond prior to successful committal to MCTC or HM Prison.

e. Sentences of 90 days must be reserved for the most serious of cases. Command Advisers (LO, DLO, Adjt/G1 Disc Adv or EA) should consider carefully, on the basis of the papers and any admissions made in interview, the likelihood of the accused opting for Summary Hearing and admitting the charge. In the majority of serious cases it will be more appropriate to refer the matter to the DSP for trial by CM (without giving the option), thereby allowing the CM full sentencing powers (instead of being capped to the sentencing powers of the CO).

2081. Suspended Sentences

a. Once a sentence of detention has been decided upon, the CO must then consider whether the sentence should be suspended or committed. The MSL Chapter 13 describes the factors that should be taken into account when making this decision.

b. A sentence of detention may be suspended for a period of a minimum of 3 months and up to 12 months (the Operational Period). The CO must consider the length of time it is likely to take the offender to reform when deciding the Operational Period. The period of Detention imposed may inform the CO as to the most appropriate period of suspension. As a rule of thumb, the longer the sentence imposed, the more serious the offence, and the more likely it is to be necessary to suspend the sentence for a longer period.

2082. Activation of Suspended Sentences

a. A CO may activate a suspended sentence of detention which has been imposed at a Summary Hearing or by the SAC if the offender is found guilty of an offence in a civilian court or when an offence which has been found proved at a Summary Hearing was committed during the operational period of the suspended sentence. The MSL Vol 1 Chapter 9 gives full details of the procedure for activation during a Summary Hearing when a service offence is found proved and during an activation hearing following a civilian conviction. In all cases where a CO is considering the activation of a suspended sentence, legal advice must be sought. As stated, Disrating/Reduction in Rank is incurred automatically by activation, where this was not imposed as a separate, optional punishment with the (suspended) detention.

b. Whenever a CO intends to activate a suspended sentence and at the same time award a further sentence of Detention, the two may be ordered to run concurrently or consecutively in accordance with the MSL Chapter 13. The maximum of both sentences must not exceed the CO's powers of punishment, i.e. 28 days, or 90 days if extended powers have been granted.

2083. Alternatives to Sentences of Detention - Fines, Stoppage of Leave, Restriction of Privileges and Service Supervision and Punishment Order

Under AFA 06 COs may impose up to 28 days' detention *without reference to higher authority*. Before sentencing an offender to a short period of detention the CO should consider whether an alternative punishment would be more effective, both for the offender and the unit. A combination of a fine, stoppage of leave (SoL) and restriction of privileges (RoP) will have a similar financial effect on the offender and limit the offender's liberty whilst retaining them on board. For more serious offences where detention of 28 days or more is being considered a Service Supervision and Punishment Order (SSPO) might be an appropriate alternative. The table below lists possible alternatives to Detention, and should be read in conjunction to the MSL Vol 1 Chapter 14. The Table should be read as a whole, e.g. seven days' detention = 14 days SoL + 14 days concurrent RoP + a fine equivalent to seven days' pay:

Table 20-6. Alternatives to Detention

Short Detention (Days)	SoL + RoP (Days)	Fine (Days' Pay)
1-2	3	2
3	5	3
4	7	4
5	10	5
6	12	6
7	14	7
8	14	9
9	14	11
10	14	13
11	14	15
12	14	17
13	14	19
14	14	21

2084. Deployed Ships - Alternatives to Committed Sentences of Detention

When it is considered that a committed sentence of detention is the correct punishment, deployed ships should not suspend a sentence solely on the grounds of cost of air transport, difficulty of arranging transport to the UK, or problems of providing escort. In such cases suspension is appropriate only if no transport is available or if duration of passage would be so excessive as to render time spent in MCTC too short to be effective. In such circumstances an SSPO or a combination of a fine, stoppage of leave and restriction of privileges may be considered as alternatives, in accordance with the comparable tariff in the table above.

2085. Financial and Other Consequences of Detention

It is essential that personnel under corrective training are made aware how significantly a sentence of detention will affect them financially. Consideration should be given to informing a Ship's Company of the consequential, and in particular financial, effects of a sentence of detention by means of a note in Daily Orders after an offender has been sentenced to detention.

2086. Leave on Completion of Detention

The Commandant MCTC does not have authority to grant leave on completion of sentence. During main leave periods, the units to which an offender is to be assigned should advise MCTC of the date by which the offender is required to re-join. This advice must specify:

a. The authority for leave.

b. The authority for leave travel if applicable.

2087. Commencement of Sentence of Detention

a. Before sending personnel to MCTC, COs are to ensure the offender has all necessary kit and is prepared in all respects for the training regime. It is the responsibility of the committing CO to ensure that all necessary administration is complete – see JSP 837 'The Code of Practice for the Management of Personnel Within Service Custody and Committal to Service Custody Premises and Civil Prisons'.

b. COs should note carefully the provisions of the MSL Vol 1 Chapter 15 paragraphs 65-66, which determine the date on which a sentence of detention begins. These provisions explain when ordinarily a sentence of detention begins and when the sentence actually begins if the offender exercises their right to appeal to the SAC.

c. All relevant paperwork must accompany the offender sent to detention. This will be examined by MCTC on arrival and sets out the legal authority for them to take the person into custody. If paperwork is missing or incorrectly completed, MCTC may have no option but to return the offender to their parent unit.

2088. Forfeiture of Seniority

COs with extended powers of punishment have the ability to impose the forfeiture of up to all of an officer's seniority as a summary punishment. If a CO is considering forfeiture of seniority, they should consider the financial and career consequences for the officer involved, consulting Career Managers as appropriate. In all cases legal advice must be sought.

2089. Disrating/Reduction in Rank

A CO may, with extended powers of punishment, disrate or reduce the rank of a Warrant Officer or non-commissioned officer of or above the rank of Leading Hand or Corporal. Extended powers of punishment are not needed for a CO to reduce in rank a Lance Corporal. A CO may only remove one acting or substantive rank or rate under this punishment; multi-step reductions are not allowed.

2090. Service Supervision and Punishment Order (SSPO)

The effect of an SSPO is described in full in the MSL Vol 1 Chapter 13, and is similar to that of the former naval punishment of Reduction to the Second Class for Conduct. It is designed to punish and reform a persistent offender without the need to impose detention. It may be imposed summarily by the CO to an able rate or marine without reference to Higher Authority. When imposing the punishment, the CO will add whichever of the discretionary requirements of the punishment they consider to be necessary (see the MSL Chapter 13 paragraph 71b). The CO may delegate, in writing, responsibility to permit the offender to leave the ship, unit or establishment or enter specified areas to another officer not below the rank of Lt RN/Capt RM or equivalent, and it is recommended that they do so to appropriate duty personnel including the DCO/OOD/Duty Staff Officer (DSO) and to the XO/OC as appropriate to the unit (see FLAGO 1608). Where the requirement to undertake extra duties is imposed, the CO may detail what extra duties are to be performed (for example extra work or training), for how long and when. The CO is permitted to delegate, however, in writing, this function to a person of or above the rate/rank of CPO/CSgt. They may wish to prescribe the routine to be followed in SGOs/USOs (see recommended routine in Table below), but it is also recommended the function be delegated to the XO/Adjt/MAA/Cox'n/OOD/DSO/CQMS and the OC as appropriate (see FLAGO 1608) in order to cater for circumstances in which, for any reason, the normal routine cannot be followed. The DPO/DSNCO (if Sgt) will be unable to allocate the work or duties to be performed, but must seek the approval of the OOD.

2091. Stoppage of Leave and Restriction of Privileges - Routines

a. Stoppage Of Leave (SOL) and Restriction Of Privileges (ROP) will usually be the most commonly imposed punishments. Stoppage of leave will require the offender to be confined to their ship or establishment and to muster periodically during the period of the punishment. Restriction of privileges will require the offender to muster periodically and perform extra work, training or any other Service duty (up to 5½ hours per day). Both punishments may be imposed individually, or in combination.

b. As far as possible units should strive to achieve consistency in the punishment routine within the unit, and any routine worked must be clearly distinguishable from sanctions imposed under MAA. It is suggested that the relevant routines are published in SGOs/USOs. Adjustments may have to be made, however, depending on the unit's programme and the availability of staff to manage the routine, to achieve a punishment routine that is both relevant and contemporary.

c. In many cases it may be desirable for extra work to be carried out within the offender's department. Whilst it is ultimately for each ship and establishment to determine its own routine, the table below provides a model which may be adopted or adapted:

RN Ship/Establishment Routine:

Routine	Muster at:	Work until (RoP only):
Daily Harbour	0630 1230 1630 1855 or 5 minutes before evening rounds 1915 RoP Only 2200	0700 1315 1730 Evening Rounds 2100* Muster Only
Saturday Harbour	0630 1230 1630 1855 1915 RoP Only 2200	0700 1315 1730 Evening Rounds 2100* Muster Only
Sunday Harbour	Half hour before call the hands 1300 1630 1855 2200	Muster Only Muster Only Muster Only Evening Rounds Muster Only
Tropical Harbour	Half hour before call the hands 1330 1630 1855 or 5 minutes before evening rounds 1930 RoP Only 2200	Work for 30 minutes 1600 1730 Evening Rounds 2100 Muster Only
Daily Sea	0630 1230 1630 1855 or 5 minutes before evening rounds 2000 RoP Only 2200	0700 1330 1830 Evening Rounds 2100* Muster Only
Saturday Sea	0630 1300 1630 1855 or 5 minutes before evening rounds 2000 RoP Only 2200	0700 1500 1830 Evening Rounds 2100* Muster Only
Sunday Sea	Half hour before call the hands 1300 1630 1855 or 5 minutes before evening rounds 2200	Muster Only Muster Only Muster Only Evening Rounds Muster Only

Notes:

** If a night watch is kept then secure at 2000.*

1. Specify place to muster.

2. Direct offender to muster in correct rig of the day, which is to be clean and in good repair.

3. Instruct offender to produce 'excused chit' in advance of foreseeable absence from time and place of muster.

4. Following from Note 3, if a night watch is kept the offender may be excused the first muster, but the DPO must be informed the day before.

5. If the offender is required for work within their own department at the time of a muster, this must be agreed beforehand between the DepCO and the XO/MAA/DCO/DSO/OOD or OC responsible for deciding which duties are to be performed. The presumption is that an offender should attend a muster and then return to their departmental work.

RM Unit/Establishment Routine:

Other Ranks on SoL and/or RoPs are to report to the DSNCO at the Unit/Establishment Guardroom (or as otherwise detailed) at the following times daily:

Mon to Fri (Parade - SoL and RoP)	Work Until (RoP only)
0630 hrs	0730 hrs
1230 hrs	1330 hrs
1700 hrs	Parade Only
1800 hrs	2100 hrs
2000 hrs (SoL only)	
2230 hrs	Parade Only (30 minutes max)
Saturday	
0700 hrs	0800 hrs
1000 hrs	1230 hrs
1400 hrs	1500 hrs
1800 hrs	Parade Only (20 minutes max)
2000 hrs	Parade Only (20 minutes max)
2230 hrs	Parade Only (20 minutes max)
Sunday	
0700 hrs	0800 hrs
1000 hrs	1230 hrs
1400 hrs	1500 hrs
1800 hrs	Parade Only (20 minutes max)
2000 hrs	Parade Only (20 minutes max)
2230 hrs	Parade Only (20 minutes max)

Notes:

1. Other ranks placed on RoPs will be informed by the DSNCO of the period(s) of extra duties, work or training during non-working hours to be completed (no more than 5½ hours in any one 24-hour period). The maximum number of working hours (16 in any 24-hour period is not to be exceeded). Note: Where the requirement to undertake extra duties is imposed, the CO may detail what extra duties are to be performed, for how long and when. The CO is permitted to delegate, however, in writing, this function to a person of or above the rate/rank of CPO/CSgt. Therefore, a DSNCO of Sgt rank must obtain authorisation from the Duty Officer when considering extra work for ranks on RoPs outside of that which the CO or an Officer authorised by them has already laid down.

2. If an offender is required for night duty they are not to be paraded before the start of their normal working day (i.e. normally excused the first muster time).

3. The offender is to report for each parade in the rig of the day or as directed in Unit Standing Orders or unless directed otherwise by the DSNCO.

4. If the offender is required for work at their normal place of work at the time of a muster then their Tp Sgt/HOD should liaise with the DSNCO/Duty Officer to de-conflict, the presumption being that the offender should attend a muster and then return to their place of work.

5. The offender is to parade in MTP if they are due to carry out work or training. At the other times they can be detailed to parade in for example No 1 Blues, No 3 Lovat dress or No 4 Combat Dress with CEFO.

2092. Delegations Relating to Stoppage of Leave/SSPO

The CO may delegate, in writing, the function of granting permission to leave the ship, unit or establishment to an officer under their command of or above the rank of Lt RN/Capt RM or equivalent whilst an offender is under SoL (see the MSL Chapter 13 paragraph 132). It is recommended this be delegated to duty personnel including the DCO/OOD/DSO and to the OC as appropriate to the unit (see FLAGO 1608). They may also delegate, in writing, to a person under their command of or above the rank/rate of CPO/CSgt, the function of deciding which extra duties the offender must carry out (see the MSL Chapter 13 para 140). It is recommended the routine be set out in SGOs/USOs, but the function should also be delegated to the XO/Adjt/MAA/OOD/DSO/CQMS/Duty SNCO and the OC as appropriate (see FLAGO 1608) in order to cater for circumstances in which, for any reason, the normal routine cannot be followed.

2093. Deferral of Stoppage of Leave and Restriction of Privileges

Hearing Officers imposing SoL and RoP should note that the commencement of these punishments may be deferred by up to 28 days, and the punishment can be applied on specified days within a further 28 days. The purpose of this is to give Hearing Officers the discretion to maximise the effect of the punishment by applying it only on days when the ship is alongside, or the unit is on stand-down i.e.. the punishment does not have to be conducted in one continuous block within the parameters above. Deferral is therefore rarely appropriate for shore establishments or ships alongside for a protracted period. When imposing deferred punishments on specified days, Hearing Officers should bear in mind that the punitive effect may be more severe than when the punishment runs continuously from imposition.

2094. Supervision of Service Supervision And Punishment Order, Stoppage of Leave and Restriction of Privileges

Hearing Officers are to ensure that all personnel subjected to an SSPO or a combination of SoL and RoP carry out the routine under the close and careful supervision of a senior rating/SNCO.

SECTION 15

THE ADMINISTRATIVE CONSEQUENCES OF PUNISHMENTS

2095. Requirement to Consider Administrative Consequences

a. The table at Annex 20C summarises the administrative consequences of punishments imposed under AFA 06. It lists the administrative actions which are to be taken automatically (obligatory), and those which may be taken (optional), when a member of the Royal Navy is punished under AFA 06. This includes forfeiture of LS&GC Medal or the MSM, forfeiture of GCBs and the imposition of a Career Check (obligatory only).

b. The potential imposition of administrative action under this section following a conviction by CM or the SAC, or a finding by a CO that a charge is proved, is triggered by the punishment imposed. Where the sentence was imposed by CM or the SAC, the offender's CO should consider whether any such action should be taken. All administrative actions dealt with under this article require approval, save that a Captain Royal Navy/Colonel Royal Marines may order forfeiture of one GCB and a CO may impose a Career Check without seeking such approval.

c. Where an offence dealt with at CM or the SAC calls into question an individual's suitability for continued service, or to continue to hold their current rank or rate, the CO must also consider action under Section 19 of this chapter.

2096. Meritorious Service Medal

The award and forfeiture of the MSM is governed by Chapter 9 of JSP 761, which should be referred to where an offender holds the MSM.

2097. Forfeiture of Long Service and Good Conduct Medal (LS&GCM)

The regulations for the award and forfeiture of the LS&GCM were revised with effect from 1 Oct 16. An individual who has been awarded the LS&GCM and subsequently incurs an entry on their disciplinary record cannot now forfeit the medal unless they are sentenced to imprisonment for a period greater than six months and/or are dismissed. Further details regarding the award and removal of medals are contained in JSP 761 Chapter 5. Under AFA 06 deprivation of the LS&GCM is no longer a punishment in itself. All circumstances giving rise to forfeiture of the LS&GCM are to be reported to the Naval Secretary (Honours and Awards).

2098. Forfeiture of Good Conduct Badges

As with the LS&GCM, under AFA 06 deprivation of Good Conduct Badges (GCBs) is not a punishment. GCBs may, however, be forfeit following disciplinary action. This preserves the previous position whereby under the Naval Discipline Act 1957 the officer or court imposing a punishment was obliged also to consider whether deprivation of GCBs was obligatory or optional as part of the overall punishment imposed.

a. **Obligatory Forfeiture.** Forfeiture of all GCBs is mandatory whenever any of the following punishments is imposed under AFA 06:

(1) Imprisonment.

(2) Dismissal.

(3) Detention over 14 days.

(4) Suspended sentence of detention over 14 days.

(5) Service Supervision and Punishment Order.

b. **Optional Forfeiture.** Forfeiture of one or more GCBs is to be considered whenever a rating/other rank holding GCBs is sentenced to any of the following punishments:

(1) Detention up to 14 days.

(2) Suspended sentence of detention up to 14 days.

(3) Reduction in rank/disrating.

(4) Fine.

(5) Severe reprimand.

(6) Reprimand.

(7) Service Compensation Order.

2099. Effect of Activation of Suspended Sentence of Detention on GCBs

Where an offender has been sentenced to a short period of suspended detention, GCBs were not forfeit as a result of that punishment, and that punishment is subsequently activated either wholly or in part, by a CO, CM or SAC, the CO should consider whether the circumstances merit forfeiture of GCBs. This action may be taken whether the offence triggering activation of the suspended sentence was dealt with by a civilian court, a Service court, or by the CO.

20100. Factors to Consider when Forfeiture of GCBs is Optional

Wherever forfeiture is optional the following factors should be taken into consideration:

a. **Punishment Imposed.** The more severe the punishment, e.g. the longer the period of detention or the greater the financial penalty, the more appropriate it may be to impose forfeiture of one or more GCBs. Noting that in some (in particular, joint) units short periods of detention may be imposed in preference to a combination of Restriction of Privileges and Stoppage of Leave, care should be taken to ensure GCBs are not forfeit as a result of a relatively minor offence.

b. **Offence Committed.** The type of offence committed may influence the decision whether a GCB should be forfeit. Offences involving poor conduct in relation to the offender's or another person's duty may justify forfeiture of one or more GCBs, particularly if the offence was committed deliberately or involves dishonesty. In particular, Desertion (AFA 08 s.8) repeated or long absence without leave (AFA 06 s.9), failure to cause the apprehension of deserters or absentees (AFA 06 s.10), misconduct towards a superior Officer (AFA 06 s.11), disobedience (AFA 06 s. 12), using force against a sentry (AFA 06 s.14), serious neglect of duty (including sleeping on watch) (AFA 06 s.15(2)), malingering (AFA 06 s.16), making false records (AFA 06 s.18), conduct prejudicial to good order and discipline (AFA 06 s.19), serious or repeated drunkenness (AFA 06 s.20), ill-treatment of subordinates (AFA 06 s.22), and misapplying or wasting public or service property (AFA 06 s.25) may justify forfeiture of a badge or badges. In addition, any offence involving physical violence, dishonesty, criminal damage, smuggling, contravention of censorship regulations or possession of an offensive weapon will usually justify forfeiture. Failure to report any of the offences listed in this paragraph, in contravention of standing orders, is also a serious matter which may warrant forfeiture of a badge(s). The list of types of offence in this paragraph is not exhaustive.

c. **Disciplinary Record.** Repeated offences may indicate that the offender is unfit to hold one or more GCBs. Conversely, where an offence can properly be regarded as out of character the forfeiture of a badge, and the associated impact on award of LS&GC Medal, may be regarded as unduly harsh.

d. **Conduct.** Forfeiture of one or more badges following a relatively minor offence may be appropriate where the offender has previously been subject to MAA instead of disciplinary action for similar incidents. The offender's general conduct should also be taken into consideration. Any MAA taken against the offender in the current unit may indicate that the offender's general conduct has fallen below the required standard and therefore that they are no longer fit to hold one or more badges.

20101. Approval of Forfeiture of GCBs

Where forfeiture of GCBs is obligatory, prior approval to impose forfeiture is not required. COs of the rank of Captain Royal Navy/Colonel Royal Marines and above may impose forfeiture of one GCB without seeking approval. In all other circumstances application to impose forfeiture of GCBs must be made to the Higher Authority.

20102. Applications for Approval by Higher Authority

Where forfeiture of a GCB requires approval, the application is to be made in writing to the HA, utilising the form at Annex 20T. Where forfeiture of a GCB is optional and the CO subsequently orders that a GCB is to be forfeited, the accused is to be informed of their right to state a Service Complaint in relation to the matter.

SECTION 16

REVIEW OF SUMMARY HEARINGS

20103. Review of Summary Hearings - Purpose and Method

a. AFA 06 requires the review of Summary Hearings where a finding that the charge has been proved has been recorded. Review ensures that no mistake has been made in law and that the punishment imposed is commensurate with the offence.

b. It is Naval policy that review will be conducted on behalf of the Defence Council by the Summary Hearing Review Cell (SHRC). The Defence Council has delegated all barristers on the staff of NLS of the rank of Cdr RN and above as Reviewing Officers. Only these personnel may apply for leave to appeal to the SAC or, where the accused has already lodged an appeal, notify the SAC of relevant matters.

20104. After Hearing Actions - Preparing the Case for Review

After a charge is found proved at a Summary Hearing, unit staff are to perform the following tasks without delay to facilitate a timely review of the case:

a. Complete the JPA record in accordance with the Business Process Guide.

b. Complete Annex A v.9/16 (Summary Hearing Review) (available from the SHRC) and attach it to the JPA record; and

c. Assign the JPA case to the SHRC, granting it instant access to the whole record. (If connectivity issues preclude the use of JPA then the Annex A v.9/16 should be emailed or faxed to the SHRC and the remaining actions completed as soon as JPA connectivity is returned.)

d. After Hearing Actions are to be completed within 48 hours of sentence, or within 24 hours of punishment where detention (including suspended sentence of detention) or SSPO has been imposed.

20105. Actions by Summary Hearing Review Cell (SHRC)

a. A preliminary screening will be conducted by SHRC staff, who will check that the punishment was lawful, was within the powers of the person imposing the punishment, and that the severity was not manifestly excessive for the offence proved.

b. Any practical difficulties which will lead to a delay in completion or transmission of the case papers to the SHRC are to be raised at the earliest opportunity.

c. If any potential discrepancy is detected the SHRC will call for the case papers. If staff encounter a potential legal difficulty they will refer the case to a Reviewing Officer on the staff of NLS of rank not lower than Cdr RN/Lt Col RM (usually NLS SO1 Discipline Law). The Reviewing Officer will, where necessary, make application to the SAC for leave to appeal or notify the SAC of relevant matters. The appeal may be against sentence or against finding and sentence. The offender may abandon any appeal which has been referred to the SAC by the Reviewing Officer if they do not wish to take the matter further.

20106. Expedited Review of Sentences of Detention

COs must always seek legal advice when they are considering imposing a sentence of detention summarily. For all sentences of detention, no matter what length, the policy for the Royal Navy will be that a preliminary review is to take place within 24 hours. If an offender opts to commence their sentence of detention immediately on being sentenced, commencement should not be delayed pending review. COs are to ensure that case papers are passed to the SHRC with appropriate expedition.

20107. Contact Details for the Summary Hearing Review Cell

Email (MODNET): NAVY LEGAL-SHRC MAILBOX
SHRC i/c (WO1) 93832 5210 (02392 62 5210)
SHRC Admin (Discipline Process Queries) (LLogs) 93832 5859 (02392 62 5859)

SECTION 17

REPORTING SERIOUS DISCIPLINARY AND PERSONNEL INCIDENTS

20108. Service Policy and Employment

a. The Royal Navy, both as an employer and a public body, must take account of pending and completed civil offences in order to regulate the workplace, protect the legitimate interests of the accused and their colleagues, to maintain the discipline and ethos of the Service, to assist the Court and the criminal justice system, and ensure that public confidence is maintained.

b. QRRN Chapter 39 should be consulted together with this section.

20109. Reporting

a. In order to ensure that all personnel are aware of the requirement to report interactions with the criminal justice system, COs are to issue Standing Orders requiring a report in the following circumstances: any arrest, fixed penalty notice, summons, conviction, Police Caution, Anti-Social Behaviour Order (ASBO), Football Banning Order (FBO), reprimand or warning (for persons under 18, under the Crime and Disorder Act 1998).

b. Fixed Penalty Notices for motoring offences need not be reported.

c. Where a CO becomes aware of an allegation, pending case or conviction, they must consider whether the fact should be reported immediately to Higher Authority, following the guidance below. Where a civil case is brought to the CO's attention, they should keep the progress of the case under active review – both to ensure proper and full support to individuals involved, and to update Higher Authority as required.

20110. Informing Navy Command HQ

a. COs are to report serious disciplinary and personnel incidents through the Chain of Command (CoC) and to other NCHQ stakeholders by completing the Report Form at Annex U and sending it to their immediate superior officer and Duty Fleet Controller (DFC), who will distribute it as appropriate. 'Serious disciplinary or personnel incident' should be interpreted to mean as follows:

(1) Any alleged offence listed in Schedule 2 of the Armed Forces Act 2006;

(2) Any serious harm to RN/RM personnel, or

(3) Any other personnel matter which is likely to attract media and/or Ministerial interest.

b. Serious disciplinary or personnel incidents can have significant ramifications for operational effectiveness and/or the reputation of the RN. As such, the CoC and appropriate stakeholders within NCHQ must be made aware of a situation at the earliest opportunity to ensure that a swift, appropriate and coherent response may be made. The speed of response is particularly critical when details of the incident are already within the public domain or are likely to be so imminently. If in doubt whether or not to report an incident, COs or their representative must seek **immediate** advice from the DFC.

20111. Cases to be Reported

The term ‘serious disciplinary or personnel incident’ is broad and covers criminal and non-criminal conduct committed by or against RN/RM personnel. COs are empowered to exercise discretion in determining whether or not this threshold is met; examples of such incidents are outlined below, but this list is not exhaustive. In all circumstances, COs will need to assess the situation and consider the potential administrative and reputational ramifications for the Service.

If in doubt, units should seek advice from the DFC

a. A fatality;

b. Any incident where there is actual or potential media or Ministerial interest;

c. Any incident that has or could have been filmed and/or photographed and that is at risk of entering the public domain.

d. An incident involving the authorities of a host nation;

e. Significant injuries to one or more persons;

f. Domestic abuse;

g. Harassment/stalking;

h. Alleged sexual offences [alleged victim not to be identified];

i. Offences involving children;

j. Drugs offences, which involve large numbers of individuals or large quantities;

k. Harm or damage to civilians or their property;

l. Arson;

m. Illegal possession/use of a firearm (inc. ammunition) or offensive weapon;

n. Significant fraud, especially if involving public property;

o. 'Hate’ crimes;

p. The loss or damage of significant amounts of Service property;

q. Mutiny or desertion;

r. Initiation ceremonies or rituals involving alleged physical or mental abuse;

s. Mistreatment of Captured Persons.

20112. Types of Offence that Need Not be Reported to NCHQ

a. The following list of examples is not exhaustive and is intended only to give a broad indication of the type of Service or civil offence which, when reported to the CO, is unlikely to be noteworthy or require further management outside the unit (at least until completion of the case). In cases of doubt ships/units are to contact the DFC and NAVY CULTURE-DISCIPLINE HEAD SO2:

(1) Minor motoring offences (including speeding, parking and fixed penalty offences).

(2) Less serious drink driving offences which have not resulted in accident/injury.

(3) Low level assault on adults falling short of ABH.

(4) Police Cautions (except those for sexual offences, serious assault or drugs), Anti-Social Behaviour Orders for infringements such as littering or abandoning cars.

(5) Football Banning Orders for minor matters such as taking alcohol/fireworks to football matches.

(6) Minor dishonesty, non-possession of TV licences etc.

(7) Minor damage to property.

(8) Fixed Penalty Notices.

(9) Additionally, the following incidents should be reported by using the established reporting routine:

(a) Navigational/seamanship incidents.

(b) Aviation incidents.

(c) Operational incidents.

(d) Serious security breaches/incidents (including terrorism and espionage).

b. However, where there has also been a death in Service an Annex U report is to be submitted alongside the established reporting process.

20113. Updates as Cases Progress

a. The CO is to ensure that updates are forwarded to DFC as cases progress. Such updates will typically be required when:

(1) The precise charges and custody position become known.

(2) Detail of any next step (date of court appearance for hearing, bail, fine, formal caution issued, charges dropped, etc.) is known.

(3) The date, time and place of trial are known.

(4) Any significant Service disciplinary issues occurring while the individual(s) are awaiting trial (e.g. AWOL or other offences).

(5) Any relevant welfare issues of the individual(s) become apparent

(6) The name and contact details of the officer or senior rating (usually the individual's Divisional Officer) who will accompany the accused to court for hearings to watch the trial and report back to NAVY CULTURE-DISCIPLINE HEAD SO2 once the outcome is known.

(7) The outcome of each court appearance is known and should be notified to NAVY CULTURE-DISCIPLINE HEAD SO2 by the unit on the same day directly after the court appearance (so that a timely adjustment can be made to the Defensive News Brief (DNB) ahead of fresh press enquiries and in preparation for any adverse coverage that may appear in the next edition of newspapers/news broadcasts, etc.)

(8) There is any indication of known interest/coverage by local and/or national press reporters including television and radio and especially whether they were present in the courtroom.

b. This list is not exhaustive and if there is any material change to the case DFC should be informed at the earliest opportunity and by telephone if that is quicker or more convenient.

20114. Method of Reporting

a. COs are to inform their immediate superior officer and DFC using the Form at Annex U. Existing direction regarding reports to the DFC remains extant[19] and applies to all ships, submarines, Naval Air Squadrons, RM units and establishments of the Fleet, namely:

> "The Duty Fleet Controller (DFC) is the first point of contact for any accident or incident, and any event which may attract the attention of Flag Officers, Ministers or the news media. Out of hours, the DFC is also the first point of contact for all Fleet business except submarine operational matters, for which the Duty Submarine Controller (DSMC) is the first point of contact."

b. The Duty Fleet Controller will distribute Annex 20U to the following Tier 1 recipients:

(1) Fleet Commander, 2SL, COMOPS[20], Dir P&T[21], DDC, and SECPOL.

(2) Other key individuals will be added at the discretion of the DFC for current operations, Death and VSI. The Navy Culture Discipline Team will receive all Annex 20U.

c. The Navy Culture Discipline Team will distribute Annex 20U to Tier 2 recipients:

(1) 1SL Outer Office, 2SL Outer Office, STRATPOL, NAVY COMMS, LEGAL-RLO, Discipline Law, Culture, Navy Safety Centre, and DCOTF.

(2) Amending the list according to the subject matter on a need-to-know basis and retaining as records for trend analysis.

d. Reporting procedures for the following, as set out in this chapter also remain extant: alleged sexual offences[22]; alleged Schedule 2 offences or those committed in 'prescribed circumstances' under the Armed Forces Act 2006[23]; or for those appearing before civil courts.[24]

e. When the unit/personnel are operating outside single service Joint Command there is likely to be a requirement to inform the Operational Commander. In most cases this will be executed through the DFC by a 5W return as coordinated by DFC. For more serious incidents a PJHQ SINCREP (as available on PJHQ website) will be required. DFC will coordinate all returns to the Joint Commander and can provide templates upon request.

[24] BRd 3(1) Articles 20117-20118 and 20120-20121.

20115. Allegations of Sexual Offences

Where a CO receives an allegation that suggests that a sexual offence may have been committed or that there may be a sexual element to an offence, legal advice must be sought. COs, NCHQ, Career Managers and Welfare Staffs have specific responsibilities in cases involving allegations of Sexual Offences (whether these allegations are being investigated by Service or civil police). Direction and guidance is contained in Section 22 of this Chapter.

20116. Media Attention and Defensive News Brief (DNB) Produced by NCHQ

COs should not underestimate the effect that media attention can have in turning what is a minor incident into something that is perceived as serious. This is particularly the case where photographs or film of an incident exists and may have been provided to the media. Where any doubt exists as to whether an incident has been notified to the media, this reporting process should be followed.

a. A DNB using information supplied by ships/units will be produced only when the NCHQ stakeholders (NAVY CULTURE-DISCIPLINE HEAD SO2, POL SEC, MEDIA, NLS)) agree that the following two conditions are met:

(1) Based on experience the situation is assessed as having a strong likelihood of there being press/media interest in the case at either a local or national level; and

(2) The press interest in the incident is assessed as being likely to result in adverse coverage and therefore constitute a risk to the reputation of the Royal Navy that cannot be allowed to go unanswered when media ask for a MOD response to news coverage or proposed news coverage.

b. All the types of offence listed at Para 20111 above can warrant a DNB to be prepared for issue at the most suitable stage of the proceedings, and the question of when is an important consideration and subject to agreement between the relevant NCHQ stakeholders.

c. Other than for the typical exceptions listed below, a DNB will be produced only when an enquiry is received from the Press or when charges have been raised by the Police. In all these exceptions, and any others on which NCHQ discretion may be used, a DNB will be produced as soon as sufficient accurate and reliable information is notified by the ship/unit and before charges are brought:

(1) Incidents occurring overseas.

(2) Fatality or serious injury.

(3) Firearm/weapon incidents.

(4) Sexual offences where there is a particularly predatory element.

(5) 'Hate' crimes.

(6) Any case where the individual, their family or their ship/unit will require media guidance/assistance from NCHQ Media/Comms (i.e.. media shielding).

d. The DNB consists of two or sometimes three parts, the first being the Background which is not for release and explains the details of the alleged incident; the second part is the Line To Take (LTT) forming the response to enquiries that the MOD is able to make without compromising future proceedings, the privacy/anonymity and human rights of those involved; in some cases it will be appropriate to have a third section Q&A brief with the answers to anticipated lines of questioning ready prepared some of which will be used only if pressed.

e. Although a copy of the DNB will be sent to the ship/unit for information, any enquiries received from the press should be referred to NAVY MEDIA for the appropriate handling. The DNB will be updated whenever significant developments are reported to NAVY CULTURE-DISCIPLINE HEAD SO2 by the ship/unit and this should happen promptly once new information is known.

20117. Ministerial Submission (Min Sub) Produced by NCHQ

a. In this context a Min Sub serves the purpose of alerting the relevant Minister's Private Office to an incident involving naval personnel that could break in the Press with news that it is thought will reflect badly on the reputation of the Royal Navy as well as the wider MOD or *in extremis* the UK Government. With the appropriate lines in place and the relevant background to the incident, the Minister will not be caught unawares if the matter is addressed to them either in Parliament, by the media, or by communication direct with the Private Office.

b. Determining the requirement for, and timing of, a Min Sub will be agreed between NAVY CULTURE-DISCIPLINE HEAD SO2 and Pol Sec on a case-by-case basis, however based on experience the criteria that have most frequently been found to make this necessary are as follows:

(1) Criminal incidents occurring overseas especially in EU countries, countries of NATO allies and countries where diplomatic relations may be sensitive and thus the British Government as well as the department may be caused embarrassment.

(2) Serious crimes that reflect badly on the standard of conduct of naval personnel when they are off duty.

(3) Serious crimes that have a particular relevance to current issues already in the news.

(4) Serious crimes that can be viewed as sensitive in the current political climate.

(5) Serious crimes involving the abuse of young recruits to the Royal Navy.

(6) Serious crimes involving equality and diversity issues.

c. One or more of these criteria may be applicable to a particular case but one can be enough to trigger the requirement for a Min Sub to be prepared. In many less-serious cases it will be sufficient for the Private Office to be alerted by a copy of the DNB.

d. When a case clearly requires a Min Sub, a submission will be made to the Private Office as soon as sufficient detail of the case is obtained from the ship/unit and further updates provided whenever significant developments occur. NAVY CULTURE-DISCPLINE HEAD SO2 will prepare the draft for agreement with NAVY MEDIA/COMMS and clearance by NAVY SEC-HD.

e. The Min Sub for reporting of discipline matters follows a format including the current DNB as an Annex. Particular care will be taken to ensure consistency between the Min Sub and the DNB, although it is possible that the Min Sub will contain rather more background information for the Minister than is made available to Navy Comms and the MOD Press Office in the DNB. Information provided as background may include sensitive personal data and therefore be subject to data protection rules; it may also include information that is sub judice and not to be disclosed without permission of the author.

SECTION 18

DIVISIONAL ATTENDANCE AT COURTS

20118. Guidance for Attending Officers

a. This guidance should be read in conjunction with BRd 2 Art 3903.

b. If a member of the Royal Navy is to appear in the Crown or Magistrate's Court, an officer (usually the Divisional Officer/Troop Commander (DO)) should normally attend. Divisional representation from another ship or establishment better placed than the accused's own may be arranged. For minor offences dealt with in the Magistrates Court it may not be necessary for divisional staff to attend and guidance may be sought from a Legal Adviser if required.

c. Prior to attending court, DOs should receive a brief from the Command Adviser, Adjutant or G1 Adviser on the purpose of their attendance, the information they may give the court, and the information they must obtain from the court. They should wear smart plain clothes in court.

d. Attending Officers should be ready to assist the court in the following areas:

(1) **Character.** DOs may testify as to the person's character. Where available they should take a copy of the rating's appraisal reports to assist them, but these should not be given to the court unless the person consents or the court so directs. The Formal Disciplinary Record (including print of JPA discipline record/S3300D Conduct Record (where still held)) should not be taken, or given to, the court.

(2) **Pay Details.** Broad details of pay should be obtained from the UPO/JPA.

(3) **Likely Penalty.** A court may be particularly interested to know whether an individual is likely to be discharged from the Service or whether the Service would be able to accommodate someone who has been made subject to a Community Sentence. The decision on discharge from the Service lies with the CO and Higher Authority and will take into account many factors. The DO cannot give anything more than a broad answer. A useful line to take, both to the court and to any press, is as follows:

> "In line with the principle that any employer is entitled to consider the effects of a conviction in a civilian court upon an employee's position, the Royal Navy/Royal Marines reserves the right to take any administrative action against any Service personnel so convicted. The type of action will very much depend upon the nature of the offence and how it reflects on the person's character and reputation, the punishment imposed by the court and in serious cases could result in termination of service."

(4) Payment of a fine through deduction from pay is not allowed save in exceptional circumstances. The responsibility for paying the fine remains the individual's, and the court will usually allow payment by instalments. In certain circumstances, however, the Defence Council may order deductions from a person's pay in satisfaction of the amount ordered by a civilian court (see the MSL Chapter 20 (Forfeitures and Deductions) and JSP 754 for further guidance).

(5) **Bail.** If the court has to decide between remanding the individual on bail or in custody, the individual should be encouraged, through their legal adviser, to ask for bail. Courts have a variety of possible bail conditions but may assume, incorrectly, that the Service can supervise such conditions. The Service can usually provide the individual with Single Living Accommodation in a suitable area, but no undertaking can be given to the court that the Service will supervise bail conditions. If the court appearance is abroad there is a strong Service interest in the individual being granted bail.

(6) **Community Orders.** The Community Order (see note below) is the sentence of the court, not of the Service, but a court may inquire whether, if the rating were retained, a Community Order would be consistent with their service in the Royal Navy. As a general rule no assurance should be given that an individual's duties can be arranged to allow compliance with a Community Order. It is, therefore, important that the court is informed of the individual's Service commitments. Where, however, a Community Order can be carried out over evenings and weekends without detriment to Service duties, the imposition of a Community Order, instead of a custodial sentence, is to the benefit of both the Service and the individual. Normally a Pre-Sentence report (written by a Probation Officer) will be requested before such a sentence is imposed. The Probation Officer (if at court) may seek assistance from the DO.

Note. *Courts are able to choose different elements to make up a bespoke Community Order which is relevant to the offender and the crime(s) they committed. There is a range of requirements available within a Community Order including: unpaid work, participation in specified activities, participation in programmes aimed at changing offending behaviour, prohibition from certain activities, curfew, exclusion from premises or locations, residence requirements, drug treatment, alcohol treatment, supervision and (for offenders under 25) attendance at a centre. For offenders under 18, youth rehabilitation orders may also be available.*

(7) **Suspended Sentences of Service Detention.** In light of a subsequent conviction for an offence, AFA 06 enables COs to commit to detention those already under a suspended sentence of detention where the sentence was imposed summarily or by the SAC. Such action is NOT a consequential penalty, but part of the summary discipline process. In addition, where the offender has committed an offence whilst under a suspended sentence of detention (or imprisonment or a detention and training order) imposed by a CM, the CM has the power to activate the sentence. COs should report such offences to the Court Administration Officer, and the DSP will decide whether to apply for CM activation proceedings. DOs should be prepared to advise the civilian court that such action is a possibility which may be considered by the CO, and should note any comments made by the court in relation to the matter. No undertaking should be given, however, as to whether such action will be taken or the likely outcome of such proceedings.

e. DOs should take a blank copy of Form C57 to the court. Ships and establishments are advised to produce a DO's Attendance at Court Proforma to ensure that the CO is provided with all the relevant information. In summary, the DO should:

(1) Establish the circumstances of the offence and arrest.

(2) Record the details of the court, and the date and time of the court appearance.

(3) Record the wording of the charge(s), including the Act and Section.

(4) Record the plea.

(5) Record the sentence of the court.

(6) Summarise the court's sentencing considerations.

(7) Provide an immediate update to NAVY CULTURE-DISCIPLINE HEAD SO2 where the case meets the criteria mentioned in Para 20111.

f. In a few isolated cases, Court ushers have reprimanded Attending Officers for taking written notes of court proceedings. For clarity, those Court ushers have been misguided. The Criminal Practice Directions issued for use in civilian courts make clear that so long as it does not interfere with the proper administration of justice, anyone attending court 'may quietly take notes, on paper or by silent electronic means'[25]. Attending Officers, if challenged by a Court usher, should highlight this fact to ensure that they are able to take a full record to report back to the accused's CO. In exceptional cases, the Judge may prohibit note taking 'if that is necessary and proportionate to prevent unlawful conduct' or there is reason to believe that the individual(s) are in fact engaged in the transmission of live text-based communications[26]. The default position therefore is that those attending public court hearings should be free to make notes of what occurs without seeking permission from the Judge unless the activity is likely to interfere with the course of justice.

g. Court Clerks are generally helpful and approachable; once the Judge or Magistrate has left the courtroom the DO can speak to the Clerk.

h. It is normal practice for the accused's name and address to be disclosed in court and many journalists will subsequently report these details in the media. Attending Officers should ensure that the accused is aware of this fact and encourage them to raise any resulting security concerns with their legal representative (or with the court directly if they are un-represented). In certain circumstances, it may be possible for the court to make an order banning publication of the accused's identity and/or address details.

[25] Criminal Practice Direction 1 paragraph 6D.1.
[26] Criminal Practice Direction 1 paragraph 6D.2.

SECTION 19

ADMINISTRATIVE ACTION FOLLOWING CONVICTION

20119. Guidance on Dealing with Convictions

a. Regulations relating to the reporting of convictions and the Service's entitlement to take action as a result are contained in BRd 2 Chapter 39, which should be read in conjunction with this Section. Legal advice should be sought using the Request for Legal Advice - Service Penalty form at Annex 20V.

b. The purpose of this Section is to outline the criteria to be applied by COs and Higher Authorities in determining whether or not to take administrative action against a Service person who has been convicted of an offence, either within the UK or abroad. This is referred to as a Service Penalty. This is not a further punishment but enables the Service, as an employer, to decide whether in light of a conviction an individual is fit to remain in the Service, remain in their rank or rate or retain an unblemished Service record. The criteria have been carefully drawn up and Service Penalties should be applied consistently. A key aim of the Service Penalty is to achieve comparable consequences for those convicted under different systems. This action will be less common following conviction in the Service Justice System because a wider range of punishments are available, but the same principles apply. The Service is also entitled to take into account character and conduct when considering whether individuals may hold superior rank or rate, or be employed in positions of particular authority. Legal advice must be sought in all cases, even where the CO considers that a Service Penalty should not be imposed. In the case of officers, Censure action (or administrative discharge as appropriate) will be considered in accordance with this Chapter. Form C57 should be used to record officers' civil convictions and censure action taken (including no censure).

c. The approach that a CO should take is as follows:

(1) **Can the individual continue to serve?** In some cases, a conviction will call into question an individual's suitability for retention. This may be because:

(a) The nature of the offence is fundamentally incompatible with Service values and standards, or has irredeemably damaged the trust between the individual and the Service.

(b) Where an offender was convicted in a civilian court, the seriousness of the offence as indicated by both the charge sheet and the court's sentence would have been likely to lead to dismissal had they been sentenced under AFA 06.

(c) The effect of the punishment, alone or in combination with any registration or offender management requirements, is incompatible with further service.

(d) The nature or circumstances of the offence dictate that retention would have such a detrimental impact on Service reputation or morale that discharge is appropriate. In these circumstances, discharge should be considered. If the individual can continue to serve, go to sub-paragraph (2) below.

(2) **Can the individual continue to hold the same Rank or Rate?** Where the circumstances of the offence do not rule out further Service, the CO must consider whether it indicates that the individual can no longer exercise the responsibilities required by their rank or rate. This may be because:

(a) The offence calls into question their suitability to exercise leadership and command.

(b) The effect of the offence or punishment is incompatible with discharging their professional responsibilities (e.g. the individual has lost a necessary professional registration).

(c) In these circumstances reversion/reduction in rank should be considered. Where an individual cannot be reverted/reduced in rank, but cannot continue to serve in their current rank or rate, then discharge should be considered.

(3) **Can the Individual Continue to Progress Unchecked in Their Career?** Would the offence, in combination with the offender's Service record (their conduct record and annual appraisal) have attracted a punishment which would incur a Career Check in accordance with BRd 3(1) Annex 20C? If the answer is 'yes' then a Career Check should normally be imposed.

d. Table 20-7 outlines the Service's policy in relation to Service Penalties in the light of a conviction for a particular offence. The penalties indicated are starting points, not a rigid tariff, and each case must be considered on its merits. In cases that are particularly minor, or serious, in the context of the offence charged it may be appropriate to move up or down the scale of penalties. Legal advice will give consideration to the merits of the case, as well as the views of the CO, in advising on the appropriate Service Penalty.

e. If the CO proposes not to impose a Service Penalty, legal advice is still required and a C57 must still be raised to record any civil conviction and the CO's reasons for not imposing a penalty. This is primarily because there is a requirement to keep a record of civil convictions, whether or not they lead to a Service Penalty. In addition, if a C57 is not raised and, for example, in preparation for a later Court Martial trial totally unconnected with the civil conviction, a prosecuting authority runs an antecedents check on the Police National Computer, the conviction will be shown but there will be no record of a C57 in the accused's Conduct Record. The suspicion may then arise that the accused has committed an offence of not reporting a conviction by the civil power to Service authorities.

f. Notwithstanding the table below, iaw QRRNs Art 3906(7), where a civil conviction has resulted in the imposition of a custodial sentence, whether suspended or committed, the decision as to what Service Penalty should be imposed is to be taken at a level no lower than Dir P&T/NavSec.

20120. Offences and Naval Penalties

The following Table gives starting points for Service Penalties.

Table 20-7. Offences and Naval Penalties

Service Penalty	Offences
Career Check	• Serious offences of careless driving • Drink driving offences (first offence and under 3½ times the legal limit - see Notes) • Driving whilst disqualified by court order • Battery or common assault • Low level assaults occasioning actual bodily harm • Serious criminal damage
Reversion (Requires approval in accordance with Annex 54A)	• Assault occasioning actual bodily harm • Low level offences of wounding or inflicting GBH (s.20 OAPA 1861) • Minor dishonesty offences • Drink driving (second offence (where the first conviction is not spent under ROA 74) or if 3½ times the legal limit - see Notes) • Low level arson • Affray
Discharge SNLR (Requires approval in accordance with Annex 54A)	• Drugs offences • Very serious criminal damage • Arson and aggravated arson • Sexual offences • Domestic abuse[27] • Criminal harassment • Hate-related offences • Burglary • Robbery • Causing GBH with intent (s.18 OAPA 1861) • Dishonesty other than very minor • Homicide

[27] Domestic Abuse is not a specific criminal offence in England and Wales; see paragraph 20123 below.

Notes:

1. The limits for alcohol in England, Wales and Northern Ireland are:

   35 microgrammes of alcohol in 100 millilitres of breath.

   80 milligrammes of alcohol in 100 millilitres of blood.

   107 milligrammes of alcohol in 100 millilitres of urine.

2. The limits for alcohol in Scotland are:

   22 microgrammes of alcohol in 100 millilitres of breath.

   50 milligrammes of alcohol in 100 millilitres of blood.

   67 milligrammes of alcohol in 100 millilitres of urine.

3. The limits for alcohol in England, Wales and Northern Ireland are higher than the limits for alcohol in Scotland. As a matter of policy, and to ensure parity of treatment for Service personnel throughout the UK, the limits for England, Wales and Northern Ireland will apply for the purpose of Service Penalties.

20121. Offences Related to Unlawful Making and Storing of Images of Minors

a. There is a strong tri-Service presumption that sexual offending, including indecent images, will result in discharge. But each case should be considered on its merits.

b. In making a recommendation, COs are to take into account the full facts of each case. It is important to establish the basis upon which a court sentenced an individual. The key facts to establish are the number of images held and the seriousness of each image. Images are normally classified into three categories of seriousness ranging from Category A (most serious) to Category C (least serious). Units are to note in detail the precise charges and the total number of images involved, often represented by sample charges, as well as the level of seriousness of the images. Sentencing remarks in court will also usually give an indication of the overall seriousness of the offending behaviour and therefore care should be taken to accurately capture such remarks, word for word if possible.

20122. Offences Contrary to Service Values and Standards

Some offences are by their nature fundamentally at odds with the Values and Standards of the Royal Navy. Commission of such offences will always reflect extremely badly on the character, trustworthiness and employability of the individual, and may also reflect on the reputation of the Service. A presumption of discharge exists where an individual has committed:

a. A sexual offence; or

b. An offence demonstrating hostility to a group or individual based on a protected characteristic.

20123. Domestic Abuse

Domestic Abuse is defined in the Domestic Abuse Act 2021 Section 1. This covers a variety of behaviours between people with many different types of relationships. The fact that an offence falls within this definition will often not be apparent from the charge and care must be taken to interrogate the circumstances of each case to establish whether the presumption of discharge is engaged. In most cases, domestic abuse will involve abuse of power and it is this which gives rise to the presumption of discharge. In some cases, the facts of the offence may indicate that there is no such power dynamic, for example where a fight occurs between siblings; in these cases a lesser penalty may be appropriate.

20124. Custodial Sentences

Where a civil conviction results in the imposition of a custodial sentence, including a suspended sentence, there is a strong presumption that the individual will not be fit to remain in the RN, as by its sentence the court has indicated that a serious offence has been committed. Discharge SNLR (Ratings) or Misconduct (Officers) will usually be appropriate. Where exceptional circumstances lead the delegated authority to consider retaining someone subject to a custodial sentence, NAVSEC/DirP&T must be consulted. In addition, it may be appropriate to direct forfeiture of pay in accordance with the MSL Chapter 20 (Forfeitures and Deductions). Legal advice must be sought in all cases. Whenever a custodial sentence is imposed an updated Annex U should be raised.

20125. Committal for Contempt

The Service Penalties authorised by QRRN 3906.4(d) are intended to follow criminal convictions and are inappropriate for individuals who are committed to prison for default in payment of court orders or for other forms of contempt. COs have the option of granting leave, from annual leave allowance, for the relevant period, if the circumstances justify it. Where it is inappropriate to grant leave or the offender's leave balance is zero, COs should consider whether the offender's pay should be forfeit for the period committed for contempt. See the MSL Chapter 20 (Forfeitures and Deductions) for guidance. Legal advice should be sought in these circumstances.

20126. Binding Over

The power to bind a person over to keep the peace and/or to be of good behaviour can exist both where there has been a conviction (when it can be imposed in addition to a fine or punishment) and where there has not. In effect, the court requires the individual to promise to be of good behaviour for a specified period. Where no conviction is imposed, for instance, when the Magistrates decide not to try a complaint of a trivial nature but instead offer the option to be 'bound over', a Service Penalty cannot be imposed.

20127. Absolute and Conditional Discharge

An absolute or conditional discharge is an order of a Magistrate or Crown Court following a conviction for an offence. While Service Penalty action should always be considered, the type of discharge imposed will determine whether Service Penalty action can be applied under the Rehabilitation of Offenders Act 1974. To that end, legal advice must always be sought when considering possible Service Penalties following sentences of conditional discharge.

20128. Police Cautions

a. If the Civil Police form the view that the offence is not serious enough to justify criminal proceedings, they have the discretion to issue a Police Caution (PC). Increasing use of PCs is being made, however, in cases which would be regarded, particularly when committed by Service personnel, as more serious. Typical examples are theft and unlawful possession of controlled drugs.

b. Amendments to the Rehabilitation of Offenders Act 1974 make the determination of Service Penalties for PCs particularly complex. Since November 2009, Simple Police Cautions become spent immediately after they are issued, while Conditional PCs become spent on completion of the condition. Where PCs are considered spent, an employer is restricted in their ability to ask questions or take action in relation to that caution. There are a number of exceptions to the 1974 Act that apply to the Armed Forces, and in certain circumstances a PC issued to some personnel, such as RNP, lawyers, medical personnel or those involved in youth training, may trigger appropriate administrative action. Legal advice should be sought whenever a CO becomes aware that one of their personnel has received a PC.

c. No Service disciplinary action under the AFA 06 is to be instituted for an offence for which a PC has been given.

d. **Scotland.** PCs are not issued in Scotland, where a Fixed Penalty Notice (FPN) may sometimes be issued for minor offences. The Procurator Fiscal also has discretionary power to give an oral or written warning in suitable cases, rather than proceed to trial. These ‘Alternatives to Prosecution’ should be considered in the same way as a PC issued in England and Wales. Where other Scottish penalties are issued legal advice should be sought.

20129. Fixed Penalty Notices/’Community Resolutions’

FPNs, issued by Police Officers, and ‘Community Resolution’ measures do not normally require C57 action and will not normally attract a Service Penalty. But where the FPN/Community Resolution is made in relation to behaviour considered incompatible with Service life, such as for possession of illegal drugs, other administrative action may well be appropriate. Where a CO is considering administrative action following a FPN, legal advice should be obtained.

20130. Giving Reasons

The CO or Higher Authority deciding upon a Service Penalty must give reasons. These are to be explained to the individual when they are informed of the penalty.

20131. Administrative Notes for Service Penalties

A Service Penalty of a Career Check has no permanent effect on an individual under the age of 17½.

20132. Civil Offences Committed During the Operational Period of Suspended Sentences

Where an offender is convicted by a civilian court of an offence committed during the operational period of a suspended sentence of Service detention imposed summarily or of a suspended sentence of Service detention or imprisonment imposed by the CM, COs should consider whether the suspended sentence should be activated or whether the offence should be reported to the Court Administration Officer with a view to CM activation proceedings. In all such cases legal advice should be sought.

20133. Requirement to Allow Representations Before imposing a Service Penalty

Before imposing a Service Penalty, the individual is to be reminded of their right to make a representation (BRd 2 3906.8).

20134. Right to Complain Against Service Penalty

After imposing a Service Penalty, the individual is to be reminded of their right to submit a Service Complaint (JSP 831 and BRd 2 Chapter 42). The effect of the penalty will not be held in abeyance pending consideration of the complaint.

20135. Impact of Pending Appeal on Imposition of Service Penalty

If the individual is appealing against their civil conviction or sentence, then reference should be made to BRd 2 Art 3906.12.

20136. Recording Service Penalties

a. All civil convictions and associated Service Penalties must be recorded in JPA Discipline under ‘Warnings and Sanctions’ (JPA W&S) in accordance with the relevant JPA Business Process Guide (BPG). This reporting includes the requirement for details of all civil convictions to be recorded in JPA W&S.

b. The Form C57 is to be used as a record of the CO’s action and for submission to Higher Authority when approval is required for the penalty proposed. Blank forms may be requested from the Regional Legal Office. It can also serve as a template in which to collate the details that will need to be input to JPA W&S. Instructions for the completion of Form C57 are at the section below.

c. In addition to details of Service offences/convictions, details of civil convictions (including the relevant rehabilitation period) and consequential Service Penalties occurring after 31 October 09 can be printed automatically from JPA as the Formal Discipline Record (FDR) which has superseded the paper Conduct Record.

20137. Review of Service Penalties

Service Penalties are reviewed by the Summary Hearing Review Cell (SHRC). The JPA record and a copy of the C57 is to be forwarded to the SHRC within five working days of completion.

20138. Form C57 Service Penalty for a Civil Conviction - Completion

All sections must be completed as follows (those not applicable should be annotated as such):

a. **Section A.**

(1) Insert Date, Time and Place of Arrest.

(2) Insert Date and Time of which leave expired (including night leave). Insert Date and Time of return to Ship/Unit if the accused subsequently attends Court.

(3) Insert all period(s) accused is absent from ship/unit to attend court (use attached sheet if required).

(4) Insert date Convicted at Court or date of PC.

(5) Enter details of Court in which charged or Police Station in which cautioned.

(6) Insert rank/rate and name of Court Attending Officer.

(7) Insert Offence(s) in exact terms of Charge(s) (Attach sheet if necessary).

(8) Insert Order of the Court in exact terms of the order and state whether the fine/costs have been paid, if ordered.

b. **Section B.**

(1) Tick either ‘Yes’ or ‘No’.

(2) Tick either ‘Yes’ or ‘No’.

(3) Tick either ‘Yes’ or ‘No’. If ‘Yes’, insert rate to which Reversion is being considered.

(4) Tick ‘Yes’ or ‘No’. If Discharge SNLR, Discharge SHORE or Reversion is imposed, then a CC is automatically incurred.

(5) No longer applicable.

(6) Insert Rehabilitation Date: see separate instructions on Rehabilitation of Offenders. This date starts from the date of Conviction/PC at Section A4.

(7) In CO’s Observation box, in addition to the penalty imposed, ensure that the fact that the individual has been given the right to make a representation and right to make a complaint in accordance with Paras 20133 and 20134 above is recorded.

(8) On completion of the Request Hearing the C57 must be signed by the Commanding Officer.

c. **Section C.** Completed by Higher Authority if required.

d. **Section D.** Forfeiture of Pay and Time is no longer imposed.

e. Where the CO implementing the administrative action takes a particularly severe or lenient course of action, this must be explained in the CO's box on the reverse of the form. Any letters or accompanying documents are to be attached to the C57.

SECTION 20

JPA DISCIPLINE REPORTING AND RECORDING PROCESS

20139. The Importance of Discipline Reporting and Recording

a. Maintenance of accurate disciplinary records is an important personnel management function which supports the disciplinary process, the Service Justice System, and allows the RN to comply with a number of statutory obligations. Sufficient information must be recorded in JPA to ensure that live discipline can be monitored and an accurate record is maintained of completed disciplinary action.

b. A JPA record must be created by the investigator as soon as an investigation has commenced and must be regularly updated by the unit JPA discipline owner until completion of the case, when the record must be forwarded to the SHRC for review and closure. If at any stage during the disciplinary process the accused is reassigned, it is the responsibility of the 'losing' unit to assign the JPA discipline record to the appropriate JPA Discipline Group at the 'gaining' unit.

c. The following table outlines the JPA tasks that may be required. All JPA actions should be in accordance with the relevant BPG. Issues are to be raised at the earliest opportunity with the SHRC.

Table 20-8. Disciplinary Cases: Information to be recorded on JPA

Event To Be Recorded	Timescale	JPA Task
Creation of a Disciplinary Case (SL Crown Case) and subsequent SL Suspect Case on JPA. Details to be recorded include: • Details of the person(s) under investigation (Crown Case anonymous) • Unit details • Start and end dates of the investigation • Alleged offence(s) committed • SPCB IRN • Add investigation notes or documents to the SL Suspect Case as per the BPG	Within 24 hours of the start of a disciplinary investigation.	**Do not create tasks in the SL Crown Case.** The following task will auto populate when selecting type of investigation when adding the suspect to the SL Suspect Case. **SL Serv. Police Investigation** or **SL Unit Investigation**.

(Continued)

Table 20-8. Disciplinary Cases: Information to be recorded on JPA (Continued)

Event To Be Recorded	Timescale	JPA Task
Where Armed Forces Code of Practice for Victims of Crime 2015 applies: The conduct of a **Needs Assessment** in respect of the complainant. Details to be recorded include: • Whether the complainant is assessed to be vulnerable, intimidated, a victim of the most serious crime, or persistently targeted. • Whether the complainant has requested the use of special measures. • Whether the complainant has requested special investigation measures. • Confirmation that the complainant has been handed a "Victims Leaflet".	Within 24 hours of the Needs Assessment.	
Where Armed Forces Code of Practice for Victims of Crime 2015 applies: The assignment of a **Victim Liaison Officer** (VLO). Details to be recorded include: • Name and contact details of the VLO. • Confirmation that the VLO has been briefed by the Command on their duties and by whom.	Within one working day of a suspect being identified where the alleged victim is a victim of the most serious crime, persistently targeted, or vulnerable or intimidated. For all other cases, within three working days of a suspect being identified.	Add VLO details in Related Objects.
(*As applicable*) **Discontinuance** of a disciplinary investigation by the RNP, RMPT or unit investigator. SPIS, SPCR or Annex I is to be completed and uploaded to JPA.	Within 24 hours of a decision to discontinue a disciplinary investigation. **SHRC to be informed by email**.	For RN/RM Police add **SL Progress to SH Review** task and assign to the SHRC For Unit investigation add **SL CO Review** task with reasoning and **SL Progress to SH Review** task to assign to SHRC for closure
Referral of a Service Police Case Referral (SPCR) or Unit Investigation (UI) to the CO or the DSP. Details to be recorded include: • Date and means of despatch. • Intended recipient. • Recommended charges. • Ensure case is assigned to the Unit of the Suspect	Within 24 hours of referral to the DSP or CO.	Change the Group and Owner on the Workbench to move the case to the Command Adviser of the suspect's Unit CO. Add **SL Refer to Prosecuting Authy** if referring straight to DSP.

(Continued)

Table 20-8. Disciplinary Cases: Information to be recorded on JPA (Continued)

Event To Be Recorded	Timescale	JPA Task
Receipt of a SPCR or UI by the accused's Commanding Officer (CO).	**Within 24 hours of receipt by unit of SCPR or UI.**	**Add details to SL Serv. Police Investigation or SL Unit Investigation**
(*As applicable*) **Informing HA** of the JPA record (3CDOX and 3 Cdo Bde - Army only). Details to be recorded include: • Date HA informed	On submission of notification.	Create **SL Notify HA** task and assign as group and assignee **HQ 3 CDO BDE RM Discipline**.
(*As applicable*) Submission of a **Request for Legal Advice**. Details to be recorded include: • SR Number • Date of request • Relevant Regional Legal Office • Date of proposed Summary Hearing • SLA must be sought to discontinue a charge referred to CO by the Service Police.	Within 24 hours of submission of request.	If no legal advice requested create an **SL CO Review** task and include explanation of why no legal advice was sought by the CO. If legal advice sought, create **SL Legal Advice** task and include the date Legal Advice was requested.
(*As applicable*) **Receipt of Legal Advice**. Details to be recorded include: • Date of receipt. • Name of advising lawyer.	Within one working day of receipt of advice.	Add date Legal Advice received to **SL Legal Advice** task.
(*As applicable*) **Applying for Extended Powers**. Details to be recorded include: • Date EPs requested. • Date EPs were granted/rejected. • Details of what EPs have been approved and the details of the HA (Superior Officer)	Within 24 hours of submission of request.	Create **SL Request Extended Powers** task. Attach request and Annex T to JPA record. Add Superior Officer to related objects.
(*As applicable*) **Referral of a case to the SPA**. Details to be recorded include: • Date of despatch. • Unit's location at time of despatch.	Within two working days of despatch.	Create task **SL Refer to Prosecuting Authy**. and enter dates.
(*As applicable*) **Acknowledgment of receipt by SPA** of case referral, including the date of receipt.	Within two working days of unit's receipt of SPA's acknowledgment letter.	Add details to **SL Refer to Prosecuting Authy.** task.

(Continued)

Table 20-8. Disciplinary Cases: Information to be recorded on JPA (Continued)

Event To Be Recorded	Timescale	JPA Task
(As applicable) A decision not to bring any charges against an accused or not to refer the case to the SPA. Details to be recorded include: • The date the accused was informed of the decision and by whom. • Confirmation that any victim has been informed of the decision and by whom.	Within two working days of the accused being informed of a decision not to bring any charges against them.	Enter details in relevant task already created.
(*As applicable*) *Where Armed Forces Code of Practice for Victims of Crime 2015 applies:* **A decision by a victim to exercise their right to a review** of a CO's decision not to bring charges / not to refer the case to the SPA, including the date of the victim's decision.	Within 24 hours of the victim's decision being communicated to the CO.	Enter details in relevant task already created.
(As applicable) *Where Armed Forces Code of Practice for Victims of Crime 2015 applies and following a request by a victim for a review of a CO's decision not to prosecute*: **The appointment of a new bespoke CO** for disciplinary purposes. Thereafter all actions are to be recorded on JPA on behalf of the bespoke CO.	Within 24 hours of the appointment of the bespoke CO.	Create an **SL Bespoke Appointment of CO** task and enter details. Enter details in related objects.
(*As applicable*) **A decision by the SPA not to bring any charges against the accused**. Details to be recorded include: • The date the CO was informed of the SPA's decision. • The date the accused was informed of the SPA's decision.	Within two working days of the accused being informed of a decision not to bring any charges against them.	Attach the Non-Direction or similar letter to the record and record in **SL Refer to Prosecuting Authy.** task. Create an **SL Progress to SH Review** task to assign to SHRC for closure.
The bringing of charges against the accused. Details to be recorded include: • The date and time of charging. • The nature of the charges brought (*alleged offences only – the full wording of the charge is not required).*	Within 24 hours of the accused being charged.	Create an **SL Summary Hearing** task and add basic details for future tasks.

(Continued)

Table 20-8. Disciplinary Cases: Information to be recorded on JPA (Continued)

Event To Be Recorded	Timescale	JPA Task
The outcome of any Summary Hearing, including: • **The date of the hearing** • **Whether or not the relevant charge(s) was/were found proven or not proven.** • **Whether or not the accused admitted the relevant charge(s).** • **Any punishment imposed.** • **Any Administrative Sanctions.**	Within 24 hours of the completion of the Summary Hearing.	Update the SL Summary Hearing task and then update the Workbench and Charges/Warning and Sanction task to include the charges and punishments, as per the BPG/Guide.
The despatch of the Record of Summary Hearing to the Summary Hearing Review Cell.	Where a sentence of detention is imposed (included as suspended sentence) within 24 hours. For all other cases within 48 hours of the completion of the Summary Hearing.	Create **SL Progress to SH Review** with date sent, Do not enter closed date as will not appear in SHRC worklist. Assignee Type **Group** and Assignee is **NAVSEC Discipline**. Attach Annex A to SR and email SHRC to capture actions.
(*As applicable*) **An offender's decision to exercise their right of appeal** post Summary Hearing to the Summary Appeal Court (SAC). Details to be recorded include: • Whether the appeal is against finding and/or punishment.	Within 24 hours of the offender exercising their right to appeal. **SHRC is to be informed**.	Create **SL Summary Hearing Appeal** task and enter details. Attach the Appeal documents.
(*As applicable*) **The date of referral of a case to the SPA following the exercise by an offender of their right to appeal to the SAC**.	Within 48 hours of the offender exercising their right to appeal	As above.

(Continued)

Table 20-8. Disciplinary Cases: Information to be recorded on JPA (Continued)

Event To Be Recorded	Timescale	JPA Task
Court Martial. Once a case is referred to the SPA and a decision taken to prosecute record the following details: • Details of Legal Aid request and confirmation. If RN Barrister used enter dates of Legal Aid discussion and date when refused. • Details of all Preliminary Hearings. • Details of the Court Martial and whether the case was discontinued pre-trial, was tried, or was adjourned for sentencing proceedings. • Details of charges, redacting any victims under the SOA 03 as it is a criminal offence to name such a victim, whether the verdict guilty or not, their anonymity protected. • Punishment for each charge found guilty (no global imposition) • Assign the record to the SHRC to review the JPA record.		
Auditing and managing the Unit JPA Discipline Worklist.	Only live cases belonging to the Unit CO on worklist, other cases closed or assigned to subsequent Unit.	CO seeks assurance this is managed by their HR staff.
Managing physical SL and WS records.	Records retained and indexed in Unit or archive iaw JSP 441 and USO.	CO seeks assurance this is managed by their HR staff and USO.

d. Units remain responsible for recording details of CM, including pre-hearings and the trial. This will include the CO/Sub Cdr/Judge, accused's AO/DAO, outcome, sentence imposed and any consequential penalties. On completion, the record must be forwarded to SHRC for review and closure.

20140. Conduct Record and Formal Discipline Record

a. The arrangements for maintaining the Conduct Record for ratings are set out at Chapter 58 Annex 58K Para 10). The conduct record may be printed automatically as the 'Formal Discipline Record (FDR)' from data held in JPA HR and Discipline records compiled by ships/units. Where required (e.g. for consideration pre-sentencing at summary hearing), the FDR can be printed using the procedure published by SPVA in the JPA Portal (Instruction to Produce Disciplinary Document {Task 46}).

b. Any conduct history paper records prior to 31 October 2009 (i.e. RN Forms S3300d and S2200e) should be forwarded to NAVY SEC-DISCELL MAILBOX (93832 8692/ 02392 628692) to ensure the completeness of the RN Legacy Discipline Database.

c. Any unit or organisation requiring assistance with pre-JPA discipline records should contact NAVY SEC-DISCELL MAILBOX (93832 8692/02392 628692).

SECTION 21

IMPLEMENTING THE REHABILITATION OF OFFENDERS ACT

20141. The Act and its Effects

a. The general purpose of the Rehabilitation of Offenders Act 1974 (the 'Act') is to enable all but the most serious criminal offender to live down their criminal record after a specified period of time and, provided they do not acquire a fresh conviction during that period, to behave as if the conviction had not occurred. Once a conviction has been rehabilitated it is known as 'spent'. Many of the provisions of the Act were extended to Northern Ireland under the Rehabilitation of Offenders (Northern Ireland) Order 1978 and all references in these instructions to the 1974 Act should be taken to refer equally to the Northern Ireland Order 1978. These instructions apply to all members of the regular and reserve forces of the Royal Navy. In March 2014 significant changes were made to the rehabilitation periods under the 1974 Act, with many punishments to be regarded as being spent immediately: the guidance below reflects these changes.

b. The main effects for Service administration (subject to the exceptions at Para 20144) are as follows:

(1) Questions asked about previous convictions, offences or conduct are deemed not to relate to spent convictions and a person may lawfully answer accordingly (s.42(2)) [s.5(2)][28].

(2) A spent conviction, or any of the ancillary circumstances of a spent conviction, is not a proper ground for dismissing or excluding a person from any office, profession, occupation or employment or for prejudicing them in any way in any occupation or employment. Any person who does so is acting unlawfully. (Ancillary circumstances means the offence which was the subject of the conviction, or the conduct constituting the offence, or any proceedings preliminary to or following conviction such as an appeal, and any sentence, or anything done in pursuance of or in compliance with any sentence)(s.4(3)(b)) [s.5(3)(b)].

(3) It is an offence under the law, punishable by a fine (Level 4 for the disclosure of specified information and Level 5 or up to six months' imprisonment or both where specified information is obtained by means of any fraud, dishonesty or bribe) for a person to disclose information relating to a spent conviction to another person otherwise than in the course of their official duties (s.9(2)) [s.10(2) and (6)].

(4) Evidence relating to both spent and unspent convictions and ancillary circumstances remain admissible in any Service disciplinary proceedings or in any proceedings or appeal from any Service disciplinary proceedings (s.7(2)(b)) [s.8(2)(b)] (see para 20148.a.).

[28] Where a specific section of the Act is referred to, the corresponding Article of the Northern Ireland Order is given in square brackets.

c. It is therefore not lawful to take account of spent convictions, whether incurred before a person joins the Service or after, in any function involving personnel management other than disciplinary proceedings, unless the conviction is covered by exceptions listed later in these instructions.

d. The rehabilitation periods in England and Wales are shorter than the rehabilitation periods in Scotland and Northern Ireland. As a matter of policy, and to ensure parity of treatment of Armed Forces personnel throughout the UK, the Armed Forces will apply these shorter rehabilitation periods in its own internal processes.

20142. Application of The Act

The Act applies specifically to:

a. All civil offences dealt with under civil criminal proceedings.

b. All civil offences dealt with under service disciplinary proceedings i.e. those previously dealt with under Section 42 of the Naval Discipline Act 1957 (and similar offences under the Army Act applicable to the Royal Marines), or s42 of the Armed Forces Act 2006 (s.2(5)).

c. Any service offence dealt with under the Naval Discipline Act 1957 (or other service equivalent), or the Armed Forces Act 2006 (s.2(5)).

20143. Application of Rehabilitation Principle to Administrative Sanctions

a. The Act applies only to convictions. Where administrative action is used to address misconduct, it is RN policy that the rehabilitation principle should apply – and that sanctions (such as censures) should be treated as spent after a period of five years from the date of imposition (two and a half years where the subject is under 18 at the time of the imposition).

b. Administrative Action taken as a result of a civil conviction (a Service Penalty) is to be treated as spent in the same timescale as the offence to which it relates (noting that the rehabilitation period for an offence is set by reference to the sentence imposed).

c. Administrative decisions regarding character, conduct, badges, medals, reversion and forfeitures of pay and time which were correctly made at the time under the influence of a conviction which subsequently becomes spent are not altered retrospectively. The effect of the March 2014 changes to the 1974 Act, however, mean that even if a punishment and consequent administrative action were imposed prior to the changes, the rehabilitation periods are to be calculated by reference to the Act as it stands currently. In any event, all administrative sanctions are to have no effect after five years (unless a further conviction has occurred), and are thereafter not to be taken into account in administrative decisions.

d. Offences committed overseas which are subject to Service jurisdiction are subject to the 1974 Act.

20144. Extension of Rehabilitation Periods

The Act's provisions for extending rehabilitation periods are detailed later in this section; it should particularly be noted that a conviction for a summary offence by a civil magistrates' court does not extend earlier rehabilitation periods.

20145. Exceptions

Certain exceptions are made under the Rehabilitation of Offenders Act 1974 (Exceptions) Order 1975 and Rehabilitation of Offenders (Northern Ireland) Order 1978 (Exceptions) Order 1979 of which the significant ones for Naval administrative purposes are as follows:

a. **Any Action Taken for the Purposes of Safeguarding National Security.** In effect this means vetting procedures and any consequential administrative action, and additionally in Northern Ireland for protecting public safety or public order.

b. **RNP, Medical, Legal and Dental Personnel.** The effect of this exemption is that evidence of spent convictions may be used when making administrative recommendations or decisions in respect of the personnel of the exempted branches. Nevertheless, exemption does not authorise uninhibited use of evidence of spent convictions. Records of all convictions, whether spent or unspent, may be placed before those making recommendations and decisions in these branches but spent convictions must be annotated as such, and should not be taken into account unless they indicate a lasting defect of character that could by itself, or in combination with other factors, render the individual unsuitable *for the actual duties being considered.*

20146. Administrative Action

a. The Act does not preclude keeping official records of convictions which have become spent, and indeed such records are necessary in connection with the proper use of spent convictions in Service disciplinary proceedings or where national security is affected. The Act does not prevent an official having custody of or access to such records in the course of their official duties. It provides that, if an individual in the course of their official duties has custody or access to records containing details of spent convictions, they must not disclose such information otherwise than in the course of their official duties, and must help ensure that such information is not used to the prejudice of the person concerned.

b. Wherever practicable those making decisions on matters such as advancement, promotion, assigning, re-engagement or consideration of administrative discharge should not have access to details of spent convictions. Should they see a conviction that may be spent they must, if there is no firm evidence that it has been extended, treat it as spent and disregard it for administrative purposes.

c. Where it is necessary for medical purposes to include in medical documents reference to activity of a criminal nature (e.g. drug abuse), no mention should be made of any conviction arising out of that activity or behaviour. A reference should merely be made to the particular activity, which requires a medical note to be recorded.

20147. Reports and Correspondence

a. Reports and correspondence should not normally contain evidence of spent convictions. When it proves necessary to refer to a spent conviction, it should be annotated as "spent".

b. Unspent convictions may be referred to in reports and correspondence, even when the conviction is shortly due to become spent (e.g. in the case of recent minor civil convictions). Care is required because the document concerned will require special handling both by the sender and recipients as soon as the convictions become spent. This should not inhibit reference to recent convictions when this is essential for the purpose of the report, but the date on which a conviction becomes spent should be stated.

20148. Disciplinary and Civil Court Proceedings

a. In summary hearings account may be taken of spent convictions when deciding sentence. Any spent convictions must be identified as such when they are brought to the notice of the officer hearing the case. Any questions relating to the use of such spent convictions should be referred to a Legal Adviser.

b. At CM proceedings the Judge Advocate is responsible for advising the court on the implications of the Act.

c. In proceedings in a civil court full details of all convictions, whether spent or unspent, should be provided, but the officer providing them must not refer orally to spent convictions in open court, except with the express leave of the court.

20149. Disclosure and Complaints

a. **External Disclosure.** Information on spent convictions is not to be given in response to enquiries from outside the Service, from home or overseas, unless the enquirer is able to provide evidence of exemption under the ROA 1974 (Exceptions) Order 1975. In cases of doubt on the disclosure of records of offences, spent or otherwise, outside the Services (other than in police or security vetting fields), NAVY SEC-DISCELL MAILBOX is to be consulted.

b. **Disclosure to a Rehabilitated Offender.** A rehabilitated person may, at their personal request, be provided with details of convictions spent under the Act, but any such requests must be referred to the sponsor, who will send the information direct to the applicant.

c. **Complaints.** Complaints about alleged breaches of the Act are to be referred through normal channels.

20150. Problems Arising

The implications of the Act are sometimes complex, and any cases of doubt should be referred to the POC. Advice in specific cases is available from Legal Advisers.

20151. Rehabilitation Periods

A summary of the most common (civilian and service) sentences, and their rehabilitation periods with effect from 10 March 2014 is set out in Table 20-9 below. Legal advice should be sought if there is any doubt.

Table 20-9. Rehabilitation Periods for Service and Civilian Sentences

Sentence		Adult (18+) when convicted Rehabilitation period (from end of sentence (including any licence period) where indicated or from date of conviction where not)	Under 18 when convicted Rehabilitation period (from end of sentence where indicated or from date of conviction where not)	Note
Custodial sentence (1)	Over 4 years	Never	Never	
	More than 30 months and less than or equal to 4 years	Seven years	Three and a half years	(2)
	More than 6 months and less than or equal to 30 months	Four years	Two years	(2)
	Less than or equal to 6 months	Two years	18 months	(2)
Service Detention including where the sentence is suspended		One year	Six months	(3)
A Community Order including a Service Community Order or Overseas Community Order (4)		Last day order has effect + 12 months	Last day of order + six months	(5)
A sentence relating to Removal from Her Majesty's service (including Dismissal and Dismissal with Disgrace)		One year	Six months	
Fine		One year	Six months	(6)
Compensation Order including a Service Compensation Order		The date on which the payment is made in full	The date on which the payment is made in full	
Reparation Order		Spent Immediately	Spent immediately	
Absolute Discharge , Admonishment , Discharge by Children's Hearing in Scotland following acceptance or judicial establishment of the commission of a criminal offence by the child		Spent Immediately	Spent Immediately	
Conditional Discharge, Bound over to keep the peace, Bound over to be of good behaviour, a Hospital Order, a Street Offences Act Order, a Referral Order under section 16 of the Powers of Criminal Courts (Sentencing) Act 2000		Last day order has effect	Last day order has effect	(7)
A relevant order (not listed elsewhere) which imposes a disqualification, disability, prohibition or other penalty		Last day order has effect	Last day order has effect	(7)

(Continued)

Table 20-9. Rehabilitation Periods for Service and Civilian Sentences (Continued)

Sentence	Adult (18+) when convicted Rehabilitation period (from end of sentence (including any licence period) where indicated or from date of conviction where not)	Under 18 when convicted Rehabilitation period (from end of sentence where indicated or from date of conviction where not)	Note
Conditional Caution	Three months; or earlier, when the caution ceases to have effect	Three months; or earlier, when the caution ceases to have effect	
Formal/Simple Caution,	Spent Immediately	Spent Immediately	
Alternatives to Prosecution - Category 1 – warnings given by a constable or a procurator fiscal, fixed penalty notices under section 129 of the Antisocial Behaviour (Scotland) Act 2004.	Spent Immediately	Spent Immediately	
Alternatives to Prosecution – Category 2 – fiscal fines, fiscal compensation orders, fiscal work orders, fiscal activity/treatment orders and a notice to comply with a restoration order.	Three months from the date made	Three months from the date made	
Forfeit of Seniority	Spent Immediately	Spent Immediately	
Reduction in Rank	Spent Immediately	Spent Immediately	
Severe Reprimand	One year	Six months	
Reprimand	One year	Six months	
Service Supervision and Punishment Order	For the period specified in the order	For the period specified in the order	(8)
Stoppage of Leave	Last day order has effect	Last day order has effect	(9)
Restriction of Privileges	Last day order has effect	Last day order has effect	(9)
Admonition	Spent Immediately	Spent Immediately	

Notes:

1. Includes Imprisonment (including suspended sentences), Detention in a young offender's institution, Borstal training, Youth Custody, Corrective Training, Detention, and Detention and Training orders. Does not include sentences of Service detention either in MCTC or other service custody facilities – see Service Detention.

2. Starting from the day on which the sentence (including any licence period) is completed.

3. Starting from the day on which the sentence is completed i.e. the date on which the individual is actually released from Detention.

4. Includes a Community Order, Community Rehabilitation Order, Community Punishment Order, Community Punishment and Rehabilitation Order, Drug Treatment and Testing Order, Drug Abstinence Order, Probation Order, Community Service Order, Combination Order, a Youth Rehabilitation Order, a Curfew Order, Exclusion Order, Attendance Centre Order, Supervision Order, or Action Plan Order.

5. From the end of the order. This period starts from the last day of when the order given by the court has effect. When no such date is provided, the rehabilitation period for the order is two years starting from the date of conviction.

6. Includes fines imposed by a Service court or a CO at a Summary Hearing, and fines upon children or young persons but ordered to be paid by their parents.

7. The day provided by or under the order as the last day on which the order is to have effect. Where there is no provision for such a day, rehabilitation is 24 months beginning with the date of conviction.

8. For example, where an individual is made subject to a SSPO for 60 days the sentence will be rehabilitated after 60 days even if the individual's CO reviews the punishment and decides to conclude the punishment earlier.

9. Where the CO decides that the punishment should not begin immediately, the sentence will be rehabilitated on the last day the order has effect.

20152. Rules for Extending Rehabilitation Periods - Further Convictions

a. Where more than one sentence is imposed at the same time, the longest rehabilitation period applicable to those sentences counts in determining when the conviction becomes spent.

b. A person who has been convicted of an offence and given a conditional discharge or probation (first sentence) may, if they are in breach of the condition of probation, be brought back before the court and given another sentence (second sentence) for the original offence. Normally this would be done within the first rehabilitation period so that Para 20141 would apply. There may, however, be cases where the breach occurs right at the end of the first rehabilitation period and it is not possible to get the person before the court until after the period expires. In these cases the second sentence will usually attract a rehabilitation period longer than the first and, if so, the first is deemed not to have expired until the completion of the second.

c. In the event of a further conviction during the rehabilitation period the basic rule is that if a person is convicted during the rehabilitation period of another offence attracting a rehabilitation period which would end later than the first, the first period is extended to expire at the same time as the second. An earlier rehabilitation period, however, will not be extended:

(1) Where the second conviction is by a Magistrate's Court, or its equivalent in Scotland, of an offence which can only be tried by such a court (a summary offence).

(2) Where the second sentence is only a disqualification, disability, prohibition etc.

(3) Where the second sentence is of a court outside Great Britain and the conduct to which it relates would not have been an offence in Great Britain.

d. Some Service offences (under NDA or AFA) act to extend the rehabilitation period of an earlier offence (where the maximum sentence allowed by law is more than two years imprisonment). The following Service offences will have extended the rehabilitation period of an earlier offence (AFA 96 Sch.4 and AFA 06 Sch 16 s66):

NDA Section	Offence
2	Misconduct in action
3	Assisting the enemy
4	Obstructing operations, giving false air signals etc.
5	Looting
9	Mutiny
10	Failing to suppress a mutiny
16	Desertion
19	Loss or hazarding of ship
20	Dangerous flying
23	Prize offences by CO
24	Other prize offences
34	Unauthorised disclosure
36	Scandalous conduct
36 A	Ill-treatment of a subordinate
37	Disgraceful conduct
42	All civil criminal offences except summary only

AFA 06 Section	Offence
1	Assisting an enemy
2	Misconduct on operations
3	Obstructing Operations
4	Looting
5	Failure to escape
6	Mutiny
7	Failure to suppress mutiny
8	Desertion to avoid period of active service
11	Misconduct towards a superior officer (using violence or threatening behaviour)
12	Disobedience to lawful commands
24(1)	Causing damage to public or service property
31(1)	Hazarding of ship
32	Giving false air signals
33(1)	Dangerous Flying

Note. *If both a disqualification etc. and another punishment, such as a fine, are imposed for the subsequent offence then the first rehabilitation period is extended by reference not to the disqualification but to the other punishment, e.g. the fine.*

SECTION 22

SUSPECT OFFENDER RISK MANAGEMENT

20153. Introduction

a. This section sets out the process for managing those Royal Navy personnel who are subject to ongoing investigation by Home Office Police Forces (HOPF) or Service Police (RNP, RMP, RAFP, DSCC / DSCU) for alleged offences of a serious nature such as sexual offences, those of serious violence, offences of terrorism, extremism, Prevent referrals, Domestic related offences such as offences of stalking, harassment, controlling coercive behaviours, non-fatal strangulation. Offences relating to child abuse / neglect. Sexual offences against children, including offences relating to images of children. Those Royal Navy personnel who are considered to be a Registered Sex Offender (RSO) or have exceptionally been retained following conviction for such an offence as an RSO. Commanding Officers will need to ensure adequate resources are dedicated to all aspects of such cases while also observing the appropriate discretion given the sensitivity.

b. The Roles and Responsibilities described in Annex 20D and processes described in Annex 20E to Annex 20H are designed to ensure that full and proper consideration is given to the assignment and tasking of Royal Navy personnel who are either suspected of, or convicted of a sexual offence and placed on the Sex Offenders Register, while limiting the spread of sensitive information including details of the police investigation. Additionally, performance of the roles and processes is to ensure that the Royal Navy meets its responsibility to assist HOPF to mitigate the risk of re-offending and to exercise the duty of care to the individual who is suspected or convicted of such an offence.

c. COs and Career Managers (CMs) are advised to familiarise themselves with the process described in this section. The number of Service personnel typically under investigation for relevant offending at any given time suggests that there is a high probability that such key stakeholders will have need to follow this guidance for one or more individuals under their command or within their assignment plots.

d. Conversely, the number of personnel retained following conviction for a sexual offence is exceptionally low. Tri-Service policy prompts a presumption of dismissal or discharge for convicted sex offenders, save in the most exceptional circumstances. This reflects the gravity of sexual offending, its damaging effect on cohesion and the considerable additional administrative burden involved with managing an individual with registration requirements (see Para 20121 and Para 20122 on Service Penalties).

e. The guidance given here, and examples used, are very much based on experience to date where sometimes mistakes have been made and lessons learned to inform future activity. If any circumstances appear not to be covered or there is doubt about how to proceed then Commanding Officers and their representatives are encouraged to contact NAVY PEOPLE-PSP EXEC DISC (MULTIUSER) and / or NAVY POLICE-HQ INTEL PPU MAILBOX (MULTIUSER) for assistance at the earliest opportunity.

20154 Confidentiality

The availability of information about suspected or convicted sex offenders should be kept to the absolute minimum with only those who strictly need to know being given access to the sensitive information about the accused, the victim, the circumstances and the charge(s)/conviction(s). Failure to observe this may breach the human rights of individuals, the Sexual Offences Act 2003, the Sexual Offences (Scotland) Act 2009 or the Data Protection Act 2018, and could therefore lead to a service complaint, subject the alleged offender to reprisals or increase risk of deliberate self-harm and ultimately undermine the integrity of the investigation process to the point that it cannot proceed. In certain circumstances the disclosure of sensitive information relating to the investigation of sexual offences may constitute a criminal offence in itself under the Sexual Offences (Amendment) Act 1976 and 1992. If there is any doubt about what information can be disclosed, advice should be sought from RNP Public Protection Lead (+44 (0) 300 163 2082). Email: NAVY POLICE-HQ INTEL PPU MAILBOX (MULTIUSER). The flow of sensitive information should initially be limited to those stakeholders identified in Annex 20D. Other staff with responsibility for the individual's movements or welfare may in certain circumstances need to be informed of the allegation or offence and should be reminded of the need for absolute discretion.

20155. Restrictions That Can Apply to Suspected and Registered Sex Offenders

While it is the personal responsibility of an offender to comply with registration requirements imposed on them because of conviction for a sexual offence, there are potentially several accompanying restrictions that the Service will need to consider the implication of immediately after conviction and when looking at assignment options. Although not exhaustive, this list includes some of the more common restrictions that can apply to Service personnel suspected of sexual offences or those convicted and placed on the Sex Offenders Register.

a. Many serious criminal offences (arrest before conviction or caution) may prohibit a suspect or an offender from legitimately entering certain countries without applying for a full Visa. (e.g. USA, Canada, Australia, or New Zealand).

b. Assignment to British Overseas Territories may be problematic (e.g. Gibraltar, Falkland Islands and the British Indian Ocean Territory (BIOT) do not recognise the Sexual Offences Act 2003 or Sexual Offences (Scotland) Act 2009 and therefore have no powers / mechanisms in place to manage a person during the period of their stay).

c. A Sexual Harm Prevention Order (SHPO) may prohibit the offender from: personal use of the internet and / or any electronic communication devices which allow them to make contact with juveniles or other vulnerable groups; or accessing certain premises.

d. Barring by the Disclosure & Barring Service (D&BS) or Protection of Vulnerable Groups (PVG) from performing any regulated activity with adults or children.

e. A convicted sex offender is unlikely to be granted clearance to engage in regulated activity (i.e. positions requiring a Disclosure & Barring Service or Protection of Vulnerable Groups check clearance).

20156. Assignment Restrictions for Career Managers

a. A standard Assignment Restriction that states **"Not to be reassigned without first contacting NAVY CULTURE-DISCIPLINE HEAD SO2"** is to be placed on the JPA HR record of both a suspected and a Registered Sex Offender (RSO) to ensure that future assignment plans are developed using the full information of what the restriction involves. Career Managers will receive an email to advise of the assignment restriction requiring their acknowledgement. The standard wording of the restriction is designed to avert the disclosure of sensitive information. Upon request, NAVY CULTURE-DISCIPLINE HEAD SO2 will endeavour to give approval or provide further guidance within 48 hours except when an Employment Suitability Risk Assessment (ESRA) meeting is deemed necessary (see Annex 20E).

b. In order to reflect the practical implications of appointing these individuals, DDPD requires the attachment of an additional Assignment Restriction stating that a suspected or RSO is **"Not to be considered for any LFS, Loan or Exchange position**".

c. Career Managers are not expected at any given time to be aware of all the limitations placed on individuals within their assignment plot as these will change over time. It is therefore essential that stakeholders ensure that JPA Assignment Restrictions are kept up to date and that Career Managers check and act on them before an assignment is approved. Failure to take account of these restrictions could result in the assignment having to be withdrawn at short notice leading to complications and inconvenience for the Service, the individual and their family.

d. The JPA Assignment Restrictions stipulated above will remain in place for the duration of an active relevant police investigation or, in the case of a RSO, for the duration of the period the individual is on the Sex Offenders Register or until they leave the Service, whichever is sooner.

20157. The Consideration of Personnel Under Investigation or Charged with a Sexual Offence

a. The processes set out at Annex 20E - Annex 20H should ensure that fully informed employment decisions are made along similar lines for both suspected and RSOs, however, the particular issues that need to be considered for the two situations may necessarily be quite different. With regard to suspects and those charged with committing a sexual offence, the Service must be careful not to imply any presumption of guilt in its management of that individual pending the outcome of proceedings. A current assignment or tasking may for various reasons need to be adjusted by NAVY CULTURE-DISCIPLINE HEAD SO2 or some safeguards introduced and, whenever possible, the rationale for any changes made should be explained to the individual concerned.

b. Listed below are examples of circumstances when it is advisable to consider making adjustments to a suspect's assignment or tasking for the period while they are to be subject to a police investigation or court proceedings for an alleged sexual offence (the list is not exhaustive):

(1) Police investigation may require geographical separation from a victim(s) and or witness(es) or advise against certain employment or accommodation which could increase the risk of similar allegations being made against an individual and mitigate risk to others;

(2) Police or court bail conditions may restrict the individual's employment or movements as would Service Police / Command lawful orders;

(3) Assignments that restrict the individual's access to attend meetings with legal advisers to prepare their defence case;

(4) Information from the Vulnerable Risk Management Information System (VRMIS) regarding any potential for deliberate self-harm and the provision of good divisional or welfare support.

(5) If the individual is currently engaged in, or due to take up, Regulated Activity as defined in JSP 893 (e.g. a post requiring Disclosure & Barring Service or Protection of Vulnerable Groups Check clearance (see also BRd 3(1) Chapter 60 Section 7)).

20158. Royal Navy Suspect Offender Risk Management / Employment Suitability Risk Assessment

a. Suspect Offender Risk Management (SORM) is a practice which ensures the Royal Navy effectively manages and mitigates where possible, known risks posed by personnel who are suspected of committing, or have been convicted of, serious criminal offences. These persons are considered to require specific direct management to safeguard other personnel and associated communities. SORM utilises the Royal Navy Annex 20 series of Employability Suitability Risk Assessment (ESRA) proformas.

b. There are currently two versions of the Royal Navy ESRA form which serve as the prompt for up-to-date assessments of an individual who is either suspect of, or convicted of, an offence in the following circumstances.

(1) Annex 20I – Sexual Offences.

(2) Annex 20J – Registered Sex Offender.

c. The regular completion of the appropriate Annex 20 series Royal Navy ESRA forms detailed at Annexes 20I and 20J by the Commanding Officer serves a dual purpose.

(1) Firstly, it ensures the CO is aware that a member of their unit is either under investigation for an unproven allegation of a specified offence as detailed within Schedule 15, Schedule 16 and Schedule 17 of the Criminal Justice Act 2003; or has Registered Sex Offender (RSO) status and may therefore require specific employment consideration.

(2) Secondly, it ensures that other stakeholders responsible for the overall management of an individual are aware of any changes in the circumstances and are given the opportunity to offer advice. New information may also prompt a requirement to hold a Multi-Agency Risk Assessment Committee (MARAC) or a Multi-Agency Public Protection Assessment (MAPPA) meeting with appropriate RN representation.

(3) On completion of the relevant version of the form a hard copy, signed by the CO, is to be forwarded to RNP Public Protection Unit. (See Annex 20E and Annex 20F).

d. COs are required to complete a fresh ESRA on the following occasions:

(1) On notification that a Service Person under their command is the subject of a police investigation for a qualifying alleged criminal offence.

(2) On notification that a Service Person has been convicted of a sexual offence and / or placed on the Violent / Sex Offenders Register (ViSOR).

(3) When a suspected or RSO's personal circumstances have changed significantly (e.g. charges have been raised or if suspected of being in breach of a Sexual Harm Prevention Order (SHPO)).

(4) On notification that a Service Person has been convicted of a serious offence of violence and they are placed on the Violent / Sex Offenders Register (ViSOR).

(5) Prior to implementing any plan which changes the individual's UK geographical location or responsibilities for a consecutive period in excess of 48 hours (e.g. external training / loan temporary duty intentions / directed or domestic leave, overseas leave / overseas deployment) or taking permanent assignment action, a suitable ESRA is to be produced. When a person moves between units, a CO-to-CO ESRA handover must take place.

(6) Within the first week of receiving command responsibility for a newly assigned suspected or convicted person, or RSO.

(7) Six months have elapsed since the last ESRA was completed.

e. COs should therefore ensure lines of communication are in place to keep them informed of any local factors such as external training or loan temporary duty / detachment plans for such a person under their command, and that the responsibility for ongoing management is formally handed over to their successor. This is especially important in the case of ships entering refit when the command responsibility may be delegated to lower ranked officers in a much-reduced crew.

f. On receipt of a completed ESRA, RNP Public Protection Unit may choose to liaise with NAVY CULTURE-DISCIPLINE HEAD SO2, the Service Police Crime Bureau (SPCB) or HOPF Police Offender Management Centres and provide the

appropriate input to the MAPPA process and / or provide relevant guidance to the Command as necessary.

g. It is important to distinguish between the Royal Navy ESRA and the risk assessment produced by the Home Office Offender Manager (HOOM) in consultation with the SPCB. The HOOM / SPCB risk assessment is conducted in accordance with Home Office Police protocols and satisfies a legal requirement solely in respect of those convicted of a sexual offence, whereas the Royal Navy forms are mandated internal employment tools used to assist the good management of both suspected of serious criminal offence involvement and those who are RSOs, whilst they are serving.

20159. Plans for the Management of Suspected or Registered Sex Offenders

a. The most effective method of managing a suspected or RSO will usually be through assessment of the individual's circumstances at a given point (for example, on initial notification or when considering alternative employment if the individual's circumstances change) and sometimes the outcome may be that little or no modification is needed. Other more challenging situations will require an Employment Suitability Risk Assessment meeting to be facilitated and chaired by NAVY CULTURE-DISCIPLINE HEAD SO2 (see Annex 20E and Annex 20F).

b. Attendance at these meetings will vary depending on the circumstances which typically require input from RN Family and People Support (RN FPS), British Forces Social Work Service (BFSWS) for overseas investigations, representatives of the person's current (and future) units, Career Manager, RNP Public Protection Unit Lead, Defence Serious Crime Unit and/or Home Office Police and the SPCB Violent and Sexual Offenders Register (ViSOR) Manager. The chairperson will ensure that any limitations agreed for current and future employment are documented and, where possible, explained to the individual. The ESRA meeting will be in addition to any Social Work assessment required to mitigate risk from a Safeguarding perspective.

c. Meetings may also be called by external agencies such as Home Office Public Units or Children's Protection Agencies. Naval representation at these meetings is likely to be limited to PM(N) staff (RNP PPU) and NAVY CULTURE-DISCIPLINE HEAD SO2 and the output may prompt further engagement with Royal Navy stakeholders as deemed necessary depending on the circumstances of the case.

d. In managing cases of this nature effectively the Service can provide assurance to the public, Parliament, and the wider Service community that, at any given time, the Royal Navy can identify all such individuals in our employment and that the appropriate management plans and safeguards for them are in place.

e. The requirement of all suspected or RSO management plans is that they are:

(1) Properly considered by staff who are appropriately informed.

(2) Justifiable and proportionate to the risks perceived.

(3) Fair in taking account of the individual's requirements and any restrictions placed upon them by a Court Order; and,

(4) Not capable of being construed as the imposition of any form of penalty.

f. Registered Sex Offenders (RSO) are monitored by the designated HOPF and attend as directed for administration by their appointed handler. CO's are to provide full contact details of the appointed HOPF handler and any restrictions imposed by the order (e.g. access to media/internet devices, places or persons and travel) to RNP Public Protection Unit.

20160. Issues Specific to Suspected or Registered Sex Offenders under RNR/RMR Command

a. In recognition of the part-time nature of reserve employment RNR/RMR COs will need to ensure that they are contactable at all times in order to serve as the officer responsible for the management of suspected and RSOs under their command. Should stakeholders experience difficulty in contacting the respective RNR/RMR CO, however, then assistance should be sought from the unit Support Manager or the Regional Staff Officer; if neither of these is available then CMR Policy staff are best placed to provide assistance. NAVY CULTURE-DISCIPLINE HEAD SO2 and the RNP Public Protection Unit should be consulted at the earliest stage in all cases where a deployment abroad is contemplated or if a requirement emerges for the individual to carry out any training or an assignment in a Phase 1 or Phase 2 training establishment or RNR/RMR unit.

b. Those involved in the management of suspected or RSOs will need to appreciate that a reservist's JPA record cannot be relied upon as a tool with which to monitor an individual's current or future movements. Good communication between RNR/RMR COs and other stakeholders is therefore especially important to ensure there is timely consultation over movement plans. CMR HQ is to be notified of all movements and will apply agreed Assignment Restrictions on JPA as required.

20161. Record Keeping – Suspect or Offender Risk Management (SORM)

a. Home Office Police maintain the national 'Violent and Sex Offender Register' (ViSOR), Due to the transient nature of Armed Forces employment, the SPCB provides assistance in maintaining the National Register and managing the risk, primarily while a Service offender is deployed outside of the UK. At present the MOD carries out this function in respect of sex offenders but not for violent offenders. Information provided by a convicted Royal Navy Registered Sex Offender, their CO, RNP Public Protection Unit and NAVY CULTURE-DISCIPLINE HEAD SO2 may be recorded on ViSOR.

b. The primary record in the local management of a suspected or RSO in the Royal Navy is the entry for them in the 'RN ViSOR Database', a MODNET based solution which is maintained by RNP Public Protection Unit. The entry consists of both investigative detail as well as a record of deliberations over assignment of the person. Access to the database is strictly controlled to satisfy the requirements of the Data Protection Act (DPA 18) and the personal data policy set by the National Police Chiefs Council (NPCC). It is from this database that NAVY CULTURE-DISCIPLINE HEAD SO2 will also collate anonymised details for the creation of statistics for Parliamentary Questions, Freedom of Information Act 2000 requests and to produce general management information.

c. JPA is a key tool in the administration of those deemed to require Suspect or Offender Risk Management (SORM)and must therefore be maintained as completely, accurately and up to date as possible. Assignment Restrictions applied should avoid any direct reference to an individual's status as a suspected or RSO and must be amended or removed when NAVY CULTURE-DISCIPLINE HEAD SO2 indicates that it is necessary following the completion of any registration period, the discontinuance of a police investigation or the completion of legal proceedings. Also, the RNP Public Protection Unit will conduct regular checks of suspected and RSOs' JPA 'move and track' records to ensure that the ViSOR accurately reflects the individual's current and planned movements within the Service.

d. Copies of ESRA meeting records held by stakeholders should be destroyed in accordance with DPA 18 when they are no longer in force.

e. Stakeholders must be careful to observe the lasting right to anonymity of every victim in a sex offence case as required by the Sexual Offences Act 2003 under which it is an offence to publish the identity of the victim or to publish details that could lead to their identification whether or not a complaint subsequently leads to prosecution.

20162. Useful Contacts

Advice on the process and individual cases can be obtained from:

SECTION 23

ROLE OF DIVISIONAL OFFICER IN THE DISCIPLINARY PROCESS

20163. Role of the DO and AAO

a. The Divisional Officer (DO), when acting as Accused's Assisting Officer (AAO) at Summary Hearing or CM, has a vital and challenging role. Careful preparation, a willingness to seek advice and appropriate support from line management are essential to success.

b. HODs and Line Managers should take a direct interest in DOs who are required to act as AAOs, and should make themselves available to advise and assist, particularly where DOs are inexperienced, or cases are complex or serious. The burden on AAOs is not to be underestimated, and the Line Manager should allow time and facilities accordingly. The Command Adviser (LO, DLO, Adjutant, G1 Adviser) can provide further assistance.

c. Should AAOs require further advice or assistance they should contact NLS CPOWtr (details below under 'legal advice').

20164. Preparing to act as AAO

JSP 830 Chapters 6 and 9 (see Annex F and especially Annex G) guidance must be read by all DOs called upon to perform the role of AAO. RN DOs must bear in mind that the former, adversarial, summary trial process under the Naval Discipline Act has been replaced by an inquisitorial, summary hearing under the AFA in which the CO is personally investigating the case to determine whether a charge is admitted, or if denied, proved or not proved. The following guidance must therefore be construed in that context.

a. AAOs should familiarise themselves with the booklet 'Your rights if you are accused of an offence under the Service justice system' (T-SL-accused – as per Reference B Chapter 6 Annex G), which will be given to the accused.

b. DOs are also to familiarise themselves with the regulations, criteria and considerations applicable to personnel held in custody before or after charge (the MSL Chapter 5 and especially the Annexes thereto).

20165. Understanding the Charge

a. Analysis, by DOs, of an offence and charge in order to establish whether the individual has a defence available in law, and/or preparation of comprehensive, relevant and helpful (to the individual) mitigation continue to be among the weakest features of the Service Justice System at the summary level.

b. Before speaking to the Accused, the AAO should read all the papers in the case (which will have been served in preparation for the summary hearing). Using JSP 830, they should consider what the necessary ‘elements’ of the offence are – including the state of mind that the accused must have had to be guilty (for example, whether they must have *intended* to do something, or be *reckless* as to whether an event will occur). The AAO should decide whether they think all the elements of the offence can be proved using the evidence available. The AAO must bear in mind that the CO may choose to call a witness to ask them questions which go beyond what is in their written statement.

20166. Establishing What The Accused Says About The Charges

The AAO must establish what the accused says about each charge. It is for the accused to decide whether they will admit or deny the charge – and the AAO may advise and guide them through the process.

20167. The Decision the Accused Must Make

The accused must decide what they will say about each charge. Under no circumstances should the AAO ‘suggest’ or offer explanations for events, or tell the accused or anyone else what they should say at the hearing. The choices the accused has are as follows:

a. To accept that they did the thing charged, with the necessary ’guilty mind’, and therefore should admit the charge.

b. To deny the charge(s). This may be because:

(1) The act/s did not occur.

(2) The individual was not involved.

(3) The individual did not have the alleged ’guilty mind’ (e.g. where it is alleged they intended to do something, it was an accident; or where they are alleged to have acted dishonestly, they thought what they were doing was right).

(4) The evidence suggests the individual committed the offence, but it is not conclusive and/or they want to make the CO or Trying Officer determine whether or not they did. In the civilian system this is called ’putting the case (or prosecution) to proof’. See further below.

20168. AAO’s Responsibility to the Service

a. The AAO’s responsibility is to present the individual’s case as well as it can be put, whether that involves assisting the individual’s denial of the charge or mitigation. It is not to secure a finding that a charge has not been proved by improper means. In doing so, the AAO should bear in mind the responsibility of all superior officers for the maintenance of discipline.

b. The AAO's duty to the Service requires that they must not knowingly mislead an investigating officer or an officer conducting a Summary Hearing. This means, however, that if the individual did commit the offence and admits this to the AAO, the AAO can still take part in the summary hearing even if the individual decides to 'deny' the charge. For example, the AAO can highlight the failure of the investigator to adduce sufficient proper evidence to prove the charge, and/or the AAO can suggest that the evidence fails to reach the relevant standard. The AAO must only bring the case for the individual on the basis of testing the evidence supporting the charge i.e. putting the case to proof. In advance of the hearing, the AAO should tell the accused the following:

(1) That the only evidence given must be the truth (a person cannot give evidence which they or the AAO know to be untrue);

(2) That neither the individual nor AAO may call any defence witnesses whose evidence suggests the individual is not guilty (because the effect of that evidence will be misleading even if honest to that witness);

(3) That all the AAO can do is to cross-examine witnesses in order to suggest that their evidence is lacking, or unreliable, and/or to speak on the individual's behalf to suggest that the evidence is insufficient to make the CO sure that the accused is guilty.

c. Thereafter, the AAO can offer mitigation if the CO finds the charge proved.

d. In sum, an AAO must not allow the individual to put forward a positive defence when they have confessed that they committed the offence. If they insist on putting forward evidence to suggest that they did not commit the offence, the AAO must withdraw and may not represent or assist the individual. Where an individual proposes to 'put the prosecution to proof' – they should be warned that this will be the case.

e. The AAO is not a lawyer and they must remind the accused of their right to seek legal advice, either from a naval barrister or a civilian solicitor (subject to AFCLAA funding, JSP 838 refers), should they feel it necessary. Even the most simple, low level charges can sometime raise difficult questions of law.

20169. Disputed Facts

Where the individual accepts the charge but not the full facts alleged, AAOs should consult JSP 830 Chapter 9 Part 5 (Disputed facts). The proper course is likely to be to admit the charge (or an alternative) but contest the facts via witness evidence.

20170. Mode of Trial

In all cases the option for trial by CM must be given. JSP 830 Chapters 6 and 9 should be read carefully. AAOs can assist in any decision to opt for Summary Hearing or CM but must bear in mind that the decision must be the personal choice of the accused. It may assist the individual if it is first established whether they are likely to admit or deny any charge(s).

20171. Choice of Mode - Guidance

Circumstances will vary enormously, and it is stressed that AAOs must ensure the decision is taken personally by the accused, but experience has shown the following worthy of consideration:

a. Broadly, individuals may be better served by electing Summary Hearing if they wish to admit the charge.

b. Summary Hearing is best if there is no real defence (see the MSL Chapter 12 and take legal advice) and the investigation and charge are sound.

c. Some individuals choose Summary Hearing if the overriding wish is to get matters over with quickly and/or 'put it behind them', restore normality etc.

d. It may be better to elect for CM if some of the evidence may be successfully challenged or proper testing of it in court would be to the individual's advantage.

e. A CM gives a better chance of challenging weak evidence and proper legal advice and representation will draw out any genuine defence.

f. Elect for CM if the evidence or law is complex (e.g. in some cases of negligence – especially if technical, alleged fraud where dishonesty is disputed, or claims of self-defence, especially if anticipatory).

g. AAOs must advise an individual of the general effect of opting for trial by CM, which might include the impact of any delay on proceedings. AAOs should refrain from advising an individual to opt for CM on the sole basis that this will delay the proceedings so as, for example, to allow the individual to take main or seasonal leave. This would be spurious justification, however superficially attractive, and undermine the overriding responsibility to uphold the timely and efficient working of the disciplinary system. Where leave is imminent, AAOs should address this in mitigation at a Summary Hearing and explain to a CO the impact of the likely range of punishments available, seeking to do the best for their individual. An individual may be required to delay or adjust their leave where under investigation, or to facilitate the service of charges or papers by COs, or for any Summary Hearing convened. AAOs must not, however, use this to deter an individual from electing trial by CM. To do so would be improper.

20172. Mitigation

a. AAOs must be familiar with the provisions of the JSP 830 Chapter 9 Annex G as regards their duties and Chapter 12 as regards Defences and Mitigation – and the differences therein. The difference between defence and mitigation must always be considered when the individual is considering whether to admit a charge and, if in doubt, legal advice should be sought.

b. Broadly, the role of an AAO is in presenting the best possible mitigation available – it is not appropriate for personal antipathy towards an individual, or personal distaste or condemnation of their actions, to form part of a statement in mitigation. Nor should AAOs misguidedly feel that in this capacity they must express their loyalty to the Service by, for example, criticising the individual, or suggesting there is no mitigation, or claiming the individual or the offence has no redeeming characteristics, or spontaneously casting doubt on the individual's future prospects in the Service. AAOs must not lie and should be slow to embellish the truth but are fundamentally to do the best they can for the individual.

c. In addition to JSP 830 Chapter 9 Annex G, which lists points which have proved relevant and helpful when preparing a statement in mitigation, it is worth adding that where the officer hearing the case has decided the charge is proved, mitigation must not resuscitate arguments which – mistakenly or deliberately - continue to assert the individual's innocence. Vague sentimentality is ineffective, but sincerity and facts, particularly if they indicate the offence was not so serious by type or degree, or not prolonged in time, or that the circumstances or impact of the offence are relatively trivial, or were quickly resolved, are not. Brevity and clarity are also key – preparation of points in writing usually helps. Time in custody before charge may mitigate sentence. Mitigation will be persuasive where resulting from an individual pleading guilty and showing genuine remorse, but even where a charge is found proven despite denial, an individual can still express remorse that the incident should ever have happened.

d. In addition, JSP 830 Chapter 14 lists specific mitigating factors relevant to each charge and should be consulted in all cases.

20173. Legal Advice and Legal Aid

a. Comprehensive guidance on eligibility for, application process and decisions on awards are contained in JSP 838, The Armed Forces Legal Aid Scheme.

b. All personnel are entitled to seek legal advice on the option for trial by CM and on appeal.

c. Head Naval Legal coordinates Naval barristers available to defend or advise accused personnel (telephone 93832 5739/02392 625739). Naval barristers do not attend police interviews under caution, but a Legal Aid duty solicitor can be arranged when one is required. Naval barristers can normally give advice or representation after an individual has been charged, and this advice can include on mode of trial and plea. Alternatively, individuals may seek civilian legal assistance subject to the normal legal aid rules. There is no right to legal representation at summary hearings, but personnel are entitled to be represented at SAC hearings and CM.

d. An individual who intends to represent him or herself at CM or in the SAC has a right to do so, but should be advised in the strongest possible terms to seek professional legal assistance.

e. Representation and advice from a Naval barrister has the following advantages:

(1) A Naval barrister's overriding duty in advice or representation is to that individual personally, not the wider Service. Once instructed to advise or represent, they must and do act and advise fearlessly in that individual's genuine best interests. Their ethical and professional codes of conduct make it clear that they face no conflict of interest in representing individuals within the Service Justice System. Their professional conduct in this regard is regulated internally by Hd NLS and externally by the Bar Standards Board.

(2) Naval barristers have experience of the CM and SAC system and, as RN or RM officers, of the wider Royal Navy. They are experienced, professional criminal advocates with the advantage of close personal knowledge of the Service context, including of being deployed at sea and on operations.

(3) Statistics show no appreciable difference between acquittal rates achieved by Naval or civilian lawyers.

(4) There is no charge for a Naval barrister (legal aid, where available, is means tested).

20174. Consequential Effects of Punishments

a. The AAO is to explain the effect of the sentence to their individual, pointing out any other penalties which may be involved in the punishment imposed – whether obligatory or optional - and drawing attention to the consequential effects of each. The obligatory and optional administrative sanctions which may follow punishment are set out in Section 15 of this chapter and the consequential effects of each punishment are set out in JSP 830 Chapter 13, expanded further in the Naval context also in Annex 20C of this chapter. Typical sanctions include forfeiture of pay, imposition of a Career Check, forfeiture of Good Conduct Badges, or the Long Service and Good Conduct Medal (remember even the imposition of a Career Check may well entail a delay in promotion or award of badges).

b. When an individual is sentenced, whether summarily or by CM, the CO or Judge Advocate is required to explain the effects, both direct and indirect, of the punishment imposed. When an individual is sentenced to imprisonment or detention, however, the AAO is to brief the individual on the effect of such sentence on pay, allotments and marriage or dependants' allowances. The individual might be advised to inform the next-of-kin of the sentence and of its effects, and stress the desirability of writing immediately to the next-of-kin or any other person who might be affected by the sentence so that they do not hear about it from any other source (for example, as a result of stoppage of allotment). If necessary, and if the individual has no objection, the AOO may write to the next-of-kin and should, if possible, inform them of the name of the prison or detention location (most likely MCTC Colchester) to which the individual is being committed. Rules and regulations on administrative discharge are set out in Chapter 54 of this BR.

c. Equally, personnel about to be tried in civil courts on serious charges which, if proved, could lead to a sentence of imprisonment or any other form of confinement, or by CM on charges which, if proved, could entail sentence of dismissal, imprisonment or detention, are to be advised to inform their next-of-kin. Imprisonment, which is not suspended, by a civil court or CM will almost invariably result in discharge from the RN.

d. When personnel under the age 18 are involved, the AAO is always to inform the next-of-kin unless certain that the individual has done so.

20175. Detention

DOs must take a personal interest in any personnel sentenced to detention, whether the sentence is committed or suspended. The reformatory value of corrective training cannot be fully exploited unless effective after-care is exercised by the Divisional system on the individual's return to the ship/unit. The DO should be involved personally in the following arrangements at least:

a. Kit muster before any CM in which Detention might be an option, and before committal to Detention following summary hearing.

b. See individual immediately after sentence of detention is imposed.

c. Discuss financial arrangements whilst in detention.

d. Make telephone call to, or visit, MCTC to talk briefly to the DO appointed in detention, prior to the individual's release.

20176. Court Martial Cases

In all cases referred for trial by CM, the DO should be familiar with the case and, as a matter of law, must now give assistance to the individual's legal representative as Defendant’s Assisting Officer (DAO) (see JSP 830 Chapter 28 and Annex B to Chapter 29). This is a formal, significant, statutory and additional role which represents a notable change from the previous ad hoc role of a Naval DO acting in support of the Accused’s Friend (a qualified lawyer, Service or civilian) at CM. It is akin to the former Unit Defending Officer (UDO) role familiar to the Royal Marines. In most circumstances, the DO/DAO will be expected to attend each day of a CM trial and a unit should make suitable arrangements to facilitate this. If unable to attend the CM or complete the full range of duties as DAO, the CO must arrange for someone else to do so, enlisting a Transit Divisional Officer where appropriate.

SECTION 24

COMPENSATION FOR CRIMINAL INJURIES

20177. Introduction

This section deals with compensation for the victims of crimes (in addition to any compensation which may be imposed by a Service Court or civil court in the UK).

20178. Compensation for Injuries Suffered in the UK

Victims of crimes of violence in England, Scotland and Wales, including members of the Armed Forces, may be eligible to claim compensation from the Criminal Injuries Compensation Authority (CICA). Applications are assessed under a tariff Scheme made under the Criminal Injuries Compensation Act 1995. A separate scheme administered by the Northern Ireland Office operates in Northern Ireland for criminal injuries sustained in the Province. Further details of the CICA and the Compensation Agency (Northern Ireland) are available online at www.cica.gov.uk.

20179. Compensation for Injuries Suffered Outside the UK

a. For members of the Armed Forces and their dependants, members of the Reserve Forces and their instructors, and members of the Cadet Forces who, while serving overseas, sustain injury (including death) directly attributable to a crime of violence, the MOD operates similar, discretionary, ex-gratia, tariff scheme: Criminal Injuries Compensation (Overseas), (CIC(O)). The MOD scheme is designed to give comparable levels of compensation to that which would be imposed by CICA if the incident had occurred in Great Britain.

b. Whether or not to make a payment under the provisions of the MOD CIC(O) scheme, and the level of any payment, is wholly within the discretion of the Defence Council.

c. Compensation is not payable where death or injury is the result of war operations or military activity by warring factions.

20180. Administration of the MOD CIC(O) Scheme

The Scheme is administered by the Service Personnel and Veterans Agency.

20181. Applications and Assistance

a. Further information and the application form are available on the MODWEB by searching ‘Criminal Injuries’. Details of the scheme are in DIN 2017DIN01-100.

b. Assistance and hard copy application forms can be obtained from:

Service Personnel and Veterans Agency
Criminal Injuries (Overseas) Scheme
Room 6129
Norcross
Blackpool
FY5 3W
Tel: 01253 333442.

20182. Time Limit for Applications

Applications should be made as soon as possible after the incident giving rise to the injury, and within two years. Claims outside this period can be considered in exceptional circumstances; SPVA should be consulted for advice.

20183. Sources of Advice

Advice on access to free legal advice and assistance (including from Victim Support) in submitting a claim for members of all Services can be obtained from Unit Personnel/HR or G1 staff.

20184. Types and Limits of Compensation

Compensation payable under the MOD CIC(O) arrangement will be:

a. A standard amount of compensation based on the nature of the injuries. The injury must be serious enough to qualify for an award equal to at least the minimum amount payable under the CICA Tariff, currently £1,000 (full details of current Tariff rates are available at www.cica.gov.uk[29]).

b. Specific rules relate to multiple or minor injuries; the DIN should be consulted for details.

c. Where the applicant has lost earnings or earning capacity for longer than 28 weeks as a direct consequence of the injury (other than the injury leading to their death), an additional amount in respect of such lost earnings.

d. The maximum award that may be made in respect of the same injury (tariff and loss of earnings) will not exceed £500,000.

e. Where the applicant has lost earnings or earning capacity for longer than 28 weeks as a direct consequence of the injury (other than injury leading to their death), an additional amount in respect of any special expenses; for example, special care costs, which could include home mobility equipment and fittings, special wheelchairs, fees for care in a nursing home etc.

f. Where the victim has died in consequence of the injury, reasonable funeral expenses will be payable for the benefit of their estate if these expenses are not admissible from public funds under relevant Service regulations.

g. Where the victim has died since sustaining the injury, compensation may be payable to the deceased's spouse or the parent of a deceased child or the child of the deceased.

[29] http://www.cica.gov.uk/

20185. Eligibility to Receive Compensation

The Claims Officer may withhold or reduce an award where it considers that:

a. The applicant failed to take reasonable steps to inform relevant Service and/or civil authorities of the circumstances giving rise to the injury, or failed to co-operate in bringing the assailant to justice, or failed to give all reasonable assistance to the Claims Officer considering the application; or

b. The conduct of the applicant before, during, or after the incident, or their character, makes it inappropriate that a full award or any award at all be made.

c. Additionally, the Service Awards Panel will make an award only where they are satisfied that there is no likelihood that an assailant would benefit if an award were made.

SECTION 25

MARITIME RESERVES DISCIPLINARY REGULATIONS

20187. Maritime Reserves Disciplinary Regulations

Reference should be made to other publications (e.g. BRd 2 The Queen's Regulations for the Royal Navy, JSP 830, BRd 3(2) Naval Personnel Management – Reserves and other parts of BRd 3(1), as appropriate), especially with regard to detailed rules and procedures relating to disciplinary matters.

20188. Dealing with Misconduct of Reservists

COs may take the following action against reservists who commit offences or misconduct themselves, subject to prior consultation with CMR Staff and the appropriate Regional Legal Adviser:

a. Disciplinary/Criminal Action Under the AFA 06 (see above);

b. Disciplinary/Criminal Action under the RFA 96 (see below); or

c. Administrative Measures (see below).

20189. Members of the Reserve Forces and Individuals Liable to Recall - Liability to Service Law (AFA 06)

For a full discussion of the application of jurisdiction as to person for members of the reserve forces and individuals liable to recall see the MSL Chapter 3, Part 1, Paras 10-13 and Chapter 10, Annex A. Particular areas of single service relevance are set out below:

a. **Training and Duty.** Whether a reservist is undertaking training or duty at any given time is a question of fact. Where training and duties are officially authorised, no difficulty should arise; however, the terms of training and duty should be widely construed to include all activities engaged in by a reservist, which are pursuant to an objective, aim or purpose of the regular or reserve forces. The wearing of uniform for activities will give rise to a strong presumption that an individual will be undertaking training or duty, but the converse will not be true. The wearing of plain clothes does not prevent an activity being training or duty within the meaning of the AFA. Travel at public expense will be deemed duty for this purpose. Guidance on travel to and from a short duty, e.g. drill night, is contained in the MSL, Chapter 3, Part 1, Para 12.

b. **Social Events.** Social events may also amount to training or duty. Formal and representational occasions and those which form an integral part of a training or duty activity are more likely to be duty while informal events will be less so. Commanding Officers should determine in advance and promulgate by temporary memorandum whether a social event is considered to be training/duty.

c. **Failure to Attend for Training or Duty.** Where clear orders have been given for reservists to report to a given location for training or other duty, they are subject to the AFA 06 from the time given for them to report to the location concerned and, therefore, are liable to be charged for "failing to attend" under AFA Section 15 should they neglect to do so. Furthermore, section 97 of the Reserve Forces Act 1996 makes it an offence, in some circumstances, for a Reservist to fail to attend for duty or training. The preferring of such charges will be dependent on the facts of the case and whether the matter can be dealt with in the service or civilian jurisdiction.

d. **Referral of Criminal Activity to the Civil Police.** Within the UK, in respect of offences committed by persons subject to Service law, jurisdiction may lie with the Service authorities under the Act or with both the Service authorities and the civilian authorities under the ordinary law of the relevant part of the UK. In the latter circumstance, there are a number of established procedures and protocols that determine the exercise of jurisdiction and COs should liaise with the RNP and seek legal advice from the relevant Regional Legal Office on jurisdiction. (See the MSL Chapter 3, Part 3, Paras 50-55.)

20190. Offences Under The AFA 06 - Trial and Punishment

See the MSL, Vol 1, Chap 10, Annex A, Paras 3-4, and Vol 1, Chap 3, Part 4. Policy requirements are set out below:

a. Maritime Reserve Unit COs are to consult with their Regional Support Unit (RSU) Officer in Charge (OiC) in all cases, who will seek further legal advice in mandated cases (see below), prior to commencing any disciplinary proceedings against a reservist. RSU OiCs will inform CMR via routine Disciplinary Reporting.

b. Procedures for trial and punishments, which may be imposed summarily by COs under AFA 06, are shown in JSP 830. COs are reminded of the requirement to seek legal advice in the circumstances as set out in Para 2048.

c. Custodial sentences and other punishments, which would prolong a reservist's period of service and thereby prejudice their civilian employment, if held, should be avoided where possible. Substantial fines or Disrating may have to be imposed when Detention would have been applicable in the RN/RM. Detailed guidance on suitable punishments for particular offences is given in the MSL, but legal advice should be sought.

20191. Offences Under The RFA 96 - Trial and Punishment

See the MSL, Vol 1, Chap 10, Annex A, Paras 5-11. A summary is set out below for ease of reference:

a. A member of a reserve force convicted by a civil court of the offences listed below is liable to imprisonment for a term not exceeding 6 months or a fine not exceeding Level 5 on the standard scale (or both):

(1) Failing to attend for service on call-out or recall (RFA 96 s.96(1);

(2) Failing to attend for duty or training (RFA 96 s.97(1); or

(3) An offence under service law of desertion or absence without leave.

b. A person convicted of an offence under RFA 96 s.97(2) (failure to train) is liable:

(1) If convicted by the CM, to the same punishment as for an offender under service law of absence without leave, namely up to two years' imprisonment;

(2) If convicted by a civil court, to imprisonment for a term not exceeding six months or a fine, not exceeding Level 5 on the standard scale (or both).

c. Where a member of a reserve force or a person liable to recall is convicted of an offence of desertion, the time which elapsed between the time of their desertion and the time of their apprehension or voluntary surrender shall not be taken into account in reckoning their service for the purpose of release from permanent service or discharge (RFA 96 s.98(6).

d. Pursuant to s101 RFA 96, a person who, in the UK or elsewhere, by any means:

(1) Procures or persuades, or attempts to procure or persuade a member of a reserve force, or a person liable to recall, to commit an offence of desertion or absence without leave;

(2) Knowing that a member of a reserve force, or a person liable to recall, is about to commit such an offence, aids or assists them in so doing; or

(3) Knowing a member of a reserve force, or a person liable to recall, to be a deserter or an absentee without leave, procures or persuades or assists them to remain a deserter or absentee, or assists in their rescue from custody, is guilty of an offence and is liable on summary conviction in a civil court:

(a) In the case of an offence involving an offence of desertion or aiding a deserter, to imprisonment for a term not exceeding 6 months or a fine not exceeding Level 5 on the standard scale (or both); and

(b) in the case of an offence of absence without leave or aiding an absentee without leave, to a fine not exceeding Level 5 on the standard scale.

20192. Administrative Action

a. On receipt of advice of CMR Staff and legal advisers, administrative measures may be taken by COs against reservists in any of the following circumstances:

(1) When behaviour which would constitute a Service disciplinary offence has been committed but jurisdiction under the AFA cannot be established and the offence does not merit referral to the civil authority, i.e.. not a criminal law offence.

(2) When the likely punishment under the AFA would be inappropriate or ineffective.

(3) When, despite warning, a reservist consistently falls short of the standards of conduct, appearance or attendance expected of a member of the Armed Forces.

(4) When a reservist's general conduct and performance indicate to their CO that they do not deserve to be paid part or all of their bounty, are unfit to retain their rate, or are unsuitable for retention in the RNR/RMR.

(5) When convicted of, or receiving a Police Caution in respect of a civil offence.

(6) Code of Social Conduct. In cases where a serious breach of the Armed Forces Code of Social Conduct has occurred or for a series of relatively minor offences where formal warnings have been given.

b. Administrative measures include:

(1) Forfeiture of part or all of a reservist's bounty;

(2) Forfeiture of GCB(s);

(3) Reversion as unsuitable to hold their substantive Rate;

(4) Discharge SNLR or SHORE as unfit to remain in the Reserves;

(5) Censure Action for officers (see Chapter 20 Section 6 and Section 7).

(6) Termination/removal of an officer's commission;

c. **Investigation prior to Administrative Action.** The CO is to conduct a formal investigation of the alleged misconduct or other shortcoming. Before reaching a decision, the CO must give the reservist full opportunity to state their case (including calling witnesses if desired), assisted by their DO or any other person in the unit who may reasonably be made available. If the reservist does not wish to state their case, they should sign a statement to that effect. Advice should always be sought from EA to CMR and the Regional Legal Office before administrative action is commenced.

d. **Forfeiture of Bounty.** As a criterion for the award of bounty, a reservist must have carried out all training and duties satisfactorily. If after the appropriate warning, the CO is not satisfied that a reservist has carried out all their training and duties satisfactorily, they may refuse to approve the award of bounty or direct that part of it be forfeited.

e. **Discharge**

(1) Discharge SNLR and SHORE are administrative measures distinct from the punishment of Dismissal under the AFA. Powers of Discharge are pursuant to RFA 96 sections 14 and 15. Legal Advice should always be sought before such action is taken.

(2) When a rating is deemed to be unfit to remain in the Service, consideration may be given to discharge SNLR or SHORE. Authority for Discharge SNLR must be obtained from CMR. The CO has the authority to Discharge SHORE ratings who fail to fulfil their training obligations and are persistent bad attendees. In the case of the RMR, CMR must give authority for the Discharge SHORE of an NCO or Marine OR who has proved themselves unsuitable for the Reserve or inefficient in their rank for reasons other than bad attendance. The detailed procedures for discharge SNLR/SHORE, contained in BRd 3(1) Chapter 54 are to be consulted before application is made.

f. **Termination of an RMR Officer's Commission**

(1) An officer's commission may be terminated at any time during their service for misconduct, inefficiency, unsuitability or physical unfitness. Officers discharged for any of these reasons are not eligible to be placed on the Retired List.

(2) Officers who continually fail to meet their training commitments may have their commissions terminated.

(3) Officers who fail to gain promotion during the prescribed 'in zone' period may have their commissions terminated.

(4) Application for termination of an officer's commission should be made to CMR following legal advice. Prior to any such application the officer concerned should be subject to formal warning, and is entitled to forward a Representation, if he chooses to do so, with any such application. If the decision is made to waive this right a certificate to that effect should be signed accordingly.

g. **Termination of an RNR Officer's Commission**

(1) An officer's commission may be terminated at any time during their service for misconduct, inefficiency, unsuitability or physical unfitness. Officers discharged for any of these reasons are not eligible to be placed on the Retired List.

(2) Application for termination of an officer's commission should be made to CMR following legal advice. Prior to any such application the officer concerned should be subject to formal warning, and is entitled to forward a Representation, if they choose to do so, with any such application. If the decision is made to waive this right a certificate to that effect should be signed accordingly.

20193. Convictions by the Civil Power

See BRd 2 Articles 3901-3906 and BRd 3(1) Chapter 20 Section 19 and Section 20, for guidance on actions to be taken.

a. **Ratings - Reversion or Discharge SNLR/SHORE.** Detailed guidance is given in BRd 2 and this BR but, broadly, if the nature of an offence or offences shows the rating to be unfit to retain their rate/rank, or to remain in the RNR/RMR, a recommendation should be made on Form C57 and forwarded to CMR for approval for Reversion or Discharge SNLR/SHORE.

b. **Attendance of an Officer in Court.** An officer needs to attend Court when a rating is tried, only if the alleged offences occurred during, or in connection with, reserve service or training, or if attendance is requested by a Court and this request can be met without detriment to Service commitments. CMR staff is to be consulted if an officer is not available from the rating's unit.

c. **Officers.** The arrest, summons or conviction of an officer on criminal charges, other than minor motoring offences which do not require an appearance in court, is to be reported by the CO to CMR by letter. The CO is also to forward any representation the officer may wish to submit following a conviction. Conviction of an officer, or the issue of a Fixed Penalty, depending on the nature of the offence(s), may result in the imposition of a service penalty, which may range from a formal Censure to Removal from the Active List, or termination of their commission.

20194. Conduct Record and Formal Discipline Record

Ratings and ORs of the Maritime Reserves used CRs until 2010, since when their arrangements are the same as for regulars (see para 20140).

ANNEX 20A

LOGGING

1. When the Commanding Officer considers that minor misconduct by an officer, for which no further disciplinary or administrative action is to be taken, should be recorded, the following wording is to be used:

I have this day had occasion to log .....

for .....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

Signed .....
Commanding Officer

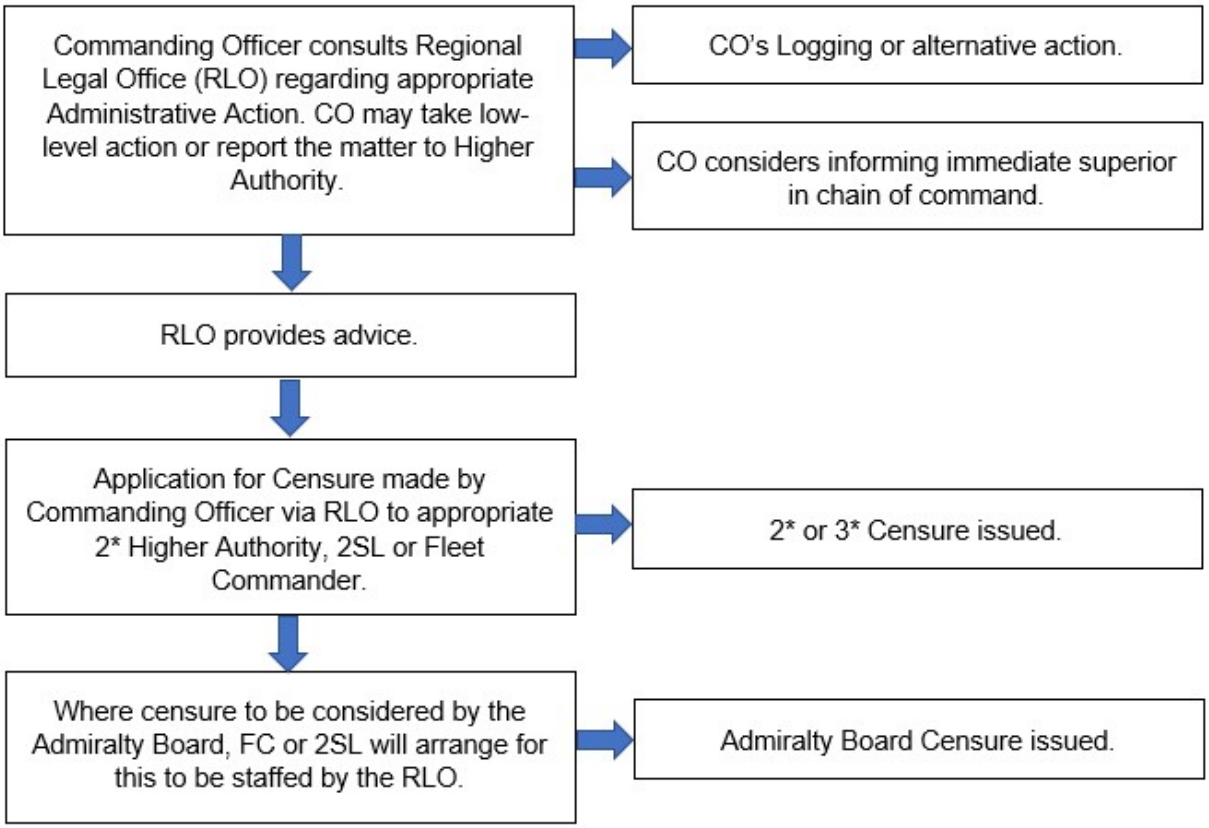
Read and understood

Signed .....

2. After signature the logging is to be filed in the Captain's office and retained there until the officer leaves the ship. Loggings are not to be reported to the Naval Secretary for recording on official or reporting records.

ANNEX 20B

CENSURES



ANNEX 20C

ADMINISTRATIVE CONSEQUENCES OF PUNISHMENT UNDER ARMED FORCES ACT 2006 - OFFICERS, RATINGS AND ROYAL MARINES OTHER RANKS

The table below lists the administrative actions which are to be taken automatically (obligatory), or which may be taken (optional), when a member of the Naval Service is punished under the Armed Forces Act 2006. These administrative consequences apply whether the punishment is imposed at Summary Hearing, by the Summary Appeal Court or by the Court Martial. This table is for guidance only. The relevant articles should be consulted.

AFA 06 Punishment	Forfeiture of LS&GC Medal (see Note 1)	Forfeiture of GCBs (see Note 2)	Career Check (Rating, SNCO or RMOR) (see Note 3)	Note on Official Record (Officers)	Explanatory Notes	References
Imprisonment	Obligatory when period of imprisonment is greater than 6 months.	Obligatory (all badges)	Obligatory (See Note 3 Note 4)	Obligatory	a. May only be imposed by Court Martial. b. Administrative discharge from the Service will be considered if dismissal is not imposed with imprisonment. c. If neither dismissal nor administrative discharge: CC with consequent effect on promotion (BRd 3(1) Part 8), and eligibility for GCBs, LS&GCM and MSM (JSP 761 Ch 5); stoppage of pay for period of imprisonment; loss of time for the period of the sentence imposed, less any remission (ie. time spent in custody). A CC has no effect when recorded on the CR of an individual aged under 17½.	
Dismissal	Obligatory for Dismissal with Disgrace.	Obligatory (all badges)	Obligatory (See Note 4)	Obligatory	a. May only be imposed by Court Martial.	

(Continued)

AFA 06 Punishment	Forfeiture of LS&GC Medal (see Note 1)	Forfeiture of GCBs (see Note 2)	Career Check (Rating, SNCO or RMOR) (see Note 3)	Note on Official Record (Officers)	Explanatory Notes	References
Detention and Suspended Detention > 14 days	N/A	Obligatory (all badges)	Obligatory (See Note 3 Note 4)	N/A	a. Punishment not available for Officers. b. CC with consequent effect on promotion (BRd 3(1) Section 8), and eligibility for GCBs, LS&GCM and MSM (JSP 761 Ch 5). A CC has no effect when recorded on the CR of an individual aged under 17½. c. Stoppage of pay for period of Detention. A family maintenance grant may be available at CO's discretion (JSP 754 Chap 8). d. Except in connection with advancement, loss of time for the period of the sentence imposed less any remission.	JSP 830 MSL Chap 13 para 34-44
Detention and Suspended Detention 14 days or less	N/A	Optional (See Note 2)	N/A	N/A	a. Punishment not available to Officers. b. Stoppage of pay for period of Detention. A family maintenance grant may be available at CO's discretion (JSP 754 Chap 8). c. Except in connection with advancement, loss of time for the period of the sentence imposed less any remission.	JSP 830 MSL Chap 13 para 34-44
Forfeiture of Seniority	N/A	N/A	N/A	N/A	a. Available for Officers only. b. Not to be recorded except as change in seniority date.	JSP 830 MSL Chap 13 para 85 - 93
Reduction in Rank/Disrating	N/A	Optional (See Note 2)	Obligatory (See Note 4)	N/A	a. Not available for Officers. b. CC with consequent effect on promotion, and eligibility for GCBs, LS&GCM and MSM (JSP 761 Ch 5). A CC has no effect when recorded on the CR of an individual aged under 17½.	JSP 830 MSL Chap 13 para 94-104
Fine >14 days' pay	N/A	Optional (See Note 2)	Obligatory (See Note 4)	Obligatory	a. CC with consequent effect on promotion, and eligibility for GCBs, LS&GCM and MSM (JSP 761 Ch 5).	JSP 830 MSL Chap 13 para 105 - 122
Fine 14 days' pay or less	N/A	Optional (See Note 2)	Obligatory for WO	Optional	a. CC with consequent effect on promotion, and eligibility for GCBs, LS&GCM and MSM (JSP 761 Ch 5).	JSP 830 MSL Chap 13 para 105 - 122

(Continued)

AFA 06 Punishment	Forfeiture of LS&GC Medal (see Note 1)	Forfeiture of GCBs (see Note 2)	Career Check (Rating, SNCO or RMOR) (see Note 3)	Note on Official Record (Officers)	Explanatory Notes	References
Severe Reprimand	N/A	Optional (See Note 2)	Obligatory (See Note 4)	Obligatory	a. CC with consequent effect on promotion and eligibility for GCBs, LS&GCM and MSM (JSP 761 Ch 5). A CC has no effect when recorded on the CR of an individual aged under 17½.	JSP 830 MSL Chap 13 para 123 - 126
Reprimand	N/A	Optional (See Note 2)	Obligatory for WO	Optional	a. CC with consequent effect on eligibility for LS&GCM and MSM (JSP 761 Ch 5).	JSP 830 MSL Chap 13 para 123 - 126
Service Supervision & Punishment Order	N/A	Obligatory (All badges)	Obligatory (See Note 3 Note 4)	N/A	a. Not available for Officers. b. CC with consequent effect on promotion and eligibility for GCBs, LS&GCM and MSM (JSP 761 Ch 5). A CC has no effect when recorded on the CR of an individual aged under 17½.	JSP 830 MSL Chap 13 para 68 - 84
Service Compensation Order > 14 days' pay	N/A)	Optional (See Note 2)	Obligatory (See Note 4)	Optional	a. CC with consequent effect on promotion eligibility for GCBs, and LS&GCM and MSM (JSP 761 Ch 5). A CC has no effect when recorded on the CR of an individual aged under 17½.	JSP 830 MSL Chap 13 para 152 - 179
Service Compensation Order 14 days' pay or less	N/A	Optional (See Note 2)	Obligatory for WO	Optional	a. CC with consequent effect on eligibility for GCBs, and LS&GCM and MSM (JSP 761 Ch 5).	JSP 830 MSL Chap 13 para 152 - 179
Restriction of Privileges	N/A	N/A	N/A	N/A		JSP 830 MSL Chap 13 par 136 - 148
Stoppage of Leave	N/A	N/A	N/A	N/A		JSP 830 MSL Chap 13 para 127 - 135
Admonition	N/A	N/A	N/A	N/A		JSP 830 MSL Chap 13 para 149

Notes:

1. *This Table defines the consequence of punishment under AFA 06 on eligibility to hold LS&GC Medal for members of the Naval Service. JSP 761, Chapter 5, para 5.20 states that, "An individual who has already been awarded the LS&GCM who subsequently incurs an entry on their disciplinary record cannot forfeit the medal but will incur an automatic delay before the clasp can be awarded. However, an individual who is sentenced to imprisonment for a period greater than 6 months and/or is dismissed with disgrace is liable to forfeit the LS&GCM or VRSM as well as Campaign, Commemorative and other Service medals in accordance with Chapter 9 of JSP 761. All medals can be restored after a further period of service on application to the Defence Council in accordance with Chapter 9 of JSP 761." All such offences should be reported to Naval Secretary (Honours and Awards), Navy Command Headquarters, Leach Building (MP 3.1), Whale Island, Portsmouth, PO2 8BY. In addition, where any punishment gives rise to optional forfeiture of LS&GC Medal, the offence is to be reported to the Naval Secretary (Honours and Awards).*

2. *Where forfeiture of GCBs is obligatory, all badges are to be forfeit. Where forfeiture is optional, any number of badges may be forfeit but legal advice must be sought in order to ensure consistency across the Service. See Chapter 20 Section 15 for guidance as to whether badges should be forfeit, and JSP 761 Chapter 5 Annex B Appendix 1 for restoration). Where forfeiture of a GCB is ordered the offence is to be reported to the Naval Secretary (Honours and Awards).*

3. *More information about the CC can be found at BRd 3(1) Chapter 58, Annex K, para 10(k); Chapter 67, para 6718; and Chapter 68 para 6806. Where detention or imprisonment is awarded, the CC date used for calculating future eligibilities is the date of release from custody. If a sentence of imprisonment/detention is suspended, the CC date is the date of conviction. Where the punishment is an SSPO, the CC date used for calculating future eligibilities is the last day of the SSPO (may be awarded for 30, 60 or 90 days duration).*

4. *Whenever a CC is imposed the offence is to be reported to the Naval Secretary (Honours and Awards). A CC at any time after the MSM has been awarded will automatically result in forfeiture of the medal (JSP 761 Annex 5A article 16). If the holder of an MSM comes to adverse disciplinary notice short of the award of a CC the circumstances are nevertheless to be reported to the Naval Secretary (Honours and Awards), Navy Command HQ where suitability to retain the MSM will be considered.*

ANNEX 20D

ROLES AND RESPONSIBILITIES FOR THE MANAGEMENT OF SUSPECTED AND REGISTERED SEX OFFENDERS (RSO) IN THE ROYAL NAVY

1. SPCB ViSOR Manager: - is responsible for:

a. Maintaining Home Office ViSOR system.

b. Informing Commanding Officer in writing of new conviction, implications and single Service procedural guidance.

c. Briefing of a Commanding Officer prior to the deployment of a RSO.

d. Informing RNPHQ Public Protection Lead and NAVY CULTURE-DISCIPLINE HEAD SO2 by email of new Visor cases and subsequent updates.

e. Arranging and conducting Matrix 2000 Risk Assessments where a Royal Navy RSO is outside the UK and any other appropriate occasion.

f. Attending Multi-Agency Public Protection meetings.

g. Providing advice on request to assist the RN/RM assignment process

See Annex 20F and Annex 20H.

2. Commanding Officer of Suspected or Registered Sex Offender (RSO): - is responsible for:

a. Managing Suspected or RSO under their command and that these responsibilities are handed over to any successor.

b. Completing and submitting Employment Assessments (see Annex 20I and Annex 20J).

c. Ensuring that they are notified of any external training or loan temporary duty/detachment intentions, and if these are to last for more than 3 consecutive days to forward details to NAVY CULTURE-DISCIPLINE HEAD SO2 (and SPCB for a RSO).

See Annex 20E, Annex 20F and Annex 20H.

3. RNP PUBLIC PROTECTION LEAD: - is responsible for:

a. Maintaining the RN/RM Sex Offender Management Database.

b. Requesting completion of Employment Assessments and drawing Commanding Officer's attention to BRd 3(1) Chapter 20 Section 22.

c. Attending Employment Suitability Assessment/Multi-Agency Risk Assessment Committee (MARAC)/Multi-Agency Public Protection (MAPPA) meetings.

d. Specifying limitations on what police information can be disclosed to other stakeholders.

See Annex 20E, Annex 20F, Annex 20G and Annex 20H.

4. NAVY CULTURE-DISCIPLINE HEAD SO2: - is responsible for:

a. Providing ViSOR and D&BS briefings to new Career Managers.

b. Arranging and chairing 'Employment Suitability Risk Assessment' meetings.

c. Production and maintenance of Defensive News Briefs (BRd 3(1) Chapter 20 Section 17).

d. Prompting NAVY PERS-CM DACOS COORD SO2C to add or delete JPA Assignment Restrictions.

e. Conferring with RNPHQ Public Protection Lead to consider the implications of new assignment plans notified by Career Managers.

f. Advising Career Manager on wisdom of planned assignment (where no Employment Assessment meeting was deemed necessary).

g. Informing RNP Public Protection Lead of Service Penalty once known.

See Annex 20E, Annex 20F, Annex 20G and Annex 20H.

5. NAVY PERS-CM DACOS COORD SO2C: - is responsible for:

a. Maintaining JPA Assignment Restrictions as prompted by NAVY CULTURE-DISCIPLINE HEAD SO2 and alerting specific Career Managers by e-mail.

b. If required, liaising with NPT(Reserves) for any amendments to JPA Reservists PIDs.

See Annex 20E, Annex 20G and Annex 20H.

6. DDPD: - is responsible for:

a. When necessary, conferring with RNP PPU Lead to examine the implications of a sentence to assist full consideration of Service Penalty action following a civil conviction or police caution for a sexual offence.

b. When necessary, convening multi-Agency employment meetings to gain the fullest possible picture of the offence and any limitations placed on the offender, to aid Service Penalty decision making.

See Annex 20H.

7. DDPD Career Manager: - is responsible for:

a. Checking and acting on all JPA Assignment Restrictions.

b. Implementing agreed assignment plans following discussion with NAVY CULTURE-DISCIPLINE HEAD SO2 or attendance at Employment Suitability Risk Assessment meeting.

c. Informing a new Commanding Officer of the provisions in BRd 3(1) before the reassignment of a suspected or RSO to a new post.

See Annex 20E and Annex 20F.

8. Regional Legal Adviser: - is responsible for:

a. Informing NAVY CULTURE-DISCIPLINE HEAD SO2 of Service Penalty following civil conviction or Police Caution for a sexual offence.

b. Requesting sentence implications from RNP Public Protection Lead.

See Annex 20H.

ANNEX 20E

INITIAL ACTIONS ON NOTIFICATION OF A CRIMINAL INVESTIGATION INTO AN ALLEGED SEXUAL OFFENCE

Annex 20U or INREP received notifying:

RNPHQ Public Protection Lead & Navy Culture Discipline Head that a member of the RN is subject to a Service or Home Office Police investigation into an alleged sexual offence.

RNPHQ Public Protection Lead is to:

- Create new record in the Violent and Sex Offenders Register (ViSOR) database.
- Send Offender's CO Registered Sex Offender Employment Suitability Risk Assessment (ESRA) Form Annex 20I for completion.

Offender's Commanding Officer is to:

- Complete ESRA Form Annex 20I, save in PDF format with CO's dated signature, scan and send by email: NAVYPOLICE-HQPPUMailbox@mod.gov.uk & NAVYPEOPLE-PSPEXECDISC@mod.gov.uk
- Notify PSyA by completing Aftercare Incident report (AIR) who will consider whether SC and/or DV need to be suspended.
- Consider the needs of any victim(s) or witness(es).
- Consider ongoing Divisional, Welfare, Medical & Pastoral support.

Navy People Discipline Policy Head is to:

- Contact NAVY PEOPLE-CM COMD POLICY SO2C to place assignment restriction and inform Career Manager.
- Consider convening and chairing ESRA meeting as required.
- Update Defensive News Briefs and issue Lines to Take as required.
- Direct Assignment Action to mitigate risk and protect Victim(s) and/or Witness(es) whilst complying with any conditions imposed by Home Office Police.

ESRA Meeting Required?

Navy Culture Discipline Head is to:

- Arrange & chair ESRA Meeting to include: RNPHQ Public Protection Lead, Home Office Police, Medical, Unit Rep, RN FPS, Personnel Support Group as required.

Navy Culture Discipline Head is to:

- Advise the Career Manager of any Assignment Action and need for any CO to CO ESRA Handover.

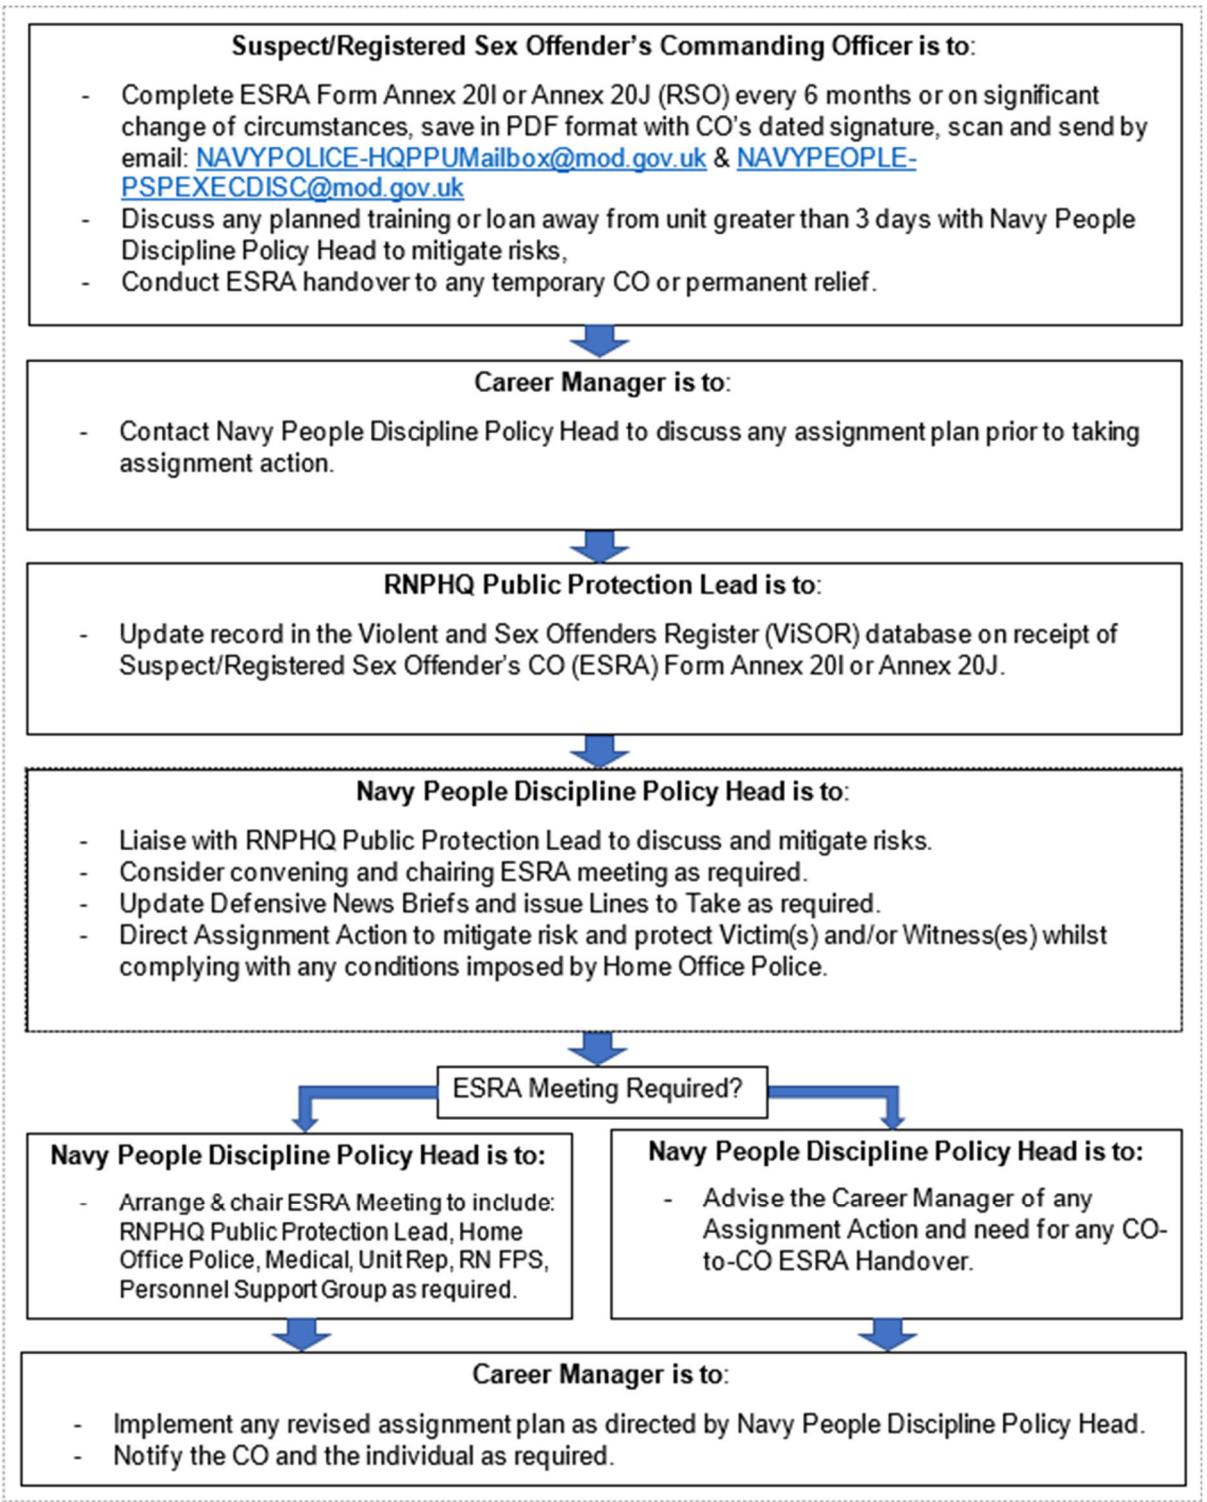
Career Manager is to:

- Implement any revised assignment plan as directed by Navy Culture Discipline Head.
- Notify the CO and the individual as required.

ANNEX 20F

ACTIONS TO ENSURE APPROPRIATE EMPLOYMENT OF SUSPECTED OR REGISTERED SEX OFFENDERS

Note. *The Employment Assessment of those 'suspected' of committing sex offences is to be conducted on a case-by-case basis being careful to avoid an assumption of guilt.*



ANNEX 20G

ACTIONS ON NOTIFICATION OF SEXUAL OFFENCE INVESTIGATION DISCONTINUANCE, A COURT CASE DISCONTINUANCE/ACQUITTAL/QUASHING OR THE SUCCESSFUL COMPLETION OF AN OFFENDER'S REGISTRATION PERIOD

On receipt of official notification that an investigation has been discontinued, court case discontinuance/acquittal/quashing or on successful completion of an offender's registration period:

RNPHQ Public Protection Lead is to:

- Update record in the Violent and Sex Offenders Register (ViSOR) database by the inclusion of a suitable comment and alteration of the record status, alerting Navy People Discipline Policy Head.

Navy People Discipline Policy Head is to:

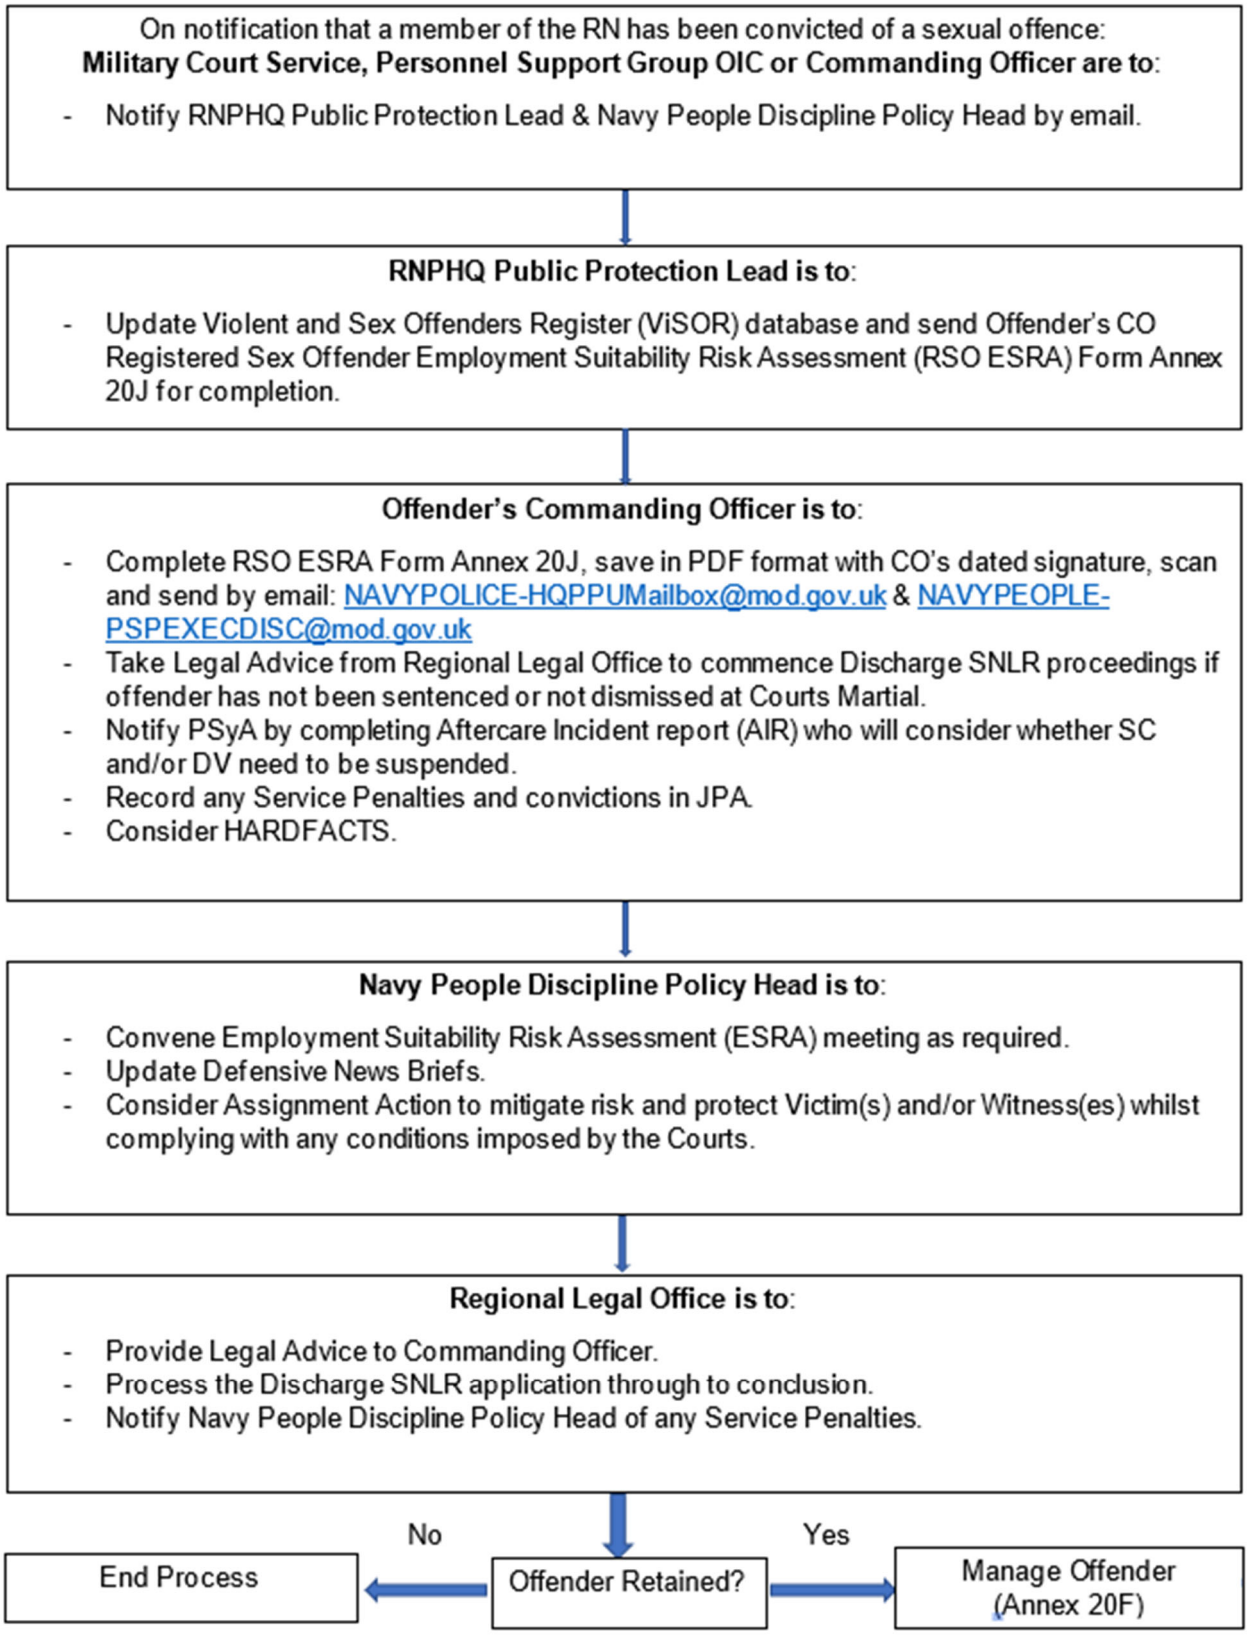
- Inform Navy Pers-CM DACOS Coord SO2C that the JPA Assignment Restriction is to be removed.
- Discuss with the Commanding Officer whether a Zero Tolerance/Unacceptable Sexual Behaviour Immediate Ships Investigation is required where the 100% threshold for conviction in Court is not met and there may be, on the balance of probabilities; a case to answer.

Career Manager is to:

- Remove the JPA Assignment Restriction.

ANNEX 20H

ACTIONS ON NOTIFICATION OF SEXUAL OFFENCE CONVICTION



ANNEX 20I

ALLEGED OFFENDER'S EMPLOYMENT SUITABILITY RISK ASSESSMENT (ESRA)

ALLEGED OFFENDER'S EMPLOYMENT SUITABILITY RISK ASSESSMENT (ESRA) (FORMS)

ANNEX 20J

REGISTERED SEXUAL OFFENDER EMPLOYMENT SUITABILITY RISK ASSESSMENT (RSO ESRA)

1. Confidentiality Statement: In working with Registered Sex Offenders (RSO) all personnel have agreed boundaries of confidentiality. The information contained within this Employment Suitability Risk Assessment (RSO ESRA) respects those boundaries of confidentiality and is shared on the understanding that:

The assessment is called for in circumstances where it is felt that the risk presented by the offender is so great that issues of the service community or individual safety outweighs those rights of confidentiality.

2. This RSO ESRA is closed under the Freedom of Information Act under one or more of the following reasons:

a. Investigations and proceedings by public authorities (S.30(1)(B)).

b. Health and Safety (S.38).

c. Personal Information (S.40).

d. Information provided in confidence (S.41).

3. The questions in this risk assessment consider Article 8.2 European Court of Human Rights, with reference to:

a. Public Safety.

b. The prevention of crime and disorder.

c. The protection of health and morals.

d. The protection of the rights and freedom of others.

4. This RSO ESRA should not be photocopied, or the contents shared outside of the Command, Navy People Discipline Policy Head, RNPHQ Public Protection Unit, Personnel Support Groups (Devonport, Faslane and Portsmouth and their satellite offices) and the Armed Forces ViSOR Manager. If further disclosure is essential, then permission should be sought from RNPHQ Public Protection Unit..

Handling Instruction: Limited Circulation
(Sexual Offences (Amdt) Act 1992 & SEXUAL Offences Act 2003 refer)

5. Offence related questions.

Full Name: .....

Service Number: .....

DoB: .....

Ship / Unit: .....

What is the trigger for completion of this form? (e.g., Guilty Plea at a Hearing / Conviction / Change in the offender's circumstances / Contemplation of re-tasking)
Give full details, including full contact details, the responsible authority and of the specific person appointed to manage this Offender for the duration of their awarded period as a Sex Offender.
Are there any known restrictions imposed by the Court, Police? (e.g., Restraining Order, Sexual Offences Prevention Order (SOPO), Barred from working with Vulnerable Groups etc.)
What is the Offender's current, and intended future tasking under your command? (To include job description, forthcoming deployments, including any Loan Temporary Duty period of 3 days or more).
Is the Offender currently engaged in Regulated Activity? (i.e. In a position that requires D&BS / PVG clearance?)

OFFICIAL-SENSITIVE - CONDIS (when completed)
Handling Instruction: Limited Circulation
(Sexual Offences (Amdt) Act 1992 & SEXUAL Offences Act 2003 refer)

Is the Offender employed in a supervisory capacity over any Juveniles (U18s) or Vulnerable Adults (ie Mess Deck Supervisor, Troop Commander, Line Manager etc).
What level of supervision will the Offender receive – give detail?
Does the conviction suggest an interest in a particular identified group of persons?
MALE: YES/NO **FEMALE:** YES/NO **U18:** YES/NO **U16:** YES/NO
Explain if the Offenders current or intended assignment causes contact with an identified group?
Does the post involve one-to-one contact with juveniles or vulnerable adults within such groups, as other service personnel, the public, potential recruits, or dependants?
Will the nature of the job present any realistic opportunities for the Offender to re-offend at work?
Is a management plan in place to mitigate any perceived risk? **(Management Plan to be attached and sent to RNPHQ PPU with this document).**

OFFICIAL-SENSITIVE - CONDIS (when completed)
Handling Instruction: Limited Circulation
(Sexual Offences (Amdt) Act 1992 & SEXUAL Offences Act 2003 refer)

Does the Offender's current or intended assignment require entry to another country, for which authorisation will be required, and is to be requested?
Does the individual have access to weapon systems or any munitions? If yes, what considerations / mitigations are in place to manage / restrict / deny access to such articles.
Are you likely to hand over command responsibility while the Offender remains attached to this unit? (If so, have you briefed your successor on the requirements of this chapter of BRd 3(1)?)
Has dialogue taken place with Navy People Discipline Policy Head to discuss the implications and restrictions of employment regarding the individual?
Are there any other considerations regarding the Offender / offences?
Has the individual been entered into VRMIS?
Is the Offender considered to be at risk of self-harm or harm from others? (e.g., reprisals)

Does the Offender's current assignment allow the individual to have practical access to their nominated legal representative?
Is the Offender required to appear before further Court hearings? (e.g. Sentencing / SOPO hearings)
What is the attitude of the individual towards the Guilty Plea / Conviction?
Has a media strategy been agreed by Navy People Discipline Policy Head?
Have Discharge SNLR proceedings commenced?
Are there any other considerations regarding the Offender?

OFFICIAL-SENSITIVE - CONDIS (when completed)

ANNEX 20K

THE ARMED FORCES CODE OF PRACTICE FOR VICTIMS OF CRIME 2015

1. Introduction

In accordance with The Armed Forces Code of Practice for Victims of Crime 2015 ('the Code'), alleged victims of crime (including victims of criminal and non-criminal conduct[1] offences under the Armed Forces Act 2006) are entitled to receive certain services where the alleged offence was committed in the European Union (EU) or criminal proceedings (including Summary Hearing and Court Martial proceedings) take place in the EU. Complainants are referred to as 'victims' within the Code. Service Providers under the Code include the Commanding Officer (CO) of the accused, the Service Police, the Service Prosecuting Authority (SPA) and the Military Court Service. Overall, the purpose of the Code is to ensure that victims of crime receive appropriate information, support and protection and are able to participate in criminal proceedings. Key features introduced by the Code include: an assessment of the victim's needs at the outset of an investigation; the appointment of a Victim Liaison Officer (VLO); and a victim's right to a review of a CO's decision not to bring any charge against an accused person or not to refer a case to the SPA. This Annex provides guidance to COs and VLOs in particular regarding their responsibilities. The RNP's responsibilities under the Code, including details of the procedure to be applied when a victim exercises their right to a review of a RNP decision to discontinue an investigation or not to refer any charges to the CO or the SPA, are set out in Provost Marshal Technical Instruction Number 31.

2. Application of the Code

There is a duty to provide services to victims when all of the criteria set out below are satisfied. The victim is entitled to access victim support services at any time, whether they have reported a crime or not, and after the conclusion of the investigation and prosecution.

a. A victim of an alleged offence has suffered harm, including physical, mental or emotional harm or economic loss, which was caused directly by a criminal offence. This includes a close relative of a person whose death was directly caused by a criminal offence. For victims aged under 18 years, their parent or guardian may also receive services under the Code.

b. The relevant offence was committed in the EU or is the subject of criminal proceedings which take place in the EU (including Summary Hearing and trial by Court Martial). The investigation stage forms part of 'criminal proceedings' for the purposes of the Code.

c. A victim, or a bereaved relative, has made a complaint to the Service Police or to the CO of the accused person, or the victim has been identified in a complaint made by a third party. The Code applies even if a suspect has not been identified.

[1] As defined in JSP 830 (MSL) Chapter 7.

d. The alleged offence is being dealt with by the Service Justice System (SJS). If the case is later transferred to a civilian jurisdiction, a victim will cease to be entitled to further services under the Code from the date of transfer provided they are notified of this fact. Responsibility for support will then transfer to the civilian sector. Where there is a joint civilian/military investigation, the Code applicable to the lead agency will apply.

e. The victim is present in the UK. Where a victim is not present in the UK or has left the territory of the UK, it is the victim's country of residence that should provide victim support services to that victim. As a matter of RN policy, the Code will apply when a victim is present onboard any RN warship, RN submarine or RFA vessel, even if that vessel is located outside UK internal or territorial waters.

f. The victim has not opted out of their entitlement to receive services under the Code. A victim may opt out of some services but retain their right to receive other services under the Code.

3. Key Features of the Code

The Code outlines obligations applicable to the SJS which the Service Police and the chain of Command must comply with. These include:

a. On receipt of an allegation, the conduct of a 'Needs Assessment' in relation to the victim. The purpose of this assessment is to identify any needs or support required by the victim. This includes whether and to what extent they may benefit from Special Investigation Measures[2] and Special Measures[3] to assist them in giving their best evidence in any proceedings.

b. The appointment of a VLO by the CO of the suspect. The primary role of the VLO is to keep the victim informed of key stages in the progress of the case. The VLO must be of the minimum rank of Petty Officer, not be part of the suspect's direct chain of Command and not have had any prior involvement in the case.

c. The victim's right to a review of a CO's decision not to prosecute. This includes a CO's decision not to charge any suspect with any offence in relation to a disciplinary investigation, or not to refer a case to the SPA where the matter cannot be dealt with by way of Summary Hearing. The victim is entitled to be notified of the reasons why this decision was made, how they can access further information about the decision and how they can seek a review of the decision. Victims may request a review within 3 months of them being notified of a CO's decision not to prosecute.

---

[2] The following Special Investigation Measures may be available:
a. To have the same person, where possible, conduct all the interviews (unless to do so would prejudice the proper handling of the investigation);
b. To be offered the opportunity to have a person of the same sex conduct the interview where the individual is a victim of sexual violence, gender-based violence, or domestic violence (any request will be met where possible unless to do so would prejudice the proper handling of the investigation);
c. To have interviews carried out by or through professionals trained for that purpose;
d. To have interviews carried out in premises designed or adapted for that purpose.

[3] Special Measures is the term used to describe the measures a Service court can order to assist vulnerable or intimidated witnesses to give their best evidence in court.

4. Needs Assessment

In most RN cases, Needs Assessments are conducted by the Service Police. However, in accordance with RN policy4, there are some allegations which may be investigated by means other than a RNP investigation (for example by a Coxswain). In these circumstances, the unit investigator must conduct the Needs Assessment by reference to the guidance (at Annex 20L) which has been issued by the MOD. If Coxswains and other non-RNP personnel require advice and guidance on this process, they should contact their area NPM.

5. Victims Leaflet

Victims entitled to receive services under the Code should be provided with a copy of Annex 20M, completed with the relevant information. This should be provided to the victim by the RNP in the first instance, or by the unit investigator for non-RNP investigations.

6. Duties of the Commanding Officer

a. The CO must ensure that victims are provided with a written acknowledgement of the crime that they have reported including the basic details of the alleged offence. Where the matter is investigated by the RNP, the RNP will fulfil this duty. The victim must be asked if they wish to be referred to victim support services[5]. Where the RNP/CO considers there may be a risk of harm to the victim from sending a written acknowledgement (e.g. in domestic violence cases), they may agree with the victim not to send one.

b. Where a suspect is arrested, taken into custody or charged in respect of a criminal offence, a VLO is to be allocated to the victim's case no later than 3 working days after the day of the event, and within 1 working day where the victim is a victim of the most serious crime, persistently targeted, or vulnerable or intimidated. A VLO must be appointed by the suspect's CO. Upon allocation, the CO must inform the VLO of the event.

c. In appointing a VLO, a CO must take into account the factors outlined at paragraph 7 of this Annex. This is a non-exhaustive list and COs should apply common-sense in identifying a suitable VLO. On appointment, the VLO must be handed the guidance at Annex 20N. The CO should tell the VLO how often they wish the victim to be informed of the progress of the case; normally this will be monthly or whenever a significant event occurs.

d. The CO should inform the victim that they have a right to receive information about the progress of the investigation, including the information outlined at paragraph 8 of this Annex. The CO may direct the VLO to provide this information to the victim on their behalf. Where a suspect is arrested, taken into custody or charged in respect of a criminal offence, the CO must inform the VLO as soon as possible of the event.

[4] Provost Marshal (Navy) Technical Instruction 56.
[5] Details are at: www.victimsupport.org.uk or on 0808 1689293 in the UK.

e. The CO must inform the victim if they make a decision not to investigate the allegation and provide an explanation. The CO must also inform the victim if they conclude an investigation without any individual being charged. They must ask the victim if they wish to be informed if the investigation is re-opened (e.g. in the event that further evidence comes to light).

f. Where the victim is a victim of the most serious crime, a persistently targeted victim, or a vulnerable or intimidated victim, the CO must note any Special Investigation Measures identified as appropriate in the Needs Assessment or requested by the victim. Where it is assessed that a victim will or may require special measures to assist them in giving any evidence, the CO must seek legal advice prior to determining whether or not a case may be dealt with summarily or should be referred to the SPA for trial by Court Martial.

g. At a Summary Hearing, the CO must ensure the following:

(1) Where a victim is called to give evidence, they are given the opportunity to refresh their memory from their written statement or video-recorded interview (as applicable), shortly before the Summary Hearing.

(2) Victims, and any family members with permission to accompany them, can enter and leave the unit in which the Summary Hearing is being held through a different entrance and are seated in a separate waiting area from the accused where possible.

(3) Where circumstances permit, a member of the CO's staff meets the victim and answers any questions posed about the Summary Hearing process and where possible provides an indication of how long the victim may have to wait before giving evidence.

(4) Wherever possible, if there is a delay in proceedings on the day, a member of the CO's staff provides an explanation to the victim and indicates how long they may have to wait.

(5) That there is a CO's point of contact for victims in order that they can find out what is happening in their case while it is being heard.

(6) There are procedures in place for a member of their staff to take the victim's contact details if the victim needs to leave the unit at any time, to ensure that the victim can be contacted if necessary.

(7) The CO must ensure that the Summary Hearing is conducted in a fair and just manner. Part of the Summary Hearing process involves the questioning of witnesses to test their evidence. The CO will treat victims who are witnesses respectfully and, where appropriate, will intervene where questioning is considered inappropriate or too aggressive.

h. The CO must ensure that the victim is offered the opportunity to make a Victim Personal Statement (VPS) as outlined at paragraph 9 of this Annex. The CO must ensure that any VPS is forwarded to the SPA where applicable. If the case proceeds to a Summary Hearing, the CO must ensure that the VPS is included in the case summary and written evidence.

7. Appointment of Victim Liaison Officer

a. It may be that the most suitable individual to act as a VLO is not based in the accused's unit. Liaison between COs may therefore be required should a CO propose to assign a VLO who is not under the nominating CO's chain of Command. In nominating a VLO, the CO should take into account the following factors:

(1) The suitability of the individual to undertake the role by reference to their professional skills and personal characteristics. A VLO must have excellent interpersonal skills, with the ability to handle vulnerable or intimidated witnesses with empathy and discretion. They must also possess good written and oral communication skills and be well-organised. If the individual has not already been trained as a VLO, they must be directed to contact their Regional Legal Office in the first instance.

(2) **The Location of the VLO.** The VLO must be able to communicate effectively with the victim at regular and short-notice intervals as required.

(3) **The Rate or Rank of the Victim.** Where possible, it is advised that the VLO is a peer or superior in rank to the victim.

(4) The likelihood that an individual may become involved in the case as a witness or in an investigative capacity. If the individual is already involved, or if there is any prospect that they may become so, they must not be nominated as the relevant VLO.

(5) **The relationship of the VLO to the Victim.** The VLO should be able to remain objective and it is therefore undesirable that an individual is assigned who may have an emotional attachment to the victim or the case.

(6) The likelihood that the VLO is going to be able to see the case through to its conclusion. This is particularly important when an alleged Schedule 2 offence, or an alleged offence committed in prescribed circumstances, is involved which may be referred for trial by Court Martial. Where ever possible, changing a VLO part way through a case should be avoided.

b. The CO of the accused retains responsibility for ensuring that the VLO undertakes their duties. This may require cross-Command liaison. If an accused person is assigned to a new unit, the accused's new CO takes on this responsibility. In such circumstances, the original CO must ensure that all relevant information is passed to the new CO.

8. Duties of Victim Liaison Officer

a. Some of the functions required by the Code will be undertaken by the RNP in RN cases. The remaining duties must be fulfilled by the VLO, who must inform the victim verbally or in writing of the following information without delay:

(1) The date and time of any arrest of a suspect.

(2) The date and time of the release of the suspect from Service custody, including any release requirements that are imposed, changed or cancelled, unless the CO considers doing so would cause a risk of harm to the suspect.

(3) The progress of the investigation or criminal proceedings at intervals agreed with the victim at first contact.

(4) Any decision not to proceed with or to end an investigation, not to charge a suspect or not to refer the case to the SPA. The VLO must inform the victim that they have a right to a request a review of a CO's decision not to prosecute and to provide the victim with sufficient information to enable them to decide whether to request a review.

(5) Any decision to substitute a charge against the suspect with another charge, substantially alter a charge or to bring an additional charge against the suspect, together with a brief summary of reasons for the decision where available.

(6) The date, time and place of any Court Martial trial, Summary Hearing or appeal and the nature of the charges against the suspect.

(7) The final judgement of any Court Martial trial, Summary Hearing or appeal, including a brief summary of any reasons given.

b. The Victim Liaison Officer must inform the victim of their right:

(1) To opt into the Armed Forces Victim Contact Scheme (AFVCS) if the offender receives a sentence of Service detention or imprisonment. The AFVCS is offered to victims of offences including bereaved close relatives where the offender receives a sentence of Service detention. To opt into this scheme the victim should notify the Deputy Commandant MCTC[6]. The AFVCS provides victims who are concerned for their safety with information keeping them informed of the key stages of the offender's sentence, such as periods of unsupervised conditional release, as well as final release. The information is provided subject to the discretion of MCTC not to provide it in cases where there is an identified risk of harm to the offender which would result from the notification.

[6] 01206 816701 MCTC, Berechurch Hall Camp, Berechurch Hall Road, Colchester, CO2 9NU

(2) To apply for compensation under the Criminal Injuries Compensation Scheme (CICS) if the victim qualifies. The VLO should explain to the victim that the recommended tariff for Service Compensation Orders is closely related to the CICS and that any sum awarded by the CO would be deducted from the compensation scheme.

(3) To make a complaint if the victim does not receive the information and services that they are entitled to, and to receive a full response from the relevant Service Provider. The procedure for dealing with these complaints is at Annex 20O.

9. Victim Personal Statement

a. The RNP or CO must ensure that the victim is offered the opportunity to make a VPS in the following situations:

(1) For any victim, at the time that they complete a witness statement about what has happened.

(2) At any time for victims of the most serious crime (including bereaved close relatives), persistently targeted victims and vulnerable or intimidated victims, irrespective of whether or not they have given a witness statement about what happened.

(3) A parent or carer of a vulnerable adult or of a victim under the age of 18 unless it is considered not to be in the best interests of the child or vulnerable adult.

(4) In any other cases where the CO deems it appropriate.

(5) In most cases, the RNP will have discussed the issue of VPS with the victim and obtained a VPS in accordance with their wishes.

b. When a VPS is being taken, the person taking the statement must ensure that the victim is asked whether or not they wish the VPS to be read aloud or played (if recorded) if the matter proceeds to a Service court. For Court Martial proceedings, the victim must be asked whether they would prefer to read the statement aloud personally or whether they would like the SPA advocate to do this on their behalf. It must be explained to the victim that the VPS does not have to be read aloud if they do not wish this or, alternatively, to change their mind in this respect. The victim must be made aware that they may be questioned about the contents of their VPS in a Court Martial or a Summary Hearing, and that its contents may be reported by the media if the case is heard in a public Service court. Ultimately, the victim should be advised that it is a matter of judicial discretion whether a VPS is read aloud (and by whom) or played (where recorded) in full or in part before a Service court.

c. In relation to Summary Hearings, the victim must be advised that they may read out the VPS if they are called to give evidence as a witness; otherwise it will be provided as written evidence to the CO. The VLO must, wherever possible, notify the victim in a timely manner of the CO's decision about whether, and what sections of, the VPS will be read aloud (or played) and who will do this.

10. Expenses

As directed by the MOD, the unit must pay without unreasonable delay any expenses the CO has decided are due to the victim after receiving a correctly completed claim form.

11. Victims Right to a Review of CO's Decision not to Prosecute

a. The victim's is right to a review of a CO's decision not to prosecute applies where the CO has decided not to charge any suspect with any offence in relation to a disciplinary investigation or not to refer a case to the SPA where the matter cannot be dealt with summarily. The victim may notify the VLO or the CO, verbally or in writing, that they wish to exercise their right to a review of this decision. Where a victim nominates a third party to act on their behalf, the CO must be satisfied that the third party has the authority to do so. On receipt of a request from a victim for such a review the CO is to seek legal advice.

b. Where a review is to be conducted, a CO will be advised to refer the case to their Higher Authority (HA) who (provided that the HA is of the rank of at least Commodore) will appoint another officer to act as the suspect's CO for disciplinary purposes ('the Reviewing CO').

c. A Reviewing CO must conduct a review of the decision not to bring a charge or not to refer the case to the SPA, as applicable. They must consider the case afresh on the basis of the evidence presented. They may direct further investigation of the facts surrounding the alleged offence as they deem necessary. The Reviewing CO must not discuss with the original CO (or with those who advised them) the basis of the decision not to prosecute. Legal advice should be sought in line with existing RN policy.

d. In order to overturn the decision not to charge a suspect(s) or not to refer a case to the SPA, the Reviewing CO must be satisfied that the decision that the Evidential Test and/or Service Interest Test[7] had not been met was wrong and that for the maintenance of confidence in the SJS, the decision must be reversed. They must confirm in writing to the victim the outcome of the review. The victim is entitled to a single review only of a CO's decision not to prosecute.

e. If the Reviewing CO decides to overturn the original CO's decision not to prosecute, they must then try the case summarily or refer the case to the SPA as applicable.

[7] Evidential Test and Service Interest Test as defined at paras 93 and 94 of Chapter 6 of JSP 830 - Manual of Service Law

12. Complaints Procedure

A victim has a right to state a complaint under the legislation if they believe that they have not received, or are not receiving, the services under the Code to which they are entitled. Further details of this complaints procedure have been provided by the MOD, including the actions to be taken by the Command accordingly, as outlined at Annex 20O. In the event that a victim submits such a complaint, the CO must seek legal advice prior to taking any action in relation to it. This complaints procedure is separate to the Service Complaints process.

13. JPA Recording

The Needs Assessment and a record of rights offered and taken up by the victim must be recorded on JPA.

ANNEX 20L

VICTIM NEEDS ASSESSMENT

Investigation/Case Reference Number……..

Note. *Completion of this form does not mean that Special Investigation Measures or Special Measures* ***will*** *be implemented and* ***no assurances are to be given to the victim/witness***

Name ……Age ……..Date of Birth ……Gender ……

1. Identification of Victim/Witness

The Youth Justice and Criminal Evidence Act 1999 (YJ&CE 99) aims to assist certain vulnerable groups of witnesses[1] to give evidence at court with the support of 'Special Measures'. Similarly, the Armed Forces Code of Practice for Victims of Crime provides Enhanced Entitlements to certain groups of victims to assist in their provision of evidence during the investigation, at a Service court or Summary Hearing. Tick to show which of the group(s) below apply to the subject victim/witness.

a. **Vulnerable.**

(1) Person under 18 years of age ☐

(2) Person with a mental disorder ☐

(3) Person with a learning difficulty ☐

(4) Person with a physical disability/disorder ☐

b. **Intimidated.**

(1) Person in fear or distress about giving evidence ☐

(2) Complainant in a sexual/human trafficking case ☐

c. **Victims of the Most Serious Crime.** ☐

A victim of domestic violence, hate crime, terrorism, sexual offences, human trafficking, attempted murder, kidnap, false imprisonment, arson with intent to endanger life and wounding or causing grievous bodily harm with intent. This also includes a close relative bereaved by a criminal offence.

[1] In the majority of cases a victim will also be a witness in the case.

d. **Persistently Targeted Victims** ☐

A direct victim of crime repeatedly targeted over a period of time, particularly those who have been deliberately targeted or victims of a sustained campaign of harassment or stalking.

2. Eligibility for Special Investigation Measures/Special Measures

a. The YJ&CE 99 makes those victims/witnesses at paras 1.a(1) and 1.b(2) are automatically eligible for Special Measures. In addition, the Armed Forces Code of Practice for Victims of Crime **entitles** all victims of crime identified as belonging to one of the four groups within 1(a) to (d) above to Enhanced Entitlements, which includes Special Investigation Measures and Special Measures (see paras 3 and 4 below).

b. In relation to sub-paras 1.a(2), 1.a(3), 1.a(4) and 1.b(1), explain briefly below the nature of the vulnerability, fear or distress and show how it is likely to diminish the quality of the victim/witnesses evidence in terms of their evidence being complete, coherent and accurate. Coherence refers to their ability to understand the questions put to them and give appropriate answers.

Nature of disorder/impairment or witness fear/distress and effect on evidence (expert advice may need to be sought):		In relation to sub-para 1.b(1), consider and note these factors:
…… …… …… …… …… …… (*indicate here if a continuation sheet is used*)	☐	• The circumstances of the offence. • The age of the witness. • Their social and cultural background. • Their domestic and employment circumstances. • Any religious beliefs or political opinions of relevance. • Any behaviour towards the witness by the accused, their family or anyone else.

3. Special Investigation Measures - Victims

Special Investigation Measures must be discussed with a victim entitled to Enhanced Entitlements under the Armed Forces Code of Practice for Victims of Crime. The victim is entitled to request that Special Investigation Measures are used and their request is to be considered in deciding whether any such measures are provided. Special Investigation Measures are:

a. Having the same person, where possible, conduct all interviews (unless to do so would prejudice the proper handling of the investigation).

Requested ☐ Used ☐

Remarks: .....

.....

b. Be offered the opportunity to have a person of the same sex conduct the interview for victims of sexual violence, gender-based violence, or domestic violence (any request to be met unless to do so would prejudice the proper handling of the investigation).

Requested ☐ Used ☐

Remarks: .....

.....

c. To have interviews carried out by or through professionals trained for that purpose.

Requested ☐ Used ☐

Remarks: .....

.....

d. To have interviews carried out in premises designed or adapted for that purpose.

Requested ☐ Used ☐

Remarks: .....

.....

e. If the victim is under 18 years of age, an audio-visual recorded interview.

Requested ☐ Used ☐

Remarks: .....

.....

f. If the victim is under 18 years of age, suffers from a mental disorder, has a significant impairment of intelligence and social functioning, has a physical disability or physical disorder, the use of communication aids.

Requested ☐ Used ☐

Remarks: .....

.....

4. Special Measures

a. If a victim/witness is under 18, tick to show if the case is:

(1) Sexual Offence ☐

(2) Offence involving violence, cruelty or abduction ☐

(3) Any other offence ☐

b. The admission of a visually recorded interview should be considered, particularly if paras 4(a) and 4(b) above apply.

c. Which Special Measure(s) is/are likely to improve the ability of the witness to give evidence, and why? Consider: the needs of the victim/witness, age, development or disability, communication difficulties, the state of mind (distress, shock); the type and severity and/or the circumstances of the offence (e.g. offender known to the witness); the purpose and likely value of visually recorded interview on this occasion, perceived fears about intimidation and recrimination.

GUIDANCE FOR COMPLETION OF VICTIM/WITNESS NEEDS ASSESSMENT

Note. *This assessment* ***MUST*** *be initiated* ***BEFORE*** *recording a statement from the Victim/Witness*

1. Purpose of the Victim/Witness Needs Assessment

a. The purpose of the Victim/Witness Needs Assessment is to:

(1) Identify whether the victim or witness is eligible for or entitled to any Special Investigation Measures or Special Measures.

(2) Allow for the victim or witness to request the use of any Special Investigation Measures and then document this request, as well as whether the measures are to be used.

(3) Provide information to the SPA for a Special Measures meeting if appropriate.

(4) Provide information to SPA to apply for Special Measures to the court.

(5) Record the views of the witness.

(6) Identify witnesses in need of special protection (see additional guidance notes below).

b. Where additional space is required, use a continuation sheet, indicating this on the assessment as appropriate.

2. Completing the Assessment

a. **Para 1.** Para 1 identifies the type of victim/witness who might be eligible for Special Measures.

(1) A vulnerable victim/witness is eligible for special measures if the witness is:

(a) Under 18; or

(b) Suffering from mental disorder, or significant impairment of intelligence and social functioning, or physical disability or disorder.

(2) An intimidated victim/witness is eligible for special measures if the witness is:

(a) In fear or distress about testifying; or

(b) Is a complainant in a sexual case.

(3) A victim of the most serious crime is defined by the Code as a victim of domestic violence, hate crime, terrorism, sexual offences, human trafficking, attempted murder, kidnap, false imprisonment, arson with intent to endanger life and wounding or causing grievous bodily harm with intent. This also includes a close relative bereaved by a criminal offence.

(4) A persistently targeted victim is defined by the Code as a direct victim of crime repeatedly targeted over a period of time, particularly those who have been deliberately targeted or victims of a sustained campaign of harassment or stalking.

b. **Para 2.** The assessment must take into account the victim's age, the nature and circumstances of the offence and any of the following factors that appear to be relevant:

(1) Social and cultural background and ethnic origins of the victim/witness;

(2) Domestic and employment circumstances of the victim/witness;

(3) Any religious beliefs or political opinions of the victim/witness; and/or

(4) Any behaviour toward the victim/witness by the accused, the family or associates of the accused or any other person likely to be an accused or a witness in the proceedings.

c. **Para 3.** Para 3 requires the assessor to inform an eligible victim of their entitlement to Special Investigation Measures and explain the range of measures that may be available to them to assist in obtaining the best possible evidence. The form allows the assessor to record any requests made by the victim for such measures, whether they were then used and the rationale should they not have been used.

d. **Para 4.** Para 4 requires the assessor to ensure that any victim/witness deemed to be 'in need of special protection' is identified. There are three categories of victim/witness who are under 18 years of age, as follows:

(1) Persons under 18 years of age giving evidence in a sexual offence case;

(2) Persons under 18 years of age giving evidence in a case involving an offence of violence, neglect or abduction; or

(3) Persons under 18 years of age giving evidence in all other cases.

3. Those under 18 years in the first two categories in particular should be considered for the provision of audio-visually recorded interview and for this to be used as evidence in court. For any other offence, under 18 year olds may be eligible for both visually recorded statements to be admitted and other testimony by live link.

4. Para 4 continues for all other cases by requiring justification of why a measure or measures would be likely to improve the quality of evidence by the witness. For example, give details of the special measures for a complainant in a sexual offence.

5. Para 5

Para 5 requires that any evidence which can be obtained to support the application should be submitted if available.

6. Para 6

It is essential that the victim/witness be asked to give their views, since any proceedings which consider the granting of a measure must take into account all circumstances of the case when deciding where the interests of justice lies, and in particular the views of the victim/witness. For similar reasons it is an important consideration in determining whether Special Investigation Measures are appropriate. It is essential to canvass the views of the victim/witness before deciding how to take their evidence.

7. Para 7

a. Para 7 requires that the views of interested parties such as a parent or carer, etc. be recorded. It should only be completed in appropriate cases, where the views of the victim/witness can be supported or assisted by such a person. Hence, this may/will include:

(1) The views of the carer about the victim/witness going to court;

(2) How supportive is the carer of the under 18 year old and the prosecution; and/or

(3) Strengths and weaknesses of the person under 18, such as:

(a) Developmental age.

(b) Linguistic and emotional development (e.g. their level of understanding or grasp of time intervals may be relevant to specimen charges); and

(c) Attention span relevant to requests for breaks when giving evidence.

(4) The person under 18 years own preference, the carer's and Service Police or CO's view about how the child should give evidence (ie. use of screens, TV link, and\or other special measures).

b. Inform any victim/witness aged under 18 years that, should they be called to give evidence at a Service court, the Military Court Service will send them an information leaflet designed specifically for them.

8. Para 8

Para 8 requires the details of other agencies involved, e.g. Social Services or a school, will assist the prosecution to ensure relevant assistance is given to the victim/witness. Include details of any work progressing with the witness, such as continuing support.

9. Para 9

In the event that a written statement is taken from any witness under 18 years of age, the investigator must ensure that any decision to do so is recorded and a sufficient explanation given having regard to “Achieving Best Evidence”.

10. Para 10

A Special Measures meeting is a meeting that takes place between the investigating and prosecuting agencies to discuss and agree which Special Measures may be required and applied for. Assessors are to ensure that the Service Police Case Referral or CO’s case papers indicate that a Special Measures meeting is required.

ANNEX 20M

VICTIM'S LEAFLET

1. Thank You for Reporting this Incident

This leaflet sets out what you can expect from the Service Justice System if you are a victim of crime. It contains information about organisations that you can contact for free advice, practical information and emotional support.

2. You can find some details below about the incident you have reported and other useful contact details. You may find it useful to keep this leaflet for future reference so that you have all the contact details and important information about the incident you have reported in one place, together with details about advice and support services that may be available to you.

3. Details of the crime you have reported:

4. Initial Contact

Name of person recording incident: .....

Phone number: .....

5. Person Dealing with the Case (if different from above)

Name: .....

Phone number: .....

6. Crime Case Details

Date incident reported: .....Date of incident (if different): .....

Investigation Reference Number (if assigned): .....

Description of the Incident: .....

.....

.....

.....

.....

.....

7. Next Steps

a. You will be informed by the person investigating your complaint about what to expect from the Service Justice System, including information about the Victims' Code. The Victims' Code sets out the services that victims can expect from Service Justice providers. A "needs assessment" will be conducted and you will be asked questions to establish what help and support you might need. The Victims' Code also sets out your rights to make a complaint under the Victims' Code if you are unhappy with the service you receive. If you would like to read the Code in full please visit: https://www.gov.uk/Armed Forces Code link.

b. If the crime against you did not take place within the European Union (EU), you will still be entitled to many of the services set out in the Victims' Code, but only in relation to criminal proceedings that are taking place in the EU. However, if you are not present in the UK, the country in which you reside should provide any Victim Support services to you.

8. The Victim Personal Statement (VPS)

The Victims' Code entitles victims of crime to make a Victim Personal Statement (VPS). The VPS helps give victims a voice in the Service justice process. In your VPS you can inform those hearing your case how the offence has affected you or your family. If the case is tried in a Service Court you can choose to read your statement aloud in court or have it read out on your behalf if the accused is found guilty. If your case is subject to Summary Hearing, your VPS will form part of the case papers considered by the CO.

9. Victim Support

If you are present in the UK or are a person subject to Service discipline, with your agreement your details will be passed on to an organisation that provides services to victims of crime. In the majority of cases, your details will be passed on to a local victim support service. You can also contact these services directly if you would like support following a crime. To find out more, visit: www.victimsupport.org.uk or phone 0808 1689293 in the UK or 05251 1809340 in Germany. Additional support, including for those in other theatres, may also be available through SSAFA, single Service welfare agencies and the Forces Helpline.

10. Working Together to Investigate your Crime

To assist those who will investigate your crime, you should let them know:

- if you remember something not already included in your current statement;
- if your contact details change;
- if the crime involved any type of hostility, for example if you believe you were targeted because of your actual or perceived race, sexuality, religion, disability or gender identity; and
- if you have any specific needs, for example, mobility, communication or religious requirements.

11. Protection Against Harassment or Intimidation

If you, or others close to you, are harassed or threatened in any way during an investigation or a trial, you should contact the Service Police immediately. If the accused is released from Service custody, requirements may be imposed that would prevent them from making any contact with a named person or persons. Protection for victims and witnesses against witness intimidation extends for up to one year after the end of a trial.

12. Criminal Charges

If there is sufficient evidence to charge the person(s) who committed the crime against you with a criminal offence, it may be dealt with at Summary Hearing by the suspect's CO, or the case may be referred to the Service Prosecuting Agency (SPA), who will decide whether to prosecute or not and whether to take your case to a Service court. To find out more about the SPA and for a useful overview of the Service Justice System visit: http://spa.independent.gov.uk/index.htm

13. Victim Liaison Officer

A Victim Liaison Officer (or in some cases a Service Police Liaison Officer) will be appointed to you to inform you about the progress of your case, including the date and outcome of any hearings. The Victim Liaison Officer will agree with you how often you will be updated about the progress of your case. They can also provide information on claiming any expenses that may be incurred should you be required to attend a Summary Hearing or Service Court to provide evidence.

14. Going to a Service Court as a Witness

The Military Court Service (MCS) is responsible for administering all Service courts (the Court Martial, the Standing Civilian Court and the Summary Appeal Court). To find out more visit: https://www.gov.uk/guidance/the-military-court-service. In advance of a trial, the MCS will provide a witness support leaflet to all witnesses who have been called through the Military Court system. The leaflet provides information on claiming expenses for attendance at court, such as travel, accommodation, meals and loss of earnings. It also contains details of what you can expect on the day and court procedures.

15. Witness Service

The Witness Service, run by Victim Support, helps victims and witnesses attending court. They are trained staff and volunteers who you can talk to about what to expect before going to court during a pre-trial visit, and who are also present to support you at court. The Witness Service cannot discuss the case or the contents of your evidence with you. To find out more, visit: www.victimsupport.org.uk or call 0808 1689293.

16. Compensation - UK

If you have been a blameless victim of a violent crime, you may be eligible for compensation. If the incident took place in the UK, this will be via the Criminal Injuries Compensation Authority (CICA). You can apply online at www.gov.uk. If you need help to complete an application by telephone, contact the CICA Customer Service Centre advisors on 0300 003 3601. You can apply for compensation whether someone has been prosecuted for the offence or not but you must apply within two years of the date of the incident. You should not wait until the end of Service court proceedings before applying for criminal injuries compensation. To find out if you are eligible for payment for having suffered immediate financial hardship, contact Victim Support on 0808 1689293 or visit: www.victimsupport.org.uk as soon as possible.

17. Compensation - Overseas

If you are a Serviceperson and have been the blameless victim of a violent crime overseas, you may be eligible to claim compensation via the Criminal Injuries Compensation (Overseas) Scheme, for which information can be found at www.gov.uk/government/publications/guide-to-the-criminal-injuries-compensation-scheme. Similarly, for Civil Servants there is the Civil Service Injury Benefits Scheme, for which information can be found at www.civilservicepensionscheme.org.uk.

18. Translation and Interpretation

If you do not understand or speak English, you are entitled to ask for interpretation into a language you understand when reporting a crime, being interviewed in respect of the crime and/or when giving evidence in criminal proceedings. The Victims' Code sets out your entitlement to request the translation of key documents as part of the case, including the written acknowledgement.

19. Conviction, Sentence, Release and Probation Supervision

When someone is convicted of an offence and sentenced to detention at the Military Corrective Training Centre (MCTC) or imprisonment in a civilian prison, they will pass into the care of the relevant detaining organisation. If this is the case, your Victim Liaison Officer will inform you of your entitlement to opt into the Armed Forces Victim Contact Scheme, following which you can be informed of the key stages of the offender's sentence, such as release information.

20. Special Measures

The Code sets out enhanced entitlements for victims entitled to receive services in the following categories:

a. Victims of the most serious crime.

b. Persistently targeted victims.

c. Vulnerable or intimidated victims.

The content of those enhanced entitlements is explained in the Code. If the CO considers that you fall into one of these categories, he will refer your case to the RMP who will explain the measures to you and apply any that are required.

21. Further Information

a. You can use the Victims' Information Service to find more detailed information about support and services for victims within the UK at:

www.victimsinformationservice.org.uk

or

Telephone 0808 168 9293.

b. Within the UK, Citizens Advice can help with financial problems or advice, legal issues or other practical problems. To find out more, visit: www.citizensadvice.org.uk or call 0845 126 4264.

c. Members of the military community can also call Forcesline (Mon–Fri, 1030–1930 (UK local time) on Freephone:

UK	-	0800 7314880
Germany	-	0800 1827395
Cyprus	-	800 91065
Falkland Islands	-	#6111

Operational Theatres	-	Paradigm - dial access code, then enter *201 at the PIN prompt
Email	-	www.forcesline.org.uk

ANNEX 20N

GUIDANCE FOR VICTIM LIAISON OFFICERS

1. Who is a Victim?

The Victims' Code defines a victim as a natural person[1] who has suffered harm, including physical, mental or emotional harm or economic loss, which was caused directly by a criminal offence. This includes a close relative of a person whose death was directly caused by a criminal offence and who has suffered harm as a result of that person's death. If a family is bereaved as a direct result of a criminal offence, the deceased's close relatives are entitled to nominate a family spokesperson to act as the single point of contact to receive services under this Code. If the close relatives cannot choose a family spokesperson, the Service Police Senior Investigating Officer working on the case must choose the family spokesperson. Similarly, if the victim has a disability, or is badly injured as a result of the offence such that they are unable to communicate, the victim or their close relatives are entitled to nominate a family spokesperson to act as the single point of contact to receive services under this Code. A victim under the age of 18 and their parent or guardian are also entitled to receive services under the Code. Where a victim is not present in the UK, it is the victim's country of residence that should provide support services to that victim.

2. To Which Offences does the Code Apply?

The Code applies in respect of victims of alleged criminal or non-criminal conduct offences under the Armed Forces Act 2006. Providing the victim has suffered harm or economic loss, such offences therefore would include (but are not limited to): sexual offences (e.g. rape, assault by penetration, sexual assault); violence offences (e.g. battery, assault occasioning actual bodily harm, wounding, inflicting grievous bodily harm, fighting, using violence against a superior officer, ill-treatment of subordinates, disgraceful conduct of a cruel or indecent kind); theft; and criminal damage. The Code applies when such offences are committed within the European Union (EU) or when criminal proceedings take place in the EU (including Summary Hearing and trial by Court Martial).

3. From What Stage does the Code Apply?

The investigation stage forms part of 'criminal proceedings' for the purposes of the Code. Therefore the Code applies as soon as a victim, or a bereaved relative, makes a complaint to the Service Police or to the CO of the accused person. It also applies when a complaint has been made by a third party which identifies the victim. The Code applies even if a suspect has not been identified. The victim is entitled to access services under the Code regardless of whether anyone has been charged or convicted of a criminal offence and regardless of whether the victim decides that they do not wish to cooperate with the investigation. If a case is transferred to civilian jurisdiction, the civilian authorities will then be responsible for providing support services to the victim and the Armed Forces' obligations under the Code will cease.

[1] Legal persons (e.g. businesses) are not included in the definition of a victim.

4. Who Assigns the Victim Liaison Officer?

The Victim Liaison Officer (VLO) is assigned by the CO of the suspect. For RN investigations, some of the VLO's tasks will be undertaken by the Service Police. The VLO must be of the minimum rank of Petty Officer, must not be part of the suspect's direct chain of Command and not have had any prior involvement in the case. The VLO may not necessarily be serving in the same unit as the victim. Where a suspect is arrested, taken into custody or charged in respect of a criminal offence, the VLO will be allocated to the victim's case no later than 3 working days after the day of the event, and within 1 working day where the victim is a victim of the most serious crime, persistently targeted, or vulnerable or intimidated. Upon allocation, the CO will inform the VLO of their appointment as VLO.

5. What do I have to do as the Victim Liaison Officer?

The following actions should be undertaken by you as VLO:

a. Confirm with the Service Police whether or not they have provided the victim with the "Victim of Crime" leaflet. If they have not, arrange with the Service Police for this to be actioned.

b. Confirm with the Service Police whether or not a "Needs Assessment" has been conducted in respect of the victim and that the victim has been given the opportunity to make a Victim Personal Statement. If either has not occurred, arrange with the Service Police for this to be actioned.

c. You must keep the victim updated on the progress of the case. Therefore, as soon as you are informed of the following either verbally or in writing, you must inform the victim without delay of:

(1) The date and time of any arrest of a suspect. You will need to liaise with the Service Police to agree whether this information will be conveyed to the victim by you or by the Service Police.

(2) The date and time of the release of the suspect from Service custody, including any release requirements that are imposed, changed or cancelled, unless the CO considers doing so would cause a risk of harm to the suspect.

(3) An update on the investigation or criminal proceedings at intervals agreed with the victim at first contact. During the investigation stage, you will have to obtain such details from the Service Police. On completion of the investigation, the updates must be obtained from the CO of the suspect. If the matter has been referred to the SPA, you may have to contact the prosecutor who has been assigned to the case. Where the case is referred to the SPA by the Service Police, the Service Police will be informed by the SPA by letter of the name of the prosecutor. Where the case is referred to the SPA by the CO, the CO will receive this letter.

(4) Any decision not to proceed with or to end an investigation, not to charge a suspect or not to refer the case to the SPA. If the Service Police decide to end an investigation they may inform the victim of this fact, and you will have to confirm with the Service Police that this has occurred. If the CO decides not to charge the suspect or to refer the case to the SPA, the CO may inform the victim personally. If not, they may direct you to convey this information to the victim. You should be provided with a brief summary of the reasons for the relevant decision where available. Where a CO has decided not to charge any suspect or not to refer a case to the SPA, you must inform the victim that they have a right to a review of that decision.

(5) Any decision to substitute a charge against the suspect with another charge, substantially alter a charge or to bring an additional charge against the suspect, together with a brief summary of reasons for the decision where available. It may be that the CO or the SPA cannot provide reasons for the decision because they are not permitted to discuss evidence with a victim in ongoing criminal proceedings.

(6) The date, time and place of any trial, Summary Hearing or appeal and the nature of the charges against the suspect. When a case is to be tried in the Court Martial, the SPA will write to the victim directly informing them of these facts. For RN cases, the Naval Courts Administration Office will also inform the victim of the date, time and place of the Court Martial. However, you will have to provide this information to the victim in respect of Summary Hearings. Thereafter, update letters will be sent by the SPA after the Plea and Case Management Hearing and prior to any trial or sentence hearing. However, for Summary Hearings you will have to liaise with the Command Advisor (e.g. the DLO in a FF/DD) to obtain the information required and communicate these details to the victim.

(7) Wherever possible, notify the victim in a timely manner of the CO's decision about whether, and what sections of, the Victim Personal Statement will be read aloud (or played) and who will do this.

(8) The final judgement of any trial, Summary Hearing or appeal, including a brief summary of reasons for the decision where available. Again for Court Martial proceedings, the SPA will inform the victim of the outcome of any trial or sentencing hearing. However, for Summary Hearings you will have to liaise with the Command Advisor (e.g. the DLO in a FF/DD) to obtain the information required and communicate these details to the victim.

6. By What Means Must I Communicate with the Victim?

You may provide information to the victim by posting or personally delivering a letter to their last known correspondence address, or by sending an electronic message to the electronic contact details given by the victim to the Service Police, CO or to you. If written communication is not required, communication may be made by telephone call, audio-visual communication or a face to face meeting. Where there is a high number of victims involved in a case, or where otherwise appropriate in exceptional cases, information may be provided to a victim through alternative channels such as a website. In these circumstances, you should ascertain the CO's intention. Nothing in the Code requires a VLO, CO or Service Police to provide information where disclosure of that information could have the following consequences:

a. Result in harm to a person.

b. Affect the proper handling of any criminal investigation or prosecution, or could otherwise prejudice any civil or criminal case; or

c. Would, in the service provider's view, be contrary to the interests of national security.

Again, in these circumstances, you should consult with the CO to receive direction.

7. Can a Victim Decide to Opt Out of the Code?

A victim may decide that they do not want some or all of the information or services to which they are entitled under the Code. Similarly, they may want to access the services but then opt out of receiving these at a later date. If that is the case, then the victim can discuss with their VLO and/or the Service Police how the entitlements should be best tailored to their needs. A victim may opt back into receiving services under the Code at any time while the case is under active investigation or prosecution.

8. What Happens if a Victim Does Not Receive the Services to which they are Entitled under the Code?

If the CO, Service Police, VLO or other Service Provider fails to provide the services on behalf of the Armed Forces to which the victim is entitled and desires under the Code, then this places the UK in breach of its obligations under the relevant EU Directive. In such a situation, the victim is also entitled to make a complaint in accordance with the applicable complaints procedure.

9. Are any Victims Entitled to Enhanced Services under the Code?

Three categories of victims are entitled to enhanced services under the Code. These are as follows:

a. Victims of the most serious crime.

b. Persistently targeted victims; and

c. Vulnerable or intimidated victims.

10. The Service Police will determine whether or not a victim falls into one of these categories. On your appointment as VLO, you should check with the Service Police or CO whether or not the victim is entitled to enhanced services. Such services may include Special Investigation Measures, namely:

a. To have the same person, where possible, conduct all the interviews (unless to do so would prejudice the proper handling of the investigation).

b. To be offered the opportunity to have a person of the same sex conduct the interview where they are a victim of sexual violence, gender-based violence, or domestic violence (any request will be met where possible unless to do so would prejudice the proper handling of the investigation).

c. To have interviews carried out by or through professionals trained for that purpose.

d. To have interviews carried out in premises designed or adapted for that purpose.

11. The victim may also ask for Special Measures to be put in place to assist them in giving evidence during a trial. These Special Measures will be discussed with the victim by the Service Police. However, if the victim indicates to you that they would like to make use of Special Investigation Measures or Special Measures which they have not told the Service Police of previously, you should inform the Service Police of this.

ANNEX 20O

ARMED FORCES CODE OF PRACTICE FOR THE VICTIMS OF CRIME - COMMANDING OFFICERS' COMPLAINTS PROCEDURE

1. Introduction

a. The Armed Forces Code of Practice for Victims of Crime ('the Code') sets out the services to be provided by Service Providers to the victims of crime committed by persons subject to Service law or civilians subject to Service discipline. Included in the list of Service Providers are Commanding Officers who exercise powers of investigation or charge, and Victim Liaison Officers[1]. Victims are entitled to be treated by Service Providers in a respectful, sensitive and professional manner, without discrimination of any kind.

b. The Code provides that if a victim entitled to services under the Code believes that they have not received the services and support that they are entitled to by virtue of the Code, they can make a complaint. This Annex sets out the procedures for making and dealing with such a complaint.

2. What is a Complaint?

a. As set out above, this Annex applies to complaints made by a victim entitled to services under the Code who believes that they have not received the services and support that they are entitled to by virtue of the Code. It applies only to complaints made about Commanding Officers who exercise powers of investigation or charge, and Victim Liaison Officers. Complaints against other Service Providers should be made using their individual complaints procedures.

b. This procedure is distinct from the Service Complaint procedure described in JSP 831 - Redress of Individual Grievances: Service Complaints.

3. How May a Complaint be Made?

a. If the victim feels comfortable in doing so, they should first talk about their complaint with the person they have been dealing with as the representative of the Service Provider. This may help to answer or deal with the complaint. However, if this does not help answer the complaint, or the victim is not comfortable in dealing with the person directly, they may make a formal complaint in accordance with this procedure. A victim entitled to services under the Code is entitled to receive information about how to make a complaint, including contact details and the process for dealing with a complaint.

b. When making a formal complaint, the complaint must be made in writing[2], and should be addressed to the Commanding Officer of the person being complained about. The word 'complaint' need not be used and care must be taken to ascertain whether in such correspondence the victim has a considered grievance needing to be resolved, rather than an observation to be noted or question that a victim wishes to be answered.

---

[1] A list of service providers is set out in paragraph 7 of the Introduction to the Code.
[2] This may include electronic communication, primarily email.

4. Who can Complain?

a. The complaint may only be made by a victim entitled to services under the Code, or someone acting on their behalf[3]. If it is being made by someone on the victim's behalf, evidence of their authority to act should normally be sought.

b. For crimes that occurred outside the EU, the complaints process is only available to victims in relation to criminal proceedings that take place within the EU4.

5. When can a Complaint be Made?

Complaints must be made within 3 months of any obligation to the victim as required by the Code. Should a victim wish to make a complaint outside of this timescale because they were previously unaware of their entitlements under the Code and therefore did not know that they had not been met, the person receiving the complaint has discretion to decide whether it can be allowed, taking into account the circumstances of the incident and investigation and whether to do so would be fair and just to all concerned.

6. Out of Scope Complaints

The following complaints do not fall within the scope of this procedure:

a. Complaints about the decision of a CO not to charge a suspect or, in cases where a CO is unable to hear a charge summarily, a decision not to refer the case to the Director of Service Prosecutions. All matters concerning these decisions must be dealt with in accordance with the COs' Victims Right to Review Scheme.

b. **Anonymous Complaints.** All complaints must be made by the victim or by a person acting on behalf of the victim, with their consent.

c. Complaints about the manner in which an investigation was conducted (e.g. a complaint regarding the quality of the evidence gathered).

d. **Complaints Older than 3 Months**. Such complaints will be subject to the discretion detailed at para 5 above.

e. Complaints which are deemed vexatious or oppressive.

7. The Complaints Procedure

The aim of this procedure is to resolve any complaints made by victims at the lowest level, expeditiously and to their reasonable satisfaction, taking appropriate action where relevant or providing information to the victim to demonstrate that any obligations required by the Code had been met.

[3] For example, a legal adviser.
[4] In a case, some criminal proceedings, such as the interview with the victim, may take place outside the EU, while other criminal proceedings, such as the Summary Hearing, may take place within the EU. The Code does not apply to those criminal proceedings that take place outside the EU.

8. Receipt of a Complaint

a. Receipt of a complaint made under this procedure must be recorded at the earliest opportunity in order to ensure that an audit trail is maintained. Should a complaint be sent to the wrong Service Provider, they must use their best endeavours to redirect the complaint to the correct Service Provider, and inform the complainant that they have done this.

b. All complaints must be acknowledged within 3 working days of receipt. This acknowledgement must state that the complaint has been received and is being dealt with. It should also contain information about how complaints are dealt with and indicate how long it may take to receive a full response to the complaint.

9. Local Resolution

Local resolution is a way of understanding a complaint and resolving it directly with the person making the complaint as quickly as possible. For local resolution to be successful, the complainant must give their consent and cannot be forced or feel under any pressure to proceed in that manner. Where both appropriate and possible, local resolution at the lowest possible level is the preferred method of addressing a complaint, as this will deal with the matter expeditiously for all involved in the process. Local resolution may be in the form of a personal visit from an officer with the authority to resolve issues or to issue an apology/explanation as appropriate. Should local resolution be achieved, it must be followed up by correspondence to the complainant confirming the nature of complaint and the resolution provided.

10. Commanding Officer Complaint Analysis

On receipt of the complaint, the Commanding Officer of the person being complained about is to conduct an analysis of the complaint. On conclusion of that analysis, it should be apparent whether the matter can be resolved by way of local resolution or whether the matter requires further enquiries in order to respond fully to the complainant. Broadly, the analysis should focus on assessing the following:

a. Who is complaining?

b. What are they complaining about?

c. Does the complaint fall within the scope of this procedure?

d. If relevant, do the circumstances leading to the complaint seem to be as a result of a genuine error or honest mistake?

e. What, if any, resolution is being sought by the complainant?

f. Can the complaint be resolved locally?

g. Are there wider lessons to be learnt from the circumstances that led to the complaint?

h. Is there any suggestion of negligence or other misconduct?

i. Does the matter require administrative or disciplinary processes to be initiated?

j. Does the complaint appear to be vexatious or oppressive (see paras 19-22 below)?

11. Determining Complaints

The Commanding Officer addressing the complaint is to:

a Consider the complaint, taking into account the obligations of the Service Provider and entitlements afforded to the victim by the Code, together with the circumstances of the incident/offence investigated.

b. Decide whether the matter can be dealt with by local resolution.

c. Decide what action is necessary and proportionate (e.g. the taking of administrative/disciplinary action, additional training, the giving of an apology or the provision of a previously denied service) and initiate it.

d. Identify any organisational learning from the matter and disseminate it.

e. Communicate the findings to the victim complaining. This may be conducted in person or in writing; however, if carried out in person this must be confirmed in writing.

f. A copy of the decision and finding is to be forwarded to the single Service Discipline Branch.

g. The determination of the complaint must be completed and the victim advised of the outcome within 10 working days from receipt of the complaint, where practicable. If this is not practicable, the victim must be informed in writing of progress and an anticipated completion date in accordance with paragraph 8 above.

h. All records must be retained for a minimum of 6 years from the date of the complaint.

12. Possible Outcomes

Following analysis of the complaint (at all levels) the range of outcomes may be one or more of the following:

a. **Complaint Rejected.** The complaint may be rejected if the analysis and/or any fact finding identify that the complainant's belief is incorrect. The complainant should be informed of the finding and rationale/evidence for it in person or in writing. If in person, it is highly recommended that the conversation is confirmed in writing.

b. **Local Resolution.** Local resolution could include an apology to the complainant and/or the provision of a service under the Code previously denied to the victim.

c. **Administrative Action.** In some cases, it may be appropriate for administrative action to be taken. Decisions on whether this is appropriate should be made in accordance with applicable joint and single Service guidance. This should not delay the provision of a service under the Code previously denied to the victim where this is appropriate.

d. **Disciplinary Action.** Where appropriate, disciplinary action may be commenced under the Armed Forces Act 2006. This should not delay the provision of a service under the Code previously denied to the victim where this is appropriate.

e. **No Action.** Notice that no action will be taken should the complaint be classified as vexatious or oppressive.

13. Apologies to Persons Making a Complaint

It is possible that in the interaction with a victim, mistakes will be made in the informing or delivery of their entitlements under the Code. If, on analysis of the complaint, there has been a mistake or error made by the person being complained about or personnel acting on their behalf, then it may be appropriate that an apology is offered as soon as is reasonably practicable once the facts have been established. Specialist advice should be obtained from personnel and legal staff.

14. Vexatious or Oppressive Complaints

a. Following analysis, it may be apparent that the complaint could be considered vexatious or oppressive. It is important to note that it is the complaint itself that must be judged vexatious or oppressive, not the complainant. The complainant's past complaint history may however be relevant to show that the current complaint is vexatious or oppressive. The complaint history may be relevant, for example to show whether there have been a series of like complaints that have been addressed, either directed at the person subject to the current complaint or another person.

b. Proportionate assessment of the complaint remains necessary to establish whether a complaint lacks foundation or amounts to an abuse. Information and explanation should be provided to support that assessment.

c. 'Vexatious' and 'oppressive' should be given their usual dictionary meanings. A vexatious complaint will be one that is without foundation which is intended, or tends, to vex, worry, annoy or embarrass. For a complaint to be vexatious, it does not have to be repetitious.

d. An oppressive complaint is without foundation and is intended, or likely, to result in wrongful treatment of the person complained against or creates a disproportionate organisational burden on the Service.

15. Disclosure

Disclosure of material is governed by the MOD disclosure policy and procedures. If requested by the person complaining, a copy of their complaint and the record of decision/finding may be provided once the CO has made a determination of the complaint. This will exclude any data protected by the Data Protection Act 1998, including, where appropriate, investigative material or security protected material. This may require the provision of a redacted copy of the relevant material, which must be sent to relevant single Service Discipline Branch for authority to release.

ANNEX 20P

GUIDANCE ON THE ADMINISTRATIVE SANCTIONS WHICH MAY BE IMPOSED FOLLOWING A MINOR, SERIOUS OR GROSS SECURITY BREACH COMMITTED BY ROYAL NAVAL OR ROYAL MARINES PERSONNEL

1. Introduction

2015DIN02-004 promulgated revised procedures for the reporting of security incidents with effect from 6 Jul 15. Further, it outlined guidance for assessing the severity of a security breach which is to be classified as 'minor', 'serious' or 'gross'. The aim of this Annex is to provide guidance to Commanding Officers and line managers regarding appropriate administrative sanctions following the commission of a security breach by Royal Naval (RN) or Royal Marines (RM) personnel. This guidance applies only where a decision has been made to take administrative, rather than disciplinary, action against an individual.

2. Investigation of Security Incidents

In the event of a security incident, extant tri-Service and RN regulations and guidelines apply in relation to the conduct of an investigation. From a disciplinary perspective, further guidance is provided in Chapter 20 for those deciding on the method of investigation.

3. Disciplinary Action

Chapter 20 explains the distinction between disciplinary and administrative action and outlines what factors should be considered when determining how to proceed. Security breaches assessed to fall into the 'gross' category as defined in 2015DIN02-004 should normally be dealt with by disciplinary means. The particular circumstances of a case, however, may dictate that administrative action is a more effective means of maintaining operational capability. Alternatively, criminal and/or disciplinary action may not be necessary, appropriate or desirable for some other reason. For security breaches assessed to fall into the 'serious' or 'gross' categories, whether or not disciplinary action or administrative action is appropriate must be determined by the unit's Commanding Officer, having obtained legal advice. This decision may be delegated to an officer not below the rank of Commander (or equivalent).

4. Administrative Action

a. Where a decision has been made to take administrative action against an individual, the sanction to be imposed will depend on the circumstances of the case. To that end, it is not appropriate or desirable to specify definitive sanctions for particular types of behaviour. This Annex, therefore, provides only general guidance.

b. In the first instance, legal advice must be sought before a decision is made to impose a sanction for a 'serious' or 'gross' security breach. Further guidance regarding major administrative action is contained in Chapter 20. For officers, this includes censure action for which reference should also be made to BR 2 (QRRN) Chapter 38. Army or RAF legal advisers should seek assistance from Naval Legal Services in providing advice to the Command about administrative action in respect of RN or RM personnel serving outside the RN chain of Command.

c. Where a decision has been made to take administrative action, the following ranges of sanction will normally apply for security breaches as defined in 2015DIN02-004:

(1) **Minor Breaches.** Informal interview - Formal interview.

(2) **Serious Breaches.** Formal interview - Major Administrative Action.

(3) **Gross Breaches.** Major Administrative Action.

d. These sanction ranges may be departed from in light of any aggravating or mitigating factors. For the most serious security breaches, major administrative action includes discharge. Commanding Officers, line managers and those advising them should be cognisant of both an individual's intent in the commission of a security breach and of the impact of that breach. Examples of behaviour likely to attract particular sanctions are outlined at Annex 20Q.

5. Aggravating and Mitigating Factors

It has been recognised by Navy Command Headquarters that there is a need for a robust system of sanction to counter security breaches while ensuring that rewards exist to influence behaviour. There must be a firm response to such breaches, but it would be undesirable to create a draconian security culture in which fear of sanction motivates concealment of security failings. To that end, the factors set out below must be taken into account in determining what administrative action may be appropriate. The lists are not exhaustive and other considerations may be relevant in a particular case:

a. **Aggravating Factors.**

(1) Blatant disregard for security procedures.

(2) Repeated misconduct.

(3) Breach(es) over a prolonged period of time.

(4) Attempt(s) to disguise or hide conduct.

(5) Failure to heed prior warnings.

(6) Rank/seniority of individual.

(7) Abuse of trust.

(8) Breach relates to cryptographic material, ammunition or explosives.

b. **Mitigating Factors.**

(1) Youth or immaturity of individual.

(2) First security-related transgression.

(3) Isolated incident.

(4) Early and voluntary admission of conduct.

(5) Poor training or lack of appropriate supervision.

6. Reporting Security Breaches to First Reporting Officer

The First Reporting Officer (1RO) of the individual concerned must be made aware of a security breach which is assessed to be ‘serious’ or ‘gross’. 1ROs must consider whether or not to comment on such a breach in the compilation of the individual’s next appraisal report.

7. After Action

After action will includes the reporting of security breaches, mandatory vetting and Aftercare Incident Reports in accordance with extant regulations.

8. Reporting of Sanctions Imposed

Any administrative sanction imposed following a ‘serious’ or ‘gross’ security breach is to be reported directly to PSyA by completing Annex 20R and sending it to the NAVY-WARP MULTIUSER mailbox within 5 working days of the imposition of the sanction.

ANNEX 20Q

EXAMPLES OF SECURITY BREACHES: SANCTIONS

Examples	Normal Sanction Starting Point
Inadvertent introduction of Personal Electronic Devices into SECRET or TOP SECRET working areas.	Formal Interview
Unauthorised transmission of OFFICIAL-SENSITIVE material over the Internet.	Formal Interview
Deliberate contravention of security orders, including: Connection of unauthorised ICT to any system.	Major Administrative Action
Use of Personal Electronic Devices in SECRET or TOP SECRET working areas.	Major Administrative Action
Unauthorised publication of OFFICIAL documents on social media, including photographic reproduction of official documents and official passes.	Major Administrative Action
Deliberately engineering through hardware or software or physical alteration to the system, the circumvention of any hardware or software security implementation on a MOD ICT network or system.	Major Administrative Action
Facilitating unauthorised access of personnel to a MOD establishment.	Major Administrative Action
For Officers:	
Negligence in accounting for cryptographic material, Charge Books, or ammunition with no attempt to conceal behaviour.	Censure: Displeasure
Negligence in accounting for cryptographic material, Charge Books, or ammunition coupled with attempts to conceal behaviour.	Censure: Severe Displeasure
Storing SECRET information on a personal laptop.	Censure: Severe Displeasure
Storing TOP SECRET information on a personal laptop.	Censure: Admiralty Board Severe Displeasure

CHAPTER 21

DIVISIONAL POLICY AND PROCESSES

SECTION 1 - GENERAL

2101. Aim

'The primary role of all in authority (i.e. Leading Hands/Corporals and above) is to offer leadership. The Divisional and Regimental System enables us to achieve that aim.'

2102. History

a. The Divisional and Regimental System can be traced back to 1755, when Vice-Admiral Thomas Smith issued orders to his Captains to organise their ships' companies into divisions, commanded by junior officers, with the aim of improving discipline, the running of the Fleet and well-being of sailors.

In 1779, Admiral Richard Kempenfelt wrote a famous letter in which he said:

> *"The only way to keep large bodies of men in order is by dividing and subdividing them with officers over each to inspect and regulate their conduct, to discipline and form them. Let the ship's crew be divided into as many companies as there are Lieutenants, except the First Lieutenant, whose care should extend over the whole. The companies to be sub-divided and put under the charge of mates and midshipmen, and besides this, every 25 men to have a foreman to assist in the care of the men, as a sergeant or corporal in the Army".*

b. The general introduction of the system brought immediate advantages to the Navy. Treatment of sailors became more humane, their efficiency improved, and the level of disease fell. The Divisional/Regimental System has remained in place ever since, proving itself to be sufficiently robust to deliver the need for leadership and welfare, whilst also flexible enough to adapt to changes in warship design, the art of warfare, and technology.

SECTION 2 - RESPONSIBILITIES AND ORGANISATION

2103. Commanding Officer

The responsibilities of the Commanding Officer (and other members of the Divisional Team) are articulated in BRd 2 as follows: the CO is to organise the ship's company, exclusive of the Royal Marines, into divisions, and is to appoint an officer in charge of each division. The CO is to be the DO to the Executive Officer, Heads of Department and any other specifically named officers where appropriate. All other officers should have a nominated officer as their DO as delegated by the CO.

2104. Commanding Officers of Training Establishments

Commanding Officers of Training Establishments are to ensure that Phase 1 and 2 trainees have absolute and guaranteed confidential access through the Divisional and Regimental System to a Commissioned Officer in order to discuss issues concerning their well-being or welfare. Administrative and training issues should be represented through the normal chain of command. The existence of this route for confidential advice is to be made known to the trainees on joining the establishment.

2105. Executive Officer/2IC

The XO is to supervise the organisation and administration of the ship/unit's Divisional and Regimental System and to act as the focal point for the dissemination of policy matters. The XO is supported, in this role, by the Executive Warrant Officer (EWO), Coxswain, RSM or equivalent. In this respect, the XO's responsibilities are as follows:

a. Act as the overarching Divisional or Regimental champion within the unit.

b. Produce the formal agenda for Divisional Meetings, which are to take place three times per year (normally termly). The termly meetings should include the DO&TC Briefing Notes on The Helm as these underpin the generic Divisional policy updates from Navy Command HQ.

c. Produce feedback on completion of each round of Divisional Meetings highlighting any issues requiring Navy Command input to the NCHQ Exec team via the Divisional Reporting Tool (see 2118.h.).

2106. Divisional Officer/Troop Commander

The DO's/Tp Cdr's primary task is to command, lead and manage their people. In doing so, they will supervise and prioritise the work of their DSR/SNCOs. Although acting as first reporting officers (1RO) for the more senior members of their division and being 2RO for the remainder, DO/Tp Cdrs must avoid becoming embroiled in process at the lower levels. Although accountable to HODs in the first instance, DOs/Tp Cdrs are subject to the functional authority of the XO/2IC for matters of discipline (see Chapter 20) and Welfare (see Chapter 24). A comprehensive list of a DO/Tp Cdr's tasks is contained in Section 3 of this Chapter; specific responsibilities are as follows:

a. Becoming familiar with the needs, goals and capabilities (both professional and personal) of each member of their division/troop as soon as possible, ensuring that they are aware of their duties and responsibilities as well as opportunities available to them.

b. Supervising and developing their DSR/SNCOs and LH/Cpls to ensure that the whole divisional and regimental structure is providing all necessary support at the appropriate level and at the right time.

c. The personal and professional aspects of the lives of the members of their division/troop, including induction, training and education, welfare, career development, advancement and maintenance of ethos, standards and core values.

d. Making members of their division/troop aware of the Personnel Functional Standards (PFS) and Guidelines (see Chapter 22) that apply to them and draw to the attention of their HOD any shortfalls in PFS delivery.

e. Providing impartial and non-judgmental support if the individual is involved in a disciplinary offence or when the individual suffers a grievance and needs to make a Service Complaint; the DO must ensure that the rating/marine is fully aware of all their rights and has access to appropriate publications and legal advice.

2107. Divisional Senior Rate/Senior NCO

The Divisional Senior Rate/Troop SNCO has, among others, the following specific responsibilities:

a. DSR/SNCOs play a very important part in the Divisional and Regimental System, primarily as the vital first ‘link’ in the chain that allows contact between the most junior sailor/marine and the CO. It is expected that all senior ratings, SNCOs and NCOs will be involved in divisional and regimental management and day-to-day running of the division/troop.

b. The DSR/SNCO will be responsible for running the divisional/troop diary/bring-up system, briefing the DO/Tp Cdr in good time for any forthcoming requests or interviews that require preparation or action[1].

c. The DSR/SNCO will be responsible for meeting new members of the division/troop on joining, and guiding them through the initial joining and induction processes.

d. DSRs should be alert to unit memoranda (CTMs/XTMs etc.) concerning personnel matters which may require action by members of the division/troop.

e. It is not appropriate to provide a list, comprehensive or otherwise, of the duties that may be required of a DSR/SNCO as these will almost certainly be different for each division. In short, the DSR/SNCO is required to keep himself/herself aware of the general state of morale within the division and is to deal initially with all requests from division members, including those where an individual wishes to see the CO on a private matter. DSR/SNCOs will personally lead the induction process for JRs and, through their detailed knowledge, will perform the role of first reporting officer for JRs. They are strongly encouraged to act as ‘gatekeeper’ and as an ‘early warning system’ for the DO/Tp Cdr.

[1] Care must be taken to ensure that the Data Protection Act is applied i.e. that personal details are not divulged inadvertently.

f. In performing this function for ABs, DSR/SNCOs must draw on the knowledge of LH/Cpls. DSR/SNCOs will perform career management and welfare support work under the supervision of the DO and HOD. Overall, DSR/SNCOs have a pivotal role in communicating information down and equally importantly, up the Command chain, and are expected to put a human face on the traditional aspects of the Divisional and Regimental System.

2108. Leading Hands/Corporals

LH/Cpls have an important leadership function as they have the closest knowledge of the ABs/Marines in their messdeck and working environment. Divisional Leading Hands/Corporals have, among others, the following specific responsibilities:

a. Div LH/Cpls must have a formal role in contributing to the reporting process

b. Div LH/Cpls are to be responsible as ‘sea parents’, or to allocate an experienced AB/Mne or LH/Cpl from within the same division/troop or mess to be a ‘sea parent’, for more junior new joiners. This is especially important if the new joiner is arriving in their first complement billet after initial training (some individuals may benefit from this support beyond the initial induction period).

c. It is vital that they play a full part in the communication chain, which is at the heart of a good Divisional and Regimental System. Equally importantly, they must keep their DSR/SNCO informed about the changing support needs of the division. They will often be the first to identify emerging issues for their subordinates, especially impending welfare issues which may burden the individual.

2109. Professional Divisional Officers

The concept of the Professional Divisional Officer (PDO) has been developed in major shore [training] establishments. PDOs are defined as those officers, WOs, CPOs and SNCOs who are employed primarily as DOs to larger than normal numbers of newly entered Able Ratings (ABs) while they undergo Phase 1 or Phase 2 training, or within a Personnel Support Group, Career Management Cell or Hasler Royal Navy Recovery Centre. CTCRM incorporates Troop Commanders within the Phase 1 and 2 training construct. PDOs are borne on the unit’s Establishment List specifically for this task and normally spend over 90% of their time at work on such duties. In this context a PDO should be able to manage up to 60 ratings throughout the early part of their training. ABs will normally be allocated to a new division on arrival in each new training establishment, and at every stage of their training. For those undertaking split training courses, it is imperative that the correct divisional care is provided, and local arrangements must be made to ensure that all trainees know who their DO/DSR/SNCO is and how to contact them.

2110. Transit Divisional Officers

Officers and ratings are frequently landed or assigned away from ships or shore units for leave, harmony, professional development courses or on medical or disciplinary grounds. Such personnel will be managed ashore by the Personnel Support Group (PSG - which encompasses the Geographic Squad Pool (GSP) and the Margins MA4/5/6(A)/7(A, B, C, D or E). If an officer or rating is landed to a PSG, they remain assigned to their parent unit and that unit retains full divisional responsibility; the PSG TDO will administer local divisional advice and guidance. It is paramount the parent unit informs the PSG of the landed person if they require PSG involvement or assistance. If an officer or rating is assigned to a PSG, COs are to ensure that a full handover is conducted between the sending unit's DO and the PSG receiving the individual. For officers of the rank Lt Cdr and above assigned to MA5 and MA6 only, divisional responsibility will defer to that individual's Career Manager unless otherwise agreed. All other officers assigned to a PSG are the divisional responsibility of the OC of that PSG. Within a PSG, the recommended divisional ratio is 1:40, and 1:20 for higher dependency divisions. At no stage must an individual have any doubt as to where their divisional care resides. It is re-emphasised that, in all cases where an individual is not formally assigned to the PSG, the ship or unit retains full divisional responsibility and the ship's DO and DSR should remain fully engaged and in contact with the rating on a weekly basis.

2111. Civilians with Divisional Responsibilities

The Divisional and Regimental System depends on the principle that there should be a clear and obvious link between CO and the most junior individual. The joint responsibilities and activities of XOs, the DOs, DSR/SNCOs and LH/Cpls provide that chain. The Divisional and Regimental System should be totally integrated into the departmental structure, and so far as practicable into the operational line management. The organisational structure below is based on the system at sea and should be adapted to circumstances ashore or other fighting arm elements as appropriate. In general, all officers and most senior ratings/SNCOs should have roles within the system; exceptions should be made only for those with very heavy workloads or with broader remits to the whole unit, such as EWOs, RSMs and Departmental Co-ordinators**. PO/Sgts are not to be employed as Divisional Officers - there is no exception to this**. Detailed guidance is as follows:

a. The Divisional and Regimental System employed within each ship or unit is the responsibility of the CO.

b. Every effort should be made to prevent any member of the management chain having direct responsibility for more than 15 subordinates and the range seven to 12 is optimal. To achieve this at sea, most PO/Sgts and some CPO/CSgts will need to be employed as DSR/SNCOs.

c. It is entirely proper for the Command to nominate experienced DOs (probably Lt Cdr/senior Lt) to supervise junior or inexperienced DOs. These 'Supervising DOs' should still have divisions in their own right but can also exercise oversight of up to three 'junior' divisions. Care should be taken that such Supervising DOs are not overburdened with 2RO reporting responsibilities in these circumstances.

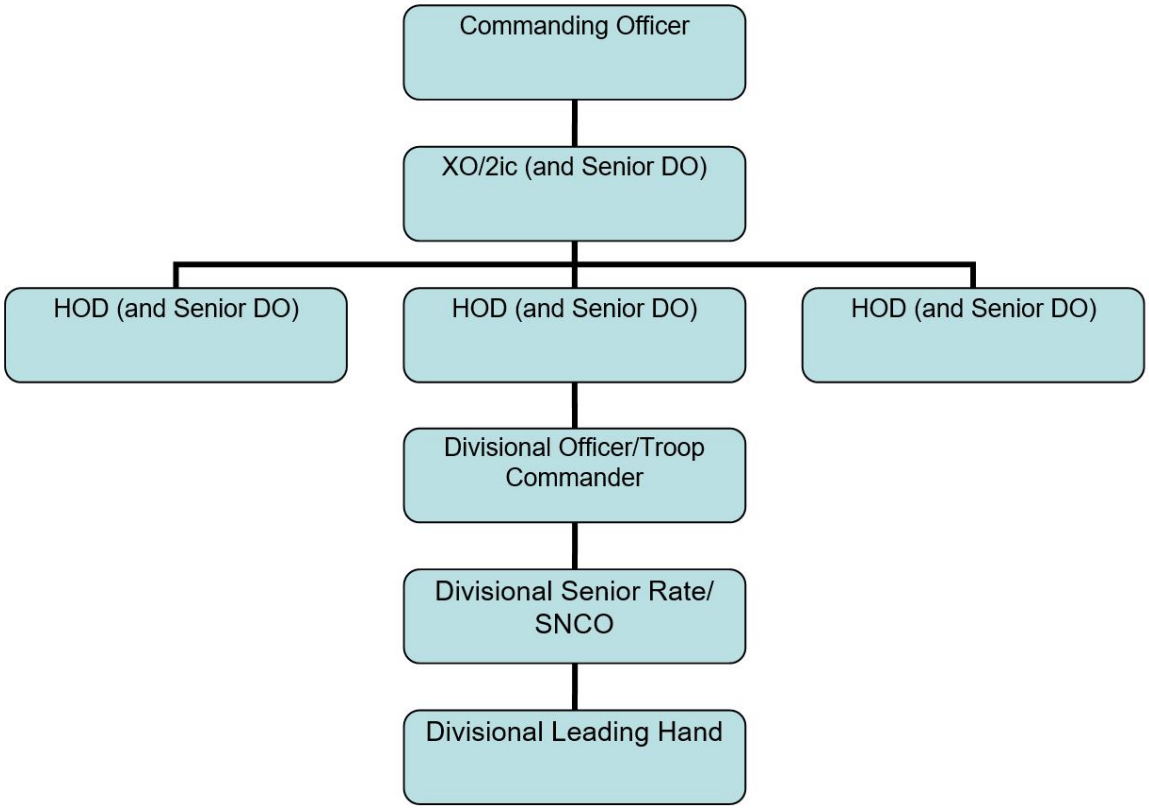
d. Ratings/ORs who have DOs of WOs or CPO rank must always be provided with access to a commissioned officer (e.g. their Supervising DO, HOD or DHOD) should they require it. This does not call into question the ability of Senior Ratings to carry out the full duties of a DO but is a 'safety net' to ensure personnel allocated to Senior Rating DOs do not feel disadvantaged. This does not affect the Service custom whereby any rating may request, through their DO, to see the CO on a private matter (BRd 2 4201.3.b).

e. On joining a ship/unit, each rating/OR is to be allocated to a division. Individuals do not have the right to question this allocation, nor may they request to change divisions.

f. On arrival in each new training establishment, ratings/ORs will be allocated a new division, and so on at each stage of their training. For those undertaking split training courses, it is imperative that divisional care is provided and local arrangements must be made to ensure that all trainees know their DO/Tp Cdr/DSR/SNCO and how to contact them.

g. WOs, CPOs and SNCOs who are DOs are to be provided with divisional/troop Officers to provide for their own professional and welfare needs.

Figure 21-1. Typical Ship/Establishment/Regimental Divisional Organisation



SECTION 3 - DUTIES OF A DIVISIONAL OFFICER/TROOP COMMANDER

2112. Introduction

A DO's duties are many and varied and, while guidance on their principal duties is covered in this section, direction on specific policy matters may be found elsewhere in this BR. The incoming DO/Tp Cdr initially has the vital task of getting to know their division/troop, obtaining their trust and respect as someone who can be turned to with confidence for advice, assistance or help in times of difficulty.

2113. Duties on Taking On/Handing Over a Division/Troop

On assuming responsibility for a division there will be much information to discuss between outgoing and incoming DO. As a minimum, the following tasks are to be completed as part of the handover, before the outgoing DO/Tp Cdr departs:

a. Conduct a discussion on each member of the division, their objectives, welfare needs and the status of their appraisal report.

b. Carry out a check on the 'bring-up' method in use and note taken of any imminent/outstanding requests.

2114. Annual Mandatory Personal Information Check and Divisional Officer/Troop Commander's Dashboards

a. SCIO is an application within JPA that allows users to view and interrogate JPA information. It also collates all the information held in various areas within JPA into a useful one-page summary. When used correctly, it will save the DO/Tp Cdr a huge amount of time and effort in staff work. It is each individual's responsibility to carry out a Personal Information Check Dashboard at least annually. UPO/unit HR staffs will carry out periodic reviews to provide assurance that data held by JPA is accurate and that Personal Information Checks are being carried out. A detailed guide of how to carry out a Personal Information Check is at Annex 21A.

b. The DO/Tp Cdr dashboard within SCIO builds upon the Personal Information Check Dashboard and enables DOs, Tp Cdrs and the Chain of Command to access data on their people in a number of different views. Importantly, it highlights when individuals have out of date/incorrect information in JPA as well as automatically displaying bring-up actions or other information on other displays. It is therefore imperative that personal information held on JPA is accurate, in order to inform vital processes such as NOK Casualty Reporting, Souls on Board accounting and career assigning. Information changes constantly and these checks apply to all members of the Service irrespective of rank/rate. The dashboard is simple and intuitive to use and is accessible through the front page of JPA. In addition, inspecting authorities will subject divisional work to scrutiny as part of the work-up process by Holding to Account (H2A) individual DOs/Tp Cdrs whose divisional work is untimely, or lacks the necessary quality or rigour. A detailed guide of how to conduct the DO/Tp Cdr's Dashboard is at Annex 21B .

2115. Appraisal Reporting

a. Appraisal is one of the most important functions of **Leadership,** providing the chain of command with a dynamic mechanism for engaging fully in the development of its people, thereby enhancing morale and operational effectiveness. To this end all Service Personnel at all ranks are to receive honest feedback on their performance against agreed roles, responsibilities and objectives. Additionally, appraisal affords individuals with the opportunity to influence positively their own career path, whilst enabling Reporting Officers (ROs) to support the management of this career through commenting on potential in terms of both promotion and future employment.

b. The fair, timely, responsive and accountable career management of military personnel is a critical aspect of retaining their trust. It also ensures their careers are properly progressed, a key part of the offer. The delivery of appraisals is at the heart of this process; to ensure they deliver what is required, they must be actioned within clearly defined direction. JSP 757 is the authoritative policy and guidance for military appraisals.

c. There are generally two occasions when DOs/Tp Cdrs need to make formal appraisals of the members of their division/troop, the Annual Report (AR) and the Mid Period Appraisal Review. Further details on these are at Annex 21C.

2116. Joining Letters

Joining Letters are normally the first contact the prospective member of the division/troop receives from their new ship or unit, and therefore have great impact. Even in the digital age of electronic communication, the Joining Letter sets the tone to the new joiner, delivers vital information, and provides the first opportunity to welcome and absorb them into their new operational setting. Even if subsequent contact is by email, text or mobile phone, a Joining Letter should always be sent. Detailed guidance, together with a template for a Joining Letter, is at Annex 21D.

2117. Joining Routine and Interview

New members of the division/troop should be met on joining by the DSR/SNCO (at least), who should ensure that the individual is guided and supported through the initial joining and induction processes (see also Paras 2107 and 2108, DSR and LH responsibilities). The new joiner should be interviewed by the DO/Tp Cdr as soon as practicable after joining. The interview should be conducted in the DO’s cabin (or other similarly private area), be programmed for at least 30 minutes (possibly up to an hour) and be free from interruption. A check-off list and further guidance on the joining interview is at Annex 21E.

2118. Divisional/Troop Meetings and Briefings

Divisional Meetings are to be held at least three times each year; the XO is responsible for producing formal agendas. The following describes the process step by step:

a. The XO, following consultation with the CO and HODs, issues an XTM containing a skeleton agenda, brief on whole ship items and dates by which meetings should be held.

b. In addition to the skeleton agenda, the DO/TC Briefing Notes supported by the latest 60 Second Update video (when applicable), gives personnel ‘hot topics’ and key points that are to be discussed at divisional/troop meetings. DO/TC Briefing Notes are held at The Helm and are updated throughout the year. This gives units the opportunity to plan divisional/troop meetings at their convenience.

c. In addition to the DO/TC Briefing Notes, the agenda for divisional/troop meetings must include updates on RN policy on alcohol/drug misuse (Para 2137-2140) and RN D&I policy (Chapter 30).

d. HODs brief departmental DOs as required, adding any departmental specific items to the agenda.

e. DOs add any divisional/troop specific items and ask DSR/SNCO to obtain bids and questions from divisional members (always retaining an ‘any other business’ item).

f. Agenda promulgated in good time to the division/troop.

g. Meeting takes place, chaired by DO/Tp Cdr, assisted by DSR/SNCO and LH/Cpl.

h. Feedback from divisional/troop meetings is to be captured using the Divisional & Regimental Reporting tool (D&RRT) on SCIO. This will allow HODs and Unit Exec the opportunity to respond and provide feedback for unit related issues or escalate the issue to NCHQ for further investigation or guidance.

i. Once feedback has been captured on D&RRT, unit Exec teams are to brief the CO regarding issues raised from divisional/troop meetings.

j. Divisional and Troop meetings need not be confined to the termly events described above. A DO/Tp Cdr may wish to have a weekly get together over coffee, a monthly discussion, or take them to play sport at regular intervals. There is no mandated policy: it is strongly recommended, however, that DOs/Tp Cdrs gather their people at the mid-point between termly meetings to discuss issues at departmental, unit or Service level; the aim being to build esprit de corps and hence operational effectiveness.

2119. Leaving and Exit Interviews

Shortly before departure from the division/troop in normal course (unless an annual Appraisal Report has taken place in the recent past), the leaving member of the division is to be interviewed by the DO/Tp Cdr. Amongst other things, the leaving interview provides the follow opportunities:

a. To investigate how well the Divisional/Regimental System has met the needs of the individual during their time in the ship/unit.

b. To remind the individual of all they, and the unit, have achieved during their time onboard/in the unit and to thank the individual for their contribution.

c. To establish if the individual has received a Joining Letter from their forthcoming ship/unit and the identity of their new DO/Tp Cdr. If such information is not available, the DO is to establish the receiving DO's name and inform the leaving individual.

d. To inform the individual of any information or matters of concern that are to be forwarded to the new DO/Tp Cdr.

e. To inform the individual that, should they have a period of leave before joining their next unit, their current division (and ship/unit) should be called upon for assistance if required[2].

f. In addition to the routine leaving interview, DOs/Tp Cdrs are to ensure that personnel leaving the service (through Voluntary Outflow) are given an appropriate 'Exit' interview. All COs/LMs are to conduct an Exit Interview as soon as possible following the submission of an individual's notice to leave. Guidance on the conduct of Exit Interviews is currently being re-written (expected to be complete mid 2023). In the interim, reference should be made to RNTM 01-078/18.

2120. Discipline

The DO/Tp Cdr's role in the discipline process is explained at Chapter 20 Section 5.

[2] Mindful that Data Protection Act regulations require any relevant paperwork to be passed to the next unit e.g. Certificates or competences.

SECTION 4 - DIVISIONAL GUIDANCE AND ADVICE

2121. Counselling and Welfare Matters

The following guidance is provided on matters of counselling and welfare:

a. One of the DO's tasks is to provide help and advice on personal matters. The DO/Tp Cdr and DSR/SNCO are the first line of 'Welfare Care' to individuals and as such are an integral part of RNRM welfare provision. DO/Tp Cdrs bear primary responsibility for members of their division/troop; whilst the EWO, Chaplain and Medical Officer (or other equivalents) may provide support to the DO/Tp Cdr (but do not replace them).

b. **Individuals must feel confident they can approach their DO/Tp Cdr for an interview whenever the need arises; it is the DO/Tp Cdr's duty to create an atmosphere of approachability and an awareness that 'welfare issues' carry no stigma**. Occasionally, operational circumstances may require that the interview be deferred or it may be prudent not to conduct an interview at the time (e.g. if the individual is in an emotionally excited state, or has been drinking), nonetheless the interview should take place as soon as possible.

c. Inexperienced or young DO/Tp Cdrs may feel reticent about discussing problems, particularly with older ratings, in areas where they have no personal experience, e.g. marriage. DOs/Tp Cdrs should bear in mind, however, that often the individual's prime need is simply to discuss the matter: just by listening, (perhaps with the occasional question for clarification) the DO/Tp Cdr goes part of the way to setting the individual's mind at rest.

d. What may seem a small matter to the DO/Tp Cdr may be of great importance to the individual. It may be that all the individual requires is informed, factual information. Here, if the DO/Tp Cdr does not have the information to hand they should investigate and consult as necessary to obtain the facts or refer the individual to a subject matter expert.

e. Some of the most difficult problems are those of a moral or religious nature that require practical advice or assistance (such as relationship breakdown or bereavement matters). Sometimes the actual or imagined seriousness of a family or personal problem is causing mental or emotional stress to the detriment of the individual's professional performance, and may cause disciplinary or administrative problems. If the DO/Tp Cdr feels that their inexperience deprives them of the ability to give practical advice, there may be benefit in arranging an interview with their HOD or the XO, whilst the DO/Tp Cdr remains responsible for oversight of the problem and individual.

f. A member of the division/troop with a personal problem may disclose it to a Chaplain or Medical Officer whilst feeling unable to discuss it with their DO/Tp Cdr. This may be for reasons of embarrassment or fear of being perceived as a burden that tarnishes their career prospects. The Chaplain/MO can translate the situation to the DO/Tp Cdr without necessarily divulging intimate or confidential details, and trust between the DO and Chaplain/MO can develop into a strong working relationship.

g. If a welfare investigation is required, the individual's consent is to be sought and it is expected that they will inform their family. Full details of welfare matters can be found at Chapter 24.

2122. Walking the Patch

The DO/Tp Cdr's primary role is to know and lead their people; this cannot be done from behind a desk or computer. It can only be done by meeting people 'face to face' (humans naturally respond to eye contact and body language) and this is where the inexperienced DO/Tp Cdr builds trust. Meeting members of the division/troop on their territory will make them much more willing to engage and enable DO/Tp Cdrs to learn about their people, their background, family, religion, sport etc. Sailors and marines enjoy 'chat' and welcome genuine interest (which cannot be conveyed by email). A walkabout does not need to cover the entire division/unit or everyone in it, or be conducted at a set time or frequency. The value of a brief chat, however, should not be underestimated; even a brief five minutes of a DO/Tp Cdr's time can make a huge difference to the individuals met. This applies equally to the DSR/SNCO and improves cohesion, morale and effectiveness. Perhaps the single biggest failure of a DO/Tp Cdr is when one's division/troop perceives that they do not know their DO or that they 'never see them'. Walking the patch also gives DO/Tp Cdrs the opportunity to assess their people (their professional standards, attitude, dress, hopes and fears). For individuals, engagement is key to making them feel valued by the organisation. Advice on walking the patch, in the form of a set of 'dos' and 'don'ts', is offered at Annex 21G.

2123. Time Allocated to Divisional/Troop Work

The amount of time allocated to divisional/troop work will depend on operational circumstances and cannot be pre-set or measured in terms of hours per day, week or month. On the basis that leadership, including divisional/troop work, is the prime responsibility of everyone at LH/Cpl and above, DO/Tp Cdrs are to allocate *'as much time as is necessary'* to divisional/troop duties, which are to be given at least equal status to their primary professional role. Time management is an extremely difficult art to perfect. It is routinely 'easy' to continuously prioritise departmental work over divisional duties, however this **must** be monitored and balanced accordingly. COs and HODs are to ensure that officers and senior ratings afford sufficient priority to divisional/troop work and that they are not overwhelmed with secondary duties to the detriment of their responsibility for people. Although it is strongly encouraged for XOs to programme divisional periods into the working day when possible, DOs/Tp Cdrs are to be aware that divisional and regimental duties and responsibilities are a 24/7 responsibility.

2124. Communication

Good communication, both up and down the chain of command, is the lifeblood of the Divisional and Regimental System and it is imperative that DO/Tp Cdrs establish good and regular communications with their division/troop members. Communication starts when the Assignment Order is received (i.e. before they arrive) and continues until either the DO/Tp Cdr or individual is assigned elsewhere. Similarly, DO/Tp Cdrs must regularly brief their HODs/line managers, the XO/Adjutant and, on occasion, the Commanding Officer, acknowledging that this may require moral courage when the message is of an unwelcome or contentious nature. Briefing upwards will build Command confidence in the DO/Tp Cdr and provide assurance that the unit Divisional/Regimental System is working.

2125. Dissemination of Information

In Fleet units, the Executive Officer/2IC, together with the Executive Warrant Officer/RSM, Coxswain or equivalent, is the focal point for the dissemination of information in support of the Divisional and Regimental System and associated issues. From Navy Command, Dir P&T will 'push' relevant policy and procedural information to these points of contact either directly or via Executive teams. Divisional coordinators and EWOs are responsible for pulling information from the DO & TC Briefing Notes held on the Helm. Such information should be disseminated either by routine orders, temporary memoranda, or divisional/troop meetings as appropriate. Feedback on divisional and regimental issues should be forwarded via the Divisional Reporting Tool (see 2118.h.).

2126. Oversight of Initial Trainees

Commissioned Officers are to be given responsibility for the welfare of initial trainees. DOs/Tp Cdrs for initial trainees are to conduct internal quality assurance audits of training undertaken (notwithstanding the requirements of the Defence Centre for Training Support (DCTS)) to ensure that best practice is maintained and that initial trainees are not placed at risk or subject to bullying or harassment at this early stage of their Service careers.

SECTION 5 - REQUESTS

2127. Requests

DOs/Tp Cdr's responsibilities concerning requests can range from simple requirements, which can be authorised by the divisional and regimental chain, to more complex tasks which must be approved or seen by the CO. The scope of requests can be quite wide but some of the common subjects/occasions are as follows:

a. Award of GCB.

b. Imposition of Naval Penalties.

c. Confirmation of promotion.

d. Request to become an Upper Yardman/Senior Upper Yardman candidate.

e. Request to see the CO.

2128. Timeliness

The requirement to ensure timely submission of requests applies in all cases. It is essential that the DO/Tp Cdr or DSR maintains a BU Diary to ensure that necessary action is taken in a timely manner. OBIEE provides an electronic BU Diary, although a local paper copy may be the preferred method for many DOs. Extraction of key data and future dates forms part of the Joining Interview which is then updated by the Annual JPA Check using the OBIEE dashboard.

2129. Actions

If the DO/Tp Cdr can deal with a request, the Request Form/JPA Workflow should be returned to the individual with the decision recorded. If the request requires approval at a higher level, the individual should be informed what action is to be taken and when that might be expected. Whilst some requests may be dealt with 'papers only' by appropriately authorised personnel, due regard should be paid to ensure that an appropriate level of prestige and recognition, for example in the award of a Good Conduct Badge, is given to significant stages of an individual's career, which should merit formal or informal presentation by the CO.

SECTION 6 - TRAINING, EDUCATION AND PHYSICAL DEVELOPMENT

2130. Training of Divisional Officers/Troop Commanders

The following regulations apply to the training of personnel involved in divisional/troop management.

a. DOs/Tp Cdrs and DSRs/SNCOs must have completed the Divisional Officers' Course (DOC) at the Royal Naval Leadership Academy (RNLA) East, Divisional Training Unit (DTU), HMS COLLINGWOOD (or CTCRM Lympstone for RM) not more than six months prior to, and certainly not after, assuming responsibility for their first Division. DOs/Tp Cdrs and DSR/SNCOs are then to keep themselves up-to-date by accessing the DO & TC Briefing Notes held on the Helm , and other publications (e.g. 60 Second Update videos, DINs, RNTMs and Galaxy Briefs).

b. The Divisional Officer[3] Toolkit (DO Toolkit) was created to provide up-to-date information to DOs across a broad spectrum of areas a DO may be reasonable expected to deal with. The toolkit is updated frequently with up-to-date policy changes and information that are designed to help the DO in quickly finding the most recent guidance and policy information.

c. Continuation of DO/Tp Cdr training is a natural part of RN CLM. There is no formal training package to be completed post completion of DOC and DOs are to keep themselves abreast of changes via the DO Toolkit. In the unlikely event that a CPO, WO or Commissioned Officer does not lead and manage a division for over 5 years, there may be a requirement for that individual to retake DOC. This should be discussed by the responsible unit and the Training Delivery Unit (HMS COLLINGWOOD or CTCRM..

d. WOs, CPOs, SNCOs, and MOD civil servants and members of the Army or RAF who are given responsibility for a division or troop of RN/RM personnel must have completed the Divisional Officers Course (DOC) (RM equivalent is embedded in professional career courses) before assuming that duty. This is a Cat 'A' Personnel Functional Standard (PFS): failure to provide a trained DO/Tp Cdr must be reported to Navy Command Headquarters. If a DO/Tp Cdr is non-commissioned, each member of the Division/Troop must have a formally notified means of access to a nominated commissioned officer.

e. Upon successful completion of the DOC, WOs, CPOs and SNCOs may act as full DOs. WOs may act as DOs/Tp Cdrs for CPOs/CSgts and CPOs/CSgts may act as DOs for POs/Sgts.

f. COs are to take a personal interest in the training and development of their DOs/Tp Cdrs, Senior Rates/SNCOs and Leading Hands/Cpls. Heads of Department are responsible for ensuring that members of their department receive advice and guidance in performance appraisal and reporting.

g. Details of Divisional and Command, Leadership and Management (CLM) training are at Section 10.

[3]https://modgovuk.sharepoint.com/sites/IntranetNavy/Documents/Forms/Sports.aspx?id=%2Fsites%2FIntranetNavy%2FDocuments%2FRNLA%2DDivisional%2DOfficers%2DToolkit%2Epdf&parent=%2Fsites%2FIntranetNavy%2FDocuments

h. Eligibility for DOC is a minimum of Selected CPOs, WOs and all Commissioned Officers post Phase 2 training prior to compliment assignments. All bookings for DOC are managed and allocated through respective Career Managers.

2131. Individual Training

The subject of training, education and development of individuals is one of the main tenets of the Divisional and Regimental System and must be given appropriate priority by DOs. The 'Teach, Coach, Mentor' culture is already firmly embedded within the RM and is gaining growing recognition in the broader RN. Various branches and 'groupings' have mentor networks established. Details of personal training and development may be found at Chapters 95 and 96.

2132. Physical Development and Well-being

DOs/Tp Cdrs are to actively encourage participation in sport and organised recreation among division members. Personnel Functional Standards (PFS) set out standards and guidelines for many aspects of Service personnel issues (see Chapter 22). DOs/Tp Cdrs are to ensure that their division/troop are aware of the PFS and of the Cat 'A' entitlements and Cat 'B' aspirations. COs, XO, HODs and DOs should all actively promote and encourage a positive environment for physical health and well-being. It is accepted that often the pace of day-to-day operations can lead to insufficient time being afforded to promoting a NavyFit culture. Ultimately, the ability of a unit to prioritise physical development and/or sport periods into the working day/week will only routinely occur if it is Command led. This is strongly encouraged whenever possible.

2133. Royal Navy Physical Employability Standard (PES) (Previously RN Fitness Test)

Every member of the RN has a responsibility to maintain their physical fitness and to be fit in all respects for operations. The PES is the minimum baseline of requirement. It must be completed at intervals of not more than 12 months and an individual must be in date at their Common Promotion Date to be eligible for promotion. **It is the individual's responsibility to remain in date**, but DOs must pay a close interest and pay particular attention to those on remedial training or who have been temporarily medically downgraded. Refer to Chapter 29 for detailed guidance.

SECTION 7 - ETHOS, VALUES AND STANDARDS

Protecting our Nation's Interests. 24 Hours a day, seven days a week, at sea, on land and in the air, the Royal Navy is on duty around the globe.

2134. Ethos, Values and Standards

In the Royal Navy the 'The Team Works': this short phrase describes how our fighting spirit, 'can do' attitude, and high standards of professionalism, behaviour and self-discipline have enabled us (sailors and marines) to deliver operational success consistently down the centuries. We have a duty to sustain that tradition and ethos in order to continue 'Protecting our Nation's Interests'. Our Core Values and other components of Ethos, Values and Standards are detailed at Annex 21H.

SECTION 8 - PERSONAL CONDUCT

2135. Armed Forces Code of Social Conduct

a. The Code of Social Conduct explains the Armed Forces' policy on personal conduct, paying particular close attention to relationships involving Service personnel. It applies to all members of the Armed Forces regardless of their gender (including gender reassignment status), sexual orientation, race, religion, belief, ability, rank or status. The Armed Forces Code of Social Conduct policy and application of the Service Test is detailed in JSP 887; this article provides subordinate supplementary single Service guidance to COs and those involved in the management of personal relationships and social misbehaviour.

b. Unacceptable social conduct requires prompt and positive action to prevent damage to operational effectiveness, thus it is important that DO/Tp Cdrs are aware of what action should be considered. Further guidance for the management of personal relationships and social misbehaviour is contained in Annex 21I and associated Appendices.

2136. Substance Misuse

Alcohol and Substance Misuse and Testing policy for the Armed Forces is detailed in JSP 835. In certain areas, however, tri-Service policy requires single Service interpretation and clarification. Royal Navy guidance on this subject is therefore given at Annex 21J (see also QRRN 3625). In addition to the testing policy, the Alcohol and Substance Misuse Education and Management programme exists as the primary preventative measure to guard against future misuse. The main safeguard against the alcohol culture and drug misuse threat in the Service is a continual programme of education, and advocating core values, ethos and standards of behaviour and personal responsibility. Full details of the RN Alcohol Education policy and management of alcohol abuse strategy are at Annex 21J Appendix 1.

2137. Compulsory Drugs Testing (See also QRRN 3626 and JSP 835)

Detailed policy and guidance on Compulsory Drugs Testing may be found at Annex 21K.

2138. Involuntary Drug Use (Spiking)

a. The spiking of drinks is unlawful and must be reported to the civil police and Service Police as soon as reasonably practicable. There have been incidents of Service personnel suspecting that their drink has been spiked whilst they were ashore. This can be very worrying, given the penalties for drug related offences. Action to be taken in the event of suspected spiking is to be discussed as part of divisional/troop meetings and is covered at Annex 21K Appendix 1 (see also BRd 9600 Ship's General Orders - SGOs).

b. Guidance on the provision of out of hours supervision for Royal Navy personnel who may be at physical risk, e.g. due to substance abuse or misuse of legal, prescribed or illegal substances, acute distress, or are threatening to cause self-harm, may be found at Annex 21K Appendix 2.

2139. Stress

JSP 375 states the following: “Stress affects people in different ways at different times and is often the result of a combination of factors in their personal and working lives. Work related stress arises where the combination of pressure from workload, working practices, work relationships, etc. exceed the person’s capacity and capability to cope, resulting in adverse physical and/or mental reactions”[4]. Service in a deployable fighting force brings with it inevitable pressures, such as separation from family and friends, and periods of intense, sometimes dangerous, activity. Whilst these pressures do not inevitably cause stress and many personnel cope with extraordinary demands without suffering ill effects, anyone can begin to suffer from stress at any time. DOs/Tp Cdrs need to be aware of the possibility of stress as a cause of problems in both themselves and their division and should refer to the detailed guidance that may be found at Annex 21L.

2140. Deliberate Self Harm or Suicide

In comparison to the UK population, deliberate self-harm (DSH) and suicide are not common in the RN. Nonetheless, a basic understanding and knowledge of what to do if their suspicions are aroused is essential for all DOs/Tp Cdrs. Full information is given at Chapter 24 (Welfare) Para 2418 and Annex 24D which should be referred to for detailed guidance.

2141. Diversity and Inclusion

All personnel have the right to work in an environment free from harassment and bullying, and to be treated with fairness, dignity and respect. Any form of bullying, harassment or unlawful discrimination will not be tolerated in the Royal Navy as it undermines team cohesion and weakens operational effectiveness. Creating a culture and working environment which recognises diversity and inclusion (D&I) is the business of everyone in the Service. DOs/Tp Cdrs must be particularly aware of ensuring their people feel valued and included within the team. If issues do occur, DOs/Tp Cdrs must ensure that they are taken seriously and dealt with correctly. Complaints may well be one person’s word against another and will thereby become difficult issues to resolve. DOs/Tp Cdrs must take immediate action engaging with the unit Equality and Diversity Adviser (usually the EWO or equivalent). Guidance on what may be appropriate can be found in Chapter 23 (Service Complaints), Chapter 30 (D&I) and BRd 2 (QRRN) Chapter 42 Section 2. A strong Divisional/Regimental System and application of the Royal Navy Ethos (respect for others) ensures a diverse and inclusive workplace for all that will reduce the likelihood of issues or unfair treatment.

2142. Security

Security is the business of all Royal Navy personnel. All aspects of security are dealt with in JSP 440, the Defence Manual of Security, and specifics on Security Vetting policy can be found in Chapter 63. It is essential that security be brought to the attention of all serving personnel. This is to be done by regular security briefings, both by the Unit Security Officer (USO), and the DO/Tp Cdr. All personnel are required to attend a mandatory Annual Security Lecture as part of their Core Maritime/Military Skills (CMS) package. DOs/Tp Cdrs are to monitor their division/troop’s currency for this lecture as part of the Annual Mandatory Check of Personal Information held on JPA (OBIEE Dashboard).

[4] JSP 375 Management of Health and Safety in Defence Pt 2 Vol 1 (V1.0 Dec 14) Para 17.1.5.

2143. Wills

COs have a responsibility to ensure that personnel are both encouraged and provided with the opportunity to complete a Will. This responsibility may be devolved to DOs/Tp Cdrs to manage within their Divisions/Tps. The MOD is not authorised or competent to provide advice on Wills or Will making which, if required, should be sought from a solicitor or other specialist adviser. Detailed guidance on Wills can be found at Annex 21M.

2144. Social Media

The use of social media/social networking sites is widespread throughout society, including the Royal Navy. Whilst acknowledging the benefits, social media has nevertheless brought challenges for the military in terms of security, discipline and reputation. Detailed guidance for individuals on their use of social media, and for Command teams in dealing with the consequences (intended or otherwise) of communications on social media, can be found at Annex 21N.

2145. Fraud and Irregularity

Fraud costs the public sector £21 billion per annum. The law against fraud and irregularity is shaped by two key pieces of legislation, the Fraud Act 2006 and the Bribery Act 2010. Fraud and Irregularity have no place in the RN. DOs/Tp Cdrs are to ensure that their divisions are aware of the Service's zero tolerance to fraudulent activity and irregularity and are to ensure that the tri-Service Hotline and online reporting website are known about. Details on Fraud and Irregularity can be found at Annex 21O.

2146. Caldicott Principles

The Caldicott Principles are a list of seven principles subsumed into the NHS confidentiality code of practice. They are intended to protect the personal medical information of individuals and govern how such information can and cannot be used. This is relevant to DOs/Tp Cdrs and all others in the chain of command who may on occasion be exposed to an individual's personal medical circumstances, e.g. circumstances leading to medical downgrading. DOs/Tp Cdrs are under the same obligations as the medical profession to respect the confidential nature of this information and ensure it is handled correctly. Details of the Caldicott Principles pertinent to DOs/Tp Cdrs can be found at Annex 21P.

SECTION 9 - FINANCIAL AWARENESS

2147. Financial Awareness

While the majority of training establishments deliver financial briefings within Phase 1 and 2 courses, all personnel on the trained strength need to maintain continued financial education and support through-career. Two organisations are authorised to give these briefings: the Money and Pensions Advice Service and the White Ensign Association (WEA).

a. The Financial Services Act required the Financial Services Authority to establish the Money Advisory Service, since renamed the Money and Pensions Service (MaPS) in 2019. The MaPS' primary remit is to enhance the public's understanding and knowledge of financial matters and to improve their ability to manage their own financial affairs, and they have survived the dissolution of the FSA. It remains an independent body which provides and delivers financial briefings on request, as well as individual advice. In the course of surveying financial awareness education, it has become apparent that there are some Independent Financial Advisors (IFAs) offering their own financial briefings to RN units and establishments. CDP has directed that IFAs should not have access to recruits or trainees under the banner of financial briefings, but for all other personnel it is for the CO to decide whether to grant IFAs access to unit personnel in the workplace. It is arguable that some financial education is better than none, but not all providers come without a sales pitch. MaPS' services may be enlisted directly or through RN People and Family Support (RN FPS).

b. Not funded by government but of equal status with respect to financial briefings, the WEA promotes financial responsibility and awareness to members of the Royal Navy (ratings and officers), making free, confidential and impartial advice available to individuals as required. The WEA also delivers financial briefings on request, and is used by MaPS on occasion as a proxy to deliver their briefs to units. The WEA and MaPS are both independent and work very closely with all three Services.

c. To maintain awareness and education, or when operations and deployments preclude formal external briefings, self-help training packages are available from:

www.learndirect.co.uk, which provides courses for our people and their families;

Defence E-learning Centres www.delc.co.uk.

2148. Financial Counselling

Divisional Officers may need to conduct basic financial counselling for individuals in their Division. A proforma is at Annex 21Q should this be required. DOs/Tp Cdrs are not to give financial advice as such, but can and should signpost individuals to professional bodies. Listed below are some of the professional bodies and other websites which can offer assistance:

a. Money and Pensions Service (MaPS) – www.moneyandpensionsservice.org.uk

b. The White Ensign Association (WEA) – www.whiteensign.co.uk

c. A number of links are available at www.rncom.mod.uk

d. www.nff.org.uk.

2149. Maintenance of Spouses/Civil Partners and Children

a. Married service personnel in a civil partnership are to be encouraged to make adequate financial provision for the maintenance of spouses/partners and children. It should be fully explained to an individual who neglects to support the family adequately that MOD (Navy) has authority under the Naval Forces (Enforcement of Maintenance Liabilities) Act 1947 to make Compulsory Maintenance Deductions from an individual's pay whether or not a Court Order for maintenance has been obtained. Once a Court Order is obtained deductions from pay will be made in compliance with that order.

b. An individual on assignment to a seagoing ship (home or abroad) or to a shore station abroad involving family separation should be strongly encouraged and given every opportunity to split their net pay (JSP 754 Chap 2 Sect 2), whereby they can have a proportion of their pay sent to their spouse/registered partner or guardian's bank account/building society (if they do not hold a joint account). The DO/Tp Cdr must be satisfied that adequate arrangements exist for the proper support and maintenance of the family. If adequate arrangements have not been made, the DO will inform the CO, who, if they consider the circumstances warrant further action on their part, may interview the individual to encourage them to provide the necessary minimum maintenance.

c. DO/Tp Cdrs should warn individuals who decline to make proper arrangements to support their families that their Personal Status Category will have to be changed which, in turn, will render them liable for Food and Accommodation charges (where applicable), and may reduce or stop allowances they may have been eligible for as a married/registered person.

d. Any order for maintenance or Child Support Agency (CSA) requests for deductions from pay on a Maintenance Assessment (MA) will be enforced (JSP 754 Art 02.0605f refers).

2150. Maintenance of Spouses/Registered Partners and Children - Service Personnel Committed to Imprisonment or Detention

It is essential that the families of individuals in Personal Status Categories C1 to C4 be properly cared for whilst the spouse/registered partner is undergoing a period of detention and who therefore is not in receipt of basic pay. The following guidance is designed to assist DOs who have responsibility for such ratings:

a. **Family Maintenance Grants (FMG).** The rules for payment of an FMG are contained in the Business Process Guide. Application for payment is to be made by the offender's Commanding Officer and forwarded to the JPAC. FMG is payable for a maximum of only eight weeks.

b. **Supplementary Benefit Payments.** Where the individual is to be discharged from the Service on completion of sentence, the FMG is payable only up to the date of discharge from the Service or for a maximum period of eight weeks beginning from the date of sentence. When entitlement to the FMG ceases, it will be necessary for the recipient to apply to the local DSS Office for Supplementary Benefit payment.

c. **Rent Payment.** In addition to the FMG there is an element to cover rent, which in the case of a family occupying Service Family Accommodation is the actual rent paid. For those in private accommodation (including owner-occupiers), the rent payment will be based on actual cost up to a maximum of the rent for a Type C Grade 1 unfurnished SFA. The Supplementary Benefit payable by the DSS also includes an element for rent.

d. **Family Accommodation Entitlement.** (see also Chapter 25). If the individual is being retained in the Service on completion of sentence, the family retains their entitlement to occupy SFA. If, however, the individual is to be dismissed on completion of sentence, the entitlement to occupy SFAs ceases on discharge from the Service. Individuals dismissed with an accompanying sentence of detention are considered discharged on the date on which they would be released from detention if they had earned maximum remission. Individuals sentenced to imprisonment are discharged immediately, prior to undergoing their sentence.

e. **Dismissal and Imprisonment.** In all cases where an individual's pay ceases as a result of imprisonment or dismissal, DOs/Tp Cdrs, in conjunction with RN FPS staff, should offer counselling to the individual and family in order to assist them in the transition from Naval to civilian life.

2151. Relationship Breakdown

a. Attention is drawn to Chapter 24, Para 2419. A period of 93 days is allowed before estrangement is deemed to have occurred in circumstances when a marriage or civil partnership is in serious difficulties. DOs/Tp Cdrs who identify individuals with marital or partnership problems should record the date of the initial Divisional Counselling interview in the Divisional BU Diary. A structure for this interview is at Annex 21R.

b. All Service personnel with marital or civil partnership problems should be urged to seek family counselling advice from RN FPS (see Chapter 24 Section 3), a Chaplain or other spiritual adviser (see Chapter 31 and QRRN).

c. At the end of the 93 day period, or when evidence of a positive breakdown in a marriage or civil partnership is received, or when it is apparent no reconciliation is possible, whichever is the earlier, the CO should assess an effective date of estrangement on JS Form JPA N001 (Change of Personal Status, raised by unit HR) and certify that marriage counselling advice has been offered to both parties of the partnership (JSP 752 Ch 1 Section 4 refers). DOs/Tp Cdrs should note the stress on the word 'offered': there is no obligation upon either the individual or their spouse or partner to accept this marriage counselling advice.

d. **Advice.** Marital or partnership breakdowns leading to estrangement or divorce/dissolution have many Service implications. It is most important that individuals be fully briefed on the actions they should take in such circumstances. The following sub paragraphs summarise the main considerations and sources of advice.

e. **The Logistics Officer/Imprest Officer** Chapter 27 and

SECTION 10 - COMMAND, LEADERSHIP AND MANAGEMENT (CLM), AND DIVISIONAL TRAINING

2152. Introduction

The aim of this Section is to describe the training that ratings and officers should undertake as part of their Command Leadership and Management (CLM) development. As leaders and managers, all Divisional Officers have a responsibility to develop their subordinates; this section provides guidance and advice that will help this process. This section outlines the following: the CLM and Divisional training delivered by the Royal Naval Leadership Academy (RNLA) at BRNC Dartmouth, HMS COLLINGWOOD and OLTC Talybont. It provides:

a. A description of the Leadership Courses (LCs) delivered by the RNLA, including their content, and recommendations for pre-course preparation.

b. The need for post course development, together with guidance on how to maximise the benefit of such activities.

c. Details of assistance available from RNLA.

2153. General

a. The RNLA is comprised of four Squadrons and an HQ which are located across three sites. Royal Arthur Squadron (RAS) and Royal Victoria Squadron are based at HMS COLLINGWOOD, whilst the HQ, Royal Sovereign (RSS) and Royal Oak Squadron (ROS) are based at BRNC Dartmouth. ROS is also responsible for the Outdoor Leadership Training Centre (OLTC) at Talybont-On-Usk, Brecon, South Wales (Under Royal Oak Squadron).

b. CLM and divisional training is provided to RN personnel throughout their careers, principally in support of promotion, recognising that those selected will be required to exercise greater levels of leadership; divisional training is also provided to any individual across the NS, Army and RAF with divisional reporting responsibilities. All ratings receive an element of team building while undergoing Phase 1 and the Able Rates' Leadership Course (ARLC) during Phase 2 training before being accepted onto the trained strength. This acts as a precursor to subsequent formal RNLA CLM LCs once selected for promotion. Officers receive a significant amount of leadership training as part of their Phase 1 Initial Officer Training (INT(O)) package. They also should undertake Junior Officer Leadership Course 1 (JOLC1) immediately prior to commencing their first complement assignment and will, in due course, undertake a two week continuation leadership package in Junior Officer Leadership Course 2 (JOLC2).

2154. Output

The RNLA currently delivers the following:

a. **Royal Sovereign Squadron (RSS).** RSS delivers and coordinates elements of leadership training as part of the overall Phase 1 (INT(O)) package at BRNC Dartmouth. The syllabus includes delivery of theory lessons and exercise coordination of:

(1) **Initial Leadership Training.** Initial Leadership Training (ILT) has been designed to provide Officer Cadets (OCs) with the knowledge and experience but also to help identify development areas in order for them to successfully complete and pass the summatively-assessed leadership exercises. Providing this training prior to Basic Leadership Development (BLD) affords OCs the opportunity to consolidate their understanding of the Maritime Tactical Estimate, to observe a Practical Leadership Task (PLT) demonstration and to be coached around the PLT circuit in a less formal manner prior to the rigours of BLD and formal assessment during Ex Green Endeavour (formerly known as Assessed Basic Leadership Exercise (ABLE)).

(2) **Basic Leadership Development.** BLD is a training exercise majoring on the coaching and mentoring of OCs in preparation for their follow-on summative assessment and as such, is formatively assessed. Introducing OCs are introduced to fieldcraft, on completion of which they complete PLTs within the college environment. Prior to deployment on BLD, OCs achieve all relevant NCT competences in the field at Okehampton Battle Camp as part of the Green Skills phase.

(3) **Exercise GREEN ENDEAVOUR.** Set across Dartmoor, OCs have their CLM and team skills summatively assessed under arduous conditions. They are not given guidance or advice by the staff and must prove that they have the necessary personal drive, determination, and leadership ability to succeed. During the exercise, OCs live under field conditions, get little sleep and are put under a significant amount of pressure, both mental and physical. An OC can expect to cover approximately 45 km during the exercise while carrying essential personal safety equipment in a daysack along with enabling equipment for PLTs split between their team

(4) **Maritime Leadership Development (MLD).** MLD is a coached maritime CLM development exercise. Itis unassessed and conducted during the Marinisation phase of INT(O). It is designed to consolidate all elements of maritime training received to date and seeks to develop OCs' CLM in order to prepare them for their final summative assessment during Ex Final Endeavour (formerly called Maritime Leadership Exercise (MARL)). Over a period of five days, the first 2½[5] [6] and the delivery of orders in a classroom environment. The final 2½ days forms part of the Ex Final Endeavour Task Group's pre-deployment to the Area of Operations comprising the River Dart and, through modernisation of INT(O), along the coast at sea from Devonport to Teignmouth. The tasks during MLD replicate that of a unit performing its own-ship training, mission integration and basic situational awareness. This phase is known as Operation Mission Readiness.

[5] Maritime Tactical Estimate
[6] NATO Sequence of Orders

(5) **Exercise Final Endeavour**. Formerly known as Maritime Leadership Exercise **(**MARL), Ex FE is the summative CLM assessment for Marinisation term of OCs; effectively the culmination of their training at the College. The exercise is coordinated using the Vahana Officer Training Boats and motor whalers to simulate a task group which is undertaking tasks that resemble current Fleet operations such as: Interdiction, Disaster Relief and Evacuation Operations. The aim of Ex Final Endeavour is to assess and further develop the OC's CLM ability, including their professional skills of navigation, seamanship and teamwork, whilst under arduous and stressful conditions in a maritime environment. Each OC takes a turn as CO and XO of their 'Ship' in order to demonstrate their executive and CLM skills.

(6) **Development Packages.** RSS delivers development packages for those personnel who fail to meet the assessment criteria during Exercises Green Endeavour and Final Endeavour. These packages are identified as D1, D2 and D3 and are broken down as follows:

(a) **Development 1.** The aim of the five day D1 Package is to focus on confidence, planning, decision making and reinforcing the leadership theory taught during the militarisation phase of training. D1 focuses on: leadership and briefing styles; attitudes and performance; motivation and goal setting; non-verbal communication; Command, Leadership, Management and Ethos (CLME); confidence through group presentations; sales pitches and power of command; decision making through PLT coaching and mentoring; and delivery of orders. For the final phase of D1, OCs spend two nights under bivouacs within BRNC with the aim to fatigue them physically and mentally prior to their summative assessment on the final day.

(b) **Development 2.** The aim of the D2 Package is to provide on-going development targeting an individual's character traits and teamwork ability. This is achieved through:

i. MBTI assessment (learning about yourself and how you fit into a framework)

ii. 16 PF assessment (looks at the 16 Primary Factors that make up a person's personality)

iii. Development plans utilising SMART objectives.

(c) **Development 3.** The aim of the five day D3 package is to address the planning, critical thinking and briefing shortcomings that OCs demonstrated during their respective failure on Ex Final Endeavour. It focuses on: Orders structure delivery; briefing styles and non-verbal communication; critical thinking (table-top exercises), planning (organise and brief an even); and numerous Training Exercises Without Troops (TEWT). The final day is given over to the summative assessment which tests OCs' ability to formulate a plan from a given scenario, after which DS actively interrogate the success, or otherwise, of that plan for up to 30 mins. On completion OCs turn their plan into a set of orders which are delivered to separate DS who will question them on their final plan for a further 30 mins.

(d) In addition, RSS delivers developmental CLM training (for BRNC students and other units) utilising BLD tasks. RSS conducts internal departmental team building; and, resources permitting, assists with Ship/Unit Continuation Training.

Note. *The INT(O) course is accredited by ILM (Institute of Leadership and Management). On successful completion of the course, cadets are awarded an ILM Level 5 Diploma in Leadership and Management.*

b. **Royal Arthur Squadron (RAS).** The primary purpose of RAS is to deliver mandated CLM training for ratings, and RN divisional training. In addition, a number of smaller courses are run or administered through RAS. All courses delivered are detailed below:

(1) **Leading Rates' Leadership Course (LRLC).** The aim of LRLC is to prepare ABs for their role as a leader through exposure to various leadership models and scenarios. LRLC culminates in a four-day Dynamic Leadership Exercise (DLX) assessing the leader's ability to deliver practical leadership tasks. All ratings joining the RN after 1 Apr 13 must have completed Able Rates' Leadership Course (ARLC) prior to being assigned to LRLC.

(2) **Senior Rates' Leadership Course (SRLC).** SRLC is aimed at developing the leadership and management skills of supervisors through receiving instruction in the theoretical and practical aspects of leadership and management. The 4-week SRLC includes training in; self and group motivation and morale, team building, decision making, problem solving, and priority setting. This is also assessed through a 4-day DLX. The final week of the SRLC is focused on preparing students for the role of Divisional Senior Rate.

(3) **Divisional Officers' Course (DOC).** DOC provides the information and theory necessary to be a Divisional Officer within the RN. The course covers: D&I, SJAR, discipline, H&S, education and resettlement; and includes scenario role plays and visits by external speakers on divisional matters. Any individual with divisional reporting responsibilities for RN personnel, including RM, Army and RAF, **must** attend DOC

(4) **Support to Bespoke CLM Packages.** RAS is also able to support, resources permitting, approved bespoke ship/unit Continuation Training packages. Facilities include:

(a) Low Ropes site.

(b) Practical Leadership Task site.

(c) Assault Course.

c. **Royal Oak Squadron (ROS).** ROS's principal remit is to deliver further CLM training for officers, Warrant Officers and the introduction of teambuilding to Phase 2 ratings.

(1) **Junior Officer Leadership Course 1 (JOLC1).** JOLC1 is designed to build on the CLM training Junior Officers received during their time at BRNC as OCs; broadening and developing their ideas of CLM theory and how it should be applied in practice, prior to taking up their first assignments. JOLC1 is delivered primarily at OLTC and involves investigating and reflecting on CLM attributes witnessed via a combination of Adventurous Training and Challenging Activities. Uniquely, it also affords officers the chance to lead and interact with the ratings of ARLC (possibly for the first time in their career) in controlled 'stretch' conditions over a four day period together under canvas.

(2) **Junior Officer Leadership Course 2 (JOLC2).** JOLC2 is part of 2SL's Maritime Through Career Development[7] project to provide command, leadership, management and staff training development to officers throughout their career up to 1*. This particular element of their pathway encourages mid-seniority OF2 to reflect on their leadership journey so far. The course then introduces a number of other leadership models in context and an exploration of how an understanding of different personality traits, including their own, can shape the selection of a leadership style. The students are also given Level 3 coaching training, with the course culminates in a number of controlled stretch activities at OLTC where the students get to test out the practice behind the theories.

(3) **Warrant Officers' Staff Course (WOSC).** In order to deliver further CLM development for the challenges faced at this senior level, the reinvigorated WOSC challenges both substantive and selected Warrant Officers to develop their knowledge around the areas of Command Estimate, briefings and awareness of issues outside their source branch.

(4) **Heads of Department Leadership Course (HODLC).** The HODLC is a four-day course designed to prepare prospective Heads of Department for the CLM challenges that they will face on taking up their Charge assignments. Utilising a deeper exploration of personality-based leadership methods, coupled with briefings from external SME, the course aims to provide the prospective HoD with an enhanced skillset to lead effectively up and down the Chain of Command.

[7] 2010DIN07-165 Maritime Through Career Development (MTCD).

(5) **Able Rates Leadership Course (ARLC).** Delivered at OLTC, the ARLC gives all Phase 2 ratings the transferable skills required to work as an effective team member in arduous and demanding conditions. It allows the ratings to integrate in a discrete JOLC1 officer led team and affords them the opportunity of CLM interaction, within a set of controlled, relevant 'stretch' activities over four days together under canvas.

(6) **Executive Warrant Officers' Course.** On assignment to an EWO position, a Warrant Officer must first attend this staff and management training course, facilitated by ROS and various subject matter experts. The student leaves with a thorough and complete knowledge in order to advise senior management on human resources, large scale workforce allocation and associated procedures and processes. Official guests facilitate high level briefings and understanding to give the EWO the skills to advise the Senior Management and Heads of Department on allocation of work to others, to achieve specific results by using resources effectively, to implement policy in their defined areas of authority and to contribute to broader activities, such as Diversity and Inclusion and Trauma Risk Management (TRiM).

(7) **Coordinators' Management Course.** The Coordinators' Management Course is a three-day course that enables students to carry out the functions of a Departmental Coordinator by developing their management knowledge and informing them of their responsibility to the Head of Department for the training, administration, morale and discipline of the department.

d. **Royal Victoria Squadron (RVS).** The primary purpose of RVS is to deliver mandated CLM training for officers and ratings, and divisional training to the Maritime Reserves. Joining Instructions for all RVS courses are promulgated on the RVS site in the Defence Connect application on Defence Gateway. A number of shorter courses for RNR personnel are also run or administered through RVS.

(1) **Senior Rates' Leadership Course RNR (SRLC RNR).** SRLC RNR is aimed at developing the leadership and management skills of supervisors through receiving instruction in the theoretical and practical aspects of leadership and management. SRLC RNR mirrors the training provided to regular service counterparts includes training in; self and group motivation and morale; team building; decision making; problem solving; and priority setting. All of this is assessed via a three-day Dynamic Leadership Exercise (DLX) (see Para 2157). The training is distributed over three separate sessions; a pre-weekend, a twelve-day period of instruction to be followed by joining the final week of the regular SRLC which is focused on preparing students for the role of Divisional Senior Rate. SRLC RNR is accredited with an Institute of Leadership and Management Level 5 award in Leadership and Management.

(2) **Leading Rates' Leadership Course RNR (LRLC RNR).** The aim of LRLC RNR is to prepare ABs for their role as a leader. As with the SRLC RNR the LRLC has a three-day DLX. As with SRLC RNR there is also a pre-weekend of training that must be completed in advance of attending the course. Successful completion of LRLC is accredited with the award of Institute of Leadership and Management Level 4 award in Leadership and Management.

(3) **Divisional Officers' Course RNR (DOC RNR).** The DOC RNR provides the information and theory necessary to be a Divisional Officer. The course covers: D&I; SJAR; discipline; H&S; education and resettlement; and includes scenario role plays and visits by external speakers on divisional matters. Any individual with divisional reporting responsibilities for RN personnel, including RM, Army and RAF, **must** attend the DO's Course.

(4) **Junior Officers Leadership Course RNR (JOLC RNR).** JOLC RNR is designed to build on the CLM training officers received whilst completing Phase 1 training at BRNC. Delivered at RNLA East (HMS COLLINGWOOD) it explores the concepts of leadership agility and coaching over two separate weekends.

(5) **Leadership Development Weekends.** RVS offer three weekends per training year, for individuals of any rank or rate to attend for CLM development. The packages vary depending on the needs of the individuals attending but range from coaching in preparation for leadership assessments as part of Phase 1 training, to ongoing CPD for reservists who have taken time away from the RNR.

2155. CLM Continuation Training

Booking requests for use of RNLA's facilities or training resources should, in the first instance, be addressed to the Academy's Operations Officer (NAVY PEOPLE-TMG RNLA OPS). The introduction of the amalgamated Academy has also increased the scope for ships and units to receive CLM training at their own site. Mobile teams are occasionally available to visit units, providing standard or bespoke coaching, leadership and divisional packages to supplement their own training programmes.

2156. Booking

Attendance at an RNLA Career course (WOSC, JOLC1, JOLC2, SRLC and LRLC) should be booked through the individual's Career Manager and will be notified via workflows on JPA. Any queries about a specific course booking should be addressed in the first instance to the Career Manager. Joining Instructions for courses are contained within the extant RNTM and available on the RNLA DefNet page.

2157. Preparation for Leadership Course and the Role of the Divisional Officer

a. The Divisional Officer, Divisional Senior Rate and Divisional Leading Hand play pivotal roles in both the physical and mental preparation of a prospective LC student. DOs are to pay particular attention to the completion of pre-joining documentation, including the training documentation in the extant LC RNTM.

b. DOs are to ensure that all ratings assigned to LC training are made aware of the consequences of failing a LC, which are detailed below in Para 2159 in the RNTM and also Chapter 69. Standard joining instructions are issued annually by the RNLA in the form of an RNTM. All students attending RNLA must read the RNTM and Chapter 69 prior to their arrival at RNLA for LC training. A flow chart for guidance of DOs in preparing members of their division for attendance on Leadership Courses is at Annex 21S.

c. Personnel are required to be in date for the RNFT/PES prior to, and for the duration of, the course. This is to ensure that they are able to undertake the course safely and to ensure that insufficient individual personal fitness does not degrade the quality of training for the group. It is recommended that ratings take the RNFT/PES less than three months prior to joining leadership course to ensure they are at the necessary physical standard. **DOs should enforce this if they are in any doubt as to the rating's physical preparedness for the course**.

d. DOs are strongly encouraged to help prospective students prepare for their LC. This preparation should cover both physical and mental aspects, i.e. general physical fitness, teamwork and communication skills including verbal, Defence Writing and presentational. Preparing students for their LC should be an integral part of a unit's CLM development programme.

e. **Presentations and Lectures in LC.** SRLC students will be given a Naval Ethos presentation title on day one of LC and are expected to prepare a 15-minute presentation to be delivered in Week 3. LRLC students will conduct a seven minute and 12 minute presentation during LC training. All presentation subjects are to have a military title and context. Prior preparation is essential as presentations are given early in the course. All presentation methods are acceptable and are to be in the following basic format:

(1) **Introduction (including Personal).** Setting out the scope of the lecture and the aim. 5% of total time.

(2) **Objectives.** What it is intended to convey in the lecture. 5% of total time.

(3) **Main Body of the Lecture.** The 'meat' of the information to be delivered. 80% of total time.

(4) **Conclusion.** A summary of the main points. 10% of total time.

f. LRLC personnel should prepare and bring with them any props, models, PowerPoint presentations etc. they wish to include, as there is limited time and facilities available for self-help once on course. It is recommended that DOs arrange for students to rehearse their presentations in front of a suitable audience, and have sufficient opportunity to make initial amendments prior to starting course[8].

2158. Return to Unit (RTU) from SRLC/LRLC

a. The Training Performance Statement requires LRLC/SRLC to be physically and mentally demanding, resulting in a considerable amount of pressure being placed on the student's character. In order to succeed on course, candidates must demonstrate the required professional and Character and Leadership (C&L) standards. Each student's performance is assessed continuously whilst on LC, with formal, summative assessments for key Training Objectives (TOs). A warning system is in place throughout courses whereby, if a candidate falls short of the required professional or C&L standard, they will be issued with a written warning that will detail the shortfall and guidance required to redress it.

[8] Outlined in current RNTM.

b. The warnings process is fully briefed to all students at the beginning of course and there is also comprehensive coaching support offered to all students during course to help rectify shortcomings. The RNLA will RTU any student who receives an accumulation of multiple professional and/or C&L warnings.

c. C&L warnings are commonly received for, but are not limited to, the following reasons whilst on course:

(1) Lack of commitment or poor attitude.

(2) Lack of effort and commitment in PT evolutions.

(3) Inadequate timing or preparation for presentations or briefs.

(4) Inadequate standard of uniform; in particular No 1s.

(5) Lack of military bearing during Divisions and within establishment boundaries.

(6) Poor state of accommodation during daily accommodation rounds.

(7) Attitude or conduct unbecoming of a SR or LH, i.e. unreliability, poor judgement, lack of team spirit.

d. Professional warnings are imposed for failed formal assessments of key TOs such as presentations, practical leadership tasks, defence writing and exams.

e. In addition, students will face RTU action immediately if they:

(1) Are not in date for RNFT on the first day of course.

(2) Fail the Dynamic Leadership Exercise.

(3) Fail the initial assessment and subsequent failures meet the RNLA warnings criteria for RTU.

f. RNLA Training Orders and LC assessment specifications provide further detail on these orders. Students are briefed on this on the first day of their course.

2159. Implications of Failure

a. Under the RN system of ‘select – train – promote’, leadership courses are often the final stage of training prior to promotion and success can lead to this reward. However, leadership courses are not simply attendance courses and failure can have severe consequences for candidates, as detailed below:

(1) **Relinquishment of the Acting Higher Rate.** Failure of an LC will lead to the relinquishment of an Acting Higher Rate if held (see Para 6916 sub-para h).

(2) **Financial.** Failure to complete the relevant LC prior to the Common Promotion Date (CPD) for non-service reasons that are within an individual's control, which includes failing a course, will result in pay and seniority not being back-dated to the CPD. Individuals who have not completed an LC will not, under any circumstances, be substantively promoted to the higher rate (see Para 6703 sub para b(4), Para 6714 and Para 6719).

b. Individuals who fail either LC will be advised on the minimum amount of time recommended before being allowed to re-attend the LC and, depending on the level of failure, de-selection will not normally be recommended. Individuals who fail an LC as a result of their final DLX, and who do not merit de-selection, will be given the opportunity to attend a two week Leadership Development Package. On successful completion of this course, they will not be required to re-attend the LC. Those who are required to re-attend an LC or the Development Package should be aware that promotion and CPD time limits continue to apply.

2160. Post Course Development

a. **Why Post Course Development is Important.** The RN commits considerable resource, in terms of both time and money, to train and improve the CLM capabilities of its personnel. Whilst a well-designed and executed course can help improve an individual's performance, the course alone cannot produce sustained performance improvement. It has been shown that newly acquired knowledge and skills deteriorate dramatically, within weeks of the course. In traditional training regimes, nothing happens before training, so the knowledge and performance lines stay the same. During training, individuals are exposed to new knowledge and this significantly increases. Given the opportunity to practice, the performance line will also increase. However, both will decline unless the student is given the opportunity to embed their new abilities in the workplace, as the new knowledge and skills are quickly forgotten. In this situation, the course will be seen as nothing more than a 'tick in the box' that once completed can be forgotten about. If, however, the student is encouraged to prepare for the course and upon returning to their unit given the opportunity to develop their new capabilities then a significant and lasting improvement is seen. The benefits to the individual will extend beyond the initial improvement, as their confidence and willingness to accept additional responsibility increases. Such post course development should be framed within coaching techniques, as detailed in Annex 21U and Annex 21V.

b. **Post Course Development Strategy.** There are three simple strategies that the line managers/students can employ during the post course development phase:

(1) Quickly seek out opportunities to apply the newly acquired skills. This could include helping to prepare other students who are about to start the LC or as part of the wider CLM development programme onboard.

(2) Making the students accountable for the application of the new skills, by providing coaching and feedback. Individuals must take ownership of their own development and ways to achieve it.

(3) Incorporate development goals and plans into the formal performance appraisal process.

2161. RNLA Help and Assistance

a. **RNLA Web Site.** The RNLA Teamsite contains background information on course structures, Defence Writing, presentations, NSOs and several practical applications. These can be used by students to help them prepare for their LC.

2162. Coaching and Mentoring

Coaching and mentoring techniques are key leadership skills; they create favourable conditions for individual and collective learning which in turn are likely to result in improved performance and consequently benefit Operational Capability. People who are coached and mentored well usually find the experience highly motivating and fulfilling; this increases the likelihood of their retention in the Service. Skilled application of coaching and mentoring is therefore beneficial to CLM, and the implementation of the Divisional and Regimental System; as such coaching and mentoring are tools which Unit Commanders are expected to use throughout their units in the course of leading, developing and motivating their people. Although coaching and mentoring may require some initial investment in growing leaders' skills and confidence, and in setting expectations for all personnel, they offer a worthwhile economy of effort: once coaching and mentoring is the norm, leaders will gain more capable and resilient teams which need less direction and supervision. Coaching and mentoring are key enablers of learning in the workplace, in training environments (both formal and informal) and in education.

a. **Coaching and Mentoring Policy.** The Culture and Leadership Cell are the capability owners for RN Coaching and Mentoring. The RNLA are the lead for delivery of coaching and mentoring across the RN. Through the RNLA WO1 Coaching Manager, they coordinate, quality control, develop, and prioritise the delivery of training across the naval service by the RNLA, CTCRM, FOST (N) and (S), LDOs (ashore and afloat), establishment Coaching Advisory Support Teams (CASTs), unit CLM Development Officers, MentoRNavy, the Defence Academy, and the DLE.

b. **Coaching.** Coaching is defined by the RN as: "*Unlocking a person's, team's or organisation's potential to maximise their own performance*". Proficient coaching causes learning (Annex 21T); an essential component of performance improvement. The spectrum of possible coaching activities ranges from a series of scheduled and relatively formal one-to-one meetings, with a clear agreement between a coach and a coachee on the terms and objectives for the coaching (a common format if using a coach from an external team or organisation), to entirely informal, one-off, short and sometime opportunistic 'corridor coaching'. While most uses of coaching in the RN will fall somewhere between these extremes, a common set of foundation coaching skills and behaviours is applicable to all situations (Annex 21U); it is therefore necessary for Service leaders at all levels to develop and practise these skills and behaviours.

c. The Service recognises the value of coaching in helping individuals, teams and organisations to make progress towards excellent performance regardless of their current level of performance. All personnel are therefore strongly encouraged to seek regular coaching, as well as developing their ability to coach others. DOs are expected to set a positive example in this respect. Individuals who seek coaching for the purpose of improving their performance are displaying positive and commendable behaviour and attitude; leaders at all levels are expected to recognise this and give appropriate credit, including recognising such actions as positive evidence in appraisals.

d. There are two main techniques that personnel are expected to adopt at every level in order to ensure the Service achieves maximum benefit from coaching: GROW (Annex 21V) and Effective Debrief/Feedback (Annex 21W). These techniques are suitable for use within MPAR (Annex 21C). Trainers in all training establishments are trained in, and are expected to routinely apply, a blend of Teaching, Coaching and Mentoring (TCM) approaches. Leadership students are developed by, and are taught to use, coaching techniques.

e. Where a unit has a Coaching, Advisory Support Team (CAST), the focus of the team should be on supporting and developing the coaching skills, behaviours and mind-sets of the unit's leaders and/or trainers. In this way, CASTs can support the development of unit cultures that value and enable performance enhancing learning and self-development at all levels.

f. **Coaching Skills Development.** Awareness of coaching theory and practical development of foundation techniques is delivered by the following courses:

(1) **Coaching Workshop 1 (CW1).** CW1 covers the basic understanding of principles and techniques. The minimum requirement is to cover the theory within Annex 21T (The Learning Cycle), Annex 21U (Foundation Skills and Behaviours for Coaching), Annex 21V (GROW) and Annex 21W (Effective Debrief/Feedback). As a guideline, a CW1 session would normally be expected to require 90-120 minutes (although this may vary according to the delivery environment).

(a) Delivered by:

i. RNLA to ARLC, DOC, WOSC and JOLC1.

ii. CTCRM CW.

iii. LDOs on request by units and establishments.

(b) Achieves a JPA competence mandated for all RN personnel. Competences awarded are to be recorded in JPA by the unit/team delivering the workshop.

(2) **Coaching Workshop 2 (CW2).** CW2 focuses on the effective employment of coaching techniques in the workplace. The minimum requirement is to cover CW1 and also ensure all attendees actively participate in a practical session (which may be contextualised as appropriate) applying Foundation Skills and Behaviours for Coaching (Annex 21U), GROW (Annex 21V) and Effective Debrief/Feedback (Annex 21W). As a guideline, the CW2 practical session would normally be expected to require 60-90 minutes in addition to any time required to cover, or refresh, CW1 content (although this may vary according to the delivery environment).

(a) Delivered by:

i. RNLA to SRLC.

ii. CTCRM CW.

iii. LDOs on request by units and establishments.

iv. Establishment Coaching Advisory Support Teams (CASTs).

v. FOST to sea training staff.

vi. Defence Train the Trainer (DTTT) course.

(b) Achieves a JPA competence. Competences awarded are to be recorded in JPA by the unit/team delivering the workshop or course.

(3) **Coaching Workshops Alignment and Assurance.** RNLA acts as the RN (excluding RM) CW1 and CW2 delivery lead with responsibility for promoting alignment and congruence between CW deliveries. The purpose of alignment activity is to ensure consistent messages about coaching are communicated which meet the requirements and uphold the intent of this policy. CW deliveries are not expected or required to be identical between organisations and tailoring the delivery of the core CW1 and/or CW2 syllabus to the context of the audience is encouraged. Each organisation delivering CW1 or CW2 shall nominate a point of contact to liaise regularly with RNLA on CW delivery alignment matters, sharing good practice and lessons identified. NCHQ will provide second party assurance of RNLA as in this capacity during routine second party assurance visits.

(4) **Advanced Coaching Skills: National Qualifications Framework (NQF) Level 3/Level 5 Certificates and Awards in Coaching.** It is appropriate for staff in some employment roles with responsibilities for personnel and professional development to hold advanced coaching skills qualifications. Most accredited courses comprise a taught module followed by a specified amount of real coaching practice, which is usually linked to a written assignment or submission. Service personnel who hold an NQF Level 3 or Level 5 accredited qualification are eligible for a JPA competence which will enable the RN to effectively employ individuals. Unit HR administrators are able to award the JPA competence on production of an individual's original certificate of qualification. The Service provides Level 3 and Level 5 coaching courses ran within the RNLA Coaching Cell and some subsidised routes to such qualifications that give credit for training completed for the professional role.

(5) **Elective Further Learning.** Individuals who develop an interest in coaching and wish to further develop their coaching knowledge and skills may utilise the Defence Learning Credit schemes to offset costs of tuition and assessments (Chapter 96). Courses are available from various providers, ranging from NQF Level 2 (GCSE/NVQ equivalent) to Level 8 (PhD equivalent). Occasionally, other funded elective learning opportunities may become available; these will usually be advertised by DIN or RNTM.

g. **Mentoring.** Mentoring is defined by the RN as "a relationship and process where a person with more experience in a particular field, offers help, guidance and support to facilitate the learning and/or development of a colleague at an appropriate stage in their career". In parallel with coaching, there is a spectrum of possible mentoring activities: at one end is the establishment of a mid to long term mutual, voluntary, mentoring relationship within defined boundaries between a mentee and a mentor who ~~may~~ is likely to be outside of the mentee's management chain; at the other it is possible for very effective mentoring to occur in informal and unplanned circumstances. As mentoring can have substantial overlap with coaching, the foundation skills and behaviours for coaching (Annex 21U) are equally applicable for mentors.

h. **Mentoring Skills Development.** Awareness of mentoring theory and practical development of foundation techniques is delivered by the following courses:

(1) **Mentoring Fundamentals v2.0.** This is an online course accessible to all personnel via the DLE. The aim of this online mentoring awareness training is to provide MOD personnel with an overview of the knowledge and skills that can be used to be successful when undertaking the role of a mentor or a mentee. The completion of this course is a pre-requisite to undertaking the Mentoring in Defence course.

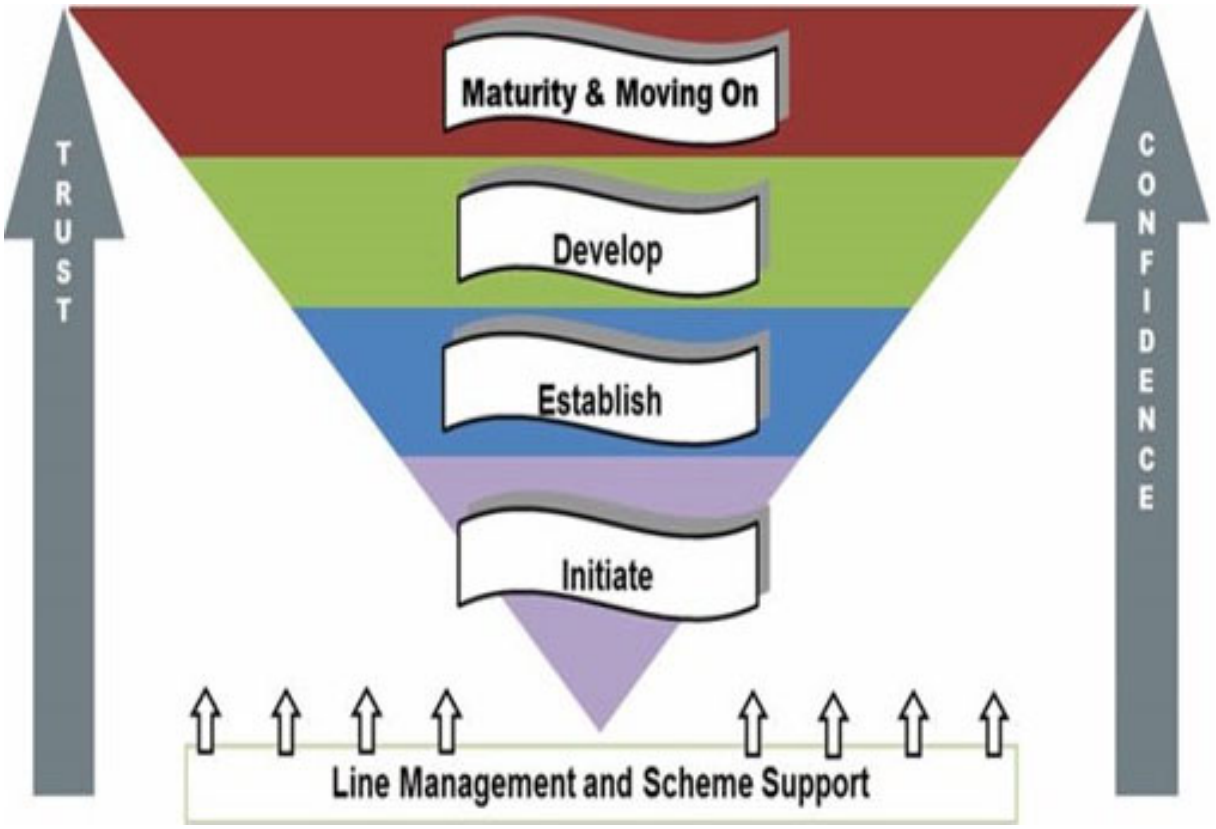
(2) **Mentoring in Defence (Virtual).** This course is facilitated by the Defence Academy through the Defence Leadership Centre (course code RO46) and is accredited by CMI. It is run virtually over three days; one day's preparation delivered via online learning, followed by two days in the virtual classroom. During the course students are introduced to ‘mentoring best practice’ to enhance their mentoring knowledge, skills and behaviours to support future mentoring relationships. Students build on their mentoring fundamentals knowledge and have an in depth look at the mentoring process. Attendees have the opportunity to practice mentoring skills, learn about reflective practices, questioning skills, listening skills and goal setting. Successful completion of this course will result in a CMI Level 3 Certificate in Coaching and Mentoring.

(3) **Level 5 Coaching and Mentoring Award.** On successful completion of the Mentoring in Defence course, students can opt to complete additional work for the CMI Level 5 Certificate in Coaching and Mentoring. There is an additional cost to the individual for this but for military personnel, SLCs can be used to offset this cost.

i. Mentors can support and guide a mentee in various ways which assist the mentee to progress around the learning cycle (Annex 21T). Mentors might provide an objective, informed and separate perspective, helping a mentee to decide how best to approach their personal and professional development. They can provide the indirect learning benefit of describing examples or situations from their own experience, discussing what they did and the effects of their actions. They can guide and support the mentee’s reflection and thinking, and contribute lessons from their own thinking and analysis. They can assist the mentee in making plans and developing mechanisms and strategies for dealing with the upcoming challenging situations they expect to face.

j. **Mentoring Process**. A mentoring relationship can last between six and 24 months, the duration will vary dependant on the purpose of the relationship. However, whether formal or informal mentoring is taking place, it is best practice to follow the mentoring process. There are four stages in a mentoring relationship and below is a diagram illustrating these stages. It additionally highlights the importance of support from Line Management and the programme/scheme coordinator (if applicable).

Figure 21-2. Mentoring Process



k. The RN recognises the value of mentoring in helping individuals, teams and organisations to make progress towards excellent performance regardless of their current level of performance. All Naval personnel are therefore strongly encouraged to seek regular mentoring, as well as developing their ability to mentor others, an ability that necessarily requires drawing upon their experience in their field. DOs are expected to set a positive example in this respect. Individuals who are actively engaged in mentoring for the purpose of improving their performance are displaying positive and commendable behaviour and attitude; leaders at all levels are expected to recognise this and give appropriate credit, subject to evidence of performance, including recognising such actions as positive evidence in appraisals.

l. Mentoring is already in use in a number of areas in the RN: the MentoRNavy Team have run several mentoring programmes, open to regular, reserves, RFA and civil servants. In addition, mentoring is used effectively within some branches and within the RN networks. Mentoring can help develop individuals to the benefit of themselves and the Service and has been proven to increase employee engagement. The introduction of a mentoring programme aligns with an overall vision to reinforce an inclusive and supportive culture within the Service. This process provides an opportunity for all personnel to develop and to maximise their potential.

ANNEX 21A

NAVAL SERVICE PERSONAL INFORMATION CHECK DASHBOARD

1. The Naval Service Personal Information Check Dashboard shows an individual the status of their personal data held within JPA and is to be used by ALL members of the RN/RM to carry out the Annual Mandatory JPA Data Check. The dashboard is simple and intuitive to use and is accessible through the front page of JPA (see sequence below).

2. The JPA Data Check on the following pages is to ensure that your key personal data on JPA is correct; it should be completed annually and within two months of joining a new unit or establishment. In particular, it is your chance to check the key data held and, if anything is wrong or missing, to take action (usually via your self-service role or by Unit HR if you do not have access to the field) to get it corrected. The proforma should be printed from the Naval Service Personal Information Check OBIEE dashboard and returned in hard copy to your DO/Tp Cdr or 1RO as confirmation from you that your JPA data is accurate. The DO/Tp Cdr/1RO is to check the information is correct and then forward to the UPO/Ship's Office/Unit HR for checking, any action necessary and retention for a period of two years.

3. The Dashboard is made up of three pages:

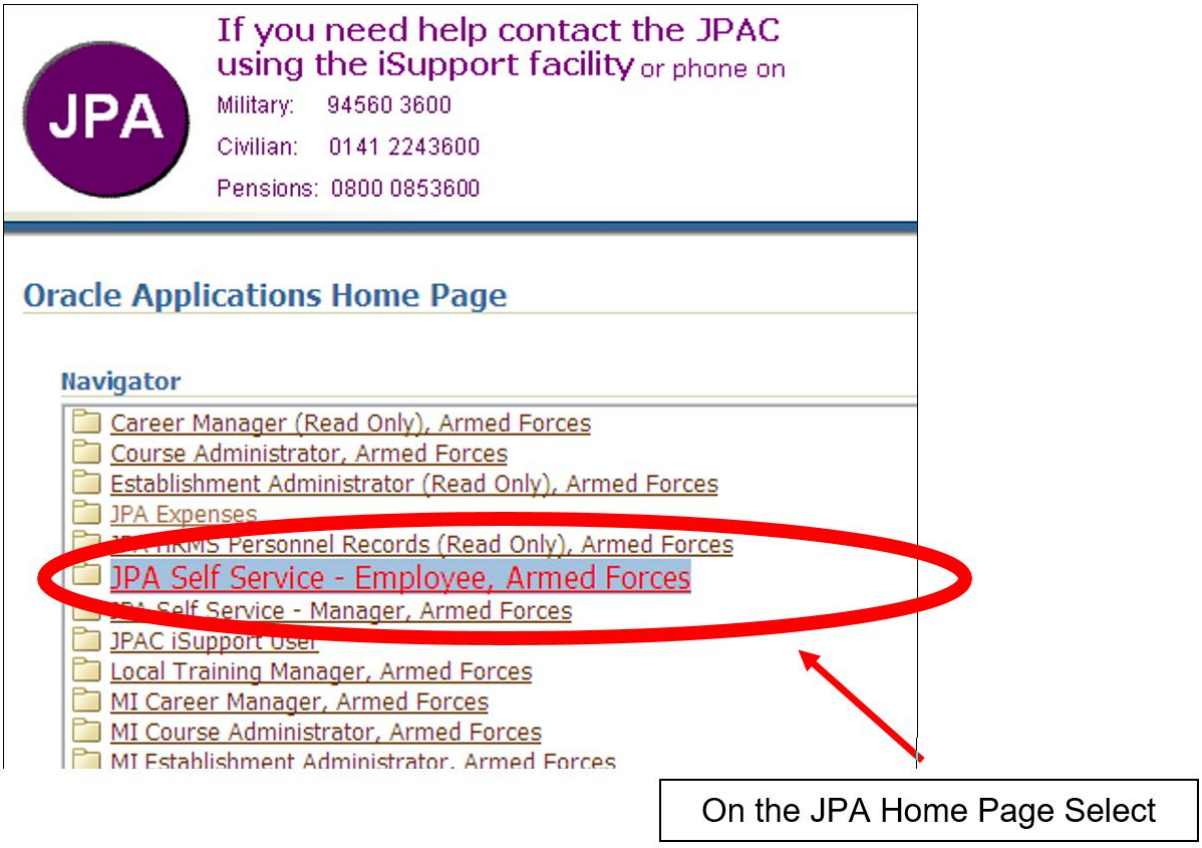
a. A Personal Data Summary highlights areas of potential issues using a 'traffic light' system – GREEN if the data is present, AMBER if there is a possible issue and RED if there is a definite issue e.g. Data missing.

b. The Personal Profile brings together information held in various places in JPA into a one page summary allowing the user to quickly view pertinent information held on them.

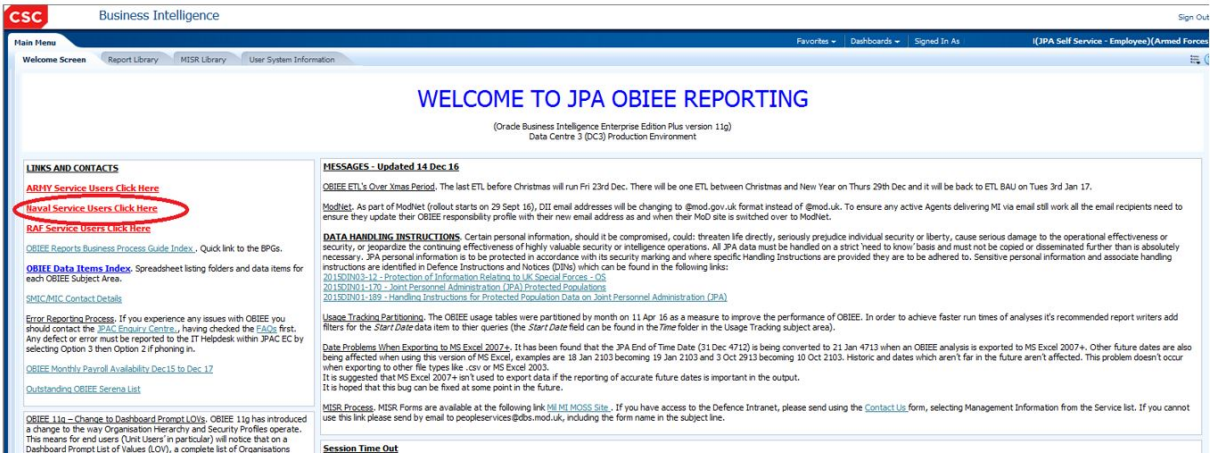
c. The final page is the Mandatory Annual JPA Check; this is a printable Summary page that may be accessed via a clickable link.

4. Getting to the Personal Information Check Dashboard

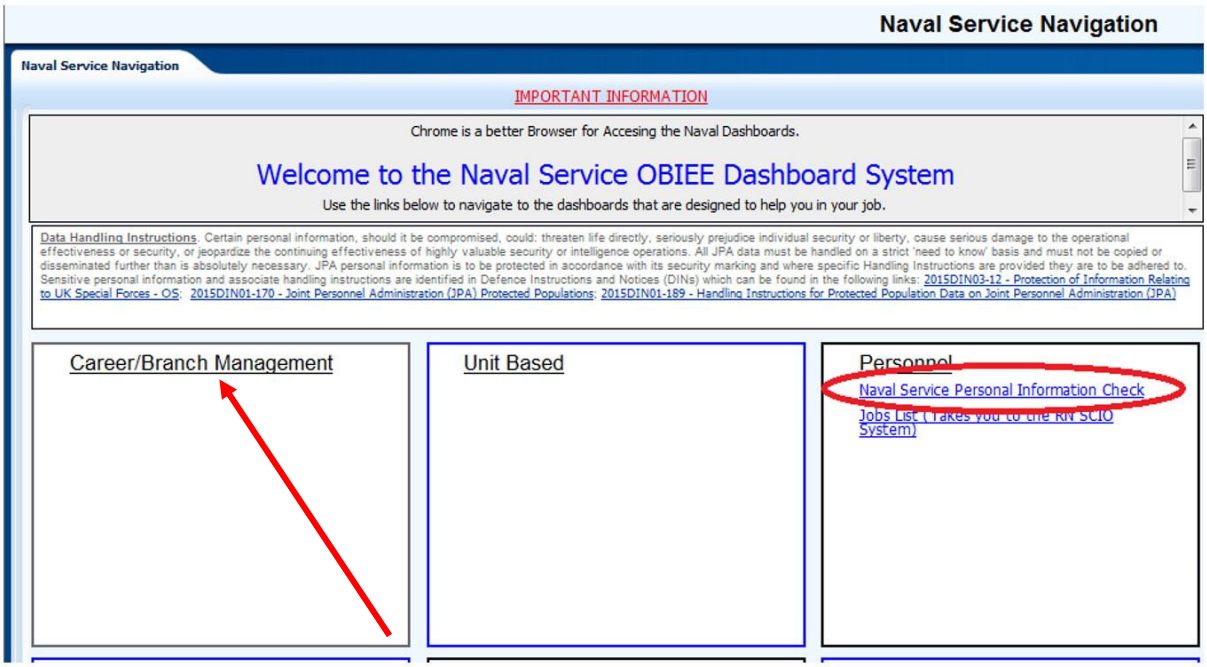
To gain access to the Personal Information Check Dashboard, individuals should follow the sequence below:



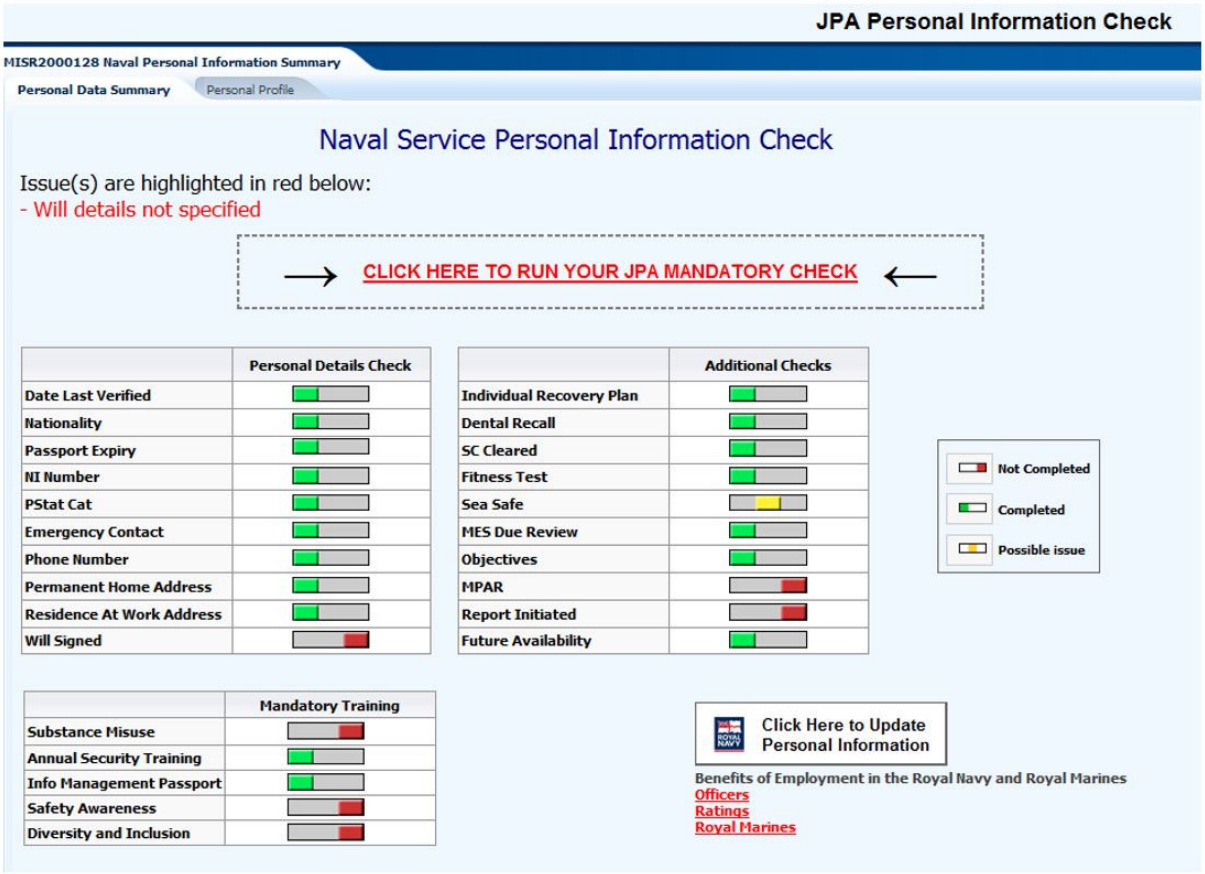
You arrive at a Welcome Screen:



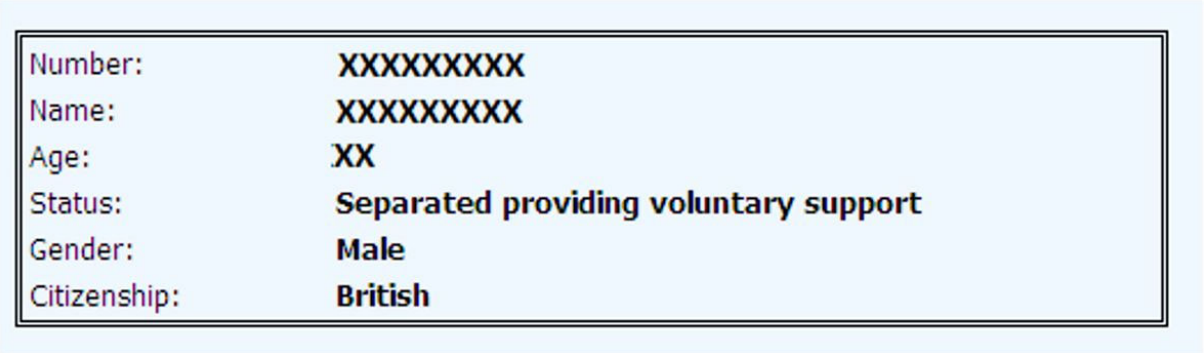
You will arrive at the Navy Landing page, click on the Naval Service Personal Information Check link shown below:



A traffic light system will appear that highlights potential issues with key data in both the Personal and Assignment details areas:

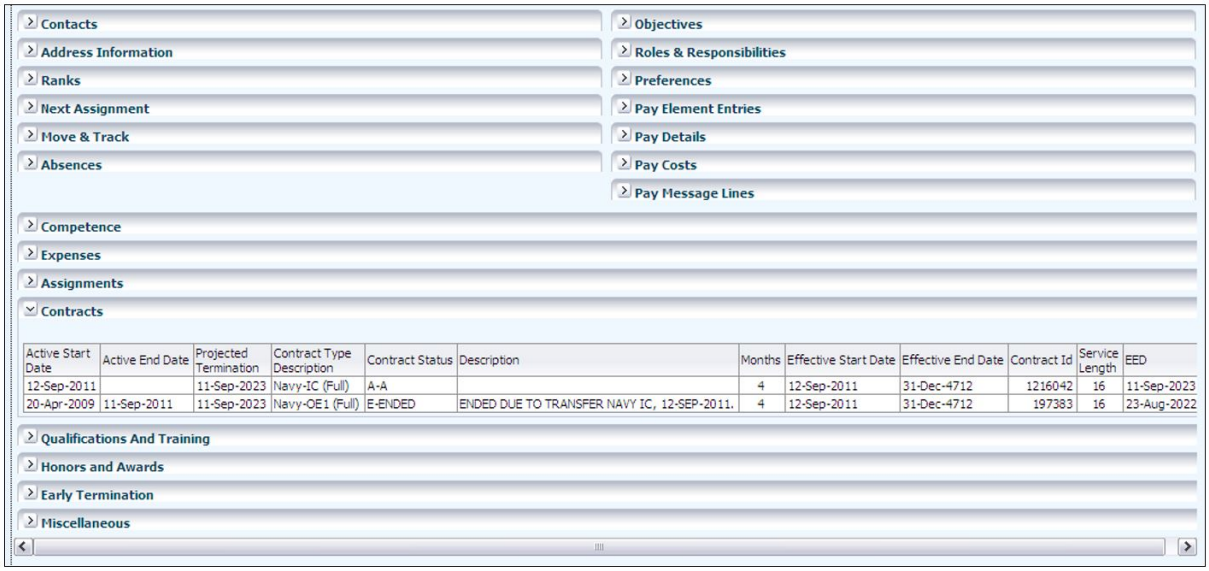


A summary box gives details of the user logged in:



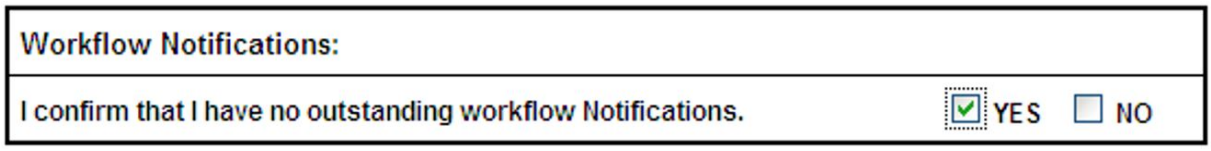
And a footer with links to the RN BIS intranet and Help pages:

The Personal Profile page displays personal data within expandable fields. Expandable fields provide information on pay, contacts, assignments, qualifications, competencies and medals, etc. Clicking on the will expand the box to reveal the data held.



Annual Mandatory JPA Data Check. The Annual Mandatory JPA Data Check is accessed by clicking the link on the Personal Data Summary page, as follows:

This opens in a new window which displays a printable Personal Summary page. This allows an individual to confirm that each section of data is correct within JPA by ticking in the appropriate box.



By selecting ‘NO’, the individual is highlighting that data within that area of JPA is incorrect. It is the individual’s responsibility to either correct the data themselves or, if they do not have the authority to do so, to inform Unit HR Staff to take the necessary action.

Once all incorrect data has been rectified the document is to be printed A4, landscape, double sided.

Once printed, the individual is to sign and date the declaration and then pass the form to their DO/Tp Cdr, as follows:

I confirm that:

- I have carried out a review of my person data held in JPA;
- Items I have marked as 'YES' are an accurate record of my data held on JPA and the details are correct;
- I am satisfied that any alterations indicated within this list have been actioned by me or by my DO/EWO/Coxn/Ast Adj/Unit HR/Career Manager.

Signature:

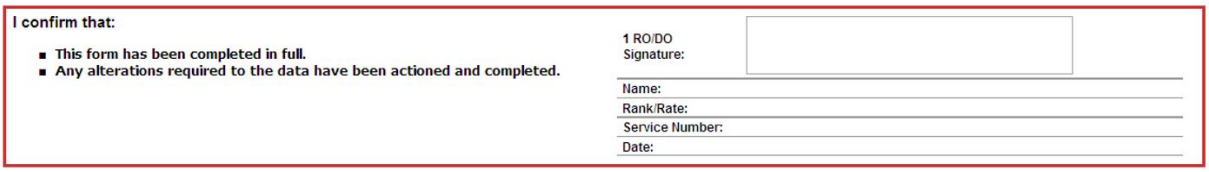
Name in Full:

Rank/Rate:

Service Number:

Date: 28/04/2015 08:05:10

The DO/Tp Cdr is to check that the form is completed in full and that all 'YES' boxes have been ticked, as follows:



I confirm that:

- This form has been completed in full.
- Any alterations required to the data have been actioned and completed.

1 RO/DO Signature:

Name:

Rank/Rate:

Service Number:

Date:

The completed form is to be forwarded to the Unit HR Staff who will check the RWA/PHA and, if changed from the last check, will amend HTD/GYH/ULA entitlement. They will then update the 'Date Last Verified' flag on JPA to confirm that the check has been completed. The form is then to be held within the unit for TWO years.

UPO/Ships Office/Pay Office Actions

- Confirm RWA and PHA addresses are unchanged from last check and/or Arrivals Form for continued entitlement to claim HTD/GYH, ULA as appropriate. Make changes as neccessary.
- Update "Date Last Verified" in JPA.
- Form is to be retained by the UPO/Ships Office/Pay Office for two years.

I confirm all actions are complete.

Signature:

Name:

Rank/Rate:

Service Number:

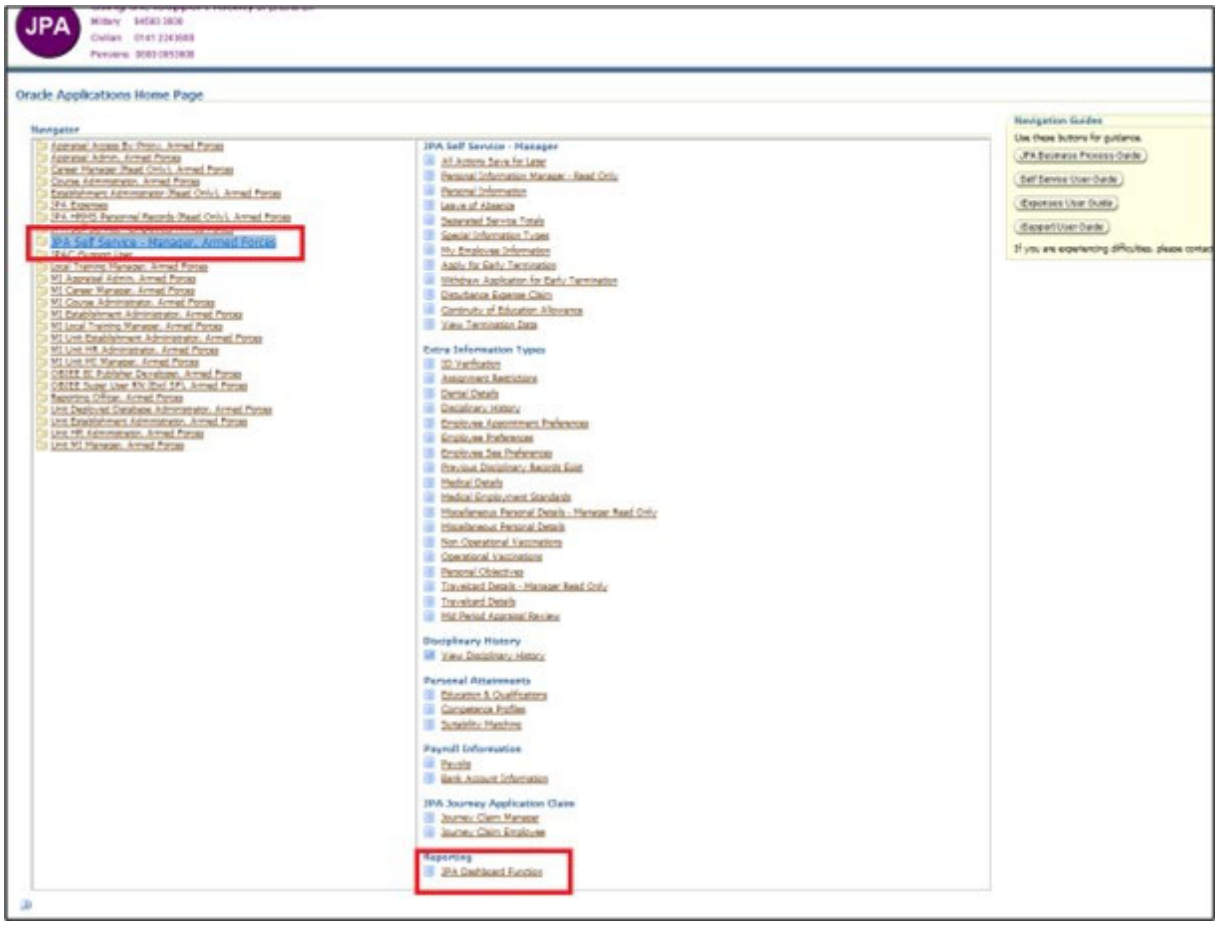
Date:

ANNEX 21B

DIVISIONAL OFFICER/TROOP COMMANDER'S JPA DASHBOARD

1. The DO and Troop Cdr JPA dashboard enables DOs, Troop Commanders and the Chain of Command to quickly access data on their people in a number of different views[1]. Importantly, it highlights when individuals have out of date/incorrect information in JPA as well as automatically displaying bring up actions or other information in different views. The dashboard is simple and intuitive to use and is accessible through the front page of JPA.

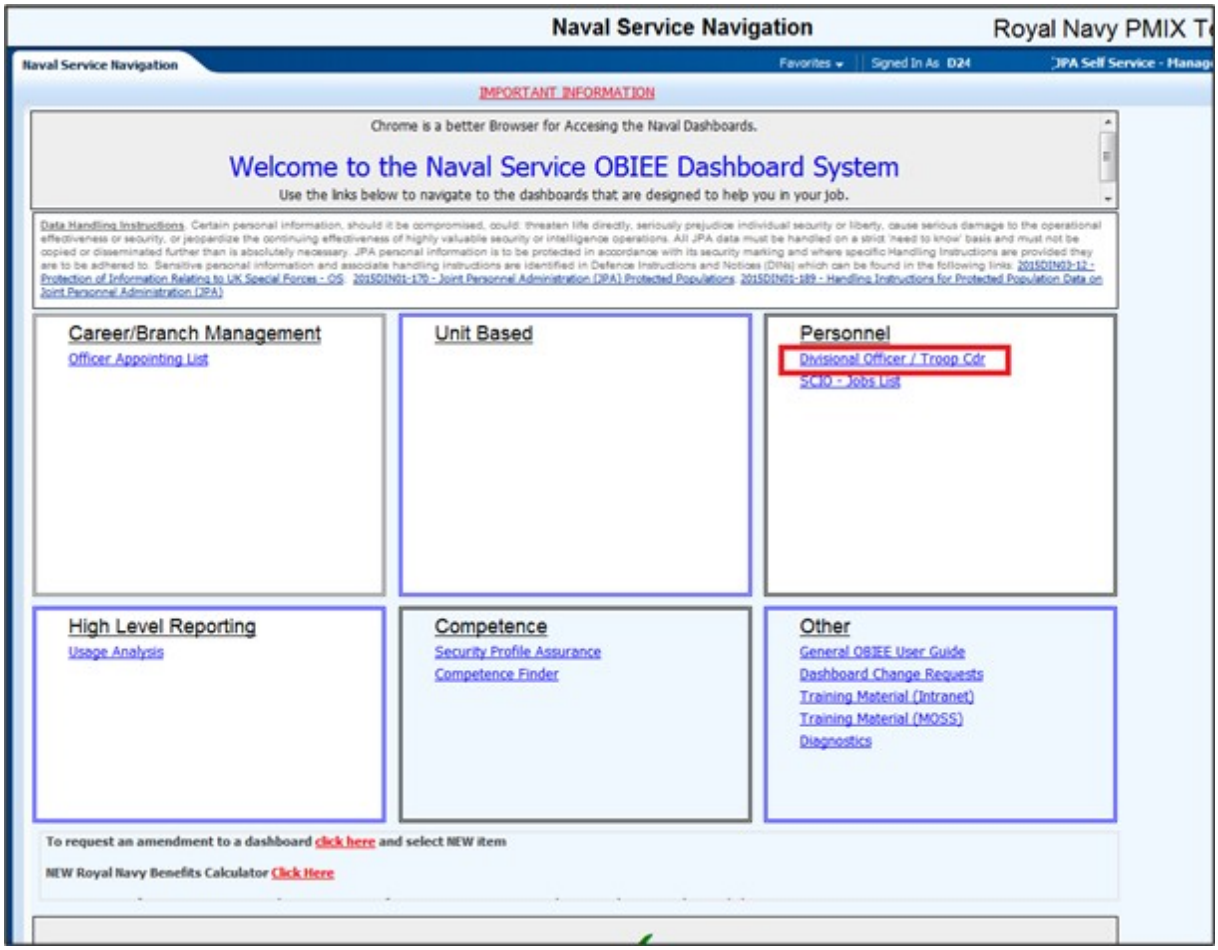
2. To access this dashboard, DOs/Tp Cdrs should access JPA using Self Service Manager (otherwise it will not appear on the list of available dashboards on the OBIEE Naval Service Navigation page), as follows:



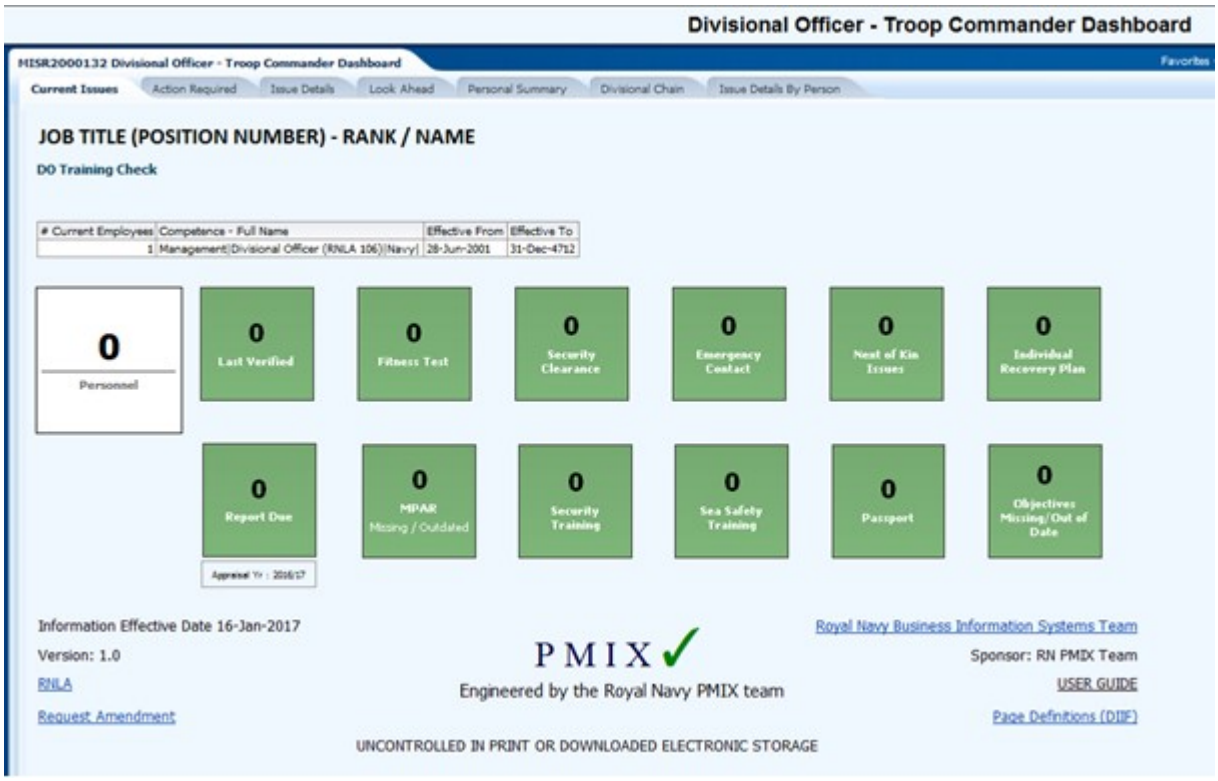
This leads the user to the following page:

[1] Data Protection Act (DPA). The personal information held in JPA is required for a legitimate 'business' need and therefore within the jurisdiction of the DPA. Whilst DOs have a legitimate reason both to view the information and take action based upon it, they must treat that information in the strictest confidence, avoid inadvertent disclosure and, when there are legitimate reasons to print documents (e.g. the 'Bring Up' diary), ensure that they are stored securely and properly.

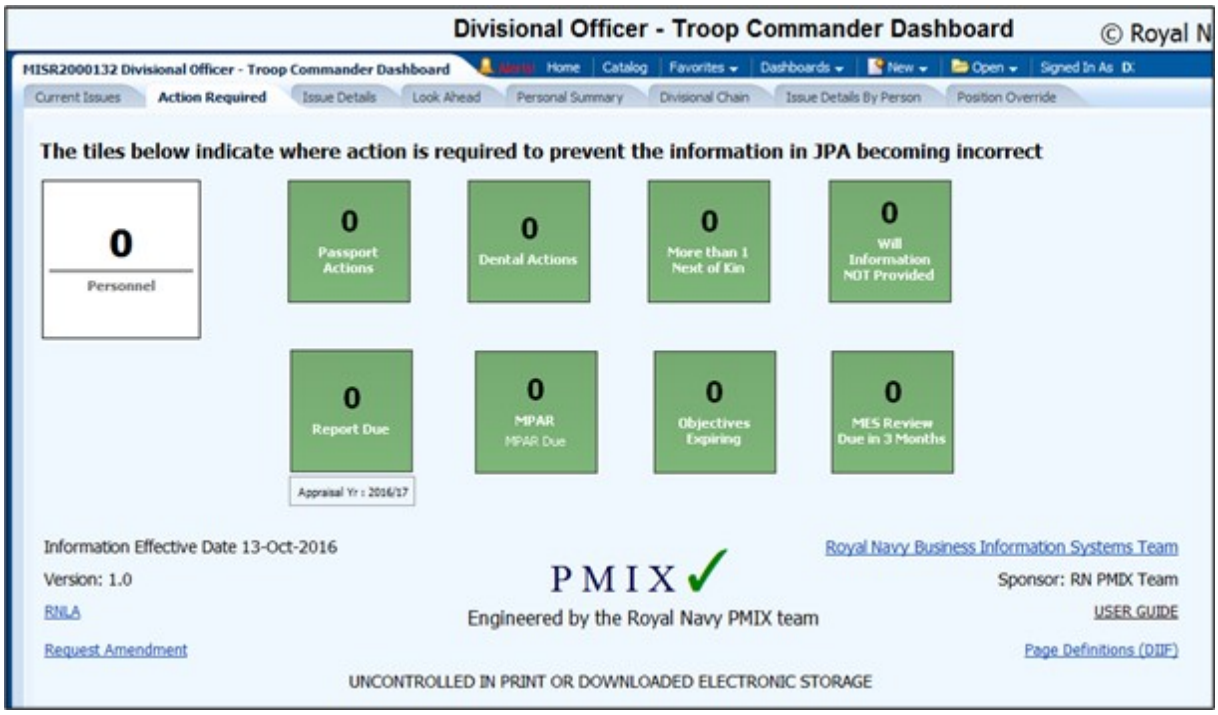
Which then leads the user to the Naval service OBIEE Dashboard System introduction:



Once the DO/Tp Cdr has entered the dashboard, they will be presented with a traffic light system that will highlight current and potential issues with key data in both personal and assignment details, e.g. as follows:

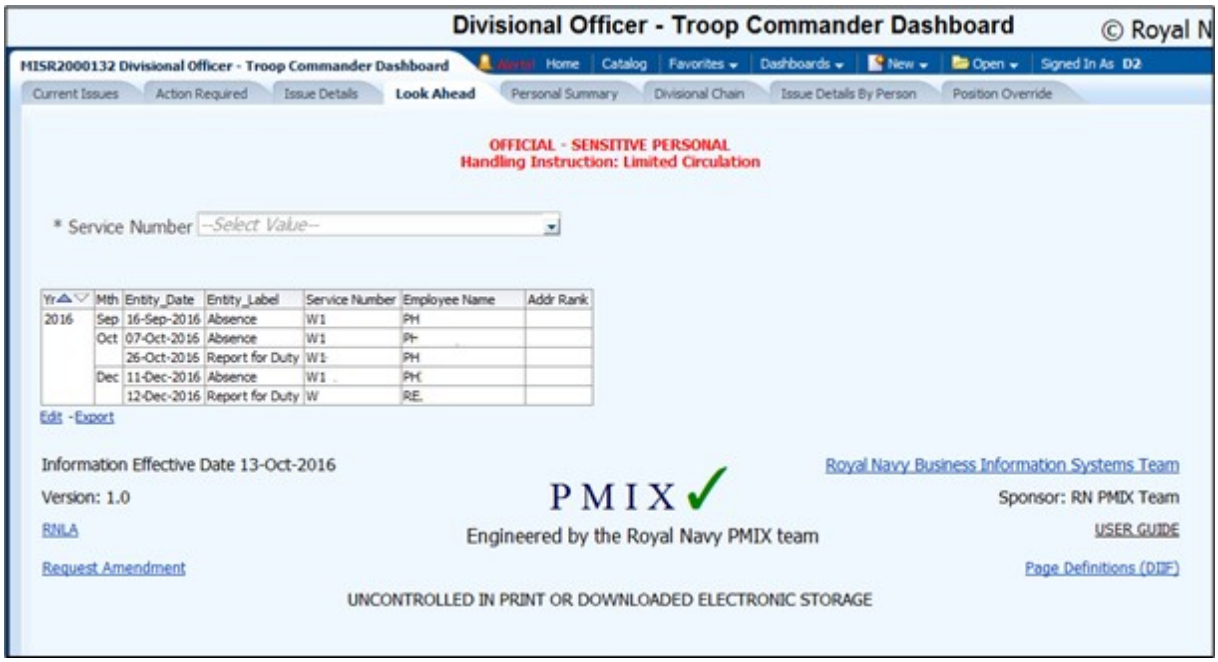


Clicking on the Action Required tab (second in from the left hand side) will take the user to the following screen:

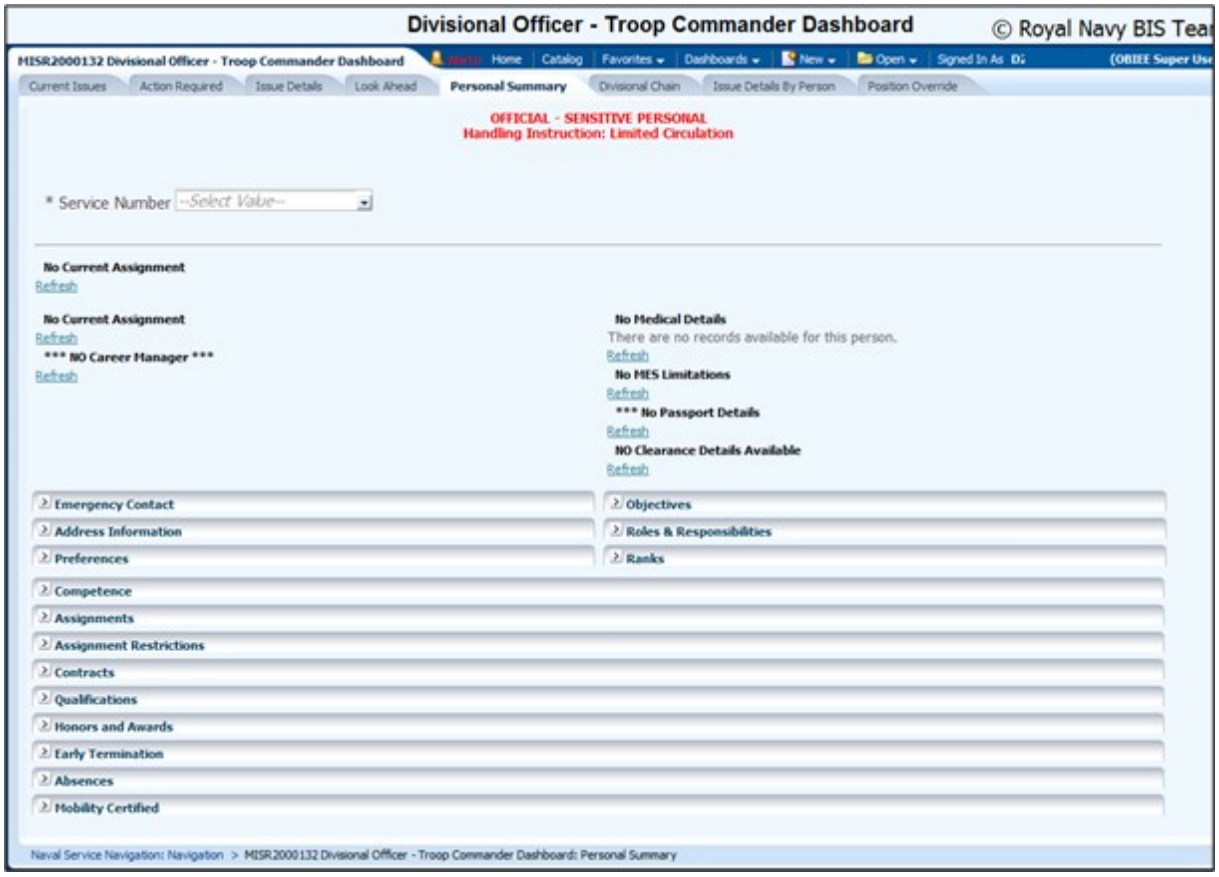


Clicking on the Issue Details tab (third from left) takes the user to the following screen:

Clicking on the Look Ahead tab (fourth from left) then takes the user to the following screen:

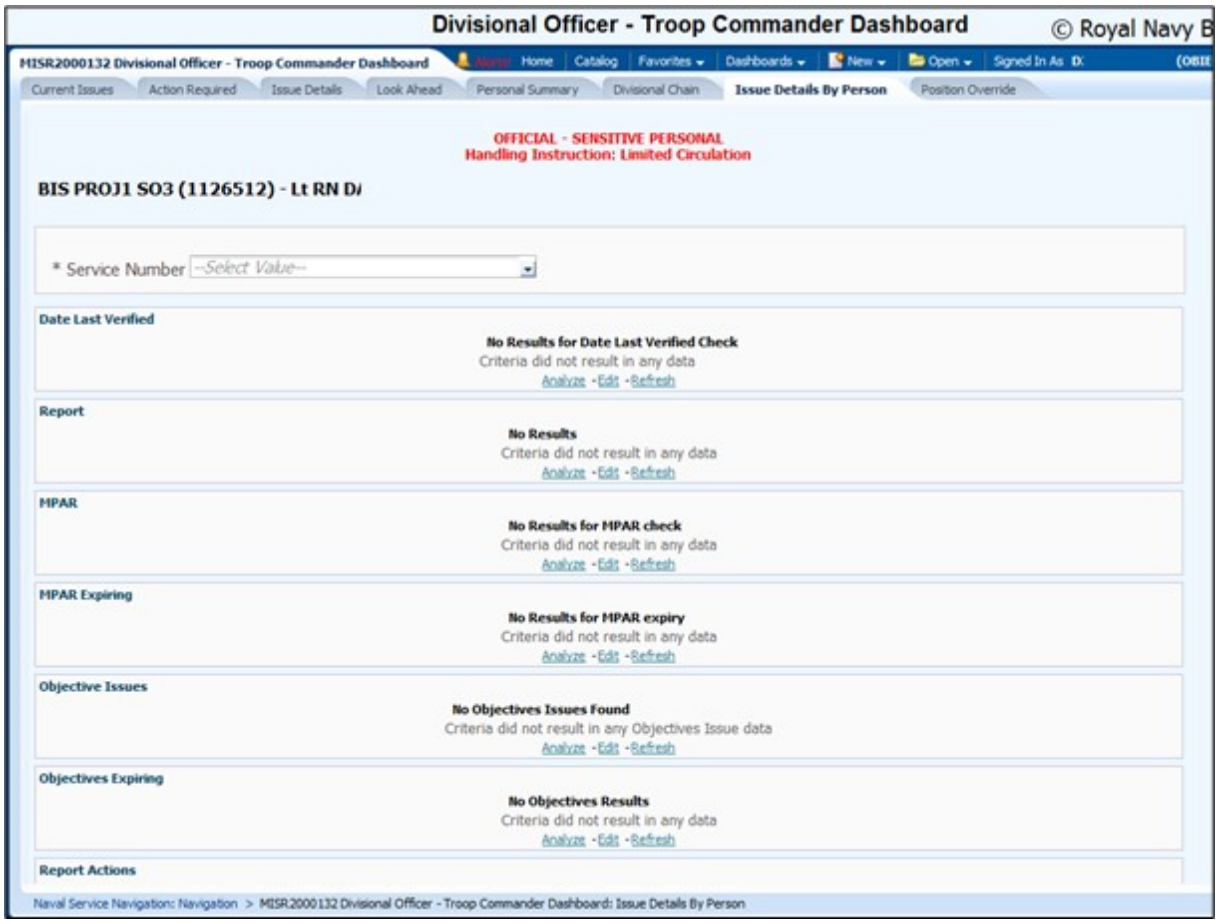


Clicking on the Personal Summary tab (fifth from left) takes the user to the following screen:



Clicking on the Divisional Chain tab (sixth from left) takes the user to the following page:

Clicking on the Issue Details by Person tab (seventh from left) takes the user to the following page:



The DO/Tp Cdr's Dashboard should be completed on the following occasions:

Annually (DO/Tp Cdrs may wish to set a date yearly for their entire Division).

Within two months of an individual joining a new Establishment/Unit.

No later than one month after the SJAR/OJAR has been finalised on JPA Appraisal (in readiness for the next reporting period).

ANNEX 21C

APPRAISAL REPORTING

1. The definitive guidance and authoritative document for all matters pertaining to appraisal reporting remains JSP 757, however the following paragraphs are offered as initial guidance for Divisional Officers.

2. Reporting Officers

Except in the most exceptional circumstances (and in the RM where other arrangements may be in place), DOs/Tp Cdrs are to be either the first (1RO) or second (2RO) reporting officer for every member of their Division. DOs are to liaise closely with line managers of individuals in order to track and report on professional progress. In very exceptional circumstances where both 1 and 2 ROs are non-commissioned, a commissioned officer is to act as 3RO and sign the relevant boxes in the SJAR to certify that the 1 and 2 RO comments are accurate. This is to ensure that ratings/ORs in such situations are not disadvantaged (see Chapter 57 and JSP 757 for detailed guidance).

3. Mid Period Appraisal Review (MPAR)

The following actions are to be carried out in respect of MPARs:

a. MPARs for all personnel are mandatory. In normal course, following the joining procedure, the next formal interview to be carried out by the DO/Tp Cdr will be the Mid Period Appraisal Review (MPAR). The MPAR is the method by which the Naval Service informs its people how they are performing and what they must do if improvement is required and how to enhance their professional development. Every individual is entitled to an MPAR and one must precede each appraisal report.

b. An MPAR must also be held whenever an individual's performance noticeably deteriorates. In such a case the MPAR would be the likely precursor to a 'Special' report as part of the professional warnings process. This occasion should be taken as an opportunity to address matters such as unsatisfactory social behaviour e.g. persistent misuse of alcohol or abuse of social media. In these regards it acts as an effective audit trail and is a far better tool than a simple verbal debriefing (which in all likelihood is quickly forgotten and in any event does not form a recordable evidence chain).

c. It is important to understand that the MPAR is a management tool that enables the best possible performance to be derived from our people as much as keeping them informed of how they are perceived. DOs/Tp Cdrs should therefore be familiar with the coaching techniques at Annex 21V (GROW) and Annex 21W (Effective Feedback) and make every effort to use these techniques appropriately in MPARs.

d. Whenever possible, MPARs should be held mid-way through the period between appraisal reports. With the inception of Common Reporting Dates aligned to rate/rank, DOs/Tp Cdrs need to plan an MPAR schedule to ensure each member of their division is given ample time for their MPAR. Individuals should always be given at least 24 hours' notice of an MPAR and the opportunity to comment against it. DOs/Tp Cdrs may wish to draw up a draft report for use during an MPAR or use local templates; a copy should be given to the individual and one retained by the DO/Tp Cdr.

e. Preparation is the key to a successful MPAR. A DO/Tp Cdr must gather as much relevant information about the individual as possible. The DSR/SNCO should be consulted together with the employing officer (where they are not the DO) and the individual's line manager. While it is appropriate to give praise when due, the MPAR must inform the individual of how they are performing in all aspects of their job including those 'whole-ship' tasks such as duties and communal roles. Where the DO/Tp Cdr is unable to comment objectively from their own knowledge or experience they must seek advice from appropriate sources. Telling someone that they have a weak area or other problem is never easy and DOs must ensure they are well informed and briefed before raising such matters.

f. The DO/Tp Cdr must listen during the MPAR. The individual should be put at their ease, encouraged to join in a dialogue and given the opportunity to describe whether outside factors have been adversely affecting their performance at work; this may well yield some important information. The MPAR is not a mechanism for individuals to negotiate a report that is acceptable to them but it is a two way flow where both participants have an equal investment in the individual's career. An effective tool to guide this conversation is the GROW model (Annex 21V), which provides a means for the DO to assist the individual to develop towards realising their full potential. Applied appropriately, GROW will work regardless of the starting level of performance: those already at a satisfactory standard can be stretched and challenged toward excellence while those underperforming can be supported in reaching the required performance standard.

g. DOs/Tp Cdrs must be ready to articulate and explain their views when addressing someone's faults; although this takes moral courage, it is their absolute duty. An effective tool for the DO to structure feedback, including honest articulation of shortcomings and credit where it is due for strengths, is the Effective Feedback model (Annex 21W).

h. Finally, the purpose of airing problems at the MPAR is to achieve an improvement in the individual's performance. A recovery plan must be agreed and progress checks made at appropriate milestones which may require follow-up interviews. Where problems are rectified between the MPAR and the report due date they should be discarded and not included in the subsequent report. The MPAR, although in most cases produced electronically, should still be signed both by the DO/Tp Cdr and the individual. This provides assurance that both parties are content with the report and the measures proposed/implemented within. Once the final report is completed, the MPAR form can be destroyed.

ANNEX 21D

DIVISIONAL JOINING LETTERS

1. General

DO/Tp Cdrs are to make official contact with officers/ratings/marines assigned to their division as soon as the initial Assignment Order is received. A joining letter is always to be sent, even if the majority of contact is by telephone or email. The exact content of the letter is left to the discretion of the author but DO/Tp Cdrs may find the format and possibly even the content of these letters largely decided by the Command in some units. In the case of Senior Ratings/SNCOs, it is recommended and encouraged that, in addition to the formal letter of introduction, the current incumbent writes to their relief to give greater detail about the job and also more general useful information (e.g. mess social events etc.).

2. Contents

Several important subjects must be covered, some of which may only be applicable to seagoing or deployed units. These include the following:

a. Details of the individual's intended employment, all aspects to be covered; enclose a copy of the current Job Description/TORs (NB: Where appropriate, the accuracy of all assigned Temporary Employment Modules (TEMs) is to be confirmed by the DEPCO who is to check the Establishment List. Any errors or omissions are to be set out in the joining letter and resolved immediately with DDPD).

b. Confirmation of the joining date and place (NB: Where this differs from the date on the Assignment Order it is essential that the discharging unit and DDPD are informed, in accordance with Chapter 61 Section 2).

c. Details of the ship's/unit's medium term programme (classified not above 'OFFICIAL' accompanied by the emphasised statement that the programme is for the individual and their immediate family only); a copy of the latest 'Midcast' or 'Longcast' will suffice if it meets the classification caveat.

d. Details of tropical or other kit that will be required on joining or for deployment if applicable.

e. Names of main ship's personalities (CO, XO, HoD, EWO/RSM, DSR/SNCO, LHOM, etc.).

f. Any medical requirement (i.e. vaccinations, dental check, JMES review, PULHEEMS, diving medical, hearing conservation programme, deployment specific medical prophylaxis, etc.) to be undertaken prior to joining.

g. Reference to Service Family Accommodation (SFA) entitlement if applicable.

h. Requirement for any specialised training or equipment and any special information such as:

(1) OPTAG training.

(2) Requirement for General Service Respirator.

(3) Passport.

(4) Personal insurance.

(5) Encouragement to make a Will.

(6) Unit contact details for family (if joining whilst deployed).

(7) Ship/Unit specific NCT.

3. Signatories

In some ships/units, the CO may wish to send the ‘official’ joining letter, especially for certain key senior rates/SNCOs. Alternatively, the DO/Tp Cdr may wish to send an over-arching introductory letter and then leave the DSR/SNCO to send a follow-on letter or email with detailed instructions/content (the latter may be delegated to a Leading Hand/Corporal if appropriate). Some DOs may prefer to retain sole custody of the initial contact.

APPENDIX 1 TO ANNEX 21D

EXAMPLE OF A DIVISIONAL OFFICER'S JOINING LETTER

HMS [Name]
BFPO [No]

Rate/Rank/Name/Service No
Address
Date

Dear [*Name*],

1. On behalf of the Commanding Officer, [*Rank and Name*], welcome to HMS [*Name*], which, as you probably already know, is a Type/Class [*describe ship*] that is based at [Base Port].

2. I am [*Rank/Rate/Name/Title*] and I will be your Divisional Officer/Troop Commander. [*CPO/PO/CSgt/Sgt/Name*] will be your Divisional Senior Rate/SNCO. It is anticipated that you will be employed in the [*Name*] Part of Ship/Section, and will initially be working for [*CPO/PO/CSgt/Sgt/Name*]. I have enclosed a copy of the current Job Description/TORs for your post to give you an insight into your job.

3. For your information, I have also enclosed a copy of the Ship's/Unit's Longcast which is Protectively Marked Official and should be discussed only with your close family/friends. As always, the programme is subject to change at short notice.

4. Your Unit Personnel Office/Ship's Office/Unit HR has been advised of your joining instructions, which are as follows:

a. You are to join the Ship/Unit at [*Place*] by [*Time*] on [*date*] and should be in possession of a full Blue uniform (plus Tropical uniform if appropriate) and a serviceable GSR.

b. You should bring a photocopy of your current Weapon History Sheet.

c. You are required to check your personal Force Health Protection (FHP) Measures within My Health on JPA, and the Healthcare site within MyNavy App to review your deployable fitness standard. You are to ensure that your Medical Deployability Standard and any MES limitations are correctly identified.

d. You are to ensure you are in-date for all vaccinations and are to include any vaccinations that are due to expire within six months of joining.

e. You are to ensure that you are Dental Category 1: Fully Fit and in date for Personal Dental Inspection. If you are Dental Category 3 or 4 you are to seek dental advice.

f. You should also ensure that you are in-date for your Hearing Conservation Programme.

g. You are to attend your Medical/Dental Centre and request that a check of your documents is made to ensure that you are in date for all medical/dental checks, as previously detailed, along with PULHEEM/Diving Medical etc. prior to joining, and unlikely to go out of date prior to [*add date*]. Furthermore, you are to request the following vaccinations/prophylaxis: [*details to be supplied by ship/unit's medical staff*]. Failure to do so may prejudice your ability to enjoy shore leave during our forthcoming programme.

h. Your passport should be valid for at least the next [*number*] months.

i. As a [Name of Base Port] based ship, you and your family may be entitled to Service Family Accommodation (Note 1) in the local area, for which you are advised to apply as soon as possible.

j. On joining, [*Rank/Rate/Name*] will be your 'Sea Parent' (Note 2) for your first two weeks onboard and will acquaint you with the ship's/routines and guide you as required.

5. I look forward to meeting you on joining; however, in the meantime, please do not hesitate to contact me if you require any further information.

[*Signature Block*]

Enclosures:

1. Job Description.
2. Longcast.

Notes:

1. *Only if appropriate - i.e. the person is married.*

2. *For Senior Ratings only, replace with: "You will shortly receive another letter from [Name] - the present incumbent of the position you are going to fill, who will send more details of your job."*

ANNEX 21E

DIVISIONAL JOINING INTERVIEWS

The following points represent best practice when a DO/Tp Cdr conducts a Divisional Joining Interview:

a. The interview should be in the DO/Tp Cdr's cabin/office or other similarly private area and programmed for at least 30 minutes (possibly up to an hour) which must be free from interruption. The interview should be kept as informal and welcoming as possible. The DO/Tp Cdr may need to take some notes but this should be kept to a minimum. The joining interview is part of the formal 'induction' procedure, completion of which is mandatory. As such the interview must take place as soon as practicable but absolutely within 28 days of the new joiner's arrival.

b. Personal style will influence the exact conduct of the interview, however in general it is probably a good idea to begin by showing an interest in the individual and by initially talking about their previous assignment, family, home and personal circumstances; this should help draw information, overcome initial shyness and gain the individual's confidence. Establishment of the individual's domestic status, whether they have children, and whether there are any particular problems in these areas (e.g. moving to a new base port, entitlement to and availability of SFA etc). Then matters such as the following may be addressed:

(1) Service Engagement – confirm Termination date and resettlement status if appropriate.

(2) GCBs held/due (include LSGCM if appropriate).

(3) Professional status and aspirations.

(4) Educational status and aspirations (is the rating QEWO or an SUY candidate – do they aspire to this?).

(5) Pre-promotion training performance (if this is their first assignment in a higher rate).

(6) A full JPA check in accordance with Annex 21B.

c. Some DO/Tp Cdrs may be uncomfortable with discussion of the more personal aspects of an individual's life, especially if this involves protected characteristics. It is the DO/Tp Cdr's job to overcome any awkwardness and getting to know the person pays long term dividends. This can save embarrassment for both parties through asking inappropriate questions at a later date. DOs can then appreciate what is important to the individual which, in turn, will make the individual feel valued.

d. For many individuals joining from initial training there is a high likelihood that they will be involved with an accreditation route to achieve an NVQ or Apprenticeship Programme. DOs have an important role in ensuring these ratings achieve valuable civilian qualifications (see Individual Training Policy in Chapter 95).

e. For individuals who have recently been deployed on operations, their Service Documents will contain records of Post Operational Stress Management (POSM) (1 per deployment). The content of these should be reviewed by the DO/Tp Cdr and, if necessary, discussed with the individual to ensure continuity of divisional/troop (and any other necessary) support. (NB: If the rating joins under punishment or suspension of punishment, it is essential that the new DO explains the full implications of the punishment, i.e. it should not be assumed that the rating has been briefed.)

f. Once the appropriate Arrivals action has been taken on JPA and the AR initiated by the Appraisal Administrator, the DO and First Reporting Officer (1RO) should discuss the individual's intended employment. The Roles and Responsibilities will have been established prior to the Subject joining their unit and, where available, TORs should also have been briefed. Personal Objectives should be agreed and Career Preferences and Aspirations discussed. The individual is, in an agreed timeframe (recommend maximum of seven days), to enter their Personal Objectives, Career Preferences and Aspirations into JPA. Once this has been done the front page of the SJAR should be printed and handed to the rating. The DO should explain in straightforward terms what is expected of the individual, covering all aspects of employment including that for 'duties' and other 'whole ship' tasks. The DO should set objectives for the individual to achieve over the forthcoming reporting period and ensure the individual understands what is expected of them. Similarly, the individual's training state should be assessed and the DO must draw up a personal training and development record for each individual.

g. A draft Personal Plan (PP) will also be drawn up at this stage for 'squadded' personnel and may include the individual's plans and aspirations for leave, harmony time, educational courses and Adventurous Training. The PP should be discussed in advance with the DEPCO for de-confliction and with the EWO for endorsement; this is an ideal role for the DSR/SNCO. Full instructions on the GSP system, PPs and the DOs responsibilities are contained in the GSP CONOPS, Fleet JR Squad System Divisional Aide Memoire and the Squad System Desk Instructions held by waterfront PSGs. The EWO and DEPCO are focussed on the delivery of OC to the Command from a workforce perspective and, as a consequence, it is deemed best practice to formulate a PP for all members of the division, including Senior Rates and those who are not part of a squad. Remember that the details submitted to the DEPCO for ratification by the EWO are aspirational and, although every effort will be made to meet any agreed arrangement, the operational commitment of the unit has primacy; this should be made clear to individuals.

ANNEX 21G

WALKING THE PATCH - SOME DO'S AND DON'TS

1. DO'S

a. Do make sure that you have enough time to stop and talk; it would be counter-productive to start a conversation only to dash off to a meeting as the individual starts to confide in you.

b. Instinctively know the individual's name and have something to say; a few 'ice breaking' conversation pieces. There is nothing worse than silence. Ask how the individual is, whether they were ashore last night, plans for the weekend, how the deployment is going, complimenting their part of ship or work, how is their task book training? As you grow in confidence and get to know your people you can become more adventurous. How is the family, did you get the course you were hoping for, how is morale in the mess? Then just have a normal conversation.

c. Do be aware of body language and avoid being 'defensive' in posture.

d. Do be prepared to answer questions on unit policy. Sailors and Marines will be keen to glean the latest 'buzz' from the Wardroom/Officers' Mess; if necessary ask the XO for latest direction and guidance.

e. Do make sure that you acknowledge and take for action any issues raised and also feedback any salient points to the Command if the need merits.

f. Do make sure that your uniform and appearance is smart and proper. It would be awkward to pick someone up for not polishing footwear or for having a back pocket button undone if you are in the same state.

g. Do be interested in what they are doing; look, ask questions and listen conscientiously. If someone has an idea you the DO can act on, do so and tell them how it's going; if you can't act on it, tell them why not. More importantly, if saying that something will be done for someone, make sure that it is done.

h. Do use the opportunity to maintain standards and NCT/MATTs. Ask them if they are in date for respirator testing or alcohol lecture, for example "did you complete the brief you promised at our joining chat?". It all adds to the conversation.

2. DON'T'S

a. Don't be afraid to pick someone up for not maintaining standards. It is your job and your duty, so never fear from upholding standards by applying moral courage. However, this should not stop you having the conversation you intended in the first instance.

b. Don't be afraid to speculate for example about a forthcoming event or programme, but do make it clear that you are expressing a personal opinion and don't make a comment or speculation which would embarrass the Command later.

c. Don't be a 'fair weather' DO/Tp Cdr. Your people work in the wind and rain, so get out and see them when the going is tough - they will respect you more.

ANNEX 21H

ETHOS, VALUES AND STANDARDS

SECTION 1 - OVERVIEW

1. Introduction

The ethos, values and standards set out below have been selected as being those that experience has shown are vital for success on operations. It is only by fully accepting and living them 24/7, whether on deployed operations, peacetime tasking or off duty, that we can build that teamwork and the spirit to fight and win, which is so crucial to Operational Capability.

2. What is Ethos?

Ethos is the distinctive character, spirit and attitudes of a community, people, culture or group; it defines and motivates the shared ideas, understandings and customs. The ethos of the British Armed Forces centres on four tenets[1]:

a. Vision – how we see ourselves and our purpose;

b. The desire to achieve operational excellence (professionalism);

c. Our Values (what we stand for);

d. Our Traditions.

"Communicating them effectively not only influences how we see ourselves, but also how others perceive us. This underpins our credibility on the global stage".

3. What is Royal Navy Ethos?

By necessity, we operate many miles from our home ports, bases and families in the UK and therefore must bring everything we need with us in order to achieve our missions. The Royal Navy is a 'can-do' organisation and will attempt any mission we are given with the means we have available to us. The ethos of the Royal Navy is defined as:

"The enduring spirit derived from our people's loyalty to their ship, unit or team, sustained by high professional standards and strong leadership that gives us courage in adversity and the determination to fight and win".

It is what we do and how we do it.

[1] Joint Doctrine Publication 04 – Understanding, Para 403.

4. Aim

This Annex outlines the key components of Royal Navy ethos and the importance of understanding, encouraging, fostering and preserving it in order to ensure continued success in future operations and armed conflict. In this context, the Royal Navy comprises of the four Fighting Arms (the Surface Flotilla, Submarine Service, Royal Marines and Fleet Air Arm), the Royal Fleet Auxiliary and the Maritime Reserves and is broadened to include supporting civil servants and families in the collective. It is recognised that the guidance provided is generic and that individual Fighting Arms continue to emphasise their own and unique characteristics. For example, although the Royal Marines are an integral part of the Royal Navy, their history, operational role and characteristics demands a variation on this and is covered separately in the Royal Marine Ethos – 'The Commando Spirit' – documentation.

SECTION 2 - THE COMPONENTS OF ETHOS

5. Vision: How we see ourselves and our purpose.

The Royal Navy must be able to project maritime power to protect and promote our nation's interests. This will require a Royal Navy that is operationally versatile and interoperable in all environments as part of a joint, multi-national and multi-agency force. There is an imperative to be forward deployed, preventative in approach and culturally aware to build trust and make sense of an increasingly complicated world. The Royal Navy must innovate to be able to adapt more quickly than its adversaries and must be supported by lean, effective equipment and workforce structures. Success rests firmly upon the quality of the Royal Navy's people; well led, robust, committed and confident of operating in the maritime environment and expert in handling risk. The Royal Navy will continue to invest in high end technology but it is our people that will deliver the battle winning edge.

6. Standards: The desire to achieve operational excellence.

Our continued success in future operations must be founded on high professional standards. We must demonstrate a sustained desire for continued improvement and innovation to ensure that we maintain the edge over our potential adversaries and remain a world class Navy. To that end, the Royal Navy must be structured and trained to fight, not for the convenience of administration in peace. Whatever area we work in, ultimately the focus for all of us should be on maintaining and improving our current and future war fighting capability. Equally important is the demonstration of high personal standards; whether it is immaculate uniform, smart civilian attire or excellent behaviour at all times, our personal standards must remain consistently high. Divisional standards including knowing the team, working hard to keep on top of divisional staff-work and writing timely reports all have a part to play. Finally, it is our duty and responsibility to uphold and enforce professional and personal standards – setting the right example and encouragement is always better than enforcement.

7. Core Values: What we stand for.

Our core values should be displayed at all times by all of us, whether we are on duty or ashore with our friends and families. They should recognise our values and understand that we are different from society and justifiably proud of the high standards we uphold in support of our country.

a. **Commitment.** Selfless personal commitment is the foundation of Naval Service and enables us to demonstrate a sense of authority and purpose. We must be prepared to serve whenever and wherever we are required, and to do our very best at all times. This means that we accept that we will be expected to put the needs of the mission, and our team, ahead of our own interests.

b. **Courage.** Courage creates the strength on which fighting spirit, that essential element which turns a fighting force into a winning force, depends. We must have the physical courage to carry on with our task regardless of danger and discomfort, and the moral courage always to do what we know is right.

c. **Discipline.** The Royal Navy must be a disciplined service if it is to be effective. We must therefore obey all lawful orders from our superiors. Self-discipline is fundamental; being able to discipline ourselves will earn us the respect and trust of others, and equip us to cope with the difficult, individual decisions we will have to make during our service.

d. **Respect for Others.** Each one of us has the exceptional responsibility of bearing arms, either collectively as part of a unit or individually, and when necessary of using controlled force. In addition, we will sometimes have to live and work under extremely difficult conditions. In such circumstances, it is particularly important that we show the greatest respect, tolerance, understanding and compassion for others regardless of their personal background; leadership and teamwork depend on it, and we have the fundamental right to expect to be treated with the same degree of respect and dignity by all with whom we serve.

e. **Integrity.** Integrity is that quality of an individual's character that encompasses honesty, sincerity, reliability, and unselfishness. It is an essential requirement of both leadership and comradeship. Unless we maintain our integrity, others will not trust us and teamwork will suffer. Putting this integrity into practice sometimes requires us to show moral courage, because our decisions may not always be popular. This is not always easy; however, doing the right thing will always earn respect.

f. **Loyalty.** The Nation, the Royal Navy and those with whom we serve rely on our commitment, dedication and support. We must therefore be loyal to our leaders, those that we lead, our team, and our duty. Pass this test and we will never let others down.

8. Tradition – History, Heritage and Reputation: The Character of a Fighting Force

King Charles II:

> ***"It is upon the Navy…that the safety, honour, and welfare of this realm do chiefly depend".***

Being able to look back over a long and distinguished history is a luxury and privilege that many organisations do not have. The wide ranging history of the Royal Navy, far from being a shackle that holds us back, gives us a unique ability to understand complex situations, today and tomorrow. We can draw an immense amount of pride and satisfaction from this history and our many quirky and unique traditions. It allows us to appreciate the viewpoints of our partners, as well as our potential adversaries, to have an edge in leading in an international setting and to take the positive and negative lessons in order to gain the impetus to adapt and evolve. Our reputation is second to none; many attempt to emulate, but only a few succeed.

9. Leadership

Lieutenant General Capewell, Chief of Joint Operations (2013):

> ***"….chemistry is as important as physics, Emotional Intelligence is as important as IQ and that ATTITUDE invariably trumps aptitude".***

Leadership inevitably pervades all aspects of ethos and is absolutely fundamental to its maintenance. Good leadership inspires and underpins everything we do and is the glue that holds all our activity together. This is never more important than during periods of conflict when we need to overcome, or at least control, fear, fatigue, discomfort and uncertainty. In doing so, the duty of all leaders, at every level, is to maintain the morale and cohesion of the team. High morale is absolutely pivotal to the fighting efficiency of any Ship, Commando, Squadron or Submarine and depends on every individual playing their part and contributing to cohesion as a whole. No matter what their task is, every individual must believe that what they do really matters.

10. Teamwork

Strong teamwork is fundamental to our success and is the component that brings all our individual efforts together. It unites us in our understanding and commitment to work with each other, whatever our function in order to provide maximum unity of effort. Shared pride in success comes from good teamwork. Good teamwork is absolutely essential if we are to face and overcome the challenges inherent in war fighting. We are so much stronger, and have a better chance of winning, when we work together.

11. Morale

The maintenance of good morale is one of the principles of war. It is based on recognition of the needs of the individuals who collectively form the team, and it manifests itself in the will to win. Morale promotes the offensive spirit and determination to achieve the aim. Good morale is based on: a shared sense of purpose; clear understanding of, and belief in, the aim; discipline and self-respect; confidence in equipment; training; and well merited mutual trust and respect between those in and under command. The Naval systems of Command and its long standing Divisional and Regimental Systems provide a clear framework for effective leadership and support for the individual within the ship, or unit.

12. 'Can Do' Attitude

Many of the components of Naval ethos are captured neatly in the expression 'Can Do'. The Royal Navy has a legendary reputation for sticking to a task whatever the constraints or changes in circumstance. This was summed up by Admiral Cunningham's remarks during the evacuation of Crete in 1941:

"It takes three years to build a ship, 300 years to build a reputation - We'll stay."

13. Sense of Humour

Maintaining our unique Naval sense of humour and banter is vital to our ethos and way of life. It helps us face adversity, whether it is physical hardship, fear or uncertainty. It can break tensions, allowing events to be seen in a more balanced perspective. No matter how grim the situation, 'Jack' and 'Royal' will always see the funny side of it and almost invariably someone will have been in a 'worse' situation before. The almost limitless ability of our people to exchange anecdotes or 'spin dits' about all aspects of Naval life, many of which have a serious point, is a crucial means by which our ethos is sustained and instilled into our successors. However, if taken to the extreme, there is a fine edge of common sense and good taste when banter can be offensive and thus unacceptable.

14. Humility

We should not be self-important or arrogant and we should never show condescension towards others. Instead we should treat others with respect and, while confident in our own ability, we should value others and welcome and recognise their contributions. We should appreciate our own fallibility and learn from our mistakes.

15. Covenant

The Armed Forces Covenant (see Chapter 1, Para 0111) is the formalisation of the agreement by the citizens and Government of the UK to support the UK Armed Forces and their families. It states that we should face no disadvantage compared to other citizens in the provision of public and commercial services. Special consideration is appropriate in some cases, especially for those who have given most such as the injured and the bereaved. It is the written declaration that our nation supports us in what we do. Furthermore, there is a relationship that exists between the Royal Navy and its people and their families. This is represented as a series of mutual beliefs, perceptions, informal and formal obligations which engenders trust and mutual respect. An example of the expression of this 'bond' is Personnel Functional Standards (PFS) (see Chapter 22).

16. Standards of Conduct

a. The Royal Navy has an enviable and unrivalled reputation for operational success, both past and present. It is an enduring feature of which everyone can be justifiably proud, but we should not take this for granted. Awareness and continuity of our ethos is fundamental to maintaining this success in the future. Regardless of your rank or position, in terms of 'RN Ethos - The Spirit to Fight and Win', you therefore have a duty to understand it; recognise the pressures that could undermine it; and encourage, foster and preserve it. As members of the Royal Navy we are expected to conduct ourselves to a high standard at all times. A handful of simple guidelines should help:

(1) **We Must Obey:**

- Civil Law, wherever we are serving;

- Service Law, which includes additional offences that are required to maintain discipline and thus operational effectiveness; for example, absence without leave, and insubordination; and

- the Law of Armed Conflict, whenever we are on operations.

(2) **We Must Also Avoid:**

- any activity which undermines our professional ability, or puts others at risk, in particular the misuse of drugs and abuse of alcohol;

- any behaviour which damages the trust, confidence and respect between us and others in our team and unit. In particular, we must not:

- harass, bully, or discriminate against anyone, on any grounds; or

- behave in a manner which could undermine good order and naval discipline or tarnish the Service's long standing reputation.

(3) **The 'Service Test'.** Ultimately, we must always measure our conduct against the following test:

"Have the actions or behaviour of an individual adversely impacted on the efficiency, operational effectiveness or reputation of the unit and/or the Service?"

b. If we can look ourselves in the mirror and say, honestly, "No, my action will not have an adverse impact" then we can be proud of the fact that we are living up to the values and standards expected of us. On the other hand, if we are unsure of our answer, or find ourselves saying "Yes", then we are about to over-step the mark. This is indeed what every Commanding or Divisional Officer will need to consider when assessing any potential Code of Social Conduct issue.

17. The Special Duty of our Leaders

Those in positions of authority, from Leading Hand upwards, have a duty of care towards our subordinates, looking after their interests and ensuring that they fully understand what is expected of them. This duty of care requires us to deal with any complaints brought to our attention in a thorough, impartial and timely manner. It is everyone's absolute right to make a complaint, and equally the duty of those in authority to do all in their power to assist them in the resolution or progress of that grievance. Above all, those in authority must make every effort to ensure that anyone who complains is not made to feel that they are being treated any differently, or victimised, because they have complained.

18. Conduct of those in Authority

In order to be an effective professional fighting team, mutual trust, obedience, loyalty and respect between all ranks and rates is essential. The conduct and behaviour of those in positions of authority must therefore be beyond reproach. Officers, Senior Ratings and Leading Hands should not defer from making well considered and necessary but unpopular decisions or giving reasonable but firm orders for fear that they will be challenged by a complaint on the grounds of harassment or discrimination. Any inappropriate behaviour, in particular that of bullies and harassers, must be challenged. Moral courage and appropriate leadership throughout the chain of command must be exercised at all times.

a. Officers

(1) Changes in society, together with a more egalitarian approach to entertainment ashore, have increased the tendency for officers and ratings to visit the same bars and clubs, particularly abroad. Whilst this can sometimes be useful in the context of team building, problems can arise in such a relaxed atmosphere where alcohol is being consumed. The trick is for the officers to be alert to the need to disengage before any difficulties arise. Dress also has a part in subtly reinforcing rank distinction. Further, a very late hour and excessive drinking before proceeding ashore have been common factors in a number of disciplinary cases involving officers and ratings; and previous over-familiarity on board has often been behind a breakdown of discipline. A guiding rule of thumb is that officers must be discernible as officers, by their dress, behaviour and conduct, at all times, in all places both on and off duty

(2) Being well informed about what is happening in the work place, mess decks and accommodation is as important as ever for Divisional/Messdeck Officers in the care of their people. Even regular walking of the patch is unlikely to keep a DO/Tp Cdr sufficiently aware of issues in messes, especially those of a sensitive nature, such as bullying or any form of harassment. Two-way communication is vital in this area and frequent informal discussions with the DSR/SNCO will yield high dividends. Similarly, if DSR/SNCOs are doing their job properly and being observant, they will draw the DO/Tp Cdr's early attention to areas of potential difficulty. With mixed-branch messdecks increasingly the norm, liaison is vital between the Messdeck Supervising Officer, the DSR and the Leading Hand of Messdecks in order to maintain an enjoyable and efficient working and living environment.

b. **Senior Ratings/Leading Hands.** There have been many occasions when incidents onboard and ashore could have been avoided if the Senior Ratings present or involved had acted with courage, conviction and in a responsible manner. With an increasing focus on the need for professional technical expertise, Senior Ratings need to be given regular reminders that first and foremost they are Warrant, Chief and Petty Officers with the responsibilities that come with those higher rates. Too often service discipline has been eroded by abrogating responsibility through condoning activities that are clearly contrary to good order. With this in mind, Senior Ratings and Leading Hands must know that they will be fully supported when they use their authority. The need for moral courage and resolute action extends to all supervisory levels, including Leading Hands, again, both on board and ashore. This is particularly so for Leading Hands of Messes who, while they have a responsibility to the Command chain, also have an important role to play in the divisional context and must be positively encouraged to keep the DO and DSR informed, and to be confident of their support. Periodic reminders to all in positions of authority of the words on the reverse of the certificate of advancement are commended, the key parts of which are as follows:

"QRRN 3602. Maintenance of Good Order

1. It is the duty of every Officer, Warrant Officer, Chief Petty Officer, Petty Officer and Leading Rating of each branch of the Service to ensure that order and regularity are preserved in their vicinity among those Officers and ratings/ranks, of whatever branch and whether they are on duty or not, who are junior to them in rank or rate;

2. Conduct to be observed. All Officers and ratings/ranks are to conduct themselves with the utmost respect to their superior Officers and with strict obedience to their orders. They are at all times to discharge every part of their duty with zeal and alacrity and, so far as circumstances permit, to assist all Officers in the duties they have to perform. They should on all occasions strive to promote the welfare of the Naval Service and by the good order and regularity of their conduct show an example to those who may be subject to their command."

19. Control of Standards

One key area where standards can be enforced is through the control exercised on the gangway (or, where uniformed gate staff are used, at establishment gates). The Officer of the Day (OOD), Duty Senior Rating (DSR) Quartermaster and Bo's'un's Mate are vital to the effective maintenance of standards, in particular standards of dress and the control of liberty routines, both proceeding ashore and returning onboard. Duty personnel should be briefed regularly and given firm direction on requirements, including a regular reminder that we have a duty of care for our people under Health and Safety legislation. There is a particular need for the OOD and/or DSR to be present on the brow when the majority of personnel go ashore and when they are expected to return. Many OODs have lost their nerve in demanding high standards and need to be clear on the requirements and confident of support. Both Senior and Junior Ratings need clearly to understand the authority vested in the Quartermaster (QM) and symbolised by the Naval Patrol badge, which must always be worn; the QM has both the duty and the right to forbid any unsuitably dressed rating (up to and including Warrant Officer) from going ashore.

20. ‘Walk on by’ Culture

In some quarters a ‘walk on by’ culture has been allowed to develop, where individuals fail to exercise the responsibilities they have, and where standards are allowed fall. This is caused partly by societal trends, partly by reticence to demand a standard for fear of being unpopular. More accurately, it is caused by a lack of understanding of responsibility and by a lack of moral courage to do the right thing. No-one is paid to be popular; they are paid to do their duty and shoulder their responsibilities. It is worth ‘leaders’ of all ranks and rates knowing that subordinates like being in a disciplined service and that they expect standards to be maintained, and thus they do not resent having them enforced. You cannot be wrong for maintaining standards.

ANNEX 21I

THE ARMED FORCES' CODE OF SOCIAL CONDUCT

Para

2101. The Armed Forces Code of Social Conduct

APPENDICES

Annex 21I1 The Armed Forces Code of Social Conduct - Guidance Notes for Commanding Officers.

Annex 21I2 Guidance Notes for Commanding Officers on the Practical Aspects of Implementing The Code of Social Conduct

ANNEX 21I

THE ARMED FORCES' CODE OF SOCIAL CONDUCT

2101. The Armed Forces Code of Social Conduct

The Code of Social Conduct explains the Armed Forces' policy on matters of personal conduct. Although often focussed on personal relationships involving Service personnel, it can also apply to any behavioural issue (e.g. alcohol or drug abuse, gambling, debt and other elements of financial irresponsibility) in which a reference to the Service Test is needed. It applies to all members of the Armed Forces, regardless of their sex (including gender reassignment), sexual orientation, race, whether they are married or in a civil partnership, religion, belief, ability, rank or status. The Code of Social Conduct policy and application of the Service Test in JSP 887[1] take precedence over BRd 3, including the supplementary single Service guidance to Naval Service COs and all involved in the management of personal relationships and social misbehaviour contained in this Annex and its associated Appendices. If in doubt, the relevant staff legal adviser is to be consulted.

[1] JSP 887 - Defence Strategy and Social Conduct Code to Meet Public Sector Equality Duties.

APPENDIX 1 TO ANNEX 21I

THE ARMED FORCES CODE OF SOCIAL CONDUCT - GUIDANCE NOTES FOR COMMANDING OFFICERS

1. Key Criteria

Incidents which involve the potential commission of a civil or military offence should first be considered for investigation in accordance with Service disciplinary procedures. As a general policy, the Services will only intervene in the private lives of individuals where it is necessary in the interests of preserving operational effectiveness. Following such consideration, where it is judged that a case should be dealt with by adopting administrative procedures, then the factors below should be used in applying the Service Test to assess the seriousness of the actual or potential impact of the alleged social misconduct:

a. **Rank, Status and Responsibility.** What are the ranks (or status) of the individuals involved? Was any influence, inducement, manipulation, coercion or threat exercised by virtue of rank or status (e.g. instructor/student relationship)? Or may an individual have justified reason to believe that they might be subjected to unreasonable influence?

b. **Extent of Service Involvement.** Does the social misconduct involve other Service personnel, spouses or dependants of Service personnel, or civilian employees? Has any relationship directly or indirectly impacted upon command or management chains? Does it involve working relationships and, if so, have, or might these have, been damaged or compromised to any extent?

c. **Damage to other Relationships.** Has the conduct damaged or placed in hazard the marriage, civil partnership or personal relationships of other Service personnel, or those within the wider defence community?

d. **Broken Relationships.** Experience shows that broken relationships can also provide disharmony, particularly where the breakdown was caused by the conduct of, or at the behest of, one of the parties. Again, once the friction and difficulties come to the notice of those in authority, the parties concerned should receive divisional counselling and removal may be appropriate in some cases. Unfortunately, broken relationships, particularly where third parties are involved may, on occasion, spill over. In a number of cases, assaults have been carried out on former girlfriends/boyfriends and divisional staff should maintain an ever-watchful eye. Also, further cases have come to light where an individual, affected badly by the break-up of a relationship, has attempted self-harm. The foundering of relationships is not confined to the Naval Service but Commanding Officers will be aware that the close confines of a ship may bring an unusually high intensity to relationships.

e. **Sexual Activity Onboard Ship.** Any sexual activity onboard ship, whether homosexual or heterosexual, involving two or more people, will prima facie be prejudicial to good order and naval discipline and is likely to be an offence under Section 19 of the Armed Forces Act 2006. If personnel are discovered taking part in sexual activity onboard they should be taken to separate locations and questioned by Ship's Service Police. A medical examination is only required where there is evidence of, or an allegation that, a serious sexual offence has been committed. In such circumstances the procedures laid down in FLAGO Article 1611-12 covering rape and other serious sexual offences are to be followed.

f. **Operational Circumstances.** Did the incident occur within an operational theatre or environment? If so, the impact may be more immediate and severe.

g. **Understanding of the Service Interest.** To what extent has the individual disregarded the Service's attitude towards social misconduct?

h. **Previous Warnings.** Has the individual been previously warned about their behaviour - if so, when and how and to what extent has the warning been disregarded? Has there been a formal audit trail of warnings including appropriate MPARs if necessary?

i. **Unwelcome Attention.** Has the behaviour involved unwelcome sexual attention in the form of physical or verbal conduct?

j. **Damage to Service Reputation.** Has the incident caused damage (actual or potential) to the reputation of the Service? If so, how and to what degree?

k. **Awareness of Circumstances.** Was the behaviour conducted in the knowledge of the circumstances of the status of all parties? Was a spouse or partner absent from the unit on an operational detachment, leave, temporary duty or other long-term detachment? Was there any evidence of collusion or abuse of privilege to facilitate that absence?

l. **Response to Discovery.** Did the individual volunteer the information before it came to light? Once the incident came to light, did they freely admit the misconduct, attempt to lie or prevaricate? Were the denials repeated? Did the relationship continue despite (repeated) denials? Did the individual show remorse?

m. **Any Other Factors.** Do any other factors, such as stress or a medical condition, have a bearing on the case? Is there a security aspect to the case?

2. Range Of Sanctions

A broad range of sanctions[1] is available to commanders in taking action against social misconduct. Sanctions arising from administrative action fall into three bands: informal action; formal action; and termination of service. Formal disciplinary action will be a matter for summary disposal or trial by court-martial. Administrative action might also have to be considered in the light of such disciplinary action.

1 Not all the range of informal and formal sanctions will necessarily apply to the 3 Services.

a. **Informal Action.** After due consideration, a Commanding Officer could decide to take no action. If action is considered appropriate, the range of informal sanctions might include:

(1) Counselling or warning about future conduct.

(2) Informal rebuke (which might subsequently be reflected in the character assessment made in an annual report).

(3) Posting within the Unit.

(4) If, after counselling and reminding them of Service policy, the individuals involved continue in its development, consideration should be given to the removal of one of the parties. The criteria set out should be considered carefully, but the position of the senior of the parties concerned should be the subject of the closest scrutiny, if their lack of judgement and conduct has caused the greatest risk or damage to operational effectiveness.

b. **Formal Action.** Formal action could include:

(1) Posting away from Unit or Theatre.

(2) Formally recorded administrative censure.

(3) Formally recorded warning about future conduct, including a written and signed MPAR.

(4) Reduction in rank/rate.

c. **Termination of Service.** The most serious sanction is termination of Service.

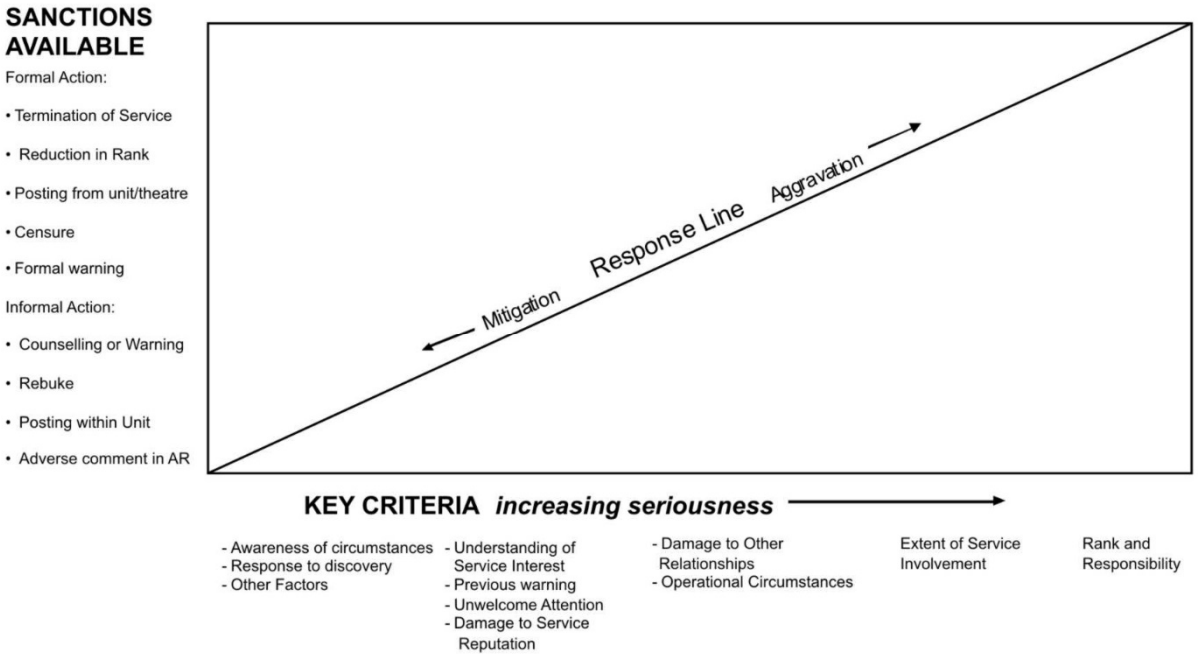
3. Application

a. The guiding principle in deciding the extent to which action might be taken against an individual for social misconduct will be that of proportionality. Against this principle, it is necessary for the three Services to work within a common framework and to judge each case, and the response to it, against the common set of criteria outlined above.

b. It is important to accept, however, that even when cases are judged within a common (tri-Service) framework, the outcome might well vary from one case to another. Such differences will reflect the relative impact that any of the distinguishing features of the case might have. Moreover, it should be recognised that such variations might occur not only between the three Services but also within a case involving personnel from only one Service. In all cases, social misconduct involving individuals from different Services will invariably be the subject of liaison between the relevant policy staffs of the respective Services involved.

c. In constructing a common framework, therefore, it is necessary to ensure that the approach for considering the action to be taken in the case of social misconduct is consistent. The following graph provides the starting point for such analysis. Whilst it is only a guide, it recognises that where cases of social misconduct involve certain identifiable characteristics, then consideration should be given to appropriate levels of response. It is for the chain of command to judge the overall level of response on the basis of all the circumstances of the case, taking full account of both its mitigating and aggravating features. Thus any case of social misbehaviour can be dealt with proportionately, can be judged against a common set of characteristics and can be disposed of by the appropriate chain of command after taking full account of all of the facts in the case. The response graph, Figure 21I-1-1-1, illustrates the key criteria on which cases might be assessed and the range of sanctions available.

Figure 21I/App1-1. Responsive Graph - A Guide



APPENDIX 2 TO ANNEX 21I

GUIDANCE NOTES FOR COMMANDING OFFICERS ON THE PRACTICAL ASPECTS OF IMPLEMENTING THE CODE OF SOCIAL CONDUCT

1. Introduction

This Appendix addresses the practical issues concerning the Armed Forces Code of Social Conduct (AFCSC). Implementation has been achieved with the minimum of fuss and disruption to unit life, and has been a process of adaptation rather than dramatic change. The changes achieved will be sustained by imaginative and firm leadership and the sensitive exercise of discretion rather than by over-regulation and confrontation. The key to success rests firmly with commanders at all levels, and specifically with Commanding Officers.

2. Principles

Commanding Officers are to be guided by the following principles:

a. The Armed Forces value the unique contribution which every individual makes to operational effectiveness.

b. There is no place in the Armed Forces for harassment, bullying or discrimination.

c. Commanders have a duty of care to all those under their command.

d. The Armed Forces respect the right to individual privacy of every Service Person and will only intervene in the private lives of individuals where it is necessary in the interests of preserving operational effectiveness.

e. Incidents which involve the possible commission of civil or military offences, or which come to a Commanding Officer's attention through a formal complaint, should be investigated and dealt with in accordance with Service disciplinary or administrative procedures.

f. The Service Test contained in the Code of Social Conduct should be applied when there is any doubt about the impact on operational effectiveness of any particular incident.

3. Practical Guidance Framework

Commanding Officers should use the following framework for dealing with any issue which might arise in applying the Code of Social Conduct:

a. The disciplinary system should be invoked to deal with any incident which involves a breach of discipline.

b. The Service Test contained in the Code of Social Conduct should be applied to any incident which relates to personal relationships.

c. The internal complaints procedures should be followed to investigate and resolve any complaints which arise from alleged activity which has been construed as discrimination, harassment or which takes the form of bullying.

d. The framework has been expanded into a diagram that outlines the essential decisions which Commanding Officers will have to make in handling incidents.

ANNEX 21J

SUBSTANCE MISUSE

1. Background

Substance misuse is unacceptable in the Royal Navy which maintains a policy of zero tolerance. Substance misuse is increasingly accepted in wider society, however, and it would be naïve not to recognise the cyclical public debate about decriminalisation of certain substances may affect the attitudes of some Naval personnel. It is known that drugs are more widely available than ever before and, consequently, many recent joiners have experimented with drugs and have more relaxed attitudes towards them than their line management. Although substance misuse is still 'relatively' rare in the Service (the average CDT positive rate, up to 2022 was 0.83% per annum although the 2020 figure reached almost 1% at 0.96%, thus there is a clear worrying increase in usage), management cannot be complacent and must remain vigilant at all times. Experience, supported by statistical evidence, indicates that younger sailors (especially those in the 18-30 age group) are the most likely to misuse, although not exclusively so; these are the most impressionable and vulnerable of Service personnel, and also the ones least likely to have the confidence to report suspicions about their mess-mates to the Chain of Command. At the simplest level there are two abiding reasons that the Armed Forces continue to take the toughest line on drugs:

a. **Misuse of Drugs is Illegal.** Those who misuse drugs have participated in criminal activity and had contact with criminals. They have injected money into a system that sponsors violence and exploitation worldwide. They have fallen far below the standards of conduct expected of members of the Armed Forces.

b. **Drugs are Unpredictable.** Many people who experiment may do so only for a short period with no lasting harm; but illegal drugs are controlled because their physiological and psychological effects are unpredictable and can be extreme. Sailors and Marines are in charge of dangerous, expensive and sensitive equipment. They are regularly in charge of the lives of others, both their colleagues and civilians. In the misuse of drugs they betray public confidence by putting their own performance at risk.

2. Civilian Law

The Law in relation to drugs can be summarised as follows:

It is an offence against the Misuse of Drugs Act (MDA) 1971 if the accused, without lawful authority or excuse, knowingly, is in possession or control of a controlled substance. The cultivation of cannabis is a specific offence under MDA 1971. Trafficking or supply of a controlled substance remains a serious criminal offence. Possession of a prescribed medicine without lawful authority or reasonable excuse and using any substance with the intention of obtaining an intoxicating or hallucinating effect are both offences against the Armed Forces Act (AFA) and may lead to charges under AFA Section 42.

3. Scope of AFA

The provision under the AFA includes the misuse of solvents, steroids and New Psychoactive Substances (previously called 'Legal Highs' but now illegal following the New Psychoactive Substances Act 2016). Within the AFA, the intention to achieve the effect is an offence, regardless of the actual effect achieved. The Service policy of nil tolerance makes very little distinction between different types of drug. All alleged drugs offences will result in administrative or disciplinary action and where individuals are convicted sentences are harsh, normally involving at least dismissal, with detention or even prison a probability in more serious cases, or where there has been any attempt to supply drugs to others.

4. Anabolic Steroids

Anabolic steroids are a Class C drug. Their use and possession is prohibited by criminal law and specifically by Service personnel for additional policy reasons, breach of which is an offence under AFA 06 Section 13 and this order. In sum, the possession or control, without lawful authority or reasonable excuse, of any anabolic steroid is an offence by virtue of the relevant criminal law and/or standing order. Anabolic steroids are pharmaceutical products but their misuse, in the view of the British medical profession, for bodybuilding, weightlifting and other recreational use, is dangerous to physical and mental health and hence is a significant threat to all Service personnel. All major sports organisations have banned the use of such drugs. Use or possession by Service Personnel will result in administrative action, with a strong presumption of Discharge. Commanding Officers who suspect steroid misuse in their unit should consult WO1 CDT (NAVY PEOPLE-POL EXEC CDT WO) Tel 02392 547324) or FXO (NAVY PEOPLE-PSP EXEC FXO) Tel Skype +443001698293). Further information on anabolic steroids is in JSP 835, articulated in Alcohol and Substance Misuse presentations and is widely available on the internet.

5. Body/Performance Enhancing Supplements

(See also JSP 835 Chap 3 Annex D). Evidence suggests that the use of body enhancing supplements by Service personnel is widespread and growing. Such supplements are usually consumed in the belief that they improve physique and performance. Although there is much scientific evidence that consuming whey protein (or soy/casein) and/or creatine will enhance anaerobic performance, there is little or nil evidence that the vast majority of other every day bought supplements will actually perform to their labelled claims.

a. The MOD's concern over these supplements is that they are manufactured by an unregulated industry, there is irrefutable scientific proof of one in 10 such products being contaminated (deliberately or otherwise) by anabolic steroids, and some manufacturers are less than scrupulous, often using ingredients with unknown physiological and psychological consequences.

b. Supplements can be obtained from a variety of sources, and when this includes the internet even greater caution is required; even 'over the counter' products from reputable outlets in UK cannot be considered 100% safe to use. A supplement sold in the NAAFI is no guarantee of its safety. Contaminated supplements therefore can theoretically lead to a CDT failure.

c. MOD policy is that the internet website 'Informed Sport' is the only recognised database of 'safe' supplements and even this is without a 100% guarantee. Other sites and companies purport to give quality assurance of supplements but it should be noted that the World Anti-Doping Agency, UK Anti-Doping and most UK based sports organisations defer only to 'Informed Sport' for ultimate assurance of 'safe' body and performance enhancing supplements.

d. The 'zero tolerance' policy still applies to a CDT 'positive result' caused by body enhancing supplements, and therefore their use is strongly discouraged.

e. **Supplement Myths.** Use of multiple, uncontaminated supplements DO NOT cause bio-symbiotic metabolisation as a steroid or any other illegal drug.

6. The MOD 'Line'

The MOD's view on body and performance enhancing supplements is as follows:

a. MOD has no requirement for any individual to use body/performance enhancing supplements.

b. The INM view is that there is no Service requirement for any individual to use body/performance enhancing supplements providing that they are eating a balanced diet and following a sensible exercise regime.

c. There are 'risks' associated with all body supplements and they may result in a positive CDT result. The risk is reduced (but not entirely removed) if the supplement is listed on the 'www.informed-sport' website.

d. The individual remains responsible for that which they ingest into their body and the MOD maintains a zero tolerance policy to substance misuse.

7. Dietary Supplements

Dietary supplements such as Vitamin C or Cod Liver Oil and similar, bought from reputable sources, are overwhelmingly unlikely to lead to a positive CDT result providing that they are used as directed.

8. Representative Sport

Any Service Person who participates in representative sport will be subject to the relevant Governing Body's regulations regarding substance misuse, as well the Service policy. Any individual who is subjected to a drug test by a sport's Governing Body is to notify their Commanding Officer or Service Sports Association within two weeks of the test. An individual who provides a positive result following a drug test, in accordance with the relevant Governing Body's regulations, is to notify their Commanding Officer and Service Sports Association immediately of the result and will be subject to administrative action by the Service, in addition to any action taken by the relevant Governing Body. Such Service administrative action will be decided by Navy Command HQ staff and will depend on the level and type of drug for which the test proved positive.

9. New Psychoactive Substances (NPS)

The possession, without lawful authority, of any herbal and/or chemical substance, in whatever form, which may be used to produce or cause an intoxicating, stupefying or hallucinatory effect, is an offence by virtue of this order and AFA 06 Section 13. Legal Highs are not legal, they are often produced in very dubious circumstances and are often mixed with known Class A, B and C drugs - they are dangerous to the individual. The effects of NPS will vary and are unpredictable. The long term side effects are unknown and unlikely to be known for years. The production, distribution and selling of NPS is now illegal following the ratification of the NPS Act 2016.

APPENDIX 1 to ANNEX 21J

ALCOHOL AND SUBSTANCE MISUSE - EDUCATION AND MANAGEMENT

1. Introduction

Royal Navy directed Substance Misuse education is combined with Alcohol education and delivered as a Naval Core Training (NCT) requirement on the Defence Learning Environment (DLE). NCT-5 is Compulsory Substance Misuse and Alcohol training, which all RN and RM Service Personnel are to complete at intervals not exceeding every two years. The presentations take approximately 40mins and focuses on the Command message of intolerance of substance misuse and the dangers associated with drinking alcohol. Units should maintain their own rolling education campaign, via notes in Daily Orders and discussions in divisional/troop meetings.

2. Responsibility

Completion of NCT-5Substance Misuse and Alcohol DLE training remains the responsibility of the individual (as a Naval Core Training requirement) but Divisional Officers, Troop Commanders, line managers and ultimately Commanding Officers have a responsibility to ensure that their personnel are in date. DOs/Tp Cdrs should bring any shortfalls to the attention of their Command (using SCIO/DR&R Reporting Tool).

3. Periodicity

The RN Substance Misuse and Alcohol lecture is a mandatory Naval Core Training (NCT-5) Maritime Skill. It must be completed by all RN and RM Service Personnel at intervals not exceeding every two years. There is no longer an upper and lower age limited interval.

4. Delivery

a. The RN Substance Misuse and Alcohol lead is FXO and WOCDT. A small number of Substance Misuse and Alcohol ‘educators’ have been authorised to deliver NCT-5 in presentation form at the major RN and RM Training Establishments. The following establishments are to ensure the appropriate personnel have been authorised to deliver the brief:

(1)	BRNC	MAA
(2)	CTCRM	G1 Adviser
(3)	HMS RALEIGH	Initial Phase MAA

b. **Unit Education Support.** The anti-drugs message should feature regularly in unit Daily/Weekly Orders. Basic information about alcohol and drugs in the Service is contained within JSP 835 which includes ‘sound bites’ for Daily Orders. Additional support is also available from Community Mental Health departments at the Naval Bases (details in current RNTM) and NCXT.

5. Substance Misuse and Alcohol Education Competence Recording

a. On completion of the mandatory two yearly Substance Misuse and Alcohol NCT0-5 RN and RM Service Personnel are to ensure that it is recorded on as a JPA competence.

b. Executive departments are reminded of the importance of the Divisional and Regimental System, messdeck/barrack supervision and coaching/mentoring in promoting education and combating alcohol and drug misuse.

c. Specific guidance for Executive teams and Divisional Officers/Troop Commanders is available from Community Mental Health departments at the Naval Bases, and NCXT.

d. Specific guidance for Unit Personnel Office staff when inputting the above relevant competences may be found in the relevant Business Process Guide (BPG) on how to enter the information on JPA, which may be found by using the following path from the JPA Portal: JPA Portal – BPG – Personnel Processes – AP & PD – Updating SP Competencies. The BPG reference is 'Update Competencies against a Service Persons Profile IN915019'.

e. Evidence of successfully completing NCT-5 is the presentation of the award of the supporting certificate (E-Certs) may be used. The appropriate recorded JPA competence should be checked by DOs/Tp Cdrs during the Annual JPA Checks and any shortcomings addressed.

6. Alcohol Misuse[1]

a. **Responsibilities.** From the Service point of view, excessive use or misuse of alcohol is not acceptable as it adversely affects safety, efficiency, discipline and the reputation of the Service. On a personal level, any excessive use or misuse of alcohol can lead to errors of judgement, unacceptable behaviour, and in some cases tragic accidents, while regular and long-term misuse carries with it significant risk to health and/or social problems. Excessive is a relative term and, depending upon the circumstances, it does not require much alcohol to cause serious consequences. QRRN Article 3624.6 states that:

> *It is the duty of all those in authority, whatever their rank, to discourage excessive drinking and, by example and supervision, to foster a climate of opinion in which such drinking is regarded as unacceptable.*

b. Furthermore, DOs are to:

> *Be especially vigilant in such matters and are to ensure that alcohol education is a regular feature within their division and that counselling is readily available.*

[1] See also JSP 835 Chap 2, BRd 9467 (FLAGOs) Art 1627 and BRd 9600 (SGOs) Chap 10.

c. **Overview.** With the demanding workloads associated with lean manning, increasingly high-tech equipment and, of course, familiarity with the drink/driving regulations, Naval personnel have become more sensitive to the dangers of mixing alcohol consumption and the working environment. The vast majority adhere to the Naval code of sensible and responsible drinking and are increasingly aware of the risks, dangers and long-term physical and mental health effects associated with drinking. It is recognised that culturally, alcohol (consumed moderately) plays a role in our society, that as a Service we work hard and that most of our frontline personnel are aged between 18 and 30. Nevertheless, despite the 'work hard/play hard' ethic persisting, it should not be allowed to excuse heavy (binge) drinking sessions ashore or when off duty. There also remains a strong correlation between alcohol consumption and disciplinary incidents, to the extent that drunkenness and drink-related offences must continue to be dealt with and punished firmly. In addition, those found guilty of a drink-related offence should ordinarily be required to attend a Brief Advice Tool (BAT) (a one-on-one 'Brief Intervention' delivered by DCMH staff - see sub-para i below) if the Command deems it to be appropriate.

d. **Problem Drinkers.** The Royal Navy community reflects society at large and inevitably includes personnel who will drink to excess on occasion. The great majority will mature gradually and, without intervention, establish a more moderate and acceptable drinking style. There will be those, however, who are, for various reasons, disposed to consistent alcohol misuse and/or periodic bouts of uncontrollable drinking leading to alcohol dependence. These personnel must be the targets for early identification and intervention. For the DO who identifies a potential problem drinker there is no neutral position. Once identified, the DO can only intervene or collude; intervention must be early, firm and constructive. It is important to understand that the Divisional/Troop management process, including disciplinary actions, can and should run in conjunction with therapeutic and social interventions. Mess Presidents and Leading Hands of Messes also bear a responsibility and must use both judgement and moral courage to assist the Command in identifying and managing the 'problem drinker' for the greater good of both the Service and the individual. Continual education at all levels is by far and away the most effective weapon.

e. **Identification.** The harmful use of alcohol, and ultimately dependence does not happen overnight but, rather, by the gradual emergence of a pattern of heavy drinking within which an individual's reliance and involvement with alcohol can take on an overriding importance. This gradual, regular and excessive consumption and the potential to become a problem drinker may manifest itself in a number of ways, for example:

(1) Poor time keeping at work.

(2) Alcohol related disciplinary offences.

(3) Inconsistency at work and a decline in professional standards.

(4) Neglect of personal standards on issues such as dress, fitness and interaction with others.

(5) Increasing health problems.

(6) Financial and/or domestic problems.

(7) Mess deck feedback.

f. DOs must also be alive to the possibility that a problem drinker may have developed an ability to dissemble and have a tolerance to alcohol consumption that will enable them to show few overt signs of excessive drinking. Thus, they may appear quite sober, despite regularly carrying abnormally high concentrations of blood alcohol.

g. **Managing the Problem Drinker.** On becoming aware of a suspected alcohol dependent or a potential problem drinker and before any consideration of formal warnings, the DO should immediately instigate 'Recovery Action', as follows:

(1) **Informal Action.** Informal action will include giving divisional counselling to the individual, both in order to register the DO's concerns and to ascertain whether there is any underlying cause of the behaviour which may be solvable independently (e.g. by referral to RN FPS – see Chapter 24). If an informal verbal warning of the likely consequences of excessive drinking is appropriate, this should invariably be given in the presence of a third party (e.g. DSR/SNCO) and recorded on a locally produced form (an MPAR format is ideal). This form should be signed by the DO, the witness and the individual and kept with the individual's Service documents for a specified warning period (normally three months). Where a routine appraisal report falls during the designated period, no mention should be made of the informal warning. At this stage, depending on the trigger for, and outcome of, the discussion, the DO may consider recommending withdrawal of alcohol allowance and/or the privilege of living in private accommodation. Consideration should also be given to ordering the individual to attend a BAT (see sub-para i), or its equivalent. Speedy action in the early stages of a problem is more likely to be successful in the long term. The combination of divisional discussions, formal MPAR and attendance at the BAT will serve two purposes. Firstly, it is likely to 'nip in the bud' any situation which, if left unchecked, could escalate in severity and secondly, it provides the Command with the reassurance that appropriate duty of care has been afforded to the individual prior to any formal administrative action. It is important that **no warning procedure is commenced** without first conducting the above measures. This informal monitoring stage retains an indefinite timescale as every case will be different and must be assessed locally by the Divisional hierarchy and command. If it is felt that informal administrative action has been exhausted but ineffective, further formal action should be considered. Although there is no formal policy on the **minimum time** required to move from informal action to formal action and warnings, it is suggested that **three months is an appropriate and fair guide**. Advice can be sought from the relevant Regional Legal Office and/or Navy Command Executive team as necessary.

(2) **Formal Action.** If, as a result of persistently poor behaviour, attitude or alcohol-related offences, an individual is approaching the state where they are becoming an unacceptable risk or an administrative burden, and having exhausted the informal administrative measures detailed above, the DO should initiate formal warnings for administrative Discharge SHORE (Alcohol). This warning process should follow the three tier structure as detailed in Chapter 57 paras 5755-5765, with associated documentation being raised. Furthermore, it should be reported to the Command via the N1 Annex to the Weekly Logistics Summary Report. The warning documentation should refer to the attempt to resolve the matter informally and the delivery of an MPAR and attendance to a BAT. At the BAT, or alternative directed by the Royal Navy Mental Health Services, some individuals will be offered the opportunity to volunteer for formal treatment for their problem drinking. Should they decline this offer, and problems persist, they should be advised to consult with their unit MO. Refusal to accept referral or actively engage with any DCMH or medically recommended treatment should be clearly recorded as a poor attitude and may be commented upon when reviewing the current warning level and the consideration to raise to the next stage. It is always incumbent upon the unit to demonstrate that adequate measures were made to offer treatment to the individual if a subsequent request for administrative discharge is to be justified.

(3) **Discharge.** Should an individual fail to respond to the procedures listed above and still remain an administrative burden following the full three tiered warnings process, application should be made for administrative discharge. This process remains an Executive matter throughout. **There is no authority on medical grounds alone for discharge of an individual assessed as misusing alcohol**.

h. **Assistance Available from Other Agencies.** At any stage during this process, consideration should be given to seeking other means of assistance through RN FPS, Medical Services, the Chaplaincy Service, or outside agencies.

i. **Brief Advice Tool.** The Brief Advice Tool (BAT) policy is the result of collaboration between Navy Legal, Navy Pers Exec, Navy Med Div and DPHC.

(1) The BAT is a short, evidence based individual intervention by a mental health nurse, after which the individual will have the option of engaging in formal treatment for alcohol misuse if they so wish. If they opt for the latter, they will be offered an assessment appointment at the DCMH within 15 working days.

(2) The Executive, normally through the DO, can refer any service person to the BAT; they can be ordered to attend but cannot be ordered to undertake the treatment. Any service person whose alcohol consumption causes concern must be referred, particularly if disciplinary action is being considered. Personnel may also refer themselves for this intervention.

(3) Upon notification of a request or order to attend the BAT, Departments of Community Mental Health (DCMH) in the base ports will then offer an appointment to the person concerned, within 5 working days, at one of the regional centres.

(4) Personnel can book/be booked for a BAT on the following numbers:

(a) DCMH Portsmouth (all Portsmouth-based Units): 9380 26256 (mil) or 02392 726256 (civ).

(b) DCMH Plymouth (all units in the South West): 9375 65965 (mil) or 01752 555965 (civ).

(c) DCMH Faslane (all Clyde based Units, 45 Cdo and Units at Rosyth): 93255 5421 (mil) or 01436 674321 (civ).

(5) The service person will be given a letter of attendance that serves as confirmation that they have been given the opportunity to engage with specialist treatment for alcohol misuse if they so wish, thereby satisfying the requirements of Para 9.g(2) above.

(6) Further attendance at the BAT within a twelve-month period is not generally indicated. If problems persist, or reoccur within one year, the individual should be directed to see the Unit MO.

7. Safety Critical Duties - Testing for Cause for Alcohol and Drugs

The Armed Forces Act 2011 (AFA11) introduced testing for cause for Alcohol and Drugs in relation to Safety Critical Duties[2]. This brought with it a new offence namely 'Section 20A AFA 06 – Exceeding alcohol limit for prescribed safety-critical duties'. This Paragraph should be read in conjunction with the References footnoted below. Whilst it is intended to provide guidance on interpretation of the regulations, it is not intended to duplicate guidance already published in JSP 830.

a. **Policy Background.** Whilst it is reasonable to expect that all personnel will be in a fit state to perform their duties, certain duties are by their very nature safety-critical, where performing that duty while impaired by alcohol or drugs could result in a risk of death or serious injury to a person, serious damage to property, or serious environmental harm. The testing regime seeks to promote a professional, sensible and moderated approach to alcohol consumption, particularly in relation to safety-critical duties, and to a large extent mirror existing civilian provisions, such as are contained in the Railway and Transport Safety Act 2003 (to which RFA personnel are subject). They also arise as a consequence (but NOT the result) of a number of high profile incidents which had a detrimental effect on the reputation of the Royal Navy.

b. **Mechanism.** The mechanism for 'testing' is by use of the NON-evidential Lion 500A Alcometer (breathalyser) and, thereafter, an evidential urine sample. There is scope within legislation to use an evidential blood test but, as yet there is NO provision within the Royal Navy to take blood samples.

[2] References relating to AFA11 include: Armed Forces Act 2006, Armed Forces (Alcohol Limits for Prescribed Safety-Critical Duties) Regulations 2013, JSP 835 (Alcohol and Substance Misuse Testing) Chapter 5 (as amended to 1 Nov 13), JSP 830 (Manual of Service Law) (as amended to 1 Nov 13) and 2013DIN01-212 (The introduction of new powers to test personnel undertaking safety-critical duties for drugs and alcohol).

c. **Options for Commanding Officers.** Alcohol testing regulations supplement the existing provisions governing alcohol consumption in the Armed Forces. Commanding Officers (COs) will continue to have available to them a range of options to deal with incidents involving alcohol misuse. These responses range from Minor Administrative Action, divisional administrative action and education (including attendance on Alcohol Education Courses). The existing offence of 'Unfitness or misconduct through alcohol or drugs' contrary to Section 20 of AFA 06 remains and COs should note paragraph 11 of JSP 830 which makes clear that, while there is no power to order a person to submit to testing when the duty concerned is not safety-critical, it is still possible to pursue a charge of unfitness or misconduct through alcohol or drugs under Section 20(1)(a).

d. **Command Judgement.** Command judgement will invariably be required as to what best serves the Service interest, and a pro-active and pre-emptive alcohol and drugs education campaign will invariably reap dividends. It is envisaged and intended that the 'breathalyser' offers as much an opportunity for education and raising awareness of issues and consequences associated with alcohol consumption and culture, as it does for enforcing discipline. Often the key issue which will decide which course of action the Command takes is the requirement to achieve swift justice. Due to the requirement for laboratory analysis of a urine sample following a positive breathalyser test, this (Section 20A) route will invariably lead to a longer process than that followed by the Section 20(1)a 'subjective opinion' route. The command will need to decide whether proceeding under the Section 20(1)a 'misconduct through alcohol or drugs' route is actually more effective locally and will have greater deterrence than proceeding down the Section 20A 'over a prescribed limit for alcohol' route. Advice on this and similar issues can be obtained from local Service Police as well as NCXT or NCHQ Police personnel.

e. **Prescribed Duties and Alcohol Limits.** A CO has the power to require a person subject to Service law to submit to testing for alcohol or drugs, providing they have **reasonable cause** for believing that the person's ability to carry out the duty is impaired through alcohol or drugs or the person's blood alcohol level is over the prescribed limit. This power may be delegated through a Duty Officer or Senior Rating (minimum of OR6 – Petty Officer/Sergeant) - see sub-para l below. There is no requirement for an incident to have occurred before a person can be required to submit to testing. The alcohol limits for prescribed safety-critical duties have been set at two levels, as follows:

(1) **Higher Alcohol Levels.** The majority of safety-critical duties fall into the higher alcohol limit for testing of breath, blood or urine. The higher limits are as follows:

(a) Breath – 35 microgrammes of alcohol in 100 millilitres.

(b) Blood – 80 milligrammes of alcohol in 100 millilitres.

(c) Urine – 107 milligrammes of alcohol in 100 millilitres.

(2) **Lower Alcohol Levels.** Some safety-critical duties require a heightened speed of reaction in an emergency situation and therefore are subject to a lower alcohol limit. The lower limits are as follows:

(a) Breath – 9 microgrammes of alcohol in 100 millilitres.

(b) Blood – 20 milligrammes of alcohol in 100 millilitres.

(c) Urine – 27 milligrammes of alcohol in 100 millilitres.

f. **Testing.** The hand-held breathalyser devices issued to units provide a preliminary, non-evidential, test and may be used to determine whether it is necessary to proceed to an evidential test (or not). Because of the difficulties in calibrating evidential quality breath test devices, within the Royal Navy it is envisaged that urine tests will be the predominant means of evidential testing. Evidential urine tests are conducted by the RNP and are processed through Government laboratories (LGC Teddington) (akin to the process for CDT). The result forms the evidential basis for any subsequent disciplinary action.

g. **Command Declaration of Unfitness for Duty.** It should be noted that an individual may 'blow' negative in the breathalyser for alcohol but the Service Police, in communication with the Command, may still wish to conduct an evidential test if they suspect that the individual may be unfit through the influence of drugs. Individuals may also test negative but (assuming no suspicion of drugs) the CO may elect subjectively to declare the individual 'unfit for duty' through Section 20 under AFA 06 – in such instance the result from the breathalyser must be discarded and not used in subsequent investigation.

h. **Non-Prescribed Safety Critical Duties.** As well as the categories of prescribed duties detailed in the References at Footnote 2, there may be circumstances where a CO believes an offence under Section 20(1)(a) has been committed in respect of a non-prescribed safety critical duty. In such cases, a CO may order a preliminary or evidential test, however, the test can only be used to establish the presence of alcohol or drugs: the higher or lower levels detailed above do not apply. Even where the presence of alcohol or drugs is established, the other elements of an offence described under Section 20(1)(a) must also be proven.

i. **Safety Critical Duties - Definition.**

(1) Before determining an activity to be 'safety critical', the CO must first satisfy themselves that the duty meets the statutory definition:

A duty which the Commanding Officer reasonably believes is such that performing the duty with ability impaired by alcohol or drugs would result in a risk of death, serious injury, serious damage to property or serious environmental harm.

(2) Examples of when such testing would be appropriate could include: a person who appeared to be drunk when operating a vertiflow lift during a store ship; or a range safety officer who appeared to have been taking drugs when supervising a live shoot.

j. **Notification of Safety Critical Duties.** Although listing which duties a CO would regard as safety-critical is not required by the legislation, in order that individuals can plan ahead and either avoid consuming alcohol altogether, or moderate their alcohol consumption as appropriate, COs should use their Temporary Memoranda to detail those safety critical duties which are expected to be reasonably commonplace, and to make use of Daily Orders or other unit routine orders in order to 'activate' such duties. An infrequent or uncommon safety-critical duty can be detailed either in a short Captain's Temporary Memorandum (CTM) or equivalent, or Daily/Unit Orders – it is recommended that COs maintain a standing CTM template for such situations. A CO should avoid placing unnecessary liability for testing on any other person who may be required to perform any related or ancillary duty merely because it is convenient to do so (e.g. all members of a work party or team) but which is not genuinely safety-critical in nature. When personnel are required to complete an activity that is not within their normal daily routine, a CO should provide advance notification that their particular duty on a given day or for a given period may be regarded as safety-critical because of the heightened standards expected at the time. This may help deter excess alcohol consumption ahead of the duty and ensure all relevant personnel understand their liability for testing.

k. **Alternative Measures.** COs should not forget that they have a range of measures available to them in managing alcohol consumption and do not need to have to justify a position as safety critical. For example, a ship about to be involved in a Humanitarian and Disaster Relief scenario can apply a more stringent alcohol state (iaw BRd 9600 - SGOs) in order to prevent personnel from drinking prior to operations. In the same manner, a more restrictive 'alcohol state' can be applied when in Defence Watches rather than attempting to declare every position as 'safety critical'. COs are also at liberty to impose 'alcohol bans' when appropriate.

l. **Delegation of Authority for Ordering Test.** Whilst the CO is responsible for deciding whether an individual is referred to the Service Police for a preliminary alcohol or drugs test, the legislation permits delegation of this decision to Petty Officer or Sergeant level. The intent of this is to permit (for example) a Petty Officer performing duty as Officer of the Day in a Mine Countermeasures Vessel, or a Petty Officer Diver in charge of a diving unit detachment, to order a test. Navy Command intent, therefore, is that authority to test should generally be delegated to the XO, Heads of Departments and Officers of the Day/Duty Officers only, but may occasionally include others, e.g. those in charge of a detachment for a determined period, and that these delegations should be articulated in CO's Temporary Memorandum. COs wishing to delegate further should contact Flotilla or NCXT staff for advice.

m. **Reasonable Cause.** It is reiterated that 'Reasonable Cause' must be established prior to a test being ordered. In this respect 'Reasonable Cause' requires the same subjective judgement as for assessing an individual to be 'Unfit for duty' in accordance with Section 20(1)(a) of AFA06. It is impossible to give a definitive list of what constitutes 'Reasonable Cause', but factors taken into account may include:

(1) Verbal notification that an individual was seen/known to be drinking excessively prior to assuming a duty.

(2) Named in an alcohol related incident in the 'Daily Occurrence Book'.

(3) Obviously dishevelled or un-naval/military like in conduct, bearing or appearance.

(4) Smelling of alcohol.

(5) Been seen drinking to excess whilst ashore.

n. **Failure to Provide a Specimen for Analysis.** It is an offence for an individual to fail to provide a sample when required to do so in accordance with AFA 06 Section 93E(10), without reasonable excuse.

o. **Education.** The implementation of AFA 11 and associated legislation with respect to alcohol has been widely notified across the RN. All career courses are specifically briefed, and the sentiment is included in the routine 'Alcohol and Substance Misuse Lectures' delivered as part of the NCT programme. The physical presence of the Lion 500 handheld Alcometer offers a tangible, visible representation of the regulations and it should be used to develop a culture that is circumspect of anything more than responsible and moderate alcohol consumption. Alcohol calculators have also been distributed to educate personnel in the amount of alcohol contained within drinks (Percentage Alcohol By Volume, or %ABV), 'units' of alcohol and the time required for the body to process it.

p. **Ethos.** The RN Ethos advocates RN Core Values and Standards, amongst them professionalism and integrity. With respect to alcohol, the intent is to highlight the responsibility placed upon members of the Royal Navy and the need to maintain the highest standards of conduct and behaviour that is always expected of us by the Nation.

q. **Divisional Involvement.** The implementation of AFA 11, combined with Navy Command led campaigns on alcohol culture and ethos, provide the CO with the tools necessary to take forward the education process. The pro-active engagement of those in involved in the Divisional/Regimental System completes the 'triad' that will shape and maintain the irreproachable personal and professional standards that underpin the RN's global standing and good reputation.

r. **Medical Personnel.** Medical officers, dental officers, nurses or MAs are all subject to the AFA 11 and a CO may determine their duties to be non-prescribed safety-critical. It should be noted that were a member of the Medical Services found to be under the influence of alcohol or drugs they may also be liable to sanction by their respective professional bodies.

s. **Civilians Subject to Service Discipline.** In certain circumstances civilians subject to service discipline may also be subject to alcohol testing. Those situations will arise when the individual is suspected of committing an offence under certain Sections of the Railways and Transport Safety Act 2003. Wherever practical, COs should seek legal advice before ordering the testing of civilians.

t. **Summary.** AFA 11 aligns the Armed Forces more closely with domestic legislation and engenders a professional but pragmatic approach to alcohol consumption and culture. It is not designed to constrain personal freedom nor erode privilege, but it does re-emphasise the need for a mature and responsible approach to alcohol.

ANNEX 21K

COMPULSORY DRUGS TESTING

1. Compulsory Drugs Testing (see also BRd2 Art 3626 and JSP 835).

a. Every person in the Royal Navy is subject to Compulsory Drugs Testing (CDT), which may be carried out by RN or tri-Service CDT teams. Failure to comply, when required by a CDT team member of any Service (i.e. to produce a urine specimen) is a disciplinary offence with a punishment of dismissal and up to six months imprisonment or detention. Adulteration or substitution of specimens carries the same penalty. Divisional Officers/Troop Commanders are to counsel any member of their division/troop who refuses to supply a specimen to ensure that they understand the implications. If the individual continues to refuse to provide a sample, a refusal certificate obtained from the CDT team leader is to be completed immediately, in duplicate. One copy will be retained by the unit and the other taken by the CDT Team Leader. Disciplinary action is to be initiated by the unit.

b. The Navy Command Executive Team (NCXT) has complete discretion in deploying the RN CDT team. There are reciprocal arrangements with the Army and RAF for personnel serving in Joint units or with another Service. The decision as to when to test units will, as far as possible, take into account unit programmes, training cycles, operational requirements, historical frequency of tests, perceived risk of drug misuse and the travel and resource constraints of the CDT Teams. However, periodicity will deliberately be varied in order to avoid predictability and to maximise the subsequent deterrent effect of CDT. The CDT team are authorised to deploy globally to enforce the message that CDT can occur at any time and in any place.

c. The CDT team will not normally consult Administrative Authorities before arranging a test, save where particular complexities make this desirable. The OiC of the visiting team will normally consult with the Commanding Officer in order to agree dates and confirm logistic arrangements. **It is very important that disclosure of the pre-arrival of the CDT team should never take place**. This is particularly pertinent to persons involved in the logistical preparations of a unit. For example, placing a notice in a mess hall/briefing room several days in advance highlighting that the room will be ‘out of action’ due to drugs testing is clearly harmful to the deterrent effect of the visit. The CDT team do have a mandate to arrive at a unit ‘unannounced’ and may do so. Commanding Officers may request a visit from the CDT Team if they feel it necessary (i.e. following word of potentially suspicious activity reaching the Command’s ear), by contacting WO1 CDT Team - NAVY PEOPLE-POL EXEC CDT WO or via Skype +443001531062 / Mob: 07876 476937 or FXO - NAVY PEOPLE-TRG-HQ N9 EXEC FXO or via Skype +443001698293. Additionally, it is entirely appropriate and indeed encouraged, if deemed necessary by the Command, to send an individual(s) to the CDT at HMS EXCELLENT for testing. This procedure is designed as an alternative solution to specifically bidding for an on board CDT, (following reports of suspicious activity), and may be optimal if the CDT team is unable to reach the unit swiftly (e.g. a deployed unit believes it has a suspicious case on board and wishes to fly an individual(s) back to the UK for testing; this procedure is encouraged).

Finally, it is encouraged that unit Commanding Officers should, where possible, conduct local spot checks of their personnel by sending a small cross-section (e.g. six to eight people) to the CDT team at HMS EXCELLENT for random testing (although a powerful deterrent, it is appreciated this procedure is difficult for non-Portsmouth based units, however the methodology remains sound and is hereby recommended). The CDT Team will always endeavour to minimise the impact on a unit and take a pragmatic view on the unit's programme, however ultimately they are performing a task that is directed by the Defence Council. Experience has shown that the CDT process flows much more efficiently with proactive and supportive engagement from the unit XO/2IC and EWO/Cox'n or equivalents.

d. The CDT Team needs logistic support from the unit being tested in order to conduct testing. The Team will send details of this requirement to a unit prior to its arrival. This will include a requirement for (circa) six to12 SRs/SNCOs to act as Collection Assistants (manning desks) and double the number of JRs/Other Ranks to act as Monitors (escorts of individuals to/from heads). All units should have available dormant orders for CDT implementation. A template for such orders is available from WO CDT on request.

e. Upon arrival the CDT Team will need to train the assisting personnel, a procedure which takes approximately 30-45 minutes. Thereafter testing can begin. Assuming the host unit is supportive, CDT Team can test a full DD/FF Ship's Company, or approximately 250 personnel in a shore establishment, in approximately four to five hours. The CDT team and assisting Collection Assistants, Monitors and Computer Operators do not stop for lunch; units are required to provide packed meals for those concerned as agreed with Navy Command Logistics. The CDT Team will provide more details in advance.

f. The number of personnel tested during any visit and particularly when the visit involves an overseas unit or a major shore establishment/capital ship, will be a variable percentage of the Ship's Company as directed by the CDT Team; this will range from a full 100% test to a relatively small 'Dip Test' of just 10-20 personnel. However personnel selected to provide samples will be taken from across all ranks/rates. Details will be agreed with unit Command/Executive staff/RSMs at the time of the test.

g. Establishment and base port accommodation areas will be included within this revised practice. In which case, the CDT Team will liaise with local establishment and Royal Navy Police staff in advance to make the necessary arrangements.

h. The CDT Team is empowered by the Armed Forces Act (AFA) and exercise testing as part of the MOD's 'deterrence' policy associated with random testing. Therefore they are not able and will not 'target' individuals or groups, unless this has been specifically requested as highlighted above at sub para c. They will determine the numbers or percentage of personnel to be tested; thereafter it is for unit HR staff to select the specific individuals. The only exception is those who have previously been placed on the Individual Re-Test List, and these persons will be identified by the lead member of the CDT team.

2. Reporting or Suspicions of Alleged Drugs Offences

The most important link in ensuring early initial reports is Leading Hands (LH/Cpls), particularly Leading Hands of Messes (LHOM). All LHs are briefed to be on the lookout for and to report immediately any suspicions they may have of substance misuse. It is particularly important that such suspicions are not discussed in the messdeck. To do so will alert the suspect and could lead to evidence being destroyed. While LHs and the LHOM may be the first to become aware of a possible drug problem, everyone in the RN has a duty to report suspected substance misuse. Failure to report suspected drug offenders or evidence of drug abuse is a serious Service offence.

3. Positive CDT Results

a. **Army and RAF Personnel.** When Army or RAF personnel serving in a RN or RM unit provide a positive result following a CDT Test, liaison between local Command and the relevant Service Policy Desk Officer must occur before the individual is informed. WO1 CDT Team - NAVY PEOPLE-POL EXEC CDT WO or via Skype +443001531062 / Mob: 07876 476937 or FXO - NAVY PEOPLE-TRG-HQ N9 EXEC FXO or via Skype +443001698293 are to be contacted to facilitate this liaison.

b. **Process.** Personnel will be informed of the test result by their CO and advised of their right to make a representation against discharge. Additionally, they will be given 48 hours to decide if they wish to make a statement following interview, and if they do, they should be assigned an Assisting Officer. Within their statement, it is vital that they declare whether they are accepting or contesting the result of the positive test. They should be informed of the option to have the B-Sample of the urine specimen tested at an independent laboratory at their own expense. It should be made clear to the individual that there is no compulsion to provide at statement but failure to do so or not **provide sufficient detail, (that cannot be refuted on scientific grounds), and which is supported by independent evidence** may diminish the reliability of the individual's explanation. It is essential that the process laid out in JSP835 and this Annex is followed correctly. Should a B-Sample return as negative, the individual is reimbursed and the case immediately collapses. Those testing positive will usually be discharged from the Service.

c. **Controlled Drugs Detected Below the Cut-Off Level.** Where controlled drugs have been detected below the threshold for the drug(s) detected (i.e. Positive Sub Cut-Off), it is possible that the individual may have experienced accidental or indirect ingestion. Alternatively, an individual has taken a controlled drug unlawfully. In the latter case, the amount of drug misused may either have been very small or the passing of time may have reduced the residual level. In any event, such results indicate that the individual may, at the very least, have been in the presence of others while drugs have been misused. The CO is therefore, to issue the suspected Drug Misuse Warning. Personnel are retained in Service but are added to an Individual Retest List (IRT) for a period of five years. Throughout this period they will be liable for individual re-testing at any time and without warning by the CDT Team. This liability will remain, in accordance with single Service policy, from the date of the original test result.

d. **Second Sub Cut-Off**. If an individual who has previously tested Positive Sub Cut-Off produces a second Positive Sub Cut-Off result within the five year period, this is to trigger an investigation with a view that an application for discharged SNLR (CDT) will be submitted in the same way as a Positive CDT result.

e. **Hair Sample.** The individual has no right to demand a hair sample for testing. This procedure is an option for Commanding Officers only, and is only used as an aid to assess the likelihood of prolonged drug usage, if this is suspected, rather than to provide further evidence of a Positive result. Similarly, DNA testing is not conducted by the MOD. When an individual signs the CDT paperwork at the time of testing, they are declaring their acceptance of the current procedure. If, having received a Positive test result and subsequently a further Positive B-Sample, no further toxicology options are open to the individual.

f. **Decision.** The emphasis is placed upon the Commanding Officer to determine if, on balance of probabilities, **the individual Knowingly, Recklessly or Intentionally consumed an illegal substance;** in sum 'are they at fault or not?' FXO and Navy Legal Casework are available to be consulted at every step of the CDT process and early liaison is encouraged, if any doubt exists.

(1) '**Knowingly' and 'Intentionally'** can be taken to include an individual who, under the influence of alcohol, elects to try or experiment with a drug that is offered to them, or which they chose to obtain regardless of whether they would have done so when sober.

(2) An individual will have been '**Reckless'** when they know or should have been reasonably expected to know that there is a real risk that their conduct would lead to a positive test but did not take steps to prevent it; an example would be the use of body and performance enhancing supplements not listed on 'Informed Sport', or alternatively trying so-called novel foods and herbal/floral tea products without considering the potential that they may contain illegal or harmful substances which would provide a Positive result at CDT, or leaving drinks unattended or 'mine sweeping' in a pub where they knew illegal substances were in use. Additionally, cases of extreme intoxication in which the individual declares they have no memory of events during a night(s) in question will quickly draw a deciding officer to the conclusion of recklessness.

g. **Medical Prescription.** Some CDT positive results will be caused by a legitimate prescription of medical drugs. In such cases the Commanding Officer should call for a statement from the Medical Officer, (following the individual's consent; it is appreciated that it is contrary to logic that an individual would not provide consent if they were stood accused of a positive result), detailing the drugs prescribed and the dosage dictated. In such cases, it is prudent to call for a Toxicology Report (via contact with WO(CDT)) in order to verify that the prescribed drugs would have accounted for the positive result, (it is not always the case), and thereafter the paperwork can be forwarded to NAVY LEGAL-CASEWORK, with a recommendation that the case be closed with no further action required under the provisions of Para 3. h. sub para (1) below (**Satisfactory Explanation**).

h. **Potential for Retention.** There is only one scenario in which an individual **might** be retained within the Service following a positive CDT result:

(1) **Satisfactory Explanation.** The Individual provides a statement that satisfactorily explains the presence of a drug in their system. This might be a medical report confirming a prescribed medication, or a confession to the Police and subsequent arrest for criminal assault by a third party, that they deliberately 'spiked' an individual, or some other form of 'spiking'.

(2) In cases of an inadvertent or accidental ingestion such as spiking the Commanding Officer will need to establish that 'on balance of probabilities' all of the following criteria are met:

(a) The allegation cannot be refuted on scientific grounds.

(b) It is supported by independent evidence, including circumstantial evidence (e.g. if subsequent investigation by civil/service Police reveals that drink 'spikers' are known to operate in a particular pub/club).

(c) The CO accepts the explanation as completely valid.

i. As already stated, a positive test result will almost invariably lead to Discharge SNLR for Ratings or Misconduct for Officers. For some, especially those who claim 'spiking' and are adamant of their innocence, Divisional Officers/Troop Commanders are to ensure that appropriate pastoral support is given as necessary (DCMH, Chaplains, RN FPS, etc.) and individuals should be informed of their right to make a Service Complaint.

APPENDIX 1 TO ANNEX 21K

INVOLUNTARY DRUG USE (SPIKING)

1. Legal Considerations

The spiking of drinks is unlawful and must be reported to the Service Police as soon as reasonably practicable. The Service Police will be able to investigate the establishment where the alleged incident took place and gain additional evidence which may corroborate the allegation.

2. Education

There have been incidents of Service personnel suspecting that their drink has been spiked whilst they were ashore. This can be a very worrying situation, given the penalties for drug related offences. Action to be taken in the event of suspected spiking is to be discussed in divisional/regimental meetings:

a. The Service will generally consider that the individual has been careless and 'reckless' in failing to take adequate care of their own safety and allowing themselves to be placed in a situation of danger under excessive influence of alcohol. Reinforcing this message should be an essential part of the education campaign.

b. Never leave your drink unattended; if you need to go to the heads then get a trusted 'oppo' to look after it for you.

c. Always try and watch where your drink is being poured from.

d. A person who suspects being spiked whilst ashore should immediately cease their 'run ashore' and return onboard. Failure to report such a suspicion will greatly increase the likelihood of discharge if a subsequent positive drugs test is received.

e. The Duty Officer and Senior Rate/SNCO, MO and local Service Police are to be informed and the suspicion recorded in the Daily Occurrence Book or equivalent.

f. The individual should be given a medical examination.

g. The DO/Tp Cdr should be informed and start keeping a record.

h. At the earliest practical opportunity, the individual should be interviewed by the Service Police.

i. If deemed appropriate, the remainder of the Ship's Company/unit personnel should be informed to be wary for the possibility of spiking and if necessary be banned from dubious establishments.

j. The CO and XO should be informed at the first convenient opportunity.

3. Having tested positive and facing the likelihood of imminent Discharge SNLR, individuals frequently present stories of being spiked but without having undertaken the correct initial actions. Without credible detail of who, when, where and how, and good reason given for failure to report the suspicion immediately, these stories merit little consideration.

4. In considering a CDT positive result, and before initiating any administrative action, the CO has to determine, on the balance of probability, whether the individual has a legitimate reason for the positive test result (e.g. properly prescribed drugs), or whether they have knowingly, willingly or recklessly consumed controlled drugs and are therefore culpable. The onus is on the individual to provide robust evidence that this presumption of culpability should not hold. However, when they have reported suspicions of spiking immediately after the event rather than only once prompted by CDT, the explanation will carry much more credibility. COs are required to conduct a reasonable investigation where an individual puts forward an explanation for a positive result. What is reasonable will depend on the circumstances and legal advice should be sought where required.

5. Effects of Alcohol

Some personnel who offer ‘spiking’ as the reason for a positive CDT result (but have not previously mentioned it) will often cite that they were too drunk to realise their drink was being spiked or that that they frequently left their drink unattended, or that they were ‘mine sweeping’. In all these cases the CO must determine on the ‘balance of probabilities’ whether the spiking claim is true or not. A genuine case of spiking is capable of being a ‘satisfactory explanation’ for the presence of a drug. However, there must be sufficient evidence to show on the ‘balance of probabilities’ that this is what occurred. Clinical tests have shown that when drinks have been spiked with illegal substances there is often a variety of physical and chemical changes which are evident. Discolouration, altering taste and smell are all possibilities. Failure to notice these or any similar alterations following excessive drinking (e.g. the anaesthetic effect to the tongue and throat which occurs as a result of orally ingesting cocaine) will add weight to the Command’s assessment that an individual has been reckless.

APPENDIX 2 TO ANNEX 21K

OUT OF HOURS SUPERVISION OF ROYAL NAVY PERSONNEL

1. Introduction

a. OoHS is for personnel who may be at physical risk, for example, due to substance abuse or misuse of legal, prescribed or illegal substances, acute distress, or who have or are threatening to cause harm to themselves or others who have been discharged from medical care and require further oversight. It sets out how care out of hours should be afforded to ensure the wellbeing of the Service Person (SP) until other support systems can be accessed in the normal working day.

b. In order to ensure the safety of the individual within the Royal Navy, dedicated personnel, procedures and facilities are to be available outside of working hours, including weekends and main leave periods as required by Command. This Appendix will not distinguish between substance abuse or misuse of alcohol, drugs, prescribed medication or mental illness.

c. If in any doubt of any individuals condition then supervising personnel should immediately dial 999/111 followed by 2222 in the UK or when outside the UK the local authority's emergency number.

d. The spiking of drinks is unlawful and must be reported to the Service Police as soon as reasonably practicable. The Service Police will be able to investigate the establishment where the alleged incident took place and gain additional evidence which may corroborate the allegation.

2. Authorising Out of Hours Supervision

a. The Officer of the Day (OOD), Officer of the Watch (OOW) or Naval Base Duty Officer (NBDO) or equivalent, dependent upon establishment, is authorised to assess an individual's ability to be allowed to return to their own accommodation area. If it is deemed that the individual is a risk to either themselves, their establishment or their colleagues, the OOD, OOW or NBDO can authorise OoHS, this responsibility cannot be delegated.

b. The individual is not under arrest or being detained, but it is in their, and the Service's interest, if they can be ordered to remain within OoHS. When normal working hours resume, the Divisional Officer (DO), Troop Commander (TCdr) and Chain of Command is to be informed of OoHS in order that follow-on action may be taken. This may be referenced to the unit Case Conference, DCMH/Medical Centre, involvement of People Support, or other such organisations or possibly disciplinary or administrative action.

c. Any resistance or public nuisance by the individual during the OoHS process may be dealt with by the Service Police and may result in formal arrest and detention. Any assessment, medical inspection, decision and subsequent development regarding an incident involving OoHS is to be recorded in the Daily Occurrence Book (DOB).

3. Accommodated Personnel

a. **Onboard.** If a person accommodated onboard is found in a condition that gives cause for concern due to substance abuse or misuse or their welfare is in doubt, then the OOD/OOW/NBDO is to be informed immediately for them to assess whether OoHS is appropriate.

b. **Returning Onboard.** If the individual is accommodated onboard and returning from ashore, the Quartermaster (QM), Bosuns Mate (BM), MOD Guard Service or other Security Services may be the first person in authority to view them and form an opinion of their condition. The QM/BM or other Services will inform the OOD/OOW/NBDO for the OOD/OOW/NBDO to assess that the individual is in a condition that may warrant OoHS.

4. Non-Accommodated Personnel

For personnel who are not accommodated within the establishment but who present themselves to that establishment and whose condition is assessed as warranting OoHS, the OOD or OOW is to inform Parent Unit OOD, OOW or NBDO. If possible, the individual should be escorted back to their unit, however, it may require that the receiving unit's OoHS organisation needs to be utilised. Action taken in either event is to be recorded in the Daily Occurrence Book (DOB).

5. Personnel in HM Ships

For personnel serving in HM Ships alongside in a Naval Base who are returning from ashore, the OOD, OOW or Security Staff will form an opinion of their condition. This includes personnel returned aboard by Service Police or civilian police. The OOW/OOD is to inform the NBDO or DCO if it is assessed that an individual requires OoHS. If personnel who require attention are entering the Naval Base gates, then MOD Guard Service/MOD Police are to alert the OOW or OOD accordingly. The OOW/OOD or NBDO will contact the individual's ship and inform them of the situation and their assessment of OoHS requirement. If the ship decides that it does not want the individual returned, or does not have the capacity to provide the necessary supervision from among those onboard, then the OOD, OOW or NBDO will place them under OoHS. Local arrangements for the ship to provide personnel to assist with the supervision may need to be considered.

6. Personnel in HM Submarines

Action shood be taken in accordance with Para 5 with the exception that due to the increased risk in a submarine, an individual that has been assessed by the OOD/OOW/NBDO as requiring OoHS will remain in the Establishment Supervision suite in accordance with Para 5. The OOD, OOW or NBDO will inform the submarine OOD. Local arrangements for the crew to provide personnel to assist with the supervision may need to be considered.

7. Supervision Routine

a. Personnel, regardless of rank or rate, who require OoHS are to be managed by being placed under continuous watch, noting Action Briefs G and H, until the danger of harm through vomit induced asphyxia or another event has passed. Personnel in this category are not in custody but are to be described as under 'Supervision'. (This is not to be confused with personnel in 'Custody' who have been arrested by Civilian/MOD/RN Police etc and may be affected by substance abuse of misuse at the time of arrest.)

b. No medical examination is required before a person is placed under OoHS; however the Duty Watch should follow guidance in Action Brief B. A list of First Aid equipment is at Action Brief H. If there are concerns regarding the person's health, it is to be dealt with as a medical emergency.

c. Establishments will have a dedicated OoHS suite of a minimum of two beds, dependent on size of establishment, with furnishings to enable sentries to monitor and items required to sustain the monitoring of an individual(s) health.

d. The Duty Watch (DW) will require to be augmented in NB and SE to ensure that dedicated personnel are nominated, suitably qualified and in date for NCT 2 First Aid and Air Assessor training to maintain watch in a dedicated OoHS suite. NB and SE should consider the utilisation of personnel across their NB and SE including lodger units.

e. No Service individual under the age of 18 may be considered for this Duty.

f. Cases of self-harm may also be dealt with under the PS procedure, including the use of the OoHS.

g. Ships should establish OoHS within the First Aid Post onboard, with the Duty Watch providing the initial response, followed by individuals from the Ships Company of any rank to act as Sentries. The OOD and DPO are to ensure that these individuals are fully briefed and competent. If no non-DW are available outside assistance should be sought from either HMNB or an equivalent provider.

h. Sentries are to be briefed by the Executive Department, to include covering briefs from Service Police and Medical Centres during working hours, ensuring that they read and sign to say they have understood the Supervision Orders at Action Brief B before commencing their duty. The OOD, OOW and NBDO are also to attend briefings with amplification of any SP who may be included on the At-Risk Register ensuring that medical confidence is not breached. The OOD, OOW and NBDO will ensure that they have provided the sentry with all that is required to conduct the duty; that the sentries conduct their duties correctly; that the OoHS Log is completed (Action Brief C) and that valuables and loose items of clothing are kept securely and recorded in the Property Receipt Log (Action Brief D).

i. The DO/TCdr of any Service individual under the age of 18 who requires OoHS should be notified immediately.

j. **DCMH.** The OOD, OOW or NBDO should contact the Out of Hours Mental Health Nurse (24/7) should any Service individual who is receiving DCMH care request assistance whilst in OoHS.

(1) Out of Hours (OOH) advice and support for clinicians and executive (Not patients) are: National Tri-Service duty mental health clinician OOH number 07990 551693.

(2) RN OOH number 07990 551691.

(3) In hours (0830-1630 Monday to Friday) DCMH and ask to speak to the duty clinician. RN DCMH: Portsmouth 02392 726256/Mil 938026256. Plymouth 01752 555965/Mil 937565965. Faslane 01436 674 321 Ext 5421/Mil 93255 5421

(4) All personnel under OoHS may only be discharged personally by the OOD, OOW or NBDO to the care of their DO/TCdr or Divisional Senior Rate (DSR). The individual maintains the right to make a Service Complaint later in accordance with JSP 831[1]. The individual's DO is to be invited to the next N1 Unit Case Conference should the Executive Department deem necessary.

Action Briefs are available at the FORMS area of the Home Page:	
Action Brief A:	Incident Flow Chart
Action Brief B:	Post Incident Action Flow Chart
Action Brief C:	Sentry Orders for Out of Hours Supervision
Action Brief D:	Out of Hours Supervision Log
Action Brief E:	Property Receipt Log
Action Brief F:	Individual Suspected Of Substance Abuse Misuse Or Misuse - OOD/OOW/NBDO Actions
Action Brief G:	Self-Harm - OOW/OOD/NBDO Actions
Action Brief H:	Head Injury - OOW/NBDO Actions
Action Brief I:	Medical Considerations

ANNEX 21L

STRESS

1. The MOD Health and Safety Handbook states the following:

Stress affects people in different ways at different times and is often the result of a combination of factors in their personal and working lives. Work related stress arises where the combination of pressure from work load, working practices, work relationships, etc. exceed the person's capacity and capability to cope, resulting in adverse physical and/or mental reactions[1].

2. Service in a deployable fighting force brings with it inevitable pressures, such as separation from family and friends, and periods of intense, sometimes dangerous, activity. Whilst these pressures do not inevitably cause stress and many personnel cope with extraordinary demands without suffering ill effects, anyone can begin to suffer from stress at any time. The potential catalysts range from extreme trauma to mismanagement over a long period of time. Mundane, chronic catalysts, such as domestic difficulties, excessive work demands and lack of support are the more common causes.

3. It is too easy for hardened line managers in the Service to take a dismissive attitude to stress. Although it is true that a moderate level of pressure, even stress, can be beneficial to performance and motivation, in extreme cases its effects on health are medically measurable, and its effects on behaviour and performance are an administrative concern. Symptoms may include frequent minor health problems, leave-breaking, poor time-keeping, impaired performance, lowered personal standards, and irritability.

4. DOs must be aware of the possibility of stress as a cause of problems in both themselves and their division. In particular they should be aware that many of the major causes of stress in the Royal Navy come from inter-personal relations: e.g. conflicting demands from line management, or lack of support from seniors or peers. In some cases, DOs must be prepared to examine their own style and recognise that they or other line managers may be causing or exacerbating stress if not providing a clear and supportive line of command. Alternatively, individuals are frequently enabled to come through periods of stress, improve their performance and cope with very high levels of pressure without suffering stress with the support that they receive from good DOs. The ability to cope may change and can be strengthened or undermined by how people are treated. Above all, making personnel feel valued and able to approach their line managers is essential.

5. When suffered for prolonged periods, stress can cause illness, but it is recognisable and can be treated. Sufferers may perceive succumbing to stress as a weakness, however, and may be unwilling to seek advice or attend treatment. The DO must make the time to listen to the fears and concerns of their Divisions/Troops and, where possible, help them find solutions which are appropriate to their needs. Stress relieving strategies that can be discussed are covered by the mnemonic ASPIRES, which is decoded as follows:

[1] JSP 375 Management of Health and Safety in Defence Pt 2 Vol 1 (V1.0 Dec 14) Para 17.1.5.

Assertiveness - know when to say ‘no’ and do not take on too much;

Self-Talk - assess the situation constructively and objectively;

Prioritising - manage time and delegate effectively;

Identifying sources of stress - act on them;

Relaxation - look after yourself and keep a balance of work and leisure;

Energy renewal techniques - e.g. physical activity; and

Support - communicate problems, talk to friends; seek help.

6. Where the DO seems unable to assist in resolving the problem, the individual should be made aware that professional support and help is available from a wide variety of sources, including RN FPS, the Confidential Support Line, Chaplains, Medical Officers and Medical Branch ratings. Further guidance can be found in Chapter 24 (Welfare) and Chapter 34 (Operational Stress Management).

7. The maintenance of a properly operating Divisional and Regimental System, where individuals readily seek advice and discuss their problems, should be the aim of all DOs and DSR/SNCOs. In getting to know their people, DOs should build up a reasonable picture of what to expect from each individual in terms of manner and performance. Knowledge of individual’s normal demeanour will assist DOs in identifying differences in performance, attitude and behaviour that may be the result of stress.

ANNEX 21M

WILLS

1. Commanding Officers have a responsibility to ensure that personnel are both encouraged to make a Will and provided with the opportunity to do so. This responsibility may be devolved to the DO/Tp Cdr to manage within the division/troop. The MOD cannot provide advice on the content of a Will which, if required, should be sought from a solicitor or other specialist adviser.

2. The recommended methods available to Service personnel for making a Will are as follows:

a. Drawing up a Will using expert advice.

b. Using a MOD Will Form (MOD Form 106).

c. Writing a simple Will on a sheet of paper.

d. Using one of the printed forms which can be purchased.

e. In exceptional circumstances an informal Will can be made.

Completed Wills, either MOD Form 106s or privately created, can be stored free of charge at the Defence Handling Centre (DHC) Glasgow; further details may be found in the references below[1].

3. There is a Service requirement for the status and whereabouts of a Service Person's Will to be recorded on JPA, or the fact that the Service Person (SP) has chosen not to make a Will or declare their intentions to the Service. Units are able to interrogate JPA to confirm those personnel who have a Will held at the DHC and those who have indicated to UPOs/HR Admin that they have a Will held under private arrangements. Units can also interrogate JPA to identify cases where Wills have been sent to the DHC but where receipt has not been entered onto JPA.

4. It is important that Wills are updated immediately to reflect any changes to personal circumstances (e.g. marriage, civil partnership, divorce, change of partner, births, or death of a named beneficiary). It is also important to update JPA quickly to reflect this so as to ensure that the correct Will is issued to the family/Executor.

5. Units are to ensure that personnel are made aware of the importance of both making a Will and updating it promptly if circumstances change. Whilst these are both personal responsibilities, units should programme time to facilitate this activity and ensure that MOD Form 106s and other relevant stationery are readily available. Operational Mounting Instructions will reiterate this requirement which is an essential part of pre-deployment preparations.

ANNEX 21N

SOCIAL MEDIA

1. Introduction

This Annex provides clear direction on the rules and guidance for service personnel engaged on social media and is divided into three parts. The first provides generic guidance and the second discusses the responsibilities and behaviours of members of the Royal Navy, Royal Marines, Royal Fleet Auxiliary, and Civil Servants working with the Navy when using social media in a personal capacity. The final part provides guidance to those using official accounts, including those representing ships, squadrons, commando units, establishments, and sports teams.

PART 1 - GENERIC DIRECTION ON ALL USE OF SOCIAL MEDIA

2. Introduction

a. Use of social media - whether done in an official capacity or as an individual - counts as communicating in public and this RNTM must be read in conjunction with 2020DIN03-005, 'Contact with the Media and Communicating in Public' (which is expected to be superseded by JSP 758 in due course). It is imperative that all engagement on social media is done responsibly, safely, and in accordance with the core values of the service.

b. It should be noted **all** communication in public on contentious topics requires prior approval from the Directorate of Defence Communications (DDC). The list below provides an indication of such topics, though this is not exhaustive, and judgement should be applied. If there is any doubt about whether communications are potentially contentious, personnel must talk to RN Comms or DDC Secretariat prior to engagement.

- Annual Budget Cycles (ABC)
- Spending Reviews
- Defence Reviews
- Reductions in Service and civilian personnel
- Estates/Basing Strategy
- The Deterrent
- Materiel Strategy
- Scotland and Defence

c. All personnel should be aware that information sent via messaging services, including but not limited to WhatsApp, WeChat, Telegram, Signal, SnapChat, iMessage and Facebook Messenger, can be easily forwarded to others and should be treated with the same care as more obvious social media channels such as Twitter, Facebook, LinkedIn and Instagram, as well as forum-based activity including posts on Reddit and comments on online news story pages.

3. OPSEC and PERSEC

a. The normal rules of OPSEC[1] and PERSEC also apply to personal and official social media accounts. Misplaced and ill-thought social media could compromise the safety of you, your colleagues or family. Make sure your family and friends are also aware of the risks; it is not only you who can share sensitive information. Information posted on social networks may result in risks to personal safety so think carefully about what you want to share in all use of social media. Whether using an official or personal channel be cautious about posting detailed personal information. You should never mention your security clearance online. For more on staying safe online, see the "Think Before you share"[2] guidance on the GOV.UK website.

b. There are numerous instances on record of RN and RM personnel putting OPSEC, PERSEC and RN/RM Reputation at risk. All units and personnel are at continual risk from traditional enemies, terrorist organisations, subversive groups and deranged individuals, both at home and abroad. All information posted online is in the public domain and can be used to build intelligence on a particular group or individual – this may be a State intelligence organisation or a private citizen indulging in 'hacking'. Unit programmes are inherently at risk from individuals posting seemingly harmless comments. Using social media to report or comment on dates, places or circumstances can have severe consequences for a unit, including radical alteration of a unit's programme if compromised to the detriment of unit or personnel security – invariably this will be inconvenient to the personnel involved.

4. Investigations and rights of victims

Do not share information pertaining to events under investigation; this includes ship's investigations as well as matters under investigation by the Service Police, non-statutory and statutory investigations. Speculation and sharing of privileged information could have an adverse effect on the investigation or could prejudice outcomes. Personnel must note that after investigations have concluded some information remains sensitive – often including the outcomes and these should not be shared without authorisation. Moreover, all should understand that in cases involving accusations of rape, assault by penetration, sexual assault and causing someone to engage in sexual activity without consent, victims are given life-long anonymity, **regardless of the outcome of the case**, and no details that could identify a victim should ever be divulged by any means and to do so is a criminal offence.[3]

5. Complaints Processes

Nothing within this annex interferes with the rights of any Service Person to seek redress or to make a complaint in accordance with the normal processes. Further information on the informal complaints resolution process is in JSP 763 Part 2. Further information on reporting Unacceptable Behaviours can be found in RNTM 01-093/22.

6. Education and Training

COs of ships and establishments are to reinforce this guidance and policies as part of regular and divisional and regimental briefs.

[1] See JSP 440 Vol 5 Sect 6 Chap 6
[2] Think before you share online - GOV.UK (www.gov.uk)
[3] See Sexual Offences (Amendment) Act 1982

PART 2 - DIRECTION FOR PERSONAL USE OF SOCIAL MEDIA

7. Introduction

a. The Royal Navy encourages the responsible use of social media to engage with the public and colleagues in a positive way. However, communicating using social media is no different to communicating in real life and must always be done in accordance with the values and standards of the Service.

b. Acceptable behaviour is required offline or online, on duty or off duty, and personnel should always behave in a lawful and appropriate and professional manner – wherever you are in the world and whatever you are doing[4].

c. You should avoid saying anything on social media that you would not be prepared to say in person or on any other public channel – the rules of defamation apply as much in social media as they do in traditional media. Personnel who post or repost things on social media that are not true, and may impact people's reputation, could be personally sued by the person they are posting about.

d. All personnel should note that if you are clearly identifiable as a member of the Armed Forces (e.g. by sharing photos of yourself and friends in uniform) or refer to your Service or organisation (e.g. in bios or by using insignias or logos as profile pictures) the public and mainstream media can and will recognise you as such and regard your posts as if they were official comment. People and wider media will relate to what you say about the Service, even if you state your opinions are your own and could use them more widely in online, print, and broadcast media.

e. Personnel must never bring the Royal Navy into disrepute, divulge classified information, or take part in illegal or inappropriate behaviour online or in real life. To do so is unprofessional and risks harming the service. Moreover, it may result in administrative and/or disciplinary action. Do not ‘troll’ your oppos or line management/chain of command. It is contrary to our values and standards and could also be a criminal offence. The digital world is the **real** world with **real** consequences - **Think twice, post once - or not at all.**

f. Once you post on social media you lose control of the content and anyone else can amplify. You may have second thoughts and delete a post, but it is easy for others to take screenshots and they may already have captured such posts and then forward more widely and repost elsewhere. As already stated, this includes messaging services such as (but not limited to) WhatsApp, WeChat, Facebook Messenger, Signal, and SnapChat which should all be regarded as social media as well as the more recognisable platforms. **Think before you share.**

[4] See JSP 763 Part 1 Chapter 2 Para 253

8. Ethos and Core Values

a. Royal Navy and Royal Marines personnel should always comply with the Service's values. It goes without saying: this applies equally on social media as it does in real life.

(1) The Royal Navy's core values are:

(a) **Commitment.** Selfless personal commitment is the foundation of naval service and enables us to demonstrate a sense of authority and purpose.

(b) **Courage.** Courage creates the strength on which fighting spirit, that essential element which turns a fighting force into a winning force.

(c) **Discipline.** The Royal Navy must be a disciplined service if it is to be effective.

(d) **Respect.** Respect for others. Each one of us has the exceptional responsibility of bearing arms, either collectively as part of a unit or individually, and when necessary, of using controlled force. In addition, we will sometimes have to live and work under extremely difficult conditions. In such circumstances, it is particularly important that we show the greatest respect, tolerance, understanding and compassion for others regardless of their personal background; leadership and teamwork depend on it, and we have the fundamental right to expect to be treated with the same degree of respect and dignity by all with whom we serve.

(e) **Integrity.** Integrity is that quality of an individual's character that encompasses honesty, sincerity, reliability, and unselfishness.

(f) **Loyalty.** The Nation, the Royal Navy and those with whom we serve rely on our commitment, dedication and support. We must therefore be loyal to our leaders, those that we lead, our team, and our duty. Pass this test and we will never let others down

(2) The Royal Marines Commando values are:

(a) **Excellence.** Strive to do better.

(b). **Integrity.** Tell the truth

(c) **Self-Discipline.** Resist the easy option.

(d) **Humility.** Respect the rights, diversity, and contribution of others.

b. Our values and standards are inherent to our success as a service, which could be undermined by ill-considered communications that damage the reputation of the Service and erode the dignity of the individuals involved. Additionally, when photos of individuals are posted without the subject's permission, it can place personal security at risk. RN Comms and PSyA have been requested to intervene with social networking providers to protect individual and collective security, and individuals have had to submit complaints to social network sites to have pages shut down.

c. Our Ethos and Core Values always apply to us, on and off duty, and are the 'DNA' that set us aside from the civilian community. Communications on social media should be regarded as being the same as conversing face to face. Individuals should be reminded that the Service has credible and effective mechanisms for dealing with grievances, both through the Divisional, Regimental, and the Service Complaints systems. Airing grievances on social media, or passing derogatory comment on an individual or group, unequivocally demonstrates a lack of respect for others, moral courage, integrity, self-discipline, commitment, trust in the team and personal standards; in short, it fails the Service Test and it has no place in the Royal Navy.

9. Administrative and Disciplinary Action

Some communications via social media may be considered inappropriate in the eyes of the Service but not severe enough to merit Service Police investigation or disciplinary action. Commands may, however, consider that the Service Test (below) has been breached such that administrative action is required to safeguard and restore operational effectiveness and efficiency. Such administrative action should treat communications via social media in the same way as any other social interaction when applying the Service Test.

a. **Code of Social Conduct.** The following extracts from JSP 887 are pertinent when considering abuse of social media:

(1) **Para 2.** "the overriding operational imperative to sustain team cohesion and to maintain trust and loyalty between commanders and those they command imposes a need for standards of social behaviour that are more demanding than those required by society at large. Such demands are equally necessary during peacetime and on operations. Examples of behaviour that can undermine such trust and cohesion, and therefore damage the morale or discipline of a unit (and hence its operational effectiveness) include:

(a) Unwelcome sexual attention in the form of physical or verbal conduct.

(b) Misuse of rank and taking advantage of subordinates.

(c) Probing into a person's private life and relationships.

(2) It is important to acknowledge that, in the tightly knit military community, there is a need for mutual respect and a requirement to avoid conduct which offends or causes distress to others. Each case will be judged on an individual basis".

(3) **Para 3.** “It is not practicable to list every type of conduct that may constitute social misbehaviour. The seriousness with which misconduct will be regarded will depend on the individual circumstances and the potential for adversely affecting operational effectiveness and team cohesion”.

(4) **Para 4.** “Unacceptable social conduct requires prompt and positive action to prevent damage. Timely advice and informal action can often prevent a situation developing to the point where it could:

(a) Impact adversely on third parties; and/or

(b) Impair the effectiveness of a Service individual or unit;

(c) Result in damage to corporate image or reputation”.

(5) **Para 5 - The Service Test.** “When considering possible cases of social misconduct, and in determining whether the Service has a duty to intervene in the personal lives of its personnel, Commanding Officers at every level must consider each case against the following Service Test:

(a) "Have the actions or behaviour of an individual adversely impacted or are they likely to impact on the efficiency or operational effectiveness of the Service?”

(b) This Service Test lies at the heart of the Armed Forces’ Code of Social Conduct; it is equally applicable to all forms of conduct, including behaviour while not on duty”.

(6) **Para 7.** “We place additional responsibilities on every one of our leaders and managers, whether uniformed or civilian, at every level to set an example through their actions, behaviour and language of respecting and valuing the diversity of others in every aspect of life”.

b. **NCHQ Interpretation of the Service Test**. Misuse of social media would certainly impact upon the efficiency or operational effectiveness of an individual’s unit if, as a result, they succumbed or inadvertently contributed to a terrorist threat (or similar). Likewise, any tarnishing of reputation on social media fails the Service Test by having impacted on the efficiency of the Service.

c. **Minor Administrative Action**. Minor Administrative Action (MAA) will normally be the most appropriate means for dealing with inappropriate use of social media (but see sub para d below). When considering MAA, COs should remember that the assessment is to be made ‘on the balance of probabilities’ and not the more demanding criteria of ‘beyond reasonable doubt’ required for disciplinary action. MAA investigations need not be protracted and can be conducted by unit staff. For example, a printout of a screen-shot is likely to be admissible as evidence of a communication via social media for such administrative action. MAA would be predicated upon behaviour contravening the Code of Social Conduct or undermining Service Ethos.

d. **Divisional Warnings**. Even where MAA may be deemed inappropriate, Commands still retain the Divisional System at their disposal and may place individuals on professional warnings for conduct which fails to uphold Service Ethos and Values or conduct unbecoming and unacceptable of a particular rank or rate.

(1) **Values and Standards.** Service personnel are expected to adhere to the same high standards of conduct and behaviour online as they would in any other aspect of their professional or personal lives.

(2) Individuals are responsible for what they post on social media. When an individual posts a comment on social media, that individual is responsible for the content of that comment. If an individual passes on communications posted initially by another person then they are republishing them and become responsible for the content as well. Clicking 'Like' (or equivalent accepting action) to another person's post or comment attaches an individual's name to that post and implies that individual's support for its content.

(3) Talking on social media is the same as speaking face-to-face. Expectations of behaviour when communicating via social media are no different from expectations of behaviour when dealing with other methods of communication, such as face-to-face or on the telephone.

(4) **Offensive Material.** Disciplinary, administrative, or divisional warning action may be taken against Service personnel who post or republish offensive, indecent, obscene, false, abusive, racist or discriminatory images or literature on social media.

(5) **Respect for Others.** Service personnel should never use social media to bully, attack or abuse colleagues, or to create a hostile or intimidating environment at work. Information about third parties (for example, pictures of someone from a social event) should not be posted without first obtaining their permission.

(6) **Security - Personal.** Individuals are to be aware of the dangers to themselves and others in sharing information online. Control must always be maintained over personal information and operational security.

(7) **Security - MOD.** Individuals are required to seek authorisation before publishing any information relating to their work which: reflects on wider Defence and Armed Forces activity; attempts to speak, or which could be interpreted as speaking on behalf of the Service or the MOD; or relates to classified, operational, controversial, or political matters.

(8) **Advice.** If individuals are at all unsure, they should always seek advice via the Chain of Command prior to, rather than after, taking action that may cause offence or compromise personal or unit security.

10. Legal And Disciplinary Matters

a. **Criminal Offences.** Under Section 1 of the Malicious Communications Act 1988, it is a criminal offence to send an electronic communication which is indecent, grossly offensive, threatening, or false with the intention of causing distress or anxiety to the recipient. It is also a criminal offence under Section 127 Communications Act 2003 to send a message via a public electronic communications network which is grossly offensive or of an indecent, obscene, or menacing character. Such provisions have been used in many social media prosecutions. For example, a man was sentenced to 12 weeks' imprisonment for posting offensive 'jokes' and sexually explicit comments about a missing girl; another was given 240 hours community service for posting a message on Facebook about the deaths of six British soldiers which said: 'All soldiers should die and go to hell'.

b. **Other Offences.** There are other offences which can be committed via social media. For example, posts involving a threat of violence may constitute an assault or a public order offence; posts targeting a particular individual may constitute a course of harassment under the Protection from Harassment Act 1997; naming the victim of a sexual crime is illegal under the Sexual Offences (Amendment) Act 1992; and the deliberate publication of information in breach of a court order may amount to a contempt of court.

c. **Legal Policy.** If a Commanding Officer becomes aware of an allegation that a communication has been sent via social media which may amount to a criminal conduct offence, they should make an initial assessment of the content of the communication, consulting Legal Advisors as part of this process. If the assessment is that a communication falls into one or more of the categories described below, then it must be reported to the Service Police as soon as reasonably practicable. This is for two reasons: first, in view of the complexities in obtaining and securing evidence that is admissible to the standard required in criminal law, a Service Police investigation (or civil police investigation if the matter is passed to them) is likely to be more appropriate than a unit investigation; and, second, the Service Police is the most appropriate body to apply the CPS Guidelines and decide whether to recommend direct trial or otherwise to the independent Director of Service Prosecutions. Activities which typically merit investigation by Service Police include the following:

(1) Communications which may constitute credible threats of violence to a person or damage to property.

(2) Communications which specifically target an individual or individuals and which may constitute harassment or stalking within the meaning of the Protection from Harassment Act 1997 (noting that an allegation or circumstances which indicate an offence under Section 4 of that act has been committed by a person subject to Service law will be Prescribed Circumstances). This provision is proscribed in Section 114 of the Armed Forces Act 2006 and The Armed Forces (Part 5 of the Armed Forces Act 2006) Regulations 2009, Regulation 3.

(3) Communications which may amount to a breach of a Court Order. This could include offences under the Contempt of Court Act 1981 or Section 5 of the Sexual Offences (Amendment) Act 1992, breaches of a restraining order or breaches of bail.

d. Communications which do not fall into any of the above categories, but which may be considered grossly offensive, indecent, obscene or false (i.e. more than (in legal terms): “Satirical, or iconoclastic, or rude comment, the expression of unpopular or unfashionable opinion about serious or trivial matters, banter or humour, even if distasteful to some or painful to those subjected to it”) should be discussed with appropriate Legal Advisor with a view to subsequent Service Police involvement.

e. Where the Commanding Officer’s assessment is that a communication does not fall into one of the categories in sub para c above, but nevertheless represents a Service Offence (for instance, where there is a rank difference between sender and recipient), they may continue to refer the case to the Service Police for investigation.

f. **Legal Advice.** Whenever a Commanding Officer is considering whether to invoke a Unit or Service Police investigation in a case involving communications via social media, they should seek legal advice.

PART 3 – DIRECTION FOR USE OF OFFICIAL SOCIAL MEDIA

11. Introduction

a. Social media allows the RN, RM, and RFA to engage directly and closely with our stakeholders by providing channels to deliver our messages directly to our invested audiences and influence non-traditional audiences. Royal Navy Communications and Influence (RN Comms) administers the official social media accounts of the Royal Navy and Royal Marines (currently Twitter, Facebook, Instagram, YouTube and LinkedIn but this may increase in the future) and has overall responsibility for all social media accounts run by RN and RM units.

b. Use of social media must be authentic and represent the voice of the channel owner but must, above all, be consistent with the Royal Navy message and brand – RN Comms can provide guidance and direction.

12. Authorisation of Official Social Media Accounts

a. Units, establishments, networks and sports clubs, and other teams or groups within the Service may consider establishing social media accounts, subject to approval. In addition, holders of key posts and/or certain individuals including senior officers may wish to set up social media accounts. All such accounts will also be considered official social media accounts and must be endorsed and approved by RN Comms; this aligns with DDC direction. An application form for authorisation such accounts is at Annex A.

b. Where units, networks and teams have set up social media accounts that are classed as official but have not had the appropriate approval, they must engage directly with RN Comms and seek retrospective approval. RN Comms will review the content and suitability before approving and providing appropriate training for users. RN Comms must retain access to passwords to accounts so they can be retrieved in case of, for example, hacking and **any accounts that are seen to contradict our rules and policies will be shut down.** Furthermore, if a request is denied, units and teams must refrain from establishing unofficial accounts.

13. Uses of Official Social Media

Official social media channels can be used in these main ways:

a. **Passive.** Following discussions, keeping track of news and building networks as part of day-to-day work. If using social media for this, you may also wish to consider using digital tools that aggregate real-time news trends from social and mainstream media. If you need further guidance on this, please speak to RN Comms. Examples of free tools include Tweetdeck, Amplify, or Hootsuite

b. **Semi-Active.** Low-key, work-related activity, such as following Service influencers to highlight or amplify key messages, public information, or relevant Royal Navy activity.

c. **Active.** Active engagement and communication. Creating and disseminating content to inform and pass on unit and service messages.

14. How to use social media in an official capacity

a. Official accounts must be authorised, registered, monitored, and reviewed to ensure effectiveness and must be clearly and branded consistently iaw the direction given in BRd 9374.

b. There will be certain occasions that require publishers to follow the strict direction and guidance given by RN Comms, e.g. Op BRIDGE. Those responsible for official accounts are to respond to direction from RN Comms promptly to delete or edit content, or to go quiet on any account when so ordered.

c. All official social media accounts are, in effect, government communications channels which can and will be used by the media as official sources of information. As such all such accounts must comply with Government Communication Service guidance[5]. Accounts should be treated as official government channels and therefore must be rigorous in ensuring the veracity of all information posted. Official channels are not permitted to and must never post misleading or untruthful information.

d. Official accounts must not contradict HMG policy, be politically partial, bring the Royal Navy into disrepute, divulge classified information, or take part or be seen to take part in illegal or inappropriate behaviour in any other way.

e. Social media should not be used for policy announcements except when authorised by RN Comms and/or DDC.

f. Death in service must never be announced on any social media channels. It may be used to express condolences if deemed appropriate, however, all posts need to tasteful and should be made cognisant of family wishes and their privacy. Where deaths are subject to Coroner's Inquests or other investigations, personnel must not speculate on causes of death and should avoid posting information that has not previously been released from official sources or confirm or comment on information on which others have speculated. If in any doubt, contact the RN Comms Reactive Team Leader for guidance.

g. Official accounts should exert extreme caution before rebutting comments or engaging with other accounts that are either trolling or disagreeing with the nature and tone of our messages. It is not wise to engage in arguments on social media and it is often easier to ignore the trolls or simply respond to aggressive/offensive posts with accurate, light, and positive information. Seek guidance and support from RN Comms Digital Team and Reactive Team Leaders before rebutting or engaging with other users.

h. Further guidance is set out in the DDC Guide for Personnel Using Social Media[6].

i. A framework on when to seek clearance before publishing content on official channels is given in Table 1 below.

[5] Digital communication - GCS (civilservice.gov.uk)

Go ahead	Content from within your area of responsibility.
Seek guidance from RN Comms/ PJHQ/DDC	Breaking news within your area of responsibility where there is no press line. The interpretation of a change of policy where the line is being agreed Any operational activity Rebuttal VIP/ Ministerial movements.
Don't do it	Subjects not in your area of expertise or direct responsibility. Any classified data.

j. For activity within CJO's JOAs and/or units under CJO OPCOM must seek should seek guidance from PJHQ J9 Media[7] before release on any social media channel.

k. Accounts should never be used for directed surveillance of an individual or group, without correct authorisation under the MOD Policy on Open Source Intelligence (OSINT). MIXG (as part of the Operational Advantage Centre) has the capability to conduct Regulation of Investigatory Powers Act 2000 (RIPA) authorised investigations if necessary. Seek advice from the Integrated Mission Support Cell (see 2021DIN03-017) if unsure on the correct and lawful use of these channels.

l. General points for running social media accounts:

(1) Update social media accounts regularly, otherwise do not request a separate account from the main Royal Navy accounts – tailor frequency, length and type of updates to audience needs and expectations.

(2) When sharing images, you must always consider OPSEC and PERSEC. Consider the cumulative impact of posts; individually they may not breach security but when taken with other messages they could divulge classified information. Where an image is of an individual you must ensure they have agreed for their image to go online if they are identifiable in the photo. Be particularly careful of any images of children and parental/caregiver agreement to use.

[7] UKStratCom-PJHQ-J9-Media-GpMbx@mod.gov.uk

(3) Official accounts allow us to target key audiences, deliver our messages and information directly, engage and be open to challenge, opening access to our officials and Ministers. Official social media accounts should provide relevant, useful information on Royal Navy activity. It should have a clear purpose, audience and be evaluated against those criteria. RN Comms can provide guidance for you on your evaluation.

(4) You can share interesting third-party content, e.g. media articles, NGO blogs, foreign partner military information, etc but only if you are sure that it is appropriate, and it is politically impartial.

(5) Consider inclusive language and cultural sensitivities and avoid posting anything that could be considered offensive by anyone who may see the page (including audiences from other countries).

(6) Debate is good; a protracted online argument is not. Take discussion best dealt with in private offline or into direct messaging, noting screengrabs may be made of instant or direct messages and could be posted by the other user.

(7) Do not post or share anything which breaches copyright or that could be construed as advertising or promoting a commercial company.

(8) Do not disclose information that is classified or privileged, or that may put you or your colleagues at risk, whether from crime, terrorism, or espionage.

(9) As with any form of communication, if in doubt, seek advice or do not post at all.

15. Summary

In summary, the right of individuals to make use of social media is completely respected as an individual choice and freedom. However, abuse of social media which threatens our and Core Values, personnel and/or operational security or the good name and reputation of the Royal Navy and Royal Marines is completely unacceptable and will not be tolerated.

APPENDIX 1 TO ANNEX 21N

SOCIAL MEDIA ACCOUNT REQUEST FORM

1. This form should be used to apply for all official Royal Navy social media accounts. This includes corporate accounts (e.g. a Facebook page for a unit) or an individual account (e.g. using your name/job title for a Twitter account).

2. If you have a PRO they must be made aware of this application.

3. More information is available via MOD social media guidance[1].

4. If you have any questions, please speak to your PRO or the RN Comms Digital Team about your application.

5. Your CO should approve the application before sending to the RN Comms Digital Team at NCHQ for consideration[2].

[1] Think before you share online - GOV.UK (www.gov.uk)

Applicant name	
Email address	
Establishment or unit	
Which social media tool is the application for?	
What would the name of the account be?	
What are your objectives for the account?	
Who is your target audience?	
What monitoring will you be doing?	
What conversations do you plan to engage in?	
Which strategic objective(s) does this support?	
Do you have the resource to make regular contributions?	
Please give an indication of how often you would post.	
How will you measure the success of this account?	
Are there are risks to opening this account?	
Is the management of this account included in your crisis handling plan?	
PRO or CO approval (and comment if appropriate)	
RN digital team comment & decision	

ANNEX 21O

FRAUD AND IRREGULARITY

1. The law against fraud and irregularity is shaped by two key pieces of legislation, the Fraud Act 2006 and the Bribery Act 2010.

a. **The Fraud Act 2006.** The Fraud Act 2006 created an offence of possession and making or supplying articles for the use of or connection with fraud and provides a statutory definition of the criminal offence of fraud, which is committed in three ways:

(1) Section 2 - Fraud by False Representation.

(2) Section 3 - Fraud by failing to disclose information.

(3) Section 4 - Fraud by abuse of a position of trust.

(4) It is no longer necessary to prove that the victim was deceived, but simply that the fraudster was dishonest by the standards of ordinary honest people and intended to cause loss to another or gain for themselves.

b. **The Bribery Act 2010.** The Bribery Act 2010 consolidates previous anti-corruption legislation and consists of four main offences:

(1) Offering, promising or giving a bribe in order to gain an advantage.

(2) Requesting, agreeing to receive or accepting a bribe.

(3) Bribing a foreign public official.

(4) Failure of a commercial organisation to prevent a bribe being paid or obtain or retain business or a business advantage.

c. Fraud and Irregularity have no place in the Royal Navy. DOs/Tp Cdrs are to ensure that their divisions/troops are aware of the Service's zero tolerance to fraudulent activity and irregularity. They are also to ensure that the tri-Service Hotline and online reporting website are known about, as follows:

(1) Fraud Incident and Irregularity Reporting Unit (FIIRU) Hotline - 0800 161 3665.

(2) Online Reporting - https://knowledge.chris.r.mil.uk/contact/fraud/index.php.

(3) Email - HOCSFD-FIIRUMailbox@mod.uk.

(4) Postal Service - Fraud Incident and Irregularity Reporting Unit, Room 209, Building 1071, MDP HQ Wethersfield, Braintree, Essex, CM7 4AZ.

2. Wrongdoing in the workplace is also taken seriously by the MOD. Individuals who witness wasteful or inefficient practices are encouraged to report them to line managers, or through the chain of command, or to make use of the MOD's suggestion scheme - GEMS[1]. If individuals are unable or unwilling to use these channels, they can report concerns to the MOD's Waste Hotline - contact details for which are as for the FIIRU as above.

[1] GEMS is the Defence-wide staff suggestion scheme that recognises and rewards implemented ideas which benefit the MOD, not just for savings but improvements across the Department.

ANNEX 21P

THE CALDICOTT PRINCIPLES

1. The Caldicott Principles comprise of seven principles subsumed into the NHS confidentiality code of practice. They are intended to protect the personal medical information of individuals and govern how such information can and cannot be used. This is relevant to DOs and all others in the chain of command who may on occasion be exposed to an individual's personal medical situation e.g. circumstances causing a medical downgrading or declaration of pregnancy. DOs are under the same obligations as the medical profession to respect the confidential nature of this information and ensure it is handled correctly.

2. A basic description of the principles is as follows:

a. **Justify the Purpose(s).** Every single proposed use or transfer of patient identifiable information within or from an organisation should be clearly defined and scrutinised, with continuing uses regularly reviewed, by an appropriate guardian.

b. **Don't Use Patient Identifiable Information Unless it is Necessary.** Patient identifiable information items should not be included unless it is essential for the specified purpose(s) of that flow. The need for patients to be identified should be considered at each stage of satisfying the purpose(s).

c. **Use the Minimum Necessary Patient Identifiable Information.** Where use of patient identifiable information is considered to be essential, the inclusion of each individual item of information should be considered and justified so that the minimum amount of identifiable information is transferred or accessible as is necessary for a given function to be carried out.

d. **Access to Patient Identifiable Information should be on a Strict Need-to-Know Basis.** Only those individuals who need access to patient identifiable information should have access to it, and they should only have access to the information items that they need to see. This may mean introducing access controls or splitting information flows where one information flow is used for several purposes.

e. **Everyone with Access to Patient Identifiable Information should be Aware of Their Responsibilities.** Action should be taken to ensure that those handling patient identifiable information (both clinical and non-clinical staff) are made fully aware of their responsibilities and obligations to respect patient confidentiality.

f. **Understand and Comply with the Law.** Every use of patient identifiable information must be lawful. Someone in each organisation handling patient information should be responsible for ensuring that the organisation complies with legal requirements (i.e. unit MO or senior medical rating).

g. **The Duty to Share Information can be as Important as the Duty to Protect Patient Confidentiality.** Professionals should, in the patient's interest, share information within this framework. Official policies should support them doing so (hence the need and right on occasion for Chain of Command/DO to be informed).

ANNEX 21Q

DIVISIONAL FINANCIAL COUNSELLING

1. It is of extreme importance that all Royal Navy personnel develop a responsible attitude to financial matters from early in their careers. (DOs/Tp Cdrs are not expected to have the financial knowledge acquired by professional training and experience (DOs/Tp Cdrs cannot, by law, provide financial or debt advice), but they should be able to discuss the options and signpost sources available to get that advice, a number of which are listed below. If more detailed guidance is required, it can be obtained via agencies and supporting organisations detailed in Chapter 24 or unit Logistics/Imprest Officers.

2. Financial counselling is complicated by a number of factors:

a. DOs/Tp Cdrs have little or no financial training.

b. Financial problems are invariably unique to the individual concerned.

c. People with financial problems are usually reluctant to talk about them, or even admit to them.

d. The DO/Tp Cdr may feel that an individual's privacy is being invaded.

e. Agencies outside the Royal Navy are invariably involved.

3. Aim of Financial Counselling

It should be remembered that the vast majority of Royal Navy personnel handle their financial affairs efficiently. The aims of financial counselling should be:

a. To maintain the high success rate of personnel managing their financial affairs effectively.

b. To prevent those facing financial difficulties becoming a debt crisis.

c. Signposting personnel to professional regulated debt counselling organisations, whilst ensuring that they are fully aware of the Service implications.

4. The Divisional Officer should be able to give basic guidance on the following:

a. Basic budgeting.

b. Pay and Allowances.

5. The DO is also likely to be involved whenever someone in their division 'bounces' a cheque, is unable to pay their debts or has a maintenance order made against them.

6. It is a strong indication that a Service Person is in debt crisis if:

a. They are struggling to pay basic outgoings, e.g. mortgage, rent, energy bills and credit card minimum payments, and/or

b. Their debts (excluding their mortgage) exceeds a year's income after tax.

7. To help the DO there are various charities which are able to provide financial assistance to members of the Royal Navy on an individual merit basis (see Chapter 32). Further advice and information is available from the following:

a. **The Logistics/Imprest Officer.** In any case of debt/financial irresponsibility the Logistics/Imprest Officer should be informed; they will invariably be able to advise the DO/Tp Cdr and the individual on how best to proceed.

b. **RN Family and People Support (RN FPS).** Debt is not purely a financial issue. It can be a cause or consequence of many external factors such as health, employment, family or housing problems etc. Money worries can break up families, adversely affect confidence, damage morale, cause mental health issues and even lead to suicide. The RN FPS portal (Tel: 9380 28777) is able to advise confidentially on how best to cope with a debt crisis and also hold information on professional debt counselling organisations and Naval Charities which are able to assist (RN staff are not authorised to provide debt counselling/advice).

c. **StepChange Debt Charity.** StepChange is the UK's leading debt charity. Every year, StepChange helps thousands of people overcome their debt problems. Through a telephone debt helpline, and online Debt Remedy tool, StepChange provides free and effective debt advice, and practical solutions, to help those struggling with the stress and worry of problem debt. StepChange can be accessed on Tel: 0800 1381111 or www.stepchange.org.

d. **National Debtline.** National Debtline is an independent charity, dedicated to providing free debt advice by phone and online to people across the UK. They provide expert debt advisers who are supportive and trained to a high standard. They can be accessed on Tel: 0808 808 4000 or www.nationaldebtline.org.

e. **SAIL.** SAIL is the only Citizens Advice Bureau service for seafarers (including the Royal Navy) and their families. They provide specialist telephone advice to seafarers, their families and dependants on a wide range of issues including:

(1) Benefits.

(2) Charity grants.

(3) Debt.

(4) Employment.

(5) Housing.

(6) Pensions.

SAIL can be accessed on Tel: 0800 160 1842 or http://sailine.org.uk/

f. **The Consumer Financial Education Body (CFEB).** The CFEB was established as a result of The Financial Services Act 1997. The CFEB is an independent body which provides and delivers financial briefings on request, its primary remit being to enhance the public's understanding and knowledge of financial matters and to improve individual's ability to manage their financial affairs. For personal advice, the CFEB's services may be enlisted via its website www.cfebuk.org.uk

g. **The White Ensign Association.** The White Ensign Association is a charitable organisation, officially recognised by the Admiralty Board, which provides an impartial advisory service on financial matters to serving and retired officers and ratings. It offers one-to-one guidance and referrals in all matters of personal finance, second careers, business start-up, personal administration and any general welfare issue. Requests for advice should be made either in writing to the Secretary of the Association, The White Ensign Association, HMS BELFAST, Tooley St, LONDON SE1 2JH Tel: 0207 407 8658/Main Building 81945 or email office@whiteensign.co.uk. Full information is available at www.whiteensign.co.uk.

h. **Divisional Meetings.** DOs/Tp Cdrs should consider introducing financial affairs as a topic for discussion at Divisional Meetings. Warnings about the dangers of payday loans, 'loan sharks', door-to-door insurance sales, easy credit and HP agreements and the safe use of credit cards and cash point machines should be emphasised.

8. Financial Irresponsibility

a. Although an individual's financial affairs are their own responsibility (BRd 2 (QRRN) Article 3616), allowance is made for concerned interest to be shown by Divisional Officers. At the initial joining interview, DOs/Tp Cdrs should attempt to establish whether an individual is in debt crisis (see para 6) or struggling to service their debts and, if so, the total debt sum involved and monthly repayment rate. When, on this or any other occasion, an individual's debts give cause for concern, the DO/Tp Cdr will find it useful to encourage them to prepare a list of commitments, using the proforma at Appendix 1 as a guide. When total debts, plus mortgage, etc. approach or exceed 50% of the individual's income, they should strongly be advised not to incur further loans or hire purchase commitments. DOs/Tp Cdrs should report serious financial problems to Navy PSyA before they get out of control or raise security issues. If an individual has recurring financial difficulties or demonstrates financial irresponsibility then these facts should be recorded on the Appraisal Report, together with recording their attitude to the debt and response to support offered.

b. Experience has shown that, through fear, shame, denial or ignorance, the worst debt offenders do not disclose the full extent of their borrowing. The genuinely financially irresponsible individual is a rare phenomenon; the more usual case is that they have only considered the sum of the monthly payments, not the total outstanding or the amount they are paying in interest. The first indication of a problem arising is often the arrival of a letter from a creditor stating an individual is in arrears with loan repayments. This method of chasing debtors is prescribed by the Consumer Credit Act 1974 and a letter should be sent to the creditor as set out in Appendix 2 (BRd 2 Article 3615 refers). Other indicators include the following:

(1) **Bounced Cheques.** The Ships Office will inform DOs when one of their Division bounces a cheque on the Public Account.

(2) Withdrawal of banking facilities.

(3) Major purchases, e.g. new car, by someone with suspected financial problems.

(4) Requests for Emergency Payments/Advances of Pay without good cause.

(5) Regular borrowing of cash from peers.

c. Should an individual demonstrate an irresponsible or dishonest attitude to personal debts, a warning should be given by the Executive Officer or Commanding Officer that should the individual fail to put their finances in order, application will be made for their Discharge SHORE. In accordance with QRRN Article 3615, any such warning must be recorded on their SJAR to provide evidence to support discharge should this course subsequently become necessary. At this stage, the individual should be urged to seek help from a Professional Debt Adviser.

d. In cases of persistent cheque bouncing or where dishonest intent can be proved, disciplinary action should be taken and early warning for Discharge SHORE given in order that the individual is fully aware of the Service implications if their attitude towards the financial situation fails to improve.

e. The DO/Tp Cdr’s aim must be to educate their people not to overstretch their resources, be able to recognise the warning signs and report any individual who is suspected of financial irresponsibility. A word of caution and advice at the early stage of a problem may bring an individual back on the path of financial responsibility but, if warning signs are ignored an individual can, by extent of their debts, become a major burden to the DO/Tp Cdr and the unit’s administrative resource, and will risk discharge as a consequence.

f. Individuals who have been financially irresponsible must be briefed on the Service implications of their circumstances. There is ultimately the possibility of Discharge SHORE either because the individual is a security risk or they have become an intolerable administrative burden. Failure to resolve financial problems will also affect eligibility for particular assignments (LFS, small ships and retinues) and may result in the individual not being recommended for advancement or promotion. The overriding consideration in such cases is not the debt as such but the individual's attitude towards clearing it.

APPENDIX 1 TO ANNEX 21Q

BREAKDOWN OF MONTHLY FINANCES

1. Income

Basic pay for 30 days (inc. Split Pay and SFA rent)	£	
Child Benefit (calendar month)	£	
Partner's earnings	£	
Other (Maintenance, DSS Benefits, etc).	£	
Total monthly income	£	(A)

Essential Outgoings

Mortgage or Rent	£	
Endowment assurance on Mortgage (if applicable)	£	
Home Contents Insurance	£	
Council Tax	£	
Gas, Coal, Electricity, Water, etc	£	
Life Insurance	£	
Food and Household requirements	£	
Telephone	£	
Car expenses OR Fares to work	£	
Clothing allowance	£	
School dinners and/or Nursery/Child Minder Fees	£	
TV Licence and Rental	£	
Any Maintenance or Court Orders	£	
Miscellaneous: emergencies, cigarettes, etc.	£	
Total essential outgoings	£	(B)
Balance remaining for Creditors (A-B)	£	(C)

Creditor(s)	Balance Outstanding	Current Payment
1.	£	£
2.	£	£
3.	£	£
4.	£	£
5.	£	£
6.	£	£
7.	£	£
8.	£	£
9.	£	£
10.	£	£

Total balance outstanding £ _____

Total monthly payments £ _____(E)

Credit or Debit Balance (C-E) £ _____(F)

2. Declaration

I certify that this is a true and accurate statement of my finances as they stand to date.

..... Signed

..... Rank/Rate

..... Name

..... Date

Cigarettes and entertainment should be allowed for, or the family may spend the money allocated for something else.

If there is a Debit Balance (F) the services of an Independent Financial Adviser, or one of the agencies listed at Annex 21Q Para 7, should be sought without delay.

APPENDIX 2 TO ANNEX 21Q

RESPONSE TO CREDITORS WHO REQUEST ASSISTANCE FROM COMMANDING OFFICERS IN THE COLLECTION OF DEBTS

Dear [Name]

It is policy that an individual's personal debts remain their own responsibility and I am therefore unable to offer you assistance in recovering the alleged debt owing to you. I am content to forward a letter to [*name*] on your behalf. The letter should be sealed, marked with the addressees name, rank/rate and service number and forwarded to this office quoting this letter. Otherwise I am only able to provide the Service address of [*name*] to a solicitor acting on your behalf for service of process upon receipt of that solicitor's written undertaking that the address will be used solely for this purpose and will not be revealed to any third party, including their client.

Yours faithfully

Note. *With the individual's agreement, a copy of this letter and the request form from the creditor should be sent to the local Consumer Protection Officer. Information about this type of harassment is regularly passed to the Office of Fair Trading, which monitors the activities of all licensed credit companies.*

ANNEX 21R

STRUCTURED INTERVIEW FOR CHANGING PERSONAL STATUS CATEGORY FROM C1

References: BRd 3(1) Chapter 24, Para 2419 and JSP 752

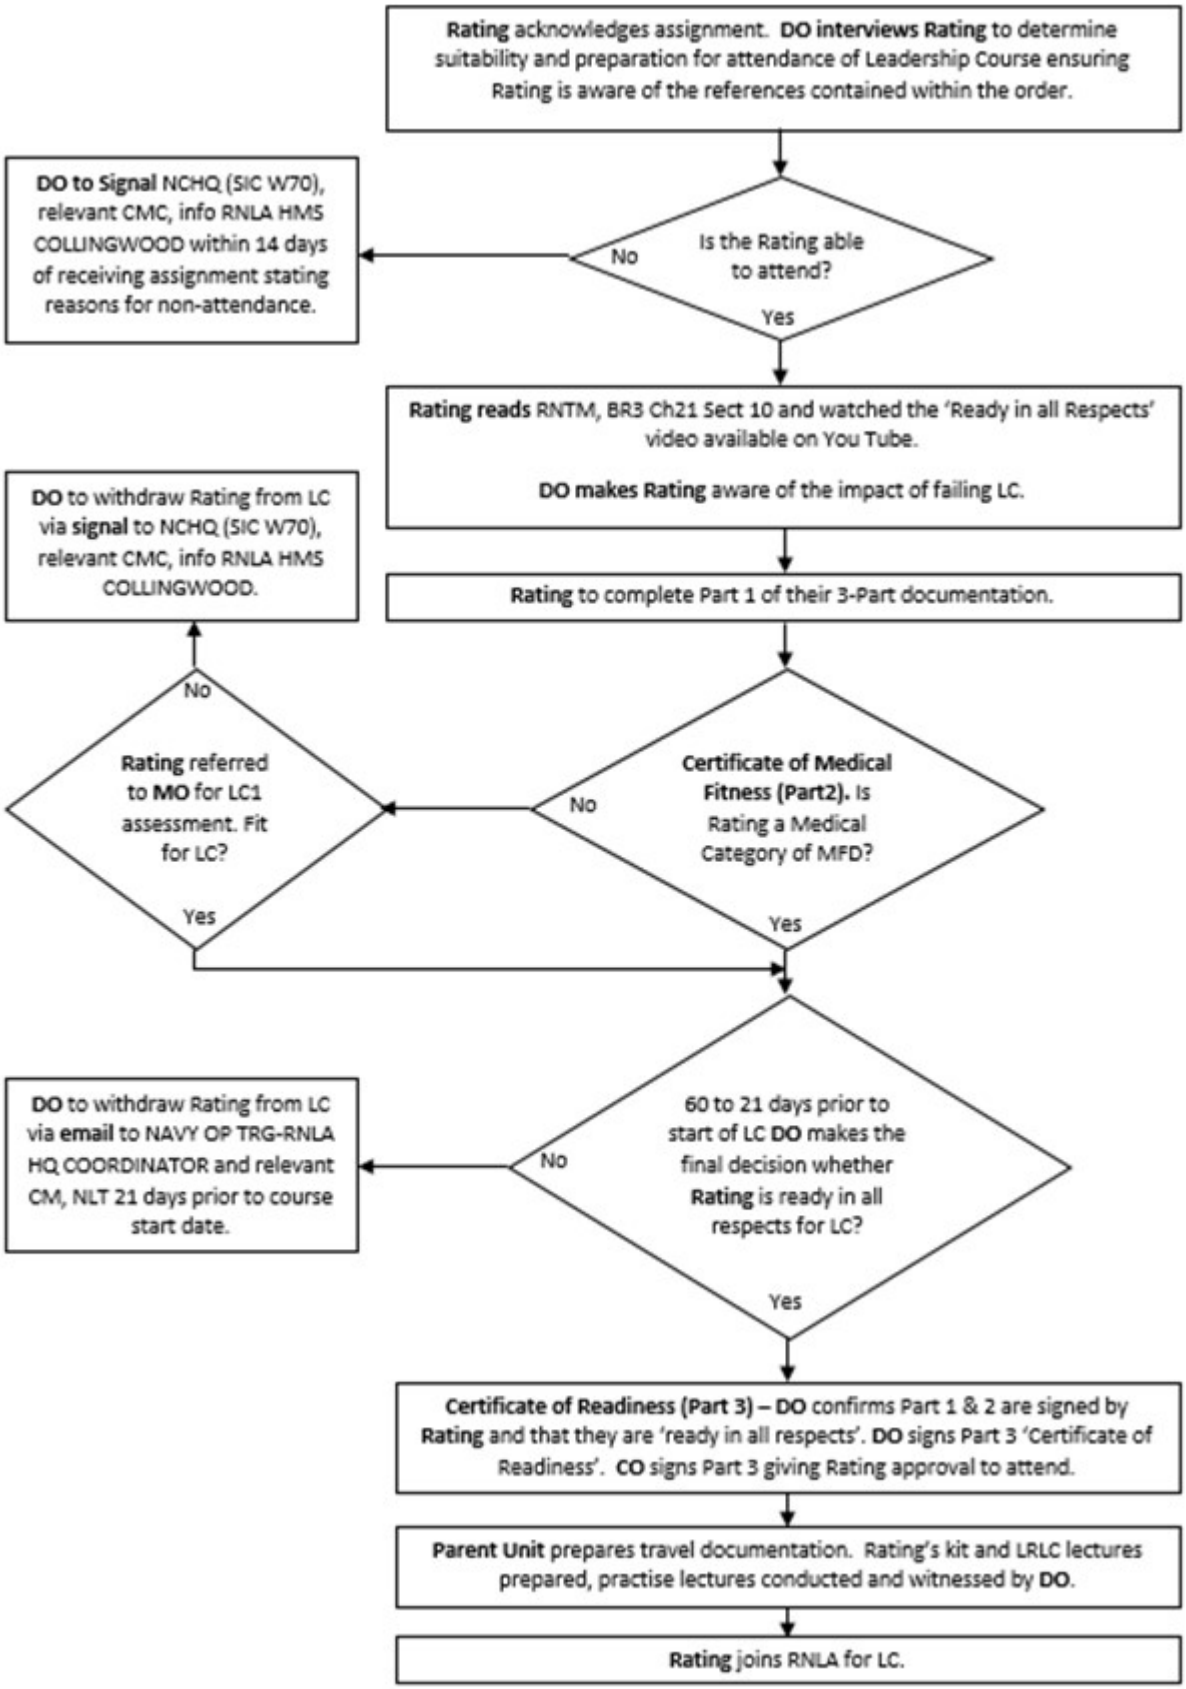
You are seeking a change of Personal Status Category. In order for the CO to consider your request, there are a number of questions or points of clarification, which we need to go through. Your responses may indicate that further help or support from other agencies may be appropriate and this will be discussed with you. If you do not wish to consider these questions that is your right but many find this to be a helpful aid.

Question	Response
Q1. How long is it since you felt your marital relationship or civil partnership has significantly deteriorated to the extent you want to end it?	
Q2. Is that view shared by your spouse /civil partner?	
Q3. Have you or your spouse/civil partner (or both of you) singly or jointly sought any professional help or advice with the difficulties you have had living together (e.g. Relate, RNRMW or other support agency).	
Q4. If NO to Q3: Do you believe that with such help or support, you could reconcile your differences and make a fresh start even now? If YES: Make steps to refer to RN FPS.	
Q5. If YES to Q3: When was this and what was the outcome (i.e. did things improve at all)?	
Q6. Have you read the SSAFA booklet 'A guide to help Service families during Relationship Breakdown'? Has your spouse/civil partner read the booklet? (Available from RN FPS)	
Q7. Do you have any children from the relationship?	

Question	Response
Q8. If YES: Have you considered the impact of your total separation on them? If YES: What steps have you considered for them?	
Q9. Services exist to help parents that intend to separate, with issues relating to the children (e.g. Mediation). Are you aware of them or would you like details? (Available via RN FPS/SAFAB/CAB)	
Q10. What legal and financial advice have you taken?	
What do you believe are your continuing financial responsibilities for your family?	
What is your knowledge of the CSA, who might take action if necessary?	
Q11. Is your spouse/civil partner in SFA or your own accommodation?	
Q12. If SFA: The UPO will advise DE of your change of circumstances. Are you aware of the timeframes (93 days) for being an Irregular Occupant and is your spouse/civil partner aware of the implications?	
What plans do they have?	
Q13. Would you (or your spouse/civil partner) like an appointment to see or talk to RN FPS prior to this final change of your marital category?	
Any other issues not covered above:	

ANNEX 21S

ATTENDANCE ON LEADERSHIP COURSE - FLOW CHART FOR DIVISIONAL OFFICERS



ANNEX 21T

THE KOLB LEARNING CYCLE

1. Professor David Kolb's model of experiential learning[1] describes the stages of an individual's learning as a cycle. In Kolb's model, learning happens within the learner, and:

a. is an unending process, not a result.

b. involves re-learning, again and again.

c. requires resolving conflicts of ideas.

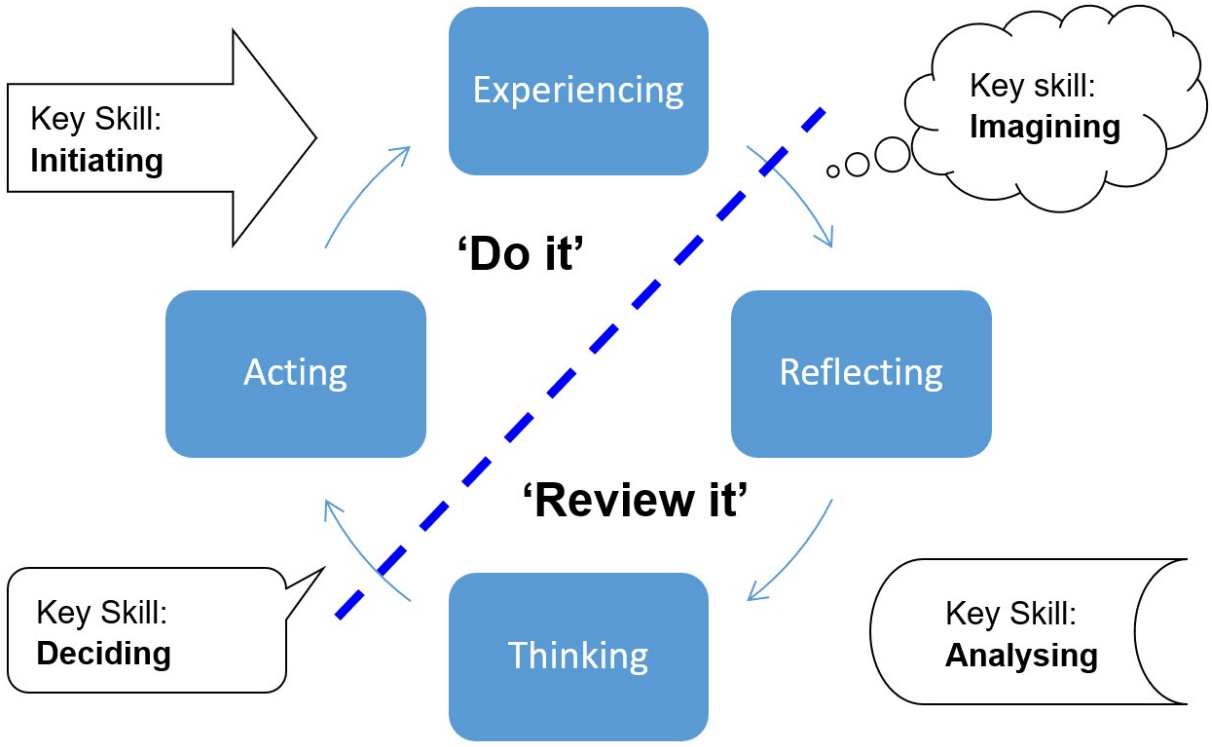
d. is adaptation to the world.

e. results from interactions between the person and the environment.

f. is the process of creating knowledge.

2. The learning cycle is outlined in the diagram below:

Figure 21T-1. KOLB Learning Cycle



3. To learn, a person must progress around the cycle. To learn deeply, to develop expertise, and to become a proficient and consistent performer, many cycles are necessary.

[1] Kolb, A. Kolb, D. Passarelli, A. Sharma, G. (2014) *On becoming an Experiential Educator: The Educator Role Profile.* Simulation and Gaming, 45(2), p. 204-234.

4. Preferred Learning Styles

Individuals tend to prefer one, or sometimes two, of the stages of the cycle and this tends to determine how they approach learning (and often any teaching they do too); some people like to dive straight in, others prefer to consider and plan first. However, for learning to occur, all stages of the cycle are important; it is therefore worthwhile for individuals to develop and practice all the key skills to improve their capacity to learn.

5. Helping Others to Learn

As learning happens within the learner, the most common pitfall for a well-intentioned person helping someone else to learn is to do too much for them: let the learner learn. It can be difficult and sometimes very frustrating for an expert to watch a novice struggle with something they know how to do with ease. However, the struggle is part of the learning: mistakes can be valuable learning events.

6. Impatience with a Learner

Impatience with a learner makes their learning more difficult as they must deal with both their own difficulties with the knowledge or skill as they progress around the learning cycle, and also the helper's well-meant interference. A learner will usually be concentrating hard so giving a series of instructions will tend to distract or confuse them. Taking over or getting involved in what they are doing can be highly de-motivating so should be avoided unless they are unsafe or are likely to cause intolerable damage. As a guiding principle, do the minimum possible to help the learner notice and figure out where they are going wrong, and change what they are doing to be more effective. It will take patience in the short term but the total time for the learner to become proficient will be less.

7. To really give valuable help, aim to guide, support and, if necessary, challenge the learner so that they progress around the learning cycle: create conditions that support learning and let the learner put in the necessary efforts.

8. When someone is struggling to learn, it is very easy to assume they are not trying hard enough; often (although not always) trying too hard can be the cause of the problem for a learner. There will be a reason behind any prolonged difficulty but appropriate help can only be given if that reason is accurately established: find out. The simplest approach is to ask the learner about what they are doing, and how they are approaching it.

9. Learning in Royal Navy Training

Royal Navy personnel must be prepared to operate in very challenging, time pressured, often dangerous circumstances. The practical aspects ('Do it') of learning within training are therefore often deliberately made very challenging to prepare personnel accordingly. Some 'reflection-in-action' (thinking 'on one's feet') is possible in such circumstances. However there is also the need to design in sufficient periods of deliberate 'reflection-on-action' so learners can adequately fulfil the 'Review it' aspects of the learning cycle necessary for learning to result from the training activities.

ANNEX 21U

FOUNDATION SKILLS AND BEHAVIOURS FOR COACHING

1. Coaching is defined by the Royal Navy as:

"Unlocking a person's, team's or organisation's potential to maximise their own performance".

Effective coaching causes learning; an essential component of performance improvement.

2. Royal Navy personnel are strongly encouraged to seek regular coaching, as well as developing their ability to coach others; receiving coaching allows a broader perspective on coaching to develop, including having direct experience of the subtle yet important factors that determine how well coaching supports learning.

3. Fundamental Principles of Performance Coaching[1]

Performance coaching should always aim to enable learning. In doing so, it must:

a. Increase learners' level of **awareness** about their situation.

b. Maintain, or increase, learners' sense of **responsibility** for their own learning and performance.

4. Foundation Coaching Skills

a. Four critical foundational skills are necessary for coaching:

(1) Listening.

(2) Observing.

(3) Asking Effective Questions.

(4) Providing Feedback.

b. These skills must be consistently put in to practise, as behaviours, for coaching to have beneficial effects. When used frequently they will become deeply integrated into the service person's character and the leadership approach.

5. Listening

a. A skilled coach will listen far more than they speak.

b. Superficial listening, where a listener hears what is being said but has other thoughts and questions in their mind at the same time, is not sufficient for effective coaching.

[1] Whitmore (2002) *Coaching for Performance: GROWing People, Performance and Purpose*. (3rd Ed) London: Nicholas Brealey Publishing.

c. Active listening, when the listener is engaged in the conversation and giving non-verbal cues to the speaker that they are paying attention. This is better; however if the coach's mind is forming questions, suggestions or recalling their own similar experiences then this will detract from the experience for the other person.

d. Deep listening, with the listener fully engaged while putting aside other thoughts, judgements and suggestions. This allows the other person the best environment to think and find solutions for themselves. The listener will have enough time to think about their next turn to speak when the other person has finished speaking; they will usually find that the details in what the other person has said (and what they have not said) which they have noticed as a result of listening deeply will make their own responses relatively easy and natural. Deep listening is a powerful way to quickly build rapport between people.

6. Observing

Observing may be split into two types:

a. Observing others' performance **in action** ('*Do it'* phase of the learning cycle):

(1) Make notes/records as appropriate.

(2) Focus on facts and details (what happened, when, how).

(3) Acknowledge that 'I am not able to observe everything'.

b. Observing others as they reflect, analyse, think and decide **after action** ('*Review it'* phase of the learning cycle).

(1) Give enough time and space for the learner to think.

(2) Watch the learner carefully for any physiological changes or reactions.

(3) Notice the words and types of language used when the learner speaks.

7. Asking Effective Questions

"A question works because, unlike a statement which requires you to obey, a question requires you to think. The mind seems to prefer to think, not to obey. In true emergencies like fires, shipwrecks and haemorrhages, the human mind obeys happily enough. But in ordinary life the mind wants to think for itself. It resists commands. It responds to questions." (Nancy Kline[2])

a. Structuring Questions.

(1) Ask only one question at a time.

(2) Begin with the 'question word' (i.e. What/How/Why/Where/Who…).

[2] Kline, N. (1999) *Time to Think: Listening to ignite the human mind*. London: Octopus Publishing Group.

(3) Keep the question as simple and clear as possible.

(4) Give time for the other person to think before they respond.

b. **Sequencing Questions.** The order and sequence of questions matters; using an appropriate order of question words helps to build rapport between coach and learner. The order of questioning can be aligned with the stages of the learning cycle, as shown in the table below.

c. Sample questions use 'X' or 'Y' for topic information; where the learner has spoken about the topic it is usually most effective to use the same form of words as the learner did.

d. Do not ask a question unless you are willing to give a learner sufficient time to think and to then listen to their answer.

Table 21U-1. Sequencing Questions

Stage of Learning Cycle	Useful Question	Elicits from Learner	Purpose
Reflecting (Imagining)	What happened? …What else? …Then what…?	Sequence of events.	Recalls the experience; begins to place events and actions in an order.
	Tell me more about X.	Details about a specific event or action.	Focuses attention on a specific event or action.
	Where were you when X happened? …Where was person X? …Where was object X?	Details about locations of people or objects.	Focuses attention on locations of people and objects.
	Who did X? …Who else was available?	Details about what people did.	Focuses attention on roles and actions of people.

Stage of Learning Cycle	Useful Question	Elicits from Learner	Purpose
Thinking (Analysing)	How did X happen?	Description of sequence of events. Some cause and effect.	Focuses attention on cause and effect.
	How did X cause Y?	Details of cause and effect between specified events.	Encourages analysis of cause and effect in the experience.
	How should X happen?	Theory of desirable process / actions / causes and effects.	Focuses attention on theory relevant to the experience.
	How is X related to Y?	Theory of cause and effect between specified events or entities.	Focuses attention on underlying theory or relationships relevant to the experience.
	Why does X result in Y?	Underlying theory of relationship between entities.	Focuses attention on underlying theory relevant to the experience.
	Why is X important?	Identifies role of an event or entity.	Focuses attention on consequences of a relevant event or entity and encourages learner to relate it to the experience.
	Why did you decide to do X in the way you did?	Explanation of thought process and specific decision.	Encourages learner to examine their own thinking and decisions.
	What could you do differently that would lead to a better result?	Alternative options for the future.	Encourages learner to consider alternative ways to think, decide or act.
	What changes would have the most significant effect on the result?	Comparison of effects of different options.	Encourages learner to consider priorities for developing their thinking, decisions or actions.

Stage of Learning Cycle	Useful Question	Elicits from Learner	Purpose
Acting (Deciding)	What will you do in the same way next time?	Commitment to continue to apply effective actions/behaviours.	Learner explains their plan for improved performance and takes responsibility for carrying it out.
	What will you do differently next time?	Commitment to apply different actions/behaviours to improve future outcomes.	Learner explains their plan for improved performance and takes responsibility for carrying it out.
	What else are you going to do that will improve the result next time?	Commitment to take broader actions or adopt new behaviours to improve future outcomes.	Learner explains their plan for improved performance and takes responsibility for carrying it out.
	What support or help will you need? ...from whom? ...how will you arrange that?	Consideration of resources, support and help that may be needed. Consideration of how to get access to them.	Learner makes sure their plan is realistic and workable.
Experiencing (Initiating)	How will you let me know what happens?	Commitment to update coach on the outcomes.	Increases learner's responsibility to carry out their plan. Gives coach feedback on results of their coaching.
	How committed to this plan are you? ...what would increase that commitment?	Assessment of their own commitment level. Explanation of how to increase it (if needed).	Opportunity to remove or reduce learner's own barriers. Increases learner's responsibility to carry out their plan.
	How will you ensure you carry out your plan?	Explanation of what the learner will do to ensure the plan is carried out.	Clarifies any necessary steps the learner may need to take. Increases learner's responsibility to carry out their plan.

8. Providing Feedback

Feedback may be split into two types:

a. Feedback on others' performance in action ('Do it' phase of the learning cycle):

(1) Make feedback short and precise.

(2) Draw the learner's attention to the one most important detail of the situation they are in.

(3) Give the learner the chance to react to the feedback before giving any more.

b. Feedback to others as they reflect, analyse, think and decide after action ('Review it' phase of the learning cycle).

Use the Effective Debrief/Feedback model.

ANNEX 21V

COACHING USING THE GROW MODEL

1. Background

GROW is a well known coaching model that has been adopted by the Royal Navy in order to empower personnel to achieve their potential. It works by providing a structure to help a coach guide a coachee around the learning cycle and can be used just as effectively with individuals and teams alike; as with any coaching intervention, it relies on the coach asking effective questions and listening, with the coachee doing the majority of the talking. It is a useful tool in any situation where there is a need for development of the coachee, including during training, formal opportunities such as MPAR, and informal opportunities, such as a quick chat as the opportunity arises. GROW is an acronym for Goal, Reality, Options, Will. The example of preparing a rating for Leading Rates Leadership Course is used in the following guide.

2. Grow Model

a. **Goal.** The aim of this part is to establish what the requirement is. This may be a goal that has been set by the coach or by the coachee(s). It is essential that the goal is SMART:

(1) **Specific.** Both parties know exactly what needs to be achieved;

(2) **Measurable.** It is clear when it has been achieved;

(3) **Achievable.** It has to be achievable or the individual/team can become demoralised[1];

(4) **Relevant.** Both to the organisation and for the individual's development;

(5) **Time-bound.** Both parties are clear as to when the goal should be achieved by.

b. Setting the goal may take time; however, it is a worthwhile investment as it clarifies and focuses the intent. Without a clear goal, progress will be very difficult for the coachee. Setting a goal can be done through a series of questions, such as those shown below:

(1) **What do you want to achieve?** *I want to fully prepare for my forthcoming LRLC, which is in three months' time*.

(2) **What do you think you need to do?** *I need to prepare physically as I will need to pass my RNFT on Day One.*

(3) **How will you go about that?** *I could start lunch time circuits and I could approach the LPT to ask about a training programme.*

[1] This may require a goal being split into smaller goals to make it achievable. Initially preparing a 7 min presentation is less daunting than preparing both the 7min and 15 min presentations.

c. Ensure there is sufficient reason and motivation by asking questions that will affirm the importance of the goal to the individual:

(1) **What will this do for you?** *I keep to the programme that is provided as I need to pass LRLC for promotion.*

(2) **What will happen when you have achieved your goal?** *I will be ready in all respects for promotion.*

3. Reality

Reality establishes the current situation, and is necessary because the options will be dependent on where the coachee starts from. Having established the reality, it might be necessary to revisit and modify the goal. The reality is stated mostly by the individual, the coach may also need to point out some facts using questions such as the following:

a. **What are you doing that's helping you at the moment?** *I have begun to work on my presentations. I have two subjects and I am now preparing the Power Point slides.*

b. **What are you doing that's not helping you at the moment?** Answering this question takes a lot of trust because it's difficult for people to admit their faults and failings, but for progress to be made, the truth needs to come out, whatever it is. For LRLC there are possible issues such as fitness, uniform, a lack of confidence in speaking in public and lacking confidence in taking charge of a small team.

4. Options

This part explores all the options to move from the current situation (**Reality**) to achieve the Goal. The options should come from the individual, however, the coach may have more experience in the area, and therefore may also be able to offer further options. Questions used may include the following:

a. What could you do?

b. What else?

c. Have you thought of X as an option?

5. Will

This is where the coachee decides what they will do. It is very important, especially if they decide to take an option suggested by the coach, that they are empowered to choose the option that is the best for them. The following questions can be used to elicit the information:

a. **What are you going to do?**

b. **What will happen if you do this?**

c. **How are you going to stick to this plan?**

d. **What help will you need to achieve it?**

e. **When will you do this? (date/time bound)**

At this point, if it will help, a contract can be signed, or a note made, either formally or informally, as a record of what has been agreed.

6. Summary

Coaching with GROW may take longer than employing the traditional ‘tell’ style, however, the marked increase in ownership of the goal by the individual increases motivation and ensures that it is far more likely to result in success, and for such success to be achieved more efficiently than when the ‘tell’ style is employed. This is not, of course, to say that we should not tell people what to do; on the contrary, and especially in a disciplined force such as the Royal Navy, obeying orders is a primary requirement. It is, however, the case that telling is not always the most effective way to get the job done.

ANNEX 21W

EFFECTIVE DEBRIEF/FEEDBACK

1. The most effective way to learn is by progressing through the learning cycle. The Royal Navy gives personnel experience in real workplaces and also routinely carries out practical exercises which give personnel relevant experience and opportunities to practise skills (*'Do it'*). To ensure lessons are learned, an effective debrief should take place at every learning opportunity (*'Review it'*). This includes activities in training, and other levels of activity where there is room for improvement e.g. conducting an MPAR, organising an event, leading a working party, or producing a piece of project work. This is just as effective for individuals as it is for teams.

2. For the debrief to be effective, the person giving it must always adopt a coaching role, which means allowing the individual (or the team, focussed through a chosen individual), to do the vast majority of the talking. This process may initially take longer than a directive or 'tell' style of debrief, however, once the coach and the coachee are used to it, it can happen very quickly. Even if it does take longer than a 'tell' debrief, the far superior effectiveness makes it is much more efficient overall as people are being given the opportunity to learn.

3. Effective debrief is achieved by asking the following questions.

a. **How do you think that went?** Beginning with an open question that has no positive or negative terminology within the phrasing allows the individual to self-reflect on the whole situation in the first instance.

b. **What went well?** Allow sufficient time to reflect, think and analyse and encourage the coachee(s) to take credit for what they did well.

(1) Acknowledge their successes if you agree with them.

(2) If you believe they've missed something, prompt with a question such as: **How do you think X went?**

(3) If you disagree with their judgment of what went well, prompt them to reconsider, with a question such as: **You say X went well, what about when Y happened?**

(4) **As a last resort**, tell them, however, this is by far the least effective way to learn so should be avoided if it is possible to draw out the answer with effective questions.

c. **What didn't go as well as you'd have liked[1]?** Again, allow time to reflect, think and analyse. Allow and encourage the coachee(s) to answer you honestly, as the most valuable lessons can be learned with this question.

(1) Acknowledge if you agree.

(2) If you believe they've missed something, prompt with a question such as: **How do you think X went?** This will:

(3) Either remind them of another area that didn't go well, in which case, let them discuss it.

(4) Or be met with a blank look! If this happens, it is likely that they really didn't know this part of the activity hadn't gone well, in which case the coach needs to explain what didn't go well.

d. **If you were to do X again, or, better still, Next time you do X, what will you do differently to ensure it goes better?** This allows for mental rehearsal to ensure that mistakes are rectified and for decisions to be made about how to act in the future; it is the most important part of the debrief. Ensure the coachee(s) state exactly how they are going to ensure success for every part of the task that was mentioned in the second question.

[1] Do not limit this to the top three mistakes!. The brain is very powerful and can deal with all the mistakes if given the chance.

ANNEX 21X

DIVISIONAL AND REGIMENTAL DIGITAL TOOLKIT

1. The Digital Toolkit to the Divisional and Regimental System is a series of tools designed to enhance access and useability to Divisional and Regimental information including a new “off-line” tool to enable reporting when SCIO is inaccessible. The details below will provide an overview of each of the tools and how they benefit all RN and RM personnel.

2. The Digital Toolkit is to increase the efficiency of Divisional/Regimental processes allowing for greater interaction with the Division/Troop as a whole. It also provides the Chain of Command with increased oversight ensuring maintenance of standards, professional output and tailored support to our people.

3. The key users of the Digital Toolkit referenced in this document are:

a. The Individual

b. Divisional Officer (DO)

c. Troop Commander (TC)

d. Executive staff:

(1) Warrant Officer (EWO)

(2) Departmental Coordinator (DEPCO)

(3) Squadron/Company Sergeant Major (SSM/CSM)

4. Working in conjunction with JPA and SCIO, the Digital Toolkit is comprised of the following elements:

a. JPA Data Check (Appendix 1)

b. DO/TC Dashboard (Appendix 3)

(1) Performance Improvement and Empowerment Record (PIER) (Appendix 4).

(2) Divisional and Regimental Reporting Tool (D&RRT) (Appendix 5).

(3) SP SLI Check & Guidance (Appendix 6&7).

5. The JPA Data Check, DO/TC Dashboard and the Divisional and Regimental Reporting Tool will work collaboratively, improving the accuracy of JPA data and so improving efficiency of the Divisional and Regimental system.

6. To make the learning process as seamless as possible, easily accessible user guides and instructional videos will be made available through the Divisional and Regimental review SharePoint.

7. To maximise the benefit of these tools, it is critical that they are endorsed by unit Senior Management. It remains the responsibility of Divisional and Regimental staff to effectively performance manage their people, but they should encourage personnel to take ownership of their appraisal narrative by embracing these new reflective practices.

8. Although BRd3 does not specify any pre-set time to complete Divisional/Regimental duties, adopting the following battle rhythm is recommended to allow sufficient opportunity to optimise value gained from the D&RT:

a. Divisional administrative hour once per week.

b. Divisional discussion once per fortnight involving all personnel who hold Divisional/Regimental responsibilities - to align divisional understanding, communicate changes in policy or interpretation, discuss divisional trends, themes, problems or plan future training/events.

c. Executive N1 Forums once per month.

9. Allocating timeslots for divisional and regimental responsibilities should not be viewed as a replacement to ‘walking the patch’ or to providing reactive support when required.

10. SCIO. The Digital Toolkit uses SCIO to access and manage information at both a divisional and individual level. SCIO is accessible through Google Chrome on both ModNet and DII platforms.

11. SCIO will use the JPA hierarchy and the responsibilities associated with each individual JPA line number to automatically determine the structure of a division and the appropriate level of functionality required within the tools. Divisional structure may then need to be refined using the DO/TC Dashboard within SCIO - changes in SCIO will not be written back to JPA.

Note. *It is essential for all units to ensure that their divisional hierarchies are accurate and that individual roles reflect the appropriate JPA line number correctly.*

12. SCIO is a user-friendly platform which can operate under a reduced bandwidth which will optimise the opportunities available for Individuals to access the tools in environments where connectivity is limited.

13. Users can also login to MySCIO via JPA by clicking through ‘JPA Self Service’ > ‘My Dashboards’ > ‘JPA Dashboard Function’ > ‘NAVY’, and then on the SCIO link (see above) when the OASIS Dashboard has loaded.

APPENDIX 1 TO ANNEX 21X

JPA DATA CHECK

1. JPA data drives career management, promotion, and all other Tri-Service HR functions. Thus, although the maintenance of JPA data is the individual's responsibility, it also informs policy and decision making in NCHQ and the wider MOD.

2. The JPA Data Check replaces the JPA Personal Information Check performed using OBIEE, negating the need to print paper copies for the DO/TC and Unit Personnel Office (UPO). Currently, any changes to personal data will still be made using JPA, which will be reflected on MySCIO within 24 hours.

3. The tool will enable the individual to acknowledge that data held within the Oracle database is up-to-date and correct; the DO/TC will be able to see that this has been completed when they access the DO/TC Dashboard. This information provided on the DO/TC Dashboard is for informational purposes only; responsibility for processing 'date last verified' (DLV) data remains with the UPO.

4. The Dashboard will utilise a traffic light system to indicate to the Individual - and their DO/TC - that their check is in date (Green), 30 days from expiry (Amber), or expired (Red).

5. The JPA Data Check displays an Individual's personal details in an easily readable format, taking the user through a series of pages with acknowledgment points where, for audit reasons and prevention of fraud, they will be required to make a digital declaration. Should an Individual require a change to their data, they will need to alter the details in JPA which will then update MySCIO within 24 hours.

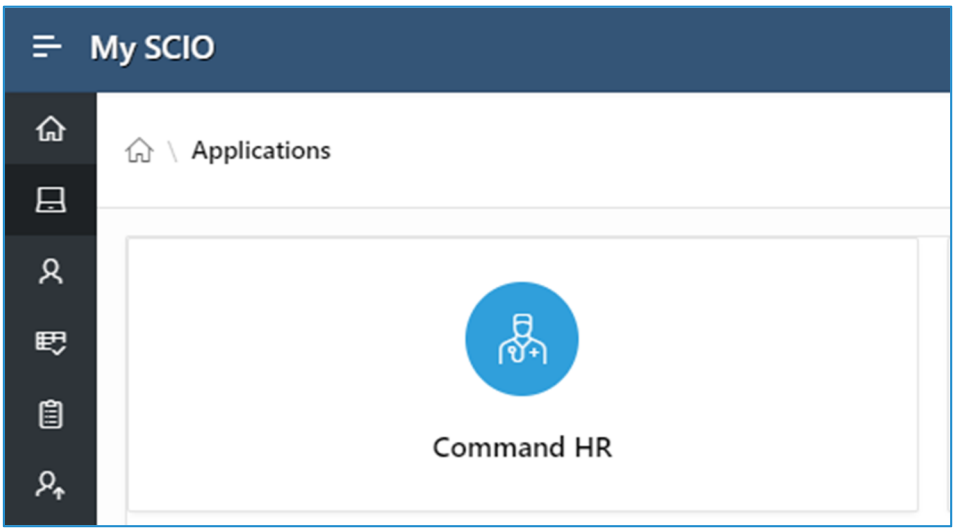
6. The JPA Data Check tool is also available via the MyNavy app.

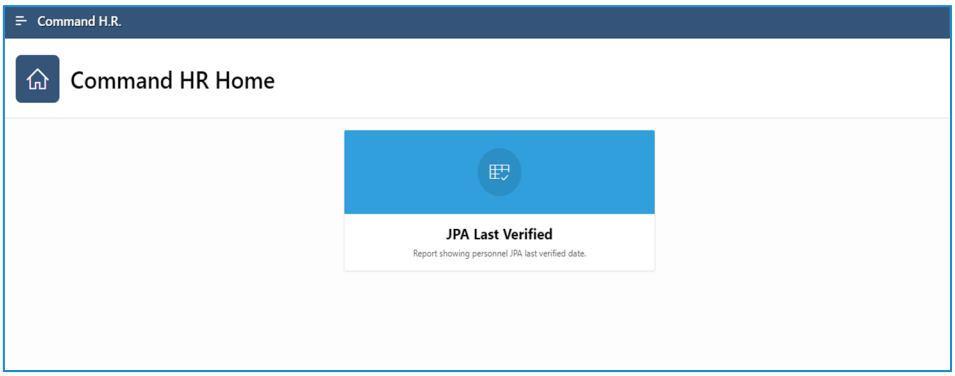
7. A simple integrated user guide will be available within the app to ensure that users are able to complete the check correctly and swiftly.

APPENDIX 2 TO ANNEX 21X

COMMAND HR – JPA LAST VERIFIED APP

1. The JPA Data Check in SCIO, is not tracked within JPA. Therefore, unit personnel with JPA access as 'Unit MI Manager' or 'Unit HR Admin' should be able to access the SCIO 'Command HR – JPA Last Verified' App to view their unit data for the annual JPA data checks, if this access hasn't been granted, the SCIO MB, NAVY PCAP-PPLAN HRA SCIO MAILBOX (MULTIUSER) NAVYPCAP-PPLANHRASCIOMAILBOX@mod.gov.uk can be contacted to request SCIO access for this App.





APPENDIX 3 TO ANNEX 21X

DIVISIONAL OFFICER/TROOP COMMANDER DASHBOARD (DO/TC DASHBOARD)

1. The use of the DO/TC Dashboard enables the divisional and regimental system to work more effectively. Once the positional hierarchy is established and maintained in line with the unit's Divisional/Regimental structure, the dashboard draws on JPA data and offers a quicker solution to retrieving that information than is currently available. Units should aim to establish use of the D&RT DO/TC Dashboard App as soon as possible. All units require a nominated individual to have DO/TC Dashboard 'Unit Administrator/EWO' access to the App, to manage their Divisional/Regimental Plot.

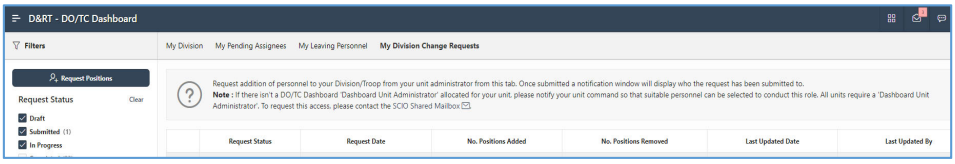
2. The DO/TC Dashboard is intuitive to use and the CoC is able to access and utilise data in several different views. Importantly, it highlights when individuals have out-of-date/incorrect information within JPA as well as automatically displaying bring-up actions.

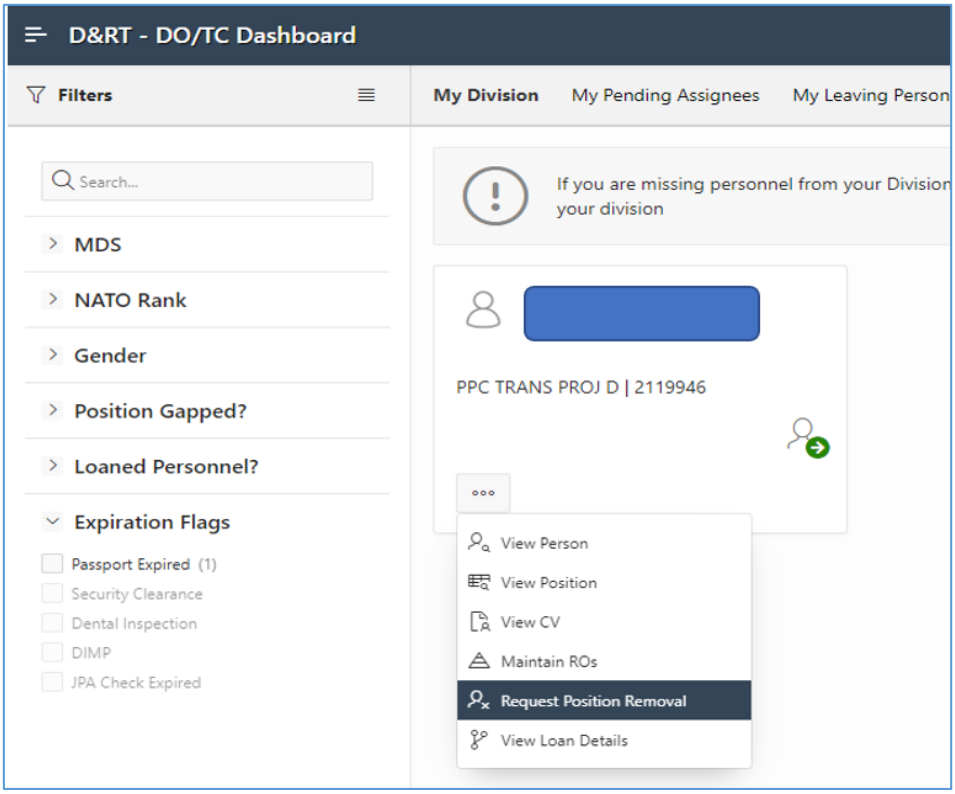
3. The DO/TC Dashboard provides managers with the function to request to add new joiners to their Division / Troop once an individual has been assigned to the unit; this is then approved or rejected by the executive staff. Alternatively, the releasing DO/TC, if applicable, can use the dashboard to request a transfer of the individual to the Division/Troop of the gaining DO/TC with full Command oversight. Once the Individual is added, their new DO/TC will have access to their information (i.e. fitness test results, JPA last verified, NOK details, Naval Core Training/Military Annual Training Tests dates, passport details etc).

4. In the 'My Troop/Division' section, the DO/TC will see an overview of key details for their entire Division/Troop such as Service Number, DOB, JMES etc. From there, they can select an Individual to view more details. They will also be able to see a list of their pending assignees and leaving personnel.

5. Executive staff will have administrator access and will be able to move/assign individuals to any Division/Troop within their unit, providing them with the ability to 'build' if required. They will have oversight of all Divisions/Troops and will be able to monitor DO/TC activity including approval and rejection of requests.

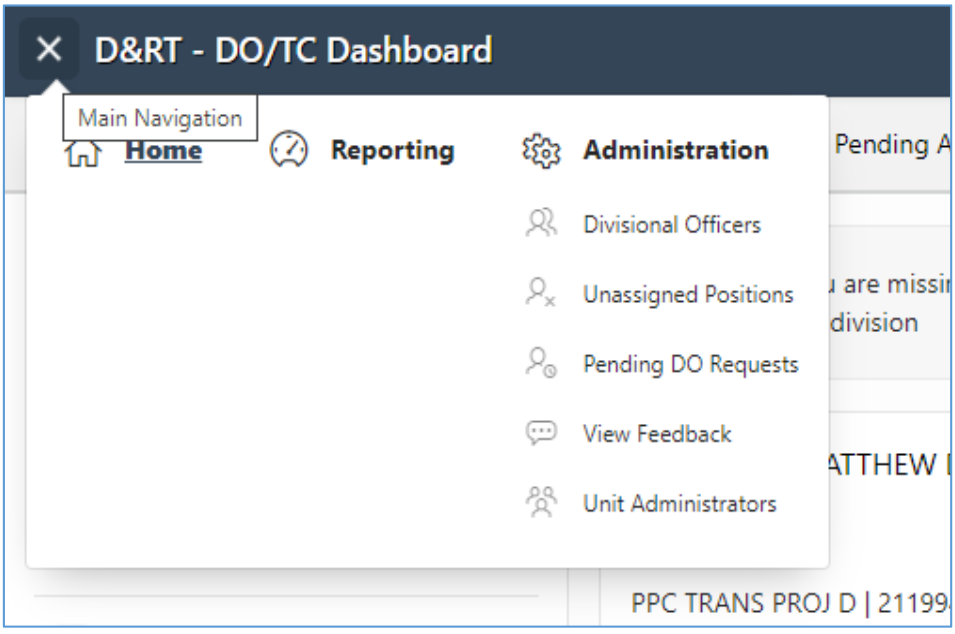
6. DOs and Tp Cdrs can request addition or removal of personnel from their 'Unit Dashboard Administrator'. Additions are requested from the 'My Division Change Request' Tab and removals can be actioned from the individuals Tile within the 'My Division' Tab.

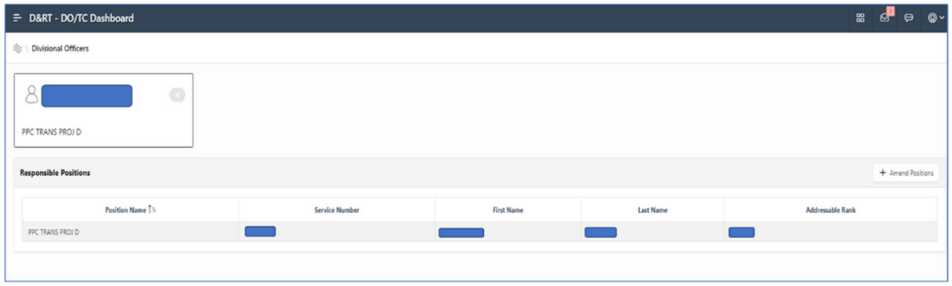




7. 'Dashboard Unit Administrators' are able to access 'Division Change Requests' from DOs/TC via the 'Administration' menu, by selecting 'Pending DO Requests'. The requests can be 'Granted' or 'Denied' by the administrator.

8. 'Dashboard Unit Administrators' are able to manage their unit Divisional/Regimental plot within the 'Administration' menu by selecting 'Divisional Officers'. This will enable them to add/remove personnel for a selected DO/TC, by selecting the required DO/TC and then selecting 'Amend Positions'.





D&RT - DO/TC Dashboard
Divisional Officers
PPC TRANS PROJ D
Responsible Positions
Amend Positions
Position Name
Service Number
First Name
Last Name
Addressable Rank
PPC TRANS PROJ D

APPENDIX 4 TO ANNEX 21X

PERFORMANCE IMPROVEMENT AND EMPOWERMENT RECORD (PIER)

1. PIER is a tool for use between the DO/TC and their Division/Troop, encouraging more constructive and refined feedback between Individuals and the CoC. For units with limited bandwidth or limited access to SCIO, an offline template is available.

2. PIER enables individuals to set and record activities and gain feedback/endorsement for their completed activities. An individual's PIER can be accessed by the immediate line management (1UP/2UP) and reporting chain (1RO/2RO), who will also be able to provide feedback. Access to an individual's PIER will be via the 'Subject's PIER' tab. It is a bottom-up initiative and pertinent to performance development and individuals career aspirations, which is designed to result in improved reporting (MPAR, SJAR, OJAR etc).

3. There is a section in 'MyPIER' for Individuals to conduct self-reflection and a SWOT (Strengths, Weaknesses, Opportunities, Threats) analysis, which is aided by a 9-box Format Performance/Potential Matrix. PIER will assist both the subject of an MPAR/SJAR/OJAR and the reporting officer by developing an evidence portfolio.

4. **My SCIO PIER Digital Tool.** The main areas the 'Subject' uses are:

a. **'Access Rights'.** This shows who has access to a Subject's 'MyPIER' (1UP, 2UP, 1RO, 2RO, DO/TC), and enables them to select their 1UP/2UP if necessary.

b. **'Activity Record'.** Division/Troop members set themselves activities which provide tangible evidence for their own SJAR/OJAR. On completion of the activity, the subject records their own analysis of their performance and requests an endorsement (at least 1 rank or rate above the subject). Endorsements should be framed around performance attributes that are reported on within SJARs/OJARs. The subject's 1UP/2UP or 1RO can review the 'Activity Record', including endorsements and provide further comment against the activity.

c. **'Self-Reflection'.** The performance/potential matrix assists the subject in identifying their performance and potential as a basis for discussion and a foundation for their SWOT analysis.

d. **'Evidence'.** This drag and drop box is for evidence uploads to MyPIER which can include emails of endorsement, presentations and files related to recorded activities. This will provide an easily accessible list of files verifying the Individual's performance.

e. **'1RO Narrative'.** This is where the 1RO provides performance feedback to the subject, independently of the subject's own activity record. Entries can be related to any observed performance or task and are to provide constructive feedback, but it must include advice for improvement. There is also a function for 'Subject Response' to the 1RO narrative. This area is only viewable by the 1RO and Subject.

APPENDIX 5 TO ANNEX 21X

DIVISIONAL AND REGIMENTAL REPORTING TOOL (DR&T)

1. The D&RT will facilitate faster issue resolution and improve communication within the CoC enabling greater oversight of Division/Troop status and maintaining the integrity and credibility of the D&RS. Units should ensure that the D&RT Reporting Tool App is used by all DOs and TCs. Units will also need to ensure that the HoDs and Unit Executive Staff have the appropriate access to the Reporting Tool App.

2. The D&RT captures issues by allowing users to raise ‘tickets’, which are then escalated incrementally through the CoC as required. An opportunity to resolve a ticket is present at each level, however, if the originator or the individual ‘holding’ the ticket feels it needs more senior input, they can then escalate it. This process, along with unit-wide transparency of raised tickets, will see issues resolved more promptly and at the appropriate level without diluting data collection capability.

3. Data collection facilitates the ability to conduct trend analysis at Flotilla, Brigade and NCHQ level, allowing more effective allocation of resources and forward planning to be conducted on a service-wide basis.

4. The D&RT will use the following standards as guidance when categorising a ticket:

a. Support.

b. Career.

c. Harmony.

d. Accommodation.

e. Healthcare.

f. Wellbeing.

g. Fitness.

h. General Standards.

5. The above standards are subsequently divided into the following sub levels:

a. Support:

(1) Primary level welfare provision.

(2) Family support welfare provision.

(3) Deployed welfare support & families information pack.

(4) RN websites.

(5) Youth forum.

(6) Other.

b. Career:

(1) JPA preferences.

(2) Preference E24.

(3) Jobs list (SCIO).

(4) Maternity, paternity and shared parental leave.

(5) Serving with dependent children.

(6) Branch transfers.

(7) Gunwharf.

(8) Promotions.

(9) Recovery pathway.

(10) Terminations.

(11) Exit interviews.

(12) Other.

c. Harmony:

(1) CAT A.

(2) CAT B.

(3) CAT C.

(4) Separated service.

(5) Other.

d. Accommodation:

(1) SLA.

(2) SFA.

(3) SSFA.

(4) FAM.

(5) Other.

e. Healthcare:

(1) Health promotion.

(2) General.

f. Wellbeing:

(1) General.

g. Fitness:

(1) Synopsis Sport.

(2) Recognised Sport.

(3) Approved Sport.

(4) Training.

(5) AT.

(6) Other.

h. General Standards.

(1) General.

6. The Qualitative Assessment (QA) made by the originator will be key to informing Command and facilitating prompt resolution of issues. QA will be implemented using the following categories:

a. Satisfactory.

b. Minor Weakness.

c. Serious Weakness.

d. Very Serious Weakness.

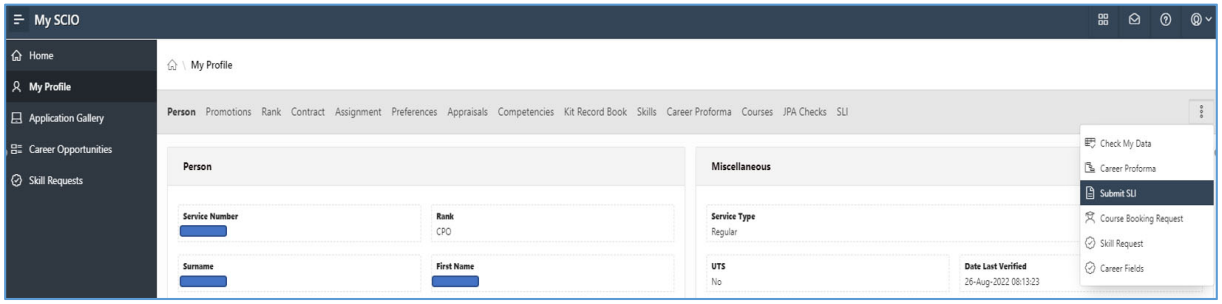
7. This tool operates separately to Personnel Functional Standards (PFS), but both can be used to report issues on the respective categories available in each.

8. Appendix 10 contains a template that may be used when access to SCIO is limited. The completed document should be emailed to NAVYPEOPLE-PSPDIVREPORTING@mod.gov.uk

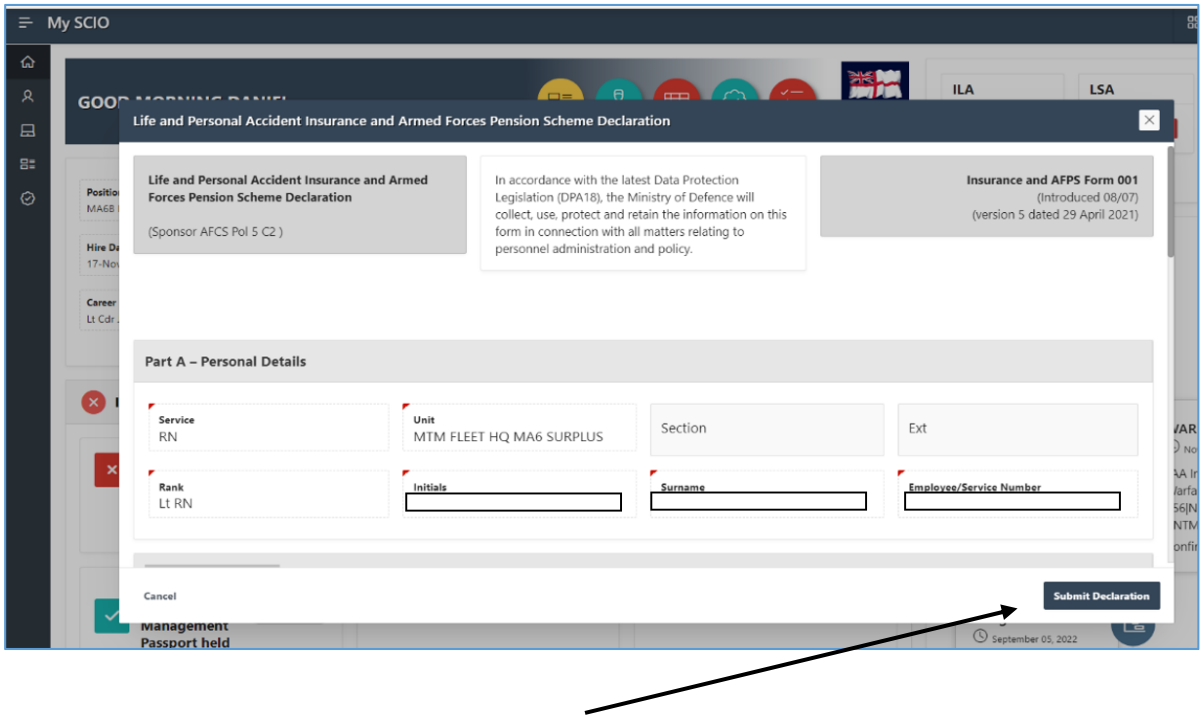
APPENDIX 6 TO ANNEX 21X

GUIDE TO UPDATING/CHECKING SLI STATUS

1. When it is necessary to update your SLI Form, it can be accessed via the My SCIO – My Profile page. Select the 'Submit SLI' from the 'Actions' icon on the right side of the grey banner.

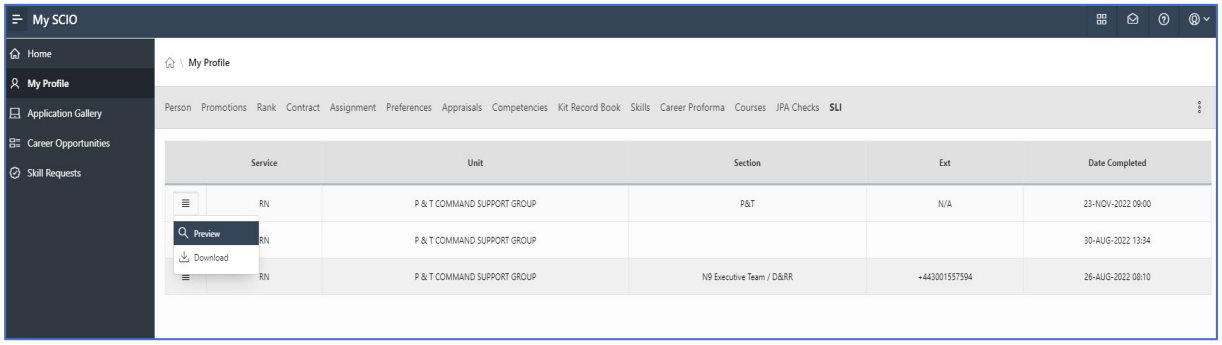


2. Selecting this icon will open up the 'Life and Personal Accident Insurance and Armed Forces Pension Scheme Declaration', shown below.

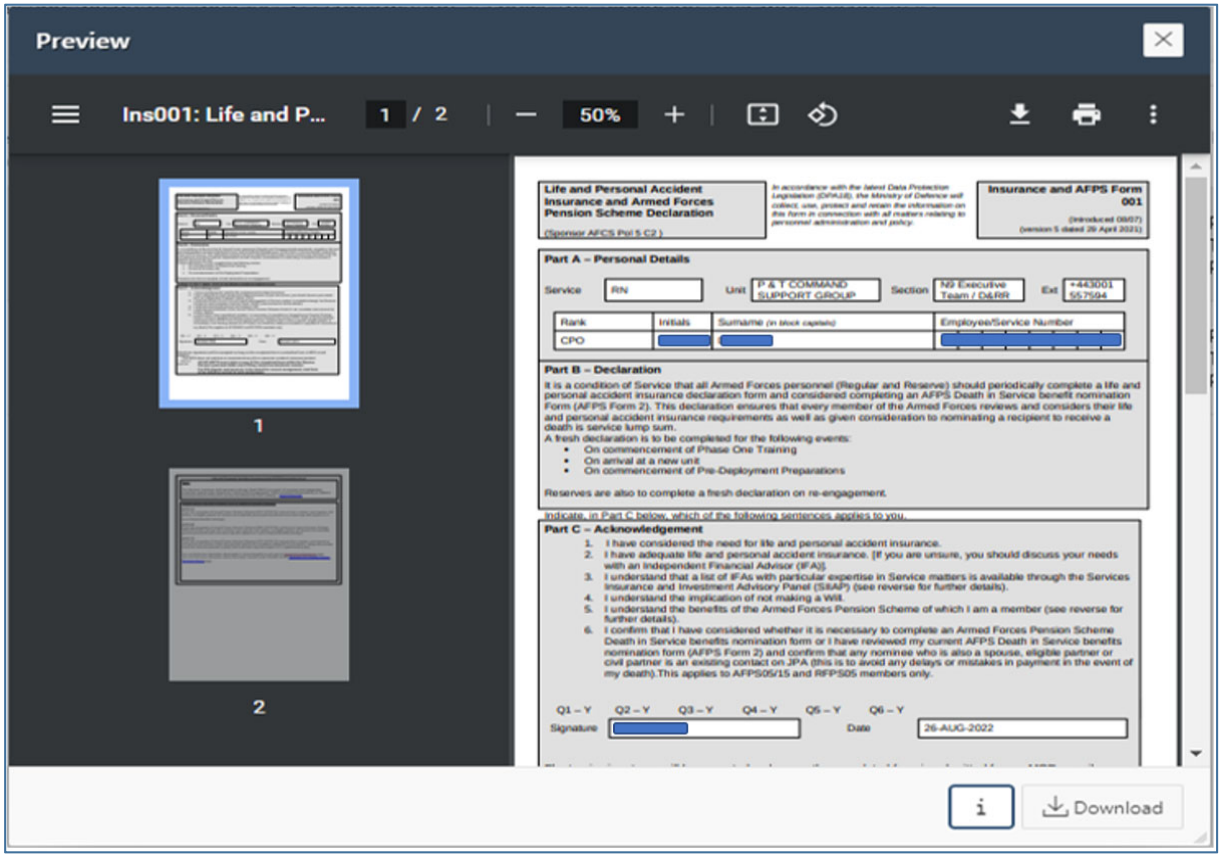


3. Once the declaration is complete, it can be submitted using the 'Submit Declaration' button at the bottom of the page.

4. To view in date or historic SLI Forms in SCIO, select the SLI Tab from within the grey banner in the My SCIO – My Profile page.



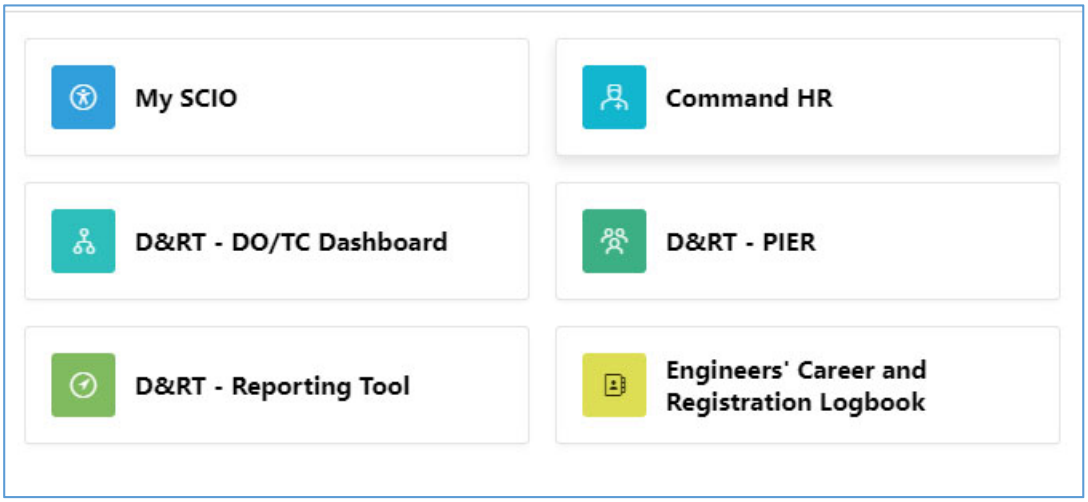
5. Completed SLI Forms can be viewed or downloaded by selecting the row 'actions menu'.



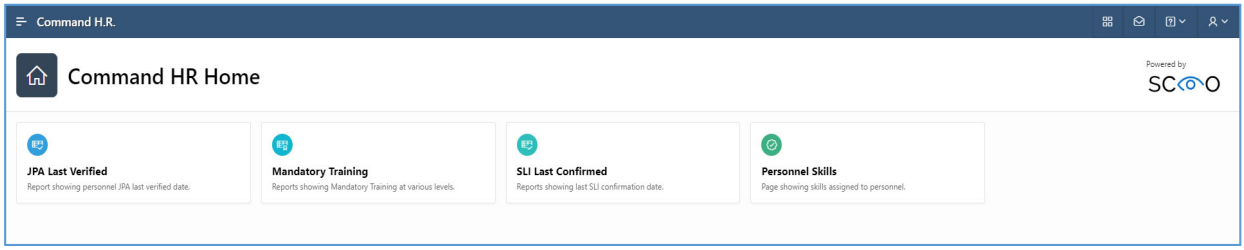
APPENDIX 7 TO ANNEX 21X

COMMAND HR GUIDANCE FOR CHECKING SPs SLI STATUS

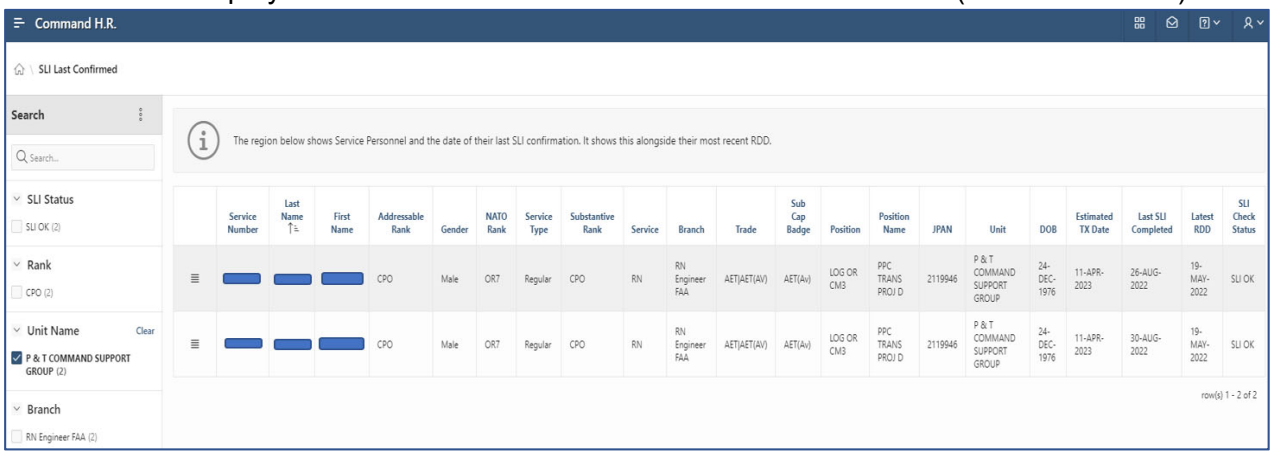
1. To ensure that a Unit is fully in date for an SLI declaration, the Command HR function allows full access to check that all SPs have carried out the procedure in Annex F. Users with JPA 'HR Admin' rights or the 'Unit MI manager' can access this function through the SCIO homepage by clicking on My Apps and Command HR.



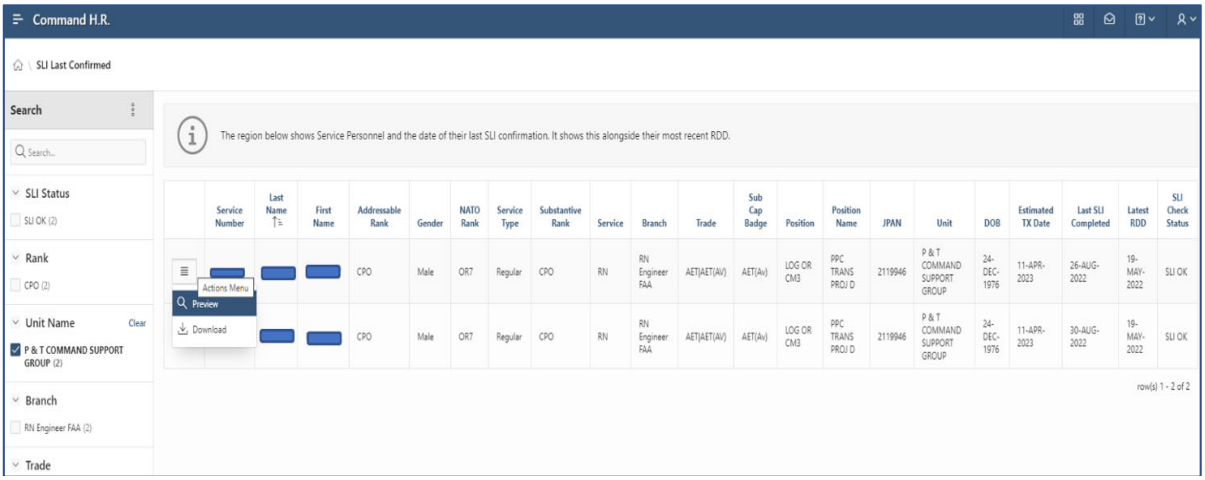
2. Command HR – SLI Last Confirmed.

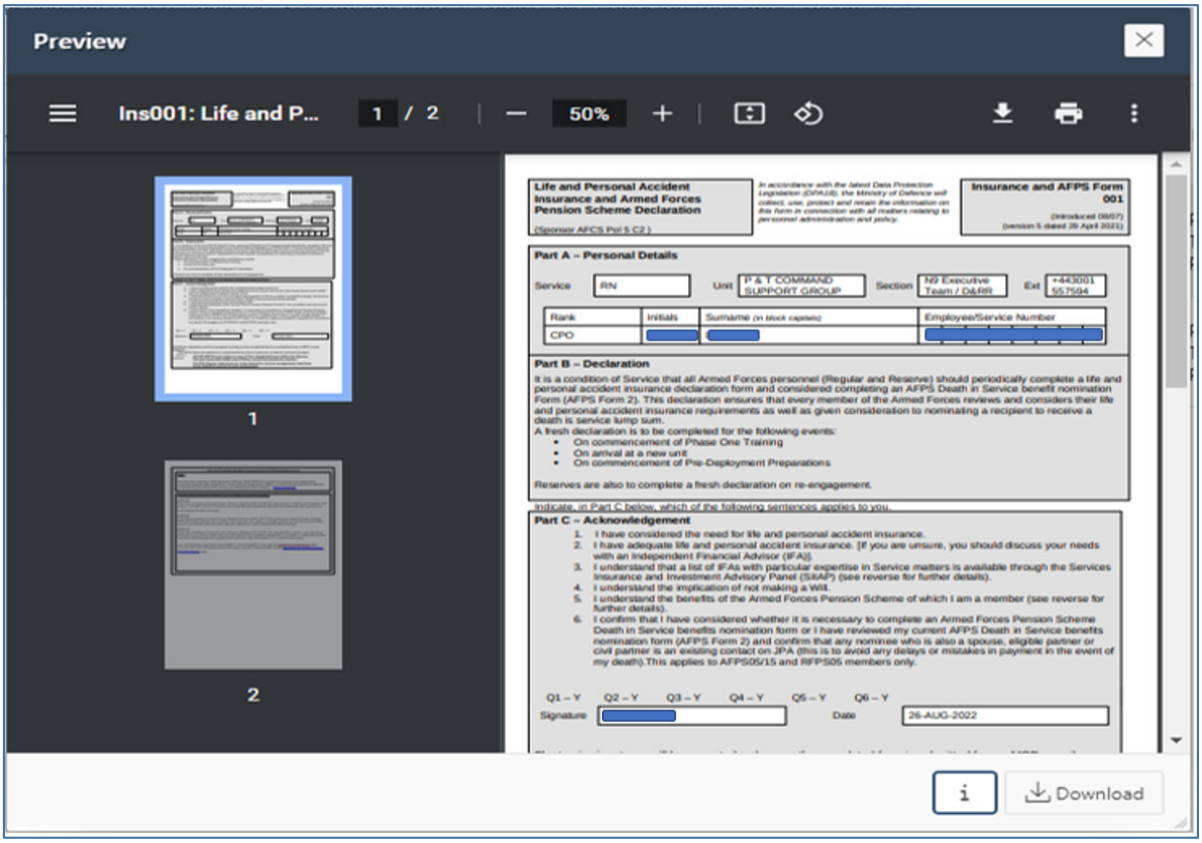


3. This will display the list of SPs and the last verified date of their SLI (Unit/View Filters).



4. The preview/download function allows the user to see the digital SLI form and print if necessary.





APPENDIX 8 TO ANNEX 21X

SCIO DIGITAL ACCESS INFORMATION

1. Email **NAVYPCAP-PPLANHRASCIOMAILBOX@mod.gov.uk** for any SCIO access issues or requests for access permissions to the D&RR Digital Toolkit Apps, if automatic access has not been granted. Please see the information below to detail user types and access levels.

2. Please provide App Title, User Permission required, the individuals PUID and additional justification if required.

App	User Permission	Name & PUID	Justification
D&RT - DO/TC Dashboard	Unit Dashboard Administrator (EWO/RSM auto-access)		
	DO		
D&RT- Reporting Tool	DO		
	HoD		
	Executive		
D&RT - PIER	User		

3. The option to provide feedback directly through SCIO is available in the PIER tool and the DO / TC Dashboard.

4. The Divisional and Regimental Review Team (D&RR Team) is available to deliver training sessions and support. Units may request support by contacting **NAVYPEOPLE-DIVREGREVIEW@mod.gov.uk**

5. Additional resources are available to users via the links detailed below:

a. **Divisional and Regimental System Review Homepage (Legacy)[1].** This should be accessible through DII(F), there is a PowerPoint Brief in the 'Useful Documents' List 'Digital Toolkit Roll Out Brief' however, this version does not contain demo video clips, there are video demos for each App within the 'Digital Toolkit' List.

b. **Divisional and Regimental System Review Homepage (DefNet)[2].** This site contains the MODNet SharePoint version of the D&RSR Homepage, with all the information required for users, this contains a Pre-Recorded version of the Digital Toolkit brief. There is a range of information within this site which includes user guides and demo videos.

[1] Divisional and Regimental System Review Homepage (Legacy).
[2] Divisional and Regimental System Review Homepage (DefNet).

6. Levels of Access. The current levels of access for both DO/TC Dashboard and Divisional & Regimental Reporting Tool (Reporting/Ticketing) are detailed below. The main access positions that are not easily identified and linking to correct positions, is for personnel in positions requiring Administrator/Executive or HoD access. It is likely that units will need to identify who should have this level of access and should request access permissions.

App	User	Access Requirements	Positions Identified for Automatic App Access.
D&RT - DO/TC Dashboard	Unit Dashboard Administrator (EWO/RSM auto-access, all other personnel requiring function will need to apply for user permissions)	Allocate personnel to DO/TC IAW the unit Divisional/Regimental plot.	Granted to SP in positions tagged as 'BWO', 'EWO', 'UWO', 'RSM', 'CSM', 'SSM', 'COX'N', 'DEPCO'.
	DO/TC	DO or TC for accessing personnel data and managing their personnel within their Division/ Troop.	All RN OR7 and above with DO Course JPA competence. All RM OR7 – OR9 with SLDC JPA competence. All RM OF1 and above.
D&RT- Reporting Tool	DO/TC	DO/TC access to raise a ticket for personnel within their Division/Troop. Resolve or Elevate ticket to HoD.	All OR7 and above with DO Course (& RM Equivalent) JPA competence.
	HOD	HoD access to view all raised tickets within their department and Resolve or Elevate tickets allocated to them up to their unit Executive personnel.	JPANs tagged with 'Capital/DD/FF - HODS (LO-MEO-WEO-XO-EWO) Desig (CBRNDC 4)' and 'CBRNDC 4a'.
	Executive	Unit Executive personnel are able view all raised tickets within their department and Resolve or Elevate tickets allocated to them up to NCHQ.	Granted to SP in positions tagged as 'CO', 'XO' (or equivalent, e.g. 2I/C), '1LT' (or equivalent, e.g. Adjutant) 'BWO' & 'EWO' (or equivalent, e.g. RSM, CSM, SSM), 'UWO', 'COX'N'.

CHAPTER 22

PERSONNEL FUNCTIONAL STANDARDS

(Sponsor: NAVY PEOPLE-PSP EXEC SO3)

CONTENTS

Para
2201. Introduction
2202. Further Information

ANNEX

Annex 22A: Personnel Functional Standards

CHAPTER 22

PERSONNEL FUNCTIONAL STANDARDS

Notes:

1. Whilst the paragraphs in Chapter 22 and Annex 22A contain the existing policy for Personnel Functions Standards (PFS) for the Royal Navy, the standards are currently under review as part of the ongoing Royal Navy Divisional and Regimental (Div&Reg) review work. Accordingly, an automated PFS/Div&Reg tool is being developed.

2. The Div& Reg Review Team are working tirelessly to develop a solution that will enable PFS/Div&Reg issues to be raised at any level and elevated quickly within units and establishments. This will enable either prompt resolution at unit (CO) level or further elevation to 1 (Flotilla/Bde) level. If necessary, the issue can finally be elevated into NCHQ for consideration by the appropriate policy desk officer. Feedback will then be sent out to units to enable visibility of issues, solutions and responses where resolution is not possible at the unit and 1* Flotilla/Bde level.*

3. Until further notice unit and establishment PFS/Div&Reg issues are to be recorded in a single all-encompassing PFS/Div&Reg feedback document and included in Flotilla returns, as applicable.

4. Any questions or queries are to be forwarded via email to the NCHQ Desk Officer: NAVY PEOPLE-PSP EMP POL SO1.

2201. Introduction

a. Personnel Functional Standards (PFS) applies to all regular Royal Navy personnel and to Maritime Reserves (according to the level of Service commitment that a reservist is undertaking).

b. PFS supports 2SL's intent for Royal Navy personnel and is a mechanism that contributes to the delivery of sufficient, capable and motivated personnel. This, in turn, underpins the Navy's Strategic Plan and the MOD's Service Personnel Plan.

c. PFS has been developed not as a contract, but as defined essential Terms and Conditions of Service (TACOS) to which the Royal Navy is committed to deliver for its personnel within available resources. In challenging economic and demanding operational times, there may be times when PFS cannot be achieved. It is imperative, however, that all units, budget holders and the Chain of Command endeavour to meet the standards set within PFS for Royal Navy personnel who are at the heart of our military capability.

d. In order to assess how the Royal Navy is meeting its commitment to its people, honest evidence based feedback is required from units; this will be a ‘termly’ requirement to align with divisional meetings and the timing for Navy Board Holding to Account and MCofOC reporting requirements. This is necessary to establish objective evidence of issues affecting achievement of PFS and assist 2SL in monitoring prevailing Service Conditions and, where unacceptable trends are identified, to facilitate management action or influence policy change.

e. PFS and details of the reporting requirement are at Annex 22A.

2202. Further Information

The NCHQ lead for PFS is NAVY PEOPLE-PSP EXEC SO3. Personnel should consult with PFS Chapter Sponsors (see Annex 22A Contents at Page 22A-6) direct with any specific queries.

ANNEX 22A

PERSONNEL FUNCTIONAL STANDARDS

HOLDING NOTE:

Notes:

1. Whilst the paragraphs in Annex 22A below contain the existing policy for Personnel Functions Standards (PFS) for the Royal Navy, the standards are currently under review as part of the on-going Royal Navy Divisional and Regimental Review (Div&Reg) work. Accordingly, an automated PFS/Div&Reg tool is being developed.

A FULL UPDATE TO THIS ANNEX WILL BE PUBLISHED AFTER COMPLETION OF THAT REVIEW, INCLUDING AN UPDATE TO ROLE TITLES TO REFLECT NCHQ'S POST-TRANSFORMATION ORGANISATIONAL DESIGN.

2. The Div& Reg Review Team is working to develop a solution that will enable PFS/Div&Reg issues to be raised at any level and elevated quickly within units and establishments. This will enable either prompt resolution at unit (CO) level or further elevation to 1 (Flotilla/Bde) level. If necessary, the issue can finally be elevated into NCHQ for consideration by the appropriate policy desk officer. Feedback will then be sent out to units to enable visibility of issues, solutions and responses where resolution is not possible at the unit and 1* Flotilla/Bde level.*

3. Until further notice unit and establishment PFS/Div&Reg issues are to be recorded in a single all-encompassing PFS/Div&Reg feedback document and included in Flotilla returns, as applicable. A link to the combined return can be found here[1].

4. Any questions or queries should be forwarded via email to the NCHQ Desk Officer: NAVY PEOPLE-PSP EMP POL-SO1.

1. Introduction

a. PFS supports 2SL's intent for Royal Navy personnel and is a mechanism that contributes to the delivery of sufficient, capable and motivated personnel. Many of the standards contained in this document are well established, embraced by current practice and legislation and, in most cases, are incorporated in rules and regulations; where appropriate the regulations are identified and are the authority for individual entitlement or eligibility.

[1] https://modgovuk.sharepoint.com/:f:/r/sites/NAVYPT-PeopleStrategy-ExecPolicyTeam/Shared%20Documents/General/PFS%20%26%20DIV%20Returns%202022?csf=1&web=1&e=qp49Se

b. 2SL, on behalf of the Navy Board, is the sponsor of PFS and is responsible for monitoring the achievement and maintenance of the standards set therein. Reporting of the status of PFS by units is required on a 'termly' basis (Spring, Summer and Autumn) to align with Divisional Meetings and the timing for Holding to Account and Moral Component of Operational Capability (MCoOC) reporting requirements. Reserve Forces are required to report in Spring and Autumn only. This PFS 'battle rhythm' provides a sustainable staffing and feedback timeline that will enable units to assess the measures taken and advice given before compilation of the next PFS report, and will help establish objective evidence of issues affecting achievement of PFS, thereby assisting 2SL in monitoring prevailing Service Conditions and, where unacceptable trends are identified, to facilitate management action.

2. Why do we have PFS?

PFS has been developed, not as a contract, but defined essential Terms and Conditions of Service (TACOS) to which the Royal Navy is committed to deliver for its personnel within available resources. PFS applies to all regular Royal Navy personnel and to Reserve Forces according to the level of Service commitment that a reservist is undertaking. Applicability of PFS for Reserve Forces has been highlighted in each PFS Chapter. Reserve Forces comprise the Maritime Reserves (Royal Naval Reserve (RNR)), the Royal Marines Reserve (RMR) and Regular Reserves (Royal Fleet Reserve (RFR)):

a. It is used to set standards which should be provided to all members of the Royal Navy; and

b. It provides procedures for identifying and reporting deficiencies ('Breaches') through the Chain of Command to 2SL area for subsequent action.

3. What are the benefits of PFS?

By maintaining PFS we will ensure better motivation, retention, satisfaction and care of our people by creating a sense of belonging and improving the understanding of the TACOS under which we serve. This in turn will lead to the inculcation of ethos, respect, discipline and good leadership and management.

4. How does PFS work?

a PFS deals with important TACOS and, as such, requires to be constantly monitored so that management action can be initiated either to prevent breaches or rectify them when they occur. In the first instance action should be taken at unit level, with progressive referral, if necessary, up the Chain of Command. There may be occasions when PFS is intentionally or unavoidably breached, but generally these will only be for exceptional operational or resource reasons; such breaches need to be reported so that early management action can be taken and, when necessary, the reasons for non-compliance communicated to those personnel affected.

(1) **Terms of Service** are the rules and regulations which govern our careers, detailing commissions, engagements and matters such as promotion and assignments. They are predominantly the responsibility of the Head, Naval People Strategy.

(2) **Conditions of Service** are the financial conditions, such as pay, pensions and allowances, and non-financial conditions, such as leave, accommodation standards, quality of catering and levels of harmony, that Service Personnel receive or experience during their service. These are predominantly but not exclusively the responsibility of Dir P&T's Deputy Director People Strategy.

b. 2SL has engaged with counterpart officers in the Army and RAF, DE&S, Joint Commands and other MOD Departments to ensure that all Royal Navy personnel may expect compliance with PFS, irrespective of where they are serving. Additionally, where Royal Navy personnel are working on partnership contracts, PFS is to be referenced in such contracts. Where RN personnel find themselves subject to lesser conditions of service set by the other Services, or PFS achievement is deliberately constrained by contractual conditions, individuals are to be made explicitly aware of the reasons for deviations from PFS.

c. The Naval Senior Officer Network (NSON) will help ensure that PFS is disseminated through the diverse employment areas for Royal Navy personnel.

5. How can I use PFS?

a. PFS should be used as a ready reference but, for more detailed information, the relevant source document and lead authorities have been identified where appropriate.

b. PFS is available to all Royal Navy personnel. Commanding Officers, Divisional Officers, Troop Commanders, and Budget Holders are to ensure that in the exercise of their delegated authority they endeavour not to vary TACOS to the extent that PFS is breached. Individuals have a responsibility to ensure that enabling systems such as JPA are maintained with accurate and up-to-date information. This is essential if accurate assessment of areas of PFS is to be achieved by the Chain of Command. The Chain of Command must ensure that robust measures are in place within units to ensure that PFS is being met. Where PFS is being breached, despite all efforts by the Chain of Command to address them, then this is to be reported to the NPS Employment Policy area following the reporting guidance below.

6. What are the Categories?

PFS is divided into two separate categories which are defined as:

a. **Category A (CAT A).** Mandatory requirement, the cost of which must be included in the Planning Round and cannot be amended by Budget Holders. The target for all CAT A Standards, as mandatory costed items or statutory requirements, is to be 100%.

b. **Category B (CAT B).** Desirable objectives which Budget Holders are strongly encouraged to achieve in order to maintain balanced terms and conditions throughout the Royal Navy, but over which they have discretion as to the extent of application.

7. Measure of Effectiveness

a. Accurate and timely reporting of PFS breaches is essential as the information provided to Navy Command Headquarters (NCHQ) forms an integral part of the measurement of effectiveness of the Royal Navy's Moral Component of Operational Capability (MCoOC). Additionally, by receiving accurate assessments of the status of PFS standards within units, NCHQ is able to maintain evidence to support future changes to policy or processes where required. NCHQ will report Very Serious breaches of PFS through the Navy Board Standing Objectives Holding to Account Report and through 2SL's Personnel Executive Group (PEG) which specifically address risk reports.

b. In order to establish credible and objective evidence of PFS status, units are to report on the status of PFS on a termly basis (Reserve units have dispensation to report in Spring and Autumn only). **Assessments of CAT A PFS for Accommodation, Career Management, Harmony, Leave and Fitness, Sport and Adventurous Training are mandatory.** An Excel based PFS Reporting Tool has been designed to simplify the reporting requirement and which is available to COs of units, with supporting guidance notes, to complete PFS reports. Completed reports, with contextual comments, are to be returned to NAVY PEOPLE-PSP EMP POL SO1 on 31 Mar (Spring), 31 Jul (Summer) and 30 Nov (Autumn) annually.

c. Reports should follow the Qualitative Assessment criteria (detailed below). Feedback from PFS reports will be collated in a PFS Database, from which evidential reports will be used to inform NCHQ senior management and affect subsequent management action as necessary.

8. Qualitative Assessments and Feedback

a. The following table provides guidance on the definitions of the status of PFS and guidance to the qualitative assessments to be used. When reporting, units should indicate their assessment of PFS status against respective Chapter headings.

Table 22A-1. Guidance on the Definitions of the Status of PFS

	Definition	Qualitative Assessment
Satisfactory	No shortfall identified	The standard has been met to acceptable quality levels.
Minor Weakness	For assessments classified as 'Minor Weakness' the shortfall may require a change in priorities at unit level to rectify the problem.	A single serious shortfall or a number of minor shortfalls in the delivery of acceptable quality levels.
Serious Weakness	For assessments classified as 'Serious Weakness' the shortfall may require a change in priorities at Command level to rectify the problem.	A single very serious shortfall or a number of serious shortfalls have been identified which severely restrict the delivery of acceptable standards.
Very Serious Weakness	Assessments classified as very serious indicate that the shortfall is critical to the achievement of core TACOS. Very Serious Weakness issues will be directed to Navy Command TLB/NAVB for consideration.	The shortfall from target is considered critical to the delivery of core TACOS.

b. When reporting the following amplifying information should be included:

(1) The reason(s) for, and scale of, the variance.

(2) The effect(s) of the variance upon personnel.

(3) The proposed action to remedy the shortfall.

c. NCHQ Chapter sponsors will provide written feedback on Very Serious and Serious weaknesses through a consolidated feedback return to be released 31 May (Spring term feedback), 30 Sep (Summer term feedback) and 31 Jan (Autumn term feedback).

d. NAVY PEOPLE-PSP EMP POL SO1 is the desk level sponsor for PFS. ***Specific queries should be directed in the first instance to the relevant Chapter sponsor identified within PFS.***

e. Contact details for the PFS sponsor desk are:

DII(F) E-Mail: NAVY PEOPLE-PSP EMP POL SO1
Mil Tel: 93832 5514
BT: 02392 625514

f. PFS has been subjected to Equality Analysis. Specific policies referenced in PFS will be subject to Equality Analysis by policy sponsors.

[2] PFS Standards in bold have a mandatory reporting requirement.

SECTION 1

ACCOMMODATION

Single Living Accommodation (SLA)[3]

Sponsor: NAVY NPS-PEOPLE SPT ACCOM SO1

CAT A

a. To provide suitable accommodation, in accordance with **JSP 464** - Tri-Service Accommodation Regulations, for entitled personnel who choose or are obliged to live in SLA. Where, in Navy Command establishments and units, SLA is not available to meet the long-term programmed requirement, the need for increased provision is to be reported to NCHQ[4]. The short-term alternatives are:

(1) **Financial Recompense.** In the form of reduced accommodation charges on a sliding scale, when accommodation in the best condition cannot be provided.

(2) **Substitute Service Single Accommodation**. The provision, through an authorised agency contractor, of Substitute Service Single Accommodation (SSSA). SSSA is provided to meet requirements lasting six months or more, where there is no SLA available or the condition/type available is such that the Commanding Officer deems it unsuitable for allocation to the individual concerned.

(3) **Lodging Allowance.** When SLA is unavailable and SSSA is unavailable or inappropriate, Lodging Allowance is provided to enable Service personnel in the UK to rent accommodation and meet associated necessary costs.

b. To ensure that all plans for SLA new build and major refurbishment in Navy Command establishments and units will, providing it is achievable within the constraints of available space within the footprint of the establishment/unit and existing building limitations (e.g. where SLA is located within listed buildings), provide all trained personnel with single-occupancy cabins to the JSP 315 scales in force at the time of build/major refurbishment.

c. To ensure that in Navy Command establishments and units, TV rooms and other communal spaces are not misappropriated for use as SLA.

d. To ensure that, except when undergoing training, officers and senior ratings/SNCOs are always accommodated in single-occupancy cabins.

[3] Note that accommodation at sea is **not** classified as SLA.
[4] SLA Risk is to be reported via the Navy Command TLB Active Risk Manager (ARM) process. SLA requirements are to be raised via the Infrastructure Statement of Need (SoN) process and included in the site's Integrated Estate Management Plan (IEMP).

e. To provide accommodation services[5] for permanent and "duty" SLA (not transit) as follows:

(1) **All Ranks/Rates.** To clean all cabins/rooms, including en-suite facilities, on change of occupancy.

(2) **Officers.** To provide twice-weekly cleaning of cabin accommodation including en-suite facilities. Daily cleaning (Mon-Sun) of all communal areas and ablutions. Where cleaning is undertaken through an output-based contract, the appropriate Key Performance Indicators (KPIs) are to be met. Where necessary, clean Service linen to be provided and made up weekly (Service issue linen is cleaned at public expense).

(3) **Senior Ratings/SNCOs.** To provide twice-weekly cleaning of cabin accommodation including en-suite facilities. Daily cleaning (Mon-Sun) of communal areas and ablutions. Where cleaning is undertaken through an output-based contract, the appropriate Key Performance Indicators (KPIs) are to be met. Where necessary, clean Service linen to be provided weekly.

(4) **Junior Ratings/RMORs.** To provide twice-weekly cleaning of en-suite facilities. To provide daily cleaning (Mon-Sun) of communal areas and ablutions. Where cleaning is undertaken through an output-based contract, the appropriate Key Performance Indicators (KPIs) are to be met. Where necessary, clean Service linen to be provided weekly.

CAT B

a. SLA is always to be allocated by rank in accordance with the SLA eligibility table in JSP 464, Part 3, Chapter 3, Paragraph 0302 and the provisions of JSP 464, Part 3, Chapter 5.

b. In Navy Command establishments and units, SLA at or below Standard 4 for Condition is not to be allocated.

c. Other than in the most exceptional circumstances (requiring prior approval from NCHQ), SLA rooms in Navy Command establishments and units are not to be furnished with more bed-spaces than they were originally scaled for[6].

d. In Navy Command establishments and units, separation is to be maintained between SLA for officers, senior ratings/SNCOs and junior ratings/RMORs (i.e. not provided in the same accommodation block). Where this not achievable, prior approval must be sought from NCHQ to temporarily (normally no longer than 12 months) mix ranks/rates in the same building/accommodation block providing floor/wing separation is able to be maintained and, ideally, separate building/block entrances used.

[5] The NCHQ lead for Accommodation Services is NAVY LOG INFRA-INFRA SFM.
[6] The granting of approval is not to prevent such action being reported as a Cat B breach for as long as the accommodation remains compromised.

Service Family Accommodation (SFA)

Sponsor: NAVY NPS-PEOPLESPT ACCOM SO1

CAT A

To provide suitable family accommodation to entitled personnel, including Mobilised Mar Res and personnel on FTRS(FC), detailed in JSP 464.

Accommodation in HM Ships and Submarines

Sponsor: NAVY NPS-EXEC SO1

CAT A

a. The officers and Ship's Company of submarines operating outside of Base Ports are to be accommodated ashore in suitable Service Accommodation or hotels when not required for duties on board.

b. Embarked staffs and visitors to ships and submarines who are required to sleep in austere accommodation on board at sea (e.g. camp beds in fan chambers), are to be accommodated ashore, if necessary in hotels, when the unit is alongside.

c. All bunks are to be fitted with an appropriately sized curtain in order to provide privacy to the occupant.

d. All messdecks and recreational areas are to be fitted with appropriate soft furnishings including seat covers and curtains which are to meet extant DEFSTAN. Soft furnishings are to be clean, well-fitting and in good order, and are to be cleaned at Crown expense.

CAT B

a. Visitors to units, both Service and civilian of any of rank, rate or grade, are to be accommodated in a bunk appropriate to their rank, rate or grade. Where this is not possible, they are to be accommodated in the next best grade of accommodation. A CO's responsibility for Safety, Health and the Environment (SHE) is to have primacy over rank entitlements. Irrespective of 'bunking' arrangements, individuals are to dine and make use of recreational facilities in the mess appropriate to their rank, rate or grade. Austere accommodation is to be a measure of last resort.

b. Complement Ship's Company should not be displaced from their bunks in order to accommodate visitors or contractors. Exceptionally and where no alternative exists, a CO may authorise a short, temporary displacement of a ship's officer in order to accommodate a senior officer or VIP.

c. Carpets, in messes, messdecks and recreational spaces are to be contract cleaned at intervals not exceeding six months.

Relocation Allowances

Sponsor: NAVY PEOPLE-REM SO2

CAT A

a. To pay Disturbance Expenses to entitled personnel as a contribution towards the necessary additional expenses that may arise when the Services require personnel to make a qualifying move to or from a Residence at Work Address on permanent assignment (**JSP 752 Chapter 12 Section 1).**

b. To pay removal expenses to entitled personnel moving personal effects within authorised entitlement to a residence at a new place of duty (**JSP 752 Chapter 12 Section 4**).

c. To pay charges, within certain limits and subject to specified conditions, for unaccompanied baggage of Service personnel and, where appropriate, their dependants, when moving at public expense within the UK and between the UK and worldwide destinations on change of permanent place of duty (**JSP 752 Chapter 12 Section 4**).

d. To pay charges, within certain limits, incurred by entitled personnel assigned overseas for the storage of personal effects in the UK (**JSP 752 Chapter 12 Section 4**).

e. To apply to **Reserve Forces** in particular circumstances (**JSP 752 Chapter 12 Section 4**).

Homeowner's Package

Sponsor: NAVY PEOPLE-REM SO2

CAT A

a. To provide financial assistance to entitled personnel to enable them to purchase their own property in accordance with Naval Housing Policy by:

(1) Long Service Advance of Pay (JSP 752 Chapter 5 (frozen to new applicants since Apr 2014)).

(2) Forces Help to Buy (**JSP 464 Part 1 Chapters 12**).

b. The refund of legal expenses (within prescribed limits), and associated expenses for house purchase and sale (**JSP 752 Chapter 12 Section 3**).

c. To refund legal expenses and solicitor's fees incurred solely in regaining possession of the property which had been let for Service reasons, subject to specific qualifying conditions. Expenses incurred in relation to rent arrears, damage to property, checking payments, tracing the tenant, and any costs incurred as a result of not using a solicitor to draw up the tenancy agreement, or any other matter not directly related to repossession are not included (**JSP 752 Chapter 12 Section 3**).

SECTION 2

CAREER MANAGEMENT

Definition of Career Management

"The assignment of individuals in accordance with endorsed current and future Service Requirements, exploiting skills, career development needs and, whenever possible, personnel preferences, whilst providing advice on future career paths."

Officers' Career Management

Sponsor: NAVY PCAP-CM POLICY & MI SO2C

CAT A

a. To assign officers to meet the requirements of the Service, to develop their careers to make the best use of their abilities ensuring that their suitability for promotion is developed and to give due weight to the preferences of individual officers concerning the type, location and timing of assignments, taking into account their family circumstances (see Chapter 59 Section 1).

b. All eligible officers are to be considered for selection to attend national or overseas staff courses.

c. All officers will have the opportunity to be considered for transfer to a longer career until they reach a Full Term Commission (FTC).

d. After the first 10 years of service all officers will have the opportunity to have a personal interview with their Career Manager to update them on their career aspirations and personal circumstances at least once every three years, but generally once per assignment (see Annex 58B).

e. To provide as much notice of assignments as practical (see Chapter 59 Section 11) and at least three months' notice for a home base[7] assignment and a minimum of five months' notice for non-home base or LFS assignments.

Notes:

1. Deputy Director People Delivery (DDPD) staff plan to give at least the minimum notice for all assignments as described unless operational reasons dictate that the required notice is unachievable. In such cases, authorisation must be given by Head of Career Management and an auditable trail will be created to show the decision making process.

2. It is often impractical for individuals assigned to and from courses to receive the minimum notice period (see Para 5942), therefore any such instances will be treated as a CAT B PFS breach and therefore do not require authorisation by Head of Career Management.

[7] A home base assignment is defined as one where the new assignment is to a location where the distance from their current residence at place of work address is no more than 50 miles (or 90 minutes by public transport) iaw JSP 752 article 04.1314.

f. All officers will be allowed to submit 12 months' notice to leave the Service, subject to a minimum Return of Service (RoS) after specified courses, or RoS associated in respect of promotion, training received or associated with the award of a Financial Retention Initiative (FRI).

CAT B

a. To achieve shore assignment lengths of 2½ years with six months' flexibility above or below (see Annex 59G).

b. Within the first 10 years of service officers have the opportunity for a personal interview with their career manager to update them on their career aspirations and personal circumstances generally once per assignment.

WO, Senior and Junior Ratings and RMORs' Career Management

Sponsor: NAVY PCAP-CM POLICY & MI SO2C

CAT A

a. For all WO, Senior and Junior Ratings to be assigned to meet the needs of the Service, where at all possible taking personal preferences and family circumstances into account (see Chapter 59 Section 1).

b. To enable personnel to realise their potential through advancement and promotion within their specialisation and in line with the needs of the Service by:

(1) The provision of appropriate training courses and associated facilities throughout a career to ensure people are properly trained to carry out the tasks expected of them when put to the test in a hostile environment; this should take the form of career training, TEM, PJT and PWT.

(2) The provision of professional qualifying courses.

(3) The provision of command courses (see Chapter 69 Section 3).

c. To provide the opportunity for eligible applicants to be considered for selection for promotion to commissioned rank (see Chapter 50).

d. To provide the opportunity for selected applicants in the RN, RM and QARNNS to serve beyond the completion of a 22-year engagement, as circumstances allow (see Para 4946).

e. DDPD staff are to provide Promotion Prospect Assessments (PPAs) for CPOs of at least five years seniority who are eligible in all respects for promotion to WO2 RN.

f. DDPD RM RCM staffs are to provide Promotion Prospect Assessments (PPAs) for all RMORs up to the rank of CSgt where positions exist at WO2 RM within Specialisation.

g. To provide access for individuals to receive assignments and career advice and guidance through face to face interviews with the DDPD Career Managers in NCHQ and the Waterfront Career Management Cells (CMC) in Portsmouth, Devonport and Faslane Naval Bases, and at Royal Naval Air Stations at Culdrose and Yeovilton. Advice is to be provided through interview giving guidance on direction, courses available and career planning.

h. To provide as much notice of assignments as practical (see Chapter 59 Section 11) and at least three months' notice for a home base[8] assignment and a minimum of five months' notice for non-home base or LFS assignments.

Notes:

1. DDPD staff plan to give at least the minimum notice for all assignments as described unless operational reasons dictate that the required notice is unachievable. In such cases, authorisation must be given by Head of Career Management and an auditable trail will be created to show the decision making process.

2. It is often impractical for individuals assigned to and from courses to receive the minimum notice period (see Para 5943), therefore any such instances will be treated as a CAT B PFS breach and therefore do not require authorisation by Head of Career Management.

3. Ratings in Shore Service not on LFS may be subject to Emergency Relief Pool (ERP) rules.

i. All ratings will be allowed to submit 12 months' notice to leave the Service, subject to a minimum Return of Service (RoS) after specified courses, or RoS associated in respect of promotion, training received or associated with the award of a Financial Retention Initiative (FRI). Ratings must complete 2½ years' service after completing their Standard Initial Training Period (SITP) before they may be released.

CAT B

a. Senior Ratings remaining on Sea Service will have a nominal Future Availability Date (FAD) of 36 months, after which they can expect a minimum of 18 months' Shore service.

b. If over-riding operational requirements dictate an extended Sea Service assignment of up to six years for a Senior Rating, this will be followed by a two year Shore Service assignment in First Preference Area, on condition that the declared First Preference Area is not changed within 12 months of Future Availability Date (FAD). Back-to-back sea assignments will be authorised personally by Head of Career Management. An assignment to a non-preference Shore Service Assignment will be given a FAD of two years from joining and will be reviewed prior to the 24 month point from joining.

[8] A home base assignment is defined as one where the new assignment is to a location where the distance from their current residence at place of work address is no more than 50 miles (or 90 minutes by public transport) iaw JSP 752 article 04.1314.

c. To assign ratings/ORs, where possible, to billets in their stated First Preference Area (see Para 5803).

d. Units are to endeavour to provide a minimum notice period of 30 days to an individual moving ashore from the seagoing unit where that individual would normally be exempt food and accommodation charges.

Squadded Ratings

To enable individuals in a Squad to plan their immediate programme, in consultation with the Divisional Officer and the individual, they will be provided with a rolling six month Personal Plan by the EWO/SM Cox'n.

Note. *FADs for Squad assignments will normally be set at 48 months after joining. Reasons for being assigned from the Squad include:*

a. Transfer to another ship, to a preference area or within the same base port.

b. Transfer to Squad requiring second AB tour (e.g. MWV).

c. Drafted to Shore Service or Local Foreign Service.

d. Branch or Arm transfer.

e. On promotion following command and qualifying courses, unless circumstances permit the return of the individual back to the original unit.

f. Assigned to a non-Squad Sea Service billet.

Personal Turbulence

a. Standfast volunteers, personnel should only be moved temporarily to fill (Note 1) another JPA assignment at short notice a total of three times in any 12 month rolling period, and for a cumulative total duration of no more than 57 days. Such movements (number and duration) are to be recorded in JPA (see Annex 59I) and reported in the professional section of any subsequent Pain and Grief proforma raised on an individual in response to a further request for temporary cover.

b. A Service person moved to provide a temporary fill should be given a minimum of two working days' notice to move (Note 2).

Notes:

1. A temporary fill is defined as a period of eight to 30 days inclusive. Periods greater than 30 days require the Career Manager to take assignment action (in accordance with Para 5948) and as such come under the Career Management PFS. Inter-unit loans of personnel lasting seven days or less should be regarded as routine business and are not affected by this PFS. Personnel movement to undertake training or training courses is exempt from this PFS, as are short notice assignments under existing ERP rules.

2. The notice to move is to allow personnel time to organise their personal lives. As such, when given notice to move the individual should be stood down immediately from their current place of work. They should not be required to present themselves for duty at the receiving unit, mounting centre, or point of departure (airport, railway station, etc.) for a minimum of two working days from this point. Longer notice may be considered appropriate particularly for Personnel e-OPDEFs at Category B or less, commensurate with the operational imperative.

Annual Appraisal Reports (see Chapter 57)

Sponsor - NAVY PCAP-CM POLICY & MI SO2C

CAT A

a. Annual appraisal reports are mandatory for all personnel – officers, ratings and other ranks (including those over-zone for promotion and pre-retirement). Reporting informs the Subject how well they have performed identifies their potential and advises how they may improve their performance and potential. It is also used for Career Management in selection for promotion and extended commission/career, assessing suitability for specific assignments and command selection.

b. All individuals are entitled to, and should have, identifiable and nominated 1st and 2nd Reporting Officers[9] (1RO and 2RO) to commence the reporting process at the beginning of the reporting period. Thereafter, the process is continuous with three distinct stages:

(1) Start of Reporting period – setting Roles and Responsibilities and Personal Objectives.

(2) Mid Period Appraisal Review (MPAR).

(3) Final Appraisal – e.g. End of Tour, Supersession or Annual at Common Promotion Date.

[9] Exceptionally, in certain cases such as personal staff officers and officers employed in small and/or remote organisations where the 1RO is a 1* or Flag officer, a single RO only is acceptable.

c. As a general rule, a full Appraisal Report is required for periods of six months or more with Short Stand-alone Tour (SST) reports for periods of two to six months; alternatively, for detachments of two to six months when the Subject is returning to their parent unit, an Insert Slip should be raised for attachment to the main appraisal report (**JSP 757**).

d. All personnel are to receive a Mid-Period Appraisal (MPA), which is to be a formal indication of their performance in an assignment, between the fourth to eighth months of the annual reporting cycle (**JSP 757 Articles 3.03b and 7.03b**).

e. All personnel will have access, through JPA, to the finalised Consolidated Appraisal Report written on them (**JSP 757 Articles 3.18 and 7.18**)

Maritime Reserve Forces

Sponsor: NPT(Res)

NPT (Res) will act as the focal point for the Career Management of the RNR and RFR and NPT(RM) for the RMR. They will utilise the categories of Reserve Service articulated in the Reserve Forces Act 1996 (RFA 96) to facilitate extraction of a Reservist from the Reserve Force into either FTRS, Part Time Reserve Service (ADC), or Mobilised Service depending on the needs of the Regular Service. Where applicable, PFS that apply to Regular Service personnel will apply to the Maritime Reservist. In addition to this the following standards will be applied:

Annual Appraisal Reports - Maritime Reserve Forces

CAT A

a. **Volunteer Maritime Reserves (Royal Naval Reserve (RNR)/Royal Marine Reserve (RMR) Personnel).** RNR/RMR personnel are to be reported on as follows:

(1) RNR/Queen Alexandra's Royal Naval Nursing Service Reserve (QARNNS(R)). Reports on OJAR/SJAR are to be completed on JPA on the same dates and occasions as for regular RN personnel (**JSP 757 Chapters 2 and 6, Annex C**), restricted to:

(a) **Officers**

i. In zone officers, holding substantive rank of Lt with more than five years' seniority.

ii. Over zone officers, when specifically requested by the individual.

(b) **Ratings,** when eligible for promotion.

(2) **RMR - List 1.** Reports on OJAR/SJAR are to be compiled on JPA on the same dates and occasions as for regular RM personnel. The parent RMR unit is responsible for ensuring that a request for a Detachment Insert Slip is made on JPA for RMR officers attached to RM units for periods of continuous training in excess of two weeks (**JSP 757 Article 9.05**).

(3) Volunteer Reserves (RNR/RMR/QARNNS(R)) Personnel on Full Time Reserve Service (FTRS). Volunteer Reserve (RNR/RMR/QARNNS(R)) personnel on FTRS are to be reported on as follows:

Reports for RNR and RMR officers and ratings/other ranks serving on FTRS are to be completed on JPA on the same occasions as for RN/RM personnel. The parent RNR/RMR unit is responsible for initiating reports, including setting the appropriate Reporting Chain, and liaising with the reporting officer in the FTRS employing unit (**JSP 757 Articles 2C.08 and 6C.06 – 6C.08**).

b. **Mobilised Maritime Reserves (RNR/RMR/QARNNS(R)) Personnel.** Mobilised Reserve (RNR/RMR/QARNNS(R)) personnel are to be reported on as follows:

Personnel of the Volunteer Reserves who are called out for active service or recalled for full-time service in peacetime are to be reported upon on JPA in the same manner and on the same occasions as regular service officers and ratings. Where a period of mobilisation is for six months or less, a Short Appraisal Report is to be raised (**JSP 757 Articles 5.07 and 9.07**). Responsibility for administration lies with the parent employing unit.

c. **Royal Fleet Reserve (RFR) Personnel on Mobilised or Full Time Reserve Service.** RFR personnel on Mobilised Service and FTRS Service are to be reported on as follows:

Reports on RFR personnel are to be completed on JPA by the employing unit on the same occasions as for RN/RM personnel. Where a period of mobilisation is for six months or less, a Short Appraisal Report is to be raised (**JSP 757 Articles 5.07 and 9.07**). In all cases, the final reporting officer is to include a statement regarding the suitability of the individual for further FTRS and, where appropriate, service in the acting higher rank/rate.

Career Management - Maritime Reserves Forces

CAT A

a. For all personnel to be assigned to meet the needs of the Service, where at all possible taking personal preferences and family circumstances into account

b. To provide as much notice as possible of FTRS new commitments, commitment renewals and at least:

(1) Three months' notice for FC assignments.

(2) Four weeks' notice of LC and HC assignments.

c. To provide six months' notice to terminate a FTRS FC and four weeks' notice to terminate a FTRS LC, HC and ADC in accordance with the notice periods articulated in BR 64 (BRd 3(2)).

d. Where possible to not exceed the limits of call-out in a specified period in accordance with JSP 753.

CAT B

a. To provide as much notice as possible to a Maritime Reservist who is called-out to permanent service and to issue call-out papers at least 60 days before the date of call-out.

b. To provide at least three months' notice if a commitment is not to be renewed

Stability for Service Personnel who are, or have Spouses/Partners who are Undergoing Courses of Assisted Conception Treatment

Sponsor: NAVY PCAP-CM POLICY & MI SO2C

CAT B

a. To provide, wherever possible, stability for regular Service personnel who are seeking to access NHS Assisted Conception Services for themselves or their spouse, civil partner or partner on condition that the chain of command and/or Career Manager is consulted early in the process in order to set the conditions to allow for planned stability.

b. Ensure, where possible, that any assignment generated by the need for stability does not adversely affect the Service person's career profile. However, personnel requesting stability for this purpose should understand the potential career implications of such a request and must accept that there may be occasions when this is not possible because of the overriding needs of the Service. No concession can be expected if a professional development course is missed in order to achieve stability for the purposes of accessing NHS assisted conception services, therefore, a period of stability may not be in the best interests of their military career.

(1) The length of the period of stability needed will vary with each case and according to the treatment being given, but will normally be up to six months. All pre-assisted conception investigations (in and outpatient) will not be subject to stability, rather this element would be as any other in or outpatient treatment is conducted. The period of stability will cover the time needed for one attempt at assisted conception to be completed, of around three months, and if the pregnancy is successfully achieved then the stability period may be extended to enable the couple to be together for at least three months in order to reduce the likelihood of stress induced miscarriage. Any longer period of stability to allow for further attempts to conceive if the first try is unsuccessful will be at the discretion of the Career Manager.

(2) These provisions do not allow personnel the right to demand an assignment in a particular location in order to seek treatment from a particular provider. Nor does access to NHS Assisted Conception Services entitle personnel to avoid an assignment for which an Assignment Order has already been issued.

SECTION 3

CATERING

Sponsor: NAVY LOG INFRA-OPS AFLO SO3

CAT A

a. To maintain compliance with the MOD's military feeding and catering strategy and the quality of life for Service personnel by:

(1) The provision of a varied, nutritious and healthy diet in keeping with the MOD's Nutrition Policy Statement (JSP 456 Vol 1 Chapter 4).

(2) The provision of three (four at CTCRM for all personnel undertaking the initial training phase) properly prepared meals per day to entitled personnel (subject to a contribution towards the cost of feeding through the appropriate daily food charge for those not entitled to be fed at Crown expense).

(3) The provision of separate messing facilities for officers, Warrant Officers/senior ratings/SNCOs and junior ratings/ORs to scale standards (JSP 315).

(4) Compliance with all relevant national and European Food Safety legislation.

(5) The provision of staff and facilities for Official Mess Functions for mess members in established Service messes ashore as follows:

(a) **Wardroom/Officers' Mess.** 12 Official Functions per annum. Generally, these are two seasonal balls and 10 other functions (e.g. Mess Dinners) as agreed by Mess Committees. For all such functions labour costs (up to midnight or as otherwise authorised by the TLB) are funded at public expense.

(b) **Warrant Officers/Senior Ratings/SNCOs Mess.** six Official Functions per annum. Generally, these are two seasonal balls and four other functions (e.g. Mess Dinners) as agreed by Mess Committees. For all such functions labour costs (up to midnight or as otherwise authorised by the TLB) are funded at public expense.

Note. *Maritime Reserves are not entitled to the crown funded functions (labour costs) for Officers and Senior Rates' messes as is the norm for other full time naval personnel. However, if they are serving in a unit which is attached or within a Naval establishment, and are Mess Members, they are entitled to attend those functions hosted in the respective Mess.*

(6) For Catering, Retail and Leisure (CRL)/Pay as You Dine (PAYD) units in established Service messes ashore the appropriate level of service for officers, Warrant Officers/senior ratings/SNCOs and junior ratings/RMORs will be provided in accordance with individual unit contract specification.

b. Individuals will be fed at crown expense when qualifying criteria are met as laid down in **JSP 754** and **JSP 456 Vols 2 and 4**.

c. Reclamation of the Daily Food Charge/Core Meal, and payment of Special Messing Allowance, Food and Incidentals Allowance, LOSLOA, when the qualifying criteria as laid down in **JSP 752** are met.

d. Provision of a duty meal or meals when entitled under the criteria laid down in **JSP 456** and **JSP 754**.

e. Catering for the dietary needs of individuals on religious, ethnic, medical or lifestyle choice (e.g. vegetarian) grounds, where logistic and operational circumstances permit.

f. **Maritime Reserves.** Where MR personnel serve in RN/RM units, then they will benefit from the same catering services as for regular Royal Navy personnel. Where RNR/RMR units are not co-located with RN/RM units they do not benefit from MoD funded catering services. There is a clear requirement for COs of Reserve units to comply with MoD Policy rules and regulations with regarding safety, including food safety (Reference BR 9147 – Navy Command Safety and Environmental Management System).

SECTION 4

REPRESENTATIONS AND SERVICE COMPLAINTS

see Chapter 23

Sponsor: NAVY LEGAL-CASEWORK TEAM LDR SO1

a. Handled properly, Representations and Service Complaints have the potential to highlight areas for management improvement and administrative efficiency, bringing a broader benefit to morale. This is particularly so where those exercising Service duty of care overtly promote and ensure a positive culture to support those involved in the Service Complaints process (including Complainants, Respondents and witnesses) and capture and implement lessons identified. In any leadership position, the receipt of a Representation or Service Complaint 'on your watch' should not be regarded as a sign of failure. Taking a positive and confident approach to ensure that Representations and Complaints are handled properly will be recognised as a sign of a successful, mature and capable management, and individual performance appraisal assessments should reflect capability and behaviour in this regard.

b. The general principle is that all Representations and Complaints are to be dealt with at the lowest level of the command chain commensurate with the provision of an authoritative reply.

c. Representations and Service Complaints apply to all members of the Royal Navy including the Reserve Forces, subject to policy and statutory limitations. The procedures to be followed can be found in BRd 3(1) Chapter 23, JSP 831 (Redress of Individual Grievance: Service Complaints) and JSP 763 (The MOD Bullying and Harassment Complaints Procedures).

Representations

CAT A

a. Any member of the Royal Navy wishing to make a Representation about any Service matter, whether personal or general, including matters affecting their or another's welfare and any suggestion connected with the Service, will be allowed to submit it to their Commanding Officer, through the divisional/regimental and command chain as appropriate.

b. Where the Commanding Officer rejects such a representation, a member of the Royal Navy who is personally affected by the issue will be allowed to submit a Service Complaint.

Service Complaints

a. Any member or former member of the Royal Navy who believes they have been wronged in relation to their service will be allowed to submit a Service Complaint.

b. Valid Service Complaints will be dealt with in accordance with BRd 3(1) Chapter 23, JSP 831 (Redress of Individual Grievance: Service Complaints) and JSP 763 (The MOD Bullying and Harassment Complaints Procedures) and any other tri-Service guidance as appropriate.

c. Any person entitled to submit a Service Complaint and any person implicated in a Service Complaint (a 'Respondent') is entitled to the support and advice of an Assisting Officer. An Assisting Officer should assist the Complainant with the drafting of the formal complaint in order to assist to focus the issues and make the complaint easier to investigate. Wherever possible the Assisting Officer will be an appropriately qualified person requested by the Complainant or Respondent (see also **JSP 831 Annex I**).

d. Every effort will be made to ensure personal differences are resolved as quickly, fairly and amicably, and at the lowest level possible. Any person concerned that they have been subjected to bullying, harassment or discrimination, and any person implicated, is entitled to receive advice and support from the unit Diversity and Inclusion Adviser (D&I(A)).

e. Complaints of bullying, harassment or discrimination that require formal investigation will be investigated thoroughly, expeditiously and impartially by Harassment Investigating Officers.

f. Commanding Officers will consider appropriate administrative or disciplinary action, including appropriate comment in annual appraisals, as regards any person under their command found to have bullied or harassed anyone, in accordance with CDS's guidance (CDS/1/1/6 dated 17 Sep 10) now incorporated into BRd 3(1) Chapter 23 Annex 23I.

CAT B

a. Timelines for resolution of Service Complaints are governed by JSP 831, JSP 763 and 2013DIN01-002 implementing a 24-week total timeline. In order to meet the overall 24-week timeline for handling all three levels of the Service Complaint Process, handling at Level 1 of the process should be complete within eight or 12 weeks, depending on the complexity of the case (BRd 3(1) Chapter 23 refers). CNLS staff are responsible for monitoring performance against the overall 24-week target set by the MOD and periodically will report unit complaint handling and JPA performance to 1*/2* higher formations.

b. Complainants and Respondents must be updated on the progress of the complaint at least every 30 working days.

The Service Complaints Commissioner for the Armed Forces

The role of the independent Service Complaints Commissioner (SCC) was established in 2008 and provides:

a. A rigorous and independent oversight of how the Services Complaints System is working which reports annually to Ministers and Parliament; and,

b. An alternative point of contact for Service personnel (or their family members, friends or other representatives) who do not feel they can raise a complaint or a concern within the chain of command without the independent oversight of the SCC.

SCC Contact Details

The Service Complaints Commissioner
PO Box 61755
London
SW1A 2WA
Telephone: 0203 178 7634
Email: SCC@armedforcescomplaints.independent.gov.uk or Contact@oscc.gsi.gov.uk

CAT A

a. Commanding Officers will, on receipt of an allegation from the SCC, inform the individual concerned that an allegation has been received and provide them with information and assistance (i.e. including an Assisting Officer) to submit a Service Complaint should they wish to do so.

b. Any Service Complaint arising from an SCC referral will be dealt with in accordance with JSP 831, JSP 763 and BRd 3(1) Chapter 23.

SECTION 5

DATA PROTECTION ACT

see Annex 1C

Sponsor: NAVY SEC-2 DPA CDPO

CAT A

a. All personnel, including all members of the Reserve Forces, have rights under the Data Protection Act 1998 (DPA98), in respect of personal data held by the Service about them. Anyone processing personal data must comply with the eight enforceable principles of DPA 98, which state that personal data must be:

(1) Fairly and lawfully processed.

(2) Obtained only for one or more specified and lawful purposes and shall not be processed in any manner incompatible with those purposes.

(3) Adequate, relevant and not excessive.

(4) Accurate and, where necessary, kept up to date.

(5) Not kept for longer than is necessary.

(6) Processed in accordance with the data subject's rights under this Act.

(7) Secure against unauthorised or unlawful processing of personal data and against accidental loss, destruction or damage.

(8) Not transferred to countries outside the European Economic Area unless that country ensures an adequate level of protection for the rights and freedoms of the data subject.

b. A summary of what personnel can expect from Navy Command TLB in respect of how their personal data is stored and processed, and the responsibilities of the individuals themselves can be found in RNTM 14/10 the 'Navy Command Personal Information Charter'.

c. Personnel may request copies of personal data held on them, whether in paper or electronic form by applying in writing or by submitting a Subject Access Request (SAR) application form available from their Data Protection Officer (See Note).

d. Following receipt of a SAR, it must be answered within a period of 40 calendar days from the date on which the individual has given sufficient information in order to locate the information sought. This right of access to personal data is subject to exemptions under DPA 98, which include data relating to third parties, data processed for the purpose of the prevention and detection of crime, management forecasts/planning, and legal professional privileges.

e. Personnel may also require inaccurate data relating to them to be rectified, blocked, erased or destroyed.

f. Further guidance on the DPA98 for all Royal Navy personnel is available on the Data Protection Act Support site located on the RN Web, accessed via the Defence Intranet homepage.

Note.

Completed SARs are to be sent to:

Navy Disclosure Cell
Head, Naval People Strategy
Room 48
Mail Point G-2
West Battery
Whale Island
PORTSMOUTH
Hampshire
PO2 8DY

SECTION 6

DISCIPLINE AND SERVICE LAW

see Chapter 20

Sponsor: NAVY LEGAL-DISCIPLINE LAW SO1

CAT A

a. The right to legal advice, in accordance with the Police and Criminal Evidence Act (1984) and the Service Police Codes of Practice, when under investigation in connection with an offence.

b. The right to be assisted by an officer or senior rating (for example their Divisional Officer) as an Assisting Officer when facing a summary hearing under The Armed Forces Act 2006.

c. The right to elect for Court Martial trial in the circumstances prescribed under the Armed Forces Act 2006, having had the opportunity to consult legal advice.

d. The right to appeal to the Summary Appeal Court (SAC) against finding and punishment at Summary Hearing and the right to seek leave to appeal to the Court Martial Appeal Court (CMAC) if convicted before the Court Martial, having had the opportunity to consult legal advice.

e. The right to support and assistance from a Divisional Officer when tried at the Court Martial.

f. The right to legal representation before the SAC, the Court Martial or the CMAC, and when considering exercising the right to elect Court Martial trial or appeal to the SAC. Legal representation will be free of charge if provided by a service lawyer and will be subject to the rules of the Armed Forces Legal Aid Scheme if provided by a civilian lawyer.

CAT B

Investigations by the RN Special Investigation Branch (SIB) should be completed within four calendar months, from initial tasking to despatch of final SIB report.

Note. *Members of the Reserve Forces become subject to Service law in circumstances detailed in the Manual of Service Law (JSP 830 Chapter 3 Part 1 (Jurisdiction as to Personnel) but any decision on the application, or not, of Service law to them does not constitute an actionable breach of PFS.*

SECTION 7

DIVERSITY AND INCLUSION

see Chapter 30

Sponsor: NAVY NPS-DANDI SO1

CAT A

a. The Royal Navy recognises that its people are the most important factor in delivering operational effectiveness and values the diversity and range of individual skills and talents of its personnel. It is resolutely committed to ensuring that all Naval personnel have equality of opportunity for employment, training and advancement based solely on their merits and abilities and can work in an inclusive environment free from any form of intimidation, humiliation, harassment, bullying or other abuse or unfair treatment.

b. Diversity and Inclusion applies to all members of the Royal Navy, including the Maritime Reserves.

c. All necessary steps are to be taken to prevent discrimination on grounds of an individual's gender, sexual orientation, gender reassignment, race and ethnicity, religion or belief (or non-belief), marriage or civil partnership, pregnancy or maternity. The Royal Navy is exempt from employment legislation on the grounds of age and disability.

Access to a Diversity and Inclusion Adviser (D&I(A))

CAT A

All personnel are to have access to an D&I(A) within their unit who is trained to advise on all aspects of Diversity and Inclusion policy and the MOD complaints process. Whilst individuals are encouraged to approach a D&I(A) within their own unit in the first instance, individuals have the right to approach any D&I(A) they choose. Individuals should be confident of sensitive treatment by all those responsible for their care.

Informal Resolution

CAT A

All personnel wishing to make a complaint of Bullying, Harassment or Discrimination are to be supported by their chain of command in their attempts to achieve informal resolution. A trained mediator is to be provided where all parties to a complaint are willing to attempt mediation.

SECTION 8

FITNESS, SPORT AND ADVENTUROUS TRAINING

See Chapter 29

Sponsor: NAVY NPS-PEOPLE SPT COTEM PEDSO1

Physical Development (the trilogy of Sport, Adventurous Training (AT), and Physical Education (PEd)) makes an important contribution to the development and sustainment of the Moral Component of Operational Capability by delivering individuals who are mentally and physically robust with a high degree of war-fighting spirit; it also makes a critical contribution in the recruitment and retention of individuals, and the maintenance of high morale.

CAT A

a. **Facilities.** To maintain and improve existing Sport/Physical Training facilities through the provision of new 'Standardised Approach to Sports Halls' (SASH) buildings, artificial turf pitches and other sports facilities to scale in accordance with JSP 315 (Scale 48), with special emphasis on the provision of sport and fitness facilities in close proximity to ships, air stations and deployable RM units to enable personnel to maintain a level of fitness at least comparable with the RN Fitness Test (RNFT) and the RM Basic, Combat and Advanced Fitness Tests. Reserve Forces personnel working in a military establishment under FTRS will have access to all sport and physical training facilities. In addition, Maritime Reserve personnel in RNR/RMR units located in military establishments will have access. Remote RNR/RMR will have access through nearest military establishments.

b. **Duty Travel.** To allow all personnel who are members of a Combined Service, Single Service, Command or unit team in a synopsis or recognised sport, to travel at public expense (JSP 752 Chapter 4 Section 8).

c. **Time.** To promote fitness for operations, fighting spirit and individual well-being, personnel are to be provided with:

(1) **Phase 1 and 2 Training.** Five periods (Note 1) of vigorous physical activity (Note 2) per week. For Phase 2 flying training establishments, this should be five periods per week during ground training phase, reducing to two periods per week during the flying training phase (in accordance with JSP 898 Part 1 Chapter 2.8 Para 3b).

(2) **Trained Strength.** Minimum of three hours of vigorous physical activity per week programmed as part of the working day (either split over a number of days or as one session) (Note 3).

(3) **Reserve Forces.** Reserve Force personnel under training will have physical activity programmed into their course, dependent upon the length of the course.

d. **Adventurous Training (AT) and Challenging Activities (CA).** At least 20% of unit personnel are to participate in five working days of AT/CA each year. Such activity can range from an organised expedition lasting five days to a series of five individual daily activities and is to be counted as part of standard working hours. The definition, aim and guidelines for AT are contained in **BR 51 Vol 3 and JSP 419**. CA are those activities authorised by **BR 51 Vol 3** (see also Para 2905 sub para b). In sum, personnel and managers are urged to take advantage of the increasingly varied facilities and options offered by the Joint Services AT organisations and in particular our own Naval Outdoor Centre (Germany), the Joint Services Adventure Sail Training Centre (Gosport) and the Joint Services Sub Aqua Diving Centre (Devonport) as well as the equipment provided to all units. The regional ATI is available for advice and guidance. This applies to FTRS FC Mar Res, and 2.5 days AT for Volunteer Reserves.

e. FTRS (except ADC) are entitled to five days of AT/CA each year.

CAT B

a. **Time.** To promote fitness for operations, fighting spirit and individual well-being, personnel are to be provided with:

b. **Phase 3 Training.** Three periods of vigorous physical activity per week for courses in excess of four weeks' duration. However, training organisations are to ensure that courses achieve maximum compliancy within resources available.

c. **MARRES AT.** The amount of AT conducted by Maritime Reserves is at the discretion of the RNR/RMR unit's CO who will decide whether such training should be paid or unpaid. A maximum of two and a half days (RNR) five days (RMR) per Training Year may be allowed to accrue for Bounty qualification purposes. Paid AT in excess of five days per Training Year is subject to the prior approval of Commander Maritime Reserves.

Notes:

1. A 'period' is defined as being a minimum of 45 minutes duration, programmed as part of the normal training/working day, and is to contain a minimum of 40 minutes of effective activity. Periods may be used for either physical training or sport or a combination and may be delivered through a mix of single and double period allocations providing the minimum requirement for effective activity is achieved (i.e. 40 minutes for each period).

2. Vigorous physical activity is defined as organised, structured and supervised physical fitness programmes including sports (e.g. circuit training; personal fitness programme; team run; Synopsis, Recognised or Approved sports as determined by the Combined Services Sports Control Board; an Olympiad or other activity such as bucket ball that promotes teamwork and fitness). This may be as simple as a personal fitness regime organised by the individual, structured to ensure continual ability to demonstrate at least the fitness required to pass the relevant Service fitness test, and supervised by the Command chain through the reporting system.

3. Time in working hours for physical training is the Command contribution to fitness preparation and maintenance as a constituent element of personal Operational Capability; there is also a personal responsibility to train out of working hours if required to reach/maintain appropriate levels of personal fitness.

SECTION 9

HARMONY

Sponsor: NAVY PEOPLE-HQ N9 EMP POL-SO1

Royal Navy personnel have their Harmony measured by recording Separated Service (SS), which is defined as 'Absence from normal place of duty or lack of freedom to enjoy leisure at place of duty/residence at work address or leave. Full details of SS reporting and recording requirements are contained within Chapter 26 Section 5 and Section 6. These include when SS will accrue as a result of watch-keeping/shift workers, duties, excessive/late working, on call periods, voluntary waiver scheme and other exceptions which may occur at normal place of duty leading to lack of freedom.

CAT A

a. Except in times of significant war fighting, RN and RM personnel on the trained strength, except badged SF personnel, three watch crewed personnel (see Annex 22A, Section 9, Cat A, sub para b) and RN/RM junior officers during their first 10 years on the Trained Strength (see Annex 22A, Section 9 Cat B, sub para a), will have their individual harmony managed so as not to exceed the threshold of 660 days SS over a rolling three year period (expressed as 660/3).

(1) Geographical Squadded Personnel (GSP) Separated Service will be managed within the GSP System by the unit's EWO/Cox'n/RSM in conjunction with the DO/Troop Commander, Departmental coordinators/Company Sergeants and/or Career Management Cell on behalf of the Commanding Officer

(2) For non-Squadded personnel, Career Management (through assignment) and unit/platform programming will be the main processes for managing Separated Service.

(3) RN and RM personnel returning from a sea going deployment period of 228 days or more (including any mid-deployment leave of up to two weeks) will have a 16-month deployment restriction placed on their JPA record by their Career Manager. Personnel will not conduct a major deployment (in excess of four months) during the 16-month period following their return, but could be assigned to units at high readiness or sea going units providing there is no plan or expectation of the unit deploying for over four months during the 16-month period.

b. For personnel serving in three watch crewed vessels (3WC) a protected entitlement of 270 days 'off watch' over a rolling three year period; equivalent to a maximum SS threshold of 825/3.

c. Unless a voluntary waiver has been submitted and approved, an application to breach an individual's harmony measure must be made, in advance, by the individual's CO to DDPD through Head of Career Management. This would normally be on the grounds of preserving unit Operational Capability. If not approved, the individual will be assigned to employment (when practicable) so as to reduce their SS total below the appropriate threshold or (if possible) to provide a period of 16 months employment without a major deployment. If the breach is approved, SS continues to accrue and is to be addressed at the earliest opportunity (see Chapter 26 Section 6).

d. **Maritime Reserves.** Under the call out powers of RFA 96, the 'Time Out' Policy will apply to Mobilised service personnel such that they cannot be mobilised more than once in the period governed by JSP 753, unless they chose to volunteer.

CAT B

a. All officers of the rank of Lieutenant RN/Captain RM and below, during the first 10 years of service, are to have their SS managed to achieve the maximum amount of Harmony time consistent with their necessary career development and operational necessity; 660/3 remains a desirable standard to achieve. This also applies to badged SF personnel.

b. Overnight duties should be undertaken no more frequently than one in four for non-watch-keepers when alongside in Base Port and/or parent Air Station or in the Barracks of RM deploying units.

c. Personnel should not work more than an average of 48 hours a week over a rolling 17-week period in accordance with the Guidance on the Working Time Regulations (WTR) for Service Personnel (extant DIN refers). The principles enshrined in the EC Working Time Directive apply, with due regard to the overriding need to maintain operational effectiveness.

d. Whilst individual harmony thresholds are the overriding PFS, Navy Commitments will endeavour to achieve, in priority order, the following desirable objectives when planning and programming non-3WC units, recognising that these objectives do not fit all platform types. Some or even all of sub-paras a-h below are not concurrently possible, especially for submarines and MCMVs given their numbers, availability, distinct operating patterns and different crewing regimes:

(1) At least 12 months should exist between major (4 months or more) deployments or operational tours.

(2) Deployments/tours away from Base Port, parent Air Station, or parent RM barracks should not be longer than 7.5 calendar months, accepting that a transition to hostility or a specific operational requirement may necessitate longer deployments or tour lengths.

(3) Over a 3-year period Ships, Naval Air Squadrons and Ship's Flights, and RM units should spend at least 40% of their time in their Base Port, Parent Air Station or Parent Barracks respectively[10]. Extraneous tasking of personnel away from place of duty should be minimised to preserve individual harmony time.

(4) Look to programme at least 14 days of Operational Stand Down (OSD)[11] for deployments of between four and seven and a half months, for deployments of seven and a half to 11 months this will increase to 28 days with one period of OSD of sufficient length and specifically allocated to give families the opportunity to fly out and visit.

(5) Ships, RM Units, Naval Air Squadrons and Flights should not be deployed for consecutive summer leave periods or for consecutive Christmas leave periods. Deployments during both summer and Christmas leave periods in any 12 months should be avoided whenever possible.

(6) Non-deployed units should have the majority of their summer leave period coincide with Base-Port school holidays so that personnel with families can take leave during that period.

(7) For ships, leave and maintenance may be coincident, but wherever possible should be kept separate. For submarines, leave will usually be coincident, but at least one period within the leave year should be kept separate from maintenance.

(8) Except when deployed or when the Defence Industry Base dictates, Fleet Time Support Periods should take place at Base Ports. Ships RAMP/DPs are likely to be conducted at Base Port although they will be subject to commercial competition.

(9) Detailed programmes for operational periods should be published six months in advance, with the caveat that short notice commitments can occur at any time.

[10] This time is defined as days, or parts thereof, in which the Ship, NAS, RM unit is in their Base Port/Air Station/Barracks and is able to give night leave.
[11] Port visits of four days or more duration are included as OSD.

SECTION 10

HEALTH PROMOTION

Sponsor: NAVY NPS-PEOPLE SPT COTEM PEDSO1

a. Health Promotion is integral to the Physical Education pillar of Physical Development and aims to reduce injury and illness and promote a healthy lifestyle in order to maximise the number of personnel who are physically fit for their military task and mentally ready for deployment as well as enabling those who leave the Service to be fitter for longer.

b. Health promotion applies to all members of the Reserve Forces in Full Time Service and those on mobilised service and they should have access to information on Health promotion detailed in this chapter.

Smoking Cessation

Sponsor: NAVY NPS-PEOPLE SPT TEM 1LT

CAT A

a. All personnel in the Royal Navy are to have access to ‘Stop Smoking’ advisers either within the Royal Navy or by referral to NHS provided services.

b. All personnel who want to stop smoking are eligible for provision of medicines such as nicotine replacement therapy (NRT) to support cessation.

CAT B

All personnel should have access to carbon monoxide monitoring.

Responsible Attitude to Alcohol

Sponsor: NAVY NPS-PEOPLE SPT TEM 1LT

CAT A

a. All personnel are to have access, through a variety of media to education, advice and guidance on the effects of excessive consumption of alcohol. In particular, the provision of a formal presentation through the Substance Misuse Lecture that articulates the Royal Navy’s policy on excessive alcohol consumption, the dangers associated with such consumption and the avenues available for those in need of help to combat alcoholism.

b. All personnel who commit offences as a result of excessive alcohol consumption will be given access to an Alcohol Awareness Course.

c. All personnel will undertake alcohol consumption screening as part of their Periodic Dental check and a Brief Intervention will be offered if appropriate.

Healthy Weight Management

Sponsor: NAVY NPS-PEOPLE SPT TEM 1LT

CAT A

a. All personnel will be able to monitor their body size and health risk level through Body Composition Measurements (BCM) taken by Physical Training staff.

b. All personnel will have access through a variety of media to education, advice and guidance on maintaining a healthy weight.

Sexual Health

Sponsor: NAVY NPS-PEOPLE SPT TEM 1LT

CAT A

a. Access to information on contraception and contraceptive services will be made available to all personnel.

b. Access to information about the prevention of sexually transmitted diseases (including HIV) will be made available to all personnel.

c. All female personnel aged 25 and over will be invited for cervical screening in accordance with the National Cervical Screening Programme.

d. All personnel under the age of 25 will routinely be offered an annual Chlamydia test.

SECTION 11

HEALTH AND SAFETY

Sponsor: NAVY SSM-CESO HS POL SO1C

CAT A

a. To ensure, so far as is reasonably practicable, the health, safety and welfare at work of all personnel by:

(1) Compliance with the Health and Safety at Work Act 1974 and associated legislation, MOD policy (**JSP 815** and **JSP 375**) and the Navy Command Health and Safety Management System (**BR 9147**). There may be occasions when activities in the Navy Command are not covered by Health and Safety legislation, in which case the health and safety of Navy personnel will be ensured by adherence with MOD policy and **BR 9147** which optimise the balance between risks and benefits.

(2) The provision of a healthy and safe working environment.

(3) Arrangements for ensuring safety and minimisation of risks to health in connection with the use, handling, storage and transport of potentially dangerous articles and substances including the provision of all personal protective clothing and equipment as necessary.

(4) The provision of information, instruction, training and supervision to ensure personnel are aware of the need for health and safety at work and thereby enable them to comply with statutory legislation, MOD policy and **BR 9147**.

b. Health and Safety applies to all members of the Reserve Forces when serving in a MoD environment.

SECTION 12

LEAVE (ABSENCE)

see Chapter 26

Sponsor: NAVY PEOPLE-PSP EMP POL-SO1

CAT A

a. To ensure personnel take the minimum 28 days of annual paid leave, in accordance with the Working Time Directive, each year with timing subject to operational requirements.

b. To provide for personnel to take their Individual Leave Allowance (ILA), as defined in JSP 760, within the leave year that the allowance accrues. Or, exceptionally, where for Service reasons this is not possible, to provide for outstanding leave to be carried forward to the following leave year.

c. To provide personnel with a full explanation of the reasons when, for Service reasons, it is necessary to postpone or stop leave or to recall personnel already on leave.

CAT A - Reserve Forces

a. Unless otherwise stated Reserve Forces personnel are eligible for the same allocation and types of absence as Regular personnel subject to the type of Reserve service being undertaken.

b. MR (ADC) personnel are entitled to leave on a pro-rata basis in accordance with **JSP 760 Chapter 1**.

c. Mobilised MR personnel who are deployed on qualifying Operations will be entitled to Post Operational Leave (POL) on a pro-rata basis in accordance with **JSP 760 Chapter 11.**

d. MR personnel are to take leave within the period of their commitment.

CAT B

a. There should be two main periods in the year for taking annual leave, in the Summer and at Christmas. Other long leave is to be granted as convenient.

b. On Shore Service, a day's Authorised Absence (AA) may be awarded subsequent to a weekend duty. Any non-watch-keeper who is required to keep duty on a Saturday or Sunday or both days may receive one day's AA in lieu to be taken in the week following the duty. This is subject to CO's discretion and does not include duty on call when not called in.

c. On joining a dedicated watch-keeping post (including 3WC vessels or being nominated for shift duties), individuals should be clear of outstanding leave as the opportunity to reduce any balance is restricted due to the stand-down periods determined by local management. Any outstanding balance should be preserved until the end of such an assignment ensuring it is taken prior to the individual's next assignment.

d. Every effort is to be made to ensure personnel take leave prior to and after operational deployments to ensure high leave balances do not accrue.

SECTION 13

LIFELONG LEARNING

Individuals

Sponsor: NAVY TRG HQ-EL3 SO2

This section applies to all regular members of the Royal Navy, all Reserve Forces serving on FTRS (Full, Limited and Home) and RNR/RMR mobilised personnel - depending on their length of service and their particular eligibility criteria. Certain parts apply to non-full-time Reserve personnel i.e. FTRS (ADC), RNR and RMR personnel and are highlighted where applicable below.

CAT A

a. To provide Royal Navy personnel with the opportunity to access a Royal Navy Education Centre (Education Centre, Waterfront Training Centre and e-Learning Centre) and facilitate the use of its full range of activities.

b. To provide all Royal Navy personnel with access to a trained Education and Resettlement Officer who can provide impartial information, guidance and advice, on learning and resettlement opportunities.

c. To provide opportunities, including all Reserve Forces, to access on-line learning in all Royal Navy Education Centres, including qualifications such as ITQ.

d. To provide a refund of 80% of the fees normally approved for small scale learning activities up to the maximum level specified, via the Standard Learning Credit (SLC). The detailed eligibility criteria can be found in JSP 898, Part 4, Chapter 4.

e. To provide access for eligible Royal Navy personnel to enhanced sums of money for approved personal development courses sitting at Level 3 (or higher) on the Qualifications Credit Framework, via the Enhanced Learning Credit (ELC) Scheme. The detailed eligibility criteria can be found in JSP 898, Part 4, Chapter 3.

f. To provide support to personnel deemed to have Specific Learning Difficulties (SpLDs) in accordance with JSP 898, Part 4, Chapter 6 and BRd 3(1), Chapter 96 in order to maximise their learning, training and productive service.

g. To provide all Royal Navy personnel, including Reserve Forces, with a Personal Development Record (PDR) and access to a trained Personal Development Adviser, to enable them to record, review and plan their development.

h. To provide all Royal Navy personnel, including Reserve Forces, serving at sea with the opportunity to discuss their personal development with a Naval Education and Training Service (Operations) Officer at least once in a two-year appointment or draft.

i. To partially/fully accredit training to the highest level of recognition in accordance with Defence Policy for Accreditation[12]. To allow Service personnel to gain through-career qualifications for:

(1) Legislated training (eg. Health and Safety related qualifications).

(2) Trade and Branch skills.

(3) Generic Leadership and Management skills.

j. To provide all new entrants (ratings/ORs) to the Royal Navy with the opportunity to gain an Apprenticeship to the level appropriate to their branch/specialisation or trade within Phase 1 and Phase 2 Training.

k. To provide all eligible Naval College Entry and non-graduate Direct Entry Royal Marines with the opportunity to gain a fully funded Foundation Degree and subsequently to provide a funded route to an Honours degree.

l. To provide a recreational and reference library, ashore and afloat.

m. To provide access to language learning aids in support of individual language training, including Reserve Forces.

CAT B

a. To provide the opportunity for Royal Navy personnel to attend education classes (eg. GCSE, Functional Skills, Vocational Qualifications) in Royal Navy Education Centres (detailed in BRd 3(1), Part 9, Chapter 96). FTRS (ADC) and RNR/RMR Volunteer personnel may access classes only; personal study is to be within their own time.

b. To provide the opportunity for Royal Navy personnel to receive support for Education For Promotion (EFP) requirements, Mathematics and English GCSE in front-line units.

c. To provide the opportunity for Royal Navy personnel to attend elective civilian courses. The provision of this study time will be subject to the effect on OC of the officer's unit as determined by their Commanding Officer.

d. To provide the opportunity to register for study with a Higher Education institution. This includes the eligibility to attend five working days on residential study time as Service duty, if a student is registered for two courses they may attend a further five days, but this will be taken from the student's leave entitlement.

[12] JSP 898, Part 4, Chapter 5.

e. To provide any non-graduate officer, undertaking study on the In Service Degree scheme, the opportunity to take up to six weeks study time in any one academic year. This time will cover: private study, research, summer school attendance, examinations and civilian attachment and should be demonstrably related to some such specific activity. The provision of this study time will be subject to the effect on OC of the officer's unit as determined by their Commanding Officer.

Family Education

Sponsor: NAVY TRG HQ-EL3 SO2 & NAVY PERS-PPA SO1

CAT A

a. To provide the children of Royal Navy personnel when serving overseas on an accompanied posting, with an education of a type and standard comparable with that available in England and Wales, through provision of a Service Children's School or access to apply for an education grant. Continuity of Education Allowances (CEA) may also be available for those entitled (**JSP 752 Chapter 14**).

b. The payment of Continuity of Education Allowance (Board) (CEA (Board)) or CEA (Day) to entitled personnel to assist Service parents to achieve continuity of education for their children. Members of the Reserve Forces are not eligible for CEA.

c. To provide access to Special Educational Needs Addition (SENA) to entitled Royal Navy parents of children with Special Educational Needs (SEN). SENA assists with the costs of additional tuition that those children might require, based upon their certification of SEN as issued by the Children's Education Advisory Service (CEAS) or a Statement of SEN issued by a Local Authority.

d. To provide advice on all aspects of Service children's education via the CEAS, based in Upavon (Tel: 01980 618244; Mil: 94344 8244 or by e-mail enquiries@ceas.detsa.co.uk).

CAT B

a. Access to Education and Lifelong Learning advice and Education Resources, including but not limited to Ships' Library, e-LC and internet, including families of Reserve Forces.

b. Access to Functional Skills and GCSE education through spare capacity in Royal Navy Education Centres iaw BRd 3, Chapter 96, including families of Reserve Forces.

SECTION 14

PASTORAL AND SPIRITUAL CARE

See Chapter 31

Sponsor: NCHQ Deputy Chaplain of the Fleet

CAT A

a. To ensure that all personnel are free to practise their faith and worship within any reasonable constraints imposed by the demands of the Service.

b. To ensure access to a Naval Chaplain, whenever practicable, to provide both faith-specific support and general pastoral support to all Service personnel, their dependants, and the Divisional/Regimental System.

c. To provide access to a Civilian Chaplain to the Military (CCM) for appropriate ‘faith-specific’ support for personnel from World Faiths.

d. To guarantee confidentiality for all personnel who approach a Chaplain for counselling or advice in accordance with tri-Service policy.

e. To maintain, through the three Naval Base Chaplaincies, the availability of a Naval Chaplain at one hour’s notice to respond in person or by phone, 24 hours a day, 365 days a year. This applies to Reserve Forces personnel but the availability of a Naval Chaplain at one hour’s notice will initially be by phone.

SECTION 15

PAY AND ALLOWANCES

See Chapter 27

Sponsor: NAVY PEOPLE-REM SO2

CAT A

NAVY REM undertakes to:

a. Provide advice to the Centre on Naval Pay and Allowances (including additional pay and allowances and annual Reserve Bounties) in a timely and accurate manner.

b. To provide advice and guidance to the Service on Pay and Allowance policy and its interpretation in a timely and accurate manner.

c. To update and communicate significant changes in Pay and Allowance policy affecting the Royal Navy.

SECTION 16

PENSIONS

See Chapter 27

Sponsor: NAVY PEOPLE-REM SO2

CAT A

NAVY N9 REM undertakes to provide:

a. Advice to the Centre on pension policy affecting the Royal Navy within a timely and accurate manner.

b. To provide advice to the Royal Navy on the interpretation and application of regulations governing AFPS 75, AFPS 05 and AFPS 15.

c. To update and communicate significant changes in Pension policy affecting the Service.

SECTION 17

PERSONAL HEALTH

See Chapter 28

Service Health Care

Sponsor: NAVY MED-DACOS HEALTH HNNS

CAT A

To ensure and regulate provision, at no cost to individual Service Personnel, a balanced and cost-effective medical service which provides for:

a. Primary Healthcare (General Practice, Occupational Health, Rehabilitation, and Mental Health) delivered on all Shore establishments by Defence Primary Health Care (DPHC), and by Fleet on all Afloat Platforms to a standard at least as good as relevant UK civilian best practice.

b. Access to timely Secondary Healthcare in the UK at least equivalent to that provided by the National Health Service, to standards as laid down by current Surgeon General Policy and Standards documents for the Defence Medical Services (DMS).

Service Dental Care

Sponsor: NAVY PERS-CM OF MED DENTSO1

CAT A

To ensure and regulate provision by Dental Services under the command of DPHC, at no cost to individual Service Personnel, dental treatment in accordance with the Surgeon General's Policy and Standards document, and to a level at least equivalent to the National Health Service. This will include:

a. An initial and subsequent periodic dental inspections and treatment in accordance with policy.

b. Appropriate emergency dental care, dependent on facilities and location.

c. A referral service for appropriate advanced and specialist treatment.

CAT B

To ensure the waiting time for routine appointments will not be greater than five weeks.

Health Care - Reserve Forces

Sponsor: FLEET-ME NAVY MED-DACOS MED OP CAP

CAT A

To provide medical and dental treatment for the Maritime Reserves in accordance with BR 1991 Annex 17A - Matrix of entitlement to medical and dental treatment.

Family Healthcare

Sponsor: NAVY MED-DACOS HEALTH HNNS

CAT A

To ensure and regulate provision by DPHC access to healthcare, at MOD expense, for families, when serving overseas on an accompanied posting, of a type and standard broadly comparable with that provided by the NHS in the UK. Dental care is charged at NHS banded rates. The MOD will ensure repatriation of dependants in need of specialist or emergency care that cannot be provided abroad.

SECTION 18

RESETTLEMENT

Sponsor: NAVY TRG HQ-EL3 SO2

The Transition to Civilian Life

JSP 534 - The Tri-Service Resettlement Manual sets out the resettlement entitlement for all Service personnel including Reserve Forces[13].

CAT A

a. To assist all Royal Navy personnel in making a successful transition to civilian life by:

(1) Providing the opportunity for all personnel to obtain resettlement advice and information at any stage of their career.

(2) Providing personnel with access to resettlement provision through 1st, 2nd and 3rd Line resettlement advisers.

(3) Providing resettlement assistance on a graduated basis, both in terms of provision and time available, according to length of service.

(4) Providing the opportunity for entitled personnel, exceptionally, to apply to defer discharge, commensurate with any unused period of Graduated Resettlement Time (GRT), for resettlement purposes and where this is not appropriate to exceptionally apply for post discharge resettlement.

(5) Refunding a portion of the fees incurred on approved courses up to the maximum level specified.

(6) All entitled personnel leaving the Service to take terminal leave on the basis of one day for each completed month of service subject to a minimum of five working days and a maximum of 20 working days.

b. Providing the opportunity for eligible personnel to take time from normal place of duty to attend resettlement activities (consultancy sessions, finance and housing briefings, Career Transition Workshops, modular workshops, seminars, internal and external training courses, work attachments, and individual resettlement preparation) subject to certain criteria being met, on a can-be-spared basis.

c. Service Leavers with four or more years' service and who have membership of the Armed Forces Enhanced Learning Credit Scheme will have the opportunity to achieve their first full Level 3 qualification (A level or vocational equivalent) or a first foundation or first undergraduate degree free from tuition fees iaw JSP 898, Part 4.

[13] JSP 575 covers Early Service Leavers

CAT B

a. All RN and RNR personnel who complete a minimum of 12 years by their final day in service receive the following valediction upon retirement:

(1) Commanders and below. A Certificate of Valediction signed by 2SL.

(2) Ratings. A Certificate of Valediction signed by 2SL (Valediction will not be produced for personnel required to leave the Service for disciplinary reasons).

b. Additionally, any rating, regardless of the time served, who has made an outstanding and significant contribution to the Royal Navy during their tenure in the Service, may receive a CO's Valedictory Letter.

c. RMORs may receive a Valedictory Certificate and Testimonial.

SECTION 19

SPECIALIST WELFARE

See Chapter 24

Sponsor: NAVY NPS-PEOPLESPT RNRMW ASW O1

CAT A

To provide comprehensive information, advice and support services to Royal Navy and Royal Marines personnel and their families, and mobilised reservists including FTRS, by:

a. The provision of the Royal Navy Family and People Support (RN FPS) employing serving and civilian staff who are qualified and trained.

b. RN FPS provides confidential advice, assessment, support and/or practical help within the following timescale:

(1) Priority requests for investigation or assistance will be responded to within 24 hours.

(2) Routine requests will be responded to within three working days.

c. The provision of the RN FPS Information Support Service.

d. The promotion of community development amongst Naval personnel, their immediate families and extended families, wherever they live, so as to reinforce their ability to withstand the stresses of Service life, particularly arising from operations.

e. The RN FPS Portal can be used for all enquiries relating to personal or family issues, community development and welfare/information service, however, staff at the RN FPS Hub/Satellite offices are available for face-to-face discussions where necessary.

(1) The contact details for the RN FPS Portal are:

Tel: (Mil): 9380 28777 (Civ): +44 (0)23 9272 8777
E-mail: navypers-welfare@mod.uk

(2) The RN FPS Portal will operate during office hours 0800-1630 Mon–Thurs, 0830–1600 Fri. Outside of these hours, contact may be made with the Officer of the Watch, details below, who may direct callers to the Out-of-Hours service for emergency provision.

(3) Scotland Area - 01436 674321 Ext 4005

Eastern Area - 02392 726159
Western Area - 01752 555220
RM Stonehouse - 01752 836395
Central Area - 01935 455444

f. The provision of Forces Line which is available Mon-Fri 0900-1730. Tel: 0800 731 4880.

SECTION 20

THE ROYAL NAVY DIVISIONAL AND ROYAL MARINES REGIMENTAL SYSTEMS

See Chapter 21

Royal Navy Divisional System

Sponsor: NAVY PEOPLE-TRG-HQ N9 EXEC SO1

CAT A

a. To promote career development, high motivation and morale by maintaining the Divisional System and providing for every rating and officer (see Note 1):

(1) Regular access to a nominated and formally trained Divisional Officer (DO) for advice on Service, career and private matters (see Note 2).

(2) Allocation to a Division consisting of no more than 15 including Divisional Senior Rate(s) if in the same reporting chain. Leading Hands should be included in the Divisional management chain (see Note 3 for exceptions).

(3) Divisional meetings to be held at least three times a year. Minutes from Divisional Meetings are to be forwarded to parent Flotilla Staff and a summary sent to Fleet FXO; Para 2124 Refers.

(4) On changing DOs, within units or when reassigned, a ‘Hot Handover’ must be conducted between respective DOs; Para 2151 refers.

b. All personnel involved in the management of the Divisional System are to be properly trained and fully conversant with Chapter 20. DOs must have completed the Divisional Officers' Course (DOC) no longer than six months before, and not after, assuming responsibility for their first Division.

c. Contact is to be maintained by DOs or nominated SM 5th watch officers or SRs with personnel detached, for whatever reason, from their unit, (recommended at least once every 14 days), until the individual either returns to the unit or is re-assigned. If Ships Staff or Landed Officers/SRs are not available (Leave/Courses etc.) then this responsibility vests with the parent Flotilla Staff.

Notes:

1. Whilst the RN Divisional System is mandated for the management and care of ratings, it is implicit in the term 'Command' that the same standards are expected and are applied to all subordinates (irrespective of their rank).

2. Increasingly, RN personnel are deployed as Individual Augmentees (IAs) to Land Theatres and in an operational environment they also require access to single Service information and admin support. A theatre RN Divisional structure with a Senior Divisional Officer and Divisional Leaders is to be established for all IAs to supplement, but not supersede existing J1 organisations and personnel support.

3. The number of ratings in a Division may exceed this figure in those billets where Divisional Officer duties are the prime task, such as in New Entry Training Establishments and Recovery Cells. In all cases, the correct level of divisional care is to be afforded at all times.

4. Spouses, Partners or personnel in long term relationships or former relationships should not act as Divisional Officers, Divisional Senior Rates or Reporting Officers for each other.

CAT B

As a guiding principle, Divisional Senior Ratings (First Reporting Officers) should have divisional responsibility for no more than 14 ratings. Subject to unit composition, the unit Divisional System should be designed around this principle. Exceptions to this principle should be reported to the unit's parent Flotilla Staff.

Royal Marines Regimental System

Sponsor: NAVY PEOPLE-TRG-HQ N9 EXEC SO1

CAT A

To promote career development, high motivation and morale by maintaining the Regimental System and providing for every individual on joining their unit:

a. To be allocated to a Troop, Company or Department.

b. To have regular access to their Troop/Company Commander or Head of Department for advice on Service, career and private matters.

Reserve Forces

Sponsor: NAVY PEOPLE-TRG-HQ N9 EXEC SO1

CAT A - Reserve Forces

The RN Divisional and RM Regimental systems apply to all members of the Reserve Forces.

SECTION 21

TRAVEL

Duty Travel

Sponsor: NAVY PEOPLE-REM SO2

CAT A

a. All personnel required, and authorised, to travel on duty may do so at public expense by the most economical means available (**JSP 752 Chapter 6 Section 7**).

b. **Class of Travel.** For all personnel authorised to travel on duty by rail or ferry, the class to which they are entitled by rank or rate is detailed in **JSP 800 Volume 2** . All personnel authorised to travel on duty by air should travel at the class to which they are eligible by rank or rate, except where the length of the journey is also a factor in determining class of travel. However, travel by MOD Charter or on NATO duty will be at economy class (**JSP 800 Volume 2)** .

c. The payment of Subsistence Expenses, and where appropriate, the provision of accommodation via American Express (GBT) Booked Accommodation to reimburse actual allowable accommodation and food costs necessarily purchased when travelling on duty or detached duty, within MOD limits (**JSP 752 Chapter 5 Section 1)** .

d. Travel allowances apply to Reserve Forces personnel provided they meet the criteria detailed in **JSP 752**.

Leave Travel

Sponsor: NAVY PEOPLE-REM SO2

a. For all eligible personnel serving in the United Kingdom or in HM Ships based in the United Kingdom to be granted appropriate 'Get You Home' (GYH) leave travel assistance in accordance with the current regulations (**JSP 752 Chapter 7**).

b. For entitled personnel to transfer a specified number of their GYH (Seagoers) and GYH (Early Years) warrant entitlement to their family (**JSP 752 Chapter 7**).

c. For entitled personnel serving on a permanent assignment overseas to be granted GYH (Overseas) journeys (**JSP 752 Chapter 9 Section 11**).

Additional Entitlements

Sponsor: NAVY PEOPLE-REM SO2

a. For entitled personnel in Personal Status Categories 1 or 2 to receive a specified entitlement to School Children's Visits to enable eligible children of personnel in receipt of CEA to visit them at their place of duty, subject to a personal contribution (**JSP 752 Chapter 10 Section 2).**

b. For personnel serving in a ship displaced from the Base Port for refit etc, to receive one extra GYH (Seagoers) warrant for each period of 36 consecutive days spent at the displaced port within a prescribed limit where no Base Port change has taken place (**JSP 752 Chapter 7 Section 2**).

c. For entitled personnel granted specified leave and serving on the permanent strength of a resident unit in Northern Ireland to be granted a specified number of Northern Ireland Journey travel entitlements (**JSP 752 Chapter 8 Section 1**).

d. For entitled personnel serving on a permanent assignment overseas to be granted a specified number of Respite Provision days (**JSP 752 Chapter 9 Section 5**).

SECTION 22

UNIFORM AND SPECIALIST CLOTHING

See BRd 3(1) Part 6

Sponsor: NAVY LOG INFRA-OPS SC POL SO1

CAT A

a. To provide uniform, specialist and protective clothing through a Joint Business Agreement with the Defence Clothing IPT (DC IPT), to enable personnel to comply with standards of dress and scales of entitlement set in **BRd 3(1) Part 6** (Royal Navy Uniform Regulations) and to provide them with clothing appropriate to the environment in which they are serving by:

(1) A gratuitous issue of:

(a) Initial uniform outfits and accessories.

(b) Ratings/ORs badges on advancement/promotion.

(c) Tropical clothing to personnel on their first qualifying overseas draft/appointment.

(d) Cap ribbons to personnel in Class 2 Uniform on joining a new unit.

(e) Maternity uniform on the first occasion of need.

(f) Specialist clothing on personal or individual loan.

(2) For Ratings/RMORs, free replacement of compulsory items on a fair wear and tear basis.

(3) The sale of Uniform Clothing to officers (**JSP 886 Vol 6 Part 5 Section 3 Annex A Para 37**).

b. To sponsor, through the DC IPT, or as appropriate, by authorised local unit arrangements, contracts to provide at public expense:

(1) **Tailored Uniform to:**

(a) Personnel promoted into the Senior Rating structure (No 1 Suit only).

(b) RN and RM officers on entry.

(c) All Senior Rates/NCOs and Junior Rates/ RMORs when replacement is required.

(d) New Entrants to HMS RALEIGH and CTCRM Lympstone (including RM Musicians/Buglers).

(2) **For Ratings/RMORs:**

(a) The repair of parade boots and Service court shoes (**JSP 886 Vol 6 Part 5 Section 3 Annex A).**

(b) The necessary alteration of uniforms.

(c) The sewing on of badges and medal ribbons.

(3) For embarked personnel and personnel serving in certain posts ashore the laundering, at the required frequency, of all specified clothing for officers and ratings (within the terms set out in **JSP 886 Vol 6 Part 5 Section 5 Annex C**).

(4) The provision of clothing to personnel outside of the standard size range.

c. The provision of Officers' Uniform Income Tax Relief to assist officers in the maintenance of uniform clothing.

d. The provision of a cash grant to RN and RM Officers/WO1s to enable:

(1) The purchase of some items of initial uniform outfit by RM officers in accordance with **BRd 3(1) Part 6**.

(2) The lacing of uniform suits on promotion or reversion from an acting higher rank.

(3) The tailoring and fitting of Aiguillettes and Royal Cyphers for entitled personnel.

(4) The purchase of certain items of temperate and tropical clothing as scaled in **BRd 3(1) Part 6**.

(5) The replacement of clerical vestments necessarily used in the conduct of Divine Service and for which an initial cash grant was not made.

(6) RM personnel promoted to WO1 to purchase uniform clothing not available from service sources (see Annex 40C).

e. Payment of an allowance when civilian clothes are required to be worn on duty by ratings and RMORs (**JSP 752 Chapter 8 Sections 2 and 3**) and a one-off grant to contribute towards the costs incurred by female ratings who are required to purchase items of clothing that are not issued to them at public expense (**JSP 752 Chapter 8 Section 2**).

f. The development and maintenance of ranges and stocks of uniform and specialist clothing and equipment.

g. To identify additional items required to meet a new capability or major enhancement, for introduction through the Acquisition Cycle.

h. Maritime Reserves – Uniform and Specialist Clothing standards apply to all Maritime Reserves subject to **BRd 3(1) Part 6** regulations.

CHAPTER 23

SERVICE COMPLAINTS

SECTION 1 - SERVICE COMPLAINTS

References:

A. JSP 831 Redress of Individual Grievance: Service Complaints
B. JSP 763 Behaviours and Informal Complaints Resolution
C. Armed Forces Act 2006 (AFA 06)

2301. General Matters

a. **Policy.** It is the statutory right of all Service Personnel to make a formal Service Complaint (SC) if they feel wronged in a matter relating to the Service. The Royal Navy's Service Complaints Policy complies with JSP 831 and this chapter contains supplementary guidance for the submission and administration of Service Complaints for officers, rating and other ranks. Personnel who submit a Service Complaint, or are required to assist a Complainant or investigate, staff or decide a Service Complaint are to make themselves aware of the References above and the contents of this chapter and follow the direction and guidance contained within. All communication will be confidential and direct to the participants and/or their Assisting Officer as required.[1]

b. **Flow Diagram.** Annex 23A provides a flow diagram of the SC management process. It is designed to supplement, not substitute, the SC policy in JSP 831 and JSP 763.

c. **Definitions.** The person who decides the admissibility of a Service Complaint is the Specified Officer (SO). The person(s) who decides the merits of a Service Complaint is the Decision Body (DB). A glossary of terms common to Service Complaints is within JSP 831, Part 1 at Annex A.

d. **Records.** All admitted Service Complaints are to be recorded on the Case Management System (CMS) by the Central Admissibility Team (CAT) within Service Complaints and Litigation (SC&L)

e. **Time Limits for Resolution.** The MOD and the SCOAF require 90% of all Service Complaints to be completed within 24 weeks, irrespective of whether they have been finally resolved at the Decision Body or Appeal Body stage.

f. **Alternative Resolution.** Where possible there are opportunities to resolve Service Complaints without completing the formal SC process. This might include use of mediation or a Special-to-Type (STT) complaints process.

[1] It is the responsibility of all involved in the process to ensure complaints are handled confidentially, fairly, promptly and correctly.

g. **Mediation.** This is a confidential process that provides a facilitated environment for parties to resolve their differences. It can be considered at any stage of the process and will ordinarily be undertaken by the Complaints Investigation and Mediation Team (CIMT), or a trained mediator from within or external to the Service.

h. **Informal Complaints.** The term 'informal complaint' is used to cover all complaints which are non-statutory. An informal complaint may become a Service Complaint if it is submitted in accordance with JSP 831 and deemed admissible by the SO.

i. **Combinations.** Individuals are not to act together in bringing a Service Complaint or informal complaint, either by the appointment of committees or in any other manner. Each individual must make their own Service Complaint or informal complaint.

j. **Civilians.** Grievances by civilian personnel, including those against Service personnel, are not governed by Armed Forces Act and therefore the procedures set out in this chapter and JSP 831 do not extend to them. Civilians are capable of being a Respondent to a Service Complaint but may elect not to engage.

k. **Malicious or Vexatious Complaints.** Disciplinary or administrative action may be taken against a person who makes a Service Complaint or informal complaint which is knowingly false, disrespectful, insubordinate or subversive of discipline. But no one is to be victimised for simply submitting a Service Complaint or expressing a wish to do so.

2302. Time Limits and Delay

a. **Time Limits.** A Complaint must normally be submitted within three months[2] of the 'relevant day' to be ruled admissible. The 'relevant day' is the day on which the wrong occurred, or if it occurred over a period of time the last day on which it occurred. Where a Complaint concerns a course of conduct by the same Respondent, the most recent incident complained of is used as the 'relevant day'. Where an STT[3] process exists that is yet to be exhausted, the 'relevant day' is the day the final outcome of the STT was notified to the Complainant.

[2] Some Complaints will have longer time limits. For example, complaints of discrimination pursued under the Equality Act 2010 on the basis of a 'protected characteristic' attract a six-month time limit under the Act. In addition, complaints regarding Equal Pay will have a time limit of 9 months for submission.
[3] Special-To-Type complaint processes include complaints about pay and allowances, healthcare and housing (this list is not exhaustive) and are to be exhausted prior to using the formal Service Complaints process. For more information about the STT complaints processes, please refer to JSP 831, Part 1 Chapter 2 para 2.7 and Part 2, Chapter 2 para 2.6.

b. **Just and Equitable Delay.** Where a Service Complaint is submitted 'out of time', the SO may still admit the case if they deem it 'just and equitable' to do so. Allowing a complaint that is out of time for Just and Equitable reasons is the exception rather than the rule. A Complainant will be asked to provide reasons for delay; these reasons may be different for each Head of Complaint. In addition to the reason given, additional factors may be considered, such as: (i) how far outside the time limit was the Complaint; (ii) whether it is possible to conduct a fair and reliable investigation; (iii) could the Complainant have used a quicker method to submit the Complaint; (iv) if the Complainant was able to work during the time of delay; and (v) was the Complainant able to access information within the time limit when raising their Complaint. If a Complaint is 'out of time' it is essential that any reasons for late submission are clearly set out in the Annex F at Section 6. In all cases, the SO should be given reasons from the Complainant as to why they have submitted the Complaint out of time before making a determination on admissibility.

2303. Processing a Service Complaint

a. **Submission**. All Service Complaints from Royal Navy personnel must be submitted by the Complainant directly to NAVY PEOPLE-SCL SUBMIT COMPLAINT (MULTIUSER) NAVYPEOPLE-SCLSUBMITCOMPLAINT@mod.gov.uk., normally using an Annex F form[4]. In the alternative complaints can also be submitted via the My Complaints App which is accessed via SCIO. It will be acknowledged directly by the CAT on behalf of the SO who will then decide upon the Complaint's admissibility under the Armed Forces Act 2006 and secondary legislation.

b. **Heads of Complaint.** The CAT will draft Heads of Complaint (HOCs), which summarise how the Complainant believes they have been wronged and by whom, for consideration by the SO. To do so, the CAT may seek a clarification interview with the Complainant to ensure the Complaint is correctly understood. The CAT may delegate conduct of the clarification interview to another body such as the Complainant's CO. In such cases the Complaints Advice Form (CAF) at Annex 23 B may be used. The CAT may also suggest the Complainant and Respondent engages with mediation or another form or Alternative Resolution.

c. **Admissibility Decision.** The SO must consider whether each HOC meets all the criteria to be admissible as a formal Service Complaint. The criteria for this decision are contained within JSP 831, Part 1, Chap 2. The SO may deem each HOC admissible or inadmissible. The SO may also 'Stay' a Complaint until the Complainant has exhausted a relevant STT process (see footnote 3 above). The SO will write to the Complainant, Respondent(s) and any likely Potentially Affected Person (PAP)[5] advising them of their decision for each HOC and the reasons. The SO will also write to the Commanding Officer of the complainant (see para e. below).

[4] A statement of complaint can be submitted in any written format, provided it is signed and dated. However, the Annex F provides a 'check list' which ensures that all necessary information is recorded and provided to the SO.
[5] PAPs are those persons not named as Respondents within the Annex F, but whose conduct may be criticised by the Decision Body when deciding the complaint.

d. **Admissibility Decision (Appeal).** Where the SO determines that a Complaint is wholly or partially inadmissible, the Complainant will be advised that if they wish to appeal against the decision, they must refer the matter to the SCOAF within 4 weeks.

e. **Notification.** The SO may write to the Complainant's CO to ensure that the Complainant is given the support required from their Chain of Command or in order to assist with the disposal of the Complaint. Similarly, notification may be sent to the Respondent any Potentially Affected Person's Chain of Command. The notification letter will routinely include only the HOCs, however the full Annex F may be enclosed with the letter when there is a requirement for more information to be shared. The Chain of Command may also be notified should a Complainant not engage with the admissibility process in a timely manner.

f. **Appointment of Decision Body (DB)**[6]**.** The letter of appointment provided to the DB by the Royal Navy's Complaints Secretariat will specify that the DB is to investigate and decide the Complaint. Copies of this appointment letter will be provided to the Complainant and Respondent(s). Care will be exercised in determining who should be appointed to DBs balancing rank and experience versus the potential delay from having too small a cadre of persons who can be appointed DBs.

g. **Investigation.** Investigations may be conducted by an Investigating Officer (IO) or a Harassment Investigation Officer (HIO). The investigation must be objective and fair, addressing all admissible issues raised in the SC. All IOs and HIOs act on behalf of the DB and in accordance with their Terms of Reference. Where it is judged necessary to access medical-in-confidence information to deal with a Service Complaint, the individual's signed consent must always be obtained first before any request is made to medical authorities.

h. **Disclosure.** Once an investigation is complete, all documentation that the DB will consider to reach a decision (redacted where appropriate) must be disclosed to the Complainant, Respondents and PAPs. They must be informed that they may comment on the disclosure and that their comments will be put before the DB for consideration. Comments are normally required within 10 working days; however, a longer period may be appropriate for complex Complaints or where significant documentation is provided. The disclosure period, plus reasons for any extensions beyond 10 days must be noted on CMS. Privileged and protected information is not to be disclosed or paraphrased, except when advised to do so by the relevant legal adviser. Legal advice is not disclosed as part of the disclosure process since it is privileged information.

[6] The default position will be single person DBs, unless the circumstances of the SC require a panel of persons.

i. **Decision.** Upon receipt of the completed investigation from the IO/HIO, the DB is to ensure that all necessary lines of enquiry have been investigated and there is sufficient evidence for a decision to be made. If more evidence is required, the DB is to ensure that it is obtained in good time. The DB must decide, on the balance of probabilities, whether the SC (or each individual HOCs) is upheld or, alternatively, not upheld. In some instances, the DB may conclude that elements of the SC cannot be ruled upon, however, an overall decision to either fully or partially uphold or not uphold the SC must be made. The decision letter should address each element of the Complaint and identify the evidence relied upon as well as any comments provided in response to disclosure.

j. **Decision (Appeal).** The decision of the DB may be referred for appeal by the Complainant if they are not content with the decision by writing to the Royal Navy's Complaints Secretariat using e-mail address: NAVY PEOPLE-SCL APPEALS (Multiuser) (navypeople-sclappeals@mod.gov.uk) within 2 weeks of the DB's decision. The request for appeal must be signed and dated by the Complainant and must set out what aspects of the DB's decision they wish to appeal and the legal grounds upon which they consider an appeal to be valid. Guidance on the three valid grounds of appeal can be found in JSP 831 and from the DB's decision letter. The referral will be acknowledged by the Navy Service Complaints Secretariat and the SO will then consider whether the appeal is admissible. If the appeal is admitted, the Navy Service Complaints Secretariat will appoint an Appeal Body (AB) normally independent of the DB to consider the SC. If the appeal is not admitted, the Complainant may refer to the SCOAF for a review of this decision, the SO will also include advice on how to do this.

k. **The Defence Council.** When the Admiralty Board is acting on behalf of the Defence Council as a DB, the panel will normally consist of two or more members. The Admiralty Board may reserve certain cases for itself, e.g. an SC about a decision made by the Admiralty Board or a member of the Admiralty Board acting in that capacity. In this instance, the decision of the DB is final and there is no route for appeal within the internal Service Complaint system. A Complainant who is not content with a decision of the Defence Council may within 6 weeks refer the matter to the SCOAF for review.

l. **Financial and Non-Financial Redress.** Upon appointment, DBs (and Appeal Bodies) will be empowered to award appropriate non-financial redress where an SC is upheld. They will also be provided with a specific delegation by the Navy Service Complaints Secretariat for the award of financial redress, to be made using the latest version of the SCOAF Financial Remedy Guidelines.

m. **Administrative Action.** Following the determination of an SC, it may be necessary to consider administrative action. The most common example will be where an SC alleging bullying has been upheld and administrative action is considered against the Respondent(s). Such administrative action can only be taken or initiated by the unit which exercises command over the potential subject and that unit should seek advice before determining what, if any, administrative action to take. Further guidance is at Annex 23D.

n. **Legal Advice.** When an SC is allocated to a DB or AB by the Navy Service Complaints Secretariat, a legal adviser will be available. If the DB/AB requires legal advice at any stage in the investigation or deciding of the SC, they may refer to that legal adviser if required.

o. **Organisational Learning.** Where Service policy is the subject of a Complaint and is having an adverse impact on Operational Capability, this will be formally recorded using the Defence Lessons Management Information System (DLMIS). This will allow consideration to whether that Service policy has had an adverse effect upon the Moral Component of Operational Capability (MCOC). Personal data which may identify the Complainant, or any respondent will not be inputted into DLIMS. Recommendations referring to the conduct of a person or unit will be referred to the Conduct and Culture team.

2304. The Service Complaints Ombudsman for the Armed Forces (SCOAF)

Where an allegation of a wrong has been received directly by the Service Complaints Ombudsman for the Armed Forces (SCOAF), the SCOAF will refer the matter to the Navy Service Complaints Secretariat. The Service Complaints Ombudsman for the Armed Forces (SCOAF) has the power to investigate whether an individual's Complaint was handled correctly or whether there was undue delay in the process. The Ombudsman may also be able to investigate the substance of a Complaint when the Royal Navy's process has been completed. Full details of when the SCOAF can be asked to review a decision or investigate an SC and how to contact the SCOAF's office are in JSP 831 and online[7].

[7] www.scoaf.org.uk

SECTION 2 - REASONABLE CHALLENGE

2305. Reasonable Challenge (formerly Representations)

a. The concept and purpose of Representations have been replaced by reasonable challenge, for which a guide is available on the intranet[8]. As a result the policy in relation to Representations will now adopt reasonable challenge as the appropriate method that a Royal Navy Service Person can raise an issue or suggestion that does not amount to a Complaint.

b. Representations did not alter, and so this section does not alter:

(1) The procedure by which Service Personnel may bring requests before Inspecting Officers at inspections in accordance with the custom of the Service.

(2) The custom by which any rating is allowed to request, through the Divisional Officer, to see the Commanding Officer with regard to matters of a private nature.

(3) The procedure by which local questions of welfare and amenities may be dealt with by the Welfare Committee.

2306. Guidance on Reasonable Challenge

a. The Iraq Inquiry (Chilcot) Report tells us that it's important to avoid 'groupthink' as we develop policy, and the best antidote to that is reasonable challenge. An environment in which challenge is expected and accepted is important. People should be receptive to reasonable challenge and assume that it is provided with the best of intentions, while those offering challenge should know how to do so effectively. Challenge isn't about proving someone right or wrong; rather it's about highlighting and exploring alternative options. These cultures and behaviours reflect a healthy organisation and we have created the following guide to support their development.

b. For those **receiving challenge**, you should:

(1) Not take it personally – the challenge isn't about you, it's about the issue at hand.

(2) Make it known that you welcome reasonable challenge, and create space in the way you run your business to receive it. Recognise that challenge might result in change.

(3) Seek real diversity of thought, not just shades of mainstream thinking.

[8]modgovuk.sharepoint.com/sites/IntranetHeadOffice/Documents/Forms/AllItems.aspx?id=%2Fsites%2FIntranetHeadOffice%2FDocuments%2F20170405-Reasonable Challenge the Guide-U%2Epdf&parent=%2Fsites%2FIntranetHeadOffice%2FDocuments

(4) Give staff the opportunity fully to articulate different views and give them credit for doing so. And remember that the person challenging shouldn't be expected to have a solution there and then.

(5) Demonstrate that you are giving serious thought to the challenge being offered – do not dismiss it out of hand and make sure people aren't just telling you what you want to hear.

(6) Respond respectfully – never belittle someone's view, and never (even after the event) sideline those offering it.

(7) If you do not accept the challenge, explain your reasoning, including supporting evidence when necessary.

(8) Encourage the use of evidence from beyond the immediate organisation, think tanks, academia and other sources.

(9) Support both junior colleagues and peers to raise a challenge with more senior colleagues.

c. For those **offering challenge**, you should:

(1) Make challenge with courtesy and politeness.

(2) Be prepared to explain the logic and reasoning behind your alternative view and provide evidence. Keep your challenge concise and relevant to the issue at hand.

(3) Think about the interpersonal dynamics. Keep it professional - it's the issue you're challenging, not the person. Be respectful to the approach from which you are differing.

(4) Choose your moment and your medium. A one-to-one discussion or a smaller team meeting may be more appropriate than a big meeting at which positions are being taken and decisions are expected; a gently probing conversation or email is better than a confrontational one.

(5) Raise issues in a timely manner. Don't leave your challenge too late in the process, when changing course could be too difficult.

(6) Accept if the eventual decision remains unchanged – a decision has to be taken once all reasonable challenge has been considered. Only in cases where regularity or propriety have not been observed should you need to turn to the Department's whistleblowing process.

SECTION 3 - EMPLOYMENT TRIBUNALS

2307. Claims to Employment Tribunals

a. This Section is intended for general guidance only and individuals who wish to present an Employment Tribunal claim should consider obtaining their own advice before doing so (see Para 2309 below).

b. Royal Navy personnel have the statutory right to submit claims to Employment Tribunals (ETs) where allegations are made of discrimination because of the protected characteristics of gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation. The Armed Forces are exempt from the legislation which prohibits discrimination in relation to age and disability and therefore Service personnel do not have the right of access to an ET for such matters. Discrimination may be either direct or indirect. Claims may also be made of harassment because of a protected characteristic, and victimisation. Royal Navy personnel also have the right of access to an ET in respect of claims alleging pay inequality and also claims under the Working Time Regulations 1998.

c. ETs do not have jurisdiction to hear other types of claims, including claims of unlawful deduction from wages, unfair dismissal (e.g. constructive dismissal) or wrongful dismissal (an action for breach of contract) from Royal Navy personnel. This is essentially because the Employment Rights Act 1996 does not apply to members of the Armed Forces and Service personnel are not employees governed by a contract of employment.

d. Legislation provides that an ET does not have jurisdiction to hear a claim made to it by a Service person unless it has first been submitted in the form of a Service Complaint (SC) under the appropriate internal redress procedures (see Armed Forces Act 2006 (AFA 06) and JSPs 831 and 763) and has not been withdrawn. Where an Application has been made to an ET, Navy People-SCL Litigation is to be kept informed of the progress of the SC.

2308. Time Limits

a. In recognition of the requirement for ET claims to be first submitted as an SC under the AFA 06 internal redress procedures, the statutory time limit for a Service person to refer their claim to an ET on eligible matters is 6 months from the date of the incident complained about or the latest date in a series of incidents giving rise to the claim, which is three months longer than for civilians. There is one exception to these time limits. Generally, where a claim is made alleging pay inequality, an application may be made to an ET at any time during the person’s service or within 9 months of leaving the Service, which is again, for the same reason, three months longer than the period permitted for an equivalent claim to be lodged by a civilian.

b. ET Claimants should note that ETs will normally refuse to accept a claim if it is submitted outside the appropriate time limit. Responsibility for complying with the time limit lies entirely with the Claimant.

c. Complainants who are awaiting the outcome of the internal redress procedures before applying to an ET must note the need to submit their ET claim before the six-month statutory deadline irrespective of whether the SC has been concluded. If a final decision on the SC has not been reached by then, the MOD will nevertheless continue its investigation with a view to reaching a decision before an ET hearing date has been set. The ET process may be put on hold pending the outcome of the SC procedure. If a decision on the SC is reached before the ET hearing and the Complainant is satisfied with its outcome, they may withdraw the application to the ET.

d. Please see Para 2310 concerning Early Conciliation and its impact upon time limits.

2309. Legal Advice

The decision as to whether to refer a claim to an ET is solely for the individual to make. Complainants may seek advice from an independent source at any time on any matter relating to a Complaint. Complainants may also take legal advice from a solicitor at their own expense at any time.

2310. ACAS Mandatory Early Conciliation

Before a person may bring an ET claim they must first notify the Advisory, Conciliation and Arbitration Service (ACAS), either over the phone or by completing an online form. The prospective Claimant will be required to provide prescribed information and it is important that they provide accurate contact details concerning the organisation and any person they are complaining about (if that person is to be named as a Respondent) as ACAS will need to get in touch with them. If in doubt use the contact details at Para 2311 sub para f below. ACAS will send the information to one of its conciliation officers who will seek to promote a settlement within a one month 'prescribed period'. If a settlement is not achieved, either because it is not possible in the conciliation officer's view or the prescribed period expires, the conciliation officer must issue a certificate to this effect. A Claimant may not submit an ET claim without this certificate as it will contain a unique reference number which must be quoted on the subsequent ET form. The conciliation period may impact on the time limit for presenting claims to the ET but the Claimant will have at least one month following the unsuccessful conciliation to submit an ET claim. For further information visit the ACA website[9].

2311. Application

a. An application to the ET should be made on a Form ET1. Information on how to acquire a form in England, Wales and Scotland can be obtained from the Ministry of Justice website (see www.justice.gov.uk/tribunals/employment) or the Citizens' Advice Bureau. Advice on ET procedures can be obtained from the Public Enquiry Line (Telephone: 0300 123 1024 (England and Wales) or 0300 790 6234 (Scotland) or the Advisory, Conciliation and Arbitration Service (ACAS) on 0300 123 1100.

[9] www.acas.org.uk

b. If the claim is for an ET in England or Wales then it can be sent online. Alternatively, claims may be sent by post to:

Employment Tribunal Customer Contact Centre (England and Wales)
PO Box 10218
Leicester LE1 8EG

c. If the claim is for an ET in Scotland then it can be sent online. Alternatively, claims may be posted to:

Employment Tribunals Customer Contact Centre (Scotland)
PO Box 27105
Glasgow G2 9JR

d. If the claim is for an ET in Northern Ireland then it can be sent online. Alternatively, claims may be sent by post to:

The Secretary
Office of the Industrial Tribunals and the Fair Employment Tribunal
Killymeal House
2 Cromac Quay
Belfast BT7 2JD

e. A copy of the ET1 should also be provided to the Commanding Officer (CO). Any ET1 received by COs should be sent to Navy People-SCL Litigation-Litigation as quickly as possible, as MOD's response is subject to tight deadlines.

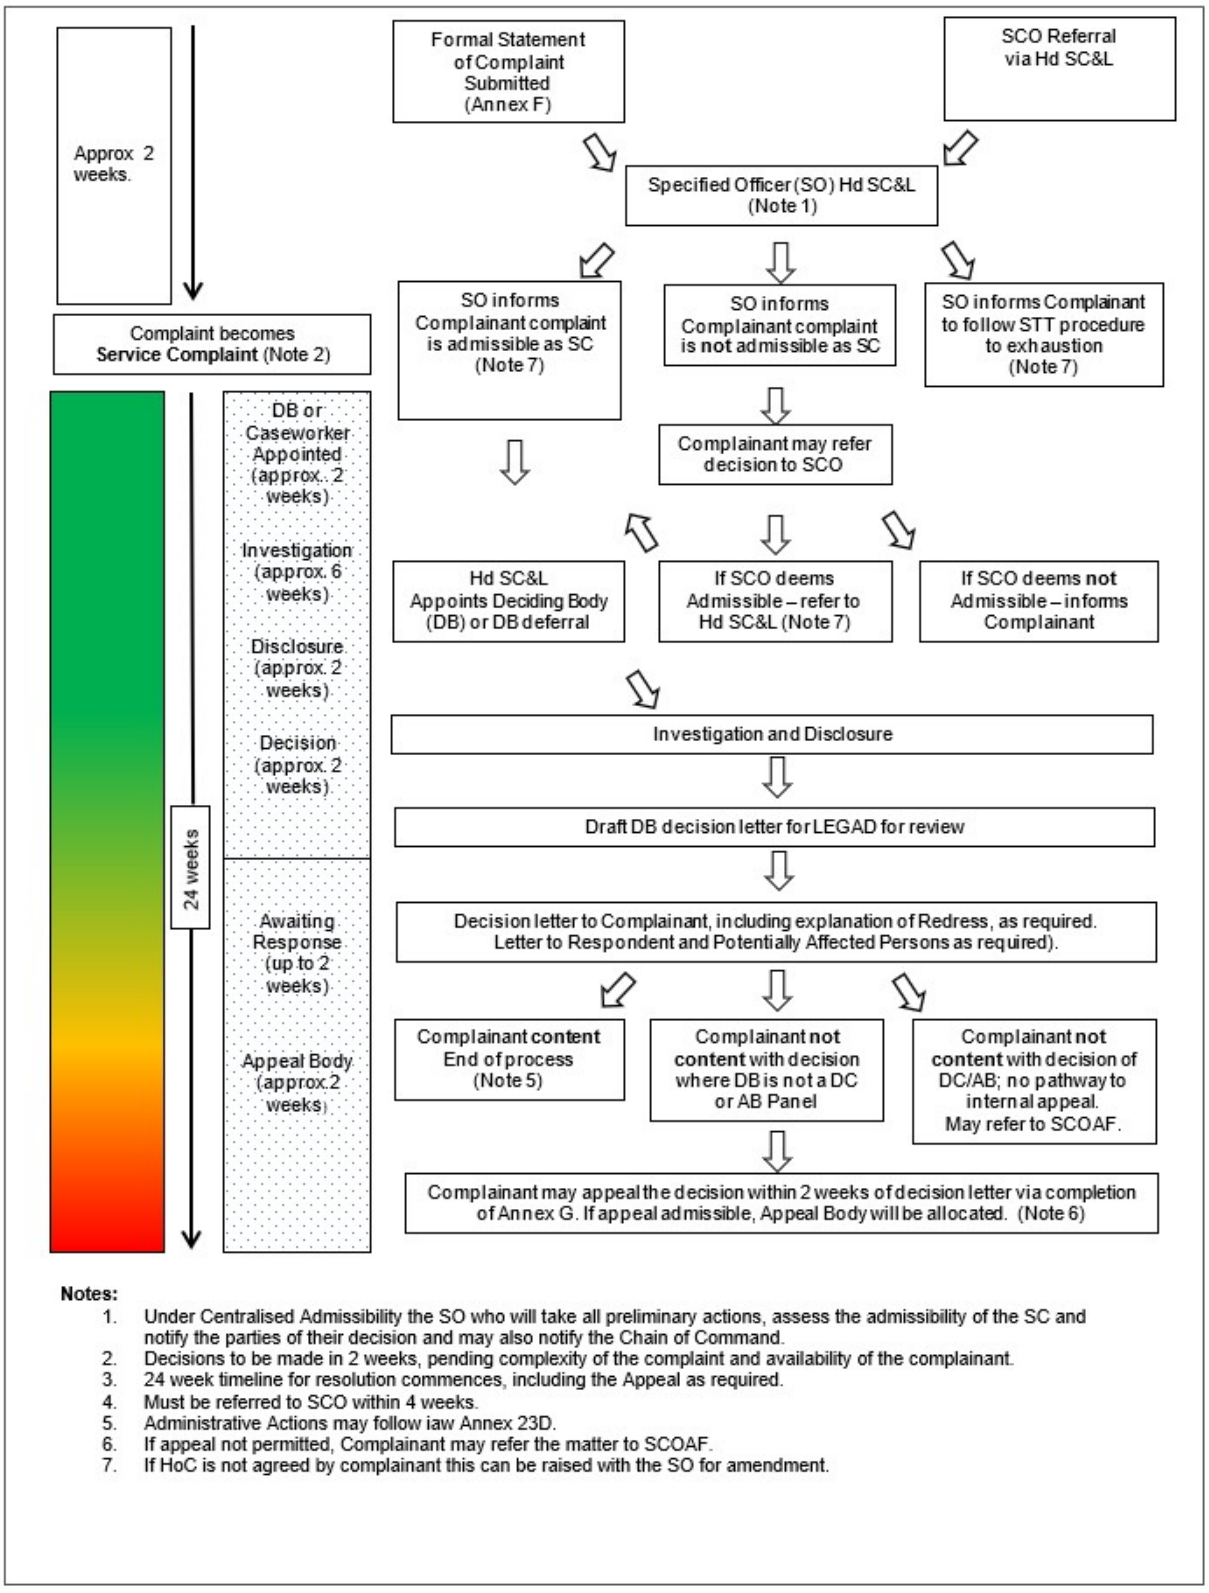
f. The Form ET1 asks for the name and address of the employer. To ensure that MOD is able to comply with the ET deadline for the employer's initial response, it is most important that the Claimant gives the correct MOD address on Form ET1.This is as follows:

Royal Navy
The Ministry of Defence
Navy People-SCL Litigation
1-Deck, People and Training Strategy, People and Training Directorate HQ,
Leach Building
Whale Island
Portsmouth PO2 8BY

g. If an SC is still being considered under the internal redress procedures when the Form ET1 is received, the MOD response will confirm this, indicating the likely duration of the procedures, and will normally request a stay of proceedings. It is general practice for ETs to refrain from listing a case for hearing if a final decision on a SC has not been made.

ANNEX 23A

FLOW DIAGRAM - SERVICE COMPLAINT MANAGEMENT IN NAVY COMMAND



Notes:

1. Under Centralised Admissibility the SO who will take all preliminary actions, assess the admissibility of the SC and notify the parties of their decision and may also notify the Chain of Command.
2. Decisions to be made in 2 weeks, pending complexity of the complaint and availability of the complainant.
3. 24 week timeline for resolution commences, including the Appeal as required.
4. Must be referred to SCO within 4 weeks.
5. Administrative Actions may follow iaw Annex 23D.
6. If appeal not permitted, Complainant may refer the matter to SCOAF.
7. If HoC is not agreed by complainant this can be raised with the SO for amendment.

ANNEX 23B

COMPLAINT ADMISSIBILITY FORM (CAF)

1. A formal statement of complaint (Annex F) must be submitted to the Specified Officer (SO) via the Centralised Admissibility Team (CAT) - NAVY PEOPLE-SCL SUBMIT COMPLAINT.

2. All initial actions will be completed by the CAT: acknowledging receipt; creating JPA record; and completing the CAF as far as is possible.

3. If the CAT cannot complete the CAF in full, the SO's appointed delegate, normally the CO, will be requested to meet with the complainant to conduct a clarification interview. The clarification interview should be used to obtain any missing information and to ensure that an Assisting Officer has been appointed and appropriate support is provided (see JSP 831 Part 2 Chapter 3 Para 23k). **These functions must not be performed by the CO or any person within their Chain of Command in cases which allege misconduct of a sexual nature, or in which the CO is otherwise implicated.**

4. **JSP 831 and BRd 3(1) Chapter 23** are useful references to assist with the compilation of this CAF. The completed CAF should be returned to the CAT within 5 working days.

5. Initial Actions

JPA Number:		**SCOAF Reference: (if applicable)**	
Date on Annex F:		**Date Annex F received by SO (CAT):**	
Date Acknowledgement letter sent:		**Date CAF sent to Delegated Officer for completion:**	
Delegated Officer for the purposes of completing the CAF:

7. Complaint Checklist

Matter to be checked	Response by SO
Is the complaint in writing?	
Is the complaint dated?	
Is the complaint signed?	
Does the complainant state how they believe they have been wronged?	
Does the complainant state the redress they seek?	
Does the matter complained of relate to the complainant's service in the Armed Forces?	
Is the matter complained of excluded from the Service Complaints system? JSP 831 Part 1 Annex B	
Is there a relevant Special to Type Process for this type of complaint? JSP 831 Part 2 Chapter 3 & Annex Q.	
Has the Special to Type process been exhausted (i.e. every level of appeal has concluded)? Please provide date of final decision in the STT process.	
Does the complaint concern matters of a sexual nature?	
Is the complainant's CO implicated in the complaint?	
Are there any other related SCs of which the SO is aware?	
Is there any related Disciplinary or Administrative Action?	
Is there any related Employment Tribunal Action?	
Does the Annex F (or accompanying documents) provide dates for each alleged incident or decision which is the subject of the complaint?	
Has the complaint been submitted within 3 months[1] of the date on which the allegations occurred?	
If the complaint has been submitted 'out of time', has the complainant provided reasons for the delay to submission of the complaint?	

[1] If the complaint concerns discrimination on the grounds of gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, or sexual orientation, the period for submission of the complaint is 6 months. If the complaint is a matter capable of being pursued as a claim the period for submission of the complaint is normally 9 months – see JSP 831 Part 1 Chapter 1 Para 18.

8. Legal Advice on Admissibility & Next Steps

ANNEX 23C

CERTIFICATE AUTHORISING THE RELEASE OF INFORMATION TO THIRD PARTIES

I

.....

(Rank, Initials and Name)

.....

(Service No)

give my consent/do not give my consent* for the release of the relevant parts of my Ministry of Defence medical records held by the Armed Forces/Ministry of Defence to those personnel responsible for staffing or deciding on my Service Complaint/s. I understand that the Medico Legal Services (Institute of Naval Medicine) will determine which elements of my medical records are relevant for the sole purpose of addressing or answering the points I raised in my Service Complaint/s.

The MOD is committed to ensuring that all your personal data including that of a sensitive nature is used with your consent, respect for your privacy and only for the limited, clearly stated purposes within the form. This accords with our legal obligations under the Data Protection Act 2018.

Once completed, this certificate is to be returned to: [*originator insert details*]

ANNEX 23D

GUIDANCE FOR COMMANDING OFFICERS OF PERSONNEL AGAINST WHOM A COMPLAINT OF BULLYING, HARASSMENT OR DISCRIMINATION HAS BEEN UPHELD

1. Introduction

a. Discrimination, bullying and harassment are unacceptable in the Armed Forces. This means that where a complaint has been upheld and unless circumstance may prevent it, eg. where no respondent has been identified or the respondent is no longer serving, the CO of the respondent is required to consider initiating administrative action. In order to ensure that COs are informed of such cases, and where the Decision Body (DB) and CO of a respondent are not the same person, the DB will notify the CO of an individual against whom a complaint of bullying, harassment or discrimination has been upheld. The process of complaint management is detailed in JSP 831 and BRd 3(1) Chapter 23 and is not repeated here. Additionally, this guidance does not cover Service disciplinary procedures in any way nor is it intended for use before a CO decides a case.

b. Where a DB upholds a formal complaint of discrimination, harassment or bullying, COs are reminded of the importance of taking adequate, appropriate and prompt action in order to correct the behaviour of the respondent. In respect of Service respondents, there is a range of administrative sanctions for the CO to consider. Any action ultimately taken against the respondent should reflect the nature, seriousness and frequency of their behaviour, taking into account any other factors which may lessen or increase the severity of a sanction, and should be applied as consistently as possible. Appropriate comment should be included in an individual's SJAR/OJAR in accordance with JSP 757.

c. COs should refer to this guidance in order to provisionally determine what action should be taken. Advice must then be taken from the relevant Regional Legal Office as to the appropriateness of the proposed sanction. This guidance does not entirely limit CO's rights to apply sanctions as they see fit, which include the possibility of taking no administrative action (in exceptional cases), however the CO must appreciate that it has been designed to protect both them and the Service from criticism and possible legal action and to ensure consistency and appropriateness of sanction across the Service. Where a CO proposes to depart from this guidance, they must first seek the advice of the appropriate Regional Legal Office. In addition to recording the reasons for the imposition of a particular sanction (which is mandatory in all cases), if they choose to depart from this guidance, the CO must fully record their reasons for doing so.

2. Range of Actions

Following an upheld formal complaint of discrimination, harassment or bullying, the list of administrative sanctions that may be taken to deal with a Service Person is at Appendix 1 to this Annex. Tri-Service guidelines (used in this note hereafter) are shown aligned to the approximate equivalent single Service sanction[1]. Sanctions are shown in broad order of severity, from least to most severe. Minor Administrative Action sanctions are not listed in detail.

3. Guidance on Taking Action

a. Every complaint of discrimination, harassment or bullying is different and must be considered on its merits. Action taken to deal with a respondent will depend on all the circumstances of the case, including the nature, extent and seriousness of the behaviour involved and any other factor which might increase or reduce the severity of sanction imposed (see para 5 and para 6). Where it is found that an individual has behaved in an unacceptable way that is sexual in nature, this policy should be read in conjunction with 2022DIN01-035[2] and 2022DIN01-073[3]; in such cases there is a presumption of discharge and COs must seek legal advice from their Regional Legal Office.

b. Although the definitions of bullying, harassment at Part 1 Chapter 2 and of discrimination are within JSP 763 Part 1, Chapter 2, for all levels of behaviour detailed below, COs must always seek legal advice from their Regional Legal Office as to the appropriateness of the proposed sanction. Examples of some of the more commonly observed behaviours which may properly be the basis of a complaint follow. The examples are listed in lower and higher levels of severity, but COs must take into account the pertinent factors which may lessen or increase the severity of a sanction when considering where to place individual cases.

(1) **Lower Level.** Behaviours that might be considered to fall towards the lower end of the spectrum of severity will generally be 'environmental' in their nature (as opposed to targeted towards a specific individual/group of individuals). This may include behaviour where the action had resulted from a lack of education on the part of an individual on a particular issue or where the behaviour was well intended but ultimately misplaced, for example:

(a) Inappropriate banter, jokes and suggestions.

(b) Displaying, downloading, circulating, reading or watching offensive material or images in an environment shared by other personnel.

Sanction Entry Point[4]: formal written warning through to formal censure (see Appendix 1, Sers 5-7).

[1] The process by which sanctions are *applied* is through existing single Service administrative procedures. COs are to refer to specific single Service regulations for comprehensive lists, including caveats. These are BRd 3(1) Chapter 20 (RN), AGAI 67 (Army) and RAF QRs (RAF).

[2] Zero Tolerance to Sexual Offences and Sexual Relationships Between Instructors and Trainees.

[3] Zero Tolerance to Unacceptable Sexual Behaviour: A Victim Survivor Focused Approach.

[4] Where no other factors affecting severity of sanction have been taken into account.

(2) **Higher Level.** At the higher end of the spectrum are more deliberate, usually targeted behaviours. Any behaviours, including those which are environmental that relate to a protected characteristic[5] will also be considered under this higher level category. Examples include:

(a) Sexist/racist/homophobic and anti-religious language/action directed at an individual.

(b) Pestering someone for a relationship after being asked to stop.

(c) Inappropriate comments about someone's appearance/anatomy or sex life.

(d) Needless and invasive questions about someone's private life.

(e) Name-calling/taunts or jibes (especially about someone's gender, sexual orientation, colour, race, ethnic or national origin, religion or belief).

(f) Ridiculing someone because of the way they look, speak or dress.

(g) Obscene gestures or derogatory remarks; victimisation; unwarranted physical contact.

(h) Undermining or trivialisation of someone's job performance by a superior (in rank or grade) causing deliberate or unwarranted humiliation of a subordinate.

Sanction Entry Point[6]: formal censure, through to administrative discharge (see Appendix 1, Sers 7-12). When considering sanction entry point, 2022DIN01-035 and 2022DIN01-073 must also be consulted where the behaviour is sexual in nature.

(3) **Misconduct That May Constitute a Criminal or Service Disciplinary Offence**. In the event of a complaint being submitted or referred to the Service Police, any decision on administrative action must await the conclusion of criminal/disciplinary proceedings. Any consequent administrative action taken should be proportionate to the conduct and remain in line with published Service guidelines. Behaviours at this level include, but are not limited to:

(a) Sexual assault or other assaults, nuisance/obscene phone calls.

(b) Threatening behaviour, obscene acts, etc.

[5] As defined by Section 4 of the Equality Act 2010.
[6] Where no other factors affecting severity of sanction have been taken into account.

Such behaviours may be dealt with either through administrative procedures, Service disciplinary procedures or both. If dealt with through administrative procedures, then the **Sanction Entry Point**[7] is reduction in rank through to administrative discharge (see Appendix 1, Sers 11-12). When considering sanction entry point, 2022DIN01-035 and 2022DIN01-073 must also be consulted where the behaviour is sexual in nature.

4. Separating the Parties

During an investigation into a complaint, it may be necessary to take management action to avoid the risk of prejudicing the outcome, e.g. where possible and appropriate, separating the respondent(s) from the complainant to safeguard the parties and minimise any impact on operational effectiveness. In advance of a decision on the complaint by the DB, all such action is non-blameworthy and without prejudice. Further guidance is in JSP 831.

5. Factors Reducing Severity of Sanction Imposed

Factors that may be taken into account which might reduce the severity of a sanction include:

a. The individual's previous conduct and warnings.

b. Isolated incident/behaviour unlikely to recur.

c. Youth/immaturity/inexperience.

d. Genuine remorse/regret.

e. The individual's response to the discovery of the incident.

f. Any circumstances relevant to the degree of culpability (e.g. one-off mistake).

g. Unpremeditated/unintentional.

h. Informal resolution.

i. No harm done to/perceived by complainant.

j. Any relevant personal circumstances.

[7] Where no other factors affecting severity of sanction have been taken into account.

6. Factors Increasing Severity of Sanction Imposed

Factors that may be taken into account which might increase the severity of a sanction include:

a. Rank/position of responsibility/failure to set a good example.

b. Vulnerability of complainant.

c. Behaviour committed in presence of subordinates.

d. Breach of trust/abuse of rank or authority/exploitation of subordinates.

e. Repeated or persistent behaviour, despite requests to stop.

f. Behaviour motivated by gender, race, ethnic or national origins, sexual orientation, religion or belief of complainant.

g. Administrative and/or disciplinary action taken for prior misbehaviour.

h. Refusal to accept responsibility/acknowledge wrongdoing.

i. Lack of remorse/regret.

j. Acting as part of a group and/or inciting others.

k. Context in which the incident(s) occurred and any adverse effect on operational efficiency/unit morale.

l. Premeditated/intentional.

m. Complainant threatened/fearful of victimisation.

7. Communication of Decision

DBs should communicate their decision in respect of the Service Complaint in accordance with the guidance in JSP 831; this may include the fact that a recommendation has been made to the CO of the person against whom a complaint has been upheld that the CO considers taking appropriate administrative action. COs should report their decision in respect of administrative action to the chain of command in accordance with BRd 3(1) Chapter 20.

8. Record Keeping

Records of the action taken should be kept in accordance with the guidance in JSP 831 and as prescribed through JPA reporting of upheld complaints. For audit purposes, the CO should also record the reasoning behind a sanction. This information will be monitored by single-Service D&I Policy staffs and the Defence Service Personnel Policy Secretariat.

APPENDIX 1 TO ANNEX 23D

ADMINISTRATIVE ACTION TRI-SERVICE/SINGLE SERVICE EQUIVALENCY OF SANCTIONS TABLE

Ser	Tri Service Guideline	RN Approx Equivalent	Army Approx Equiv	RAF Approx Equiv
1	Minor admin action sanctions	As column b		
2	Counselling	As column b		
3	Additional E&D training[1]			Informal interview Formal interview Formal warning
4	Informal warning	(MAA)	Formal interview	
5	Formal written warning	(Ratings/RM OR only) for reversion/discharge CO's Logging (Officers) SPEC SJAR/OJAR (Ratings/ORs and Officers)	Formal interview	
6	Assignment restrictions	Career monitoring to be recorded between DO/CM. SJAR/OJAR to reflect	Assignment restrictions Letter of Censure	Formal warning (promotion restrictions)[2]. Removal of acting rank
7	Formal Censure	As per BR3(1) Ch 20 Para 2032		
8	Promotion restrictions	Quarterly Reports (Officers) FC/2SL Severe Displeasure Admiralty Board's Severe Displeasure	Rebuke[3] Expression of Displeasure Expression of Severe Displeasure	
9	Removal from appointment	Removal From Assignment - approval by NAVSEC	Removal from appt[4] by the Army Board.	QR 1027 Administrative Report (Assignment)

[1] To be delivered in unit by qualified Equality and Diversity Adviser.
[2] On issue, subject becomes a grade C candidate during the next promotion cycle and thus not competitive.
[3] Rebuke, Expression of Displeasure and Expression of Severe Displeasure involve promotion restrictions. They may also involve employment restriction in that they preclude consideration at command boards for the period of validity.
[4] Exceptionally, the Army Board is permitted to order removal from appointment as part of its sanctions and under this exception, and only this, removal from appointment can be ordered as a sanction - see AGAI 67, Appendix 3 to Annex D. Removal from appt not normally a sanction but may accompany another sanction.

Ser	Tri Service Guideline	RN Approx Equivalent	Army Approx Equiv	RAF Approx Equiv
10	Promotion blocked for a given period	Admiralty Board's Severe Displeasure FC/2SL Severe Displeasure	Rebuke Expression of Displeasure Expression of Severe Displeasure	Formal warning - on issue subject becomes a grade C candidate during the next promotion cycle and thus not competitive
11	Reduction in rank[5]	Reduction in Rank(RM OR only) Reversion (ratings only) involves Career Check for 6 months minimum	Reduction in rank	QR 1027 Administrative Report (Reduction in rank)
12	Administrative discharge	Administrative discharge	Termination of Service Discharge, Retirement or Resignation	QR 1027 Administrative Report (Discharge from the Service or termination of commission)

Notes:

1. Action may be taken against a Service Person who has behaved inappropriately, regardless of whether a formal complaint has been made and/or whether the matter has been resolved informally. This may be as a result of a CO-initiated formal procedure or taken from the findings of fact by another body (eg. summary hearing or Court Martial).

2. Sanctions are not always mutually exclusive and a combination of actions may be appropriate. The CO may also wish to take into account the views of the complainant, including those on the nature of sanction imposed; though this will not necessarily determine the outcome.

3. If a complainant were to claim in an Employment Tribunal (ET) that they had been unlawfully harassed or victimised, and the ET upheld the claim, the ET could decide to give the complainant 'aggravated damages' if it considered that the action taken against the respondent(s) by the CO (or the lack of any such action) suggested that the complaint was perceived to be trivial.

4. Given the desire for consistency across the Services, commanders at Joint Service establishments who are required to decide on sanctions against a respondent from a different Service should seek advice from specific single Service career managers and relevant legal staff.

[5] For administrative sanctions, this can only be one rank and can only be imposed upon NCOs, not officers.

CHAPTER 24

WELFARE

(Sponsor: NAVY PEOPLE-PS PACT QA)

CONTENTS

SECTION 1 - PRIMARY LEVEL WELFARE

Para
2401. Introduction

CHAPTER 24

WELFARE

SECTION 1 - PRIMARY LEVEL WELFARE

2401. Introduction

a. Tri Service Operational and Non-Operational Welfare Policy, JSP 770, summarises that:

> *'The nature of military activity and way of Service life set Armed Forces communities apart from many areas of civilian society. The critical connection between welfare and operational effectiveness affirms that the support provided for Service personnel and their family is "core" Armed Forces business.'*

b. There exists clear guidance to all Services regarding the management, development, and provision of welfare. JSP 770 recognises the necessity for single service guidance to reflect the uniqueness of each service, the needs of its personnel and their families, the differing demands placed upon staff and the diversity of working environments that Service Personnel operate within.

c. Responsibility for developing welfare policy for the RN rests with Director People and Training (Dir P&T) who is a member of the Service Personnel Board (SPB). Whilst Dir P&T has responsibility for policy, implementation rests with the chain of command. Hd of People Support is responsible for the collation of welfare policy, although other desks within the P&T Directorate are sometimes responsible for its actual development.

2402. Welfare Provision

a. Welfare is provided by a number of organisations, both within the Command structure and externally through partner organisations and Local Authority agencies (see Section 8 of this Chapter, and Chapter 32) where appropriate. Provision can be defined as either one of two distinct levels of support.

(1) **Primary.** Primary welfare support is defined as the provision of support generally available from within unit resources. Primary welfare level support can be given by Commanding Officers, the Chain of Command, Divisional Officers and the unit pastoral and medical personnel.

(2) **Secondary.** Secondary, specialist, welfare support is defined as that which cannot or should not be dealt with at the primary or unit level since it requires specialist trained staff. Within the Royal Navy such support is provided by Royal Navy Family and People Support (RN FPS).

b. **Maritime Reserves Personnel.** Welfare support, including secondary (specialist) level welfare, for Maritime Reserves and their in-scope families, when mobilised, should be aligned as closely as possible with that offered to regular Service personnel to ensure that the specific needs of the reservist are met. This is to include the support required by reserve forces and their entitled families before, during and after mobilisation. Refer to JSP 753 (Tri-Service Regulations for the Mobilisation of Reservists).

2403. Command Responsibility

Welfare is a key function of command. The Commanders-in-Chief and theatre Commanders overseas are responsible for implementing policies within their own commands. In addition, there exists a number of agencies with specified roles to play that must be recognised and supported by the chain of command. The effectiveness of welfare support is dependent upon the direction and co-ordination of the work of the various specialist agencies, charities and volunteer groups (see Section 8 and Chapter 32) at the appropriate (normally local) level. This is to be achieved through a formal structure of welfare management committees and reinforced, where practical, by the co-location of specialists, services and activities. A Community Partnership Working Group (CPWG) has been formed to support the collaboration between RN FPS, charitable organisations, and partners that deliver community support activities to the service community. Unit budget managers should be consulted to ensure that public funds are only committed to MOD funded welfare elements and that value for money and affordability issues have been fully considered.

2404. Commanding Officer's Responsibility for Personnel Under Their Command

a. Welfare support to all unit Service personnel and the Service community is the responsibility of the CO. This responsibility is exercised through the chain of command, utilising specialist advisers and welfare workers, and by providing community support assets.

b. Commanders at all levels are to undertake the following:

(1) Provide and maintain as a minimum the standard of welfare and community support assets as detailed in JSP 770 Chapter 1, Annex D.

(2) Establish a stigma-free welfare culture that encourages personnel to seek support at the earliest opportunity through the chain of command or directly through specialist welfare personnel.

(3) Provide or ensure access to welfare resources where normal civil society does not meet the need.

(4) Ensure that all appropriate personnel undergo training suitable to meet their welfare responsibilities.

(5) Ensure that all vital information, including full details of welfare and community support services, is communicated effectively to the Service community in a way that is suitable to meet their individual needs, as identified in 2436 The Royal Navy Forum (https://forum.royalnavy.mod.uk) This is to include details of the MOD Equality and Diversity Policy, RN Diversity and Inclusion policy (see Chapter 30) and the MOD Unacceptable Behaviour Complaints Procedures (see JSP 763 and JSP 831), ensuring that the welfare needs of the parties to a complaint (complainant and respondent) are properly considered and that they are protected from the stresses of their situation, see JSP 770 Chapter 1 Annex D.

(6) Seek specialist support where necessary. Timely advice and guidance should be sought from higher authority where required. Potentially high profile and contentious issues should be referred to higher authority for consideration before unit action is taken.

(7) Maintain a close working relationship with specialist welfare organisations (i.e. RN FPS), granting suitable access where required. The CO is to regularly hold formal welfare conferences run by specialist welfare staff to address current welfare issues and ensure that a seamless and coherent welfare service is available.

(8) Institute a Carers' Forum, making use of the guidelines in Annex 24B. and develop a Community Partnership Working Group (CPWG) in collaboration between RN FPS, charitable organisations, and partners that deliver community support activities to the service community.

(9) Include welfare requirements within preparations for all exercise and operational deployments; this should apply equally to mobilised reservists attached to the unit.

(10) Publish a Welfare Charter that sets out the unit welfare strategy. As a minimum, the document should cover: delivery, responsibility and funding framework. An example is at JSP 770 Chapter 1, Annex D.

(11) Disseminate, as part of the induction process for personnel newly arrived at a unit, the following information as a minimum:

(a) Details of the welfare chain of command. Personnel should be made fully aware of whom they or their families can contact.

(b) Assurances that the unit is a stigma-free welfare environment.

(c) MOD’s Equality and Diversity policy and RN Diversity and Inclusion policy (see Chapter 30) and the MOD Unacceptable Behaviour Complaints Procedures (see Chapter 23).

(d) Details of welfare facilities both on and off base. These should include the RN FPS Information Support Office (see Para 2456,) and community centre; education and sports facilities; social and retail facilities; and youth and childcare facilities and activities.

(e) Details of the Unit Welfare Charter in accordance with JSP 770 Chapter 1 Annex D.

2405. Welfare Within Ship, Submarine, Unit or Establishment

a. **Personnel.**

(1) **Chain of Command.** Welfare is a key function of command and, as such, COs have full responsibility for the welfare of the personnel and the Service community under their command.

(2) **The Divisional Officer (DO).** The primary duties of DO include knowing their personnel and being responsible for their pastoral care and morale (for divisional matters, see Chapter 21 and BRd 2 Chapter 18).

(3) **Unit Medical Staff.** Medical staff are present on all major military establishments and provide primary healthcare to all Service personnel and where applicable their families. For medical matters, see Chapter 28.

(4) **Chaplaincy (including Civilian Chaplains to the Military (CCMs)).** All Chaplains are to be actively involved in primary welfare support, principally in the context of pastoral care. Whilst they cannot offer specific religious care to members of a faith group different from their own or to those with no religion or belief, they are to offer independent advice and support to all personnel, including details of local faith group communities and centres of worship. They are to offer confidentiality according to their own Church discipline, advice and emotional support to all members of the Armed Forces and their dependants regardless of faith. The Armed Forces have appointed religious leaders (Civilian Chaplains to the Military (CCMs) from the Buddhist, Hindu, Jewish, Muslim and Sikh faiths) to act as advisers on matters specific to those faiths. For further information on religion and belief, see Chapter 31.

(5) Specialist Welfare Workers (employed within RN FPS). See Para 2412.

(6) **Community Development Workers (CDW) (employed within RN FPS).** See Para 2434.

(7) **Diversity and Inclusion Advisers (D&I(A)s).** All Service units and establishments are required to have least two D&I(A)s (an increasing number have a network of D&I(A)s and D&I(P)s), who are available to provide impartial advice on all aspects of Diversity and Inclusion and, in particular, procedures for making complaints of discrimination, harassment or bullying. See Chapter 30.

(8) **RN FPS Information Officers.** Employed within RN FPS **.** See Para 2435.

b. **Welfare Committee.**

(1) The institution of a Welfare Committee is in no way to interfere with or prejudice the right of an individual to put forward suggestions through the DO, nor to affect the responsibility of the DO for looking after the interests of those in the division.

(2) The items which Welfare Committees may discuss include living conditions in the ship, submarine or establishment, messing arrangements, recreational activities and any suggestions for the welfare of the ship's company. Responsibility for the administration of the ship's funds will also be undertaken by the committees (see Annex 24A).

(3) General conditions of the Royal Navy, such as discipline, working hours, pay, allowances and leave scales and such matters as cooking and serving food from galleys, are outside the scope of the Welfare Committee.

c. **Personnel Under 18 and Recruits.** The policy regarding the management and welfare of recruits and Service personnel under 18 years of age is contained in JSP 834 and Chapter 21. This policy provides additional advice to COs regarding the legal requirements associated with Service personnel aged Under 18 and, whilst maturity and experience vary considerably between individuals, it is clear that under 18s may be more vulnerable than those who are older, and their care may require particular attention.

d. **Care Leavers.** There will also be individuals joining the Armed Forces who are care leavers and therefore subject to the provisions of the Children (Leaving Care) Act 2000. This seeks to ensure that young people aged 16-21 years, or older, if in an agreed training or education programme, or who have had a significant period of being looked after by a Local Authority (LA), continue to receive advice, support and befriending for a period of time after they cease to be formally the full-time responsibility of the LA. Under 18s who are care leavers may not have the benefit of family support that others enjoy; this may make them more vulnerable. COs are to follow the advice contained in JSP 834.

2406. Preventative Welfare - Definition

The term 'preventative welfare' is used to describe the work of promoting the wellbeing of individuals and families before problems become evident, of limiting the intensity and duration of problems that arise, and of supporting existing problems in order to reduce future distress and limit further damage. Through communication with members of their Division, Divisional Officers can play a key part in preventing or reducing difficulties from arising.

2407. Welfare Provision to Service Personnel and Their Families

Although it is not always practical to provide the same welfare support to those who reside away from their unit, COs are to ensure that, at the very least, such personnel are presented with a comprehensive welfare information package. The package should include, as a minimum, contact details of the relevant welfare specialists, advice on what to do in given circumstances and the on-line options available. The Royal Navy Forum (https://forum.royalnavy.mod.uk) provides a safe and secure environment for this information, see 2436 para d.

2408. Deployed Welfare Support (DWS)

a. DWS is delivered by the Deployment Welfare Package (Overseas) (DWP(O)) or the Deployment Welfare Package (United Kingdom) (DWP(UK)). Full details are contained within JSP 770; however, the fundamental principles of operational welfare are as follows:

(1) Welfare support is intended to enhance and sustain operational effectiveness.

(2) Operational need has priority over individual welfare.

(3) The aim of welfare spending is to make sufficient provision for personnel welfare such that an individual can concentrate on the operational task in hand.

(4) The welfare of Service personnel is a Command function and key to sustaining the moral component. It is also important to ensure that individuals feel that their needs have been looked after from the perspective of job satisfaction and, ultimately, retention.

(5) There must be a level playing field wherever possible such that all Service personnel know and understand what support is available to them and that no group feels disadvantaged in comparison to another.

(6) In general terms, the provision of DWS means that individuals should not be disadvantaged financially or by lack of access to welfare facilities when deployed.

(7) Harmonised, common and agreed tri-Service procedures should be applied rather than ad hoc single Service solutions. Disparity in terms and conditions between personnel from different Services on operations have previously been identified as a significant irritant and must be eliminated wherever possible.

b. DWS seeks to achieve the following effects.

(1) **Communicate.** To enable deployed Service personnel to retain contact with family and friends.

(2) **Entertain.** To provide for the leisure and relaxation needs of deployed Service personnel.

(3) **Support.** To provide for the physiological needs of deployed Service personnel.

(4) **Connect.** To provide support for the families of deployed Service personnel and facilitate the Service person’s reintegration into the family unit.

c. The components of the DWP(O) are:

(1) **Communication.**

(a) Provision of telecommunications.

(b) E-mail and SMS Texting.

(c) Forces mail.

(2) **Entertainment.**

(a) Audio visual.

(b) Internet.

(c) Printed matter and games.

(d) Combined Services Entertainment (CSE).

(e) Operational Fitness Equipment.

(3) **Support.**

(a) Shops (EFI and NCS).

(b) Laundry and shower facilities.

(4) **Connect.**

(a) Families Welfare Grant.

(b) Families Concessionary Travel Allowance.

(c) Rest and Recuperation.

(d) Post Operational Leave.

2409. Welfare Provision for Operational Deployments Within the UK

a. Full details are contained within JSP 770 Part 1 Chapter 6.

b. UK-based operations are primarily focussed on Military Aid to Civil Authorities (MACA). This includes:

(1) **Military Aid to the Civil Powers (MACP).** MACP is defined as support to the civil powers in the maintenance of law, order and public safety (e.g. support to counter terrorism operations).

(2) **Military Aid to Other Government Departments (MAGD).** MAGD is defined as assistance on urgent work of national importance or in maintaining supplies/essential services, e.g. Op FRESCO (provision of fire service support).

(3) **Military Aid to the Civil Community (MACC).** MACC is defined as the provision of unarmed military assistance in the event of a localised natural disaster or major incident, e.g. severe flooding.

c. Operations in Afghanistan identified a need to provide DWS for those Service personnel deployed in the UK in support of overseas operations.

d. **Eligibility Criteria.** The policy is designed for those Service personnel (regular and reserves) deployed away from their base location in formed and non-formed units (including augmentees who will, by and large, 'bulge' an existing establishment infrastructure) in support of:

(1) A MACA operation which has:

(a) An operational name;

(b) Is supported by a CDS directive and/or has MOD Ministerial authorisation;

(c) Is expected to last for seven days or more from the date of deployment or pre-training.

(2) Those Service personnel deployed away from their base unit in support of an overseas operation (for which DWP(O) is authorised and is supported by a CDS directive) but remain in the UK.

e. **DWP(UK) Provision.** DWP(UK) policy mirrors the principle adopted in the DWP(O) for overseas operations in that welfare support should be publicly funded. Unlike the DWP(O), which by and large requires an infrastructure to be put in place, e.g. telephones, internet, post, recreational facilities, etc. DWP(UK) aims to utilise the existing infrastructure in the UK.

2410. Other Welfare Funding

a. **Commanding Officer's Fund.** The Commanding Officer's Fund has traditionally been used to promote the smooth running and efficiency of a unit by purchasing items not normally available through the supply chain. BRd 18 should be referred to for further details of the operation of the CO's Fund.

b. **Gainshare Policy.** Under PAYD (Catering Retail and Leisure (CRL)), an element of profit made by the Commercial partner is returned to the MOD as 'gainshare'. Gainshare monies can be used by Commanding Officers to enhance welfare provision at unit/station level. The gainshare return will be split between the non-public and public funds on ratio 2:1 basis (⅔ non-public funds and ⅓ public). Commanders have a great deal of flexibility, within the single Service rules and regulations relevant to non-public funds, in the way that they utilise the non-public element of gainshare.

2411. Welfare of Parties to Unacceptable Behaviour Complaints

Refer to Chapter 23, JSP 770 Chapter 1 Annex D and JSP 763/JSP 831 (MOD Unacceptable Behaviour Complaints Procedures).

SECTION 2 - SECONDARY (SPECIALIST) LEVEL WELFARE

2412. Royal Navy Family and People Support (RN FPS)

a. **Introduction.** Unless specifically stated the following provision applies to all RN/RM personnel, including mobilised reservists, and their families. The nature of military activity and way of Service life set Armed Forces communities apart from many areas of civilian society. The critical connection between specialist welfare and operational effectiveness affirms that the support provided for Service personnel and their families is 'core' Royal Navy business.

b. Accordingly, the RN FPS Mission Statement is:

'To provide accessible support services that strengthen and enhance the resilience and resourcefulness of Royal Navy and Royal Marine personnel, their families and communities in order to contribute to the Moral Component and optimise Operational Capability.'

c. RN FPS provides personal support, information and community-based support services to all RN personnel, reservists, and their families. RN FPS works in partnership with the Executive, Divisional and Regimental System to provide professional advice, support and recommendations to COs, including outcomes of investigations relating to compassionate action. The RN FPS seeks to develop and deploy resources to anticipate and prevent personal or family circumstances from reaching crisis point and which promote improved morale, motivation and wellbeing. RN FPS has four key priorities:

(1) Deployment Support.

(2) Visiting Officer role.

(3) Crisis Intervention.

(4) Safeguarding.

These are achieved via three Pillars of Delivery:

(1) Casework.

(2) Community Development.

(3) Communication and Information Support.

d. **RN FPS Organisational Structure.** The RN FPS is a multi-disciplinary and mutually supportive organisation which provides services for all RN and RM personnel and their families to ensure equal access to all.

(1) RN FPS Portal Team is the primary point of entry for specialist welfare i.e. investigations, assistance and assessments (Tel: 0800 145 6088/, email: navypeople-psrnfpsportal@mod.gov.uk

(2) Para 2414 sub para a. provides the information required by the Portal team to initiate an assessment or compassionate investigation. Area teams may undertake assessments on behalf of the Portal team, retain walk-in facilities and provide localised support for cases which are assessed as more complex and/or require face to face support, potentially including multi-disciplinary working.

(3) RN FPS offices are embedded into the local unit command structure and provide the professional lead.

(a) **Service Delivery 1.** Has main offices in HMS NELSON (RN FPS, Swiftsure Building, HMS NELSON, Queen Street, PORTSMOUTH PO1 3HH. Email: navypeople-psrnfpseast@mod.gov.uk) & Helensburgh (RN FPS, Triton House, 1-5 Churchill Square, HELENSBURGH, G84 9HL. Email: navypeople-psrnfpsscot@mod.gov.uk). Has satellites in Northwood HQ, Gibraltar, HMS SULTAN/COLLINGWOOD, RM Hamworthy, HMS EAGLET, HMS CALLIOPE, RAF Marham, 43 Cdo and 45 Cdo.

(b) **Service Delivery 2.** Has main offices in HMS DRAKE (B149, HMS DRAKE, HMNB Devonport, PLYMOUTH, PL2 2BG. Email: navypeople-psrnfpswest@mod.gov.uk) & RNAS Yeovilton (Somerset Court, RNAS Yeovilton, Ilchester, Somerset, BA22 8HT. Email: navypeople-psrnfpscent@mod.gov.uk). Has satellites in RNAS Culdrose, HMS RALEIGH, BRNC Dartmouth, 42 Cdo RM, RMBS Stonehouse/30 Cdo RM and the Royal Navy Recovery Pathway Hasler, HMS FORWARD, CLR, CTCRM and 40 Cdo.

e. Overall responsibility for the RN FPS specialist welfare provision, delivery and professional standards lies with the Hd of FPS, who is accountable to Hd of People Support. Email: navypeople-psrnfpshq@mod.gov.uk

f. When working directly with their service users, RN FPS military personnel are authorised to work without the use of rank or rate; they are, however, to adhere to Service protocols and appropriate marks of respect are to be applied at all times when dealing with the Chain of Command, and those within the Divisional/Regimental system. When working face to face with service users, RN FPS personnel are authorised to wear smart and appropriate civilian clothing in accordance with JSP 752.

g. **RN FPS Services.**

(1) A comprehensive, confidential (see para 2413), specialist welfare service to Service Personnel and their families.

(2) A professional service to the Executive, Regimental and Divisional System.

(3) Compassionate assessments, investigations and recommendations.

(4) A link between the Service person and their family in times of crisis or need.

(5) Provision of Visiting Officers (VOs) in accordance with JSP 751.

(6) Delivery of a timely, high quality, and effective service without discrimination.

(7) A professional link to external agencies, e.g. Local Authorities.

(8) A high-quality information service, both face-to-face and across several digital platforms - see Para 2436.

(9) A network of community activities, organised and bespoke, including the critical area of deployment support.

h. For the vast majority of cases, RN FPS can work alongside the Service person/NoK to achieve solutions without the need to recommend compassionate action.

2413. Confidentiality

The RN FPS code of confidentiality means that disclosure of confidential information should only take place if consent to share from the individual has been obtained. However, if prior permission from the individual is not given, and there might be serious consequences of not disclosing confidential information, the matter should be referred to higher authority for advice. For example, such circumstances might include the following:

a. Where there is a risk of harm to the individual or others. When assessing risk, it is essential to consider fitness for armed duties (i.e. access to or overseeing firearm(s)), when deciding on disclosure of information to the Chain of Command. Any concerns relating to an individual's fitness for armed duties must be disclosed to the Chain of Command and line managers, and be recorded in the RN FPS case notes.

b. In order to prevent a serious criminal act.

c. If there is a serious contravention of military law.

d. If there is, or is likely to be, a serious breach of national security.

e. If an individual is unable to carry out their duties.

f. If there are concerns relating to adult or child safeguarding issues, domestic abuse or gender-based violence (including female genital mutilation (FGM)).

g. Any such disclosure must be in line with relevant privacy notices and the MOD's Personal Information Charter.

2414. Referral to RN FPS

a. Initial access to RN FPS should, where possible, be via the Portal (Tel: 0800 145 6088, Navypeople-psrnfpsportal@mod.gov.uk, each of which can be used to initiate/request a compassionate investigation/assessment. CoC requests for compassionate investigations should include the following information:

(1) Serving Person: full name, rank/rate, service number and unit;

(2) Address to be visited/contacted (including key contact and telephone numbers);

(3) Summary of situation: any previous compassionate action (e.g. compassionate leave); relevant contact details of NOK, extended family, professionals and organisations;

(4) Impact on the unit if the Service Person is granted compassionate action;

(5) Point of contact within Divisional/Regimental System.

(6) Consent granted by the Serving Person for RN FPS involvement

b. Urgent specialist welfare support outside of RN FPS daily opening hours can be accessed through OOW HMS NELSON (Tel: 02392 723875), OOW HMS DRAKE (Tel: 01752 555220), Duty Naval Base Officer Faslane (Tel: 01436 674321 Ext 4005) and Officer of the Watch RNAS Yeovilton (Tel: 01935 455444/5446).

c. **Tri-Service Arrangements.** The provision of specialist welfare support is a responsibility of the parent Service Command (in accordance with JSP 770) but there will be occasions when another service welfare provider (e.g. the Army Welfare Service) is able to meet the needs of a service user more effectively. The Tri-Service Specialist Welfare Agreement on mutual working and areas of responsibility (Annex 24F) applies. Compassionate action, assignments, discharge or services provided at public expense must involve the parent Service Chain of Command.

d. A referral for RN FPS casework services will result in a casefile being created and personal data being stored on a computer application (Joint Army Navy Information System (JANIS)), which is Data Protection Act (2018) compliant and registered on the Navy Command Information Asset Register.

SECTION 3 - SPECIFIC WELFARE POLICY AND GUIDANCE

2415. Specific Welfare Policy and Guidance

A number of areas of welfare are covered by specific policy. This is covered in the following paragraphs.

2416. Events with Potential Media Interest

a. The appetite for news and the prevalence of social media means that the Chain of Command (CoC) should consider the implications of initial (incident) and subsequent related events (reports, court cases, appeals, inquests, etc.) on personnel and their families. This primary welfare responsibility extends beyond the personnel directly involved to those peripherally associated with the event and their families. There have been examples of media trawling housing estates and schools in an attempt to identify individuals connected, even indirectly, with an incident or unit. The role of the CoC is to consider the potential impact of the event on the people affected and put in place proportionate communications and support strategies.

b. The scale and characteristics of these events and the commensurate response will vary considerably, and each will require a bespoke approach. A multi-disciplinary perspective is recommended and the CoC should consider engaging with People Support (RN FPS, Operational Stress Management, media, Service Police, legal and secretariat advisers as appropriate). A mapping exercise to identify potential areas of focus may also be considered (see also Chapter 20 Section 17 - Civil Offences and Section 22 – Management of Convicted and Suspected Sex Offenders).

2417. Sensitive Case Advice Reaction Team (SCART)

The procedures for the management of Service personnel who may be ‘at risk’ are contained in Annex 24C.

2418. Deliberate Self-Harm (DSH) or Suicide

a. The procedures for management of DSH is contained in Annex 24D with associated appendices, which cover the following: sources of advice and support; an algorithm for Executive management of DSH; Case Conferences – Guidance for Medical Officers.

b. Action to be taken on discovery of a death or serious injury in an establishment is at Annex 24E.

2419. Relationship Breakdown

a. Relationship breakdown includes marriage and civil partnerships as defined for Service personnel in JSP 752. Couples who form a civil partnership and register the partnership under the terms of the relevant legal regulations have the legal status of “civil partner”.

b. When a couple realises that there are serious difficulties in their marriage/civil partnership they should try consulting with a suitably qualified person, third party or organisation such as RN FPS (see Para 2412), Relate (see Para 2463 and Chapter 32), or a Chaplain (see Chapter 31 and BRd 2) to take advice on their concerns and consider appropriate intervention before starting divorce proceedings.

c. Service Personnel in PStat Cat 1C/S, whose marriage or civil partnership has broken down or estrangement is imminent, may take advantage of a 'cooling off' period. A period of up to three months may be allowed to permit counselling and a possible reconciliation before a change in PStat Cat is required. If no reconciliation has been achieved by then (or at an earlier stage if it becomes clear that no reconciliation is possible) the PStat Cat should be changed from that date. Details regarding responsibility for change of PStat Cat are contained in JSP 752.

d. Further details and information relating to SFA and SLA accommodation charges and entitlements are contained in JSP 464 Volume 1 Chapter 3 (Para 0349 relates to Estrangement) and JSP 464 Volume 2 Part 1 respectively. Details relating to accommodation charges are contained in JSP 464 Volume 3.

e. Where a relationship is considered to have irretrievably broken down but difficulties remain to be resolved, the use of conciliation services may prove beneficial. Conciliation services provide a means of resolving actual or incipient issues, clarifying confused situations, and reducing conflicts by mediating between partners; usually before formal proceedings begin and before contact through legal representatives has hardened attitudes. Conciliators will aim to foster good future parent/child relationships.

f. Information for Divisional Officers, including with regard to financial implications, is at Chapter 21 Section 7; and Annex 21R provides a proforma for a structured interview before change of PStat Cat.

2420. Domestic Abuse (Including Domestic Violence)

a. JSP 913 is the tri-Service Policy on Domestic Abuse and Sexual Violence.

b. The Information Sharing Agreement between the Royal Navy Police and RN FPS covering the sharing of information surrounding referral of victims of domestic abuse, honour-based and sexual violence and the safeguarding of adults and children is available on request from either organisation.

2421. Child Care

a. OFSTED[1] provides details of the defence Wraparound Childcare (WAC) scheme is available via the Defence Childcare Portal accessible via defnet and was rolled out across the UK in September 2022. WAC provides families with better flexibility and affordable childcare support.

[1] http://www.gov.uk/government/organisations/ofsted

b. JSP 770 Chapter 3 provides MOD Policy applicable to all officially recognised youth and play activities provided through the medium of MOD youth centres, youth clubs, projects, play centres, community services, activity centres, and gymnasiums. See 2021DIN08-006: Activities that are not covered by the MOD's self-insurance arrangements – non-core business activities).

c. Youth and play activities may be provided for RN/RM dependants in each of the base port areas as well as in certain other bases/units. The National Community Development Manager (NCDM) acts as professional adviser to the base/unit CO and who maintains standards under the policy direction of RN FPS Head of Department. Wherever possible, activities are carried out in conjunction with the relevant local authority.

2422. Safeguarding Children

a. JSP 834 contains the Tri-Service Policy on Safeguarding and should be followed at all times. The Ministry of Defence (MOD) and Department for Education (DfE) are committed to working together to ensure the safeguarding of Service children and young people. Further guidance in all areas of safeguarding can be found in the DfE's Working Together to Safeguard Children.

b. **Child Protection.** In UK, all child protection concerns and referrals must be referred to, and dealt with by, the statutory authorities. RN FPS can offer advice and assistance in this process however, the needs of the child are paramount and immediate and serious concerns should be reported to the Civil Police and/or social services to ensure that the child is protected without delay. All child protection matters within the Royal Navy should be notified to the RN FPS Portal or the local RN FPS Service Manager.

c. The Information Sharing Agreement between the Royal Navy Police and RN FPS covering the sharing of information surrounding referral of victims of domestic abuse, honour-based and sexual violence and the safeguarding of adults and children is available on request from either organisation.

2423. Disability and Additional Needs

a. JSP 820 - Tri-Service Disability and Additional Needs Policy provides guidance on the range and types of assistance available.

b. Naval policy on assignments for welfare reasons is at JSP 820 Part 1 Section 2 - Assignment, Promotion and Career Management.

c. RN FPS is available to assess, advise and assist on individual circumstances.

d. The Education Advisory Team (UK) (EAT (UK))is a service located within the MOD's Directorate with Defence Children Services (DCS) which is established to provide information, advice and support to Service parents about any issue relating to the education of their children, both in the UK and overseas. Much of the demand for the services offered by EAT (UK) comes from Service parents who have children with special educational needs (SEN) and, in Scotland, additional support needs (ASN).

2424. Sex Offenders

The management of convicted or suspected sex offenders in the Service is detailed in Chapter 20, Section 22.

2425. Adoption and Fostering

JSP 760 directs Service personnel to the correct policies and guidelines governing adoption and fostering. It should be read in conjunction with relevant Service and Command instructions (including JSP 464).

SECTION 4 - COMPASSIONATE ACTION

2426. Compassionate Action

a. There are six types of compassionate action:

(1) Compassionate Leave.

(2) Compassionate Area Restriction

(3) Compassionate Assignment.

(4) Prolonged Shore Assignment.

(5) Permanent Shore Assignments.

(6) Compassionate Discharge.

b. With the exception of Compassionate Leave, all other compassionate actions must be investigated and recommended by RN FPS.

2427. Compassionate Criteria

a. Before RN FPS makes a recommendation to the chain of command for compassionate action, they need to be certain that the Service Person's presence (i.e. at home) is essential and that all other courses of action, feasible options and the opinions of other professionals (as appropriate) have been taken into account and assessed. As part of a thorough and holistic assessment process, it is often necessary for RN FPS to visit family members in their home environment to assess levels of support required.

b. Although no precise guidance can be laid down each case requires objective and holistic assessment. In the following circumstances a recommendation for compassionate action may be deemed appropriate:

(1) When the spouse/civil partner, child or in-scope relative (See JSP 751) of a Service Person is seriously ill or has died;

(2) When a Service Person's presence is the only means of preventing the break-up of their immediate family;

(3) Where the care of dependant/in-scope child(ren) can only be appropriately provided by the Service Person's presence;

(4) At other times when circumstances are assessed to be exceptional and more than usually distressing.

2428. Compassionate Leave

a. Compassionate leave is defined as an authorised period of absence to enable Service personnel to attend a personal/domestic crisis and does not count against an individual's annual leave entitlement.

b. The authorisation and duration of compassionate leave rests with the individual's CO, who may authorise up to 4 full weeks, although 2 full weeks will normally be sufficient in the first instance. Only in exceptional circumstances and following a re-examination of the circumstances should compassionate leave exceed 4 full weeks.

c. CO's, individuals and the chain of command can request support from RN FPS who will assist COs in reaching decisions on compassionate leave by undertaking investigations, making appropriate recommendations, and assisting individuals and families to explore all areas of support. Repeated periods of compassionate leave for the same/recurring situation should rarely be authorised and service personnel would be expected to utilise the welfare support available to resolve or improve their personal situation.

d. Referrals to RN FPS will need to have the consent of the individual concerned and should be offered at the beginning of the compassionate leave period especially when the situation is particularly complicated, or it is apparent that the timings may extend beyond the initial period. Requests for RN FPS investigate assessment can be found at Para 2414.

2429. Compassionate Travel

a. The criteria for categorisation of compassionate travel at public expense are detailed in JSP 751.

b. **Within UK Territorial Waters.** Authority for compassionate leave travel within the UK rests with the Service Person's CO and should only be granted when the circumstances are particularly distressing and a genuine need for travel at public expense (rather than personal) is identified.

c. **Outside of UK Territorial Waters and Units Overseas.** Compassionate travel from outside of the UK territorial waters will normally only be considered if the case concerns 'in-scope' relatives. JSP 751 contains a list of 'in-scope' relatives. The authorisation for compassionate travel at public expense from outside of UK territorial waters lies with the Joint Casualty and Compassionate Centre (JCCC) (www.gov.uk/joint-casualty-and-compassionate-centre-jccc JCCC Tel: 0044+ (0)1452 519951; Service: 95471 7325).

d. **Compassionate Leave Travel to Countries other than the UK.** Domiciled Collective Leave and Commonwealth Enlisted Compassionate Travel (DOMCOL and COMECT) arrangements are detailed in JSP 760.

2430. Compassionate Area Restriction

a. A Compassionate Area Restriction enables an individual to be present when a Service Person's situation falls within the compassionate criteria at Para 2427 but can be gainfully employed during the working day, negating the need for compassionate leave.

b. Recommendations for Compassionate Area Restrictions should be considered only when an holistic assessment has deemed that the Service Person's presence is essential to provide support outside of working hours. Recommendations made should detail working hours achievable by the Service Person for the duration of the area restriction.

c. Compassionate Area Restriction must only be utilised as a short-term measure to provide essential care/support in times of domestic crisis. Recommendations should be considered initially for up to two full weeks and should not exceed four weeks. If exceptional circumstances are present which warrant further area restriction, then the situation should be assessed for compassionate assignment.

d. The authorisation for and duration of Compassionate Area Restriction rests with the individual's CO. RN FPS is to conduct a full investigation and verification and present the CO with a formal recommendation and review date to assist the CO in reaching a decision.

e. Repeated periods of Compassionate Area Restriction for the same/recurring situation should rarely be authorised; service personnel are expected to resolve their personal affairs within a reasonable timescale using the welfare support available to them.

2431. Compassionate Assignments

a. Where Compassionate Leave/Area Restriction is insufficient to resolve a problem, a Compassionate Assignment may be considered. The authority for Compassionate Assignment recommendations rests with RN FPS; it will usually be for up to three months and not more than six months' duration.

b. Commanding Officers or assignment authorities who consider that a Compassionate Assignment may be necessary should request an investigation by RN FPS (see Para 2414). During the course of the investigation RN FPS should, if not already involved, consult with the appropriate assignment authority regarding the implications of a reassignment (e.g. impact on OC of resulting gap). It should be borne in mind that compassionate assignment action to resolve one person's difficulties can frequently disadvantage or significantly disrupt others, especially when a relief is sought at short notice and out of turn.

c. During the course of the compassionate investigation and any resulting action, the Service Person is expected to fully engage with RN FPS, the Divisional/Regimental System and, where appropriate, their allocated Personnel Support Group (PSG) or Recovery Cell. On completion of the investigation, RN FPS will make one of the following recommendations:

(1) Compassionate Assignment is not recommended.

(2) Compassionate Assignment is highly desirable, even though this may seriously interfere with the requirements of the Service.

(3) Compassionate Assignment is essential. This could be for the Safeguarding of children or vulnerable adults within the Service Person's immediate family.

d. The decision to approve the compassionate assignment recommendation rests with the CO, taking into account the Service requirement. In all cases RN FPS and the assignment authority are to be informed of the decision.

e. All Compassionate Assignments are subject to formal written review carried out by RN FPS, which will provide the following:

(1) An assessment of the current situation;

(2) An evaluation of progress to date;

(3) Necessity for the Service Person's continued presence;

(4) Range of options and specific recommendations.

f. The overriding principle is to keep the CO and Career Manager updated with progress and supplied with sufficient information in order to make considered decisions in a timely manner, benefitting the Service Person and the Service. Reviews are to be carried out a minimum of one month before the compassionate assignment is due to expire. Reviews should also be undertaken where there is a significant change to circumstances and the outcome of the review should be shared with the Command and, as appropriate, the Career Manager.

g. RN FPS recommendations should state only the general geographical area to which a person is to be assigned e.g. base port or county. The assignment authority should, wherever possible, seek to place the Service Person in a complement billet where the individual will work within their specialisation.

h. RN FPS should in all cases discuss with the assignment authority and, wherever appropriate and possible, with the receiving Command, any circumstances that may affect or impair the individual's employability whilst in the Compassionate Assignment.

i. Service personnel should be advised that, on completion of a Compassionate Assignment, they are subject to the requirements of the Service. They may return to their former place of duty or, where an assignment has been deferred for compassionate reasons, take up a planned or alternative assignment elsewhere that is within established assigning principles and protocols.

j. The case for an extension to a Compassionate Assignment should be supported by a RN FPS Social Inquiry Report (SIR) and appropriate recommendation by a RN FPS Service Manager. The completed SIR will be despatched to the Commanding Officer holding responsibility for the Service Person who, in turn, will forward a recommendation to the Career Manager (who will have a copy of the full report) for a decision.

k. **Assisted Conception Services.** Guidance for those seeking stability in order to access assisted conception services (including IVF), and those in chain of command and assigning authorities, is at Chapter 60, Para 6015 and 2021DIN01-020 – Assisted Conception services and Fertility Preservation.

2432. Prolonged or Permanent Shore Assignments

a. When a very serious or complex situation cannot be resolved within the limited period of a Compassionate Assignment, consideration can be given to an application for a prolonged or permanent shore assignment, or Compassionate Discharge.

b. When a Compassionate Discharge is not requested by a Service Person or is deemed inappropriate (e.g. within two years of completing relevant pensionable engagement), a case should be made to the CO for a prolonged or permanent shore assignment.

c. Prolonged shore assignments are usually of six to 12 months duration; permanent shore assignments normally cover the last 12 to 24 months of Service before Termination Date.

d. The case for a prolonged or permanent shore assignment must be supported by a Social Inquiry Report (SIR) and appropriate recommendation by RN FPS.

e. SIRs should be completed by RN FPS within a maximum of 20 working days of the initial, formal request from the CO or assignment authority. In exceptional circumstances where situations are complex or contact with professionals involved etc has been difficult to establish then the SIR timeframe can be extended. This will only be done where absolutely necessary. The Serving Person, Command and the assignment authority will be updated formally, in writing, before the end of the initial 20 day period. Extensions can only be authorised by the RN FPS Service Manager /Head of Department and should be authorised in no more than 10 working day intervals.

f. The completed SIR will be sent to the CO who, if content, will forward a recommendation to the assignment authority for a decision. In all cases RN FPS is to be informed of the decision.

g. Where the CO and the assignment authority are not in agreement, completed reports and recommendations are to be submitted to Deputy Director People Delivery (DDPD) for a decision.

h. Prolonged and permanent shore assignments are subject to a formal written review by RN FPS.

(1) Prolonged shore assignments are to be reviewed at least every three months, with a final review a minimum of three months before the assignment is due to expire.

(2) Permanent shore assignments are subject to formal written review at least every six months, with a final review a minimum of three months before termination date to enable consideration for continuing welfare needs in accordance with DBS transitional protocols.

i. When a significant change of circumstances is reported, or the CO or assignment authority requests that a formal review be undertaken, a written report should be completed by RN FPS within a maximum of 10 working days of the report/request.

2433. Compassionate Discharge

a. The full terms and conditions for Compassionate Discharge are detailed in Chapter 54. In circumstances where a Service Person's presence at home is deemed essential and their home circumstances have become wholly incompatible with a continued Service career as a consequence, an application may be made by the Service Person, through JPA, to the CO, for Compassionate Discharge. Compassionate Discharge must be supported by a Social Inquiry Report (SIR) (SIR to be completed within the timeframes laid down in 2432 para e) with a clear recommendation from RN FPS to the CO. In turn, the CO will forward a recommendation to the assignment authority for a decision.

b. In situations where Compassionate Discharge is not recommended, the CO is to forward the case to Navy Legal Casework Cell. A final decision will be made and the outcome passed to the assignment authority.

SECTION 5 - COMMUNITY ENGAGEMENT

2434. Community and Engagement Team

a. The Community and Engagement Team consists of Digital, Information, and Community Delivery specialists. They are responsible for the promotion and delivery of a programme of proactive and preventative support for service personnel and their families, in order to enable RNFPS to meet our strategic aims. This team is responsible for:

(1) Managing the Royal Navy Forum which is the Royal Navy's official communication channel between units and their families.

(2) Delivering a variety of on-line and virtual community activities, in partnership with other organisations.

(3) Developing volunteers recruited from the local Service community, Serving personnel, veterans, and their families, in partnership with RNRMC.

(4) RN FPS are responsible for managing a programme of Family Support Activities (FSA), local Forces Families Events (FFE) and Deployment Support Events (DSE), facilitating the delivery of play work, delivering Youth Work in their area of operation.

b. This work is based on a three-tier model of service delivery of universal, targeted and open, targeted and closed. This model is delivered primarily through RN FPS Community Development Workers (CDW) and while the range of provision can vary geographically, it is focused upon the key areas in the Community Policy (as detailed in JSP 770 Chapter 3). In addition, facilities are widely used by other community service providers such as Health Visitor clinics, and Scout and Guide Groups. Details of what is available can be accessed via the RN Forum, RN Website or via email: navypeople-psrnfpscom@mod.gov.uk

2435. RN FPS Information Support

a. **Communication and Digital Media.** The Community and Engagement Team manages the Royal Navy Forum, which is the Royal Navy's official communication channel between units and their families, sharing service-related updates, promoting events and activities, and encouraging peer-to-peer support. The team also work closely with a variety of MoD departments and other organisations to ensure engagement and collaborative working where possible. Their main areas of delivery are relocation and deployment support.

b. RN FPS Information Officers and Digital Moderators offer a confidential and accessible information and advice service that will answer questions or signpost customers to appropriate sources of information and guidance. It is a service for families seeking information on most subjects including local communities, relocation, education, housing, employment/training courses, health, wellbeing and travel. The Information Officers collaborate with the RN FPS Portal Deployed Team on deployment support, ensuring units are provided with briefings as well as up-to-date information relevant to deployment. The Digital Moderators manage the RN Forums on behalf of operational units, Training establishments and local RN FPS areas. This service is accessible via email: Information Support[2]:

2436. Royal Navy Forum

a. The Royal Navy Website contains a set of pages specific to Families, enabling them to find specific information to support them whilst they are part of a Royal Navy Family and beyond as a Veteran Family. These pages will provide links into the Royal Navy Forum. The Royal Navy Forum (https://forum.royalnavy.mod.uk) provides a safe and secure environment for families to be informed, involved and in touch with likeminded individuals and their Service Persons Unit.

b. The Topics area provides open-source information on a wide variety of subjects including deployment, education, health and wellbeing, finance, employment, relocation, resources and community support. It also provides space to ask questions and to get involved in Polls and feedback sessions. The Events area contains two calendars, one open source and one specific to members both holding a selection of events and activities.

c. **Members' Area.** The Members' Area provides a Service Person and their friends/relatives membership to a password protected area where they can access ship/unit specific discussion forums. The site is moderated by trained personnel, who monitor content to ensure breaches of security are prevented, whilst also responding to queries or concerns within the online Service Community, and ensure that the service is utilised appropriately.

d. **Units.** Units, especially when deploying, are expected to establish and maintain a unit on-line community in partnership with RN FPS to communicate effectively with families and the wider Naval community. Annex 24G details guidance on establishing and maintaining an on-line community.

[2] navypeople-psrnfpsinfo@mod.gov.uk

2437. Short Term Family Accommodation (STFA)

a. In the base port areas and at some units a limited number of Service Family Accommodation properties are set aside for use as temporary self-catering accommodation, primarily for welfare reasons. The scheme is aimed at enabling Service personnel to utilise their facilities for both themselves and visiting friends or family members, with priority always being given to welfare/compassionate cases. Whilst use of the facilities will incur a cost to the Service Person, which is in excess of standard SFA rates, it will be less than that of privately rented accommodation. Users are liable for damages incurred and other local occupancy rules may apply, such as non-access for pets. For further information, personnel are advised to contact their local RN FPS Information Support or RN FPS Office https://forum.royalnavy.mod.uk/topics/accommodation-and-facilities/short-term-accommodation/.

b. Specialist Welfare staff may seek the utilisation of STFA for welfare/ compassionate cases if no suitable surplus SFA is available (in accordance with JSP 464 Volume 1, Part 2, Chapter 2, Annex C Serial 6 and Annex D Serial 5). Where specialist welfare staff apply for the use of STFA for welfare/compassionate cases, those responsible for the administration of STFA should allocate suitable accommodation where it is available, i.e. it is vacant or being used for lower priority or non-welfare reasons. In all cases the principles set out below will apply:

(1) Any information associated with the application to use STFA will be in accordance with the RN FPS code of confidentiality (see Para 2413).

(2) Following any initial approach, welfare/compassionate case applications will be confirmed in writing.

(3) Those responsible for the administration of STFA will provide written reasons in cases where no STFA is deemed to be available, confirming that there are no vacancies and/or accommodation is not being used for lower priority or non-welfare reasons.

(4) Where there are local criteria for the welfare use of STFA, these will apply where they adhere to these principles, however all applications will be dealt with on a case-by-case basis.

(5) The use of STFA will generally be in accordance with the SFA eligibility criteria set out by JSP 464, however in the case of welfare/compassionate cases a more flexible approach will apply based on the circumstances of each case.

2438. Welfare Funding and Support to the Community

Welfare is provided through a combination of public (core) and non-public (non-core) sources as well as (in the UK) Local Authority provision. Welfare support is separately delivered by a mixture of Service and civilian personnel and organisations. Information on supporting organisations may be found at Section 8 of this Chapter. Other details are contained within JSP 770 Chapter 2, which should be read in conjunction with JSPs 462 and 315 as well as single-Service regulations pertaining to Service Non-public Funds (BRd 18).

a. **Community Funding.** Funding from the Family Welfare Grant (FWG) is used to support families of RN personnel on qualifying deployments, which includes a programme of FWG events independent of deployed units. The respective Units will normally instigate and lead homecomings and other similar events alongside RN FPS staff however, the majority of FWG funding is primarily for events taking place before and during a period of deployment.

b. Building on existing policy, the RNTM 01-056-24 expands on the FWG eligibility and how it works in practice, providing examples of acceptable and unacceptable FWG spending. RN FPS holds the FWG budget however, NAVY PEOPLE-OPS DWP FIN SO3 manages it in practice. A portion of the FWG is ring-fenced for the RN FPS Community Support Fund (CSF), in line with existing policy and financial processes to ensure compliance with Navy Command policy and Corporate Governance. The aim of the CSF is to further support community development work and family activities in between deployment periods. Hd RN FPS provides a monthly report to Hd People Support on both FWG and CSF spend. For FWG / CSF budget requests, please contact:
NAVY PEOPLE-OPS DWP FIN SO3, NAVY PEOPLE-PS RN FPS HQ CL or NAVY PEOPLE-PS RN FPS Hd.

2439. Use of the Defence Estate

a. **Encroachment.** A number of welfare activities that are non-publicly funded operate from public buildings and, therefore, constitute an encroachment. Further guidance on encroachments can be found in JSP 850.

b. **Mixing of Public and Non-Public Funding on the Defence Estate.** Both government accounting regulations and JSP 462 make it clear that the MOD has no delegated powers to incur expenditure of a novel or contentious nature without the prior approval of HM Treasury.

2440. Secondary Duties - ‘Stand Behind’ Policy

Any Service Person engaged, as part of their duties, in Service non-public funds activities in support of unit welfare obligations, will be acting in the course of their employment with MOD or the Armed Forces. As such the MOD is vicariously liable for an individual’s actions in the pursuance of their duty. It is essential that personnel read and fully understand the latest DINs (currently 2017DIN01-042 and 2016DIN01-092) that outline this policy.

SECTION 6 - CASUALTY SUPPORT

2441. Casualty Policy

Casualty policy, reporting and procedures are fully documented in JSP 751 Volume 1 (Management of the Casualty). The Royal Navy NOTICAS Directive is given at Annex 24H.

2442. Visiting Officers

The role and responsibilities of the Visiting Officer (VO) are detailed in JSP 751 Volume 2 Chapter 5 Section 5. In the Royal Navy, the VO role is fulfilled by trained RN FPS staff.

2443. Casualty Visiting Officers

At times of high operational tempo or in a mass casualty scenario a cadre of Casualty Visiting Officers (CVO) will be trained and supported to undertake the VO role and will usually deal with cases that present as less serious or complex. CVOs are primarily drawn from shore establishments, reserve units and rear parties.

2444. Visits by Relatives and Friends to Sick and Injured Personnel in Hospital

Arrangements for visits by relative and friends, including Dangerously Ill Forwarding of Relatives (DILFOR), are detailed in JSP 751 Volume 1 Part 1 Chapter 6. 2009DIN01-095 outlines the accommodation available for family members of Service patients at the Royal Centre for Defence Medicine (RCDM) in Birmingham.

2445. Casualty and Hospital Welfare Support

Primary Welfare support of patients remains the responsibility of the unit. Where there are complex welfare needs, specialist welfare support may be engaged. Serious and complex cases may have a Visiting Officer assigned and guidance of the management of the patient group can be found in JSP 751.

2446. Welfare Assessment

A Welfare Assessment may be undertaken at any time following admission and automatically after being admitted for seven days if an in-patient is considered to have additional needs beyond those of basic primary welfare. Welfare Assessments are to be undertaken by specialist welfare services and a Welfare Co-ordinator will be appointed.

2447. Welfare Co-ordinator

The Welfare Co-ordinator will be appointed to manage the assessed welfare needs of the patient group and is usually part of the chain of command e.g. Recovery Cell staff. If the welfare needs are complex or require specialist input, a worker from RN FPS can be appointed.

SECTION 7 - DECEASED PERSONNEL

2448. Management of the Deceased

JSP 751 Volume 2 (Management of the Deceased) covers the additional procedures to be adopted when death occurs in-service.

2449. Deaths in Ships, Units and Establishments

Initial action to be taken by non-police personnel on discovering an incident involving a death or where death is likely is contained in Annex 24E.

2450. Funeral Officers

a. If a Service Person dies, it is MOD policy to arrange a funeral at public expense or provide funding towards the cost of a private funeral, dependent upon the wishes of the Next of Kin (NoK).

b. Within the Royal Navy, Funeral Officers (FO) are appointed to work closely alongside the NoK, via the VO, to make arrangements for the funeral. FOs are appointed by the Royal Navy Casualty Cell (RNCC) and are drawn from a pool of trained and available personnel from the Naval Bases, larger shore establishments and RM units. FOs should be of CPO/CSgt rank or higher.

c. The FO role requires application of sensitivity as it can be an emotionally charged process. To assist with selection and appointment of FOs, and to avoid potential for being overwhelmed, the following criteria should be taken into account:

(1) Has the FO experienced a recent bereavement?

(2) Does the FO have a close family member or friend with a terminal or life-threatening illness?

(3) Has the FO been involved in a significant traumatic event e.g. serious road traffic incident, an incident involving death or near death, disaster relief?

(4) Does the FO have close family/significant other who is involved in hazardous duties?

d. FO training is co-ordinated and provided by the RNCC.

SECTION 8 - ADVICE AND SUPPORT

2451. Welfare and Charitable Organisations

There are many organisations that may assist Royal Navy personnel and their families – these fall into three broad categories:

a. MOD Agencies and organisations funded by MOD (see Section 9);

b. Organisations not funded by MOD (see Section 10);

c. Charitable organisations (see Chapter 32).

2452. Defence Housing Assessments

a. In the first instance, housing applications and requests to transfer should be referred and supported, where necessary, by primary welfare providers, i.e. Divisional Officers/Regimental system.

b. If there is a clear requirement for Specialist Welfare input and support (e.g. the case is complex), RN FPS can be requested to undertake an assessment of need. If RN FPS's assessment concludes that there is a need, a supporting letter will be produced. This letter will give a clear explanation as to why the application is/is not supported by RN FPS, the anticipated effects on the family and the Service, and the associated risks if the application is not approved by Defence Infrastructure Organisation (DIO).

c. If an applicant(s) states a welfare need and requests specialist welfare intervention, they should be advised that before their request can be supported, a RN FPS case file needs to be opened.

SECTION 9 - ADVICE AND SUPPORT: MOD AGENCIES AND ORGANISATIONS FUNDED BY MOD

2453. Defence Business Services (DBS) Veterans Welfare Service (VWS)

The DBS VWS provides help and advice to veterans and is able to direct them to a range of government and charitable services. It also provides an integrated website and free helpline. The DBS VWS can be contacted via the website on www.gov.uk/government/organisations/veterans-uk.

2454. Hospital Welfare Service

The Hospital Welfare Service (HWS) is currently provided under contract to the Defence Medical Welfare Service (DMWS). The HWS assists commanders with the delivery of Primary Welfare to Service personnel in hospital and their families.

2455. Medical Social Workers

The Defence Medical Rehabilitation Centre (DMRC) Stanford Hall maintains a team of qualified social workers in order to assist injured Service personnel and their families in coping with injuries and, where appropriate, in preparation for discharge on medical grounds.

2456. RN FPS Information Support Office

In addition to the RN FPS Information Support Team network, personnel and their families have full access to Army and RAF HIVEs in Army and RAF locations.

2457. Education Advisory Team (UK)

The Education Advisory Team (UK) (EAT(UK)) is part of Defence Children Services (DCS) and exists to provide information and support to Service families and eligible MOD civilians on all aspects of the education of their children in the UK. The most effective way to contact the EAT (UK) team is via email: RC-DCS-HQ-EAT@mod.gov.uk.

2458. Joint Service Housing Advice Office

The Joint Service Housing Advice Office (JSHAO) (www.gov.uk/government/collections/joint-service-housing-advice-office-jshao) provides Service personnel and their families with information and advice on the increasingly complex range of civilian housing options. The JSHAO provides a focal point for housing information and advice to all Service personnel and their families, in particular for those about to return to civilian life, and to ex-Service personnel who remain in Service Families' Accommodation.

2459. Joining Forces CU

Joining Forces is a credit union service for the Armed Forces. It was launched to tackle problems faced by military personnel who may find themselves with limited access to financial services, leaving them a potential target for high-cost credit providers such as payday lenders and loan sharks. The service, backed by the MOD, makes saving simple and loans more affordable to the Armed Forces and its Veterans. Repayments come straight from your Armed Forces pay making savings and loans more manageable. www.joiningforcescu.co.uk.

SECTION 10 - ADVICE AND SUPPORT: ORGANISATIONS NOT FUNDED BY MOD

2460. The Royal British Legion (RBL)

The RBL provides support to the Armed Forces Community who may need financial support. The RBL website is: https://www.britishlegion.org.uk/get-support/financial-and-employment).

2461. Seafarers' Advice and Information Line (SAIL)

SAIL is an advice service dedicated to all seafarers and their families across the UK. It is run by Greenwich Citizens Advice Bureau on behalf of the Seafarers Hospital Society and is funded in partnership with Seafarers UK and Greenwich Hospital. The website is sailine.org.uk.

2462. Citizen’s Advice Bureau (CAB)

The CAB service helps people resolve their legal, monetary and other problems by providing free information and advice from nearly 3,400 locations across the UK. The website is www.citizensadvice.org.uk.

2463. Relate

Relate offers a wide range of relationship counselling for couples, families and individuals and it supports people through all stages of their relationships and people can access the support individually or with others, face to face, on the phone or on the internet. The website is www.relate.org.uk.

2464. Samaritans

The Samaritans is a national charity with a network of autonomous local branches available 24 hours per day to provide confidential emotional support. The website is www.samaritans.org.

2465. Refuge

Refuge provides help and support to women and children escaping domestic violence. Refuge's network of safe houses provides emergency accommodation for women and children when they are most in need. The website is www.refuge.org.uk.

2466. Royal Navy and Royal Marines Widows’ Association (RNRMWA)

The RNRMWA is a group of volunteers which offers friendship, support and comfort to those bereaved when their spouse/recognised partner was serving in the RN/RM at the time of their death. The website is www.rnrmwidows.org.

2467. Stonewall

Stonewall works with a range of agencies which promote equality and justice for lesbian, gay, bisexual and transgender people in the wider community. The website is www.stonewall.org.uk.

2468. Royal Volunteer Service

The RVS is a large national welfare support organisation operating mainly on a volunteer basis, but with a dedicated full-time Service branch. This branch has a long-standing agreement and commitment to provide trained field officers to major Army units, particularly those with a training role or that are stationed overseas (including Northern Ireland resident units). The field officers, who are selected for their maturity and practical experience, are concerned mainly with single and unaccompanied soldiers. They seek to provide advice, guidance, sympathy and practical support in a variety of ways. Although their approach is essentially non-military, they are part of a unit's establishment and can undertake a variety of tasks on behalf of the CO, which may extend to the provision of small-scale clubs or leisure facilities. The RVS provides the service to the MOD under grant in aid terms. Nevertheless, RVS workers are not MOD employees and therefore have no authority to commit public funds. The website is www.royalvoluntaryservice.org.uk.

ANNEX 24A

WELFARE COMMITTEE AND SHIP'S WELFARE FUND

1. Introduction

This Annex applies to Royal Navy units; the word 'ratings' should be taken to apply also to Royal Marines Other Ranks borne in such units.

2. Object of the Welfare Committee

The object of the Welfare Committee in Royal Navy units is to provide a means for free discussion between officers and ratings of items of general welfare and general amenities within the ship or establishment that lie within the power of decision held by the Commanding Officer of their immediate administrative authority. Further details are as follows:

a. Subjects which the Welfare Committee may discuss include conditions in the ship, boat or establishment, messing arrangements, composition of meals, recreational activities, and any suggestions for the general welfare of the ship's company.

b. Subjects outside the scope of the Welfare Committee are general conditions of the Royal Navy (for example discipline, working hours, pay and allowances, leave scales, etc.) cooking and serving food from the galleys, and questions of primary welfare and amenities not directly connected with the particular ship, submarine or establishment.

c. The Welfare Committee is responsible for the administration of the Welfare Fund.

d. The Welfare Committee is to administer the affairs of the canteen if this is operated on the Service system, and is to investigate any questions and complaints that may arise about process and quality of canteen foods, weights and measures, and the general working of the canteen when it is operated by an outside contractor.

e. Nothing in this article is to interfere with or prejudice the right of an individual rating to put forward suggestions through their Divisional Officer or to affect the responsibility of the Divisional Officer for looking after the interests of those in the Division. See BRd 2 Chapter 18.

3. Formation of the Welfare Committee

a. A Welfare Committee is to be formed in each ship, submarine or establishment with a complement of 50 or more. A Squadron Welfare Committee is to be formed for ships with complements of less than 50.

b. Suitable arrangements are to be made by administrative authorities for other detached ships and small establishments with complements of less than 50.

4. Composition of the Welfare Committee

a. The committee is to consist of officers and ratings as laid down in BRd 9600 (Ships General Orders) Ch 7 Art 0702

b. Matters concerning the ship's canteen may be delegated to a small sub-committee appointed by the Welfare Committee from its members, but when this is the case the sub-committee is to include the Logistics Officer, or their representative, and another officer.

c. The detailed composition of the Welfare Committee is left to the discretion of the Commanding Officer, subject to the following general principles:

(1) Representation should normally be by messes. Where this is not practicable, it should be by branches and or messes, or in shore establishments by any groups into which the establishment can most effectively be divided for the purpose of representation.

(2) Every rating borne must be able to vote for a representative, but no rating can vote for the representative of a division, mess branch or group other than their own.

5. Secretary of the Welfare Committee

A suitable rating is to be selected by the Welfare Committee to act as the secretary of the Welfare Committee. The secretary may be paid for their services from the Welfare Fund. The secretary is to be responsible to the Chair of the Welfare Committee for all aspects of their duties which include:

a. Collection of agenda items for Welfare Committee meetings.

b. Preparation of the agenda for approval by the Chair.

c. Circulation of the approved agenda to all representatives well before each meeting.

d. Recording the minutes of each meeting and exhibiting copies on noticeboards.

e. Maintaining records of any decision taken out of Committee. These should normally be kept for at least 2 years.

f. Maintaining records of all Welfare Committee meetings.

g. Taking actions as directed by the Chair of the Welfare Committee to implement decisions of the Committee.

6. Election of Representatives

a. When the composition of the Welfare Committee has been decided, a notice is to be exhibited showing the divisions, branches, messes or groups for each of which a representative is to be elected. Any rating in the ship's company or unit may then offer to stand for election to represent their division, branch, mess or group, and should submit their name to the nominated Returning Officer within 4 days of the notice appearing. It will also be open to each division, etc., to nominate a representative or representatives for election, subject to acceptance of nomination by the person concerned. The names of all candidates put forward are to be published on noticeboards for a period of 10 days before the date of the election, with any instruction that any candidate who has offered themselves or has been nominated for election but whose name is not on the list should immediately report to the nominated Returning Officer.

b. At close of nominations, if there is more than one candidate for a representative group then ballot papers are to be prepared for each of those voting groups showing the names of candidates for election. The ballot is to be run on the 'first past the post' principle, with the person receiving the most votes being elected. The paper must not be marked in such a way that the voter can afterwards be identified. For representative groups with only one nominated candidate, the nominated Returning Officer is to declare an uncontested election.

c. The ballot is to take place as required. The arrangements for recording the votes are to provide that the ballot is secret and takes place immediately after issue of the ballot paper and that no person can return more than one voting paper. Voting by proxy on behalf of personnel sick or on leave cannot be permitted.

d. The subsequent sorting and counting of votes is to be carried out in the presence of an officer and representative ratings. The results, including the names of any uncontested election, should be published on noticeboards as soon as possible thereafter.

e. Vacancies in the Committee are to be filled as they occur by means of by-elections. The tenure of a Welfare Committee representative should be no more than 24 months before being required to seek re-election. In seeking re-election, nominations are to be opened as detailed at para 6.a above. Commanding Officers may call for the re-election of the whole Committee if the conditions under which the ship is serving has or is planned to change, eg. entering or leaving refit. In newly commissioned ships, however, a fresh ballot should be held after the ship has been three to six months in commission. A by-election will be necessary when any elected member of the Committee leaves the ship for any reason for more than 28 days (except on leave). Ratings sentenced to imprisonment or detention are to be removed from the Committee and their places filled by elections; those disrated for misconduct or reverted for unsuitability should be removed but not barred from re-election at the consequent by-election; those awarded a Service Supervision Order should be removed from the Committee and be ineligible for election until expiry of the Service Supervision Order.

f. In training establishments, to avoid the need for frequent by-elections, each class of trainees is to be represented by its class leader, provided that the courses are of sufficient duration; if not, the representation should be by suitable instructors.

g. A special organisation will be necessary for carrying out elections in ships with complements of less than 50, but it should as far as possible follow the principles laid down above and should be approved by the administrative authority.

7. Special Arrangements for Large Shore Establishments

At large shore establishments, including training establishments, where conditions differ considerably from those in other establishments and in ships, such arrangements for the composition of the Welfare Committee and the election of representatives are to be made as best suit the particular conditions. The arrangements should follow those for ships as far as possible and should not conflict with the general principles in these regulations without prior approval from Navy Command HQ.

8. Meetings of the Welfare Committee

a. Meetings of the Welfare Committee are to be held as required, but not less frequently than once every two months. Notice of subjects which it is proposed to raise at the next meeting should be given to the secretary, and an agenda should be circulated to committee members beforehand. Before circulation, the agenda must be approved by the Chair to ensure that the subjects for discussion are within the terms of reference of the Committee. Committee members will be expected to ascertain the views of the ratings they represent.

b. The Chair may arrange for the co-option of Divisional or other officers and ratings, when specific questions, in the discussion of which their experience would be of use, arise. The Canteen Manager may be invited to attend when the agenda includes items concerning the canteen.

c. No officers on the Committee are eligible to vote at the meetings.

d. Minutes of the meetings are to be kept for record, and copies are to be exhibited on noticeboards.

9. Welfare Fund

a. **Administration.** Administrative arrangements for the management of the Ship's Welfare Fund are contained in BRd 2 The Queen's Regulations for the Royal Navy Chapter 80 and BR 18 Accounting Instructions for Service Funds.

b. **Trusteeship.**

(1) Trusteeship of the Welfare Fund of the ship, submarine or establishment rests with the Commanding Officer, who has a duty to veto any proposed expenditure which seems to them subversive of discipline, contrary to the law relating to charities, or otherwise improper. The circumstances in which such a veto is exercised are to be reported by the Commanding Officer to their administrative authority.

(2) The Commanding Officer is to pay due regard to the proportion of the ship's company who are able to take part in any particular form of recreation that may be the subject of assistance from the fund. In all other respects, subject only to the responsibilities of the Commanding Officer as trustee, the Welfare Committee is to have full discretion as regards expenditure.

(3) In judging whether disbursements are a proper charge to the fund it should be noted that, although the word 'efficiency' has in the context of Service administration acquired a limited meaning, in the charitable context it should be interpreted in the widest sense and taken to mean efficiency of the Service as an entity. It thus embraces measures to maintain or improve morale of members of the Royal Navy.

c. **Audit.** The accounts of the ship's Welfare Fund at are to be kept and audited in accordance with the instructions in BRd 2 The Queen's Regulations for the Royal Navy Chapter 80.

d. **Disposal of the Fund on the Loss of Ship/Boat.** On the total loss of a ship/submarine, any balance in the ship's Welfare Fund is to be transferred to the Royal Navy and Royal Marines Charity.

ANNEX 24B

N1 FORUMS[1] AND UNIT CASE CONFERENCES WITHIN THE ROYAL NAVY

References:

A. BRd 439 Chaplain's Handbook.
B. BRd 1991 Instructions for the Royal Naval Medical Service.
C. RN FPS Confidentiality Code (see Para 2413).

1. Introduction

a. This annex provides direction on the implementation across all Commands of the N1 Forum (N1F) and Unit Case Conferences (UCC), which are subordinate to Case Conferences held by the Recovery and Resilience Margins HQ (RRM HQ) and the Unit Carers Conferences held by Royal Navy People and Family Support (RN FPS), yet should be considered mutually supportive.

b. It also provides guidance and standardisation to Commands for the conduct of N1F and UCC. The N1F and UCC are formal settings adhering to confidentiality practices, within which the agencies supporting the Executive Organisation (RN PFS, Med, Chaplaincy, etc.) are brought together by the Executive, in order to assist the Divisional and Regimental System (Divisional Officer (DO) and Troop Commander (TC)), but primarily to support our Service Personnel (SP) and families.

2. Background

a. N1F and UCC already function across the RN providing support from Phase 1 throughout a SPs career. The agencies supporting the Executive organisation enable the coordination of appropriate care and support, ensuring it is delivered at the right time, when a SP or their family needs help, ensuring that the best interests of the individual, their family and the Service are considered in order to maximise Operational Outputs.

b. The N1F is a formal setting for the Command, Divisional and Regimental Staff to discuss within a forum and with other Caring Professionals, the SP and families. Discussing matters that may be causing concern, placing personnel at risk to themselves or others, recognising symptoms and addressing matters before the need to escalate to other agencies, requiring the removal of the individual from their place of work. General concerns regarding wellbeing that may have been highlighted to the Command may also be discussed. The N1F, may, with the guidance of RRM HQ and RN FPS (Professional Agencies (PA)), wish to add the individual to the Risk Register (RR) or Vulnerable Risk Management Information System (VRMIS) where utilised.

[1] Although “Fora” is the grammatically correct plural of “Forum”, the more readable and widely understood “Forums” is accepted throughout this Annex.

c. The UCC is a formal setting which may be requested at any time by the Command, the DO, TC or any concerned party. It is chaired by the DO or TC with the Executive (Executive Officer (XO), Executive Warrant Officer (EWO)/Base Warrant Officer (BWO)/Coxswain (COX) or Regimental Sergeant Major (RSM)) assistance and brings together professionals that may support and assist the SP, their family and the DO/TC. If the Executive deem any SP to be at risk, this individual should be referred to the appropriate PA agency where consultation may take place, with the possible inclusion on the RR.

3. Organisation

a. The N1F and UCC are administered by the XO, EWO, BWO, COX, RSM and SO2/3 Logs on behalf of the Commanding Officer (CO). These individuals are to ensure that N1F are held regularly, dependant on the size, structure and function of the group or element, but no less than once per month and no greater than weekly, with UCCs being held as required, with the appropriate individuals in support listed below (Not all individuals may be available or required, particularly in ships and submarines):

(1) XO/2i/c.

(2) EWO/BWO/COX/RSM.

(3) DO/TC.

(4) Departmental Co-ordinator/Troop Sergeant (If required for employment restrictions, etc).

(5) Legal.

(6) Service Police.

(7) Medical[2].

(8) Chaplaincy[3].

(9) Royal Navy People & Family Support (RN FPS).

(10) Any other supporting agency thought necessary (e.g. Career Manager).

b. Within Naval Bases (NB), RM Units and large Shore Establishments (SE) the Executive may wish to delegate the N1F and UCC to Heads of Department (HOD), Training Groups (TG) and Lodger Units (LU), with an approved nominated Officer of SO2 or above to chair the N1F or UCC when required, within each TG/LU, drawing upon the resource of departments as required. The CO and Executive are to be made fully aware and, if necessary, verbally briefed on any SP required to be discussed at an Executive N1F or UCC and immediately upon recommendation to be included on the RR/VRMIS.

[2] BRd 1991 Instructions for the Royal Naval Medical Service.
[3] BRd 439 Chaplain's Handbook.

c. Smaller SE, Ships, SM and Units should centrally manage N1F and UCC within the Executive organisation including external professionals that may be available, if possible, using technology to ensure the most complete picture is compiled and the most comprehensive support may be made available.

d. NBs and large SEs will convene an Executive N1F to discuss individuals or issues raised at the individual Group N1Fs that require Command attention (Phase 1 and 2[4] Elements will report directly to the CO). The purpose of the Executive N1F is to raise awareness of, and where possible resolve issues that cannot be addressed at TG/LU level. This forum will be attended as directed by the Executive and the TGs/LUs Divisional Staff.

e. Personnel Support Groups, Recovery Troops and RNRC Haslar exceptionally hold their own N1F and UCC given the numbers of personnel within their organisations ensuring that concerns are shared with the Executive and included on VRMIS as required. Where necessary cases may be discussed at the Executive N1F.

f. Attendance to support a N1F or CC is to be given the highest priority by all concerned.

4. Confidentiality[5] [6] [7]

Appropriate confidentiality practices must be observed and guidance in support of the Executive and DO/TC should be briefed at each N1F and UCC.

5. N1 Register[8]

a. The N1 Register is a detailed diary of events, actions taken, recommendations and the category of risk, which may inform the RR/VRMIS. The N1F E-register is an Official Sensitive – Personal document and is to be maintained iaw the Data Protection Act 2018. Information from the N1 Register is only to be disclosed to those personnel on a ‘need to know Basis' determined at the N1 monthly brief with the CO or to those desired by the CO in the course of their duties. The N1 Register is held and maintained by SO Logs and briefed regularly to the Command.

b. The N1 Register will be reviewed at the N1F and any actions arising briefed for action by the DO and/or the individual. No cases will be removed from the register without the Command considering any new information pertinent to the case. Careful consideration must be made on the requirements to inform other units if it is deemed necessary for any individual to remain on the RR/VRMIS or within the N1F construct, when assigned.

[4] JSP 822 Part 1(Defence Direction and Guidance for Training and Education)
[5] JSP 950 Part 1 (Medical Policy) Defence Medical Services Caldicott Policy, Lft 1-2-15 (V1.2) Sep 16
[6] BRd 3(1), Naval Personnel Management, Ch 24 Welfare, Para 2413 Royal Navy and Family People Support Confidentiality Code
[7] RNGC1 02/104 (RN FPS Confidentiality Code)
[8] BRd 3(1), Naval Personnel Management, Chapter 24, Appendix 1 to Annex 24C (Management of Care Arrangements for Service Personnel 'At Risk' and Sensitive Case Reaction Team (SCART))

c. The N1 Register has two categories, A and B. These provide guidance on the delivery of Care and Welfare (C&W) (Executive, Medical, and Chaplaincy, etc.) and the level of support required:

(1) **Category A Cases.** Individuals who are considered highly vulnerable and are likely to require close and frequent supervision.

(2) **Category B Cases.** Individuals considered to be at an increased level of vulnerability and are likely to require routine and regular access to sources of assistance outside the Divisional system.

6. Management of Meetings

a. The Executive or TG/LU representative will be responsible for the creation of an agenda, records and must also provide actions (a plan) for each DO/TC regarding everyone discussed. UCC will be administered by the DO ensuring outcomes are recorded and comply with paras 4 and 5. The format may be created locally to suit the needs of the user; however, the Executive may wish to produce their preferred agenda.

b. The agenda may include, but is not limited to:

(1) Introduction and Apologies.

(2) Actions Review.

(3) Service Discipline (to include Minor Administrative Action).

(4) Civil Offences.

(5) Service Complaints/Representations.

(6) Warnings.

(7) Medical (Wounded, Injured and Sick (WIS), medically non-deployable, RNMBOS, Joint Medical Employment Standards).

(8) Recovery Plan.

(9) Review Risk Register/VRMIS.

(10) Review Actions.

7. Conclusion

The N1F and UCC construct provides an opportunity to exchange information about personnel assessed to be vulnerable, in a confidential environment, and by so doing so determines a course of action to reduce the risk to the SP or others and provides the DO/TC with the best means to assist individuals within their division. It is an important tool to assist in the delivery of support to our people as well as the maintenance of morale and discipline. It does not seek to replace the Divisional System, rather it augments it.

ANNEX 24C

MANAGEMENT OF CARE ARRANGEMENTS FOR SERVICE PERSONNEL 'AT RISK' AND SENSITIVE CASE ADVICE REACTION TEAM (SCART)

SECTION 1 - SERVICE PERSONNEL 'AT RISK'

1. Introduction

a. Concern has been expressed over the management of Service personnel who may be 'At Risk' of suicide or serious self-harm. This has recently been brought into sharp focus with incidents of suicide following periods of heavy strain and stress in professional or personal life, brought about by, for example, investigations related to serious offences and incidents leading to intense media scrutiny. In particular convictions for commission of sexual offences, whether it be for rape or indecent assault or, perhaps slightly more commonly, the downloading of pornographic images of children, generally meet with a degree of opprobrium within society unmatched by the commission of almost any other category of offence. It follows that those under suspicion for such offences, or having been charged and due to attend for trial, meet with considerable and immediate unpopularity, resistance or even outright hostility. Notwithstanding that everyone deserves the right to be treated as an innocent person until conviction and punishment, the same is probably as true within the Service as in general society. Indeed, experience shows that allegations of a sexual nature upon Royal Navy personnel evoke very strong feelings and hostile behaviours and such situations are invariably challenging for those in command.

b. The guidance in this annex is confined to the management of Service Personnel, addressing issues such as retention, employment, deployability, welfare, medical and legal support. Whilst this Annex deals with the actual or alleged sex offender, it should not be inferred that victims of sex offences are unimportant and not in need of care and support. When apprised of the fact that a Service Person is suspected of having committed a sexual offence, or been charged or convicted, it is essential that a clear-headed approach be taken to the management of the issue so that each of the facets of the case is addressed appropriately. The purpose of this section is to alert those in the Command chain to the relevant actions required and to provide for a continuum of care and responsibility for all downstream activity. At an appropriate stage the Service will rightly wish to take a view on administrative action and the employability aspects of the case. However, at the earlier stages, it is the care of the suspect (particularly their mental wellbeing) and the notification of relevant authorities that will be uppermost in the catalogue of actions. There is plenty of good, sound advice available although it must be stated that the actual incidence of sexual offences is not proportionate to the numbers perceived by some people and the numbers of cases with which the RN has to deal is small. It follows that the relevant experience and expertise is vested in a small number of people and it is vital that they are engaged at an early stage. The advice which follows is designed to explain the steps to be followed before drawing on the well of experience.

c. Good advice to COs on dealing with Deliberate Self Harm (DSH) (whether committed or anticipated) is contained in Annex 24D, including details of sources of advice and support with full contact numbers. Advice on the management of those suspected, charged or convicted of having committed sexual offences is contained in Chapter 20.

d. A protocol (Home Office Circular) exists to inform NPM (Eastern) of Service personnel who are arrested by the civil police for a recordable offence. Civil, MOD and Service police have guidelines on when the chain of command should be informed of serious cases and what level of information will be disclosed. The CO will normally be informed prior to and post any formal investigation or charging of an individual; this will usually be through the local NPM. Regrettably this does not happen in every case and COs must therefore be prepared to react quickly and call in expert advice as soon as they become aware of a serious case building.

2. Initial Considerations

COs must look carefully at the complexity of the case and the ability of their team to deal with it or whether a compassionate appointment/draft or formal managed move ashore to be near professional support is more appropriate. In instances where allegations relating to the safeguarding of children have been made, the risk that the individual may pose to other children/young people needs to be taken into account. The CO may well not be best placed geographically to undertake the task of providing care; for example, the ship may be deployed, or the individuals concerned may be disembarked and displaced from the onboard team, especially the DO and Chaplains. Equally the CO (especially in a minor war vessel), by virtue of their limited training and experience, may well not be the right person to convene the case conference. In all cases, however, the CO must ensure that an appropriate level of care is provided and that a formal handover of responsibility takes place between authorities to ensure an individual is not 'lost'.

3. Case Conference

a. Having determined that an individual is seriously 'at risk' and that the case is within the capability of his team to deal with, the CO should convene a case conference to set in train a system of support for the individual. If the case is beyond local capability, the CO should commence the appropriate actions, through the Chain of Command, to land the individual under the care and support of the team of professionals and experts ashore under the local NBC/Captain of the Base. The case conference should consist of the unit XO, Medical Officer, individual's Divisional Officer, RN FPS and Chaplaincy, the appropriate Carer Case Conference team ashore or the Sensitive Case Advice and Reaction Team. This group will form a rapid reaction team to provide support and assistance to the individual. In the case of an individual 'at risk' because of serious charges, the case conference team should not hesitate to seek legal and welfare advice as a contribution to the management decisions they propose to make. The initial action for the case conference will be to assess the level of supervision required for the individual in order to minimise the risk of DSH/suicide. The agenda for the case conference should include discussion on the level of information given to the unit's personnel and, if necessary and strictly in consultation with HQ Corporate Communications staff, the media. It is absolutely essential that confidentiality be maintained both to minimise the triggers that may cause the individual to self-harm or attempt suicide and to prevent any prejudice to the investigation.

Those at risk may be reassured by being included in case conferences as this gives them a degree of control over their lives, so their inclusion may be considered. However, given the information being shared within the SCART that may cause additional distress, this option should be considered carefully.

b. The case conference should nominate one of its members (taking into account experience and training) to provide advice and reassurance to the individual and to provide assistance with the welfare needs of the individual and their family. Contact must initially be maintained on a very regular basis, preferably daily and face to face. This should take place where the subject is most comfortable and must consider the importance of maintaining confidentiality. It is very important to maintain this confidentiality, particularly within the individual's unit, to prevent any adverse reaction from other members of the Ship's Company. Consideration may be given to using a 'buddy' (messmate or other contemporary) but thought will then be required for their care and counsel, particularly if the individual at risk does then go on to carry out some form of DSH or suicide.

c. The case conference should also consider whether specialised medical assessment or intervention is required to initiate a referral (particularly psychiatric) for a change in MEDCAT and if protective supervision is required. It should also take a view on the individual's suitability to continue working, particularly if employed in a critical safety area, have access to firearms or undertake duties involving children.

d. Where allegations relating to the safeguarding of children have been made, consideration must be given at the initial planning meeting to referral to the Local Authority (if not already done) and the subsequent need to take account of any child protection plans when making provision for the individual. RN FPS will take the lead in coordinating and advising on this link to the local Safeguarding children procedures.

4. Involvement with the Family of the Individual 'At Risk'

a. Consideration must also be given to the involvement of RN FPS on occasions where the facts surrounding the case may impact on the family of the individual. If for some reason RN FPS are not available in the first instance, then consideration should be given in the most urgent of cases to the seeking of initial advice from other welfare agencies such as Army Welfare Service, RAF Community Support, Confidential Support Line[1], Community Mental Health Teams and Social Services. When involving other agencies, due consideration needs to be given to the level of disclosure; it will generally not be appropriate or necessary to reveal full details of the investigation. The decision on how much to reveal should normally be made in consultation with the individual.

b. Where the trigger is a serious offence, the involvement of an individual's family in the case will vary according to the type of offence, but may range from involvement as a co-suspect, a victim, a witness or just as a family member. No matter what level of involvement it should be remembered that the cohesion of the family unit and their continued support for the accused cannot be taken for granted.

[1] Confidential Support line may be contacted on 9380 26282 or 0800 7314880, The Army Welfare Services on 94331 2461 or 01722 4362461 and RAF Community Support on 95221 6584 or 01494 496584.

c. Before an approach is made to the family, confirmation must be obtained from the individual with respect to how much information is divulged and that they have been informed of the circumstances of the investigation. Again, confidentiality issues must be carefully protected.

5. Diary of Events

The Chair of the case conference is to ensure that a detailed diary of events, including details of interviews, actions taken and full justification for any disclosure of the facts of the case to third parties such as welfare agencies, is maintained. The diary of events is to be kept secure in accordance with the Data Protection Act and only disclosed to those with an absolute need to be made aware of the facts. In the longer term, there will be a requirement for care to continue after the case has been resolved (one way or other) as there will undoubtedly be lasting effects from the process – especially on someone found to be innocent.

6. Administration Algorithm

An algorithm to support this advice is at Appendix 1 to this Annex.

SECTION 2 - SENSITIVE CASE ADVICE AND REACTION TEAM (SCART) CONCEPT OF OPERATIONS

7. Introduction

There are an increasing number of criminal investigations and situations of a personal nature that have the potential to leave the individual and, on occasions, their family, in difficult, exposed and potentially life threatening situations. Acts of Deliberate Self Harm (DSH) up to and including suicide cannot be ruled out in these cases. It is impossible to define the exact situations which might result in these more drastic actions, but they tend to be those where the fear of spreading knowledge, reaction and the negative impact upon the individual's worth, credibility and standing in the community become too much to contemplate. Examples of this are (but not limited to) are the Operation ORE and SIRDAR[2] cases, sexual abuse, security issues and situations where death is already involved.

8. Responsibility of Command

This Annex and other Chapters of BRd 3(1) provide those in command and line managers at all levels with the necessary guidance to ensure that welfare support and care responsibilities can be identified and applied to those who are the subject of investigations of a sensitive nature or are experiencing a delicate personal situation where they may find it difficult to cope with the additional stresses and strains this may bring. In these circumstances, the requirement to implement an enhanced, robust and, (in cases where assistance is neither sought nor welcome) pro-active range of care and support might not be immediately obvious to those charged with this responsibility and external advice and (where exceptionally necessary) assistance might be required.

9. Assistance

Whilst personnel serving under naval command and line management should benefit from the established guidance and procedures, those outside naval line management might not receive a similar degree of enhanced care and support and may therefore be at greater risk should they become the subject of a sensitive investigation or suffer personal difficulty of a sensitive nature. To address such situations and to provide the necessary advice and assistance, a Sensitive Case Advice and Reaction Team (SCART) should be established by unit Chain of Command . The SCART is a very lean and tightly controlled organisation, comprising those few who get to know, need to know and who can provide the necessary professional guidance. The SCART can access a wider pool of expertise as and when necessary but on a strictly controlled basis. The primary purpose of the SCART is to reinforce the ability of the command and line management to manage these situations correctly using the services of professional local resources (such as RN FPS, Chaplaincy, medical teams) wherever possible. When necessary, the SCART will exercise full command of naval personnel.

[2] Investigations related to Internet Child Pornography and protected by the use of a Home Office codeword.

10. Procedure

When one of its members becomes aware of a relevant sensitive situation or investigation, or is made aware by a command or line management of a situation where advice and/or support is required, the SCART may be convened and a Case Conference called to review all known factors and actions in place and to decide on further actions that might be necessary.

11. Responsibility of the Individual

As required by BRd 2 (QRRN) Chapter 39 Article 3902, it is the responsibility of serving personnel to bring cases of a criminal nature in which they are being investigated to the attention of their command/line management when they occur. It is also the responsibility of the command to ensure that relevant details are forwarded to the individual's next command should appointing/drafting take effect. The divisional system should also be reactive to sensitive issues impacting upon members of that division. Therefore, there is a process already in place to capture, at an early stage, situations with the potential to meet the criteria of this CONOPS. However, there are situations, which originate outside of Service control, particularly those relating to internet child pornography or (as more frequently defined) 'computer misuse'. On these occasions the Service may only be informed about an investigation at the very last minute and in the strictest confidence. Support to an individual is critical, particularly so from the outset when all the concerns outlined at para 1 become apparent. The SCART has an active role in these cases and will provide the necessary support and advice.

12. Confidentiality

The Armed Forces are no different to the rest of society and gossip spreads quickly. Knowledge is power, and people want to know even if they have no need to. Restricting the spread of knowledge is vital to maintaining an individual's safety and well-being in these situations. Information should be strictly controlled and only provided on a need to know basis. Unless the activity occurred in a public place and is already public knowledge, then the control of information must be exercised from the very outset with covering instructions about sensitivity and handling provided. Information received by the SCART will be on a controlled and recorded basis, as will information issued by the SCART. However, external information leaks, speculation and rumour will inevitably occur, especially if the sensitive nature of a situation is not fully appreciated in the first instance. On these occasions the SCART will reinforce the requirement for confidentiality and provide any necessary advice to ameliorate the situation.

13. Control

a. Access to information connected with sensitive personnel investigations is controlled through the use of a formal arrangement which allows for 3 levels of access prefixed by the descriptor 'SCART'. The fact that some personnel information is controlled by the SCART process is not in itself controlled information as those in the chain of command will need to be aware that such a process exists and may need to implement Level 3 control in their ships or establishments for incidents/situations involving personnel under their command. The levels of access permitted are:

(1) **SCART Level 1.** For members of the SCART who will be exposed to a wide range of sensitive personnel information and/or investigations on a regular basis.

(2) **SCART Level 2.** For senior personnel within the command chain who from time to time might need to be briefed on specific cases that could have a significant impact on the reputation of the Service.

(3) **SCART Level 3.** For all others within the command chain, line management, or others who have become aware or may need to know, and therefore need to be informed, of a case involving sensitive information concerning an individual.

b. Should it be necessary to involve in discussions an individual who had hitherto been unsighted on the facts of the case, then the discussions are to be prefixed with the statement that 'this is SCART information' and the individual is to be made aware that they are being provided with controlled information. It is the responsibility of every individual involved in the management of such cases to ensure that information pertinent to the case is only divulged to people who have been briefed as to its controlled nature, and the need to ensure that it is not passed to anyone who does not share a specific 'need to know'.

c. Those given access to SCART information at Level 1 and Level 2 will be required to sign a statement of confidentiality a copy of which is at Appendix 2. In some circumstances it will also be appropriate and necessary for those given one-off access to SCART information at Level 3 to sign a document recording the fact that they have been made aware of its controlled nature.

14. Accountability

A SCART formed as part of the unit Chain of Command responsibility should be Chaired by the CO or the Appropriate Superior Authority (ASA) for the serving person for whom the risk is being assess and monitored. The SCART is accountable to Dir P&T via the Deputy Director People Delivery (DDPD) who will draw the Director's attention to all new cases as they arise. No other senior officers will be briefed as a matter of routine; Dir P&T will determine when and if such briefing is appropriate.

15. Membership

a. The SCART comprises:

CO or Appropriate Superior Authority (ASA) for the serving person (SP)
Line Manager for the SP
Discipline (Optional)
Medical Advisor (Optional)
Chaplaincy Advisor (Optional)
RN FPS Caseworker (Optional)
NC PSYA - Principal Security Adviser (Optional)
3w

b. To enable full functionality and provide coherent advice across a wide spectrum of customer bases and situations, additional staff officers are aware of the role of the SCART and will be co-opted into the SCART as necessary. Those aware of SCART functionality are:

NA (for OF5 and above)
DDPD
RN FPS HQ SO1 Casework
DGNCS PP&O
DNLS Law 3
DCGRM

c. Additionally, the services of the Consultant Adviser in Psychiatry at Sunny Walk, HM Naval Base Portsmouth may be utilised.

16. Meeting

In addition to the ad hoc occasions detailed at para 17, the SCART will meet monthly to review extant cases.

17. Execution

The SCART has been established to:

a. Ensure that individuals in potential stressful situations through sensitive investigation or delicate personal circumstances are known about and monitored by the appropriate divisional/care agencies.

b. Ensure that all relevant information in sensitive personnel situations is managed, controlled and appropriately shared.

c. Monitor sensitive personnel investigations and situations within the Naval Command and provide assistance to Commanding Officers or line management as appropriate.

d. Ensure that single Service specialist welfare support is provided, and an appropriate level of care is discharged in the case of naval personnel outside naval line management who are the subject of sensitive investigations and personal situations.

e. Ensure that, wherever possible, all appropriate care responsibilities are taken/implemented.

18. Limitations

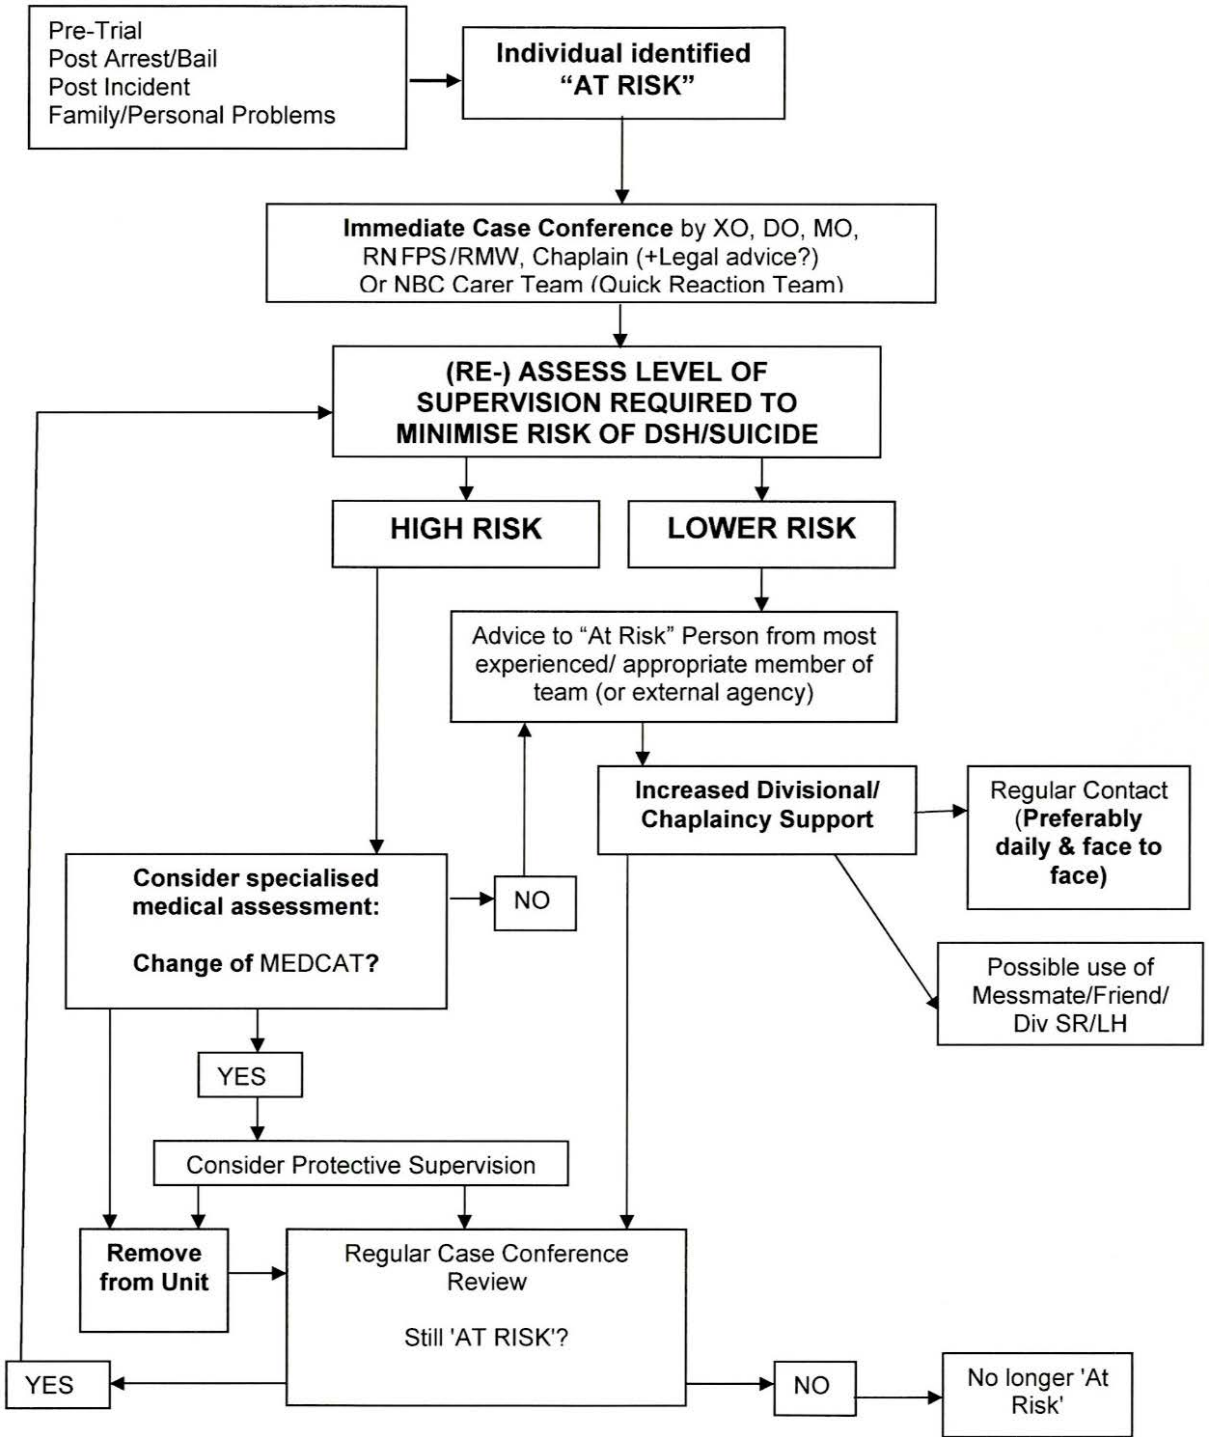
Despite the best intentions of this CONOPS, the SCART cannot assume responsibility for situations it is not aware of nor is it established to replace the command/line management's responsibilities in these matters. It is inevitable that there will be cases, for a variety of reasons, which fall through the net entirely and it should also be clear that DSH and suicide will occur if the individual is determined to follow that path. Similarly, whilst every effort will be taken to apply, observe and impose confidentiality, the reality is that leaks will occur, no matter how diligent the SCART and others may be.

19. Contact

Any member of the SCART may be contacted as necessary. RN FPS SO1 Casework, the RN Advisor to SCART and a registered social worker, can be contacted on navypeople-psrnfpshq@mod.gov.uk for further advice and guidance.

APPENDIX 1 TO ANNEX 24C

PERSONNEL 'AT RISK' ADMINISTRATION ALGORITHM



APPENDIX 2 TO ANNEX 24C

SCART INDOCTRINATION FORM

1. I ..... understand that the information I have been exposed to in respect of events or situations

regarding[1]
.....
..... is of a sensitive, personal nature that is governed by the SCART CONOPS and is not to be revealed to anyone else (irrespective of rank or appointment) without the express permission of one of the core SCART members (DDPD, NAVY PSYA, RN FPS, HQ SO1 Casework).

2. If such revelation is approved, I will ensure that the recipient of the information is similarly briefed and will facilitate their signing of a SCART indoctrination form.

Signed:

Date: .....

Completed forms are to be posted to:

Tel: 0300 1688421

[1] Insert subject person's name.

ANNEX 24D

DELIBERATE SELF HARM (DSH) AND SUICIDE

1. Background

Deliberate Self Harm is a non-fatal act of intentional self-harm irrespective of the apparent purpose. The Service has a direct duty of care to correctly manage personnel who present with actual or threatened DSH, and the considerable stigma associated with these actions must be overcome, although this can be challenging in areas with a low tolerance for such actions. This annex contains guidance for those to whom these cases present which include the Executive, Medical Service, Chaplaincy and RN FPS. The aims of this guidance are as follows:

a. To ensure that individuals presenting with DSH receive the appropriate management of their physical and mental health, in line with best practice and National Institute of Clinical Excellence guidelines.

b. To maintain the good order, morale and operational effectiveness of the unit and, ultimately, the Service.

c. To ensure that DSH and suicide cases are appropriately investigated, recorded and acted upon, and lessons learned for the future.

2. Introduction

a. Both actual and threatened self-harm are typically a communication of distress and need. Individuals can, however, have serious suicidal intent. The identification and management of individuals who commit acts of DSH is therefore critical, and these individuals are significantly more likely to commit suicide within the following year than the general population. Acts of DSH generally fall within one the following categories:

(1) **To Communicate a State of Distress to Others.** Adult life can at times cause heightened psychological distress; common causes include difficulties with relationships, family or employment. It is normal to want to communicate this with others, however the mechanism through which some do this is either actual or threatened DSH.

(2) **Physical Release for Emotional Distress or Tension.** DSH may be a mechanism of release from distress for an individual. This can be a learned behaviour and is usually associated with a degree of personality dysfunction. Some of these acts of DSH will be concealed and not come to light through routine interactions, for example through superficial cutting on skin usually covered by uniform. This pattern of DSH is less common in the RN.

(3) **To Complete Suicide.** Acts presenting as DSH may have been serious attempts to commit suicide, which may have been either unsuccessful or the act was thwarted.

(4) **To Influence People or Events to Avert Undesired Outcomes.** At times DSH, and particularly threats of future DSH, can be used to influence events and alter an outcome for the individual. This functions by raising the concern and anxiety in someone who has power and influence within a situation. This can be commonly seen with relationship and family discord. In the RN, threats of DSH may be used to avert unwanted Service obligations which the individual feels unable to tolerate emotionally, and these presentations can be particularly challenging to manage.

b. Common mechanisms of DSH include skin laceration and poisoning by overdosing on medication. More violent methods such as hanging and jumping from a height are more significant in determining suicidal intent, but are less frequent presentations.

c. It is important to note that DSH can occur in the presence or absence of a distinct mental illness.

d. Individuals who present with DSH should be treated with the same care, respect and privacy as any patient. Those involved in the management should take full account of the likely distress associated with such presentations. It is acknowledged that presentations of DSH can be challenging to manage, particularly in the operational environment, and a tolerant and compassionate attitude may be required to overcome this.

3. Initial Management Following DSH Event

a. When an act of DSH occurs, medical assistance should be sought immediately. The need may be readily apparent, but in cases of self-poisoning the individual may seem completely well but have ingested a potentially life-threatening substance. Depending on circumstance this may be through the Medical Officer/Medical Branch Rating, or Duty First Aider as appropriate. Civil emergency services may be required, and this should not be delayed if it is apparent that an individual's life is in danger.

b. After any immediate physical health needs have been met, the Medical Officer/Medical Branch Rating will need to complete a full mental health risk assessment, to inform the ongoing management. Appendix 1 to this Annex details the requirements for medical professionals and provides a comprehensive guide to the risk assessment process.

c. Prior to, and during, this mental health assessment it will be necessary to manage the individual in a safe environment. The nature of a safe environment can range from the supervision of an appropriately responsible person, through to containment under constant supervision. Typically, this will be in the Medical Centre or accommodation area, however the context may further dictate this. Detention in custody may ultimately be deemed necessary but should be fully justified in the best interests of the individual, and only on the authority of the Commanding Officer/Duty Commanding Officer. The necessity to contain an individual in these circumstances would be in the interests of the individual's own health or safety, or that of others, when the following risks may be present:

(1) A risk of harm to themselves.

(2) A risk of harm to others.

(3) When there is a risk of deterioration in mental health.

d. Any level of supervision should be maintained for the minimum amount of time necessary to permit the mental health assessment, and should be conducted in an environment and atmosphere of due care and compassion.

e. If it is deemed that an ongoing level of protection is necessary in the interest of the individual's health or safety, or that of others, then the appropriate mechanism will be determined by location. Appendix 1 details guidance to medical professionals on how to access specialist advice and services.

f. In all cases of DSH the Notification of a Casualty (NOTICAS) should be reported in accordance with JSP 751. The preferred method is via JPA and arrangements exist when this is unavailable. This is important not only for the correct notification of casualties, but also to enable accurate statistics to be collated informing future policy and practice.

g. In the event that an individual who is considered to be at high risk of DSH or potential suicide is missing from a unit and unaccounted for, the Management Algorithm at Appendix 3 to Annex 24D is to be followed.

h. In the event that a death or serious injury is discovered, immediate action must be taken at the scene, to minimise and prevent further injury, and to maximise the opportunity to secure evidence. Annex 24E refers in detail.

i. A Service Inquiry is likely to be necessary following any incident where death or serious injury occurs, BRd 2 Chapters 53 and 57 refer. JSP 832 sets out the circumstances where a Service Inquiry is required and provides the definitive guide.

j. If a Service Inquiry is not required but a DSH episode was significant then an RN Ship's Investigation, or RM Unit Inquiry, can be ordered to establish what has happened and determine recommendations to prevent recurrence. BRd 172 (The Yellow Guide) provides guidance.

4. Subsequent Management of DSH Episode

a. The management of the initial phase of a DSH case will be determined by the mental health risk assessment. The risk presented, location and time will all be factors in the appropriate course of action. It is essential that there is close liaison between the assessing Medical Officer/Medical Branch Rating, who has access to specialist mental health support, and the Executive.

b. A referral to Defence Mental Health Services[1] via the appropriate Department of Community Mental Health is considered best practice, Appendix 1 provides necessary

[1] http://defenceintranet.diif.r.mil.uk/libraries/library1/DINSJSPS/20160421.1/20160811-JSP%20950%20Lft%202-7-2%20Defence%20Mental%20Health%20Services%20V1.1%20dated%20Oct%2012.pdf

details. Consideration should be given to medically downgrading such cases as Medically Non-Deployable; JSP 950 provides in depth guidance to Medical Officers.

c. In the deployed environment consideration should be given to aeromedical evacuation to the UK. In this situation it is imperative that the RAF Aeromedical Evacuation System is used, which provides appropriate in-flight supervision based on the risk assessment. AP3394 describes the process in detail. Should an individual need to be landed in a foreign port pending aeromedical evacuation, then specialist guidance is essential. Close liaison will be necessary between the appropriate embassy, compassionately ensuring the safety and well-being of the individual.

5. Executive Management

a. In cases of DSH, the Executive will need to liaise closely with the Medical Service to ensure appropriate case management, while maintaining the necessary duty of care. The most significant factors are:

(1) Maintenance of a safe environment permitting medical assessment.

(2) Investigation as necessary through either a Service Inquiry or Ship's Investigation.

(3) Ongoing liaison engagement with Case Conferences to facilitate appropriate multidisciplinary care.

(4) Input into psychiatric assessment of future employability through an Occupational Report (FMed1041).

(5) Application for Discharge (SHORE) or Services No Longer Required if appropriate.

(6) Disciplinary Action as required.

b. **Security Implications.** If an episode of DSH raises concerns relating to security, then the Unit Security Officer should be involved and act in accordance with JSP 440 Defence Manual of Security[2].

c. Appendix 2 contains a flow diagram illustrating the process and possible outcomes.

6. Multidisciplinary Care

a. As described, most cases of DSH are communications of distress and need. In addition to appropriate medical management, wider avenues of support may be utilised to provide the correct care.

[2] http://defenceintranet.diif.r.mil.uk/Policy/Continuity/Pages/BusinessContinuityHome.aspx.

b. **The Divisional System.** An individual's DO should be involved in all cases of DSH. The bond created by the Divisional System can be a strong resource for the individual in distress, and may facilitate simple adjustments that provide immediate relief. Furthermore, the DO is in a key position to inform the Medical Service on aspects of the case that are not immediately apparent, and also provide liaison with the unit Command.

c. **Royal Navy Family and People Support.** Many cases of DSH are caused by psychological distress, and the source of this is often located in relationship, family and financial matters. RN FPS can be contacted by either a unit Chain of Command or the individual themselves via a single point of contact in HMNB Portsmouth, from where suitable support and intervention can be co-ordinated. Chapter 24 refers. Contact:

RN FPS entry Portal: 0800 145 6088 or via email: Navypeople-psmfpsportal@mod.gov.uk

d. **Chaplaincy.** Unit Chaplains are able to offer pastoral care and support, regardless of religious beliefs. Chapter 31 refers in detail.

e. Chapter 24 Section 9 and Section 10 contain details of organisations that are able to offer additional advice and support.

7. Case Conference

Once the initial management of the DSH episode described above has been completed, a case conference should be convened. This shall consist of representatives from the Medical Service and Divisional System, as well as other agencies involved in the individual's care such as RN FPS. The aim is to align assessment of the situation, contain and control any risk, and plan the future management. Appendix 3 gives those involved further guidance.

8. Confidentiality

a. The correct maintenance of confidentiality is essential for successful ongoing management. The agencies typically involved in the management of DSH cases will have specific policies on managing confidentiality, which can be enshrined by professional regulatory bodies. The General Medical Council, for example, state that a Medical Officer could disclose personal information if:

(1) It is required by law.

(2) The patient gives consent.

(3) It is justified in the public interest.

b. Issues surrounding confidentiality can be challenging. Written consent should be obtained where possible, and even then, relevant information should only be shared with those who need direct knowledge of the situation.

9. Long Term Outcomes Following DSH

a. The RN has a duty of care to correctly manage individuals who present with or threaten DSH. The appropriate course of management will depend on numerous factors and will initially be guided by the presentation and risk assessment. In the longer term, both the needs of the individual and the Service will influence the outcome.

b. Where possible the goal of any long-term management will be to harmoniously return the individual to a state of psychological resilience and Service employability. In some circumstances and situations, the correct pathway may ultimately lead to discharge from the RN through Medical, Welfare or Executive routes. This will be driven in part by the initial motivation of the DSH, and ultimately the overall Service prognosis which will be informed by the Case Conference.

10. Medical Outcomes

As DSH is a communication of distress and need it is not a diagnosis as such. An individual cannot therefore be medically discharge from the Service for DSH alone. Recurrent DSH is however typically associated with significant psychiatric illness or personality dysfunction and the correct management is that for the underlying disorder. If, after appropriate treatment, such a presentation persists then consideration for medical discharge may become appropriate. JSP 950 provides in depth guidance to Medical Officers.

11. Welfare Outcomes

An episode of DSH may be the first indication that the individual is experiencing an overwhelming amount of distress. The source of this is often in their personal life, for example relationship breakdown, family discord or financial pressure. RN FPS is able to provide management and support with these issues which could ultimately lead to a Compassionate Discharge.

12. Executive Outcomes

a. **Warnings.** In cases where Executive management is necessary, an individual will typically be placed under Warnings as described in Chapter 57.

b. **Discharge SHORE.** Discharge SHORE is not a punishment. It is the normal method of dispensing with the services of ratings and other ranks whose retention is undesirable due to unsuitability or possibly for reasons largely beyond their control. Chapter 54 details the circumstances in which Discharge SHORE may be appropriate. In cases of DSH these can in particular include:

(1) **Temperamental Unsuitability (TU).** TU describes an individual's persistent and obvious failure to adapt to the basic but unique demands of Service life. These demands include tolerance of separation from family, naval discipline and military hierarchy, the need for self-discipline and close quarter living. The distress caused by such a failure to adapt can manifest itself through acts of DSH, usually early in a Naval career.

The Executive has the option of applying for Discharge SHORE on the grounds of TU. For this to be pursued an individual must be assessed by a Service Medical Officer or Civilian Medical Practitioner and a recommendation for a TU discharge be provided in writing to the Commanding Officer. Prior to this assessment an FMed1041 will be required, signed by the Commanding or Executive Officer, stating that other appropriate avenues of support or discharge have been considered. Annex 54D describes the assessment of TU in detail.

(2) **Alcohol.** Alcohol abuse and dependency can exist in the absence of a distinct mental disorder which necessitates medical management and potential medical discharge. These situations are complex and require close co-ordination through the Case Conference. Problems related solely to alcohol abuse may be ultimately managed through Discharge SHORE.

(3) **Inadequacy.** Ratings and other ranks may be unable to perform the duties of the lowest rate to which they can be reverted. Difficulty managing the distress this causes can present through DSH and Discharge SHORE may be the most appropriate management.

(4) This is not an exhaustive overview of Discharge SHORE and other circumstances exist, as described in Chapter 54.

c. **Naval Discipline.** It can be the case that an episode of DSH is consciously motivated to influence people and alter events, without any suicidal intent or underlying mental illness. An example of this would be a wilful injury sustained purely to achieve a medical downgrade thus preventing an individual's deployment. The Armed Forces Act 2006 provides the Executive with recourse to manage such cases under Section 16 Malingering or Section 19 Conduct to the Prejudice of Good Order and Service Discipline.

d. **Discharge Services No Longer Required.** Discharge SNLR is not a punishment but neither is it an honourable release and can impair a rating or other rank's prospects of employment on return to civil life.

(1) **Unruly.** Usually there will be evidence that an individual is on Warnings for Discharge SNLR (Unruly) and has received previous punishment that has not had the desired reformatory effect. Cases of DSH with the desire to influence individuals or outcomes may be particularly challenging to manage.

(2) **Drug Misuse or CDT.** Some cases of DSH may present with drug misuse, which is incompatible with the unique situation of Service life.

e. **Officers.** Officers may equally present with DSH and ultimately require Executive management. Appropriate mechanisms of discharge exist as described in Chapter 54.

f. This description of avenues of Executive management is not meant to be exclusive or comprehensive, but serves to describe the more common routes seen in such cases.

g. Such Executive actions will require clear co-ordinated input which is harnessed through the Case Conference.

APPENDIX 1 TO ANNEX 24D

GUIDANCE TO MEDICAL PROFESSIONALS

1. Introduction

This Appendix provides detailed guidance to Medical Officers/Medical Branch Ratings on the management of cases of DSH in the immediate and longer term. All healthcare professionals should be accountable for their actions, and act within the limits of their professional competence. Those operating under supervision (for example General Duties Medical Officers) should discuss all such cases with their seniors.

2. Responsibilities

a. The initial management of any immediate physical injury or illness.

b. Full mental health risk assessment, documented on the Defence Medical Information Capability Programme patient record.

c. Initial liaison and referral to specialist mental health care.

d. Raise a NOTICAS iaw JSP 751 Vol 1 Ch 5.

e. Providing informed advice to the Executive regarding the ongoing management.

f. Participation in Case Conferences as detailed in Appendix 2.

3. Risk Assessment Following DSH

a. Following an act of DSH, a mental health evaluation and risk assessment will need to be conducted by the Medical Officer/Medical Branch Rating. The requirements of a psychiatric history and mental state examination are described, which in turn inform the ongoing risk assessment.

b. **Mental Health History:**

(1) **History of Presenting Complaint.** In these cases, this will include the patient's own account of events leading up to the DSH episode, and provide much of the information needed for the risk assessment.

(2) **Past Psychiatric History.** Including past diagnoses, treatment and severity. Previous episodes of DSH are also highly important.

(3) **Past Medical History.** Particularly noting the presence of chronic, disabling, or terminal disease.

(4) **Medication History.** Medication taken for whatever reason should be noted. Consideration of substances potentially toxic in overdose is particularly important.

(5) **Social Circumstances.** DSH can often occur in the context of social disharmony including relationship breakdown, family or financial distress.

(6) **Service History.** Occupational role and functioning, particularly access to weapons and safety critical tasks, are important considerations.

(7) **Forensic History.** In the Service context this includes interaction with then civil police, and the Executive.

(8) **Substance Use.** Alcohol use, misuse and dependence should be assessed, as well as the use of illicit drugs or other psychoactive substances.

(9) **Personal History.** This includes early life, upbringing, and enduring patterns of interaction with the world.

c. **Mental State Examination.**

(1) **Appearance and Behaviour.** Noting self care, dress, rapport and appropriateness of interaction.

(2) **Speech.** Presence or absence of formal thought disorder, and pressure or poverty of spontaneous conversation.

(3) **Mood.** Subjective and objective assessment of mood, and appropriateness to current circumstance.

(4) **Thought Content.** Including presence or absence of delusions or overvalued ideas. Coherent and logical thinking patterns should also be considered.

(5) **Perceptions.** Hallucinations or illusions in any sensory modality.

(6) **Cognition.** Cognitive state including orientation, concentration and memory.

(7) **Insight.** Individual's own view of their presentation and willingness to receive offered interventions.

d. **Risk Assessment - Suicidal Intent of the Act.**

(1) **Were precautions taken against discovery?** When an individual act of DSH is undertaken and the individual knows it will be discovered before any significant health effect could occur, it presents a lower risk, for example cutting an arm in the messdeck. When DSH occurs in isolation and is not expected to be discovered, it presents a higher risk.

(2) **Was the act pre-meditated** Prior planning, such as the stockpiling of medication, represents intent and presents a higher risk.

(3) **Were final acts completed?** Putting affairs in good order represents a higher risk of suicide, overlapping with planning in advance. Preparing a will or life insurance indicates an intent; however handwritten notes can be made quickly and easily.

(4) **Was the act likely to cause death?** A violent act, such as hanging or jumping from a height, indicates a much higher risk of future suicide. It is important, however, to assess the understanding of intent as it is the believed likelihood of causing death that is important. Thus, an overdose of 4 paracetamol tablets might genuinely be understood to be potentially fatal.

(5) **Was the act impulsive?** An impulsive act such as an overdose directly following an argument with their spouse may represent a lower risk of suicide.

(6) **Did the individual summon help themselves?** Calling for assistance following DSH is a protective factor, for example contacting family via mobile telephone to tell them what has happened.

(7) **Was the individual under the influence of alcohol or drugs?** Individuals who experience distressing life events often use alcohol or other psychoactive substances to manage their emotions. This use can lead to impulsive, spontaneous and irrational actions. When distressed and under this influence, unplanned and impulsive acts of DSH can be performed, sometimes following an interpersonal argument which, unintentionally, can be serious.

e. **Risk Assessment - Significant Risk Factors.**

(1) **Previous History of DSH.** As identified, the risk of a completed suicidal act is much higher in those with a history of DSH, with or without clear suicidal intent at that time.

(2) **History of Significant and Current Alcohol or Drug Misuse.** The behavioural alterations relating to recklessness and impulsivity when influenced by psychoactive substances place those who use them at a significantly higher risk of future DSH and suicide.

(3) **Presence of Significant Mental Illness.** DSH and suicide are linked to a myriad of psychiatric disorders. The full history and mental state examination will permit the identification of mental illness.

f. **Risk Assessment - Ongoing DSH Risk.**

(1) **Does the individual regret the attempt?** Regret and remorse following an act of DSH indicates a lower risk of a recurrence.

(2) **Assurance given of future safety**. If an individual can assure those assessing their ongoing risk that they are confident in keeping themselves safe, this indicates lower risk.

(3) **Ongoing suicidal ideation, plans or intent?** If, on assessment, the individual retains thoughts or desires to harm themselves then the future risk is elevated. An absolute future intent to complete suicide presents a much higher risk.

g. **Risk Assessment - Protective Factors Which May Reduce the Future Risk.**

(1) Presence of family and friends, rather than social isolation.

(2) Having children or dependants.

(3) Ability to see a positive future, instead of hopelessness, is protective.

(4) Stating reasons to live, other than those above, can also be reassuring.

(5) Moral objections to DSH and suicide.

4. Documentation of Assessment

Medical Officer/Medical Branch Ratings should carefully document their full risk assessment on DMICP.

5. Specialist Support to Medical Professionals

a. Medical Officers/Medical Branch Ratings can access specialist support to manage these complex cases in the initial phases. All DCMHs provide a duty nurse who is available for advice and guidance. In hours (0800 – 1700 weekdays excluding bank holidays) contact should go through the appropriate Base Port DCMH contact number below.

HMNB Portsmouth: 07929 767 024

HMNB Plymouth: 01752 555965

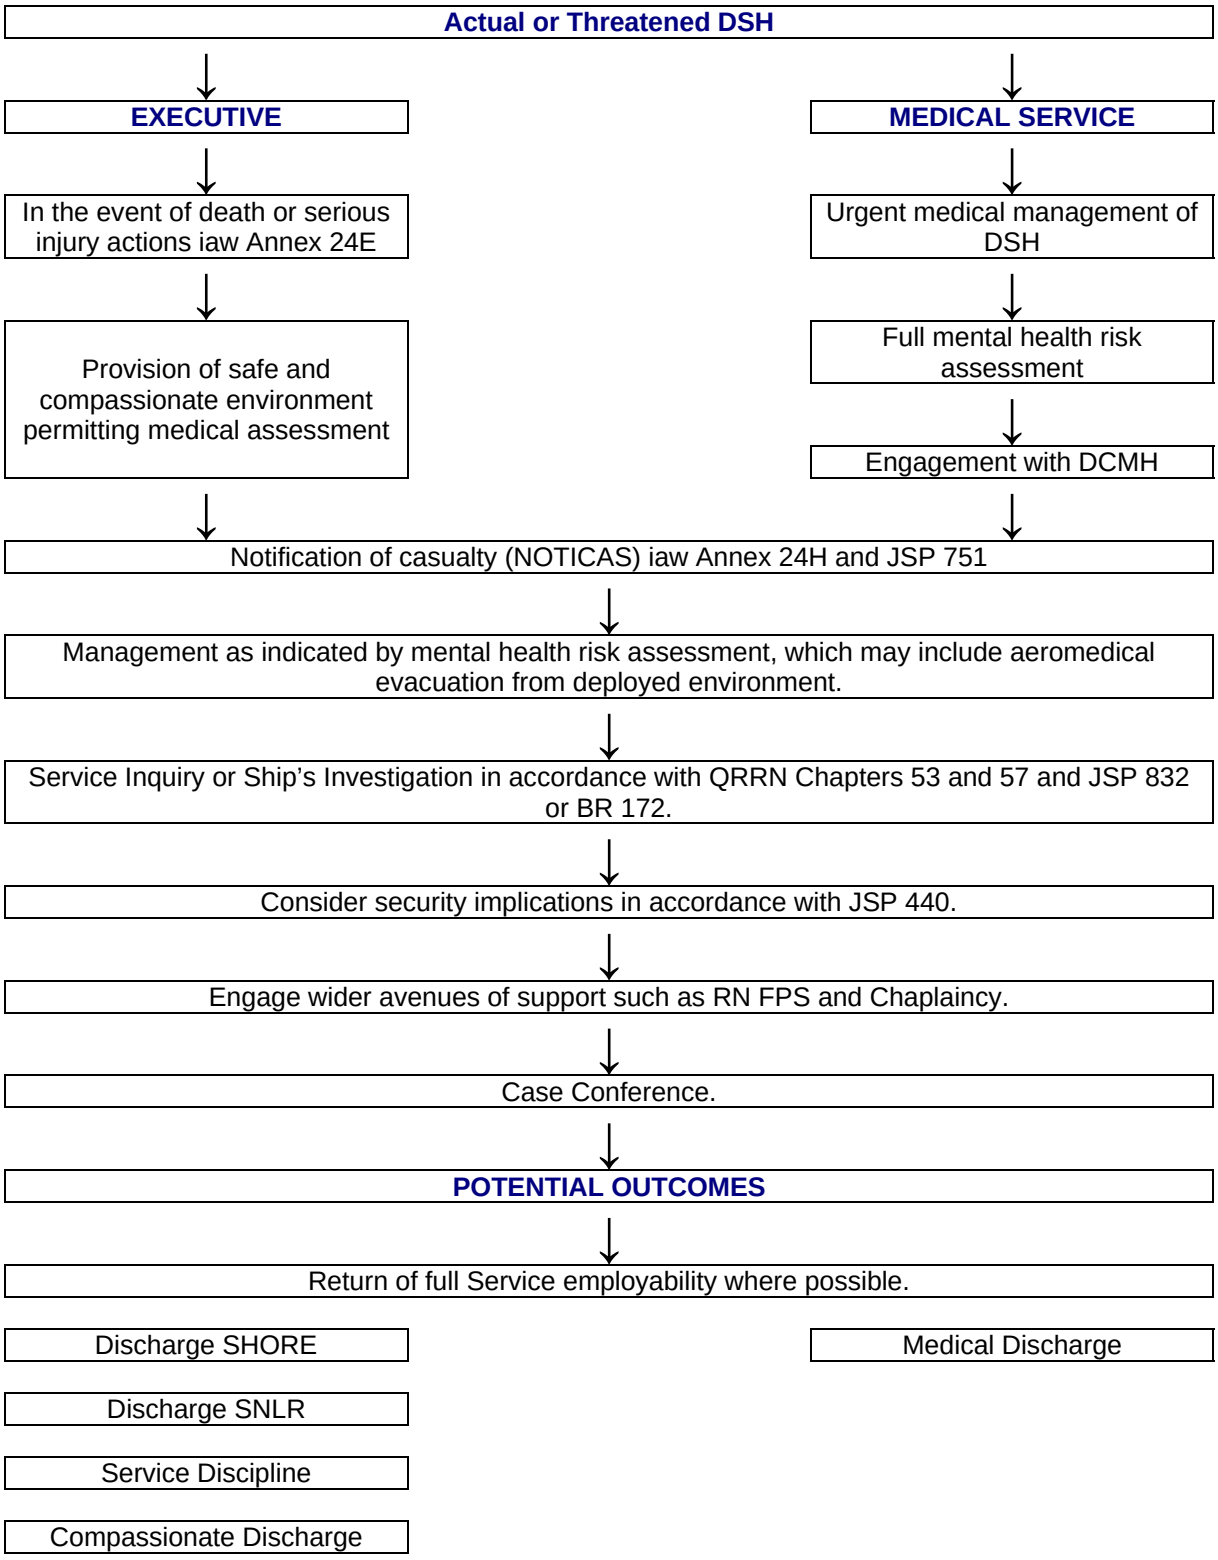
HMNB Clyde: 07814 901 381

b. In addition, there is a national tri-Service contact telephone number for out-of-hours mental health advice: 01543401141. Note this number is for clinicians only and not CoC or SPs.

c. It is now widespread best practice that all cases of DSH are referred for specialist assessment and management to the appropriate DCMH through DMICP. Referral will be through local processes, which is usually to a Single Point of Access (SPA) within the regional Defence Mental Health Network (DMHN). The risk assessment will inform the urgency of this, and a telephone call should accompany cases where necessary.

APPENDIX 2 TO ANNEX 24D

MANAGEMENT ALGORITHM 1



APPENDIX 3 TO ANNEX 24D

CASE CONFERENCE

1. Membership

The Case Conference is a key step in correctly managing cases where DSH has occurred. This will typically take place after the initial episode and when ongoing avenues of care have been explored. Key members of the Case Conference are as follows:

a. **Executive Representation:**

(1) To chair the Case Conference.

(2) To provide perspective on individual case and needs of the Service.

(3) The exact position of this member will vary with situation but, in a ship for example, should be the Executive Officer.

b. **Divisional Officer:** To promote the needs of the individual.

c. **Unit Medical Officer:** To represent the medical situation.

d. **DCMH Representation:** To provide specialist mental health opinion.

e. **RN FPS:** If involved.

f. **Chaplaincy:** If involved.

g. Any other relevant agency.

2. Individual Engagement

The individual concerned must be made aware that the Case Conference is to be held, and they should be given the option to participate for some or all of the proceedings. Engagement with the individual concerned is a key factor to delivering an effective care management plan.

3. Structure

The following structure to the Case Conference is intended as a guide:

a. **Introduction.** All participants should introduce themselves by name, role and nature of input.

b. **Presenting Situation.** The events that led up to the DSH episode, and what has occurred since, should be discussed in order to allow participants to share information and understanding. This will be led by the professional who has best grasp of the situation, which may be the Divisional Officer or Medical Officer.

c. **Medical Assessment.** Prior to the Case Conference, informed consent must be sought from the individual to disclose medically confidential information in accordance with GMC guidance and Caldicott principles. Key aspects of the medical contribution will include the nature of any underlying mental health disorder and the ongoing risk assessment. Medical downgrading needs to be explicitly discussed, considering Service prognosis.

d. **Executive Assessment.** Both the Divisional Officer and Executive representative will inform the Executive assessment aspect of the case conference. The individual's Service Record should be considered, along with any discipline actions in process such as Warnings.

e. **Additional Information.** This will include input from other agencies such as RN FPS and Chaplaincy. Here any child or vulnerable adult safeguarding concerns should be highlighted.

f. **Individual's Perspective.** If present, the person concerned can express their own views. If they do not wish to participate with the full conference, they could be invited to join at this stage.

g. **Management Plan.** The overall management plan is to be discussed and agreed upon. This will incorporate the needs of the individual and future Service employability. The plan will be multidisciplinary and involve co-ordination for delivery.

h. **Documentation.** All members will need to make notes for their agency's documentation requirements upon completion. The Medical Officer must make an electronic record on DMICP, noting particularly the ongoing risk management plan, as this constitutes an agreed care plan.

APPENDIX 4 TO ANNEX 24D

MANAGEMENT ALGORITHM 2

Actual or suspected DSH when the location of subject is unknown and they are thought to have left the base

EXECUTIVE

Divisional Officer to inform Duty Staff & Guardroom

Divisional Officer to phone the Civilian Police at the earliest opportunity.
(The Police will allocate a Missing Person Liaison Officer)

Civilian Police 11 Questions for Missing Persons

1.Where was the person last seen?
2.What are the circumstances of the person going missing?
3.Description. Gender, ethnicity, age, height, build, hair colour, clothing, distinctive features and footwear.
4. Does the missing person have access to a mobile phone?
5.Is there any indication that the missing person is suicidal or is at risk of harming themselves?
6.Does the Missing Person have any other medical needs or MH concerns?
7.Are these circumstances out of character?
8. Have hospital/Police Station checks been carried out?
9.Does the Missing Person have access to a vehicle?
10.Does the Subject have any access to money or bank cards?
11.What has been done to trace the individual so far?
(It is better to pass information early than await full facts and pass the information too late.

Notify additional personnel if appropriate: RNP, Padre, RN FPS, Medical Centre [1]

Unit staff to continue to search for the subject and co-ordinate with the Police and Emergency Services.

Emerging evidence surrounding the circumstances of potential/actual DSH to be immediately passed up through the CoC.

[1] RN FPS, Medical Services, Padre and welfare may be able to provide context on whether the individual was experiencing any specific issues that the CoC were not aware of that could assist with building the picture

ANNEX 24E

DEATHS AND SERIOUS INJURIES IN UNITS AND ESTABLISHMENTS

References:

A. 2010DIN02-023
B. BRd 2
C. JSP 751

1. Introduction

There may be occasions when personnel will discover a serious incident involving death, or where death is likely. In these cases a local Home Office Police Force inquiry will normally follow. Depending on the proximity of the police to the incident it may be some time before the police attend the scene and take control. In order that procedures are carried out to minimise and/or prevent further injury and maximise the opportunity for the police to secure evidence the following guidance and aide memoir, which should be disseminated widely to all ranks and form the basis of more comprehensive unit SOPs, is provided for non-police personnel.

2. Initial Action to be taken by Non-Police Personnel

On discovering an incident involving death or where death is likely, the following action is to be taken:

a. **Prevent Further Loss of Life (Including Your Own) or Injury.** The main priority on discovering an incident is to prevent further loss of life or injury. The senior person unconnected with the incident is to assess the situation, take charge and take appropriate and safe action to:

(1) **Ensure area is safe to enter.** Identify and eliminate any danger, where safe/minimal risk to do so, e.g. extinguish a small fire, isolate electrical currents etc.

(2) **Remove the injured person away from imminent danger.** For example, assist people from a smoke filled room. However, under no circumstances must a seriously injured person be removed if there is no imminent danger as this could cause long-term medical problems or fatality if not handled correctly.

(3) Tend the injured.

(4) Seek medical or other assistance at the first available opportunity.

(5) Once further loss of life or injury has been prevented, any injured personnel at the scene should be tended in accordance with current training.

(6) Where practical, those suffering from shock, trauma or distress should not be left alone or in circumstances where they could further injure themselves or others.

(7) Only a Medical Officer can certify death at the scene and therefore every effort should be made to revive or treat personnel until tended by trained medical staff. Where it is obvious that a person is dead and cannot be revived the deceased should remain exactly as discovered and not touched or moved.

b. **Uninjured Personnel at the Scene.** They should be segregated and should normally be asked to remain at the scene until the arrival of the police; the person discovering the injured or deceased person is a key witness, who police will wish to interview at the earliest opportunity. The details of those personnel who are possible witnesses or suspects should be noted. Those person(s) involved, or suspected to be involved, in an incident or found at or near a scene should be asked or ordered, where the necessary authority exists, not to wash themselves or their clothes until seen by the police.

c. **Take Appropriate Measures to Protect the Scene.** It is vital that, when the police arrive, the scene (and everything within it) is exactly as it was discovered. In particular:

(1) **Offices, Accommodation, etc.**

(a) Where the scene of an incident is under cover it may be able to be secured by locking the entrance/exit doors. Windows are not to be closed, unless under exceptional circumstances, i.e. weather etc. They may be a point of entry/exit for a suspect and therefore may provide forensic evidence. If the incident involved a jump or a fall, windows should not be touched and should be left exactly as they have been found.

(b) If possible or practicable, a sentry should be placed on windows to ensure no interference with such possible evidence. Any other methods of entry or exit should be secured and the room/area cleared of all other occupants. Thereafter, the key must be retained by a person in authority until the arrival of the police. It is also important that the room/building remains undisturbed and those occupants (or other unauthorised visitors) are not allowed access to the room/area either deliberately or accidentally, for any reason.

(c) Should it be suspected that other keys to the area exist or you have any doubts over your ability to fully secure the scene you should position a guard(s) at the points of access/exit.

(2) **Outside Areas.** Where it is not possible to secure the area by utilising existing physical barriers, access to the area by unauthorised personnel should be physically prevented. At the first opportunity a cordon using personnel or ‘mine tape’ should be placed at a suitable distance around the scene. The type of incident and area will determine the size of cordon.

(3) **Visitors.** It is important that only personnel required to attend the scene are allowed within the cordon. Those personnel not connected to the incident or who have no legitimate purpose at the scene must not be allowed into the scene and should be instructed to leave the area. A record of all persons attending the scene within the cordon is to be recorded with their reason why, and handed to police on arrival. If a person does need to enter scene they must be escorted to ensure they do not tamper with evidence. There are few reasons why access should be required to the scene, and unless there are Health and Safety reasons there should not be any need for anyone to enter the scene once initial actions have been taken.

(4) **Pets.** If applicable, remove any pets from the scene.

d. **Preserving the Scene.** It is essential that anything at the scene is found by the police. Under no circumstances should the area be cleaned and any items at the scene should be left in the same condition and position as they were discarded. In particular:

(1) **IEDs/Suspect Packages, Etc.** These should remain in situ and under no circumstances should these be examined, removed or tampered with. The use of mobile phones, other communications or bright lights (flashlights etc) is to be avoided.

(2) **Firearms.** These should not be touched, handled or moved, made safe, unloaded, cleaned or tampered with in any way. It will be important that the police find any firearm in the same condition as it was left. Care must be taken not to touch bloodstained items as blood distribution and ballistics may be a factor. If you have handled the weapon or know that any other person has, you should notify the police immediately on their arrival. The weapon should only be touched and made safe by a Police Firearms Officer.

(3) **Spent Cases.** These should not be touched, handled, moved or collected. A large cordon should be established in order to encompass any such evidence. The searching of the cordoned area should be left to the specialist Police search teams. A search conducted by any other persons may damage evidence or introduce foreign items into the cordoned area which may contaminate the scene.

(4) **Knives or Other Weapons.** Knives (or other weapons if appropriate) should not be touched, handled or moved.

(5) **Documents.** Any notes, whether sealed or otherwise, and any other correspondence or documents found at the scene should not be handled and must remain undisturbed. Be mindful that the note could have been written by someone other than the deceased and may require detailed forensic analysis. If the note has been handled, establish when, where and by whom and report this to the police on arrival.

(6) **Electrical Equipment (Including Computers/Mobile Phones/Radios/Flashlights).** Any electrical equipment found should not be tampered with, switched on/off, used or removed.

(7) **Clothing/Garments.** Are not to be removed from the scene or injured personnel (unless for medical reasons by trained medical staff).

(8) **Blood/ Bodily Fluids etc.** Blood and other bodily fluids stains and marks should be left in situ. Unless taken to a medical facility with the patient for emergency treatment, all body parts should be left at the scene until the arrival of the police. Nothing should be cleaned until the arrival of the police.

(9) **Hanging.** The important areas from a forensic point of view are the knot itself, the position on the neck and the point of suspension. If the ligature has to be cut, other than in an emergency, it should be cut on a central point and well away from these areas.

(10) **Overdose.** The container and any remaining drugs should be noted but left in situ.

(11) **Carbon Monoxide Poisoning.** If a car window has to be smashed to gain entry to a vehicle select one other than the drivers or the window through which the hose is running. Note the position of the body, its condition and any smell coming from the car. If the engine is running, turn it off and leave the keys in the ignition, no further action should be taken

3. Reporting

a. It is important that personnel discovering an incident report it and obtain assistance at the earliest practical opportunity. Once in a position to do so personnel should report the incident to a person in authority, i.e. duty staff/police etc, by the quickest and safest means possible, e.g. mobile telephone, in person etc. Where two people, unconnected with the incident, are present one should remain to protect the scene whilst the other reports the incident and/or seeks assistance.

b. Duty military personnel notified of an incident should ensure that the action above has been completed and immediately report or arrange for the details to be reported to:

(1) In the UK, local Home Office Police, Service Police and/or MDP. Overseas the Service Police.

(2) The Chain of Command (in accordance with local SOPs).

ANNEX 24F

TRI-SERVICE SPECIALIST WELFARE AGREEMENT ON MUTUAL WORKING AND AREAS OF RESPONSIBILITY

1. Preamble

The provision of Specialist Welfare Support, in accordance with JSP 770, is a responsibility of the parent Service Command, but there will be occasions when another Welfare provider is able to meet the needs of the Service user most effectively. Initially support must be sought by the Service User via their own Service welfare provider. Once it is established, they are unable to provide the most appropriate support, the owning welfare provider is to request transfer of care to the welfare service identified as more appropriate. Compassionate action, assignments, discharge or services provided at Public expense must involve the parent Service Chain of Command.

2. Parties

This agreement is between Royal Navy Family and People Support (RN FPS), the Army Welfare Service (AWS), and Royal Air Force Community Support[1]. In this document these specialist organisations are referred to as agencies, 'Service' refers to the single Services (Royal Navy, Army, RAF) and 'services' to the various outputs that the agencies provide.

3. Scope

a. This agreement covers services to Serving personnel and their families in the following situations:

(1) Specialist welfare services for personnel serving with a unit of another Service and their families, where appropriate, will be provided by the local service welfare agency.

(2) Where, due to geographic or other reasons, services would be more appropriately provided by another agency.

b. This agreement does not cover:

(1) Work that is, or is likely to be, particularly sensitive or of high profile or particularly complex, with single Service implications. Receiving agencies should be aware of such sensitivities and discuss them with the appropriate Service agency at the earliest opportunity.

(2) Counselling or other services purchased for specified individuals at public expense. Funding approval and associated costs lie with the parent Service.

(3) Social inquiry reports and pre-sentence reports (SIRs) that must reflect the Service of the convening authority, although elements of such reports may be conducted by a co-operating agency.

[1] Specialist RAF Community personal and emotional support services are provided by SSAFA-FH(RAF) under contract arrangements.

(4) Out of hours services that may not be provided by other specialist welfare agencies.

4. Case Conduct

a. Each organisation will allocate work, carry out the assessment and make recommendations in accordance with that organisation's processes and criteria, consulting as necessary. The case will be conducted as any other of the organisation's cases including coverage within supervision and confidentiality policies.

b. Where a recommendation requires funding, compassionate or Executive action by the individual's Service, the individual's consent will be sought before information is passed to their own Service welfare organisation, which will refer to the appropriate Service authorities for action (modifying it to conform with own Service criteria if necessary). The decision on the recommendation in such cases remains with the individual's Service. If the individual withholds consent for information to be passed on, it will not be possible to recommend compassionate or executive action.

ANNEX 24G

ESTABLISHING AND MAINTAINING AN ON-LINE COMMUNITY

1. Introduction

The Royal Navy Forum (https://forum.royalnavy.gov.uk) is the Royal Navy's primary place for online Family Engagement, providing a fully accredited and secure area to keep members informed/involved/in touch with Navy Command, RN FPS and other stakeholders. The RN FPS Facebook Page and X account are used to inform and signpost families to the RN Forum.

2. At Least Three Months Prior to Deployment

a. Units are to establish contact with RN FPS for a brief on the Royal Navy Forum in order for them to communicate safely with families. Email: rnrm-wio@royalnavy.mod.uk or navypeople-psrnfpsinfo@mod.gov.uk.

b. The Unit is to provide a single point of contact to act as the Families Liaison Officer (FAMLO). The FAMLO role should be allocated to an individual who has the experience to identify what is of concern and interest to families and who appreciates how valued the FAMLO role is likely to become amongst the on-line community. They should be accountable to the Executive Officer/Adjutant.

c. The Unit is to identify a Forum Liaison Officer/s (FLO/s) to support in the regular engagement with their families via their Royal Navy Forum space. This could be the FAMLO or someone who works in conjunction with them. It is very much up to the Unit how many FLOs are nominated.

d. The RN FPS Team will ensure profiles are set up for the FAMLO and FLO(s) to ensure anonymity, admin tools are accessible to them and direction on how to use is completed.

e. It is also mandatory for the Unit to contact RN FPS to book in an Initial Meeting with the RN FPS Portal Deployed Team (navypeople-psrnfpsdeployed@mod.gov.uk) in order to organise the delivery of the mandatory RN FPS briefings: pre-deployment brief (Unit Personnel and separate Family brief) and return and reunion (prior to homecoming), arrange attendance at Families' Days to promote the RN Forum and discuss other areas of RN FPS deployment support.

3. One Month Prior to Deployment

One month prior to a deployment, Commanding Officers are asked to release a letter to families, informing them of the Royal Navy Forum – https://forum.royalnavy.mod.uk, to strongly encourage them to join the Unit's group which will allow them to keep up to date with the Unit whilst deployed, give them the ability to ask questions, and meet/gain support from their peers.

4. While Deployed

a. During the deployment, RN FPS staff will, if appropriate, provide support for events for the Ship/Unit's on-line community. These can be virtual events (such as on-line gatherings at a specified date/time), or actual events. Interaction on-line often leads to increased face-to-face activity.

b. RN FPS will provide an annual calendar of events for deployed families utilising the Family Welfare Grant. These will be added to the Royal Navy Forum with booking forms. Invoicing of these events will be direct with OWP – Finance.

c. The RN Forum will be the resource that families will look to for accurate and regularly refreshed information regarding 'their' Ship/Unit. Such material promotes involvement and a sense of identity with the Ship/Unit and its people, but successful engagement depends on the flow of material via the FAMLO/FLO. There is, for instance, limited interest for families in a missile launch, whereas being able to spot loved ones in a picture of a team at work generates a much more positive reaction. The appetite of the on-line community to feel part of the personal experience of loved ones on deployment cannot be overestimated. Replication of material which is used for public consumption on the Royal Navy website or Twitter Accounts does not achieve that purpose. Posts do not have to be time consuming, such as a newsletter. Several short posts with images on a regular basis is better than a full newsletter once a month. Short bitesize videos are also welcomed. RN FPS can provide some ideas that are seen as best practise if required.

d. Whilst the FLO can post themselves the RN FPS Digital Moderators (DM) are at hand to support. They maintain a duty system (0800-2200, 365 days per year) that allows information to be updated speedily, thus ensuring that rumours, speculation and consequent anxiety is kept to a minimum and that families are kept involved and informed as fully and accurately as possible. Email: navypeople-psrnfpsmedia@mod.gov.uk. The DM will also highlight any identified anxieties to the FLO if required.

e. RN FPS Engagement & Comms SO2 work closely alongside RN Media and Comms, which means RN FPS are in a good position to publish information to families in the event of any incident involving the Ship/Unit as soon as it is released by MOD and, hopefully, before publication in the press.

f. In the event of open communications from the Ship/Unit being suspended, the Duty DM will become the conduit for continued communication with the families on the RN Forum. The DM will communicate with the Ship/Unit when permitted, representing the Ship/Unit until normal communications are reinstated. A message can be placed into the Unit group should you have notice of any suspensions to communications. It is also worth noting that when 3rd Party Social Media is not available due to certain circumstances, the members area of the RN Forum can still be used.

ANNEX 24H

ROYAL NAVY NOTIFICATION OF CASUALTY DIRECTIVE

1. Introduction

a. This Directive should be used in conjunction with the overarching Joint Policy and Procedures[1].

b. The MOD places the utmost importance on the way the Services deal with casualties. Casualty reporting must be undertaken as quickly and sensitively as possible, and takes precedence over all but the most urgent operational and security matters.

c. The casualty reporting and notification process is coordinated by the Joint Casualty and Compassionate Centre (JCCC) and all information must be routed through that Centre.

d. As the sole Notifying Authority (NA), the Royal Navy Casualty Cell (RNCC) takes the lead in the management of the process for all Royal Navy (RN) casualties[2].

2. Casualty Reporting

a. **Raising a NOTICAS.** A full list of occasions of when a NOTICAS is mandated is at Appendix 1. An example of a NOTICAS is at Appendix 2 and a NOTICAS template at Appendix 3.

b. Raising the NOTICAS **is the responsibility of the casualty's parent unit** and is an Executive function. It is for the unit to establish who is to raise the signal eg. OOD in consultation with Duty Medic out of hours and Medical team during office hours. A step-by-step guide to the NS notification process is at Appendix 4.

c. The primary method for reporting casualties to JCCC is the Casualty Notification (NOTICAS) signal on JPA. If JPA is unavailable, the unit must send a NOTICAS to JCCC Innsworth by immediate signal.

d. Accuracy must not be sacrificed for speed; it is therefore essential that no unverified information is included in the NOTICAS. If doubt exists, the relevant section must be left blank and the information, once verified, reported via subsequent updates.

e. **Maritime Reservists.** Casualties involving on duty Maritime Reservists (MR) will be managed in the same way as their regular counterparts. Incidents/casualties involving Off duty MR are a civil police matter, however their parent MR Unit should immediately report any casualties to their respective MR HQ (RMR/RNR SO2/SO1) who will then inform the RNCC, JCCC (SO2 Post Death Admin for release of any Service Wills) and Commander Maritime Reserves.

---

[1] JSP 751 – Joint Casualty & Compassionate Policy & Procedures, Management of the Casualty, Volume 1 and JSP 751 – Joint Casualty & Compassionate Policy & Procedures, Management of the Deceased, Volume 2.
[2] With the exception of Special Forces personnel who are managed under a separate policy.

f. **Adventurous Training/Expeditions.** For any overseas RN Adventurous Training (AT) activity or expedition, a copy of the Admin Order and nominal roll must be sent to JCCC (DBS-JCCC Group Mailbox (MULTIUSER)) before the event. This is to allow JCCC to track who is in/out of the country and speed up the NOTICAS process in the event of a casualty.

g. **NOTICAS of UKSF.** There is a separate NOTICAS procedure for UKSF.

3. Casualty Notification

a. KINFORMING is the process of notifying the EC/NOK of RN casualties. Kinforming via the RN NA will take place only under specific direction from the RNCC (ie. once it is in receipt of a NOTICAS from JCCC tasking RNCC to begin the process).

b. **Casualty Notification Officers (CNOs).** In cases where the casualty is dead, missing, VSI or SI (see Appendix 1 for definitions), notification is to be carried out by a CNO and accompanying Officer. When tasked to do so by JCCC, the RNCC is responsible for nominating and CNOs. Where a casualty is III or UL, it may be appropriate for the Unit to kinform, but it is to seek advice from JCCC/RNCC prior to doing so.

c. **Self KINFORMING.** Self KINFORMING is the process whereby a casualty notifies their own EC/NOK, giving details of their injuries or illness. **Self KINFORMING should NOT be the default approach.** This procedure may only be permitted in extremis, when all the following criteria are met. If **any** of these criteria cannot be achieved, KINFORMING is to take place through the RNCC:

(1) The casualty is categorised as UL only.

(2) The casualty is supported by medical staff at their side who are confident the casualty has sufficient knowledge of all the relevant aspects of their injury/illness.

(3) The casualty has been briefed on the potential impact of self KINFORMING on their EC, and is content to proceed.

(4) The Unit is not currently under Op MINIMISE (if on Operations), ‘RIVER CITY’ restrictions (for RN) or there are multiple casualties. In these circumstances the unit at home can better coordinate notifying duties and prevent the broadcast of misinformation amongst NOKs.

d. The result of Self KINFORMING should be debriefed by the casualty’s immediate CoC to the JCCC.

e. **Mass Casualty Incident.** JCCC will liaise with the RNCC and potentially activate the Royal Navy Casualty Activation Centre (CAC). In the event of a multi-Service incident, the JCCC may activate the Major Incident Centre (MIC); each incident will be managed on an individual basis.

4. Emergency Contact/Next of Kin Information

The effectiveness of the notification process is dependent on the accuracy of the information available to CNOs. Recent incidents have disclosed serious inaccuracies in EC/NOK information recorded on JPA. This has the potential to cause great distress to the families of casualties and significant embarrassment to the RN.

5. Media 'Lines to Take'

Navy Media is the lead agency for generating Media Lines to Take (MLTT) for any RN casualties. The RNCC will liaise with Navy Media regarding all RN casualties.

6. Summary

a. It is imperative that all Ships, Units and Establishments have a robust system in place to ensure that the RN Notification Process is understood and followed.

The importance of the accuracy of EC/NOK information held on JPA cannot be over emphasised and it is a fundamental DO/LM responsibility to carry out regular checks to ensure that information is current.

b. The lead on all casualty related actions within a Ship, Unit or Establishment lies with the Executive. Duty Officers should familiarise themselves with the process and all Duty Officer packs should contain a copy of this Directive. The RNCC Duty Casualty Officer is available at any time to provide advice and guidance.

APPENDIX 1 TO ANNEX 24H

RN NOTICAS - MANDATORY REQUIREMENTS

1. RN NOTICAS signals are required for any of the events listed below:

a. **Deaths.** For a death to be notified there must be no doubt whatsoever as to the fact. Whenever there is the slightest question whether death has occurred e.g. where a Service Person (SP) is believed to have drowned but the body has not been recovered and identified, the casualty must be notified as either 'Missing – Believed Killed (MBK)' or 'Missing Not Known (MNK)'.

b. **Missing and Returned from Missing (RFM).** Missing includes kidnapping and detention by a foreign power but not illegal absence e.g. AWOL.

c. Casualties Medically Categorised as:

(1) **VSI.** A patient is listed 'very seriously ill' when their illness or injury is of such severity that life is imminently endangered.

(2) **SI.** A patient is listed 'seriously ill' when their illness or injury is of such severity that there is cause for immediate concern but there is no imminent danger to life.

(3) **III.** A patient is listed with an 'Incapacitating Injury/Illness' if illness or injury does not warrant classification as VSI or SI, but renders them physically and/or mentally incapacitated.

Any casualties categorised as VSI, SI or III are not permitted to SELF KINFORM.

d. **Unlisted Casualties (UL).** A SP whose illness or injury requires hospitalisation but whose condition does not warrant classification as VSI, SI or III.

e. **Casualties Unexpectedly Admitted to Hospital.** Casualties who are medically categorised as UL, but unexpectedly admitted to hospital in the following circumstances must be reported to JCCC:

(1) On duty away from their home base; on operations, overseas deployments or exercises.

(2) On board HM ships at sea or away from home ports.

(3) Casualties admitted to hospital for less than 72 hours, but injuries caused by circumstances that would be of public interest e.g. personnel Wounded in Action (WIA).

(4) Admissions exceeding 72 hours; these must be reported by NOTICAS with effect from the date and time of admission.

(5) Other occasions where the reporting unit or individual is unable to notify the EC directly and requires the assistance of the JCCC.

f. Casualties whose injuries are believed to have been caused as a result of deliberate self-harm/attempted suicide and who have not been otherwise listed should be reported as UL.

g. Previously reported casualties whose casualty state or location has changed.

h. Previously reported casualties once declared FIT and discharged from hospital.

i. Whenever injuries or illness cause a SP under the age of 18 years to be admitted to hospital, their NOK are to be notified unless the patient asks for them not to be. If their injuries or illness are not in themselves notifiable, their wishes may be disregarded if the hospital authorities consider that it is essential or in the patient's best interest to inform the NoK, provided that the agreement of the Commanding Officer of their unit has first been obtained.

j. There is no requirement to report persons away from their home base temporarily attending, or admitted to, hospital for a period of less than 72 hrs for minor medical conditions that do not require AEROMED evacuation if, in the opinion of a medical officer, were they at their home-base they would have been treated at Role 1 and followed by a period of sick leave.

2. Casualty Reporting[1] Categories

Casualty Details (Category/Status). Serial CHARLIE of the NOTICAS must show one of the following categories for each casualty:

DEAD	
KIA	Killed in Action A battle casualty who is killed outright or who dies as a result of wounds or other injuries before reaching a medical treatment facility
DOW	Died of Wounds. A battle casualty who dies of wounds or other injuries received in action, after having reached a medical treatment facility
DNK	Dead Cause Not Known
DOP	Died on Operations - (Died, when deployed on Operations, or as a result of Operations, but not KIA or DOW)
NOD	Non-Operational Death – (Died when NOT deployed on Operations)
MISSING	
MBK	Missing Believed Killed
MBW	Missing Believed Wounded
MBPW	Missing Believed Prisoner of War
MBDAW	Missing Believed Detained Against Will
MNK	Missing Circumstances Not Known/Not Accounted for NOM Non-Operational Missing
CPW	Confirmed Prisoner of War
DAW	Detained Against Will
RFM	Returned From Missing/Detained

[1] In the context of casualty reporting, personnel who are categorised as 'on operations' are deemed to be engaged in combat, including movement, supply, attack, defence and manoeuvres needed to gain the objectives of any battle or campaign. Normally this would be characterised by the presence of belligerents, designation of an operational area, and the generation of CDS's Directive.

MEDICAL LISTING	
VSI	Very Seriously Ill/Injured/Wounded
SI	Seriously Ill/Injured/Wounded
III	Incapacitating Illness/Injury
UL	Unlisted Condition
MI	Minor Injury (Does not warrant hospitalisation. Only for use in the event of high profile multiple casualty incidents when details of all personnel involved are required)
DFH	Discharged From Hospital
OK	OK (For use in the event of high profile multiple casualty incident when details of all personnel involved are required)
FIT	Fit

3. Supplementary Information. Serial ECHO of the NOTICAS should include as much of the following as is known:

CAUSE	
E	Enemy Action/Fire
F	Friendly Action/Fire
OA	Operational Accident (An accident occurring when deployed on Operations)
NOA	Non-Operational Accident (An accident occurring when NOT deployed on Operations)
RTA	Road Traffic Accident
NC	Natural Causes
VUC	Violent or Unnatural Causes
PLUS (Only If Applicable) NBC CATEGORY	
N	Nuclear
B	Biological
C	Chemical

4. Supplementary Medical and Management Information. Serial ECHO of the NOTICAS is to also include one of the following:

MANAGEMENT INFORMATION	
WIA	Wounded In Action (On Operations)
NBI	Non-Battle injury (On Operations)
NOI	Non-Operational Injury/Illness (NOT, deployed on Operations)
IDC	Identity Confirmed
IDP	Identification Provisional
Duty	Duty
Off Duty	Off Duty
Res	Reservist

APPENDIX 2 TO ANNEX 24H

J. ACCIDENT IS SUBJECT TO POLICE INVESTIGATION. UNIT POC CAPT P SMITH ADJT 45 COMMANDO RM 01234 12345678

APPENDIX 3 TO ANNEX 24H

NOTICAS TEMPLATE

1. NOTICAS Format

The text of a NOTICAS message is to begin with the word 'NOTICAS'. If more than one casualty separate NOTICAS messages are required. Thereafter the following format is to be used:

Precedence - Action - IMMEDIATE

DTG Month Year
From: Unit
To: JCCC INNSWORTH

SIC: ABA/WAL

NOTICAS

ALPHA (Essential)	State "Initial" Report or "Update" with Update number.
BRAVO (Essential)	Rank, Initials (and known forename), Surname, Service (RN, RM, Army, RAF, etc.), Service Number, Unit, (and attached Unit if applicable) NB: For a dependant give the name of the casualty then the relationship and details of the service person (e.g. wife of …)
CHARLIE (Essential)	Casualty Category Details (Category/Status) (e.g. Dead, Missing or Medical Listing. See categories at Annex A), also Previous Category if an 'Update' (e.g. VSI previously SI).
DELTA	Date and Time of the incident and Place (if known and not classified).
ECHO	Supplementary Information. Include Cause, On Duty or Off Duty, Regular or Reservist and any of the supplementary management information categories in Annex A that apply.
FOXTROT	Cause Categorisation. Free text showing additional details about the incident. Include rank, name and number of any other military personnel involved. For categories see Appendix 1 to Annex 24I.
GOLF	Supplementary Medical Information. Details of injury or illness if they can be released, otherwise a medical contact who can provide information for the Emergency Contact (EC) or Casualty Notification Officer (CNO).
HOTEL	Casualty Location at Date and Time (use DTG).
INDIA (Essential)	State whether the Emergency Contact (EC): Has been informed - use Codeword **KINFORMED** The unit will inform - use Codeword **KINFORMING** JCCC to inform - use Codeword **KINNOTFORMED** Where KINFORMED, state who has been informed. In all cases include Name, address and relationship of EC if known. Also any other information regarding the EC that will be useful for the CNO.
JULIET (Essential)	Additional Remarks. Any additional known facts that will be useful for the CNO/VO, RCDM and Parent Unit (e.g. Requirement for DILFOR, specific Welfare requirements, Date and Time of Death if different from Date and Time of incident). This must include the name and telephone number, both working and out of hours of a Unit Point of Contact (POC).

2. Everything in The NOTICAS Must Be Factually Correct.

If the reporting unit is not certain this must be identified in the text (e.g. Witness reports casualty has been taken to “x” hospital). Reporting units must aim to provide all the required information. When speed is essential, however, or when to find out all the information would incur delay, reporting units must send an Initial NOTICAS with at least the essential information indicated above.

a. If an Initial NOTICAS is sent without some of the required information an update must be sent as soon as possible, so that the family members can be fully briefed.

b. All times are to be in ZULU.

APPENDIX 4 TO ANNEX 24H

RN NOTIFICATION - STEP BY STEP GUIDE[1]

UNIT ACTION

- Incident occurs resulting in a casualty. Unit phones JCCC 01452 519951 to pre-warn of incoming NOTICAS.
- If required contact RNCC 07770863079 for guidance and to alert.
- 20U NOT to be raised until AFTER the NOTICAS has been actioned.

UNIT ACTION

- Raise NOTICAS on JPA and submit to JCCC immediately. If no access to JPA then via e-mail in NOTICAS format provided to dbs-jcccgroupmailbox@mod.gov.uk
- **Accuracy of information is paramount.**
- Consider Op MINIMISE or similar until KINFORMING has been completed.
- Do not delay for lack of information.

JCCC ACTION

- JCCC confirm NOTICAS details and forward to the NA (RNCC).

RNCC ACTION

- If KINFORMING is required, identify and activate CNO Team.
- Liaise with Duty Chaplain.
- Liaise with RNFPS to nominate a VO.
- Inform wider RN community iaw SOP.
- A VO will be allocated to all casualties listed as SI or above (except in a Mass Casualty Incident).

CNO Team

- Conduct KINFORMING and once complete report to JCCC and RNCC.

JCCC:

95471 7325 / 01452 519951

RNCC Duty Casualty Officer (DCO)

07770 863079

A NOTICAS is to be raised in the following circumstances:

1. If casualty is listed as UL and has been admitted for more than 72hrs.
2. If the casualty is on duty away from their home base, on operations or involved in overseas deployments and exercises.
3. On board HM Ships at sea or away from home port and **admitted** to hospital.
4. If there is public interest or likely to be.
5. If the casualty has been admitted to hospital and requires Aeromedical evacuation.
6. If it involves self-harm or attempted suicide.
7. If the casualty is under 18 years of age.

The RNCC will inform the Chain of Command of on-going situation as per RNCC Reporting Guidelines.

A VO will be allocated to all casualties listed as SI or above (except in a MCI).

[1] This is an overview of the process; JCCC/RNCC actions may vary depending on casualty listing.

CHAPTER 26

LEAVE, ABSENCE AND SEPARATED SERVICE

SECTION 1 - GENERAL

2601. Introduction

a. The tri-Service policy guidelines and regulations for leave and other types of absence can be found in JSP 760. This JSP has a broad remit and encompasses the majority of reasons for the absence of a Service person from their designated place of work. These include the various types of leave available and those occasions when Service personnel are absent for other reasons, such as jury service or when in civil custody. Absences may be either pre-planned or in reaction to particular circumstances. Either way, all absences must be recorded on the Joint Personnel Administration (JPA) System to allow for the appropriate pay, allowances or career management action to be taken, and for the provision of accurate management information. Service personnel will not be able to input Leave retrospectively onto the JPA system, therefore Annual Leave requests should be submitted at least 48 hours prior to the proposed period of absence.

b. JSP 760 is intended as general regulations to those responsible for absence management and provides a basis upon which reasonable decisions can be made.

c. All those responsible for the management and administration of leave and absence must make themselves conversant with the instructions contained in JSP 760.

2602. Management of Leave and Stand Downs

a. The management of leave is the responsibility of the Chain of Command.

b. Commanding Officers are responsible for ensuring that, wherever possible, individuals take their leave allowance in the leave year it was allocated.

c. Whilst Stand Downs are not to be used to replace or defer ALA (JSP 760 Chapter 2), COs should assess the appropriateness of awarding a stand down independently of, and without reference to, an individual’s outstanding ALA balance.

2603. Leave Allowance

a. Service personnel have 38 days Annual Leave Allowance which includes Public Holidays. Service personnel are entitled to a minimum of 28 days annual leave per year under the Working Time Regulations (WTR) (JSP 760 Chapter 1 para 1.004.)

b. Personnel being unable to take at least 28 days annual leave is a CAT A PFS breach and should be reported as such (see Annex 22A).

2604. Recording of Absences

a. All Service personnel must be made aware that they have a duty to record accurate and up-to-date absence information on JPA including that between assignments (Annex 26I). Falsifying absence information is fraud and is a punishable offence under the Manual of Service Law (JSP 830). This is not only a policy requirement but is necessary for informed decisions to be made affecting pay, allowances and personnel management. The principal reasons driving the requirement for accurate leave recording are:

(1) The Armed Forces Pay Review Body (AFPRB) uses leave data in calculating its annual pay award recommendations to the Prime Minister. The ability to take leave is also one of the key components of the rationale behind the X-factor calculation. The accurate recording of leave is therefore important to the ongoing credibility of the pay award process.

(2) On the basis of legal advice, it was decided that MOD should commence making payments in lieu of untaken leave for Service personnel who die in service. However, the MOD can only make such payments on the basis of accurate and up-to-date leave records to provide the necessary audit trail.

(3) NCHQ is required to report annually to the Service Personnel Board (SPB) the number of personnel who have been able to take the minimum of 28 days ALA each year and the reasons why personnel are unable to achieve this. Lack of accurate recording masks the true extent of personnel unable to take leave for genuine operational reasons.

b. It is, therefore, vital that all personnel keep their JPA leave records up-to-date and that the Chain of Command ensures this policy is enforced.

c. Personnel can now also record leave through the Myleave App on Defence Gateway which can be accessed directly or via the MyNavy App.

SECTION 2 - TYPES OF LEAVE AND ABSENCE

2605. JSP 760 References

All types of Leave and Absence are detailed in JSP 760.

2606. Relocation Leave

Relocation Leave (RL) is a period of authorised absence granted to Service personnel assigned between locations on non-operational tours of duty necessitating a change of accommodation, to facilitate the settling in/relocation process. It is in addition to, and not a substitute for, Annual Leave. All additional periods of absence taken between assignments, i.e. AA and ILA, are to be recorded on JPA. Further details are at Annex 26I.

2607. Self-Certified Sickness Absence (SCSA)

a. The overarching policy for SCSA is covered in JSP 760 Chapter 21 para 21.7. Personnel may SCSA for self-limiting medical conditions for periods of up to 48 hours. All personnel are to contact their CoC as soon as the illness or injury is established in order to gain authority to proceed on SCSA rather than reporting sick.

b. SCSA is not permitted for personnel deployed on operations or exercises, or for those deployed under OPCOM CJO. For the Royal Navy, SCSA does not apply to “sea-going units” and for this purpose “sea-going units” are defined as all surface and submarine platforms, frontline Naval Air Squadrons and Flights, and 3 Cdo Bde RM.

2608. Leave Abroad

a. Personnel should be aware that special security regulations can apply when travelling to certain countries. Details of these countries and the procedures to follow can be found in JSP 440. Certain restrictions also apply to Service Personnel wishing to visit Northern Ireland (NI).

b. Anyone intending to travel to NI or the Republic of Ireland (ROI) is to contact their USO, in the first instance, to ensure the appropriate briefing is given.

2609. Further Information

Further policy is contained within BRd 9467 (FLAGO), Chapter 12. Additionally, advice on all leave matters can be provided by NAVY PEOPLE-PSP EMP POL SO1.

SECTION 3 - MARITIME RESERVES LEAVE

2610. Introduction

Reserve personnel are eligible for the same allocation and types of absence as Regular personnel, depending on the type of reserve service being undertaken, e.g. FTRS, ADC, etc. Sponsored Reserves, however, are not entitled to leave. Part Time Volunteer Reserve (PTVR) personnel attending on Reserve Service Days (RSD) under RFA 96 Sections 22 and 27 are now entitled to attendance based paid leave proportionate to their Service. Detailed policy is contained within JSP 760.

2611. Maritime Reserves Leave of Absence

Commanding Officers may grant up to six months leave of absence to any Reserve personnel who request it for civilian employment or other reasons. Such leave will not affect seniority or reckonable service in the Reserve. All applications for leave of absence exceeding six months' are to be submitted to RES CM. Such submissions are to contain an assessment of the likelihood that the Reservist will resume training on completion of the stipulated period of absence.

2612. Maritime Reserves Extended Leave of Absence

The detailed regulations for extended leave of absence (more than one year) for are below. However, extended leave of absence may be granted by CMR in exceptional circumstances:

a. **Junior Officers under Training.** Will normally be required to be removed from the Active List and apply for re-entry on their return.

b. **Officers with under 15 years' Service.** Will be placed on List 3 for up to three years, thereafter they will be removed from the Active List. Whilst on this List they will neither accrue seniority in their rank nor reckonable service in the Reserve. Only one such period of absence will be permitted.

c. **Officers with over 15 years' Service.** May revert to List 3 for up to three years. Thereafter they may be placed on the Retired List.

d. **Ratings.** Ratings may be placed on List 3 for periods of up to three years. For periods in excess of three years they are to be discharged. Should they wish to re-join at some future point, they may be permitted to re-enter in their previous rate, subject to the prevailing workforce situation, and in accordance with current re-entry regulations. Re-entry is not a right and cannot be guaranteed.

2613. Commanding Officers

Commanding Officers who for any reason intend taking a period of leave of absence in excess of one month are to report details to CMR.

SECTION 4 - LEAVE FOR 3 WATCH CREWED (3WC) VESSELS

2614. Introduction

The 3WC model was developed in 1992 as the enabler for new operating patterns for the next generation of survey vessels designed to achieve high levels of availability through innovative solutions in both engineering and personal terms. The result of extensive studies within the RN was a lean complement working a watch rotation routine finely tuned to the role of each ship.

2615. Watch-keeping Cycle

a. The watch-keeping cycle will be determined by each unit's command team, advised by their relevant Class Generating Authority (CGA); subject to programming and operational commitments.

b. For an individual assigned to a 3WC platform, intended to deliver 268 days of activity in a 12-month period, their annual harmony entitlement is as follows:

Total days on watch - 268
Total days off watch - 90
Career Development / TOIL - 7

c. Off Watch Time is broken down by allowance as follows:

Allowance	Duration	Nature
Individual Leave Allowance	38 Days	Protected Entitlement
Seagoers Leave	12 Days	Protected Entitlement
Respite (IAW Para. 2616)	40 Days	Protected Entitlement
CDev / Time Off In-Lieu (TOIL)	7 Days	Protected With Discretionary Allocation

d. 7 days in each 12-month period are allocated to Career Development and/or TOIL. This time is to be used by units to manage individual training, competencies and courses, alongside routine administration activities, including medical appointments, administration, and individual stores issue, assessed as unachievable within the 268 day on-watch allocation. Any unallocated portion of this time is to be awarded as TOIL, with the split at the discretion of the Unit's Officer in Command.

e. The above figures apply to a constant on/off watch cycle and do not account for major programme commitments, where the watch rotation may be suspended.

f. Guidance for the management of leave for personnel joining and departing the 3WC system can be found at Annex 26M.

2616. Respite (Authorised Absence)

For every off-watch period, Authorised Absence (AA) is to be taken by individuals at their home, which can be privately owned or rented accommodation; SLA or SFA. This will be in lieu of harmony time at their normal place of duty (base port). While Respite time may be used for the conduct of the items detailed below, it should only be used for the management of individual training, including items directed as part of pre-joining training plans, by exception. Where training needs exceed the 7-day Career Development / TOIL allowance, a formal written request must be submitted to the unit's CGA to utilise Respite time for this purpose.

a. Base Port Support, Welfare and Chaplaincy Meetings

b. Challenging Activity and Adventurous Training

2617. Methods of Travel for Respite (AA)

a. When returning to the UK for an off-watch period, individuals are entitled to a publicly funded return flight. For budgetary reasons, Military Air Trooping (MILAT) should be used whenever possible. Should the individual be proceeding to their home or NOK address for leave or respite then a leave warrant should be used for this section of the journey. This is intended to allow the individual to go direct to the home/NOK address rather than return to the base port prior to being released to go on leave. It is recognized that there will be occasions when MILAT will not be available due to operational reasons e.g. late notice operational tasking, R&R flights, etc. and any delays in Ship's Company movement may result in a lack of platform availability and consequently the loss of value from the ship support contract. If the individual is delayed during the journey, this will count as lost stand down but not ALA/SGL as this will remain protected.

b. If Civil Air (CIVAIR)[1] is utilized, the arrival point in the UK does not necessarily have to be either of the two main London airports. For example, for an individual traveling from the Gulf area to a final destination of Manchester, by combining the public expense and leave warrants, it may prove as economical and beneficial to the individual to travel from theatre to Manchester via Paris rather than via LHR/LGW. However, in accordance with MOD guidelines, the most economical method and route must be used.

c. The table below summarises the reasons for travel, methods of travel together with the applicable method of funding:

Reason for Travel	Theatre to Arrival point	Arrival point to final destination
Duty (Attend course, meetings etc.)	Public expense	Public expense (claim via JPA)
Leave (ALA/SGL)	Public expense	Leave travel SGW (claim via JPA)
Respite/Off-Watch (AA)	Public expense	Leave travel SGW (claim via JPA)

[1] CIVAIR should only be used when MILAT is not available.

2618. Guidance on Recording Respite (AA) on JPA

a. Unlike ALA/SGL, Respite is not transferable between leave years, and is to be recorded on JPA under AA by UPO staff. Respite time is only to be recorded/added as AA for the current leave year and not amassed for the period of the assignment. This will ensure excessive leave balances are not automatically carried over to the next leave year. JPA does not record leave taken over weekends, therefore Respite/Off-Watch absence which includes a weekend must be deducted from the individual's AA balance.

b. To overcome the issues above, 3WM vessels may wish to consider the following option to ensure Watch Rotation Leave (WRL) is recorded accurately:

(1) Each instalment of WRL is added as AA and annotated as WRL.

(2) When proceeding on WRL, the Ship's Office record leave via Mass Update of leave for all watch personnel.

(3) Upon return from WRL, the next set of WRL is added as AA. This process is repeated for each rotation.

SECTION 5 - SEPARATED SERVICE RECORDING

2619. Introduction

a. The recording of Separate Service (SS) was introduced as a means of measuring Harmony on an individual rather than unit basis. Within the RN, the Separated Service Planning Tool (SSPT) is used for planning (policy guidance for SSPT users can be found at Para 2631) and JPA used for recording an individual's accrued SS.

b. All personnel within the RN have their Harmony measured by recording SS against a threshold of 660 days over a rolling three year period (written as 660/3). This is a Category 'A' (mandatory) Personnel Functional Standard (PFS) for all RN and RM personnel on the trained strength (except badged SF personnel, 3WM personnel and RN/RM junior officers during their first 10 years on the trained strength for whom 660/3 is a Cat 'B' (desirable) standard). Any breach or anticipated breach of the 660/3 threshold, regardless of whether a waiver has been submitted, must be reported to NCHQ using the latest PFS Reporting Tool issued by NCHQ.

c. It is recognised that individuals assigned to 3WM Survey Vessels are likely to exceed the 660/3 SS threshold due to their long deployment periods. As a result, 3WM vessels are to manage SS (see Para 2615) in accordance with Para 2624.

d. Irrespective of whether personnel fall under Cat A or Cat B, the accurate and timely recording of SS is essential to ensure that Individual Harmony is fully understood and personnel do not exceed the maximum threshold of 660 days SS over a rolling three year period.

e. In times of significant war fighting it may be necessary to breach the SS threshold of 660/3 for all or part of the Royal Navy. It is envisaged that this provision will only be used where there is a general (as opposed to limited) call out of Reservists.

f. SS recording is applicable to all Royal Navy personnel including those on Exchange, Loan Service and Secondment, but excludes personnel undergoing initial training.

g. Under the call out powers of the RFA 96, the 'Time Out' Policy applies to Mobilised Reserve personnel such that they cannot be mobilized more than once in the period governed by JSP 753 (Tri Service Policy for Mobilised Reserves), unless they choose to volunteer.

2620. Definitions

Standard tri-Service definitions are:

a. **Separated Service (SS).** Absence from normal place of duty or lack of freedom to enjoy leisure at place of duty/residence at work address (RWA) or leave.

b. **Separated Service Day.** One SS day will be awarded for each period of 24 hours absence from an individual's normal place of duty/RWA.

c. **Normal Place of Duty.** Normal Place of Duty is defined as the base, station, unit, establishment, or base port in the case of HM Ships.

d. **Residence at Work Address (RWA).** Residence at Work Address can be privately owned or rented property or Service Family and Single Living Accommodation (SFA/SLA) and applies irrespective of Personal Status Category.

e. **Duty Personnel.** Those who are members of a unit or organisation's duty staff for a period of at least twenty-four hours and as a result are required to sleep in accommodation specifically allocated for this task. Such personnel are deemed to have a 'night out of bed' at their RWA. Those whose duty is on call and not absent overnight from their RWA are not eligible for the award of duty SS. Personnel who are watchkeepers and are granted watchkeepers leave are not to be awarded SS. When watchkeepers leave is not given, however, SS should be awarded.

2621. SS Reason Categories and Recording Codes

a. The SS Reason Categories and Recording Codes are defined in JSP 756 Chapter 3. SS recording has no immediate effect on pay and allowances, but is used to measure the separation from normal place of duty or RWA because of Service commitments. This provides the evidence to influence and inform personnel related management decisions. It records when an individual is away from their normal place of duty for 24 hours or more and also when their free time is limited because they are on duty at their normal place of duty. It is stressed that SS is absence from normal place of duty/RWA and not absence from family.

b. Harmony time will be delivered at the normal place of duty. Non-qualifying Service, such as periods on Leave, undertaking Sport and Adventurous Training, together with exemptions are detailed at JSP 756 Chapter 3, Para 4. Personnel landed for harmony purposes, when not on leave, will be expected to work as normal[2]; however, if they are subsequently required to undertake 24 hour duties or be absent from their base port, this will be recorded as SS.

2622. Recording Separated Service

a. SS will be recorded on JPA by the following processes:

(1) Move and Track Arrival.

[2] Different rules apply to personnel serving in 3WM Survey Vessels during off-watch periods (Para 2615 – Para 2619 refer).

(2) Move and Track Change of Location for Temporary Medical Reasons.

(3) Move and Track Recording Separated Service for Duty Staff.

(4) Move and Track Move Reasons.

b. Individuals are personally responsible for reporting to the HR Administrative Clerk to perform the 'Arrivals' procedure at the earliest opportunity upon arrival at their new unit, or on returning to their parent unit, when SS will be captured. Individuals without immediate access to HR Admin staff or units without access to JPA should report all changes to location and SS immediately to their parent administrative unit for input into JPA by the fastest means possible, such as e-mail. The form at Annex 26A should be used to report all absences to the individual's parent unit.

c. On arrival at a new unit, the EWO or equivalent is to verify the individual's Move and Track record for the last three years. Where excessive SS is evident through inaccurate recording, corrective action is to be taken by unit HR staff and the previous unit notified. Individuals leaving a unit on assignment are to have their SS record verified prior to joining their next unit and any recording errors are to be rectified. Where unit HR staff are unable to amend incorrect SS levels that are over nine months old[3], they are to forward the incorrect SS record to the nominated Senior Arrivals Clerk within that Parent/Unit Admin Authority or to the RN/RM Pay and Delivery Focal Point Team via e-mail (NAVYSPTLOGS-PADELFP@mod.gov.uk) for entries which are over two years old , supported by comprehensive documentation, for correction. A list of the units with nominated Senior Arrival Clerks is at Annex 26B.

2623. Separated Service Voluntary Waivers

A voluntary waiver is an individual's agreement that they are prepared to breach the 660/3 threshold in order to remain at sea or away from base port. This must not, however, mask the individual's true SS balance and SS must continue to accrue during the period of the waiver. It is vital that Unit HR record all waivers on JPA and that the appropriate Reason Code is used. This will ensure that despite a waiver being submitted, individuals true SS is recorded in JPA. See Section 6 of this Chapter.

2624. 3WC Vessels including OPV and Survey Vessels

a. Personnel serving in 3WC vessels will continue to have bespoke leave and travel arrangements which are detailed in Section 4 of this Chapter. The careful management of such 3WC arrangements will help maintain accurate SS recording and management of personnel serving in 3WC vessels. Guidance for personnel joining and leaving 3WC units can be found at Annex 26M.

b. It is recognised that individuals assigned to 3WC units are likely to exceed the 660/3 SS threshold due to their long deployment periods and individuals assigned to 3WC units are, instead, to comply with an 825/3 standard, broken down as follows:

[3] SPVA has approved the extension of rollback function from 9 months to 2 years for 9 RN Unit HRs in major shore UPOs.

(365 days total x3 = 1095) – (90 days harmony x3 = 270) = 825 days SS in a 3-year period.

c. Due to the more inflexible nature of workforce management within the 3WC rotation model, in order to pre-empt breaches of PFS, careful tracking of annual harmony is essential. Therefore, the following should be noted:

(1) Failure to deliver the 90-day annual protected harmony entitlement in any particular year carries significant risk of Cat A PFS breach, by leading the individual to exceed the 825/3 SS Standard, noting the limited ability of 3WC units to release personnel to regain lost harmony time and reduce SS over the remainder of their assignment.

(2) Where it is anticipated that a unit in 3WC will fail to deliver an individual's annual 90-day protected harmony the unit is to engage with their Class Generating Authority (CGA) and present a plan to regain the individual's projected SS to the 825/3 standard over the remainder of their employment within 3WC; to be approved by both the Ship's CO and the CGA. 3WC units should note that the 7 day annual allowance for Career Development / TOIL does provide some limited capacity to recover lost harmony time and reduce an individual's projected SS total to within the 825/3 standard, when used to deliver time-off.

(3) Where it is considered necessary to breach the core 90 annual days of 'Protected Harmony' for an individual in 3WC on exceptional grounds to preserve unit operational capability, and a solution to recover them to within the 825/3 standard during the remainder of their employment within the 3WC model has not been found:

(a) The individual may elect to submit a voluntary PFS waiver in accordance with Section 6 of this Chapter to continue their sea service. This measure should be carefully considered by the CO, time limited and accepted only in extremis.

(b) Where the individual elects not to submit a voluntary waiver, an application to breach an individual's Protected Harmony threshold must be made, in advance, by the CO (having consulted the relevant OF5 Flotilla Commander, or equivalent) to Deputy Director People Delivery.

(c) If the application is supported, SS continues to accrue and is to be addressed at the earliest opportunity. NAVY PEOPLE-PSP EMP POL-SO1 is to be informed and an involuntary waiver is to be recorded.

(4) Any breach or anticipated breach of the 660/3 SS threshold for personnel within 3WC units is to be reported as a failure to deliver a Category 'B' PFS.

(5) 3WC units must, in any case, liaise closely with Career Managers when individuals with high SS balances depart the 3WC system and are assigned to non-3WC seagoing units.

2625. Clarification of Accrual of Separated Service

a. **Watchkeepers/Dutymen/Shift workers.** 'Lack of freedom to enjoy leisure at place of duty/residence at work address, including leave' applies only to those personnel who are required by their duty to remain on board their unit for periods of 24 hours or more. Personnel who are shift workers, watch keepers, or duty personnel, who are on duty for less than 24 hours, are not covered by the SS regulations (See Annex 26C). The X Factor and additional leave arrangements compensate for this kind of working.

b. **Late Working.** SS may be awarded where an individual works late on a frequent basis as this is the kind of overstretch that SS is trying to capture. Frequent basis should be taken as three consecutive days working where a minimum of four additional hours have been worked beyond normal secure on each day. In most cases this should mean working beyond 2000 on weekdays. One day's SS should be awarded for each day this happens, backdated to the first day and triggered on passing the 'frequent' criteria; recording will cease as soon as the consecutive run is broken.

c. A manual SS entry, using the form at Annex 26D, will be required and must be authorised by the CO or Head of Department (HOD), Reason Code 16 is to be used in these circumstances. The form at Annex 26D can be customised to fit local conditions but must always be signed by the CO or HOD who will wish to monitor working practices closely. The forms should be retained for 12 months after the end of the period of Frequent Late Working.

d. On Call. Where personnel are on call or at reduced notice to move, a SS day will only be awarded when called in for four hours or more[4]. Personnel on leave who are recalled should be awarded a SS day and be granted leave for the period recalled.

[4] This 4-hour period does not include travelling time.

e. **Compassionate Assignments and Locally Managed Compassionate Relocation.** Compassionate assignments will be granted in the normal manner once approval has been received from DDPD following a RN FPS recommendation. If assigned or locally managed to another location for compassionate reasons, the new location will become the normal place of duty and SS will only be accrued for qualifying absences from the new location.

f. **Compassionate Leave.** Compassionate Leave will be granted/approved in accordance with the guidance contained in JSP 760 Chapter 16. The amount of leave will be entered into the individual's JPA absence record by Unit HR. The individual is then to create an Absence Request under JPA Self Service Employee in the normal way applying for the number of days under Individual Leave Allowance. SS will not accrue for periods of compassionate leave providing the above guidance is followed and the SS Reason Code box is left blank when the Move and Track process is completed.

g. **Hospitalisation/Medical.** Periods of hospitalisation as a result of an injury or illness that is not attributable to the Service will not be recorded as SS and the SS Reason Code must be left 'Blank'. SS, however, is to be recorded where an individual is hospitalised as a result of an injury or illness directly attributable to their duty in a professional or representative capacity, or when employed on a named operation. In these circumstances Reason Code 08 should be used. When an individual leaves hospital or, if abroad, returns to the base port or RWA, SS will cease. If the individual returns to duty (or, if medically downgraded, is employed on duties other than the ones they were on before the injury) they will be entitled to SS under the normal rules. If an individual is assigned to a Recovery Cell (including Hasler Company), this new location will become the normal place of duty and SS will only be awarded for relevant absences from or duties at that location. When an individual goes on sick leave this will be entered onto the JPA Absence Record, but will not count towards the SS limit of 660/3.

h. **Training Courses.**

(1) If a course lasts for six continuous months or more (182 days), whether assigned or not, the location of the course will become the new normal place of duty and SS will not be awarded. LSA will cease at the start of such a period, but personnel may be eligible for Disturbance Allowances and/or GYH packages as appropriate under existing rules.

(2) If the course lasts less than six months and the individual is Permanently Assigned to the course, the Training Establishment becomes the new normal place of duty and SS will not be awarded.

(3) If the course lasts less than six months and the individual will be returning to their unit, SS will be awarded provided the course takes place outside of the Base area.

(4) For courses which are wholly residential (i.e.. must live onboard throughout), personnel attending will be awarded SS for the entire course even if it is held in their base port/parent air station/base unit area. If the course is partly residential, personnel attending will get SS for the days which are residential even if the course is held in their base port/parent air station/ base unit area.

(5) For all other occasions not described in sub-paragraphs (1) – (4) above, such as if the individual is Managed Moved to the course that takes place out of their normal place of duty/base port, they will be awarded SS for the length of the course.

i. **Displaced Upkeep Periods.**

(1) For ships and submarines undergoing displaced upkeep periods where a formal base port change has occurred, SS is to be recorded only whilst personnel qualify for LSA payment or accrued through duties (paragraph a. refers).

(2) For ships and submarines undergoing displaced upkeep periods where no formal base port change has occurred, SS will be recorded whilst LSA remains in payment. Where LSA is in payment SS recording will continue for those personnel who remain with the ship at the displaced upkeep location. It will cease for those in the base port Rear Link Organisation. SS, however, is to be recorded for those personnel undertaking planned visits to the displaced upkeep location.

j. **Personnel Under Punishment.**

(1) When an individual is awarded a custodial sentence, their SS will cease.

(2) When an individual ashore/alongside is punished with stoppage of leave, they will not be entitled to SS on grounds of lack of freedom to enjoy leisure time. If, during the period of stoppage of leave, the individual undertakes a normal, rostered duty they will be entitled to SS for that duty.

(3) If an individual is under punishment when deployed, they will continue to accrue SS for any days outside of their base port/place of duty.

2626. Ships at Anchor or at Buoy.

a. Where a ship is at anchor or buoy within its base port, the following rules apply (for the purposes of this paragraph only, base port is the area controlled by the local KHM):

(1) Duty Watch personnel are entitled to a day’s SS under the normal rules.

(2) If overnight leave is not granted, or if liberty boats are not available or precluded due to bad weather, all personnel will be entitled to SS days as Reason Code 5.

(3) Where overnight leave is granted and transport is provided to take people ashore, a SS day is not to be awarded, except to those covered by sub para (1) above. Personnel granted leave but who choose not to go ashore are not to be awarded a SS day.

b. Annex 26E is a guide and provides scenarios that involve a change of SS.

SECTION 6 - SEPARATED SERVICE WAIVERS

2627. Background

a. Whilst it is a PFS Cat A requirement to maintain the 660/3 harmony threshold for personnel (see Chapter 22 Annex 22A), there may be occasions when personnel are prepared to breach that Harmony threshold in order to continue to serve at sea or away from their base port/unit. Special arrangements are in place for 3WM personnel; where any policy states 660/3, replace with 825/3 (see Para 2624).

b. Individual harmony[5] is delivered through a number of management processes that are used to prevent a breach of the 660/3 threshold. It is important to identify early when an individual approaches the SS threshold and take positive action to prevent and manage anticipated breaches. The management processes include squad or watch rotation, career management, assignment, voluntary waivers, unit programming, duty rosters and specific exemptions.

2628. Separated Service Voluntary Waivers

a. In order to provide personnel a greater say in the management of their own lives, it is recognised that there may be circumstances where individuals wish to continue to serve with their operational unit for personal or professional reasons, but in doing so would increase their SS days and breach their 660/3 threshold thereby reducing their availability for deployment.

b. The SS Voluntary Waiver Scheme is designed to allow individuals to declare that they are prepared to breach their Harmony threshold of 660/3 and continue to serve at sea or away from their base port/unit rather than be landed to drive down their SS balance. A voluntary waiver of SS is, therefore, an individual's acceptance that they are willing to breach the 660/3 threshold in order to remain at sea or be away from base port and will have the assurance that their actual SS record accurately reflects their time served away from base port/unit. To achieve this when a voluntary waiver is submitted and approved normal SS recording must take place in accordance with the guidelines in Section 5, above, for the period of the voluntary waiver.

c. For the purposes of managing the individual the voluntary waiver request form needs to be retained by the EWO to provide an audit trail and evidence that the individual has agreed to breach 660/3.

d. All personnel involved in considering applications for voluntary waivers must be confident the applicant is a 'volunteer' and that no perception develops that agreeing to a waiver will help an individual's career whilst not agreeing to one will have a negative impact on their prospects.

[5] Harmony is defined as "The freedom to enjoy leisure at the normal place of duty or residence at place of work, which includes leave."

e. On submitting a voluntary waiver application, the following conditions must be met. Only an individual can request a voluntary waiver, which must be for a specific purpose and for a limited time. EWOs should discuss the options of managing an individual's SS when it is apparent that the 660/3 threshold will be breached, e.g. during a forthcoming deployment.

f. The waiver is voluntary, and no individual is to be placed under pressure to request a waiver.

g. The individual must formally request a voluntary waiver by submitting Annex 26F through the DEPCO, DO, unit HR, EWO and, to ensure management visibility, this should be approved by the following as a minimum, the XO/HOD (for FF/DD), CO (for MM/PP), SPLOT/SOBS (for FAA Squadrons) or Company Commander (for RM).

h. When considering whether to approve a voluntary waiver of SS, line managers should consider the following factors:

(1) Is a waiver required or can operational imperatives be met within 660/3?

(2) Quality and appropriateness of work in the 'separated' location.

(3) Effect on peer group within the unit (duty rosters and career development, etc.).

(4) Travel and subsistence implications and affordability within the unit travel budget.

(5) The local CMC perspective with respect to employment of 'pinch point' cadres.

(6) The procedure for squadded personnel requesting to work in an AFCO (see Para 2629 sub para b).

2629. Routines to be Followed for Recording Voluntary Waivers

a. The outcome of the request for a voluntary waiver is to be formally recorded on JPA, by Unit HR in accordance with JPA Business Process Guides, and a hard copy of the completed waiver request form (Annex 26F) is to be retained by the EWO or DEPCO for a period of 4 years and an e-mail sent to NAVY PEOPLE-PSP EMP POL SO1 with the name, rank, service number, waiver dates (start/stop) of the individual and estimated SS total at waiver end date. To ensure there is an adequate audit trail, a checklist and the routines to be followed when applying for and recording a voluntary waiver are at Annex 26G and Annex 26H respectively.

b. Should squad personnel request employment in an AFCO, the EWO/SMC/COXN is to liaise with the CMC who will seek approval. The EWO/SMC/COXN should not liaise directly with R&A or AFCOs to arrange JR employment. There is no requirement to request a SS waiver as SS will not accrue providing the individual has volunteered for this employment and the SS Reason field is left ‘blank’.

c. It is important that Unit HR has a reliable bring up (BU) system in place to ensure that appropriate JPA action is taken to stop the waiver on the end date noted on the Request Form for a Voluntary Waiver.

d. In normal circumstances, the 660/3 threshold will not be breached, however, it is accepted that there may be occasions when it could be necessary to deliberately breach the 660/3 limit, generally for exceptional operational and resource reasons:

(1) In times of significant war fighting.

(2) To preserve unit Operational Capability.

e. In such circumstances, when all management processes have been exhausted (i.e. consultation with CMs, rotation or risk of taking a gap) and a solution has not been found, including individuals not electing to submit a voluntary waiver, then an application to breach an individual’s SS threshold must be made by the CO (having consulted the relevant Flotilla Commander, or equivalent) to Navy People Trg Career Management Head; to be raised with DPTY DIR PEOPLE DELIVERY as required. If the application is supported, NAVY PEOPLE-PSP EMP POL SO1 is to be informed.

SECTION 7 - SEPARATED SERVICE PLANNING TOOL

2630. Introduction

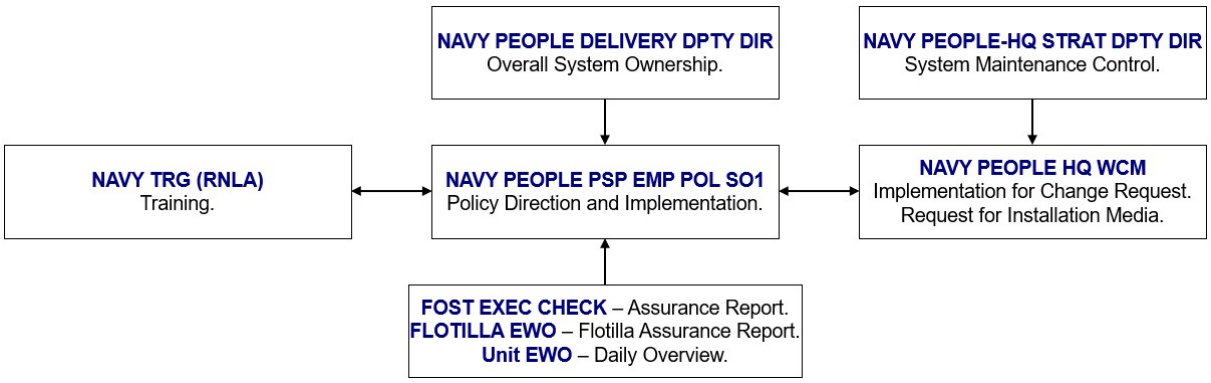
a. These instructions give the policy guidance for the use of the Separated Service Planning Tool (SSPT); including fault reporting, training, assurance and the change process.

b. SSPT, in addition to providing units with a powerful workforce planning tool to manage Separated Service, also has functionality with which to manage Leave, Accommodation, Watch and Station Bills and Course Booking.

2631. Ownership

DDPD has overall responsibility for the use of SSPT across the Royal Navy; however, policy guidance lies with Navy People PSP EMP POL SO1. Figure 1 provides a graphical representation of the additional areas of responsibility.

Figure 26-1 - SSPT Responsibility Owners



2632. Overview

To enable the full functionality of SSPT to be captured, the following areas of policy are included at Annex 26J.

Generic Terms of Reference.
Generic Hierarchical Structures.
User Definition and Functionality.
SSPT Course Booking Request Process.
SSPT Activity Definitions.
SSPT Assurance Check-List.
SSPT Fault Resolution and Ownership.

2633. Direction and Guidance to Users

a. **Individual Plans.** Personnel assigned to the unit should reflect the ship's plan and where the individual's plan varies from that of the ship this must be annotated on the individual's Gantt Chart.

b. **"WMO for Employment" Tick-box.** When populating personnel activity, unit planners (DEPCOs and EWOs) are to tick the 'WMO for Employment' box when the individual is to be employed by the WMO (Temporary Employment Cell (TEC)). Ticking this box automatically populates the 'Shore/WMO Employment' Report.

c. **SSPT Live / Mobile.** Units alongside for periods of time greater than eight weeks can request, via their respective FEWO/COXN to have their SSPT data transferred to the Live system in order to utilise SSPT Live. Before returning to Sea, units are to return to SSPT Mobile by contacting their respective FEWO/COXN before physically starting the process on the server to allow DBS Technical Support time to check and setup the transfer at DBS. Users are reminded they are not to contact DBS direct with SSPT problems.

2634. User Guide

The SSPT User Guide has the answer to most questions raised by users and can be accessed from the help menu located on the main SSPT interface. It provides comprehensive, step by step instructions and is illustrated with full colour screen shots. The guidance available includes:

a. Characteristics, set-up and use of the planning tool.

b. Course booking function.

c. Accommodation management function.

d. MO(TEC) employment function.

e. Watchbill function.

f. Generation of reports using the report wizard.

2635. Training

a. DEPCOs, EWOs, EWO(A)s and MM/PP Cox'ns will receive training at the RNLA as part of their attendance on the relevant Coordinator's Management Course. Unit EWOs are to provide training for Commanding Officers, Heads of Departments, Divisional Officers and Divisional Senior Ratings using the onboard facility.

b. The SSPT suite at the RNLA is available for use by EWOs and other users to conduct SSPT training. The RNLA EWO has limited spare capacity to deliver additional user training but, when not in use, the SSPT classroom will be made available as a resource for EWOs to deliver their own SSPT training. The RNLA EWO is the training lead for SSPT and is the point of contact for SSPT classroom bookings.

2636. Assurance

a. DDPD retains the overall responsibility for SSPT assurance. To assist the assurance process, the following audits are to be conducted:

Flotilla EWO - annually.
FOST - during OST.
P&T DDPD POps - during Unit Workforce Checks.

b. Audits are to ensure that relevant ToRs are in place for the key users of SSPT, that SSPT use is in accordance with the policy stated in this chapter and that data recorded in SSPT is relevant and correct. Guidance on conduct of SSPT audits is included in Annex 26J and feedback is to be provided to NAVY PEOPLE-PSP EMP POL-SO1.

2637. Development Process

The P&T Business Support manages the overall development process with inputs from the user community to be provided via the SSPT Users Working Group; to be chaired by NAVY PEOPLE-PSP EMP POL-SO1 on a bi-annual basis.

2638. Fault Reporting

SSPT Users should initially refer any fault to the EWO/COXN for resolution. Faults that cannot be resolved at Unit level are to be raised in accordance with. Annex 26J.

2639. Requests for Installation Media

SSPT software should be requested from P&T Business Support.

SECTION 8 - CAREER INTERMISSIONS

2640. Introduction

a. These instructions give guidance to Royal Navy personnel with regard to Career Intermissions (CI). They detail the single Service process for delivering the CI policy set out in JSP 760 Chapter 5 which **must** be read in conjunction with these instructions.

b. A period of unpaid absence exceeding three months in length is defined as a 'Career Intermission'; 'unpaid leave' of 93 days or less may be awarded by Commanding Officers[6] provided that they can be accommodated within an individual's current assignment and without relief.

c. CIs are not a right and can only be approved where personnel margins allow and where they do not compromise operational effectiveness.

d. It is essential for personnel at junior levels to undertake a number of jobs, primarily at sea, in order to consolidate their training and develop their general skills so as to be effective members of the Royal Navy. To this end, officers and ratings/other ranks must, except in exceptional circumstances at the discretion of the Service, have completed a minimum period of service following completion of initial training (i.e.. the end of professional training for officers; the end of initial training for ratings/other ranks) in order to be considered for a CI. Likewise, to avoid a reduction in the employability and deployability of personnel, individuals are normally restricted to a maximum of three CIs during their career and subject to an aggregated total length of three years.

2641. Eligibility

a. In order to be eligible for a CI, applicants must satisfy the criteria laid down in JSP 750 Chapter 5 and in addition for the RN:

(1) Must have sufficient time left to serve on return from a CI that is equal to or greater than the length of the CI itself (but see Para b sub para (1) below).

(2) Must not have submitted their notice to leave the Service.

(3) Must not be subject to disciplinary action or **investigation**.

(4) Must not be subject to formal warning or administrative investigation that might lead to administrative action or discharge.

(5) If attendance at the Royal Navy Medical Board of Survey (RNMBOS) and Royal Navy Medical Employability Board (RNMEB) is imminent, a CI application should be deferred until after such a referral has been made.

[6] JSP 760 Para 17.001.

b. Individuals must be wholly aware of the effects that a period of absence from paid service will have on their career and should consult widely, including with their Career Manager (CM), to fully understand the effects of taking a CI, prior to applying, as their original Terms and Conditions of Service (TCOS) will change as a result of being on a CI. Full details of the likely impact on individuals' TCOS (including pay and allowances, leave, accommodation, medical/dental care and travel) are contained in Annexes A and B to JSP 760 Chapter 5 and include the following:

(1) **Reckonable Service.** Although an unpaid CI counts towards a fixed-term commission/ engagement/career it is not reckonable for pay or pension purposes. As a result, individuals may request a delay in their exit date that enables them to complete the same period of reckonable service towards their pension entitlement that their pre-CI Terms of Service (ToS) provided, if they so wish. It should be noted, however, that there may be exceptional reasons why this request may not be possible and individuals should engage early with CMs to establish their individual situation.

(2) **Return of Service (ROS).** If, exceptionally, individuals are awarded a CI despite having an outstanding ROS, time spent on a CI will not count towards the ROS period. Individuals will be required to complete the outstanding ROS liability, which will be 'frozen' for the duration of a CI, on returning to paid service.

c. **Career Compression.** The loss of career development opportunities that might be caused by a CI and the suspension of seniority may set individuals behind their peers with whom they joined the Service.

d. **Career Progression.** Time spent on a CI does not count towards seniority. Promotion is therefore likely to be delayed by a period of time equivalent to the length of the CI. Individuals who are eligible to be considered for promotion, however, will continue to be considered at promotion boards held during the period of the CI. In the Officer Corps, if selected for promotion whilst on a CI, the date of promotion will become effective either from the published date of promotion or the date on which individuals return to paid service, whichever date is later. Similar action will be taken for individuals eligible for consideration for transfer to longer commissions. For Ratings' promotions, refer to Chapter 67 and Chapter 68.

e. **Redundancy.** Personnel on CIs will be eligible for selection for redundancy in the same manner as others of their rank and branch. Those selected for redundancy will have the same exit date as others, irrespective of the date they were due to return to service.

2642. Applications

All individuals who wish to apply for a CI should submit an application Annex C to Chap 5 JSP 760 to their Commanding Officer at least five months[7] before the requested start date of the CI, thereby allowing adequate time for the application to be processed and for appropriate assignment action to be taken on behalf of the individual and their relief.

2643. Processing the Career Intermission Application

a. On receipt of a CI application, the Commanding Officer is to complete Part 3 of the application form, giving their recommendation, notification of any compassionate or other leave already taken, the date by which a relief will be required and confirmation that the application is not made for the purpose of removing the individual as a result of misconduct. The completed form should be forwarded to NCHQ (for attention of the Terms of Service (TOS) Manager (NAVY NPS-STRATPOL TERMS OR SO3C).

b. Once received in NCHQ, the TOS Manager will take ownership of the process and ensure that the application is logged and distributed as required for consideration by the Royal Navy Flexible Employment Board[8] (RNFEB) in accordance with the process at Annex 26L.

2644. Royal Navy Flexible Employment Board (RNFEB)

a. The RNFEB will usually review CI requests 'out of committee'; however, it will convene for more complicated cases or during times of increased volumes of applications. A decision will normally be made within 30 working days of receipt of a CI request and a letter will be sent to the applicant's CO informing them of the Board's decision:

(1) If the application is approved, the letter will include details of the changes to individuals' TCOS that will apply as a result of the CI. Individuals will be required to confirm their acceptance of these changes in writing before commencing the CI. Following written acceptance by the applicant, the CM will assign the individual to MTM NELSON MA11 UNPAID LEAVE for the duration of the CI.

Note. *All approved CIs must be assigned to NELSON in order that correct action is taken to suspend pay and allowances).*

(2) If the application is not approved, the letter will explain why it was unsuccessful. In the event that an individual wishes to complain about the rejection of their application, they should submit a Service Complaint[9].

[7] Assignment notice required to provide a SR relief Shore to Sea is five months. Exceptionally, applications submitted at shorter notice will be considered on a case-by-case basis.
[8] The NSFEB comprises, when necessary, the SO1 ToS, , Navy Legal EMPL LAW SO1, the relevant Career Manager/Requirements Manager and N9 Pol Head.
[9] In accordance with JSP 831 (Redress of Individual Grievances: Service Complaints).

b. The award of a CI is not guaranteed. The current and future needs of the Royal Navy will always be taken into account and applications will be approved/refused on a case-by-case basis taking into account personnel margins, operational capability and the principles detailed above.

c. Personnel who plan to work for another employer during a CI are still required to request permission IAW BR2 Chapter 84.

2645. Early Termination of a Career Intermission

In the normal course of events, a CI will terminate at the end of the agreed period, but the CM or individual may wish to end the arrangement earlier. Procedures for the premature termination of a CI are:

a. **At the Instigation of the Career Manager.** If a CM needs to terminate a CI, individuals will, where possible, be given five months' notice. Exceptionally, where overwhelming Service reasons dictate, the notice period may be reduced to meet the needs of the Service. This reflects the fact that individuals on a CI remain members of the Armed Forces and thus are liable to meet operational contingencies.

b. At the Instigation of Individual. Individuals who wish to terminate a CI may apply to do so at any time but will need to give a minimum notice period of five months to allow for administrative and assignment action. If an earlier return to paid service is requested, the CM will endeavour to accommodate the request but no guarantees can be given.

2646. Assignment following a Career Intermission

In order to allow sufficient time for normal career management procedures and principles to apply, individuals on a CI should notify their CM of their assignment preferences and, if necessary, attend a career interview at least nine months prior to returning to duty. If the CI is for a period of less than nine months, this action should take place prior to the start of the CI.

2647. Submission of Notice Option during a Career Intermission

Assuming no outstanding ROS commitment, individuals may give notice to leave the Service whilst serving on a CI. In such cases, they will be subject to the normal 12 month notice rule. The length of a CI will not necessarily be shortened because individuals give notice since the notice period can be served concurrently with time spent on a CI. depending on the needs of the Service, however, those who give notice with less than 12 months of their CI remaining could be required to return to service for part of the notice period. Conversely, if there was no requirement for an individual to return, early release may be approved if requested. Each case will be judged on its merits. Guidance on eligibility to Resettlement Training and Terminal Leave can be found in JSP 534 and JSP 760.

ANNEX 26A

SEPARATED SERVICE - REPORT OF ABSENCE FROM PLACE OF DUTY

Rank/Rate	Surname and Initials	Service Number

Tel No		Place of Work	

To be completed by individual:
I will be/have been absent from my normal place of duty between the following periods:

Date and Time of Departure	Date and Time of Return	Overnight Absence?		Reason for absence (eg. leave, Sport/AT, Course, Meeting) (For duty state location)	UPO SS Code	Leave Record
		Y	N			Y/N
		Y	N			Y/N
		Y	N			Y/N
		Y	N			Y/N
		Y	N			Y/N
		Y	N			Y/N
		Y	N			Y/N
		Y	N			Y/N
		Y	N			Y/N
		Y	N			Y/N

Remarks

This represents a true record of my absence from my normal place of duty or restrictions placed on my leisure for the period above.

Signature		Date	

UPO Use Only.

ANNEX 26C

DEFINITION OF WATCHKEEPING

	DEFINITION	SEPARATED SERVICE	COMMENTS
WATCHKEEPER	An individual who works in a dedicated watch-keeping rota which involves excessive, anti-social hours but for which is compensated by additional stand-down leave periods (incorporating Annual Leave Allowance) in order to re-balance hours worked over the year.	NO	If watch-keeper is not getting W/K Leave - Separated Service accrues as for being on duty
SHIFT WORKER	An individual who works a normal day in terms of hours but possibly at an unusual time. No additional time off granted.	NO	X-Factor and additional leave arrangements compensates for this kind of working
DUTYMEN	Individuals who are required onboard for 24 hour period(s) and unable to exercise personal choice about location of leisure time, without guaranteed compensating leave.	YES	

ANNEX 26D

SEPARATED SERVICE - FREQUENT LATE WORKERS

Unit/Establishment Name: .....

From {Start Date}: .....

To {End Date}: .....

1. The above dates were a period of Frequent Late Working.

2. The following personnel Frequently Worked Late. It has not been possible to grant Time off In Lieu. Separated Service days are authorised for the personnel named.

Rank/Rate	Surname & Initial	Service Number	No of Days SS

Signed:	Name:	Rank/Rate:	Date:

UPO Use Only

3. This form is to be retained for a period of 12 months from the End Date of the period of Frequent Late Working.

Notes:

1. Frequent Late Working is a period of three consecutive days working where a minimum of four additional hours has been worked beyond normal secure each day.

2. The CO or Officer in Charge must sign this form.

ANNEX 26E

SCENARIOS WHICH WILL INVOLVE A CHANGE TO SEPARATED SERVICE

SITUATION	LSA in issue	SS accrual	CODE TO BE USED
Ship			
Ship alongside in Base Port	No	No	'Blank' - SS reason code left blank
Ship sails for equipment trial UK waters	Yes	Yes	05 - Other/Routine Tasks (Unaccompanied Posting)
Ship returns to Base Port	No	No	''Blank' - SS reason code left blank
Ship sails for shakedown/BOST	Yes	Yes	10 - Collective Training (Training for Primary Role)
Ship returns to Base Port post work up	No	No	'Blank' - SS reason code left blank
Ships sails for DCT prior to deployment	Yes	Yes	09 - Collective training (Pre-operations)
Ship returns to Base Port for leave	No	No	'Blank' - SS reason code left blank
Ship proceeds on deployment as directed by PJHQ	Yes	Yes	01 - Military Tasks (Deployed Operations)
Individual			
Onboard ship at sea conducting day running from Base Port	Yes	Yes - Providing normal night leave cannot be granted	05 - Other/Routine Tasks (Unaccompanied Posting)
Detailed to undertake Freedom of City of Derby march (2 days absence)	No	Yes	07 - Other/Routine Tasks (Routine Tasks/Primary Duties)
Returns to ship (now alongside in Hull)	Yes	Yes	05 - Other/Routine Tasks (Unaccompanied Posting)
Joins shore base on reassignment (lives ashore)	No	No	'Blank' - SS reason code left blank
Detailed for Duty onboard	No	Yes	16 - Duty personnel (Duty Staff)
Returns to employment at normal place of duty	No	No	'Blank' – SS reason code left blank
Major flood in area – gets detailed to assist civil authorities. Accommodated in TA Centre, unable to return home at night	No	Yes	04 (Military Tasks (MACC))
Return from flood relief operations to normal place of duty	No	No	'Blank' - SS reason code left blank
Detailed for November Ceremonies training	No	Yes - if out of Base Port area	06 - Other/routine tasks (Detachment)
Returns to normal place of duty	No	No	'Blank' - SS reason code left blank
Commences OPTAG training prior to OPTOUR	No	Yes - if out of Base Port area	09 - Collective Training (Pre-operations)
Returns to shore base o/c OPTAG	No	No	'Blank' - SS reason code left blank
Arrives at deployment unit conducting military ops in Iraq.	Yes	Yes	01 - Military Tasks (Deployed Operations)
Injured in theatre - MEDVAC'd to UK and is hospitalised at Selly Oak	No	Yes	08 - Other/Routine Tasks (Unestablished commitments)
Sent on sick leave at family home	No	No	'Blank' - SS reason code left blank
Joins shore base on return from sick leave	No	No	'Blank' - SS reason code left blank

SITUATION	LSA in issue	SS accrual	CODE TO BE USED
Cdo Unit			
At permanent camp	No	No	'Blank' - SS reason code left blank
Winter Deployment to Norway	Yes	Yes	10 - Collective training (Training for Primary role)
Permanent camp	No	No	'Blank' - SS reason code left blank
OPTAG	No	Yes - if undertaken away from permanent camp area (e.g. NELSON if based at Taunton)	09 - Collective Training (Pre-Operations)
Deploy on OPTOUR	Yes	Yes	01 - Military Tasks (Deployed Operations)
At permanent camp o/c OPTOUR	No	No	'Blank' - SS reason code left blank

ANNEX 26F

REQUEST FORM FOR VOLUNTARY WAIVER OF SEPARATED SERVICE

All Sections MUST be completed

SECTION 1 (to be completed by the individual)

Name …….Rate/Rank ……Service No ……..

Unit Name……

Reason for Voluntary Waiver (VW): (Tick appropriate box)

A.

☐ To remain with parent unit for service away from base port/area, eg. deployment (BRd 3(1) Chapter 26 Para 2630 refers).

B.

☐ Other (explain)…….

Specify the start and end dates intended for the waiver:

Start Date …… End Date……

Applicant's Signature …… Date …….

SECTION 2 (to be completed by the DEPCO/Manpower Controller (MM/PP/FAA)/Troop Sgt (RM)

The following are the SS figures for this individual:

Actual SS at **start** of VW period …..…… Forecast SS at end of VW Period ……

Tick the box below to confirm that where applicable, the local CMC/temporary line manager during the VW period has been contacted and agreed to provide gainful employment.

☐ POC Name …….. Tel No ……..

Note. *DEPCOs are to ensure that all programmed ALA is taken during the annual cycle and not carried over to the following year.*

SECTION 3 (to be completed by the Divisional Officer/Troop Commander)

I recommend that the above named rating's/ORs request for a VW of SS be approved.

Signed …….Name…….. Rate/Rank ……..

SECTION 4 (to be completed by Unit HR)

In liaison with the DEPCO it is confirmed that the above named rating/OR has all periods of leave taken or programmed to be taken in the course of the annual cycle.

I confirm that travel and subsistence implications have been considered including whether there is a Service requirement.

Specify Service Requirement (if applicable)…….....

Signed……Name…..……..Rate/Rank……Date……

SECTION 5 (for endorsement by EWO/Manpower Controllers (MM/PP/FAA)/CSM (RM)

I confirm that I have checked the validity of this request and therefore endorse it.

Signed ……..Name……..Rate/Rank…….Date……

SECTION 6 (to be completed by CO/XO/Sqn CO (for MM/PP/FAA)

Having taken into account the guidance in BRd 3 Chapter 26 the above named rating's/ORs request for a voluntary waiver is (tick as applicable)

☐ APPROVED

☐ REJECTED

Signed ……Name……Rank……..Date…….

SECTION 7 (ACTION FOR UNIT (to be carried out by Unit HR))

1. Record of Individual, Service Number and duration of waiver to be recorded and maintained in UPO within the Unit HR Supervisor's Log.

2. Unit HR to ensure that the VW is stopped on JPA at the end of the VW period.

3. Original to be retained by the EWO for a minimum of four years.

4. EWO to E-mail NAVY PEOPLE-PSP EMP POL MULTIUSER with: Name, Rank, Service Number and Waiver Dates (start/stop).

ANNEX 26G

CHECKLIST FOR APPROVAL OF VOLUNTARY WAIVER

1	Individual has completed Section One of Request Form in sufficient detail
2	Individual has taken all leave or is programmed to take all leave in the course of the leave year
3	Quality of work elsewhere has been assessed as satisfactory
4	TDT&S implications have been considered. Is there a Service requirement and entitlement to TDT&S?
5	CMC/WOMC (for MM/PPs)/NPT(RM) for RM have been contacted to ensure individual's request is viable and/or practical.
6	Effect on other members of Ship's Company/Squadron/Cdo has been considered
7	Completed original Request Form retained by EWO (to be retained for a minimum of four years).
8	Unit HR record of waiver maintained for future reference in UPO Supervisors Log

ANNEX 26H

ROUTINE TO BE FOLLOWED TO APPLY FOR A VOLUNTARY WAIVER

ACTION BY	ACTION TO BE CARRIED OUT
Individual	Complete Section 1 of Request Form and forward to Divisional Officer/Troop Commander.
DEPCO/TP Sgt	Complete Section 2 of Request Form using Annex B (1-6), checklist and insert current and forecast SS balances.
DO/Tp Cdr	Complete Section 3 to confirm that the individual's request for Voluntary Waiver should be approved
Unit HR	Sign Section 4 of Request Form having confirmed that all leave has been taken or has been programmed to be taken and confirm TDT&S implications have been considered.
EWO/Manpower Controller/CSM(RM)	Sign Section 5 to endorse validity of request for Voluntary Waiver
CO/XO/Sqn CO	Approve or reject the Voluntary Waiver at section 6 and return request to Unit HR

(Continued)

ACTION BY	ACTION TO BE CARRIED OUT
	Note. *Ensure a 'Bring Up' system is in place to ensure that JPA action is taken on requests for a voluntary waiver submitted for a future date and end dates are not missed.*
Unit HR	For period approved JPA action as follows: **Reason A** To remain with parent unit for sea service away from base port/area, eg. deployment Arrivals Clerk Armed Forces, Arrivals Tracking: - Change effective date to start of waiver - Select person - Select radio button and Action - Select radio button "Record Separated Service Waiver" and Start - Select Separated Service "Involuntary/Voluntary" and Next - Review and Submit Arrivals Clerk Armed Forces, Arrivals Tracking: - Change Effective date to start of waiver - Select person - Select radio button and Action - Select radio button "Maintain Separated Service Reason" and Start - Insert appropriate "Separated Service Reason" code and Next - Review and Submit
	Reason B Other (eg. Harmony time away from parent unit) Arrivals Clerk Armed Forces, Arrivals Tracking: - Change effective date to start of waiver - Select person - Select radio button and Action - Select radio button "Record Separated Service Waiver" and Start - Select Separated Service "Involuntary/ Voluntary" and Next - Review and Submit Arrivals Clerk Armed Forces, Arrivals Tracking: - Change Effective Date to start of waiver Select person and Action - Select radio button "Change of Location" and Start - Move reason - "Temporary other Administrative" and Next - Move and Track 24 hr location - insert location - Separated Service Reason box - Leave 'blank' or insert appropriate Reason Code if SS is to accrue. - Allowance Location - complete as required - Complete all separation information required - Review and Submit.
EWO/Manpower Controller/ CSM(RM)	Retain request for four years. E-mail NAVY PEOPLE-PSP EMP POL MULTIUSER with: Name, Rank, Service No and Waiver dates (Start and stop).

ANNEX 26I

AWARD AND RECORDING OF RELOCATION LEAVE, AUTHORISED ABSENCE (AA) AND INDIVIDUAL LEAVE ALLOWANCE (ILA) BETWEEN ASSIGNMENTS

Reference:
JSP 760 - Regulations for Leave and Other Types of Absence - Chapter 4

1. Aim

The aim of this Annex is to clarify the process of authorising, and subsequent recording, of Relocation Leave (RL), Authorised Absence (AA) and Individual Leave Allowance (ILA) between assignments.

2. Introduction

It is the individual's responsibility to ensure that all periods of absence, including those between assignments, are recorded on JPA. The tri-service policy on the allocation of RL is at Reference A and this Annex is issued to clarify the Royal Navy policy for the award and recording of RL and any additional AA and ILA taken between assignments. This policy came into effect on 1 Apr 2012.

3. Policy

RL is a period of authorised absence granted to Service personnel assigned between locations on non-operational normal tours of duty[1] necessitating a change of accommodation, to facilitate the settling in/relocation process for themselves and for their dependants. It is in addition to, and not a substitute for, Annual Leave. All additional periods of absence taken between assignments, i.e. AA and ILA, are to be recorded on JPA.

4. Qualifying Move

Normal moves are those resulting from an assignment order normally necessitating a change of SFA, SLA, substitute equivalents, Residence at Work Address or Selected Place of Residence.

5. Allocation

a. Career Managers (CM) are to authorise RL in accordance with the direction given at Reference A where possible. The award of RL, AA and ILA between assignments is subject to the requirement and exigencies of the Royal Navy and can only be authorised by the CM after consultation with discharging and receiving units, taking into account personal circumstances and the type of move wherever possible.

b. In the context of RL eligibility, RN policy guidance is that a 'normal tour of duty' is defined as a permanent assignment iaw JSP 752 and therefore temporary assignments (any period of duty away from the permanent duty unit, of less than 183 days) do not qualify for RL. This does not preclude Commanding Officers from exercising their judgement to award Stand-down, iaw JSP 760, prior to, and on return from, temporary assignment, if the situation warrants it; say for an overseas detachment/temporary assignment period.

[1] A 'normal tour of duty' is defined as a permanent assignment in accordance with JSP 752 Art 01.0205. Temporary Assignments (any period of duty away from the permanent duty unit, of less than 183 days) do not qualify as a 'normal tour of duty' and therefore are ineligible for RL.

6. Recording

a. Any RL or AA granted by the CM is to be annotated on the Permanent Assignment Order (AO), e.g. Relocation Leave one day, Authorised Absence one day. Any additional periods of absence between assignments will be taken automatically from the Individual Leave Allowance in the following order of priority:

(1) Post Operational Leave.

(2) Seagoer's Leave.

(3) Annual leave Allowance.

b. Once the AO has been issued, Unit HR Admin staff will credit the requisite RL or AA on JPA (in accordance with Reference A and the JPA Business Process Guide). As the Service Person approaches their assignment date they are to apply for RL/AA/ILA on JPA through JPA Self Service (create a separate absence request using the Absence Type 'Relocation', 'Authorised Absence' or 'Individual Leave Allowance'). This process will enable RL/AA/ILA to be captured on JPA.

7. Clarification

All periods of absence are to be recorded on JPA and full details on RL, AA and ILA can be found in JSP 760. Further clarification in the application of RL can be sought from individual CMs. Policy enquiries should be directed to the NAVY PEOPLE-PSP EMP POL SO1 desk.

ANNEX 26J

SEPARATED SERVICE PLANNING TOOL - POLICY

1. Generic Terms of Reference

Terms of Reference for the key SSPT Users are detailed below; they are intentionally generic, and should be locally modified to meet the needs of the individual unit.

2. EWO

a. Primary and Secondary Purposes:

(1) To manage the Ship's Company to meet operational requirements utilising SSPT to monitor individual personal harmony, training and development; liaising with CMC and Flotilla Staffs as appropriate.

(2) To be a member of the SSPT User Working Group.

b. Principal Tasks:

(1) To be the unit Administrator for SSPT and have EWO User access as described at the "SSPT User Role vs Functional Matrix" below.

(2) Approve all DEPCO raised activities on SSPT.

(3) To conduct onboard SSPT training for Commanding Officers, Heads Of Department, Divisional Officers and Divisional Senior Ratings.

(4) To act as a single point of contact with NAVYPEOPLE-PSP EMP POL SO1 providing any onboard feedback on SSPT and utilising the SSPT Change process to raise any issues found onboard with SSPT.

(5) To endorse and retain hard copies of personal plans for all short term landed personnel.

(6) To oversee and manage the Separated Service Waiver process. Ensure that the Ship's Office and NCHQ are informed of personnel who sign a waiver and the dates that this waiver is in force. To check that personnel who sign waivers are documented correctly within the JPA Unit Separated Service Report and that is distributed to the Command by the Ships Office on a monthly basis.

3. EWO(A)

a. **Primary Purpose:** To assist the EWO in all aspects of their duties, in managing the Ship's Company to meet operational requirements utilising SSPT to monitor individual personal harmony, training, and development; liaising with CMC and Flotilla Staffs as appropriate.

b. **Principal Tasks:**

(1) To carry out the principal tasks of the EWO in their absence.

(2) To be a Unit Administrator and have EWO(A) User access as described at the "SSPT User Role vs Functional Matrix" below.

(3) To manage the allocation of accommodation utilising the facilities available within SSPT.

(4) To act as the Ship's Watch and Station Bill Manager, utilising SSPT in its production.

4. DEPCO

a. **Primary Purpose:** To manage the departmental workforce to meet operational workforce requirements utilising SSPT to monitor individual personal harmony, training and development.

b. **Principal Tasks:**

(1) To produce the departmental duty watch and leave requirements.

(2) To produce the Departmental Watch and Station Bills and to quality assure the departmental Unit Establishment List.

(3) To produce, endorse and retain hard copies of personal plans for short term landed personnel.

5. Divisional Officer

a. **Primary Purpose:** Responsible for the personal and professional development of all members of their division.

b. **Principal Tasks:**

(1) To utilise SSPT to meet their primary purpose, with DO level of SSPT access.

(2) To endorse and retain hard copies of personal plans for all short term landed personnel.

6. CMC/GSP Supervisor/User

a. **Primary Purpose:** Responsible for the personal and professional development of all members of their Career Management plot / GSP.

b. **Principal Tasks:** To utilise SSPT to meet their primary purpose, with DO level of SSPT access.

7. Flotilla EWO/FASFLOT Cox'n

a. **Primary and Secondary Purposes:**

(1) To ensure correct use of the Ship's Company in order to ensure operational requirements are being met and individual personal harmony, training and development are being managed.

(2) To be the Flotilla SSPT fault resolution lead.

(3) To be a member of the SSPT User Working Group.

b. **Principal Tasks:**

(1) To carry out audits of individual units SSPT records, iaw this chapter, within their areas of responsibility.

(2) To be a Central Administrator for their Flotilla; assisting with fault resolution as described at Para 8 below.

(3) To be the Flotilla SSPT POC for liaising with DBS for transfer to and from SSPT Live and Mobile.

8. Central Administrator

a. **Primary and Secondary Purposes:**

(1) To run Data Protection Act Prints following Parliamentary request.

(2) To set up and configure new WMO organisations if required.

(3) To act as a conduit for installation data between requesting unit and the SIO

(4) To be a member of the SSPT User Working Group.

b. **Principal Tasks:**

(1) Organisation Control Configuration.

(2) Co-ordinate changes to SSPT Reference Data Management, which will be implemented by the DBS Central Administrator only.

9. Generic Hierarchical Structures

SSPT has importance beyond the individual unit and it is therefore essential that a coherent structure exists across the Naval Service; the diagrams below provide a generic hierarchical structure for EWOs/Coxswains to follow.

Figure 26J-1. Generic Hierarchical Structure Surface Ships

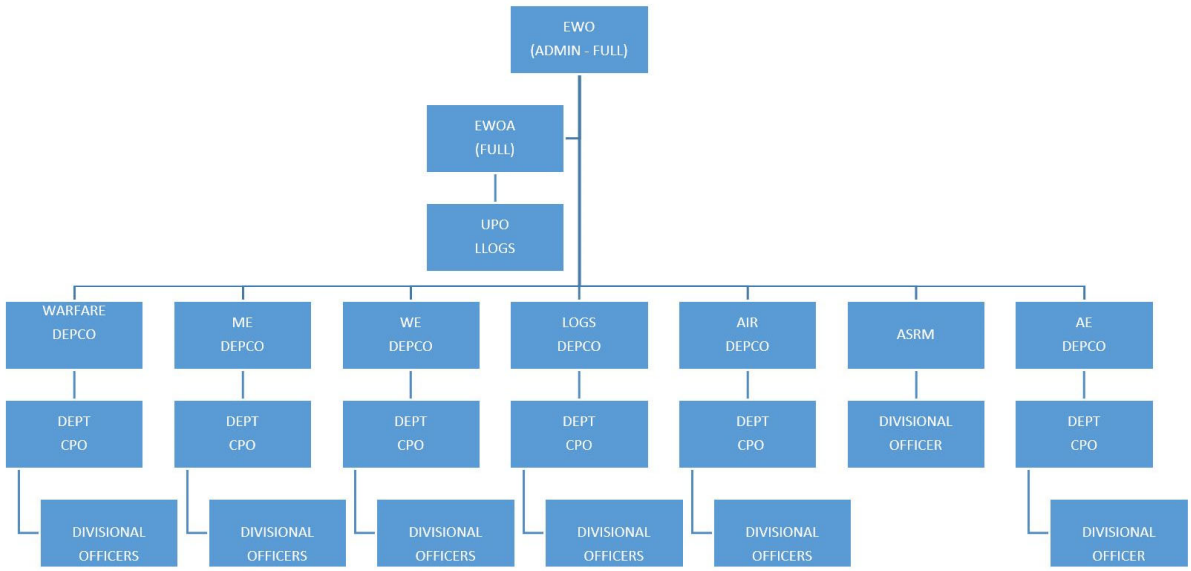

Figure 26J-2. Generic Hierarchical Structure Submarines

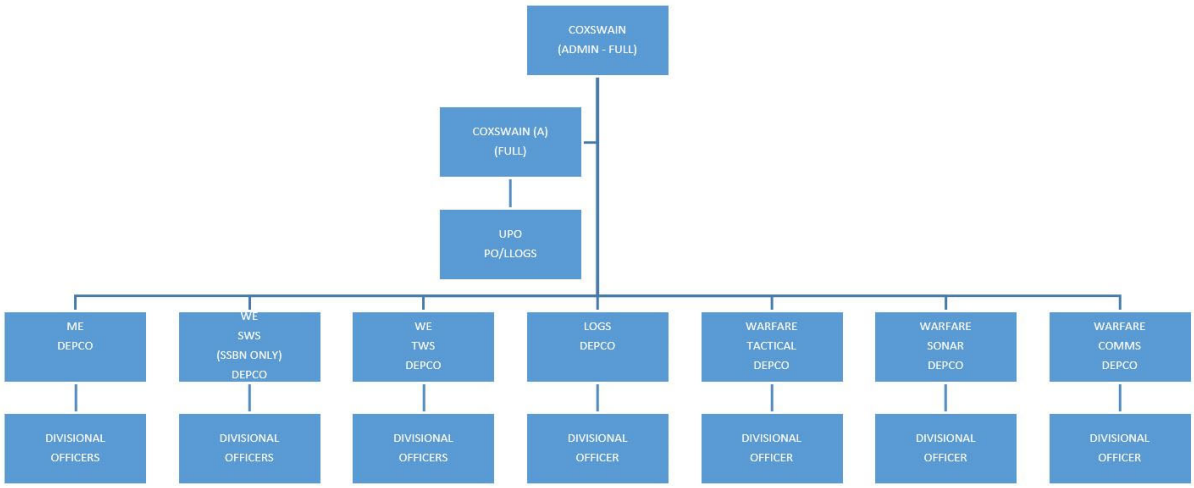

10. SSPT User Definition and Functionality

Access to SSPT functionality varies according to the role of the user as detailed below:

a. **EWO/EWOA:** Senior User within the unit with full visibility across all departments.

b. **FEWO/FASFLOT Cox'n:** Administrator rights for WMO control and fault resolution.

c. **DEPCO/DEPT CPO:** Responsible for day to day planning of personnel with their allocated departments.

d. **CO/HOD/DO/Divisional SR:** Read only role limited to persons within their Division.

e. **CMC/GSP Supervisor/User:** Monitor and co-ordinate overall manning and Separated Service requirements across their associated units/GSP; but will not have day to day planning responsibility.

Table 26J-1. SSPT User Role vs Functional Matrix

11. SSPT Activity Definitions

To control the types of activities created, the planning tool uses the list of SSPT activities. In some cases, the use of the activity can appear ambiguous; the table below defines each activity.

Table 26J-2. Activity Definition

Activity	Available to TEC for Employment	Definition / Remarks
Adventurous Training / Sport	N	Away on adventurous training or sport as a duty.
Augmentation	N	Away from parent unit on temporary augmentation to fulfil ACMP tasking (November ceremonies, Op HERRICK support), secondary roles activation (e.g. NP 1600) and MA10/11 Events/Exercise.
Unit Team Training	N	Away from Unit on team training (e.g. DRUI, Simulator, C2).
Leave	N	Leave periods recorded on JPA; including MA4 Maternity leave, MA8 Post Op Leave, MA5 Terminal leave and MA11 unpaid leave.
Loan Other Unit	N	Away from unit on temporary employment for OPDEF and PERREQ Support. Personal development (Task Book training).
Medical	Y	Medically downgraded for periods of less than 3 months but fit for employment.
Onboard Alongside	N	Self-explanatory (on duty or not).
Other (Specify in Remarks Box) (Onboard)	N	Any other reason where a person **is not** employable by TEC. (e.g. Sick on Shore or MA9 untrained strength).
Other (Specify in Remarks Box) (Not Onboard)	Y	Any other reason where a person **is** employable by TEC.
Course/Training not Available by Course Booking	N	Away from unit on TEM iaw Assignment Order or resettlement. MA1 Career course and MA2 Non Career Course.
WMO(TEC) Employment	Y	Self-explanatory.
Welfare Restriction	Y	Landed for Welfare reasons for periods of less than 3 months but fit for employment.
Non Deployable	N	Restricted to UK waters deployment only, due to medical or welfare restrictions (JPA code 408).
Short Notice For Sea	N	Period alongside where the ship is at short notice to sail iaw SGOs.
Deployed On Operations	N	Self-explanatory.
Deployed on Exercise	N	Self-explanatory.
Not Posted To Unit	N	Not to be used.

12. SSPT Assurance. Flotilla EWO / FOST SSPT Assurance Check-list:

Unit ..... Auditing Officer ..... Date Audit Conducted ……

Table 26J-3. Audit Process

Ser	Item	Complied with Y/N	Remarks
1	Do the Terms of Reference for SSPT Users include SSPT responsibilities iaw Annex A? 10% (FF/DD & below) or 5% (others) random check.		
2	Is the hierarchical structure iaw the 'spirit' of Annex B?		
3	Is the User SSPT functionality iaw Annex C - Check 2 random Users.		
4	Is the Ship's programme up to date?		
5	Are personnel in possession of a Personal Plan? • 10% (FF/DD & below) or 5% (others) random check. • Do they only show variations from the Ship's programme? • Are the Personal Plans sufficiently detailed?		
6	Are landed personnel in receipt of a valid personnel plan?		
7	Is the administrator deleting user accounts no longer required iaw Para 12.7.2 of the SSPT User Guide?		
8	Is the administrator weeding folders iaw 12.7.3 of the SSPT User Guide?		
9	Is the SSPT Unit Administrator using the SSPT Log-on Audit Log iaw Chapter 8 of the SSPT User Guide?		
10	Are all Separated Service Waivers recorded on JPA.		

13. Unit Manpower Check.

Whilst checking Separated Service totals ensure that Ship's Programme is up to date on SSPT. An SSPT Separated Service calculation should be run to show totals on the day of the UMC and also for the end of the deployment (for Pre MASC and Pre Deployment UMCs) or RFSD (for Pre RFSD UMCs). Check that all Separated Service waivers are recorded on JPA.

14. SSPT Fault Resolution and Ownership

The responsibilities and process for fault reporting are as follows:

a. By nominating a Fault Resolution Lead to any reported faults, resolution can be achieved in much shorter timelines. It is recommended that this role be assigned to an application user with a vested interest in resolving any issue. The suggested owner should be the Unit Administrator as they will have the correct roles within SSPT to resolve most minor issues users will encounter; they will also have a better understanding of the system due to deeper SSPT technical knowledge than an SSPT user.

b. Unit Administrators (EWOs) are strongly encouraged to adopt best practice by allocating the Unit Administrator Role to at least one additional user within their organisation. This will ensure that full unit management functionality exists, should the EWO be absent from the unit or in the event that the primary Unit Administrator account becomes locked.

15. Reporting of Faults

a. In any occurrence where the origin of any fault cannot be readily identified or resolved at Unit level, the respective EWO/COXN is to raise the fault in the manner stated below. Due to the nature of the application being used at present on two different server setups (non-DII and DII(F)) there are two different methods of reporting faults. The following reporting methods are available:

b. For non-DII fitted units, SSPT related issues are raised and reported to either of the respective FEWOs or FASFLOT COXN who will then, on the Unit's behalf, contact JPAC Helpdesk, providing as much evidence of the issue as possible, including screenshots and error codes where necessary to aid in fault resolution. JPAC will then issue a reference number.

c. For DII fitted units, any issues with the functional working of SSPT are to be raised to either of the respective FEWO who will then, on the Unit's behalf, contact JPAC Helpdesk, providing as much evidence of the issue as possible, including screenshots and error codes where necessary to aid in fault resolution. For technical issues with SSPT, issues are to be reported to Atlas-DSMT. ATLAS will issue a CASD Number.

d. It is essential when raising fault reports that a comprehensive technical description is provided to the Helpdesk in the first instance as the resolution team does not use the SSPT programme.

16. Management of Faults

a. Once a fault has been submitted, the Fault Resolution Lead can request update reports from either support agency. In the case of non-DII SSPT problems, the JPAC Helpdesk is the focal point for communication stating the reference number. SPVA Technical Support may contact you for further information, but the Helpdesk must remain the point of contact for the issue and any updates. For DII SSPT issues, contact details of the particular agent who has been assigned the fault can be obtained through the Helpdesk, to allow a more detailed discussion. Again, SPVA Technical Support may contact you for further information.

b. In the event that any fault is allowed to persist without progress towards a solution, further assistance can be obtained by liaison with the respective FEWO, who will liaise with the JPAC Helpdesk on the Unit's behalf to provide feedback of any progress towards a technical solution that has been made and pass on updates as required.

17. SSPT - Main Faults

a. The tables below show the main basic faults that occur within SSPT on both the mobile and live versions. It is worthy of note that faults are far easier to resolve on the live version as the respective FEWO can carry out fault rectification more often than not with their enhanced User Administrator rights. This is not the case with regard to SSPT mobile, as the SSPT database sits on the Unit's individual server and, for this reason alone, it is imperative that mobile units maintain the correct level of security with regard to Unit Administrator password.

b. Unit Administrators (EWOs) are strongly encouraged to adopt best practice by allocating the Unit Administrator Role to at least one additional user within their organisation. This will ensure that full unit management functionality exists, should the EWO be absent from the unit or in the event that the primary Unit Administrator account becomes locked.

Table 26J-4. DII SSPT Live Basic Fault Resolution Table

COMMON FAULT	IMMEDIATE POC	ESCALATED POC
User locked out of SSPT or password reset	Unit Administrator	FEWO
Unit Administrator locked out of SSPT	Respective FEWO	FEWO
New Account Creation	Unit Administrator	FEWO
Account responsibilities change	Unit Administrator	FEWO
Organisation Management	Respective FEWO	FEWO

Table 26J-5. Non-DII SSPT Mobile Fault Resolution Table

COMMON FAULT	IMMEDIATE POC	ESCALATED POC
User locked out of SSPT or password reset	Unit Administrator	Not available outside of unit
Unit Administrator locked out of SSPT	CIS Run LogUnitAA.bat file on the server (reset password to unitaa password unlimited)	Not available outside of unit
New Account Creation	Unit Administrator/EWO	Not available outside of unit
Account Responsibilities Change	Unit Administrator/EWO	Not available outside of unit
Batch Runner not running files	Nominated SSPT CIS Rep	IT fault reporting route

Table 26J-6. DII SSPT Mobile Fault Resolution Table

COMMON FAULT	IMMEDIATE POC	ESCALATED POC
User locked out of SSPT or password reset	Unit Administrator	Not available outside of unit whilst on Mobile System
Unit Administrator locked out of SSPT	CIS Run LogUnitAA.bat file on the server (reset password to unitaa password unlimited). Permissions may be required from ATLAS DSMT to run.	Not available outside of unit whilst on Mobile System
New Account creation	Unit Administrator	Not available outside of unit whilst on Mobile System
Account Responsibilities change	Unit Administrator/EWO	Not available outside of unit whilst on Mobile System
Batch runner not running change files	Nominated SSPT MSP Rep	ATLAS DSMT via CASD

18. Outstanding Technical Issues

There remain a number of interface errors that currently affect SSPT and the information it presents. Currently these errors include:

a. When a course is deleted in JPA, the instance remains in SSPT and is not deleted. As a result this remains visible and requests can be made to book personnel onto a non-existent course.

b. When block bookings are made in JPA, the details are not passed from JPA into SSPT, consequently the course details may still show available places where there are actually none available.

c. There are two methods that allow course competency prerequisites to be input into JPA, only one of these methods updates SSPT. This means that when attempting to book personnel on courses who do not have the required competency, this will not set off the warning flag.

d. The leave outstanding balance as displayed in SSPT is incorrect. Any individual leave balance in JPA is a sum of a static total and not a dynamically calculated total. SSPT only displays the static total.

e. These issues are faults that are hard wired into the JPA/SSPT interface and any fix will require a change in JPA to pass the necessary data across. Any potential fix is not likely to occur in the short term. While this remains less than ideal, it has been recognised and included in the JPA interfaces error project.

ANNEX 26K

APPLICATION FOR CAREER INTERMISSION

Use JSP 760 Chapter 5 Application Form to apply for Career Intermissions.

ANNEX 26L

CAREER INTERMISSION APPROVALS PROCESS

1. Process

In order to ensure that all Career Intermissions (CI) requests are handled consistently and efficiently within NCHQ, the following process is to be followed.

a. All applications for a CI are to be forwarded to the NCHQ Terms of Service (TOS) Manager (NAVY PEOPLE-PSP EMP POL MULTIUSER).

b. CI applications will be logged and forwarded to NAVY PEOPLE-WFPT STRAT SO1, BM and CM for comment and recommendation. If required they will be forwarded to NAVY PEOPLE-CH HD.

c. Applications will be forwarded to NAVY PEOPLE-PSP EMP POL SO1 for general comment and where requests are made to undertake any employment during the CI.

d. Applications will be forwarded to NAVY LEGAL-EMPLOYMENT LAW SO1 for employment law scrutiny.

e. Applications will be submitted to NAVY PEOPLE-POL STRAT HD for approval (either out of committee or as part of the Naval Service Flexible Employment Board (NSFEB)).

f. The TOS Manager will inform the individual's CO of the decision (normally within 30 days of receipt of application) and include revised TACOS, where applicable. Should the application fail, full details of the decision will be given.

2. Acceptance

If the application is approved, the individual will be required to confirm acceptance of the revised TACOS before commencing the CI.

3. Assignment

Following written acceptance by the applicant, the CM will assign to MTM NELSON MA11 UNPAID LEAVE for the duration of the CI who are to take the necessary administrative action for pay and allowances.

ANNEX 26M

MANAGEMENT OF LEAVE BALANCES FOR PERSONNEL IN 3WC UNITS

1. Joining 3WC. Upon joining a 3WC unit, the total outstanding leave balance, inclusive ALA, SGL, and all leave carried over, is reduced, confirmed, and retained as a record by the Ship's Office and base port UPO.

a. The pro-rata reduction is based on the point in the leave year that the individual joins the 3WC unit, with the ALA from the joining date to the end of the year from the 3WC pro-rata leave calculator deducted from the total outstanding leave balance.

b. Any reduction of total outstanding leave which results in a negative balance will, instead, be reduced to zero.

c. Personnel may join 3WC units with leave carried over in excess of 15 days, with written authorisation from the CO of the unit they are departing and a plan to achieve their leave which accounts, as far as possible, for the impact of assignment to a 3WC unit.

2. Once the above process is complete, the new joiners' balance is zeroed for the duration of their assignment to the 3WC unit. Leave is then managed via the watchkeeping cycle detailed in this section.

3. Departing 3WC. When an individual departs the 3WC unit, except where they are directly joining another 3WC unit, the Ship's Office are to calculate an individual's leave entitlement prior to joining their new unit and update JPA accordingly.

a. The restored leave entitlement on departure from the 3WC system comprises the total outstanding leave balance recorded on joining, plus a pro-rata addition to the end of the present leave year, in accordance with the 3WC pro-rata leave calculator below, plus any additional compensatory leave credited as per sub-paragraphs c, d and e.

b. The date of departure, and thus the date used to calculate the individual's restored leave entitlement, should be on completion of a full watch rotation cycle. The individual should, therefore, depart the unit following their final period of WRL. This final period of WRL is not to be deducted from their restored leave entitlement.

c. Where, for any reason, an individual is required to depart a 3WC unit without the provision for their final period of WRL, they are to be credited with a number of additional leave days equivalent to the lost days of the WRL period (not including weekend days) by the Ship's Office during the restoration of their leave entitlement.

d. Where Respite, over the 7-day annual allowance, has been authorised for the management of training or other service activities and compensatory time-off has not been granted within the 3WC system to rebalance the individual's protected harmony, in order to achieve their 90-day annual allowance, an off-ship request form must be submitted, and the lost harmony days (not including weekend days) credited to the individual's leave balance on departure. A record of this should be kept by the Ship's Office and UPO alongside the total outstanding leave balance on joining.

e. Where an individual is the subject of a temporary assignment to a non-3WC unit, from a loan, trawl, or similar, and compensatory time-off has not been granted to rebalance the individual's protected harmony, in order to achieve their 90-day annual allowance on return to the 3WC unit:

(1) An off-ship request form must be submitted, and the individual credited with a number of additional days ALA on departure from the 3WC system, for the period of the loan to the non-3WC unit.

(2) The addition is to be the difference in the number of days ALA, calculated using the pro-rata from the start of the year column in Table XX, between the start and end dates of the temporary loan.

(3) In the event that the loan destination is a seagoing unit, 1 additional day of SGL shall also be awarded for each calendar month spent in the non-3WC unit (rounding down).

(4) A record of this should be kept by the Ship's Office and UPO alongside the total outstanding leave balance on joining.

4. Direct Assignment to Another 3WC Unit. Where an individual is assigned directly to another 3WC unit, without a period of ALA/SGL between the assignments, the unit they are departing is to ensure that the record of total outstanding leave balance is passed to the individual for submission to the receiving unit's Ship's Office, to be retained by them as a record until the individual's departure from the 3WC system.

5. Employment in 3WC Units outside of the 3WC Crew Rotation System. All personnel employed in 3WC units outside of the watch rotation structure, such as UTS personnel and certain Augmentees, do not follow this process. Their leave is not zeroed, and they follow the standard process for management of their leave via JPA.

Table 26M-1. 3WC Pro-Rata Leave Calculator

Date	Pro rata ALA from start of year	Pro rata ALA to end of year	Date	Pro rata ALA from start of year	Pro rata ALA to end of year	Date	Pro rata ALA from start of year	Pro rata ALA to end of year	Date	Pro rata ALA from start of year	Pro rata ALA to end of year	Date	Pro rata ALA from start of year	Pro rata ALA to end of year	Date	Pro rata ALA from start of year	Pro rata ALA to end of year	Date	Pro rata ALA from start of year	Pro rata ALA to end of year	Date	Pro rata ALA from start of year	Pro rata ALA to end of year	Date	Pro rata ALA from start of year	Pro rata ALA to end of year	Date	Pro rata ALA from start of year	Pro rata ALA to end of year

CHAPTER 27

PAY AND ALLOWANCES, PENSIONS AND TERMINAL GRANTS

SECTION 1 - PAY AND ALLOWANCES

2701. General

a. The aim of this Chapter is to provide signposting of some of the key aspects of Pay, Allowances and Pensions. When checking or confirming entitlement or eligibility, personnel must always consult the relevant and up-to-date tri-Service Regulations.

b. The primary defence policy on military Pay and Allowances for Regulars and Reserves can be found in JSP 754 Tri-Service Regulations for Pay and Charges and JSP 752 Tri-Service Regulations for Expenses and Allowances[1].

c. Key policy responsibilities are below:

Department	Responsibility
Unit Personnel Office (UPO)	First point of contact for personnel when dealing with any aspect of pay, allowances and pensions policy.
Tier 3 HR personnel (e.g. Flotilla)	To assist UPOs in interpreting pay, allowances and pensions policy. (Personnel are not to contact Tier 3 to discuss individual queries).
RN JPA Delivery Focal Point	Ensures that RN HR Policy can be/is implemented through JPA, by providing strategic influence, data assurance, JPA policy and procedural advice, management information and payroll error investigation services[2].
Joint Personnel Administration Centre (JPAC) Enquiries Centre	Deals with queries regarding Pay, Expenses, Allowances, Provisions and the use of JPA.
Defence Business Services (DBS) Pay and Allowances Casework and Complaints Cell (PACCC)	Deals with all tri-Service Pay and Allowances Casework and Complaints via Unit HR admin staff (see Para 2708).
RN Rem Team (also known as the 'Pay Colonel').	Responsible for influencing the development and implementing tri-Service Pay, Allowance and Pensions policy for the RN.
Chief of Defence People (CDP) Armed Forces Remuneration	Responsible for implementing all policy relating to Service Pay, Charges, Bounties, Expenses, Allowances, Provisions and Recoveries and Pensions

[2] https://modgovuk.sharepoint.com/sites/defnet/Navy/Pages/RNPADFP.aspx

2702. Key Features

The key features of Pay are as follows:

a. **Armed Forces Pay Review Body (AFPRB).** The AFPRB is responsible for recommending the pay rates for Officers and Ratings/Other Ranks up to 1*. Alongside any annual salary pay rises implemented by the government, personnel may also receive increments, usually on the anniversary of their promotion to their current Rank/Rate. Basic Pay will also increase on promotion or commissioning.

b. **Pay Composition.** (See JSP 754 Part 1 Chap 1 Section 2) Annual Salary/Military Salary/Basic Pay are interchangeable terms which comprises:

(1) **Core Pay.** This remunerates common levels of knowledge, skills and experience and is based on rank, length of service, performance.

(2) **Trade Supplement Pay (ORs Only).** This remunerates for branch and specialisation skills and the size and weight of the job (see Para 2702.e).

(3) **X Factor.** See Para 2702.d.

All of these elements of pay are 'pensionable' and influence the value of an individual's pension.

c. **Bespoke Pay Spines (BPS).** BPS are an alternative to core pay and trade supplement pay for certain cohorts. There are 10 BPS applicable to RN personnel: Officer Commissioned from the Ranks (OCFR), Chaplain's Pay, Special Forces Pay, Professional Aviators' Pay Spine (both OR and OF), RN Clearance Divers' Pay Spine, Senior Officers' Pay, Nursing Pay (OR and OF), Medical and Dental Officers' Pay. BPS are pensionable.

d. **X Factor.** (See JSP 754 Part 1 Chap 2 Section 13.) The X Factor is a pan-Defence, through career pensionable addition to basic pay, currently worth 14.5% of salary[3], which is intended to recognise unique conditions of military life. X Factor is assessed against 12 components and is reviewed every five years.

e. **Trade Supplement Pay and Job Evaluation (JE).** (See JSP 754 Part 1 Chap 2 Section 2.) JE assesses the 'weight' of a job against a series of six factors in order to determine a through career whole trade score for each branch and spec. This score informs into which of the four trade supplements a branch/spec will be placed. The JE process is undertaken over a five year cycle.

f. **Pay on Promotion.** (See JSP 754 Part 1 Chap 2 Sect 6.) On promotion, all personnel will receive a minimum 2% increase on their current rate of pay. A 5% increase will be awarded to personnel on promotion to OR6. OCFRs will receive a 5% promotion increase and will be paid from a separate pay range (JSP 754 Part 1 Chap 4 Sect 3).

[3] X Factor tapers at OF5 and above.

2703. Additional Pay

Types of additional pay are as follows:

a. **Recruitment and Retention Payment (RRP).** (See JSP 754 Part 1 Chap 5.) RRP is targeted at areas where there are particular difficulties in recruiting and retention. The following RRP may apply to RN personnel: Submarine, Nuclear Propulsion, Hydrographic, Mountain Leader, Parachute, Special Forces, Special Forces Communicator, Special Reconnaissance, Special Intelligence, Flying, Flying Crew, Explosive Ordnance Disposal, Nursing, Weapon Engineer SM, Diving and Naval Service Engineer (NSE).

b. **Incentive Payments.** (See JSP 754 Part 1 Chap 5 Section 21.) Financial incentive schemes for recruitment and retention take the form of, but are not limited to, Financial Retention Incentives (FRIs), Golden Hellos (GH), Re-joining Bounties, Transfer Bounties and Recruit Bounty schemes. The Navy Remuneration Team will enter into discussions on a proposed Incentive Payment only with the relevant Branch Manager. It is the responsibility of the BM to secure the necessary funding from Navy Command RP, PPO endorsement and draft the proposal in accordance with the JSP.

c. These elements of pay are 'non-consolidated' and do not influence the value of an individual's pension.

2704. Incentive Payment Reporting Requirements

Regular reporting is required by MOD on the uptake and progress against measures of success of Incentive Payments, in order to enable decisions and discussions on continuation, extension, or increase in an FRI, as well as on the assessment of future FRIs and to establish commonalities across tri-service FRIs. Milestone reporting will be detailed in the Incentive Payment proposal, and it is the responsibility of BMs to collect the relevant information and submit to the Navy Remuneration Team (REM SO2 B) in a timely fashion.

2705. Substitution Pay (SUPA)

a. This section does not supersede SUPA policy (JSP 754 Part 1 Chap 2 Section 7) but provides additional desk instructions for RN units in applying that policy.

b. SUPA is not an entitlement: it may be paid to an individual who is required temporarily, and for the minimum period, to undertake the full range of core duties and responsibilities of a vacant post established for a rank/grade (civilian or military) higher than their own.

c. For SUPA authorised by unit CO/HoE in accordance with policy a JPA Form E005 is to be submitted to Unit HR as soon as practicable. In no circumstance is an application for SUPA to be held beyond the 12 month point before submission. Any retrospective claims for SUPA beyond 12 months are to be referred to Navy Rem Team[4] for authorisation.

[4] NAVY PEOPLE-REM SO2 B.

d. For CMs who authorise SUPA in accordance with policy, the AO is to be annotated with the SUPA start and end dates. This is the Authority for Unit HR to instigate SUPA as part of the Arrivals process.

e. The Unit HR/UPO is to undertake JPA action in accordance with the extant Business Process Guide (BPG), ensuring that the 'PS Info' field is populated correctly, annotating whether authority is unit or CM originated.

f. At the 12 month point it is considered that the individual is no longer 'temporarily' covering the vacancy but is in fact fulfilling the role on a more permanent basis. The Unit HR/UPO is to prompt the relevant CM to determine the intent for the position for which SUPA is being paid. At this point the CM is to consult with the BM and Capability Owner to assess whether the position can be filled by a substantive or acting rank, rank ranged or de-enriched.

g. If SUPA has been authorised or instigated at unit level in accordance with policy, authority cannot subsequently be 'transferred' to CM for Assignment Order action to extend and bypass the 12 month process.

h. In considering whether to exceptionally extend SUPA, BMs, in consultation with CMs, are to make an assessment of the following factors:

(1) Why rank ranging is not appropriate.

(2) Why the billet has not been filled or cannot be filled using AHR.

(3) Why the recipient of SUPA has not been promoted to the Acting Higher Rank or Acting (Local) Rate.

i. If, following this review, it is deemed that exceptional approval for the continued payment of SUPA beyond the 12 month period is necessary, CMs are to notify the unit, specifying the date to which the extension is granted and copying informing Navy Rem Team[5].

2706. Allowances and Expenses

Service personnel may be entitled to four types of provision outlined below, typically referred to as an 'allowance':

a. **Compensatory Allowances.** Compensatory Allowances provide remuneration for activities or tasks undertaken, or environmental conditions endured, which are considered to be over and above those recognised within base-pay or X Factor e.g. Longer Separation Allowance.

b. **Contributory Allowances.** Contributory Allowances provide financial assistance towards additional costs incurred as a result of Service life, but where there is a degree of personal choice as to when, where and how the monies received are spent e.g. Get You Home Allowance.

[5] NAVY PEOPLE-REM SO2 B.

c. **Expenses.** Expenses provide refunds for actual expenditure incurred (within defined limits) by personnel whilst undertaking mandated activities, or meeting Service obligations, e.g. Day Subsistence.

d. **Provisions.** Provisions are policies that do not represent a payment of money to personnel or are a collection of entitlements e.g. where someone has an activity undertaken for their benefit, such as Movement and Storage of Personal Effects.

2707. Seagoing Longer Separation Allowance Qualifying Unit (SLQU)

a. An SLQU is defined as a seagoing vessel which has a standard operating pattern requiring it to operate regularly away from its Base Port (see JSP 752 Chap 2 Sect 1). An SLQU will be exempt from the requirement to complete seven days or more qualifying separation prior to the start of LSA. Navy Rem Team[6] is responsible for the authorisation of a platform/class of vessel as a SLQU.

b. Individuals serving in Exchange, Loan or NATO seagoing units that meet this definition may also be eligible for the seven day waiver. Cases should be submitted to NAVY PEOPLE-REM SO2 A on an individual basis.

c. Seagoing vessels such as the Faslane Patrol Boat Squadron or PJOBs Patrol Boat Squadrons in Gibraltar, which ordinarily operate, and day run in the Base Port area, are not SLQUs. Personnel in these units will therefore be required to complete a seven-day qualification period before being eligible for LSA.

d. Whilst not an allowance in itself, the provision of Seagoer's Leave (SGL)[7] is linked to SLQU status. This is intended to compensate those Service personnel serving in seagoing units for the separation from family and friends that this type of service necessarily entails – see JSP 760 Chapter 13 for further information.

2708. Pay and Allowances Casework and Complaints Cell (PACCC)

(JSP 752 Chap 4 Sec 4.) The PACCC offers a Special-to-Type (STT) complaints process for individuals who consider that they should be in receipt of an allowance or pay element because of, or owing to, their exceptional circumstances, despite not meeting the policy conditions in either JSP 752 or JSP 754. The PACCC is not able to challenge or change policy (this can only be authorised by CDP(REM) via the Navy Rem Team).

[6] NAVY PEOPLE-REM SO2 A.
[7] One additional working day of leave for each 30 calendar days of service in the qualifying seagoing unit, up to an annual maximum of 12 days.

SECTION 2 - PENSIONS AND TERMINAL BENEFITS

2709. Armed Forces Pension Schemes

a. There are four Armed Forces Pension Schemes (AFPS) to which RN personnel may have rights:

(1) AFPS 75 (Regulars only – entry closed on 5 Apr 05).

(2) AFPS 05 (Regulars only – entry closed on 31 Mar 15).

(3) AFPS 15 (All Regulars and All Reservists).

b. AFPS 15, which was introduced on 1 Apr 15, is the only scheme which is open. All pension earned up to 31 March 2015 in a legacy scheme is an accrued pension right.

c. Links to each scheme's 'Explained' booklets are below:

(1) **AFPS 75.**
https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/911030/FINAL_DRAFT_-_AFPS_75_Your_Scheme_Explained.pdf

(2) **AFPS 05.**
https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/911026/FINAL_DRAFT_-_AFPS_05_Your_Scheme_Explained.pdf

(3) **AFPS 15.**
https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/911031/FINAL_DRAFT_-_AFPS_15_Your_Scheme_Explained.pdf

2710. Reckonable/Qualifying Service

Each pension scheme has defined periods of reckonable/qualifying service related to the payment of either an immediate pension, a deferred pension or an Early Departure Payment. It is important for all personnel to understand the relevant requirements related to the pension scheme to which they belong. This is particularly important for those who have had periods of non-reckonable service, such as detention, a career break or unpaid leave.

2711. Benefit Information Statement (BIS)/Pension Forecast

a. **BIS.** A BIS is issued annually, shortly after an individual's birthday, and details accumulated pension and additional benefits and when these benefits will be paid. It also includes information on dependents' benefits. The BIS is not a forecast and only details the amount of pension and benefits that the individual has already accrued.

b. **Pension Forecast.** Personnel are entitled to request one free forecast per year; the forecast will show bespoke, personal pension details. A forecast can be obtained by submitting AFPS Form 12, which is available from the AFPS Forms website on GOV.UK.

2712. Resettlement Grants (RG)

Both officers and ratings who leave the service without entitlement to an immediate Service pension or Early Departure Payment (EDP) may be awarded a tax free Resettlement Grant.

a. **AFPS 75.**

(1) **Officers.** RG payable after nine years' reckonable service from age 21.

(2) **Ratings/ORs.** RG payable after 12 years' reckonable service from age 18.

b. **AFPS 05.** For both officers and ratings, an RG is payable after 12 years' reckonable service.

c. **AFPS 15.** For both officers and ratings, an RG is payable after 12 years' reckonable service.

2713. Voluntary Release

Divisional Officers should ensure that personnel submitting notice to terminate service are fully aware of their pension status and applicable benefits.

2714. Pension Taxation

a. **Pensions/EDP in Payment.** Pensions/EDP are liable to Income Tax. HM Revenue and Customs (HMRC) should be contacted for any taxation queries.

b. **Annual Allowance (AA).** The AA is a limit to the total amount of benefits that can be built up in a pension scheme each year. If the amount of AA is exceeded then a tax charge may be payable. If pension growth exceeds the AA in a tax year then, by 6 Oct, DBS will send a Pension Savings Statement (PSS) to the Residence of Work address on JPA. Due to events that lead to sudden spikes in growth of their pension entitlement, any officer or rating/other ranks may be affected by AA. Some (but not all) of the triggers/events that could cause the AA limit to be exceeded are as follows:

(1) Promotions - especially OF3 to OF4 in AFPS75.

(2) Medical and Dental Officers qualifying for Professional Supplements.

(3) Officers who reach substantive OF7 during a tax year one year after promotion from OF6.

(4) SUYs after five years' service as an officer.

(5) Officers who reach their 16 years reckonable service point in AFPS75.

(6) Ratings/Other Ranks who reach their 22 year point in AFPS75.

c. **Life Time Allowance (LTA).** The LTA is the overall limit of tax privileged pension funds an individual can accrue during their lifetime. If the overall pension entitlement exceeds the LTA when it is tested, a tax charge may apply. The standard LTA is currently £1,073,100 (fixed until 2026) and the test is applied when the pension comes into payment.

2715. MOD Compensation Schemes

Advice for compensation from death or injury while serving in the Armed Forces, irrespective of the compensation scheme it is to be claimed under, is contained in JSP 765[8].

CHAPTER 28

MEDICAL AND DENTAL CARE

2801. Introduction

The Royal Navy Medical Service (RNMS), along with the wider Defence Medical Services (DMS), will provide healthcare, medical operational capability and healthcare advice to maximise the fighting power of the Armed Forces. This will be achieved through the delivery of Service-specific policy and advice to RN and Defence Primary Healthcare (DPHC) capabilities, and the Force Generation and assurance of medical capability in RN assets and foreign overseas strategic locations (FOSL). This mission flows directly from the Defence Plan through to the Service Personnel Plan and features in the requirements of the Royal Navy Command Plan. The RNMS sets the healthcare and occupational standards required to deliver Service personnel who are medically and dentally fit for deployment and for the provision and/or delivery of primary, intermediate and secondary healthcare appropriate to the environment in which personnel are serving.

2802. Medical Force Generation

The RNMS is directed (under Personnel Functional Standards (PFS)) to ensure that the maximum numbers of personnel are fit for task. Joint Medical Employment Standards (JMES)[1] codes are used to define the medical employment standard appropriate to an individual's medical fitness and enable the communication of the necessary information to the employer (Career Managers (CMs), Chain of Command (CoC)) without any breach of medical confidentiality. They ensure that the individual is appropriately employed without unnecessarily endangering their own health or that of others and reduce risk to the operational commander by preparing individuals appropriately for endemic/environmental risks within the theatre of operations. To allow appropriate assignment action, CMs are provided with an individual serviceperson's JMES through JPA. Annex E to Footnote 2 provides a Commanders Guide to interpretation of JMES and is a useful reference tool.

2803. References

a. **Tri-Service.** JSP 950[3] and the DPHC Handbook[4] remain the core healthcare texts for medical staff applicable across Defence and supplement the below single Service policies.

b. **Royal Navy and Royal Marines.** BRd 1991 (Instructions for the Royal Naval Medical Service)[5] and BRd 1750A (Handbook of Naval Medical Standards)[6] are the primary references for Royal Navy (RN) policy and organisation of RN Medical and Dental Care. They also contain the procedures and standards for the provision of medical and dental care to entitled personnel.

[6] BRd 1750A. web.apps.royalnavy.r.mil.uk/fpgo/Pages/Index_NWP.htm

c. **Maritime Reserves.** For medical administration of Maritime Reserves see BRd 3(1) Chapter 102, Paras 10215-10219 (Full Time Reserve Service); Paras 10254-10257 (Additional Duties Commitment); BRd 3(2), Chapter 20, Paras 2016-2019 (Naval Careers Service).

d. **Royal Fleet Auxiliary.** See BRd 875.[7]

2804. Royal Navy Medical Board of Survey and Royal Navy Medical Employability Board

Whilst short term changes to medical grading and work limitations are made at Unit level, the assessment of any long-term impact to fitness or requirements for long-term restrictions on work ability is conducted in a two-stage process.[8] This involves referral either to a single Service specialist in Occupational Medicine or the Royal Navy Medical Board of Survey (RNMBOS) which gives a medical recommendation on fitness in the form of a JMES. That recommendation is then considered by the Medical Employability Board (MEB), on behalf of the Royal Navy as the employer, and a decision taken as to whether the Service person can continue to be successfully employed within the JMES allocated. Details of the function and processes of the Boards are in BRd 1991 Chapter 8.[9]

2805. Provision of Medical Care

In partnership with others[10], the RNMS assures high quality healthcare to support force generation and maintain the health of the Royal Navy.

a. In the strategic base, Primary Healthcare (General Practice, Dental Care, Mental Health, Occupational Health, Public Health and Defence Rehabilitation) is provided to entitled personnel by Defence Primary Health Care (DPHC). The RNMS retains responsibility for the provision of primary healthcare and occupational health to deployed Royal Navy, RFA, Royal Navy Reserve[11] and other personnel, subject to eligibility.[12] The performance of DPHC is measured using a performance indicators agreed on a tri-Service basis.

b. Access to timely Secondary Healthcare in the UK at least equivalent to that provided by the National Health Service (NHS).

c. All Royal Navy personnel are directed to carry a valid Global Health Insurance Card (GHIC) (or an in-date European Health Insurance Card (EHIC) until these are phased out).[13] Service personnel are strongly advised to hold appropriate travel insurance when travelling anywhere at their own expense, engaged in activities off duty or non-Service reasons.

[7] BRd 875 Regulations for Royal Fleet Auxiliaries. web.apps.royalnavy.r.mil.uk/fpgo/Pages/Index_NWP.htm
[8] BRd 1750A Handbook of Naval Medical Standards.
[9] BRd 1991 Instructions for the Royal Naval Medical Service.
[10] DPHC, NHS, Private Providers, third sector, coalition partners.
[11]. https://modgovuk.sharepoint.com/sites/IntranetUKStratCom/SitePages/JSP-950--Medical-Policy.aspx
[12] https://modgovuk.sharepoint.com/sites/IntranetHeadOffice/SitePages/JSP-770.aspx
[13] https://www.gov.uk/government/news/uk-launches-global-health-insurance-card

d. The management of some chronic conditions could be compromised by an assignment overseas. Before deploying overseas, the assigned Service Person is to make a declaration concerning their health and that of their dependants (if serving accompanied). All long-term medical conditions are to be declared in accordance with single Service procedures in order to allow the receiving medical capability to make an informed decision as to whether a chronic condition can be appropriately managed. Where a condition cannot be managed, a decision then has to be made, by the assigning authority, as to whether the assignment can go ahead.

2806. Provision of Dental Care

Dental care is provided by Defence Primary Health Care (Dental) to all entitled personnel (DPHC Dental Leaflet, Chap 4, Annex B refers)[14] to a level of at least equivalent to that available via the NHS. Dental care can be provided whilst deployed if planned into the mission via the Fleet Dental Surgeon (BRd 1991 Ch15[15] provides the relevant process). It is important that every Service Person maintains their own level of dental fitness and arranges regular dental inspections at the interval set by their DPHC (Dental) clinician, the periodicity of which will be determined by the individual's clinical risk (JSP 950 2-23-1)[16].

2807. Medical Information - Disclosure to Command

All healthcare or other personal information received by Service and civilian medical personnel acting in a healthcare capacity from, or in relation to a patient, is to be treated as protected information, and medical personnel have a legal[17] as well as an ethical duty to comply with Caldicott Policy.[18,19] The duty of confidentiality is also described in guidance from the relevant professional bodies (e.g. GMC[20], GDC[21], NMC[22], HCPC[23], GPhC[24] and MA Code of Practice[25]). This guidance is to be followed by Service and civilian medical personnel at all times.

a. **Occupational Health (OH) data.** Specific information types are releasable to command. These relate to the communication of a serviceperson's fitness to work including any restrictions or medically recommended protections. An employer is required by law to receive OH guidance in support of its statutory responsibilities under the Health and Safety at Work Act (1974). The RN operates under JSP 375 and through BRd 10 in this regard, with medical OH policy outlined at BRd 1991 Ch 17. Examples of OH data which are not personal medical information are:

(1) The Joint Medical Employability Standard (JMES) and associated medical limitations.

(2) A serviceperson's engagement with and adherence to Health Surveillance (HS) programmes such as periodical audiometric hearing assessments; however the medical detail within HS tests may remain protected.

(3) An Individual Medical Risk Assessment (MRA) completed prior to high readiness status, deployment or CLM course as required. Para 2816 applies.

b. Except in limited circumstances, disclosure of personal medical information is contrary to the law and to the public interest. Loss of confidence by personnel in the confidentiality of their healthcare may result in medical conditions being concealed, with consequent risks to Unit safety and operational effectiveness.

c. Personal medical information may only be disclosed as follows:

(1) With the individual's valid consent;

(2) Where required under the law;

(3) Where substantial public interest demands disclosure without consent, particularly protection of:

(a) The operational capability (OC) of the Unit;

(b) Safety of other Unit personnel.

d. Disclosures made for OC or safety reasons must only be made directly to the Commanding Officer (CO).

e. Information disclosed to the CO is to be limited to that which is required for the protection of OC or the safety of Unit personnel.

f. The CO must respect the confidential nature of all information disclosed, and must only communicate as much detail to other personnel as required to deliver essential purposes of protecting OC or the safety of Unit personnel.

g. The individual must be informed of the content of all disclosures of their personal medical information to Command, preferably prior to disclosure but in any event at the earliest reasonable opportunity. This decision/encounter must also be documented within the medical record.

h. Private medical information is not to be used to instigate disciplinary proceedings other than in exceptional circumstances with the advice of Navy Legal.

i. **Specific Instances.**

(1) **Drug and Alcohol Misuse.** When drug or alcohol misuse is disclosed during a clinical consultation, this information must only be disclosed to Command if the nature of the misuse threatens harm to other members of the Unit or to OC. Medical personnel must report drug and alcohol misuse when they become aware of such misuse outside of their medical capacity. An example of such a threat would be a pilot who proposed to fly an aircraft while intoxicated.

(2) **Post-Coital Contraception.** Requests by personnel for post-coital contraception whilst operational must not be disclosed outside the consultation without the consent of the individual.

j. **Criminal Offence/Service Offence/Misconduct - Transactional Sex.**

(1) JSP 769 Ch 4 Para 4.2 b. states that 'paying for sexual services' might be deemed a Service offence, misconduct or at worst a criminal offence and should be reported to the CoC. However, should an individual present to the medical centre or sickbay seeking medical advice/treatment (e.g. for a sexually transmitted infection (STI)), and as part of the consultation, it is believed that unacceptable sexual behaviours have occurred, **there remains a duty of medical confidentiality** as described above in paras a-i above and in BRd 1991 Ch 4 0406. This medical confidentiality overrides that of informing the CoC over an offence/misconduct, **unless** the nature of the misuse/abuse threatens harm to other members of the Unit or to OC.

(2) There are rare cases where breaching this medical confidentiality could be justified.

(a) In the public interest e.g. preventing serious harm or death.

(b) The clinician believes there is an ongoing risk of any form of abuse.

(3) Medics, doctors and nurses should not feel obliged to report this offence if discovered as part of medical management, but should consider whether there is an exceptional risk that warrants disclosure. This is iaw the SME opinion of MedLegAd and RN Legal Service.

2808. Adventurous Training and Sports

Military personnel undertaking correctly staffed and officially sanctioned Adventurous Training (AT) and sports are entitled to medical care at public expense. In some countries where these activities take place, however, the civil health infrastructure cannot provide a suitable level of care. Private medical facilities that can provide the required level of care may be available but proof of ability to pay is often required before treatment commences. Military teams venturing overseas are strongly advised to obtain private medical insurance - refer to JSP 419.[26] In addition, military personnel under an Individual Recovery Plan (IRP) are to engage with their Medical Officer and/or HQ Medical Planning Team to discuss the AT activities in which they are planning to engage.

[26] https://modgovuk.sharepoint.com/sites/IntranetHeadOffice/SitePages/JSP-419.aspx

This is to ensure that the appropriate risk assessment can be conducted, and the MO/Medical Planner may make an assessment of the appropriateness of those activities. An MO must be involved when a Service Person's medical category or condition may place the individual or team at increased risk of injury or illness. It is the responsibility of the originating organisation to ensure any overseas AT is reviewed by the relevant CMA. For activity that sits within an RN CoC this will be Navy Healthcare AH Med Op Cap. For high risk or remote activity it is essential to include the Expeditionary Medical Advisory Group (EMAG) at the earliest opportunity in the planning process in order for SME advice and support. Often the Medical Plan is comprehensive and where the AT is taking place in European countries a Plan on a Page detailing the 7 elements of care should be submitted for review.

2809. Reserves

For members of the Reserve component of the Armed Forces undertaking officially sanctioned military activity, be it sporting, adventurous training or military training, medical support is provided at public expense up to the point where the individual is fit to be discharged home to the care of their GP. Long term health care, however, is not provided by MOD to manage the consequences of injury or illness sustained by members of the Reserve component unless whilst mobilised for operations: that responsibility lies with the NHS. Refer to JSP 753 (Tri Service Regulations for the Mobilisation of Reserves).[27]

2810. Medical Welfare

a. The patient's CoC is expected to be fully engaged in the needs of the Service person undergoing hospital care with regard to:

(1) Welfare needs assessment;

(2) Response to requests for welfare support;

(3) Emotional and practical support;

(4) Liaison and referral to other agencies as appropriate.

b. Arrangements are in place in the form of Unit Liaison Officers for linkage between single Service Welfare organisations (RN FPS[28], AWS[29], RAF[30] and SSAFA[31]) (see Chapter 24).

2811. Dangerously Ill Forwarding of Relatives (DILFOR)

DILFOR is an allowance designed to help ease the emotional and financial burden of close family members of a Service person who is unexpectedly admitted to hospital. DILFOR is available to provide travel and subsistence to enable family members to visit the Service person. Details of DILFOR are contained in Chapter 7 of JSP 751 (Joint Casualty and Compassionate Policy and Procedures).[32] To be entitled to DILFOR the patient must have a recommendation from the medical authority concerned which states that a visit from close family members would be in the best interest of the patient's recovery.

[31] https://www.ssafa.org.uk/get-help/welfare-and-benefits
[32] https://modgovuk.sharepoint.com/sites/IntranetHeadOffice/SitePages/JSP-751.aspx

2812. Long Term Sickness

Each Service has in place comprehensive long-term sickness management policies which ensure that Service personnel who are long term sick are properly tracked, managed and supported. Further information relating to Long Term Sickness may be found at Chapter 33 Recovery Pathway (RN[33], Army[34], RAF[35]).

2813. Defence Mental Health Services

a. Service personnel who develop a mental health disorder may require specialist assessment and management. In the UK, Defence Healthcare Recovery Group (DHRG) delivers Mental Health Services, which operate through a network of Departments of Community Mental Health (DCMH). Detailed guidance on the provision and management of mental health services is contained in JSP 950 Leaflet 2-7-2[36] and BRd 1991 Ch 18.[37]

b. Each Baseport area has a DCMH to which Unit Medical Officers or MOD GPs can refer Service personnel. JSP 950 Leaflet 2-7-2[38] Section 4 details the care pathway and referral processes.

c. In some circumstances it will be appropriate to accompany a DCMH referral with an FMed1041 Occupational Report in the same way the reports are provided to MO/GP where an individual's occupational performance at work should be considered. JSP 950 Leaflet 1-2-4[39] details the appropriate guidance, including at Annex A, a template of the report for completion.

d. RN operational mental health support is embedded within the Primary Care Receiving Facility (PCRF) or deployed Forward Mental Health Team (FMHT). Specialist pre, during and post mental health support can be accessed via one of the 6 Waterfront Logistics Support Group uniformed mental health nurses within SURFLOT, SUBFLOT, UKCF. Guidance on FMHT composition, utilisation, and actions can be found in BRd 1991 Ch 18.

e. Specific guidance on the RN management of deliberate self-harm is located at Chapter 24 Annex 24D, with **specific guidance for medical professionals** at Appendix 1 to Annex 24D.[40]

2814. Persons Living with HIV (PLWH) - Employment at Sea

a. **References.**

b. The Equality Act 2010[46] does not allow discrimination against personnel on the grounds of HIV status. Personnel who are HIV positive will (at all times) be dealt with in accordance with the principles of medical confidentiality. Only Medical Branch staff and, where appropriate, the CO will be made aware of the status of such individuals.

c. Persons becoming HIV positive In Service will be medically managed and graded in accordance with JSP 950 Leaflet 6-7-7 Section 5 Annex N. Assignment decisions will be based wholly on the medical employment standard (MES) as normal.

2815. Assisted Conception Services and Fertility Preservation

a. Information on Assisted Conception Services and Fertility Preservation for Armed Forces Personnel (AFP) is contained within JSP 661, Chapter 2 Section 5[47] This reference document contains policy and guidance on sexual reproduction matters where AFP have the potential to experience difficulties in initiating, accessing or continuing assisted conception services (ACS) due to the exigencies of Service life. The aim of the policy is to minimise personal disruption and to maximise chain of command (CoC) support, whilst ensuring Service commitments are met. This aim is governed by four overarching principles:

(1) ACS are not directly provided or funded by the Ministry of Defence.

(2) Access to treatment will be aligned to local NHS criteria aligned with the National Institute for Health and Care Excellence (NICE) fertility guidelines.

(3) Where possible, ongoing treatment for AFP or their partner/spouse, whether public or privately funded, should not be interrupted or delayed by Service activity.

[42] BRd 1991. web.apps.royalnavy.r.mil.uk/fpgo/Pages/Index_NWP.htm
[43] JSP 950 Lft 7-2-1. https://modgovuk.sharepoint.com/sites/IntranetUKStratCom/SitePages/JSP-950-Volume-7--Public-Health.aspx

[47] JSP 661 Chapter 2 Section 5.. https://modgovuk.sharepoint.com/sites/IntranetHeadOffice/SitePages/JSP-661.aspx?web=1

(4) There is specific NHS provision for those personnel who have suffered genital injury as a result of their Service.

b. For the purposes of this policy, ACS is the name given to the variety of treatments in support of conception, such as In-Vitro Fertilisation (IVF) or Intrauterine Insemination (IUI). It also incorporates fertility preservation (FP) services such as cryopreservation and/or medical techniques developed to preserve sexual and/or reproductive function. The policy does not cover surrogacy or adoption services; however, AFP may be entitled to maternity leave, adoption pay and leave and/or paternity pay and leave. This should be discussed with an individual's CoC.

2816. Individual Medical Risk Assessment for Operational Deployments or High Readiness Roles

a. This policy provides instructions to Commanding Officers (COs) and Career Managers (CMs) on the requirement and process to conduct Individual Medical Risk Assessments (MRAs)[49] for RN and RM Regular and Reserve Service Personnel (SP) who are nominated for operational deployments or high-readiness roles.

b. The MRA allows the Chain of Command (CoC) to articulate, treat, and accept the medical risks of deploying individuals or holding them at readiness. This risk will be articulated to Commanders who may accept or reject the individual nominated.[50]

c. Personnel who have a Medical Deployment Standard (MDS) of below Medically Fully Deployable (MFD), typically Medically Limited Deployability (MLD), require a MRA for operational deployments or high readiness roles.[51] Specialist employment groups such as aircrew, occupational divers, and Special Forces deploying within role are considered out with this policy, unless they are deploying in a non-specialist role.

d. **Requirement.** The CoC retains the authority to deploy personnel irrespective of their MDS in exceptional circumstances and after completing a risk assessment.[52] Therefore, to protect the health of individuals and maintain the operating capability of the deployed force, it is imperative that a Command-led objective assessment of an individual's ability to deploy is conducted with risks recorded and where required elevated.[53] The decision to deploy personnel with an MDS below MFD has the potential to increase the level of risk held by the Commander and must consider:

(1) **Risk to Health.** Defence has a duty of care to its personnel and must balance the health impact the activity may have, due to the inherent health risks present, against the operational justification of the activity.

[49] Separate and distinct from Deployment Planning Medical Risk Assessments focussing on formation Medical Plans.
[50] PJHQ_SOP_1100-MRA_Proc https://modgovuk.sharepoint.com/:b:/r/sites/IntranetUKStratCom/OfficialSensitiveDocuments/PJHQ_SOP_1100-MRA_Process-OS.pdf?csf=1&web=1&e=aKWKCcess-OS
[51] web.apps.royalnavy.r.mil.uk/fpgo/Pages/Med.htm, https://modgovuk.sharepoint.com/teams/3695/SitePages/JSP-950-Lft-6-7-7-Joint-Service-Manual-of-Medical-Fitness.aspx
[52] JSP 950 Lft 6-7-7. https://modgovuk.sharepoint.com/teams/3695/SitePages/JSP-950-Lft-6-7-7-Joint-Service-Manual-of-Medical-Fitness.aspx
[53] The majority of personnel will be assessed as suitable to deploy by a Unit Health Committee 3 (UHC) however a small percentage of MRAs will require elevation through the CoC, e.g. PJHQ through Front Line Commands (FLC) to confirm their suitability to deploy.

(2) **Risk to Mission.** Deployment of personnel with a MDS below MFD may limit the ability of personnel to complete their full range of duties in their deployed role, including reasonable unexpected tasks and present additional risk to mission due to increased demand on medical services.

e. **Risk Management and Duty Holding.** Commanding Officers and the Military Command have a Duty Holding responsibility to appropriately select and prepare personnel for deployment, which may encompass an MRA. Once deployed, OPCOM, e.g. CJO[54], would have a Duty of Care to ensure that all personnel have been adequately prepared for deployment so that risks relating to activities are "As Low as Reasonably Practicable" (ALARP). As such, where doubt exists over the suitability of an individual for deployment, then the Commanding Officers, PJHQ, etc should be consulted for advice through the MRA and Deployment Waiver Process.[55]

f. **Responsibilities.**

(1) **Individual.** It is an individual's responsibility to know their Joint Medical Employment Standard (JMES) and articulate any JMES issues to their CoC and CM prior to any deployment or assignment; up to date JMES can be found on SCIO, JPA or in the MyNavy App. Where they are trawled for Individual Augmentation (IA) or OPDEF rectification **all Service Personnel and Line Managers** are to ensure that their JMES including Medical Limitations (MedLims) is entered into the professional considerations section of the Personnel Support Request (PSR); this applies irrespective of whether the Service Person (SP) is MFD, MLD or MND.

(2) **Career Manager.** When assigning individuals, the CM is responsible for checking the SP's JMES and whether there is any restriction which requires a MRA. The CM will inform the proposed CoC of the SP's JMES and the CoC will then initiate the MRA process.

(3) **Formed Units.** It is the CO's responsibility to ensure that all personnel who meet the criteria for a MRA are assessed prior to deployment. Timelines for Theatre entry will normally be published by Theatre Commanders. It is the CO's responsibility to ensure a MRA is raised and submitted in good time. The CO should ensure that completed MRAs are retained in the SP's personnel records, noting para 7.

(4) **Unit Medical Officer (UMO).** The UMO is responsible for completing their section of the MRA and coordinating any Occupational Health (OH) input in good time as directed by their CO. The section should be completed, or counter-signed, by an accredited Defence General Practitioner (GP) as best practice. Referral to OH is mandatory if the MDS is MND, MES is L4 for Land Ops, MES is E4 for any Ops, or 5500 MedLim has been awarded. Referral to OH is recommended if there is uncertainty about supporting fitness for role. The UMO is to upload completed MRAs into the SP's Defence electronic healthcare record as best practice.

[54] Whilst not a formally recognised Duty Holder.
[55] PJHQ SOP 1100: Medical Deployment Risk Assessment and Waiver Process (Currently under review).

g. **Timelines.** For planned operational deployments, high-readiness roles, and overseas assignments, MRAs should be submitted at least six months and not later than 1 month before deployment or IAW Theatre Commander's instructions[56]. For short notice assignments and augmentation MRA should be submitted as soon as practicable. The requirement to meet these timelines also applies ahead of periods where personnel are nominated to be held at E/VHR.

h. **Medical Deployment Standard (MDS) and Medical Employment Standard (MES)**

(1) **Land.** MRAs are mandatory for SP graded MLD as this indicates the SP has a MES of L3 or L4, applicable to operational deployments and high-readiness roles. Further guidance is at Annex A to this chapter.

(2) **Maritime.** MRAs are mandatory for SP graded MLD and/or where specific Medical Limitations (MedLims) have been awarded, applicable to operational deployments and high-readiness roles. Further guidance is at Annex A.

(3) **Air.** Non-aircrew and aviators who no longer require aircraft currency are typically awarded A4 and do not require a MRA to be flown in a passenger aircraft. Those awarded A5 may only by flown as an aeromedical evacuation patient.

(4) **Deployment of Medically Non Deployable (MND) Service Personnel.** MND SP should not deploy overseas. However, for UK Ops or in exceptional circumstances an MRA may be conducted with UMO, OH, and Theatre CoC support, as per para d.

(5) **Medical Risk Assessments for Routine Activities.** UK routine activities such as courses, exercises and ranges are detailed in extant policy and course instructions[57]. Overseas routine activity such as defence engagement and visits ashore do not typically require an MRA. However, activities which require a medical plan and/or are included on a Units' dynamic Risk to Life Register would normally require a MRA for SP graded MLD/MND. Where ambiguity arises or a specific risk is identified, a MRA should be completed.

(6) The MRA requirement guide is available at Annex A to this chapter which should be conducted using the blank MRA template at Annex B.

(7) Where the deployment of single or multiple non-MFD SP is assessed as posing a Risk to Health or Mission, Commanders are to consider initiating a Health Risk Assessment (or amendment to an extant HRA) for submission to the Competent Medical Authority.[58]

[56] Examples: PJHQ Pre-Deployment Information SharePoint page, Op KIPION: UKNSF New Joiners' Handbook, PJHQ SOP 1100: Medical Deployability Risk Assessment (currently under review).
[57] Examples: RNTM 07-071/24 JIs for SRLC and LRLC, JSP 419: Adventurous Training in the UK Armed Forces, JSP 950 Lft 1-2-12 Assessment of Medical Suitability to Attend Courses and Training.

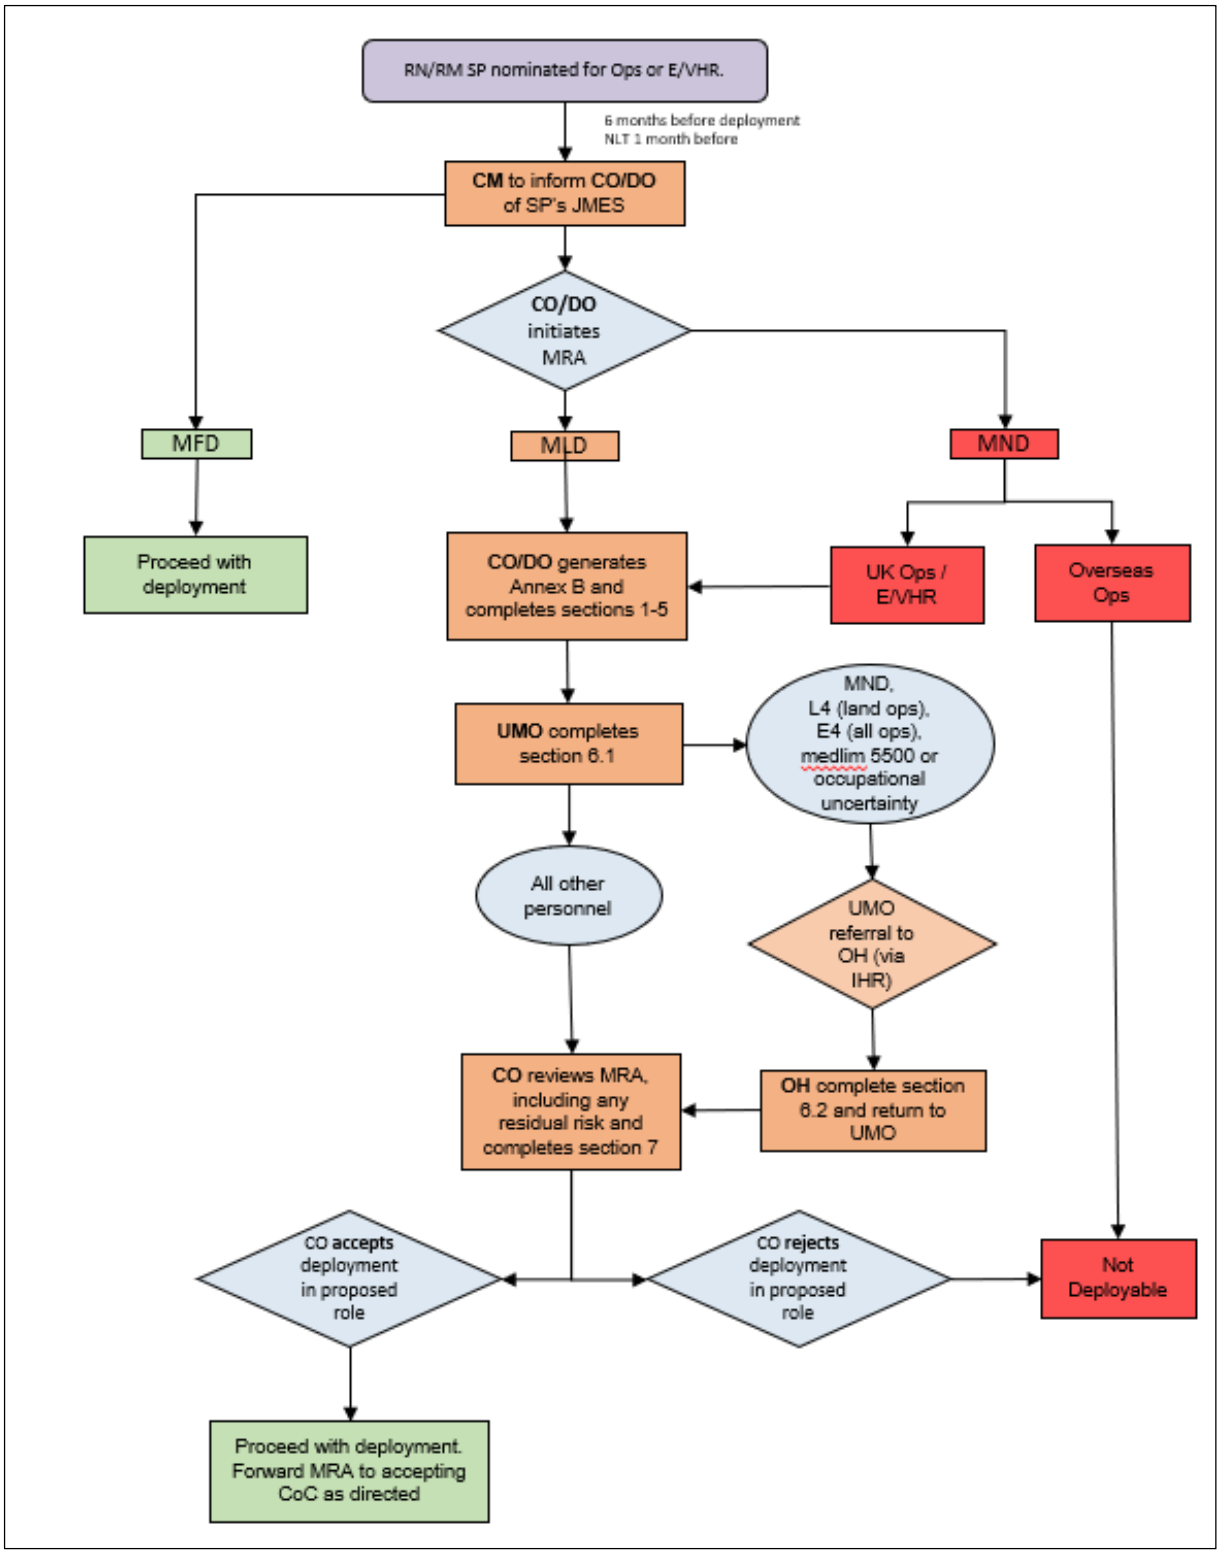
ANNEX 28A

A COMMANDER'S GUIDE TO INITIATING MEDICAL RISK ASSESSMENTS



1. Referral to OH is mandatory if:

a. The MDS is MLD or MND

b. MedLim 5500 (MRA undertaken by OH prior to Exercise/PDT/deployment) has been awarded.

c. If the UMO has uncertainty in supporting fitness for deployed role without taking specialist OH advice, or if the UMO has specific concern.

CHAPTER 29

PHYSICAL DEVELOPMENT

SECTION 1 - GENERAL

2901 Introduction

Armed conflict, at its most extreme, is characterised by intense, extensive and sustained combat. Even routine Naval activities in peacetime can place considerable physical and mental demands on personnel. Therefore, RN personnel must be physically fit and robust enough to withstand the rigours of Service life whether at war or in peace. Physical Development (PDev) plays a crucial role in this process and is instrumental to developing RN Ethos. It also plays an important part in the maintenance of morale which, amongst the ten principles of war, is considered the single most important critical success factor across the spectrum of conflict, including military activities in peace[1]. The delivery of individuals who are mentally and physically robust with a war-fighting spirit and who understand how the physical, mental and emotional components impact on military effect, contributes significantly to the development and sustainment of the Moral Component of Operational Capability. PDev is the cornerstone that provides a 'Winning Spirit' comprising self-confidence, leadership, teamwork, robustness, grit and the will to win. Feedback has provided evidence to show that the Lived Experience is enhanced by PDev supporting retention.

2902. PDev Strategy and Policy

Head of People Support is the OF5 lead for PDev Strategy and Policy and is also the Head of the PT Specialisation. Working through the Deputy Director People (DDP) to the Director People and Training (Dir P&T), Head of People Support is responsible for the governance and delivery of SQEP PTIs, Physical Education (including the promotion of Healthy Lifestyle), Adventurous Training and access to sport. Day to day desk level activity for the development, implementation and assessment of PDev policy is delegated to three SO1s, each responsible for the pillars outlined below:

a. **Physical Education (PEd).** SO1 PEd
   Tel: +443001646387
   email: NAVY PEOPLE-PS COTEM SO1 PED

b. **RN Adventurous Training HQ.** SO1 AT

   email: NAVY PEOPLE-PS SPORT SO1

[1] British Defence Doctrine Annex A (JWP 0-01).

SECTION 2 - PILLARS OF PHYSICAL DEVELOPMENT

2903. Pillars of Physical Development

a. There are three pillars of PDev: Physical Education (PEd), Adventurous Training (AT) and Sport. Singularly, the pillars are valuable; taken as a whole their impact is invaluable. The collective outcome of PDev programmes and opportunities is to develop the ability to respond instantly and effectively to the physical and psychological demands of operations and be able to maintain that resilience over prolonged periods. The PDev Mission is therefore:

> *To provide accessible support services that strengthen and enhance the resilience and resourcefulness of RN personnel, their families and communities'.*

b. The BR providing detailed instructions and guidance for PDev is BRd 51.

2904. Physical Education (PEd)

a. PEd includes Executive Health and RNPES, both of which address the core requirement for physical fitness by promoting a life-long exercise habit and healthy lifestyle, underlining the importance of these in a Naval context. Its purpose is to enable personnel to withstand the physical rigours of Service life and imbue them with a winning war-fighting spirit. The main reference is BRd 51, the Physical Development Manual, which although primarily a book of reference for the PT Specialisation both RN & RM, is also of general interest and use to all those concerned in any way with Physical Education (Ped), Physical Training (PT), physical fitness and recreational training in the Royal Navy. The test format and delivery for RNPES are detailed in BRd 51.

2905. Adventurous Training

a. Adventurous Training (AT) is mandated military training that attracts public funding and makes a significant contribution to the delivery of operational capability.

b. The main Defence Policy references for AT is JSP 419, supplemented by BRd 51 which provides additional single Service (sS) guidance. AT provides challenging outdoor training for Service personnel in specified adventurous activities, involving controlled exposure to risk, to develop leadership, resilience teamwork, physical fitness, moral and physical courage, among other personal attributes and skills that contribute to Operational Capability. The benefits of participation in AT has been recognised by 2SL and is included within Personnel Functional Standards (PFS) as a Cat A requirement. Personnel should be given the opportunity to conduct five days of AT per year as a minimum requirement. The activities listed below are recognised as AT activities by the three Services and are conducted under the Joint Service AT (JSAT) Scheme to encourage and increase Service participation:

(1) Offshore Sailing.

(2) Sub Aqua Diving.

(3) Canoeing and Kayaking.

(4) Caving.

(5) Mountaineering.

(6) Skiing.

(7) Parachuting.

(8) Gliding.

(9) Paragliding.

(10) Mountain Biking.

c. BRd 51 provides details of a select number of additional Similar Adventurous Activities (SAA) and Challenging Activities (CA) that the RN recognise as activities contributing towards individual and collective development. The CA scheme offers a progressive pathway onto the JSAT Scheme, is generally more accessible to RN personnel and offers Junior personnel an opportunity to lead activities and develop skills in Base Port area with minimal administrative burden.

d. Commanding Officers are encouraged to use Adventurous Training as a core mechanism for developing their people.

2906. Sport

Sport in the Royal Navy makes a significant contribution to operational effectiveness, fighting spirit and personal development. It is recognised as a feature of the Armed Forces Covenant, and plays an important part in Service life, including recruiting and retention and in many instances provides excellent public visibility of the Services. Thus it has a wide role, but specifically within the envelope of Physical Development (PDev), it contributes to fitness, teamwork, leadership, self-discipline, determination, co-ordination, courage, competitive spirit, individual and collective resilience, and consequently military ethos. Inextricably linked to operational efficiency, authorised sport is a Condition of Service with duty status and is a core activity that cannot be considered discretionary. Sport supports the recovery and rehabilitation of the wounded, injured and sick (WIS). It also provides a balance in the lives of Service personnel from the pressures of military commitments and, during periods of high tempo operations, an invaluable opportunity for decompression. It is to engender all these qualities that public funding and time is made available for Service sport. This Policy applies both to Regular and Reserve Service personnel.

a. **Principles.** The principles underpinning the Royal Navy sport policy are:

(1) To create an environment which encourages Service personnel, both Regular and Reserve, to participate in a full range of sporting activity, whatever their level of ability.

(2) To provide personnel with time for sport and access to a clearly defined standard of sports facilities and equipment, in order to achieve, maintain fitness, health and wellbeing.

(3) To encourage sporting success at individual, unit and representational level and provide a framework for Service, Inter-Service and United Kingdom Armed Forces sports competitions and representational sporting opportunities.

b. **Governance.** 2SL provides strategic direction of Royal Navy Sport. Responsibility for Royal Navy Sport policy, higher-level coordination of its resources, both public and non-public, together with promotion and management is exercised by Dir P&T, through Chairing of the Royal Navy Sports Board (RNSB) and subordinate Commanders, Deputy Director People Delivery (DDPD), Head of People Support (Hd PS) and Head of Navy Sport (Hd NS). All RN sports are played in accordance with national governing body (NGB) rules and guidelines. RN Sports Associations administer their sport in accordance with Service instructions and any directives from the relevant NGB. RN Sports Associations are MOD bodies accountable through the chain of command. The responsibilities of Commanding Officers for sport are detailed in King's Regulations, Training Directives and Second Sea Lord's Personnel Functional Standards (see Chapter 22), all of which encourage participation in sport along with the provision of time and public funding. Commanding Officers are responsible for sport within their Commands and should authorise activity through Unit Sports Boards and/or through Physical Training staff.

c. **Further information.** JSP 660 (Sport in the UK Armed Forces) and BR 51 Part 4 (Sport in the Royal Navy) are the books of reference for Naval Sport.

2907. Physical Development Communications

A number of channels of communication have been developed to assist culture change and inform the Royal Navy on PDev issues and opportunities, as follows:

a. **NAVYfit.** NAVYfit stands as the all-encompassing face of RN PDev to raise awareness of PDev key messages and the offer, available to all RN personnel.

b. **NAVYfit Website.** The NAVYfit Website is accessible through the Defence Gateway and currently going through transformation, so is not live or being updated.

c. **Sports Master Fixtures List (MFL).** The Sports Master Fixtures List is an interactive Excel document, providing details of RN Grassroots to RN Representative and UKAF sports fixtures, including those authorised for centrally funded sport travel (STA) at public expense.

d. **Social Media.** The NAVYfit social media and NAVYfit YouTube playlist (accessible via the Royal Navy's YouTube channel), promotes 'the offer', provides news, multimedia, opportunities, fixtures and results.

SECTION 3 - AUTHORISATION AND GOVERNANCE OF 'ONE-OFF' ACTIVITIES WHICH ARE NOT CATEGORISED AS SPORT OR ADVENTUROUS TRAINING

2908. General.

Whilst definitive lists of the various recognised Joint Service (JS) Sport and AT activities are contained in JSP 419 (AT in UK Armed Forces) and JSP 660 (Sport in the UK Armed Forces), there are a number of RN single Service exceptions to these contained within BRd51 (Physical Development and Sport in the Royal Navy).

a. **Aim.** The aim of Section 3 is to provide a 'handrail' to Commanding Officers who may wish to authorise other 'one-off' activities that fall outside the clear rules provided above and detail points for consideration including how to address the risks involved.

b. **Governance.** The JSPs also describe the proven process for authorising and governing the recognised Sport and AT activity. However, the process for the authorisation of other non-standard or 'one-off' activities is less clear. Some may look like Sport or AT, whilst others (Battlefield Tours or Charity Fund Raising events) may have only a tenuous connection, but they do have a military, (training, RN In the Public Eye (RNIPE), etc.) benefit and so some risk may be acceptable.

c. Such non-standard activities should be fully Risked Assessed with the risk being held by an empowered Accountable Person (AP). The key being that the Risk Balance Case (see BRd10 Policy Leaflet 4.3, Risk Balance Case) is accepted by the AP if the risk needs to be escalated, thus providing an audit trail.

d. **Guidance.** A table listing the key points for consideration before authorising an activity are provided at Annex B. This applies to activities which are not listed within the JSPs or in BRd51 and are likely to be 'one-off' occurrences. There are separate instructions for activities that will become routine/regular occurrences . The PT staff in units are fully conversant with this guidance and their advice should be sought early.

e. **Other PDev Activities.** Activities which are conducted on a regular basis may be eligible to acceptance as 'Other PDev Activities' through the Military Judgement Panel chaired by Hd RN Sport. These activities are similar to RN Sports Associations but cannot have this status if there is no National Governing Body or similar governance structure. CrossFit, Field Gun and E-Sports are examples of Other PDev Activities recently afforded similar status to RN Sports Associations. For more info contact NAVY PEOPLE-PS SPORT POL.

SECTION 4 - ROYAL NAVY PHYSICAL EMPLOYMENT STANDARD (RNPES)

2909. General

a. RNPES has developed over seven years under the scientific guidance of the Institute of Naval Medicine (INM) following a NATO standard approach overseen by Dir P&T, and the People Support Operational Fitness Team (Op Fitness). Trials have been conducted on ships and in numerous establishments and naval bases, covering over 600 personnel across all age and gender demographics. The trials and scientific analysis have resulted in an RNPES circuit that replicates actual on-board tasks. RNPES was approved by a multi-profession military judgement panel (MJP), moving the project from research and analysis to implementation.

b. RNPES is a RN uniformed workforce, minimum acceptable physical competency annual test, that is inclusive for all with one standard, that is fair, reasonable and credible. It is applicable to all RN uniformed personnel (officers and ratings); the RNR and Royal Fleet Reservists undertaking FTRS. The Royal Fleet Auxiliary (RFA) is currently excluded from PES.

c. The RNPES is legally defensible, and, combined with good functional fitness conditioning training in preparation for the test, will contribute towards health and wellbeing of the RN population. It will reduce musculoskeletal injury if good progressive functional training is conducted regularly. It is the mandated physical employment standard for all RN personnel on the trained strength. RNPES has been designed to be time efficient; the process can be completed within a 45-minute period including administration, warm up, test and cool down.

d. The detailed policy is in RNTM 01-057-24 and BRd 51 or contact NAVY PEOPLE-PS OP FITNESS (MULTIUSER) NAVYPEOPLE-PSOPFITNESS@mod.gov.uk.

SECTION 5 - ROYAL NAVY HEALTH AND WELLBEING

Reference:
Strategic Command Health and Wellbeing Plan 2023-2027.

2912. Royal Navy Health and Wellbeing

a. **Strategic Vision**
An employable and deployable Force that is both physically and mentally fit, with a focus on resilience, positive attitudes and behaviours towards health and wellbeing.

b. **Strategic Aim**
The aim of Royal Navy Health and Wellbeing is to facilitate the conditions (e.g., culture, leadership, environment, education, skills, resources) for RN Whole Force personnel to make informed decisions and develop behaviours which improve physical and mental fitness and reduce the likelihood of poor health outcomes.

c. **Importance of Health and Wellbeing in the RN**
The main benefits of a successful H&W strategy are:

(1) Increased operational capability and effectiveness.

(2) Reduction in injury and illness burden.

(3) Increased retention of our people.

(4) Improved recovery rate following injury and illness.

d. **Well Loop** The Five Defence Objectives into the Strategic Command Health and Wellbeing Plan are:

(1) **Objective 1 - Join Well.** Recruiting Royal Navy Personnel (RNP) whose physical and mental health, with reasonable adjustment where appropriate, enables them to undertake their chosen career within Defence.

(2) **Objective 2 - Train Well.** RNP have access to training and education opportunities in a safe, supportive environment in order to maximise positive personal health behaviours and to support professional and personal development.

(3) **Objective 3 - Live Well.** RNP adopt a lifestyle which optimises their health and wellbeing, including sensible approach to alcohol, smoking, sexual health, mental health and fitness.

(4) **Objective 4 - Work Well.** RNP are supported to maintain or improve their health through healthy workplaces according to appropriate levels of risk management.

(5) **Objective 5 - Leave Well.** RNP transition back into the wider community in the best achievable mental and physical health.

e. **Roles and Responsibilities.** The Defence Health & Wellbeing Operating Model consists of: Promote, Prevent, Detect Treat and Recover these are the main areas of delivery. This model highlights the shared leadership and individual responsibility for health and wellbeing. It incorporates the whole systems approach, which demands people are sufficiently educated and enabled to live healthy lifestyles in healthy environments. The Royal Navy Health and Wellbeing Team operate in the Promote and Protect areas.

(1) **Promote.** Focuses on sustaining positive organisational behaviour and a supportive culture.

(2) **Prevent.** Focuses on non-medical initiatives aimed at mitigating the impact of expected life and work stressors.

2913. Executive Health

a. The term Executive Health in this instance refers to the non-clinical aspects of Health Promotion and the decision-making process associated with the maintenance of a healthy lifestyle. All clinical aspects associated with Health Promotion are the responsibility of medically qualified personnel.

b. **Delivery.** Six Executive health topics have been identified with the top three being names as the highest priorities, this will be reviewed annually. Please see Royal Navy Health and Wellbeing (RN H&W) Strategy for more information on these topics.

(1) Women's Health

(2) Addictions

(3) Healthier Weight

(4) Sexual health & Relationships

(5) Mental Fitness

(6) Musculoskeletal Injuries

c. **Executive Health Contact.** For any questions regarding health and wellbeing contact NAVYPEOPLE-PSHWGROUP@mod.gov.uk

d. **Whole Systems Approach.** A System for Health (SfH) refers to a whole-system approach to addressing health challenges. The system puts People at the centre and considers the motives and priorities which drive their behaviours, within their environment and/or context, and within their social supports. A SfH educates and empowers people to act and to take self-responsibility in improving their own health. More importantly, the SfH acknowledges that Military Leadership Culture will ultimately determine the success of individually focussed health interventions. Defence leaders, both military and civilian, must be role-modelling and prioritising their health and wellbeing to develop a culture that supports personnel to make and take healthier choices to improve health outcomes. Robust evaluation and reporting methods need to be established as a priority to ensure that strategic learning is captured and used to inform system development and continuous improvement. (See para 2915).

e. Functional levers of these systems include but not limited to:

(1) Structured Physical Training (PT) to support occupational fitness.

(2) Healthier behaviours education.

(3) Education and training activities to inform physical and mental wellbeing.

(4) The dining facility food offer that should support healthy eating and social engagement.

(5) Overarching Leadership to enable a pro-health culture to be realised.

2914. Terms of reference for the Unit Health Committee (UHC)

a. It is required that all Ships/Units/Establishments must have an active UHC that meets, at a minimum, once a term.

b. **Primary Task.** To monitor Unit health and promote health initiatives and campaigns that effects and encourages positive lifestyle choices which enhance the health and wellbeing of Service Personnel.

c. **Secondary Tasks:**

(1) To assure the Command that the Ship/Unit/Establishment complies with all extant policies that sit within six Executive Health Topics.

(2) To identify areas of non-compliance.

(3) To instigate remedial measures to rectify non-compliance and capture salient details within a Unit Health Action Grid (UHAG). An example of this can be found at Annex 29A

(4) To police and move forward all actions detailed within the UHAG. These should also be made visible to the RN H&W Team. (See Para 2915)

(5) To maintain an accessible Unit Health Calendar containing local health and wellbeing related information and details of relevant campaigns.

d. The UHC should consist of the following personnel:

(1) **Shore Establishment.**

(a) Chair (CO)

(b) Vice Chair (BWO/EWO/SO2/SO3)

(c) PTI

(d) ERI

(e) Medical Representative (SO3 & POMA)

(f) Occupational Health Nurse

(g) Dental Representative

(h) Catering Representative (Contract and RN FM Manager)

(i) PO/LH Police

(j) Mess Representative (Wardroom, SR, JR)

(k) Chaplain

(l) Others with a special interest in health promotion

(2) **Ship/Submarine.**

(a) Chair (XO)

(b) EWO/Cox'n

(c) PTI (where applicable)

(d) Medical Representative (MO/POMA/LMA/MA)

(e) Catering Representative (POCS/LCH)

(f) LO/DLO

(g) PO/LH Police

(h) Mess representative (Wardroom, SR, JR)

(i) Other with a special interest in health promotion

e. **Accountability.** Executive Health Requirements are the responsibility of the Unit's Commanding Officer and accountable to Dir P&T via the RN Health and Wellbeing Team. Evidence of this will be assessed during RN H&W Team assurance visits and through the submission of the UHAG. UHAGs are to be sent to the RN H&W Team, NAVYPEOPLEPSHWGROUP@mod.gov.uk on completion of UHC meetings. An example of UHC Agenda and Action Grid can be found at Annex 29A. Topics that should also be discussed at UHC and therefore be evidenced in the agenda and actions are, but not limited to:

(1) Sleep and Daylight.

(2) Shift Work.

(3) Oral Health.

2915. Unit Executive Health Requirements

a. Unit Health Committees and health and wellbeing are an Executive function. It is required that all Ships/Units/Establishments meet the following requirements. (12 is relevant for Shore Establishments only.)

(1) All Units are to have an **active** Unit Health Committee.

(2) The UHC must be chaired by the CO (shoreside) XO (Ships).

(3) The UHC must meet a minimum of once a term (three times a year). An extra UHC meeting is strongly advised before a deployment of two or more months.

(4) The UHC must have the best interest of all personnel and be responsive to change.

(5) After each UHC meeting, the agenda and UHAG must be sent to NAVYPEOPLE-PSHWGROUP@mod.gov.uk

(6) Hold regular H&W days/events/initiatives to promote a healthy lifestyle. In addition to the regular events, these must take place before a deployment of two or more months. For example, a brief on the menopause or contraception. More examples of this can be found in the H&W Toolkit.

(7) All Units must have at least one H&W notice board to provide information and signpost how to access support. These must be updated termly and be in a space with high footfall and attraction.

(8) A new H&W campaign must be initiated termly. For information on this please contact NAVYPEOPLE-PSHWGROUP@mod.gov.uk

(9) All Units must have the correct amount of Menstrual Support Boxes. For information, please see JSP 661.

(10) No and Low alcohol beverages must be stocked in all mess bars.

(11) All units must maintain up to date Health and Wellbeing feedback. See Unit Health Toolkit for guidance and examples.

(12) Provision of Pre/Post-Natal support including a breast-feeding facility.

b. **Assurance Visits.** These requirements will be monitored during assurance visits to ensure the continual improvement of health and wellbeing across the RN. Assurance visits are an opportunity to address support that may be needed and how to improve the health and wellbeing of the Unit. These will take place on a 24-month cycle.

SECTION 6 - PUBLIC FUNDING TO ACCESS FITNESS TRAINING FACILITIES

2913. Provision Of Civilian Gymnasium Membership – Criteria

A level of physical fitness ability is required to pass the RN Physical Employment Standard (RNPES). In addition, evidence has shown regular fitness training has a positive impact on individual Health and Wellbeing supporting a better Lived Experience. All RN personnel are expected to maintain the minimum acceptable physical employment standard annually, as defined in the RNPES policy. To support the annual physical test requirement, military fitness facilities are in normal circumstances provided. However, it is recognised that exceptionally, there are those who are assigned to remote locations where military fitness facilities are not available. Consequently, alternative arrangements are available to allow RN personnel to gain access to civilian fitness facilities, at public expense. The eligibility criteria in RNTM 10-056/24 and BR51 or contact: NAVY PEOPLE-PS OP FITNESS (MULTIUSER) NAVYPEOPLE-PSOPFITNESS@mod.gov.uk.

ANNEX 29A

UHC AGENDA TEMPLATES WITH UHC ACTION GRID

Serial	Item	Lead
1.	Welcome and Introduction	Chair
2.	Review and Update of Previous UHC Meeting Action Grid	Chair/SME
3.	Updates on the following (delete as appropriate) a. Women's Health b. Addictions 1. Alcohol 2. Smoking/vaping 3. Gambling 4. Energy drinks c. Healthier Weight 1. Physical Activity 2. Nutrition d. Sexual Health and Relationships e. Mental Fitness/Resilience 1. Mental Fitness Training f. MSKI g. Other	SMEs
4.	Unit Health Data and Feedback from reps. (RNPES/DOFit/Remedials/Smoking Cessation)	PTI (where applicable)/ Medical Team
5.	Review and update of H&W campaigns and initatives.	Sec
6.	CO/XO top 3 termly local priorities and action plans. These should be escalated to RN H&W Team	Chair
7.	Areas requiring assistance from RN H&W team.	Chair/Sec
8.	AOB	All
9.	Proposed date of next meeting	Sec

For examples of what you may discuss in each section please see the Unit Health Toolkit.

When deciding actions please use the following colour code:

If action is needed to be taken immediately (within 1 month)	**Red**
If action is moderate (2-3 months)	**Amber**
If action is not urgent (3+ months)	**Green**

Serial	Item	Action	Lead	RAG
1.	Welcome and Introduction			
2.	Review and Update of Previous UHC Meeting Action Grid			
3.	Updates on the following (delete as appropriate) a. Women's Health b. Addictions 1. Alcohol 2. Smoking/vaping 3. Gambling 4. Energy drinks c. Healthier Weight 1. Physical Activity 2. Nutrition d. Sexual Health and Relationships e. Mental Fitness/Resilience 1. Mental Fitness Training f. MSKI g. Other			
4.	Unit Health Data and Key Performance Indicators (RNPES/DOFit/Remedials/Smoking Cessation)			
5.	Review and update of H&W campaigns and initiatives.			
6.	CO/XO top 3 termly local priorities and action plans. These should be escalated to RN H&W Team			
7.	Areas requiring assistance from RN H&W team.			
8.	AOB			
9.	Proposed date of next meeting			

For examples of how to use the colour coding and actions that may come up please see the Unit Health Toolkit.

ANNEX 29B

AUTHORISATION AND GOVERNANCE OF 'ONE-OFF' ACTIVITIES WHICH ARE NOT CATEGORISED AS SPORT OR ADVENTUROUS TRAINING

1. The key points for consideration before authorising an activity are provided in Table 29B-1 below:

Table 29B-1. Key Points.

Condition	Key Points to Consider
Types of Activity.	Due to the broad spread of events/activities, it is not possible to provide a definitive list, however, examples that could be considered by the CoC are: The Three Peaks Yacht Race The Scottish Islands Peaks Race Race the Sun RA Adventure Race Organised Ultra-Distance Endurance Events RM Lympstone to Poole Race Battlefield Tours that are not part of a core military training course An example of a type of activity that should not be authorised are all Civilian Obstacle Course Races[1] (including): Tough Guy Tough Mudder
Is it Appropriate?	The event/activity must be team-based (more than 2 people) and demonstrate a benefit to Defence and the personal development of the team members participating, typically, physical fitness, teamwork and leadership.
Safety	Ensure that there is a Safe System of Training (SST)[2] including the 4 elements of; 'Safe Practice, Safe People, Safe Place and Safe Equipment' is established. Examples are: Ensuring that individuals are wearing appropriate levels of Personal Protective Equipment (PPE). For example, the wearing of PPE that is mandated when conducting any form of military training but is not stipulated for a civilian event/activity then the level of PPE required by the military should not be reduced. Complying with policy when assessing the anticipated environmental conditions before and encountered during the event/activity[3].
Charitable Fund-Raising	Raising money for charity must not be the primary reason for the event/activity, nor must it be a mandatory requirement for participation. A contribution to charity must not be part of an event/activity entry fee.

[1] Civilian OCR are not recognised as providing a Safe System of Training (SST). When military training on obstacle courses is conducted, appropriate levels of clothing (i.e. boots with a heel, full body coverage) and equipment (helmets) are normally worn to protect the individual
[2] JSP 375. Management of Health and Safety in Defence.
[3] JSP 539 – Heat Illness and Cold Injury: Prevention and Management.

Condition	Key Points to Consider
Risk Assessments	A detailed risk assessment (recommend on MOD Form 5010) may be completed by a competent person and subsequently considered by the authorising officer[4]. The risk assessment must consider all components of the event/activity, including travelling to and from the location of the event/activity. The hazards and control measures must be made known to the participants. If circumstances/time dictate, then a dynamic RA should be considered. Particular consideration must be made to the risk of Heat/Cold Illness. All PTIs (or establishment H&S advisors) should be well versed in completing these risk assessments. The risk must be accepted by an appropriate (AP). There needs to be a clear limit to the delegation for any Dynamic Risk Assessment (RA) that can be conducted by the OiC once the event is underway. P 375 Chapter 8 should be referenced. (i.e. knowing when to "stop"). **Review the risk assessment and update (as necessary)** The Commander, Manager or AP **must** continuously assess the activity and where unexpected hazards arise or the activity changes, then he risk assessment **must** be reviewed (this is referred to as a dynamic risk assessment) **and additional control measures added if necessary.** **Potentially high-risk activity**. The residual risk must be identified, who is authorised to hold such risk and that an audit trail confirms that the activity plan was agreed as ***ALARP and Tolerable*** – and that the plan will be followed.
Duty of Care	All events/activities must be subject to the direction and guidance within MOD policy[5]. For AT and Sport in the RN, Duty of Care (DoC) applies to all activities. The Royal Navy only applies Duty Holding to military activity so does not apply Duty Holding to AT, Sport or the types of activity considered in this RNTM. If in doubt refer to BRd10 and/or the Navy Safety Centre.
Experience and/or Competence	Authorising officers must be satisfied that participants are appropriately prepared and, if necessary, qualified to participate in the event/activity.
Fitness and Medical Standards	The following fitness and medical standards must be applied: **Fitness Standards.** As a minimum, participants must be in-date for their respective Service fitness assessment. Depending on the event/activity. **Medical Standards.** In principle, all participants should be graded Medically Fully Deployable (MFD). However, it is recognised that some individuals without an MFD grading may be more than capable of participating in an event/activity or participation may assist recovery to MFD. Authorising officers must assess the medical status of all participants and seek medical advice if they are unsure of an individual's ability to participate.

[4] The CO or the 2* will be the authorising officer IAW the 'Decision Matrix' process at Annex A.
[5] DSA 01.1 – Defence Policy for Health, Safety and Environmental Protection.

Condition	Key Points to Consider
Duration	Events/activities will normally be short in duration, lasting up to 7 days but this is at the discretion of the authorising officer.
Location or Destination	The following points apply: **General.** Event/activity organisers should select activities within the UK. However, events/activities conducted overseas may be considered, but may not attract the same levels of public funding, especially for travel (see Table 2). **Land Clearance in UK**. Activity organisers should consider whether Land Clearance is required for their proposed event/activity. Guidance can be found in JSP 907 – Use of the Defence Training and Evaluation Estate. **Overseas In-country Clearance**. Where an event/activity is taking place outside of the UK, the Activity Organiser must obtain in-country clearance from the Defence Attaché at the Embassy of the destination country. **Accidents/Incidents**. All accidents and incidents must be managed and reported in accordance with JSP 375 and sS reporting procedures (NSOR tbrb DURALS). **Medical Plans and Emergency Action Procedures**. Authorising officers should ensure that activity Organisers/Participation Co-ordinators have a Medical Plan that includes Emergency Action Procedures (EAP); it is essential that the Medical Plan and EAPs are well known to key unit personnel and all individuals conducting/involved with the event/activity.
	Overseas Medical Facilities. As part of the Medical Plan it is recommended that event/activity organisers/coordinators contact the in-country DA staff to establish the country's medical facilities, emergency process and other medical matters. This information and the medical sequence to be followed needs to be included in the Medical Plan and EAPs. It may also require Competent Medical Authority (CMA) approval[6]. It may also be necessary to consider a group or individual medical insurance.
Personal Insurance	If correctly authorised in following the guidance within this RNTM and Service Personnel (SP) are placed 'On Duty', they will be covered by the MOD's self-insurance arrangements whilst participating in the specific event/activity. However, individuals are strongly recommended to have personal accident and liability insurance to cover any occasions when they are not **directly** participating in the activity (such as periods of stand-down/leave or other activities not directly related to the authorised event/activity). Organisers are to check whether participants have insurance and encourage those without, to purchase cover. The risks of not being covered are to be clearly explained.

[6] The RN CMA is Asst Head Medical Operations and Capability.

Condition	Key Points to Consider
Equipment Insurance	As the MOD is not liable for the cost of insuring personal effects or issued military equipment, equipment insurance is strongly recommended to cover the loss or damage to personal and military issued equipment that may occur during any event/activity.
MOD Insurance and Duty Travel	Under government legislation the MOD's liability towards its passengers is restricted to approximately £75,000. If individuals wish to obtain increased cover, they should take out further insurance at their own expense. Please refer to MOD Insurance for Duty Travel for further guidance.
Civilian Participation	Except for the use of key enablers, civilian participation (including MOD Civil Servants and Contractors) is not to be authorised for events/activities being considered within this policy.
Use of Key Enablers	For some events/activities there may be the requirement for a key enabler[7]. The use of a key enabler to facilitate activities is limited to those already in the employment of MOD as Crown Servants (Military/Civilian) or through call-off contracts.
Fee Earners	If a key enabler is not sourced from the above means then units can use the 'Fee Earners Engagement' process, however approval for this must be through the Fee Earner Engagement HR Form 161
Duty Status	If correctly authorised, then SP will be 'On Duty' whilst participating in the specific authorised event/activity. As in any other military situation there may be occasions when SP are considered 'Off Duty', when engaged in a function or an activity not required by the Service and not directed or supervised by Service leaders. The exercise instruction should delineate between these periods and participants should be made aware of each transition.
Off Duty Recreation Activity	Individuals may partake in activities should they so wish, however, there must be no association with the unit (transport/admin order/funding) which may suggest that the unit is any way responsible for the activity[8].
Pre-Training	Authorised events/activities may require some form of pre-training to conform to the SST. If required, all pre training must be conducted within the spirit of the Direction and Guidance (D&G) within this RNTM.

[7] Instructor, Guide, Skipper etc.
[8] Any guidance or instruction on an activity may be misinterpreted as inadvertent authorisation or approval by the unit

2. Funding

If correctly authorised, some elements of public funding may be used to help offset the cost of participation, but this must be approved by the appropriate budget holder. Any shortfall in public funding is to be met from non-public funds. Guidance for funding sources is listed in Table 2 below:

Table 29B-2. Use of Public Funds.

Action	Guidance
Travel	Travel at public expense from the unit travel budget can only be authorised for events/activities conducted within the UK; Overseas travel can only be conducted at non-public expense (this includes all elements of travel and subsistence, including from unit to point of disembarkation and the equivalent return journey). Travel is to be by the most economic method and should be based on collective arrangements whenever possible.
Subsistence	In accordance with JSP752 Parts 1 and 2 day and night subsistence allowances are not eligible. Military accommodation must be used in the first instance. Where military accommodation is not available, accommodation costs are to be met from non-public funds[9].
CILOR	If military accommodation that provides catering or Pay as You Dine (PAYD) facilities is not available, then CILOR can be authorised and must be applied for through respective Log Sp Food Services departments.
Local Overseas Allowance (LOA) and Longer Separation Allowance	In accordance with JSP 752 Part 2 LOA and LSA allowances are not eligible[10].
Commanding Officer's Public Fund (COPF)	Use of the COPF may be authorised to help offset the cost of participation however it must not be used to pay for event entry fees.
Non-Public Funds	Where public funds do not meet the expected costs of the activity, shortfalls must be met from non-public funds. Potential sources of non-public funds include, but are not limited to the following: Ship/Unit Funds. RN&RM Sports Lottery. RN&RM Charity. RM Charity (RM only). Others (Greenwich Hospital, Gosling Foundation etc)

3. Other financial considerations include:

a. **Sponsorship.** Any applications for sponsorship must be in accordance with policy[11] and advice must be sought from Navy Command Corporate Governance at the earliest opportunity. There is a requirement to report all core and non-core sponsorship activity above £5K as part of quarterly returns to MOD, submitted through Navy Command Corporate Governance.

[9] For example, the use of campsites is permitted but costs must be met from non-public funds.
[10] N.B. Para 19 of JSP 752 Part 2 for other allowances/charges that may affect individuals whilst away on activities.
[11] JSP 462 – Part 2, Chapter 7 – Sponsorship.

b. **Personal Contributions.** Having expended all efforts to identify sources of funding, a personal contribution may still be required to participate in the event/activity. The level of personal contribution will be wholly dependent upon available public or non-public funds and at the discretion of the authorising officer. A personal contribution reflects commitment from an individual and should be seen as positive.

c. **Route to Market.** It is important to note that the payment for goods or services using public funds should be through the commercial route to market process and Contracting, Purchasing and Finance (CP&F). This also applies to travel activity that has been given a HRG travel exemption.

4. Authorisation. All activities within the scope must be authorised by the Commanding Officer (CO) of the individuals participating. The following principles will apply:

a. **Decision Matrix.** It is anticipated that many selected events/activities will incorporate risk; either physical, reputational, or both. A simple matrix to assist the CO when determining the level of risk involved is included in this Annex. Three levels of risk are defined which are linked directly to a hierarchy of authorisation[12]:

(1) **Low Risk.** Activities assessed as Low Risk can be authorised by the CO.

(2) **Moderate Risk.** Activities assessed as Moderate Risk require elevation to 1* HQ for subsequent advice[13] and oversight before a CO makes a decision on authorisation.

(3) **High Risk.** Activities assessed to be High Risk will require a Military Judgement Panel (MJP) to be convened by the unit's 2* HQ. Guidance on the attendance and conduct of the MJP is provided below. The MJP must authorise the activity for it to proceed.

b. **Single Unit Activities.** The CO of the unit conducting the event/activity, or who has unit personnel participating in an event/activity, must endorse the activity or proposed participation. The CO must ensure there is a suitable Officer, Warrant Officer or SR/NCO to be the event/activity responsible person[14] for the 'Duty of Care' of all participants.

c. **Multi-Unit Activities.** Where participating individuals come from more than one unit, then a lead unit must be appointed[15]. The CO of the lead unit must ensure there is a suitable Officer, Warrant Officer or SR/ NCO to be responsible for the Duty of Care of all participants. It is advised that SP from other units complete Annex C (signed by their CO) and forward the Annex to the lead unit's activity organiser/participation coordinator to confirm authorisation for their involvement.

d. **Activity Administration Instruction.** An Administration Instruction enables event organisers to formally capture all the processes of authorisation and provides COs with a tangible and auditable document to demonstrate compliance with MOD policy and procedures. A nominal roll within such a document will also act as the mechanism for placing SP on duty.

---

[12] A 3 layered assurance approach that involves an elevation up the CofC as the risk increases. This provides assurance and risk management oversight IAW the DH construct.
[13] From a Suitably Qualified and Experienced Person (SQEP) or Subject Matter Expert (SME). The Duty Holding CofC can also seek advice from SQEPs or SMEs outside of their CofC from other organisations such as Dep Hd Navy Sport and RN AT HQ, and may be signposted to other organisations for SQEP/SME advice.
[14] This person must be in attendance and taking part in the event.
[15] Usually the CoC of the proposed activity organiser/leader.

e. **Daily Orders.** In lieu of an Administration Instruction for more simple events, participation in an activity may be recorded on the unit/ship's Daily/Weekly Orders.

5. Media Plan. Depending on the nature of the activity**,** organisers/coordinators are strongly encouraged to consider a Media Plan, this is to produce positive media coverage in order to sell the Navy's message to aid retention and recruitment.

6. Advice. Whilst the CoC is responsible for determining whether to authorise these activities, general advice on the principles introduced in this RNTM should in the first instance be sought from the unit PT department.

ANNEX 29C

GUIDANCE FOR COMMANDING OFFICERS WHEN DETERMINING RISK LEVELS

1. General. The table below provides a decision matrix to assist COs when determining risk levels associated with activities. It does not negate the requirement to conduct a full risk assessment IAW JSP 375. An elevated level of risk will require an elevated level of authorisation:

Risk Factor	Risk Threshold		
	Low (1 pt)	Moderate (2 pts)	High (3 pts)
Altitude	≤2500m	2500 – 3500m	≥3500m[1]
Degree of Hazard[2] (Technical nature of discipline)	Low	Medium	High*
Work Rate[3] (both physical & psychological)	Low	Moderate	High* (if sustained for long periods)
Duration of Continuous Activity (per 24 hrs)	Short (<8 hrs)	Moderate (8-16 hrs)	Long (>16 hrs)
Rest and Recovery Period During the Event/Activity (per 24 hrs)	Long (>8 hrs)	Moderate (5-8 hrs)	Short (<5 hrs)
Acclimatisation	Acclimatised	See note[4]	Unacclimatised[5]
Participant Preparedness	Full	Partial	None
Remoteness (Access to / Response of Emergency Services)	<30 mins	30-60 mins	>60 mins
Organised Event Reputation	Established Event Good Safety Record	N/A	New Event or Frequent Health & Safety Incidents*
Estimated Climatic Conditions (Wet Bulb Globe Temperature (WBGT))[6]	As the vast majority of authorised activities via this RNTM sit outside the WBGT Work/Rest tables contained within JSP 375 Ch 41, all climatic conditions (heat and cold) must be considered separately outside this scoring matrix and specified within the activity Risk Assessment.		

2. Risk Scoring. When determining a risk rating, the following scoring is to be used:

a. Risk factors with a 'Low' risk threshold - 1 pt.

b. Risk factors with a 'Moderate' risk threshold - 2 pts.

---

[1] Due to the increased risk of altitude-related illnesses (Acute Mountain Sickness (AMS), High Altitude Cerebral Oedema (HACE), High Altitude Pulmonary Oedema (HAPE)), any activities conducted above 3500 metres must automatically be evaluated and authorised by a 2* HQ MJP.
[2] Examples – **Low** - Road cycle touring, **Medium** - Road cycling competitions/races with technical descents at speed, **High** - Off road cycling events/competitions with technical or graded descents.
[3] JSP 375 Ch 41 Annex C provides further detail on Work rate tables
[4] Personnel are either acclimatised or unacclimatised.
[5] In accordance with JSP 539, Part 2, Annex C, UK and Northern Europe based personnel are deemed to be unacclimatised.
[6] For planned activity this can be provided anywhere in the world by the Joint Operations Meteorology and Oceanography Centre

c. Risk factors with a ‘High’ risk threshold - 3 pts. *If an event/activity has a risk factor that falls into these thresholds, consideration regarding participation in the event/activity must be elevated to 1* HQ level for advice and oversight prior to the CO’s authorisation decision is made (even if the total risk score is ‘Low Risk’).

3. Risk Rating and Authorisation. Once the risk factors above have been scored according to the anticipated risk threshold, all of the individual scores are to be added together to create a total risk score. The total risk score will produce a risk rating. This rating is directly linked to the level of authorisation required as defined at para 7a. The risk rating against the total risk score and level of authorisation required is as follows:

Risk Level	Score	Authorised By
Low Risk	Score of 10-12 pts	CO’s Authorisation
Moderate Risk	Score of 12-17 pts	CO’s Authorisation after elevation for advice and oversight at 1* HQ level
High Risk:	Score of 18 pts or more	2* HQ MJP Authorisation

4. Changes in Risk Factors. If the event risk factors and their associated thresholds change from the original scoring, then the following procedure must be applied:

a. A daily/dynamic risk assessment is conducted to include control measures/management of the risk.

b. The updated risk assessment is to be reported back to the Authorising Officer for guidance, advice and continued authorisation to participate.

c. This is to be conducted by the appointed 'Duty of Care' person in consultation with any SQEP or SME present on the ground.

d. The Authorising Officer remains responsible for authorising activities that have elevated risk identified through the daily/dynamic risk assessment.

ANNEX 29D

2* HQ - MILITARY JUDGEMENT PANEL (MJP) COMPOSITION AND CONSIDERATIONS

1. General. As introduced at para 8 and defined at Annex B, some activities may be considered 'High Risk' and subsequently require higher level scrutiny by a unit's 2* HQ.

2. MJP Composition. The suggested membership of a 2* HQ MJP is:

a. Activity Risk Owner (or appointed representative).

b. Corporate Governance representative.

c. Budget Manager.

d. Health and Safety representative.

e. Medical representative.

f. An independent activity-specific Subject Matter Expert (SME) for example:

(1) SO1 AT representative (if appropriate).

(2) DHd Navy Sport representative (if appropriate).

3. MJP Considerations. The aim of the MJP is to:

a. Consider the appropriateness of the event/activity being proposed.

b. Consider the safety arrangements and assess their robustness.

c. Establish whether the benefits of participation outweigh the risks.

d. Set the conditions under which authorisation to participate is predicated.

4. MJP Event Assessment. To help inform the MJP process, the activity leader is to populate the MJP Event Assessment Form at Appendix 1.

5. MJP Result. Having fully considered the activity, the MJP is to produce a written record of the result reached, inform the requesting unit accordingly and archive the record for future retrieval as required.

APPENDIX 1 TO ANNEX 29D

MILITARY JUDGEMENT PANEL (MJP) - EVENT ASSESSMENT FORM

Section 1 - Event Details						
Event Title:						
Activity(ies):						
Organising Body (if a civilian event)						
Location/s:						
Date/s:	From:		To:			

Section 2 - Proposing Unit Details						
Unit Title:						
Activity Leader:	Rank:		Name:		Tel:	
Commanding Officer:	Rank:		Name:		Tel:	

Section 3 - Event Description and Aim of Participation
Briefly describe the event and state the aims and objectives that will be achieved by those participating:

Section 4 - Funding Arrangements
Briefly describe the funding arrangements proposed for participation in the event: (i.e. entry fees, travel, accommodation, food, etc)

Section 5 - Unit Participants	
No of personnel participating:	
Describe their role/s in the activity:	
Describe their level of competence and preparedness for the activity: (include any qualification requirements and any pre-training)	
Confirm fitness levels and medical status: (refer to para 5f of RNTM)	

Section 6 - Event Safety (summary of risk assessment and admin instructions)
Describe the written instructions, verbal briefings and Duty of Care that will be afforded to participants:
Describe the topographical and environmental conditions that are expected: (i.e. terrain, sea state, weather, etc)

Describe any personal protective clothing and equipment that will be used throughout the event:
Describe the minimum safety standard for any specialist equipment used: (i.e. vehicles, bikes, boats, etc)
Describe the medical arrangements that will be available throughout the event:
Describe the Communication Plan being used for the event: (i.e. use of radios, mobile phones, GPS Trackers (include coverage) etc)
Describe the procedures for emergency recovery or evacuation:
Describe the procedures for incident reporting and notification:

Section 7 - Other Remarks

Use this section to provide any further details that the MJP should be made aware of or that may assist them in making their decision:

Section 8 - Authentication by Activity Leader

Signed		Rank		Name		Date	

Section 9 - MJP Approval / Not Approved (delete as appropriate) - Risk Held

Signed		Rank		Name		Date	

CERTIFICATE OF AUTHORISATION FOR MULTI-UNIT ACTIVITY

1. This certificate is to be completed by individuals, from units other than the lead unit, when participating in an activity within scope of this RNTM.

2. Once completed and authorised by the individual's Commanding Officer, iaw JSP 375 Chapter 39 (Retention of Records) this certificate is to be forwarded to the activity organiser in the lead unit, who must retain the certificate as confirmation of authorisation to participate in the event/activity. When this certificate is considered no longer valid it should to retained locally or sent to archive (see JSP 441) and should be retained for a minimum of 3 years.

Section 1 - Event Details	
Event Title:	
Activity:	
Organising Body (if a civilian event):	
Date/s:	
Location/s:	
Section 2 - Lead Unit Details	
Lead Unit Title:	
Name of Unit Activity Leader:	

Section 3 - Unit Participant Details					
Ser	Service No	Rank	Initials	Surname	Remarks
1					
2					
3					
4					
5					
6					
7					
8					
9					
10					

Section 4 - Unit Point of Contact					
Rank		Name		Tel No	

Section 5 - Commanding Officer's Authorisation							
I hereby authorise the personnel listed at Section 3 above to participate in the activity described at Section 1 above:							
Rank		Name		Signature		Date

CHAPTER 30

DIVERSITY AND INCLUSION

3001. Policy Statement

a. MOD policy is to create a uniformed and civilian workforce drawn from the breadth of the society of whom we defend, which gains strength from society's range of knowledge, experience and talent. It is an organisation that welcomes, respects and values the unique contribution of every individual. For the Royal Navy, including the Royal Marines and the Royal Fleet Auxiliary, to maximise its operational effectiveness it must be able to recruit and retain the best people, enable those people to reach their potential, and create a working environment which ensures that all personnel feel valued, respected and included within their units. Within the Royal Navy the focus on diversity has developed from achieving legislative compliance (The Equality Act 2010) and in response to external influences such as the Equality and Human Rights Commission – creating a deeper appreciation of the business and operational benefits of a diverse organisation. This is an essential mind-set for an inclusive employer.

b. The Royal Navy values the diversity of its personnel and is committed to promoting a work culture and environment in which diversity is pursued and highly valued. It encourages people from a wide variety of backgrounds and ethnic origins, and with different perspectives and abilities, to work together to advantage. Good diversity management can help everyone reach their full potential, making them more useful members of their own team and so contribute to achieving greater Operational Effectiveness; every individual has a responsibility for treating others with respect and dignity.

c. The Royal Navy is committed to respecting D&I and therefore no unlawful or unfair discrimination, bullying or harassment will be tolerated against any person on the grounds of one or more of the Protected Characteristics (PCs[1]); sex, race, religion or belief, gender reassignment, sexual orientation, marriage or civil partnership, pregnancy and maternity, age and disability. Furthermore, unfair treatment on grounds of gender identity or gender expression is not to be tolerated. All personnel shall have equality of opportunity for employment, training, career management and promotion within their Service on the basis of their ability, performance and aptitude for work. The prevention or resolution of harassment or bullying should never be subordinated to tradition, custom or the apparent maintenance of morale. Examples of unacceptable behaviour can be found in JSP 763.

[1] The Armed Forces have an exemption from complying with employment legislation only with respect to age and disability.

d. As well as an overarching policy statement regarding the D&I culture within the MOD and the Royal Navy, there are many other Joint and single Service policies designed to improve the overall welfare package and 'work-life experience' of personnel that are available within units through their Diversity and Inclusion Adviser (D&I(A)) or administration resources and are accessible either on the MOD Intranet, RN D&I Policy SharePoint site, or Unit Executive organisations. This wide range of policies includes, for example, provision for maternity, paternity, parental and adoption leave; provision for those wishing to embark on fertility treatment; policies to cater for minority faith groups and the establishment of employee networks. For example, RN LGBTQ+ Network (Sexual Orientation and Gender Identity/Expression Network), Armed Forces Jewish Community (AFJC) and the Naval Servicewomen's Network.

3002. Legislation

In addition to the Armed Forces Act 2006 and other employment legislation, the Royal Navy adheres to the Equality Act 2010 and the Public Sector Equality Duty. The Armed Forces have an exemption from complying with employment legislation with respect to age and disability. The Armed Forces must, however, apply the exemptions contained in the Equality Act proportionately.

3003. Policy Advice and Guidance

a. This policy is underpinned by the First Sea Lord's Diversity and Inclusion Directive issued to all RN Units.

b. Advice on Royal Navy D&I policies and procedures should be sought from the Unit D&I(A) in the first instance. Alternatively, Unit D&I(A)s, those in the Command chain and Line Managers may also seek advice and guidance either from the NCHQ D&I Intranet site or direct from the NCHQ D&I Policy Staff.

3004. Climate Assessments

a. **Background.** Climate Assessment (CA) policy is directed by the MOD. Climate Assessments (CAs) are designed to provide all those in command with an independent assessment of the lived experience of personnel in their unit and the opportunity to address issues which may arise during their command. In addition, civil servants and contractors will participate in CAs.

b. Climate Assessments highlight key issues, indicating risks and actions for future work as well as instances of good practice. The outcome of the CA is a Commanding Officer's Action Plan, against which they will be held to account for delivery through NAVY PEOPLE-PSP DANDI SO1

c. For the Royal Fleet Auxiliary, work is underway to implement these standards in the near future.

d. **Direction and Guidance.** All Commanding Officers should expect their unit/establishment to undertake a minimum of one Climate Assessment during their tenure. For best effect, this should follow 3 months after assuming command.

e. **Content.** CAs will comprise 2 levels, as follows:

(1) **Level 1 - A 'Snapshot' Approach.** A Level 1 CA consists of an online survey accessible through both DII/MODNet and personal electronic devices (PEDs). This allows all personnel in a unit/establishment to be involved in the process. Commanding Officers are to encourage full participation by unit personnel.

(2) **Level 2 - Facilitated Focus Groups (FGs).** A Level 2 CA is delivered through FGs and individual interviews at the unit/establishment conducted by trained personnel. Level 2 CAs are facilitated by the RN D&I team who are suitably qualified and experienced to fulfil Climate Assessor roles. All Climate Assessors will complete a CA Facilitation training course to become a TM. Units will only undertake a L2 CA if one of the following criteria apply, and will take into account priority of CA2 against resource available:

(a) A recommendation from the L1 CA.

(b) A recommendation from the RN Conduct Cell.

(c) On invitation by Commanding Officer.

(d) On request from the Flotilla or Brigade HQ.

(e) On the recommendation of an ISI.

(f) As directed by Senior leadership.

f. Each level of CA is used to inform Commanding Officers of the lived experience of personnel under their charge and to provide critical feedback on the Command and Culture Climate. Following a CA, Commanding Officers will be held to account for the delivery of an action plan by submitting the action plan after 6 months

g. **Point of Contact.**
Email: NAVYPEOPLE-CLIMATEASSESSMENTS@mod.gov.uk.

3005. Training

a. Training to raise D&I awareness (NCT 4 mandatory training) is available online, within formal training courses carried out at establishments and at unit level in the Royal Navy by trained D&I(A)s. The MOD policy on Diversity training is given within JSP 898 ('Catalogue of Defence Policies with Impact on Training and Education'; Part 3 Chapter 6). The four mandated levels of training are:

(1) **Level 1: Core Training.** Level 1 Core Training is to be delivered to all members of the Royal Navy , whether regular or reserve:

(a) Within Initial Naval Training (Ratings);

(b) Within Phase 2 Training if the training pipeline is 2 years or longer.

(2) **Level 2: Advanced Training.** Level 2 Advanced Training (NCT4) is to be delivered to all members of the Royal Navy, whether Regular or Maritime Reserve:

(a) To officers undergoing Initial Naval Training (Officers);

(b) At unit level to personnel ranging in rank/rate from AB/Mne to Officers of OF5 rank, including those in Command positions. Advanced level training is to be refreshed every two years.

(3) **Level 3 and Level 4.** Levels 3 and 4 Training refer to briefings given to Senior Military Officers (1* and above) and MOD Senior Civil Servants, and specialist Diversity training to D&I(A)s and D&I(P)s delivered by the Defence Leadership Centre Delivery Team, Shrivenham.

b. NCHQ D&I Policy staff have developed a bespoke training package that meets the training objectives for advanced D&I training (now NCT4) and is titled 'Be the Change'. Training is delivered by a qualified D&I(A) face to face, or via a facilitated online session using MS Skype or MS Teams when required. Which training format is used should be selected on a case-by-case basis by the D&I(A) who will be delivering the training. Training is facilitated by a D&I(A) and can be supported by a D&I(P). A D&I(P) may deliver elements of the training but they must be supervised by a D&I(A). All newly qualified D&I(A) should shadow two sessions by another D&I(A) prior to delivering. There are a very limited number of online sessions which are run by the D&I Policy desk, available to personnel in remotely deployed or singleton billets where there is no unit provision for NCT 4 training or its equivalent. The lead for D&I training is NAVY PEOPLE-PSP DANDI SO2.

c. Recognising that units within the Royal Navy differ widely in construct and role, delivery of the training packages may be adapted accordingly, and unit level experience in promoting and managing diversity should be introduced to ensure that the training package bears the 'unit signature'. The quality and content, however, is not to be reduced or compromised and the RN corporate image is to be retained. To maintain audience participation and engagement, it is suggested that optimum numbers should not exceed 25 for an in-person delivery or 10 for a online delivery, as the subject matter lends itself to discussion, which is incompatible with groups of a larger size.

d. In tri-Service units which do not have an RN D&I(A) post to deliver NCT4, attendance on the RAF mandatory D&I training is permitted as an alternative to NCT4. This should be used only when completing NCT4 is not an option due to place of employment and the absence of a RN D&I(A) to deliver it. The RAF competency can be awarded for two years only, as well as the NCT 4 competency.

e. D&I elements are included in individual training at a number of key points. These are summarised in the table below:

Table 30-1. D&I Training Key Points

Training Name	Delivery Mechanism	Periodicity	Notes
D&I Fundamentals	DLE	Once in career	During initial training. *Can be recommended for personnel who require foundation knowledge emphasising.*
Navy Core Training 4	Face to face or facilitated online by D&I(A)	Biennial	Mandatory for all personnel OR1-OF5
Senior Officers Leading Diverse and Inclusive Organisations	Face-to-face at Defence Leadership Centre	Three yearly	Mandatory for all personnel OF6-OF9
Head of Department Leadership course	Face to face by SME	Once in career	
Executive Warrant Officer Leadership Course	Face to face by SME	Once in career	
Commanding Officer Desig Course	Face to face by SME	Prior to each command appointment/when required.	
D&I Practitioner	Online or face to face by Defence Leadership Centre	Once in career	
D&I Advisor	Online or face to face by Defence Leadership Centre	Five yearly	
Holistic Allies Training	Online facilitation organised by Defence Leadership Centre.	Once in career	Opt in training and available to all RN and Civil Servants.

f. The completion of Core or Advanced Training (NCT 4) is to be recorded by unit administrators on JPA under the relevant Core Military Skill competence: *NCT|NCT4 Core Level D&I Training RNRM Navy*, or *NCT|NCT4 Advanced Level D&I Training RNRM|Navy.*

g. For the Royal Fleet Auxiliary, work is underway to implement these standards in the near future. The D&I Policy Lead for Royal Fleet Auxiliary is NAVY PEOPLE-PSP DANDI CA RFA who is a trained D&I(A) and qualified to deliver D&I training.

3006. Unit Organisation

a. Each unit will have a Command D&I Lead; this is flagged position and generally the Second in Command of the unit (XO, 2I/C); however, in 3 watch units both the First Lieutenant and Executive Officer positions will be flagged. The Command D&I Lead position is required to attend the D&I XO Desig Workshop delivered during CO/XODC. The Command D&I Lead is responsible for the following:

(1) Management and continuation of the regular unit D&I Action Group (DIAG).

(2) In conjunction with the unit D&I(A)s, to ensure the mandatory RN D&I training (NCT 4) is delivered through a regular training schedule and maintaining unit NCT4 qualifications.

(3) Ensure the unit remains up to date for all D&I policy.

(4) Maintenance of links to Defence and Royal Navy Networks.

(5) The provision of a wide variety of bespoke training and opportunities for the unit.

(6) Ensure continuity of the unit organisation during handover to relief.

b. Each unit will have one flagged Lead D&I(A) position (EWO, BWO, G1, Cox'n) who is responsible for the unit confidential D&I logs. All D&I(A)s are responsible for supporting the Command D&I Lead with the unit D&I activity and managing all aspects of the unit's D&I organisation. The terms of reference for D&I(A)s can be found in JSP763 Part 2, Annex C. For OPVs the 2 D&I(A) are recommended to be the Cox'n and 1Lt to ensure 100% coverage of the 3 watches.

3007. Diversity and Inclusion Advisers (D&I(A)s)

Careful selection and training of D&I(A)s is key to ensuring a successful and effective D&I organisation within units and will help to maintain and promote a healthy D&I culture across the Royal Navy. D&I(A)s support the Command D&I Lead with the unit D&I activity and manage all aspects of the unit's D&I organisation. The terms of reference for D&I(A)s and D&I(Ps) can be found in JSP763 Part 2, Annex C.

a. Role and Selection of Unit D&I(A)s.

(1) A conscientious and effective D&I(A) is critical to successful management of D&I, advancing diversity and inclusion in the workplace and is crucial in advising on the harassment or bullying complaints process to both individuals and the Command. In the event of a bullying and harassment complaint being raised, the D&I(A) will provide impartial advice on D&I policy to the Command, and to all parties to a complaint. When acting in such an advisory role, the D&I(A) cannot be utilised as the complaint investigator.

(2) The D&I(A) is also the lead source for D&I information within the unit and delivers Core and Advanced D&I training. D&I is NCT 4 and records should be maintained by the Unit to ensure all personnel are in date as required.

(3) The D&I(A) role is not an administrative function and is not to be automatically assigned to Logistics Officers. Many Logistics Officers perform the role of Command Legal Advisor (CLA), and there could be conflict of interest where an individual is asked to fill both the CLA and D&I(A) roles. Where a unit is primarily a Logistics Unit, then it is understood that a Logistics Officer other than the CLA might be nominated to attend the course.

(4) Whilst a keen interest from personnel in these positions is both welcomed and encouraged, it is not appropriate for COs/OiCs to undertake the D&I(A) or D&I(P) courses. Personnel seeking confidential and impartial advice are not to approach the person who may become the Decision Body. Furthermore, a CO/OiC will be unable to act in a deciding role if they have already done so in a D&I(A) role. Unit commanders are encouraged to keep themselves in date for mandatory training and ensure they are familiar with the D&I Policy contained in this chapter and within JSP 763

(5) RN policy is that the minimum rank of D&I(A)s should be PO/Sgt unless specific agreement has been reached for someone of lower rank to meet this duty based upon the unit establishment or role. In most cases, units will have a federated network (covered below) and D&I(A)s should not generally be tied to Line Numbers but should be selected by the Command to fulfil this important role based upon their particular skill sets and abilities that should include listening skills, compassion, impartiality, integrity and discretion and good judgement. It is recognised, however, that some personnel will become a D&I(A) due to their role: Executive Warrant Officers, Base Warrant Officers, SM and MCM Coxswains, Naval Reserve Unit Warrant Officers/Whole Ship Coordinators, RM G1 Discipline Advisers, and RM Reserve Unit Sergeant Majors/G1 Advisers

(6) The position of Lead D&I(A) has overall responsibility for completing the online summary form monthly and detailing anonymised approaches and incidences for their D&I team. Lead D&I(A)s will be expected to present this log, fully up to date and accurate, during L2 Climate Assessment visits.

(7) The Lead D&I(A), in collaboration with the Command D&I Lead, is to ensure a regular D&I Action Group (DIAG) takes place attended by the unit D&I(A)s and D&I(P)s, in which the Action Plan is updated, and unit events planned, including a regular schedule of mandatory training. Other HODs and command elements are encouraged to attend these meetings.

(8) D&I(A)s/D&I(P)s are expected to act in accordance with their terms of reference regardless of any change in rank, role or assignment. The competency for D&I(A) lasts for 5 years.

b. The number of D&I(A)s should be in relation to the establishment/Ship's Company of the unit. As a guide, all Ships and Submarines should have 2 D&I(A)s, one of which is the BWO/EWO/Coxswain, or equivalent, and the second is selected at the unit's discretion following the guidance above. In three watch crewed and multi-crew units there should be a minimum of 2 D&I(A)s per crew rotation to ensure 100% coverage. For OPVs the 2 D&I(A) are recommended to be the Cox'n and 1Lt to ensure cover of the 3 watches, with at least 1 D&I(A) in the on-watch for smaller crews. In larger units, a federated D&I(A) network of between 6 to 8 personnel is appropriate. The most effective model is a Lead D&I(A) with corporate responsibility for the overall D&I 'service' within the organisation with additional D&I(A)s providing advice, conducting unit induction/D&I training, and contributing to a single (master) Unit D&I Log held by the Lead D&I(A) as appropriate.

c. A once only 5 year extension can be given to D&I(A)'s providing that they are currently in date for the competency, complete D&I Fundamentals on the DLE, and provide a statement from their CO stating that they are an active D&I(A) who is current in their role and delivery of training. This should be sent to the following mailbox: NAVYPEOPLE-DIATMailbox@mod.gov.uk. An extension request will then be sent to the Defence Academy.

3008. Diversity and Inclusion Practitioners (D&I(P)s)

a. Careful selection of D&I(P)s is important in ensuring a successful and effective D&I organisation within units and to help maintain and promote a healthy D&I culture across the Royal Navy. Every unit should have a minimum of two, but ideally a mixture of different ranks/rates and professions/disciplines should be D&I(P)s. They will support the unit Command D&I Lead and Unit D&I(A)s as required. The terms of reference for D&I(A)s and D&I(Ps) can be found in JSP763 Part 2, Annex C.

b. **Role and Selection of Unit D&I(P)s.**

(1) Provision of first contact support and signposting of people. D&I(P)s provide a unit point of contact to raise or manage certain D&I issues within the constraints of their training and where individuals seek resolution at the lowest level.

(2) The role of D&I(P) is set at a minimum of LH/Cpl level up to a maximum of Lt Cdr. Individuals should be selected for their leadership acumen, approachability, good judgement and common sense.

(3) D&I(P)s are to support the unit D&I organisation as required and should attend the regular unit DIAG.

(4) D&I(P)s are encouraged to support the D&I(A) in provision of the mandatory training and are qualified to take groups for a component during training sessions.

(5) Management of the unit D&I organisation communications, including noticeboards.

(6) Provision of bespoke training serials and events, including annual events such as National Inclusion Week, Black History Month and National Commonwealth Day.

(7) Maintenance of links to Defence and Royal Navy Networks.

3009. Diversity and Inclusion Documentation

a. **D&I Complaints Log.** D&I Advisers and Practitioners (D&I(A/Ps) are required to document all approaches made to them. Lead D&I Advisers are responsible for ensuring record keeping. They are to refer to JSP 763 for full information and relevant Annex's regarding logs and complaints. Both physical and online logs should be used, when deployed, details should be uploaded on a secure folder IAW JSP 441.. This should then be transferred to the online reporting tool at the soonest opportunity when back in the UK.

b. **D&I Training Log.** Every unit should have a D&I Training Log. This log should be accessible to all in the D&I organisation and should include an action plan, training plan, record of training etc. The action plan should be reviewed and updated on a regular basis by the D&I organisation during the routine D&I meetings. The D&I Training Log should be reviewed by the CO as a routine book either quarterly or six-monthly.

c. **Complaints/Incidents Log.** There are 3 main types of records, as follows:

(1) **Whole Force Incident Log.** The Incident Log documents any approach for advice and support. The report form should be handwritten at the time of interview, be at a minimum classification of 'Official-Sensitive-Personal', be kept securely and accessed only by D&I(A)s.

(2) **Incident Follow-up.** The Incident Follow-up is to be used 4 weeks after an individual has told a D&I(A) they wish to use the informal complaints resolution process to monitor the progress in resolving the issue.

(3) **Monthly Summary Log.** The Monthly Summary Log is an anonymous outline report of incidents brought to the attention of a D&I(A) over the month. This is to be completed online which will ensure a copy is sent to the CO/Director/Head of Establishment. When completed using the online reporting tool the data is available centrally for TLBs. This draws on the information recorded in the Incident Log. Where individuals report matters to another person, for example their line manager, padre, or welfare officer, and the D&I(A) is made aware, this should be captured in the Monthly Summary Log.

d. D&I(As) and others using the incident logs must ensure they comply with GDPR requirements and JSP 441. The log should have a current (up to two years) section and an archive (2 to 10 years). All complaints paperwork older than 10 years should be managed in accordance with JSP 441; records are to be retained within a unit/ship/establishment for a period of 10 years (details of Service Complaint investigation and outcomes are to be kept for 100 years).

3010. Management of Service Complaints Containing Allegations of Bullying and Harassment

The procedure for dealing with informal and Service Complaints which contain allegations of bullying and harassment is set out in JSP 763 (The MOD Behaviours and Informal Complaints Resolution Policy) under the auspices of JSP 831 (Redress of Individual Grievance: Service Complaints). The processes for implementing these procedures within the Royal Navy are contained in Chapter 23, Representations and Complaints. For the Royal Fleet Auxiliary, you are signposted to the RFA Standards Team and BHDV but informal routes remain the same as RN and Civil Servants.

3011. Mediation

Mediation is recognised as an often highly effective means of assisting the resolution of disputes at the lowest level and without the necessity of recourse to more lengthy and formal procedures. Mediation is an ordered and, within the confines of Service protocol, confidential process that provides a benign, facilitated environment where parties in dispute may resolve their differences with the aim of restoring harmonious working relationships as quickly as possible. It is important to emphasise that mediation can, and should, be considered at any stage of the complaint process. Mediation will ordinarily be undertaken by the Complaints Investigation and Mediation Team (CIMT) and they can be contacted at NAVYLEGAL-MediationService@mod.gov.uk. If this team has insufficient capacity, they will engage a trained mediator from within or external to the Service. Further information on Mediation in the RN can be found in JSP 763 and the mediation checklist within the JSP.

3012. Transgender and Non-Binary Service Personnel

Annex 30C contains guidance on supporting RN and RM Transgender and Non-Binary Service Personnel.

3013. RN Networks

Annex 30D contains the procedure for RN Networks to follow.

ANNEX 30A

ROYAL NAVY UNIT DIVERSITY AND INCLUSION LOGS - STANDARDISED DOCUMENTATION

1. Introduction

This policy advises all Royal Naval (RN) Units on the format for the composition of the Unit Diversity & Inclusion (D&I) Logs.

2. Requirement

a. Commanding Officers/Station Commanders/Heads of Establishment are to maintain records of bullying, harassment and discrimination incidents and complaints (both formal and informal) involving MoD Service personnel only, or involving Service and civilian personnel (but not those involving MoD civilian personnel only, even if they occur on military bases). This does not supersede the direction previously given that all D&I(A)s in Navy Command are authorised to offer advice to civilian personnel in respect of bullying and harassment issues, as they would for military personnel. In doing so, however, D&I(A)s must also request the individual concerned to inform DBS in order to ensure that that the matter is put on record. If the issue cannot be resolved informally, then the complainant, or the line manager overseeing the complaint, must refer the matter to DBS for further action.

b. A Unit's lead D&I(A) is the custodian of the Unit D&I Logs, which will be used as a record to report all incidents as above. It should also include a record of all approaches to the D&I(A) by personnel seeking advice. There will be occasions when an individual has reported an incident and sought advice from someone other than the D&I(A) - eg. Line Manager, Divisional Officer etc. On learning of such incidents, D&I(A)s are to ensure that they are recorded in the D&I Complaints Log (unless the advice was sought from a Chaplain/Padre while fulfilling their duties under confidentiality arrangements).

3. Recommended Content

The reference[1] provides detail on how to maintain the logs, but does not suggest an appropriate format for their composition. Best practice in the RN is to hold 2 logs: the first being the D&I Log, which contains all relevant material that is not Official Sensitive, and is used as a working document; the second is the D&I Complaints Log, which contains completed Official Sensitive forms; this log is to be stored in a secure location and is to include any archive complaint paperwork. The lists below outline what should be retained in each log, but they are not exhaustive and any additional material that the D&I(A) considers will benefit the D&I organisation can be kept in the D&I Logs.

a. **D&I Log:**

(1) Contents Page.

(2) CO/XO Signature Sheet - The D&I(A) comments section should indicate if any complaints (or nil) were raised in that month.

[1] JSP 763 Annex P.

(3) CO's D&I Statement and/or CO's Temporary Memorandum detailing their Unit's D&I organisation.

(4) Training Log - To include D&I training and any other type of training conducted outside the mandatory requirement and unit events eg. Induction briefs, notices and information on Daily Orders and/or noticeboards, bespoke training and events. Cancelled or postponed training should also be recorded with an explanation given. Nominal lists of attendees may be retained in this section if required by the unit.

(5) Action Plan - To assist a Unit to progress within the D&I Matrix. The log may be used to plan for D&I notices, briefs and training etc.

b. **D&I Complaints Log (to be held in a Secure Stowage/Limited area electronically).**

(1) **Wholeforce Incident Log.** This documents any approach for advice and support. The report form should be written at the time of interview, be at a minimum classification of 'Official Sensitive-Personal' and be kept securely. This form is also used for the incident follow up information.

(2) **Monthly Summary Log.** An anonymous outline report of incidents brought to the attention of a D&I(A) over the month. This is to be completed online which will ensure a copy is sent to the CO / Director / Head of Establishment, and the data is available centrally for TLBs. This draws on the information recorded in the incident log. This log can still be completed using a paper template for those without internet access, but the expectation is that this will be uploaded online when internet access is available

(6) **Archive Section.** All complaint data from 2 to 10 years old is to be kept in this section. Older data is to be managed and stored iaw JSP 441 Part 2.

c. At the appendices are templates. JSP 763 contains the direction and guidance for log completion.

4. Digital Log

a. There is an ever increasing requirement for organisations to be 'paperless'. If approved by the Unit Command (at CO's discretion), the D&I Logs can be electronically stored, but the monthly checks and signatures must still take place to ensure that the correct procedures are being carried out. The XO/CO is still to put their comments as normal in the electronic signature sheet and annotate the Comments Box on 'checking in' the document that they have sighted the log. The log may be an XO Monthly Book (providing that the XO does not maintain the log) but must also be a Quarterly or 6 monthly Book for CO.

b. If a Unit is unable to provide electronic signatures (coded signatures), all complaint digital paperwork is to be annotated with:

"Seen and agreed by …… in the presence of …….. date ……....."

c. The requirement to keep all complaint data within a unit for 10 years and beyondmust be at the forefront when deciding where and how to store this data. All data that is stored electronically must be kept in accordance with the regulations set out within JSP 763 and JSP 441. and will be checked during any Climate Level 2 Assessments.

5. Large Units

In large organisations such as Naval Bases, Training Establishments and Air Stations etc. where several units are located on one site, the following policy is to be applied. Where a Logistics Officer (LO) is assigned to a sub-unit and can act as the Command Legal Adviser, an autonomous D&I organisation should be established and administered. For smaller units which do not have a LO assigned, however, they should be administered by the lead D&I(A) of the parent unit . It is best practice for the Base Warrant Officer to hold a master Complaints Log in order for the Base Commander to have visibility of trends across the entire base. It is also best practice for the sub-units, utilising the parent unit organisation, to have sufficient D&I(A)/D&I(P)s for their own needs, to support the wider Base D&I organisation and to contribute to a site-wide D&I network.

6. MCM Crew Log

Due to the nature of crew rotations between ships in MCM1 and MCM2 Squadrons, D&I Logs are to remain with the crews as they move ship and are not to remain on board.

APPENDIX 1 TO ANNEX 30A

CO/XO MONTHLY D&I SIGNATURE SHEET

Unit Name .....

Month	D&I(A) Comments	CO Signature	CO Comments
January 20**			
February 20**			
March 20**			
April 20**			
May 20 **			
June 20**			
July 20**			
August 20**			
September 20**			
October 20**			
November 20**			
December 20**			

1. The D&I(A) comments section should indicate if any complaints (or nil) were raised in that month, eg. Jan 2024 - “One complaint, see Executive Summary Sheet for details” or ”Nil complaints” and therefore no Executive Summary Sheet is required.

2. XO should sign the D&I Log monthly (unless they are maintaining the log) and CO quarterly or six monthly.

3. The CO **must always** sign the Executive Summary Sheet when a complaint is raised during that month.

APPENDIX 2 TO ANNEX 30A

TRAINING LOG
