In addition to raising a SJAR, the Level 2 Warning Officer (usually the HOD) is to initiate, sign and issue to the individual the escalation of the Formal Warning to Level 2. The warning (proforma at Annex 57D) must reiterate the process and describe in sufficient detail: the ongoing problem; the proposed solution; the timescale for review (usually 3 months); and the likely consequences if improvement is not forthcoming. The Subject is to certify in writing that they understand why the Formal Warning has been escalated and the advice given. The warning is to be retained by the unit (or forwarded to a new unit, as required) and a copy provided to the Subject. The narrative should reflect the Level 1 review period and substantiate the escalation of the Formal Warning by elaborating on the Subject's prevailing weaknesses and/or unsatisfactory professional effectiveness.

5759. Formal Warning Level 2 Review

The officer who issued the Level 2 Formal Warning will normally make a decision at the end of the stipulated review period whether or not the warning and advice has led to the requisite level of improvement. Following consultation with the CO, this assessment will result in one of the following options:

a. **Formal Warning Removed.** The Level 2 Warning Officer, acting as the 1RO only, raises a SJAR informing the Subject of their removal from Formal Warning. There is no requirement to complete another Annex 57D.

b. **Formal Warning Escalated to Level 3.** The Level 2 Warning Officer (as the 1RO) raises a SJAR; the CO, who will issue the Level 3 Formal Warning, is to act as Second Reporting Officer (2RO) (subject to a minimum rank of OF3). Where the CO is an OF2 (such as in Command of a MM/PP), an appropriate officer in the unit's chain of command/administrative authority should act as 2RO. The narrative should reflect the Level 2 review period and substantiate the escalation of the Formal Warning by elaborating on the Subject's prevailing weaknesses and/or unsatisfactory professional effectiveness.

5760. Escalation to Formal Warning Level 3

Where the CO decides that a further period of review is appropriate, the rating or other rank is to be informed in writing of the escalation of the Formal Warning to Level 3 in addition to raising a SJAR. The warning (proforma at Annex 57D) must describe in sufficient detail the ongoing problem; the proposed solution; the timescale for review (usually 3 months hence); and reiterate the process and likely consequences of failure to make the requisite improvements. The Subject is to certify in writing that they understand why the Formal Warning has been escalated and the advice given. The certificate is to be retained by the unit (or forwarded to a new unit, as required) and a copy provided to the individual.

5761. Formal Warning Level 3 - CO's Review

At the end of the stipulated review period, the CO is to assess whether or not their warning and advice has led to a sustainable level of improvement. This decision is likely to result in one of the following options:

a. **Formal Warning Removed.** The CO, acting as the 1RO only, raises a SJAR informing the Subject of their removal from Formal Warning.

b. **Formal Warning Retained.** The CO re-issues the warning informing the individual of an extension to the Level 3 Warning, giving reason for the decision and the date on which the review of the Formal Warning will be made.

c. **Application for Discharge/Reversion.** The CO is to apply to the Navy Command Headquarters Casework Cell outlining the case for administrative action. Where application is made for discharge, the Subject is to be informed of the case against them (i.e. disclosure of the application and enclosures) and of the right to make a representation (see Para 5447), in the knowledge that the curtailment of their Service career is under consideration. If the rating or other rank chooses not to make a representation, a statement waiving the right to do so is to be signed and forwarded with the application. Should the individual exercise the right to make a representation, the CO is to comment on the issues contained therein and forward the representation with the application.

5762. Apprising Subject of Warning Implications

Consultation between reporting officers and thorough counselling of the Subject play a key role in the warning process. Every effort must be made to ensure that the shortcomings are identified, and the proposed solution explained to and understood by the Subject, who must also acknowledge in writing the advice given, the future process and consequences in writing. While the Formal Warning issued to the individual is to contain sufficient detail to meet this requirement, the 'Review of Warning' SJAR should be seen as a culmination of the Level 2 and Level 3 review periods in which an honest, accurate, unambiguous and coherent assessment of performance is given to the Subject, taking into account all relevant factors and illustrated by reference to specific failures. There must be no mention of any impending or anticipated disciplinary action, SIB investigations, or acquittal after trial. The Subject has the opportunity to comment in the 'Subject Comments Slip' on receipt of the SJAR from the 1RO (see JSP757 Chapter 3 regarding the options available).

5763. Application for Discharge/Reversion

Specific advice about the process of making application, tailored to the type of discharge, is detailed in Chapter 54 and, if further assistance is required, available from the Navy Command Headquarters Casework Cell.

5764. Retention of Formal Warning Documentation

All records relating to a Formal Warning are to be retained in the raising unit. Where the rating or other rank leaves the unit on assignment, copies of all warning documentation (Level 1, 2 and/or 3) must be forwarded under covering letter to the CO of the new unit and receipt confirmed; the CO retains responsibility for ensuring that personnel proceeding on assignment remain under warning and that the receiving unit is adequately informed of such circumstances. Where the individual is removed from warning, these documents are to be destroyed 12 months from the date of removal.

5765. Routine SJAR Falling within a Period of Formal Warning

Annual, Annual/ Supersession or Annual/End of Tour SJARs are to be raised when they become due in accordance with JSP 757 Chapter 2 Annex 2C after the Formal Appraisal Review or during the period prior to the Formal Warning Level 1 Review. However, it is probable that there will have been insufficient opportunity for the Subject's shortcomings to have been addressed. In these circumstances, while the performance attributes should indicate that the rating or other rank is graded below 'Performing to the standard expected in all respects', the Overall Performance Grade must not be lower than 'C'. Routine reports are not required when the Formal Warning has been escalated to Level 2 or Level 3.

5766. Foreign and Commonwealth Personnel

The system of sequential Warnings for Foreign and Commonwealth Students differ from the provisions of this Para in two important respects:

a. The Foreign and Commonwealth Training equivalent of a Captain's Warning is a National Warning. Commodores or Captains of basic professional training establishments and specialist professional training engineering schools are authorised to give National Warnings.

b. The award of any warnings is to be reported in writing to International Defence Training (Royal Navy) (IDT(RN)) immediately. This is particularly important where withdrawal from training or back classing is under consideration, in which case, consultation with IDT(RN) will be necessary prior to a final decision being taken.

5767. Warnings for Discharge SHORE

In cases other than those for Temperamental Unsuitability, Compassionate, Fraudulent Entry, Drugs or Medical Reasons, it is expected that ratings or other ranks will have been formally warned by the CO/Executive Officer of their shortcomings and given a period in which to redeem themselves before an application is made for discharge. This period will depend on the circumstances, but is normally to be at least 3 months and not more than 12 months. This warning should be recorded on a Formal Warning Proforma (Annex 57D), countersigned by the Subject and retained with their Service Documents and, if required, on a SPEC SJAR on JPA. If, after the period stipulated, there has been a satisfactory improvement, individuals are to be informed that they are no longer under warning for discharge and their documents annotated accordingly. A further proforma should record that the individual is no longer under warning and be signed by the CO and the individual. If there has been no improvement, and the CO decides to proceed with the application for discharge, details of the warning given are to be stated. If, for some special reason, a warning was considered inappropriate, this point is to be covered in the application. If an individual is assigned to another ship or establishment while the application is being considered, this should be recorded on a separate proforma and a copy of the application is to be included with the Service Documents. A similar procedure should be carried out if an individual is assigned between being warned and an application being made for discharge.

5768. Warnings for Inadequacy

Ratings and other ranks that hold the rate of Leading Hand (or equivalent) and above who are unable to perform their duties due to inadequacy must be warned for reversion following the Warning Process procedure. Specific guidance for Warnings for Reversion is given in Chapter 70. Ratings and other ranks who are unable to perform their duties at the lowest rate/rank to which they can be reverted (see Relative Rates Table at Annex 65A) due to physical or mental incapacity (not of a nature to warrant invaliding) or incompetence may be warned for Discharge SHORE (Inadequacy) (see Para 5443 a sub para (3) and sub para (4)).

5769. Alcohol

Alcohol and abuse of alcohol may lead to disciplinary problems which should be dealt with as disciplinary matters. Under circumstances where an individual's efficiency, physical condition or value to the Service becomes materially impaired through addiction, Discharge SHORE may ultimately be recommended. Personnel should be placed on formal warnings for 'Discharge SHORE (Alcohol)' and follow the standard 3-tier process in accordance with Paras 5755-5765. Specific guidance for Divisional Officers on managing the problem drinker is at Para 9 to Appendix 1 to Annex 21J, which must be consulted in all cases.

5770. Royal Navy Fitness Test (RNFT) Failure

The guidance and process for the administration of the RNFT (see Chapter 21 and Chapter 29) includes separate and distinct instructions for warning and discharge from the Service following failure of RNFT.

5771. Naval Annual Personal Weapons Test (NAPWT) Failure

The NAPWT failure policy is detailed in BR 8988 Chapter 12 and contains separate warning instructions.

5772. Warnings for Discharge SNLR (Unruly)

Individuals who are considered to warrant Discharge SNLR (Unruly) will normally have been formally warned by the CO/Executive Officer of their shortcomings and given a period in which to reform as in Para 5767 before an application is made for discharge. Para 5444 is to apply to warnings if the individual is approaching pension. This warning may be dispensed with in cases in which it would not be appropriate, for example after a serious civil conviction.

5773. Warnings for Ratings and Other Ranks Serving on an Extended Career

Guidance on Warnings relating to Ratings and Other Ranks who are serving on an Extended Career are detailed in Para 4945 sub para k.

ANNEX 57A

INITIAL CAREER REPORTING (ICR) - GUIDANCE AND PROCESSES

1. JPA Appraisal System - Procedure and Responsibilities

ICR is to be delivered utilising the JPA (on-line) Course Report (Non Appraisal) – MOD 2020E. The report is to be initiated at course commencement, either by a nominated Appraisal Administrator (AA) (preferably with the Finalise Flag) assigned to a member of the Training Establishment/School staff or by the trainee via 'Self Service Employee – Initiate own Appraisal'. In all circumstances, the reporting chain is to reflect the assigned Divisional Officer or Course instructor as the 1RO. An outline of the process is as follows:

a. Select Report Type: 'Course Report' followed by Occasion: 'Course Report (Non Appraisal)' - Action: AA.

b. Insert 'Year' (e.g. 2013/14), and period of report (start/end dates of course/stage of course or agreed report dates where the course is protracted) - Action: AA.

c. Insert the Service No. of the first person in the reporting chain (AA or 1RO) and complete the reporting chain with a 2RO and the AA with Finalise Flag as required - Action: AA.

d. 1RO completes narratives (1850 characters, including spaces), recommendation free text – 925 characters), contact time with Subject, course competencies (pass marks?), course grade achieved (see Table 1 below) – yellow fields are mandatory - Action: RO.

e. Subject accesses JPA, reads report and clicks complete on Student Certificate (default states "I have read this report and received a copy" - Action: Subject.

f. 1RO clicks 'next owner' (either 2RO at sea for instance or AA with Finalise Flag) - Action: RO.

g. Report finalised on-line and appears in Subject's JPA Self Service and CM's workflow - Action: AA.

2. Report Compilation

The report narrative should focus on course performance against the professional course criteria and fulfilment of the All Ratings First Sea Draft (ARFSD) TPS. Consideration should also be given to the inclusion of comments on:

a. Ability to complete task book training;

b. Leadership potential and suitability for early promotion;

c. Team ethic and core values and standards.

3. Recommendation for CW or FTS

Where this is given, it should be supported by empirical evidence of heightened leadership/professional potential should be included within the Potential section of the report. Should the subject display exceptionally high or low qualities or be affected by extraordinary circumstances, the 2RO (who should be Lt RN or above in this instance) is to be consulted and included in the reporting chain.

4. Course Grading Assessment

While this section is mandatory, it is nonetheless a free text box. Consequently, course grades are to be restricted to the following:

Grades		Comment
A	Exceptional	A 2RO must be consulted before awarding this grade and should only be used for Fastrack/CW candidates
A-	Above Average	
B+	High Average	
B	Average	Average Pass
B-	Low Average	
C	Below Average	
D	Well below Average	Must Consult 2RO. In the exceptional circumstance that a rating is transferred to sea with this grading a 2RO of Lt RN or above will must be assigned and report on the individual.

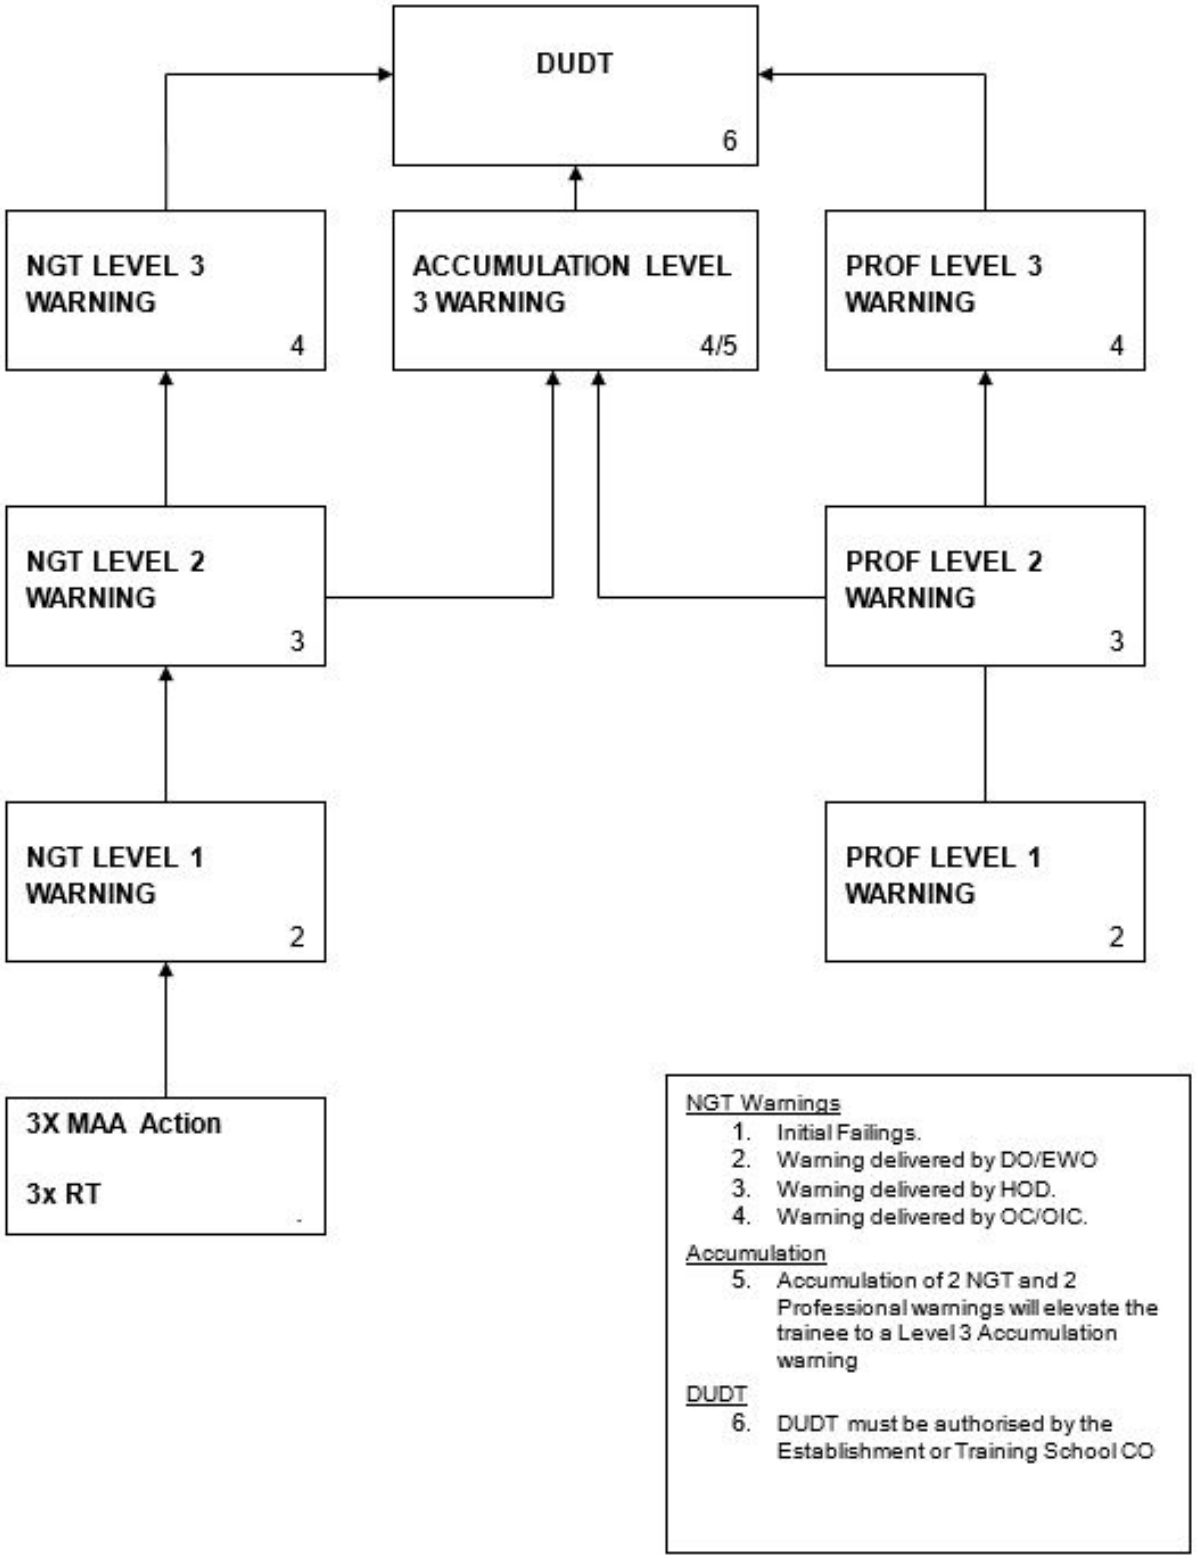
In the context of course achievement, a “B” grading equates to an average pass. There is specific fail grade, given that any rating not passing Professional Course would not reach GTS in any case. However, any student who fails and is held for further training or branch transfer or is Discharged SHORE “Deemed Unsuitable During Training (DUDT)” is to receive a report either at the end of the course or immediately prior to being withdrawn or removed from a course, whichever is appropriate.

5. UTS Personnel placed under Training Warning

Individual Establishments/ Schools operate their own process for placing UTS ratings on warning and this will continue. The warnings are to be removed on completion of UTS training.

ANNEX 57B

UTS WARNING PROCESS



NGT Warnings

1. Initial Failings.
2. Warning delivered by DO/EWO
3. Warning delivered by HOD.
4. Warning delivered by OC/OIC.

Accumulation

5. Accumulation of 2 NGT and 2 Professional warnings will elevate the trainee to a Level 3 Accumulation warning

DUDT

6. DUDT must be authorised by the Establishment or Training School CO

ANNEX 57C

RATINGS DEEMED TO BE OF CONCERN - HANDOVER PROFORMA

Recruit XXXXX, Service Number XXXXX, who will join your unit on DD MMM YY is being highlighted to you as a Rating of Interest.

1. Warnings

Academic Warning level:
(Expand with information as required)

NGT Warning level:
(Expand with information as required)

2. Compassionate

The trainee has encountered the following compassionate issues:

(Within the normal limits of confidentiality or with the trainee's permission, details of the compassionate issue to be as fully explained as possible)

3. Medical

The trainee has encountered a problem of a medical nature which requires the following limitations on their training:

(Details of the limitations to be explained as fully as possible whilst maintaining medical confidentiality)

4. Additional Information

The following additional information is forwarded to aid the Divisional Officer in compiling a more complete profile of the trainee:

(Details of the additional information which may be of interest)

CHAPTER 58

MANAGEMENT OF CAREER

5801. Definition

Career management may be defined as “the assignment of individuals in accordance with endorsed current and future Service requirements, exploiting skills, career development needs and, whenever possible, personal preferences, whilst providing advice on future career paths”. Further detail on the aims of career management can be found in Chapter 59 - Assignment Principles

5802. Provision of Career Management Advice

a. **Officers and Warrant Officers 1st Class.** Career Managers (CM) are to maintain and encourage regular personal contact between themselves and their assignees, both ‘in office’ and during their visits to ships and establishments. For their part, both individual officers are encouraged to maintain contact with their CM by e-mail, telephone, or by visits to discuss their assignments, careers, preferences and circumstances.

b. **Ratings/RMOR.** Career Management advice is available to all ratings on request. Specific advice is provided as follows:

(1) **Senior Ratings.** Career management advice and guidance is available from the relevant CM in NCHQ Portsmouth (or in the case of SM ratings the CMC in Faslane and for FAA, the CMCs in Culdrose, Yeovilton and Marham).

(2) **Junior Ratings.**

(a) EWO or CMC CMs in Devonport, Faslane or Portsmouth or CMCs in Naval Air Stations and at RAF Marham, for advice on current/next assignments, career courses and immediate concerns. For some smaller branches Career Management has been retained by the appropriate Career Management team in NCHQ Portsmouth.

(b) Waterfront Careers Advisers in base ports provide broader career management advice, e.g. issues on career development, out of specialisation opportunities and Dual-Serving Parents (DSP) (see Para 5808).

(3) **RMOR.**

(a) RM Career Advisors (RMCAs), located in most major RM units, and the RM Career Management team (Leach Building, NCHQ, Portsmouth), provide general careers advice

(b) Specialisation Advisers (SA) are primarily based in the lead training schools for their Specialisation and in NCHQ. They provide SME advice relating to their particular specialisation.

5803. Assignment Preferences

a. The primary means of indicating individual assignment preferences to CMs is via JPA. The importance of keeping these preferences up-to-date cannot be sufficiently stressed. Updates can be enacted at any time, but the following occasions are considered mandatory:

(1) New Entries: on completion of Phase 2 Training.

(2) On sea service and LFS: when an assignment order is received detailing a relief or when indication is received that the individual will be assigned without relief (e.g. a ship decommissioning).

(3) Annually for RMs – Updates MUST include the date the amendments or update was entered even if no changes have been made.

(4) When preferences change OR personal circumstances change

b. JPA preference data can include Sea and shore preferences and also allow individual to volunteer for operational tours. Ratings who have identified a particular position in which they wish to serve can submit an Electronic C240 as appropriate, or can register their interest through the MySCIO App.

c. **RM Only.** Whenever an individual submits any change to their preferences it is the duty of those line managers in the hierarchy/workflow chain to ensure that recommendations are made about the individual's suitability or availability before it is forwarded to the next person in the chain and ultimately the relevant RM Career Manager (DRM for Band Service).

d. Divisional Officers are to assist with advice about career preferences and encourage divisional members to utilise the career management services available when appropriate.

e. Further information on Assignment Preferences, including guidance on how to update personal preferences in JPA can be found at Annex 58A.

5804. Career Interviews

a. **Officers and Senior Ratings.** Officers and Senior Rates are entitled to a Career Interview (CI) every 3 years, to take place at least 6 months prior to FAD with the aim for CIs to be on the change of every full assignment (i.e. a CI may not be needed for an Op Tour but the plan for the follow on assignment would require a CI. Engineer Officers are encouraged to use the Engineer Career and Registration Logbook (ECaRL) in preparation for CMI, MPAR and OJARs. Full details on the CI process can be found at Annex 58B

b. **Junior Ratings.** The DO is the first point of contact for the individual's career development with support from the EWO and DEPCO, who will be able to provide more specialist advice to DO/ the individual in liaison with CMC CM (for more information see Chapter 21 (Divisional System). Junior Ratings also have the ability to engage directly with their Career Manager and to have CIs every 3 years at least 6 months prior to FAD. The interview will take the form of a 30 minute conversation organised after the individual has completed the SCIO Career Interview Proforma to highlight personal circumstances and preferences for assignments.

c. In all cases, individuals should complete a Career Proforma via SCIO prior to a Career Interview – instructions on how to do this can be provided by an individual's CM.

d. **Royal Marines.** CIs will be conducted for all ORs by the Unit Royal Marines Career Advisor (RMCA) but may also be undertaken by the Specialisation Advisor or the Chain of Command. The CI will be recorded on the OR's SCIO Career Proforma or, if this is not operationally possible, on a locally produced RMCA CI Proforma which will be uploaded to the OR's SCIO account. A CI will occur:

(1) On change of every full assignment.

(2) A Career Counselling Interview at 12-months point post King's Squad Pass Out (KSPO).

(3) 3-years post KSPO.

(4) Or on request.

5805. Enhanced Security Clearances - DV Clearance

Due to the nature of their duties, a number of positions require a higher than normal level of security clearance (Developed Vetting (DV) clearance). These clearances are both expensive and time consuming to process and necessarily involve some intrusion into personal privacy. In line with MOD guidance, the number of DV clearances is to be kept to the minimum required for operational effectiveness. Top level information on DV clearances can be found in JSP 440 Pt 6; further detail can be found in Chapter 63; desk level instructions for CMs on DV applications and renewal can be found at Annex 58D.

5806. Disclosure and Barring Service (DBS) Checks

As a result of the Criminal Justice and Court Services Act 2000 - Working with Children and Vulnerable Adults, certain assignments require the nominee to have undergone a Disclosure and Barring Service (formerly Criminal Record Bureau (CRB)) check. These are currently tagged in JPA with a legacy CRB competence. When assigning to such a position, CMs are required to nominate personnel for Certificates of Disclosure and to ensure they hold them prior to assignment into the position, or, if a Certificate is already held, to confirm it is at the correct level and remains in date for the period of the assignment. Full details on the type of positions requiring the initiation of a check, levels of disclosure and the process for requesting clearance can be found in Chapter 60 Section 7.

5807. Marital or Civil Partnership Status and Long Term and Established Relationships

a. The rules in Para 5807 sub para b to sub para d below relate to career management and assigning only. They do not relate to situations properly characterised as misconduct, nor do they relate to pay/pensions (see Para 2706 and Para 2162) and other matters where marital status is, or may be, taken into account (some of which are covered in the appropriate Chapter of this BR).

b. CMs take no account of marital or civil partnership status in developing career plans and determining assignments. Personnel will not therefore be placed in, or excluded from, any specific assignment, at home or abroad, simply on the ground of their marital or civil partnership status. This general principle applies to those who are formally married and also to those in stable relationships regardless of the sexual orientation of those involved (the only exception to this principle is in those few circumstances where the law permits marital or civil partnership status to be taken into account; such situations will arise rarely).

c. **Service Couples.**

(1) The principles above apply to those whose spouse/civil partner is also serving. The following additional points, however, should be noted:

(a) CMs will deal with each party to a relationship as an individual in their own right. Accordingly, each party will be assigned according to the four aims of assigning (see Chapter 59), i.e. it is not possible to plan joint careers.

(b) Within the overarching principle at (a) above, service couples are of course allowed to express personal preferences and these will be reflected whenever possible. CMs are aware of the demands of Naval service in terms of separation and will try to mitigate these whenever possible if individuals so request (special consideration will also be given where parental responsibilities are involved - see Para 5808.- DSP).

(c) Service in the same ship/establishment/command is neither guaranteed nor prohibited. Accordingly, couples may serve together provided that no adverse impact occurs, or is likely to occur, on the efficiency or operational effectiveness of the Service. Whether there is, or is likely to be, an adverse impact is to be judged in the light of the circumstances at the time. The mere existence of a relationship does not adversely impact on the Service, but if there is a risk that either party may be inhibited in the performance of their duties by the relationship, then the Service interest is engaged. It will also be engaged if the relationship leads to suspicions of favouritism or bias by either party, especially if one is more senior. More specifically, an adverse impact is generally likely in the following circumstances:

i. Where one of the parties is in a position to influence appraisal reports written on the other. This will usually arise where one is in the formal reporting chain of another, but may also arise if one is expected to provide a significant input into the assessment of the other. In both situations, the objectivity of reports will be called into question.

ii. Where one has functional authority over the other. There is a risk that the existence of the relationship may lead to favouritism, for example in compiling duty rosters, granting leave etc. A relationship between an instructor and student is particularly vulnerable in this regard.

iii. Where the parties have frequent dealings with each other in the performance of their duties. This is more likely in a small ship or unit than a large one.

iv. Where there is a wide rank disparity between the parties. This is a matter of degree and depends on the precise circumstances of the case. There is no objection in principle to officer-rating relationships, but, if the circumstances are such that there is a risk of over-familiarity between one party and the acquaintances of the other, then the Service interest may be engaged.

(2) Where they are aware that a relationship is already in existence, career managers will consult the prospective employer before assigning individuals to the same ship/establishment/command. Where a relationship begins while parties are serving together, then the Commanding Officer should consider whether the relationship impacts, or is likely to impact, adversely on the efficiency or operational effectiveness of the unit. COs should refer to the guidance at Para 2144 (Armed Forces Code of Social Conduct) and apply the Service Test. If the situation justifies intervention, a CO should apply an appropriate sanction. The CO may make an application to land one of the parties, using the procedure in Para 6006 (Removal from Assignment). If an application is made, the CO will be expected to demonstrate that the Service interest is clearly compromised and that the adverse impact cannot be reduced to acceptable levels by reasonable adjustments to working practices onboard. If Service couples do serve in the same ship/establishment/command, the ’no touching’ rule applies in the same way as it does to everyone else.

(3) Those who are married, in a civil partnership, or in a long-term relationship, and are assigned to serve at sea together will not be accommodated together due to the potential for adverse impact on OC.

d. **Relatives.** The rules above also apply where Service personnel serve with relatives (siblings, parents, children) by blood, marriage or adoption.

5808. Dual-Serving Parents (DSP) Policy

a. In situations where service parents[1] are both on active service[2] in the Royal Navy[3] and have joint parental responsibility for a child(ren)[4] who are aged under 18 years, it is generally in the interests of the Service, the SP and the child(ren) to avoid a situation where both parents are assigned to sea, deployed or absent from the child(ren) for a significant period at the same time. Absences apart from sea service[5] and deployment include career training and augmentation outside of the current assignment area. As such, dual-serving parents may apply for DSP status in order to deconflict these activities to provide continuity of childcare. DSP status will not be authorised where either SP is in receipt of Continuity of Education (CEA) allowance for the child(ren) to which the DSP status is requested.

b. DSP status allows one dual-serving parent to be recognised as the Primary Carer, thus ensuring assignment is compatible with childcare responsibilities. The Primary Carer status will move between both parents throughout their careers. The policy does not mean that dual-serving parents will complete less sea service or deploy less than their contemporaries during the course of their careers; it is simply a mechanism to de-conflict sea service, deployment and career training of dual-serving parents in recognition of the unique challenges faced by these Service Persons (SP).

c. The SP with Primary Carer status should not be considered for augmentation/trawls out of the area that they are currently assigned but may still be considered for trawls within local area bases/establishments. The Chain of Command should consider if nomination of a Primary Carer for augmentation for trawls/augmentation is likely to significantly impact their ordinary childcare responsibilities; where such a likelihood exists, the SP should not be nominated.

d. The DSP policy will be applied where possible where the other parent is serving in the Army or RAF [6], subject to adherence to other single Service and/or Unified Career Management (UCM) policy.

[1] DSP applies equally to dual-serving parents who are married, in a civil partnership, long term established relationship, separated or divorced: the intent of the policy is to recognise the child who has both parents, or people with legal responsibility for them, serving.
[2] Does not include SP on FTRS(HC), however, in exceptional circumstances, advice should be sought from the DSP Manager.
[3] Or where the other parent is serving in the Army or RAF.
[4] Referred to as ‘dual-serving parents’.
[5] Defined as 'service at sea' as distinct from sea service, which is a workforce term that is applicable also to employment in units not actually at sea.
[6] The policy will not be applied where either parent is serving in the Royal Fleet Auxiliary (RFA). RFA personnel are Civil Servants, as such, they do not have the commitment of ‘service’. The MOD is committed to empowering and supporting a diverse workforce and developing a suite of legally compliant contemporary and inclusive options to address the challenges of modern family life and provide addition scope of choice with flexible working opportunities for all. For RFA personnel, options include a process to deconflict sea assignments, Enhanced Shared Parental Pay, and policy to apply for defined and published rotational 2 or 3 year shore-based roles after a qualifying period of Worldwide Sea Assignment. RFA policy lead should be consulted for further advice.

e. **DSP Process.** DSP status is applied through the following process:

(1) Both dual-serving parents are required to submit the DSP Application Form (Annex 58E)[7] via e-mail to their respective Career Managers (CM). This should be done by all SP that wish to apply for DSP status, regardless of current assignments[8]. Career Managers will engage to confirm that each SP has submitted an application form and discuss their career management. Both SP must consent for DSP status to be applied.

(2) Career Managers will arrange a joint career interview[9] with both SP[10]; the DSP Manager[11] will chair this joint career interview if appropriate in the circumstances. This joint career interview must be conducted before DSP status is applied, and no later than six months prior to the start of the assignment in which DSP status is requested in order to comply with the associated PFS assignment notice timelines. The aim of this, and all subsequent DSP joint career interviews, is to agree employment and training solutions which meet both the needs of the Service and the needs of the SP. Joint career interview discussions should include (but not limited to):

(a) Deconfliction of sea service and deployments to avoid concurrent absences.

(b) Career training requirements which will result in extended absences, and changeover of Primary Carer status to facilitate career training[12].

(c) Other needs of children, such as geographic preferences[13] due to childcare provision/education, support network, housing, medical etc.

(d) Length of assignments, i.e. for dual-serving parents, it may offer greater stability for assignments to be the same length (if possible).

(e) Handover plan for Primary Carer status[14].

(f) A holistic view of Separated Service totals.

(g) Other Flexible Service[15] options that may be required.

[7] With the intention for Annex A to be digitised in SCIO in the future.
[8] There is no requirement for SP with existing legacy SWDC agreements to submit an application until their next review.
[9] This can be conducted by the most appropriate and convenient means, e.g. Face to face, online etc.
[10] There will be scenarios where joint career interviews are not appropriate e.g., where domestic abuse is a factor. There is a mandatory question regarding consent to joint careers interviews on the DSP Application Form. Joint career interviews will not be conducted where consent is not provided by both SP. CMs will engage with the DSP Manager to discuss the most appropriate strategy where consent is not given.
[11] NAVY PEOPLE-CM DCOS.
[12] Inclusive of all branch/trade mandatory career training and other training such as ICSC and ACSC.
[13] Whilst geographical preferences will be taken into account, it does not preclude assigning outside of these to a different area.
[14] A handover timescale is difficult to assess and should be discussed on a case-by-case basis.
[15] JSP 750, Chapter 2: Flexible Service.

(3) Following agreement of career management, respective CM will update JPA records with DSP status[16] highlighting whether the SP is 'Primary Carer' or 'non-Primary Carer'. Assignment Orders will be issued at the appropriate time. Both the Service and the SP have an obligation to comply with the plan agreed at the DSP joint career interview. Where an agreement cannot be reached by the SP and/or CM, the DSP Manager will be consulted for a final decision.

(4) DSP eligibility and markers are subject to mandatory review at least annually by the CM. This will include a discussion with the other SP CM to ensure continued eligibility and review current arrangements. Any discrepancies or issues should be highlighted to the DSP Manager.

(5) DSP Application Forms must be re-submitted no less than 6 months ahead of FAD or where a significant change is anticipated, such as a requirement to attend career training. It will be the responsibility of the SP to bring their situation and aspirations to the attention of their CM at the earliest opportunity. Furthermore, the CM is to be informed immediately if there is a change in the personal circumstances of either or both SP, for example, if one SP leaves the Service or if one Service Person no longer has joint responsibility for a child(ren) through a Court Order.

(6) Subsequent joint career interviews will be conducted as required by the SP.

f. **DSP Caveats.** The following caveats will apply;

(1) Liability for sea service and deployments against the requirements of their particular branch remains for both SP[17] and must be equitably deconflicted over their careers. Primary Carer status applies equally to both SP; presumptions this will fall to one parent over the other must not be made.

(2) A SP should not normally be marked a Primary Carer for in excess of 5 years consecutively. Careful assessment of the particular circumstances and the needs of the Service should be made if a longer period for one SP as Primary Carer is required. There should normally be a minimum handover of Primary Carer status for 2 years, after one SP has held the tag for 5 years. There should also be a holistic view of Separated Service totals in relation to fair allocation of the Primary Carer status. The DSP Manager should be consulted for advice if required.

(3) Exceptionally, it may be necessary for overriding operational reasons for both SP to be assigned to sea or deployed service at the same time. This action will only be taken with the agreement of Director Personnel and Training/Naval Secretary (Dir P&T/NavSec).

[16] The Service Number of the other parents must be recorded on this record.
[17] The Flexible Service provisions provide options for part time working, and restricted separation.

5809. Single Parent Policy

a. **Definition of a Single (or lone) Parent.** There is no official agreed definition of a single (or lone) parent; however, for the purpose of this policy, a single (or lone) parent is defined as a Service Person in PStat Cat 2[18] who has sole parental responsibility for dependent child(ren) aged 18 years and under[19]; this means a single parent where there is no other person that has legal parental responsibility for the child(ren)[20].

b. **Eligibility.** The policy will apply to SP that meet the definition at para 5809.a; where necessary, advice regarding eligibility may be sought from SO2 Women and Families Policy[21]. Where a SP does not meet the definition at para 5809.a, the policy will not apply[22].

c. **Policy Overview.** It is the responsibility of the SP to ensure that adequate childcare arrangements are in place in order to meet the requirements of their employment, including sea service and other types of deployments, career training and overnight/out of hours duties required by their role. However, it is generally in the interests of the Service, the SP and the child(ren) to ensure appropriate management and support to SP categorised as a single (or lone) parent, recognising that they provide sole parental responsibility. The policy is designed to assist single (or lone) parents to adequately plan in balancing childcare and safeguarding around the challenges of service life. As such, Single Parent Policy includes:

(1) The requirement for Commanding Officers and Divisional Officers/Line Managers to ensure the appropriate management of single parents serving in the RN, and;

(2) Standardises career management relating to single parents serving in the RN.

d. **Requirements of the CO and Divisional Officer/Line Manager.** Where a SP meets the definition of a single (or lone) parent iaw para 5809.a, the CO (delegated to DO/LM) is to:

(1) Encourage single parents to review routinely and refresh ‘Employee Domestic and Welfare Considerations’ on JPA.

(2) Discuss the impact and timing of career training to identify where support may be required around planning to attend career training.

[18] JSP 752 Version 54 April 2023.docx (sharepoint.com) Para 02.0203b.
[19] Where the child is in full time education at the time they reach their 18th birthday, then it will apply until 10 September the year they reach the end of state/further education stage following their 18th birthday.
[20] E.g. Maternal or Paternal parent absent from birth, parent deceased, a court order removing parental responsibility.
[21] NAVY PEOPLE-PSP EMP POL SO2.
[22] Where the SP is separated from the other parent who is also serving in RN, Army or RAF, Dual Serving Parents (DSP) Policy may apply. See para 5808, Dual-Serving Parents (DSP) Policy.

(3) Consider the impact and management of overnight/out of hours duties. Temporary exemptions may be considered iaw para 3515, on a case-by case basis.

(4) Discuss Flexible Working Arrangements[23] and approve where practicable.

(5) Consider the impact of trawls and assist in compiling effective 'pain and grief' statements or equivalent[24].

e. **Career Management.** SP categorised as single (or lone) parents may request a career interview[25]. SP should ensure that the 'Employee and Welfare Considerations' information in JPA is kept up to date. The aim of this career interview is to agree employment and training solutions which meet both the needs of the Service and the needs of the SP. Career interview discussions should include (but not limited to):

(1) Timing of sea service and deployments to minimise the impact to the child(ren)[26].

(2) Timing of career training[27] to minimise the impact to the child(ren).

(3) Other needs of the child(ren), such as geographic preferences[28] due to childcare provision/education, support network, housing, medical, etc.

(4) Other Flexible Service[29]12 options that may be required.

(5) Subsequent career interviews will be conducted as required by the SP.

5810. Continuity of Education Allowance (CEA)

Full details on the eligibility and application of CEA can be found in JSP 752 Ch 14. Guidance to CMs on the completion of the Eligibility Certificate can be found at Annex 58F.

[23] JSP 750, Chapter 1: Alternative Working Arrangements (JSP750_Part1.pdf (sharepoint.com)).
[24] The SP should not be considered for augmentation/trawls out of the area that they are currently assigned (unless they volunteer) but may still be considered for trawls within local area bases/establishments. The Chain of Command should consider if nomination of the SP for trawls/augmentation is likely to significantly impact their ordinary childcare responsibilities; where such a likelihood exists, the SP should not be nominated.
[25] The request for a Career Interview to supplement the 'entitled' provision iaw BRd3, Chapter 58, Para 5804, exists for particular significant changes in circumstances (which is not unique to single parenthood) and may be of use to single parents if they have specific concerns around their career plans.
[26] SP categorised as single (or lone) parents are not exempt from sea assignments or deployments. Whilst the preferences of the SP will be taken into account, they may still be assigned outside of these preferences. Where the SP wishes to avoid separation entirely, flexible service options should be considered.
[27] Inclusive of all branch/trade mandatory career training and other training such as ICSC and ACSC.
[28] Whilst geographical preferences will be taken into account, it does not preclude assigning outside of these to a different area.
[29] JSP 750, Chapter 2: Flexible Service.

5811. Medical

a. **Reporting and Recording of Medical Categories.** A list of the Joint Medical Employment Standards (JMES) (see 2009DIN01-183 and JSP 346 Chapter 5) is at Annex 58G. It is important that all information concerning changes to JMES is retained so that CMs can determine quickly whether there are any limitations to an individual's employability. The following guidelines apply:

(1) JPA records are to be updated to reflect any current medical restriction of more than one month's duration. All permanent changes of medical category are to be recorded as an assigning restriction.

(2) COs/Line Managers are to be made aware of personnel joining who have a reduced JMES; however, the circumstances which necessitated re-categorisation are not to be disclosed.

(3) If a CM is in any doubt as to the medical suitability of an individual for a particular position, the UCM MED team should be consulted.

(4) Whenever a CM is informed by a CO, Head of Establishment or Head of Department that an individual's mental or psychiatric condition is such that a security problem might arise in post, they are to call the employer's attention to their obligation to render an aftercare report in accordance with JSP 4400, Vol 2, Chapter 18 Annex C.

(5) When an individual is medically re-categorised (either up or down), the COs of units are to report all changes promptly by e-mail in signal format to the appropriate CM/CMC mailbox, depending on the branch and rank/rate of the individual. When a JMES below MFD is given, the review date must also be reported.

(6) In the case of inpatients of Defence Medical Groups (DMGs – formerly Military Defence Hospital Units (MDHUs)), the reporting action will be taken by the CO.

(7) An area restriction can only be given for clinical reasons. Welfare or domestic concerns should be addressed by Royal Navy Family and People Support (RN FPS) and not by allocating a medical limitation code.

b. **Invaliding.** See Chapter 54 Section 2.

c. **Royal Navy Medical Board of Survey (RNMBOS) and Royal Navy Medical Employability Board (RNMEB).** See Para 2804. CMs should be aware that the RNMBOS, RNMEB and invaliding process all happen without formal assigning actions. Care must be taken to 'track' these individuals through this process especially if there are additional issues such as welfare or discipline overlaying the medical ones. Any issues regarding RNMBOS and/or RNMEB should in the first instance be referred to the Secretary of the RNMBOS (INM-MES MAO).

(1) **Personnel Placed Permanently in Categories P3 or 7.** Personnel can be recommended for a Permanent Medical Category (PMC) by the RNMBOS which is then approved by the RNMEB. A JMES with appropriate medical limitations will also be issued and will dictate assignment restriction.

(2) **Personnel rated Permanently Unfit for Naval Service/Royal Marine Service (PUNS/PURMS - MEDCAT P8).** Following RNMBOS, personnel made PUNS/PURMS are to be assigned to the most appropriate MA5 Terminal Leave margin position in accordance with the RNMBOS signal and placed in MEDCAT P8 prior to discharge (see Margin Activity Guide at Annex 3B).

(3) There are no medical grounds for delaying an individual's release from the Service except for iaw JSP 760 19.004. In all other cases personnel are to be assigned to Release when due, notwithstanding that they are medically downgraded[30].

d. **Vaccinations and Immunisations.**

(1) COs are to ensure that all necessary vaccinations and immunisations are completed in time prior to deployments and to ensure that individuals are not prevented from joining their new unit on the effective date.

(2) Vaccinations are to take place in accordance with JSP 950 Leaflet 7-1-1: Immunological Protection of Entitled Individuals.

e. **Assigning Personnel Prone to Sea-Sickness.**

(1) Personnel serving in small ships who suffer from chronic sea sickness will be medically re-categorised MLD (Frigates and above only) and the appropriate assignment action taken.

(2) After 12 months Sea Service in a larger ship, such personnel will either be re-categorised MFD if the response to service in frigates and above has been satisfactory, or referred to Executive Authorities to assess continuance in service if seasickness persists (see BR 1750A Article 0803 for further guidance).

[30] BR1750a (Handbook of Naval Medical Standards) Art 0316.

(3) Because of their commitment to small ships, personnel in the Diver and Mine Warfare specialisations are to be downgraded as soon as the problem becomes manifest and considered for Discharge Shore in accordance with Para 5451 sub para j.

f. **Dental Fitness.** Following receipt of an AO, COs are to ensure that personnel detailed for assignment to ships, overseas establishments and to the Submarine Service are dentally examined at the first opportunity. Personnel selected for Submarine Service, whether volunteers or not, are to be dentally examined and rendered dentally fit prior to joining Basic Submarine Training, with the exception of those from ships and establishments where no Dental Officer is available.

g. **Fitness for Service in Submarines.** See BR 1750A Handbook of Naval Medical Standards Ch 9.

(1) All individuals assigned to SM service are to have a preliminary medical examination carried out by their Unit MO to assess their medical fitness for initial Submarine training before joining Basic Submarine Training.

(2) Where a preliminary medical examination reveals a temporary unfitness, which may reasonably be expected to be resolved within 6 months, the relevant CM should be notified by signal so that appropriate assignment action can be taken.

(3) Should the MO carrying out the medical examination assess an individual is permanently unfit for service in submarines, the examination report and full medical documents are to be forwarded to INM for attention of the SMO(SM) for final assessment. The individual's CM is to be informed by signal.

5812. Maternity Arrangements

a. The following are the key references:

(1) JSP 760 - Tri-Service Regulations for Leave and other types of absences (Chapter 20 - Maternity Leave).

(2) BRd 3(1) Chapter 35.

b. All details pertaining to the administration and assignment of pregnant individuals are contained in the above references.

c. Once an individual has had their pregnancy confirmed, and at a time concurrent with their wishes, they will be given the Med Cat P4. Unless serving at sea (see below), they will remain in their assignment until they commence their maternity leave. The latest an individual must inform their CO that they are pregnant is in the 15th week before the expected week of confinement (i.e. the estimated week of childbirth).

d. On confirmation that an individual serving at sea is pregnant, the ship is to transfer them ashore at the earliest convenient opportunity[31]. For Squadded ratings, the ship is to signal the relevant CMC, info NCHQ (FAO the relevant CM) stating the temporary disposal of the rating. The CMC will Manage Move the rating ashore. For non-Squadded ratings and officers, the ship is to signal NCHQ (for attention of the relevant DDPD CM) to request assignment instructions. This is to ensure that the Service can fulfil its legal obligations and responsibilities for the individual's health, and that of their unborn child, and to preserve operational effectiveness. Guidance for EWOs and CMC CMs can be found in Annex 3B and SSDIs (Chapter 3 – Margin Activities).

e. Service personnel who are assigned to the MA4 maternity margin and who belong to any of the three major Waterfronts will be managed through their appropriate geographic Recovery Cell. Those assigned to RNAS Culdrose or RNAS Yeovilton, however, are to be managed under their MA4 margin and should, wherever possible, remain under the care and management of the Divisional team within their parent Squadron or Unit throughout the time that they are assigned to MA4.

f. The pregnant individual should attend a meeting with the CM no later than 15 weeks before the expected week of confinement (but certainly before they depart on maternity leave) in order to ensure that they have appropriate and sufficient information relating to their future assignment in order for them to begin making provision for childcare, housing etc.

g. To ensure that the Maternity Desk in the UPO (and any receiving DO where applicable) has early visibility of the individual, the assignment to the MA4 margin must be completed by no later than week 27 of the pregnancy. This will allow the maternity desk to make early contact with them for the mandatory administrative actions to be completed.

h. All CMs are to ensure that, when assigning individuals (both officers and ratings) to the appropriate MA4 sub-category (A–C)[32], Assignment Orders include an action in the Additional Assignment Details for the individual **to undertake a maternity absence interview at their appropriate Recovery Cell (or through their Divisional Officer if being maintained by their parent Unit, Establishment or Squadron), prior to their MA4 start date.** Individuals who are geographically remote from a Recovery Cell should contact their nearest Recovery Cell by telephone or email. Guidance on the use of the Margin for assigning pregnant personnel can be found in the Margin Activity Guide (see Annex 3B).

i. Career Managers are to keep in contact with the individual throughout their maternity leave period and should inform them of the follow-on assignment in accordance with CAT A PFS standards for assignment notice (i.e. three months before return to work for an assignment within base port area, and five months before return to work for an assignment outside of base port area).

[31] If the ship is alongside, the individual may remain onboard until 28th week of pregnancy (subject to a risk assessment being conducted which permits this outcome).
[32] The MTM MA4 pooled positions are located in DRAKE, and NEPTUNE and PORTSMOUTH only.

j. Where an SP has opted to leave the RN as of right of being pregnant, her new TX date will be calculated by the Release Office and appended to the JPA Form R005. The JPA Form R005 should then be forwarded for processing by the relevant agencies (CM and DBS). The CM is to use the JPA Form R005 as the authority to amend the current Contract End Date, which will ensure the subject gains access to resettlement entitlements and that any other mandatory pay and allowance actions are completed.

5813. Extensions of Service (EOS)

The policy regarding Extensions of Service is at Chapter 49 Section 3. Annex 58I provides further guidance specific to Career Management.

5814. Unlawful Discrimination

Discrimination on the grounds of race, gender, religion or belief, sexual orientation, gender reassignment, pregnancy and maternity/paternity, and marriage and civil partnership is unlawful. CMs are to make themselves familiar with the MOD's code of practice on Equality and Diversity and Naval policy on Diversity and Inclusion. CMs should appreciate the forms which discrimination can take and guard against them. More detail can be found at Annex 58J and Chapter 30.

5815. Records and Reports

a. **Appraisal Reports.** See Chapter 57.

b. **Personnel Records.** The following personnel records are kept by CMs and/or the Promotions Section, in addition to records held in JPA:

(1) **Officers.** The purpose, content and the disposal of each of these files is described in detail at Annex 58K.

(a) **Official Record (OR).** (See Annex 58K Para 1 and Para 2.)

(b) **Personal File (PF).** (See Annex 58K Para 3.)

(c) **Appraisal Report File (ARF).** (See Annex 58K Para 4 and Para 5.)

(d) When appropriate, a Quarterly Report File (QRF) (see Chapter 57 Section 5) will also be raised.

(2) **Ratings and Other Ranks.**

(a) No personnel files (outside JPA) are held by CMs on any ratings and other ranks other than for WO1s.

(b) Ratings and Other Ranks Promotion Sections maintain promotion dossiers for all personnel on the trained strength of the Royal Navy. These dossiers form the basis for consideration by Selection Boards. Dossiers will be raised on receipt of an individual's first Appraisal Report after joining the trained strength and will contain Appraisal Reports, along with copies of professional and leadership course reports, as applicable. The same dossiers will also be used by Extended Career (EC) Boards where ratings/ORs are eligible for such consideration.

(3) **Changing of a Name.** Changing a name is an action that cannot be undertaken on JPA by a self-service user. Application is to be made to the Unit HR Administrator, who will verify the documents (marriage certificate, deed poll etc.) and then enter the information on Maintain Personal Details on JPA.

(4) **Service Number.** Royal Navy personnel are allocated a tri-service number by JPA which does not differentiate between gender or rate/ranks. The individual will retain this Service Number throughout their subsequent Service career. A Service Number, once allocated, is never reallocated or used again even though the individual concerned may not, in the event, finally enter the Service.

(5) Conduct Records (S3300d and JPA Formal Discipline Record (FDR) (see Annex 58K Para 10).

c. **Maritime Reserve Personnel.** See Chapter 102 Section 11.

d. **The Navy Directory.** The Navy Directory is published annually and can be found on the Defence Intranet. Officers' service details which appear in the Navy List are taken directly from JPA records. If any errors to Navy List entries are noted, an amendment form is to be completed and forwarded to the Editor as directed.

5816. Disclosure of Information

Guidance on disclosure of information is at Para 0109. Certain exemptions are permitted for CMs, which are detailed at Annex 58L.

ANNEX 58A

ASSIGNMENT PREFERENCES

1. Introduction

Employee Preferences and Employee Sea Preferences in JPA 'Self-service Employee' contain the only information normally available to CMs on preferences and personal circumstances. It is important, therefore, that when personal details change, Preferences should be updated. Preferences assist the CM to place the individual, whenever possible, in a position to the advantage of both the Service and the individual. An individual with no preferences will be recorded as '1st Preference' in any assignment.

2. Preference Assignments

Job or assignment areas listed under 2nd and 3rd Preference will be regarded as a Preference assignment and recorded as '1st Preference'. The first complement assignment for all individuals will be recorded as 1PRE.

3. Comments and Aspirations

To provide as much information as possible individuals should not only state their preferences, but also make use of the Comments and Career Aspirations fields. The more information on JPA, the more chance an individual has of obtaining their preferences.

4. Advice

Divisional Officers must ensure ratings complete their preferences in JPA promptly and accurately, assisting where necessary with advice on courses and qualifications. For further advice, Ratings' Career Management Advisers (CAs) are located in HM Naval Bases Portsmouth, Devonport and Faslane, and Royal Naval Air Stations at Culdrose and Yeovilton. RM Regional Career Development Advisers (RCDAs) are located in Portsmouth Naval Base and CTCRM Lympstone. They provide advice on assigning and career progression to all ratings and ORs.

5. JPA Process

Guidance on how to update personal preferences in JPA can be found at Appendix 58A-1.

6. Occasions for Inputting Preferences

Employee Preferences and Employee Sea Preferences are to be inputted on the following occasions:

a. New Entries: When first given access to JPA Self-Service.

b. Re-Entries: on re-entry.

c. On sea service and LFS: when an Assignment Order is received detailing a relief, or when indication is received that the individual will be assigned without relief (eg. a ship decommissioning).

d. Annually for RMs - Updates MUST include the date the amendments or update was entered, even if no changes have been made.

e. Before Annual SJAR/OJAR is raised.

f. At any time: when a Service person wishes to update the information.

g. Before last assignment preceding release, if different to current preferences.

7. Application for a Particular Course or Position (R)

a. JPA Self-Service does not provide a facility for applying for a particular course or position. An electronic form, together with guidance notes, however, is available on the DDPD website through the 'Course/Assignment Application' button. The form should not be used solely to ask for a particular unit; this should be done through JPA Self-Service Preferences.

b. It should be noted that there is no facility to record this information in JPA in a way that can be searched by CMs.

c. **RM.** Chain of command within the unit MUST forward to the relevant desk to ensure that name is added to the appropriate list.

8. Last Assignment before Release

a. Service personnel whose final assignment in the Service is at a place of duty which is not their first UK preference recorded on JPA may be entitled to Disturbance Allowance and Removal of Personal Effects benefits to assist them in settling their family in the area to which they intend to resettle. The rules for entitlement can be found in JSP 752 Chapter 7 Section 4.

b. If changing geographical preference for this last assignment, the change must be made in sufficient time for the CM to be aware of it before the assignment is considered.

9. Base Port Changes

a. Personnel are assigned taking into account their preferences, as stated in JPA. The 'assignment type' as recorded on the Assigning Record (AR) shows them either to be assigned in accordance with their preference - 1PRE, or not - NPRE.

b. A change in a ship's base port may affect the relationship between an individual's assignment type and their preferences and the assignment type may not reflect the new base port. Accordingly, whenever a ship's base port is changed, CMs are to review all Assignment Orders for the Ship's Company and any personnel detailed to join. If the 'assignment type' does not accord with the individual's current preference, an Assignment Order is to be issued to change it, effective from the date of the change in base port.

10. Shore Service Preference - Geographical Designations

In order to ensure equal treatment and the correct annotation of assignment type on assignment orders, the UK locations listed below are to be considered in the same geographic area in relation to assignment type and a preference for either is to be recorded as 1PRE.

a.	London and Northwood	-	1PRE
b.	Bath and Bristol	-	1PRE
c.	Taunton and Yeovilton	-	1PRE
d.	Portsmouth and Gosport	-	1PRE
e.	Plymouth and Dartmouth	-	1PRE

APPENDIX 1 TO ANNEX 58A

ASSIGNMENT PREFERENCES IN JPA

1. Updating Personal Preferences - Timing

Ensure your preferences reflect what you want by updating them as and when your wishes change. Updates can be enacted at any time and at the very least should be completed or updated prior to your AR being initiated (at the start of your reporting year).

2. Process

Your Personal Career Preferences should be entered into JPA as follows:

a. Log on to **JPA Self Service - Employee**. Under **Extra Information Types**, select **Employee Preferences** and **Update**.

b. Under **Preference Category** always select **Routine** and in **Preference Priority** choose either **Location or Appointment** depending on which is more important to you.

c. Under **Location, 1st, 2nd and 3rd Choice** click on the torch, then click **Go**. This lists all locations in alphabetical order, including overseas options. Locations are listed by Area e.g. A_SCOTLAND, or County e.g. C_HAM for Hampshire. A full list of locations can be found on the JPA Appraisal Website.

Note. *To select Portsmouth, type* ***%Ports*** *in the blank text box to the left of the* ***Go*** *button, this will then display Portsmouth.* ***%Ply*** *will bring up Plymouth,* ***%Fas*** *will bring up Faslane. For an OpTour in, say, Afghanistan, type in* ***%Afgh***.

d. **Location Negative Choice** is where you don't want to go.

e. **Waive Notice** should say **Yes** if you are content to be assigned anywhere (including assignments which would be considered as Non-Preference) with less than normal Assigning Notice (see Chapter 59 Section 11).

f. Under **Job 1st, 2nd and 3rd Choice**, click on the torch. In the blank text box type %RN then click **Go**. You can refine your search by typing, for example, %RN|Eng (use the vertical line Field Separator – located to the left of the z key), which brings up all Engineering jobs. Scroll through the list by clicking **Next 10** to find the job field of your choice. The job choices are quite generic so consider your preferences carefully. Your choice can be expanded upon in the Career Aspirations (free text) box.

Note. *Officers only: typing '****Joint%****' in the 'Job' box will display a list of Joint options to select from.*

g. **Job Negative Choice** should be used to show jobs you really wish to avoid.

h. **Comments and Career Aspirations** are free text boxes and should be used to expand upon your preferences or to tell your Career Manager about your aspirations and plans for your future development and employment. You should also use these boxes to detail any courses you wish to attend as they do not appear in the Location/Job Choices lists in JPA..

i. Volunteer for Commission (Other Ranks), Volunteer for Further Service (Other Ranks) and Volunteer for Change of Commission (Officers) are self-explanatory, however, make sure your selections are RN/RM specific.

j. When you have finished filling out your preferences, click **Apply**, next then **Submit** otherwise your preferences will not be saved.

ANNEX 58B

OFFICER'S CAREER INTERVIEW

1. Aims

Career Interviews are available to all Service Personnel and are a chance to review career aspirations, identify personal drivers, provide career guidance and thereby help the officer to look ahead and plan their career. The SCIO Career Interview Proforma (guidance in Annex 58B Appendix 1) is a tool that helps both the individual and CM to develop a realistic career path for the individual, whilst managing expectations not least through the individual's honest completion of the 'SWOT' analysis.

2. Periodicity

RN personnel should be interviewed in person or by telephone/web conference by their Career Manager at least every three years.

3. Preparation

It is important that all aspects of career management are considered when preparing for a career interview. CMs should ensure that an individual has completed and submitted the SCIO Career Interview Proforma in advance of the interview.

4. Conduct

All interviews will vary according to the circumstances and the needs of the individual concerned. However, personnel can expect the following points to be covered:

a. An analysis of the individual's appointing preferences, personal driving factors and pressures, 'self-analysis' (using the SWOT grid of the Career Interview Proforma) and long-term aspirations.

b. An explanation of the mechanics of the promotion system and the terms/gradings used, alongside an indication of the distribution of promotions against seniority and promotion numbers. If relevant, a review of the individual's Promotion Board gradings whilst in zone and the Career Manager's assessment of the grading trend will also be discussed in order to give an indication of promotion prospects.

c. Discussion of Career Timeline (including factors such as reporting dates, Promotion and/or Commission transfer signals, Promotion/Commission transfer zones, Commission Termination date and time remaining).

d. A proposed Assigning Plan and agreement of any further action required.

It is vital that Career Managers put individuals at ease. Junior personnel in particular can find their career interview a daunting prospect but it is vital that a full and frank discussion is achieved if the aims of the interview are to be fully met.

5. Data Review and Checks

Time should be taken during the interview to ensure that current data held in JPA and in SCIO is correct, including home and living address, telephone/email contact data, professional qualifications and competencies with any expiry e.g. RNFT, SC/DV and Sea Safety and CBRNDC. Interviewees should be reminded that it is incumbent on them to ensure that this data is kept up to date. This check is essential to ensure that records are accurate and up to date in compliance with the Data Protection Act (DPA – see Para 0110).

6. Record of Interview/Data Protection Act

Career interviews form an integral part in career management decisions and an appropriate record should be retained in support of the audit trail. These records will be disclosable under the terms of the DPA and must be a true reflection of the discussion. The SCIO Career Interview Proforma is an auditable document that must be sent to the individual, retained on their profile and used for all Career Interviews.

7. Personnel nearing End of Service/Considering Early Termination

CMs should remind officers approaching the end of service or those considering applying for Early Termination to confirm their entitlements to Graduated Resettlement Training (GRT) with reference to the authorities detailed in JSP 534. CMs should also remind individuals that they will be expected to take their GRT during their last assignment and not between their last assignment and Terminal Leave/Release, save in exceptional circumstances with the approval of the branch SO1. If exceptional approval is given, they will remain as an overbearing in the organisation in which they were serving immediately prior to discharge and the costs of the individual will fall to that organisation during the GRT period.

8. Next Assignment for In-Zone Personnel and Disclosure of Promotion Grades

As a default, CMs should continue to discuss and plan future assignments on the basis that the individual remains in their current rank (this is to avoid an individual construing a discussion about assigning in the higher rank as an indication that they will be promoted). Although CMs will disclose previous promotion grades, care is to be taken not to give an individual any grounds for believing that they may be selected for promotion in the next assignment. In the case of personnel at the top of the promotion zone, plans for the future and assignments can be discussed on the basis of the individual being selected but Career Managers are to be careful in their expectation management of the individual and are to seek advice from their CofC prior to doing so.

9. Promotion

It is appropriate that an individual should be able to make important career decisions in light of the probability of their promotion. During a Career Interview, individuals will be able to discuss their chances of promotion with their Career Manager (see Para 4 sub para b). It is worth noting that it is impossible to predict an individual's promotion prospects with certainty and the Career Manager's assessment should, therefore, be regarded as an informed prediction based on the knowledge to hand at the time (individuals should remember that Career Managers can still offer them interesting and satisfying careers, even if they do not secure promotion).

APPENDIX 1 TO ANNEX 58B

SCIO CAREER INTERVIEW PROFORMA

CAREER INTERVIEW PROFORMA - GUIDANCE TO THE INTERVIEWEE FOR THE COMPLETION OF PART ONE

1. Personal Details and Assigning Preferences

The first part of the SCIO Career Interview Proforma should be checked fully by the individual to ensure that dates, competencies, clearances and preferences are showing correctly from the data held in JPA. The Career Manager will work based in this information and if it is incorrect, JPA should be updated prior to the Career Interview. There are then several free text boxes and drop down menus to express preferences for training, Op Tours and LFS opportunities.

2. Personal Drivers

The next area is a self-analysis of those aspects of the interviewee's private life and personal aspirations that impact upon career management. This is an important area that requires an honest approach when being completed. Individuals should try and capture all issues that could impact on next and future assignment plans, however trivial they may appear. The ‘personal priorities’ area is to be used to record where an individual's career is placed in relation to wider life goals. Whilst specific jobs can be used to illustrate as examples, the main focus should be on the ‘desired effects’. More detail is better with prompting detail in “?” bubbles to the right and with each text box expandable.

3. ‘SWOT’ Analysis

‘SWOT’ is a useful tool to inform the career management decision-making process. Areas should be completed as follows:

a. **Strengths.** Those positive aspects or distinctive attributes or competencies that place an individual above the majority of their peer group.

b. **Weaknesses.** Those negative aspects or competence shortcomings that limit professional effectiveness or which need to be corrected or additional action to minimise their impact. This might highlight a career development need.

c. **Career Opportunities.** Those favourable employment areas, conditions or environments that would enable the individual to excel.

d. **Career Threats.** Those unfavourable employment areas, conditions or environments that could inhibit an individual's performance and/or achievement of potential.

4. Favourited Jobs

The SCIO Career Interview Proforma automatically updates with the most recent favourited roles from the SCIO/MyNavy jobs list and is a very useful way of highlighting opportunities that the individual is interested in to the Career Manager.

5. Timeline

The individual should review the data that is pulling through for rank/rate, assignment, courses, appraisals, and performance at selection boards[1]. They are then able to add data under "Factors" that demonstrate their future assignment aspirations, and other relevant information, to the Career Manager. This should be realistic and based on performance and time remaining within the Service.

6. Career Fields – Officers Only

Officers that are OF3 or senior must ensure they have up to date Career Fields on SCIO. This is updated via SCIO>My Profile>Right hand drop down menu>Career Fields. Details about the Career Fields are as follows:

FIELD	DEFINITION	EXAMPLES
Management of Defence	Posts that develop defence policy and strategy, manage at the military strategic level and deliver Departmental and TLB non-operational outputs.	MOD Centre, NCHQ, DCDC, JFC Joint Warfare etc.
Operations	Posts which deliver outputs within formation HQs (or other service establishments as necessary) in connection with the conduct of operations (including Force Generation and Force Preparation).	HM Ships/Subs, RM Cdo Units, FAA NAS, PJHQ, MARBATSTAFFs (MBS / CAF / 3 Cdo^{X} / COMUKTG), Frontline Flotillas / Sqns
Operational Support	Posts which deliver outputs within formation HQs (or other Service establishments as necessary) in connection with support to the conduct of operations.	NCHQ, PJHQ, DI, NBCs, FOST Sea, DGISS etc.
Defence Engagement	Posts which either enable and/or deliver engagement between UK Defence and other organisations at home and abroad.	Defence Diplomacy; liaison, exchange & Loan Service with other Nations, international organisations and UK Government Depts; posts in NATO HQs; International Policy & Planning, NATO & European Policy; Media Operations & Corporate Communications; Culture & Language appointments.
Capability and Acquisition Management	Posts that develop and execute capability and acquisition policy, strategy, planning & finance; identify and manage capability requirements; conduct research including operational analysis; manage capability programmes and projects.	DE&S, DSTL, NCHQ, DGISS
Personnel	Posts involved with all aspects of the training and provision of trained personnel; recruiting; personnel strategy, policy and planning; manpower planning and career management of SP.	2SL, Core Training, MWS, FOST Shore, FAA NAS, ACOS(PCap), NCHQ etc.

[1] Shows as 'PSB'

SCIO CAREER INTERVIEW PROFORMA - GUIDANCE TO THE CAREER MANAGER FOR THE COMPLETION OF PART TWO

1. Date of Interview and Interview Aim

Self-explanatory.

2. Career Management Administration Checks

The Career Manager is to check fully the Part One of the Proforma, investigating further where applicable. Further data pulls through from JPA and SCIO to the Part Two of the Proforma and should be checked. The Assignment Restrictions are particularly important and if SWDC (now known as Dual Serving Parents (DSP) but still tagged as SWDC in JPA), consider the requirement for a joint Career Interview in line with policy[2]; advice can be sought from the DSP Manager if required.

3. Discussion

To cover the points highlighted by Part One and Part Two and any additional Branch specific issues deemed appropriate by the Career Manager. Anything requiring recording should be written in the CM Notes section; opportunities for further training should also be recorded.

a. **Boards.** Ensure that the individual is aware of their promotion, commission transfer, professional course / Command zones. Previous Board Gradings (showing in SCIO timeline) are to be discussed with the interviewee.

b. **Current Performance.** Career Managers should have an honest conversation with the individual about their current ‘pack’ comparative to their peer group and explain where an individual sits in relation to the promotion[3] average.

c. **Future Aspirations.** The individual’s future aspirations, using the Part One career timeline as appropriate, should be discussed, with the Career Manager highlighting opportunities and threats against the individual’s portfolio and other aspirations to allow the individual to make informed decisions.

4. Assignment Plan

To be developed in conjunction with the interviewee’s comments, aspirations and preferences as recorded in Part One, and the context defined during earlier discussions. Assignment options are mapped according to overall suitability and career development potential. Branch and CAPPS roles (as appropriate) should be ‘offered’ using the Part Two for the individual to do research into and to then provide a preference order to the Career Manager; roles that do not show on the SCIO drop-down menus should be listed under ‘other available roles’.

5. Required Further Action

Actions for both individual and Career Manager should be recorded for follow-up action.

---

[2] BR3, Ch58, para 5807
[3] Or other Career Milestone as appropriate.

6. Administration

The SCIO Career Interview Proforma can be saved, printed and exported via PDF. When submitted, it saves to SCIO and sends it direct to the interviewee for their use and records.

ANNEX 58C

SPARE

ANNEX 58D

DEVELOPED VETTING (DV) CLEARANCES - CM INSTRUCTIONS

1. Policy

A Developed Vetting (DV) clearance is expensive and time consuming to process and necessarily involves considerable intrusion into personal privacy. In keeping with MOD guidelines, the number of DV clearances is to be kept to the minimum needed for operational effectiveness. Details about DV clearances may be found in Chapter 63 and JSP 440 Pt 6.

2. Responsibilities of Career Managers

Career Managers are responsible for:

a. Applying for DV security clearances where the requirement is specified by the Establishment or authorised by other proper authority.

b. On request, provide copies of DV clearance certificates to the subject (and to organisations to which personnel are to be assigned as required).

c. Assisting SYVETT when requested in expediting the DV process.

3. Application for DV Clearance

a. DV Clearance applications are processed through the SYVETT cell. Requests are to be raised through the SyVett Application functionality within SCIO or, where that is not possible, using the form at Appendix 58D-1.

b. Once DV security clearance has been applied for and the DV clearance pack has been forwarded to the assignee, it is the responsibility of Security Vetting Management Officer (SYVETT) to monitor the return of questionnaires and check for accurate completion prior to onward transmission to UK Security Vetting (UKSV). SYVETT will update CMs/clerks of any delays in the DV process.

4. Review of Clearances

CMs are to review, on a monthly basis, the future requirement for clearances in issue ideally 8 months before they expire, and make an application for their renewal if necessary.

5. Applying for/Renewal of DV Security Clearances

The following points are to be borne in mind when applying for, or requesting renewal of, a clearance:

a. A person whose future in the Service is in doubt, by reason of conduct, suitability, medical condition or other relevant reasons, is not to be considered for a post that requires a DV clearance. An initial DV (i.e. where it has not been held at any time previously) is not to be requested for personnel who have less than two years to serve.

b. Normally a *minimum* of four to five months' notice is required to complete clearance procedures. When less notice is unavoidable, CMs are to inform the future employing unit of the possibility of delay in granting a clearance. The fact that this has been done should be confirmed to UKSV via SYVETT when applying for the clearance. Priority will not normally be accorded to short notice requests for clearance unless a reasonable explanation is given. Where, as an exception, a clearance is required as a priority case a letter signed by the relevant branch CM SO1 is to accompany the paperwork to UKSV requesting Priority action and giving the justification for this (see also Para 9 for Emergency Unsupervised Access).

c. Where a requirement for DV clearance is not specifically authorised by the Establishment e.g. if an approved Establishment change is imminent or the requirement is for attendance on a career course etc. a brief explanation should be given when applying for the clearance.

d. When a person assigned to a NATO or LFS post already holds the required clearance, but its validity will expire whilst still overseas, it is essential that CMs task early review of the clearance so that renewal procedures are completed before the assignee departs from UK. All renewals of clearances involve interview of the prospective clearance holder, a process that cannot be carried out abroad.

e. If an assignment is subsequently changed, consideration must be given to any application which may have been made for a DV clearance. UKSV should be notified at the earliest opportunity should cancellation of the application be required.

f. Specific requirements for Attaché/Defence Adviser posts and Exchange assignments can be found in Para 5911 and Annex 59C.

6. Period of Clearance

An initial DV is normally granted for a period of seven years. At approximately the six years and four months point the CM should review the continued requirement i.e.. whether the individual is still in a DV billet or likely to require DV for a future assignment, and request a review if necessary. Following a routine review, and assuming no problems, DV clearance will be granted for up to seven years. Extensions to DV clearance should not normally be necessary, however, they may be requested from UKSV in certain circumstances e.g. if an individual is due to leave the RN shortly after expiry of DV and full review would not be justified or if a routine review has started but is not finished by the time the old clearance expires.

7. DV Clearance Certificates

Once UKSV and/or SYVETT have informed CMs that DV clearance is complete a copy of the clearance certificate should be added to the SCIO personal file. Their competence profile will be updated in JPA by the UKSV.

8. Queries

In general, any queries should be taken up in the first instance with the UKSV Help Desk on York 01904 662644 (Mil 94777 2644). If the Help Desk is unable to assist they will refer the query to the relevant Case Officer.

9. Emergency Clearance

a. For short term operational reasons, it may be necessary to allow DV access to designated personnel who do not hold a current DV clearance. In these circumstances, written application is to be made by the CO, Line Manager, or CM as appropriate, to Navy PSyA-Aftercare SO3C[1]. The following information is to be supplied:

(1) The name, service number and rank of the individual involved.

(2) Justification, and the period for which clearance is likely to be required.

(3) Confirmation that all local records and reports have been checked and reveal no matters of security concern in respect of such a clearance.

(4) In the case of a requirement for a Crypto Custodian, confirmation that no other officer with a current DV clearance is available.

b. On receipt of the application, Navy PSyA will carry out internal checks and, if they prove satisfactory, will grant Emergency Unsupervised Access (EUA) for the period requested, providing it does not exceed six months.

c. On receipt of authorisation, the CO/Line Manager, is to ensure that the person granted access is kept under strict supervision regarding conduct, and has access limited to just that information and equipment that is necessary for the performance of relevant tasks.

Note. *EUA will only be granted once the DV security questionnaire form has been completed and sent to UKSV.*

10. Denial, Withdrawal or Limitation of Security Clearance

Navy PSyA will normally alert the CM when a UKSV recommendation for denial or withdrawal is being considered. Alternative arrangements may be planned, but no assignment should be made until the formal decision has been taken. In practice the decision to withdraw or deny security clearance is made by Navy PSyA under delegated powers.

11. The Security 'Risk Register'

There is a requirement placed on the UKSV and Navy PSyA to hold a register of cases of individuals who are considered to be in a position of vulnerability to adverse pressure and thus may present a potential security risk. Vetting confidentiality necessarily restricts the amount of information that UKSV or Navy PSyA will release to a CM but in the majority of cases the restriction will not prevent an assignment going ahead. It is essential to note that an individual whose name appears on the Risk Register is not de facto a security risk; it is simply a means whereby potential problems can be monitored by the security authorities. In most cases the circumstances leading to inclusion on the Risk Register will have come to light during the vetting process and the individual will thus be well aware that there are security concerns. The Register is reviewed by UKSV and Navy PSyA on a monthly basis and names are not added or removed without Navy PSyA's approval.

[1] Requests may be made by e-mail to NAVY PSYA-AFTERCARE SO3C, copy to NAVY PSYA-RN STRAPSO ASST or by signal to RNPSYA PORTSMOUTH using SIC YAY, copy to SCU Leydene for Corp Strapso RN.

12. NATO COSMIC Top Secret Clearance Certificates

a. Where a DV is being initiated for a full assignment requiring one or more of these certificates, a request can be made to the UKSV at the same time as the DV paperwork is submitted to York and it will be issued when the clearance process has been completed. Where a certificate is required and the DV is already in place, or where it is for SC level only, a request should be made to SYVETT. It should be noted that under the current NATO rules, it may be necessary to renew the clearance before a certificate can be issued. It is therefore very important that they are requested in good time for any review to be completed. Certificates will not be issued more than six months in advance of the assignment.

b. CMs may issue certificates in those cases where it is required for a course or other assignment that lasts for a few weeks only. In all cases certificates should only be issued for the individual's current level of clearance i.e. to TOP SECRET if needed and they have DV or SECRET if SC only.

13. ATOMAL Clearance

An officer required to have access to ATOMAL information will be indoctrinated locally within their unit. They must, as a prerequisite, have the appropriate level of security clearance. In addition, the officer must be a British Citizen as defined by the Nationality Act 1981. Special rules cover access which may be given to non-British citizens who are members of, or associated with, HM Forces. Citizenship can be verified from:

a. A Passport.

b. A Certificate of Registration as a British citizen.

c. A Birth Certificate.

d. An officer requiring access to ATOMAL information must be indoctrinated in accordance with NATO regulations before access can be permitted. Uniformed personnel awarded a NATO ATOMAL clearance may be indoctrinated locally on the authority of the NATO Commanding Officer or Head of Establishment provided that their security certificates do not expressly debar them from access to the information involved.

14. Security Clearances for Dual Assignments

The Dual Assignments List is held by the People Ops Augmentation team and an individual's requirement is detailed on their assignment order. Both indicate any requirement for DV clearance. CMs are responsible for initiating clearances as required.

15. Assistance to Navy PSyA - Access to Officers' Records

a. A list of Navy PSyA staff who are authorised to have full or limited access to assigning and promotion records in the course of enquiries will be updated periodically by Navy PSyA and will be promulgated periodically by Dir P&T/COS(P) Temporary Memorandum.

b. CMs are required to inform Navy PSyA of any matters of potential security significance which are brought to their notice, whether in OJAR/SJAR reports or during the assigning dialogue.

16. Special Access Operations (SAO) Assignments

Throughout MOD there are facilities known as Special Areas of Operation (SAO), also known as Special Access Operations, within which a particularly sensitive source of intelligence is protected. Such intelligence can only be handled by staff who have been specially approved for this work and who meet strict vetting and nationality criteria. These criteria are laid down in JSP 440 Pt6, Sect 2, Chapter 7 and require that those assigned into such a billet must hold DV clearance and they and their direct relatives must be British. In exceptional cases it is possible to grant a waiver to the nationality criterion but only when there is a clearly identifiable compelling need for a person to fill a particular post. Such a need could be the individual holding unique skills or for those with limited career opportunities outside the SAO compartment. Each application for a waiver is considered on a case-by-case basis and cannot be guaranteed. SAO posts can be identified through JPA using the Review Job/Position Requirements function. Further information on SAO clearance can be found at the Reference or by contacting PSyA.

APPENDIX 1 TO ANNEX 58D

SYVETT-003A / DV (Rev 05/09) – DESPATCHED ON:

This notification is to inform you that DV Security Clearance is required for:

Surname:	Forename:
Rank:	Branch:
Service No:	Date of Birth:
Initial DV or Review:	Date Required By: (Do Not Enter ASAP)
Assignment Requiring Clearance	Unit: Full Assignment Title:
Current Location (mailing address):	
Email Address of applicant: (Supervisor/XO or alternative must be provided)	
MF 1938 Barcode	
Any other information that you think may be useful to the vetting authorities	
Requesting Career Manager's name	
Branch	
E-mail address	
Telephone Number	

THIS FORM MUST BE COMPLETED IN FULL OR IT WILL BE RETURNED TO CM

THIS FORM MUST NOW BE SENT ELECTRONICALLY TO: NAVY PSYA-SYVETT

ANNEX 58E

DUAL-SERVING PARENTS (DSP) APPLICATION FORM

DSP status documentation is raised upon application from Service Persons who have a child or children less than 18 years of age and where they have a simultaneous Sea Service, deployment, and career training liability.

PART 1 - DSP INFORMATION

Service Details

Name	
Rank/Rate	
Branch	
Service Number	
Unit and Current Assignment PID	
FAD in Current Assignment	
Engagement Expiry Date	
PStat Category	
Career Manager	
Current Separated Service Total	
Are you applying for Primary or Non-Primary Carer Status?	
Enter details of any anticipated career training courses	
Is there any additional information you wish to enter for consideration?	

Details of other Service Person with Parental Responsibility[1]

Name	
Rank/Rate	
Branch	
Service Number (if known)	
Career Manager (if known)	

Child(ren) Information

Date(s) of birth of child(ren) to which the DSP policy applies	
Date youngest child reaches 18	
Date child is due to finish full time education (if later than above)	
Are you in receipt of CEA for this child(ren)?[2]	
Are the details of your child(ren) recorded on JPA?	

[1] The other Service Person is responsible for completing and submitting their own application. It is recommended that both application forms are submitted concurrently.
[2] DSP status will not be approved where the SP is in receipt of CEA for the child(ren) to which the DSP application applies.

Service Person Declaration

1. I have read and understood the contents of BRd3(1) Chap 58, para 5808, with reference to Sea Service, deployment, and career training liability for DSP parents.

2. I understand that the policy does not mean that dual-serving parents will complete less sea service or deploy less than their contemporaries during the course of their careers and that it is simply a mechanism to de-conflict.

3. I understand that the Primary Carer can still be considered for augmentation/trawls within local area bases/establishments.

4. I understand that normally SP will not be marked a Primary Carer for in excess of 5 years consecutively, and that a minimum handover of Primary Carer status for 2 years after one SP has held the tag for 5 years.

5. I understand that a holistic view of Separated Service totals will be taken in relation to fair allocation of the Primary Carer status.

6. I understand that is it my responsibility, not that of Navy People Career Managers, to ensure that the formal DSP status paperwork is raised and kept up to date in a timely manner.

7. I understand that I must inform my Career Manager should my personal circumstances change, and any deviations from the terms of the DSP contract will invalidate the agreement and I will be liable for immediate assigning action.

8. I understand that my Career Manager will base any assigning on my preferences, and I confirm these are up to date in JPA.

9. I confirm that the child(ren) to which this application applies, resides with me or the other SP to which this policy applies.

10. I confirm that I am not in receipt of CEA for the child(ren) to which this DSP application applies.

11. I confirm that the information provided above is true and accurate and, where applicable, is recorded on JPA.

12. I **consent/do not consent** (delete as applicable) to a joint career interview[3].

Service Person Signature		Date	

Once Part 1 above is complete, this form should be submitted via e-mail to the Service Person's Career Manager.

[3] Where consent to a joint career interview is not given, the Career Manager will consult with the DSP Manager so that joint Career Management can occur via an alternative method.

PART 2 – CAREER MANAGER DECISION

13. The Career Manager has consulted with the other SP with parental responsibilities Career Manager to confirm a DSP Application has been submitted and relevant data confirmed.

14. The SP has been interviewed by their Career Manager and the DSP policy has been fully explained.

15. The SP has been informed that a holistic view of Separated Service totals have been considered in relation to fair allocation of Primary Carer status with the following decision being made:

The SP will hold the DSP Status of: **Primary Carer/ Non-Primary Carer** (Delete as necessary)

16. I confirm the SP has been informed of the above decision.

Career Manager Signature	Name	Rate	Date

PART 3 – CAREER MANAGER ACTIONS

Following the DSP decision being made, and the SP being informed, the CM is to take the following action:

17. JPA Action – Update JPA Assignment Restriction field to reflect the following details:

a. Enter Applicable From Date – This is the date of the assignment order for which the DSP status is requested.

b. Enter a Review On Date – This is when to expect the SP to re-submit their DSP Application Form no less than 6 months ahead of FAD.

c. Enter Restriction Category – SWDC[4].

d. Restriction Detail – In here the CM is to enter:

(1) DSP Status – Either ‘Primary Carer’ or ‘Non-Primary Carer’.

(2) Other Parent details – Name, Rank/Rate, Service Number.

(3) DSP Status End Date – Date youngest child reaches 18.

The information entered will replicate onto SCIO under Individual Readiness Plan (IRP).

[4] SWDC is a legacy tab which will be updated in JPA in due course but should still be used until the change has been implemented.

Career Manager to note:

18. Any previous SWDC/DSP information is to remain on restrictions so to retain the history for future assigning/DSP decisions.

19. A SP should not normally be marked a Primary Carer for in excess of 5 years consecutively. There should be a minimum handover of Primary Carer status for 2 years after one SP has held the tag for 5 years.

PART 4 – NOTES FOR DSP APPLICANTS AND CAREER MANAGERS

20. Applying for the DSP status does not mandate that one parent must be assigned or remain at sea or deployed because the other parent has been assigned ashore. Both parents may be assigned to shore positions (no guarantee of the same geographical location), and this should be considered by CMs particularly where the sea going parent is nearing their FAD, in which case CMs may wish to honour their MTA.

21. Extending one parent at Sea may have Separated Service implications particularly for Officers and Senior Rates.

22. DSP LHs and AB1s who have not achieved OPS in their current rate are most likely to remain at sea or be assigned to sea service.

23. Squadded Spec AB2s applying for the DSP status will normally remain assigned to sea service as there are no Shore positions for AB2s.

24. The Navy People Career Manager's DSP decision is final. Every endeavour is made to match a Service Person's preferences to the requirements of the Service, but this may not always be possible.

25. It is the responsibility of DSP applicants to ensure they have adequate childcare provision arrangements in place throughout the DSP status period to cover any assignment, duty, or augmentation requirements they may be tasked to undertake. Childcare advice and support is available through the Parent Support and Information Team.

26. It is the responsibility of DSP applicants to ensure they check their own SCIO account to ensure their DSP is recorded under their Individual Readiness Plan (IRP) and if not to contact their Career Manager at the earliest opportunity to rectify.

In accordance with the Data Protection Act 2018, the Ministry of Defence will collect and process the information supplied on this form in connection with matters concerning personnel administration and policies. In order to comply with our statutory obligations, the data will be retained and reviewed as necessary, and may be transferred to electronic media. The MOD is committed to ensuring that your personal data is kept securely and that it will not be disclosed unlawfully.

ANNEX 58F

CONTINUITY OF EDUCATION ALLOWANCES - GUIDANCE FOR CAREER MANAGERS

1. Continuity of Education (CEA) - Background

All rules for CEA are laid down in JSP 752 Chapter 14. The Strategic Remuneration Review (SRR) led to some changes in the regulations and process for Service personnel applying for Continuity of Education Allowance (CEA)[1]. The most notable of these was the replacement of the 'mobility' certificate with a new 'eligibility' certificate. The form is self-explanatory but, given the role of Assignment Authorities in the completion of these forms this guidance serves to highlight the changes in what CMs are now required to do. Despite the introduction of the latest certificate, the policy governing entitlement to CEA remains unchanged; its fundamental purpose is to assist Service personnel achieve continuity of education for their children who would otherwise be denied in the state day school sector if their children accompanied them on frequent assignments both at home and overseas. In claiming CEA an individual must fully accept that **mobility and accompanied service are overriding principles for maintaining entitlement** except when in assignments that are designated INVOLSEP.

2. CEA Costs

Current figures indicate that CEA costs the MOD (and taxpayer) in excess of £200m annually for between 4,500 - 5,000 claimants across all 3 Services[2]. Currently the Senior (Board) allowance is £5412 per term which for an average claim of 7 years equates to a total cost in excess of £200K (gross) - of which the claimant would receive a net sum of approximately £114K. Clearly CEA represents a very significant proportion (approximately 25%) of the overall annual MOD allowances budget, for a relatively small proportion of the population (2%). It is not surprising therefore that CEA is under close scrutiny. Indeed, to safeguard CEA for those who genuinely need it, it is crucially important that it is carefully managed and that adherence to the regulations is enforced at all levels.

3. CEA Eligibility

One of the safeguards in the CEA process is the CEA Eligibility Certificate[3], which requires action by CMs; an example is at Appendix 58F-1. In common with the Mobility Certificate, this has to be completed on the following occasions:

a. On submission of an initial claim

b. On change of school

c. At the beginning of each new assignment

d. When an existing certificate is more than 3 years old and a new claim is to be submitted.

---

[1] Promulgated in 2008DIN01-191 (1 Sep 08) – CEA – Changes to Regulations JSP 752 Ch 15 and SP Pol's SP 05.03.08.01 dated 5 Dec 08 - CEA DL: Changes in JSP 752 Regulations: Continuity of Education Allowance (CEA).
[2] There are about 1000 RN/RM claimants today of whom about 59% are officers and 41% ratings.
[3] The latest CEA Eligibility Certificate was introduced in Sep 08 and replaced the previous CEA Mobility Certificate; 2008DIN-01-191 refers.

4. CEA Certificate

The certificate has 5 sections, 2 of which are of particular interest:

a. **Part 1.** Completed by the claimant, Part 1 includes an acceptance of the rationale for CEA (i.e. to enable continuity of education), a commitment to family mobility and an undertaking that the individual's family has accompanied them to their current/new assignment or an explanation of why not, for example because the assignment is designated INVOLSEP. This section requires the claimant to list their family residence and residence at work addresses during their last 3 appointments. This is an important part of the enhanced governance of CEA by the Children's Education Advisory Service (CEAS) and is designed to document a history of family mobility which is likely to be subject to investigation if it suggests that an individual has not been fulfilling their mobility commitment whilst in receipt of CEA. It is of course possible that there could be acceptable reasons for any such occurrence.

b. **Part 2.** Part 2 is the most significant change for CMs. The crucial difference lies in the wording of the judgement required by the CM. The 'mobility' certificate asked whether the claimant had a '*current **liability** [or not] to be assigned to an accompanied post at least 50 miles from their current duty station within the next 4 years'; the replacement 'eligibility' certificate asks whether the claimant ...'*is ***likely** [or not] to be assigned to an accompanied post at least 50 miles from their current duty station within the next 4 years.*' The rationale behind this change is not to seek to reduce or to abolish CEA, but rather seek to improve assurance measures that it is being paid for the purpose for which it is intended.

5. Assessment

It is essential that CMs consider Part 2 of the certificate carefully and that their assessments are honest, objective and consistent. There is nothing complicated in the meaning and interpretation of the word 'likely'; it simply means that there is a 50% or greater chance of a move (in the next 4 years). The CM must consider each specific case on all its individual merits. The CM's decision must be an informed one that is specific to the individual claimant, taking into account the age, rank, time served, trade/specialisation intricacies, promotability, Operational Pinch Points and operational tempo, to name but a few variables. When all these factors are taken into account, it could possibly emerge that most CEA claimants will be adjudged to be ***likely** to be assigned to an accompanied post at least 50 miles from their current duty station within the next 4 years*. That said, the change from 'liability' to 'likelihood' might identify a few claimants who, whilst they retain a liability to be assigned away elsewhere, which all individuals have, in reality are very unlikely to be so assigned. This might be because, for instance of, their specialisation, career stage, personal choice or assignment preference.

6. Final Assignment

The revised Eligibility Certificate also has an additional option to identify those who are already in receipt of CEA but are coming to the end of their career. Where a CM considers that the claimant ***is unlikely*** *to be assigned to an accompanied post at least 50 miles from their current duty station within the next 4 years)* but only because the individual is entering their final assignment, and there is no intent of a further assignment, they should annotate this as the most applicable statement: '3. *An existing claimant is entering their end of career assignment.'*

7. Investigation

The CM's judgement is not binding. It is simply an honest judgement, or best reasonable assessment, made at the time of application based on balance of probability (not certainty) at the time, taking all relevant factors into account - and there will undoubtedly be occasions where situations change or the needs of the Service require that people deemed 'likely' will not be reassigned out of area and vice versa. The subsequent database[4] generated, encapsulating claimants' previous addresses, will identify where this happens repeatedly and these instances will then be open to further investigation and review of CEA eligibility by CEAS. That said, there may be good reason for such occurrences in which case CEA eligibility will withstand such review. As stated above, the important thing is that CMs must be honest, objective and consistent and take all of the many factors affecting the individual into account when completing Part 2 of the Eligibility Certificate.

8. Review

It is stressed that CEA will not automatically stop if a Career Manager adjudges a claimant to be unlikely to be assigned to a new duty station in the next 4 years. Instead, it will initiate a review of CEA eligibility to be undertaken by the claimant's Commanding Officer. It is this review which will confirm eligibility, and it will take into account all of the criteria listed in the regulations in JSP 752 Chapter 14[5]. Therefore, CMs can act with certainty, confident that their part in the CEA process is merely to judge the likelihood of an individual's continued mobility and not to establish their eligibility for CEA.

9. Governance

The changes are not intended to initiate a purge of or clampdown on CEA claims; it is about governance of the scheme and adapting the application process to provide assurance that CEA is being used for the purpose intended. It is crucial that there is consistency across the board in the implementation of CEA policy and the associated procedures hence this guidance and an audit of the approval process.

10. Questions

A list of Frequently Asked Questions on CEA Eligibility is at Appendix 58F-2.

[4] Derived from Part 1 of the CEA Eligibility Certificates
[5] The criteria includes, but is not limited to: claimant is a Regular SP, (for continuation claims) a valid CEA Eligibility Certificate and CEAS Boarding School Certificate, child of eligible age, CEAS approved school, maintain a family at a home in which they would normally reside with their children when the exigencies of the Service permit, serving accompanied or in an INVOLSEP assignment, in last assignment, stage of education..

APPENDIX 1 TO ANNEX 58F

SPECIMEN CEA ELIGIBILITY CERTIFICATE

JSP 752 Chapter 14

This certificate is to be read and signed immediately prior to the following occasions:

a. Submission of Initial Claims, or
b. On change of school, or
c. The beginning of each new assignment, or
d. If the current certificate is more than 3 years old at the time a CEA claim is submitted.

It is to be completed by Service claimants and submitted to CEAS. Once verified by CEAS, the original will be returned to the claimant and is to be retained for audit and to support future claims.

PART 1 - TO BE COMPLETED BY THE SERVICE CLAIMANT SERIAL NUMBER:

Number:…… Rank:…… Name:……..

Svc/Regt/Corps:…… Current Unit:……

Unit Address including postcode ……

……

Unit telephone number…… Unit Fax number ……..……

Email ……

1. I have read and understand the regulations relating to payment of CEA and I accept:

a. The CEA I am claiming is paid to enable continuity of education for the child(ren) for which I claim.

b. A commitment to family mobility and that when I am assigned I will continue to serve accompanied. If I fail to relocate my family on assignment my entitlement to CEA will be reviewed and will cease unless I am INVOLSEP or gain exceptional authority from PACC iaw JSP 752 Chapter 14 to serve unaccompanied and retain CEA.

c. I will immediately inform my unit HR of any changes to my personal circumstances that may impact upon my entitlement to claim CEA.

2.* My spouse/civil partner, or child(ren) (for PStat Cat 2), have accompanied me to my (new) assignment station and addresses are as follows:

At my (new) Assignment Station/Unit My family currently reside at:	Resident at Work Address (RWA) (if different from family address)
…… …… …… ……	…….. …….. …….. ……

3.* My spouse/civil partner, or child(ren) (for PStat Cat 2), have not accompanied me to my new assignment station because:

……..
……..
……..
……..

HISTORY OF SERVICE CLAIMANT'S LAST THREE ASSIGNMENTS
(Last 3 preceding assignments - not to include operational assignments attracting INVOLSEP) Attach a continuation sheet where there is more than one address at any assignment or a mid-assignment move.

DATE (mm/yy)	ASSIGNMENT STATION	HOME ADDRESS (FAMILY RESIDENCE)	RESIDENCE AT WORK ADDRESS (RWA)
Assignment 1.			
From: …… To: ……	…… …… …… ……	…… …… …… ……	…… …… …… ……
Assignment 2.			
From: …… To: ……	…… …… …… ……	…… …… …… ……	…… …… …… ……
Assignment 3.			
From: …… To: ……	…… …… …… ……	…… …… …… ……	…… …… …… ……

Signed …….. Dated ……..…

PART 2 - TO BE COMPLETED BY THE ASSIGNMENT AUTHORITY

From:…….. Reference:……

1.* Number…….. Rank…… Name…… is likely to be assigned to an accompanied post at least 50 miles from their current duty station within the next 4 years.

or

2.* Because of the nature of the above Service person's qualifications and projected career pattern, they are unlikely to be posted more than 50 miles from their current duty station for at least 4 years.

or

3.* The above Service person is an existing claimant entering their end of career assignment (see JSP 752 Chapter 14 Para 14.0119).

Signature:…… Date:……..

Name and Rank:……

Appointment:……Assignment Authority Stamp

Delete paragraph as appropriate.

PART 3 – TO BE COMPLETED BY CLAIMANT'S CO (OR FORMALLY DELEGATED REPRESENTATIVE) – See JSP 752 Chapter 14 Para 14.0108.d

PART 4 - TO BE COMPLETED BY THE INITIAL SERVICE CLAIMANT, AND ON CHANGING SCHOOLS, AFTER CONTACTING CHILDREN'S EDUCATION ADVISORY SERVICE (CEAS)

CHILD DETAILS
First Name(s) …….. Surname ……

Date of birth …… Male/Female …….

Current home address including postcode …….…….....

……...……..

Contact Telephone Number:……...…….

THE SHORTLIST OF BOARDING SCHOOLS YOU HAVE CONSIDERED

1. …….

2. …….

3. …….

DETAILS OF CHOSEN SCHOOL

School name and address including postcode ……..

……

Telephone number …… Fax number ……

Email ……..

Proposed start date ……(A copy of the letter from the school offering a boarding/day place is to be enclosed with this application). This is for a Full Boarding/Weekly Boarding/Day Pupil placement (Delete which is not applicable).

Give your reasons for selecting the chosen school …….....……..

……

……

Current school with dates ……...…….

Previous schools attended with dates ……....……..

.....

……

1. For a weekly boarding placement I am enclosing a signed copy of Annex F to Chapter 14 of JSP 752.
2. For a day pupil placement I confirm that my child will be attending the same school as a sibling who has completed the statutory minimum 3 terms as a boarder. I understand that my child will resume boarding when my circumstances change. (JSP 752 Chapter 14)

3. I have considered a number of schools including the Duke of York's Royal Military School, Queen Victoria School, Dunblane and all State Boarding Schools. If I need to reconsider these arrangements at any time I will notify you in writing.

Signature …… Date ……

PART 5 – TO BE COMPLETED BY CEAS ON RECEIPT OF COMPLETED CEA ELIGIBILITY CERTIFICATE FROM SERVICE CLAIMANT

As this form is uniquely serial numbered and tracked, it must be returned to CEAS even if the application is not supported.

Return completed form with letter from school and a weekly boarder's certificate as shown at Annex F to Chapter 14 of JSP 752 (if applicable) to:

CEAS
Bldg 190

Signature Supported/To be Reviewed

Boarding School Certificate Issued: Yes/No

APPENDIX 2 TO ANNEX 58F

CONTINUITY OF EDUCATION ALLOWANCE (CEA) ELIGIBILITY - FREQUENTLY ASKED QUESTIONS

1. Why has the policy changed?

a. It hasn't. Most importantly, there are no plans to abolish CEA, in fact quite the opposite: support for the underlying principle of financial assistance for Service personnel who send their children to boarding school in order to serve accompanied, remains as strong as ever. CEA is the new name for Boarding School Allowance and was re-named in April 2006 to coincide with the launch of Joint Personnel Administration and the bringing together of the 3 Services various pay and allowances rules in a series of Joint Service Publications or JSP. The policy laid down in JSP 752 Chapter 14 (Tri-Service Regulations for Allowances) clearly sets out the entitlement parameters for eligibility for this allowance and they have not changed here.

b. The underlying principle of CEA remains that family mobility/accompanied service is inherent in claiming the allowance.

c. The aim of the certificate and updated policy is not to reduce or abolish CEA, but rather the revised certificate aims to improve audit procedures and ensure that the allowance is being appropriately managed and ineligible claims prevented. This will be accomplished by both internal unit audits and external audits by the Children's Education Advisory Service (CEAS); they hold MOD's Accredited School Database, which currently includes over 400 educational establishments. The underlying principle of CEA remains that family mobility is inherent in claiming the allowance.

2. Why does the Eligibility Certificate now focus on likelihood of moving, rather than liability to move, to an assignment more than 50 miles from their current assignment in the next 4 years?

a. To better reflect the underlying principle of CEA which is family mobility/accompanied service.

b. Furthermore, the likelihood of moving is just one of several factors on which the form focuses in order to assess a claimant's eligibility for CEA. Others are:

(1) An acceptance, by the claimant of the rationale for CEA (i.e. to enable continuity of education in accordance with the policy laid down in JSP 752).

(2) A commitment, by the claimant, to family mobility and an undertaking that the individual's family has accompanied them to their current/new assignment or an explanation of why not, e.g. because it is designated INVOLSEP.

(3) A statement by the claimant listing their family residence and residence at work addresses during their last 3 appointments.

(4) An entitlement and eligibility statement by the Commanding Officer. All of these are looked at together for any eligibility assessment by the claimant's Commanding Officer. These are all in place, as assurance measures, to protect this important allowance for the future.

3. What does ‘likely’ mean?

There is nothing complicated in the meaning and interpretation of the word ‘likely’; it simply means that there is a 50% or greater chance of a move (in the next 4 years). But the Career Manager must consider each specific case on all its individual merits. Their decision must be an informed one that is specific to the individual claimant, taking into account the age, rank, time served, trade/specialisation intricacies, promotability, Operational Pinch Points and operational tempo, to name but a few variables.

4. Will all claimants’ eligibility to CEA be affected immediately by the changes?

Not before they are next required to submit an Eligibility Certificate. A new CEA Eligibility Certificate is required to be completed in the following circumstances:

a. for all initial claims,

b. on a change of school thereafter,

c. at the beginning of each new assignment,

d. where the certificate is over 3 years old.

e. on any change of personal or family circumstance.

5. Will a ‘not likely to move’ assessment by a Career Manager automatically mean that a claimant is no longer entitled to CEA?

No. The Career Manager’s role is merely to provide an assessment of the likelihood that a claimant might move in the next 4 years. It is not an assessment of eligibility. If a Career Manager’s assessment is a ‘not likely’ this will initiate a review of eligibility for CEA by the Unit Commanding Officer. They will then assess eligibility based upon all aspects of the Certificate’s content and all other variables, including provision for special circumstances.

6. What if the claimant does not agree with their Career Manager’s assessment of the likelihood of him moving?

Any review of eligibility for CEA is conducted by the Unit Commanding Officer. They will then assess all variables, including provision for special circumstances, before signing the CEA Eligibility Certificate.

7. What if the claimant does not agree with their CO’s or the CEAS’s assessment of their eligibility?

They may appeal the decision to the SPVA JPAC PACC.

8. Can a claimant considered unlikely to move to an assignment more than 50 miles from their current assignment in the next 4 years be eligible for CEA?

Yes, they may if they are in their final assignment, or in order to complete the current stage of education, or for welfare, compassionate and other exceptional circumstances, if approved by SPVA JPAC PACC.

9. Are there preserved rights or transition arrangements for those currently claiming CEA?

No, but their eligibility cannot be affected before they are next required to submit an Eligibility Certificate, and even if declared ‘unlikely’ they may still remain eligible for the reasons in the answer to Q8.

10. When will the database of claimants' previous addresses as recorded in Part 1 of their Eligibility Certificates be first used?

Audits can be called for at any time by an individual unit, the single Services, the Centre or the NAO. Claimants should retain all paperwork and CEA Eligibility Certificates.

ANNEX 58G

JOINT MEDICAL EMPLOYMENT STANDARD (JMES)

1. Medical Deployment Standard (MDS)

The MDS code describes the medical capacity for deployment. Table 58G-1 details the MDS codes and their meaning.

Table 58G-1. Medical Deployment Standard Codes

MDS Code	Description
MFD Medically Fully Deployable	1. Fit to deploy to all parts of the world on contingent or follow-on operations without any limitations or requirements for routine medical support beyond deployed Primary Healthcare.
MLD Medically Limited Deployability	2. Deployment limited due to: a. A medical condition. b. Medical treatment needs. c. Medical support requirements. d. Risk arising from exposure to specific climates eg heat or cold. e. The need to avoid specific exposures eg noise or chemicals. 3. A grade MLD requires a medical risk assessment (MRA) to be carried out for deployment. The decision on that deployment will depend on the medical condition, individual function, the proposed employment, length of the deployment and the medical support available. 4. MLD personnel may vary from those with minimal limitations who can be used in a wide range of roles and situations to those who can only undertake a limited role or Career Employment Group (CEG) within a specific, well supported setting.
MND Medically Not Deployable	5. Not deployable outside the United Kingdom 6. May be admitted to or under the care of a Medical Facility (MF) or awaiting medical discharge (A6 L6 M6 E5 or 6).

2. Medical Employment Standard (MES)

The MES code relates to an individual's employment in their branch/trade duties and is expressed as numerical degrees in four functional areas (detailed elements), indicated by the letters A, L, M and E. These reflect medical fitness for duties in the **A**ir, **L**and and **M**aritime environments and any additional specific **E**nvironment and Medical Support considerations. All detailed elements of the MES are to be allocated for each individual. Table 58G-2 details the MES codes and their meaning.

Table 58G-2. Medical Employment Standard Codes

AIR		
MES Code	**Description**	**Notes**
A1	Fit for flying duties without restriction.	Only for aircrew.
A2	Fit for flying duties but has reduced hearing or eyesight.	Only for aircrew.
A3	Fit for duties in the air within the stated employment or MedLims.	Only for aircrew.
A4	Fit to be flown in a passenger aircraft.	
A5	Unfit to be taken into the air.	Except as aeromedical evacuation patients.
A6	Unfit for any duties in the aviation environment.	Duties in the aviation environment include, but not limited to, air traffic control, baggage handling, aircraft towing, aircraft maintenance, airfield driving and duties on a flying station/base.
LAND		
L1	Fit for unrestricted duty.	
L2	Fit for high readiness roles with minor limitations.	Must be able to undertake Pre-Employment Training (PET) and Individual Pre-Deployment Training (IPDT) to deliver the minimum personal military skills to allow an individual to carry out the requirements of their job specification while maintaining their own FP and positively contributing to the FP of those around them. RN/RM may be unfit for defined aspects of mandatory fitness testing or modifications to command courses may be required but fully employable and deployable in branch/trade.
L3	Fit for limited duties but with some restrictions subject to MRA.	Should not impose a significant and/or constant demand on the medical services if deployed, on exercise or deployments. The individual may deploy on operations or overseas exercises following completion of a MRA. Have no limitations in their ability to function wearing personal equipment demanded of the environment, branch/trade and rank.
L4	Fit for certain deployed roles into well-established MOB locations subject to Consultant Occupational Physician MRA.	Individuals whose medical conditions have the potential to pose a significant risk on deployment in the land environment. May be reliant on an uninterrupted supply of medication and/or a reliable cold chain. Must be able to function wearing a helmet and the minimum theatre standard body armour. Likely to be restricted to MOB only.
L5	Unfit deployment. Fit for branch/trade and limited UK operations.	May be fit limited UK operations. May be employed within their branch/trade and are fit for UK internal operations within the bounds of their MedLims.
L6	Unfit for service in the land environment.	Unfit for any duties.
MARITIME		
M1	Fit for unrestricted duties.	May be employed and deployed worldwide in the maritime environment.
M2	Fit for restricted duties afloat within the limitations stated.	Fir for duties at sea but may be restricted to specific size or type of vessel, have medical support needs or environmental limitations as indicated by the MES and MedLims. To be employed or deployed within the MedLims specified.

Table 58G-2. Medical Employment Standard Codes (Continued)

MARITIME		
MES Code	**Description**	**Notes**
M3	Fit for restricted duties in a vessel in harbour or alongside with the limitations as stated.	Able to safely move around a ship alongside or within the confines of a harbour including the ability to evacuate from the vessel and take emergency action (eg fire-fighting and damage control) without assistance. Unfit to serve at sea but may serve within the confines of a port or harbour.
M4	Fit to be carried as embarked forces in transit.	RN personnel should not be graded M4. RM personnel should not normally be graded M4.
M5	Fit for restricted duties ashore within the limitations as stated.	Not to work on ships/submarines alongside and may not be able to complete all duties required of their branch/trade ashore.
M6	Unfit for any duties in the maritime environment.	Long-term sick or in a MTF for >28 days or given a medical board recommendation for discharge.
ENVIRONMENTAL AND MEDICAL SUPPORT		
E1	Fit for worldwide service in all environments.	Fit to deploy on contingent and enduring operations with no requirement for medical care within the deployed location beyond Primary Healthcare (or equivalent).
E2	Fit for unrestricted duties but with a medical risk marker.	Has a specific medical condition, which does not currently affect employability or deploy ability but may do so in the future. Has no climatic restriction and no requirement for medical support bar adequate supply of medication. The medical condition is stable with treatment. Should loss of medication occur for <1 week this should not lead to clinical deterioration in the condition or functional degradation during that time. Examples of medical risk markers are early noise induced hearing loss, stable chronic condition requiring medical monitoring.
E3	Restricted employment outside UK due to medical support or environmental requirements.	Fit subject to limitations as will require access to enhanced medical support or has specific medications requirements unlikely to be compatible with contingent operations. Fit to be in areas within limitations eg climatic injuries, hearing loss, susceptibility to environmental exposure. Personnel may require guaranteed access to an MO outside UK waters or only be deployable where access to Secondary Healthcare is possible.
E4	**Only** to be employed out of the UK where there is access to established 'NHS equivalent or better' Primary and Secondary Healthcare.	Has a medical condition requiring access either routinely or as an emergency to medical care at a level equivalent to that provided in the UK. Limited to Overseas Bases only (excludes Falklands and Diego Garcia).
E5	May be employed within the UK only.	To be employed appropriately to their MedLims within the UK. See M grade for ability to be employed on a ship.
E6	Pregnancy/Maternity.	Only to be used when the woman has formally informed her employer of her pregnancy **and** she has given her written consent for MES to be displayed as E6 or a contemporaneous record has been made in the clinical notes confirming permission granted. E6 is to be maintained until the Service woman has successfully completed a return to work medical post pregnancy and/or maternity leave.

3. Medical Limitations

a. The JMES provides sufficient information to the Executive and line management to enable them to understand employability and deployability but does not give sufficient information to allow a precise understanding of how an individual may be employed. This is achieved by the use of Medical Limitations (MedLims) and their accompanying codes.

b. In DMICP MedLims are listed in the order they are applied. More than 12 MedLims can be applied in DMICP but only 12 will be visible to personnel staff on JPA. If >12 MedLims are applied, MedLim ‘000’ will automatically appear on JPA. This MedLim directs the CoC to seek further medical advice on employability.

c. Table 58G-3 details the MedLim codes available with their meaning.

Table 58G-3. Medical Limitation Codes

1000 Series - Miscellaneous Domain		
Sub-domain	**MedLim Code**	**Description**
MedLims (>12)	000	> 12 MedLims allocated – CoC to seek further advice on employability
Not otherwise specified	1100	Restrictions on Service duties and employment not specified by a MedLim (details in med docs)
Working conditions	1200	Unfit shift work
Working conditions	1201	Unfit for night work
Working conditions	1202	Unfit for lone working
Working conditions	1203	Unfit to work at height
Working conditions	1204	Unfit to work on gantries
Working conditions	1205	Unfit to work underground
Working conditions	1206	Unfit to work in confined spaces
Working conditions	1207	Unfit to work without direct supervision
Working conditions	1208	Fit limited duties in trade or branch (type will be specified in Med Docs)
Working conditions	1209	Office duties only
Working conditions	1210	Fit limited working hours agreed between MO and Line Manager
Working conditions	1211	Unfit to conduct EPPs
Working conditions (App 9)	1212	Passenger - land vehicles restriction
Working conditions (App 9)	1213	Workplace restrictions
Employment	1300	Medical marker (no functional limitation)
Employment	1301	Employment subject to single-Service crewing restrictions
Employment	1302	Enlisted below entry standards
Employment (App 9)	1303	Refer to Appendix 9
Safety critical duties	1400	Unfit to conduct safety critical duties
Safety critical duties	1401	Unfit to undertake service driving
Safety critical duties	1402	Unfit to undertake service driving with passengers
Safety critical duties	1403	Unfit to drive specific vehicle (type will be specified in med docs)
Safety critical duties	1404	Not to be responsible for operating machinery
Safety critical duties	1405	Unfit for work with unguarded machinery
Safety critical duties	1406	Below required colour perception standard requires supervision for colour discrimination tasks
Food handling	1500	Unfit food handling
Food handling	1501	Unfit for galley/kitchen duties
Diet	1600	Must have opportunity for regular meals
Diet	1601	To have access to a gluten free diet at all times
Diet	1602	To have access to specialist diet (type will be specified in med docs)

Table 58G-3. Medical Limitation Codes (Continued)

2000 Series - Aviation Domain		
Sub-domain	**MedLim Code**	**Description**
Flying	2000	Unfit solo pilot – must fly with a pilot suitably qualified on type
Flying	2001	Unfit solo (aircrew category will be specified in med docs)
Flying	2002	Unfit specific aircraft (type(s) to be specified in med docs)
Flying	2003	Fit (details to be specified in med docs) flying duties only
Flying	2004	Unfit (conditions of flight to be specified in med docs)
Flying	2005	Permanently unfit flying duties
Flying	2006	Unfit to climb on aircraft
Flying	2007	Unfit ejection seat aircraft
Flying	2008	Restricted employability because of anthropometric limitations
Controlling	2100	Unfit aircraft controlling duties
Controlling	2101	Fit to control only when another qualified controller is on duty and in close proximity
Hearing/Vision	2200	Aircrew assessed as hearing standard <H1 but with a satisfactory functional hearing test iaw AP1269A
Hearing/Vision	2201	Must wear approved visual correction when flying or controlling aircraft
Hearing/Vision	2202	Must carry approved corrective flying spectacles when flying or controlling aircraft
Respirators	2300	Unfit aircrew respirators
STASS	2400	Fit dry/poolside STASS training only
STASS	2401	Unfit any STASS training
Parachuting	2500	Unfit land parachuting
Parachuting	2501	Unfit sea parachuting

3000 Series - Land Domain		
Sub-domain	**MedLim Code**	**Description**
Deployment	3000	Limited operational land deployments. Employable within the confines of a rear echelon only
Deployment	3001	No operational land deployments. Must not deploy to any operational arena
Deployment (App 9)	3002	Fit for short land deployments subject to Medical Risk Assessment
Deployment	3003	Fit detachments in worldwide areas not exceeding 30 days
Mobility (App 9)	3100	Infantry activities (including digging) restrictions
Mobility (App 9)	3101	Travel on foot across rough terrain restrictions
Mobility (App 9)	3102	Move tactically and adopting fire positions restrictions
Field conditions (App 9)	3200	Living in field conditions restrictions

4000 Series - Maritime Domain		
Sub-domain	**MedLim Code**	**Description**
Ships/submarines	4000	Fit to serve in frigates and above only
Ships/submarines	4001	Fit for short visits to a ship/submarine alongside only
Ships/submarines	4002	Fit to serve in ships or submarines at sea in UK waters only
Ships/submarines	4003	Fit to serve in ships or submarines at sea in UK and Northern Europe waters only
Ships/submarines	4004	Fit for submarines in UK and US fleet exercise areas within medevac range
Ships/submarines	4005	Temporarily unfit submarine service
Ships/submarines	4006	Permanently unfit submarine service

(Continued)

Table 58G-3. Medical Limitation Codes (Continued)

4000 Series - Maritime Domain (Continued)		
Sub-domain	**MedLim Code**	**Description**
Ships/submarines	4007	Permanently unfit service on a submarine at sea (fit SM duties alongside/ashore)
Ships/submarines	4008	Permanently unfit service on a submarine at sea or alongside (fit SM duties ashore only)
Marine Craft	4100	Unfit fast boat transits and boat operations in rough sea states
Royal Marines	4200	Permanently unfit for Royal Marines General Service
Diving	4300	Temporarily unfit diving
Diving	4301	Permanently unfit diving
Diving	4302	Fit to dive, with restrictions assigned by SMO Underwater Med/RNMBOS. D/W MO for medical restrictor
Diving	4303	Unfit mixed gas diving, navigation and watch keeping duties (for CP4 divers iaw BR1750A 1219b)
Sea survival/fire-fighting	4400	Unfit for BSSC or ISSC
Sea survival/fire-fighting	4401	Unfit for BSSC or ISSC but fir Embarked Forces Fire Fighting Training
Sea survival/fire-fighting	4402	Unfit fire-fighting training and duties
Dockyard	4500	Unfit to work on dockyard edges
Medical review	4600	Fit for short embarked deployments subject to MRA
Medical support	4601	Fit to serve in ships, submarines or RM Units with a permanent MO borne only
Medical support	4602	Needs access to a MO within 24 hours when deployed outside UK waters
Medical support	4603	Needs access to a MO within 2 days when deployed outside UK waters
Medical support	4604	Needs access to a MO within 3 days when deployed outside UK waters
Medical support	4605	Needs access to a MO within 5 days when deployed outside UK waters
Medical support	4606	Needs access to a MO within 7 days when deployed outside UK waters

5000 Series - Environmental and Medical Support Domain		
Sub-domain	**MedLim Code**	**Description**
Geographical	5000	Geographical/Regional assignment restrictions (details specified in medical documents)
Geographical	5001	Unfit to deploy, travel or reside in malarious areas
Geographical	5002	Unfit Service outside base areas
Climatic (App 9)	5100	Climatic restrictions – To be employed in appropriate thermal environment
Climatic	5101	Unfit for work outdoors
Climatic	5102	Unfit exposure to hot environments (including within the UK) seek guidance from medical staff
Climatic	5103	Unfit exposure to cold environments (including within the UK) seek guidance from medical staff
Climatic	5104	Unfit exposure to excessively wet environments
Climatic	5105	Unfit exposure bright lights/strong sunlight
Climatic	5106	To wear Service/civilian PPE to ensure hands and feet are kept warm
Climatic	5107	Fit to be employed in temperate climates only

(Continued)

Table 58G-3. Medical Limitation Codes (Continued)

5000 Series - Environmental and Medical Support Domain (Continued)		
Sub-domain	**MedLim Code**	**Description**
Environmental hazards	5200	Unfit exposure skin irritants/sensitisers (type will be specified in med docs)
Environmental hazards	5201	Unfit exposure to dusts, fumes and vapours (type will be specified in med docs)
Environmental hazards	5202	Has (or may have) been exposed to environ hazard, avoid further exposure, refer to med docs/JPA
Med support	5300	Not to conduct safety critical duties if medical support device(s) unavailable
Med support	5301	To have access to appropriate power supply for medical equipment
Med support	5302	Requires access to irradiated Blood Products
Auto-upgrade	5400	ROHC auto-upgrade: if not upgraded MFD within 12 mths is to return to RNMBOS/FMB
Auto-upgrade	5401	ROHC upgrade: if not upgraded MFD or MFD (8001 + or - 5504) within 12 mths return to RNMBOS/FMB
Auto-upgrade	5402	PMO/SMO upgrade: if not upgraded MFD or MFD (8001 + or - 5504) within 12 mths return to RNMBOS/FMB
Medical review	5500	Must have MRA undertaken by ROHC prior to Exercise/IPDT/deployment
Medical review	5501	To be made available for regular medical reviews
Medical review	5502	For annual review by PMO/SMO
Medical review	5503	For annual review by Regional OH Consultant
Medical review	5504	Requires MRS prior to attendance on Command Course
JCC/SCC	5600	Fit for modified JCC or SCC/JCC or SCC (RM Band) only

6000 Series - Locomotion, Lifting and Carrying Domain		
Sub-domain	**MedLim Code**	**Description**
Locomotion	6000	Unfit strenuous physical exertion
Locomotion	6001	Requires to be seated at place of work
Locomotion	6002	Fit sedentary duties only
Locomotion	6003	Unable to sit for long periods
Locomotion	6004	Unable to stand for long periods
Locomotion	6005	Unfit for work kneeling down
Locomotion	6006	Unfit marching/drill
Locomotion	6007	Able to walk short distances only
Locomotion	6008	Unable to climb stairs regularly in course of duty
Locomotion	6009	Unable to climb vertical ladders
Upper limbs	6100	Fit limited use of one hand/arm (details will be specified in med docs)
Lifting/Carrying	6200	Unfit heavy lifting
Lifting/Carrying	6201	No load carrying

7000 Series - Hearing and Vision Domain		
Sub-domain	**MedLim Code**	**Description**
Hearing	7000	To have annual audiograms with subsequent review by PMO/SMO
Hearing	7001	To ensure correct use of hearing personal protective equipment iaw Hearing Conservation Programme
Hearing	7002	To avoid unprotected exposure to loud noise
Hearing	7003	Unfit exposure to noise above (to be specified) level

(Continued)

Table 58G-3. Medical Limitation Codes (Continued)

7000 Series - Hearing and Vision Domain (Continued)		
Sub-domain	**MedLim Code**	**Description**
Hearing	7004	Unfit wearing of headsets
Hearing	7005	Unfit split headsets
Vision	7100	To wear appropriate eye protection including specialist or tinted eyewear

8000 Series - Physical Fitness and Rehabilitation Domain		
Sub-domain	**MedLim Code**	**Description**
Fitness testing	8000	Medically exempt from all requirements of RNFT/RAFFT/PFA
Fitness testing	8001	Fit for Alternative Aerobic Assessment or Rockport Walk element of RNFT/RAFFT
Fitness testing	8002	Unfit upper body/strength test element of the RNFT
Fitness testing	8003	Unfit RM BFT/CFT/ACFT/speed marches
Fitness testing	8004	Unfit AFT/OFT/speed marches
Fitness testing (App 9)	8005	Unfit to walk 3.2km carrying 15kg
Fitness testing	8006	Unfit OFT
Fitness testing	8007	Unfit Alternative Aerobic Assessment
Fitness testing	8008	Unfit press-ups
Fitness testing	8009	Alternative press-up hand position allowed
Fitness testing	8010	Unfit sit-ups
PT	8100	Unfit running
PT	8101	Unfit impact activity
PT	8102	Unfit organised physical training; fit individual PT programme only
PT	8103	Unfit upper body PT
PT	8104	Restricted lower limb non-impact physical training
Rehabilitation	8200	Individual to be made available to follow rehabilitation PT programme
Rehabilitation	8201	Graduated rehabilitation as directed by Clinical Lead
Rehabilitation	8202	Graduated rehab including supervised phased return to limited sea duties as directed by Clinical Lead
Rehabilitation	8203	Fit travel outside UK on duty for adaptive sport/adventurous training/represent the Service following MRA
Rehabilitation	8204	Unfit Multi Activity Course
Rehabilitation	8205	Unfit Core Recovery Event 1
Rehabilitation	8206	Unfit Core Recovery Event 2
Rehabilitation	8207	Unfit Core Recovery Event 3
Sport	8300	Unfit sport (to be specified in med docs)
Sport	8301	Unfit contact sports
Sport	8302	Unfit solo swimming

9000 Series - Military Tasks Domain		
Sub-domain	**MedLim Code**	**Description**
Weapon handling	9000	Unfit handling live arms
Weapon handling	9001	Unfit live weapons/fit simulation
Weapon handling	9002	Unfit APWT
Weapon handling (App 9)	9003	Ranges restrictions
Weapon handling (App 9)	9004	Weapon handling restrictions
Guard/Ceremonial	9200	Unfit guard duties

(Continued)

Table 58G-3. Medical Limitation Codes (Continued)

9000 Series - Military Tasks Domain (Continued)		
Sub-domain	**MedLim Code**	**Description**
Guard/Ceremonial	9201	Unfit for ceremonial duties
Personal Kit and Equipment	9300	Clothing restrictions/military PPE (to be specified in med docs)
Personal Kit and Equipment	9301	Unfit wearing Service footwear (to be specified in med docs)
Personal Kit and Equipment	9302	Unfit non-aircrew respirators
Dog handling	9400	Unfit for dog handling
CBRN	9500	Unfit CBRN threat areas, unable to tolerate CBRN protection and/or prophylactic measures
Unit	9600	Unfit to return to original unit
UKSF	9700	Permanently unfit UKSF Selection

ANNEX 58H

SPARE

ANNEX 58I

CM GUIDANCE FOR PROCESSING EXTENSION OF SERVICE REQUESTS

1. Principles

Extensions of Service (EOS) may be used for the following reasons:

a. To act as a short-term workforce regulator by increasing the total bearing of all specialisations in order to meet the global requirement.

b. To assist in alleviating shortages in any particular specialisation or sub-spec that cannot be solved by using officers of other specialisations.

c. To retain officers with deep specialist skills or knowledge of which there is a shortage.

2. Types of EOS

There are two types of EOS (defined at Para 5811):

a. **Career Manager's EOS.** A 'Career Manager's' (CM) EOS can be for up to a total of six months. CMs are not to give EOS which individually or cumulatively exceed six months in total, nor are they to add a CM's EOS to the end of a 'full' EOS; this limitation is necessary in view of the significant hidden pension implications of EOS. Any EOS which results in a cumulative total of over six months is to be processed as a 'full' EOS.

b. **Full EOS.** As a guideline, 2½ years is normal but periods up to five years may be considered. In general, the RM gives up to two years for an EoS; anything greater is classed as an Extended Career for which a Selection Board is convened.

3. Administrative Action

The following procedure is to be followed:

a. **Application.** After discussion with the CM, an individual should apply for all types of EOS by raising a Form S61(Rev 11/13) which can be found via a link on the RN Web A-Z under Forms (Royal Navy). Once completed, with the medical declaration signed as required, the form should be forwarded electronically through the chain of command to the relevant CM.

b. **Process.** On receipt of the S61, the CM is to staff the request by completing Part 6 of the S61 and ensure that, for a 'full' extension, a copy of an SJAR/OJAR (no more than six months old) with a relevant recommendation for the EOS and medical certificate have been received. The application form should be distributed (soft copy via email) through each team's SO1 CM (officers)/SO2 CM (ratings) to the relevant Branch Manager (who is required to scrutinise against branch and specialisation requirements) and thereafter, for a 'full' extension only, to NAVY PEOPLE-TRAINING N5 SWPO/R SO1 for scrutiny against overall bearing/requirement and financial control aspects. After Branch Manager and SWP scrutiny, the application should be returned to the CM.

c. **Final Approval.** SO1 CMs (Officers) and SO2 CMs (Ratings) are delegated authority to approve a CM's EOS and 'Full' EOS subject to there being a branch shortage; if the branch is in balance or overborne, Head of Career Management (Hd CM)/Hd N5 approval is required. Additionally, if the extension takes the individual beyond age 60, Hd CM's approval must be sought.

d. **Administrative Action.** Once an application has been approved, the CM (or delegated Admin Support Staff) is to amend the individual's JPA contract in accordance with current JPA 'kill-card' SOPs. For officers, the completed application form is to be retained within the officer's PF. For ratings, the completed form is returned to the unit for retention.

e. **IC(12).** A maximum EOS of two years (i.e. to 14 years) may be granted to officers serving on normal IC commissions.

4. Where retirement dates are to be extended from before 31 Mar to 1 Apr or later (ie. one that gives the individual the advantage of having terminal benefits assessed under a later and more favourable pension code), CMs must ensure that the extension is for genuine Service reasons.

5. Ratings are not to be granted an EOS purely to retain eligibility to an EC. The fact that approval of a requested extension for a service requirement makes an individual eligible for consideration for EC is entirely coincidental. CMs are to ensure that this is clearly understood by Divisional Officers and applicants/potential applicants in any discussions.

ANNEX 58J

UNLAWFUL DISCRIMINATION - GUIDANCE FOR CAREER MANAGERS

1. The Equality Act 2010 brought together a raft of anti-discrimination legislation, extended some protections to characteristics that were not previously covered and strengthened particular aspects of equality law. The 9 Protected Characteristics under the Act are:

- sex (gender);
- sexual orientation;
- gender re-assignment;
- race and ethnicity;
- religion or belief;
- marriage or civil partnership;
- pregnancy and maternity;
- age; and
- disability.

2. Discrimination occurs when someone is treated less favourably or is disadvantaged because of a protected characteristic above, whether direct or indirect, intentional or unintentional. Discrimination is generally unlawful, however it can be justified if you can show that it is 'a proportionate means of achieving a legitimate aim'. Types of discrimination are:

a. **Direct Discrimination.** Occurs when someone is treated less favourably than others because of a Protected Characteristic they have or are thought to have (see perceptive discrimination below), or because they associate with someone who has a protected characteristic (see associative discrimination below). For example, turning down an assignment for an individual who is lesbian, because you believe that the team she will lead is homophobic and think her sexual orientation would prevent her from gaining the team's respect and managing them effectively would be direct sexual orientation discrimination.

b. **Perceptive Discrimination.** Direct discrimination against someone because others think they possess a particular Protected Characteristic (not applicable to Marriage or Civil Partnership And Pregnancy and Maternity). For example, not considering a 30 year old man for a youth recruiting assignment because visibly he appears much older and wouldn't establish rapport with young people, would be discrimination on the perception of age.

c. **Associative Discrimination.** Direct discrimination against someone because they associate with another person who possesses a Protected Characteristic (not applicable to Marriage or Civil Partnership and Pregnancy and Maternity). For example, not assigning an individual who associates with Muslims, because you believe this would prevent them from carrying out their duties or gaining the respect and trust of their team, would be discrimination because of association with religion or belief.

d. **Indirect Discrimination.** Occurs when you have a rule or policy that applies to everyone but particularly disadvantages people who share a Protected Characteristic. For example, it is likely that a policy that only allows men to serve in Afghanistan would be indirect discrimination because of sex. However, if the cultural nature of a particular assignment dictated that the mission could only be carried out effectively by a man, then discrimination could be justified as a “proportionate means of achieving a legitimate aim”.

3. Exemptions

The Armed Forces have been granted very limited exemptions in respect of Age, Disability, Gender Reassignment and Sex, for the purpose of ensuring the combat effectiveness of the Armed Forces. For example it may be a genuine occupational requirement to be a man, or not to be a transsexual person.

4. Further advice and guidance can be sought from Diversity and Inclusion Policy staff and Service Legal Advisers.

ANNEX 58K

PERSONAL RECORDS

1. Official Records

a. Official Records (ORs) are placed before promotion or transfer Boards. The Officers' or Ratings' and Other Ranks' Promotions Sections of Deputy Director People Delivery (DDPD) are responsible for the accurate and timely completion of ORs. The OR contains a CV derived from JPA and copies of all recent appraisal reports, going back as far as directed in the Transfer/Promotion Board Instructions written for specific Selection Boards. The OR may also contain copies of reports and letters as follows:

(1) Reports in special format from UN Service and Joint Service, NATO and other non-RN Defence Colleges.

(2) NATO letters of appreciation and efficiency reports, Ambassadors', High Commissioners' and Head of Defence Sales' reports on attachés and advisers.

(3) Honours or Awards (see JSP 761).

(4) Formal intimations of appreciation, commendation or praise by Commonwealth or foreign governments or foreign Naval authorities, including NATO and the United Nations, and by the Admiralty Board, Commanders-in-Chief and independent Flag Officers.

(5) Court Martial convictions, and censures by Admiralty Board and formal warnings when so directed, expressions of severe displeasure by a Commander-in-Chief or independent Flag Officer, censure by Commonwealth or foreign governments or foreign Naval authorities including NATO when so directed by the Admiralty Board.

b. Under the Rehabilitation of Offenders Act 1974, all censures awarded as a result of conviction by a civil court, for some neglect in professional duty, or for conduct where formal disciplinary proceedings are not appropriate, are expunged from the OR when the stipulated period of rehabilitation has expired. All censures are regarded as spent after five years and all Court Martial convictions after five years if the offence or punishment is not specifically covered by the Act.

2. Access by Third Parties to Official Records

Once finalised, the AR is released to the subject reported on so that they can read the comments made by higher reporting officers. No information is released inside or outside the Service except on the strictest need-to-know basis. Any exceptions require the personal approval of the Career Management authority acting on behalf of the Admiralty Board. Any requests for information from solicitors, employment consultancies or other such organisations are not to be acknowledged, but immediately passed to the appropriate Secretariat. The release of other types of personal information is governed by JSP 400.

3. Personal File (PF)

The PF is held by the appropriate Career Manager. It is split into two parts. One part - PF(AR) - contains copies of the individual's ARs for the use of the Career Manager. The second part – PF(MC) - contains miscellaneous correspondence that is:

a. A record of all assignments.

b. Any other occurrences such as:

(1) Requests.

(2) Medical categories.

(3) Special qualifications.

(4) Correspondence to and from the individual officer.

c. Honours and Awards.

d. Letters of appreciation etc.

e. Expressions of displeasure of Commanders-in-Chief, Independent Flag Officers and Area Flag Officers, but only if such action is recommended by the Initiating Officer.

f. Admiralty Board formal warnings when not included in the ARF.

g. Censures, Courts Martial, and Summary Trial convictions (see para 6 et seq below).

4. Appraisal Report File (ARF)

An officer's ARF contains:

a. All original ARs written on the officer.

b. All original Awards, Honours and Censures.

c. All original 'official' letters of appreciation etc.

5. Custody of ARFs

ARFs are stored as follows:

a. For all RN and RM officers up to and including Commander and Lt Col – in archives in a separate building adjacent to Victory Building.

b. For all Captains, Commodores, Colonels and Brigadiers - in the Naval Assistant's office.

c. For all 2* officers and above - in the Naval Secretary's office.

6. Censures

a. The following censures are recorded in the PF(MC) and ARF:

(1) Admiralty Board Severe Displeasure or Displeasure.

(2) CinC/Flt Cdr's or independent Flag Officer's Severe Displeasure.

b. Other censures are recorded as follows:

(1) **Admiralty Board Formal Warning.** OR if so directed. Retained permanently in PF(MC).

(2) **CinC/Flt Cdr's or Independent Flag Officer's Displeasure.** PF(MC) if so directed. Retained permanently in PF(MC).

(3) **CinC/Flt Cdr's or Independent Flag Officer's Formal Warnings and Loggings by Commanding Officers.** These are not recorded.

(4) **Any Form of Censure by Commonwealth or Foreign Governments or Military Authorities, including the UN, EU or NATO.** These are only to be noted in the OR if the Admiralty Board so directs or if formal censure by the Admiralty Board is incurred.

7. Recording of Courts Martial and Summary Trial Convictions and Acquittals

a. **Convictions.** All Courts Martial convictions are noted in both the PF(MC) and ARF. The Promotions Section will action any necessary amendments to the JPA record (eg. changes of seniority).

b. **Loss of Seniority.** If underzone or in zone, loss of seniority has an effect on when an officer comes into zone or on how long they remain in zone (even if the effect is to lengthen their time in the zone). If overzone, loss of seniority does not have the effect of rendering the officer re-eligible for selective promotion.

c. **Acquittals and Quashing of Convictions.** Acquittals at Courts Martial are recorded in the PF(MC) only. If a Court Martial conviction is subsequently overturned by the Court Martial Appeal Court the PF(MC) notation of the conviction is to be marked "Quashed" while the Promotion Section is to remove the Court Martial summary sheet from the OR. If, however, the sentence is quashed after the summary sheet has been presented to a promotion board, the summary sheet will be annotated "Quashed" and will only be removed from the OR once the selection process is complete for that year. On the rare occasions that an AR makes reference to a Court Martial, and other correcting action is not practical, the AR is similarly to be annotated "Quashed".

d. **Disclosure of Courts Martial Proceedings.** Requests for disclosure of Courts Martial proceedings should be addressed to NAVY SEC-2 DISCIPLINE 1A.

e. **Summary Hearings of Officers**

(1) The Armed Forces Act 2006 provides for officers of or below the rank of Commander to be dealt with by way of summary hearing for minor offences. The Navy Board has directed that there will be a rebuttable presumption that reprimands will be recorded in the PF(MC) for 2 years and severe reprimands will be recorded in the PF(MC) and OR for 3 years. Navy Legal-SHRC will inform DDPD/Hd Proms of charges which have been proved.

(2) In the normal course of events, Career Managers will be unaware of a summary hearing of a member of their plot and the fact of a summary hearing should have no implications for assigning. It may, however, on occasion, be necessary for a Career Manager to note that an officer is involved in a summary hearing, for example if the holding of a summary hearing has an effect on the timing of an assignment. If such an exceptional case arises, a note may be made in the PF(MC) or the scribble pad, but care should be taken to destroy such records under DPA Principle 5 if the charge is not proven or if the proved charge is not recorded. In the unlikely event that an offence heard summarily forms the basis of an application to land an officer, then a record of summary hearing may be kept in the PF(MC) insofar as it is an integral part of the landing application.

8. Rehabilitation of Offenders Act

a. Under the Rehabilitation of Offenders Act 1974, a censure awarded as a result of actions listed in the following sub paragraphs should be expunged from the OR when the stipulated period of rehabilitation has expired. All censures should be regarded as spent after 5 years; all Court Martial convictions after the stipulated period or after 5 years if the offence or punishment is not specifically covered by the Act. This 5 year period commences on the date of conviction or, in the case of a custodial sentence, on its completion.

(1) Conviction by a Civil Court;

(2) Police Caution (PC);

(3) Some neglect in professional duties;

(4) Conduct where formal disciplinary proceedings are not appropriate;

b. Although the Act demands that all such convictions or censures are spent after the appropriate period, for the purposes of consideration of promotion, career planning and assigning, the Act recognises and allows that they should, subsequent to becoming spent, be taken into account, if appropriate in considering matters affecting National Security or in considering levels of punishment or censure after a subsequent conviction or incident meriting further censure. Records of Court Martial convictions and censures are not, therefore, expunged when they are spent, but retained as the permanent record in the MOD from which information may be obtained for DV and more sensitive security vetting purposes when required by DVA and for Court Martial when required by the Court.

c. Promotions Section will ensure that all records of censure etc. are expunged from the OR five years after conviction. If the five year period expires during the selection process, then the reference point for calculating the end point is to be the date the transfer/promotion boxes are dispatched to board members.

9. Disposal of Records

On retirement or discharge. the PFs of officers are archived at a specialist facility in Swadlincote, Derbyshire, by TNT Archive Services under a Pan-Govt contract. The files are retained for 100 years from a person's date of birth. The file contents are to be weeded so that only the following items remain enclosed:

a. The PF.

b. Assignment record sheet.

c. Reports as RN rating (for SUY Officers).

d. Assignment/Officer letters on entry or transfer.

e. Certificates eg:

(1) BWC.

(2) ONC.

(3) Charge Certificates.

(4) Security clearance records.

(5) Courts Martial reports.

(6) Medical reports.

(7) Special commendations.

(8) Naval Aircrew Advisory Board (NAAB) reports, especially for RAF candidates.

(9) Record of flying experience and ability S3168.

(10) Retirement letters (PVR, redundancy etc).

(11) NOK forms.

(12) Official Secrets Act Declaration.

(13) Any correspondence or signals which may indicate health, financial, personal problems and intentions regarding future work/home eg. joining RAN, moving to USA etc. (no other correspondence between officers and CMs is required).

(14) Commodore BRNC reports on withdrawal from training (YOs only).

10. Conduct Record (RN Form S3300d and Wallet S3300e) and JPA Formal Discipline Record (FDR)

a. **Purpose.** The Conduct Record (CR), RN Form S3300d (with the associated spent conviction wallet, RN Form S3300e), was introduced on 1 Jan 00 in order to provide a comprehensive, through-career record of Service and civil convictions for the minority of individuals who offend. The entire series of S3300 forms is superseded by records on JPA (S3300a, S3300b and S3300c having been subsumed into the SJAR). From Jul 09, all discipline occurrences that were previously reported on Forms S3300d and S3300e were reported to JPA Discipline, from where it is possible to produce the Formal Discipline Record (FDR) as an auto-fill form. Any remaining forms S3300d and S3300e must be retained for those personnel that have them, since an individual's discipline history prior to JPA will not be uploaded, but will continue to be recorded on these forms.

b. **Retention and Access.** The CR (where applicable) is an integral part of a rating's/other rank's service documents and is normally to be retained by the UPO/Ship's Office. The CR and FDR are available to the following but only in the circumstances detailed:

(1) **Divisional/Commanding Officer.** When the individual joins – only if under a continuing sentence (i.e. ongoing suspended sentences/Second Class for Conduct/Service Supervision and Punishment Order (from 31 Oct 09)).

(2) **Divisional/Commanding Officer.** Unspent convictions only - when considering administrative decisions (eg. Service Penalties).

(3) **RN Police/Coxswains.** Full access to the CR and FDR when investigating an alleged offence.

(4) **Divisional Officer.** Full CR and FDR when preparing for disciplinary proceedings.

(5) **Commanding Officer/other Subordinate Commander.** Full CR and FDR - when considering the results of an investigation, to inform the decision on charging or referral to the Director of Service Prosecutions. After finding a charge proved, or a charge is admitted, to inform the decisions on sentence.

(6) **Court Martial.** Full CR and FDR will only be referred to after a finding of guilt or a guilty plea (if such occurs).

(7) **Ratings and Other Ranks.** May see or have a copy of their own CR and FDR on request and will be given a copy when charged with a Service offence.

c. **Previous Raising of a CR.** A CR was raised on all personnel serving on 1 Jan 00; after this date until 31 Oct 09, on entry or re-entry a CR was raised for all new entrants and those re-entrants who did not have a CR raised during their previous service. From 31 Oct 09, Form S3300d and accompanying wallet S3300e are no longer issued and the FDR via JPA is the sole source of disciplinary history for new entry personnel.

d. **Content.** The CR (where one exists) comprises a covering folder (RN Form S3300d) within which is stored:

(1) Copies of any charge sheets or equivalents from the Army or RAF.

(2) Copies of Punishment Warrants.

(3) Signals of court martial conviction(s) and sentence.

(4) Reports of civil convictions and PCs; plus (if required).

(5) RN Form S3300e, a wallet, to which relevant documents are moved when convictions become ‘spent’.

e. Only findings or admissions of guilt resulted in entries in the CR. No information concerning unproven offences or acquittals at trial is to be included.

f. Documents included in the CR wallet (S3300e) were annotated with the appropriate rehabilitation period (see PLAGO Para 0708).

g. The CR records the following:

(1) Log number.

(2) Date of conviction.

(3) Reference/details of relevant documents.

(4) Rehabilitation date.

(5) Whether offence was reported to the Police National Computer.

(6) Time forfeited details (see Para 10 sub para n).

(7) Good Conduct Badges (GCB), the Long Service and Good Conduct Medal (LS&GCM), the Meritorious Service Medal (MSM) (see Para 10 sub para s).

h. **Log Number/Documents.** Details of all convictions prior to 31 Oct 09 were recorded and a copy of the relevant documents (ie. S241, S271, AFB252, Court Martial Signal) inserted within the Conduct Record. Each document was numbered sequentially and the number inserted in the Log No. column.

i. **Conviction Date.** The entry in this column is the date of conviction eg. date warrant signed at page 2/Court Martial finding/Civil Court finding/date PC signed by the individual.

j. **Reference/Details.** The document reference inserted in this column is the ship/unit, form number and serial number (ie. NONSUCH/S241/16, NONSUCH/C57/3 etc) or the Court Martial signal (originator and DTG).

k. **Career Check (CC).** Prior to 31 Oct 09, where a conviction gave rise to a CC this was recorded within the CR as well as being recorded in JPA under Warnings and Sanctions. A CC may affect eligibility for GCB, LS&GCM and MSM (see JSP 761 Chapter 5), promotion (see Part 8 of this BR) and other administrative changes (see individual regulations). A CC has no effect when recorded on the CR of an individual aged under 17½. The CC date entered on the CR was one of the following:

(1) Date of conviction eg. date warrant signed on page 2/Court Martial finding/Civil Court finding/date PC signed by the individual; or

(2) Date of release from prison/Young Offenders Institution/detention or removal from Second Class for Conduct; or

(3) N/A, denoting ‘Not Applicable’ as sentence/conviction/PC did not give rise to a CC.

l. **Rehabilitation Date.** Guidance on the Rehabilitation of Offenders Act can be found in PLAGO Para 0708. The Rehabilitation Date will be the prescribed period of time since the date of conviction. Rehabilitation periods are detailed in Annexes A and B of PLAGO Para 0708. A further conviction during the rehabilitation period of a previous offence may extend the rehabilitation period of the earlier offence. In this instance, where the rehabilitation period is changed by another offence (Annex C of PLAGO Para 0708), the original date is to be ruled through and the new date inserted. If there is any doubt, advice should be sought from DCS-LAW-DIS.

m. **Reported to PNC.** The column for reporting to the Police National Computer has an entry ‘Yes’ or ‘No’.

n. **Time Forfeited.** Time forfeited arises from imprisonment/Young Offenders Institution (YOI) detention, detention and, in some circumstances, Service Penalties. The number of days forfeited plus D, P, CP, A, Pay F or N/A was recorded on the CR (Time forfeited column) as appropriate:

(1)	D	Detention.
(2)	P	Imprisonment/YOI.
(3)	CP	Civil Power (BR 2 Para 3906).
(4)	A	Stoppages of pay for absence over leave under Army or RAF Regulations.

(5) Pay F Forfeiture of pay.

(6) N/A Not applicable.

o. **Second Class for Conduct.** The CC date entered on page 2 of the CR was the date of removal from Second Class for Conduct.

p. **Detention/Imprisonment.** The CC date to be entered on the CR log was either the date of conviction (if sentence was suspended) or date of release from Detention/imprisonment.

q. **Committal of Suspended Sentences.** Where a suspended sentence is committed, the original CC date and the N/A entry under the time forfeited column were ruled through. A new CC date and number of days forfeited was inserted above on completion of sentence.

r. **Remittal or Enforcement of Suspended Sentences.** When a suspended sentence was remitted or enforced, details were to be recorded upon the relevant supporting documents:

(1) **Suspension of Sentence after Committal.** The effective date and number of days served, and 'Residue Suspended';

(2) **Remission of Suspended Sentence.** Effective date; notation 'Suspended' or 'Residue Suspended' ruled through; and enter 'Remitted' or 'Residue Remitted' as appropriate;

(3) **Committal or Re-committal Following Suspension of Sentence.** Effective date; ruled through notation suspension of sentence or of 'Suspended' or 'Residue Suspended' and residue of sentence; and enter notation 'Committed' or 'Recommitted' as required.

s. **Good Conduct Badges, LS&GC Medal and MSM.** Awards, deprivations, forfeitures and restorations of Good Conduct Badges, the LS&GC Medal and the MSM were recorded within the CR (see JSP 761 Chapter 5). Note: Prior to 1 Jan 00 such entries were recorded on the Certificate of Service.

t. **Bring Up Review Date Box.** The Bring-up/Review date Box should have been completed only in pencil. It was provided for UPO staff to note 'bring up' dates for review of suspended sentence, Second Class for Conduct and re-promotion as appropriate. When no longer extant, any entry was to be erased.

u. **Annual Sighting.** The requirement for Annual Sighting ceased on 31 Oct 09 with the obsolescence of the CR.

v. **Losses and Replacement.** In the event of loss of a CR, application is can be made to DCS-LAW-DIS for reconstruction from the historical information (prior to 31 Oct 09) held in the Discipline Database.

w. **Disposal of CR.** The CR becomes the property of the individual at their leaving the Service.

x. **Spent Convictions Wallet (RN Form S3300e).** As stated in Para 10 sub para a, the S3300e, as a repository of information on spent convictions, became obsolete from 31 Oct 09 with convictions recorded after this date being entered in JPA only and accessed via the FDR which should in future identify those convictions that are spent. Reference can be made to PLAGO Para 0708 to decide which of those convictions entered on the CR can be classified as 'spent' and the details filed in the S3300e.

y. Under the Rehabilitation of Offenders Act 1974 (ROA) all sentences passed by Service and civilian courts are subject to various rehabilitation periods (see PLAGO Para 0708 for periods and further details). Once an offence has been rehabilitated or 'spent', it is not to be considered when administrative decisions regarding employment or career are made, unless those decisions are exempt from the provisions of the ROA eg. eligibility for the award of medals.

z. To avoid inadvertent consideration of CR documents relating to spent convictions, such documents are to be placed within the spent convictions wallet (RN Form S3300e). This is then to be secured, by the same India tag, within the CR (RN Form S3300d) and underneath other documents, if any, relating to unspent convictions.

Table 58K-1. Career Manager's Documentation Retention Periods

Document Type	Type of Data Held	Purpose	Retention Period	Remarks
JPA	Automated electronic system containing details of Officer; e.g. employment listing, NoK, marital category, qualifications – academic and service history.	To assist assigning and Career Management. Search for Officers with particular qualifications required for specific posts.	On discharge from Active Service, final full print retained in P File	JPA coexists alongside the P file. Depending on the discharge code, a slightly modified record is then retained until the officer's Emergency Liability ends or he reaches age 60. (Officers whose commission is terminated without Emergency liability - e.g. conscientious objectors - have their records reduced to a stub immediately). The JPA record is then reduced to a stub, but the full record is retained so it can be resurrected in the event of conscription, re-entry or enquiry.
Appraisal Report File	Original OJARs, honours, awards and censures (Admiralty Board Severe Displeasure or Displeasure, CINC/Flt Cdr or FO Severe Displeasure) and letters of appreciation etc	Repository of original documentation. Currently Stowed away from Proms Section for Business Continuity and Disaster Recovery purposes.	Retain 100 years from DOB*	File is held by DDPD (Proms) away from Proms Section and CMs' Records for Business Continuity and Disaster Recovery reasons.

Table 58K-1. Career Manager's Documentation Retention Periods (cont.)

Document Type	Type of Data Held	Purpose	Retention Period	Remarks
Personal File - split into PF(MC) and PF(AR)	See separate sections below	To give CM a complete history of the individual for career management purposes.	Retain 100 years from DOB*, subject to regular review (e.g. 2-yearly weeding cycle) to discard inaccurate or out of date information and the destruction of individual papers specified below.	PF(MC) is Miscellaneous Correspondence, collected iaw DPA principles 1-4 and regularly reviewed. PF(AR) is the CM's copy of appraisal reports. The PF is held by CMs until the officer leaves the Service. It is then passed to CM (Reserves) who retain until Officer attains age 60 (if leaving to pension) completion of Emergency Liability in other cases. The file is then passed to Restore (formerly TNT) Swadlincote.
PF(AR)	CMs copies of OJARs and other reports.	Gives CM complete reporting history of individual.	Retain 100 years from DOB*.	There is a need for this file as the contents of Proms/Transfer files will be limited to the more recent reports; the precise contents will vary according to rules set by CM (Reserves).
PF(MC)	Routine Correspondence between CMs and individual		5 years from last record unless grounds exist for further retention	As a guideline routine correspondence associated with the officer's last, current and next assignments should be kept. Records may be kept longer if they are contentious or they shed more light on a particular effect on an officer's career than the mere fact of the assignment. Details which are obviously transient (eg arranging a time for a meeting) should be destroyed during the review process.
	AIB Letter of assignment/ admission to RN		Retain 100 yrs from DOB*	
	Commission Transfer letters		2 years from date of transfer unless grounds for further retention exist.	Successful transfers are likely to be un-contentious. Unsuccessful transfers or matters of dispute or complaint should be held longer.
	Records of all assignments, i.e. job history or CV.		Retain 100 years from DOB*	An up-to-date JPA CV/job history will suffice.

Table 58K-1. Career Manager's Documentation Retention Periods (cont.)

Document Type	Type of Data Held	Purpose	Retention Period	Remarks
	Commendation/Awards letters		Retain 100 years from DOB*	Commendations and awards letters are not on JPA. Citations/ Recommendations for an award are not disclosable under DPA.
	Censures		100 yrs from DOB*	Note: Higher censures also in ARF and in OR. Lower level censures (eg. CINC/Flt Cdr or FO Displeasure), if directed to be retained in PF(MC), will only be kept in PF. Censures are spent after 5 yrs but are to be retained for DVA/ national security purposes.
	Court-Martial Convictions		100 yrs from DOB*	Any records of not guilty findings will be retained for 100 yrs from DOB. Electronic discipline records exist on JPA and the RN Historic Database and may be accesses through NAVY SEC-2 DISCIPLINE 1A. Court-Martial convictions that are spent must still be retained in PF(MC) for DVA/ national security purposes.
	Interview Notes, e.g. Career Interview Proforma		Retain 5 yrs from date of record.	As a guideline, CIPs relating to the last two assignments should be kept. Where relevant or contentious, CIPs may be kept longer.
	E190s		Retain 100 yrs from date of birth*	Subsume into PF when officer joins trained strength.
	MOD Official Secret Act Declarations		Retain 100 yrs from DOB*	
	Medical information relating to career management		Retain while relevant and current.	The PF(MC) is not the medical record. Medical records must be kept by medical authorities for 100 yrs from DOB.
	Unpaid leave documentation, e.g. maternity, career break		100 yrs from DOB*	

Table 58K-1. Career Manager's Documentation Retention Periods (cont.)

Document Type	Type of Data Held	Purpose	Retention Period	Remarks
	Welfare correspondence		Retain while relevant and current.	Welfare records must be kept by proper authorities, e.g. NPFS.
	Subject Access Requests		7yrs from date of last enclosure*	
	AHR papers from temporary file		100 yrs from DOB, unless AHR was not awarded.	
	DV Clearance Certificate		Retain for currency of certificate	
	Disclosure Certificates, e.g. from Criminal Records Bureau		Retain for currency of certificate	
	Assigning Preference Form/Card		3 yrs from date of record.	
Adverse Report File	OJARs, letters ordering imposition of and removal from Special/Quarterly reporting.	Provide full record and audit trail of adverse reporting instances.	Retain 100 yrs from DOB*	Adverse Report files are administered by DDPD (Proms). Once Adverse Reporting ceases (or officer is discharged), the Adverse Report file should be amalgamated with the PF in the custody of the CM.
Temp File Acting Higher Rank	Letters, reports, miscellaneous papers depending of subject.	To allow a particular issue to be staffed by relevant dates without compromising security by circulating the complete PF relating to the individual.	Held until staffing is complete, then incorporated into PF(MC).	
Honours & Awards.	Honours lists. Gallantry awards. Citations. Application for LSGC Medal	Information collated on personnel included on nomination lists.	* INFORMATION NOT RELEASED UNDER DPA 98	

Notes:

*1. The above guidelines draw heavily on Ministry of Defence Data Protection Act 1998 Guidance Notes: No.5 Document Retention Periods, revised by Info Access Pol - 10 Oct 05 MOD guidance is marked *.*

2. The scrutiny of files for weeding/retention should never be a purely mechanistic task. The above guidelines help in the exercise of judgement and discretion.

3. Aim to:

a. Weed any packs when they cross the desk.

b. Have a registry weeding plan (e.g. 2-yearly cycle).

c. Record weeding action for audit trail.

ANNEX 58L

DISCLOSURE OF INFORMATION - EXCEPTIONS

1. Bona Fide Enquiries

Confirmation is given, in bona fide enquiries, of length of service and other similar facts about careers which reflect to the credit of the individuals or is in their interest (e.g. facts which enable assessment of claims being pursued by the individual).

2. Disclosure to DVA Staff, Security Services and Intelligence Departments

a. Dir P&T/NavSec has granted named DBS(NSV) staff permission to remove ARs and career management files for scrutiny during the course of DV enquiries, subject to the following provisos:

(1) All files must be signed in and out at the appropriate career management desk.

(2) Files drawn must be recoverable at short notice and are to be returned as soon as they are finished with and certainly on the same working day as they are drawn.

(3) Files may be drawn only by those on the list of named investigators.

(4) No copies are to be taken of any of the files' contents.

b. Access is granted to Security Service representatives introduced to SO1 Branch CMs personally by certain nominated officers of Navy Command PSyA.

c. The names of three Intelligence Officers who may have direct access to officers' records are known to Dir P&T/NavSec. They have been instructed to contact Dir P&T DCOS when necessary, who will arrange an examination within the Directorate concerned, or to contact the CM Reserves Cell in the case of Retired Officers.

3. Disclosure of Information for MSF/Civil Service Employment Reference Purposes

a. **Candidates for Employment as a Civil Servant (Military Support Function).** The necessary information is to be supplied for the Selection Board by CMs. In order to process the clearances, Security Officers (Investigating) from the Personnel Security Investigating Unit (PSIU) of MOD Sy and authorised investigators from other Government Departments, on showing their identity cards, are allowed access to the personal records of RN Officers or Retired Officers who have applied for MSF posts requiring DV clearance in the MOD or other Government Departments. The officers' records are not to be removed except where an officer is seeking employment in a post in PSyA; their personal record file may be passed to PSyA for personal scrutiny. Medical information may only be divulged by NCHQ Medical Division and then only when written confirmation is provided that the person concerned is being considered for a post requiring a DV security clearance.

b. **Candidates for Employment in Other Government Departments (OGDs).** Disclosure of necessary facts to OGDs who have a 'need-to-know' eg. in connection with applications for employment, is normally to be made by a personal letter, approved and signed at SO1 Branch CM level. Contents of the officer's official reports are not to be disclosed but a general paraphrase of the officer's overall performance may be given. Alternatively, authorised investigators may be allowed access as in Para 3 sub para c.

c. **Candidates for Civil Service Band B Appointments.** There is a specific requirement of the Civil Service Commission for reports on officers who are applicants for Principal grade appointments in the Administration Group of the Home Civil Service. In such cases report forms to be used for this purpose will be received from the Civil Service Department. These reports, and any other references which may be asked for in respect of RN officers, are to be provided by the appropriate OCM. In the case of Retired List officers of Commander's rank and below, their reports and references will be provided by the CM Reserves Cell.

4. Disclosure of Information to Support Commonwealth and Inter-Service Transfer Applications

a. Requests for copies of ARs for an officer seeking permanent transfer to the Navy, Army or Air Force of Australia, Canada or New Zealand should be dealt with as follows:

(1) Enquirers should be told that officers will have in their possession all ARs written since Apr 97.

(2) Reports written before Apr 97 were compiled by Reporting Officers on the assumption that they would not be disclosed to outside authorities. MOD owes a duty of confidentiality to such Reporting Officers and is therefore unable to disclose copies of the reports in question.

(3) Providing the individual consents, in writing, an officer's CM will provide a summary of their career to date (ie. a list of appointments/assignments with a 2-3 sentence précis of performance for each).

b. Copies of ARs on an officer seeking transfer to the Army or RAF may be forwarded to the appropriate authorities by the appropriate CM Admin Support.

5. Admiralty Board Submissions for the Administrative Discharge of Officers

Copies of ARs covering the relevant period (generally that under Quarterly Report) leading up to the submission for discharge may be made available to CNLS for the specific purpose of providing supporting evidence for the Board Submission itself.

6. Disclosure of Information for Statistical Research

Navy People Strategy HR Research Cell staff are allowed access to personal records held by Career Managers and in JPA for statistical research only. Any other access must be cleared with Dir P&T on a case-by-case basis. Records must not be removed from the Department.

7. Disclosure of Medical Information

Requests for medical information should be referred to SO1 OCM Med.

8. Disclosure of Addresses

a. Addresses of Active Service or Retired Officers are not normally disclosed, but whenever disclosure is refused, an offer is to be made to forward pre-paid correspondence to the current unit address of an Active Service Officer or the last known private address of a Retired Officer. Where appropriate it should be explained that this policy arises from the need to preserve the confidential nature of personal service records, which are held for official purposes only.

b. Under certain circumstances, exceptions may be made in the case of Police, Solicitors, the Clerk of a Court or Probation Officer and other Departments of the Crown. Addresses may be supplied in writing or by telephone but in the latter case the individual making the enquiry is to be asked to give a name and telephone number in order that their identity may be checked. Additionally, the Chaplain of the Fleet has been authorised by the Second Sea Lord to disclose the Service addresses of Jewish personnel to the Senior Jewish Chaplain to HM Forces and may therefore approach CMs for this information.

c. Private addresses of Active Service Officers may be disclosed only to the Police.

d. Servicemen and women have been consistently advised to maintain anonymity as far as possible in the light of the current general threat from terrorism. Although official mail for Service personnel will normally be addressed to their service address, occasions will arise when this is not possible and a private address must be used. In addition, official mail for retired personnel must, of necessity, be addressed to their private address. Plain envelopes are, therefore, to be used for all official mail necessarily addressed to private addresses and mention of rank and decorations is to be omitted. Mail for individuals serving abroad should invariably be addressed to the BFPO address. Current MOD and RN regulations for despatch of mail to Northern Ireland and to Eire are to be complied with.

9. Memorandum on Service of Legal Process on Members of HM Forces

A memorandum, issued by the Lord Chancellor's Office on 26 Jul 79, was prepared for the information of solicitors who might wish, on behalf of their clients, to serve legal process in civil proceedings in the courts of England and Wales on people who are (or who, at the material time, were) regular members of HM Forces. This memorandum sets out the procedure to be followed in respect of enquiries from the plaintiff's solicitor needing to find out where a service person is serving and the assistance they may be given in serving proceedings on the serviceperson. Should a subpoena be received, the relevant Staff Legal Adviser should be consulted immediately.

CHAPTER 59

ASSIGNMENT PRINCIPLES

SECTION 1

AIMS OF ASSIGNING/CAREER MANAGEMENT

5901. Assigning Role

Career Managers have details of every position available to Naval Personnel either from an Establishment List, Career Field or General Position, requirement for higher training or a letter of authority for some special or temporary positions. As each position requires filling because of completion of the current incumbent's assignment, sickness or other cause, or as new positions are created, it is the responsibility of the CMs, within their respective branch teams, to identify and nominate a suitable individual for that purpose. The CMs are aware of the range of personnel available with the correct skill sets and experience and take into account any individual preferences. CMs then match individuals to positions reflecting the principles of assigning set out below.

5902. Career Managers' Aims

The aims for Career Managers of Naval personnel are to meet, as far as possible, the following requirements:

a. **Endorsed Current and Future Service Requirement.** The needs of the Service override all other factors with the aim of filling positions with suitable incumbents at the right time with the right skills. This needs to be achieved - against a backdrop of change, the emergence of high priority, short notice requirements and reducing workforce - in such a way that gapping and turbulence are minimised.

b. **Exploiting Skills.** To maximise the return on training investment; consolidating any skills acquired after training and to use such skills for the benefit of the Service.

c. **Career Development Needs.** To plan career progression so that best use is made of personal abilities, whilst broadening experience and providing further training, thereby ensuring that their suitability for promotion is developed and can be properly assessed.

d. **Personal Preferences.** To pay due regard to the wishes of individuals for the type, locality and to some extent the timing of their Assignments, noting where possible their personal and family circumstances (guidance regarding accompanied and unaccompanied service can be found in Chapter 25, specifically Para 2504). The primary means of indicating individual assignment preferences to CMs is via JPA (OJAR, SJAR or Electronic C240) (see Chapter 57 and Chapter 58).

e. **Personnel Functional Standards.** To deliver PFS that lie within their area of responsibility (see Chapter 22).

5903. Factors Affecting the Aims

How far CMs can meet the aims depends on a variety of factors but, principally, how much flexibility they have in terms of the number of people available with the right qualifications at the right time, and how pressing the Service requirement is for individuals with particular skill sets. Consideration should also be given to ensuring that increasing levels of Operational tempo and platform deployment lengths are properly balanced with the needs of our people to plan their lives and be provided with satisfying and rewarding careers. Additionally, no move can be considered in isolation - each has a bearing on the others made at around the same time. The CM must achieve the best possible balance across the three aims - an excellent solution in one case will not be acceptable if it results in a poor solution in another.

5904. Personal Wishes

Individuals are not permitted to select or decline assignments, but, where possible, due consideration is given to personal wishes before deciding on a particular assignment.

SECTION 2

TYPES OF ASSIGNMENT

5905. Introduction

All Career Managers hold a list of positions for the rank or rate within their particular branch that they are required to fill e.g. CM OF WAR SM SO2 has a list of dedicated jobs available for Warfare SM Lieutenants and Lieutenant Commanders. Using position information provided and maintained by Branch Managers (see Chapter 62) and Establishments Administrators (see Chapter 2), they have a 'core plot' which includes all sea and shore-based positions that can only be filled by personnel of that particular rank/rate and specialisation. As well as these 'core' positions there are a number of other types of assignment available to Naval Personnel. These are described in detail through this Chapter and in the accompanying Annexes; other detail on Positions is provided at Chapter 2.

5906. Specific Types of Assignment

Certain specific types of assignment not covered below are covered separately at Chapter 60.

5907. Command Assignments (Officers)

a. Commands are defined as either Sea or Military, and the latter are classified as either Operational or Training and Support and further sub-divided, where appropriate, into subordinate and sub-unit commands, defined as follows:

(1) **Subordinate Command.** Command whose authority is derived primarily through delegation from a higher level of command and which may require the officer to assume the powers and duties of the officer assigned in unit command, e.g. Executive Officer of a ship or shore establishment and Second-in-Command of a Commando unit.

(2) **Sub-unit Command.** To be known as 'Officer Commanding'. This is further subdivided into:

(a) **Operational.** Command of an element of a unit capable of conducting independent operations including combat, combat support or combat service support, e.g. RM Commando Sub-Unit, Fleet Diving Unit.

(b) **Training/Support.** Command of an element of a unit which has significant autonomy in the achievement of its outputs, e.g. Defence Maritime Logistics School, RN Submarine School, Specialist Wings at CTCRM and the Training Groups at MWS.

b. A definitive list of command assignments, eligibility and selection criteria is at Annex 59A. With the exception of sea command at OF5 and OF6 and certain military commands at OF6, there is no intention to change the policy whereby command in one rank is not a pre-requisite for command or promotion to the next rank.

5908. Sea Assignments

a. For a position to count as Sea Service, account will be taken of the applicability of one or more of the following planning guidelines:

(1) A position in a programmable, deployable unit;

(2) A position which has a routine expectation of having a Separated Service level of 122 days (33% of a year) or more per year when averaged over a three-year rolling window (although this is not counted as a PFS);

(3) A position that is mandated as unaccompanied;

(4) An activated crisis position.

b. The guidelines listed above encapsulate RN personnel serving in Ships, Submarines, Units of 3 Commando Brigade RM, Front Line Naval Air Squadrons and Ship's Flights, together with positions that have significant deployable or heavily separated aspects, such as Special Forces and nominated Sea Riders. Those personnel serving in shore positions overseas on Op Tours (including Iraq, Afghanistan and Falklands) will be on Sea Service. Assignment Orders detailing personnel to these designated positions are to show the type of service as 'Sea'.

c. An assignment to a ship or submarine is not always 'sea service'; the following details amplify the circumstances when 'sea service' will apply to ships, submarines and squadrons.

(1) **Ships.**

(a) Sea Service will apply from acceptance date on building, which coincides with its change to 'B' Role crewing (see Chapter 2), until significant (see below) planned maintenance or paying-off.

(b) For all ships, where the planned length of a Ship's maintenance or upkeep period exceeds 3 months from Ship's Staff Move Ashore (SSMA) or Upkeep/Support Start Date (whichever is earlier), to Ship's Staff Move On Board (SSMOB), the service in between these dates will be considered as Shore service.

(c) Where maintenance or upkeep periods are planned to be less than 3 months (as defined above), if the SSMOB is delayed such that there is equal to or greater than 3 months between notification of delay and revised SSMOB date, the period from 1 month after notification of a delay, to SSMOB will be considered as Shore Service.

(d) When paying-off or going for disposal, Sea Service ceases on SSMA, or on the date of transfer of the hull to a foreign Navy.

(2) **Submarines.**

(a) Sea Service will apply from the start of Power Range Testing (PRT) (or Initial Criticality (IC) for upkeep periods of less than 12 months) until three months after arrival at port for upkeep or preparation for disposal.

(b) In the event of upkeep periods of less than 12 months, if the PRT date or IC is delayed such that the time from 3 months after arrival to the revised PRT or IC date exceeds 12 months, then Sea Service will cease one month after the date of notification.

(3) **FAA Positions.** Sea Service will apply to:

(a) Ship's Flights.

(b) Front Line Squadrons.

(c) Certain support units to Front Line Squadrons as designated by Fleet N1.

5909. Changes to Sea/Shore Indicators

It is a NAVY PEOPLE-TRG -HQ-N5 WCM NC WO function to change the Sea and Shore indicators in JPA. CMs will then use these indicators to determine the dates of Sea and Shore Service.

5910. Shore Assignments

Positions designated Shore Service are defined as those that are assessed not to qualify as Sea Service under the above guidelines, nor as LFS under the definition below. This definition captures ships and submarines in long upkeep and air squadrons that are changing airframe over a protracted period, together with conventional shore Positions. This includes service in Emergency Relief Pools (until activated).

5911. Local Foreign Service (LFS)

a. LFS is defined as any assigned Service overseas, including Loan and Exchange Service, in a unit which is not classified as being on Sea Service. This includes all Diplomatic (i.e.. Embassies and High Commissions) and NATO posts, and national units such as RN Gibraltar; it excludes service in the Falklands, the Balkans, British Indian Ocean Territory (previously known as Diego Garcia) and other Op Tours.

b. Guidance for LFS volunteers, their Line Managers and COs can be found at Annex 59B.

c. Guidance for Career Managers on all types of LFS, including Attaché and Embassy Support Staff positions, can be found at Annex 59C.

5912. Augmentation/Dual and Donor Billets

a. Augmentation is an element of Force Generation and is the temporary re-deployment of individuals (regular, reserve or civilian) to wherever they are needed to meet directed operational Military Tasks, Exercises and Events that cannot be achieved within peacetime establishments.

b. Full details of the Augmentation Policy for the Naval Service, including direction on funding and phases of the augmentation process can be found at Annex 59D.

c. There are two types of augmentation which are currently used to achieve the filling of positions for Force Generation and Operations; they are Planned Augmentation and Unplanned Augmentation, which are explained in the following sub-paragraphs.

d. **Planned Augmentation.** Planned augmentation is the filling of operational positions in a pre-planned response to Force Generation. It is achieved by redeploying personnel filling specially annotated, lower priority, peacetime positions to pre-identified crisis positions. Details on how these positions are defined and managed are in Annex 2D. The positions are split into 2 categories, both associated with Crisis (M role) positions:

(1) **Donor Positions.** Donor Positions indicate that the incumbents of these positions are available for assigning to any Crisis (M role) position once activated. There is no annual training commitment although an individual in this category may be called upon periodically to augment a unit during an exercise. Personnel assigned to these positions are made aware of this additional responsibility by instruction in their Assignment Order to their routine assignment. A donor augmentee is at 20 days' notice.

(2) **Dual Assignment Positions.** Dual Assignment Positions are billets that are pre-matched to a specific M role crisis position. The incumbent is assigned to the dual assignment position at the same time as being assigned to their routine assignment position. Remarks on their Assignment Order will provide details of the Dual Assignment. Dual Assignees may be required to undergo induction training and/or attend exercises for their dual assignment. If a nominated Dual Assignee is not available for any reason, the providing unit is initially responsible for nominating a suitable replacement. A Dual Augmentee is at 10 days' notice.

e. Donor and Dual Assignment Positions are indicated in JPA with a 'Y' in the 'A Type Donor' box. Dual position information can be found under 'Additional Detail' on the JPA position front page. A CM guide to actions required for Dual and Donor positions is at Annex 59D Appendix 6.

f. **Unplanned Augmentation.** Unplanned augmentation is the filling of operational positions, usually at short notice, for which there is no established position e.g. ongoing operations. These positions are apportioned to the Naval Service by the Defence Augmentation Cell (DAC) and it is the responsibility of Deputy Director People Delivery (DDPD) Pers Plans to co-ordinate actions to provide a fill for the position. Initially, Pers Plans will approach CMs (of both regular and reserve personnel) in order to provide a Service Person. In the few circumstances, however, when there is difficulty finding a suitable candidate, or a candidate cannot be found within the timescales required, the Higher Readiness Cadre is activated.

(1) **Higher Readiness Cadre (HRC).** The HRC provides a workforce resource to ensure that unplanned operational requirements can be met, by retaining selected personnel at high readiness to deploy. Full details of the establishment, employment and activation of the HRC can be found at Appendix 5 to Annex 59D.

(2) **Personnel for Non-Crisis Requirements.** Officers, Ratings and Other Ranks may be loaned to other ships and establishments for short periods for participation in events such as major exercises, ceremonial duties, military tattoos and other extraneous events. These are events that the Navy Board has agreed should be met from the existing workforce; that is, the Workforce Liability does not include any allowance to grow strength for these purposes. TLBs are responsible for identifying personnel for these events in response to requests by Dir P&T. More detail can be found at Annex 59D.

5913. Career Field (CF) and Joint Assignments (formerly CAPPS) and Other Ranks CAPPS Positions

a. **CF and Joint Assignments (Officers).**

(1) An integral part of career management is broadening; the means by which an officer grows out of their Specialisation (and, eventually, Branch) and becomes fitted for wider assignments in the higher ranks. Career Field Assignments (those designated as being suitable for officers of more than one Branch but are aligned to a particular Career Field), and Joint Assignments (suitable for officers from more than one service) are an important source of broadening opportunities. They are filled through a competitive process, conducted by CM CF Delivery SO1, where CMs bid for positions and the most suitably qualified and experienced person is selected. Opportunity (OPP), Engineering Joint Shared (EJS) and Functional Engineering Shared (FES) positions work in much the same way, except that the competition, conducted by DS Sec or DE&S, is wider - against members of other UK Armed Services or MOD Civilians, for instance.

(2) CF and Joint assignments are managed and administered by CM CF Delivery SO1, who will review CF Officer posts at Commander Level and below on a regular basis and who also monitors officer personnel requirements for additional, un-complemented tasks in conjunction with DDPD Pers Plans.

(3) JSP 755 (Tri Service Positions and Assignments – Instructions) gives all the details for junior (Junior Rotational List (JRL)) and senior (Senior Tri-Service Assignment List (STAL)) tri service assignments. All posts in the JRL are held and managed within the wider CF list by CM CF Delivery SO1 and co-ordinated through CMs. Jobs in the STAL, as with all senior officer assignments, are managed by NA.

(4) Full details of how personnel are selected for Career Field or Joint assignments and advice to CMs on the nomination and assigning process can be found at Annex 59E.

b. **Other Ranks (OR) Common Appointments (CAPPS)**

The introduction of OR CAPPS (moving away from having “General Billets” apportioned to individual CM desks) will enable SP to enjoy a greater variety of roles whilst empowering them to build alternative skills and to facilitate new employment opportunities. The first tranche of this work as at 1 Apr 25 has identified over 100 OR CAPPS positions (OR6 – OR9) aligned with Officer Career Fields to provide the opportunity for broader employment during a later career stage to best suit the skills and experience of the individual. There will be additional tranches in the future, including the possibility to broaden the scope of the scheme to encompass Eng (GS and SM), OR2-OR4 positions and afloat roles. Further information can be found in RNTM 01-039-25 with the policy and associated processes updated in this BR as it is developed further.

5914. Staff Courses and Post Graduate Training

a. Officers and Warrant Officers who wish to be considered as applicants for specific post graduate courses must, in the first instance, consult their CM to discuss the individual circumstances and career planning. Guidance on the courses available and the selection criteria can be found at Annex 59F.

b. Selection for staff courses will be considered by CMs at requisite points in an officer’s career. Guidance for selection can be found at Annex 59F.

SECTION 3

LIABILITY OF PERSONNEL FOR ASSIGNMENTS

5915. Sea Service Liability

a. Personnel who are due for sea service, but whose remaining service is insufficiently long, remain liable for short term assignments - this does not apply to the Submarine Service.

b. Individuals will not normally be assigned to sea service for less than 12 months. This period may be reduced to three months for shortage categories and personnel who have submitted 12 months' notice to leave the service.

c. Holdover personnel and those UTS personnel can be assigned to sea going units to fill roles as long as they have the correct safety training.

d. Individuals in the categories below are not to be assigned except on redeployment for war or other emergency:

(1) Whilst on career course for a higher rate.

(2) Whilst on terminal leave.

e. **Re-entries.** Re-entries are to be assigned to Sea Service as if their time outside the Service counted as Shore Service.

f. **Personnel Under 17 Years of Age.** Officers/Rating/ORs under 17 years of age will not be assigned to operational ships or RM units.

g. **Personnel Under 18 Years of Age.** The UK has undertaken to take all feasible measures to ensure that members of its Armed Forces under the age of 18 do not take part in hostilities. The UK, however, understands that Article 1 of the Optional Protocol of the UN Convention of the Rights of the Child would not exclude the deployment of members of the Armed Forces under the age of 18 to take direct part in hostilities where:

(1) There is a genuine military need to deploy their unit or ship to an area in which hostilities are taking place, and

(2) By reason of the nature and urgency of the situation it is not practical to withdraw such persons before deployment, or to do so would undermine the operational effectiveness of their ship or unit, and thereby put at risk the successful completion of the military mission and/or the safety of other personnel.

(3) Further guidance can be found in extant DINs.

5916. Shore Service Immediately Before Leaving the Service

a. Personnel being discharged to pension are to spend their last six months on shore service. For those completing service without qualifying for an immediate pension e.g. as a result of submitting an application for Early Termination or an Optional Exit Point (SM only), the amount of time that individuals will spend on shore service prior to termination, if granted (see JSP 760 Chapter 19 for more details), will be dependent on their length of service from date of entry:

(1) Under 6 years 4 months (but 6 months post-LFS assignment).

(2) 6 years and above 6 months.

b. Due to the exigencies of the Service, personnel leaving the Service prematurely (e.g. Early Termination or Optional Exit Point), particularly those serving in high priority shore positions or on sea service in shortage categories, may be required to complete their assignments (either current or planned future assignments), or part thereof. In such cases, Career Managers will offer an extension to defer the individual's discharge date, in order to allow the appropriate shore service prior to termination and time to complete resettlement activities, in accordance with JSP 534 Para 0399. If the offer of an extension is refused the service person waives their right to have the last 6 months (or 4 months, if they have completed less than 6 years' service) as shore service.

c. Whenever possible, the final period of shore service will be in the First Main Preference area. For those completing a Second Open Engagement or Extended Career, every effort will be made to assign ratings to shore service, in the First Main Preference area, for the final 6 months of 2OE/EC (if up to 5 years in length) or for the final year of 2OE/EC (if over 5 years in length).

d. With regard to personnel who are approaching the end of their Career/ Engagement, Career Managers are to be aware of the potential financial implications of assigning them way from their preference area. Personnel must have an expectation of serving at least 6 months in the establishment or unit to which they are assigned.

SECTION 4

SERVICE IN SUBMARINES

5917. Priority for SM Service

Whilst many SM branches recruit directly, the Submarine Service has a high priority for its workforce and individuals are found on a quota basis from New Entrants and General Service. Volunteers are preferred, however, when insufficient numbers are forthcoming, as is often the case, others are compulsorily assigned in accordance with their terms and conditions of service (see Chapter 51). To track those individuals who have been compulsorily assigned or streamed to the submarine service, and to facilitate downstream application of this policy, a new JPA competence will be added by WFPT to the profile of these individuals to record this status. The following competence will be added: SM|Compulsory Streamed Submarines|Navy.

5918. Ratings return to General Service

On completion of a tour of up to five years' service, any rating compulsorily assigned to submarines is entitled to revert to General Service and cannot then be assigned to submarines again for a further tour unless they volunteer or in an Emergency or under War Conditions. Before individuals volunteer for, or are assigned to, the Submarine Service, Divisional Staff and/or Line Managers are to check that the individual is fully qualified in accordance with Chapter 51. An individual recruited directly to the Submarine Service will not be entitled to revert to General Service but may apply for a branch transfer (see Chapter 51).

5919. Officers return to General Service

Any Officer compulsorily assigned to submarines is entitled to revert to General Service at specific suitable points in their career, dependent on their profession (see Chapter 51). They cannot then be assigned to submarines again for a further tour unless they volunteer or in an Emergency or under War Conditions. Before individuals volunteer for, or are assigned to, the Submarine Service, Divisional Staff and/or Line Managers are to check that the individual is fully qualified in accordance with Chapter 51. An individual recruited directly to the Submarine Service will not be entitled to revert to General Service but may apply for a branch transfer (see Chapter 51).

5920. Medical Standards

a. All personnel joining the submarine service are to conduct an Initial Submarine Medical (ISM) (iaw BR 1750A Chapter 9). To that end, Phase 1 and Phase 2 training establishments are to direct personnel to their medical centre on the following occasions:

(1) On joining Initial Naval Training – personnel joining directly into a SM specialisation.

(2) Following selection to a SM specialisation – those streamed during their initial training period.

(3) On approval of a branch transfer request to a SM specialisation - receiving Branch Managers should take the lead on ensuring the correct process is followed prior to commencing SM training.

b. Medical centres are required to report successful completion of ISMs using the existing form in JSP 9502. The form is designed to report suitability for attending a specific course which in this instance can be assumed to be any SM related training. The form can be returned electronically to divisional staff.

c. Career managers are responsible, on receipt of notification of successful ISM, for recording via the award of a JPA competency – SM|Initial Submarine Medical|Navy| (code 3074214).

d. Personnel who do not meet the standards of the ISM will be processed using existing medical codes (Temporary/Permanent Medically Unfit for Submarines) and the associated career manager actions.

e. Interrogation of JPA and/or DMICP is part of the joining routine for all units with a SM seagoing liability. Any personnel joining having not completed an ISM are to be directed to their medical centre at the earliest opportunity, and this is to be reported via SUBFLOT (Cdr (SEA)) to capture any residual risk and prevent future recurrence.

SECTION 5

SERVICE IN SMALL SHIPS

5921. Small Ships Definition

The term 'small ships' includes the following types of ship/unit:

a. Mine Countermeasures Vessels - HUNT and SANDOWN (SRMH) Classes.

b. Offshore Patrol Vessels - RIVER Class.

c. Survey Vessels.

d. Patrol Vessels (including P2000).

e. Naval Parties, Units and Miscellaneous Vessels whose Complement is less than 50.

f. MASF.

5922. Suitability

Personnel in all branches of the Royal Navy are deemed to be eligible for consideration for service in small ships unless recommended otherwise by Commanding Officers, Line Managers and/or the Chain-of-Command. Except where there is a legitimate medical reason why an officer or rating should be viewed to be unsuitable for service in a small ship, such a recommendation is to be considered as an adverse comment in career management terms. Where an officer/rating is considered to be unsuitable for service in a small ship, in their current or forecast rank/rate, supporting information should be included in that individual's OJAR/ SJAR. Commanding Officers are to review the status of officers/ratings deemed to be unsuitable for service in small ships not less than annually. Examples of reasons why an individual may be deemed to be unsuitable for service in small ships are shown below, although the list is not intended to be exclusive:

a. Physically incapable of performing their duties in anything other than benign weather conditions and sea states; in particular is a chronic seasickness sufferer (medical).

b. Judged to be of immature temperament for their age in relation to time in service, peer group and being largely incapable of working unsupervised on anything other than basic routine tasks.

c. Poor disciplinary record.

d. An administrative burden to the extent that they have been placed on warning for their professional and personal shortcomings/circumstances.

e. A significant administrative burden due to previous or extant complex welfare issues requiring specialist casework support.

f. Has spent significant time at sea in a Capital Ship. This is particularly pertinent for JRs where historically many struggle to fit into the small ship environment and ways of working where additional whole ship responsibilities are commonplace.

5923. Assignment Screening

As an underlying principle, CMs are to assume that all personnel are suitable for service in small ships when taking assigning action. However, before taking specific action to assign personnel, CMs are to discuss the proposed assignment with the individual's current Divisional Officer or Line Manager. The aim of this procedure is not to ascertain the individual's preference but to determine whether they are suitable for service on a small ship by clarifying whether any of the factors listed above apply. This process applies to all personnel being assigned from Shore to Sea and from large to small ships and includes those who have previously served in small ships. Decisions and suitability recommendations will be recorded in the CRM notes section of JPA by CMs.

5924. Technical Senior Ratings

The Marine and Weapon Engineer Officers of small ships are generally of the WO2/CPO(ET) and CPO/PO(ET) rates respectively. They are required to perform the duties of a Head of Department and it is therefore essential that they have displayed the qualities of leadership and management that will suit them for this role. In addition to not having any of the characteristics at Para 5922 above, technical Senior Ratings being considered for duties as MEO or WEO of a small ship should:

a. Be confirmed as a WO2/CPO(ET) (for MEO) and CPO/PO(ET) (for WEO).

b. Have completed the Senior Rates' Leadership Course.

c. Be adaptable, flexible and display a general interest in whole ship affairs.

d. Be capable of running the ME/WE Department with only infrequent supervision by shore-based staff, liaising with outside authorities as necessary.

5925. Removal of Unsuitable Ratings Serving in Small Ships (Landing)

The criteria at Para 5922 or the rating's personal preference against service in small ships are not considered conditions for landing in themselves. The guidance at Para 6006 (Removal from Assignment) should be followed in making an application to land a rating deemed unsuitable for service in small ships.

SECTION 6

LENGTH OF ASSIGNMENT

5926. Variations in Length of Assignment

The normal length of assignment for Career Management planning purposes are detailed at Annex 59G. Assignments for Senior Officers tend to be longer and will be discussed on a case-by-case basis. For sea assignments there is considerable variation depending on rate, rank and branch. In general, sea assignments will be made as long as possible, to make effective use of personnel by reducing the number of turnovers required and to give all personnel the maximum opportunity for serving at sea.

5927. Royal Marines

For RMORs, NCOs and RM WOs assignment lengths are ideally iaw Annex 59G, however assigning at an individual's Future Availability Date, (FAD, see Para 5937) is not automatic and will require an assigning trigger. These include:

a. Service requirement for the individual to serve elsewhere.

b. Service requirement for an individual to undergo specialist training.

c. The individual requesting to serve elsewhere.

d. The need for WOs and NCOs to gain the necessary experience.

e. The need to make way for others in a popular assignment.

f. A request by the CO to assign the individual in order to broaden experience.

g. Promotion within the individual's specialisation.

Should none of these triggers be applicable, the individual may request to remain in a unit beyond their FAD.

5928. Service Family Accommodation

For Service Family Accommodation entitlement, CMs should ensure that an assignment will be for at least 6 months and the FAD on the individual’s next assignment should reflect that. See Chapter 25 and JSP464 Tri Service Accommodation Regulations, Chapter 3.

SECTION 7

SENIOR RATE EMPLOYMENT PATTERNS

5929. Factors

Senior Rate employment patterns will be determined by the needs of the Service coupled with those of the individual. It is of fundamental importance that the individual management of Separated Service is recognised as the primary vehicle for the delivery of Harmony on both Sea and Shore Service. The actual time spent in any assignment will vary according to rate, specialisation and current shortages. Any decision to breach Cat A PFS harmony guidelines (see Chapter 22) must be made by the relevant CM and authorised by Head of Career Management (Hd CM).

5930. Sea Service

a. Sea Service may be extended as follows:

(1) 36-39 months Sea Service:
SO2 Ratings' Career Managers.

(2) Over 39 months Sea Service:
Hd CM.

b. Extensions to 39 months will be applied only in order to preserve Operational Capability (OC) or where an individual requests to do so. Capability gapping will be deployed where necessary to ensure that back-to-back sea assignments (60 to 72 months) are only implemented exceptionally and where an overriding requirement dictates. Authorisation of back-to-back sea assignments rests personally with Hd CM; such assignments will attract 24 months on Shore Service in the individual's First Preference area, provided that preference does not change within 12 months of FAD (PFS Category A iaw Chapter 22).

c. Requests by the individual for extensions to sea going assignments over normal maximum length and requests to return to the same ship must be supported explicitly by the unit's line-management.

d. The management of extended and back-to-back sea assignments will include consideration of those individuals who, exceptionally, undertake a length of Sea Service between 36 and 60 months, and thereby do not fit exactly into the template that dictates 18 or 24 months on Shore Service. Each case will be dealt with on its merits and no discrimination will be made between volunteers and non-volunteers.

e. Assignments of less than 36 months' Sea Service will be the norm for specialisations with a relatively small number of Sea positions, in order to ensure that sea experience in gained by all personnel in that rate. It follows that such categories are likely to receive more than the minimum of 18 months subsequent Shore Service, although 18 months will be their SAVDATE (see Para 5940).

f. Assignments of less than 36 months' Sea Service are also dictated by the role of the unit or the rigours of a particular type of employment. Following a period of non-standard Sea Service, individuals will be assigned to Shore Service for a period approximately proportional to the standard 36 months Sea/18-month Shore Service ratio (as a minimum).

SECTION 8

JUNIOR RATE/RANK EMPLOYMENT PATTERNS

5931. Factors

A rating's service generally alternates between sea service and shore service with the assignment roster placing them in order of Sea Availability Date (see Para 5940).

5932. Squadded Categories

Junior Rates serving in Squads will normally have their FAD set at 48 months. This is to be considered as a review point which will be extended by a further nominal 48 months. Ratings may leave the Squad on promotion, on attendance at a Qualifying Course for a higher rate or on assignment to a non-Squad position. Those serving in a Squad in a non-preference area will be reviewed regularly by CMs in consultation with MWOs; Junior Rates should not normally serve more than 24 months in a non-preference Squad. Any rating assigned to a different Squad will retain their original FAD.

5933. Squadded Categories Outside Squads

There will always be a requirement for squadded categories to serve in non-squadded ships, Op Tours and in other shore Positions. Volunteers are always preferred, but where there are insufficient numbers, ratings will be selected by CMs, depending on the length of the non-squad assignment. Where possible, ratings will be returned to the squad from whence they came.

5934. Non-Squadded Categories

For Junior Rates who are liable for Sea Service, the employment pattern will vary according to rate, specialisation and current shortages. Harmony will be managed iaw PFS harmony guidelines (see Chapter 22); any decision to breach the Category A PFS harmony rules will be made by the relevant CMs and authorised by Hd CM.

5935. RM Selection for Sea Service

The requirement to provide RMORs for sea service is currently limited to the Antarctic patrol vessel and RM Assault Squadrons. Workforce liability for all sea service remains the responsibility of the DDPD (RM) team who will select the appropriate personnel in accordance with current workforce priorities. Volunteers are to be used where possible and applications for sea service are to be submitted using JPA. If no volunteers are available, the individual chosen must be carefully vetted and selected in accordance with Section 5 of this Chapter.

SECTION 9

TYPE/STREAM ASSIGNING (RATINGS)

5936. Policy and Practice

a. It is 2SL's policy to maximise the use of a rating's experience by TYPE and STREAM assigning whenever possible, thereby improving operational effectiveness:

(1) **Type Assigning.** Type Assigning is defined as the allocation of a rating to a specific type of ship, submarine or aircraft squadron for a protracted period.

(2) **Stream Assigning.** Stream Assigning is the allocation of a rating to a particular equipment system within a sub-branch.

b. Most ratings in the Warfare Branch are placed in equipment streams in the final stages of their basic training to meet the expected long-term requirements of a sub-branch, and whenever possible, personal preference. Ratings may be required to cross-stream to meet the changing needs of the Service (introduction of new systems, for example) and a rating may volunteer to change streams, but such requests are not normally approved unless the cross-training meets the requirements of the service.

c. It has to be accepted that Type/Stream assigning cannot be rigidly imposed. Requirements and preferences change and there is a need to protect the careers of ratings streamed into ageing equipment. Nevertheless, the advantages of maintaining ratings in types/streams are considerable in terms of reduced training bills, increased stability and, most importantly, in improving overall Professional standards, particularly ship/submarine and equipment knowledge. All ratings have an important part to play in fighting the ship/submarine, and in recognition of this, type assigning is applied wherever possible to all categories in the Royal Navy.

SECTION 10

AVAILABILITY DATES

5937. Future Availability Date (FAD) Usage

All Assignment Orders (AOs) should include a FAD. CMs should attempt to honour the FAD in order to allow individuals to plan ahead, however, personnel should note that a FAD is an estimate and there is always a risk that an urgent Service requirement will force the adjustment of a FAD. It should also be noted that the FAD given to an individual on commencing their assignment assumes a satisfactory performance on the part of the individual concerned. For officers, non-Squadded ratings on Sea Service and all personnel on LFS, the FAD will generate the requirement for a relief.

5938. FAD and Assignment Orders

a. Arrangements for an individual's next assignment can only be made once an AO for that next assignment has been received; on no account should the individual or the admin staff of their current unit decide for travel, allowances, leave or SFA entitlement at a planned new position based on the FAD of their current assignment. It is the AO that provides the authority for such items and not the FAD.

b. FADs for all personnel assigned to sea service will be calculated by taking the date a person commences that type of service and adding the length of sea service in accordance with Annex 59G. The FAD will not necessarily indicate the date when the commitment for sea service is completed, i.e.. it is less than 36 months for ratings, and an AO may be issued to move the person to another unit to complete sea service. Ratings may volunteer to continue on sea service beyond 36 calendar months.

c. For Squadded rates, the FAD should be considered as a 'Review' rather than a 'Relief' date.

5939. Availability Date (AVDATE) for Assignment (Ratings)

a. AVDATES are only to be rendered by non-Squadded personnel on the following occasions:

(1) For a rating serving on sea service or LFS, on receipt of an Assignment Order nominating a relief.

(2) When a 'Name To be Reported' Assignment Order or other information is received, that a rating serving on Sea Service or LFS is to be drafted without a relief.

(3) When a complement position lapses, and the position is filled.

b. The AVDATE is to be calculated as the date when the rating is next available for assigning to a new position having had all leave due. This is the date used by the CM for the 'To Join Date' (TJD) for the next assignment including any approved re-engaging leave (for those with entitlement), but it will not normally include any 'traditional' annual leave e.g. Summer leave. It is the date that will be used by DDPD CMs for the 'To Join Date' (TJD) of the rating's next assignment where they will take any 'traditional' annual leave.

c. The AVDATE to be reported by signal (RNCP 9 Ch 5) or by email such that they are received by the CM at least four months before the rating is due to leave their present assignment. Failure to render the AVDATE by four months at the latest will engender unnecessary signals/email traffic as the CM seeks to establish a rating's AVDATE and in any event will prejudice any chance of the rating being given their full three months' notice for next assignment.

d. The total amount of Leave (both Annual Leave and Sea Leave) between assignments should be kept to an absolute minimum and should not exceed a total of 21 days. If the reported AVDATE is likely to exceed 21 days, Commanding Officers are to request approval for an AVDATE in excess of 21 days by signal to the appropriate SO1 CM stating the reasons for the accrual of excessive leave. If approved, the CM will take assignment action based on the amended AVDATE.

5940. Sea Availability Date (SAVDATE) (Ratings)

a. All non-Squadded categories will be deemed available for Sea Service on completion of PFS Category A or B Shore Service (see Chapter 22). This point is defined as the Sea Availability Date (SAVDATE).

b. An individual's FAD on Shore Service may be later than the SAVDATE, nevertheless, they may be assigned to Sea Service earlier than the FAD if the needs of the Service dictate.

c. The SAVDATE determines a rating's position on the appropriate sea roster (see Para 5941), which is presented by JPA in SAVDATE order, showing at the top of the roster the individual who has the earliest SAVDATE.

d. Non-Squadded rates will, in general, complete 36 months' Sea Service and be entitled to 18 months' Shore Service (14 months for Junior Rates) on completion. Any variation is to be assessed pro-rata i.e.. 24/12, 18/9 etc. and the individual's SAVDATE adjusted manually on JPA.

5941. Sea Roster (Ratings)

a. New entries are available for their first sea assignment (FSA) from the date of completion of Phase 2 training. For Submarine ratings, this will be when they have successfully completed the Submarine Qualification (SMQ) Dry. Ratings in Squadded categories will be assigned direct to Sea Service; others may be assigned to a period of Shore Service for consolidation before FSA.

b. Ratings on Shore Service/Local Foreign Service are placed on sea rosters in order of SAVDATE. Sea positions must be filled by appropriately qualified ratings who will normally be chosen from those highest in the roster. Because some ratings are trained in only one system or equipment type, however, (Type 'Streaming', see Section 9 to this Chapter) it follows that the first rating due to sea may not be qualified for the position requiring to be filled. Personal qualities and professional standards are considered only when special selection procedures are authorised (e.g. Retinues).

c. Moving down the roster to match the right individual to the right job in this way is known as 'dipping down' the roster and can be invoked for a number of reasons. It is important that DDPD maintains its reputation for fairness and therefore CMs are to be able to justify any dipping down decision if called upon to do so. The following guidelines are issued to assist CMs.

d. **Dipping Down to SAVDATE.** Dip down to the first suitable rating in order to:

(1) Match an individual's training/skills to the sea position, particularly when this will negate the need for extensive PJT courses or retraining the rating for a different ship or equipment type. This is known as 'Type/Stream Assigning'.

(2) Meet the requirement to fill a female bunk with a woman, and vice versa.

(3) Meet an individual's preference.

(4) Exercise an element of selection for the position, i.e.. to assist the career progression of a rating.

e. **Dipping Down Below SAVDATE.** Assigning an individual to sea service before they have achieved their entitlement to shore service is not permitted except when:

(1) The rating is an EOOT volunteer for sea service.

(2) The relevant SO1 CM has given express permission to meet a workforce priority or Operational requirement.

SECTION 11

NOTICE FOR ASSIGNMENT

5942. Officers

a. CMs normally aim to issue an AO six months before the position is to be taken up. This is not always possible, however, and some assignments may be announced before or after this. The normal minimum notice is at least 3 months' notice for a home base assignment and a minimum of 5 months' notice for non-home base or LFS assignments in accordance with PFS (see Annex 22A).

b. If it is necessary to change an assignment after an officer has been nominated for a particular job, the change will, where possible, comply with these requirements for notice. Exceptions to these normal guidelines may be necessary following initial training, qualifying courses, annual promotion selections, or when shorter notice is in the interest of the officer. In all cases it should be remembered that one short notice assignment almost always generates another.

c. When for sickness or some other reason personnel are unable to carry out the duties of their position, a relief is provided only if the expected duration of the absence exceeds three months, unless the position is considered a key position, when the rules for short notice may apply (see Para 5945).

5943. Ratings

a. The policy is to provide as much notice of assignments as practical and at least 3 months' notice for a home base assignment and a minimum of 5 months' notice for non-home base or LFS assignments as required to meet the PFS standards (see Annex 22A). There will be occasions when, for exceptional operational or resource reasons, normal assignment notice cannot be achieved. In such circumstances, assignment will take place at shorter than normal notice. This will usually only occur for assignments into operational crisis positions, which are generally for a maximum of 6 months' duration. Any resulting breach of Cat A PFS is to be authorised by Hd CM (or delegated authority), reported up the chain of command and will be reflected in the Performance Reports to the Navy Board.

b. The 3 months' notice requirement is waived for assignments to PJTs or other short courses when the course schedule precludes three months' notice and when medically downgraded ratings are assigned ashore they may be required to act as temporary reliefs at short notice to relieve ratings assigned from the ERP (see Para 5947).

c. **Volunteers.** Ratings may volunteer to move at less than normal notice in order to obtain a preference assignment.

d. **Notice on Completion of Career Training.** Ratings completing basic career training ashore are liable to be detailed for shore assignments and first sea assignments at less than normal assigning notice. Submarine ratings who volunteer to complete Nuclear Propulsion Operators Course (NPOC) and the Nuclear Propulsion Supervisors Course (NPSupC) will be assigned back to sea on successful completion of the course at less than normal assignment notice. Ratings transferring between Branches or Sideways entrants who fail to pass appropriate courses and are returned to Source Branches will also be assigned at less than normal notice.

e. **Notice on Completion of Career Course Training.** Ratings completing career courses are liable to be assigned to sea or shore units at less than normal assigning notice.

5944. General

a. Individuals who have left their previous assignments for medical, welfare or discipline reasons and have been assigned to an appropriate MA6 or MA7 position will be re-assigned as soon as their condition permits. The assignment will normally be at less than the assignment notice and therefore not considered a breach of CAT A PFS. Those that left a unit in ‘Sea Service’ may have to wait for another suitable ‘Sea Service’ unit to become available and as a result may be assigned at immediate notice and not be subject to the normal notice for assignment instructions above.

b. Assignment notice for personnel with the assignment restriction for Children with Special Educational Needs should be as great as possible.

5945. Short Notice Assignments

a. The aim is to give an individual notice of an assignment in accordance with the above paras. Personnel should be aware, however, of the regular demand for short-notice assignments generated, for example, by operational augmentation, illness, promotion, welfare or discipline matters which may significantly reduce the normal assigning notice.

b. CMs are constrained by assignment and harmony rules. In general, it will not be possible to assign a permanent relief at less than 5 months’ notice; CMs therefore treat all requests for short notice assignments as a temporary requirement in the first instance.

c. A relief will not routinely be found for personnel who are medically downgraded for less than 3 months.

d. When an event occurs which creates an operationally unacceptable gap the following actions are to be considered in turn:

(1) **Managing Without a Relief.** The importance of managing without a relief is emphasised and places an onus on units to make the most effective use of on-board assets to provide alternative cover, particularly in key Positions. For example, using local acting advancement where applicable, greater emphasis on the employment of personnel onboard who hold relevant competencies and arranging 'ad hoc' training, such that these personnel can undertake all/some of the tasks. CMs can advise and assist in the identification of personnel who may be suitably qualified by competency

(2) **PERREQ.** PERREQ signals should be used during both Fleet Time and Non-Fleet Time when a unit has advanced warning of a forthcoming gap or personnel deficiency, or for highlighting gaps in Squad billets. For example, if the PO(Police) needs to be released in 2 months' time to attend the FDO course, a PERREQ should be raised so that a temporary relief can be investigated to cover this period. Similarly, the gapping of 1 or 2 ABs in a Squad does not impact directly on Unit OC and therefore does not warrant OPDEF status but can be highlighted by use of the PERREQ signal.

(3) **Personnel OPDEF.** When a personnel deficiency is imminent (or has already occurred) and will have an impact on the unit's OC during Fleet Time or impact on Upkeep key dates (SSMOB, RFSD and FD) during Non-Fleet Time, an OPDEF is to be raised. The cause could be gapping (hard and/or soft) or a lack of an ADQUAL/TEM that is affecting a unit's ability to deliver OC. OPDEFs are to be categorised ME, WE, AR, and OP and numbered in accordance with the normal OPDEF protocol.

Note. *Whilst a PERREQ may in time become an OPDEF (when the gap actually occurs), the simultaneous raising of a PERREQ with an associated OPDEF is nugatory and no longer required.*

e. The relevant CMC/CM is responsible for taking the initial actions in attempting to resolve all personnel PERREQs/OPDEFs. DDPD Pers Ops, in conjunction with Commitments and the appropriate FCIG, will set the overall priorities and where required provide direction on the solution

5946. Guidance for CMs on Provision of Short Notice Reliefs

If a position is identified as requiring a short notice relief, CMs are to take the following into account:

a. The length of 'gap' that is acceptable, e.g. is there someone already in the ship/unit capable of filling the position for a limited period?

b. The requirement for maximum advance warning for the person selected as relief.

c. The requirements for the relief to be given as much of the appropriate leave entitlement as circumstances allow.

d. The desirability to select personnel for short-notice sea-going or overseas unaccompanied assignments from those who will shortly be due for such an assignment in the normal course.

e. Any short notice assignment having significant operational implications should be referred to Hd CM in order for the matter to be referred to DDPD if necessary.

5947. Emergency Relief Pool (ERP)

a. The ERP was previously used across the Fleet to provide short notice reliefs for ratings on surface ships and submarines when required. This is no longer widely used across all cadres and is utilised solely for Medical ratings.

b. The Medical ERP will be achieved using two different approaches in tandem:

(1) In accordance with the previous ERP process, Ratings who complete a sea assignment of less than 36 months will be allocated to the ERP on completion of Leave After Sea Service (LASS). There is currently no method of assigning a rating to the ERP on JPA, therefore, they will continue to be notified by letter detailing the start and end dates of the ERP liability and the maximum length of ERP sea service.

(2) Shoreside locations, primarily within the Joint Hospital Groups (JHGs), will identify positions nominated to an ERP. These will be directed on an Assignment Order. Parent Units will manage the individuals ensuring they complete the required mandatory training to provide SQEP MBRs/SMBRs to fill short-term gapping. Personnel assigned to the ERP will be held at R2 (5 days') notice to move once fully SQEP.

c. Personnel nominated as ERP will be held at readiness for a period of 6 months. If activated, they will provide cover until a full-time relief is nominated or provide a permanent fill should the situation dictate.

d. MBR ERP positions will be established to support SURFLOT, SUBFLOT and UKCF. These positions will be nominated by the Career Manager and any associated training required to support each specialty will be iaw the Assignment Order. Further details on the Medical ERP can be found in BRd 1991.

e. The equivalent for the Fleet Air Arm was an Emergency Flight Pool (EFP) - which was an assignment in its own right and not covered by ERP regulations. Emergency Flight Pool positions were held under the Wildcat Maritime Force HQ – these have now been subsumed into the 815 NAS structure (though retain the EFP name in some position titles) and are still in use to back fill some shortages within 815 NAS.

5948. PE-OPDEF, NOWD and PERREQ Procedures

a. Personnel Operational Deficiencies (PE-OPDEFs), Non-Operational Workforce Deficiencies (NOWDs) and Personnel Requests (PERREQs) are to be used by all Units to report current and future Royal Navy[1] workforce (WF) shortfalls that affect Operational Capability (OC) in order that the operational implications can be properly assessed, and recovery intentions formulated[2]. In simple terms, PE-OPDEFs are submitted by units in the operational cycle[3], NOWDs are submitted by supporting units and PERREQs can be submitted by all units. The People Operations Capability (P-Ops CAP) team in Deputy Director People's Delivery's Division has the lead for initial recovery action and uses the information detailed in the PE-OPDEF or PERREQ to engage with the Operational Commander and relevant Force Generation Authority (FGA)/Class Group Authority (CGA), to monitor, manage and, where necessary, move WF to meet emergent demands. 2* Workforce Management Groups (WFMG) lead the recovery action for NOWDs; however, solutions must be identified from resource within their own 2* area. In addition, the detail in conjunction with the wider Workforce, Equipment, Training and Sustainability (WETS) reporting is used by the Operational Commander to inform broader decision-making.

b. It should be noted that P-Ops CAP/WFMGs are only authorised to direct personnel moves in response to an extant PE-OPDEF, NOWD or PERREQ. Usually a P-Ops CAP/WFMG directed move is temporary (routinely up to 30 days but not generally more than 90 days) i.e. the nominated individual(s) will return to their original assignment at the end of the agreed period. **Some exceptions remain where an individual may be required for longer than 90 days in support of ongoing operations e.g. CASD**. Where a permanent move is more appropriate this will be agreed and actioned by the Career Manager (CM).

c. **Principles applying to PE-OPDEFs, NOWDs and PERREQs.**

(1) PE-OPDEFs, NOWDs and PERREQs can be raised at any stage of a Unit's lifecycle (build, Fleet Time and Upkeep) but only against positions that drive liability in accordance with the extant Unit Personnel List (UPL)[4]. Gapped 'Non-Liability' positions are **not** to be reported by PE-OPDEF, NOWD or PERREQ[5].

(2) PE-OPDEFs and NOWDs are raised for gaps that are current or imminent (within seven days). PERREQs should be used where a gap is forecast to occur beyond seven days.

(3) Additional WF requirements above the UPL should be raised as an Augmentation Request (Annex 59D).

---

[1] This includes Royal Marines and Royal Fleet Auxiliary.
[2] In the same manner that Equipment Capability is managed iaw BRd 3001, Art 0301.
[3] Units that arrive at Fleet Non-Operational Date will have all PE-OPDEFs and PERREQs cancelled by P-Ops. Units are then able to raise NOWDs for any WF issues.
[4] When a Unit transitions into and out of Upkeep, it will usually change Naval Establishment Status (iaw Annex 2B) which will entail positions on the UPL being switched on and off (reflected in JPA). Only 'live' positions can be subject to PE-OPDEF, NOWD and PERREQ action.
[5] If a position is FTRS fill only then it is a non-liability position and no OPDEF, NOWD or PERREQ can raised.

(4) PE OPDEFs, PERREQs, NOWDs, subsequent Situation Reports (SITREPs) and Rectifications / Cancellations are to be submitted by unit HR leads (Executive Warrant Officer (EWO), Base Warrant Officer (BWO) and Coxswains (Coxn)) with input from the relevant Department Coordinator (DepCo) **directly into SCIO**. Once submitted, SCIO will send an email alert to the relevant authorities and initiate the P-Ops Team's response[6]. **BWOs/EWOs/Cox'ns are the responsible persons for all WF coordination and therefore, as the custodian of the central register for their Unit(s), they are to provide the quality assurance on all PE-OPDEFs, NOWDs and PERREQs.**

(5) **A single missing person[7] should result in a single PE-OPDEF or NOWD.** Care should be taken when moving WF internally between positions, or when JPA Line numbers change, that only one PE-OPDEF or NOWD remains extant.

[6] All units are to ensure their JPA hierarchy is correct
[7] Resulting in the loss of capability or essential SQEP.

(6) **Fall back Option.** The primary method of reporting workforce shortfalls is now by direct input into SCIO. During times of limited connectivity or for units with low bandwidth that prevents them using SCIO to upload their PE-OPDEF, PERREQ or NOWD a fall-back option is available which allows units to complete an off-line PDF request and send it to the P-Ops CAP multiuser email account[8]; the PDF document should not be sent to P-Ops CAP individual role accounts. To allow the new SCIO App to take the majority of the workload the fall-back option should not be taken by units who have a working SCIO connectivity. Further detail can be found at Annex 59J.

(7) **Search Process.** If a Temporary Relief (TR) is deemed appropriate, P-Ops can utilise the SCIO search capability to identify potential TRs that match the required parameters detailed in the PE OPDEF / PERREQ / NOWD. **As the search process is automatic if the requirement changes then a SITREP must be submitted detailing the changes before any new search can take place, this also restarts the seven-day time period**. After liaising with the relevant Career Manager (CM)/CGA, the candidates deemed suitable for trawling are 'ticked' resulting in immediate update of the Trawl Log and sending of the Digital-Personnel Support Request (D-PSR).

(8) **D-PSR.** The D-PSR is completed within SCIO in a similar way to the process of an SJAR. The Line Manager (LM) and the Unit EWO/BWO/Coxn of the individual being trawled will receive an email alert directing completion of the D-PSR (the LM, if incorrect on SCIO, can be altered by P-Ops Cap via email from EWO/BWO/Coxn to the P-Ops multiuser account'). If the D-PSR is not returned by the required due date, it will automatically be submitted at that due date in whatever state it is in unless an extension has been requested and approved by the trawling authority. The information required has not changed, just the method of completion and submission. This method enables secure storage of completed D-PSRs, and ensures adherence to General Data Protection Regulation (GDPR) requirements; full details at Annex 59K.

(9) **Nomination Process.** Once the D-PSRs have been reviewed and a decision made the individual, their CoC and CM will be notified via SCIO (and by automatic email) and the Trawl Log will be updated.

(10) **Cumulative Impact of Gapping.** The cumulative impact of gaps may exceed their individual impact as described in the PE-OPDEFs[9] or NOWDs and amount to a wider degradation or loss of capability. This should be raised as a capability OP-OPDEF[10] and not as a PE-OPDEF.

(11) **Out of Hours/Leave Periods.** During periods of main leave the NAVYPEOPLE-OPSCAPMAILBOX@mod.gov.uk mailbox is monitored' by P-Ops CAP Duty personnel, enabling normal working day coverage. However, it should be noted that unlike stores on a shelf, trawling for a relief out of working hours is unrealistic and difficult during main leave periods when the

[8] NAVYPEOPLE-OPSCAPMAILBOX@mod.gov.uk
[9] For example, multiple Leading Hand gaps across the Unit may have a small impact within their own departments but may have a large impact on whole ship duties (e.g. an unsustainable SCC LH duty roster).
[10] Using the format detailed in BRd 3001 Chapter 3.

donor Units and individuals are not necessarily on call. **NB** cover is not provided on BHs. The P-Ops Cap duty person is available via 07971 609992.

d. **PE-OPDEFs.**

(1) PE-OPDEFs should be used to report when an operational unit's WF falls below the UPL requirement. Generally, if a position is currently not filled and this has a measurable impact on OC[11], or is expected to be gapped within seven days, then a PE-OPDEF should be raised. The PE-OPDEF should contain details of factors affecting the Unit's tasking, the expected duration of the WF shortfall and other PE-OPDEFs/PERREQs which now present a cumulative impact, and the impact should also be assessed with a view to any contingent tasking. **Care must be taken to ensure that any reference to programme or activity does not compromise the OPSEC of the Unit concerned.**

(2) Any **gapped liability position** that has a **measurable impact on OC** can be reported by PE-OPDEF. If a Unit considers itself capable of sustaining such a gap, irrespective of Category, due to its current tasking or an alternative suitably qualified and experienced person (SQEP) is onboard the Unit should make this clear in the PE-OPDEF remarks section noting that if circumstances change it may be appropriate to raise a PE-OPDEF SITREP stating that the Unit can no longer sustain, and immediate remedial action is now required[12].

(3) Where a position in the Unit is filled but the incumbent has a Training Employment Module (TEM) or experience (the Q or E in SQEP) shortfall which has been accepted at risk by Command and/or relevant FGA[13] this should be reported via Fleet Operational Capability and Sustainability (FOCAS) and not by PE-OPDEF[14]. Units that do not use FOCAS (e.g. SMs) should ensure that their FGA is fully aware of any SQEP shortfalls that exist. Where SQEP shortfalls are not accepted by Delivery Duty Holder (DDH) for permanent reliefs and have a measurable impact on OC **OP-OPDEFs**[15] may be raised. The responsibility to drive a solution for a training shortfall rests with the Unit in consultation with CMs and CGA as required.

(4) Categorisation of PE-OPDEFs is to be carefully considered and should be supported by the operational effect and schedule timelines. The category and repair indicator should be reconsidered whenever the situation changes and, in particular, if a relief or other work-around is provided. Artificial inflation of category and/or repair indicator devalues other OPDEFs from the Unit and does not increase the likelihood of a relief being provided.

[11] i.e., the Unit can write a meaningful statement in the PE-OPDEF/NOWD box titled 'Operational Capability Statement/Effect' (previously 'Line 5 – Effect on OC').
[12] To mitigate this risk, WF-may be held at appropriate readiness in the UK to meet such contingent tasking rather than being trawled to join the platform within a limited timeframe.
[13] Concessed iaw appropriate Safety and Environment Management Plan (SEMP).
[14] This does not include non-SMQ qualified personnel or non-SQEP nuclear engineers in SMs (MESM or WESM(SWS)) where regulations require qualification prior to conducting duties.
[15] Signal format iaw BRd 3001, Ch 3.

(5) Detailed instructions for PE-OPDEF reporting are at Annex 59L.

(6) In instances where a gap is resolved by using the Local Acting Higher Rate (LAHR) from within the same Unit[16] then the original PE-OPDEF should be SITREP-ed and downgraded with the remarks highlighting what solution has been provided to resolve the gap. A PERREQ may then be raised for the gapped position vacated by the officer/rating given the LAHR, the original PE-OPDEF should remain extant until the position is filled by substantive WF. **No PE-OPDEF is to be raised for the gap created by the use of LAHR if there is also an OPDEF for the position in the higher rank. This avoids false reporting of gaps.**

(7) Coastal Forces Squadron (CFS) units cannot sail unless fully crewed. The most timely and effective solution is likely to be the movement of personnel between Units within CFS to meet operational commitments. (**NB** In this situation rules on local loan and Personal Turbulence are to be followed) To avoid raising a PE-OPDEF each time personnel are moved within CFS, all PE-OPDEFs are to be reported as CFS followed by the Unit name in brackets. e.g. CFS (PUNC). CFS HQ will risk assess which Unit will be the donor. Any CFS donor Unit is **not** to raise a PE-OPDEF if loaning to another CFS Unit. A SITREP is to be sent each time the gap is filled from a different donor Unit, noting in 'Remarks' which Unit is providing the TR and for how long. The original PE-OPDEF will remain extant until a new PR arrives or the CI becomes MFD.

e. **NOWDs.**

(1) A NOWD should be used by non-operational units to report when the WF falls below the UPL requirement. The principles for reporting via a NOWD are the same as for a PE-OPDEF. The solution will be investigated by the 2* WFMG rather than P-Ops Cap.

(2) In situations where the missing SQEP reported via a NOWD is not held within the 2* area and the resultant consequence has a direct impact on front line operations (e.g. an instructor is not available to instruct a course to qualify personnel in a recognised shortage skillset that will result in a high category OPDEF in an operational unit) then the NOWD should be cancelled and the gap reported as an OPDEF so that P-Ops can take action to identify potential solutions outside the 2* area. Prior to raising the OPDEF, the WFMG is to liaise with P-Ops to ensure that there will be an agreed and defined impact on the front line, and the relevant CM for a potential solution and confirmation that the required SQEP is not held elsewhere within the 2* domain. If the 2* WFMG has identified the SQEP within their area, they must decide between sustaining the NOWD or moving the SQEP individual. If sustaining, a decision has been made on the relative importance and therefore the switching from NOWD to OPDEF is not an option.

(3) Detailed instructions for NOWD reporting are at Annex 59L.

[16] IAW Para 6914, 6915 and 6916.

f. **PERREQs.**

(1) A PERREQ is used to request cover for key WF who are scheduled to be away from a Unit for a short period; it is expected that these gaps can be forecast as they relate to planned events (e.g. Training Employment Module (TEM), Short Course Learning, Ordinary Paternity Leave (OPL)). It can also be used to draw attention to future assignment issues[17] (e.g. gaps in succession planning; personnel selected for promotion or for Upper Yardman (UY)/Senior Upper Yardman (SUY)). If the Unit can sustain the gap, then this should be made clear in the text and investigations will be limited to volunteer solutions. If the PERREQ will become a PE-OPDEF then this, along with the date it is expected to happen, should be in the remarks section of the PERREQ.

(2) If a PERREQ cannot be resolved and starts to impact OC (a predicted gap becomes a current gap), it may be escalated to a PE-OPDEF/NOWD. In such a situation, the PERREQ should be cancelled prior to any PE-OPDEF/NOWD being raised and comments reflecting that the PERREQ is superseded by a PE-OPDEF/NOWD should be included in both the cancellation on SCIO, or submitted PDF for Units without SCIO connectivity, and the new PE-OPDEF/NOWD remarks sections. This process can take place up to seven working days prior to CI departing.

(3) **LAC / Low Level Height Keeper Target Control (LLHKTC).** FF / DD with no LAC embarked (e.g., emerging from refit) should request an LAC 6 weeks prior via the SURFLOT CPOAC WFM by completing the proforma[18] and submit to NAVY-SURFLOT AC WORK MANAGER. Any LAC training shortfall or gapping forecast in FF / DD should be addressed to the SURFLOT / Class Cell HQ CPOAC WF Manager and a suitable replacement will be sought from the AC Operational Readiness Pool (ORP). QEC, LPD and 1700NAS AC JPANs remain unchanged and managed by CM[19].

(4) The detailed instructions for PERREQ reporting are at Annex 59L.

g. **Direction for Specific Circumstances.**

(1) **Permitted Absence.** Individuals released by Command to Individual Leave Allowance (ILA), Graduated Resettlement Training (GRT), Adventurous Training (AT) or Personal Development (PDev) should not normally be reported via PE-OPDEF/NOWD as the Unit has decided that the absence of the individual is acceptable within their operational setting. If relief cover is required, this should be reported by PERREQ, complete with explanatory comments as to why the current incumbent has been released; this would normally be filled by a volunteer only. If the OPDEF is of such a serious nature to warrant a high category PE-OPDEF then the solution will likely be the recall of the individual from their permitted absence.

[17] A PERREQ should not be raised until it is clear that the CM is not able to provide a relief within movement rules timelines. Normally this would mean that no Assignment Order has been received at a point 3 months before the incumbent is due to leave.
[18] Within RNTM 01-067-23.
[19] Any QEC / LPD / 1700NAS AC training shortfall, reported via FOCAS, should be investigated via FOST S. If FOST S are unable to provide a training solution, then CM or People Ops should be approached via email / telecon.

(2) **Compassionate Leave.** Whilst Commanding Officers (CO) are authorised to grant compassionate leave[20] in complex cases where specialist welfare input is required the advice and guidance of Royal Navy Family and People Support (RN FPS) should be sought initially from the RN FPS Portal. If required RN FPS will investigate and provide a recommendation[21]. In cases where the CO grants compassionate leave a PERREQ can be submitted but Units should note that in such instances the position will normally only be filled where there is a volunteer. If following liaison with the Joint Casualty and Compassionate Centre (JCCC) compassionate travel is categorised as Cat A or Cat B[22] then a PE-OPDEF/NOWD may be suitable, depending on the anticipated length of absence and whether the Unit can sustain the gap. In either case close liaison with the appropriate P-Ops CAP Forward team/WFMG is essential to enable contingency planning. RN FPS and JCCC recommendations should be referenced in the PERREQ/PE OPDEF/NOWD.

(3) **Ordinary Paternity Leave (OPL)[23]. A PERREQ is to be raised as soon as OPL is requested.** If a volunteer cannot be found the request is unlikely to be filled as it would break a non-volunteer's Cat A statutory entitlement. If a suitable volunteer is not available and the Unit is instructed to sustain it may be appropriate to raise a PE-OPDEF/NOWD once the individual has commenced their OPL to reflect the impact on OC. However, if the absence creates an unsustainable high category PE-OPDEF/NOWD then it is probably not appropriate to allow the OPL at that time; in this situation the individual on OPL should be recalled as the solution to the PE-OPDEF/NOWD (iaw JSP 760 Art 26.9).

(4) **RN WF in Royal Fleet Auxiliary (RFA) Units.** Where RFAs identify WF deficiencies with embarked RN WF from 1700 NAS, 1700 NAS will review its own WF and provide support if possible. If unable to support 1700 NAS will submit a PE-OPDEF/PERREQ via SCIO for action. Thereafter, RCM Culdrose will lead and co-ordinate action on resolution in conjunction with the appropriate CM where necessary. Any loss of WF that cannot be satisfied by 1700 NAS needs to be measured in capability lost with a subsequent OP OPDEF submitted by the relevant RFA platform for attention of AFSUP.

h. **Crew Changes.**

(1) **Rotational Crews.** In rotational crews (e.g. MCMV, SSBN and forward-deployed FF/DD) PE-OPDEFs/PERREQs are de-latched from the 'hull' and recorded by 'crew' (e.g. MCM1 Crew 1 vice BNGR or VANG(PORT) vice VANG). This removes the requirement for cancellation and resubmission of PE-OPDEFs/PERREQs on crew Replacement in Place (RiPs) and rotations.

[20] JSP 760 Chapter 22 details the criteria for compassionate leave.
[21] Chapter 24.
[22] JSP 751 Vol 1 Pt 1 Vol 1 Ch 2 Annex B details the Categories for Compassionate Leave.
[23] JSP 760 Chapter 26.

(2) **Regular Actions for Rotational Crews RiPs.** The following actions are to be undertaken by the relevant EWO/Coxn on RiPing in and out of their Unit:

(a) Other than for MCMV crews RiPing directly from one Unit to another, immediately prior to RiP out, the EWO/Coxn are to SITREP all PE-OPDEFs/PERREQs downgrading at least one repair category (i.e.. B2 to C2, C2 to C3 etc) in order to reflect the period of regeneration outside the theatre of operations.

(b) Six weeks prior to return to theatre PE-OPDEFs/PERREQs are to be SITREPed and repair categories increased as required by HoDs and CO.

(3) **Three-Watch Crewed Units.** Units that operate a third watch (e.g. OPVs and SVHOs) should ensure that PE-OPDEFs/PERREQs are SITREPed to reflect changes to impact and requirements associated with on and off-watch periods of the gapped JPAN.

i. **Updates.**

(1) **SITREP.** To ensure P-Ops CAP, WFMGs, the Operational Commander and the FGA maintain an accurate picture of the impact of WF gapping/shortfalls PE-OPDEFs/NOWDs/PERREQs should be updated by SITREP when significant changes occur. Further, **all Category A OPDEFs should be updated by SITREP every two weeks to ensure the issue and solution options remain valid whilst all other OPDEFs should be updated every six months (as a minimum) or earlier as required**.

(2) **Rectification/Cancellation.** PE-OPDEFs/NOWDs/PERREQs should be RECTIFIED/CANCELLED as soon as the impact on OC has been resolved or expired i.e. when either a Temporary Relief (TR) or Permanent Relief (PR) has been arrived. If the TR/PR is not fully SQEP for the role the PE-OPDEF should still be rectified and any SQEP issues reported as detailed in para 0. Any ongoing OPDEFs/NOWDs/PERREQs that have not updated for six months will be automatically CANCELLED by the P-Ops team.

j. **Authorisation for Mobilisation of WF as a Temporary Relief (TR)**

(1) A TR may be required as a short-term solution to a PE-OPDEF, NOWD or, by exception, a PERREQ. This requirement is evidence based on the OPDEF/NOWD/PERREQ content.

(2) Once a TR has been provided the receiving Unit must **RECTIFY** the OPDEF/NOWD/PERREQ. The donating Unit may open a new PE-OPDEF/NOWD/PERREQ with a lesser categorisation and repair indicator than the Unit they have donated too. Further details in Annex 59L.

(3) **Inter-Unit local loans/CO to CO loans**[24]**.**

(a) **Supported Workforce Local Loan (SWLL):** SWLL loans (up to and including 14 days) should be regarded as routine business and are not affected by movement rules. These moves will be recorded against the OPDEF/NOWD/PERREQ via SCIO by P-Ops Cap, and personal turbulence is to be recorded on JPA by the SPs CM. SWLL should only utilise SQEP from the relevant 2* Directorate or CGA area of responsibility (therefore minimising personal turbulence as much as possible). Any SWLL issued will have been agreed by the relevant CGA/2* WFMG prior to P-Ops Cap issuing via SCIO.

(b) **Directed Workforce Loan (DWL):** DWL loans of more than 14 days and generally up to 30 days should be regarded as routine business if P-Ops do not have the required time to conduct a Temporary relief (TR) and are not affected by movement rules. These moves will be recorded against the OPDEF/NOWD/PERREQ via SCIO, and personal turbulence is to be recorded on JPA by the SPs CM. DWL should only utilise SQEP from the relevant 2* Directorate or CGA / SURFLOT Workforce Action Group (SWAG) area of responsibility endeavouring to minimise personal turbulence as much as possible. Any DWL issued will have been agreed by the relevant CGA/SWAG/2* WFMG prior to P-Ops Cap issuing via SCIO.

Standfast CFS Units[25], in instances where the gap is filled from another Unit via loan the OPDEF is to be **RECTIFIED whilst a TR is in place**[26]. A lower category OPDEF may be raised for the gap created by the donating Unit, with an explanation included in the remarks section. A Digital Personnel Support Request (D-PSR) is not required. A PERREQ is raised when the gap will continue after the TR disembarks, replaced with an OPDEF seven days before the gap becomes extant

(4) **Temporary Fills.** Where a SWLL or DWL cannot be identified, moves with a duration of between 14 and 30 days are considered to be temporary fills and can be conducted on the authority of P-Ops CAP or, for internal 2* area moves, by 2* WFMGs. These moves are not assignments[27], so are not covered by the rules on assignment notice but are subject to the rules on personal turbulence.[28] They are to be recorded in the SCIO Trawl Log and in personal turbulence notes on JPA[29]. A completed D-PSR will be required on this occasion.

[24] Loans of ratings between Units BRd3 5949
[25] See para d(7)
[26] Except CFS Units which should follow rules as detailed in para d(7)
[27] Individual is Move and Tracked in JPA.
[28] For moves between 15 and 30 days: standfast volunteers, WF should not be moved temporarily to fill another JPA assignment at short notice more than **3 times in any 12-month rolling period, and a cumulative total duration of no more than 57 days** (Cat B). They should be given a minimum of **2 working days' notice** to move (Cat B)
[29] Annex 59I.

(5) For SWLL, DWL or Temporary Fills where the requirement for a TR is less than seven days, P-Ops do not have sufficient time to complete a trawl so the onus on identifying an immediate solution lies with CGA/SWAG or 2* WFMG. If the TR is required for greater than seven days then the responsibility for identifying options and conducting a trawl lies with P-Ops unless the relevant CGA/SWAG or 2* WFMG decide that a SWLL or DWL is the better option; in both case P-Ops will provide the list of available WF that meets the PE-OPDEF request.

(6) **Task Group (TG) Delegated Authority.** Deployed commanders may apply for delegation of authority to conduct the P-Ops CAP role to resolve personnel OPDEFs within their TG. This will enable them to temporarily move personnel between TG Units to resolve short-term WF issues; they are subject to the same restrictions and requirement to use the SCIO Trawl Log as P-Ops CAP in these moves. A requirement for this delegation should be discussed in the first instance with NAVY PEOPLE-OPS CAP SO1.

(7) **OP KIPION MCMV Dual Crew Personnel.** Personnel in the Dual Crew Model (DCM) whether deployed or in UK-ReGen are afforded the same WF protection and are not to be selected for sea-going or overseas Trawls. Only in extremis will DCM WF be used during the four-month RGen phases for UK based exercises or to supplement Squadron (Sqn) support roles such as Dormant Ship Routines, Care and Protection duties etc. Any use of DCM personnel during the RGen phase must not impact on Post/Pre-Deployment leave, TEMS, or key generation events[30].

(8) **Temporary Assignments.** Any move of over 30 days is considered to be an assignment and requires CMs to issue an Assignment Order. These moves are covered by Assignment Notice.[31] A Cat A waiver authorisation by NAVY PEOPLE-CM-HD (or delegated officer) will generally be required for assignments in response to short notice trawls. P-Ops CAP/WFMGs can only move personnel for a maximum of 90 days, giving the CM time to assign a PR iaw normal assignment regulations. **Some exceptions remain where an individual may be required for longer than 90 days in support of ongoing operations e.g. CASD**. WF required at short notice in support of these ongoing operations are to be assigned by the CM as a **PR** for the duration of the operational period. After this period the nominated person may be assigned back to their original Unit. In this instance P-Ops CAP would action the trawl and liaise with the CM and CGA to ascertain the nominated candidate. The relevant CM will apply for the Cat A waiver authorisation before raising an assignment order. In the case of SSBN operations, a trawl would be actioned for the deployment only and not operations leading up to the deployment, e.g. Workup, where the deploying unit will utilise the support crew iaw SMGO's Annex 1A Section 5. Any potential trawl action for a PR required at short notice for deploying Gold Crew units will be assessed by P-Ops CAP in conjunction with the relevant CM and Flotilla on a case-by-case basis.

[30] As detailed in SURFLOT CONOPS.

[31] For moves >30 days: WF will be provided with as much notice of assignments as practical and **at least three months' notice for a home-base** (within 50 miles of current Residence at Place of Work address) assignment and a **minimum of five months' notice for non-home base** or LFS assignments (Cat A). Although personal turbulence rules do not apply to these moves, the trawl/nomination will be recorded and taken into consideration for other trawls.

(9) Any pre-booked, career fouling TEMs/Qualifying Course will take priority unless specifically authorised to the contrary, after discussion and agreement with P-Ops CAP SO1.

(10) Any OR6-OR9 on Sea – Shore ratio are only to be approached by P-Ops CAP or the relevant WFMG after consultation with the relevant CM staff.

(11) Personnel can be directed to submit a PE OPDEF/PERREQ D-PSR whilst on leave, but without being recalled, where there is a Service requirement. Personnel that are on leave will only be nominated in extremis for the most compelling of reasons[32] in order to meet the Service need. In this event the individual may apply for all unused leave to be credited back to their account. Personnel are advised to purchase suitable travel insurance[33] as pre-booked leave, whilst an important issue for consideration in trawls, will not necessarily prevent an individual being nominated where there are limited options to rectify critical operational gaps.

(12) As far as possible, arrival/departure dates stipulated on the D-PSR will be adhered to as limits to the duration of the move. In extenuating circumstances (i.e.. change of receiving Unit's tasking) there may be a requirement to extend a TR. To ensure a full auditable trail a further D-PSR will be completed. Receiving Units are **not** to negotiate extensions without P-Ops CAP/WFMG knowledge/authority. Alternatively, P-Ops CAP/WFMG may consider a new trawl to be a less severe option.

(13) **Following a trawl, D-PSRs are required for individuals who volunteer to be a TR to ensure correct recording of all individuals trawled**. As part of their role P-Ops CAP/WFMG aim is to minimise individual turbulence (churn) which has been identified as a major contributing factor towards retention in the Naval Service.

(14) If there is anyone else within the trawled Unit's Chain of Command who needs to be informed of a request for D-PSRs to be submitted, then it is incumbent on the Unit to inform the relevant individuals. Failure to meet the deadline for D-PSR submission is not an excuse for trawled individuals to be exempt from nomination. The individual's Unit is to ensure deadlines are met however, where there are reasonable reasons for delay, an extension may be requested from P-Ops CAP Fwd/relevant WFMG desk.

(15) Where a donating Unit from a trawl receives a gap a PE OPDEF/NOWD/PERREQ should be raised. The response in most instances will be for the Unit to SUSTAIN as due diligence would have been conducted on the gap created by the trawl.

(16) Advice for completing a D-PSR is at Annex 59K.

[32] JSP 760 1.9.
[33] JSP 752 17.0611.

k. **P-Ops CAP/ WFMG Action.**

(1) The P-Ops CAP Forward Cells[34] or WFMGs are responsible for initial communication with the Unit[35] and will co-ordinate discussions between CMs, Ratings Career Management cells (RCMs) and FGAs to resolve all PE-OPDEFs/NOWDs/PERREQs. P-Ops CAP NCHQ, in conjunction with Commander Operations (COMOPS), will provide direction on the overall priorities for resolution.

(2) Units should be aware that if required, a trawl can take a maximum of seven working days to complete due to the time taken to identify options, send out D-PSR requests, assess completed D-PSRs and apply for Cat A waiver. Therefore, Units should expect to bear any gap for this minimum period. If this is not achievable then the Unit should liaise with their relative SURFLOT CGA staff to identify any short term (<seven days) solutions prior to the P-Ops CAP/WFMG option being identified and activated. In extreme circumstances, where a Unit deploys on operations with <seven days' notice with a TR (nominated by SURFLOT CGA) for a period more than 30 days, the donating Unit is to provide a D-PSR for the individual to relevant P-Ops CAP FWD where a retrospective waiver will be sought.

(3) On occasion P-Ops CAP NCHQ staff will conduct a complete audit of all open PE-OPDEFs/NOWDs/PERREQs held within the database. This will require support from all Units with PE-OPDEFs/NOWDs/PERREQs to cross check the data sent by the P-Ops CAP team against their own information. Further information will be sent prior to commencing the audit.

(4) **Trawl Recording.** Details of individuals trawled as TRs for any PE-OPDEF/NOWD/PERREQ will be entered into the SCIO Trawl Log[36]. This allows identification of the number of trawls and/or nominations each individual has been subject to over a rolling 12-month period. There is no limit to the number of trawls an individual can be subject to (although it is assessed that more than six trawls in any 12 month period is getting excessive), however, an individual should not be nominated more than three times in any rolling 12-month period.

(5) This does not prevent individuals with particularly specific SQEP from being trawled a high number of times but does allow 'spread of the pain' where possible.

[34] At Devonport, Faslane and Portsmouth. The RCMs at Culdrose, Yeovilton and Marham perform the function for the Air Stations.
[35] P-Ops CAP Fwd will acknowledge receipt of PERREQs/OPDEFs; if a receipt is not received within 24 working hours then contact is to be established with the relevant team.
[36] Held within OPDEF Database application in SCIO.

SECTION 12

OTHER INFORMATION

5949. Loan of Ratings Between Units

Where Commanding Officers approve the loan of ratings from one ship/submarine or establishment to another for a period of 30 days or less, no assigning action is necessary, however the individual's Personal Turbulence should be recorded in JPA in accordance with the policy in Annex 22A Chapter 2 and instructions in Annex 59I. Where the loan is expected to be in excess of 30 days (including expeditions etc), the CM is to be informed and assignment action taken to ensure that the loan does not conflict with any assignment plans.

5950. Workforce Priorities

See also Para 6202.sub para b. Priority for manning established positions is set out at 3 levels:

a. **Strategic - DIN: Workforce Priorities for the Naval Service.** The Workforce Priorities for the Naval Service DIN provides strategic level guidance for the prioritisation of Naval Service workforce across Defence. It is subject to annual review by the Naval Manpower Working Group (Strength), chaired by DACOS (PPlan).

b. **Operational - COMOPS Priority List.** The COMOPS Priority List provides the Capability Generation priorities for Fleet Military Tasks and Operational Activity. Issued 6 monthly.

c. **Tactical - Fleet Operational Workforce Prioritisation.** In compiling the Fleet Operational Workforce Prioritisation, representatives from Commitments, Schedulers, FCIGs and DDPD Pers Ops and Plans, on behalf of CMs, agree the tactical workforce priorities grid based on a. and b. above. These grids are distributed to CMs/CMCs to support tactical workforce management. The grids are reviewed monthly.

5951. Core Team Concept

The Core Team Concept applies to operational units as they regenerate and through their operational deployment. It aims to ensure sufficient continuity in key posts to preserve the capabilities for which the ship has been generated. In formulating the Core Team the primary focus is on the maintenance of OC whilst recognising the need to identify levels of assignment flexibility available to Career Managers (CMs) to ensure acceptable flows for seagoing professional development and into and out of key career courses.

5952. Continuity Positions

Certain designated Positions may have a continuity requirement specified. This will be identified by the use of the 'Standard Tour Length' field in the Unit Establishment List. The continuity indicated is advisory only to CMs as other higher priority movements may necessitate individuals being moved earlier than planned. Ratings assigned to Continuity Positions are not normally to be assigned to a new position or an Emergency Relief Pool (ERP) until the period of continuity has been served, even if the rating concerned has passed their SAVDATE. Submarine ratings assigned to Donor, continuity or Submarine Essential Positions will remain liable for service in the Emergency Relief Pool. For background information on Continuity Positions see Chapter 2.

5953. Gapping

a. **Gapping Policy.** When a suitable individual is not immediately available to relieve another before departure, a position may be gapped. CMs must use their plot knowledge and workforce priorities guidance to decide where gaps should lie. The position will be left vacant until a suitable relief is available. The decision to leave important or highly contentious positions gapped should be discussed with and approved by Hd CM, keeping DDPD informed. It is vital that positions which are proposed to be left unfilled are identified early and that CMs notify the organisation's Commanding Officer of the gap as soon as possible.

b. **Gapping of Established Positions to Fulfil Un-established Tasks.** Gapping of an established position should not occur in order to release an individual to fill an un-established (and therefore un-costed) position. Although it should be resisted, there will be occasions, however, when an individual is required for an un-established task. In such cases the relevant SO1 CM should engage with the requesting authority and, in discussion with Hd CM, make a judgment about the relative importance of the requirement and, if applicable, which established position will be gapped.

c. **Absences of Less Than 3 Months.** In the case of absences of less than 3 months, unless the gapped position is a high workforce priority (see Para 5949), no Career Management action will be taken. If the position is listed as a high workforce priority and the employer is unable to bear the gap the actions at Para 5945.d sub para (2) and sub para (3) above should be taken. CMs should liaise closely with DDPD Pers Ops and Plans as appropriate to ensure that the most appropriate action is taken as swiftly as possible. A relief will not routinely be found for personnel who are medically downgraded for less than 3 months.

5954. Use of Reservists - Full Time Reserve Service (FTRS) and Additional Duties Commitment (ADC)

a. Naval reservists (regular and volunteer) may undertake an FTRS commitment as a means of filling Naval positions on a full-time basis where no suitable Regular Service person is available; ADC is a means of filling either an established position or an un-established commitment on a defined part-time basis. ADC can also be used for job sharing an established position. Positions may be specifically established for Reserves personnel. If a Position is only required to be filled on a part-time basis, it should normally be designated for a Reservist, so that it does not generate a liability for Regular personnel. See Annex 59H for 2SL policy on the use of FTRS.

b. RFR, RNR and RMR Officers and Ratings/ORs may register with the CM Reserves team as volunteers for full-time or part-time Reserve Service. If a match is found with the requirements of a Position that cannot be filled by a Regular Service Person, a formal procedure establishes the terms of any Commitment. Further Commitments may be granted, with the employer's support and CM Reserves approval up to a certain, defined limit; thereafter, the decision rests with Hd NPS. Employers may also initiate the process by requesting that a specific Position is filled by a Reservist, but agreement is at DDPD’s discretion.

5955. Return of Service

a. When RN and RM personnel undertake specific courses of training, studies or receive financial bonuses, the RN requires a return on its investment. The normal requirement is that individuals complete an effective period of service called a Return of Service (ROS). Training ROS fall into two areas: initial training, that taken by officers, ratings and other ranks prior to joining the trained strength and further training - that taken by officers, ratings and other ranks after joining the trained strength.

b. Details on ROS can be found at the following references: Chapter 53, extant DINs; and JSP 754 (Tri Service Regulations for Pay and Charges).

5956. Assigning of Warrant Officers First Class

a. **Career Management.** WO1s are assigned on a personal basis in order that their individual employment can be planned to the best advantage of the Service and themselves. WO1s are encouraged to contact their CM to arrange an interview approximately mid-assignment to discuss their next assignment or as required.

b. **Training.** CMs are to ensure that all WO1s undergo the Warrant Officers Staff Course (WOSC), either between selection and promotion, or as soon after as circumstances permit.

c. **Personnel Files.** Personnel dossiers on those selected to WO1 by the Promotion Board will be transferred to the CMs on completion of the selection procedure and will form the background for the assigning process. These dossiers will be updated by the annual SJAR reports and also include a record of all correspondence between the individual and WO1 CM and any relevant CM information. The records are held by the respective WO1 CMs.

5957. Assigning of Personnel Holding Local Acting Rates

a. CMs are not normally to assign in such a way as to create or perpetuate Local Acting Rates and are to strive to fill positions with personnel holding the substantive rate required by the Unit Establishment List.

b. In the event that a rating is assigned to a position for a rate one above their current rate, they may be granted the Local Acting Rate provided that the appropriate Command Course has been successfully completed and that a waiver is granted in accordance with Part 8. If a Receiving Unit considers it to be in the best interest, application may be made to the Discharging Unit to grant the Local Acting Rate, effective on the date of joining, so that the rating joins their new unit dressed in the uniform of the higher rate (see Part 8 – Promotions - Chapter 65).

c. The Local Acting Rate is to be relinquished in accordance with the guidance in Part 8.

5958. Personal Turbulence

Information on Personal Turbulence policy can be found in Annex 22A (Chapter 2). Instructions on how Career Managers should record this in JPA can be found in Annex 59I.

5959. Assignment Restrictions for Offenders

a. The Royal Navy must ensure that it provides a safe working environment for Service personnel and that, in the course of their employment, individuals do not suffer fear, alarm or distress. Following an offender's conviction for a particular type of offence, to assign that individual to a unit where the victim of the offence is also serving may cause anxiousness or distress to the victim thereby impacting adversely on operational capability. In these circumstances, the Service must balance the rights of the offender[37] against the need to maintain unit trust and cohesion. As a matter of policy therefore, in accordance with Table 59-1 below, assignment restrictions are to apply to individuals who are convicted of certain offences where the victim of the offence is also a member of the UK Armed Forces. The duration of any assignment restriction must be proportionate to the seriousness of the offence and the likely feelings of the victim should the offender be assigned to the same unit.

[37] Under the Rehabilitation of Offenders Act 1974 and human rights related legislation.

Table 59-1 - Duration of Assignment Restrictions for Offenders

Nature of Offence	Duration of Assignment Restriction
Any violence-related offence which results in a committed or suspended sentence of imprisonment or detention	From the date of conviction for at least 5 years unless the victim consents to serve in the same unit as the offender. To be reviewed at 5 years.
Any sexual offence	From the date of conviction until the victim leaves the Service.
Any domestic-abuse related offence	From the date of conviction for at least 5 years. To be reviewed at 5 years.
Any offence under the Protection from Harassment Act 1997	From the date of conviction for at least 5 years. To be reviewed at 5 years.

b. For convictions arising from Summary Hearings or Courts-Martial, the Summary Hearing Review Cell (SHRC) will identify those offenders and victims who should be subject to assignment restrictions in accordance with Table 59-1 and will send an e-mail notification to NAVY PCAP-CM MAILBOX (a multiuser account with access restricted to the CM COS and COORD team); receipt of this notification will be acknowledged by e-mail. The affected parties ('X' and 'Y') will be identified by Service Numbers only (without an indication of who is the victim and who is the offender), and the nature of an offence will not be disclosed by the SHRC. The SHRC will state the date/occasion on which the assignment restriction is to expire. Assignment restrictions will expire if this is prior to expiry date when the victim or offender(s) leave the Service.

c. For convictions arising from proceedings in a civilian court, the offender's unit will raise a C57 in accordance with extant Service Penalty procedures. Completed C57s will be forwarded to the SHRC[38], who will inform the NCHQ Career Management organisation of any assignment restrictions which may follow, noting that the victims of such offences are rarely Service personnel.

d. Career Managers are to record assignment restrictions on the JPA HR record of both parties (X and Y). The restriction is to be recorded as follows:

(1) **On X's JPA Record:** "Not to be assigned to a unit where [enter Y's Service Number] is serving or is assigned to join at a future date. Assignment restriction to expire [enter date/occasion specified by SHRC]".

(2) **On Y's JPA Record:** "Not to be assigned to a unit where [enter X's Service Number] is serving or is assigned to join at a future date. Assignment restriction to expire [enter date/occasion specified by SHRC]."

Note. *These assignment restrictions are to be applied in addition to any restrictions imposed by Chapter 20 Section 22 in relation to the management of suspected registered sex offenders.*

[38] In accordance with the RN Summary Hearing Review Cell Training Guide to JPA Discipline.

e. Once assignment restrictions are in place, Career Managers will have to exercise judgement in determining whether any particular assignment will in reality have the effect of undermining the purpose of the restriction. This may occur, for example, if the individuals are likely to be collocated within the same establishment (e.g. two lodger units within HMS NELSON), or one party will have regular professional contact with the other (e.g. a CPO Log (SC) assigned to the Waterfront Logistics Support Group Portsmouth and a PO Log (SC) assigned to a Type 45 destroyer). It is not possible or desirable to provide a comprehensive list of situations which may breach the general principle: common sense must be applied. **Legal advice is to be sought where adherence to an assignment restriction would cause prejudice to an individual, including to their career progression.**

f. For violence, domestic abuse or harassment related offences, five years after the date of conviction, assignment restrictions will be reviewed, with a presumption that they will be removed. The SHRC will notify the Service Police who will contact the victim (if they are still serving) to inform them of the review and offer them the opportunity to raise any exceptional circumstances that might justify retention of the restriction. If exceptional circumstances are raised, Hd Career Management must determine whether the assignment restriction should be removed or retained; when doing so they must seek legal advice from SO1 Employment Law.

g. Where a unit or assignment authority intends to temporarily assign an individual to a training course, the unit administrator or assignment authority must consult the individual's JPA record to check that there are no assignment restrictions in place. If there are, the unit administrator or assignment authority must ascertain where the other party is serving. If no breach of the assignment restriction will occur, the individual may be assigned to the course. If a breach will arise, the unit administrator or assignment authority is to inform the individual's Divisional Officer (or G1 Adviser for Royal Marines). If assignment restrictions are in place but the Divisional Officer/G1 Adviser considers that to prevent the individual's attendance on the course would cause prejudice to them, then the unit or assignment authority must seek legal advice through the unit Command Adviser from the relevant Regional Legal Office.

h. There may be situations following a Court Martial or civilian court hearing in which a Service person is found not guilty of an offence listed in Table 59-1 above, however they or the alleged victim still have a strong aversion to serving with the other party. In that situation there is no automatic entitlement to an assignment restriction, however an individual’s line manager and Career Manager(s) should be consulted to determine whether a voluntary assignment restriction can be put in place. Legal advice should be sought where there is any concern about the restrictions being considered (i.e. where there may be prejudice to either the Service requirement or to the career progression of one or both parties).

ANNEX 59A

COMMAND ASSIGNMENTS AND SELECTION CRITERIA

Note. *The following material is under regular review and should be read in conjunction with extant DINs and the JSP 550 series (Military Aviation Regulations).*

SECTION 1 - GENERAL

1. Command Assignments

A definitive list of command assignments is at Appendices 59A-1 to 59A-3. This is a living document which is subject to regular review. Applications for additions to the list are to be made to the Dir P&T. Prospective commands will be judged against a series of criteria, including the following: autonomy, risk, responsibility for people and materiel, financial accountability and disciplinary powers.

2. Types of Command

a. **Sea Command.** In Command of one of His Majesty's seagoing Ships/Submarines or Squadron of Ships.

b. **Military Command.** Military Command includes the following:

(1) **Air Command.** In Command of a Naval Air Squadron.

(2) **RM Command Assignments.** Including military sub-units.

(3) **Shore Command.** In Command of one of His Majesty's shore establishments or designated shore-based units.

c. **Subordinate Command.** Subordinate Command includes the following:

(1) **Professional Command.** In Professional Command of a designated department or unit merited by the responsibilities of the position.

(2) **Support Command.** In Command of a designated unit operating in a support role.

(3) **Training Command.** In Command of a designated unit operating in a training role.

(4) **Sub-Unit Command.** Not in direct Command, however in Command of a designated group or body which would normally be capable of an autonomous function or capability.

3. Common (Command) Assignments

For major shore establishment commands at OF4 and above, the principle is that Command is open to all Branches except where there is an overriding and specific professional requirement. For example, at RNAS Culdrose and Yeovilton, the CO, as the officer responsible for Aviation, delegates the authorisation for flying and must have the personal professional competences to do so.

4. Professional Command

The Command element of sea and shore 'charge' assignments is recognised by designating them generically as 'professional commands' and by specialisation as 'engineering/logistics command' as appropriate. This makes them easier to recognise as being equivalent to sub unit command when officers compete for tri-service assignments. There are some positions that require engineering charge status but are not designated as Professional Command (e.g. DMEO(SM))

5. Selection for Command

a. Command (see Appendix 59A-1) is open to officers of the highest quality, who have demonstrated the attributes within paras 6-7.

b. The selection process at each rank and for the various types of Command is broadly similar and any variation is identified in the following paragraphs which explain the different selection boards. The different Commands and Selection Boards are detailed in the Table below:

Table 59A-1. Commands and Selection Boards

COMMAND	OF2	OF3	OF4	OF5	OF6
Sea Commands, Sea Subordinate Commands	SASB1/SVC	SASB1	SASB2	SASB3 with 1SL approval	FSOAB with 1SL approval
Aviation Commands, Aviation Subordinate Commands	NA	AASB1	AASB2	FSOAB	FSOAB with 1SL approval
RM Operational Commands	Normal assigning	MCB1/Normal assigning /DCGRM Approval	MCB2/CGRM Approval	FSOAB	FSOAB with 1SL approval
RM Shore Commands (inc Rotational)	Normal assigning	MCB1/ Normal assigning /DCGRM Approval	MCB2/CGRM Approval	FSOAB	FSOAB with 1SL approval

(Continued)

COMMAND	OF2	OF3	OF4	OF5	OF6
Second Sea or Aviation Command assignments requiring post-Command status	Normal assigning	Normal Assigning	Cdr QEC to have previously held SASB2 Command.	SASB3 with 1SL approval (seagoing); FSOAB (aviation)	FSOAB with 1SL approval
RN Training and Support Commands	Normal assigning	PCSB/CCSB	PCSB Approval	FSOAB	FSOAB with 1SL approval
Shore Subordinate & Sub-Unit Commands and Professional Commands.	Normal assigning	PCSB/CCSB/DG/INT MCB1	PCSB/CCSB/DG/INT MCB2	FSOAB	FSOAB with 1SL approval

Key:

SASB	Sea Appointments Selection Board
AASB	Air Appointments Selection Board
SVC	Small Vessel Command
MCB	Military Command Board
PCSB	Professional Command Selection Board
CCSB	CAPPS Command Selection Board
FSOAB	Flag and Senior Officers' Appointments Board
DG MCB	Diving Group Military Command Board
INT MCB	Intelligence Military Command Board

6. Candidature

a. Command of a ship, air squadron, submarine, MM/PP squadron or RM Operational Unit will demand a level of currency with Joint Operations, at sea and in the air. Candidates will be expected to have held a front-line sea/air assignment[1] within the 5 years[2] prior to the respective Board, to satisfy Board Members that they have the necessary experience, in the case of Sea Command to have achieved the requirements of STCW and, for Air Command, the requirements of Military Aviation Regulations. Furthermore, candidates must be recommended for Command.

b. If an individual has distinct prospects of selection for both Aviation and Sea Command, or for surface and submarine Sea Command in the same year, the Board Adviser will guide the Board Chair. The Board Adviser will also provide a judgment if a candidate, having held OF4 Command in either a Sea or Air assignment, can compete for further command in the other environment.

[1] Front-line sea assignments are selected from the units at Appendix 51A-2 and their Loan Foreign Service equivalents.
[2] Six years for Air Comd taken from the date of the relevant AASB.

7. Selection Factors

Each selection Board will be guided by the following selection factors and any variation as detailed in the relevant Board section:

a. **Command and Leadership Skills.** The ability to lead, meld and motivate a team in war and peace and possession of the necessary mental and physical resilience to withstand the strains of Command. Officers should have demonstrated a strong potential to succeed in Command. These criteria are common to all types of Command assignments.

b. **Warfare Skills.** Officers to have demonstrated the professional knowledge and experience required to successfully fight their unit/squadron.

c. **Seagoing Currency.** The Royal Navy is bound by the IMO Standards of Training, Certification, and Watchkeeping (STCW)[3], and has interpreted eligibility through the development of command examinations and 'Command Qualification' (CQ1 and CQ2)[4].

d. **Airmanship Currency.** The criteria for Air Command eligibility are dependent on the nature of the air assignment and are detailed in the eligibility table.

e. **Professional Command Currency.** It follows that, as well as the appropriate CLM abilities, Professional Command candidates should have demonstrated professional credibility within their specialisation appropriate to the Command Assignment(s) for which they are being considered. They should also hold any professional qualification appropriate to that level of Command.

f. **Merit.** Merit is an inherent factor in the selection process (see Para 6508).

8. Eligibility

Eligibility requirements for each type of Command are detailed in the tables below. Consideration may be given to individuals who fall short of these minima, provided that an exceptional case can be made, which will most likely be based on a proven track record. Career Managers are key to advising candidates and selection boards if/when a candidate might otherwise be considered ineligible. Final arbitration on eligibility rests with Deputy Director People in the cases of OF2 to OF4, and with the NA in the case of OF5, in consultation with the respective Head of Fighting Arm.

9. Automated Generation of the Candidate Pool via SCIO.

Command/Professional Command selection boards require the same level of assurance and governance that is afforded to the promotion/commission transfer process and therefore from 2022, this process will be managed by Proms, using an automated process to provide a pool of candidates for each selection board. This pool of candidates will then be scrutinised by CMs to ensure that eligible volunteers are presented at the optimum time[5].

[3] International Maritime Organization: International Convention on Standards of Training, Certification and Watchkeeping for Seafarers (STCW) 1978.
[4] BR 9940 Ship and Naval Air Squadron Command Examination, Command Qualification and Platform Endorsement Process
[5] CMs should discuss timing of board presentation with candidates and any decision not to present an eligible candidate should be recorded in the SPs SCIO E-Pack.

a. **JPA Data Fields.** SCIO will be used to produce the initial pool of candidates based upon the JPA data fields related to the eligibility requirements in the tables below. Where this is related to a JPA competency, it is in candidates' interest to ensure that their competence profiles are correct.

Table 59A-2. Eligibility for Sea Command

List of command assignments is at Appendix 59A-1.

Assignment	Board	Criteria
OF2	SVC	- **Experience:** Have completed at least one complement assignment at sea and successful completion of PNO course prior to assuming Command. - **Currency:** 18 months Qualifying Sea Service[6] since the award of their NWC. - **Recommendation:** Recommended by Command and Flotilla using the Command Competency Framework.
	SASB1	- **Experience:** Have completed a minimum of 2 complement assignments at sea in the surface or submarine flotillas. - **Currency:** Candidates will have served at sea and have a minimum of 12 months QSS in the last 5 years (taken from the date of the relevant SASB). - **CQ1** - **Recommendation:** Recommended for a Command assignment. ICSC(M) or a recommendation for staff training.
OF2-3	SMCC Selection Board[7]	As directed by BR9275(3) art 1803.
OF3	SASB1	- **Experience:** Qualified PWO/PWO(SM)/PWO(AV)/HCH and completed a warfare tour in an associated assignment (minimum 18 months). - **Currency:** Candidates will have served at sea and have a minimum of 12 months QSS in the last 5 years (taken from the date of the relevant SASB). - **CQ2** - **Recommendation:** Recommended for a Command or Executive assignment. ICSC(M) or a recommendation for staff training.

(Continued)

[6] In view of the short selection window and timing of the SVC boards, candidates may be presented to the Board when they are forecast to have accrued 18 months QSS or more by the time they are due to assume Command.
[7] Successful completion of SMCC qualifies an officer for an assignment as XO SSN/SSBN and is presented to Capt SM for ratification (in his leadership role as Capt SM, not in his role as SMCC Board Chair).

Assignment	Board	Criteria
OF4	SASB2	**Command of a surface unit** - **Experience:** The eligibility requirements of SASB1, but with 2 Warfare tours in associated assignments. Unit command, including XO DD/FF as a result of previous SASB, is highly desirable. - **Currency:** As SASB1. - **CQ2** - **Recommendation:** Recommended for a Command assignment. Command knowledge gained from the attainment of CQ2 has been translated into practical familiarity. psc(j) or a recommendation for ACSC.
		Command of a submarine - **Experience:** Must have completed an appointment as XO SSN/SSBN. A subsequent SM(CQ) shore assignment is highly desirable. - **Currency:** As SMCC selection board. - **Recommendation:** Recommended for a submarine Command assignment.
OF5	SASB3	1. Qualified PWO/SMCC/HCH or relevant aviation qualification, and completed a minimum of 2 front-line warfare tours and/or held a front-line Sea assignment within the previous 5 years. Unit command, as a result of previous SASB/AASB, is highly desirable. 2. CQ2. 3. psc(j) is highly desirable.

Notes:

1. Candidates will need 36 months' Qualifying Sea Service prior to award of CQ1.

2. BRd 9940 details ship and air command examination and command qualification process.

Table 59A-3. Eligibility for RM Command

List of command assignments is at Appendix 59A-1.

Assignment	Board	Criteria
OF3 RM Sub-Unit and Subordinate Command	MCB1	1. **In Zone**. CPD +2 yrs to +5yrs (3 looks). 2. **Recommendation.** Recommended in at least one OJAR report for a Command Appointment at OF3. 3. **Previous MCB1 Grading**. Any officer receiving a 'C-grade' at a previous MCB1 will not be considered at any subsequent MCB1s. 4. **Deferral**. In exceptional circumstances, a deferral of presentation to the Board for 12mts may be approved by SO1 OCM RM. This will be based on Service requirements and not personal preference. The result will be an extension in zone. 5. **Preferences**. MCB1 candidates submit Command Appointment preferences to CM OF RM SO2A, they may opt to be considered for any SUC or for Shore SUC consideration only. 6. **Withdrawal**. An individual may elect not to be considered at a Board for which he is eligible. However, this will not extend their time in zone. 7. **RM Pilots and SF**. RM Pilots and RN SF officers who meet the above criteria remain eligible for consideration but will also be subject to consideration for command and staff assignments within their specialist areas.
OF4 RM Unit Command, RMR Command and Subordinate Command	MCB2	1. **In Zone**. RM OF4s of seniority +2yrs to +4yrs **on 30 Jun of the year of the Board** (3 looks). 2. **Experience.** ACSC or PSC(j) equivalent is desirable but not essential. Previous command at OF3 is highly desirable but not essential. 3. **Recommendation.** Recommended in at least one OJAR report for a Command Appointment at OF4. 4. **Previous MCB2 Grading**. Any officer receiving a 'C-grade' at a previous MCB2 will not be considered at any subsequent MCB2s. 5. **Deferral**. As for MCB1. 6. **Withdrawal**. As for MCB1. 7. **RM Pilots and SF**. As for MCB1. 8. RM Reserves who meet the same criteria as regular offrs, and who are volunteers, will be considered for RMR comd appointments.
OF5 RM Unit Command	MCB3	1. **Experience:** ACSC or PSC(j) equivalent is desirable but not essential. 2. **Recommendation:** Recommended for Command at OF5.

Note. *Guidance on when officers come into zone for consideration is given at Para 22 sub para d below.*

Table 59A-4. Eligibility for Air Command

List of command assignments is at Appendix 59A-1, and Sub-Unit Command assignments at Appendix 59A-2.

Assignment	Board	Criteria
OF3 Air Command and Executive Assignments	AASB1	- **Experience:** Have completed a minimum of 36 months in front-line aviation.). - **Currency:** Candidates should hold full currency according to specialisation, type or role within a complement assignment within the last 6 years (taken from the date of the relevant AASB). - **Qualifications**: CQ(A)1 and ICSC(M). Candidates should hold qualifications relevant to frontline squadrons (e.g. HWI/QWI/PWO(AV)) and will hold qualifications relevant to training squadrons (e.g. QHI/QOI/QFI). - **Recommendation:** Hold a current recommendation for an AASB1 assignment via most recent OJAR.
OF3 SATCO TAS Assignments	AASB1	- **Experience:** Must have previously been SATCO FOST, SATCO QEC, MATO SWK or DSATCO TAS. - **Qualifications**: ICSC(M). - **Recommendation:** Hold a current recommendation for an AASB1 assignment.
OF4 Squadron Command	AASB2	- **Experience:** Have completed a minimum of 48 months in front-line aviation.). Candidates should have previous Command or executive experience. - **Currency:** as AASB1. - **Qualifications**: CQ(A)2 and ICSC(M). Ideally should hold qualifications relevant to either frontline (e.g. HWI/QWI/PWO(AV)) and/or training (e.g. QHI/QOI/QFI) squadrons. psc(j) or a recommendation for ACSC. - **Recommendation:** Hold a current recommendation for AASB2 Air Command via most recent OJAR.
OF4 Force Command	AASB2	- **Experience:** Have completed a minimum of 48 months in front line aviation. Candidates should have previous Command or executive experience. - **Currency:** Have held an aviation related frontline or staff assignment within the last 5 years. - **Qualifications**: CQ(A)2 and ICSC(M). psc(j) or a recommendation for ACSC. - **Recommendation:** Hold a current recommendation for AASB2 Air Command via most recent OJAR.

(Continued)

Assignment	Board	Criteria
OF4 Commander Air Afloat	COMNA Selection'	- **Experience:** Have completed a minimum of 48 months in front line aviation. Candidates should have previous Command or executive experience. Candidates should hold the JPA Competency *Experience* | *QEC* | to at least Practitioner level. - **Currency:** Have held an aviation related frontline or staff assignment within the last 5 years. - **Qualifications**: CQ(A)2 and ICSC(M). psc(j) or a recommendation for ACSC. - **Recommendation:** Hold a current recommendation for AASB2 Air Command via most recent OJAR.

Note. *Where Air Executive or Command assignments are held at OF3 level, the AASB1 will select the Commanding Officer and Senior Pilot/Observer (including all positions of equivalence irrespective of terminology in use e.g. Executive Officer, as appropriate.*

Table 59A-5. Eligibility for Shore Command (Fleet Diving Squadron)

List of command assignments is at Appendix 59A-1.

Assignment	Board	Criteria
OF3 Diving Group Command	DG MCB1	- **Experience:** Completed a minimum of 2 front-line warfare tours in an associated assignment (minimum 18 months). PWO qualification and FDS Sub-Unit Command highly desirable. - **Recommendation:** Recommended for Military Command. Achieved ICSC(M) or a recommendation for further staff training.
OF4 Squadron Command	DG MCB2	- **Experience:** Completed a minimum of 2 front-line warfare tours in an associated assignment (minimum 18 months). PWO qualification and previous Shore Command highly desirable. - **Recommendation:** Recommended for Military Command, achieved ACSC or a recommendation for further staff training.

Table 59A-6. Eligibility for Professional Command (Engineer)

List of PC(E) assignments is at Appendix 59A-2

Assignment	Board	Criteria
OF3 AE	PCSB(E)	- **Experience:** Substantive OF-3 (on the day of the PCSB) - **Availability:** As per Para 27e. - **Qualifications**: As of 1 Oct prior to the PCSB, hold the JPA competence of Engineering | Incorporated Engineer – IEng|Joint| (AE). - **Recommendation:** Hold a positive recommendation for Prof Comd in the most recent OJAR.
OF3 MEGS	N/A	- **Experience**: Substantive or selected OF-3 (on the day of the PCSB). - **Availability**: As per Para 27e. - **Qualifications**: Hold the JPA Competence of Professional|Marine Engineer Charge Qualification (MCQ)|Navy|[8]. - **Recommendation**: Recommended for OF3 Professional Command.
OF3 MESM	PCSB(E)	- **Experience**: Substantive or selected OF-3 or OF2 in a DMEO assignment (on the day of the PCSB). DMEO experience not mandatory. - **Availability**: As per Para 27e. - **Qualifications**: Hold the JPA Competence of Professional| MCQ(MESM) Charge Qualification|Navy|. Hold the JPA Competence of Professional| SM Lt Recommended for DMEO|Navy|. - **Recommendation**: Recommended for OF3 Professional Command.
OF3 WEGS	PCSB(E)	- **Experience**: Substantive or selected OF-3 (on the day of the PCSB). - **Availability**: As per Para 27e. - **Qualifications**: Hold the JPA Competence of Professional|Weapon Engineer Charge Qualification (WCQ)|Navy|[9]. - **Recommendation**: Recommended for OF3 Professional Command.

(Continued)

[8] Sea Assignments only.
[9] Sea Assignments only.

Assignment	Board	Criteria
OF3 WESM	PCSB(E)	- **Experience**: Substantive or selected OF-3 (on the day of the PCSB). - **Availability**: As per Para 27e. - **Qualifications**: Hold the JPA Competency; Officers (General)|Weapon Engineer (Submarine) Charge Qualification|Navy|. - **Recommendation**: Recommended for OF3 Professional Command.
OF4 AE, MEGS, WEGS, MESM, WESM	PCSB(E)	- **Experience**: Substantive or selected OF-4 (on the day of the PCSB) and hold JPA Competence CMS|12 Months OF3 Engineer Professional Command|Navy. - **Availability**: As per Para 27e. **- Qualifications**: Hold the JPA Competence of Engineering | Chartered Engineer – CEng|Joint|[10]. - **Recommendation**: Recommended for OF4 Professional Command.

[10] This requirement will be reviewed against deep specialist Professional Command posts and waiver process applied if necessary.

Table 59A-7. Eligibility for Professional Command (Logistics)

List of PC(L) assignments is at Appendix 59A-2.

Assignment	Board	Criteria
OF3	PCSB(L)	- **Experience**: Substantive or selected OF3 having completed one seagoing assignment. - **Qualifications:** Have completed the Logistics Professional Command Board[11] holding the competency CMS|LPCB (LOGISTICS PROFESSIONAL COMMAND BOARD)|Navy| - **Availability:** Candidates must be available to attend PLCC within the next training year (i.e.. have not submitted request for early termination or be undertaking Barrister training). Candidates must have at least 5 years to serve on their current engagement (time for 2 assignments post PC(L) assignment. Candidates must be on an FCS commission or be a volunteer for transfer. **Recommendation:** Hold a positive recommendation for Prof Comd in the most recent OJAR
OF4	PCSB(L)	- **Experience:** Substantive OF-4 with a maximum 5 years seniority (taken on the date of the relevant PCSB). **- Availability**: Candidates must have at least 5 years to serve on their current engagement. Volunteer status should be expressed to the SO1 Logs CM. - **Recommendations:** Hold a positive recommendation for Prof Comd in the most recent OJAR and have at least one report in rank. Individuals selected at the board who do not wish to be appointed to PLC assignments, through personal choice, will not be eligible at the subsequent board unless a compelling case to prevent exclusion has been accepted. Such applications should be made through the individual's Career Manager for consideration by the Selection Board Chair. Irrespective of personal preferences, all individuals selected are eligible for Assignment to any PLC position in accordance with Service Requirement.

Table 59A-8. Eligibility for Professional Command (Medical)

Assignment	Board	Criteria
OF4	PCSB(M)	- **Experience:** Have successful command or relevant Staff experience and broad DMS experience at OF3. Displaying potential for promotion to OF5. Boards should consider that different sub-branches have different career paths at OF2-3 and that will be reflected in reporting. - **Recommendations:** 'High' for Shore Command. - psc(j) or at least high recommendation for ACSC - Serving on an FCS • Yes or above for 1-up (OF5) promotion

[11] Not applicable to those joining sea going units prior to 1 Jan 2011.

Table 59A-9. Eligibility for Intelligence Shore Command (From Apr 2026)

Assignment	Board	Criteria
OF3 Int Sub-Unit Command	Int MCB1	- **Experience**: Completed a minimum of two operational intelligence tours (minimum 18 months) at OF3 level[12]. JMIC qualified. - **Recommendation**: Recommended for military command. Achieved ICSC(M) or recommended for further staff training.
OF4 Int Unit Command	Int MCB2	- **Experience**: Completed a minimum of one OF4 intelligence tour (minimum 18 months). JMIC qualified. Previous sub-unit command highly desirable. - **Recommendation**: Recommended for military command. Achieved PSC(j) or foreign equivalent or recommended for further staff training.

[12] An operational intelligence tour is defined as being appointed to a core, liability intelligence position career managed by OCMXINT.

10. Board Adviser

The appropriate officer from Career Management will act as the Board Adviser. Their role is to provide an initial briefing to cover the following: the selection target and any branch and specialisation considerations; relevant assigning factors such as continuity of reporting; and the career management perspective.

11. Board Composition

Whilst the composition of individual boards is detailed below, the individual members should not be from a role which reports directly to the Board President. Where possible, the board should include both male and female voting members.

12. Board Grading

Sea and Military Command boards will apply a grading to each candidate as follows unless specified otherwise in the board guidance. Board grading for Subordinate Command (Professional, Support, Training and Sub-Unit) is detailed at Para 27:

a. **List A.** Selected to the Pool for Sea/Military Command.

b. **List B.** Not selected this time but subject to further review at future boards.

c. **List C.** Not selected for Command assignments or further review in current rank[13]. Officers who have previously graded C may, in exceptional circumstances, be reconsidered by future Command Boards should the needs of the Service change and/or the individual's demonstration of Merit change significantly, as identified by the relevant CM.

13. Pool Selection

The initial consideration of eligible candidates by Selection Boards will focus purely on pool selection, based solely upon merit for command as evidenced in an individual's selection file. The relevant Career Manager (CM) will articulate the requirement (i.e. pre-determined command roles to be filled over the next 18 months, plus an additional allowance to ensure the pool has enough to allow flexibility for the CM) in a MAuN letter.

14. Assignment

The process for subsequent assignment of officers selected to the pool will be as follows:

a. **Develop Assignment Recommendations**. On completion of the command board, the relevant CM will be presented with a pool of selectees, in order of merit, available for assignment across the pre-determined command roles. The CM will then be afforded time[14] prior to the Command Assignment Stakeholder Engagement, to determine recommendations for optimal command assignment outcomes, recognising other career management factors including individual preferences, longer-term career trajectory factors and any geographic and domestic considerations.

[13] List C candidates are only list C for that particular category of Command and may remain eligible for Command assignments in a different category.
[14] Two weeks set as a realistic maximum.

b. **Command Assignment Stakeholder Engagement**. Having identified the right people for the right jobs, CMs will engage with employers and other stakeholders as part of the nomination process.

c. **Head of Specialisation Endorsement**. The final phase would see the ratified list of command assignments passed to the respective Head of Specialisation (HoS) for final endorsement[15]. This phase will offer HoS the opportunity to discuss and raise any concerns which may necessitate additional stakeholder engagement prior to HoS endorsement[16]. For SASB2, AASB2 and MCB2, the CM will use the HoS endorsement for final approval from the Fleet Comd and for SASB3 and MCB3, Hd SOCTM will seek endorsement from Fleet Comd with final approval from 1SL. Prior to assignment orders being issued, individuals will be informed of the outcome by the relevant CM with congratulatory messages being sent by HoS as necessary.

15. Refusal

a. As stated in para 5904, Service Personnel are not permitted to select or decline assignments, due consideration is given to personal wishes before deciding on a particular assignment. If an officer does not wish to be considered for Command, they should inform their CM in writing. This request will be balanced against the Service needs.

b. Officers who, following selection for a command assignment, refuse their allocated assignment will be deselected and will not be considered at the next SASB/AASB/PCSB or MCB selection board following refusal. Officers will be presented to the command selection boards thereafter providing they continue to meet the eligibility criteria. Officers who are not extracted from the selection pool will need to re-compete at the next SASB/AASB/PCSB or MCB unless exceptional circumstances warrant an extension to their selection.

c. For SASB2, the currency requirement for command is time related so any refusal, regardless of reason, will cause a corresponding reduction in command “shots”. For AASB2 and MCB2 a refusal will cause a corresponding reduction of command “shots” unless caused by exceptional circumstances detailed in Para B.

16. Board Records

The outcome from each Board will be a formal record of the candidates presented to the Board and the grading awarded to each candidate. This will be held electronically by PROMS.

[15] COMSURFLOT, Dep Dir NAvn and Logs/Eng equivalent; for RM – where DCGRM is Head of Profession – DCGRM will endorse.
[16] Dir P&T will adjudicate on any disagreement.

17. Promulgation

a. The Officers' Boarding programme is published on the Royal Navy Workforce Appraisals and Career Progression Team site[17] (sharepoint.com).

b. The results of the selection process will be promulgated in SCIO and the My Navy app.

c. The pool selection notification will be published on SharePoint on the Monday following the Board.

[17] https://modgovuk.sharepoint.com/sites/IntranetNavy/SitePages/Promotions.aspx

SECTION 2 - SPECIFIC SELECTION BOARD PROCEDURES

18. Small Vessel Command

a. **Zone Criteria.** The Service Requirement can be met from officers across the OF 1/2 seniority range. Candidates may be presented to the Board when they are forecast to have accrued 18 months QSS or more by the time they are due to assume Command.

b. **Evidence.** The following reports will be presented in a candidate's file:

(1) Profile sheet.

(2) All appraisal reports since joining the trained strength.

(3) Letters of Commendation or Censure.

(4) Command Competency Framework (CCF) report with appropriate Flotilla or 3RO recommendation. CCFs from previous SVC selections shall be retained for subsequent consideration.

c. **Board Composition.**

Chair	Capt PUXD
Board Member	Navy Command OF4
Board Member	Non-Navy Command OF4
Board Member	Dir P&T Warfare OF4
Board Adviser	CM OF WAR JWO
Board Secretary	PROMS BSX

d. **Nomination Process.** Eligible candidates are nominated by Commanding Officers by raising a CCF report. The CCF is submitted via Squadron and Flotilla staff to the appropriate OF5, e.g. Capt PUXD/SS(E)/SS(W)/Capt SM, and, if endorsed, forwarded to the Board Advisor. Career Managers will provide advice to Commanding Officers and members of their plot on the optimum time within their career for a Subject Officer to be presented.

19. SMCC Selection

a. **Zone Criteria.** All eligible candidates who are volunteers for consideration will be presented. Candidates who meet the necessary criteria will remain eligible unless no longer considered suitable for SMCC selection.

b. **Evidence.** The following reports will be presented in a candidate's file:

(1) Profile sheet.

(2) All appraisal reports since joining the trained strength.

(3) Letters of Commendation or Censure.

(4) All Command Competency Framework (CCF) reports.

c. **Board Composition.**

Chair	Warfare Non-SM OF5
Board Member	Capt SM
Board Member	FOST Capt SM
Board Member	DACOS SM
Board Adviser	CM OF XSM SO2
Board Secretary	PROMS BSX

20. SASB1

a. **Zone Criteria.** All eligible candidates who are volunteers for consideration will be presented. Career Managers will advise individual officers on the optimum timing of their presentation. Candidates who meet the necessary criteria will remain eligible unless placed on the C list by a previous Board.

b. **Evidence.** The following reports will be presented in a candidate's file:

(1) Profile sheet.

(2) All appraisal reports since joining the trained strength.

(3) Letters of Commendation or Censure.

(4) Command Competency Framework (CCF) reports.

c. **Board Composition.**

Chair	COMSURFLOT
Board Member	Warfare OF5
Board Member	Non-Warfare OF5
Board Member	Dir P&T Warfare OF5
Board Adviser	CM OF WAR SO1
Board Secretary	PROMS BSX

21. AASB1

a. **Zone Criteria.** All eligible candidates who are volunteers for consideration will be presented. Career Managers will advise individual officers on the optimum timing of their presentation. Candidates who meet the necessary criteria will remain eligible unless placed on the C list by a previous Board.

b. **Evidence.** As per Para 18 sub para b.

c. **Board Composition.**

Chair	DDirNAvn /FAA 1*
Board Member	FAA OF5
Board Member	Non-FAA OF5
Board Adviser	CM OF AIR SO1

22. DG MCB1/2

a. **Zone Criteria.** Candidates will be presented to the Board when eligible and a volunteer, but no time constraint will be applied either to their subsequent review or to the final opportunity for review; candidature will continue provided an officer's currency and experience profile meets the eligibility criteria and not placed on the C list by a previous Board.

b. **Evidence.** The following reports will be presented in a candidate's file:

(1) Profile sheet.

(2) All appraisal reports since joining the trained strength.

(3) Letters of Commendation or Censure.

c. **Board Composition.**

	MCB1	MCB2
Chair	Capt PUXD	COMSURFLOT
Board Member	Navy Command OF4	Navy Command OF5
Board Member	Non-Navy Command OF4	Non-Navy Command OF5
Board Member	Dir P&T Warfare OF4	Dir P&T Warfare OF5
Board Adviser	CM OF WAR MCDO SO2	CM OF WAR SO1X
Board Secretary	PROMS BSX	PROMS BSX

23. INT Military Command Board

a. **Zone Criteria**. Candidates will be presented to the Board when eligible and a volunteer, but no time constraint will be applied either to their subsequent review or to the final opportunity for review; candidature will continue provided an officer's currency and experience profile meets the eligibility criteria and not placed on the C list by a previous Board.

b. **Evidence.** The following reports will be presented in a candidate's file:

(1) Profile sheet.

(2) All appraisal reports since joining the trained strength.

(3) Letters of Commendation or Censure

c. **Board Composition.** The board composition will be directed by Hd RN PROMS.

24. SASB2

a. **Zone Criteria.** Warfare officers will be considered on selection for promotion to OF4. In view of currency requirements, candidates graded List B will be reviewed annually from the 'Review Pool' in the following years, but officers will revert to list 'C' after 4 years from selection for promotion to OF4, unless selected or otherwise becoming ineligible. Those who fail to meet the currency or experience requirements outlined above may be placed in List C at their first or subsequent Boards. There is no quota of sea commands for newly selected officers and all candidates are in competition with each other for the available commands.

b. **Requirement.** The requirement for the number of sea command selections is driven by the availability of surface and SM commands during the period of approximately 2 years after SASB2. The figure is kept under review by DDPD and the Board advised accordingly.

c. **Evidence.** The evidence presented as the same as at SASB1.

d. **Board Composition.**

	PSB	FSB
Chair	Navy Command OF6	CSF
Board Member	Non-Navy Command OF5 (See Note)	COMOPS
Board Member	Navy Command OF5 (SF)	Nominated 2*
Board Member	Navy Command OF5 (SM)	COMSUBFLOT
Board Member		COMSURFLOT
Board Adviser	CM OF WAR SO1	CM OF WAR SO1

Note . With Sea Command experience as an OF4.

e. **Board Procedure - SASB2.** The SASB2 consists of a Preliminary and a Final Selection Board and both will normally precede the equivalent parts of the AASB2. Prior to the PSB the Warfare Branch Secretary will carry out a pre-board sift in order to reduce the PSB's workload. The sift is audited. The PSB will carry out the following actions:

(1) Prior to the board, read the Officers' Records of newly selected officers and those officers due for review and, guided by the selection factors and the eligibility criteria, grade them as A, B or C (an A Candidate is an officer who shows distinct potential to succeed in Command now).

(2) Review in-session the aggregate order of merit (OOM) generated by individual members' votes.

(3) Finalise the list of A candidates to be placed in seniority order before the FSB and to record formally the candidates graded as List B and C. The number of As should be approximately twice the number of available Commands.

f. **Board Procedure - FSB.** The FSB will read the files of the A candidates selected by the PSB and, guided by the selection factors and the eligibility criteria, will select a number of candidates, equivalent to the number of Commands available, to be placed on List A. The remaining candidates will be graded either List B or C. The FSB may consider selecting a reserve, or reserves, as advised by the Board Adviser but the reserve will remain a List B candidate.

g. Post the SASB2 FSB, the CM will draft provisional allocations of List A officers to available units. Provisional allocations are to be circulated electronically to RASS/RASM Board members for comment before being presented to RASS/RASM. RASM and RASS will call on the Fleet Commander to seek approval of the proposed assignments. Once approved, command chains and individuals will be informed by their Career Managers of the respective allocations. The process should take a maximum of 10 working days from FSB to JPA action.

h. Post Fleet Commander's approval, Cdr X will collate a final list of all approved SASB2 Command nominations and forward to SASB FSB members for information. This will also precipitate assignment action where necessary.

i. **Second Sea Command Assignments.** All Warfare Commanders who have completed one sea command assignment and who have achieved the appropriate recommendations from that assignment are eligible for consideration for a second sea command assignment. This is a Career Management process and these officers are not reconsidered by the SASB2. They are identified and assigned by Cdr X/Cdr Air. The posts are detailed at Appendix 1 to Annex 59A.

j. **Exceptional Reviews.** An officer can be reviewed after having been graded List C, however this will only be in exceptional circumstances and a formal Appraisal Report has to be raised with a Navy Board member's specific endorsement. The candidate would normally have to meet the currency criteria.

25. AASB2

a. **Zone Criteria.** See Para 21 sub para a. No distinction is made between an individual's Service (Royal Navy or Royal Marines), specialisation (Pilot, Observer or occasionally Air Engineer (Pilot or Observer)) or aircraft type beyond those specified or desirable within the Terms of Reference for the assignment in question.

b. **Evidence.** The evidence presented is the same as at AASB1.

c. **Board Composition.**

	PSB	FSB
Chair	FAA OF6	Navy FGen-Dir
Board Member	FAA OF5 (Note 1 and Note 2)	COMOPS
Board Member	FAA OF5 (Note 1 and Note 2)	Nominated 2*
Board Member	FAA OF5 (Note 1 and Note 2)	
Board Adviser	CM OF AIR SO1	CM OF AIR SO1

Notes:

1. With Command Experience at OF4.

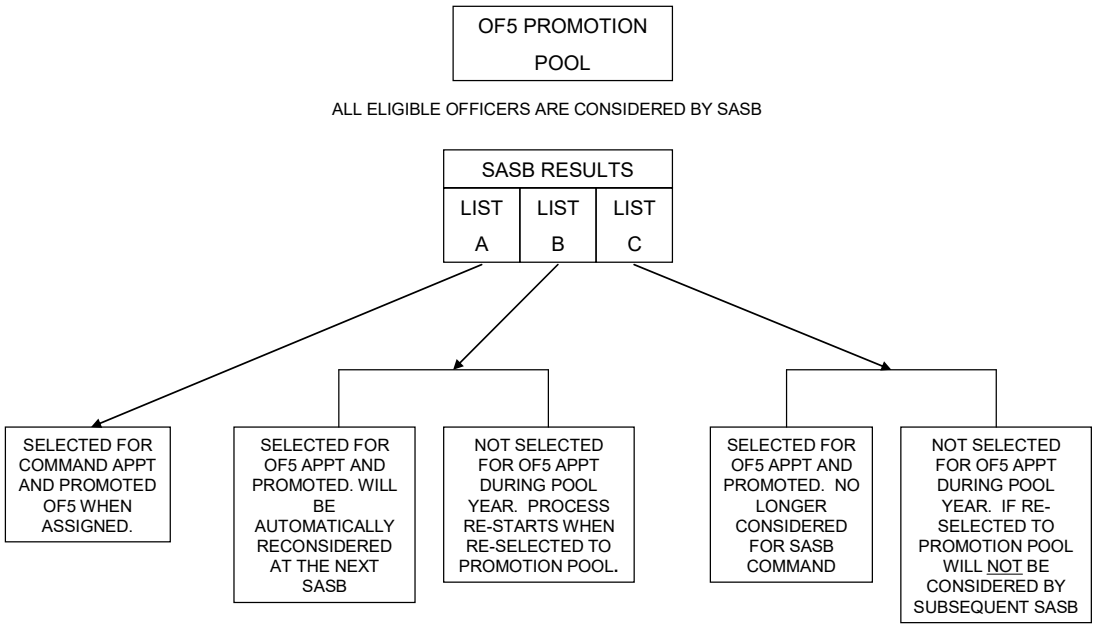
2. A mix is desirable, to include FW, RW and CHF.

d. **Board Procedure.** Similar to Para 20 sub para e and sub para f, however, the PSB may consider the candidates by command type dependent on the numbers of both candidates and available assignments. Post FSB, RAFAA will consult with AOC 1 Group[18] thereafter seeking endorsement from the Fleet Commander of proposed Command assignments. Post Fleet Commander's approval, assignments will be promulgated thereafter.

26. SASB3

a. **Zone Criteria.** SASB3 selects officers to the OF5 Warfare Commands detailed at Appendix 1 to Annex 59A, regardless of specialisation or whether the Command is seagoing or not. Officers will be considered for selection for a Sea or Air Command for their first tour on promotion and, to afford the maximum flexibility and to appoint the very best candidates available at any given time, it is not intended to mandate a limit to the number of reviews an individual should receive but a maximum of 2 or 3 is likely before currency requirements intervene. Officers selected into the OF5 Promotion Pool will be eligible for consideration for OF5 Command. The following diagram represents the relationship between SASB3 and the Pool Promotion process:

[18] Only for following Squadrons 17(R) Sqn, 207 Sqn, 617 Sqn and 809 NAS.



b. **Evidence.** Officers' files will contain all appraisals held in JPA and any letters of commendation or censure.

c. **Board Composition.**

	FSB (1)
Chair	Fleet Commander
Board Member	CSF
Board Member	COMOPS
Board Member	Nominated 2*
Board Adviser	Hd SOCTM

Note. *Board membership will include both Male and Female Officers.*

d. **Board Procedure.** Similar to Para 20 sub para e and sub para f, but the prime determinant for OF5 selection for Sea command is 'Warfighting', supported by the standard factors at Para 7. The SASB3 FSB may sit concurrently with the SASB2 FSB to provide an opportunity to veer and haul Command assignments between OF4 and OF5 Command if required.

27. RM Command Selection

a. The selection of RM officers for OF3 and OF4 operational and shore command assignments will be achieved through a series of Boards: Military Command Board 1 (MCB1) at OF3-level and Military Command Board 2 (MCB2) at OF4-level. RM OF5 Command appointments are selected by MCB3 as advised by the Naval Assistant.

b. The following should be noted:

(1) RM Pilots and SF officers remain eligible for consideration at all of these Selection Boards (providing they are eligible) but will also be subject to consideration for command and staff assignments within their specialist areas through processes detailed elsewhere.

(2) RM Reserves who meet the same criteria as regular offrs, and who are volunteers, will be considered for RMR comd appointments.

(3) Selection of the Commanding Officer of the Special Boat Service (SBS) is the responsibility of the SF Command Board, chaired by Director Special Forces (DSF), who will consult with CGRM to ensure that the RN interest and officer career management issues are taken into account. Once CO SBSRM has been selected, HQ DSF will inform the Fleet Commander. The SF Command Board considers all SF commands that will become available in the period approximately 12 months after the Board. Suitably qualified RM officers remain eligible for all SF commands, including CO SBS, CO SRR, CO SAS(V), CO 18 Sigs Regt. Officers will come into zone for selection between 1-4 years seniority when the Command is due to become available. Officers selected to command the SBS will not be considered for other OF4 RM commands.

(4) Selection for Special Forces sub-unit command (SBS, Special Reconnaissance Regiment (SRR) and Special Air Service (SAS)) is the responsibility of the SF OF3 Sub-unit Command Board, chaired by DDSF. The SF OF3 Sub-unit Command Board normally sits in September and considers all SF commands that will become available in the period approximately 12 months after the Board. Suitably qualified RM officers remain eligible for all SF commands. Officers will come into zone for selection between 2-4 years seniority in the year in which the Board is convened. Officers selected for SF sub-unit command will not be considered for other OF3 RM commands.

c. Each MCB will be guided in their selections by consideration of the following criteria:

(1) **Command and Leadership Skills.** The ability to lead Marines in war and peace, and possession of the mental and physical robustness to withstand the strains of command.

(2) **Professional Skill.** The professional knowledge, ability and experience commensurate with the demands of command at the appropriate level.

(3) **Merit.** Merit is an inherent factor in the selection process in order that the opportunities presented by command are used to ensure that officers with the appropriate reach and potential for promotion gain the requisite experience.

d. **Eligibility.** Candidates will be considered eligible for consideration at MCB as follows:

(1) **OF3s and OF4s (MCB1/2).** As per the criteria in Table 59A-3.

(2) **OF5s.** Officers will come into zone for consideration for OF5 Command when they are selected for the OF5 Promotion Pool. MCB3 selects for OF5 Command. This process is managed by the Naval Assistant.

e. **Timings.** Each year, MCB1 will sit no later than November for assignments the following year. MCB2 will sit no later than March for assignments that year.

f. **MCB Membership.** Membership of respective MCBs is detailed below:

	MCB1	MCB2 – FSB
Chair	DCGRM or nominated 1*	CGRM or nominated 2*
Board Member	RM OF5	Selected RN 2*
Board Member	RN OF5	Selected other TLB 2*
Board Adviser	OCM RM SO2A	OCM SO1 RM

g. **Grading.** Individual officers considered at MCBs will be placed in the following categories:

(1) **Category A.** 'A' grade officers (scoring a grade of A9-1 across all board members) will be placed in the Command Pool for consideration for forthcoming command opportunities.

(2) **Category B.** Officers who have been graded B+ or B and therefore not been selected for command at this time will remain as 'review candidates' until they are selected for command, pass out of zone for command selection, are deemed no longer worthy of serious contention for command, or do not wish to command.

(3) **Category C.** Officers graded C are deemed unsuitable for command at their current rank.

h. **MCB Process.**

(1) **MCB1.** Board Members will read the Officer's Records (OR) (see Note 1) of all eligible officers out-of-session and grade them on a scale of A9 to 1, B+, B or C in relation to the criteria given at Para 24 sub para g above In-session, scores of all the Board members will be aggregated and candidates placed in an Order Of Merit (OOM) (see Note 2). The OOM is then considered and agreed. Candidates graded as list A are selected to the Command Pool for that year. There is no fixed number for the size of the Command Pool, however as a guideline 1.5 times the requirement is generally appropriate. Additionally, a separate MAuN will be included for SQEP candidates for Logistics Commands with the same guideline of 1.5 times the requirement as for the main Command Pool.

Notes:

1. A candidate's OR consists of all OJAR reports including any OF2/3 Comd appointments dating back 6 years including their ICSC(L/M) report (if applicable), and any other career course reports and letters of Commendation and Censure.

2. To avoid serious discrepancy in grading between Board members, the Adviser will bring to the attention of the Board any case where there is a disparity of more than 2 scored points. The Members concerned will be asked to resolve their grades to a maximum disparity of 2 points.

(2) **MCB2.** Board Members will read the ORs (see Note) out-of-session and vote individually on each of the candidates using the voting categories of A9 to 1, B+, B or C, as per MCB1. In-session, votes are totalled and candidates placed in an OOM. The OOM is considered and agreed. The top candidates in the OOM equivalent to the number of command assignments available are placed in the OF4 Command Pool (List A). There is no fixed number for the size of the Command Pool, however as a guideline 1.5 times the requirement is generally appropriate. The remainder of the candidates are placed in List B or List C.

Note. *A candidate's OR consists of all OJAR reports dating since substantive promotion to Major and to include ICSC and ACSC (including equivalent foreign service course) reports (where applicable), letters of Commendation and Censure, and an extract CV sheet.*

i. **Assignment Allocation and Approval.** Following selection into the MCB1 Command Pool, DCGRM (Head of RM Profession) or a delegated RM OF6 will chair a Command Assignment Panel (CAP) which will allocate officers to the available commands, advised by OCM RM SO2A. For the MCB2 Command Pool, DCGRM will chair a CAP supported by Comd CF, Comdt CTCRM and Col RMR which will allocate officers to the Operational and Shore Commands, advised by SO1 RM; these nominations will then be approved by Fleet Commander and Dir P&T respectively.

j. **Promulgation of Results.** On completion of the MCB process, names of those officers selected to the OF3 and OF4 Command Pool will be promulgated by signal. OF4s will be informed by OCM SO1 RM and OF3s will be informed by OCM RM SO2A. Officers categorised as B or C will be notified by their Career Manager.

28. Career Field Command Selection Board (CFCSB)

a. **Applicability.** Any assignment that is designated as a Command Assignment and which appears on the Career Field list will require selection through the CFCSB. This is likely to include most SO1 Shore Command assignments and some subordinate Command assignments.

b. **Zone Criteria.** There are no zones for CFCSB assignments.

c. **Candidate Selection.** CMs are responsible for nominating suitable individuals who meet the requirements of the relevant job spec and the desired qualities outlined in Para 7 above. Unless previously agreed, each CM should nominate no more than one candidate.

d. **Evidence.** SO1 CF Delivery will promulgate the following candidate information to board members, prior to the CCSB:

(1) CV Sheet.

(2) Summary of recent and relevant OJAR history.

(3) Where applicable, advanced Command and Staff Course report (or equivalent foreign service course).

(4) Letters of Commendation or Censure.

e. **Board Composition.**

CFCSB Composition		Notes
Chairperson	SO1 CF DELIVERY	
And a minimum of any 2 from:		
Board Member	CM OF WAR SO1	
Board Member	CM OF AIR SO1	
Board Member	CM OF ENG SO1	Any from AE, ME, WE, ESM or TM
Board Member	CM OF LOGS SO1	
Board Member	CM OF RM SO1	
Board Member	CM RES SO1	

f. **Board Procedure.** Nominees will be proposed by their CMs and Board Members will score candidates for their suitability against the TOR and Command. The highest scoring candidate will be selected for the Assignment. Where appropriate, SO1 CF Delivery may need to consult with the employer to understand any local considerations. Contentious issues should be referred to Hd Career Management as required.

g. **Promulgation of Results.** On completion of the CFCSB, SO1 CF Delivery will inform NAVSEC of the selection. On acknowledgement from NAVSEC, it is the responsibility of the nominating CM to inform their candidate(s) of the outcome, and to nominate to the potential future employer. SO1 CF Delivery will update all records and SCIO notes as a formal Record of Decisions.

29. FSOAB

Full details of the FSOAB process can be found in Chapter 60 Section 4.

30. Subordinate Command

(Inc. Professional Command, Support Command, Training Command, Sub-Unit Command)

a. **Zone Criteria**. The Service Requirement can be met from officers across the seniority range of the rank pertaining to that assignment, with the exception of PC(L) assignments at OF-4, for which the upper seniority limit is 4 years as an OF-4.

b. **Evidence.** Selection Boards will be provided with the documentation for each candidate as described in para 6615.

c. **Board Composition.**

	OF3 PCSB
Chair	Profession OF5
Board Member	Profession OF4
Board Member	Independent OF4
Board Adviser (non-voting)	CM ENG SO1

	OF4 PCSB
Chair	Profession OF6
Board Member	Profession OF5
Board Member	Independent OF5
Board Adviser (non-voting)	CM ENG SO1

d. **Board Grading.** Subordinate Command boards (Professional, Support, Training, Sub-Unit command) will apply a grading to each candidate as follows unless specified otherwise in the board guidance:

(1) **A.** Officers who, in comparison with others of their profession and rank, are ready in all respects for Professional/Support/Training and Sub-Unit Command.

(2) **B+.** Officers who, in comparison with others of their profession and rank, do not merit selection for Professional/Support/Training and Sub-Unit Command this time but who stand every possibility, on current reporting, of being assessed A at the next board.

(3) **B.** Officers who, in comparison with others of their profession and rank, do not merit Professional/Support/Training and Sub-Unit Command this time but who are judged to have the potential to become serious contenders in the next two years.

(4) **C.** Officers who are not currently showing the potential for Professional/Support/Training and Sub-Unit Command in in the next two years.

e. **Timings.** CMs have the discretion to extend the period covered by PCSB selection to meet the requirements of the Service and/or take exceptional and/or personal circumstances into account.

f. **Eligibility.** The PCSBs will review all candidates who:

(1) Are not in, or have not completed, PC(E) roles, in current rank, and meet any additional Branch specific criteria laid down in the associated Annexes. In exceptional circumstances, dictated by the needs of the Service, an individual may be selected to conduct an additional PC(E) role.

(2) Have not submitted notice.

(3) Are not within the final 3 years of Service at the time of the PCSB sitting.

(4) Have not commenced a LFS assignment within the last 24 months.

Notes:

'A' - Normal Assigning/Boarding process as required (appropriate CM OF SO1/DACOS(CM)).

'A1' - Small Vessel Command Selection Board.

1. STCW, CQ1.

2. CQ(A)1.

3. STCW, CQ2.

4. Or STCW, CQ2(MPH).

5. CQ(A)2.

6. SMCC.

7. QAS or Test Pilot

8. Second Sea/Air Command Assignment.

9. Post OF4 Command.

10. Post OF5 Command.

11. The requirement for T23 Command at OF5 will be adjusted to meet operational demands, as identified by COMOPS.

12. Endorsement only - often, because of the specialist nature of the billet there may be only singleton officers available for the post and the relevant Board will be asked to endorse the candidate put forward.

13. STCW, 18 months Qualifying Sea Service and qualified PNO prior to assuming Command.

14. Completed ICSC(L) or ICSC(M)

ANNEX 59B

LOCAL FOREIGN SERVICE (LFS)/LOAN SERVICE - GUIDANCE FOR VOLUNTEERS, LINE MANAGERS AND COMMANDING OFFICERS

1. Introduction

Local Foreign Service (LFS) assignments include all assignments overseas, e.g. exchange, loan, NATO, attaché positions etc. Officers, ratings and other ranks may be selected for LFS assignments. It is important that personnel selected for these assignments are free from financial, domestic or other such problems and CMs may need to question potential nominees in detail on these matters and explain the necessity for medical screening of spouses and families. Nominations for this type of assignment should be considered as early as possible in order to allow sufficient lead time to enable personnel to make timely arrangements for education, medical examinations etc.

2. Detailed Instructions for Career Managers

The pre-requisites and assigning instructions for the types of overseas assignments are at Annex 59C.

3. Individual Considerations

Personnel who have been assigned to or are considering volunteering for overseas assignments should take account of the following:

a. **Medical Requirements.** There is international variation in the provision of healthcare which is delivered in varying environmental conditions. Service Personnel should ensure their Joint Medical Employment Standard (JMES) grading is accurate with their current (pre-deployment) DMS Medical Centre at least three months in advance of an assignment. In order to ensure the safety of individuals and their dependants, a rigorous medical screening process is in place. This is undertaken by the Defence Global Practice (DGP) (formerly the Global Medical Supportability Cell (GMSC)) and further details on the end-to-end process can be found in the following DINs:

(1) **2019DIN01-099.** The provision of healthcare overseas to the Defence Global Network.

(2) **2022DIN01-105.** The Defence Global Practice (DGP) declaration of Full Operating Capability (FOC).

b. **Individual Responsibility.** Upon receipt of an LFS Assignment Order, individuals must commence the screening process, this should include a review and where required an update of the individuals current JMES, which should be completed no later than three months prior to assignment. [1] If a recommendation of medical supportability is not obtained for dependants the individual will be required to serve unaccompanied or the assignment order be cancelled. Annex 59C contains further detail for CMs. Individuals must contact Families Section upon assignment to commence the screening process, which is conducted by the DGP, as follows:

[1] See BRd 1750A, Chapter 16, Para 1601 for further detail. Screening should be completed at least three months prior to assignment.

(1) **Families Section.** UKSTRATCOM-DefSp-DSCOM-FamSec@mod.gov.uk Tel No (Team Mobile): 07977 824330.

(2) **DGP.** UKStratCom-DMS-DPHC-GMSC-Grp@mod.gov.uk / UKStratCom-DMS-DPHC-DGP-Enquiry@mod.gov.uk.

c. **Dental Treatment.** Before proceeding overseas, it is essential that all personnel and their dependants receive a dental examination and that any necessary treatment is conducted. Detailed guidance on dental treatment overseas may be found as follows:

2017DIN01-081. Instructions for Service and Entitled Personnel Serving Overseas who Receive Dental Treatment from Non-Service Sources.

d. **Education.** The range and standard of education available overseas varies widely. In order to ensure that their children will receive the best possible education, personnel with children of school age are strongly advised to seek advice. Detailed information on overseas schooling and on boarding education in the UK is contained in JSP 342 'The Education of Service Children'. Information is also available from the Children's Education Advisory Service:

Senior Education Officer
Children's Education Advisory Service
Trenchard Lines
Upavon
PEWSEY
Wiltshire
SN9 6BE
Telephone: (Mil) 94344 8244
(Civ) 01980 618244

e. **Single Parents.** Being a single parent is not itself a bar to an individual being assigned overseas, however, in some foreign countries there are specific laws concerning arrangements for childcare (e.g. the employment of au pairs, nannies etc.) and thus single parents may face particular difficulties.

f. **Equality and Diversity.** The UK MOD remains an equal opportunity employer and does not discriminate on the grounds of any of the protected characteristics as defined in the EA 2010. However, Service personnel should be aware that the laws and local traditions of countries other than the UK may differ. The relevant Memorandum of Understanding (MOU) or Status of Forces Agreement (SOFA), as well as the Foreign and Commonwealth Office website, will detail the local laws to which UK personnel will be subject to whilst serving in that location. Individuals are not required to disclose some of the protected characteristics personal details to their CMs. Before accepting any foreign assignment, however, personnel should ensure they understand and have considered the implications of any local laws to which they may be subject whilst in post. Once assigned, personnel are to ensure that, where necessary, they can comply with the laws of the host country. This may include providing copies of personal documents (passport/birth certificate) for the purpose of producing local identification.

4. Recommendation for Overseas Service (LFS) - Officers, Ratings/Other Ranks

a. CMs rely initially on the recommendations contained within ARs (OJARs/SJARs) concerning the suitability of volunteers for service overseas. An individual stating a preference for LFS should have a supporting recommendation in both the text and the Future Employment check box.

b. Before issuing the assignment order for any Officer, Rating or Other Rank to an overseas billet, DDPD is to signal the individual's current unit, info NAVY PSYA PORTSMOUTH, for a recommendation of suitability to serve on LFS using the signal template at Appendix 1 to this Annex. PSyA is to raise any objection to such an assignment within seven days, after which the unit CO's response should be sent. Personnel assigned as emergency reliefs at short notice may have to be assigned without clearance. Recommendations for personnel being considered for Loan or Exchange Service will be sent by letter. In coming to a decision to recommend an individual for service overseas, it is essential that they are interviewed by their CO or delegated officer.

c. In replying to any request for a recommendation of suitability, the CO is to state whether or not the subject is fully recommended. In considering such a recommendation the guidance in Appendix 1 to this Annex is to be followed. If the individual is not recommended, the reply should give the relevant sub-paragraphs from the Appendix, e.g. 'not recommended, Paragraph 2'. This will provide the basic information needed, whilst obviating the need to signal detailed personal information.

d. Both the request and the reply are to be treated as OFFICIAL. Information provided will be used solely for the purpose of assessing suitability for the overseas assignment under consideration. Individuals who are not recommended will not be debarred from future consideration for such assignments.

e. It is acknowledged that circumstances can change between initial recommendation and actual assignment. If it is assessed that an individual has become unsuitable for overseas assignment, DDPD is to be informed as soon as possible regardless of proximity to the date of travel.

APPENDIX 1 TO ANNEX 59B

REASONS FOR NON-RECOMMENDATION FOR LOCAL FOREIGN SERVICE

1. By Officers, Ratings and/or Other Ranks current Commanding Officer

Subject does not meet the highest standards required of this LFS assignment for the following reason(s) (use indicator letter only).

a. **Discipline.** A series of recent minor offences might indicate a lack of stability which might make the rating unsuitable for service overseas. If there is a possibility of the individual being connected in any way to an ongoing RNSIB investigation, the RNSIB is to be consulted.

b. **Drug Abuse.** A history of drug related problems will normally prevent personnel being assigned to LFS.

c. **Alcohol Abuse.** A history of alcohol-related problems merits particularly careful consideration and will normally prevent personnel being assigned to LFS.

d. **Welfare.** Overseas assignments can be quite stressful for the most stable of marriages/families. The relevant area RNRMW office should be contacted in cases where there is a current welfare problem, or one which might re-open if the Officer/Rating/Other Rank or their family were abroad, which might indicate unsuitability for service overseas. In the case of unaccompanied service, the Officer/Rating/Other Rank's ability to cope with separation is relevant. Many and varied stresses are placed on otherwise stable marriages during an LFS assignment.

e. **Financial.** The financial affairs of personnel assigned to LFS must be beyond reproach. COs should remember that banking facilities abroad are not the same as those in UK.

f. **Other.** Amplify as appropriate.

2. By Medical Officers

Does not meet the medical requirements set out in BR 1750A, Paragraph 1601.

ANNEX 59C

GUIDANCE FOR CAREER MANAGERS ON LOCAL FOREIGN SERVICE (LFS) ASSIGNMENTS

1. General

a. **Selection.**

(1) It is particularly important that personnel selected for LFS assignments are free from medical, financial, domestic or other such problems. They must have an in-date passport and visas as appropriate. It is recommended that all nominations to overseas assignments are made with the maximum possible lead time to enable families to make timely arrangements for education, medical examinations etc.

(2) In considering relief dates, CMs must take into account school holidays in addition to closed periods for assigning (see sub-para c below).

(3) The UK MOD remains an equal opportunity employer and does not discriminate on the grounds of any of the protected characteristics as defined in the EA 2010. However, service personnel should be made aware that the laws and local traditions of countries other than the UK may differ. The relevant Memorandum of Understanding (MOU) or Status of Forces Agreement (SOFA), as well as the Foreign and Commonwealth Office website, will detail the local laws to which UK SP are subject whilst serving in that location. Individuals are not required to disclose the details of all protected characteristics to their CM. In considering any foreign assignment, however, CMs should ensure that personnel understand and have considered the implications of any local laws to which they may be subject to whilst in post. This may include providing copies of personal documents (passport/birth certificate) for the purpose of producing local identification.

b. **Pre-Joining Information.**

(1) The current unit will provide direction and guidance to individuals who are assigned to overseas posts, ensuring early engagement with DSCOM Families Section, DCYP and the receiving unit as required, It is imperative that Annex A to JSP 770 Chapter 2A is completed at the earliest opportunity in order that any presenting issues are identified and addressed accordingly.

(2) Personnel who serve overseas in their last effective assignment in the Service before retirement will normally be returned to UK in sufficient time to permit them to take Terminal Leave and any Graduated Resettlement Time (GRT) for which they may be eligible, Before finalising such assignments, however, CMs should inform them that they will be unable to return to UK at public expense for resettlement activities prior to the end of their assignments. Personnel should be advised to seek further details on their eligibility for resettlement provision from Naval Resettlement Information Officers (NRIOs).

(3) Once personnel are overseas, they are administered by the JFC Global Support Unit in Glasgow.

c. **Closed Periods for Assignment.** When relief dates are being considered for LFS assignments, CMs should take account of designated closed periods (see below), school holiday periods and the financial implications of school visits for both incoming and outgoing personnel, The periods indicated below should be avoided when reliefs are being planned for the following assignments:

(1) **USA.** Christmas to early January.

(2) **Norway and Denmark.** December to March.

(3) **Canada.** November to February.

(4) **Australia.** December and January.

d. **Medical Screening for LFS Assignments.** The quality of healthcare, provision of medicines and environmental factors vary widely internationally; therefore to ensure that the health needs of service personnel and their dependants are assessed correctly, a rigorous screening procedure is in place. Primarily, this is to ensure the safety of personnel and their dependants, but it also limits the complications that can arise when all family health factors have not been assessed fully. Service Personnel should ensure their Joint Medical Employment Standard (JMES) grading is accurate with their current (pre-deployment) DMS Medical Centre a minimum of three months prior to assignment.

e. **Guidance for Career Managers.** Assigning Authorities should use the individual's JMES as initial assessment of being fit to be assigned to a given overseas location. Within Defence Primary Healthcare (DPHC), the Defence Global Practice (DGP) (formerly Global Medical Supportability Cell (GMSC) has been established to ensure that Service Personnel and their dependants can receive safe and appropriate care during the LFS assignment[1]. To enable this, the DGP undertakes centralised screening of dependants and tracking of Service Personnel within the Global Virtual Practice (GVP). The administrative process for this is as follows:

(1) **Serving Accompanied.** The individual must contact the Families Section at Defence Support Chain and Operations Management (DSCOM), which will provide a travel pack and collate necessary screening for dependants (medical and educational). This must occur 6 months prior to assignment date, or as soon as the Assignment Order is issued (if later). The CM must also contact the DGP to inform it of the requirement and enable tracking of the medical screening, and the DGP will communicate the final screening recommendation.

(a) **Families Section.** UKSTRATCOM-DefSp-DSCOM-FamSec@mod.gov.uk Tel No (Team Mobile): 07977 824330.

[1] See 2022DIN01-105- The Defence Global Practice (DGP) declaration of Full Operating Capability (FOC) for further detail.

(b) **DGP.** SGDPHC-O-GMSC-UKStratCom-DMS-DPHC-GMSC-Grp@mod.gov.uk / UKStratCom-DMS-DPHC-DGP-Enquiry@mod.gov.uk.

(2) **Serving Unaccompanied.** The CM must also inform the DGP of unaccompanied LFS assignments. This is to enable the GVP to maintain tracking of the individual's medical care,

(3) **Consecutive LFS assignments.** In the circumstance that the CM plans to assign an individual from one accompanied or unaccompanied LFS assignment to another, then the above screening process must still be followed.

(4) **Non-supportability.** There will be cases where the DGP is unable to issue a recommendation of medical supportability for a planned LFS assignment. Dependent upon the specific circumstances, this may result in the CM either cancelling an Assignment Order or requiring an assignment be unaccompanied. In the event that either the individual or their CM intends to proceed with an accompanied LFS assignment, despite a DGP recommendation of medical non-supportability, the appeals procedure is to be followed:

(a) **Stage 1.** Initial review conducted by DGP. Service Personnel are required to submit their appeal to DGP within 10 working days of receiving the negative recommendation – details of how to do this will be included in that recommendation.

(b) **Stage 2.** If non-supportability is confirmed, the individual can choose to appeal to their parent Service and engage with their Career Manager (CM). They will be asked to complete a consent form (Appendix 4 to Annex 59C) so that details of the case can be discussed by relevant individuals. A panel will then be convened, chaired by the relevant SO1 Career Manager, involving AH Specialist Health Adviser (RN Healthcare) and SO1 Employment Law. Prior to meeting, panel members may make their own enquiries as long as consent has been obtained from the individual or dependent. The panel will then meet, either in person or virtually, and discuss the case. A summary of the decisions made will be recorded by the Chair. This will form the basis of a recommendation to Head Navy Career Management, who will make the decision at this stage of the appeal. In the event of the DGP decision being challenged, the appeal will move to the third stage for a final decision.

(c) **Stage 3.** If the results of the first 2 steps are at variance, then a final decision is made by a multi-disciplinary third-party review which includes the overseas Command. This panel is convened by Defence Primary Healthcare (Overseas).

(5) **Assignment Order.** When issuing the accompanied LFS Assignment Order, CMs are to ensure that the following are added as Notes:

(a) This LFS assignment is subject to satisfactory pre-screening checks.

(b) Contact Families Section: UKSTRATCOM-DefSp-DSCOM-FamSec@mod.gov.uk Tel No (Team Mobile): 07977 824330.

(c) Failure to complete satisfactory pre-screening will result in either an unaccompanied or cancelled assignment.

(6) **DGP Further Details.** Further details of the DGP may be found in the following DINs which detail the end-to-end medical screening process:

(a) **2019DIN01-099.** The provision of healthcare overseas to the Defence Global Network.

(b) **2022DIN01-105.** The Defence Global Practice (DGP) declaration of Full Operating Capability (FOC).

f. **HIV Testing of Personnel Attending US Military Training Courses.** The Principal Personnel Officers (PPOs) of all three Services have agreed that the UK will comply with the requirement for personnel to be tested for HIV prior to attending training courses in the USA. The testing requirement relates solely to those undertaking military training courses and does not include families who may be accompanying those personnel. RN Medical Officers have received suitable instruction in the obligatory counselling required as part of the testing process. Testing should be arranged by the individual concerned through their unit medical centre.

g. **Language Training - Eligibility.** Only officers and ratings on the trained strength, taking up specific assignments with a foreign language requirement i.e.. attachés and loan service personnel, are entitled to language training at public expense. Officers assigned to Overseas Staff Courses are also eligible for appropriate language training. Course details are published annually by DIN.

h. **Administration of Appraisal Reports.**

(1) For assignments to LFS and seconded posts, CMs need to identify a clear reporting chain for the individual before they take up the position. CMs are to take particular care to ensure that appraisal reports are rendered at the appropriate time on RN personnel in non-RN posts e.g. loan/exchange positions, attachés etc, Where necessary, CMs are to communicate personally with the reporting officer providing details of the JPA offline reporting process[2].

[2] JSP 757 - Tri-Service Guidance for Appraisal Reporting.

(2) All exchange and attaché posts have a nominated Fleet 1 Star sponsor. They will be responsible for providing a staff officer of appropriate rank to act as mentor and administer the reporting chain. Details of the sponsors will be published by DIN.

i. **Personal Security Defensive Briefing and Debriefing.** Details of countries where a significant security threat exists can be found in JSP 660[3]. Information on briefing and debriefing requirements for personnel assigned to these countries can also be found in the JSP. If there is any doubt as to whether there is a requirement for a security briefing, advice can be sought from NAVY PSyA-CI CPO (VB 9380 27141). This does not apply to officers being considered for Attaché or Adviser posts for whom separate instructions apply (see Para 3 below).

j. **Security Clearance.** Where an overseas assignment requires a DV clearance, CMs should ensure that the Security Clearance (SC) will remain valid for the entire period. If the expiry date falls during the assignment, the clearance is to be renewed prior to departure. SC can be obtained through the SYVETT cell using the application form at Appendix 1 to Annex 59C.

k. **NATO Security Clearance.** Personnel assigned to any NATO position require a NATO Security Clearance Certificate; this can be obtained through the SYVETT cell using the application form at Appendix 2 to Annex 59C. If the position also requires DV clearance the SC certificate can be requested concurrently with the DV application (see Para 5805).

2. NATO and EU Assignments

a. **Selection Policy.** NATO experience should be regarded as an important element of career building for officers destined for senior assignments. The Chiefs' of Staff policy on NATO representation requires that UK influence and effectiveness be maximised within the constraints imposed by the available workforce. Current Operations, together with commitments to the NATO Response Force, all require British staff in many NATO assignments to be available for operational deployment world-wide. The following guidelines are intended to assist CMs in their selection process and to advise on the liability for deployment from NATO HQs:

(1) The ACO second level headquarters at Brunssum, Naples and Lisbon will all be required to find, from their PE, the staff for Deployable Joint Task Force (DJTF) headquarters. All positions, therefore, should be filled by personnel capable of world-wide deployment.

(2) The ACO third level air component command headquarters at Izmir and Ramstein will be fully deployable. The maritime components at Northwood and Naples will also have a deployment capability for operations at the higher end of the spectrum but the land components at Heidelberg and Madrid should be static (their deployment tasks being undertaken by High Readiness Forces (HRF)).

[3] JSP 440 Part 6 Section 4 Personnel Security - Travel and Contacts.

(3) All personnel on the strength of the various HRF headquarters, STRIKEFORCE SOUTH and similar formations should be considered as filling potential war-fighting assignments.

(4) All other NATO entities and agencies are less likely to be heavily involved in deployed operations but could still be requested as augmentees or specialists. Direct discussions with line managers and the relevant Senior British Officer (SBO) should take place, therefore, prior to assigning personnel with significant employability caveats to such positions.

b. **Nominations.** CMs are to forward nominations to the SBO at the appropriate NATO HQ using the appropriate nomination format available as detailed on the CAPPs web page. Details vary slightly between Commands and are as follows:

(1) **NATO HQ Brussels, IMS Brussels, MAS and EU Military Staff.** Nominations for all assignments are to be addressed to:

Chief of Staff of UKMILREP, NATO HQ, BFPO 49

(2) **SHAPE.** Nominations, accompanied by biographical details in the format detailed on the CAPPs web page, should be forwarded as indicated below. It may be appropriate to forward extra details for the most senior assignments.

(a) SHAPE HQ - Nominations for Captains:
UKNMR SHAPE BFPO 26

(b) SHAPE HQ - Nominations for SO1s and below:
Deputy UKNMR (Navy) SHAPE BFPO26

(c) Major Subordinate Commands and Principal Subordinate Commands.
Appropriate HQ Senior British/ Naval Officer.

As the Commanding Officer of the RN elements at SHAPE and NATO HQ and the MOD Representative in ACE for Naval establishment and workforce matters, all nomination letters - if not already addressed to Deputy UKNMR (Navy)for action - should be copied to that address for information.

(3) **SACT.** Nominations should be forwarded as indicated below; Nomination letters should indicate the officer's 'prospective rotation date' i.e. FAD. A copy of the nomination is also to be forwarded to the appropriate local UK representative:

SACT HQ, ACT ASW Research Centre La Spezia, SACTREPEUR.

DEPUTY SACT, SACT HQ, Norfolk Va. 23511 USA.

Copy to: Security Officer, Naval Party 1964, BFPO 493.

(4) **COMNAVNORTH.** As for nominations to Fleet Cdr.

c. **Pre-Joining Courses and Briefings.**

(1) A number of NATO assignments have a potential commitment for operational deployment to theatre HQs. Personnel assigned to a NATO billet who are aware of a commitment to deploy during the first year of their tenure should attend RNMC for IPDT prior to commencing their assignment. Those who start a NATO assignment and are subsequently told that they are deploying should return to UK for IPDT at RNMC. Equipment and clothing will be provided in theatre.

(2) Personnel should attend the following briefings prior to taking up their assignment:

(a) **NATO Command Structure Assignments.** (HQ NATO, SHAPE, SACT, JFC Brunssum, JFC Naples, ACCs, MCCs, JSRCs, 280 Sigs, ACCAP) and EU assignments:

Those posted to NATO Command Structure and EU assignments should make contact with the appropriate desk officer within the NATO and European Policy Group (Directorate for Policy on International Organisations (DPIO)) and, in addition, should attend one of the two NATO and EU Briefing Days that DPIO organises each year.

(b) **NATO Force Structure Assignments,** (HQ ARRC, UKMARFOR and other High Readiness Force Headquarters):

Those posted to NATO Force Structure assignments should attend one of the two NATO and EU Briefing Days that DPIO organises each year.

(c) **Naval Staff Briefing.** All personnel assigned to NATO/EU or UN posts, including those destined for the NATO Defence College (NDC) are, if possible, to attend a Briefing Day before taking up their assignment. The Briefing Days are held twice per year in MOD Main Building; details of dates and availability of places are available from DPIO-SO2 COORD.

(d) **Deployment in Support of Peacekeeping Operations.** All officers posted to NATO Joint or Regional Headquarters are liable for onward deployment to any area on peacekeeping operations. CMs should therefore comply with instructions on pre deployment training for all such assignments.

(e) **NATO School Oberammergau.** The list of courses at the NATO School Oberammergau is published annually in June for the following year. NAVY PEOPLE-HQ N8 SO2 B coordinates all bids for attendance on courses.

d. The priority for briefings for SO1 and below is the appropriate DPIO brief and NATO Orientation Course at Oberammergau. CMs should make every effort to ensure that personnel destined for NATO posts, especially for the first time, attend these courses.

3. Defence Attaché and Embassy Support Staff Posts

a. Defence Attaché (DA) and Embassy Support Staff (ESS) posts come under the auspices of the FCO and the Defence Engagement Strategy – Overseas Support (DE STRAT OS) Staff. Advice is available from (DE STRAT OS), Preparation and Post Support on (020 721) 9621 82053/87154. An Aide Memoire for CMs when considering a nomination for an attaché post can be found at Appendix 3 to this Annex.

b. Officers being considered for attaché posts are to be warned that they must exercise discretion concerning the assignment and should discuss it only with persons who have a 'need to know'. This applies even after the assignment has been confirmed. CMs are to bear in mind the onerous social obligations which will be demanded of the officer's spouse and the possible domestic difficulties which might be encountered. In the likely case that the spouse is unknown to the CM, careful enquiry of the officer concerned will be necessary to obtain their assurance that these obligations are acceptable to their spouse.

c. **General Requirements.** Nominees for DA and ESS posts will require the following:

(1) DV clearance, valid for the whole period of the posting.

(2) Diplomatic security clearance (only for DA nominations).

(3) British passport (and their spouse's (see Para 3 sub para e).

(4) Medical and dental fitness (and dependants).

d. **Diplomatic Security Clearance.** Diplomatic Security Clearance is obtained by Navy PSyA from the FCO security authorities. When first considering an individual for a post of this kind and before entering into any undertaking with the individual concerned, the CM is to contact Navy PSyA Aftercare SO3C in writing to ascertain if there is any likelihood that the individual might not be granted diplomatic security clearance. There is to be no exception to this procedure. If the individual already holds a DV clearance, and a favourable response is received from Navy PSyA, the CM may proceed with the nomination process. In cases where the individual does not hold a DV clearance, Navy PSyA will not usually be able to express an opinion (except perhaps, exceptionally, an unfavourable one). In such cases, at the time of writing to Navy PSyA, the CM should initiate an application for DV clearance, making it clear that it is for diplomatic purposes. A minimum of 6 months must be allowed for completion of the DV clearance procedure. When the clearance has been given, Navy PSyA will provide an opinion on the individual's suitability for diplomatic security clearance.

In cases where the individual holds a DV which will expire during the course of the proposed posting, a full DV review is to be initiated at the same time as the initial contact with Navy PSyA; it is an FCO requirement that personnel hold a DV which is valid for the entire length of their tour. Again, it should be made clear that the review is for diplomatic posting purposes. The request for formal security clearance will be made by Navy PSyA to FCO when full DV clearance is completed. Diplomatic clearance from the Ambassador at Post will not be forthcoming until security approval has been given; it is therefore imperative that the security process is completed at the earliest opportunity.

e. **Nationality Requirement.** The FCO requires that the individual must hold a British passport endorsed: "British Subject: Citizen of the United Kingdom and Colonies", Non-British spouses do not normally need to obtain a British passport, but this is strongly recommended for certain countries. In deciding upon the acceptability of an individual and their spouse for service at an Embassy/High Commission, the FCO is also required take account of:

(1) The nationality, if not British, of the individual's parents and those of their spouse.

(2) Details of any family connections in the country to which an individual is being posted.

(3) Details of the individual's schooling if this was not in UK.

(4) Whether the nominee is divorced and, if so, whether they have remarried. (The circumstances of the divorce should also be described if that information is available.)

f. **Medical and Dental Fitness.** Careful consideration should be given during the selection stage (i.e.. prior to making a nomination to DE STRAT OS to nominees and/or their dependants who have a doubtful medical history or who have recently had major operations and who may, in consequence, need to return to UK for check-ups outside home leave periods). CMs should consider this aspect carefully to ensure that, as far as possible, candidates and dependants thought likely to incur high medical or dental costs overseas are not nominated for Embassy/High Commission duties. Reference is to be made to dependants' health, as revealed by screening, in the biographical details of the officer at the time of nomination to DE STRAT - OS staff.

g. **Nomination and Assignment.**

(1) **Defence Attachés.**

(a) Once the nominee has both DV clearance and Navy PSyA's preliminary acceptance of suitability for diplomatic clearance, the CM is, simultaneously, to:

i. Request Navy PSyA arrange for diplomatic security clearance.

ii. Nominate the officer for the attaché position, using the format available on the CAPPS web page, by e-mail to meet the nomination deadlines promulgated in the Attaché Lists and in the CAPPS List, These are to be followed by hard copies of the nomination as a back-up, Following acceptance by MOD and by ACDS(ISP), DE STRAT-OS Staff will arrange for diplomatic clearance of the nomination with the FCO. Nominations for attaché posts should include a reasonably full 'pen picture' of the officer with a description, culled from their reports, of the attributes which bear on their suitability for the assignment. Any statement of service should specify the class of ship or type of establishment in which the officer has served. The nomination should also include details of the nationality and background of the officer and their spouse.

iii. Once the nomination has been approved, DE STRAT-OS staff will write to the officer providing details of training, preparation and the move to post. Whilst the training package is being undertaken, the officer needs to be allocated a naval parent admin unit as DE STRAT-OS does not provide this type of support.

iv. The Assignment Order for briefing and training can be issued as soon as the nomination is approved, however, the assignment to the post itself should not be issued until all the clearances have been received and no sooner than 3 months before its effective date.

(b) A brief on this nomination process can be found within Appendix 3 to this Annex.

(2) **Embassy Support Staff.**

(a) When a post is due for relief (with necessary lead time for training), suitable candidates are found via a signal trawl. Once selected and when DV clearance has been arranged, the nominee's CV is to be sent by e-mail to meet the deadlines as promulgated by DE STRAT-OS staff. If the nomination is approved by the relevant DA, DE STRAT-OS staff will write to the candidate providing details of training, preparation and the move to post. Whilst the training package is being undertaken the nominee needs to be allocated a naval parent admin unit as the DE STRAT-OS does not provide this type of support.

(b) Once the nomination has been approved and provided DV clearance has been issued, the nominee can be assigned to the post.

4. LFS Exchange Assignments

a. Assignment of RN Personnel to LFS Exchange Posts.

(1) **Selection.** One of the purposes of exchange assignments is to learn about other navies/services and facilitate 'cross-fertilisation'. CMs should, therefore, select personnel who have a worthwhile period of service remaining on completion of their exchange assignment (i.e.. a minimum of 2 years to serve). CMs may wish to consult CM POLICY & MI SO2C before taking action to select an individual for an exchange assignment.

(2) **Nominations.** The CM will write directly to the appropriate national, or service, authorities when nominating an individual for an exchange assignment. For SO1s and below CMs should use the formats available from the DDPD CM team-site to submit details of application. CMs should note the following specific national requirements, and CM POLICY & MI SO2C may have other details of specific post requirements:

(a) **Australia.** In order to allow particulars to be arranged between CMs and Sponsoring Officer, 3 weeks should be allowed between 'ready to move' date and effective date of assignment.

(b) **USA.** In nomination letters for officers destined for exchange service in the USA, CMs are required to include a clear statement of the officer's security clearance.

(c) **Canada.** The standard handover between officers is 5 working days, In order to balance professional demands with family and housing concerns, officers should be assigned to arrive in country on a Friday with the outgoing officer returning to UK the following Friday.

(3) **Sponsoring Officers.** All exchange posts, both at home and abroad, have a sponsoring officer. This will be confirmed by CM POLICY & MI SO2C during the nomination process. A copy of the nomination letter should be sent to the appropriate sponsoring officer who will in turn supply the incoming officer with relevant pre-joining information.

(4) **Overseas Deployments to Third Countries During Exchange Tours.** CMs who administer exchange positions are to ensure that they are made aware in advance of any plans for UK exchange officers to deploy to third countries. When such deployments are envisaged, the following procedures should be followed:

(a) **Deployments within PJHQ's Joint Operational Area.** Details of the individuals concerned, dates and planned activities should be forwarded to J9 branch in PJHQ. J9 will scrutinise the proposed deployment in relation to jurisdictional and force protection considerations as well as our defence relationships with the nations concerned. They will then take the necessary action to inform or consult Ministers. Where possible, at least 10 days' notice should be provided to ensure this process can be completed prior to the deployment taking place.

(b) **All Other Deployments.** Similar details should be sent to the desk in International Policy and Planning with responsibilities for the country into which the deployment is planned. They will then take similar actions to those undertaken by PJHQ J9, as set out above.

b. **Assignment of Overseas Personnel to RN/RM Exchange Posts.**

(1) CMs will receive nominations through CM POLICY & MI SO2C from national authorities. Once the nomination has been approved by the relevant Ship or Establishment, CMs are to inform CM POLICY & MI SO2C who will reply directly to the respective national authority and raise a JPA account for the nominated individual.

(2) Once the Ship or Unit position has been identified, Navy PSyA should be consulted with reference to the level of security clearance required for the individual,

(3) Restrictions on operational deployments may apply. Prior to acceptance of a nomination, CMs are advised to check any limitations on deployments for overseas personnel.

5. Loan Service Assignments

a. Detailed arrangements for Loan Service Assignments can be found in JSP468 (Joint Service Manual for the Loan and Secondment of Personnel to Commonwealth and Foreign Forces),

b. In order to comply with JSP 468, CMs must ensure that all personnel to be nominated for Loan Service complete and return the Loan Service application at Annex 1B and Appendix 1 to JSP 468. This must be returned to the CM countersigned by the appropriate SO1 CM and then forwarded to DE STRAT-LSP1.

6. Service on Loan - Exercise Long Look

a. Periodically, Exercise 'Long Look' is initiated, when personnel are exchanged between the Royal Navy and the Royal Australian or Royal New Zealand Navies. This is not Loan Service and is a loan as opposed to an assignment. CMs are not required to initiate clearances or become involved other than to give assigning clearance for the period of the loan i.e.. there is no plan to assign the individual for whom clearance is being sought away from their present unit and therefore the unit can arrange the exchange of personnel. CMs should be aware that the exchange agreement entails employing a Commonwealth Service Person in place of the UK Service Person and that individuals are offered up for loan on the basis of compatibility of employment. It follows, therefore, that a request for a relief due to the Commonwealth Service Person being incompatible with the UK assignment is inappropriate.

b. As personnel are loaned, Assignment Orders are not issued for Exercise Long Look, but a Scribble pad notation may be used to record an individual's participation,

7. Peace Support Operations

a. The RN provides personnel to a variety of international peace support operations (PSO) around the world e.g. Afghanistan, Bosnia, Congo, Liberia, Georgia, Iraq, Kosovo, Mali and Sierra Leone, but other similar operations can and will occur. They may come under National, NATO, EU or UN Command.

b. Most of these posts operate on a six-monthly roulement. These posts are not dedicated to a single Branch will be managed through the CAPPS process. They will be allocated to Branches in advance in proportion to the Branch populations. The posts are defined as 'operationally essential' and are to be filled as a matter of priority. To meet deployment targets, CMs must work well in advance to ensure that suitable personnel are identified and trained in time.

c. Most deployments will require individuals to undertake IPDT/OPTAG Training (SA80 or 9mm as advised) and First Aid training,

8. Assignment to the USA.

In addition to the general guidance above, the following procedure is to be adopted for assigning officers (SO1 and below) to posts in the USA. Failure to do so may result in significant delays or an inability to access military establishments or healthcare on arrival:

a. **Exchange Posts.** Personnel assigned to the US as part of the MPEP work for a Department of Defense (DoD) Chain of Command (CoC) and are required to be accepted onto the programme by the US Command hosting the position. Acceptance must be received prior to the assignment order being issued. The British Navy Staff in the British Defence Staff (BDS) within the British Embassy in Washington D.C. administer the liaison between Career Managers (CM) and the Pentagon. This role is undertaken by the MPEP Support Officer.

b. **Liaison Posts.** Personnel assigned to the US in a Liaison post do not work for the DoD, instead they remain working for a RN or RM CoC. The Naval Attaché approves the appointment. The British Navy Staff in the BDS within the British Embassy in Washington D.C. administer the liaison between CMs and the Naval Attaché. This role is undertaken by the BNS Co-ord.

9. Assignment Process

a. **MPEP and Liaison Positions.** CMs are responsible for identifying potential reliefs for posts within the US. For Commanders, they should discuss by telephone with ANA and for others with the sponsor officer. Once suitability and timing have been agreed verbally, CMs send BDS(US) (addressed PS/ANA to ensure central administration) a letter enclosing the necessary nomination, CV and Security clearance. Nominations are to be received in sufficient time to allow staffing to take place and no later than 3 months before the previous incumbent's TOUREX. It is important that nominees are made aware that they are not formally assigned to a position until they have been accepted and that they should incur no expenses relating to the potential assignment until the CM receives their formal notification to raise the Assignment Order.

b. **MPEP Positions within the US Intelligence Departments.** There are additional clearance processes required to ensure personnel assigned to MPEP positions within the US intelligence departments have received the required clearances prior to arrival. This can take in excess of 6 months. The process must therefore start at least 7 months prior to anticipated arrival. Career Managers must ensure that nominees have TS clearance prior to nomination and that they have or can be processed onto the GCHQ IT system once acceptance is received.

c. **Form 1907 Process.** The Form 1907 is required to generate a Foreign Visits Request and is contained in US DIN (2020DIN03-015). All personnel assigned to the US are required to complete the form at least 35 days prior to travel in accordance with current guidance1. The Form must also include the details for all individuals accompanying the serviceperson to the US, including spouses and dependent children. An accepted Foreign Visit Request is required for access to the parent military establishment. Failure to complete the Form 1907 will result in considerable access issues on arrival and may impact on the individual and their family's ability to register for medical care. Completed forms for Liaison Assignments should be sent to the BNS Coord.

d. **Form 1907 for MPEP Assignments.** The 1907 form is for all short-term and permanently assigned visitors to the US. The DIN (2020DIN03-015) does not, however, provide guidance for MPEP assignees. Supplementary guidance has therefore been written to assist personnel assigned to the MPEP. The CM should forward a copy of the guidance and the form to the assigned person on issue of the assignment order. Once the Form 1907 has been completed by the assigned person, it must be returned to the Career Manager for Section 4 to be completed. By dating the form, the CM is confirming that details have been checked against the JPA competencies record and that the assigned person holds the required security clearances for the post. Completed forms for MPEP personnel are to be returned to the MPEP SO for staffing within the Embassy.

e. **Additional J1 Processes.** Once assigned all other J1 actions relating to moving to the US are administered by the J1 team in the British Embassy and are triggered by them receiving the Assignment Order JPA workflow. A copy of the Assignment Order should also be work-flowed to JPA Position 1298763 in the Embassy. Mandatory Arrival Briefs are held every 2 weeks for all personnel assigned to the USA. Assignment Orders should provide details of this brief (evidence suggests that the attendance at the Arrival Brief ensures a smooth administrative arrival process through challenging US bureaucracy).

f. **Contact/Further Questions.** Any questions relating to the process for assigning personnel to the US should be directed to:

(1) **MPEP Assignments** - MPEP SO at BDSUS-RN-PEP@mod.gov.uk.

(2) **Liaison Assignments** - BNS Co-ord at BDSUS-RN-Team@mod.gov.uk.

APPENDIX 1 TO ANNEX 59C

FORMAT OF LETTER FOR NOTIFICATION OF REQUIREMENT FOR MEDICAL SCREENING OF DEPENDANTS

Navy Healthcare Division
Navy Command Headquarters
First Floor
Leach Building
Whale Island
PORTSMOUTH
Hampshire
PO2 8BY

MEDICAL SCREENING OF DEPENDANTS FOR LOCAL FOREIGN SERVICE

1. You are being considered for Local Foreign Service accompanied by your family. An essential factor that must be considered in this is the ability to ensure adequate healthcare for your family in an overseas location.

2. The quality of healthcare, provision of medicines and environmental factors vary widely internationally; therefore a screening process is necessary to ensure that your dependants' health needs are assessed correctly. Primarily, this is to ensure the safety of your dependants but it also limits the complications that can arise when all family health factors have not been assessed fully.

3. A number of cases have arisen where Service Personnel (SP) failed to ensure screening of all their dependants or failed to declare all known conditions. This has resulted in cancelled assignments, individuals returned early or having to serve unaccompanied. It has also resulted in risk to individual dependants and significant cost to some SP who have had to resort to private healthcare for their families.

4. A pre-existing medical condition does not necessarily result in personnel and their families being excluded from LFS opportunities; however, it is appropriate that the RN assesses the risk and provides guidance to families considering foreign assignments. If a dependant has a medical condition that they believe needs to be considered before agreeing to a provisional assignment plan they should be encouraged to discuss it with the Global Medical Supportability Cell (GMSC), email: UKStratCom-DMS-DPHC-GMSC-Grp@mod.gov.uk. Clearance is given on the basis that an individual is fit to travel and reside in a country, taking into account that local medical care can adequately and safely meet the healthcare needs of the individual. Some conditions may be exacerbated by particular climates. The quality of healthcare available may vary significantly from the UK and custom and practice may be different. Even in Western Europe or the USA some drugs or treatments may not be available. The decision regarding each individual family member's medical clearance rests with GMSC / DGP, who may require individuals to engage with their GP in order to make a decision on fitness to travel. Appeals of a decision will be processed in accordance with direction at BRd 3(1), Chapter 59, Annex 59C, Para 1, e, (4).

5. You are required to request and complete a medical screening questionnaire through the Families Section: UKSTRATCOM-DefSp-DSCOM-FamSec@mod.gov.uk Tel No (Team Mobile): 07977 824330[1]. It is imperative that you:

a. Include all family members who will reside with you, including children in boarding school who will be with you for holiday periods.

b. Complete the questionnaires fully with no omissions.

6. Full, open and honest engagement will enable GMSC / DGP to make an informed assessment of the situation and ensure the healthcare needs of your family can be met in the country to where you will be posted.

[1] Further information is contained in BRd 3(1), Ch 59, Annex 59C, Para 1, e, (1), (a) and (b).

HEALTH GUIDANCE NOTES FOR FAMILIES PROCEEDING OVERSEAS

1. Introduction

Families travelling on assignment overseas should be aware that medical and dental facilities and resources are often less comprehensive than those available in the UK. The department will consider you and your family's health and medical history prior to travel to avoid any associated risk and confirm that the appropriate level of health care can be provided in your future destination where applicable.

2. Medical Self Declaration Questionnaire

Dependants travelling on overseas assignment must be screened by the Defence Medical Services (DMS) Global Medical Supportability Cell (GMSC). Medical Self Declaration Questionnaires must be completed for all spouses/civil partners and dependants. You should complete all sections of the medical screening questionnaire prior to submitting it to the GMSC/DPG. In addition, it may be a requirement for medical cover for dependants who will be visiting only in the school holidays e.g. those children who currently attend Boarding School. This differs from country to country. Specific requirements should be confirmed with the medical authorities in the country of destination.

3. On completion, the questionnaire must be submitted to GMSC. If any medical or welfare issues are highlighted, GMSC will contact you for further information. The completed questionnaire(s) must be sent as soon as possible but no later than two months prior to travel to allow sufficient time for your history to be reviewed.

4. Current/Ongoing Medical Treatment

If you or your children are currently on any course of medical treatment, outpatient review, waiting list or rehabilitation, it is essential that you ask your doctor to provide you with a report to pass to the doctor in your future overseas station. If you are on a course of prescription medicine, you should ask for an additional three-month supply in case of difficulty or delay in ordering suitable medication at your future location.

5. Dental Treatment

Standards of dental treatment may vary considerably in overseas; locations and occasionally may not meet that of the NHS or a UK private practice. You are strongly advised to arrange for dental check-ups for all your dependants, with sufficient time to complete any subsequent treatment prior to the date of your travel.

6. Immunisation

Please be aware that many overseas locations are in environments that could potentially expose you to a greater risk of illness or disease than the UK. Previous vaccination history, age, geography, local travel, standard of accommodation and lifestyle are all factors that should be considered when you seek advice about vaccinations. You should contact your GP Surgery as soon as possible to arrange any additional vaccinations. Please be aware that vaccinations are not always immediately available and may need booking in advance, so this must be done early. Further advice is available from NaTHNaC (The National Travel Health Network and Centre).

7. Reimbursement of Fees in Support of Medical Examinations

Fees incurred for medical examinations, or vaccination requirements in association with your posting, can be re-claimed through JPA. You may also wish to consider applying for an Advance of Pay to cover these fees; advice should be sought via your UPO or Unit Admin office.

8. Expectant Mothers

a. Under normal circumstances, pregnant women may travel by air without special precautions up to four weeks prior to the date of confinement (considered the 36th week of pregnancy) provided that:

(1) There is no history of significant bleeding at any stage of pregnancy.

(2) There is no history to suggest that premature onset of labour is likely.

b. A doctor's letter is required for all women travelling between the 28th and 36th week, confirming the estimated date of delivery and that the above criteria have been met. Travel after the 36th week of pregnancy will only be permitted in exceptional circumstances and the Families Section should be contacted for further advice in this instance.

c. For twin pregnancies, expectant mothers will not be permitted to travel as an ordinary passenger after the end of the 32nd week.

APPENDIX 2 TO ANNEX 59C

SECURITY CLEARANCE CERTIFICATE APPLICATION FORM (Revised 07/08)
SYVETT-003A / SC

This notification is to inform you that SC is required for:

Surname	
Forename	
Rank	
Service No

APPENDIX 3 TO ANNEX 59C

ATTACHE AND DEFENCE ADVISER POSTS - AIDE MEMOIRE FOR ASSIGNING AND NOMINATION BRIEF

1. Assigning Check List

a. **Career Manager.**

(1) Checks nationality qualifications of officer and their spouse.

(2) Checks medical and dental fitness of officer and requests medical screening of dependants (Appendix 1 to Annex 59C).

(3) Seeks PSyA opinion on officer's suitability for diplomatic security clearance and initiates application for DV clearance (if not already held by officer or if clearance expires during period of assignment (Para 5805)).

b. **NAVY PSyA.** Gives opinion of officer's suitability for diplomatic security clearance either immediately or on completion of the DV clearance process, whichever is appropriate(Para 5805).

c. **Career Manager.**

(1) Nominates officer to Defence Engagement Strategy – Overseas Support (DE-STRAT-OS) using format on CAPPS web page.

(2) Requests DE STRAT-OS staff arrange clearance of nomination within MOD and ACDS(ISP) as appropriate and diplomatic security clearance with FCO.

d. **DE STRAT-OS.** Notifies CM of acceptance of nomination by MOD/ACDS(ISP) staff and details training and briefing requirements.

e. **Career Manager.** Issues assignment for briefing and training.

f. **DE STRAT-OS.** Notifies CM of FCO Approval (Head of Mission approval and FCO Security clearance).

g. **Career Manager.** Assigns to post itself no more than three months before effective date (Para 6106).

2. Nomination Information

a. **Nomination and Training Dates.** Training packages for Attachés are carefully tailored and contain little flexibility. Of late programmes have become more complex and greater use has had to be made of fixed date courses. Additionally, Heads of Mission have indicated a need for earlier nomination for approval. It is therefore crucial that the nomination and training dates are strictly adhered to. Before Attaché training can start DE STRAT-OS staff must have details of the nominated officer so that the necessary clearances can be obtained from within MOD and then, through the Foreign and Commonwealth Office, from the receiving Ambassador or High Commissioner.

b. **Nomination Date.** Clearance of Service nominations for attaché assignments through MOD and FCO usually requires a minimum of three months. It is therefore vital that nominations are made by or during the month indicated in the CAPPS Book.

c. **Intro-Training Date.** Whilst many threads to attaché training programmes may be common, the preparation path for each assignment is unique. Many of the training opportunities, which are out of DE STRAT-OS Staff's control, are held on fixed dates. Moreover, some language training provided by DSL is also limited to fixed course dates. It is therefore vital that officers are released for attaché training in accordance with the information provided in the CAPPS book and in the DE STRAT-OS nomination letter. Any delay will inevitably result in significant delay to the date of arrival in post.

d. **Career Briefs.** Details of nominees for attaché posts should be comprehensive and tailored to the specific skills sought by the assignment job specification. Career briefs should not dwell unduly on early career; instead, a candidate's performance and qualities demonstrated over their more recent assignments are of greater value to the approving authorities - particularly the Head of Mission. In addition to high personal qualities, the general experience sought of a nominee includes a wide service background, joint service experience or training (such as JSDC or psc(j)) and a wide knowledge of broader single service operations and tactics. For attachés going to singleton Defence Attaché posts, nominees are often sought who have experience of the other Services' activities. Experience of a major command HQ or of Whitehall is an advantage and, increasingly, budget experience is also valuable. It is essential that the nomination includes, if appropriate, the nationality of spouse and the dates of birth of dependent children, particularly those intending to reside in country.

e. **Security Clearance.** Attachés are required to hold a DV security clearance prior to DE STRAT-OS Staff briefings and the attaché training at the Defence Intelligence Security Centre (DISC) at Chicksands. For nominees who already hold a clearance, the DV must be valid for the entire length of their tour. To allow for any extensions in post, an attaché should have a DV with at least four years to run on assignment. For residential posts, normal single-service clearance procedures are followed immediately by an FCO security department clearance. The FCO element must be completed at least 3 months before the attaché travels to post. The FCO continues to require the files for attachés who have a DV clearance that will run beyond their expected date of return. Letters of nomination to DE STRAT-OS Staff should include confirmation that, where necessary, priority DV and FCO security clearance has been set in train.

f. **Confidentiality of Assignments.** Crucial to the success of nominations is the approval of the nominee's future Ambassador or High Commissioner (Head of Mission). Until that Head of Mission approval is given, a nominee remains very much a proposal for an assignment. Heads of Mission have been known to reject a proposed attaché; in such cases MOD has been required to choose another officer. Career Managers must stress to officers who have been identified for an attaché post that until the Head of Mission has given their approval the officer's selection remains merely a proposal. Attachés' designate must not reveal their nomination and must not contact the officer they expect to replace until the Head of Mission approval is given. DE STRAT-OS Staff will formally notify a nominee of their successful nomination and advise the officer when they may write to the Ambassador or High Commissioner as well as to the incumbent. Even after Head of Mission approval is given, the timing of notification to the host nation of the new attaché remains firmly the responsibility of the Head of Mission. For this reason, nominees are reminded to keep news of their successful selection on a need to know basis until the incumbent advises that the host nation has been informed. Nominees should also be reminded that telephone lines into posts overseas are not secure; calls to incumbents should be made with this very much in mind.

g. **Tour Lengths.** A nomination for an attaché post should include a clear statement on the length of tour the officer will serve. The normal tour is for a minimum of three years and most Heads of Mission expect their attachés to serve at least this period. For attachés who are expected to serve less than three years, DE STRAT-OS Staff should be consulted before an individual is nominated - particularly if their retirement date from the Service will prevent a full three year tour being completed. Precise notification of expected tour length will also help the maintenance of an accurate Forecast Relief List.

h. **Language Training.** The major training element which drives the date due for training with DE STRAT-OS Staff is language training (LT). Where posts require LT aptitude tests a note (LT Req'd) is made in the remarks column of the list. In particular, Moscow due date for training is substantially influenced by the 18 months LT necessary for non-Russian speakers to achieve the post requirement. Russian LT is undertaken at Beaconsfield and starts each year in September. Details of the nominated officer are required by DE STRAT-OS Staff at least 12 months before the start of the course.

i. **Queries.** Queries regarding the procedures for nomination, approval and preparation of Service attachés and advisers should be addressed to DE STRAT-OS desk officer for preparation and training on (020 721) 9621 82053/8715.

APPENDIX 4 TO ANNEX 59C

CONSENT TO DISCUSS MEDICAL INFORMATION

1. Defence Primary Healthcare (DPHC) has made an assessment of your medical suitability for service overseas and has recommended that your assignment is not confirmed. You have unsuccessfully appealed this decision to DPHC, and the next stage is for a review within the Directorate of People and Training.

2. In order to investigate this appeal and form a recommendation to the Head of Navy Career Management it will be necessary for your case to be discussed by:

a. Head, Navy Career Management;

b. Assistant Head, Specialist Health Advisor - a Medical Officer;

c. Your SO1 Career Manager;

d. SO1 Employment Law.

3. Medical details will only be discussed between Medical Officers as much as is possible. They will only access those records which are necessary to inform the decision-making process and all personnel will keep any information gained confidential. You do not have to grant permission for medical information to be shared, but without permission the investigation of your appeal will be limited, and the outcome may be affected.

4. By completing and signing this form, you are granting permission for your medical details to be accessed and discussed. You also grant permission for the Medical Officers above to speak to, and obtain medical information from, individuals who have been involved in making the original decision and any specialists involved in your care.

Name of Service Person/Dependent: .....

Rank/Rate (if appropriate): .....

Date: .....

When complete this form is to be retained in the Electronic Personal File

ANNEX 59D

ROYAL NAVY AUGMENTATION POLICY

1. Introduction

a. Augmentation is the process by which Suitably Qualified and Experienced Personnel (SQEP) are selected, trained and deployed to meet additional high priority workforce requirements in support of operations, exercises and events outside of the declared Defence and Navy Plans. The augmentation process is managed through Deputy Director People Delivery (DDPD) People Operations (POps).

b. The generation of Individual Augmentees (IAs) to service a non-workforce driving requirement is not a 'free resource'. Collectively, it impacts planned business output, generates uncertainty and creates instability within the personnel arena. Whilst the cost to the demanding organisation is often minimal, the effect, particularly in the context of today's lean organisational structures, is considerable.

c. In providing personnel for high priority Defence tasking, care must be taken to ensure that churn and uncertainty to the individual is reduced as well as minimising impact to Royal Navy outputs. Therefore, internal redeployment within 2* Directorates and the use of formed units, particularly those held at readiness, should be considered before IA.

d. The Defence Individual Augmentation Policy (DIAP) is the authoritative policy for Individual Augmentation and takes precedence over Naval policy. The Royal Navy Individual Augmentation Policy (RNIAP) provides single Service amplification to support the DIAP.

2. Aim. The aim of the RNIAP is to set out the principles for the redeployment of Naval personnel to meet additional personnel demands in support of operations, UK resilience tasks, exercises, trials and events (including ceremonial events). Additionally, it clarifies the definitive direction concerning funding and the individual phases of the augmentation process. The procedures for dealing with Personnel OPDEFs, Non-Operational Workforce Deficiencies (NOWDs) and PERREQ procedures are contained at Para 5948.

3. Definitions and Principles

a. **Force Generation.** Force Generation is the process of providing suitably trained and equipped forces and their means of deployment, sustainment and recovery to meet current and emergent tasks, within required readiness and preparation times (as detailed at para.7).

b. **Force Sensing.** Force Sensing (FSen) is the process of understanding the likelihood of being able to generate an IA and the associated impact to the donating organisation. Force Sensing follows the process at para.7 up to the point of nominating an individual and completing the trawl process. While FSen doesn't immediately result in an organisation losing an individual, it does introduce organisational and personal disruption and is therefore only used when absolutely necessary.

c. **Augmentation.** Augmentation is an element of Force Generation and is the temporary re-deployment of individuals, either from within liability driving positions (regulars) or from mobilised Reserves[1] to wherever they are needed to meet directed operational Military Tasks, Exercises[2] and Events[3] that cannot be achieved within peacetime establishments. It may include the re-distribution of individuals brought together to form an ad-hoc unit/sub-unit or the forming or reinforcing of regular units with reserves. Augmentation specifically excludes the planned or unplanned deployment or re-redeployment of a formed unit/sub-unit or the planned formation of a composite unit/sub-unit of individuals for their crisis role[4]. There are two main types of Augmentation: Above the Line (AtL) and Below the Line (BtL).

(1) AtL augmentation is the process of filling MoD-directed positions above funded personnel levels and is non-discretionary. The IA demand is validated, authorised and directed by the Defence Single Tasking Authority (DSTA) IA cell when essential to a Defence output and is in addition to the Defence Board endorsed liability for each sS/TLB for an operation of task.

(2) BtL augmentation refers to an internal Navy TLB augmentation request where redeployment of personnel is needed between 2* Directorates or requested between TLBs, via the DSTA RNLO, but the demand is not endorsed by MoD.

d. These common principles can be broadly applied to the following Naval augmentation requirements:

(1) Force Generation for Operations.

(2) Short Notice Operational Commitments.

(3) Crisis Augmentation Lists (CALs).

(4) Exercises, Trials and Events.

(5) Royal Marine Additional Resource Table.

(6) Short Term Training Teams.

[1] Reserves may be either volunteer or regular reserve.
[2] Exercises, as a means of preparing for operations, are included in this definition.
[3] Events are included in the definition of augmentation but are addressed Below the Line (BtL) unless endorsed by DCDS(MSO) or where they are a specific MT/Op Task.
[4] A separate element of Force Generation, which particularly pertains to reservists, mainly of a specialist nature (e.g. Volunteer Field Hospitals).

4. Responsibilities

a. Central co-ordination of the Defence Augmentee Requirement, including Resilience Planning (RP), Operations and Exercises will be endorsed by ACDS (Ops & Cts), through the DSTA[5] within Defence Security, Policy and Operations (SPO)[6], before being passed to single-Service authorities. This requirement will be AtL, is non-discretionary and Defence mandated.

b. The DIAP mandates that augmentation is managed through the Services' Principal Personnel Officers (PPO), who are responsible for providing personnel from within their TLB (may be personnel from other sS assigned into the TLB). Only in exceptional circumstances can a sS trawl their personnel assigned into a different TLB[7].

(1) 2SL, as the Naval PPO, has pan-Naval Service responsibility for augmentation issues, which is delegated through Dir P&T to DDPD and POps.

(2) Contentious augmentation issues and arbitration will be referred to DDPD or Dir P&T as appropriate

c. Pan Navy TLB commitments requiring augmentation which have no Joint involvement are managed by POps within DDPD on behalf of the Fleet Commander.

d. Navy Healthcare within Dir P&T will advise on medical personnel augmentation requirements and COMOPS DACOS N1 team will advise on all augmentation demands for intelligence/information exploitation (IX) expertise.

e. **Task Sponsor**. The Task Sponsor (TS) is the point of contact within an organisation or unit requiring the temporary uplift in personnel. They are responsible for articulating the requirement, including the production/update of the Operational Job Specification (OJS). The Statement of Requirement (SOR) which is the method of requesting AtL augmentees or Augmentation Requirement Document (ARD) for BtL demand must state why resource cannot be re-apportioned from within the sponsor's area.

f **Authorised Demanders.** Specific Authorised Demanders (AD) for Navy TLB BtL augmentation, have the authority to endorse an augmentation requirement using the ARD process (templates at Appendices 2 & 3), to resource personnel for augmentation are as follows:

(1) **Navy Commitments (COMOPS and CSF).** The primary AD for BtL activity from within the Naval Service. These tasks are predominantly Navy 'discretionary' in nature.

(2) **Naval Staff.** STRATPOL, through COS DSP for the creation and endorsement of augmentation demands (BtL) which are considered strategically significant enough to warrant IA support.

[5] The functions and liaison authority of the Defence Single Tasking Authority are detailed in the DIAP.
[6] Formerly Operations Directorate.
[7] FULLCMD trawls across other TLBs are by the sole authorisation of the DSTA only.

(3) **RN Domestic Engagement Team (RNDET).** The AD for all UK based Defence Augmentation Other Than Operations (DAOTO) and Royal Navy in the Public Eye (RNIPE) BtL events. This does not include other augmentation requests such as planning officers for events, which should be processed through the demanding 2* Directorate.

(4) **Director General Defence Safety Authority (DG DSA).** TS and AD for Service Inquiries.

(5) **RN Safety Centre.** TS and AD for Fleet Commander Service Investigations or Unit Investigations that require augmentation.

g. **Requirements Approver (RA).** 2* Directorates are not formal Authorised Demanders but can request BtL augmentation through the ARD process, endorsed by an RA (minimum of OF5 level), providing the correct justification and funding is presented together with the evidence that the SQEP is not available within their own Directorate.

5. Requesting Augmentees

a. **AtL.** AtL augmentation is directed by DSTA using the processes in DIAP, is Defence mandated and non-discretionary. The demanding organisation will provide an OJS which will be verified and approved by DSTA before being apportioned to the sS according to SQEP availability guided by pre-determined ratios[8] (RN apportionment of total IA demand is ca.20%). This also applies to Tier 2+ and above exercises, which will be submitted by UKSTRATCOM JOINT WARFARE (or JTEPS for Ex JOINT WARRIOR) to DSTA for augmentation.

b. **BtL Considerations.** Any BtL IA request must be fully considered in accordance with the following:

(1) Does the requirement fit within the RN Command Plan, Exercise Plan and/or Strategic Workforce Priorities?

(2) Can the required military effect be delivered through an alternative solution or an established process such as via the WfMG?

(3) What is the wider Defence impact of not resourcing the augmentation demand?

(4) Do the implied benefits outweigh the impact of redeployment of RN personnel in other 2* Directorates?

(5) Is the augmentation resource requirement proportionate to deliver the task?

[8] Current (2023) apportionment ratios are: 50% Army, 20% RN, 20% RAF, 10% UKStratCom

(6) Is the request retention positive: does it offer branch sustainability opportunities and is it outside of pinch point cadres?

(7) Can the demand be reasonably be met from within the generating 2* area?

c. **BtL Submission.** A request for BtL augmentation is to be submitted to POps by a TS using the Augmentation Requirement Document (ARD) found at Appendix 2 (Operations & Exercises) and Appendix 3 (Events). This must articulate why the personnel cannot be supplied from within the requesting 2* Directorate, and the likely impact to the activity if personnel are not provided. It is to be accompanied by an Operational Job Specification (OJS) for each position. Once complete, the TS submits the ARD to a RA within their 2* Directorate. The RA provides appropriate scrutiny and justification that the requirement is set at the minimum level to fulfil the demand. A funding source (UIN) is to be identified and then the ARD is passed to POps. Where possible the Maritime Reserves will be used to fill Augmentation positions but mobilisation costs will need to be covered by the demander.

d. **Timelines.** All augmentation requests are to adhere to the following timelines. Any that do not will be considered at 'best effort' only and may be rejected entirely due to missed timelines.

(1) AtL augmentation will adhere to the timelines and requirements directed in the DIAP. This may include urgent augmentation required at very short notice which will be approved at the appropriate level within ACDS Commitments (DSTA).

(2) Exercises and Events (BtL), and major deployments (e.g. CSG, LRG) must be submitted no less than 6 months in advance. Where possible, all augmentees are to be nominated no less than 6 weeks before the exercises or event, and joining instructions are to be issued by the TS no less than 4 weeks before the exercise or event.

(3) Time critical BtL augmentation requested by ADs may be submitted within these timelines however any submission at less than 110 days will be subject to approval by POps Hd.

(4) Other BtL augmentation should be submitted with at least 110 days' notice (10 days for POps scrutiny, adjustment and approval, 10 days to identify an individual, 90 days for individual to prepare for augmentation).

e. **Defence Activity Other Than Operations (DAOTO).** RNDET for all non-operational events and commitments, including RNIPE and ceremonial.

f. **Resilience.** Navy COMOPS N5 Homeland will co-ordinate requirements for UK resilience operations/MACA demands. Contentious issues will be referred up the Chain-of-Command, ultimately to Fleet Commander.

6. Endorsing Augmentation Requests

a. Defence directed AtL demands received from DSTA will proceed directly to FGen.

b. All other BtL demands will be considered for endorsement by the Authorised Approver, POps Hd but may be subject to adjustment following dialogue between POps and the AD. Decisions to support BtL demands will be based on a number of factors, including but not limited to:

(1) Timelines.

(2) Availability of SQEP across the RN, and impact of loss to donor 2* Directorates.

(3) Impact of not fulfilling task.

(4) Priority of requested task against RN and Defence priorities.

7. Generating Augmentees for Operations and other Specific Demands

a. Once endorsed, POps will identify personnel to be generated against the demand (following the flowchart process at Appendix 1) in one of the following ways:

(1) An FSen process.

(2) Identification and assignment of an individual for the role through Career Management if appropriate timelines can be achieved[9]. Guidance for Career Managers filling IA posts can be found at Appendix 7.

(3) Identification and employment of volunteers if sufficient time allows.[10]

b. **Force Sense.** An FSen is used to identify SQEP within a 2* area and assess the likelihood of being able to generate an IA against the associated impact to the donating organisation. An FSen will follow some or all of the following process depending on the circumstances:

(1) Determining the presence of SQEP in an organisation, achieved through the use of JPA and related systems.

(2) Investigating the availability or likely impact of removal of SQEP from an organisation. This may be achieved through discussion with Career Managers, the organisation's Chain of Command, or consultation with subject matter experts.

[9] Timelines will usually require POps to fill the first rotation of a post but generation will be passed to Career Managers for follow on rotations wherever possible.
[10] As long as the process of seeking volunteers does not significantly increase the overall FSen timeline were a volunteer not forthcoming

(3) Identifying the specific penalty of the removal of specified individuals from their organisations through request and submission of PSRs iaw Appendix 8.

c. The FSen process will require 2* Directorates to generate PSRs via the appropriate 2* Workforce Management Groups (WfMGs). The 2* WfMG will be required to submit one PSR for the lowest impact eligible individual within their Directorate. Such individual must meet the SQEP required for the demand iaw the OJS and be able in all respects to carry out the task, including being appropriately medically employable, not breaching SWDC restrictions, and not presenting with any critical N1 issues that would preclude employment.

d. For a BtL task, the requesting 2* Directorate may also be engaged for a PSR. This will provide a comparator of the relative impacts to both the *demanding* and *donor* organisations. If the FSen indicates that the demand can be serviced then the same PSR will be used for the potential IA.

e. Unless a Supported Volunteer is identified POps will arbitrate between 2* Directorates' PSRs to determine the least impact[11] solution overall.

f. On selection of a least impact PSR, the selected individual will either commence FGen (BtL or AtL apportioned to the RN) or have their PSR put forward to DSTA for consideration (AtL where multiple services are trawled, or impact is so significant it may override the task requirement). 2* Directorates that provided PSRs will be informed when they are stood down or selected accordingly.

g. Once the individual has been directed to FGen an IA, they will be provided the TS's details to seek Joining Instructions and the selectee will be required to load on to Pre-Deployment Training (PDT) as required, through engagement with the Royal Navy Pre Deployment Training Mounting Centre (RNPDTMC)[12].

8. Generating Augmentees for Exercises and Events

a. **Initial Generation.** Where possible the demand for exercises and events will be offered initially to the Maritime Reserves (MR) and volunteers sought using SCIO or through WfMGs.

b. **Volunteers.** Volunteering opportunities may be advertised on the RN Intranet and via the MyNavy app; individuals can register their volunteer status in their SCIO profile via MyNavy App. Volunteers are to seek approval from their Line Management to be released for this duty. Once a volunteer has been confirmed for an augmentation task this constitutes a duty and the individual cannot withdraw without significant reason. In most cases, where a volunteer must be removed, the parent unit will be required to find a replacement.

c. **Trawls.** Following returns for MR and 2* WfMGs for volunteers, any extant positions will be trawled for iaw the trawl process outlined for Operations in Para 7.

[11] Professional and personal considerations
[12] Details of PDT currently contained in 2022DIN07-106.

d. **Large Events.** For events requiring large numbers with broad SQEP requirements (e.g. for major ceremonial events), 2* WfMGs will be apportioned a number of personnel depending on their Directorate's size to generate towards this demand. This is to reduce the administrative burden of conducting a PSR-led trawl for every position. This group of personnel at readiness will be known as the Naval Ceremonial Guard (NCG) with details for generation and CONEMP promulgated by RNTM.

e. **Joining/Administrative Instructions.** All administration for the exercise, including the distribution of Joining/Administrative Instructions, is the responsibility of the Task Sponsor. To ensure that information is being received correctly, it is essential that demanders ensure that nominated IAs are in full receipt of, and have acknowledged, all instructions.

9. Feedback

After any period of augmentation, POps may send an online questionnaire to the augmentee. This information is used to ensure that demanders are correctly employing IAs, that administration and divisional responsibilities are being properly executed. Where POps considers it necessary, often in the case of recurring exercise demands, a demander will be informed of the results of the questionnaire.

10. Planned Augmentation (Crisis Augmentation Lists)

a. Crisis Augmentation Lists are identified, defined and validated lists of positions to augment strategic or operational organisations[13] and can be activated in response to a pre-planned contingency task or during a crisis. They are directed and validated by DSTA in the DIAP and maintained by single Services. Each position on the CAL will have a prescribed Notice to Move. The wo types of CALs are as follows:

(1) **@R1-3.** Those positions @R3 readiness (10 days' notice) or higher will be attributed to specified personnel through formal assignment, management through units or 2* WfMGs[14]. This dual assignment or unit allocation may require a training/induction commitment iaw their OJS[15], and may be exercised by the receiving organisation by up to 21 days per year.

(2) **@R4-5.** Those positions at R4 readiness (20 days' notice) do not require named personnel and a trawl will be undertaken to identify individuals with correct qualifications and skills at the time of activation or reduction in readiness timeline.

b. Personnel held @R3 should not be impacted in their normal work or leave routine by this requirement. Personnel held @R1-2 are to remain within appropriate recall distance unless alternative arrangements have been made, i.e. a SQEP stand-in has been nominated.

[13] DCMC, PJHQ, SJFHQ, JFHQ, SJFLogC, SJC, JCCC, Head Office.
[14] DIAP requires @R2 and above SP to be formally allocated to the CAL; RN policy is to extend this to those @R3 posts that have a major PDT requirement based on lessons identified when activating CAL positions (difficulty in achieving PDT within required timescales).
[15] This may include but not be limited to up to 4 weeks of PDT, HQ briefs and inductions, applications for STRAP and HQ passes.

11. Funding

a. **Funding Principle.** All costs associated with Augmentation are to be identified and approved by the Demander (AtL, iaw the DIAP) or TS (BtL)) In some instances, specific costs may be reimbursed from HM Treasury, i.e. MACA tasking – it is the responsibility of the Demander or TS to arrange this reimbursement. Consideration is to be given to the full range of costs the augmentation may incur. RN Augmentation Funding policy is derived from the DIAP; funding will be determined as follows:

(1) Capitation - Donor sS (AtL)/Costs lie where they fall (BtL).

(2) T&S for pre-deployment training, event/ceremonial training, and to reporting location or departure from UK location - Donor unit.

(3) Generic pre-deployment training (RNPDTMC) - RNPDTMC.

(4) Non-standard pre-deployment training[16] - Demander/ TS.

(5) Net additional costs post reporting (including travel costs outside UK) - Demander/TS.

b. **Mobilised Reservists.** All costs associated with the mobilisation of the Maritime Reserve must be pre-approved. Maritime Reserves HQ can advise on the use of Reservists for augmentation.

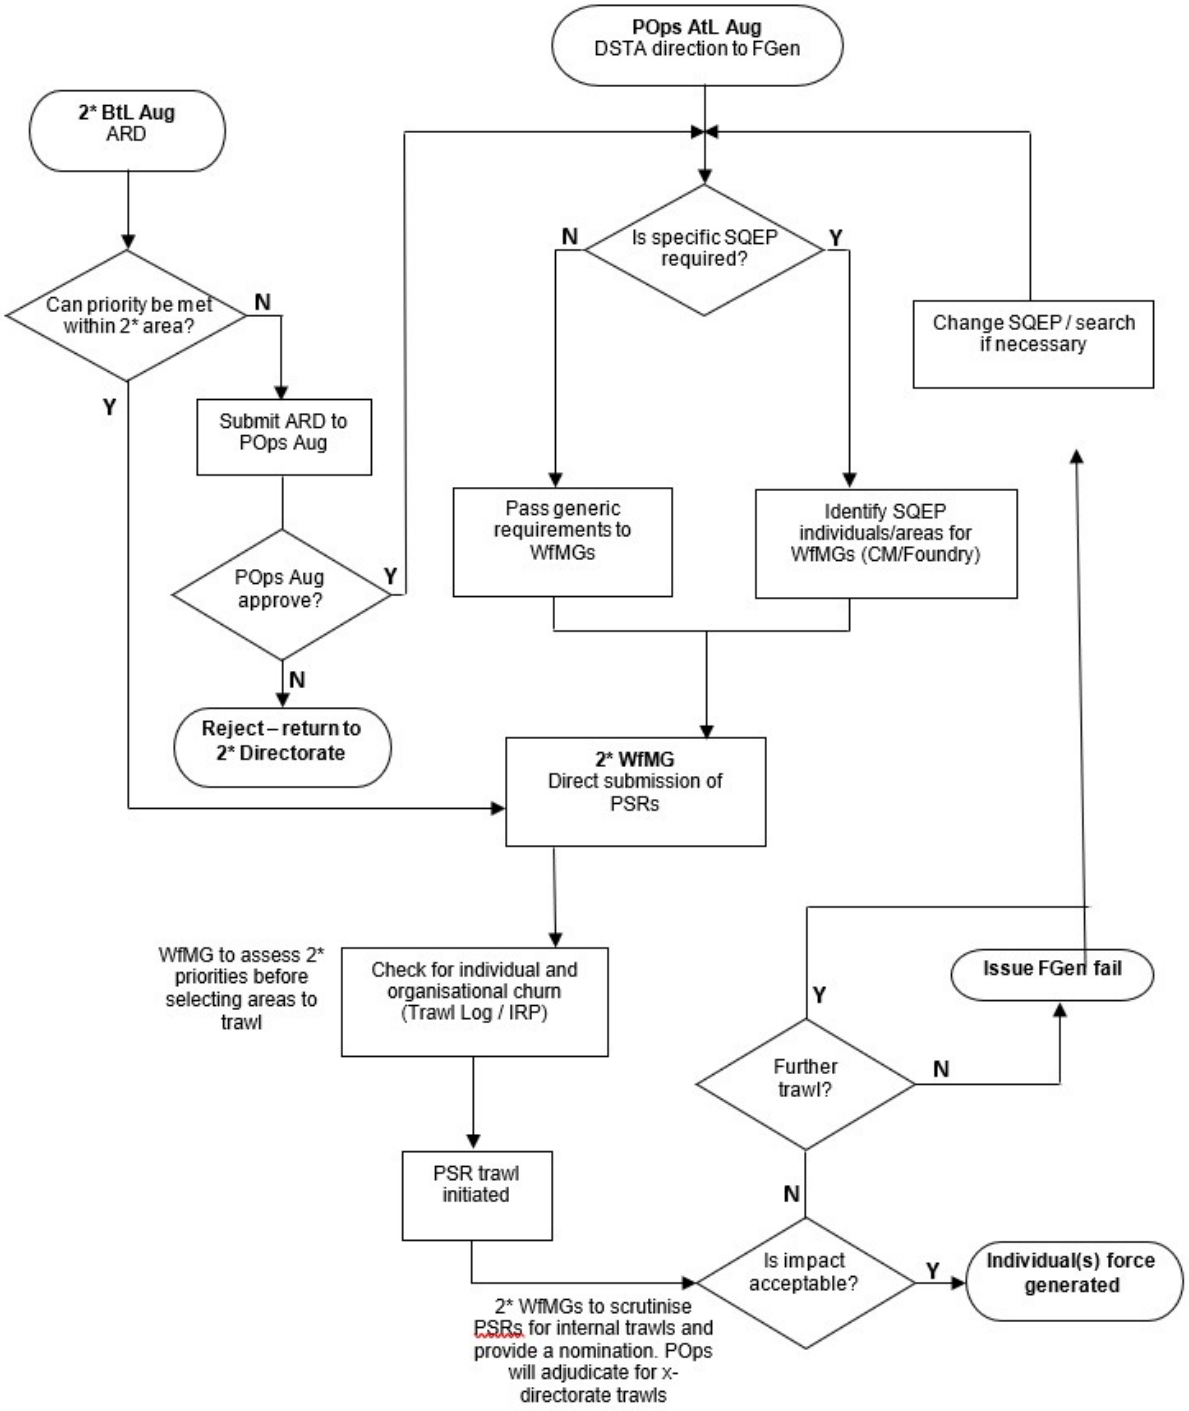
c. **NATO Operations and Exercises.** Contributing nations pay for all costs associated with NATO operations and exercises.

d. **MACA.** Funding for MACA tasking is determined in accordance with JDP 02 and the funding mechanism will be specified at the point of generation. Full or Marginal costs[17] may be recovered with specific direction being included in the Activation Order issued by DSTA.

[16] Specialist PDT not covered by JTR 1-15
[17] Full costs (including SP capitation) can be recovered for pre-planned operations. Marginal costs (RLS, fuel etc) are appropriate in dynamic situations such as the response to flooding.

APPENDIX 1 TO ANNEX 59D

AUGMENTATION FLOWCHART



APPENDIX 2 TO ANNEX 59D

AUGMENTATION REQUIREMENT DOCUMENT (OPERATIONS AND EXERCISES)

To be completed by Task Sponsor and Authorised Demander prior to submission to People Ops Augmentation.

Operation/Exercise/ Trial Name			
Start Date (Inclusive of PDT / Training)		**End Date** (Inclusive of Leave / Recovery)	
Task Sponsor (Organisation & 2* Area)		**Task Sponsor Named Point of Contact**	
Date Request Submitted		**Tel**	
Context/Background An overview of the Operation / Exercise and why Individual Augmentation is required. Supporting documentation may be submitted with this form.			
Justification To include: Why unable to meet demand from within TS' own organisation or wider 2* area Breakdown of T&S Costs. If this request is being submitted outside of the minimum timelines for the provision of augmentation (iaw BRd3), the TS is to provide reasons for this.			
Impact if Augmentation Request not met To include mitigating actions considered should augmentation not be provided.			

Operation/Exercise Personnel Requirement Task Sponsor to complete Pers Ops Augmentation Exercises spreadsheet for all IA Exercise demands. Job Specs must be provided for each position requested when submitting this ARD.	OF4+	*e.g. 1 x OF4 Any (with required adquals)*	
	OF3	*e.g. 1 x OF3 WAR PWO(BWC) / 1 x OF3 RMLC*	
	OF1-2	*e.g. 1 x OF1 Any (French Linguist)*	
	OR8-9	*e.g. 1 x OR9 ET(WE) (with required adquals)*	
	OR6-7	*e.g. 3 x OR6/7 LOGS SC / 2 x OR6 Any*	
	OR3-4	*e.g. 4 x OR4 ET CIS / 2 x OR4 Any*	
	OR2	*e.g. 48 x OR2 Any / 5 x OR2/OR4 LOGS CH*	
Funding Task Sponsor to specify UIN to be used for all additional costs to the activity, and gain authority from that budget holder.			
Task Sponsor Authorising Officer		**Date**	
Task Sponsor sends ARD to 2* Area Requesting Authority (OF5+)			
Comments/Decisions by Requesting Authority To include: Full Cost Benefit Analysis specifically stating the implications to the receiving unit of not achieving the demand. *NB. Requesting Authority approval does not imply that the task will be met, but ensures it is policy compliant.*	*(e.g. This task does/does not meet Defence or Naval Service Strategic Aims and is therefore Approved/Not Approved for augmentation.)*		
Authorising Officer (OF5 or above)		**Date**	
Once RA section complete - Task Sponsor sends ARD to People Ops Augmentation			
Authority to Augment – held by People Ops Hd.			
People Ops Hd		**Date**	

APPENDIX 3 TO ANNEX 59D

AUGMENTATION REQUIREMENT DOCUMENT (EVENTS)

To be completed by Task Sponsor and Authorised Demander prior to submission to People Ops Augmentation

Event Name			
Start Date (Inclusive of Training)		**End Date** (Inclusive of Leave / Recovery)	
Task Sponsor (Organisation & 2* Area)		**Task Sponsor Named Point of Contact**	
Date Request Submitted		**Tel**	
Context/Background To include: An overview of the Event and why Individual Augmentation is required. Supporting documentation may be submitted with this form. Where applicable, Task Sponsor (TS) to confirm they have consulted with RN SCTO and/or RM 1st Drill[1] regarding the composition of ceremonial personnel and training requirements.			
Justification To include: Why unable to meet demand from within TS' own organisation or wider 2* area Breakdown of T&S Costs. If this request is being submitted outside of the minimum timelines for the provision of augmentation (iaw BRd3), the TS is to provide reasons for this.			
Impact if Augmentation Request not met **To include mitigating actions considered should augmentation not be provided.**			

[1] RN State Ceremonial Training Officer - NAVY OP TRG-CWD EXEC SCTO - RM 1st Drill - NAVY TRG CTCRM-SW DL WO1

Event Personnel Requirement To include: Specific breakdown of ranks/ratings required iaw RN SCTO's and/or RM 1st Drill's direction (where applicable). Exact numbers required on parade only. Spares are **not** to be included.	OF4+	*e.g. 3 x OF4 (Any) – Military Liaison Officers*	
	OF3	*e.g. 1 x OF3 RN - Guard Commander*	
	OF1-2	*e.g. 1 x LOGS OF1/2 RN - Admin Support*	
	OR8-9	*e.g. 1 x OR9 RM & 1 x OR9 RN (Ushers)*	
	OR6-7	*e.g. 2 x OR6/7 RN/RM (Path Liners)*	
	OR3-4	*e.g. 4 x OR4 RN (Colour Party)*	
	OR2	*e.g. 48 x OR2 RN (Ceremonial Guard)*	
Funding Task Sponsor to specify UIN to be used for all additional costs to the activity, and gain authority from that budget holder.			
Task Sponsor Authorising Officer		**Date**	
Task Sponsor sends ARD to RN SCTO and/or RM 1st Drill (where applicable)			
RN SCTO Comments Confirms Ceremonial personnel requirements iaw BR2 and dates, timings and location of training with TS.			
Authorising Officer		**Date**	
RM 1st Drill Comments Confirms Ceremonial personnel requirements iaw BR2 and dates, timings and location of training with TS.			
Authorising Officer		**Date**	
Task Sponsor sends ARD to 2* Area Requesting Authority (OF5+)			
Comments/Decisions by Requesting Authority To include the following: Full Cost Benefit Analysis specifically stating the implications to the receiving unit of not achieving the demand. *NB. Requesting Authority approval does not imply that the task will be met, but ensures it is policy compliant.*	*(e.g. This task does/does not meet Defence or Naval Service Strategic Aims and is therefore Approved/Not Approved for augmentation.)*		
Authorising Officer (OF5 or above)		**Date**	
Once RA section complete - Task Sponsor sends ARD to People Ops Augmentation			
Authority to Augment – held by People Ops Hd.			
People Ops Hd		**Date**

APPENDIX 5 TO ANNEX 59D

OPERATIONAL JOB SPECIFICATION TEMPLATE GUIDANCE NOTES

1. The JS is critical in ensuring IAs are nominated to meet that post's requirements. JSs are to be accurate, current and articulate in a manner that can be understood by a tri-Service audience.

2. Security Classification. JSs should remain OFFICIAL; OFFICIAL-SENSITIVE or PROTECT can be used if appropriate.

3. Position Framework. To be completed by the IA TS:

Position Title	In full and as per the OET. Pending changes should be noted in 'Other Comments' at the bottom of the JS.
JPAN/ LSN	As per OET. LSN is to be included for all operational positions.
Unit	In full and as per the OET. Pending changes should be noted in 'Other Comments' at the bottom of the JS.
Date Approved	All Operational Job Specifications should be updated on a 6 monthly basis.
Location	Country, Town and Formation.
Approved By	Rank/ Grade and Post
Establishment Type	Operation
TLB	Of post
Establishment/OET Ref	In full, as laid out in the OET/ ACTORD
Rank/Grade	Required position. If position can/cannot be rank-ranged then this to be annotated.
UIN/SLIM/JPOA PID	In full
Service/ Type/ Arm	RN/Army/RAF/Rotational.
Incumbent	Current Incumbent
Exch/ NATO/ JSRL No	If required
E-mail	Military e-mail address for the post (not of the incumbent).
Phone Number	Post's desk phone number.
Manning Priority	Manning Priority of the position. (For Army, iaw Army Manning Priorities).
Security Clearance	SC/DV/Reserved/STRAP/NATO Secret/DBS etc.
Assignment Length	Length of the assignment in months.
Reporting Chain	Enter Single Arm/Service, Joint, Civilian, Mixed Service/Civilian or International.
1st RO	Appointment of the First Reporting Officer.
2nd RO	Appointment of the Second Reporting Officer.
3rd RO	By exception, appointment of the Third Reporting Officer.
Primary Career Field	Primary Career Field or trade that the position sits within ie. Def' Policy/Combat/Human Resources/Technical/Logistics (Army).

4. Unit and Position Responsibilities. To be completed by the IA demander:

Unit Role: Role or mission statement of the positions parent unit.
Position Role: A succinct and accurate statement of the position role. Avoid unfamiliar acronyms and terminology.
Responsibilities: A numbered list of the positions' main responsibilities, to a maximum of 8. Cover standing duties and tasks, enduring workstrands, position within the branch, describe liaison and interaction with other branches and HQs, and to what level. Note supervision of subordinates. Avoid unfamiliar acronyms and terminology. Responsibilities kept to 150 characters (including spaces) or less can be transferred directly into OJAR/SJARs.
Pre Appt/Deployment Trg: Detail and duration of any pre-employment training required in order to be qualified for this position including courses. Include detail on theatre-specific Individual Pre-Deployment Training requirements for operational tours.
Domestic Considerations: Detail on any pertinent domestic considerations regarding accompanied service, schooling, medical facilities, travel required, spouse's work restrictions, etc.

5. Performance Attributes. The demander should list the four most pertinent Performance Attributes qualified by one or two of the highest priority component features[1]. This will enable selection boards to use Performance Grades to identify those individuals most evidently possessing these attributes.

6. Education, Training and Experience. The demander must state the Education and Training qualifications that are required for the post and define the level of the requirement as Essential or Desirable. Experience that is required for the position should be prioritised as Essential or Desirable beside the relevant function Service / Arm / OGD / Operational / Staff / Command / Fields / Trades or Environments. Demanders should be aware of the dangers of being over-prescriptive or unrealistic. Some examples of Education/Training and Experience are listed below. Where possible education, training and experience annotations should be taken from the approved list of JPA Competencies. The 'Comments' box can be used to justify, or elaborate on, requirements.

Education/Training	Comments/Examples
Military Quals	RCDS / HCSC / JOTAC / BGPC / ICSC / ACSC / ATO / Para / MLAT, etc.
Other Quals/Competencies	Any other non-educational or trade qualifications.
Education	GCSE / MA / MSc / MPhil / MBA, etc.
Language	State any language requirements and the required level (1- Survival, 2 - Colloquial, 3 - Linguist, 4 - Interpreter), according to the Listening, Speaking, Reading, Writing functions, e.g. Spanish 4343.
Experience	
Service/Arm/OGD	State any requirement for experience working within a particular Service or with another Service/Arm/Other Governmental Department or for Service / cap badge / specialist balance within the branch.
Operational	State the requirement for operational experience generally or within a particular theatre or timeframe.
Staff	State the requirement for experience in a particular staff branch, unit or HQ e.g. MOD Main Building experience essential.
Command	State the requirement for experience in Command and which level, e.g. Sub-Unit, Unit, etc.

7. Other Comments. The 'Other Comments' box is an opportunity for an incumbent, employer, Reporting or Authorising officer to add any additional detail, predicted future work strands, nuances and general information in free text. It may also state requirements for deployments/travel, pending changes to the Establishment, a previous name of the position/branch or expected location moves during an incumbent's tenure. Competencies gained in the post should also be noted here.

8. Originator/Authorising Officer. JSs will be sent to the incumbent for drafting. They must then be checked by the individual with direct responsibility for overseeing the position, usually the 1st Reporting Officer, who will be the Originator. The JS must then be authorised for release by the 2nd Reporting Officer once they are content that it meets their requirements. Rank, appointment and contact details for the Originator and Authorising Officers must be included.

[1] JSP 757 Version 10.0 (Oct 12) – Tri-Service Guidance for Appraisal Reporting (Officers Paragraph 8.23, Other Ranks Paragraph 4.22).

APPENDIX 6 TO ANNEX 59D

YYYYMMDD-PSR_SHIP_PE_nn-yy_NAME -OSP

DDPD AUGMENTATION PERSONNEL SUPPORT REQUEST STATEMENT

This pro-forma **MUST** be used when responding to any trawl/request for personnel where professional and personal considerations are necessary to inform decision-making.

REQUEST[1]

Request Reference[2]			
Date Request Raised[3]		**Date(s) Required**	
Unit/Position/Line No.			
Job Description			

NOMINATION[4]

Name & Initials			
Rank/Rate		**Service No.**

Professional Considerations[5]			
Personal Considerations[6]			
Line Manager		**Rank/Rate**	
Contact No		**e-mail**	
Is there an open NS FPS welfare case?		**Do you give authority to discuss this with NS FPS?**	
Head of Department's Comments			
Name		**Rank/Rate**	

[1] To be completed by organisation authorised by DDPD to initiate trawl (ie. DDPD Pers Plans, s or CM).
[2] Name of operation, exercise, event as appropriate.
[3] Date request/trawl sent to supplying unit.
[4] One form per individual nominee. To be completed by the nominee's line manager in consultation with the individual.
[5] Impact on parent unit if nominee removed for duration of request. Dates of key activities/events to be included.
[6] Personal issues affected by removal from post for duration of request. Dates of key activities/events to be included. If none, must state "Nil".

Commanding Officer's Comments			
Name		**Rank/Rate**	

DECISION

CM/RCM Comments[7]			
Name		**Rank/Rate**	
Trawling Authorities Comments and Decision[8]			
Name		**Rank/Rate**	

[7] To include details of PFS breaches, recording of personal turbulence, and appropriate comments on assigning history (last 3 years).
[8] To be completed by organisation initiating trawl. To include decision/outcome of trawl. If the individual is used to fill the requested position, details of when they were informed **must** be included.

APPENDIX 7 TO ANNEX 59D

GUIDANCE FOR CAREER MANAGERS

1. Aim

This guidance provides additional detail on the processes and requirements for Career Managers to use whilst generating or assigning personnel for Individual Augmentation.

2. Operational Tour

a. A number of IAs are generated to meet enduring requirements for operations which are not suitable for permanent liability but require filling until further notice. These are recorded on the Operational Establishment Tables held by PJHQ.

b. Enduring OET IAs are delegated to an appropriate Career Manager (CM) and are to be managed in the same manner as regular RN workforce requirements, including PFS, noting that Defence Op IAs have priority over workforce requirements not assigned to operations.

c. CMs are to ensure they have consulted both JPA and the latest Operational Job Specification to ensure that the SQEP requirements are fully understood, given that not all SQEP is contained in JPA.

d. Dependent upon the theatre of operation, IAs will need to complete a visa application process or particularly long PDT. In some cases, this can take in excess of 5 months. CMs are to ensure that once an AO has been raised, the individual is provided contact information for the RNPDTMC and commences the visa application process as soon as practicable. Guidance notes and application forms are provided by the RNPDTMC.

e. Some posts are rotational between services. When assigning personnel to these posts, CMs are to confirm deployment and recovery dates with POps who can ensure that they remain aligned with the other services generating for the post.

f. CMs are to be cognisant of the ILA and POTL burden following an operational tour. POTL is accrued at the rate of one day per 9 calendar days deployed.

3. Follow-On Rotations

Most DSTA directed IA posts endure beyond 6 months, with an upper limit of 2 years which may then be extended by DSTA as required iaw the DIAP. Timelines do not usually permit the first individual moving into an IA post to be generated by CMs, however as most posts are filled in six month rotations, POps will pass the subsequent rotations of a post to CMs to fill. CMs are to fill these following the same principles as Operational Tours described above, but remining cognisant of the end date to the post.

4. FGen Fail

An FGen Fail occurs when the current or intended nominee for an IA post is unable to continue generating for that post. That may include an unexpected shortfall in SQEP (for example the cancellation of a planned course), a medical downgrade, a change in assignment caused by an emergent priority, or any other event which takes the individual off task. This includes if an already deployed individual is recovered off task, such as due to a medical emergency. In the event of an FGen Fail, CMs are to notify POps. Whilst CMs should seek a solution in the first instance, if a seamless fill cannot be found POps will be required to liaise with DSTA and the Requester to resolve the issue, which may result in POps led generation of an IA for the post. CMs are to be cognisant of the ILA and POTL burden following an operational tour. POTL is accrued at the rate of one day per nine calendar days deployed.

ANNEX 59E

ASSIGNING PROCESS FOR CAREER FIELD APPOINTMENTS POSITIONS

1. The CAPPS List

SO1 CAPPS maintains a record of all CAPPS positions, which is cross-referred to each position's JPA details. The following specific elements of the workbook should be noted:

a. **Rotational Positions.** The workbook contains all tri or bi-Service rotational positions, whether or not CAPPS. If a position is Branch specific its existence serves to trigger the desk assigning process.

b. **Attaché Positions.** The book contains all attaché positions which are CAPPS and/or rotational. It should be noted that attaché training, especially where language training is needed, can be very lengthy and these positions will often appear on the agenda well in advance of the normal 12 month target.

c. **Two-Branch CAPPS.** CAPPS positions which are open to only two branches, e.g. WRM or EL, should be resolved out of committee and the meeting informed of that resolution.

2. Filling CAPPS Positions

The officer requirement incorporates a CAPPS apportionment for each Branch and for every desk within the Branches. Career Managers (CMs) should monitor their contribution to filling CAPPS positions and assess their performance against their CAPPS apportionment to ensure their commitment is met. In pursuit of this aim, CMs should ensure their clients are aware of the broadening opportunities available on the CAPPS plot and should ensure these opportunities receive proper consideration as part of individual career management.

3. The CAPPS Bidding Process

CMs may register their interest in filling a CAPPS position at any time by e-mail to SO1 CAPPS, with a copy to their Branch Committee Member. There are two levels of interest: Interest and Bid. An Interest is non-binding and need not specify a name, whereas a Bid requires a name; successful bids are binding. Should an Interest remain static for a significant period, the relevant CM will be invited to convert it to a Bid or withdraw. Committee members should ensure that they have discussed CMs' requirements before the meetings and are able to represent their requirements in Committee where bids will be assessed and allocations made. Further details of this process are given below.

4. CAPPS Meetings

a. **General.** All matters relating to Common Assignments are managed through the CAPPS Committees. The committees meet five times per year. The Commanders' CAPPS Committee addresses all CAPPS open to officers of SO1 rank. The Lieutenants' CAPPS Committee addresses all CAPPS open to officers of SO2 rank and below. Committee members should establish Branch requirements with CMs 1-2 weeks before each meeting.

Committee membership is as follows:

(1) **Commanders' CAPPS.**
CM CAPPS-RES SO1 – Chairperson
CM ENG GS SO1
CM OF LOGS SO1
CM OF RM SO1
CM OF AIR SO1
CM OF WAR SO1

(2) **Lieutenants/Lieutenant Commanders' CAPPS.**
CM CAPPS-RES SO1 – Chairperson.
CM OF ENG SMSO2
CM OF LOGS SO2
CM OF RM1
CM OF RM2
CM OF WAR SMSO2

b. **The CAPPS List.** The CAPPS List is a dynamic document located on the shared Manage Common Appointments team site. SO1 CAPPS will produce a Priority List two weeks before the CAPPS meetings, which will show all UK CAPPS posts requiring a fill in the forthcoming months, LFS posts requiring a fill in the next 12 months and attaché posts with long training lead requirements. This will be posted to the CAPPS team site.

c. **Meetings.** At the meetings, SO1 CAPPS will update members on new information relating to any position in the workbook. Those positions on the agenda will be opened for bidding. If a single bid of a suitable officer is received, the position will be allocated. If multiple unresolved bids are received, SO1 CAPPS will set a date for examination of personal records, job specification, employer preference and any other relevant factors and will determine the best person for the job. All positions not bid for will be carried forward with any expressions of interest noted. All unallocated positions with FADs within six months of the meeting will be considered for filling through use of the Pain and Grief List (see Para 5).

d. **Position Meeting Actions.** On completion of the meeting, SO1 CAPPS will update the CAPPS information and save an archive copy. Once a position has been allocated, CMs should proceed with nominations in the normal way.

5. The Pain and Grief Process

The CAPPS process is dependent upon CMs making bids of officers to fill positions. Since SO1 CAPPS does not control or 'own' any personnel, the only way in which CAPPS positions can be filled without bids is through a Pain and Grief process. This process is designed to ensure that all possible workforce solutions are explored and personnel are provided to fill positions of the higher priorities first. The Pain and Grief process will be initiated as follows:

a. On completion of the CAPPS meeting, positions that do not have a designated fill will be discussed with Hd CM and, if deemed as being a strategic workforce priority, will be flagged as being 'Pain and Grief'. CMs will then be called to provide Pain and Grief for filling the post. CMs will normally be given a deadline of two weeks to consider possible workforce solutions.

b. If, after this period, there are still unresolved positions, then SO1 CAPPS will examine the audit figures to determine which assigning areas are not meeting their CAPPS allocation by Requirement. This analysis will take due account of any plot under-bearings against dedicated requirements.

c. The outcome of this analysis, together with the nature and priority of the positions concerned, will then be considered to determine which positions should be allocated to Branches 'by default' and which should ultimately be considered for gapping. Hd CM will be consulted on gapping action.

d. It may be necessary, on occasion, to require CM to provide non-volunteer nominations, together with a brief impact statement, for consideration.

e. The aim of this process is to ensure CAPPS Requirements are properly considered against the demand of the core plots, taking due account of workforce states, workforce priorities and an equitable share of gapping across the plots.

6. Advertising Positions and Confidentiality

Whilst the need to discuss CAPPS assignments with nominees is recognised, it is important that they do not make contact with the incumbent of the position without authority from the CM, and that no indication is given of who may fill the position prior to completion of the CAPPS process and the nomination being made.

7. Length of Assignments and Changes of Relief Date

Para 5926, Para 5927 and Para 5928 give guidance on the normal length of assignments in different employment areas. The FAD, once entered in the CAPPS book, should not be changed without consultation with SO1 CAPPS. In order to protect CMs from unexpected turbulence and short notice requirements, no changes to an FAD within six months of the planned date should be made without CAPPS Committee agreement through SO1 CAPPS. This agreement will be subject to the ability of a CM to find a relief within the new timescale. If this cannot be achieved then, as agreed by the CAPPS Committee, either the original FAD will stand or the incumbent's CM will be required to backfill.

8. Early Moves

It is sometimes necessary to bring an individual's FAD significantly forward. In such circumstances the tri-Service 'halfway rule' will apply. If the individual leaves position before completing half of their original assignment, their CM is responsible for identifying a replacement. If the move comes after the half-way point, the position returns to the CAPPS plot. In either case, the replacement would normally be expected to conduct a full tour of duty.

9. Use of Social Media

The widespread use of social media raises a risk of inadvertent reputational damage to the Royal Navy should inappropriate comments or images be posted. Despite a personal site having restricted access so that only those with approval may view the information it contains, security settings do not stop an approved user copying information to open sites. Any officer being considered for high profile Equerry, Outer Office or Flag Officer's personal staff positions will be subject to a background check to ensure that any social media sites used by the individual comply with RN regulations. This will take the form of the following:

a. Individual to be informed that there is a need to complete some background checks that include social media sites. Individual is to confirm whether they are content with this.

b. If they use social media sites, are they open or closed?

c. Is the individual aware of the published RN regulations (as previously promulgated in RNTM 062/14 and now published at Para 2152) Individual to be advised to purge their site of any pictures or comments that could be damaging to the RN's reputation.

Note. *Pictures or comments from closed sites can be copied by 'friends' to open sites.*

d. Individual to be asked to provide user name/non de plume.

e. CM to check user name/non de plume sites to confirm open or closed and, if open, that nothing of damage to the RN's reputation is on the site.

f. A record of the check being conducted (but not any material viewed during the check) is to be retained for the duration of the subject's assignment.

10. Special Considerations for Some Assignments

a. **Royal Household.** DS Sec will issue special instructions to the Service concerned when nominations are called for by the Royal Household. Potential candidates will normally be filtered by Deputy Director People Delivery (DDPD), Dir P&T and then 1SL before a final list of officers is forwarded to DS Sec for the Palace to consider. Nominations should use the format promulgated on the CAPPS team site.

b. **Cabinet Office.** The Cabinet Office insists that officers must be UK Nationals born of UK Nationals, and furthermore that their spouses/partners are also born of UK Nationals. PSyA holds records of this information and should be consulted when an officer is being selected for service in the Cabinet Office. All nomination matters should be progressed at the earliest possible opportunity and candidates will normally be filtered by DDPD and Dir P&T before forwarding to DS Sec. All candidates require special clearance and are interviewed in the Cabinet Office. JPA OAL entries should not specify to which section of the Cabinet Office the officer has been assigned.

c. **Outer Office.** DS Sec will issue instructions to the Service concerned when nominations are required to meet a demand from an outer office. A minimum of two candidates are normally required but where there is a competition between two or more Services, then a single candidate from each Service will be sufficient. Nominations for 3* and 4* Outer Offices will be filtered by DDPD and Dir P&T before forwarding to DS Sec.

d. **Attaché.** Many Attaché postings have specific requirements (particularly language training) and/or constraints (such as poor air quality, no confinement, no children at post, etc) which CMs and individuals need to consider before nominating to DE STRAT. Attaché nominations can take time to be approved by DE STRAT and the Foreign and Commonwealth Office (FCO), therefore an additional 3 months should be built into the nomination process to ensure the individual has sufficient notice of acceptance and to be prepared for training. Nominations are made, via SO1 CAPPS, by use of the DE STRAT Attaché CV proforma. Assignment Orders are not to be issued until formal approval is given by the FCO, and DE STRAT has issued the letter of notification.

e. **International Competitions.** If the opportunity arises to compete for a non-quota NATO, EU, EDA or UN post, a calling notice and Job Specification will be passed to DS Sec by DG Sec Pol. When called as directed by DG Sec Pol, nominations for non-quota positions are to be submitted on the relevant NATO/EU/UN formation. These nominations will be filtered by DDPD and Dir P&T before forwarding to UK MILREP, or DS Sec if otherwise directed.

f. **Timing.** Whilst short notice selections take place, nine months should normally be expected. DS Sec normally works to the following timetable:

(1) CM trawl submission of Career Briefs – two months.

(2) Interview and Selection – one month.

(3) Notice for assignment - six months.

g. **Rotational Assignments.** Most rotational assignments are not subject to competition and nominations should be made via the monthly CAPPS boarding process. Those relating to personal staffs, however, Royal Household, Ministers and Cabinet Offices are to be made through SO1 CAPPS using the relevant Career Brief format[1] available through the CAPPS team site. Detailed instructions for rotational assignments are laid down in JSP 755 Pt 1 Chapter 2.

[1] Three formats exist: Rotational Career Brief, Attaché Curriculum Vitae and the NATO/EU/UN Application Form.

ANNEX 59F

STAFF TRAINING

1. Staff Courses

Up to date information on all types of staff training can be found in the latest DIN or from the Defence Academy website. Brief details of the courses available and selection criteria are below.

a. Higher Command and Staff Course (HCSC).

(1) **Purpose.** The syllabus for HCSC focuses on the military-strategic and operational levels of conflict and the study of Operational Art, set in the wider strategic context. It concentrates on enduring principles rather than the requirements of a particular time or place. The main themes are:

(a) The evolving contemporary strategic context.

(b) Combined, joint and multi-agency operations, and cultural factors, both national and organisational.

(c) The classical elements and enduring tenets of Operational Art, and evolving thinking in operational design and management.

(d) The nature of High Command, and, more specifically, of the commander's role in campaigning - throughout the spectrum of conflict - together with a working knowledge of current and emerging support mechanisms.

(e) Component and functional operations and the achievement of synergy in their application.

(f) Campaign planning skills and decision making at the operational and military-strategic levels, both in warfighting and in operations other than war.

(g) The contribution of other Government departments in operations at the operational and military-strategic levels.

(h) Recent and evolving technological developments.

Throughout the course particular emphasis is placed on doctrine, future trends and threats, concepts and technology. Recent operational experience is analysed.

(2) **Administration**. The course takes place at the JSCSC, with one course per year running from January to April. Thirty students of the rank of Captain/Commodore or equivalent, senior staff from Civil Servant Departments, usually MOD, GCHQ and FCO, and certain foreign countries are chosen to attend. The Royal Navy has six places per course. Graduates of the College are awarded the post nominal letters "hcsc" in the Navy Directory.

b. **Royal College of Defence Studies (RCDS).**

(1) **Purpose.** The mission of the RCDS is to prepare senior officers and officials of the United Kingdom and other countries and future leaders from the private and public sectors for high responsibilities in their respective organisations, by developing their analytical powers, knowledge of defence and international defence, and strategic vision.

(2) **Administration.** The course takes place at the JSCSC, with one course per year running from January to December. Each course is attended by approximately 85 members, around 1/3 from the UK and 2/3rds from overseas; 75% are military officers of Captain/Commodore level or equivalent rank. The remaining 25% are civil servants, diplomats, police officers and representatives from the private sector. Graduates of the College are awarded the post nominal letters "rcds" in the Navy List.

c. **Advanced Command and Staff Course (ACSC).**

(1) **Purpose.** The aim of the ACSC is to prepare selected officers for high-grade joint and single Service appointments by developing their command, analytical and communications skills and by providing a broad understanding and knowledge of joint, single-Service and combined operations, of the management of defence in the United Kingdom and of the wider aspects of defence as a whole. As a secondary benefit it allows the students to develop a strong tri-Service and international peer network.

(2) **Administration.** There is one course each year, currently of 46 weeks, commencing in August/September and completing the following July. Graduates are awarded the psc(j) competence in JPA and the post nominal letters 'psc(j)' in the Navy List.

(3) **Selection Criteria.** The following criteria are to be used to select candidates for the ACSC:

(a) Rank - SO2 (with a promotion profile) or junior SO1.

(b) Reach to OF5, based on seniority, time to serve and promotion recommendation.

(c) Report portfolio that consistently demonstrates intellectual capacity.

(d) Reference to ACSC suitability either on an ICSC(M)/(L) report or on recent OJARs/Insert Slips.

(e) Serving on or selected for FTC.

(4) **Selection of Students.** The annual timetable for student selection for ACSC needs to balance the many commitments which follow the annual promotion round with the need to identify and promulgate staff course selections as early as possible. Staff Course selections will, of course, be inextricably linked to the conduct and outcome of the annual promotion round and Career Managers will need to be sifting plots for likely candidates before and during this period. The promotions themselves, once in the Career Managers' domain, will permit further and more specific targeting of ACSC candidates but any timetable must take account of the heavy loading on Career Managers after the promotion round and the impact of the summer leave period. Taking all these factors into account, the following annual timetable is to be followed:

Date	Activity
Sep	Initiate Branch selection processes.
Dec	ACSC selection questionnaires[1] issued.
Feb	ACSC Selection Board sits[2], recommendations passed to CMs for confirmation of ACSC nominations.
Apr	CMs finalise ACSC nominations.
May	ACSC Signal released, assignment action initiated.
May through Aug	Critical Thinking Skills Courses.
Aug/Sep	ACSC starts.
Jul	ACSC completes.

(5) **RM Candidates.** RM attendance at ACSC is by the selection of personnel from the proceeding OF3 to F4 promotion signal, or junior OF4, via the following criteria:

(a) Reach to OF5, based on seniority, time to serve and promotion recommendation.

(b) Report portfolio that consistently demonstrates intellectual capacity.

(c) Reference to ACSC suitability on recent OJARs/Insert Slips.

[1] The ACSC questionnaire is to help ascertain the candidates' motivation for undertaking the course.
[2] The Board considers all the completed questionnaires and identifies candidates who present a potential training risk.

(d) Identified as talent management.

(e) Serving on or selected for FTC.

d. **Intermediate Command and Staff Course (Maritime) (ICSC(M).**

(1) **Purpose.** The aim of the ICSC(M) is to contribute to Stage 1 career training by preparing Lts/Capts RM and Lt Cdrs/Majs for SO2 command, charge and staff appointments in developing their command, analytical and communication skills, knowledge of defence and UK military capabilities. It also evaluates their potential for further staff training.

(2) **Administration.** The course lasts 8 weeks and there are generally 5 courses a year. Course dates and capacities may be found in JPA.

(3) **Selection of Students.** Attendance on ICSC(M) is intended primarily for CC officers at SO3 or junior SO2 levels. Every effort must be made by CMs to get CC officers on this course as a precursor to Charge/PWO career training and subsequent selection for ACSC. Nominations are co-ordinated by SO2(X)HM. Names should be entered in JPA course bookings, SO2(X)HM will announce the closing date for names prior to each course and will resolve numbers if oversubscribed.

(4) **RM Candidates.** RM Officers not selected to attend ICSC(L) should undertake ICSC(M) as a staff course following selection for promotion to OF3. Failure to conduct an ICSC may impact future employment options. All RM nominations are coordinated via OF RM SO2A.

e. **Intermediate Command and Staff Course (Land) (ICSC(L)).**

(1) **Purpose.** The ICSC(L) provides intermediate staff training for RM Officers following their selection for promotion to Major. It is the primary RM Career Stage 1 initial staff training. The aim of the course is to prepare selected RM Majors for sub-unit command and on the staff up to and including Lieutenant Colonel by developing their command, analytical and communication skills, and by providing a broad tactical and technical understanding of military capabilities, in the context of land component operations and management within Defence.

(2) **Administration.** The course lasts 26 weeks and has a nominal capacity of approx. 200 RM & Army students. ICSC(L) runs an annual two course series, with start dates of Sep (A Cse) and Jan (B Cse). Course dates and RM capacities are managed by OF RM SO2A in coordination with the JSCSC.

(3) **Selection of Students.** OF RM SO2A loads RM Officers to attend ICSC(L) courses. The officers selected can be both DE and SCC RM officers.

(4) **Pre-Course Preparation.** All RM officers must have completed the relevant mandatory Officer Career Development courses detailed in BRd 3(1) Chap 97 (before they can be assigned to the course. They will also be assigned to the Advanced Amphibious Warfare Course prior to their respective ICSC(L) intake if assignments allow.

(5) **Continued Professional Development.** ICSC(L) awards accreditation towards a Modular Masters Programme.

f. **Amphibious Employment Training**

(1) **Amphibious Training - Basic.** Amphibious Training (Basic) is undertaken in RMYO (Phase 1) training at CTCRM.

(2) **Amphibious Training - Intermediate.** Amphibious Training (Intermediate) is a fundamental part of the RM officer continuous professional development. The Amphibious Operations Planning Course (AOPC) at MWC, Collingwood (1 week) is appropriate for all SO3/SO2 staff appointments in 3 Cdo Bde RM or other operational battle staffs.

(3) **Amphibious Training - Advanced.** The Advanced Amphibious Warfare Course (AAWC) (4 weeks at JSCSC) should ideally be completed prior to attendance at ICSC(L), sub-unit command or ACSC.

g. **Overseas Staff Colleges Attendance and Accreditation.** Arrangements exist for RN attendance as students or, in some cases, as DS in a variety of overseas Staff Colleges. For SO1 and below these opportunities and nominations are coordinated by the CM Career Field team . Officers who successfully complete an Overseas Staff Course or complete a full tour of duty as DS should be accredited with the appropriate competence on JPA which carries the post nominal accreditation ‘psc(j)(o)’. Those who complete the NATO Defence College (Rome) Course should be accredited with the appropriate competence on JPA and post nominals ‘ndc’. Officers attending Senior Overseas Staff Colleges (ranks OF5 and above) should be accredited with the appropriate competence in JPA and post nominals ‘sondc’. These accreditations must be initiated by Career Managers since they are not automatic at source. CM CF DEL SO1 should be consulted if there is any doubt as to which courses qualify for accreditation.

2. Post Graduate Defence Studies

a. **Admiralty Board Policy.** The Admiralty Board recognises the increasing need for officers to develop skills in business management and international studies in order to compete for posts within the joint community. Availability to undertake such training will depend on individual circumstances, career management and the needs of the Service. These factors are reflected in the selection criteria governing each course and are discussed further below.

b. **General Selection Criteria.** The following points should be borne in mind when advising officers who enquire about these schemes or indeed when Career Managers deem it correct to advise officers to consider applying for them. All applicants should be of well above average intellectual ability and have proven staff skills (this does not imply completion of ACSC). They need to be sufficiently personable and knowledgeable about defence matters in general to be an influence for good amongst all with whom they will come into contact. At the end of the officer's time the academic institution attended must believe that the Royal Navy has a high calibre person and the staff and undergraduates should have a better understanding of defence matters through their influence. Career Managers are to be proactive in seeking candidates for postgraduate studies and to give such mid-career training proper consideration as a viable alternative to staff training in overall career management.

c. **Postgraduate Studies - Selection Procedures.**

(1) A variety of opportunities exist for officers to undertake Postgraduate Studies related to International Relations, Business Management/Administration and Human Resources. Details of all these courses and any pre-requisite educational requirements are published annually by DIN. Applications for such training are to be managed in accordance with the procedures described below.

(2) CM OF ENG TMSO1 will administer the application and Boarding processes, promulgating details of courses and procedures for applicants by e-mail.

(3) In assessing each applicant for any course, the aim is to determine the relative suitability of the candidates, taking into account the following:

(a) Individual career management.

(b) The Service return on the training investment.

(c) The ROS requirement attached to post graduate studies.

(4) Applications for full or part-time DCMT/Cranfield University courses will be considered by the DDPD Postgraduate Selection Board (PSB). Applications for the Hudson Fellowship the MPhil and other research fellowships will be considered by the Academic Scrutiny Board (ASB).

3. Funding of External Training

a. Within the DDPD delegated budget, tuition costs are funded from the External Training Budget (ETB). This budget area covers the following elements of external training for officers:

(1) Foreign Military Sales (FMS) courses in the USA e.g. Persian Farsi language training, Ocean Surveillance training, USA Staff College attendance.

(2) Attendance at the NATO School (SHAPE), Oberammergau.

(3) Postgraduate full time and part time degree courses e.g. MPhil, MBA, MSc at UK universities.

(4) NATO Fellowships, Defence Fellowships, Service Fellowships, the MPhil in International Relations at Cambridge University and the Windsor Leadership Trust

(5) Diploma of Accounting course and Management Accounting courses.

(6) Courses required by Dir P&T personnel in order to undertake their responsibilities.

(7) Textbook expenses, thesis typing, binding and translation, internet connection and limited travel costs for the courses at sub para 2 and sub paras 3.a (1), (2), (3), (4), (5) and (6) above and also for postgraduate courses where there is no charge e.g. DCMT Shrivenham and Cranfield University.

(8) DGNCS external training.

b. **Postgraduate Studies.** Bids for major career courses such as Postgraduate Studies which fall within the ETB will be collated by CM OF ENG TMSO1 in July/August each year for the following year's STP. This includes the Higher Defence Studies listed earlier and other career Master's courses required by each Branch. All CMs will be required to forecast their plot training requirements across the 4 years of the PR Round. These bids will then be costed by the DDPD Business Manager prior to assessment by the DDPD Management Board. If the total cost of bids exceeds the available funding an exercise in prioritisation will be conducted under the auspices of DDPD. This process may include researching the cost of alternative equivalent courses at a variety of UK universities to identify the most cost-effective solution within overall allocations.

c. **Other Training Needs.** Outwith the funding of career courses described above, there will be a variety of external training needs which must be sanctioned on an individual basis through CM OF ENG TMSO1 and the DDPD Business Manager. The procedure for this is as follows:

(1) Applicant for RN/RM sponsorship submits letter of request to their CM.

(2) The CM forwards the request to CM OF ENG TMSO1 using the proforma at Appendix 1 to Annex 59F, which includes a supporting statement from the CM.

(3) CM OF ENG TMSO1 designates a priority category using the following criteria:

(a) **Priority 1 - Essential.** Training with SOC HTQ support i.e. full-time courses whose capitation costs are included in the HTQ.

(b) **Priority 2 - Desirable.** Training which will benefit the Service, but which is not essential.

(c) **Priority 3 - No Requirement.** Training which may have a potential long-term benefit but for which there is no immediate requirement.

(4) CM OF ENG TMSO1 liaises with the Business Manager to determine availability of funding for individual requests. For any course longer than one year's duration, funding must be sought on a year-by-year basis with no guarantee of approval for further funding.

(5) CM OF ENG TMSO1, advising as required, decides the outcome of the request and notifies the CM using the proforma at Appendix 1 to Annex 59F.

(6) The CM, in turn, notifies the applicant. This notification should be copied to the DDPD Business Manager, to whom all invoices should be forwarded by Universities etc. In the case of postgraduate courses, applicants should also be advised of the following:

"DDPD will consider claims for financial assistance for the cost of text books essential for the course, which are unavailable from libraries or other no-cost sources, up to a maximum of £600 p.a. - the year commencing from the date of the commencement of the course. Costs of Internet research will be covered within the £600 pa. allocation, as will any typing, binding and translation of a thesis or project where no such facilities are available from service resources. Completed claim forms, together with receipts, should be forwarded to the Business Manager who will arrange reimbursement."

(7) The form to be used for claims is at Appendix 2 to Annex 59F which should be reproduced locally.

APPENDIX 1 TO ANNEX 59F

Certified that the above titles of books purchased are essential to the course of study being pursued, and the typing and/or binding of the thesis/project as shown above was necessary.

Date .....…….. Signed (by Tutor) .....……

Date .....…….. Signed (by Applicant) .....…….

Notes:

1. Receipts and bills for all purchases must accompany this form.

2. Books remain the property of the Ministry of Defence and when no longer required are to be surrendered to the MOD Library, 3-5 Great Scotland Yard, London SW1A 2HW.

3. Second hand books may be purchased but receipts will be required.

ANNEX 59G

LENGTHS OF ASSIGNMENT

1. For planning purposes, normal lengths of assignment for non-squadded personnel are to be taken as follows:

a. **Ships and Submarines:**

Officers: 21 ± 3 months for Surface Ships; 24 months for Submarines; 30 - 36 months for FSA for WESM/MESM Lts.

Ratings: Up to 36 ± 3 months for ships and submarines.

b. **Survey Ships:** 24 months.

c. **Squadrons:**

Officers: 24 months.

Ratings: Lengths of assignment vary between rates and specs. Refer to relevant CM.

d. **UK Shore Positions:**

Officers: 30 ± 6 months.

Ratings: Dependent on SAVDATE.

RM units: 24 ± 6 months.

e. **FOST Sea Riders:** 24 months.

f. **OPTOURS:** 6 months.

g. **Falkland Islands:** 6 months.

h. **DE&S:** 30 ± 6 months.

i. **MOD Central Staff & Rotational Positions:** 30 months.

j. **Technical Officers Standing by Ships In Build:** Up to 4 years and can be considered as 2 assignments.

k. **Security Positions:** 36 months.

l. **NATO Assignments:** 30 months (Any variation to be agreed with appropriate NATO authority in advance).

m. **LFS Accompanied:** 24 - 30 months.

The minimum period is of particular importance because of financial constraints. Individuals may request up to three months variation in the length of their foreign assignment by application to their CM. Applications to reduce tour length cannot be made after 18 months and extensions of assignments cannot be requested after 24 months. Each case will be considered on its merits. Extensions of LFS in excess of six months will not normally be allowed.

n. **LFS Involuntarily Separated(e.g. BIOT)** 12 months.

o. **PJHQ:** 24 months.

2. LFS Exchange and Loan Positions

Certain exchange posts and loan posts are subject to a specific length of assignment as laid down in the relevant agreements.

3. Over-zone Officers Ashore in UK

The need to re-assign individuals approaching the end of their careers to broaden their range of experience is much less than that for more junior personnel. Accordingly assignments for these individuals may be for as long as convenient to both the Service and the officer or rating, subject to regular review.

4. Royal Marines Officers

For planning purposes, the normal length of an assignment for a trained officer is 2 years. Officers may request to remain in their assignment for a further year. Longer extensions (i.e. over 3 years) are exceptional.

ANNEX 59H

THE USE OF FULL TIME RESERVE SERVICE AND ADDITIONAL DUTIES COMMITMENT PERSONNEL

1. Introduction

a. The regulations for the use of Reservists on the Full Time Reserve Service (FTRS) scheme are laid down in BRd 3(1) Chapter 102 and BRd 3(2) Chapter 18. This Policy Statement does not replace any of these regulations, which remain extant. It does, however, provide explanatory guidance to all staff involved in the application and administration of the scheme regarding issues not covered by the regulations. It does not affect the financial or non-financial remuneration packages associated with the scheme: FTRS is a tri-Service scheme and Director Reserve Forces & Cadets is overall custodian of the regulations.

b. FTRS enables established positions that cannot be filled by Regular Service personnel to be filled by members of the Royal Fleet Reserve, Royal Naval Reserve and Royal Marines Reserve. To ensure that usage is consistent with the manning situation at the time, however, the scheme is normally subject to some controls.

c. Additional Duties Commitment (ADC) is a part-time derivative of FTRS; its regulations are laid down in BRd 3(1) Chapter 103 and BRd 3(2) Chapter 19.

2. Control of Overall FTRS Numbers

Workforce deficits are identified and broken down by rank and specialisation as part of the annual workforce planning cycle. In addition, details of those on FTRS filling gapped positions are identified. Dir P&T HQ N5 SWP will assess these inputs against other known or predicted criteria (GTS, etc) and then promulgate maximum numbers for each rank and specialisation that can be engaged on FTRS for the following year. Exceptional approval is required from DDPD to exceed these annual quotas.

3. Length of Commitments

All new commitments normally default to a maximum initial length of 12 months. Twenty-one-month commitments can be granted at the discretion of CM Reserves. Exceptionally, commitments in excess of 21 months duration, determined by the wider demands of the Service (i.e. how important is the position, how many applicants are there for the post, is there a continuity issue, etc?) would need approval from DDPD. However, all sea service/frontline positions should normally attract initial commitments of no more than 24 months in length.

4. Banding of Commitment

Any position being considered for the FTRS scheme (including an extension to an existing FTRS commitment) undergoes a rigorous audit, led by the deployer (CM Reserves) in consultation with the employer, branch structures manager and workforce planner. It confirms the following:

a. The continuing need for the position to be complemented by Regular Service personnel rather than MSF, civilian or contract (a DDPD/employer decision).

b. That a comprehensive trawl has taken place to ensure no Regular personnel are available to fill the position for the duration of the commitment being considered (DDPD decision).

c. There is no scope to fill the position with a Reservist(s) on an Additional Duties Commitment (i.e. 'Part Time' Reserve Service) (DDPD/employer decision).

d. The Types of Commitment are summarised as follows:

(1) Home Commitment (HC), where the duties involved do not necessitate deployment or detachment outside the local area, is to be the default commitment offered. Exceptionally, use of FC/LC (see below) may be approved by DDPD, in consultation with COMMARRES/Functional Employer for RNRs.

(2) Limited Commitment (LC) may be offered if the individual is required to detach/deploy for up to 35 days a year, but no single detachment exceeding 21 days per year, to carry out the defined duties. This could potentially include Crisis Donor Positions.

(3) Full Commitment (FC) will apply to all sea-going/front line positions, as well as to other commitments that necessitate a liability or requirement for detachment/deployment exceeding 35 days a year. A Crisis Donor position will normally require any FTRS incumbent to be on FC, although consideration should normally be given to re-allocating these within the employer's Establishment. In addition, in a situation where there is little or no defined Crisis requirement for a reservist about to fill the Crisis Donor position on FTRS, HC would normally be offered.

5. Deployability of FTRS Personnel

a. Unless overriding market forces dictate otherwise, personnel offered FC are normally to have the following clauses included in their written terms of commitment:

"You may be required to undertake any detached duties in support of operations or exercises as required by the CO of your employing unit or your career manager [or COMMARRES for RNR/RMR personnel]. These duties may involve skills or competences out-with the specific terms of your normal daily employment, but will be within your military experience as a Reservist (subject to additional training as required). Additionally, in certain circumstances, the Service may exercise the option of deploying FC FTRS personnel to other positions ashore or at sea, with normal assignment notice (3 months shore/5 months sea)."

b. Personnel offered LC are to have the following clause included in their written terms of commitment:

> "You may be required to undertake any detached duties in support of operations or exercises as required by the CO of your employing unit or your Career Manager [and COMMARRES for RNR/RMR personnel], for up to 35 days in the UK or overseas in any one year with no single detachment lasting in excess of 21 days. These duties may involve skills or competences out-with the specific terms of your normal daily employment, but will be within your military experience as a Reservist (subject to additional training as required)."

6. RNR/RMR Personnel Serving on FTRS

RNR/RMR personnel extending, or applying to join, on FTRS will have an additional clause in their terms of commitment stipulating the mandatory requirement for the employer to release the individual for their Annual Training Commitment (outside of the individual's leave entitlement). This is to be signed by both the employer and individual. Additionally, all RNR/RMR personnel applying for new, or extensions to, FTRS commitments are to have their applications approved by both their RNR/RMR Unit CO, in line with the guidance provided to the units by COMMARRES. As part of this approval process, the Reserve Units are to assess all RNR/RMR personnel volunteering for FTRS and recommend to CM Reserves any amendments to the commitment, to include any specific conditions pertaining to the requirements of their RNR/RMR specialisation.

7. RMR Ranks Transferring to RM Open Engagement

RMR ranks aiming to transfer to an RM Open Engagement are required firstly to undertake an FTRS (FC) commitment with an RM Unit and need to be recommended for transfer by the CO. In exceptional circumstances, when RMR Mnes are specifically selected for technical SQ courses (RMCT or TT), this probationary year can be waived by the RM Branch Manager, if supported by suitable Commanding Officer’s recommendations. The RMR FTRS(FC) probationary year is intended to ensure RMR personnel are of the required standard to transfer to OE. This requirement may, if in manning balance, lead to a small overbearing of GD Mnes. However, given GD ranks are continually being selected for SQ training, this will not cause long-term structural problems, but NPS authorisation may be required.

ANNEX 59I

NARRATION OF PERSONAL TURBULENCE ON JPA

1. Career Managers are required to record Personal Turbulence data on JPA to enable a quick cross reference for identifying individuals that have not breached the personal turbulence guidelines (see Chapter 22 Section 2). The recording of the number of serials and days will give rise to a fair process by which those with the least or indeed no recorded serials are considered first.

2. In order for this process to create as little administrative burden as possible upon the assigning authorities, the wording requires to be succinct and easy to reference. This wording also needs to highlight as to whether an individual was moved for an exercise, event or operational requirement. Content for the narration is to be placed within the “Rank Review Text” field on JPA and must follow the following format:

a. **MOVE.** This first word states that an individual had been subjected to personal turbulence and also acts as the key word for filtering using the “custom” option when consulting Key Data.

b. **MOVE(1).** The number contained within the bracket clarifies how many times an individual has been subject to personal turbulence during any rolling 12 month period. This also helps to rule out those who have already been subject to a third cycle of personal turbulence.

c. **MOVE(1) NTM (5).** The Notice To Move (NTM) with corresponding days in brackets is also to be noted. To alleviate confusion the NTM is only to reflect the move related to the current / last serial and not a total number of days given for all moves.

d. **MOVE(1) NTM(5) HMS KENT.** To avoid any confusion as to which platform / unit required an individual to be moved, the platform / unit is to be stated should any cross reference for whereabouts be required. Examples are:

(1) **MOVE(1) NTM(5) HMS KENT.** In this format the move would reflect an operational requirement resulting in an assignment order to a specific Personal Identification Device (PID).

(2) **MOVE(1) NTM(5) HMS KENT MA10A.** The inclusion of MA10A would signify that the move was for a requirement during an exercise, e.g. JOINT WARRIOR, with an individual being assigned to this margin for the respective platform / unit.

(3) **MOVE(1) NTM(5) HMS EXCELLENT MA10B.** The inclusion of MA10B would signify that the move was required for an event, e.g. November Ceremonies, with an individual being assigned to this margin for the respective platform / unit.

e. **MOVE(1) NTM(5) HMS KENT 10 DAYS.** The number of days for a single serial will also help to ensure that an individual does not exceed the number of days they could expect to be subjected to personal turbulence during 3 moves.

f. **MOVE(2) NTM(4) HMS KENT 10 DAYS SD 01/10/13**. The Start Date (SD) would state at which point an individual commenced their 12 month cycle.

g. **MOVE(2) NTM(4) HMS KENT 10 DAYS SD 01/10/13 (20).** Career Managers (CM) would be required to accurately record any movement associated with personal turbulence during the assigning process. This would require the addition of OPDEF moves and days. The number of days for a single serial would remain next to the corresponding platform / unit, with the total number of days stated in brackets at the end of the SD.

ANNEX 59J

OFFLINE PE-OPDEF, PERREQ OR NOWD SUBMISSION

1. During times of limited connectivity or units with low bandwidth that prevents them using the SCIO App to upload their PE-OPDEF, PERREQ or NOWD units are to complete the PDF request form that can be found using the link in the footnote[1]. Unit workforce coordinators are encouraged to download and save a copy of this form to their units IT system for future use.

2. To enable full utility of the PDF document it must be opened in **Adobe Acrobat Reader** and not in an internet browser or Word. The completed request should be saved as a PDF.

3. Once the PDF is completed as per the normal PE-OPDEF, PERREQ[2] or NOWD instructions, it should be saved using this file name standard:

YYYYMMDD-UNIT_OPDEF/PERREQ/NOWD_NUMBER_Cat-OSP

e.g. 20230705-NORT_OPDEF_01-23_B2-OSP

4. The completed PDF should then be emailed as an attachment to NAVY PEOPLE-OPS CAP MAILBOX (MULTIUSER)[3] with the Subject title being the same as the file name of the attachment.

5. Units will receive an email acknowledging receipt within 24 hours[4] as well as confirmation of the PE-OPDEF, PERREQ or NOWD number. If this has not happened there is a chance that it has not been received. The onus is on Units to chase up the received acknowledgement to ensure their request has been submitted.

6. Further details on completing the PDF version are available in the Desk Instructions[5].

7. For reference, the PDF document looks like this:

---

[1] The PDF can be found at this location: https://gbr01.safelinks.protection.outlook.com/ap/b-59584e83/?url=https%3A%2F%2Fmodgovuk.sharepoint.com%2Fsites%2Fdefnet%2FNavy%2FDocuments%2FOperational_Deficiency_Request.pdf&data=05%7C01%7CGary.Tregunna253%40mod.gov.uk%7C910cca6f89254b595b7f08db89016e1c%7Cbe7760ed5953484bae95d0a16dfa09e5%7C0%7C0%7C638254411454564496%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C3000%7C%7C%7C&sdata=%2BbkCGqWujOVl823GxKEcNqIouzFU%2B5upwMY8EWg8tMY%3D&reserved=0

[2] NB - PERREQs do not require an 'Effect' statement, any attempt to add 'Effect' information to a PERREQ will prevent the whole PDF being downloaded to the database.

[3] NAVYPEOPLE-OPSCAPMAILBOX@mod.gov.uk

[4] During the working week, up to 72 hours at weekends.

[5] Instructions are available on request via NAVYPEOPLE-OPSCAPMAILBOX@mod.gov.uk if not already held.

ANNEX 59K

THE DIGITAL PERSONNEL SUPPORT REQUEST (D-PSR)

1. The Digital Personnel Support Request (D-PSR) is automatically sent via SCIO to the Line Managers (LM) of individuals who are considered suitable to move to another role at short notice via a WF trawl. It is now an on-line process using the SCIO App and is activated by P-Ops on SCIO and transferred between the Individual being trawled, their LM, HoD and CO, similar to an SJAR / OJAR. It is then returned to P-Ops electronically via SCIO. The LM of an SP selected for a trawl will be notified that a trawl is in process via an alert on the SCIO app. Select the icon, then select on the notification.

2. The D-PSR gives the unit and the individual a chance to explain any personal and professional factors which they want to be considered by the trawling authority in making their selection. The D-PSR statement is the only source of information used in assessing the likely impact of a short notice move. The D-PSR statement is also an individual's chance to volunteer to fill a gap, if the timing and location suit their circumstances. **NB** If no D-PSR statement is submitted, it will be assumed that there are no professional or personal considerations that are affected by the move and therefore the individual is available.

3. It is important that any information included in the D-PSR statement is unemotional, objective, and honest. Provide as much detail as needed and include those things that will have a major impact on the individual and their immediate family (personal) and to the employer (professional). Care should be taken to include only those things that have a major impact rather than just an inconvenience e.g. it is not the RN's responsibility to provide a solution to child-care support, however, if the normal child-care arrangements are not possible due to an unforeseen circumstance then this may have a major impact on the individual.

4. There may be a temptation to overstate the case; this however can lead to further investigation that may even question a person's suitability for continued retention in the Service where personal circumstances are deemed so severe that they are not compatible with the demands of Service life.

5. Select 'Save' to save the current progress of the D-PSR (user will be able to return to it at a later time), 'Send and Forward to SP' (sends D-PSR to the SP for the input of Personal Consideration), 'Send and Forward to HoD' (sends D-PSR to HoD for comment once the Personal and Professional Consideration boxes are complete). HoD's have the option to forward to CO, or 'Save and Forward to P-Ops' if it is deemed that CO comments are not required.

6. Once all D-PSRs / Word PSRs[1] have been received, they are reviewed by the trawling authority, a selection made, and the individual's LM informed via SCIO and automated email. LMs will also be informed if an individual has not been selected. In complex cases, the decision will be made at OF-5 level.

[1] For units that cannot access SCIO

7. For units unable to conduct the on-line D-PSR process, they should inform P-Ops immediately[2]. They should then use the current 'Word' PSR proforma and, once completed, send it back to the issuing officer's role account, not the P-Ops multiuser account.

8. For an ambitious Service Person there is a real opportunity to benefit from providing cover for short notice requirements; the individual can gain experience and training as part of a deployed unit, complete tasks required for advancement or promotion, and make a real difference where it matters.

9. Detailed instructions on completing a D-PSR are available within the SCIO App and within the first draft of DIs sent to each BWO, EWO, Coxn etc[3].

10. For reference the MS Word PSR proforma is at Appendix 1 to this Annex.

[2] By emailing NAVYPEOPLE-OPSCAPMAILBOX@mod.gov.uk.
[3] Desk instruction can be requested via NAVYPEOPLE-OPSCAPMAILBOX@mod.gov.uk

APPENDIX 1 TO ANNEX 59K

PEOPLE OPS PERSONNEL SUPPORT REQUEST STATEMENT

YYYYMMDD-PSR-UNIT_OPDEF / PERREQ_PE_NN-YY_NAME-OSP

This proforma **MUST** be used when responding to any trawl / request for personnel where professional and personal considerations are necessary to inform decision-making when receiving Unit does not have SCIO connectivity.

REQUEST[1]

Request Reference[2]	YYYYMMDD-Unit_OPDEF_PE_NN_YY_(xx)-Trawl-OSP		
Date Request Raised[3]	DD MMM YY	**Date(s) Required**	DD MMM YY – DD MMM YY
Unit / Position / Line No.	xxxx / xxxx / xxxxxxx		
Job Description	xxxx		

NOMINATION[4]

Name & Initials			
Rank / Rate		**Service No.**	
Parent Unit			
Job/Title in Parent Unit			
Volunteer (YES or NO)			
MOD Contact No.		**MOD Email**	
Professional Considerations[5]			
Personal Considerations[6]			
Line Manager		**Rank / Rate**	
MOD Contact No.		**MOD Email**	
Is there an open RNFPS welfare case?		**Do you give authority for People Ops and RNFPS to discuss this?**	

[1] To be completed by organisation authorised by People Ops to initiate trawl (i.e. People Ops Operations or Augmentation, CM or RCM).
[2] Name of operation, exercise, event, PE OPDEF ref, or PERREQ ref as appropriate.
[3] Date request / trawl sent to supplying unit.
[4] One form per individual nominee. To be completed by the nominee's line manager in consultation with the individual.
[5] Impact on parent unit if nominee removed for duration of request. Dates of key activities / events to be included.
[6] Personal issues affected by removal from post for duration of request. Dates of key activities / events to be included. If none, must state "Nil".

Head of Department's Comments			
Name		**Rank / Rate**	
Commanding Officer's Comments			
Name		**Rank / Rate**	

DECISION

CM / RCM Comments[7]			
Name		**Rank / Rate**	
Trawling Authority's Comments and Decision[8]			
Name		**Rank / Rate**	

[7] To include details of PFS breaches, recording of personal turbulence, and appropriate comments on assigning history (last 3 years).
[8] To be completed by organisation initiating trawl. To include decision/outcome of trawl. If the individual is used to fill the requested position, details of when they were informed **must** be included.

ANNEX 59L

SCIO PE OPDEF, NOWD AND PERREQ INSTRUCTIONS

1. The new People Ops SCIO application is now the default way of reporting all PE-OPDEF's, PERREQ's and NOWD's. Users can find detailed help on how to use the application by using the question mark icons within the SCIO application. Desk Instructions (DIs) are available within the App.

2. If the SCIO application is offline or unavailable for units due to operational reasons, users are to email the People Ops Multiuser NAVY PEOPLE-OPS CAP MAILBOX (MULTIUSER) as per the details in Annex 59J.

3. Raising a new PE-OPDEF / PERREQ / NOWD

a. To raise a new PE OPDEF / PERREQ / NOWD, the Executive Warrant Officer (EWO) / Base Warrant Officer (BWO) / Coxswain (Coxn)[1] of the unit is to select People Ops from the main menu of SCIO. The main menu of SCIO can be accessed via either the laptop icon on the left-hand side of the screen or by the 4-box icon in the top right of the screen.

b. This will open the PE OPDEF / PERREQ / NOWD log for the Unit. Users will only be able to access all PE OPDEF's / PERREQ's / NOWD's for their Unit. All the details of the request and any subsequent updates from People Ops can be viewed by selecting the Action Menu icon and selecting View Request.

c. To raise a new PE OPDEF / PERREQ / NOWD, select Create Operational Deficiency. This will bring up the request creation menu. Select the type of request that is appropriate from the options of OPDEF / PERREQ / NOWD. Once the type of request has been selected, all mandatory fields, indicated with red tabs in the corner of each applicable box, must be completed before the App will allow the submission of the request.

d. The requirement on the request page contains seven boxes which detail the position and category of the PE OPDEF / PERREQ / NOWD. A guide to completing these boxes and the information required is as follows:

(1) **Date.** The date box will automatically populate with the current date and time in which your computer is set to.

[1] This role may be titled differently within Shore Units / Naval Air Squadrons.

(2) **Position.** This box is for the JPA Position Number (JPAN) applicable to the position that the request is for. To enter the JPAN, either click within the box and begin typing the JPAN or select the icon next to the position box and begin typing. To search for the JPAN, either press the enter button on the keyboard or the magnifying glass icon on next to the box. Check the search result applies to the position you are raising the PE OPDEF / PERREQ / NOWD for and select it to populate the position box. If the position name is incorrect, check the JPAN has been entered correctly. If no search results are populated, the JPAN has either been entered incorrectly, it is not applicable for the user's unit or it is a non-liability driving JPAN and therefore a PE OPDEF / PERREQ / NOWD cannot be raised against it.

(3) **Gender.** The App will auto-populate this box with Gender Free. If the position is gender restricted, select the arrow on the right side of the box and select the appropriate gender restriction.

(4) **Lower Rank/Upper Rank.** If the position can be filled by a different rank/rate than it is assigned to, select the icon on the right side of the lower rank and upper rank boxes and select the appropriate rank range.

(5) **Department and Sub-Department.** This box will auto-populate when the JPAN is entered.

(6) **Category and Repair Indicator.** To enter a category, select the drop-down arrow on the right side of the box. The PE OPDEF / NOWD category must reflect the impact of the gap on OC using the Effect Category and Repair Indicator as seen below.

4. **Effect Category** is a statement of impact on OC and should be interpreted as:

A. Major capability inoperative.

B. Major capability significantly degraded.

C. All other OPDEFs / NOWDs.

5. **Repair Indicator** is a statement of support needed:

1. Immediate rectification required to meet Ship’s commitments or programme. Rectification will be the Ship’s primary aim and embarking the relief will override existing programme intentions.

2. Rectification required as soon as possible to meet future commitments or programming. Embarking the relief will be pursued within existing programme.

3. Rectification not required until next programmed Base Port period. Not normally applicable for PE-OPDEFs / NOWDs.

4. Rectification may await next programmed Upkeep period. Not normally applicable for PE-OPDEFs / NOWDs.

The final box on this screen should contain information on why the PE OPDEF / PERREQ / NOWD has been raised, what effect this will have on the unit and any additional information. Each separate box heading will turn green once text has been inputted. A guide to completing these boxes and the information required is as follows:

a. **Effect** – This box must accurately reflect the impact on OC, bearing in mind current, future, and contingent tasking. This should be accurately mirrored in the PE-OPDEF / NOWD category. Comments should be included here explaining the extent of the loss across the whole Ship's Company (e.g., 3 of 6 POET(WE)s gapped). Vague statements such as "Unable to achieve State 1 crewing" are inadequate as they fail to identify the impact in sufficient detail to enable decisions to be made. For those units not in Fleet Time, it should reflect the impact on key upkeep dates (SSMOB, RFSD, FD).

b. **Reason for Absence** – Select the arrow on the right side of the box and choose the most appropriate reason for the PE OPDEF / PERREQ / NOWD being raised. The From Date/To Date boxes should be completed with the essential dates a relief is requested for. To enter the dates, select the calendar icon on the right of each box and select the appropriate dates – users are to be aware only future dates can be selected. Users are also to ensure only the most essential dates are selected, as requesting the 'gold-plated' solution dates may delay a relief being nominated, when the true requirement could be resolved much earlier.

c. **Remarks** - The remarks section of the PE OPDEF / NOWD / PERREQ is free-text and can be used to provide any amplifying comments. What do you really need and when do you really need it? Other topics to be considered are; relevant ship's programme information (up to OFFICIAL SENSITIVE and referring to the FOP if necessary); a ship / departmental PoC and contact numbers (for discussing competencies etc); any additional SQEP held onboard which might allow the Unit to sustain for a time should also be noted.

d. Once all elements are completed and there are three ticks on the sub-headings as seen below, select Next.

e. The Competence details page will list all competencies associated with the JPAN. Select the JPA competences which are considered essential (maximum of 5) for the position. For example, raising a PE OPDEF for the RPO is not enough – is it the Regulating SR function or the FDO qualification that the ship requires to maintain OC?

f. When all boxes are completed, the back arrow located in the bottom right of the pop-up box can be selected to check all information has been inputted correctly. Once all information has been checked, select Next and then Submit. This will return the user back to the home page of People Ops. A number for the PE OPDEF / PERREQ / NOWD will have been automatically populated and will be in the 'Type Ref' column. Once the PE OPDEF / PERREQ / NOWD request has been successfully submitted, the 'Results' column will show a green tick.

g. The ‘Results’ column provides P-Ops staff with a list of potential SQEP personnel based on the parameters provided within the PE OPDEF / PERREQ / NOWD. If at any stage, and prior to any nomination, the parameters change then a SITREP must be submitted detailing the new requirements to enable the automatic search process within the App to identify any new SQEP WF options. This also re-starts the seven-day timeline for any nomination as a new trawl will have to be commenced.

6. PE-OPDEF / PERREQ / NOWD SITREP

a. When any significant detail of the PE OPDEF / PERREQ / NOWD changes, a SITREP must be generated as soon as possible to inform the People Ops team of the new requirements. All category A PE OPDEF’s / NOWDs should be SITREP’d fortnightly (earlier if there is significant change) and all B or C category PE OPDEFs / NOWDs and PERREQs should be SITREP’d six monthly (earlier if there is significant change). Any PE OPDEF / PERREQ / NOWD which has not been SITREP’d within the last six months will be considered historical and no longer relevant and will be rectified by the P-Ops team.

b. To generate a SITREP, select the action menu on the PE OPDEF / PERREQ / NOWD request that requires the SITREP and select Create SITREP. The pop-up box will auto-populate the details contained in the original request. Select and edit the information which needs updating. The user can either delete all existing text or add additional text to the original request. Any text added to the original PE OPDEF / PERREQ / NOWD must include ‘SITREP’ before it to make it clear to the P-Ops team which information is new. Once all headers on the boxes are highlighted, select next, then submit. Once the SITREP has been successfully submitted, the ‘Results’ column will show a green tick.

c. To view the submitted SITREP, select the action menu on the PE OPDEF / PERREQ / NOWD which has been SITREP’s and select View Request. The most recent SITREP will automatically load. To see previous submissions, select the left arrow next to Request SITREPS. Any boxes which contain different information from the original request will be highlighted in yellow.

d. If required, a PE OPDEF / NOWD can be changed to a PERREQ and a PERREQ can be upgraded to a PE OPDEF / NOWD, if required. Select Create Operational Deficiency on the People Ops menu. In the position box, enter the JPAN of the PERREQ that requires upgrading to a PE OPDEF / NOWD. A pop-up a notification giving the option to SITREP or Raise New Request. Select Raise New Request. This will automatically rectify the original request. Follow the steps listed above to create the new PE OPDEF / PERREQ / NOWD.

7. PE OPDEF / PERREQ / NOWD Update Notifications

The unit’s EWO / BWO / Coxn will receive an email notification to their role account when P-Ops apply any updates to their associated PE OPDEF’s / PERREQ’s / NOWD’s. These notifications will include the request for more information or a SITREP, a request for the PE OPDEF / NOWD to be re-categorised and the issuing of sustains, trawls and PR / TR nominations.

8. PE OPDEF / PERREQ / NOWD Rectification

Once a TR or PR has arrived onboard a unit the relevant PE-OPDEF / PERREQ or NOWD should be rectified (not downgraded).

CHAPTER 60

SPECIFIC TYPES OF ASSIGNMENT

(Sponsor: NAVY PEOPLE-CM COMD POLICY SO2C)

CONTENTS

SECTION 1 - ASSIGNMENTS FOR PERSONNEL ON JOINING OR LEAVING THE TRAINED STRENGTH

Para

6001. Assigning Officers and Ratings to Phase 1 and Phase 2 Training
6002. End of Training (EOT) Date
6003. Pre-Release Vocational Training (PRVT) Courses and Graduated Resettlement Time (GRT)
6004. Assignments to Release

SECTION 2 - ASSIGNING FOR DISCIPLINARY REASONS

6005. Removal from Command
6006. Removal from Assignment
6007. Suspension from Assignment
6008. Assigning Officers Following Courts Martial Sentences
6009. Assigning Ratings Sentenced to Imprisonment or Detention
6010. Assigning Ratings on Completion of Sentence
6011. Assigning Ratings/Other Ranks Disrated, Reverted, Reduced in Rank or Deprived of Specialisation
6012. Action to be Taken for Personnel Absent Without Leave

SECTION 3 - ASSIGNING FOR WELFARE REASONS

6013. Compassionate and Welfare Assignments (also see Chapter 24)
6014. Assigning Parents of Children with Special Educational Needs
6015. Assigning Personnel Undergoing Courses of Assisted Conception Treatment
6016. Career Management Record (CMREC) Assignment Restriction

SECTION 4 - ASSIGNMENT OF SENIOR OFFICERS (1 STAR AND 2 STAR)

6017. Flag and Senior Officers' Appointment Board (FSOAB)
6018. Before the FSOAB
6019. At the FSOAB
6020. Post FSOAB Action
6021. Out of Committee Decisions
6022. FSOAB Standing Agenda

SECTION 5 - ASSIGNING TO PARTICULAR POSITIONS

6023. Lord High Admiral
6024. Vice Admiral of the United Kingdom
6025. Heads of Branch
6026. Heads of Fighting Arm
6027. Career and Talent Management of Senior Military Outer Office Appointments
6028. Temporary Sea Assignment in Command
6029. Assignment to the Staff of Fleet Operational Standards and Training (FOST)
6030. Assignment to Royal Fleet Auxiliary Ships
6031. Assignment of Maritime Reserve Officers
6032. Attaché and Adviser Assignments
6033. Instructor Positions - General
6034. Selection of Instructors for Phase 1 and Phase 2 Training
6035. Driver Positions
6036. Recruiting - Service with Captain Recruiting and Attraction (R&A)
6037. Sports Coaches
6038. Elite Athlete Scheme
6039. Retinue - Catering Services (Chefs and Stewards)
6040. Volunteers for Special Reconnaissance Regiment, Special Forces, Defence Human Intelligence (DHI), OP SAMSON or 148 (Meiktila) Commando Forward Observation Battery Royal Artillery or the Commando Mobile Air Operations Team
6041. Sea Safety Courses - Ships/Submarines
6042. Senior/Leading Rates' Leadership Courses

SECTION 6 - ROYAL MARINE ASSIGNMENTS

6043. Key Staff Assignments (RM Officers)
6044. Special Assigning for RMOR
6045. Selection and Assigning for Command, Secondary Specialist Qualifications (SSQ) and Primary Specialist Qualification (PSQ) Training
6046. Provisions for the RM Band Service

SECTION 7 - DISCLOSURE AND BARRING SERVICE & PROTECTING VULNERABLE GROUPS CHECKS REQUIRED BY LAW AND MOD

6047. Introduction and Important Caveat
6048. References and Further Information
6049. Protecting Vulnerable Groups in Scotland
6050. Personnel Requiring a Disclosure & Barring Service or Protecting Vulnerable Groups Check
6051. Level and Type of Disclosure & Barring Service or Protecting Vulnerable Groups Check
6052. Assessment of Certificates of Disclosure
6053. Application Procedure
6054. Suitability Decisions and Competence Recording
6055. Portability of Disclosure and Barring Service and Protecting Vulnerable Groups Checks
6056. Renewal of Disclosure and Barring Service and Protecting Vulnerable Groups Clearances using the Update Service
6057. Unit Disclosure Officer
6058. Amending JPA Post Competences

CHAPTER 60

SPECIFIC TYPES OF ASSIGNMENT

SECTION 1 - ASSIGNMENTS FOR PERSONNEL ON JOINING OR LEAVING THE TRAINED STRENGTH

6001. Assigning Officers and Ratings to Phase 1 and Phase 2 Training

a. Personnel recruited into the Service are assigned to their respective New Entry Phase 1 Establishment and are considered to be part of the Untrained Strength (UTS).

(1) RN officers and ratings remain on the UTS until they have completed Phase 1 (Initial) and Phase 2 (Professional) training.

(2) RM officers and Other Ranks are borne on the UTS of CTCRM until they complete Phase 1 and 2 training. On completion they will be assigned in accordance with the RM workforce priority.

(3) RMBS Other Ranks are borne on the UTS of RMSoM under the C2 of CTCRM until they complete Phase 1 and 2 training. On completion they will be assigned iaw RMBS workforce requirement.

b. Trained officers who re-enter the Phase 2 training pipeline will have their assignment orders issued by the respective Career Managers.

c. Trained ratings who re-enter the Phase 2 training pipeline will have their assignment orders issued by the TMG UTS Pipeline Manager[1]. On commencement of training, the pipeline manager will change the Training tag in JPA to 'Untrained'.

6002. End of Training (EOT) Date

a. **RN.** For RN officers and ratings, the training establishment reports forecast completion of the final element of Phase 2 (Professional) training to the respective Assigning Desk and personnel become available for Assignment to complement positions. When personnel complete Phase 2 training, the pipeline manager will remove the UTS tag in JPA and they become 'Gains to the Trained Strength (GTS)'.

b. **RM.** For RM officers and other ranks this is the same as above but CTCRM will remove the UTS tag on JPA.

6003. Pre-Release Vocational Training (PRVT) Courses and Graduated Resettlement Time (GRT)

a. Full details of eligibility for Pre-release Vocational Training and Graduated Resettlement Time can be found in JSP 534, the Tri Service Resettlement Manual.

[1] NAVY PEOPLE-TRG TMG HQ SO2 UTSPM

b. The responsibility, at unit level, for giving access to resettlement provision lies with the individual's CO. COs may authorise, within parameters set in JSP 534, absence from normal place of duty and Travel and Subsistence (T&S), to assist eligible Service Leavers (SL) to meet their individual resettlement goals. Thus, all GRT is to be funded by units, who are to release personnel as required during their final two years of service. Individuals should not normally be reassigned to the margin for completion of resettlement activities.

c. Reliefs are not normally to be provided to enable personnel to be released for a resettlement activity.

d. For personnel submitting 12 months' notice, action will depend on where the individual is serving at the time of notice submission:

(1) **Sea Service.** If the individual is assigned to Shore Service with more than 9 months before Terminal Leave (TL) starts they should be placed in a complement position; GRT should be undertaken during the course of that final assignment before being assigned to MA5 (see margin activity guide, Part 3 Annex 3B) and proceeding on TL. If they are assigned from sea with less than 9 months before TL, it is reasonable to assign in a relief to the same complement position in time to allow GRT to be taken as a block. If the bare minimum of shore time is available, the individual may have to be assigned to MA6 to allow the individual to undertake GRT.

(2) **Shore Service.** GRT is to be taken during the course of the 12-month notice period, with a relief assigned in time to complete normal handover before the individual proceeds on TL.

e. In exceptional circumstances, when individuals have been unable to utilise all of their GRT entitlement, for Service, Medical or Compassionate/Welfare reasons, it may be possible to defer discharge. The amount of GRT for which an individual is entitled will be taken into account in calculating the deferred discharge date. Applications must be fully supported and endorsed in writing by the CO and approved by the respective CM at SO1 level. Further details can be found in Chapter 49 Section 3.

6004. Assignments to Release

a. Personnel will be assigned to a nominated Unit Release Centre for discharge on completion of engagement/Commission/Career or notice. The Unit Release Centre will normally be the establishment/unit in which they are serving prior to release. Where an establishment/unit has not been designated to provide a local release facility, discharge routine will be undertaken by the nearest Unit Release Centre.

b. The following releases are special cases and exceptions to above routine:

(1) **Maternity Release.** Maternity Release is actioned only through HMS NELSON, DRAKE or NEPTUNE Release Centres.

(2) **Abnormal/Short Notice Release for Ratings Serving Abroad Returning to UK.** Abnormal/Short Notice Release for Ratings Serving Abroad Returning to UK e.g. Discharge Shore/SNLR is actioned only through HMS NELSON Release Centre.

(3) **Release from Ships or LFS for personnel without a Preceding Period of UK Shore Service.** Personnel without a preceding period of UK Shore Service are released through the nearest Unit Release Centre to the individual's UK home address.

c. Guidance on use of the margin for release assignments can be found at Part 3 Annex 3B.

SECTION 2 - ASSIGNING FOR DISCIPLINARY REASONS

6005. Removal from Command

An officer who has been assigned in command of one of HM Ships is not to exchange their command with an officer of another ship unless such exchange is approved in advance by Dir P&T. An officer who has been assigned in command of one of HM Ships is not to be relieved of their command except in circumstances where this action is essential. Such an action is to be regarded as a temporary expedient to meet a situation of extreme urgency. Any such action is to be reported to the Administrative Authority and Fleet Commander, who is to inform 2SL and Dir P&T. It should be noted that to relieve an officer of their command is a serious matter and the officer taking such a step should be prepared to justify it subsequently. Until an application to remove a Commanding Officer from their assignment has been approved by Dir P&T (see Para 6006 below), the officer concerned will remain assigned to their ship and will be expected to resume their command.

6006. Removal from Assignment

a. Considerable effort is made by Career Managers to ensure that individuals are assigned to roles that are appropriate to their professional skills, training and experience. There will be circumstances, however, where in order to preserve operational capability, the reputation and standing of the Service or in the best interests of the individual concerned, it may be necessary to remove a person from a particular assignment. Removal from Assignment is a serious step which may have grave consequences for the individual's future career. Accordingly, before action is taken to commence the process of removing an individual from assignment, consideration should be given to whether there are alternative, lesser options which would be more appropriate e.g. warnings or application for Quarterly Reporting.

b. **Types of Removal.** Personnel may only be removed from assignment, subject to satisfying the removal criteria at sub para c, on one of three bases:

(1) **Removal from Assignment on a 'Fault' Basis.** This will be appropriate where the individual has met the criteria for removal from assignment, detailed in sub para c, and this can reasonably be held to be the fault of the individual or, in other words, the individual is blameworthy for the presence of those factors.

(2) **'No Fault' Reassignment.** This will be appropriate where the individual has to be removed owing to factors that are attributable to the Service rather than being the fault of the individual. For example, the Service may not have provided the individual with the relevant training to make them suitable for that assignment. Thus, where an individual is identified to be failing in their post (e.g. during a period of sea training with FOST), owing to a training shortfall for which the Service is blameworthy, and the individual's failure is having an unacceptable impact on the unit's OC, a 'no-fault' reassignment should be considered.

(3) **'Without Prejudice' Reassignment.** This will be appropriate where the individual is required to be reassigned before a disciplinary finding or major administrative action decision is made. For example, this may be because there is intrusive press interest, bail conditions requiring removal have been imposed by a Home Office Police Force (HOPF) or the Court, or the relevant investigation may require the individual to be absent from the unit for protracted periods and the post is a key one which cannot be gapped.

c. **Removal Criteria.** The following criteria should be used to determine whether there are grounds to apply for a removal from assignment. In complex cases, where the presence of some of the factors below is not completely clear, guidance should be sought from the relevant Regional Legal Office.

(1) **Type of Failure.** When considering a Removal from Assignment, the CO should first decide whether an individual's failure meets one of the criteria listed below:

(a) Misconduct, which includes but is not limited to a disciplinary accusation or finding, a breach of the Code of Social Conduct or an upheld complaint of bullying, harassment or discrimination or when taking a victim-based approach.

(b) Removal of, or failure to gain, a relevant and essential security clearance.

(c) Lack of professional or personal qualities or both.

(2) **Untenable Position.** If an individual meets one of the criteria in sub-para (1) then consideration should be given as to whether an individual's position is untenable. This means that there is no realistic prospect of them being able to recover their position within a reasonable period. Whilst an individual's position may well be untenable in the short term, there may be situations where an individual can recover their position either through a period of absence from the unit, or by means of administrative sanctions. A successful application is dependent on proving, on the balance of probabilities, that an individual's position is untenable. It is vital that the CO fully details in the application why this is or is not the case.

(3) **Fault of the Individual.** Fault on the part of the individual in question is not a prerequisite for a successful application, but is a highly relevant factor which should be considered and commented on. Where it has been decided that an individual's position is untenable with no realistic prospect of recovery, the CO should consider whether the factors at sub para (1) are the fault of the individual.

(4) **Measures other than Removal are Inappropriate.** The CO must explain why administrative action other than Removal from Assignment is not appropriate.

d. **Procedure for Removal from Assignment.** If a Commanding Officer, satisfied that the criteria in sub-para c have been met, deems that a Removal from Assignment is an appropriate course of action, they should make application via the relevant Regional Legal Office in accordance with the general procedure and format for administrative applications detailed at Annex 1E. Applications will be referred to Dir P&T for approval or the appropriate delegated authority. The relevant administrative authority (e.g. Flotilla/Brigade) should be copied on the application. In addition to the points covered in the general guidance on applications, an application for removal should demonstrate that:

(1) An individual's failure and position within the unit satisfy the necessity for a Removal from Assignment on a Fault, No Fault or Without Prejudice basis. It is essential to show that the individual's position in the unit is untenable.

(2) If a CO considers that the conditions for the relevant removal are present, they must ensure these conclusions are supported by evidence. A CO's own observations of an individual may be sufficient to support an application, but COs must take care that their own observations are not prejudiced by the unsubstantiated comments of others or reflect a 'clash of personalities'. Wherever practicable, an application should only be made after a proper and impartial investigation has been conducted by a competent person or authority. The CO may commission an investigation, in a similar manner to a Ship's Investigation, in order to establish the facts. The rigour and extent required of the investigation will depend on the facts of the case. It will not normally be necessary to have a DSCU/MDP investigation, but Dir P&T or the appropriate delegated authority will only approve an application if they are satisfied that there is sufficient, auditable evidence to justify it objectively. Applications based on unsubstantiated hearsay or over hasty judgement cannot be approved. In short, objective evidence needs to be available to support the assertions made which will need to be laid out clearly point by point. In particular, where a lack of professional or personal qualities is alleged the relevant failings should be particularised. In so doing this allows the individual to know the case against them and to properly address it in any representation they choose to make.

(3) No other course of action is appropriate:

(a) In misconduct cases, there must be clear evidence that the person's position has become untenable as a result of the relevant misconduct.

(b) Where the application is based on security clearances, there should be an indication that the position cannot be regularised within a reasonable time.

(c) Where a lack of professional or personal qualities is alleged, where appropriate the application should explain why a period of quarterly reporting or use of the warnings process for reversion/Discharge SHORE in the current unit has been discounted, observing that these are the normal mechanisms for dealing with a person whose performance has fallen short of the required standard.

e. An application for removal from assignment must be accompanied by a Representation or Waiver of Representation. Other enclosures relevant to the circumstances detailed in the application should also be included and must be disclosed to the individual.

f. When considering an application for removal from assignment, Commanding Officers should seek advice from the relevant Regional Legal Office. Advice on related disciplinary issues should also be sought from the relevant Regional Legal Office.

g. **Measures Other Than Removal.** Where it becomes evident that Removal from Assignment is not appropriate, the CO may wish to consider the following options as a corrective measure for the individual:

(1) **Managing within the Unit.** This should be the normal course of action. The CO has a variety of management tools available by which to identify the individual's failings and provide a structured process by which the individual may rectify their performance and the CO may monitor it. This includes judicious use of the reporting system through MPARs and periodic appraisals to Quarterly Reporting, censure action and other warnings.

(2) **Directed Leave.** The CO can, at their discretion, send an individual on directed leave for a short period of time. This can be used appropriately to manage a situation, such as when a complaint of bullying and harassment has been made. Directed leave should not be given for longer than 4 weeks. If it becomes apparent that an individual will need to be on directed leave for longer than 4 weeks, an application for Suspension from Assignment must be made. Directed leave does not count against Individual Leave Allowance.

(3) **Suspension from Assignment.** See Para 6007.

Table 60.1 - Removal Criteria

Failure Identified	Untenable position with no realistic prospect of recovery	Fault of the Individual	Measures other than removal are inappropriate	Possible Course of Action
Yes	Yes	Yes	Yes	1. Fault Basis Removal
Yes	Yes	No	Yes	1. No Fault Basis Removal; or 2. Without Prejudice Reassignment
Yes	No	Yes	No	1. Suspension from Assignment; and/or 2. Administrative sanctions

h. **Exceptional Force Majeure Removal.**

(1) Only when exceptional circumstances make it impracticable to obtain prior approval before a ship or submarine sails may action be taken to affect a removal from assignment or a ‘no fault’ or ‘without prejudice’ reassignment. The fact that action has been taken to affect the removal or reassignment of the individual in this manner is to be reported to Dir P&T immediately. Details of why it was not practicable to seek prior approval should be included in the application for removal or reassignment on a ‘no fault’ or ‘without prejudice’ basis, which should be submitted at the earliest opportunity. Such a course inevitably tends to pre-empt or limit the decision of a deciding authority in any future disciplinary or administrative action. In all such cases the CO must justify both the urgency and correctness of their action.

(2) There may be exceptional circumstances where a CO decides that the person’s position has become untenable before the adverse consequences (harm, damage etc.) have occurred. Generally speaking, the key issue will be one of evidence to support the assertion that the person’s position has become untenable. The earlier the action is taken, the less likely it is that there will be sufficient auditable evidence. It will be necessary, therefore, to show that the circumstances are exceptional, that the adverse consequences bring high probability/high impact and that the decision to remove the person is proportionate, fair and reasonable.

i. **Conclusion.** The judgement of whether an individual’s position has become untenable is an executive one. No two sets of facts are the same, and the judgement of untenability may be reached at different stages for different circumstances and different individuals. What is required is a careful balancing exercise of relevant factors such as: the rank/rate, status and responsibility of the individual; the operational circumstances; the Service interest; the interests of the individual; damage to Service reputation; the seriousness of the failing, harm, damage or mischief, and whether these have already adversely impacted on the efficiency or operational effectiveness of the unit or are likely to so impact.

j. Further guidance for COs and for NCHQ staff is at Annex 60A.

6007. Suspension from Assignment

a. **Purpose of Suspension.** Suspension is a measure less than a permanent removal from assignment but greater than directed leave see Para 6006.g(2) or any similar expedient measure which removes an individual temporarily from a unit. Guidance on these latter measures is to be sought from administrative authorities and the measures are to be fair, reasonable and proportionate at all times. The purpose of suspension, however, is to formalise the arrangements for a temporary removal from assignment either for the needs of the Service or those of the individual, or both. It is not a disciplinary or administrative sanction, but a temporary administrative measure in a sensitive case. It is particularly suited to situations which are likely to worsen for the individual or for the Service, where early intervention is likely to mitigate the adverse effects anticipated and where the interests of the individual and the Service are best temporarily frozen, permitting reinstatement of the individual if the anticipated adverse outcome does not materialise. A period of suspension may, therefore, end with the individual being restored to their original job or being permanently re-assigned.

b. **Grounds and Evidence.** An application for suspension should be founded on the types of circumstances that are grounds for permanent removal e.g. misconduct, security clearance, professional or personal qualities. The reason for this is that suspension needs to have a rational basis and needs to sit coherently with other measures. Crucially for suspension, however, the circumstances are not clear that an individual's position has become untenable (if this is the case, it would trigger a removal from assignment application). Furthermore, it is stressed that suspension does not mean or suggest guilt, and it is not an adverse finding against the individual. Where there is just cause, consideration should be given to whether suspension can be avoided by using alternative arrangements such as a temporary change to the individual's duties or posting within a unit. Although the decision-maker may decide on the need for suspension on a balance of probabilities, it is to be remembered that suspension is a serious measure to be used only exceptionally.

c. **Duration and Termination.** Suspension is a temporary measure taking suitable account of the relevant rank, grade, assignment or appointment of the individual involved. It should be kept under regular review by the Administrative Authority and Dir P&T, the latter having the right at all times to take assigning action in the best interests of the Service and the individual. As a guideline, the first review should take place one month after suspension began, with subsequent reviews taking place monthly thereafter. Review periods may be adjusted to suit the circumstances of each case, however, providing they are fair and reasonable. Since suspension is a temporary measure and is predicated on an individual potentially being able to return to assignment if the reason for the suspension no longer pertains, no permanent relief action will be taken and, therefore, the unit must be able to accept a gap or seek a short-term crewing palliative.

d. **Procedure.**

(1) **JRs.** Junior Ratings may be Managed Moved as required either within the squad or to the Recovery Cell pending the investigation.

(2) **Officers and Senior Ratings.** Application is to be made to the Administrative Authority via the relevant Regional Legal Office in accordance with the general procedure and format for administrative applications detailed at Annex 1E. The application should set out:

(a) The ground(s) on which it is made (e.g. misconduct).

(b) The evidential basis.

(c) The reason(s) why the Commanding Officer considers that suspension is a reasonable and proportionate response in the circumstances.

(d) Confirmation that, at the time of making the application, the individual's position in the unit has not yet become untenable.

(e) The initial period of suspension for which application is made.

(f) The period for which the unit can support a gap if necessary.

(g) Either a representation from the individual or a certificate to the effect that the right to submit a representation has been offered by the Service but declined by the individual. The individual should be apprised of the case to suspend them before the application is finalised and in order to allow them to address the fundamental issues in their representation.

e. **Assigning Action.** Whether assigning action is temporarily required to remove the individual from the books of the unit from which they are suspended will be decided on the facts of each case. In all cases of suspension the option must remain at all times for the individual to be restored to their original position with no adverse impact on their career.

6008. Assigning Officers Following Courts Martial Sentences

Career Managers should seek the advice of NLS Law3 when signals are received requiring Dir P&T to implement Courts Martial sentences e.g. an officer is to be dismissed from their ship.

6009. Assigning Ratings Sentenced to Imprisonment or Detention

Details of ratings sentenced to imprisonment or detention are to be signalled to the relevant CM so that appropriate assigning actions can be taken (see also Margin Usage Guide Part 3 Annex B). The committal date and sentence awarded are also to be quoted. AOs will be issued, retrospectively, where necessary, to remove such ratings from their current assignment and assign them to the Military Corrective Training Centre (MCTC) Colchester.

6010. Assigning Ratings on Completion of Sentence

a. When ratings are due for release from MCTC Colchester, a signal is sent to parent units, info CMs, giving expected release dates and requesting re-joining instructions. Ratings on sea service will normally return to their ships/submarines unless a recommendation to the contrary is made by the Commandant MCTC or an application from the ship/submarine for the rating not to return is approved by Navy Command. The assigning of those ratings not returning to their ships/submarines will be decided after consultation between CM and the Releasing Authority. In all cases AOs will be issued.

b. MCTC, as a Service Establishment, has established lines of communication with Deputy Director People Delivery (DDPD) and established practices for dealing with release on completion of sentence. In the case of personnel who are continuing in the Service after serving a sentence in one of His Majesty's Prisons (HMP), information, such as future release dates, may not be readily available. Assignment Orders may, therefore, have to be issued retrospectively.

6011. Assigning Ratings/Other Ranks Disrated, Reverted, Reduced in Rank or Deprived of Specialisation

a. WOs and NCO/Senior Ratings (including Acting and Local Acting Rates) who are disrated, reverted or reduced in rank either for discipline or unsuitability/incompetence will normally be assigned elsewhere unless the CO specifically requests otherwise. COs of ships/submarines and units/establishments (including LFS units) are to signal CMs as soon as disrating or reversion is approved, with any recommendations. CMs will then take reassignment action. Reliefs cannot be provided at less than normal assigning notice although ships may consider taking PERREQ action. CMs are to be notified as early as possible when reversion or disrating is likely to occur.

b. Junior Ratings disrated or reverted, or Mnes deprived of specialisation, will not normally be assigned elsewhere. If, however, the circumstances are considered exceptional, then a request may be made to the relevant Administrative Authority for approval, with a copy to CMs. If the approval is given, then assigning action will be taken but a relief cannot be provided at less than normal assigning notice.

c. For RM only, the consequences of being reduced in rank or deprived of SQ are explained in BR 1283 (RMIs) Chapter 6.

6012. Action to be Taken for Personnel Absent Without Leave

a. An absentee rating is marked 'RUN' by the parent UPO on the 8th day of absence. Personnel marked 'RUN' are to be assigned to MA12 (HMS NELSON) (for margin details, see Annex 3B).

b. Assigning Sections can only carry out this action if informed of the occurrence by the absentee's ship or unit. Often ships and units forget to inform the relevant CM, or inform long after the event, it therefore follows that assigning action may be taken retrospectively.

c. After 3 months, a Commanding Officer can apply for a rating marked ’RUN’ to be ‘discharged’ i.e. effectively removed from the ship's records allowing for a relief to be assigned.

d. The deserter's details will be removed from all assigning records at, or shortly after, this 3-month point.

SECTION 3 - ASSIGNING FOR WELFARE REASONS

6013. Compassionate and Welfare Assignments (also see Chapter 24)

a. The Royal Navy Family and People Support (RN FPS) can make a recommendation for assignment action but the decision to approve or not approve a compassionate assignment lies with the CO. When the CM has been informed of the RN FPS recommendation, the position with regard to a relief will be signalled to enable the CO to decide whether or not to approve the recommended assignment. AOs will be issued to implement recommendations for compassionate assignments approved by COs. The individual reassigned for compassionate or welfare reasons will be liable for short notice sea assignment on removal of the restriction.

b. Extensions of compassionate assignment beyond 6 months will be recommended by RN FPS only in exceptional cases in accordance with Chapter 24. There are, however, rare circumstances when a permanent or prolonged assignment of over 6 months to a shore area may be appropriate or advantageous to the Service (e.g. personnel near the end of a pensionable engagement, or individuals with unique skills). RN FPS will, therefore, consider recommending assignments of over 6 months but have been requested to limit such recommendations to quite exceptional cases and where the individual's retention can be justified on the grounds of being of special value to the Service.

c. Assignments for welfare reasons for RM personnel may only be authorised by CDO after confirmation by RN FPS. If a position is available in the unit of choice, the individual’s circumstances will not prevent them from normal employment and the assignment is for geographical convenience then the individual is to be assigned into that vacant position. If there are no positions available, however, or normal employment is not possible for welfare reasons, then the individual should be placed in a suitable Margin Position (see Annex 3B) at the unit of choice.

6014. Assigning Parents of Children with Special Educational Needs

a. Though no longer mandatory, personnel with children with special educational needs should be strongly encouraged to register the child with:

Children’s Education Advisory Service
Trenchard Lines
Upavon
PEWSEY
Wiltshire
SN9 6BE

b. Once a child is registered with CEAS, they inform the CM and the fact is recorded on assigning records by the restriction WSEN (Welfare – Special Educational Needs).

c. This information will be taken into account by assigning officers when planning an assignment and CMs will inform CEAS of any new assignment by letter. An example is at Annex 60B.

6015. Assigning Personnel Undergoing Courses of Assisted Conception Treatment

a. Wherever possible CMs are to provide stability for personnel seeking to access assisted conception services provided by the NHS in the UK for themselves or their spouse, civil partner or partner. It is intended to apply both to Servicewomen seeking assistance for themselves or their partners and to Servicemen whose wives or partners are seeking assistance.

b. An individual wanting to maintain stability to complete assisted conception treatment will need to inform their chain of command and their assigning authority, in confidence, of their situation in order for the CM to take account of the new circumstances and personal priority. It is essential that the individual asking for stability is made aware of any potential career implications that may result from their request (e.g. no concession will be made if a professional development course is missed in order to achieve the required family stability).

c. The length of the period of stability needed will vary with each case and according to the treatment being given. Ideally the period of stability should cover the entire pregnancy and where possible CMs should try to achieve this. MOD policy, however, is that the minimum period of stability should cover the time needed for all consultations required before the conception attempt and for one attempt at assisted conception to be completed. This minimum will normally be 6 months.

d. For full details see 2009DIN - 01-104.

6016. Career Management Record (CMREC) Assignment Restriction

a. Assignment Monitoring should be applied in cases where equality and diversity related harassment and bullying complaints have been upheld. It involves annotating Service personnel records with a Career Management Record (CMREC) Assignment Restriction to highlight where an individual's actions or behaviour indicate that they might be unsuitable for some posts, or assignment to the same unit as certain other individuals. Assignment Monitoring will be used in order to:

(1) Protect potentially vulnerable personnel and identify those whose long-term behaviour is of concern.

(2) Prevent complainants and respondents being inadvertently employed in close proximity in future where this is avoidable/desirable; and

(3) Provide the management tools to identify trends and identify those whose long-term behaviour is of concern

(4) Provide a means by which individuals whose career history indicates that they may pose a risk to vulnerable people are not assigned to a post where they will come into contact with such individuals (for example, in training roles) without due consideration and assessment of risk.

b. The CMREC Assignment Restriction will act simply as a flag to CMs to seek further advice on a particular individual; they will not have access to details of individual cases held on JPA.

c. In the event of an assignment order being raised for an individual who has a CMREC Assignment Restriction, the CM should request further information and a recommendation on suitability. The final decision on whether or not to proceed with the assignment will continue to rest with the CM, taking into consideration the balance of risk presented by the particular circumstances.

d. Full details of the Career Monitoring policy can be found in extant DINs.

SECTION 4 - ASSIGNMENT OF SENIOR OFFICERS (1 STAR AND 2 STAR)

6017. Flag and Senior Officers' Appointment Board (FSOAB)

a. **General.** The FSOAB meets every 6-8 weeks. This maximizes the ability to administer assignments in-committee, especially in the competition space where opportunities can arise at short notice. The FSOAB will remain observant of the guidance set out in Chapter 59 Section 11 [Assignment Notice]. Each meeting will consider 1* and 2* appointments due to turnover at least 6-7 months in advance, although selection of candidates for Joint competitions, or appointments requiring extensive training or special clearances (e.g. attaché posts) are normally considered 12-18 months in advance.

b. **Membership.** The FSOAB is made up of the Chair and 3 core members:

Chair (Voting)	1SL
Core Members (Voting)	Fleet Commander CFS 2SL
Independent Private Sector Representative (Non-voting)	
Board Adviser (Non-voting)	Dir P&T

c. **Insufficient Members.** The FSOAB may proceed when one voting member is unable to attend.

6018. Before the FSOAB

a. Dir P&T's staff, supported by the NA, carries out the preparatory work and processes for the Board. Any questions on these processes should be directed to the Hd SOCTM in the first instance. This preparatory work includes assessing which appointments need to be filled, ensuring Job Specifications are updated and recommending **fields** for the appointments to be filled. Where demand exceeds supply, the priority afforded to posts by the FSOAB will apply. This means that in some cases, especially in the competition space, a candidate will not be run. Where selections are due to be made, Career Fields Champions (see Para 6611), employing officers and other stakeholders will normally be consulted as appropriate. Hd RN Medical Service and Commodore Maritime Reserves will act in the role of Career Field Champion for Medical/Dental/QARNNS/MS and Reservist officers where appropriate.

b. Acting as the 1* and 2* FSB, the FSOAB operates under a 6-weekly, 4-stage process of **Apply**, **Sift**, **Ratify**, **Select**. Under **Apply**, officers submit personal statements indicating why they are applying and their suitability for the job. All applications are then subject to an eligibility check, conducted by Hd PROMS. As zones for promotion to OF6 and above do not apply, eligibility checks apply primarily to applications for promotion and are based on promotion recommendations, though other factors may apply (see Annex 66B-4 and 66B-5). Notably, any applicant with no UK officer in their reporting chain will be treated exceptionally and their application added to the sift. Officers who believe their JPA record may be inaccurate or incomplete should contact the Hd SOCTM. Discrepancies between personal statements and JPA records will be reconciled by the Hd SOCTM. A pre-FSOAB **Sift** follows eligibility checks. Sifting comprises three components:

(1) Comparison of individuals' competences to requirements as specified in the Job Description to form an initial sift ranking;

(2) A review of OJARs as a basis for moderating the sift ranking;

(3) Consideration of individuals' psychometric test assessment as a means of confirming the sift ranking or highlighting anomalies (see Para 6611).

The sift ranking, in which all applicants will be represented, is passed to Hd SOCTM who leads the **Ratify** stage. With access to the same information set, Dir P&T, Hd SOCTM and the appropriate Career Field Champion generate a finalised list of candidates ranked in suitability order see Para 6610. The top four candidates form the Field (although this may vary according to the number of officers who meet the basic criteria required) which is used as the basis of the FSOAB-led **Select** stage. Occasionally only one officer may be eligible for an appointment, especially at more senior ranks. FSOAB members are a quorum of the Flag FSB and as such the selection of a candidate represents substantive promotion selection for that specific appointment only. FSOAB members may ask for full documentation to be provided on any officers not down-selected for further consideration at the meeting.

c. The appointments to be reviewed at the meeting includes all posts that meet the criteria as set out at Para 6018 sub para a above. Only those appointments which require a decision at that meeting require advance supporting paperwork. The paperwork for the meeting includes:

(1) **Covering Letter.** Brief to FSOAB members.

(2) **Job Specifications.** For all appointments being considered.

(3) **The Field.** Detailing nominated officers and any additional relevant information (including Career Field Champion, employing officer or other stakeholder comments where pertinent) that the members may require to make a decision.

(4) **Statements of Service.** For all nominated officers.

(5) **Recent ARs.** The last 3 OJARS/reports for each nominated officer (including RCDS/HCSC reports).

(6) **Personal Statement.** Drafted personally by each applicant describing reasons for applying and suitability for the job.

(7) **Psychometric Assessment.** Psychometric assessments for each officer in the Field.

(8) **Career Field Psychometric Profile.** To enable assessment and comparison of individual officers' degrees of fit to the job.

(9) **Scoring Sheet.**

d. The agenda (a standing agenda is at Para 6022) and supporting paperwork are sent out in soft copy 10-14 days prior to the scheduled meeting to all Board members (including non-voting members). Dir P&T briefs the Chair before each Board. Board members complete the scoring sheet for each appointment and return it to Dir P&T as directed or at least 48 hours prior to the meeting.

6019. At the FSOAB

a. The FSOAB normally takes place 6-8 weekly. At least 90 minutes are to be allocated for the meeting. Meetings may be arranged to coincide with other NAVB meetings if timings are more convenient or if additional meetings are required.

b. Dir P&T introduces the fields as set out in the supporting paperwork for all 1* and 2* appointments. Dir P&T provides a consolidated scoring sheet recording the votes of each member and highlighting the overall order of preference. The appointments are discussed in the following order:

(1) 2* appointments requiring decisions at this Board are considered by fill/training start date (earliest first).

(2) Predicted or known 2* appointments, with provisional fields, out to 18 months are discussed, but no decisions made.

(3) 1* appointments requiring decisions at this board are considered by fill/training start date (earliest first).

(4) Predicted or known 1* appointments, with provisional fields, out to 18 months are discussed, but no decisions made.

c. Once all appointments have been discussed, Dir P&T summarises the decisions made and notes any follow-up actions set by the Board.

6020. Post FSOAB Action

a. A Record of Decisions is promulgated to all Board members within 48 hours of the meeting. The Record includes:

(1) A list of appointments considered for decisions.

(2) Names of officers selected for those appointments.

(3) Names of officers considered but not selected against appointments.

(4) The final consolidated scores, but not of individual members' votes.

(5) A list of endorsed decisions.

(6) Any additional points as directed by the Board.

b. Dir P&T/NA contacts prospective employers of the selected officer in appointments considered sensitive, and where explanation may avert challenge.

c. Dir P&T/NA informs officers selected as soon as possible after the Board (1SL may inform officers personally for selected 2* appointments).

d. Individuals provisionally selected as naval candidates for competition in the Senior Appointments Committee (SAC), Service Secretaries Meeting (SSM) or MOD Wide Competitions (Open) are also to be informed by Dir P&T/NA of their selection and the procedures and timings for the next stage of the selection process.

e. Where an officer is not selected for any of the appointments that they were nominated for at a given board, they are informed by Dir P&T/NA before promulgation of the results.

f. For appointments subject to higher level clearances (e.g. by PM, SofS, CDS, PUS, NATO etc.) and for officers selected for appointments on promotion to 2 Star (approved by HM The King), individuals are informed by Dir P&T/NA that their provisional selection is subject to approval.

g. Once the individual officer has been informed and, where required, employers contacted, and all higher-level approvals completed, the announcement of the appointment is made by Flag OAL and/or signal, and released for public promulgation. For 2* appointments and above, NAVB members are informed of the appointment at least 2 days ahead of publication. Confirmed promotions will be announced in the monthly Promotions signal[2].

h. All JPA assignment action is taken by Dir P&T/NA's office which will then generate publication in the next OAL.

[2] Signalled on the last Thursday in every month and exceptionally adjusted during leave periods.

6021. Out of Committee Decisions

a. When a selection for an appointment has to be decided at short notice, Dir P&T initiates an Out of Committee (OOC) selection, either on paper or via VTC.

b. The documentation required is as follows:

(1) **Covering Letter.** Brief to FSOAB members.

(2) **Job Specifications.** For all appointments being considered.

(3) **The Field.** Detailing nominated officers and any additional relevant information (including Career Field Champion, employing officer or other stakeholder comments where pertinent) that the members may require to make a decision.

(4) **Statements of Service.** For all nominated officers.

(5) **Recent ARs.** The last 3 reports for each nominated officer (including RCDS/HCSC reports).

(6) **Personal Statement.** Drafted personally by each applicant describing reasons for applying and suitability for the job.

(7) **Psychometric Assessment.** Psychometric assessments for each officer in the Field.

(8) **Career Field Psychometric Profile.** To enable assessment and comparison of individual officers' degrees of fit to the job.

(9) **Scoring Sheet.**

c. **Process.** As a minimum, 1SL and 2 core FSOAB members are required for an OOC item although ideally all core members should be consulted. Documentation for the OOC submission is normally sent by e-mail/hard copy as convenient and members asked to vote as normal. For contentious selections VTC may be used, in which case the documentation should be sent by e-mail/hard copy to members prior to the conference. A response deadline is provided in each case.

d. **Results.** Decisions taken OOC are actioned and promulgated in the same way as normal FSOAB decisions as set out at Para 6020 above. OOC decisions are then formally briefed and recorded at the next scheduled FSOAB meeting.

6022. FSOAB Standing Agenda

The following is the standing agenda for the FSOAB:

Item 1 - Review of Record of Decisions from last meeting.

Item 2 - Review of Out of Committee Decisions since last meeting.

Item 3 - SAC Issues: 1SL debrief on last SAC meeting and look ahead to next SAC (*if required*).

Item 4 - 2* Appointment/Selection Board.

Item 5 - 2* Appointment/Nomination 18 month Forecast.

Item 6 - SSM Issues: Dir P&T debrief on last SSM and look ahead to next SSM (*if required*).

Item 7 - 1* Appointment/Selection Board.

Item 8 - 1* Appointment/Nomination 18 month Forecast.

Item 9 - Secretary Confirm Decisions.

Item 10 - AOB.

Item 11 - Date of Next Meeting.

SECTION 5 - ASSIGNING TO PARTICULAR POSITIONS

6023. Lord High Admiral

With the establishment of the Ministry of Defence on 1 Apr 64, the office of First Lord of the Admiralty was abolished, and the functions of the Commissioners were transferred to the Admiralty Board of a tri-Service Defence Council, and the title and honour of Lord High Admiral was re-vested in the Sovereign.

6024. Vice Admiral of the United Kingdom

The Vice Admiral of the United Kingdom (VAdm of the UK) is an honorary office which has generally been held by a senior Admiral. Despite the title, the VAdm of the UK has usually been a full admiral. VAdm of the UK is the official deputy to the Lord High Admiral, an honorary (although once operational) office vested in the Sovereign from 1964-2011. The VAdm of the UK is appointed by the Sovereign on the nomination of the First Sea Lord, and their name published in the London Gazette. The VAdm of the UK normally retires at 70 years of age.

6025. Heads of Branch

a. The Heads of Branch (the ‘Tribal Chiefs’) provide a focus for matters affecting the officers and ratings of their branches. Their specific duties include:

(1) Advising the Admiralty Board (at Board or sub-Board level) on major matters of personnel policy affecting officers and ratings of their branches.

(2) Advising the Admiralty Board (at Board or sub-Board level) on matters of policy affecting the professional responsibilities of their branches.

(3) Advising Dir P&T on the career management and assignment of branch officers.

(4) Membership of officers’ selection boards for promotion to Rear Admiral, Commodore, Captain and Commander, and RM equivalents.

(5) Liaison with professional institutions and bodies, and providing Naval Service representation to such bodies.

b. The roles of Chief Naval Warfare Officer (CNXO), Chief Naval Engineer Officer (CNEO), Chief Naval Logistics Officer (CNLO), Commandant General Royal Marines (CGRM), Chief Naval Medical Officer (CNMO), Director Naval Dental Services (DNDS) and Director Naval Nursing Services (DNNS) are filled at the discretion of the First Sea Lord and are held in addition to other responsibilities. Director General Naval Chaplaincy Services (DGNCS) is also a de facto Head of Branch. They are normally, but not necessarily, filled by the most senior officer of the relevant branch. Heads of Branch can occasionally be members of the Admiralty Board where the officer concerned is the most appropriate senior member of the branch.

c. To enable the Heads of Branch to discharge their duties, they are to be consulted and advised as appropriate. In order that they may be fully informed on professional matters, Heads of Branch are authorised to establish, at their discretion and in conjunction with Dir P&T, advisory groups comprising officers filling specialist assignments. This in no way reduces the right and responsibility of the Heads of Branch to consult departments and authorities through normal administrative channels when appropriate.

d. **Heads of Specialisation.** There are also a number of Heads of Specialisation, subordinate to the Heads of Branch, who provide a focus for matters affecting the officers and ratings of their specialisations. These posts are filled at the discretion of the First Sea Lord and are held in addition to other responsibilities. They are normally, but not necessarily, filled by the most senior officer of the relevant specialisation. Terms of Reference with respect to responsibilities to the Head of Branch and Dir P&T are to be maintained.

6026. Heads of Fighting Arm

Heads of Fighting Arm are responsible to the First Sea Lord for the morale and effectiveness of their Fighting Arm. Rear Admiral Submarines (RASM) is tied to the appointment of COM(OPS); Rear Admiral Fleet Air Arm (RAFAA) is tied to the appointment of COS(AV) and CGRM is Head of Fighting Arm for the Marine Corps (in addition to being Head of Branch). The Fleet Commander recommends a suitable Warfare 2* to First Sea Lord to be Rear Admiral Surface Ships (RASS).

6027. Career and Talent Management of Senior Military and Other Outer Office Appointments

a. The RN gains great insight and equity into top level issues through the management of appropriately qualified individuals into senior outer office appointments in Defence and Government[3]. Alongside this, the assignment of personnel with identified aptitude at the strategic-level, significant reach, and with strong potential for second stage careers in complementary Career Fields is vital to growing and retaining talent and brings an RN perspective to teams across Whitehall.

b. **Process.** All RN personnel being short-listed for senior outer office roles will be subject to an additional sift by 1SL, 2SL and Fleet Commander. These roles include, but are not limited to, 3* and above military, Civil Servant and Ministerial outer offices. They also include all positions within the Royal Household and naval or Defence positions embedded with other Government departments as well as key Defence Engagement posts. A list of identified positions is held by both SO1 and SO2 CAPPS and Whole Force CM. All CMs have access to the list but, due to the changeable nature of the roles identified, it will not be published more widely.

[3] This includes single Service, Joint, and Combined outer offices; Navy or Defence positions in No 10 Downing Street, Cabinet Office, FCO and Treasury, as well as Royal Household positions and key Defence Engagement posts.

c. 1SL, 2SL and Fleet Commander may identify talented individuals who they wish to add to the shortlist prepared by Career Managers. This conversation will be driven not simply by Future Availability Date but by the profile of the role in question, individual talent, SQEP and Service need. Any personnel identified for inclusion in the shortlist by 1SL, 2SL and/or Fleet Commander will be contacted by their Career Manager.

d. This process is an important component in the transformation of RN Career Management. It empowers individuals and their Career Managers to identify and deliver the best people into the most demanding posts in our Service, Defence and wider Government.

6028. Temporary Sea Assignment in Command

a. A formal assignment in command will not normally be issued unless:

(1) The ship proceeds to sea and the period of temporary command is not less than seven days; or

(2) If the ship does not proceed to sea, the period of temporary command is not less than 30 days.

b. When an Executive Officer is given temporary assignment in Command, it is usually desirable that another officer should, at the same time, be given a temporary assignment as Executive Officer.

6029. Assignment to the Staff of Fleet Operational Standards and Training (FOST)

Suitably qualified and experienced officers and Senior Ratings are continually sought for assignments to FOST. Commanding Officers are encouraged to identify such individuals and forward appropriate recommendations via an Annual OJAR/ SJAR. Similarly, officers may indicate a desire to serve in FOST. Candidates should demonstrate a high degree of professional credibility, sound core branch skills, dedication, above average personal qualities, dress and bearing and, above all, a willingness to impart their knowledge and experience.

6030. Assignment to Royal Fleet Auxiliary Ships

When RN officers and Other Ranks are assigned to Royal Fleet Auxiliary (RFA) ships ‘on loan’, the differing organisations require that:

a. They are aware of BR2 (QRRN) Article 3705 on the authority of the Master of an RFA.

b. For other than short periods of training e.g. helicopter crews undergoing training in RFA Argus, they are aware of the need to sign the ship’s articles of agreement.

c. Warfare officers require a Department of Trade Certificate of Competence. If they do not hold one, they are considered to be 'uncertificated' and, although they may hold an RN Navigational Watch Certificate and Bridge Warfare Qualification, the Master of an RFA is not permitted to place them in charge of a bridge watch.

6031. Assignment of Maritime Reserve Officers

Officers of the MR are assigned in accordance with the MR National Plots or to FTRS/ADC positions via the FTRS Cell.

6032. Attaché and Adviser Assignments

a. Attaché and adviser posts are under the auspices of the Foreign, Commonwealth & Development Office (FCDO) and are administered with the MOD by the International Policy and Planning (IPP) directorate. The nomination and clearance procedures are more complicated than for other assignments and may therefore take longer. Procedures are, however, still controlled by the appropriate Career Manager. Further guidance can be found in JSP 468 (Regulations and Procedures for Loan Service).

b. Officers and their dependants should hold full UK passports and officers and be both medically and dentally fit. The actual assignment to the post after completion of courses and briefings is not issued until just before it takes effect.

6033. Instructor Positions - General

a. Between periods of sea service, the only assignments available for the bulk of people are within the various training groups. It is therefore vital that such assignments are recognised and viewed positively by individuals, Commanding Officers and peers alike for the challenge and opportunity that they present, as well as being potentially career enhancing if performed well.

b. Personnel assigned as Instructors do not have to be volunteers for such duties. As a general rule, and a minimum standard, every officer, Rating/Other Rank should be capable of instructing junior rates/ranks of their own Branch. Additionally, for those being considered for Initial Training the text in an individual's AR must highlight clearly their above average qualities.

c. All personnel assigned to instructor positions are legally mandated to complete the 'Defence Train the Trainer' (DTtT) qualification. Ideally this should be completed before taking up the instructor assignment, but when this is not possible, it should be undertaken at the earliest opportunity when in post i.e. during the first term.

d. Instructional posts require high calibre individuals with the right aptitude. Before assigning individuals to instructor positions Career Managers should be aware of the criteria detailed in JSP 757 Chapter 8 Annex B (Guidance to Reporting Officers on Making Recommendations for Employment on Instructor Duties).

6034. Selection of Instructors for Phase 1 and Phase 2 Training

a. In order to maximise success within the training environment, considerable importance is placed on the selection of the highest quality officers and Ratings/ Other Ranks for duties in Phase 1 and Phase 2 training schools. Such an assignment as an instructor is an indication of an individual's above average qualities.

b. Ratings/Other Ranks should not be assigned to Phase 1 or Phase 2 Instructor positions unless they are competent, qualified, enthusiastic and have a specific recommendation that they have the necessary aptitude and temperament for such an instructional assignment reflected within the text of the individual's AR. Commanding Officers must pay close attention to the specific recommendations boxes in an individual's AR and follow the guidance set out in JSP 757. CMs will refer to the AR before taking assignment action and may also contact the Line Manager to gain further assurance that an assignment for Phase 1 or 2 instructional duties is appropriate and recommended.

c. Individuals assigned to Phase 1 or Phase 2 Instructor positions with regular responsibility for and interaction with trainees under the age of 18 years old will be required to complete a Disclosure and Barring Service (D&BS) or Protecting Vulnerable Groups (PVG) clearance as described in Section 7. CMs should ensure that D&BS/PVG applications are initiated in good time to allow for the disclosure process and subsequent employer assessment to be completed prior to assignment action . Refusal by an individual to complete a D&BS/PVG check may result in administrative action being taken against the individual.

6035. Driver Positions

a. Certain positions require the individual filling the position to have a driving skill. This can range from a 'standard' driver to Forklift (MHE) or Mobile Crane driver. CMs are, wherever possible, to assign personnel already qualified and holding the appropriate competency to these positions.

b. High level instructions are contained in JSP 800 Vol 5. When a Driver Training Course is required, CMs are to refer to current RNTMs or JPA for details of courses. Personnel can be booked on courses via the CBC.

6036. Recruiting - Service with Captain Recruiting and Attraction (R&A)

a. **Assigning.** Officers or ratings on normal commissions or careers/engagements can be assigned for duties with the Naval Recruiting Service in Armed Forces Careers Offices (AFCOs), Royal Navy Careers Information Offices (RNCIOs), R&A Presentation Teams and Officer Careers Liaison Centres (OCLCs). A full list of AFCO and RNCIO locations is at Annex 60C.

b. **Loans.** Personnel can volunteer to be lent for duty in an AFCO for periods of between one and six months, subject to the AFCO being able to accommodate them. Reliefs will not be provided. Assigning clearance is not required for loans under one month but clearance must be sought from the respective Area Recruiting Manager (see Annex 60C). Applications from Squadded ratings are to be processed initially through their EWO and then forwarded to the appropriate WMO to ensure that the movement of personnel is correctly recorded.

c. Volunteers should be able to project a good image of the Service, be able to converse with young people and their parents about their careers and service experience. Ideally, they should be junior ratings or other ranks of any branch or category. Exceptionally, specially recommended Senior Ratings and RM SNCOs under the age of 30 may be considered. Personnel who have submitted notice may volunteer and will be considered by R&A, provided they are specifically recommended.

d. Candidates for loan service with R&A will normally be expected to live at home/with parents as Service accommodation outside of the main Naval areas cannot be guaranteed and SSSA accommodation cannot be provided at R&A's expense. Home to duty travel will normally be payable up to a maximum of 50 miles per journey.

e. Commanding Officers are to forward service details of suitable volunteers who can be spared without relief to the appropriate CM for assigning clearance, with details of:

(1) Three AFCOs in order of preference.

(2) Home town.

(3) Dates of proposed loan.

f. If assigning clearance is given, DDPD will forward names to the respective Area Recruiting Manager.

6037. Sports Coaches

To enable the Navy to utilise highly qualified sports coaches, the establishment of Sport allows coaches to be attached to the Sport workforce, assigned to HMS TEMERAIRE. Coaching roles will vary subject to the demand and the requirement, and requests should be submitted to Head Navy Sport for recommendation for approval by Deputy Director People Delivery or Director People & Training. Once approved, Service Personnel will be assigned to a position by the relevant Career Manager once the appropriate clearances are in place.

6038. Elite Athlete Scheme

Service Personnel identified as 'Elite Athletes' may be eligible for leave of absence in order to represent the Naval Service at a national or international level. For further information, refer to BRd 51(4).

6039. Retinue - Catering Services (Chefs and Stewards)

a. Care must be taken throughout the Service to identify and recommend suitable ratings for retinue service.

b. Ratings due for sea are assigned in their rightful turn whether or not they are in retinue service.

c. Ratings may not be selected for retinue service when serving at sea unless:

(1) They are approaching their normal FAD.

(2) Their relief can be given normal assigning notice (see Chapter 59 Section 11).

(3) They have completed sufficient sea time to support a reasonable period ashore.

d. Suitable ratings may volunteer for retinue service at any time through their Divisional Officer. Divisional Officers should, however, be cautious in their assessment and recommendation for such duties.

e. Flag Officers may select certain members of their retinue in accordance with procedures laid down by MOD(N). DDPD will arrange for Service Documents of nominated ratings to be forwarded to Flag Officers for vetting and selection.

f. The personal staffs of Commodores, Captains and Commanding Officers of Shore Establishments are not retinue posts as such, and the allocation of such staffs is the responsibility of individual COs using ratings assigned in normal course to their units.

6040. Volunteers for Special Reconnaissance Regiment, Special Forces, Defence Human Intelligence (DHI), OP SAMSON, 148 (Meiktila) Commando Forward Observation Battery Royal Artillery or the Commando Mobile Air Operations Team

a. The instructions for the recruitment of RN personnel for Special Employment (SE) are held in current DINs. The allocation of personnel for SE has high priority and volunteers are not to be prevented from putting themselves forward in accordance with the instructions. Accordingly, all nominations for SE should be allowed to complete the interview and be cleared to attend one of the designated courses. CMs are to consult with Branch Managers; when a volunteer is in a shortage category, the following guidelines may be used:

(1) Where a volunteer is at sea but not in a shortage category, they should be spared at the earliest opportunity commensurate with normal assigning notice for a relief. The SE interview should be arranged so that the course start date is within 12 months of the interview. For shore service personnel, the volunteer should be cleared to attend a course no later than 12 months from the date of the next available interview.

(2) Where the volunteer is in a shortage category and at sea, release may be delayed until the first available course after the planned FAD. Personnel on shore service should be cleared to attend a course no later than 12 months from the next available interview.

(3) Where assigning clearance cannot be given for an individual, the REQM is to raise a signal, giving the full justification for non-clearance.

b. Volunteers are strongly recommended to seek CM advice prior to volunteering for Special Employment as there may be wider career implications that should be considered.

6041. Sea Safety Courses - Ships/Submarines

The definitive regulations appertaining to Sea Safety Training Courses can be found in BR 2170 and current DINs. Guidance can also be sought from the Course Booking Cell Team Leader (93 825 4085). The practical assigning implication, however, and mandatory requirements for ships and submarines are as follows:

a. **Ships.** The Basic Sea Safety Course (BSSC) and Intermediate Sea Safety Course (ISSC) are mandatory for sea service. The One Day Sea Safety Course (ODSSC) is for personnel who are due to embark for periods of 7 – 30 days (total) in any 4-year period but will not be liable to form part of a sea or harbour DC&FF party. The requirement and perishability of the BSSC, ISSC and ODSSC Courses are:

(1) **BSSC.**

(a) BSSC is to be completed successfully before taking up First Sea Assignment (FSA). The course is programmed and booked by the respective training pipeline managers.

(b) BSSC is valid for 4 years. This period applies to any courses commencing from 8 Jan 07; earlier courses were valid for 2 years.

(c) Ratings removed from the course or deemed to be ’unsafe’ on completion are not to be assigned to a seagoing unit, notwithstanding that this may result in a gapped position. In the first instance, arrangements for the rating to retake the course are to be made.

(2) **ISSC.**

(a) ISSC is valid for 4 years. Some career courses will have ISSC programmed as part of the training pipeline or the course is arranged by CMs via the Course Booking Cell.

(b) Where, for whatever reason, personnel are unable to attend the planned ISSC, or the timeframe does not allow a course to be re-booked and completed prior to joining, the unit is to be informed, by signal, and appropriate action taken on receipt of the reply.

(c) Waivers will only be granted in exceptional circumstances by the Fleet MEO. For details see BR2170.

(3) **ODSSC.** Embarked Military Forces, residual RNR and any other personnel due to embark for periods of 7–30 days (total) in any 4-year period are to attend the ODSSC prior to their first embarkation and re-qualify every 4 years as required.

b. **Submariners.** Firefighting Courses and Submarine Escape Tank Training (SETT) are mandatory for all personnel joining submarines and failure on either course may preclude service in submarines. The requirements for, and perishability of the courses are:

(1) **NBCD 12R(SM) Basic Firefighting Course.**

(a) NBCD 12R(SM) is to be successfully completed by all personnel within six months of joining a submarine or conducting SMQ Dry (when applicable). If less than 12 months has been spent ashore since leaving a seagoing submarine where the qualification was held, the requirement may be waived.

(b) The above 12 months waiver is valid for only one through assignment after which the individual must re-qualify, regardless of time spent ashore.

(2) **SETT.**

(a) SETT is to be successfully completed by all personnel before a first sea assignment to a submarine.

(b) For subsequent assignments to sea, SETT is a mandatory course which will be booked by the CM as part of the individual's overall PJT package.

(c) Should a SETT re-qualification be required during a submarine sea assignment (including FOST SM Sea, SCU Sea etc.), it is the responsibility of the individual to:

i. Identify the requirement, and

ii. Book a course through the appropriate CM.

(3) **NBCD 9(SM) Attack Party Leader's Course.** NBCD 9(SM) is to be completed by all Cat A2 Watch-keepers before their first sea assignment in that position (the course is usually completed as part of NPSupC before a first sea assignment as a Cat A2 watch-keeper and therefore negates the requirement for a separate course). If less than 12 months has been spent ashore since leaving a seagoing submarine where the qualification was held, the requirement may be waived.

(4) **NBCD 25(SM) Advanced Firefighting Course.**

(a) NBCD 25(SM) is to be completed by Cox'ns, CMEMs and CPO Ops within 3 months of joining a submarine iaw the Unit Establishment List.

(b) The qualification is valid for 5 years, irrespective of subsequent assigning.

(5) **NBCD 26(SM) Firefighting Continuation Team Training Course.**

(a) NBCD 26(SM) is to be completed annually by all ratings in a sea assignment and is to be arranged by the Submarine through direct liaison with the firefighting schools.

(b) The qualification is valid for 12 months only.

6042. Senior/Leading Rates' Leadership Courses

a. Senior and Leading Rates' Leadership Courses (SRLC and LRLC) are conducted by the Royal Naval Leadership Academy at HMS COLLINGWOOD. The demand for courses often exceeds available places.

b. Personnel are automatically assigned to LCs as part of their career progression. Occasionally, however, individuals may apply by e-mail to the relevant CM through the Divisional System.

c. Full details on course booking, eligibility and prioritisation for places can be found in the current RNTM. See Chapter 21 Section 6.

SECTION 6

ROYAL MARINE ASSIGNMENTS

6043. Key Staff Assignments (RM Officers)

a. **Scope.** Certain key staff assignments at OF3 and OF4 levels require high calibre officers due to their demanding nature, pivotal role in maintaining operational capability and high-profile output; making them worthy of Head of Profession (HoP) oversight. Operational context, changes in ToRs, and the structure of the parent organisation will mean that the list of positions that require the appointment of high calibre officers will vary year on year and there is no exhaustive list of these assignments. OCM RM SO1, in conjunction with OCM RM SO2A, consulting with employers, is responsible for determining which assignments require HoP endorsement.

b. **Process.** Selection decisions will be made by Navy Career Management using the normal appointing principles; matching the job requirements, availability, individual talent management, and personal preference, with the most suitable and qualified individuals from across the RM Officer cohort. The RM Career Manager will consult with relevant OF5s within the RM Profession and, where required, the parent organisation of the position to determine the most suitable candidate, prior to gaining HoP endorsement. Officers on LFS or in CAPPS assignments will only be considered where their Future Availability Date (FAD) aligns with the availability of the assignments under consideration. Those officers whose removal from their current assignment would be detrimental to their careers will only be considered in extremis.

6044. Special Assigning for RMOR

a. **Specialisation Advisers.** Specialisation Advisers (SA) are, in the main, based in the lead training schools for their Specialisation, however, some may be based at NCHQ and RMB Stonehouse. CDO maintains a close liaison with SA who provide advice on the suitability of individuals for particular assignments and on the upgrading of training requirements within their Specialisation. SA do not assign or promote - they advise; assignment and promotion remain the responsibility of DDPD.

b. **Selection for Special Assignments.** Volunteers for specially selected jobs will be trawled for by CDO as required. On receipt of nominations, and in consultation with the prospective employer, a suitable candidate will be chosen to fill the post. For the duration of the tenure the position will belong to the candidate's specialisation, since that specialisation will still require a promotion behind, the candidate will still be considered for promotion within specialisation and return to it on completion of the tour.

c. **Personal Staff to Senior Officers.** With some exceptions, retinue staff to Senior Officers are almost exclusively Staff Car Drivers and these are now very few in number. Volunteers are sought by the usual process when positions are due to become vacant. An initial sift by CDO will result in a short list being forwarded to the respective Senior Officer for final selection. Assignment duration will normally be linked to the Senior Officer's assignment.

d. **Drum Major Selection and Employment.** CDO is responsible for the selection and employment of Drum Majors in consultation with the Principal Director of Music (PDM). Candidates will be trained at the RM School of Music.

e. **Licence Acquisition (TF 18).** It is Corps policy to ensure that where possible all recruits on completion of their King's Squad passout gain Cat B and Cat C + E licences at the Defence School of Transport (South) (DST(S)), based at CTCRM, before they join their first unit. Failure to do so will disadvantage the individual and may have an effect on the OC of the unit or wider RN/RM.

6045. Selection and Assigning for Command, Secondary Specialist Qualifications (SSQ) and Primary Specialist Qualification (PSQ) Training

a. CDO is responsible for selecting SNCOs, NCOs and Mnes to attend command, specialist and technical training courses. Numbers for command, specialist courses are derived from the Authorised Numbers generated by SO1 Requirements (RM)/Structure Policy Advisory Group (SPAG).

b. On the day of completion of Command, SSQ and PSQ training courses, SNCOs, JNCOs and Mnes will be assigned in line with RM workforce priorities. On completion of Command training it may be necessary to return the individual to their previous unit until the respective SQ training course has been completed or relevant position is available at their new rank.

c. **General Provisions.**

(1) On completion of recruit training, Mnes will normally be assigned for an initial two-year assignment to one of the Commando Force Units as Commando Duties (CD), except for Buglers and Musicians.

(2) During their first tour, CD Mnes are strongly encouraged to volunteer for PSQ training, although they may opt to remain in the CD specialisation. Efforts will be made to protect those in the early stages of building experience in a Cdo Unit. This involves providing opportunities to gain SSQ and serve in a Cdo Unit before being considered for DSS. However, there may be instances where the service requirement must come first. Thus, when the DSS Statement of Training Requirement (SOTR) quota is not met, and after exhausting the volunteers list, DSS ranks will be drawn from:

(a) CD marines on completion of basic training, and marines up to the rank of Cpl, who are not loaded to an alternative PSQ course or aptitude.

(b) Marines who fail to attend or have failed/voluntary withdrawn from a non-DSS PSQ3 course.

(c) All OR2/3 Marines who request a Withdrawal of Early Termination (WoET). OR2 ranks who have already specialised may be retained in their parent PSQ if deemed appropriate by a CM/BM judgement panel.

(3) DSS Mnes on completion of their Return of Service (RoS) (2 years from qualification) may either remain in their DSS specialisation or volunteer for another PSQ. DSS ranks considering volunteering or transferring to an alternative PSQ must submit their 'Employee Preferences' at the 12-18 month point after completing their DSS PSQ course. This allows a minimum of six months for the RM CM to load ranks onto their preferential PSQ course. Guaranteed transfers are at Mne/LCpl level only to the first available PSQ course subject to meeting all the pre-requisites. Should a person decide to remain in Specialisation after they have completed their DSS assignment, or accept substantive promotion, then the individual will forfeit their DSS transfer right. Once the DSS competence has expired, DSS rights cannot be applied to any subsequent PSQ preference change and transfer requests will be conducted through a normal PSQ transfer board. DSS Mnes who remain in their DSS specialisation after the completion of the RoS will be considered to be volunteers. Ranks volunteering themselves into a DSS PSQ will attract the same transfer rights as those nominated for DSS. Guidance can be found in RMOR Career Handbook.

(4) Second tour CD Mnes will be assigned on experience and SSQ gained to CF and Non-CF units in accordance with the RM workforce priority.

d. **Applications and Recommendations for Training.**

(1) **Recruits.** During recruit training, personnel are to be informed of the specialisations open to them and encouraged to volunteer. They are to complete a specialist and training preference form, which guides their assignments on King Squad Pass out.

(2) **JNCOs and Mnes.** Those who do not hold a PSQ are strongly encouraged to volunteer for such training. Volunteers for PSQ training should talk to their respective RMCA or SA and then apply for courses on JPA through their Employee Preferences/Sea Preferences. All are to note that career aspirations for an individual will not be drawn through onto the Appraisal Report (AR) from Sea Preferences; individuals are to ensure that this detail is recorded in the relevant section within their Preferences.

(3) A recommendation for an individual's suitability for Command or PSQ training is to be forwarded to DDPD (RM) as follows:

(a) **Appraisal Report.** Whenever an AR is raised.

(b) **Employee Preferences/Sea Preferences.** Whenever an individual submits an amendment or update to their preferences, they should be noted within the unit and then processed in JPA to the relevant DDPD (RM) CM desk. Failure to do this will mean the individual's name is not added to the list for their preference specialisation and they may not be assigned correctly.

(c) **RMCA Interviews.** During their personal interview, the RMCA will discuss the choice of specialisation, the availability of training with each recruit and aim to manage expectations accordingly.

e. **Selection Process.**

(1) **Command Course Training.** The RMORs' RM Workforce Appraisals and Career Progression Team Office holds annual Promotion Selection Boards (PSBs). Each PSB consists of a chairperson plus two other members; either two officers of at least OF2 rank or one officer and one WO1. The PSBs are chaired by CDO for all selections to promotion to WO2 and CSgt and SO2 RCMRM1 for selection for promotion to Sgt and Cpl. The PSBs select personnel for Junior, Senior and Advanced Command courses from specialisation command course selection lists, derived from ARs with a positive recommendation for promotion, in addition to taking into consideration qualifications and seniority, but with the principal criterion being merit.

(2) **PSQ Courses.** DDPD(RM) selects personnel for PSQ courses from requests submitted via the JPA Preferences. Consideration is given to suitability, seniority, education, availability and the date at which they became a volunteer.

(a) **Vehicle Technician Training (VM3).** Personnel who volunteer for VT3 training must attend an in-unit workshop assessment to gauge suitability for the VT specialisation. The individual must be able to fulfil the ROS requirement (see Chapter 54) before being considered for this training.

(b) **RN Establishments and Ship Detachments - Selection for VT Training.** Volunteers for VT3 training who are serving in RN Establishments and ships' detachments are to arrange for attendance at a RM workshop assessment through the VT SA at the earliest opportunity; this will assess their suitability and take the necessary action.

(c) **Weapons Technician (WT), Fabrication Technician (FT), RM Communication eXploitation (RMCX) and Technician Electronics Systems (TES).** Personnel who volunteer for WF/FT training should have attended and passed a workshop assessment, whilst those volunteering for RMCX must have Level 2 Functional Skill English and Maths and are required to pass a two-day aptitude course. There are also Nationality constraints for those volunteering for RMCX. TES applicants are to attend a Personnel Selection Officer (PSO) interview to access their suitability.

(d) **Assault Engineer (AE).** Personnel who volunteer for AE training must attend, pass and receive a recommendation from an AE aptitude course. DDPD(RM) will conduct the final selection process and load to course to meet the SOTR. AE aptitude courses are held at CTCRM and run by IS Coy.

(e) **Mountain Leader (ML).** Personnel who volunteer to become a ML2 must have a positive recommendation, which is subsequently endorsed by the PSB, in order to attend an aptitude course. DDPD(RM) will conduct the final selection process and load to course to meet the SOTR. ML aptitude courses are held at CTCRM and run by ML and ISTAR Coy.

(f) **Physical Training Instructor (PTI).** Personnel who volunteer to become a PT2 must have a positive recommendation, which is subsequently endorsed by the PSB, in order to attend an aptitude course. DDPD(RM) will conduct the final selection process and load to course to meet the SOTR.

(g) UK **Special Forces (SBS, SAS, SRR, SFC).** Personnel who volunteer for UKSF selection are to have completed their RoS and gain clearance from their HoDs. The application process can be found in the UKSF Selection DIN

f. **Return of Service (ROS) for Training.** Individuals must be able to fulfil the ROS requirement before volunteering or being considered for any Further Training. ROS policy can be found in Chapter 54 and in the RMOR Career Handbook.

6046. Provisions for the RM Band Service

a. **Musicians and Buglers.** Assigning within the RM Band Service will be dictated by the need for suitability and continuity to produce a cohesive ensemble. In conjunction with this is the opportunity to give a wide variety of employment to all ranks as dictated by rank structures in the Band's unit establishment list.

b. **Tenure of Assignments.** Musical Instructors, persons in key assignments throughout the Band Service and superior instrumentalists, will normally be given a 3-year tenure of assignment. The key assignments are:

(1) Corps Bandmaster.

(2) Corps Bugle Major.

(3) Corps Drum Major.

(4) Higher Training Instructor.

(5) Assistant SO(M).

(6) Bandmasters of Bands.

(7) Recording/Sound Engineer RMBS.

(8) Stage Manager Band Service.

SECTION 7 - DISCLOSURE AND BARRING SERVICE AND PROTECTING VULNERABLE GROUPS CHECKS REQUIRED BY LAW AND MOD POLICY

6047. Introduction and Important Caveat

a. **General.** The Royal Navy has no exemption to legislation relating to safeguarding and disclosing criminal records, as detailed in JSP 834 and 893. It is unlawful for an organisation knowingly to offer work in a position that includes Regulated Activity to an individual who is disqualified from working with children or adults or fail to remove such a person from such a position. An amendment to The Rehabilitation of Offenders Act 1974 (Exceptions) Order 1975 (England and Wales) allows the Royal Navy to conduct a certain level of disclosure checks for individuals carrying out duties which involve caring, training, supervising or being in sole charge of persons aged under 18 serving in the Armed Forces in England and Wales.[1]

b. **Purpose.** This chapter is the Royal Navy Policy for Employment checks on personnel in positions requiring disclosure checks. It allows employment decisions, (including obtaining disclosure checks) to be made. It also details the Royal Navy policy for making a referral to the Disclosure Agencies[2] when an individual who works with vulnerable groups may have harmed or put at risk of harm, an adult or child.

(1) Commanding Officers are to conduct regular reviews of establishment PID/JPAN posts to ensure that only those posts that meet the current criteria set out in References at Para 6048.a sub para (1) and sub para (2) are marked with the appropriate Disclosure & Barring Service (D&BS) or Protecting Vulnerable Groups (PVG) check competence requirement.

c. **Scope.** This is consistent with JSP 893 Part 1 and Part 2, the contents of which are not duplicated here. This contains the Royal Navy's policy and procedures, including any variations to the JSP. Whilst this aims to cover the Royal Navy as a whole force, specific guidance on Civilian Disclosure checks is contained within the referenced in Part 2, JSP 893 and guidance on Disclosure checks for Cadet Force Adult Volunteers is contained within Royal Navy Cadet policy.

d. **Out of Scope.** The following are not covered within this chapter:

(1) **Baseline Personnel Security Standard (BPSS) Version 7 (2024DIN02-014).** Baseline Personnel Security Standard Checks and the process for applying for Disclosure Checks during enlistment for those requiring Career Employment Checks for vetting purposes, are conducted by the National Recruiting Centre (NRC). BPSS checks are not to be used to obtain Standard or Enhanced Disclosure & Barring Service checks for new entrant or continuous employment purposes.[4]

---

[1]There is currently no legislation in Scotland that allows for those personnel caring for, training, supervising or solely in charge of Service personnel U18 in Basic or Initial Trade Training Establishments and supervisors of such individuals in Scotland to be subject to a disclosure check.

[2] Each disclosure organisation has guidance on assessing eligibility:

- Disclosure and Barring Service for England and Wales: https://www.gov.uk/find-out-dbs-check
- Disclosure Scotland: https://www.mygov.scot/working-jobs/finding-a-job/disclosure/
- Access Northern Ireland: https://www.nidirect.gov.uk/campaigns/accessni-criminal-record-checks

(2) **Non-UK Criminal record checks.** SP who have lived overseas prior to enlistment are required to supply a certificate of good conduct from their local in-country police force as part of NRC recruitment policy. This must be verified with the local in-country police force prior to a conditional offer of employment being made and a Disclosure & Barring Service check for employment obtained prior to a start date in the Royal Navy or Royal Marines being offered.

(3) **Safeguarding.** This is not the Royal Navy's safeguarding policy. Having a Disclosure Check in place does not negate the need for the appropriate safeguarding processes and procedures. Defence policy on safeguarding is contained in JSP 834.

e. The Disclosure and Barring Service (D&BS) has replaced the Criminal Record Bureau (CRB). In England & Wales, the Defence Business Service operate the MOD automated application system using uCheck for digital identity checks.

(1) Paper application forms will cease to be processed by Defence Business Service on 1 May 2025, all applications will use the automated system following the flow chart at Annex 60F. Once an application has been processed, the Discipline Team receive electronic notification of a clear check, which enables JPA competence to be awarded by the Discipline Team. A check requiring attention will require a copy of the certificate to be forwarded to the Discipline Team for consideration.

(2) Protecting Vulnerable Groups (PVG) applies in Scotland. The employer no longer receives a separate copy of the individual's Certificate of Disclosure and the RN is now entirely dependent on the applicant providing a certified copy of their certificate in order for the final decision on suitability to be made as required by safeguarding legislation.

(3) It is also worth clarifying a common misunderstanding about the certificate received by the applicant from the D&BS. This is a Certificate of Disclosure and does not constitute approval to work with vulnerable individuals until its contents have been processed by the Discipline Team in NCHQ. This is the case for all RN/RM disclosure certificates whether or not they contain adverse information. Personnel at unit level do not have authority to confirm clearance, even if the disclosure is apparently clear of recorded offences or cautions.

6048. References and Further Information

a. The following are References for this subject:

(1) JSP 893 V6.2 Oct 24 – Safer Recruitment and Employment.

(2) BRd 2 Chapter 65.

(3) BRd 3(1) Chapter 6 Section 11.

b. Further information may be obtained as follows:

(1) On the MOD D&BS policy and RN process from the RN Disclosure & Barring Service and Protecting Vulnerable Groups Check: NAVY CULTURE DISCIPLINE HEAD. Email: NAVY CULTURE-DISCIPLINE HEAD SO2

(2) Details of the roles and responsibilities of individuals associated with the disclosure application process are at Annex 60H.

6049. Protecting Vulnerable Groups in Scotland

a. The Protection of Vulnerable Groups (Scotland) Act 2007 (PVGA) operates in broadly the same way as the legislation applicable in England and Wales. It does however use subtly different criteria to define those at risk and also requires the data subject (applicant) to become member of the Protection of Vulnerable Groups Scheme.

b. Reference at Para 6048.a sub para (1) contains further detail on the Scottish clearance process. Applications are available for those who meet the criteria in the normal way through the Naval Service Nominating Authority, see Para 6047.

c. **Due to a change in legislation in Scotland on 1 Apr 25, all RN and Civilian personnel associated with delivery of healthcare are to have a Protecting Vulnerable Group check in place. All Career Managers and Line Managers will need to assess the Position ID numbers / MyHR. The legislation refers to the mandated requirement to have a Criminal Record check, if you are in a medical role in Scotland under the Scotland Protecting Vulnerable Groups (PVG) scheme.**[5]

(1) The Protection of Vulnerable Groups (Scotland) Act 2007 has been revised to expand the range of roles that are considered to be regulated. Personnel conducting regulated roles in Scotland must be members of the Protecting Vulnerable Groups (PVG) scheme, administered by Disclosure Scotland, otherwise they will be guilty of a criminal offence.

(2) The new definition of regulated roles includes conduct of the following activities in Scotland where those activities provide opportunity for contact with children and protected adults. This includes training for a regulated role and supervision or management of an individual in a regulated role. Breaking down some of the definitions:

(a) **Protected adults.** A protected adult includes anybody over the age of 16 who is receiving medical or welfare services.

[5] Regulated role is defined by PVG as a paid or unpaid role which requires a person to conduct certain activities when in contact with children and protected adults. Further information can be found in BRd 3(1) Part 7 Chapter 60 and at the following links; Schedule 2 - Regulated roles with Children (https://www.legislation.gov.uk/asp/2007/14/schedule/2), Schedule 3 - Regulated Roles with Adults (https://www.legislation.gov.uk/asp/2007/14/schedule/3).

(b) **Contact.** Contact includes physical contact and written or verbal communications, as well as 'exercising power or influence'. This last point is defined as assisting, facilitating or impeding progress towards a desirable outcome/objective for an individual or making decisions of an operational or strategic nature that could have an impact on a number of protected adults.

(c) **Regulated activities.** The activities that might lead to a role being regulated include delivery of medical care, being involved in the domestic services in a healthcare setting, provision of counselling or therapy, having the ability to directly influence the operational delivery of medical or care services, driving or escorting protected adults, and holding a position of responsibility in an organisation whose main purpose is to provide healthcare.

d. Career Managers for RN Medical and Welfare personnel outlined in the definitions above conducting any activities in Scotland, will be required to apply for a Scottish criminal records disclosure check using Digital Form 003A (see Annex 60E).

6050. Personnel Requiring a Disclosure & Barring Service or Protecting Vulnerable Groups Check

a. References at Para 6048.a sub para (1) and sub para (2) contain the criteria for assessing whether a post requires a criminal record check in order to comply with Safeguarding legislation and/or MOD policy. There are branches and trades where all personnel are required to hold continuous in-date clearance (continual regulated activity) and other posts that require the post holder to hold clearance merely for their tenure in that post (non-continual regulated activity. The following list covers the most common positions that will require and justify the disclosure of their criminal record:

(1) All Royal Naval Medical Service (RNMS) personnel, support staff, social workers and welfare and all Service personnel seconded to the NHS when in a continual regulated activity role as defined by their PID/JPAN.

(2) All RNR Medical Officers, QARNNS(R) Officers and RNR Nurses when in a continual regulated activity role as defined by their PID/JPAN number.

(3) All positions involved with Recruitment and Attraction including Careers Advisors, presentation teams and AIB members during their tenure including Candidate Preparation Centres where under 18's may be in attendance, (to be removed as a competence in JPA when no longer required).

(4) All Legal (when acting as family lawyers) positions.

(5) All RN / RM and Cadet Force personnel involved with Cadet/Combined Cadet Forces

(6) Some RN/RM Police.

(7) Some RN/RM PTs.

(8) All Chaplains/Officiating Chaplains/Honorary Officiating Chaplains/Non-Religious Pastoral Officers and CSW staff.

(9) Some Instructional Staff (Service/MoD Civilian and Contractor supplied) responsible for training under 18 trainees at Phase 1 and Phase 2 Training Establishments in England and Wales.

b. **Contracted Staff.** Where contracted staff are employed in positions which have been identified as requiring D&BS or PVG check, it is the responsibility of the supplying contractor to ensure the necessary checks have been carried out. Commanding Officers of units should satisfy themselves that this has been done before contracted personnel take up employment within the unit. Where necessary, contract amendment action should be taken to reflect this requirement.

c. **Instructional Staff at Phase 1 and 2 Training Establishments.** An amendment to the Rehabilitation of Offenders Act (Exceptions) Order 1975 allows, but does not legally oblige, the MoD to conduct D&BS checks on those personnel in, or being assigned to, positions whose normal duties involve caring for, training, supervising or being solely in charge of Service personnel under 18, and the supervisors/managers of those positions.

(1) Currently, MoD policy in this respect is that such checks will only be made on qualifying staff in Phase 1 and Phase 2 Training Establishments in England and Wales. Limiting application of checks in this way keeps the need for additional checks to a minimum without unduly compromising the level of risk to which Service personnel under the age 18 are exposed.

(2) There is no legislation in Scotland that allows for those personnel caring for, training, supervising or solely in charge of Service personnel U18 in Basic or Initial Trade Training Establishments and supervisors of such individuals in Scotland to be subject to a disclosure check.

6051. Level and Type of Disclosure & Barring Service or Protecting Vulnerable Groups Check

a. The type of clearance requested is to be specified on the application request form (see Annex 60E). There are two types of clearance: those who have qualifying contact with ‘Children’; and those who have qualifying contact with both ‘Children and Vulnerable Adults’. It is also important to provide an accurate job description detailing the likely interaction with vulnerable individuals as this will be used by police forces to decide what information is relevant to disclosure.

b. The country in which the work is undertaken is to be specified on the application request form (see Annex 60E). This will inform the RN Nominating Authority which application pack(s) or online application to forward to the applicant. Where qualifying employment is likely to be undertaken in both Scotland and England/Wales, clearance is NOT portable between the respective safeguarding systems (JSP 893 Para 41 refers).

c. Use of Disclosure and Barring Service Update Service. Individuals who require Disclosure clearance throughout their career are mandated to sign up to the online update service in accordance with JSP 893.This is offered to individuals by the Disclosure agency at the point a certificate is issued, and the application is time limited. The service has an annual cost which must be paid by the individual. For Civil Servants[6] Royal Navy Welfare Services and all healthcare professionals as annotated in Annex A, these costs can be claimed back via the Employing Unit. Individuals using the service must give permission to the Nominating Authority to view the status of an existing certificate in order to make an employment decision. If new information is disclosed a fresh disclosure check will be required.

6052. Assessment of Certificates of Disclosure

a. The assessment of all criminal record disclosures is performed by the NCHQ Discipline Team. This ensures that good control is exercised over this important and sensitive process, that suitability decisions are consistent, and that competence data is recorded correctly.

b. On receipt by the applicant the Certificate of Disclosure is to be forwarded to the RN Nominating Authority irrespective of the contents. Disclosures containing adverse information are then forwarded to the NCHQ Discipline Team Email: NAVYCULTURE-DISCIPLINE@mod.gov.uk for assessment and, where necessary, staffed through the Royal Navy Employment Suitability Decision Panel (RNESDP).

6053. Application Procedure

The procedures to be followed by Career Managers and Recruiters to ensure that criminal record checks are completed in a timely and correct manner in compliance with Safeguarding legislation and MoD policy are summarised in the following Annexes:

a. The ‘In-Service’ clearance process is illustrated by the flow chart at Annex 60F. Career Managers are to note that they are responsible for the prompt submission of application requests in order to ensure that clearance is obtained prior to the applicant assuming duties with vulnerable individuals. Career Managers are also responsible for ensuring that renewals are initiated in good time for continuous clearance to be ensured where necessary.

b. The ‘Recruitment’ clearance process is illustrated by the flow chart at Annex 60G. Should the gap between obtaining clearance and the candidates start date exceed 6 months then guidance is to be sought from NAVY CULTURE DISCIPLINE HEAD SO2 on the validity of the clearance and any requirement to obtain a fresh disclosure.

[6] Civilians may claim this cost back using the process guide contained JSP 893, Part 2 Civilian Guidance.

6054. Suitability Decisions and Competence Recording

a. Responsibility and authority for making suitability decisions rests with authorised staff within NCHQ. The RN Nominating Authority is authorised to award clearance for disclosures received confirming the absence of any relevant police / conviction information. The Discipline Team is authorised to award clearance for disclosures received containing minor, dated and unrepeated offences. All other disclosures are referred to the Royal Navy Employment Suitability Decision Panel (RNESDP).

b. Employment Suitability Decision. Responsibility and authority for making employment suitability decisions sits with one of two nominated employment suitability decision authorities: The Culture & Leadership Discipline Team, or the Royal Navy Employment Suitability Decision Panel (RNESDP) comprising:

(1) Navy Culture Discipline SO3 – (NAVY CULTURE-DISCIPLINE SO3) (Chair)

(2) RN Police Chief of Staff – (NAVY POLICE-HQ COS)

(3) RN FPS SO1 Casework – (NAVY PEOPLE-PS RN FPS HQ CW)

(4) Career Manager Chief of Staff SO2 – (NAVY PEOPLE-CM COS)

These two authorities will ensure that all safeguarding employment suitability decisions, which are both important and sensitive, are considered in a regulated, consistent, and timely manner. Their assessment of the information must be a fair, non-discriminatory assessment, and done so on a case-by-case basis. No matter what other qualities the individual has, the decision to employ them is based solely on risk of harm to vulnerable groups.

c. For Civil Servants, the responsibility for making employment decisions sits with the Nominating Authority and should follow the process in JSP 893 Part 2, Guidance. Further guidance can also be found at Disclosure Checks: Civilian Guidance (sharepoint.com)[7]. Once an employment decision has been made the Line Manager is responsible for updating MyHR and the Unit Disclosure Register via the UDO.

WARNING

IT IS UNLAWFUL FOR THE ROYAL NAVY OR ANY MOD TRAINING UNIT / ESTABLISHMENT OR SCHOOL TO KNOWINGLY EMPLOY AN INDIVIDUAL ON A BARRED LIST IN A ROLE THAT INVOLVES REGULATED WORK OR REGULATED ACTIVITIES.

[7] https://modgovuk.sharepoint.com/sites/IntranetCivilianHRPeoplePortal/SitePages/Disclosure-Checks--Civilian-Guidance.aspx

d. The information contained within a Disclosure Certificate will either contain: no adverse information, adverse information, and/or barring information if a Barred List check has been requested. An adverse disclosure (and/or barring information) will contain criminal record information and/or information held by the local police that is considered relevant to the role. The Royal Navy levels of disclosure information and the associated levels of authority for determining suitability of employment are contained in Annex 60I.

6055. Portability of Disclosure and Barring Service and Protecting Vulnerable Groups Checks

a. Employing authorities may use an individual's existing disclosure check as the basis for their decision-making, where the individual:

(1) moves within Defence to a similar role requiring the same level of check or lower. The employing authority is to satisfy themselves of the previous employing authority's decision-making process.

(2) is from outside Defence and is registered with the Disclosure and Barring Service Update Service (England and Wales only) and gives permission for the employing authority to check the status of their existing original disclosure certificate online. This only applies if the new role is similar and requires the same level of check as the original certificate.

Note. *The employing authority will still need to see the original certificate and review it as per this policy. With online checks more commonplace across Defence, an online representation of the certificate and/or notification received by the employing authority can also be accepted in lieu of a physical certificate (an e-certificate is acceptable). However, if any adverse information is disclosed, the original paper certificate must be viewed before an employment decision can be made.*

b. Employing authorities must conduct a new disclosure check where an individual:

(1) is within Defence and seeks a different role and/or requires a higher level of check.

(2) is from outside Defence regardless of whether they hold a valid certificate (unless they belong to the update service as per Para 6055 a (2)

c. Moves to a different UK country or works in locations in multiple UK countries. If an individual moves to a different UK country or works in locations in multiple UK countries (for example, works both in Scotland and England), they will require separate applications and disclosure checks to be completed for each location because they will fall under a different disclosure organisation.

6056. Renewal of Disclosure and Barring Service and Protecting Vulnerable Groups Clearances using the Update Service

a. Reference at Para 6048.a sub para (1) Where an individual undertakes a role for which a disclosure check can lawfully be conducted, this is to be renewed at least every three years (civilian/volunteer/Army/RAF) or at least every five years (Navy). Defence civilians, RAF and Army Service personnel who currently hold a disclosure clearance valid for 5 years may maintain this validity period but will move to three years on renewal.

b. If concerns arise over an individual's suitability to work with children or adults, the employing authority must carry out all relevant checks as if the person were a new member of staff at any time within the disclosure certificate cycle. For example, this might be prompted by a new relevant conviction. Such an instance will also prompt consideration of action to restrict the individual's interaction with vulnerable individuals while their suitability is being confirmed.

c. If the individual is based overseas, in addition to the renewal of a disclosure check a local police check will also need to be obtained as part of the renewal process.

6057. Unit Disclosure Officer

All units/ships/establishments which employ personnel in continual regulated or non-continual regulated positions are to appoint a Unit Disclosure Officer (UCRDO), of rank not less than Chief Petty Officer/Colour Sgt RM/Admin Officer (E1). They are to be responsible to their Commanding Officer, or equivalent, for maintaining a register of all positions (Service, MoD Civilian, Royal Fleet Auxiliary, Volunteers and contractor-provided personnel), continual regulated or non-continual regulated for which the personnel employed are required to hold a D&BS or PVG Check and pursuing any non-conformances. Terms of Reference for this are at JSP 893 Annex A.

6058. Amending JPA Post Competences

Commanding Officers are responsible for conducting regular reviews of post competences to ensure that all of the applicable posts are flagged with the requirement for D&BS or PVG Checks. Where such a competence is to be removed an email should be sent to the NAVYPEOPLE-PSP EXEC DISC@mod.gov.uk so that endorsement can be forwarded to the Navy Command Workforce Change Management Team.

ANNEX 60A

REMOVAL FROM ASSIGNMENT - CAREER MANAGER ACTIONS

1. Personnel are not to be removed from an assignment by 'painless' extraction, but only formally and in strict compliance with the regulations set out in Para 6006. Rapid action may be needed on occasion, but the requirement for speed should never be permitted to cause unfairness. Insofar as the individual to be landed is concerned, their career will inevitably be interrupted. It may be, particularly in disciplinary cases, that proper investigation reveals no case to answer, or that only minor charges are capable of proof. In such circumstances an individual could have reasonable grounds for complaint about an over-hasty decision to approve their removal from a key career assignment. Furthermore, to land an individual almost invariably causes assigning turbulence in the plot concerned and therefore adversely affects other individuals.

2. In all cases where removal from assignment is considered, there should be a clear, written audit trail of the decision making process. The aim should be to provide a clear factual record for the decision to land an individual, to rebut any subsequent challenge. If it is not possible to provide such an audit trail, the correctness of any decision to land will inevitably be cast into doubt.

3. Applications to land individuals usually require rapid staffing, however it is very important that an issue of such importance is handled correctly. To reflect the points above, the following procedures are to be followed:

a. On learning that an application to land is under consideration, ensure that the local command is aware of the guidance in Para 6006 and has considered all other options (e.g. warnings or application for Quarterly Reporting).

b. Make it clear that a written application will be required (e-mail or signal is acceptable) direct to the NCHQ Casework Cell. The subject officer/rating should be made fully aware of the Command intent throughout the process and be offered their right to submit a representation against the application to remove. If they decline the right, a statement of waiver is to be signed and is to accompany the application.

c. The application no longer needs to be accompanied by an AR however it should be as full as possible to assist the CM in placing the individual in their next assignment. If the application is based on professional or personal shortcomings, it will be expected to demonstrate an audit trail of appraisals, warnings etc. It should be noted that an adverse inspection report (by FOST for example) does not of itself justify landing an individual, although it may add weight to an application. In all cases where it is *proposed* that a pregnant Servicewoman is moved from her post because of her pregnancy, a review is to be carried out by the appropriate policy desk(s). Finally, ensure that the local commander is aware that the application for landing is subject to approval. Dir P&T/NavSec has delegated authority to Deputy Director People Delivery (DDPD) to approve the landing of Lt Cdrs[1] and below. Where Command input is required (for CO, XO of DD/FF or unusual case), this is to be sought by the NCHQ Casework Cell. The local commander should inform the individual that an application is being made, but should avoid precipitate action on the presumption that the application will be approved. Consideration should be given to seeking CNLS Law 3 advice at this stage.

d. Consider the re-assignment of the individual in the event of their landing being approved, consider arrangements for a relief. At this stage it is helpful to ask the local commander whether the billet can be gapped.

e. If, on receipt of an application, there is insufficient evidence to justify landing, CMs should not hesitate to say so. Frequently, cases gain a momentum which is difficult to stop. If as a CM you believe that there is sufficient material, then make your recommendations as appropriate. In either event ensure your views are recorded in the audit trail.

f. Submit the application to DDPD for approval. For landings requiring Dir P&T/NavSec approval, the application should still be submitted through DDPD. The application should include a draft letter for signature to promulgate the recommended decision. If landed, the draft letter must include instructions regarding the individual's next assignment. It may be desirable to send the individual on leave for 3-4 days, having been given an order by a superior officer in the discharging unit to report to their CM at a specific time. Ensure that the individual’s whereabouts on leave are made known to the CM.

g. Inform the local commander of DDPD/Dir P&T/NavSec’s decision. The signed letter may be emailed or may form the text of a signal, according to circumstances.

4. When staffing the application, the NCHQ Casework Cell is to ensure that Fleet Pol Sec is kept aware of the salient aspects of the case where a removal from assignment involves one or more of the following factors:

a. Removal relating to a CO or OIC.

b. Operational sensitivities (most likely to arise where a unit is deployed in theatre).

[1] Provided that, when the subject of the proposed removal is an officer of Lt Cdr’s rank, they are not in command.

c. Potential embarrassment to the RN.

d. The circumstances surrounding the case are already in the public domain.

e. This link will provide for accurate and pertinent detail to be made available to inform Ministerial submissions as required.

5. If a decision is taken to land an individual, then the RN has a duty of care towards the individual. CMs need to play their part in discharging the duty of care by coordinating other stakeholder engagement. The following serves as a useful checklist for ensuring that the officer's potential needs are met:

a. Contacting the individual as soon as practicable after their landing to discuss their future assigning.

b. Arranging a suitable 'holding' assignment to reflect the precise circumstances of the case.

c. Re-assuring the individual concerned and indicating suitable sources of advice as appropriate.

d. Briefing the new 'employing officer' of the circumstances in sufficient detail to enable them to discharge their responsibilities to the individual, but avoiding prejudice against the individual concerned.

e. Prompt identification and allocation of a new Divisional Officer.

f. Engagement with the Welfare Services.

g. Engagement with the Naval Chaplaincy.

h. Engagement with the Command Secretariat for Policy Secretariat (including allocation of a Media Shield, if appropriate).

i. If returning from an operational theatre:

(1) Access to decompression.

(2) Access to Trauma Risk Management.

j. An interview with the CM, or SO1 Branch CM (if appropriate, or sought by the individual). This should include the following:

(1) Confirmation in writing by the subject officer that they have been made aware of their right to submit a representation.

(2) Confirmation of their next assignment.

(3) Confirmation by the subject officer that they are aware of their new Divisional/Regimental chain of command.

k. If sought by the subject officer, a Key Stage Career Interview.

l. Continued contact with the subject officer until they join their new unit.

m. Emphasising to all concerned that Dir P&T/DDPD staffs are neutral in the management of the incident(s) which gave rise to the decision to land and the subsequent investigation.

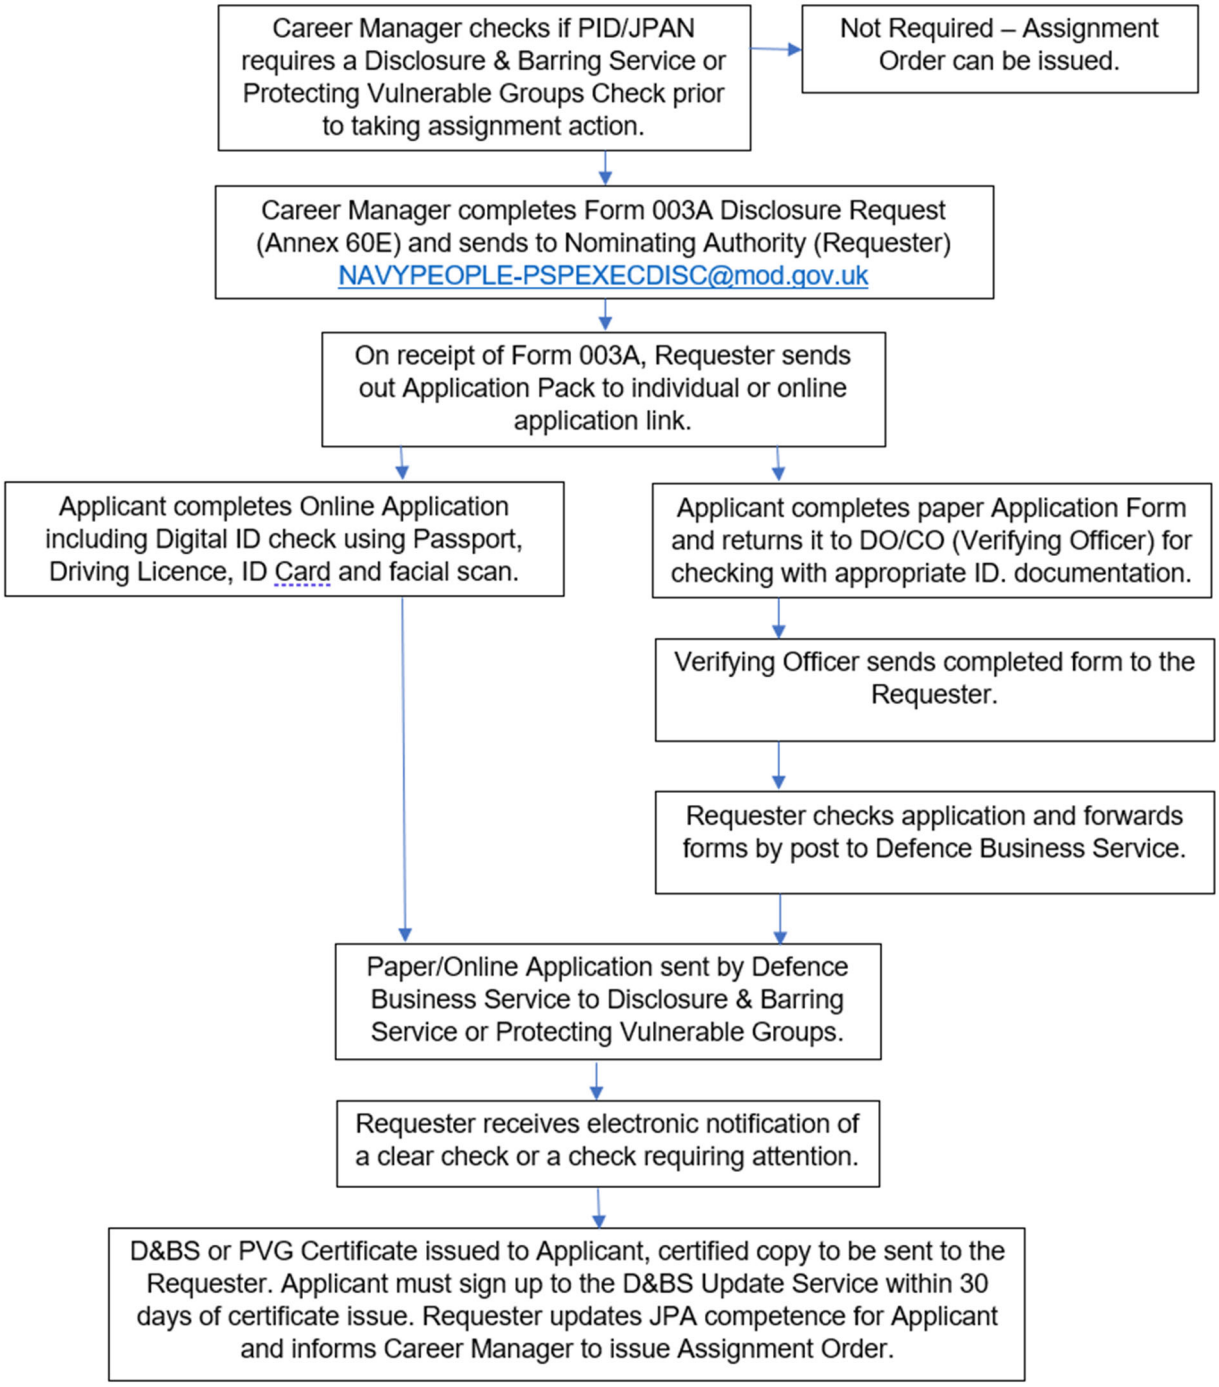
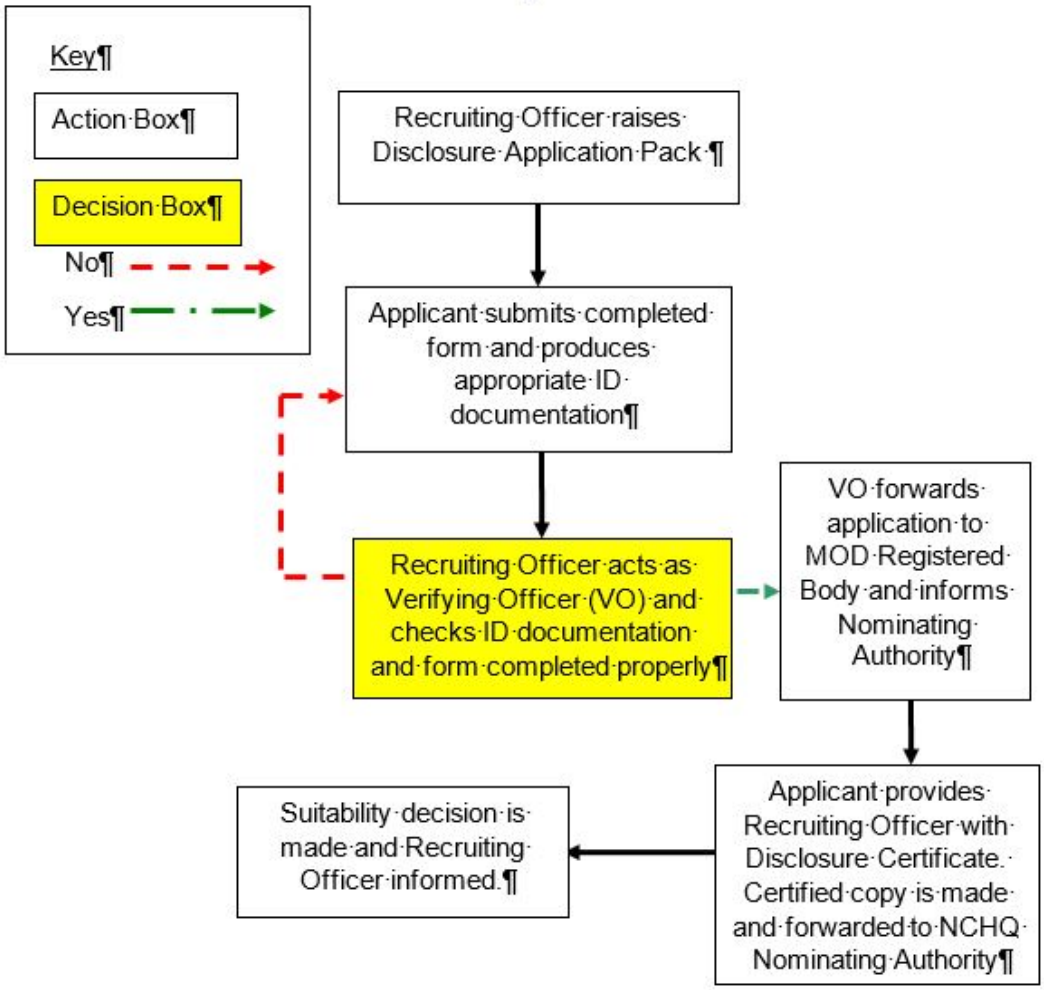
IN-SERVICE DISCLOSURE & BARRING SERVICE / PROTECTING VULNERABLE GROUPS CLEARANCE – FLOW CHART



ANNEX 60G

RECRUITMENT/REJOIN CLEARANCE - FLOW CHART



ANNEX 60H

DISCLOSURE & BARRING SERVICE OR PROTECTING VULNERABLE GROUPS CHECK PROCESS ROLES/RESPONSIBILITIES

1. Career Manager

Responsible for:

- ensuring that requests for clearance (D&BS/PVG - Form 003A) are properly completed and dispatched to NAVYPEOPLE-PSP EXEC DISC@mod.gov.uk when taking assignment action so that the assignee is cleared to undertake the assignment on joining.

- submitting renewal requests 6 months prior to expiry of current check in time to ensure continuity of clearance where required.

2. AFCO Recruiter

Responsible for:

- sending D&BS/PVG Form 003A to the Naval Service Nominating Authority Requester

- physically sighting and scanning certificate and email to NAVY PEOPLE-PSP EXEC DISC@mod.gov.uk.

3. Verifying Officer (VO)

Responsible for:

- ensuring the Disclosure Application form is completed properly; and

- conducting verification of identity checks (to be superseded by D&BS automation (England & Wales) when introduced.

- physically sighting, verifying and scanning certificate and email to NAVY PEOPLE-PSP EXEC DISC@mod.gov.uk

4. Divisional Officer(DO)/Commanding Officer(CO)/Appropriate Person(AP)

Responsible for:

- acting as Verifying Officer (to be superseded by D&BS automation (England & Wales) when introduced; and

- ensuring the NCHQ Discipline Team is informed of any potential delay in the Process.

- physically sighting, verifying and scanning certificate and email to NAVY PEOPLE-PSP EXEC DISC@mod.gov.uk.

5. Naval Service Nominating Authority

Responsible for:

- acting as Requester for the D&BS Automation process for England & Wales checks.
- raising Disclosure Application Pack once D&BS/PVG-003A is received and sending to applicant;
- ensuring returned Application Form is completed properly;
- returning any incomplete forms to correct individual ensuring application details are recorded on the local spreadsheet/database;
- annotate clearance on JPA.
- ensuring complete Application Pack is sent to the MOD Registered Body;
- ensuring local spreadsheet/database is updated with Clearance details once received from Defence Business Service (DBS); and
- ensuring correct individuals are notified of 'green light' decisions.

6. Navy People-CM HUB2

Responsible for:

- Providing Service Numbers of all Medical personnel on joining BRNC Dartmouth and HMS Raleigh to and email to NAVYPEOPLE-PSPEXEC DISC@mod.gov.uk

7. Navy People Discipline Policy Head

Responsible for:

- ensuring documentary evidence is requested from applicants in cases of 'amber light' decisions;
- confirming clearance within delegated authority;
- engaging with RN D&BS/PVG Check Panel for decisions on suitability for cases that fall outside of delegated authority;
- ensuring appropriate individuals are notified of panel decision;
- on receipt of any appeal against refusal to grant clearance, put together brief and case commentary/history for Deciding Officer; and
- notifying appropriate individuals of appeal decision.

8. Applicant - responsible for:
Responsible for:

- completing the application form accurately and without unnecessary delay;
- engaging with their Verifying Officer; and
- providing a certified copy of the Disclosure Certificate providing a certified copy of the Disclosure Certificate immediately on receipt to their local Unit Criminal Record Check Officer.
- signing up to the D&BS update service within 30 days of receiving certificate.

9. Unit Disclosure Officer.
Responsible for:

- Fulfilling Terms of Reference in JSP 893 – Safer Recruitment and Employment
- maintaining the Unit D&BS or PVG Check Register on behalf of the Commanding Officer;
- hastening applicant for their Disclosure Certificate;
- making a certified copy of the Disclosure Certificate and forwarding it by email to NAVY PEOPLE-PSP EXEC DISC@mod.gov.uk to the NCHQ Discipline Team; and
- engaging with Career Managers to address any non-compliances engaging with Career Managers to address any non-compliance identified on the Unit D&BS or PVG Register.
- accessing the Safeguarding Vulnerable Groups area in JPA to confirm competencies.

ANNEX 60I

ROYAL NAVY EMPLOYMENT SUITABILITY DECISION

1. The Royal Navy levels of disclosure information and the associated levels of authority for determining suitability of employment are contained in the table below.

Table 60I-1 – Levels and Decision Authority

Nature of Disclosure – Level Zero	**Authority**
No Disclosure	Navy Culture Discipline SO3
Minor offences e.g. failing to pay a Fare, failure to have a TV licence or road tax. Minor traffic (e.g. speeding, parking, failure to insure vehicle or MoT)	Navy Culture Discipline SO3
Caution for public order offences (inc Affray) (more than 5 years ago – from date of caution)	
Less serious criminal damage (up to £5000) (more than 5 years ago – from date of conviction)	
Conviction for Public Order (inc Affray) (more than 15 years ago or Juvenile Offence)	
Serious Criminal Damage (over £5000) (more than 15 years ago or Juvenile Offence)	
Nature of Disclosure – Level One	**Authority**
Caution for public order offences (inc Affray) (in the last 5 years – from date of caution)	Navy Culture Discipline SO3
Less serious criminal damage (up to £5000) (in the last 5 years – from date of conviction)	
Minor Traffic offences resulting in disqualification (other than alcohol or drug related)	
Driving offences – alcohol related (more than 5 years ago – from date of conviction)	
Conviction for public order offences (inc Affray) (between 6 and 15 years from date of conviction or resulting in custodial sentence)	
Serious criminal damage (over £5000) (between 6 and 15 years from date of conviction or resulting in custodial sentence)	
Common assault / Battery (more than 6 years from date of caution /	
ABH (more than 10 years from date of caution / conviction)	
Nature of Disclosure – Level Two	**Decision**
Section 22 Armed Forces Act 2006 (ill-treatment of subordinates)	Royal Navy Employment Suitability
Section 23 Armed Forces Act 2006 (disgraceful conduct of a cruel or indecent kind)	
Conviction for public order offences (inc Affray) (within last 6 years from date of conviction or resulting in custodial sentence)	
Serious criminal damage (over £5000) (within last 6 years from date of conviction or resulting in custodial sentence)	
Driving offences – alcohol related (within the last 5 years – from date of conviction)	
Common assault / Battery (within last 6 years from date of caution / conviction or where the victim was a child or vulnerable person)	

ABH (within the last 10 years from date of caution / conviction or where the victim was a child or vulnerable person)	Decision Panel (RNESDP).
Offences of dishonesty (Theft / Fraud Act etc)	
Road traffic offences involving death	
Firearms and explosive offences	
Domestic Related Offences	
Nature of Disclosure – Level Three	**Decision**
Disclosing private sexual photographs/ films with intent to cause distress	Royal Navy Employment Suitability Decision Panel (RNESDP).
Racially, sexual orientation, or gender aggravated offences	
All drugs related offences (inc driving)	
Manslaughter	
Membership of a Proscribed Organisation	
Criminal harassment contrary to the Protection from Harassment Act 1997	
Sexual offences	
Murder, GBH and wounding (with or without intent)	
Arson	

Step 1 – Culture & Leadership Discipline Team – Review and Refer. On receipt of a copy of the Subject's Disclosure Certificate, Navy Culture Discipline SO3 must review the content to determine the level of the disclosure and refer the case to the appropriate authority for an employment decision. JPA discipline entries may also be referred for an employment decision.

Step 2 – Employment Suitability Referral and Decision. Employment suitability decisions will fall into one of four levels with differing authorities, which must be categorised by Navy Culture Discipline SO3. When coming to an employment suitability decision, the relevant authority must not balance the benefit to the organisation in employing a highly capable individual versus a risk of harm to children or vulnerable adults. No matter what other qualities the individual has, the decision to employ in regulated activity is to be based solely on risk of harm to children or vulnerable adults. The authority levels are as follows:

a. **Level 0 – Blue – No Disclosure / Less Serious Cautions/Convictions and/or Historical or Juvenile Convictions.** For Level 0 disclosures the nominated employment decision authority rests with **Navy Culture Discipline SO3.**

b. **Level 1 – Green – Lower level / less recent Cautions / Convictions.** Level 1 disclosures are likely to be common, the nominated employment decision authority rests with **Navy Culture Discipline SO3.** If the offence/ misconduct in anyway involves a child or Vulnerable Group, or if SO1 MS referrals consider that the case merits further consideration, the decision must be referred to the **RNESDP**.

c. **Level 2 – Amber – Serious Offences / recent Convictions or Cautions.** For Level 2 disclosures the nominated safeguarding employment decision authority is **RNESDP.** Navy Culture Discipline SO3 is to ensure that the Job Specification along with the Disclosure Certificate is sent to the members of the RNESDP prior to discussing the case.

d. **Level 3 – Red – Gross Offences.** For Level 3 disclosures the nominated safeguarding employment decision authority is **RNESDP.** Where a certificate is returned with a Level 3 disclosure which is unspent, APC MS Referrals must engage with APSG. Navy Culture Discipline SO3 is to ensure that the Job Specification along with the Disclosure Certificate is sent to the members of the RNESDP prior to discussing the case.

Step 3 - Royal Navy Employment Suitability Decision Panel Considerations. The considerations below apply to all suitability decisions made by the relevant authority. This includes an individual who has Level 3 category of offence. Whilst they will not normally be considered for work in regulated activity, as there is a strong correlation between such offences and individuals that are barred from working in regulated activity, the RNESDP should consider the sentence awarded and supporting disclosure statement when considering their suitability decision.

a. Is it a juvenile or adult caution/conviction? If the former, is the individual older and demonstrably more mature?

b. What was the rank/grade of the individual at the time of the offence?

c. Was the offence a one-off, or part of a history of offending (either the same/similar offences or a range that indicate general and repeated inability to act in an appropriate or disciplined manner)?

d. Is there evidence that the individual is a reformed character? *For example: The individual concerned has been promoted since the offence was committed, indicating that they are well regarded.*

e. What is the attitude of the offender? Is it one of remorse and acceptance of blame and wrongdoing?

f. Was the offence completely out of character? Was there a particular context to the offence that no longer exists?

g. Were the circumstances surrounding the offence that are unlikely to be repeated in the course of employment in regulated activity?

h. Was the victim of the offence a member of the offender's peer group?

i. What is the likely risk that the individual would harm children or vulnerable adults?

j. Has consideration been made to the reputational risk, both for the Royal Navy and the individual?

Step 4 – Suitability Notification, Assignment Order and Follow Up Action. The outcome of the Royal Navy Employment Suitability Decision Panel will allow the Subject's provisional selection for assignment / role to be confirmed by Navy Culture Discipline SO3 who is to execute the following actions:

a. **Suitability Not Approved.** Where the appropriate decision authority has not approved a Subject's suitability for assignment, Navy Culture Discipline SO3 / Chair RNESDP will notify the Subject's CM who are to inform the Subject of their de-selection and cancel the Assignment Order.

b. **Suitability Approved.** Where the appropriate decision authority has approved a Subject's suitability for assignment, Navy Culture Discipline SO3 will notify the Subject's CM and Unit(s) of the decision. An Employment Suitability notification will then enable confirmation of the assignment and for the SP to commence employment in the role. Units are not to retain a copy of the disclosure certificate, instead the Employment Suitability notification should be used to update the Unit Disclosure Register (of the gaining unit) and a copy retained with it.

An Employment Suitability notification is issued by Navy Culture Discipline SO3. It must confirm the suitability of the Subject to undertake the role (against the job specification submitted for a decision) and include the date the appropriate decision authority approved the Subject's employment.

c. **Information Management/Recording Competencies.** Following the issue of the suitability notification, Navy Culture Discipline SO3 is responsible for recording Disclosure competencies on JPA. The JPA record should contain the date of issue and be end dated as per the clearance validity period.

2. Appeals. A Subject may:

a. **Appeal the content of the Certificate of Disclosure.** Process as per JSP 893.

b. **Appeal the Employment Suitability Decision.** Appeals of this nature are to be made to Navy Culture Discipline SO3. Level 1 decision appeals will be reviewed by the RNESDP. Level 2 and 3 decision appeals, against RNESDP decisions, will be heard by the Higher RNESD Appeals Committee (RNESDAC) composed of the following membership:

(1) Navy Culture Discipline Head SO2 – (NAVY CULTURE-DISCIPLINE HEAD SO2) (Chair)

(2) RN Provost Marshal – (NAVY POLICE-HQ PMN SO1)

(3) RN FPS Head of Service – (NAVY PEOPLE-PS RN FPS HD)

(4) Career Manager Head – (NAVY PEOPLE-CM HD)

(5) SO1 Employment Law – (NAVY LEGAL-EMPLOYMENT LAW SO1) (Advisor)

c. An appeal against a RNESDC decision may be submitted by the SP in writing through their CoC and sent to Navy Culture Discipline Head SO2 to have their case re-heard. This must be within 10 working days of the original decision being promulgated. The appeals panel will consider suitability and notify their decision to Navy Culture Discipline Head SO2 and the individual inside 10 working days where possible.

d. The Discipline Team will ensure that applicants and appropriate staff are informed of the outcome of suitability decisions. Where permission to work with a vulnerable group has been refused then the applicant may if they wish appeal the decision via the Service Complaints procedure.

e. The RN Nominating Authority is responsible for the recording of clearance competences on JPA.

CHAPTER 61

ASSIGNMENT PROCESS

SECTION 1 - ASSIGNMENT NOMINATION PROCESS

6101. Senior Officers

The assignment process for officers at 1 Star or 2 Star rank is at Chapter 60 Section 4.

6102. Nominee Identification

a. Career Managers (CM) have details of each position from a Unit Establishment List, requirement for higher training or a letter of authority for some special or temporary posts. The detail against each position will include the required rank, branch and specialisation plus any other competences including the following competence types: Additional, Educational and Professional. It is the responsibility of the CM to identify and nominate a suitable individual to fill that position. The CM is aware of the range of suitably qualified and experienced personnel available and takes into account the personal factors affecting each individual which are known through interviews, routine communication and JPA Assigning Preferences. To this the CMs must add an assessment of the appropriate seniority, ability and experience, often having discussed these matters with the receiving unit and the relevant higher administrative authority. The CM then matches individuals to positions reflecting the principles of assigning set out in Para 5902.

b. If a CM is unable to fill a position with a suitably qualified and experienced person of the right rank, consideration should be given to use of the Acting Higher Rank or Rate (see Para 6503 and Para 6603) or use of Reserve Personnel under Full Time Reserve Service (FTRS) or Additional Duties Commitment (ADC) (see Chapter 59 Annex 59H) as a short-term workforce measure.

6103. The Nomination Process

a. CMs invest considerable effort to match individuals to jobs and seek to assign individuals into posts in which they are expected to do well. Once a suitable individual has been identified, the CM will contact the future 1RO and discuss any relevant information concerning the individual and the position (joining dates, experience, training, clearances, AHR, personal circumstances etc.). The CM is also responsible for checking the SP's JMES and whether there is any restriction which requires an Individual Medical Risk Assessment (MRA) IAW Ch28 Para 2816. The CM will inform the CO of the SP's JMES and the CO will then initiate the MRA process.

b. Some assignments make particular demands on certain personal qualities. Special nomination arrangements are therefore made for assignments to the Royal Household, the Cabinet Office, Ministers' offices and some Flag Lieutenant/Military Assistant posts. Service personnel who are to be nominated for any posts which are regarded as sensitive are required to undergo social media checks in accordance with Chapter 21 Annex N. For further details of both the special nomination arrangements and required social media checks see Chapter 59 Annex 59E.

c. Following dialogue between the CM and 1RO, an Assignment Order will be issued via JPA workflow, without recourse to formal written nomination; fort short notice assignments or changes additional communication will be necessary. The practice of issuing a Nomination Letter to senior and Commanding Officers is no longer mandated. In the Assignment Order, the nominee will be directed to contact the 1RO to request joining instructions. There are occasions when telephone calls or signals are used in addition to the JPA electronic workflow, such as when changes at short notice are required for operational, compassionate, sickness or other reasons.

6104. Refusal of a Nomination/Assignment

a. Service personnel are not permitted to select or decline assignments, but CMs invariably give due consideration to personal wishes before deciding on a particular assignment.

b. CMs will nominate a suitable service person to fill a billet. In the event that an agreement cannot be reached between a CM and an employer, the process of re-aligning a different, suitable individual (if one exists) to a position is likely to create a gap between the incumbent leaving and a new joiner arriving. Consideration will be given to CM plot pressures and adherence to PFS timelines therefore the length of the gap may be significant.

c. An employing officer may only legitimately refuse a nomination if:

(1) A nominee is not qualified for the position because they are not of the rank or branch or specialisation or lack a qualification or competence specified in the Establishment List; or

(2) The employing officer, or an intermediate line manager, has served with the nominee previously and in consequence the employing officer believes that they will be unable to manage the nominee fairly.

d. Other reasons, such as the nominee being over-zone, or not of the preferred seniority, or previous assigning history, or not being the best individual available in the view of the employing officer, will not justify rejection. For common assignments, employing officers should expect the nomination of an officer of any branch to which the assignment is open in accordance with the CAPPS list (see Para 5913). Rejection of an otherwise eligible officer to secure an officer of a particular branch, or to secure a ‘mix’ of officers of different branches, will not normally be considered.

e. In no circumstances will a rejection be entertained on grounds of gender, sexual orientation, maternity, race or ethnic origin. This is against the law and employing officers will be required to state in writing their reasons for attempting to reject a nomination.

SECTION 2 - ASSIGNMENT PROCESS

6105. Notification of Assignment Intention

If an individual is on a course or in a short assignment and wishes to claim relocation expenses in advance of the issue of an Assignment Order for a permanent assignment, they must provide written evidence from their CM that it is the intention that they will be assigned to that particular position. The format and details on the discretionary use of this notification is at Annex 61A.

6106. Execution of Assignments

The organisation and responsibilities for ensuring that personnel join their ship/submarine, unit or establishment at the right time and place and are correctly prepared for service in that position are explained in the following paragraphs.

6107. Assignment Orders (AOs)

a. Career Managers issue Assignment Orders (AO) on behalf of Deputy Director People Delivery (DDPD). An AO is an Executive Order to both the person named in the AO and their current superior officer; it is also the authority to move that individual using Service resources. Where necessary, an AO will contain amplifying instructions appropriate to the assignment and compliance with these is implicit in the execution of the AO.

b. An AO is a directive and not a document issued for discussion and should be read carefully. Divisional Officers are to explain where necessary all the implications of a particular assignment.

6108. Amendments to AOs

There is normally a lapse of time between the issue of an AO and its execution. It may therefore require amendment for a variety of reasons and can be amended by the issue of a further AO. In the event of a short notice amendment being required, it will be signalled followed by the issue of a confirmatory AO amendment.

6109. Joining Dates

If an individual is joining a Unit in the UK, minor adjustments of up to 28 days either side of joining dates given in the AO may be agreed directly between discharging and receiving units without seeking the permission of the CM providing that it does not break relevant Assigning Notice. CMs should, however, be kept informed of agreed new joining dates in order for them to issue an amending AO.

6110. Movements

a. When an individual is detailed to join a unit outside the UK, the discharging unit, on receipt of the AO, will book all the passage requirements with the Defence Passenger Reservation Centre (DPRC), which will forward the necessary tickets and information to the discharging unit. Personnel detailed for LFS, all Falkland Island (FI) units, short notice assignments, including Emergency Relief Pool (ERP) activation, and small units without normal UPO facilities, will have AOs copied to the movement section within the JFC Global Admin Unit. The travel cell will book the passage requirements and forward/signal the appropriate movements information to the current unit. When an individual receives an AO to return to the UK from overseas, the responsibility for booking the passage rests with the discharging unit.

b. For SM personnel this will be SUBFLOT. Units are to be aware of visa requirements and the procedures detailed in JSP 800 Vol 2 (Defence Movement and Transport Regulations - Passenger Travel Instructions). Any doubts or problems regarding visa requirement are to be referred to DPRC, Visa Section.

6111. Pre-joining Training (PJT) and Competences

a. PJT and Competence requirements are shown against the Position in JPA. CMs are responsible for ensuring that officers and non-Squadded ratings and RMOR joining units on Sea, Local Foreign, Exchange or Loan Service are assigned to courses to achieve the specified competences before joining. Responsibility for Squadded ratings lies with CMC CMs. Assignments will not normally be cancelled as a result of a failed PJT, however, under the PJT Pass/Fail criteria and associated administrative procedure, where Health and Safety at Work (HASAW) regulations are involved, the assigning implications will be assessed following the Training Establishment’s recommendation.

b. For personnel assigned to shore service who require PJTs or Competences, it is the responsibility of the receiving unit to book the training, which should not be undertaken until they have joined. Similarly, all receiving units (sea and shore) are responsible for any changes they require to PJT/Competence requirements as a result of changes to the Establishment List made after AOs have been issued.

6112. Action on Receipt of an Assignment Order

a. **By the Individual.** Individuals will receive all AOs (new, amended, or cancelled) via JPA workflow. Once they have read and understood the order they are to acknowledge the workflow immediately. They should contact their UPO to arrange any travel requirements and ensure they are in all respects prepared for the assignment and to meet the availability date (Ready-to-Move-Date) as appropriate. Passport formalities and medical requirements are to be completed at an early stage where required (for LFS, see Para 5911).

b. **By the Receiving Unit.**

(1) The AO detailing the individual to join the Receiving Unit is to be checked to ensure that no special instructions have been omitted and that all details including PJTs and Competence requirements are correct. Joining instructions are to be despatched to the person normally one month before joining.

(2) On receipt of an AO nominating a relief for a rating serving on sea service or LFS, an Availability for next assignment Date (AVDATE) signal is to be sent to the CM. The AVDATE should be received by CMs at least 4 months before the rating is due to leave the unit, to enable the CM to give at least 3 months' notice of the next assignment. See Chapter 59 Section 10 for detail of AVDATES.

c. **Failure to Meet an Assignment.** If for any reason an individual is not able to join, meet an availability date for passage or attend PJTs as detailed by an AO, then the facts are to be reported by signal, quoting the date of the AO, to NCHQ (FAO relevant CM) and the Receiving Unit. If an individual fails to report within 48 hours of their assignment date, the receiving unit is to inform CM by signal, copy to the discharging unit. Similarly, CM and the Receiving Unit are to be signalled by the Training Establishment if an individual fails to arrive as detailed for a PJT course.

6113. Course Booking

a. The RN Course Booking Cell (CBC) is tasked to provide a single point of contact for all CMs and Workforce Coordinators in sea-going units for the booking all RN Phase III core competence uplift training (Pre-Joining Training (PJTs) and Targeted Employment Modules (TEMs) identified as Competence requirements against positions detailed in Unit Establishment Lists), ensuring this training is delivered in line with strategic workforce priorities.

b. CMs remain the first point of contact for all Professional Qualifying courses and career management issues including the booking of Leadership Courses (LRLC/SRLC). Requests for these courses should be relayed direct to the relevant CM via e-mail/telephone (not the CBC).

c. CMs' access to the CBC is via a dedicated course booking form utilising standard e-mail or via telephone if required. The Separated Service Planning Tool (SSPT) is the primary tool for workforce coordinators in sea going units to book their personnel onto non-career courses. SSPT now provides a direct link between EWOs/DEPCOs and the CBC, thereby negating the need for separate Course Booking Forms to be sent to the WMO/CMs.

d. DEPCOs are to liaise closely with DOs and Line Managers to ensure all course bookings are reflected in individuals' Personal Employment Plan and that the Course Booking Cell is informed of cancellations with as much notice as possible in order to allow reallocation of spaces.

6114. Assignments to and from Ships Deployed

a. Normally, CMs will plan to assign individuals to avoid unnecessary air passage. There are, however, occasions when personnel have to join and leave despite the unit being deployed.

b. There may be occasions where COs wish to request a Closed Notice Period. Applications, which should be on a ‘whole unit’ basis and at least 6 months in advance, are to be made to DDPD in writing or by signal.

c. If an individual is assigned to join overseas and it becomes apparent that the joining date is not practicable and requires amendment, then the Receiving Unit is to inform DDPD by signal FAO relevant CM, with DPRC LONDON as information addressee, quoting full details of the individual concerned, including their Ready-to-Move (RTM) date.

d. Assignments of key personnel during an operational deployment may be subject to the constraints of the Core Team Concept (see Para 5950). CMs should liaise as required in order to satisfy the requirements of the Core Team. If an assignment does not comply with these requirements, it should be referred to the appropriate SO1 CM for OF3s and below, or Head of Career Management (Hd CM) for OF4s, for approval.

SECTION 3 - JOINING AND LEAVING

6115. Timings

a. **Officers' Joining.** Unless otherwise instructed, officers assigned to ships or shore establishments in the UK are to join by 0900 on the day promulgated on the AO; officers assigned to shore courses should refer to the relevant joining instructions for that establishment. Although convention has hitherto dictated that officers should normally join a new assignment on a Tuesday, the optimum day and date should be agreed with employing officers. For officers assigned, or joining ships deployed, frequency of flights and use of trooping flights should be taken into consideration when establishing the 'ready to move' date.

b. **Ratings Joining.** Unless otherwise instructed, ratings assigned to ships or shore establishments in the UK are to join by 0800 on the day promulgated on the AO; ratings assigned to shore courses should refer to the relevant joining instructions for that establishment.

c. **Overseas Joining.** Personnel selected for overseas assignment are expected to make their travel arrangements via the Global Admin Unit to meet the agreed joining date. More information on Overseas Assignments may be found at Para 5911.

d. **Personnel Leaving.** Personnel are to be sent on leave, to next assignment or both after a satisfactory turnover of duties. Training courses normally finish when an individual leaves the training establishment on cessation of instruction or examination.

e. **Medical Requirements.** Commanding Officers are to ensure a robust joining/leaving routine[1] is in place that specifically includes the requirement for all Officers/SRs/JRs to attend the Unit Medical Centre/Sickbay within 48 hrs of joining and no less than 14 days prior to leaving the Unit. Notwithstanding the above, it is an individual's responsibility to ensure that the joining/leaving routine is followed and that they are in date for all medical and dental requirements prior to leaving a unit.

6116. Leave on Assignment

All Leave matters are covered in JSP 760 which is the Authority. Before proceeding on leave following an assignment, personnel are to ensure that their CM has an up-to-date record of contact addresses and telephone numbers.

6117. Timing of Reliefs for Key Officers in Ships

a. The timing of the assignment of a relief for an officer in a ship depends on a variety of factors e.g. Core Team Concept, officer availability, timing of other reliefs and the wishes of the Commanding Officer.

[1] BR9600 Ch5 0504

b. Subject to consideration of these factors, CMs should work to the following guidelines:

(1) **Commanding Officer.** A Commanding Officer's relief should join during a suitable break in the operational tempo of the unit and ideally prior to any period of FOST training.

(2) **Executive Officer.** For ships in a refit period, the new XO should join no later than 3 months before Ship's Staff Move Onboard (SSMOB) date. Ships in build will normally require the XO to join 46 weeks before the acceptance date/contractor sea trials. In the case of operational units, the timing of the Executive Officer's handover should follow the same guidance as that for Commanding Officers. There will obviously need to be close dialogue between respective Career Managers to ensure that there is limited impact on a unit's OC.

(3) **Heads of Department.** Reliefs should preferably join well clear of key dates of refit, trials and OST. MEO and WEO should not be relieved at the same time. Again, in the interests of the ship's OC, it is preferable that HoDs join prior to OST.

6118. Turnovers

Unless otherwise specified by the Unit Establishment List in JPA, the planned time for turnovers should not exceed 4 working days for officers and senior rates and 2 working days for junior rates. In all cases, the costs of turnover should be borne by the employer. Extended turnover periods can only be authorised by DDPD. Authorised extended turnover periods are shown in calendar days in the Miscellaneous/UIN column of JPA. Turnovers recommended in the Notes or Job Remarks do not generate a personnel liability uplift and therefore should not be actioned.

SECTION 4 - SPECIAL CASES

6119. Through Assignments

a. Individuals may be 'Through Assigned' from one ship/submarine or unit to another to complete their sea service when, for example, a ship/submarine decommissions, changes to shore service or goes into refit. Personnel can also be through assigned to complete their training or gain professional qualifications. See Para 5943.a(3)(b) for Assigning Notice for Through Assignments.

b. 'Through Assignees' may be unable to take any leave between assignments. Outstanding leave is to be carried forward to the second (or subsequent) ship/submarine and granted on completion of sea service but within the current leave entitlement.

6120. Exchange/Swap Assignments (Ratings/RMOR)

a. Ratings may be allowed to exchange or swap assignments if there is no appreciable loss of operational capability and the exchange or swap does not lead to wasteful or unfair assigning. A rating who reaches the top of the sea roster cannot, by finding another to take the assignment, defer liability for sea service. Even if an exchange or swap were approved, the rating would remain liable for the next sea assignment. A rating on sea service will not be permitted to exchange assignments with a rating on shore service. RMOR exchanges should be with another individual of the same substantive rank and SQ if applicable.

b. Ratings/RMOR seeking to exchange or swap their assignments should normally:

(1) Be on or due the same type of service;

(2) Have similar time to serve in their current assignment;

(3) Be of the same rate; and

(4) Be of similar levels of experience.

c. **Procedure - Non-Squadded Rates/RMOR.** Where ratings/RMOR are in positions which they wish to exchange, both are to notify their respective Line Managers. The ratings'/RMORs' line managers are to e-mail the CM giving details of the ship/submarine/unit, the names of ratings/RMOR who wish to exchange and indicate an agreed date for the exchange to take place. Approval by both COs and CM is required. If the criteria at Para 6119. sub para b above are met and all parties agree with the exchange, then AOs will be issued.

d. **Squadded Rates.** The procedure for swap drafts for ratings within a squad is at SSDIs Article 4.18.

6121. Final Tour of Duty (FTOD)

The Final Tour of Duty (FTOD) provision is to assist eligible Service personnel in their final tour of duty who are not in the geographical area in which they have formally expressed a preference to serve, with meeting the costs of settling themselves and/or their immediate family at a Selected Place of Residence (SPR) in the UK. JSP 752 Chapter 12, Section 5 provides comprehensive guidance on this subject and highlights the requirement that all Naval personnel wishing to express a preference for a FTOD location must do so formally using JPA Form F024.

ANNEX 61A

NOTIFICATION OF ASSIGNMENT INTENT

1. The notification format below is to be used by a Career Manager when assigning action for a permanent assignment on completion of a course (or other short assignment) cannot be taken officially at the stage that the individual wishes to move, even though their subsequent assignment is known. It is to be used with great discretion as, on the basis of this letter, individuals may be able to claim several thousands of pounds or enter into legal obligations which would be hard to break if, subsequently, they were assigned elsewhere. The letter **must not** be used for personnel undergoing basic training courses until such time that their continuation in Service can be guaranteed. It is recommended that this letter be used only following a specific request from the individual concerned. The letter must be based on definite assigning plans; hence the wording in Para 1 of the letter is 'will be assigned' rather than 'the intention is to assign'

2. Format of letter giving notification of assignment intention

Area Manager/DHE

NOTIFICATION OF ASSIGNMENT – [*ASSIGNEE NAME AND SERVICE NUMBER*]

Reference:

A. JSP 752

1. The above named individual, currently serving in ……. (**unit or type of training**), will be assigned to .....(**unit**) for ……. (**type of duties**) for a period of ……. commencing …….(**date**).

2. Formal assigning action will be taken in due course. Meanwhile, this letter may be used as the necessary authority for the payment of any relocation benefits in accordance with Reference A.

CHAPTER 62

PROFESSIONS AND SPECIALISATIONS MANAGEMENT AND STRUCTURES

6201. Organisation

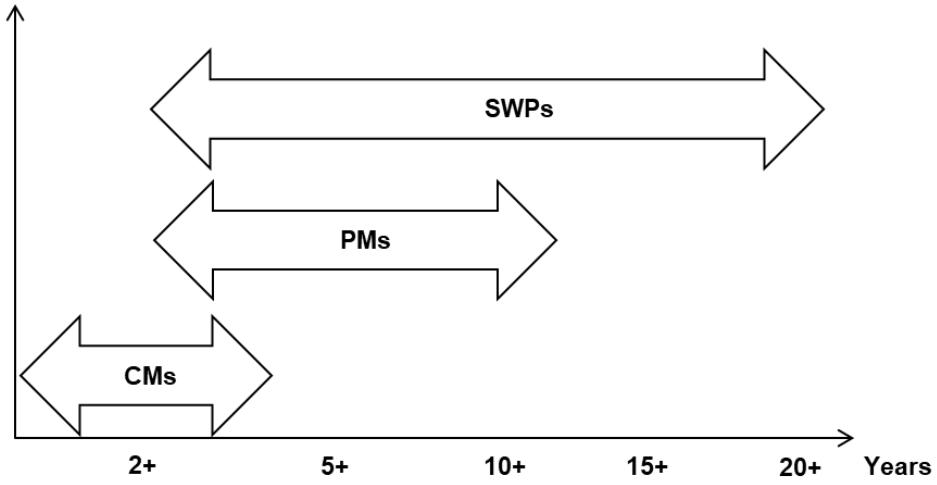
The management and structural control of Professions and Specialisations is the responsibility of Hd Professions Management (Hd PM), who reports to Deputy Director People Strategy (DDPS), and thereafter to Dir P&T/NavSec. Professions Managers (PMs) are responsible for ensuring that each Profession and Specialisation is carefully managed so that sufficient personnel are available to meet the current Live Workforce Requirement (WFR) (see Para 0303) and that the military workforce is grown to meet the Planning Liability (PL) (see Para 0304). The primary purpose of PMs is to develop, maintain and monitor the implementation of plans and policies for the management of personnel within the Professions/Specialisations for which they are responsible. In order to do this effectively they require a thorough and detailed knowledge of their portion of the total WFR, the PL, their professions strategy and strength.

a. PMs provide advice to Career Managers (CMs) on professions and specialisation structure matters. They also play a key role in the management of the strategic function of RN workforce management and thus work closely with the Strategic Workforce Planners (SWPs).

b. SWPs take a longer look at the WFR, focussing specifically on demand and supply, out to 20 years plus and have the overarching role of consolidating PM requirements to support workforce modelling and longer term workforce planning (Chapter 3).

c. CMs (Chapter 58), focus on the assignment and management of people to meet the current and future WFR. PMs overlap the CM and SWP areas as depicted pictorially below. Whilst PMs do not career manage personnel in the same way as CMs, they directly support short term tactical and longer-term strategic outputs associated with people capability:

Figure 62-1. Workforce Planning Process Timeline



c. The overall responsibility for Professions Management for the Maritime Reserves lies with PM (Reserves). Personal administration functions, such as career management, mobilisations, EOS boards etc. are delivered by the Common Appointment and Maritimes Reserves Career Management team. Promotions and engagement/commission transfers boards are run by the Promotions Cell. Owing to the volunteer status of Reservists and their typical employment and training, Professions Management differs by necessity from that of the Regular Service. Each RNR Specialisation has a Specialist Adviser whose role is to manage the specialisation in accordance with current Planning Workforce Requirement (PWR). Specialist Advisers are also responsible for the development of individuals within the specialisation against an endorsed Training Matrix. The Common Appointment and Maritimes Reserves Career Management team assist in this process by acting as the liaison between RNR Units, PM and CMR to ensure that the correct Strength is maintained against the PWR. The exception to this is the RMR where, in the main, PM RM is responsible for maintaining the RMR structures.

6202. RN Workforce Principles

Workforce Requirement Management is underpinned by the following RN Workforce Principles:

a. **The Justification for Uniformed Personnel.** The justification for uniformed personnel is limited by financial constraint. In broad terms, posts should be complemented with civilians unless there is a demonstrable need for a Service incumbent for operational reasons or there are unacceptable implications for Service careers or professions structures. All uniformed RN personnel are therefore justified on one of the following grounds:

(1) **Sea Bill.** Those required for the maritime force to be deployed on peacetime military operations or exercise or during crisis e.g. in ships, submarines, front line air squadrons, RM Commando units, Naval Parties, seagoing staffs and Joint operational units.

(2) **Shore Bill.** The essential HQ and shore back-up to the maritime force (in theatre or remote) that is required to support operational capability, sustainability and other Service functions (including Margins and provision for Harmony). This also includes the uniformed RN elements of training, acquisition, logistical and technical support and HQ staffs. Examples are:

(a) Central and Naval staffs.

(b) PJHQ and other Joint and Tri-Service staffs.

(c) Navy Command HQ staff.

(d) DE&S units.

(e) Naval Bases, Air Stations and other shore support establishments.

(f) Recruiting and training establishments.

(g) Overseas HQ commitments, including NATO staffs.

b. **Workforce Priorities.** Due to demand exceeding supply across a number of specialisations, priority for workforce allocation is given to operational units and essential shore support functions; this provides CMs with a handrail to assist in deciding where they assign personnel to ensure the highest priory roles are filled and that conscious decisions can be made on what roles may need to be gapped due to shortages in supply. The Strategic Workforce Priorities List (SWPL) for the RN articulates the relative priority of output areas across all TLBs and is reviewed every 2 years by Strategic Workforce Planners and promulgated by DIN.

c. **Supply and Growth of the Workforce.** With a few notable exceptions, the skill and experience required of RN personnel demands that they be grown from the lowest level. Apart from some exceptions, all officers and ratings/ORs join 'at the bottom', within set age limits, and remain for as long as their commission or engagement allows, while progressing up the rank scale. Education and training is provided to satisfy the requirements of rank, specialisation and specific sea going Positions, and individual careers are managed so as to provide a broadening of experience within the rank and capability of each individual. This demands that each Specialisation is structured in a way that enough Positions are provided at lower ranks to provide personnel with the time, training and experience to move to the next higher rank, taking account of the inevitable loss of some people from the Service.

d. **Promotion to Requirement.** Officers and ratings/ORs are promoted or advanced to meet the WFR. Should the WFR change, so too will the numbers and specialisations of those required to be promoted or advanced. For both officers and ratings/ORs, the basis of promotion is selection on merit through a selection board process. Detail on promotions is at Part 8 of this BR.

6203. Terms and Conditions of Service

a. Terms of Service are essentially the agreement between the RN and an individual. They relate to career rights (e.g. length of service, commissions, engagements, career management, promotion and advancement, discharge rights and retirement) and are described in detail in the respective Chapters of BRd 3(1).

b. Conditions of Service equate to those working and living standards and guidelines set for the benefit of RN personnel. In particular, they address financial conditions such as pay, pensions and allowances and non-financial conditions such as leave, accommodation, lifelong learning, recreation, uniform, health and catering standards which can be changed by design or force of circumstances bearing in mind the possible effects on those serving and their subsequent behaviour. 2SL's Personnel Functional Standards (PFS) (see Chapter 22) refer to these and others. The responsibility for defining appropriate Conditions of Service rests with Hd PSP, who reports directly to DDPS.

6204. Harmony

a. Harmony for RN personnel is provided through measurement of individual Separated Service. This is a component of PFS, full details of which are at Chapter 22. Key points are as follows.

b. In order to provide equitable conditions of service throughout the RN, the time that individuals spend separated is measured and recorded. Separated Service is defined as “absence from normal place of duty or lack of freedom to enjoy leisure at the normal place of duty/residence at place of duty”. The Separated Service threshold is set at a cumulative total of 660 days in a rolling 3-year period and is the point at which mandated shore time must be applied, as managed by DDPD or, for personnel on Sea Service, the relevant Waterfront Organisation. Guidelines have been established for a position to be defined as Sea Service, which are principally that the post has a routine expectation for the incumbent to be separated for more than 122 days per annum. Further detail can be found in Chapter 59 and Para 5908.

Note. *Officers and RM personnel did not have Sea:Shore ratios but are now governed by the Separated Service threshold outlined above.*

6205. Mobility and Stability

While it is Navy Board policy that personnel should be able to exercise freedom of choice about where to live, workforce principles take account of the geographic distribution of sea and shore positions, aiming to ensure opportunities for a degree of family stability.

6206. Structures

‘Bottom-fed’ workforce structures, such as the single Services, tend to be broadly pyramidal in shape. People are needed to populate the lowest level, from whom enough can be retained and trained to be willing and capable for promotion or advancement to the next level. Empirical data and evidence derived from workforce planning models, including the Sustainable Experience Profiles (SEP), are used to produce bespoke structural ratios for each Specialisation. Indications of structural weakness include insufficient suitable personnel being presented to Promotion Boards, shortages at individual rank levels and excessive wastage. The requirement that can be sustained depends on a number of factors, including: average length of time in a rank; scope for ‘Sideways’ or ‘Direct’ Entry into the Specialisation; qualifications needed for the next higher rank; and wastage levels. 2SL recognises the need to modify personnel policy to reflect changes in the demand from employers, but also places constraints on the rate of structural change in order that policies and personnel Terms and Conditions of Service can be developed efficiently. If, through requirement change, tolerable adjustment of the workforce levers is insufficient to deliver sustainability, then structural change may be necessary.

a. Based on the ratios described above, PMs are required to manage the shape and size of their Specialisations. As a part of this work, they need to maintain:

(1) **Sustainable Structures.** Such that workforce for higher ranks can be “grown” from more junior levels. A sustainable structure is defined as:

"An enduring structure which, given recognised constraints and limitations, can maintain a coherent flow to match strength to requirement, with appropriate application of the available workforce levers

And,

Retains a degree of flexibility and resilience to cope with both internal and external change events as well as retaining the ability to grow and decay as required."

(2) **Acceptable Sea/Shore Balances.** Previous Sea:Shore ratios (MTA) no longer apply as a formal measure for any rating/OR/Officer categories, however, personnel are still entitled to a balance of employment between sea and ashore. Therefore, positions ashore must exist to provide the necessary shore service. This is achieved through the requirement for personnel to provide essential HQ and shore back-up to the maritime force, to support operational capability, sustainability and other Service functions.

(3) **Sufficient Donor Positions.** To meet planned Crisis workforce requirements. There is an enduring need for personnel to occupy positions that, in a Crisis, can be gapped to provide workforce to meet the Crisis requirements. Such 'Donor'" positions are maintained in sufficient numbers to meet foreseen requirements, broken down by Rank and Specialisation. Employers must provide their share of Donor Positions, as required by the PPO. DDPS monitors requirements for, and controls availability of, Donor Positions. Further detail on how Donor Positions are identified and managed can be found in Chapter 2, Annex 2D.

b. PMs provide advice, through SWPs, to assist DDPS in setting target numbers for the workforce regulators (promotions, changes of commission/ Engagement/Career etc.) for each Specialisation. As members of the following promotion/selection boards they ensure that personnel of the required standard are selected, within the target numbers that have been specified:

(1) Senior Upper Yardmen (SUY).

(2) Warrant Officers 1st Class (WO1).

(3) Warrant Officers 2nd Class (WO2).

(4) Chief Petty Officers.

(5) Petty Officers.

(6) Leading Hands.

(7) Extended Career (EC).

(8) Officer ICS to CCS and CCS to FCS transfers.

Note. *Royal Marine PM is not a routine member of equivalent boards (except the Extended Career Board).*

6207. Impact of Establishment Changes

a. As explained in Chapter 2, PMs scrutinise employers' proposals for changes to their Establishments that would affect the WFR. This process is known as 'Carding'. Early dialogue with the respective PM responsible for individual workforce categories will provide an indication of whether approval is likely to be straightforward, require more complex management, or will be challenged. Employers should always discuss their plans for organisational change with their respective TLB Workforce Manager or, in the case of Navy Command TLB, their respective Workforce Management Group and Military People Partner. It is clearly in everyone's interest that, to help their speedy endorsement and implementation, proposals for workforce change are aimed to attract approval by DDPS, while assisting with the maintenance of robust workforce structures.

b. Full details on the Establishment Amendment process can be found in Para 0204 sub para c and Annex 2E.

6208. Solving Structural Problems

a. Where difficulties in Professions and Specialisation structures are identified, a holistic approach - involving PMs, CMs and SWPs - is adopted to examine the problem through analysis of statistical data and use of workforce modelling techniques. From the results, it is possible to determine the action necessary to restore the Specialisation to long term stability. Whilst short-term workforce problems should not be allowed to affect the search for a long-term solution, sometimes these measures, such as Financial Retention Incentives, are required in order to stabilise the Specialisation whilst longer term measures are implemented and take effect. An initial procedure is to identify/confirm whether:

(1) The sea requirement is correctly specified.

(2) The shore requirement is correctly specified.

(3) The margins have been correctly calculated.

(4) There are sufficient Positions to fill Crisis Donor Billets.

(5) The requirement can be modified to re-satisfy the following criteria in priority order:

(a) There is a sound Specialisation structure.

(b) There is an acceptable sea/shore balance.

(c) Career progression for the individual is facilitated.

b. If all the above criteria are met, and modelling suggests that a sustainable structure would not be achieved, then further action may be required. PMs should then identify and advise on, or initiate, any necessary corrective action, which may require further studies to be conducted. Substantial change may require staffing up to and approval by the Navy Board.

c. There are marked structural imbalances in both the officer and rating/OR cadres that are unsustainable; for officers, the structural imbalance starts at Lt Cdr/Maj and for ratings at PO/Sgt. The PPO will look favourably at changes that seek to address such imbalances.

d. The Royal Marines 'Sea' requirement is defined as that for 3 Commando Brigade RM, Special Forces (SF), RM Assault Squadrons and other operational Positions. The 'Shore' requirement is all those elements of the Royal Marines Corps that comprise the RM support area. The RM does not use sea/shore ratios as a formal planning and deployment tool.

6209. Role Performance Standards

a. **Role Performance Statements.** The standards to be achieved by personnel at each rank are laid down in the Role Performance Statements (RPS) for each Specialisation. The ownership of RPS (JSP 822 Part 3, Chapter 2) lies jointly with the relevant Capability Team and PMs, as does the responsibility for ensuring that the RPS remain current. PMs, as the custodians of sustainable, populated and trained workforce structures, may seek reviews of the RPS by the end users if requirements change eg. if the resultant demand is likely to be unsustainable.

6210. Competences

Within the JPA environment a Competence is defined as:

"Any measurable behaviour required by an organisation, job or position that a person may demonstrate in the work context. A competence can be a piece of knowledge, a skill or an attribute".

a. The key references for the naming and use of Competences within JPA are:

(1) JSP 754 (Tri-Service Regulations for Pay and Charges).

(2) JSP 758 (Tri-Service Regulations for the Naming of Training Courses) (through its linkage with the Competences that may be awarded on completion of a course).

(3) JSP 794 (Policy for Administration of Personal and Professional Development (AP&PD) on JPA).

b. **Competence Sponsors.** The Competence pre-requisites for each Position are listed in JPA. Ownership of these Competences, in common with RPS, is held by the Capability Owner but their sponsorship and maintenance is the responsibility of the key Subject Matter Expert. In most cases, and notably for Professions-specific Competences, the respective PM is the Sponsor. The identity of the Sponsor is recorded in JPA against each competence.

c. **Competences and Pay.** Accurate and timely provision and recording of certain competences is vital, due to their effect on pay. PMs can set Pay Bar Qualification Points (QPs) which can affect Yearly Incremental Progression (YIP) if authorised by the Navy Pay 'Colonel'. These are tools to fine tune Professions and Specialisations structures. In addition, some competences directly affect pay, notably in awarding Recruitment Retention Pay (RRP). Details of the competences concerned may be found in the following Chapters of JSP 754 (Tri-Service Regulations for Pay and Charges): QPs in Chapter 3; Recruitment Retention Pay in Chapter 6.

d. **Competence Control.** JSP 794 and the JPA on-line Business Process Guides describe the process for control of competences, including their creation, maintenance, amendment and end-dating. (Competences are never deleted from JPA, but end-dating makes them unusable for awarding to personnel or as a requirement placed against a Position.) Personnel seeking the creation or change to a competence should follow the JSP and on-line instructions. The authority for making such changes in JPA rests with designated Competence Controllers; for the RN these are the Professions Management WOs and WO Coherence.

e. **Awarding and End Dating Competences in an Individual's Service Record.** This function is conducted in JPA by designated personnel with the JPA responsibility of Course Administrator. The process for seeking and making such awards is laid down in JSP 794.

CHAPTER 63

SECURITY VETTING POLICY

SECTION 1 - PERSONNEL SECURITY VETTING

6301. Introduction

a. The Defence Manual of Security - JSP 440 emphasises the need for a systematic vetting regime to manage the issue and withdrawal of national security clearances and to facilitate effective security risk management. The following Sections outline the principles and procedures that govern security vetting within the Royal Navy to enable those personnel employed in security, recruitment and manning roles to manage vetting risks and issues efficiently and effectively.

b. Security vetting does not, on its own, provide a guarantee of an individual's integrity and trustworthiness. Since both individuals and their circumstances change, a security clearance is only as good as the background records and investigations on which it is based at the time the review process is carried out. It is therefore essential that personnel security continues after initial clearance is approved and that any new information or concerns that may affect the reliability of a person are brought promptly to the attention of the Command Chain and Navy Command (NC) Security authorities. This is achieved through a combination of aftercare and security review procedures.

c. Our vetting regime is to be guided by four key principles of transparency, proportionality, confidentiality and timeliness. Personnel subject to vetting action that could affect their employability will be fully engaged with the vetting process and have the right to appeal against any decisions. The vetting process is never to be used as an alternative means of dismissing personal from the Service where other administrative or disciplinary action is more appropriate.

6302. Content

Navy Command security vetting policy outlined in the following Sections provide practical direction to personnel. Section 2 articulates the requirement for security vetting within the Royal Navy and explains the key vetting principles. Section 3 details responsibility for the granting or Denial of security clearances and residency waivers. Section 4 covers additional personnel security checks or screenings required for certain appointments. Section 4 covers additional personnel security checks or screenings required for certain appointments. Section 5 covers the need and mechanisms used for monitoring (Aftercare) of individuals post award of a security clearance, outlining the adverse vetting assessment procedures that at worst could ultimately result in Withdrawal. Section 6 details responsibilities and procedures relating to appeals against vetting decisions, e.g. Denial and/or Withdrawal of security clearance. Finally, Section 7 specifies the roles and responsibilities of individuals and the Chain of Command in ensuring that vetting procedures are carried out expeditiously and in a way that allows them to enable rather than constrain the delivery of maritime power.

6303. Scope

The security vetting principles and procedures detailed in this policy instruction apply to regular and reserve personnel serving in the ‘whole force’ Royal Navy, including Reserve Forces and Royal Fleet Auxiliary or as adult staff members of the Sea or Royal Marine Cadet Organisations.

SECTION 2 - SECURITY VETTING PROCEDURES WITHIN THE ROYAL NAVY: REQUIREMENTS, RESPONSBILITIES AND PRINCIPLES

6304. Security Vetting - The Royal Navy Requirement

a. In recognition of the operational needs of the Royal Navy, the technical sophistication of its platforms and equipment and the unpredictability of future maritime tasks, all Royal Navy personnel are security vetted to a minimum of Security Check (SC) level initially granted for a maximum 10 year duration. However, personnel filling certain appointments where there is a need for frequent unsupervised access to Top Secret (TS) information may require a higher level of clearance, specifically Developed Vetting (DV) which, on award will be valid for 7 years. A further Enhanced DV (EDV) level of assurance , granted for 5 years was introduced in 2014 for some specific and highly sensitive posts, for example related to Defence Intelligence and Nuclear business. SC, DV and EDV comprise a system of security clearances that contribute to the maintenance of effective personnel security in the Royal Navy. The administration and implementation of this system must be governed and enacted in a manner which is robust, transparent, equitable and confidential, and coherent with the processes employed by United Kingdom Security Vetting (UKSV).

b. Counter Terrorist Checks (CTC) security clearances for the University Royal Navy Units (URNU) are sponsored by the relevant units and processed and issued by UKSV in accordance with Cabinet Office (CO)/MOD Personnel Security policy supplemented (where appropriate) by Navy specific policy or procedural requirements detailed in this Chapter. Procedures for the granting of security clearances and waivers, e.g. relating to UK residency, are detailed at Section 3.

c. Individuals have a responsibility for maintaining the appropriate level of security clearance and failure to fulfil this obligation may have an adverse effect on a service person’s role, responsibility, employment and ultimately military operations.

d. From 8 Apr 24, ALL security clearances for service personnel currently employed will be applied for by Career Managers (CMs) via SCIO, which will draw on information contained within JPA. CMs are to ensure that they have access to, and understand the process for, creating SYVETT security clearance applications via the Career Manager App on SCIO. Replacing the SYVETT word document applications, the App will allow CMs to create an e-form clearance application. This process change will greatly increase the efficiency in the processing of applications as the need for emailed application forms will be removed.

e. To support this process all RN serving personnel are reminded to check JPA at least annually that their security clearance is in-date, as well as their personal details, including their place of birth. If no SC and/or DV security clearance is shown (noting that those holding a DV clearance do not require a separate SC) in the Competency Record the security clearance has either expired or not been updated by NSVS. If personnel are concerned about their security clearance status, or they find that their clearance has expired, they are to contact their CM who will ensure that the JPA record is corrected or facilitate a re-application process for the security clearance.

6305. Developed Vetting

While the entry-level vetting requirement of SC for the Royal Navy can be justified on the basis of operating environment, what is less certain is the justification of the requirement for DV which is considerably more costly and involves a greater degree of discretion in its application. Line Management is responsible for determining and thereafter periodically reviewing the justification for post holders require DV, the addition of which will be approved by Navy PSyA Vetting Decisions. However, in the face of ever increasing financial pressure on the MOD vetting budget there remains an ongoing requirement for the Chain of Command /Line Managers to rigorously revalidate the justification for posts to require DV at least annually. Where a JPA PID has been confirmed/designated as requiring DV Competency it is incumbent on the CM/CoC/LM to ensure that appointees hold extant DV clearance on arrival in post, or failing this, that a DV review is in-hand with SYVETT/UKSV. Similarly it is the responsibility of the postholder and LM to ensure extant DV clearance is maintained throughout the duration of the appointment. Until such time that valid DV clearance is held the Subject and LM will receive periodic auto-generated e-mails from JPA outlining the action to be taken to redress. If for any reason the postholder is to remain in DV post without valid DV clearance a Risk Balance Case (RBC) must be raised and submitted outlining how the security risk will be mitigated. Failure to do so may result in the DV Competency requirement being arbitrarily removed from the JPA PID.

6306. Aftercare

a. Security vetting on its own does not provide a guarantee of an individual's enduring trustworthiness, integrity and reliability as individual circumstances and behaviours may change over time. It is fundamentally important that personnel security measures continue after a security clearance is granted to allow new information to be collated, analysed and acted upon by the security vetting authorities. The responsibility for raising and sharing this information lies with both the Subject and their line management and is achieved primarily through the Change in Personal Circumstances Questionnaire (CPC), Security Appraisal Form (SAF) and Aftercare Incident Report (AIR) processes. Where a CPC, SAF or AIR bring into doubt the suitability of an individual to hold (or to continue to hold) a security clearance, management procedures may be initiated.

b. Where such concerns have been raised, the Subject will be advised accordingly by UKSV and/or PSyA Personnel Security (Pers Sy) staff and afforded appropriate opportunity to respond/address the issue(s). Depending upon the seriousness of the concern (s), PSyA Pers Sy advice could take the form of an advisory telephone call or email through to a face-to-face interview coupled with directed written advice, usually in the form of a Formal Security Warning (FSW). It may also be necessary to initiate appropriate vetting aftercare arrangements. If this level of intervention and monitoring fails to resolve security concerns, it may become necessary for PSyA Pers Sy staff to consider (where appropriate, in consultation with UKSV) suspension or withdrawal of an individual's existing security clearance. Further information regarding adverse assessment procedures, and aftercare are provided in Section 4.

6307. Security Vetting - Personal Responsibility

Individuals have a responsibility for maintaining the appropriate level of security clearance and failure to fulfil this obligation may have an adverse effect on a subject's role, responsibilities, employment and ultimately military operations. Prior to expiry of SC/DV security clearance subjects will receive an auto-generated e-mail reminder from JPA to apply for a review of their security clearance. Reminders (copied to LM) will continue to be received monthly until security clearance has been reconfirmed by UKSV and extant details updated in JPA. The vetting system is not configured to handle frequent and numerous requests for timeline extensions or waivers. To support this process all Royal Navy personnel must ensure that they supply information requested by vetting authorities as honestly and expeditiously as possible, whether their role in the system is as a subject, a line manager/commander or as a referee. It should be noted that failure to comply with a request for further information will be taken as confirmation of a security concern and therefore could result in denial or immediate suspension or withdrawal of an individual's existing clearance. Additionally, line management and Security Risk Managers must be mindful of the security risk posed by vetting apathy and be prepared to support vetting endeavours, initiatives and where necessary formal security action. More detailed responsibilities can be found at Section 7.

6308. Principle 1 - Transparency

a. The effectiveness of security vetting procedures and security clearances depends upon open and honest communication between all individuals and/or organisations involved in the vetting process (subject to the need to maintain vetting confidentiality).

b. All of the processes[1] associated with security vetting are open, auditable and transparent and will be enacted in accordance with principles and procedures laid down in this Directive and JSP 440. PSyA Pers Sy/SYVETT staff and Establishment/Unit Security Officers (E/USOs) can provide further information regarding security clearance and vetting procedures on request.

c. As explained further in Section 5, those who are to be subjected to scheduled Aftercare following review of their security clearance and/or adverse assessment procedures which could potentially lead to Denial or Withdrawal of security clearance, will be informed in writing. Advice on how the security vetting system works and the potential ramifications of such action can be sought from PSyA Pers Sy staff. The only exception will be cases in which it is deemed appropriate to withhold notification to the Subject for national security reasons; this decision rests with Navy PSyA and will be auditable.

d. In Service personnel/Vetting Subjects may appeal against a decision to deny or withdraw security clearance. The security vetting system within the Royal Navy allows for internal appeal through the Navy Vetting Appeal Panel (NVAP) and thereafter, if the NVAP decision has been upheld and the appellant's appeal rejected, through the external route, the Security Vetting Appeals Panel (SVAP). Personnel not yet employed have no right of appeal through the NVAP or SVAP.

[1] This does not include information specific to individuals which remains vetting-in-confidence at all times.

6309. Principle 2 – Proportionality

Security vetting procedures provide assurances regarding the trustworthiness, integrity and reliability of serving (or potential) Royal Navy personnel and also assist security risk management reporting. However, any adverse assessment procedures or aftercare programmes will be applied proportionately to ensure they are legitimate and strictly to a level required to protect sensitive information and critical assets.

6310. Principle 3 - Confidentiality

a. The principle of vetting confidentiality will be applied in respect of all vetting casework. This principle dictates that vetting information is to be handled in a way that does not normally involve its disclosure outside the security community and that it is treated on a strict need-to-know basis. Occasions will, however, arise where effective security risk management necessitates the release of vetting information outside the appropriate security staffs. Such circumstances will be dealt with by PSyA Pers Sy staff on a case-by-case basis and the need-to-know principle will be strictly enforced in respect of any information that is released, thus maintaining an appropriate balance between confidentiality and security risk management/ operational imperatives. Information to which vetting confidentiality applies will only be reported by PSyA Pers Sy staff to the Chain of Command where there is a clear concern that a serious criminal offence (such as espionage) has been committed, or there has been a compromise to Defence capabilities or operations. In all such cases, the final decision to divulge information lies with Navy PSyA, who must balance the conflicting interests of confidentiality against disclosure on a case-by-case basis. Again, such a decision must be wholly justifiable and auditable, demonstrating that the correct balance has been achieved and that the credibility of the vetting system has not been undermined.

b. Appropriate measures are always to be taken to protect the confidentiality of security vetting information in transit. All vetting files and correspondence are to receive appropriate protective markings and descriptors (minimum of 'OFFICIAL SENSITIVE PERSONAL', with Handling Instruction 'Vetting-In-Confidence') and are to be transported or transmitted commensurately. Copies are not to be retained of material e.g. security questionnaires that have been submitted to the UKSV by anyone other than the individual. Personnel seeking information relating to themselves can do so through Subject Access Request (SAR) directly through UKSV.

6311. Principle 4 – Timeliness

Timely interaction and engagement are particularly critical where there is a risk that delays will impinge upon operational capability. Responsibility lies with Vetting Subjects, Line Management, Career Managers and Sponsors of applications for national security vetting clearances(to ensure that unnecessary delays do not occur. Timeliness is also paramount during the appeals process to ensure that vetting decisions are prompt and cases do not become protracted causing undue pressure on both the Subject and the Service.

SECTION 3 - SECURITY CLEARANCES AND WAIVERS

6312. Authority

UKSV Personnel are authorised to grant security clearances for Service personnel assessed as Low Risk without recourse to Navy PSyA-Pers Sy. Otherwise the Navy PSyA-Pers Sy Vetting Team will decide and advise on the award or denial of a security clearance for all New Entrants and In-Service RN/RM personnel.

6313. Clearances

SC and DV clearances for all Royal Navy personnel, regardless of rank, are awarded by UKSV on the Service's behalf after first completion of the UK Government Baseline Personnel Security Standard (BPSS)[2]. However, for contentious cases, for example where there might be Nationality or Residency related issues or initial vetting checks reveal that the vetting candidate could potentially present one or more security concerns, e.g. has a criminal record or excessive financial liability, UKSV will refer the case to PSyA Pers Sy staff for a decision on whether or not a clearance should be granted, and if so whether any caveats or restrictions are to be put in place.

6314. Eligibility and Restrictions

JSP 440 Leaflet 2B provides specific criteria defining the eligibility of certain groups of individuals to hold a security clearance. Where operational circumstances require, waivers from the eligibility criteria may be granted as follows:

a. **Nationality Waivers.** Nationality in itself is not a bar to security clearance but for entry into the Naval Service a candidate must satisfy one of the nationality criteria[3] noting that applications from Dual Nationals of a Tier One Country, an extremely high risk of espionage activity occurring (formerly Countries to which Special Security Restrictions Apply (CSSRA) should not be entertained by RN Recruiters, e.g. R&A, as security clearance will NOT be granted. Similarly eligible Sole/Dual nationalities and personnel with close family living in Tier Two Countries, of which there is a high risk of espionage occurring, will be interviewed by UKSV in order to assess the security risk. Therefore, security clearance cannot be assumed.

b. In exceptional circumstances, a waiver of the recruitment eligibility criteria may be granted to candidates who are Commonwealth citizens or citizens of the Republic of Ireland (ROI) at the time of their application but were born outside the country of which they are now a citizen or have formerly held a different nationality. However, the residency requirements referred to below must also be met and where appropriate the former nationality may prohibit the granting of security clearance; cases are assessed on a case-by-case basis.

c. Some Branches/Specialisations are open to British citizens only as all personnel in these Branches/Specialisations are required to be cleared to DV and/or there is a significant likelihood that personnel will require access to STRAP material. Nevertheless, circumstances may arise where non-British nationals serving with the Royal Navy will require a security clearance from which they would normally be precluded (e.g. a non-British national recruited on the basis that they met the residency criteria for SC, but subsequently requiring a DV clearance)

[2] https://www.gov.uk/government/publications/government-baseline-personnel-security-standard
[3] Asylum Seekers are not eligible for entry into the Naval Service.

d. **Residency Waivers.** The residency criteria and supporting documentation required for recruits to the Naval Service are detailed at Annex 63A. A residency waiver will also be sought by UKSV where the criteria is not met by serving personnel In accordance with the Policy outlined in JSP 440 Leaflet 2B – Security Clearance and Vetting, Annex C. Authority to waive residency requirements at both SC and DV levels rests with Navy PSyA Pers Sy and will be assessed on a case-by-case basis.

e. **Restrictions.**

(1) Personnel under the age of 17 will be issued with a Security Check (SC) with Restrictions.

(2) Personnel under the age of 21. Navy PSYA Per Sy retains the authority to determine the validity period of personnel under the age of 21. A clearance may be awarded with a shorter validity period; however, cases will be assessed on a case-by-case basis.

(3) **Police Investigations/Prosecutions.** If it becomes apparent that an applicant for clearance is being investigated by the Police or has been charged with an offence that has yet to be considered in court, **for initial cases**, the vetting application should be withdrawn by the 'Sponsor' or cancelled by UKSV and submitted once the matter has been resolved. **For Review Cases** the clearance should be '**Suspended' or 'extended'** (depending on the nature of the investigation) until the matter has been resolved.

f. **Initial Clearance on Entry into Service.** Recruitment and Attraction will try to recruit with sufficient time for the security clearance process to be completed. Where this is not the case it may be possible to raise a Risk Balance Case (RBC), which will need to be signed off at 2* level. The RBC will set out how the recruit will be managed in Phase One training before their clearance is received. The individual will have submitted a completed security questionnaire to UKSV and progress with the application for security clearance.

g. **Nationality.** Entry to the RN Service and thus eligibility for security clearance is the responsibility of Recruitment and Attraction.[4]

6315. Reactivating, Transferring and Sharing Clearances

a. Some individuals joining/re-joining the Royal Navy, either as regular staff or as reservists, may have previously held a valid security clearance. All requests to reactivate a security clearance or to transfer it from another employer are to be submitted to UKSV by the 'new' employer within 12 months from the Service person's last day in the Service otherwise a new application for review of security clearance will be required. Note: Ex Regulars transferring to or re-entering the Reserves will NOT have any extant security clearance automatically transferred to their new employment.

[4] Nationality in vetting is further outlined in JSP 440 Leaflet 2B – Security Clearances and Vetting.

b. It is also possible for a security clearance to be shared, e.g. a security cleared MOD civilian or defence contractor may also be a member of the reserve forces, in which case their existing security clearance can be shared and utilised for both requirements.

c. All requests to reactivate a security clearance, transfer it from or share it with another employer are to be submitted on-line to UKSV via the NSVS portal by a registered NSVS Sponsor.

6316. Temporary Clearance Action

a. **SC Extensions.** Where SC has recently expired, providing a re-application for security clearance has been initiated with "NAVY PSYA –SYVETT GROUP MAILBOX (MULTIUSER)" it may be possible for a temporary extension of the existing or expired clearance to be arranged while the new application is being processed by UKSV. Each case will be assessed on merit. In instances where security clearance has not been held for a prolonged period, i.e. expiry date prohibits an extension, providing a re-application for security clearance is underway the vetting subject is to maintain through a Risk Balance Case (RBC) until such time as the Review has been concluded.

b. **DV Extensions.** Navy PSyA-Pers Sy/UKSV will only consider a temporary extension of DV clearance if all of the following criteria are satisfied:

(1) Previous DV has only recently expired.

(2) An on-line application for a DV review has been completed by the individual and submitted to UKSV.

c. NAVY PSyA-Pers Sy is the sole authority for the granting of **Emergency Unsupervised Access (EUA)** (access to TOP SECRET) to Navy Command personnel, and may grant to meet extreme operational requirements, predominantly in overseas theatres of operations, where:

(1) An on-line application for DV has been completed and accepted by UKSV (NSVS).

(2) Initial NSVS automated checks have been concluded.

(3) The receiving unit whose post requires the incumbent to hold DV clearance has completed a Risk Balanced Case (RBC)[5] and implemented appropriate mitigation to reduce security risk to an acceptable level.

(4) The unit RBC has been reviewed and assured by Navy PSyA.

d. STRAP access will be refused under an EUA.

[5] See NC Security Regulations Version 4 – 01 Oct 2023.

SECTION 4 – ADDITIONAL CHECKS UNDERTAKEN PRIOR TO APPOINTMENTS

6317. Loan/Local Foreign Service (LFS) Appointments

a. **Summary.** All Service personnel must be volunteers for Loan/Local Foreign Service (LFS). In addition reference should be made to Para 5911, Annex 59B, Annex 59B Appendix 1 and Annex 59C.

b. **Process.**

(1) Notwithstanding the fact that each single Service manages the selection of prospective LFS personnel differently, policy dictates that where there are local or cultural sensibilities some LFS posts require married accompanied service whilst others may be designated for unaccompanied service only. In addition some volunteers may not be deemed suitable due to the necessary consideration of factors such as the nationality of the volunteer or a close family member.

(2) Navy PSYA will determine if the LFS Assignment is not tenable at an early stage, however, this may not necessarily occur until award of security clearance review, e.g. information might not come to light until the end of a Security Vetting process. A Security Clearance may be awarded for the Volunteer but this does not necessarily mean that the Volunteer is suitable for the LFS Assignment.

c. **Assigning Principles.**

(1) The Assigning Principles for Loan Foreign Service for the RN/RM are contained in Chapter 59. It is essential that before a nomination is made and an Assignment Order approved NAVY PSYA (VETTING POSTINGS)is consulted at the earliest opportunity through NAVYPSYA-PERSONNELSECURITYGRP@mod.gov.uk to enable suitability from a security perspective to be ascertained. Details required are as follows:

Volunteer Name.
Service Number.
Proposed Assignment Location and JPAN.
Proposed Dates.
DV/SC security clearance requirement.

(2) Early engagement with Navy PSYA will assist in highlighting significant factors which would greatly decrease a volunteer's expectations for an Approved Assignment. Appendix 1 to Annex 59B outlines the reasons for non-recommendation for LFS. This list is not exhaustive. If a Volunteer is deemed unsuitable, the relevant Career Management organisation will be informed by Navy PSYA but not of the reasons why, however, if the Volunteer wishes to know the reason for non-recommendation, they are to request this through NAVY PSYA-VETTING POSTINGS. There is no appeals procedure for non-recommendation of LFS.

(3) If Navy PSYA is content for the LFS assignment to proceed, the security clearances required for the appointment will also be assessed and advised (for the whole of the assignment). It should be noted, however, that UKSV Vetting Officers do not travel and if a telephone interview is not an option it can be costly for personnel to return to UK for Vetting Interviews, potentially causing an un-necessary burden to the new unit.

6318. International Loan/Exchange Personnel - Security Clearance

a. JSP 440 (Part 2, Leaflet 7, Paragraph 173) highlights the key considerations to be taken into account before the establishment of an Exchange, Loan or Embedded post at Defence Establishments, including HM Ships. In particular, appropriate consultation must be undertaken to determine the suitability of permitting foreign nationals in such positions, not only from the aspect of access to UK classified information but also the requirement to prevent access to particularly sensitive areas and to classified information provided to the UK MoD by international partners (i.e. Five Eyes) which must not be accessed by Exchange, Loan or Embedded personnel unless prior written approval of the partner/country owning the information is held.

b. The appointment of an Exchange, Loan or Embedded person should normally be formalised following the negotiation of a Memorandum of Understanding or similar Arrangement which, amongst other aspects, should detail the security clearance requirements for the appointment. Prior to assignment of the Exchange, Loan or Embedded personnel, the relevant Career Manager is to ensure that a Security Clearance certificate for the individual concerned is provided by the individual's parent government department to the MoD host.

6319. Security - Partners Across Government (PAG) Screening

a. PAG reserve the right to undertake additional Personnel Screening for JPA positions that will necessitate access to their `assets' (systems). Such positions will/should be identifiable by the PAG Competency requirement attached to the JPA Position Competency: Security|PAG Screening JPAN|Joint|. It is the unit/Establishment's responsibility to ensure that the JPA Competence is 'pinned' to the position as a 'marker', annotating that additional security screening is required by PAG. PAG retain the right to refuse to screen if the relevant competence is not pinned to the JPA position. It should also be noted that PAG screening is to be undertaken for all relevant assignments. It must not be assumed an individual cleared for one appointment requiring access will automatically qualify for another without further screening.

b. **Process.** Where Careers Managers/Line Managers/Importing Units see the Competency Security|PAG Screening JPAN|Joint annotated on JPA and there is a requirement for PAG Screening the following actions are to be taken:

(1) Notify NAVY PSYA-VETTING POSTINGS on assigning through NAVYPSYA-PERSONNELSECURITYGRP@mod.gov.uk to signpost that PAG Screening will be required for a proposed assignment. PAG screening is a complex business and sometimes needs further consultation, therefore a minimum of 5 months -notice needs to be given before assignment dates in order to facilitate the request noting that a valid DV is pre-condition.

Details required as follows:

Name.
Service Number.
JPA Position that requires PAG screening.
Proposed Assignment dates.
DV Security dates.

(2) Nominee to raise a Security Appraisal Form (SAF) (if one has not been produced within the last 12 months) and send to NAVY PSYA-VETTING POSTINGS through NAVYPSYA-PERSONNELSECURITYGRP@mod.gov.uk.

(3) Extant DV Security Clearance MUST not exceed a 7 year Clearance for screening to occur. Personnel with a DV Clearance over 7 years will automatically be rejected by NAVY PSYA-VETTING POSTINGS resulting in a delayed assignment (PAG screening will not be entertained until a DV review has been undertaken and clearance awarded).

(4) Delays to assignments may occur if this process is not met in full.

c. **Screening Success.** On success of the PAG Screening NAVY PSYA-VETTING POSTINGS will notify Career Managers/Line Managers to enable an Approved Assignment Order to be raised. Career Managers are advised not to second guess the outcome as the fact an individual holds a valid DV does not indicate or dictate PAG will accept any potential risk.

d. If PAG deny access to their assets; the Service Person (SP) will be informed through their Chain of Command of the denial. The reason for the denial will not be informed. There is ‘no Appeal’ route for PAG denial..

6320. SAP/SPECAP

(Intentionally Blank)

6321. STRAP and Nationality

a. Where nationality in vetting[6] is identified, a security Pressure brief may on occasion be issued by Navy PSYA Per Sy to RN personnel via their Unit Security Officer (USO) or Chain of Command signposting the nationalities in vetting and the security briefing actions required.

b. Additionally where nationality in vetting is identified and RN personnel are holders of a DV security clearance/EDV assurance and require access to STRAP; there may also be a requirement to issue an individual with a STRAP and Nationality letter outlining compliance with STRAP and assurance requirements.[7]

c. An Assignment Restriction will be added to JPA in such cases signposting the relevant Career Manager to the Process.

(1) The Career Manager is to initiate 'Application for Access to STRAP' ('Form 1'); completing the Sponsor Section.

(2) Forward 'Form 1' to the Service person being assigned to the STRAP assignment.

(3) On completion, the 'Form 1' is to be forwarded to the Corporate STRAPSO.

(4) If the STRAP Authorities approve the assignment, an Assignment Order can be released (not before).

[7] JSP 440 Part 2 V7.0 Leaflet 4G – Special Information Control Systems (Inc STRAP)

SECTION 5 - VETTING MANAGEMENT AND DECISION MAKING

6322. Continuous Vetting Management

Security vetting on its own does not provide a guarantee of an individual's enduring trustworthiness, integrity and reliability as individual circumstances and behaviours may change over time. It is therefore fundamental that Commands and personnel ensure that personnel security measures continue after a security clearance has been granted. This enables clearances to be updated depending on circumstances, allows new information to be collated, analysed and then, if necessary, acted upon by the security vetting authorities. The main processes for maintaining personnel security oversight include:

a. Change of Personal Circumstances (CPC) forms.

b. Security Appraisal Forms (SAF).

c. Aftercare Incident Reports (AIR).

d. Financial Questionnaires.

6323. Vetting Decision Making

a. Capt PSYA is the authority for RN vetting decisions. This is delegated to the PSYA Vetting Team. The types of vetting decisions and the persons authorised to make these decisions are included in the tables below. The RN PSYA's vetting decision makers work collaboratively. Vetting cases are referred to RN PSYA by United Kingdom Vetting Services (UKSV). All National Security Vetting decisions are assessed using the personnel security guidelines contained in the Cabinet Office Policy Framework.

b. Vetting decisions include:

Denial	Refusal to grant a clearance, either on recruitment or in-service.
Suspension	A temporary measure, where the clearance is placed in abeyance to enable an investigation and/or administrative action to be concluded/completed.
Withdrawal	Removal of a clearance previously granted. The decision maker should consider both vetting information and the requirements of the assignment. General knowledge of the requirements of most assignments within the RN is vested within NC PSyA (Capt and COS) so wider consultation with DACOS CM or other personnel is not a pre-requisite but may be necessary or appropriate.
Lapsing	When an employee no longer requires a clearance to conduct their duties. If required, lapsed clearances may be re-instated within one year of being lapsed subject to the clearance being extant (i.e. within date and not time expired)
Loan Foreign Service/Local Foreign Service	Under the Assigning Principles for LFS before a nomination is made and an Assignment Order is approved, Navy PSyA is consulted at the earliest opportunity by CMs to enable suitability from a personnel security perspective to be ascertained.

c. Vetting Decision Matrix.

SER	DECISION	PERSON	AUTHORITY	FIRST APPEAL
1	Cancellation of SC/DV Application[8]	On recruitment – all	Band D Vetting Team	NA
2	Denial of SC, Recruitment /Re-Entry/FTRS	OR2 – OF3	SO2 Vetting TL	NA

34	Issue Formal Security (Drugs Misuse) Warning	ALL	SO1 Decisions	NA

d. Outcomes of Continuous Vetting Management Where there are concerns that an individual's[11] behaviour or lifestyle may impact on their suitability to retain a security clearance, UKSV will notify Navy PSyA through PSyA Pers Sy staff. Following further investigation, if UKSV's concerns are justified then PSyA Pers Sy staff will initiate appropriate action which in the majority of cases will result in individuals being notified of the concerns raised. Normally the Subject will already be aware, for example having previously been advised in writing by UKSV of the need for further reviews. However, if the concerns were new, the Subject would be informed either by telephone call, letter or face-to-face interview depending upon the seriousness of the matters at issue; this ensures the Subject understands why their behaviour is causing concern and the potential ramifications. Where appropriate, the Subject may be informed that they will be subject to a further aftercare review after a set period of time[12] in order to ensure that appropriate progress is being made. If the reviews indicate that the Subject is not heeding advice then review frequency may be increased or the matter escalated further by PSyA Pers Sy staff. Throughout this advisory process the principles of transparency, proportionality and vetting confidentiality will be rigorously applied. Completed SAFs, CPCs and AIRs which raise security concerns will be referred by UKSV to PSYA vetting for a decision. To enable a diligent decision, PSYA might task UKSV to interview personnel. UKSV then complete the interview, assess the case and make recommendations to PSYA, as the decision-making authority for RN personnel. The decision options are as per the Vetting Decision Matrix.

e. **Formal Security Warning (FSW).** A useful risk management tool is the use of a Formal Security Warning (FSW). The issue of a FSW affords an individual the opportunity to retain the relevant security clearance and a final chance to resolve the vetting concerns; rather than having a security clearance withdrawn.

[10] Initiation of Establishment of the Facts (EOF) – A process owned by United Kingdom Security Vetting (UKSV) to consider denial of a security clearance.
[11] To whom this Directive applies.
[12] Time period to be set by NC PSyA Pers Sy staff and usually ranges between 12 and 24 months.

(1) The FSW process is administered by the vetting team. A FSW can be delivered face to face by Capt PSYA, the preferred option, or occasionally delegated to COs. Improvement in behaviours is expected and the subject is likely to be interviewed thereafter by UKSV to confirm this. Should behaviours not have improved, then the option of security clearance withdrawal remains. The FSW will make this expectation very clear.

(2) Following the delivery of an FSW, in providing a Subject with any written correspondence detailing why their behaviour is causing concern and the potential ramifications, PSyA staff are to ensure that:

(a) The letter is to be signed and dated by the individual administering the advisory/FSW interview.

(b) The Subject is to also sign and date the letter to acknowledge receipt and that they understand its contents. The signature is normally to be obtained during the interview.

(c) In circumstances where the subject is overseas and can only be notified of security advice or issued with a FSW in writing, the subject is to return a signed and dated copy of the letter as soon as possible to acknowledge both receipt and that its contents have been understood.

f. **Formal Security (Drug Misuse) Warning.** PSYA can consider issuing a Formal Security (Drugs Misuse) Warning when misuse of substances is admitted in vetting, and submitting the clearance applicant onto the Individual Re-Test (IRT) list for five years[13]. This supports increased security risk management, may allow for the retention of SC security clearance in continuation and might reduce the time for re-application for a DV security clearance if ‘denied’ or ‘withdrawn’.

(1) The Drugs Misuse Warning is administered by the Vetting Team, under the authority of SO1 Vetting Decisions. Warnings can be delivered in person, however for efficiency they are usually delivered via email. The clearance applicant’s line management/Chain of Command are not informed.

(2) SO1 Vetting Decisions provides a name and service number only directly to the CDT WO1.

(3) The Drugs Misuse Warning cannot be appealed.

[13] JSP 835 Pt1 (V5.1 Jun 22) Ch 4 Para 7.d

6324. Suspension and Lapsing of a Security Clearance

a. The PSYA vetting team will consider the suspension of an individual's security clearance as a tool to mitigate personnel security risks that have been identified or alleged. This supports both risk mitigation and the subject to better manage the relevant issues, without prejudice. It provides space for UKSV to engage with the subject and analyse the case, and space for PSYA to make a decision knowing that the risks to both the Navy and subject have been sufficiently mitigated. The suspension decision cannot be appealed. Suspension is considered when, for example,

(1) A recommendation to withdraw that Subject's security clearance is being prepared.

(2) The Subject is being investigated for a serious criminal or disciplinary offence.[14]

(3) The Subject is the subject of administrative action which may lead to discharge.

(4) The Subject is due to be court-martialled.

(5) Subject is alleged to be involved in drug abuse.

(6) An AIR is received where the CO recommends suspension of a security clearance.

(7) A DV holder faces allegations concerning behaviours which if admitted would cause the DV to be considered for withdrawal.

(8) The Subject denies UKSV the opportunity to assess their suitability to hold a security clearance e.g. by repeatedly failing to provide adequate information about their circumstances.

(9) Other serious circumstances exist which require further enquiries or investigation.

b. The PSYA vetting team can consider lapsing a DV when the subject no longer requires one. This is a useful vetting tool when circumstances are such that a more up to date UKSV vetting interview would provide evidence for a diligent vetting decision as the subject heads into a new DV posting following at least a year away from a DV post. The decision to lapse cannot be appealed, and is made "without prejudice".

c. Where a clearance has been 'suspended' or the Service Person/vetting subject does not hold a National Security Clearance, they are to be risk managed through a Risk Balance Case (RBC).

[14] Para 6314 e. Restrictions - Police Investigations/Prosecutions, may apply.

6325. Vetting Aftercare

a. In some cases where an individual's professional or personal conduct causes concern in relation to their suitability to obtain or retain a security clearance, PSyA Pers Sy staff may not deem it proportionate to initiate procedures to withdraw, deny or suspend their clearance immediately. Rather, they may choose to place the individuals on the UKSV SC or DV Risk Register, as appropriate, and then manage the security risk posed by the individual. This risk management process is known as "Ongoing Personnel Security Management[15] (otherwise known as Aftercare). It may be applied in respect of concerns which arise during the initial vetting process, during vetting reviews, or as a result of the submission of an Aftercare Incident Report (AIR).

b. Individuals for whom aftercare procedures are deemed appropriate will normally undergo additional reviews of their suitability to hold their current level of security clearance. For example, an individual who has been granted SC clearance valid for 10 years, but who has financial problems, may have their financial situation reviewed 18 months after their clearance has been granted. After each review, UKSV will make an assessment of the risk that the individual poses to the RN and inform PSyA staff for consideration.

c. Where aftercare does not meet the desired objectives, a vetting decision might be required to withdraw a clearance. However, the majority of individuals subject to aftercare action are removed from the risk management process in due course, having successfully addressed their issues. For some personnel, the Assignment Restriction (AR) process outlined below may also be an appropriate risk management mechanism, used to ensure that an individual is not assigned to a post that is incompatible with the risk that they may pose.

6326. Assignment Restrictions (AR)

An AR[16] is a referral mechanism to ensure that PSyA Pers Sy staff or Corporate STRAPSO are consulted before Career Managers (CM) assign individuals with security concerns or where security conflicts of interest could arise. An AR may be recommended by UKSV and/or implemented by PSyA Pers Sy staff by inserting a `flag' in the individual's 'Assignment Restriction' field on JPA. This flag is only visible to CMs and PSyA staff and does not disclose the nature of the restriction.

a. **AR based on Nationality.** . UKSV will inform Navy PSyA about new recruits or serving personnel holding dual or non-UK nationality where an AR is deemed necessary. UKSV may therefore refer cases to PSyA for AR purposes where:

(1) Spouse or partner is not solely a UK national.

(2) Siblings and/or surviving parents are not solely UK nationals.

(3) Subject has distant surviving relatives who are not solely UK nationals.

(4) Spouse/partners' surviving parents are not solely UK nationals.

[15] JSP 440 Leaflet 2B – Security Clearances and Vetting
[16] Previously known as a 'STOP Notice' or 'Top Enclosure Card'.

b. **AR based on Security Concerns.** Where UKSV staff consider that a potential security issue exists and may warrant AR action, PSyA staff will be contacted and retain authority for imposing an AR; with a notification to the relevant Career Manager. Examples where an AR would be raised include:

(1) Where police/unit investigative action is ongoing.

(2) Where Vetting Medical Concerns have arisen.

(3) Where significant financial issues are being reviewed by UKSV.

(4) Where there are suspected paramilitary, terrorist or subversive connections.

(5) Where family members reside permanently overseas.

(6) Where UKSV inquiries are pending to establish whether issues of security concern exist.

(7) Where Navy PSyA has cause for concern in a security context.

c. **AR Review.** Navy PSyA is to ensure that reviews of AR are carried out at appropriate intervals to ensure validity. When reviews of individual cases are due, PSyA-Pers Staff are to liaise with UKSV and ascertain whether the reasons for AR imposition remain valid. Where the AR can be removed, PSyA Pers Sy staff are to ensure that an individual's JPA record and NSVS vetting records are amended accordingly informing the service personnel and Career Manager; if applicable.

SECTION 6 - PROCEDURES FOR APPEALS AGAINST VETTING DECISIONS

6327. Internal Appeal

a. Serving personnel whose SC or DV has been withdrawn, or whose initial DV application has been denied, have the right to appeal the decision. There is no right of appeal against a decision to deny initial SC or DV on recruitment, i.e. where the applicant is not yet in-Service/employed, where the case has been referred by UKSV to PSYA and subsequently PSYA recommend denial.

b. The internal appeal is considered by the Navy Vetting Appeal Panel (NVAP). The NVAP is chaired at 1* by Navy Command COS HQ, supported at OF5 by Head Career Manager. Staffing of NVAP appeals is supported by Navy Legal, ensuring a clear gap between PSYA vetting decisions, appellants and appeal decision makers.

c. The Vetting Subject will have received a detailed letter from PSYA confirming the denial or withdrawal of the relevant security clearance, the reasons why the decision has been made and the outline of the appeal route with any potentially relevant timings. The letter will also confirm the subject's rights to both internal (NVAP) and external (Security Vetting Appeal Panel - SVAP) appeals and a re-application for a further DV clearance being entertained.

d. Should the subject decide to appeal the PSYA Per Sy decision to the NVAP, the NVAP appeal submission timelines will be specified in the letter detailing the vetting decision. The timelines are as follows; any exceptional reasons for an extension to these timelines are to be raised by the appellant to the Vetting Team Leader for consideration.

(1) **Seven Days.** Notice of intention to submit an appeal. From receipt of the vetting decision to providing notice to the Vetting Team Leader of intention to appeal.

(2) **Seven Days.** Appellant's submission of case to the NVAP. From receipt by the Vetting Team Leader of the notice of intention to appeal, to receipt by the Vetting Team Leader of the appellants case to the NVAP.

(3) **Three Months.** From receipt by the Vetting Team Leader of the appellant's case to the NVAP, to receipt by the appellant of a letter from the NVAP detailing their decision. Operational imperatives and priorities may impact this timeline, but every effort will be made to respond as promptly as possible.

e. Whilst the appeal is with the NVAP, the service person (appellant) should remain in the current JPA position, where it is feasible to do so. Further guidance will be given on conclusion of the NVAP outcome.

6328. External Appeals - Procedures for Review by the Security Vetting Appeals Panel (SVAP)

a. When the internal appeal process has been exhausted, the Subject may appeal to the Cabinet Office's SVAP. The SVAP is an independent body sponsored by the Intelligence and Security Secretariat (Security Policy Division) of the Cabinet Office. The SVAP exists to provide an independent avenue of appeal for personnel whose security clearance has been denied or withdrawn and to make recommendations to the appropriate TLB.

b. SVAP appeal submission timelines will be included within the letter to appellants from the NVAP, should the appellant's internal appeal be rejected and if the appellant wishes to submit an appeal externally. Any extension of this timing remains a matter between the SVAP and the appellant.

c. The SVAP currently require an appeal to be submitted within 28 days of the date of the NVAP's letter which confirms the NVSAP decision.

d. Once an appeal is submitted to the SVAP, the SVAP will confirm with the appellant and Navy Command that the appeal falls within their remit and detail the requirements from each party including timings.

e. Following receipt of an initial letter of appeal, the SVAP Secretariat will provide additional guidance to the appellant on how they should proceed with their appeal. In brief, the SVAP Secretariat will decide whether the case falls within the remit of the Panel and will then advise the Subject accordingly. The appellant will be asked to provide a written statement of their case within a deadline set by the SVAP Secretariat. PSYA Per Sy will be invited to respond to the appellant's submission and the latter will be allowed to see the PSYA's case and comments on the appellant's appeal. Once the SVAP has gathered all required evidence, the appellant and two Navy representatives, SO1 Vetting Decisions and COS HQ will be invited to attend an informal confidential hearing during which the SVAP will consider the case.

f. On completion, and normally within 6 weeks, the SVAP decision and advice will be sent to the RN and the appellant. The decision as to whether or not to accept a SVAP recommendation to grant or restore a security clearance rests solely with Director Naval Staff (DNS). DNS will inform the appellant and the SVAP of this decision in writing within 15 working days of receiving the SVAP recommendations. This decision cannot be appealed further.

6329. Discharge Policy

a. RN policy in relation to security clearance is that all Naval Service personnel are to be security vetted to a minimum of SC security clearance. The RN can no longer employ those who do not hold this minimum security clearance. Circumstances where a loss of DV can render an individual unemployable in their branch might also result in an application for discharge.

b. Once the internal NVAP process is concluded, if the appellant is unsuccessful appropriate discharge applications are to be completed. Individuals will not be retained in the Service whilst they exhaust the external security clearance appeal route via the SVAP.

6330. Welfare of the Vetting Subject - SCART

On initiation of the appeal process Navy PSyA is to engage the Chain of Command; who may in turn wish to inform the RN Sensitive Case Advice Reaction Team (SCART) that there is an ongoing personnel security issue involving the subject which may result in associated welfare issues.

SECTION 7 - SECURITY VETTING PROCEDURES - INDIVIDUAL AND CHAIN OF COMMAND RESPONSIBILITIES

6331. Individual and Chain of Command Responsibilities

Naval Service personnel must be aware of the following responsibilities to ensure that security vetting procedures are an effective enabler to maritime operations:

a. All personnel are to:

(1) Monitor the status of their own security clearances on JPA[17] to ensure they remain extant, undertaking the requirement for National Security Clearance application when required to undertake.

(2) Respond positively and promptly to any request from UKSV or PSyA Pers Sy staff for supplementary information in support of security vetting, e.g. completion of Financial Questionnaires.

(3) Advise UKSV of any significant changes in personal circumstances (such as marriage, divorce, cohabitation with a partner, diagnosis of a long-term medical condition, bankruptcy or windfalls)[18].

b. It is an annual mandatory requirement for **all** DV holders to complete an annual Security Appraisal Form (SAF) on the anniversary of the date of the DV/EDV award. For further information, contact Unit Security Staff or PSyA Pers Sy staff. The preferred method for SAF completion is through the eSAF process. An auto email will be generated through JPA for service personnel on the anniversary of their clearance award notifying when the SAF is due to be completed.

c. Line managers/reporting officers are to complete the relevant section of the SAF process for DV/EDV holders.

d. All personnel (either as subjects or referees) are to make themselves available as quickly as possible for interview by UKSV vetting officers if requested.

e. Commanders at all levels are to release personnel from duty, as required, to attend interviews with UKSV Vetting Officers and/or PSyA Pers Sy staff.

f. Should information become available that raises doubts about an individual's suitability for access to classified information or assets, the circumstances are to liaise with their Unit Security Officer to instigate raising an Aftercare Incident Report (AIR) where applicable. Where Unit Security Staff are not available, line management are to instigate AIR action [19].

[17] At least annually, as part of the mandatory checks of personal data.

[19] Through GOV.UK – Guidance Aftercare and Existing Clearances

ANNEX 63A

RESIDENCY REQUIREMENTS FOR NAVAL SERVICE RECRUITS

1. For security clearance to be issued, all candidates should have resided continuously in the UK immediately before their application. The specific length of this residency requirement is determined by the security clearance required and is outlined below. Residency Requirements are outlined in JSP440, Part 2, Leaflet 2B., Annex C - Residency.

	CTC Clearance	SC Clearance	DV Clearance
UK Residency requirements immediately prior to the security clearance application	3 years	5 years	10 years

2. Failure to meet the minimum residency requirements undermines the ability of United Kingdom Security Vetting (UKSV) to conduct comprehensive security checks and would present an increased security risk to the Naval Service. It is, however, recognised to meet specific recruiting targets, it may in exceptional circumstances, be viable to accept an increased level of risk and accept a shorter UK residency period provided the risk is outweighed by a specific need and can be managed appropriately.

3. In line with the direction in JSP 440 Leaflet 2B, Security Clearances and Vetting, Service Lead Commands (SLCs) are authorised to risk manage their residency requirements. A shorter period of UK residency may be accepted provided that satisfactory additional supporting evidence of an applicant's loyalty, reliability and trustworthiness is produced, and appropriate risk management measures are implemented. This is known as a Residency Waiver (RW).

4. It is the responsibility of the Recruiter to verify that candidates meet minimum requirements relating to UK Residency after first undertaking the Baseline Personnel Security Standard (BPSS) [1] to ascertain the 4 checks for an individual:

a. Identity ID)

b. Right to Work (RTW) in the UK

c. Employment History

d. Criminal Record (unspent convictions)

5. Residency Waivers are considered on a case-by-case basis. Meeting the criteria does not guarantee that a Residency Waiver will be issued thus enabling a progression of a National Security Vetting clearance application.

[1] https://www.gov.uk/government/publications/government-baseline-personnel-security-standard

6. A Residency Waiver (RW) effectively underwrites security clearance until the minimum UK residency requirement will be met and UKSV can undertake a full security check. The supporting documentation/evidence specified in the Appendices to this Annex is therefore required to enable Navy PSyA to assess the security risk that would be borne if a residency waiver is granted.

7. The approved period of UK Residency for progressing a National Security Vetting Application is available on request from Navy PSYA Personnel Security NAVYPSYA-PERSONNELSECURITYGRP@mod.gov.uk or Recruitment and Attraction Overseas Team NAVYRA-OSEASADMINMAILBOX@mod.gov.uk

8. **Process.** Ensure that the Sy clearance vetting application and Residency Waiver paperwork are submitted in parallel via the relevant Residency Waiver management Team

Note. *Where a National Security Vetting Solution (NSVS) vetting application has been submitted and there is no Residency Waiver confirmation of documentation having been received; the NSVS Vetting application will be cancelled with UKSV at the 3 month point of the submission to UKSV.*

9. Residency Waivers should not be sent directly to Navy PSyA Per Sy; please ensure that these are sent through the relevant desk within R&A HQ - NAVYRA-OSEASADMINMAILBOX@mod.gov.uk

10. **Best Practice.** Is that the Security Check (SC) vetting application should be sponsored only after the vetting applicant has completed their security application form. The application will only be submitted to UKSV once both parts are complete (this is known as activation).

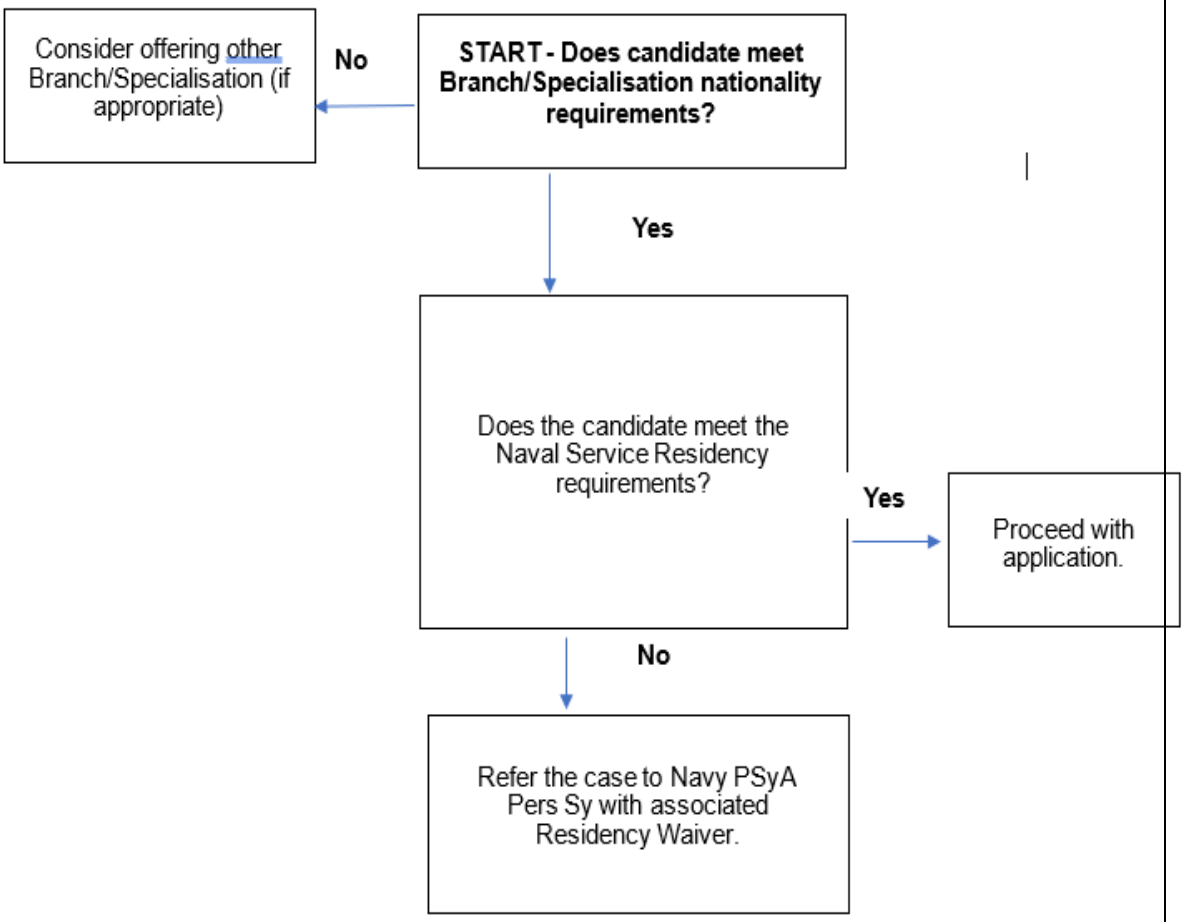
11. Ensure ALL documentation is provided by the vetting candidate[2]; references should only be accepted on headed paper.

12. Residency Waiver paperwork does not need to be submitted twice. If a vetting candidate has been awarded SC Sy clearance with approval of a Residency Waiver but has not entered service within a 12 -month window of award of the clearance, the awarded clearance will be 'lapsed' and a Review initiated. PSyA will only require an up-to-date Police Certificate to progress the SC Review.

[2] Appendix 2 to Annex 63A

APPENDIX 1 TO ANNEX 63A

CANDIDATE VETTING FLOWCHART



APPENDIX 2 TO ANNEX 63A

CRITERIA FOR CONSIDERING APPLICATIONS FOR RESIDENCY WAIVERS

1. To be considered for a security clearance Residency Waiver (RW), the candidate must supply the ESSENTIAL following official documentation and where appropriate on headed paper.

(a) A copy of their Birth Certificate.

(b) A copy of the photograph page of their passport. To also include any visa entry/exit stamps.

(c) A Police Certificate from the host nation police service, outlining what, if any, convictions the candidate has. If not produced in English, the candidate is to submit the original certificate accompanied by a translation, certified by a professional translator, along with the original document.

2. Depending on the Circumstances and why a RW is being issued; the following is to be included:

(a) A detailed itinerary of where the candidate has travelled/studied outside of the UK.

(b) Details of where they resided, including names, and addresses if any private residences used.

(c) Name, address and telephone numbers of any travelling/studying companions.

(d) For those candidates who also have worked overseas for e.g. during their ‘gap year’, full details of the employer, the period of employment and the nature of job.

(e) Written Character references (school/employment/other recognised professionals (please specify).

(f) Evidence of educational qualifications attained (where appropriate).

ANNEX 63B

FORMAL SECURITY (DRUG MISUSE) WARNING

1. You are formally warned for suspicion of involvement in substance misuse. From the date of this warning, you will be subject to compulsory retesting without warning at any time in accordance with JSP 835 Pt 1 (V5.1 Jun 22) Ch 4 Para 7.d.

a. You are reminded that drug misuse is illegal and incompatible with service in the Royal Navy. You are further warned that drug misuse is regarded as evidence of unreliability in the context of security clearances. Should you in the future provide a positive test because of CDT you will immediately be administratively discharged from the Service.

b. I should also warn you that you will be subject to re-testing by the CDT Team without prior notice at any time in the next 5 years from the date of this formal warning.

c. You cannot appeal this drug warning decision.

2. Acknowledgement of Drug Warning by Service Person

CHAPTER 65

PROMOTION POLICY - GENERAL

6501. Purpose

The aim of both promotion and advancement is to keep the Royal Navy workforce at the right levels to meet its commitments within the overall numbers authorised by Parliament. Promotion is not a right. Promotion on merit is a system employed throughout the Royal Navy to sustain a robust and effective regime for the command, leadership, discipline, inspiration, motivation, management and administration of a diverse structure of officers, warrant officers, ratings and other ranks, augmented by MOD civil servants and contractors. It also supports the requirement to maintain a hierarchy of appropriate status and authority to exercise responsibility for war-fighting and decision-making, or procurement, development, custody or operation of a wide range of complex equipment, materiel and procedures. The definition of 'Merit' is given at Para 6508.

6502. Substantive Promotion

All promotion is based on requirement and opportunities will therefore vary between branches, specialisations and sub-specialisations. Promotion beyond Lieutenant RN or Captain RM in the officer corps and beyond Able Rate/Marine for ratings and other ranks (OR) respectively is predominantly by selection. Any promotion prior to this, whilst still based on merit, is non-competitive, being subject to seniority and/or time in service, satisfactory performance and completion of mandatory training and other requirements. Once selected, some personnel may be assigned to relevant professional and/or command/leadership courses, with promotion taking place on a Common Promotion Date (CPD), usually 12 months following selection, subject to being qualified in all other respects.

6503. Non-substantive Promotion

Both selective and non-selective promotion is normally to the next higher substantive rank but, to provide an element of flexibility, non-substantive promotion to the Acting Higher Rate/Rank (RN) or Local/Local Acting Rank (RM) may be authorised exceptionally to enable suitably qualified individuals to fill positions on a temporary basis that are designated for a higher rank. See Para 6603 (officers) and Para 6915 (ratings and ORs) for more details.

6504. Promotion from Non-Commissioned to Commissioned Rank

Promotion from warrant officer or rating/other rank to commissioned rank is via the RN Upper Yardman (UY), Senior Upper Yardman (SUY) and Warrant Officer Commissioning (WOCS) schemes or RM Corps Commission, Senior Corps Commission (SCC) and Warrant Officer Commissioning RM (WOCS(RM)) schemes. Suitable candidates must be recommended by their Commanding Officers via the appraisals process; then - with the exception of the WOCS - they are selected by the Admiralty Interview Board (AIB) and, for SUY/SCC candidates, extracted by the relevant branch/specialisation based upon the requirements of the Service (see Chapter 50). WOCS candidates do not attend the AIB and are selected by a Warrant Officers' Commissioning Board.

6505. Appraisal

Promotion, together with commission transfer, career extension and command selection, and including promotion to commissioned rank, is underpinned by appraisal using the appropriate JPA Appraisal proforma. The importance of timely, accurate and honest appraisal reports for maintaining a fair and effective promotion system cannot be over-emphasised. Further details are contained in JSP 757 and at Chapter 57.

6506. Authority for Promotions

Authority for promotion in the Royal Navy is vested in the Admiralty Board, on behalf of HM The King (for officers) and the Defence Council (for warrant officers, ratings and other ranks). As its Principal Personnel Officer, the Second Sea Lord delegates Admiralty Board authority for promotion to one star rank and below to the Director Personnel and Training/Naval Secretary (Dir P&T/NavSec); further delegated through DDPD for policy development to the Head (Branch Management) (Hd BM) and implementation to the Hd Promotions (Hd Prom). Promotion Boards are managed by Hd Prom via the Officers' Promotion Section or the Ratings' and Other Ranks' Promotion Section as appropriate.

6507. Diversity and Inclusion

The requirements of Diversity and Inclusion at Chapter 30 apply fully to the conduct of Promotion Boards and all others involved in the promotion process (including Reporting Officers). All candidates must be given the equality of opportunity to be selected and promoted against criteria set or considered by the Promotion Boards as prescribed by the regulations contained in relevant chapters of this publication. Deliberations by boards must be on the basis of merit alone and criteria to score against merit are to be used. Although the Armed Forces are exempt from age and disability discrimination legislation, the Royal Navy aspires to comply with the spirit of the law in this respect.

6508. Definition of Merit

Merit is defined as suitability, capacity and having sufficient experience to be employed in at least the next higher rank alongside a proven track record of caring for and developing subordinates. Factors such as consistency of success, especially in the face of particular challenge; leadership and management acumen; judgement and the ability to make things happen, especially through innovation, effective management of risk and exploitation of opportunity; ability to think on a level above peer group; potential flair for command, future employability, in specialist and/or broader appointments, all constitute merit.

6509. Detailed Regulations

All Royal Navy personnel are expected to have knowledge of the promotion and advancement rules. Decisions in individual cases submitted to DDPD will be based on this expectation. Although the general principles for promotion are common, career structures for officers, ratings and other ranks have evolved separately. As such, specific regulations for the promotion and advancement of officers, ratings and other ranks are contained in the following chapters:

a. Chapter 66 RN and RM Officers

b. Chapters 67-90 Ratings

c.	Chapter 91	RM Other Ranks
d.	JSP 755 Part 2 Vol 2	Medical personnel under Unified Career Management (UCM) harmonised TACOS from 1 Jan 24.

ANNEX 65A

REGULAR SERVICE - RELATIVE RATES TABLE

This table refers to relative rates for discipline and privilege purposes and in no way reflects upon rates of pay

Rate	Abbreviation	Relative Rate	Lowest rate to which person may be disrated or reverted
CHAPTER 74 - MARINE ENGINEERING			
Engineering Technician (Marine Engineering) (ET(ME)) - Direct Entry & Former Junior Rate MEMs			
Warrant Officer Class 1	WO1ET(ME)	Warrant Officer 1	ET(ME)1*
Warrant Officer Class 2	WO2ET(ME)	Warrant Officer 2	ET(ME)1
Chief Petty Officer Engineering Technician (Marine Engineering)	CPOET(ME)	Chief Petty Officer	ET(ME)1
Petty Officer Engineering Technician (Marine Engineering)	POET(ME)	Petty Officer	ET(ME)1
Leading Engineering Technician (Marine Engineering)	LET(ME)	Leading Hand	ET(ME)1
Engineering Technician (Marine Engineering) 1	ET(ME)1	Able Rate	
Engineering Technician (Marine Engineering) 2	ET(ME)2	Able Rate	
Note: For submariners, substitute (MESM) for (ME)			
Engineering Technician (Marine Engineering) (ET(ME)) - Ex-Artificer			
Warrant Officer Class 1	WO1ET(ME)	Warrant Officer 1	ET(ME)1*
Warrant Officer Class 2	WO2ET(ME)	Warrant Officer 2	ET(ME)1

Naval Airman (Aircraft Handler) 2	NA(AH)2	Able Rate	
Airman – METOC			
Warrant Officer Class 1	WO1(METOC)	Warrant Officer 1	NA(METOC)1 *
Chief Petty Officer Airman (METOC)	CPOA(METOC)	Chief Petty Officer	NA(METOC)1 **
Petty Officer Airman (METOC)	POA(METOC)	Petty Officer	NA(METOC)1 **
Leading Airman (METOC)	LA(METOC)	Leading Hand	NA(METOC)1 **
Naval Airman (METOC) 1	NA(METOC)1	Able Rate	
Naval Airman (METOC) 2	NA(METOC)2	Able Rate	

*Note: ** either NA(METOC)1 or AB1 in source spec (if a transferee)*

Photographer - PHOT			
Warrant Officer Class 1	WO1(PHOT)	Warrant Officer 1	AB1 in source spec*+
Chief Petty Officer Airman (PHOT)	CPOA(PHOT)	Chief Petty Officer	AB1 in source spec+
Petty Officer Airman (PHOT)	POA(PHOT)	Petty Officer	AB1 in source spec+
Leading Airman (PHOT)	LA(PHOT)	Leading Hand	AB1 in source spec+

(Continued)

Rate	Abbreviation	Relative Rate	Lowest rate to which person may be disrated or reverted
CHAPTER 81 - WARFARE BRANCH - FLEET AIR ARM (Continued)			
Aircrewman - ACMN			
Warrant Officer Class 1	WO1(ACMN)	Warrant Officer 1	AB1 in source spec*+
Chief Petty Officer Aircrewman	CPOACMN	Chief Petty Officer	AB1 in source spec+
Petty Officer Aircrewman	POACMN	Petty Officer	AB1 in source spec+
Leading Aircrewman	LACMN	Leading Hand	AB1 in source spec+
Aircraft Controller - AC			
Warrant Officer Class 1	WO1(AC)	Warrant Officer 1	NA(AC)1 *
Chief Petty Officer Aircraft Controller	CPOAC	Chief Petty Officer	NA(AC)1 **
Petty Officer Aircraft Controller	POAC	Petty Officer	NA(AC)1 **
Leading Aircraft Controller	LAC	Leading Hand	NA(AC)1 **
Naval Airman Aircraft Controller 1	NA(AC)1	Able Rate	
Naval Airman Aircraft Controller 2	NA(AC)2	Able Rate	
Probationary Aircraft Controller	PAC	Able Rate	
*Note: ** either NA(AC)1 or AB1 in source spec (if a transferee)*			
Airman - SE			
Warrant Officer Class 1	WO1(SE)	Warrant Officer 1	NA(SE)1*
Chief Petty Officer Airman (Survival Equipment)	CPOA(SE)	Chief Petty Officer	NA(SE)1
Petty Officer Airman (Survival Equipment)	POA(SE)	Petty Officer	NA(SE)1
Leading Airman (Survival Equipment)	LA(SE)	Leading Hand	NA(SE)1
Naval Airman (Survival Equipment) 1	NA(SE)1	Able Rate	
Naval Airman (Survival Equipment) 2	NA(SE)2	Able Rate	
CHAPTER 82 - WARFARE BRANCH - PHYSICAL TRAINING			
Physical Training - PT			
Warrant Officer Class 1	WO1(PT)	Warrant Officer 1	AB1 in source spec*+
Chief Petty Officer Physical Trainer	CPOPT	Chief Petty Officer	AB1 in source spec+
Petty Officer Physical Trainer	POPT	Petty Officer	AB1 in source spec+
Leading Physical Trainer	LPT	Leading Hand	AB1 in source spec+

(Continued)

Rate	Abbreviation	Relative Rate	Lowest rate to which person may be disrated or reverted
CHAPTER 83 - WARFARE BRANCH - COXSWAIN SUBMARINE			
Warrant Officer Class 1	WO1(COXN)(SM)	Warrant Officer 1	AB1 in source spec*+
Chief Petty Officer Coxswain (SM)	CPO(COXN)(SM)	Chief Petty Officer	AB1 in source spec+
CHAPTER 84 - WARFARE BRANCH - COMMUNICATIONS TECHNICIAN			
Communications Technician - CT			
Warrant Officer Class 1	WO1(CT)	Warrant Officer 1	ABCT*
Warrant Officer Class 2	WO2(CT)	Warrant Officer 2	ABCT*
Chief Petty Officer Communications Technician	CPOCT	Chief Petty Officer	ABCT
Petty Officer Communications Technician	POCT	Petty Officer	ABCT
Leading Seaman Communications Technician	LSCT	Leading Hand	ABCT
Able Seaman Communications Technician	ABCT	Able Rate	
Probationary Communications Technician	PCT	Able Rate	

Notes:
Sideways Entry may revert to Able Rate BD1 in source spec
** Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830)*
+ See Para 7002 and Para 7006.

CHAPTER 85 - LOGISTICS BRANCH			
Supply Chain Specialisation			
Warrant Officer Logistician (Supply Chain)	WO1 SC	Warrant Officer 1	Logistician 1*
Chief Petty Officer Logistician (Supply Chain)	CPO SC	Chief Petty Officer	Logistician 1
Petty Officer Logistician (Supply Chain)	PO SC	Petty Officer	Logistician 1
Leading Logistician (Supply Chain)	LSC	Leading Hand	Logistician 1
Logistician (Supply Chain) 1	SC1	Able Rate	
Logistician (Supply Chain) 2	SC2	Able Rate	

(Continued)

Rate	Abbreviation	Relative Rate	Lowest rate to which person may be disrated or reverted
CHAPTER 85 - LOGISTICS BRANCH (Continued)			
Writer Specialisation			
Warrant Officer Logistician (Writer)	WO1 WTR	Warrant Officer 1	Logistician 1*
Chief Petty Officer Logistician (Writer)	CPO WTR	Chief Petty Officer	Logistician 1
Petty Officer Logistician (Writer)	PO WTR	Petty Officer	Logistician 1
Leading Logistician (Writer)	LWTR	Leading Hand	Logistician 1
Logistician (Writer) 1	WTR1	Able Rate	
Logistician (Writer) 2	WTR2	Able Rate	
Catering Services Specialisation			
Warrant Officer Logistician (Catering Services)	WO1CS	Warrant Officer 1	Logistician 1*
Chief Petty Officer Logistician (Catering Services)	CPO CS	Chief Petty Officer	Logistician 1
Petty Officer Logistician (Catering Services)	PO CS	Petty Officer	Logistician 1
Leading Logistician (Chef) or (Steward)	LCH or LSTD	Leading Hand	Logistician 1
Logistician (Chef)1 or (Steward)1	CH1 or STD1	Able Rate	
Logistician (Chef)2 or (Steward)2	CH2 or STD2	Able Rate	
CHAPTER 86 - LOGISTICS BRANCH - FAMILY SERVICE			
Family Services FS - (General Services only)			
Chief Petty Officer (Family Services)	CPO(FS)	Chief Petty Officer	AB1 in source spec*+
Petty Officer (Family Services)	PO(FS)	Petty Officer	AB1 in source spec+

Notes:
** Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830)*
+ See Para 7002 and Para 7006.

(Continued)

Rate	Abbreviation	Relative Rate	Lowest rate to which person may be disrated or reverted
CHAPTER 87 - MEDICAL BRANCH - MEDICAL ASSISTANT & TECHNICIAN			
Medical Technician – MT			
Warrant Officer Class 1	WO1(MT)	Warrant Officer 1	MT*
Warrant Officer Class 2	WO2(MT)	Warrant Officer 2	MT*
Chief Petty Officer Medical Technician	CPOMT	Chief Petty Officer	MT
Petty Officer Medical Technician	POMT	Petty Officer	MT
Leading Medical Technician	LMT	Leading Hand	MT
Medical Technician	MT	Able Rate	
Probationary Medical Technician	PMT	Able Rate	
Medical Assistant – MA			
(Medical Assistants are employed in both General Service and Submarines)			
Warrant Officer Class 1	WO1(MA)	Warrant Officer 1	MA1*
Chief Petty Officer Medical Assistant	CPOMA	Chief Petty Officer	MA1
Petty Officer Medical Assistant	POMA	Petty Officer	MA1
Leading Medical Assistant	LMA	Leading Hand	MA1
Medical Assistant 1	MA1	Able Rate	
Medical Assistant 2	MA2	Able Rate	
CHAPTER 88 - MEDICAL BRANCH - DENTAL			
Dental Hygienist – DH			
Warrant Officer Class 1	WO1(DH)	Warrant Officer 1	DH1*
Chief Petty Officer Dental Hygienist	CPODH	Chief Petty Officer	DH1
Petty Officer Dental Hygienist	PODH	Petty Officer	DH1
Leading Dental Hygienist	LDH	Leading Hand	DH1
Dental Hygienist 1	DH1	Able Rate	
Dental Hygienist 2	DH2	Able Rate	

(Continued)

Rate	Abbreviation	Relative Rate	Lowest rate to which person may be disrated or reverted
CHAPTER 88 - MEDICAL BRANCH - DENTAL (Continued)			
Dental Nurse - DN			
Warrant Officer Class 1	WO1(DN)	Warrant Officer 1	DN1*
Chief Petty Officer Dental Nurse	CPODN	Chief Petty Officer	DN1
Petty Officer Dental Nurse	PODN	Petty Officer	DN1
Leading Dental Nurse	LDN	Leading Hand	DN1
Dental Nurse 1	DN1	Able Rate	
Dental Nurse 2	DN2	Able Rate	
CHAPTER 89 - MEDICAL BRANCH - QARNNS			
Naval Nurse - NN			
Warrant Officer Class 1	WO1(NN)	Warrant Officer 1	NN*
Chief Petty Officer Naval Nurse	CPONN	Chief Petty Officer	NN
Petty Officer Naval Nurse	PONN	Petty Officer	NN
Leading Naval Nurse	LNN	Leading Hand	NN
Naval Nurse	NN	Able Rate	
Student Naval Nurse	SNN	Able Rate	

Notes:
** Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830)*
+ See Para 7002 and Para 7006.

ANNEX 65B

ROYAL NAVAL RESERVE - RELATIVE RATES TABLE

This table refers to relative rates for discipline and privilege purposes and in no way reflects upon rates of pay.

Rate	Abbreviation	Relative Rate	Lowest Rate to which person may be disrated or reverted
MARINE ENGINEERING BRANCH			
Engineering Technician (Marine Engineering) (ET(ME)) – Former Junior Rate MEMs			
Warrant Officer Class 1 (Reserve)	WO1ET(ME)(RES)	Warrant Officer	ET(ME)1(RES) (see Note 2)
Warrant Officer Class 2 (Reserve)	WO2ET(ME)(RES)	Warrant Officer	ET(ME)1(RES) (see Note 2)
Chief Petty Officer Engineering Technician (Marine Engineering)(Reserve)	CPOET(ME)(RES)	Chief Petty Officer	ET(ME)1(RES)
Petty Officer Engineering Technician (Marine Engineering)(Reserve)	POET(ME)(RES)	Petty Officer	ET(ME)1(RES)
Leading Engineering Technician (Marine Engineering)(Reserve)	LET(ME)(RES)	Leading Hand	ET(ME)1(RES)
Engineering Technician (Marine Engineering) 1 (Reserve)	ET(ME)1(RES)	Able Rate	N/A
Engineering Technician (Marine Engineering) 2 (Reserve)	ET(ME)2(RES)	Able Rate	N/A

Notes:

1. For Submariners, substitute (MESM) for (ME).

2. Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).

Rate	Abbreviation	Relative Rate	Lowest Rate to which person may be disrated or reverted
Engineering Technician (Marine Engineering) (ET(ME)) – Ex - Artificer			
Warrant Officer Class 1 (Reserve)	WO1ET(ME)(RES)	Warrant Officer	ET(ME)1(RES) (see Note 2)
Warrant Officer Class 2 (Reserve)	WO2ET(ME)(RES)	Warrant Officer	ET(ME)1(RES) (see Note 2)
Chief Petty Officer Engineering Technician (Marine Engineering)(Reserve)	CPOET(ME)(RES)	Chief Petty Officer	ET(ME)1(RES)
Petty Officer Engineering Technician (Marine Engineering)(Reserve)	POET(ME)(RES)	Petty Officer	ET(ME)1(RES)
Leading Marine Engineering Artificer/Technician (Reserve)	LMEA/LET(ME)(RES)	Leading Hand	ET(ME)1(RES)
Marine Engineering Artificer Apprentice (Reserve)	MEA APP (RES)	Able Rate	N/A
	Notes: *1. For Submariners, substitute (MESM) for (ME).* *2. Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).*		
Marine Engineering Mechanic – MEM			
Warrant Officer Class 1 Reserve	WO1(MEM)(RES)	Warrant Officer 1	ET(ME)1(RES) (see Note 2)
Chief Petty Officer Marine Engineering Mechanic (M) (Reserve)	CPOMEM(M)(RES)	Chief Petty Officer	ET(ME)1(RES)
Petty Officer Marine Engineering Mechanic (M) (Reserve)	POMEM(M)(RES)	Petty Officer	ET(ME)1(RES)
	Notes: *1. MEM(L)s conform to the pattern for MEM(M)s with the suffix (L) substituted for (M).* *2. Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).*		

Rate	Abbreviation	Relative Rate	Lowest Rate to which person may be disrated or reverted
Marine Engineering Branch – Specialist Qualifications			
Mechanical (ML)(RES)			
Electrical (EL)(RES)			
Mechanical (M)(RES) (Warrant Officers in Mechanic Category only)			
Electrical (L)(RES) (Warrant Officers in Mechanic Category only)			
WEAPON ENGINEERING BRANCH			
Engineering Technician (Weapon Engineering) (ET(WE)) – Former Junior Rate WEMs			
Warrant Officer Class 1 (Reserve)	WO1ET(WE)(RES)	Warrant Officer	ET(WE)1(RES) (see Note 2)
Warrant Officer Class 2 (Reserve)	WO2ET(WE)(RES)	Warrant Officer	ET(WE)1(RES) (see Note 2)
Chief Petty Officer Engineering Technician (Weapon Engineering)(Reserve)	CPOET(WE)(RES)	Chief Petty Officer	ET(WE)1(RES)
Petty Officer Engineering Technician (Weapon Engineering)(Reserve)	POET(WE)(RES)	Petty Officer	ET(WE)1(RES)
Leading Engineering Technician (Weapon Engineering)(Reserve)	LET(WE)(RES)	Leading Hand	ET(WE)1(RES)
Engineering Technician (Weapon Engineering) 1 (Reserve)	ET(WE)1(RES)	Able Rate	N/A
Engineering Technician (Weapon Engineering) 2 (Reserve)	ET(WE)2(RES)	Able Rate	N/A

Notes:

1. For Submariners, substitute (WESM) for (WE).

2. Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).

Rate	Abbreviation	Relative Rate	Lowest Rate to which person may be disrated or reverted
Engineering Technician (Weapon Engineering) (ET(WE)) – Ex - Artificer			
Warrant Officer Class 1 (Reserve)	WO1ET(WE)(RES)	Warrant Officer	ET(WE)1(RES) (see Note 2)
Warrant Officer Class 2 (Reserve)	WO2ET(WE)(RES)	Warrant Officer	ET(WE)1(RES) (see Note 2)
Chief Petty Officer Engineering Technician (Weapon Engineering)(Reserve)	CPOET(WE)(RES)	Chief Petty Officer	ET(WE)1(RES)
Petty Officer Engineering Technician (Weapon Engineering)(Reserve)	POET(WE)(RES)	Petty Officer	ET(WE)1(RES)
Leading Weapon Engineering Artificer/Technician (Reserve)	LWEA/LET(WE)(RES)	Leading Hand	ET(WE)1(RES)
Weapon Engineering Artificer Apprentice (Reserve)	WEA APP (RES)	Able Rate	N/A
	Notes: *1. For Submariners, substitute (WESM) for (WE).* *2. Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).*		
Weapon Engineering Mechanic – WEM			
Warrant Officer Class 1 Reserve	WO1(WEM)(RES)	Warrant Officer 1	ET(WE)1(RES) (see Note 3)
Chief Petty Officer Weapon Engineering Mechanic (Reserve)	CPOWEM(RES)	Chief Petty Officer	ET(WE)1(RES)
Petty Officer Weapon Engineering Mechanic (Reserve)	POWEM(RES)	Petty Officer	ET(WE)1(RES)
	Notes: *1. With exception of WO1, add either suffix (O) or (R).* *2. For Submariners, add either WEM(R)(SM) or WEM(O)(SM) for former (WSM).* *3. Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).*		

Rate	Abbreviation	Relative Rate	Lowest Rate to which person may be disrated or reverted
Engineering Technician (Communication Information Systems)(Reserves) (ET(CIS)(RES))			
Warrant Officer Class 1 (Reserve)	WO1ET(CIS)(RES)	Warrant Officer	ET(CIS)1(RES) (see Note)
Chief Petty Officer Engineering Technician (Communication Information Systems)(Reserve)	CPOET(CIS)(RES)	Chief Petty Officer	ET(CIS)1(RES)
Petty Officer Engineering Technician (Communication Information Systems)(Reserve)	POET(CIS)(RES)	Petty Officer	ET(CIS)1(RES)
Leading Engineering Technician (Communication Engineering Systems)(Reserve)	LET(CIS)(RES)	Leading Hand	ET(CIS)1(RES)
Engineering Technician (Communication Information Systems)1(Reserve)	ET(CIS)1(RES)	Able Rate	N/A
Engineering Technician (Communication Information Systems)2(Reserve)	ET(CIS)2(RES)	Able Rate	N/A
	Note. *Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).*		
AIR ENGINEERING BRANCH			
Air Engineering Technician – AET – Direct Entry and former Junior Rate AEMs			
Warrant Officer Class 1 (Reserve)	WO1(AET)(RES)	Warrant Officer	AET1(RES) (see Note)
Warrant Officer Class 2 (Reserve)	WO2(AET)(RES)	Warrant Officer	AET1(RES) (see Note)
Chief Petty Officer Air Engineering Technician (Reserve)	CPOAET(RES)	Chief Petty Officer	AET1(RES)
Petty Officer Air Engineering Technician (Reserve)	POAET(RES)	Petty Officer	AET1(RES)
Leading Air Engineering Technician (Reserve)	LAET(RES)	Leading Hand	AET1(RES)
Air Engineering Technician 1 (Reserve)	AET1(RES)	Able Rate	N/A
Air Engineering Technician 2 (Reserve)	AET2(RES)	Able Rate	N/A
	Note. *Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).*		

Rate	Abbreviation	Relative Rate	Lowest Rate to which person may be disrated or reverted
Air Engineering Artificer –AEA – Ex Artificer			
Warrant Officer Class 1 (Reserve)	WO1(AET)(RES)	Warrant Officer 1	AET1(RES) (see Note)
Warrant Officer Class 2 (Reserve)	WO2(AET)(RES)	Warrant Officer 2	AET1(RES) (see Note)
Chief Petty Officer Air Engineering Artificer/Technician (Reserve)	CPOAEA/AET(RES)	Chief Petty Officer	AET1(RES)
Petty Officer Air Engineering Artificer/Technician (Reserve)	POAEA/AET(RES)	Petty Officer	AET1(RES)
Leading Air Engineering Artificer/Technician (Reserve)	LAEA/AET(RES)	Leading Hand	AET1(RES)
Air Engineering Artificer Apprentice (Reserve)	AEA/APP(RES)	Able Rate	N/A
	Note. *Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).*		
Air Engineering Mechanic – AEM			
Warrant Officer Class 1 (Reserve)	WO1(AEM)(RES)	Warrant Officer 1	AET1(RES) (see Note 2)
Chief Petty Officer Air Engineering Mechanic (Reserve)	CPOAEM(RES)	Chief Petty Officer	AET1(RES)
Petty Officer Air Engineering Mechanic (Reserve)	POAEM(RES)	Petty Officer	AET1(RES)
	Notes: *1. With the exception of WO1, the appropriate (AV), (M), (L) or (R) suffix should be added to the rate designator.* *2. Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).*		

Rate	Abbreviation	Relative Rate	Lowest Rate to which person may be disrated or reverted
WARFARE BRANCH			
Maritime Trade Operations (Reserves) – MTO(RES)			
Warrant Officer Class 1 (Reserve)	WO1(MTO)(RES)	Warrant Officer 1	AB(MTO)1(RES) (see Note)
Chief Petty Officer (Maritime Trade Operations)(Reserve)	CPO(MTO)(RES)	Chief Petty Officer	AB1(MTO)(RES)
Petty Officer (Maritime Trade Operations)(Reserve)	PO(MTO)(RES)	Petty Officer	AB1(MTO)(RES)
Leading Seaman (Maritime Trade Operations)(Reserve)	LS(MTO)(RES)	Leading Hand	AB(MTO)1(RES)
Able Seaman (Maritime Trade Operations)1(Reserve)	AB(MTO)1(RES)	Able Rate	N/A
Able Seaman (Maritime Trade Operations)2)(Reserve)	AB(MTO)2(RES)	Able Rate	N/A
	Note. *Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).*		
Seaman (Reserves) – SEA(RES)			
Warrant Officer Class 1 (Reserve)	WO1(SEA)(RES)	Warrant Officer	AB(SEA)1(RES) (see Note)
Chief Petty Officer (Seaman)(Reserve)	CPO(SEA)(RES)	Chief Petty Officer	AB(SEA)1(RES)
Petty Officer (Seaman)(Reserve)	PO(SEA)(RES)	Petty Officer	AB(SEA)1(RES)
Leading Seaman (Seaman)(Reserve)	LS(SEA)(RES)	Leading Hand	AB(SEA)1(RES)
Able Seaman (Seaman)1(Reserve)	AB(SEA)1(RES)	Able Rate	N/A
Able Seaman (Seaman)2(Reserve)	AB(SEA)2(RES)	Able Rate	N/A
	Note. *Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830.*		

Rate	Abbreviation	Relative Rate	Lowest Rate to which person may be disrated or reverted
Mine Warfare (Reserves) – MW(RES)			
Warrant Officer Class 1 (Reserve)	WO1(MW)(RES)	Warrant Officer 1	AB(MW)1(RES) (see Note)
Chief Petty Officer (Mine Warfare)(Reserve)	CPO(MW)(RES)	Chief Petty Officer	AB(MW)1(RES)
Petty Officer (Mine Warfare)(Reserve)	PO(MW)(RES)	Petty Officer	AB(MW)1(RES)
Leading Seaman (Mine Warfare)(Reserve)	LS(MW)(RES)	Leading Hand	AB(MW)1(RES)
Able Seaman (Mine Warfare)1(Reserve)	AB(MW)1(RES)	Able Rate	N/A
Able Seaman (Mine Warfare)2(Reserve)	AB(MW)2(RES)	Able Rate	N/A
	Note. *Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).*		
Cyber (Reserves) – Cyber(RES)			
Warrant Officer Class 1 (Reserve)	WO1(Cyber)(RES)	Warrant Officer 1	AB(Cyber)1(RES) (see Note)
Chief Petty Officer (Cyber)(Reserve)	CPO(Cyber)(RES)	Chief Petty Officer	AB(Cyber)1(RES)
Petty Officer (Cyber)(Reserve)	PO(Cyber)(RES)	Petty Officer	AB(Cyber)1(RES)
Leading Seaman (Cyber)(Reserve)	LS(Cyber)(RES)	Leading Hand	AB(Cyber)1(RES)
Able Seaman (Cyber)1(Reserve)	AB(Cyber)1(RES)	Able Rate	N/A
Able Seaman (Cyber)2(Reserve)	AB(Cyber)2(RES)	Able Rate	N/A
	Note. *Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).*		

Rate	Abbreviation	Relative Rate	Lowest Rate to which person may be disrated or reverted
Intelligence (Reserve) – (INT)(RES)			
Warrant Officer Class 1 (Reserve)	WO1(INT)(RES)	Warrant Officer 1	AB(INT)1(RES) (see Note)
Chief Petty Officer (Intelligence)(Reserve)	CPO(INT)(RES)	Chief Petty Officer	AB(INT)1(RES)
Petty Officer (Intelligence)(Reserve)	PO(INT)(RES)	Petty Officer	AB(INT)1(RES)
Leading Seaman (Intelligence)(Reserve)	LS(INT)(RES)	Leading Hand	AB(INT)1(RES)
Able Seaman (Intelligence)1(Reserve)	AB(INT)1(RES)	Able Rate	N/A
Able Seaman (Intelligence)2(Reserve)	AB(INT)2(RES)	Able Rate	N/A
	Note. *Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).*		
Information Operations (Reserve) – INFO OPS(RES)			
Warrant Officer Class 1 (Reserve)	WO1(INFO OPS)(RES)	Warrant Officer 1	AB(INFO OPS)1(RES) (see Note)
Chief Petty Officer (Information Operations)(Reserve)	CPO(INFO OPS)(RES)	Chief Petty Officer	AB(INFO OPS)1(RES)
Petty Officer (Information Operations)(Reserve)	PO(INFO OPS)(RES)	Petty Officer	AB(INFO OPS)1(RES)
Leading Seaman (Information Operations)(Reserve)	LS(INFO OPS)(RES)	Leading Hand	AB(INFO OPS)1(RES)
Able Seaman (Information Operations)1(Reserve)	AB(INFO OPS)1(RES)	Able Rate	N/A
Able Seaman (Information Operations)2(Reserve)	AB(INFO OPS)2(RES)	Able Rate	N/A
	Note. *Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).*		

Rate	Abbreviation	Relative Rate	Lowest Rate to which person may be disrated or reverted
Media Operations (Reserve) – Media(RES)			
Warrant Officer Class 1	WO1(MEDIA)(RES)	Warrant Officer 1	AB in source spec.
	Notes: *1. Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).* *2. Providing the source branch exists in the RNR, if not to be referred to NPT(Res) for a decision on a suitable branch.*		
Media Operations Photographer (Reserve) – PHOT(RES)			
Warrant Officer Class 1 (Reserve)	WO1(PHOT)(RES)	Warrant Officer	AB in source spec. (see Notes)
Chief Petty Officer (Photographer)(Reserve)	CPO(PHOT)(RES)	Chief Petty Officer	AB in source spec. (see Note 2)
Petty Officer (Photographer)(Reserve)	PO(PHOT)(RES)	Petty Officer	AB in source spec. (see Note 2)
Leading Seaman (Photographer)(Reserve)	LS(PHOT)(RES)	Leading Hand	AB in source spec. (see Note 2)
	Notes: *1. Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).* *2. Providing the source branch exists in the RNR, if not to be referred to NPT(Res) for a decision on a suitable branch.*		

Rate	Abbreviation	Relative Rate	Lowest Rate to which person may be disrated or reverted
Hydrography and Meteorology (Reserve)– HM(RES)			
Warrant Officer Class 1 (Reserve)	WO1(HM)(RES)	Warrant Officer 1	AB(HM)1(RES) (see Note)
Chief Petty Officer (HM)(Reserve)	CPO(HM)(RES)	Chief Petty Officer	AB(HM)1(RES)
Petty Officer (HM)(Reserve)	PO(HM)(RES)	Petty Officer	AB(HM)1(RES)
Leading Seaman (HM)(Reserve)	LS(HM)(RES)	Leading Hand	AB(HM)1(RES)
Able Seaman (HM)1(Reserve)	AB(HM)1(RES)	Able Rate	N/A
Able Seaman (HM)2(Reserve)	AB(HM)2(RES)	Able Rate	N/A
	Note. *Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).*		
Diver (Reserve)– D(RES)			
Warrant Officer Class 1 (Reserve)	WO1(D)(RES)	Warrant Officer 1	AB(D)1(RES) (see Notes)
Chief Petty Officer (D)(Reserve)	CPO(D)(RES)	Chief Petty Officer	AB(D)1(RES) (see Note 2)
Petty Officer (D)(Reserve)	PO(D)(RES)	Petty Officer	AB(D)1(RES) (see Note 2)
Leading Seaman (D)(Reserve)	LS(D)(RES)	Leading Hand	AB(D)1(RES) (see Note 2)
Able Seaman (D)1(Reserve)	AB(D)1(RES)	Able Rate	N/A
Able Seaman (D)2(Reserve)	AB(D)2(RES)	Able Rate	N/A
	Notes: *1. Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).* *2. Sideways Entry will revert to Able Rate in source specialisation providing the source branch exists in the RNR, if not to be referred to NPT(Res) for a decision on a suitable branch.*		

Rate	Abbreviation	Relative Rate	Lowest Rate to which person may be disrated or reverted
Physical Training (Reserve) – PT(RES)			
Warrant Officer Class 1 (Reserve)	WO1(PT)(RES)	Warrant Officer 1	AB1 in source spec (see Notes)
Chief Petty Officer Physical Trainer (Reserve)	CPOPT(RES)	Chief Petty Officer	AB1 in source spec (see Note 2)
Petty Officer Physical Trainer (Reserve)	POPT(RES)	Petty Officer	AB1 in source spec (see Note 2)
Leading Physical Trainer (Reserve)	LPT(RES)	Leading Hand	AB1 in source spec (see Note 2)
	Notes: *1. Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).* *2. Providing the source branch exists in the RNR, if not to be referred to NPT(Res) for a decision on a suitable branch.*		
Communications Technician (Reserve) - CT(RES)			
Warrant Officer Class 1 (Reserve)	WO1(CT)(RES)	Warrant Officer 1	ABCT(RES) (see Note)
Chief Petty Officer Communications Technician (Reserve)	CPOCT(RES)	Chief Petty Officer	ABCT(RES)
Petty Officer Communications Technician (Reserve)	POCT(RES)	Petty Officer	ABCT(RES)
Leading Seaman Communications Technician (Reserve)	LSCT(RES)	Leading Hand	ABCT(RES)
	Note. *Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).*		

Rate	Abbreviation	Relative Rate	Lowest Rate to which person may be disrated or reverted
FLEET AIR ARM			
Aircraft Handler (Reserve) – AH(RES)			
Warrant Officer Class 1 (Reserve)	WO1(AH)(RES)	Warrant Officer 1	NA(AH)1(RES) (see Note)
Chief Petty Officer Airman (Aircraft Handler)(Reserve)	CPOA(AH)(RES)	Chief Petty Officer	NA(AH)1(RES)
Petty Officer Airman (Aircraft Handler)(Reserve)	POA(AH)(RES)	Petty Officer	NA(AH)1(RES)
Leading Airman (Aircraft Handler)(Reserve)	LA(AH)(RES)	Leading Hand	NA(AH)1(RES)
Naval Airman (Aircraft Handler)1(Reserve)	NA(AH)1(RES)	Able Rate	N/A
	Note. *Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).*		
Naval Airman Meteorology & Oceanography (Reserve) – METOC(RES)			
Warrant Officer Class 1 (Reserve)	WO1(METOC)(RES)	Warrant Officer 1	NA(AH)1(RES) (see Notes)
Chief Petty Officer Airman (METOC)(Reserve)	CPOA(METOC)(RES)	Chief Petty Officer	NA(AH)1(RES) (see Note 2)
Petty Officer Airman (METOC)(Reserve)	POA(METOC)(RES)	Petty Officer	NA(AH)1(RES) (see Note 2)
Leading Airman (METOC)(Reserve)	LA(METOC)(RES)	Leading Hand	NA(AH)1(RES) (see Note 2)
Naval Airman (METOC)1(Reserve)	NA(METOC)1(RES)	Able Rate	N/A
	Notes: *1. Except for disrating by Summary Trial for which the lowest level is CPO (see JSP 830).* *2. Either NA(METOC)1 or AB1 in source specialisation (if transferee); providing the source branch exists in the RNR, if not to be referred to NPT(Res) for a decision on a suitable branch.*

CHAPTER 66

OFFICER PROMOTIONS

SECTION 1 - INTRODUCTION

6601. The Promotion System

The officer promotion system is controlled centrally, relies on objective reporting over an individual's career to allow consideration for progressive promotion, and has many safeguards. A promotion system is necessary to ensure that:

a. Personnel of the appropriate quality are assigned to positions of responsibility.

b. High-quality recruits to the Royal Navy are attracted and retained.

c. A fair chance of promotion in the Service is given, and is seen as being given, to those concerned.

d. Medical personnel are to refer to JSP 755 Part 2 Vol 2 - Unified Career Management (UCM) harmonised TACOS. Personnel in-Service or undergoing Phase 1 or 2 training on 1 Jan 24 will remain on sS legacy TACOS. Personnel promoted post 1 Jan 24 will transfer to harmonised UCM TACOS. Promotion for medical personnel on sS TACOS will be subject to the most beneficial between harmonised UCM or legacy e.g. personnel will enter promotion zone at the earlier of the two timings and exit the promotion zone at the latest of the two dates.

6602. Promotion Types

In the initial stages of an officer's career, automatic, non-selective, substantive promotion is used to ensure proper remuneration tied to rank and length of service or seniority in the rank. Selective substantive promotion is used thereafter as responsibilities increase. The selection process is formal, objective and thorough.

6603. Non-substantive Promotion

Non-substantive promotion is available to Career Managers as a short-term palliative to meet a Service requirement that cannot be satisfied by substantive means. There are two types of non-substantive promotion, as briefly outlined below.

a. **Acting Higher Rank (AHR).** AHR may be used to fulfil short-term Service requirements which cannot be met by those who already hold the substantive rank or for those who have been selected for it competitively and are required to serve in the AHR until the effective date of substantive promotion (see Para 6621). Officers awarded the AHR receive the pay of the higher rank but do not accrue seniority in the higher rank.

b. **Local Rank.** Local Rank may be granted occasionally for representational or traditional purposes. Local rank may be higher or lower than substantive rank, and pay remains at the substantive rank level.

6604. Substantive Promotion

There are two types of substantive promotion:

a. **Selective.** Selective promotions are competitive within each branch at each rank.

b. **Non-Selective.** Non-selective promotions are automatic, based on seniority in the rank and/or time in service, and satisfactory performance (see Section 3, starting at Para 6629).

SECTION 2 - SELECTIVE PROMOTION

6605. Introduction

The common principles covering the selection process for all promotions are detailed below. Specific instructions for selective promotion to Flag, General, 1 Star and Captain/Colonel rank, the selection of Chaplain of the Fleet and Principal Chaplains, Full Term Commission (Aviator) officers, and Reserves officers can be found at Annex 66A.

6606. Promotion Eligibility

a. Officers who have received a positive recommendation for promotion in their current substantive rank will be considered for promotion provided that their terminal date is after the effective date of promotion (see Para 6622)[1]. This does not apply to those on extensions of service on their current commissions

b. **RM Officers Only.** In addition, eligible RM officers must meet the following criteria to be considered eligible for OF2 to OF3 selective promotion:

(1) Naval Analysis Course (NAC).

(2) Captain's Warfare Course (CWC) (DE officers only).

(3) Junior Officer Leadership Programme 2 (DE officers only).

(4) Military Analysis (B) or UKSF Officers' Week (not RMBS officers).

(5) Walcheren Essay (not RMBS officers).

(6) Director of Music Qualification (RMBS officers only).

c. Eligible officers who are temporarily physically or medically unfit, or awaiting Court Martial or other disciplinary proceedings will be considered by Selection Boards but, if selected, their promotion may be deferred or cancelled depending upon the outcome of the prevailing circumstances.

d. As an exception to the rule in sub para c, RM Officers are required to have a valid RM Fitness Test (RMFT) pass recorded in JPA (or hold an approved permanent waiver or a temporary operational/medical extension or waiver) at the Common Reporting Date to be eligible for RM promotion boards and again at the CPD to enable substantive promotion.

e. Officers whose applications for Early Termination have been approved by their Career Manager will remain eligible for consideration for selective promotion providing that they are still serving on the day after that on which the Board sits.

[1] For promotion to OF4 and OF5 this is the earliest possible date of substantive promotion i.e. 1 Jul of the year of the board.

6607. Promotion Requirement

a. Promotion Boards are required to select suitable officers for promotion primarily on the basis of merit (see Para 6508) subject to the defined numerical, profession and discipline, and, for promotion to OF5 and above, Career Fields (CFs) set annually for each rank and profession.

b. A Smoothed Promotion to Requirement (SPR) is used to provide a means of reacting swiftly to the predominantly short-notice changes to the workforce requirement for each rank. Promotion targets, in the form of Maximum Authorised Numbers (MAuN), are based on the Planning Liability (see Para 0304), and fluctuations are smoothed over a rolling 3-5 year period. The aim is to give some predictability and to maintain as steady a flow as possible into the higher ranks.

c. Board members are informed of the MAuN by profession, discipline and, where required, Career Field. Promotion Boards, however, are not obliged to select the number authorised if there are insufficient candidates demonstrating the required merit. Where there are additional mandated profession/discipline, structural and/or reserved rights requirements, selections are required to be made on merit from the list of A-graded candidates only (see Para 6612).

d. For promotions to 1* and 2*, Career Field targets (as expressed in Maximum Authorised Numbers) will remain based on structural requirements, informed by the Planning Liability/Workforce Requirement. The Flag and Senior Officer's Appointments Board (FSOAB) (see Chapter 60 Section 4) will use its discretion, advised by Dir P&T/Nav Sec and Head, Senior Officers Career and Talent Management (Hd SOCTM), to determine the number of promotions it awards on an annual basis.

6608. Career Field Sponsors

FSOAB voting members will adopt a light touch role as Career Field Sponsors: 2SL (MD; P&T; OS (likely to move to Fleet Commander); DE); Fleet Commander (Ops); DG Ships (C&A). They will Chair periodic CF talent reviews and lead discussion on CF specific roles at the FSOAB.

6609. Career Field Champions

Career Field Champions (CFCs) play a key role in influencing and shaping the future of each CF. They do not own people but will be a source of advice within their field. Their duties include:

a. Provision of advice to Dir P&T on the development of CFs within the RN.

b. Assist DD People Delivery and Hd SOCTM on the design of generic CF specific career development pathways, including the nature and timing of appropriate personal development interventions.

c. Chair the appropriate OF4-5 CF Annual Promotion Board.

d. Convene as a body 6-monthly under the Chair of DD People Delivery.

e. Maintain close links to their respective FSOAB Career Field Sponsor.

f. CFCs are identified as follows:

Operations:	Dir OAC
Operational Support:	FGen DD Logs
Management of Defence:	Hd DOC
Defence Engagement:	Navy COS HQ
Capability and Acquisition:	DD Ships Acq
Personnel:	DD People Delivery

6610. Psychometric Assessment

All promotions, and FSOAB approved appointments, at OF5+ in the Royal Navy will be informed by the use of psychometric assessment as a Decision Support tool. A series of psychometric tests (assessing personality, motivation and cognitive abilities) will be administered to all candidates selected into the Pool for promotion to OF5, Initially test results will have a validity period of 5 years but this will be subject to review and there will be opportunity for individuals to be re-tested in advance of being considered for promotion if required by the NA.

6611. Promotion Categories

The following are used in conjunction with the definition of 'merit' (see Para 6508) during the promotion selection process:

a. **A.** Officers who, in comparison with others of their rank and profession or Career Field , display merit for selection at this board and are ready in all respects for substantive promotion.

b. **B+.** Officers who, in comparison with others of their rank and profession or Career Field, do not merit selection at this board but are considered promising candidates, who stand every possibility, based on current reporting, of being assessed A at the next board.

c. **B.** Officers who, in comparison with others of their rank and profession or Career Field, do not merit selection at this board but have sufficient evidence to indicate they will be considered as promising candidates in due course.

d. **C.** Officers who, in comparison with others of their rank and profession or Career Field, do not merit selection at this board and have insufficient evidence to indicate when they will be considered as promising candidates.

e. The criteria that apply for selection to OF6 and above are described in Annex 66A.

6612. Promotion Guidelines

a. Officers are considered for promotion on the basis of their whole record and Selection Boards are not bound to accept the recommendation of a current reporting officer. If any candidate receives less than a YES recommendation for promotion, the board is free to select that officer if they feel that other considerations outweigh the recommendation. If the recommendation is IK, the board will base its judgement on earlier reports; in this way no officer is unfairly treated due to discontinuity in reporting.

b. **Reports on Officers in NATO Staff and Exchange Appointments, and on Secondment.** Officers assigned to NATO staffs, exchange assignments and those on secondment may well only be reported on by Foreign and Commonwealth officers or private sector civilians, many of whom are not familiar with the Naval reporting system. Experience of non-UK service and non-MOD civilian reporting officers is that they do not always focus on the attributes of specific interest to selection boards, nor do they always follow the guidance on reporting provided. Furthermore, the fact that some of these assignments are high profile, politically sensitive and demanding may not be represented adequately by reporting officers. Royal Navy personnel who undertake these assignments should be given particular credit for service abroad and this should count towards merit for promotion. For promotion to OF6 and above, any officer with no UK officer in their reporting chain will be treated exceptionally and their application allowed to progress to the pre-FSOAB sift (see Para 6018).

6613. Convictions for Offences and Censures

a. **Discrimination.** The fact that an officer has been convicted of an offence or awarded censure is recorded in their Official Record until they are ‘spent’ in accordance with the Rehabilitation of Offenders Act 1974 (ROA74) (as amended by the Legal Aid, Sentencing and Punishment of Offenders Act 2012) and MOD policy. Board members are required not to discriminate unlawfully against candidates, in accordance with MOD Diversity and Inclusion policy (see Chapter 30).

b. **Offences.** Sentences passed by Service and civilian courts are subject to statutory and MOD-directed rehabilitation periods. The general purpose of the ROA74 (as amended) and MOD policy is to enable all but the most serious criminal offenders to put their criminal record behind them after a specified time. Convictions by civilian courts, courts martial and, in some cases summary trials, are recorded in promotion files, as are the dates on which they will be spent. Once spent, references to offences are expunged from the Official Record by the Officer Promotions Section.

c. **Censures.** Censures may be awarded either as a Naval Penalty following conviction by a civilian court or by Higher Authorities in circumstances which do not warrant criminal or disciplinary proceedings or sanctions. They are recorded in promotion files together with the dates on which they will be spent. Censures awarded as a Naval Penalty will be spent after the statutory or MOD-directed rehabilitation period has elapsed. Other censures will be spent after five years or earlier if so, directed by the Higher Authority awarding the censure. Once spent, references to censures are expunged from the Official Record and archived files by the Promotions Section.

d. **Diversity and Inclusion.** Board members are also required to give due consideration and weight to comments within appraisal reports that indicate any failings in an officer's attitude towards the principles and practices of diversity and inclusion. Any indication that performance has fallen short in this area will not be regarded lightly (see Chapter 30).

6614. Promotion Documentation

Selection Boards will be provided with the following documentation on all eligible candidates (for promotion to OF6 and above, Paras 6018 and 6021 provide full details of promotion documentation):

a. **Official Record.** The Official Record, often referred to as the selection file, is a folder containing all Annual Reports, other reports and admissible documentation on an officer for consideration by promotion boards.

b. **Profile Sheet.** A Profile Sheet accompanies every Official Record and provides a historical record of the Annual Reports raised on the officer through their career, and catalogues the assessments awarded and recommendations for promotion.

6615. Promotion Selection Process

a. For promotions to OF6/7/8, see Paras 6017 and 6018. For promotions to OF3/4/5, a single Annual Promotion Board is convened for each profession. Board members read the selection files of all candidates independently and grade each candidate's potential for promotion. The board then convenes in session to discuss and agree the assessment of each candidate's suitability for promotion, awarding a grade based upon the collective view of the board. Having considered the detailed promotion requirement (see Para 6608), the board selects the required number of candidates from those graded A.

b. **Pre-Board Review (PBR).** For promotions to OF3/4/5 a PBR of all eligible candidates is carried out, the purpose of which is to reduce the reading load. PBRs are carried out by the Promotions Section Board Secretaries, whose task is to review the files of all eligible officers and organise how files are read by APB members.

c. To ensure that APB members' reading is focussed on the most compelling candidates, a three-list process is conducted during the PBR.

(1) List 1 is defined as candidates who display merit for selection at this board and are read by all board members.

(2) List 2 candidates will be awarded a grade B. Each board member audits a third of List 2 candidates and will call forward for collective reading and discussion the files of those they consider are displaying merit for selection at this board.

(3) List 3 candidates will be awarded a grade C. Each board member audits a third of List 3 candidates and will call forward for collective reading and discussion the files of those they consider are displaying merit for selection at this board.

6616. Promotion Board Members

a. Promotion Boards are convened to select officers for promotion to OF3/4/5 and consist of three members, one of whom is a non-profession (independent) member. The board chair will be two ranks above the rank being considered, with the profession and independent board members, one rank above the rank being considered. The board will have a mix of male and female members.

b. For promotion to OF5, the APB members will comprise the relevant CFCs and an independent SCS or OF6, with a mix of male and female members. To ensure a sustainable volume of reading, while affording board members adequate time to consider each candidate, the APB will be constituted by CF, grouped as follows:

(1) Operations and Management of Defence (Ops and Mgt of Def);

(2) Operational Support and Defence Engagement (Ops Sp and Def Eng);

(3) Capability and Acquisition and Personnel (Cap and Acq and Pers).

c. For promotion to 1 Star and 2 Star rank, the FSOAB acts as the selection board, selecting from Fields generated by the pre-FSOAB sift (see Para 6018).

d. Hd Proms is responsible for assigning board members and this is done in accordance with instructions approved by the Navy Board. The requirements for each rank and profession are specific and it is also Hd Prom's duty to make sure the spread of expertise is such that each discipline is adequately represented and, where possible, members are assigned from diverse backgrounds.

6617. Promotion Board Advisers

The appropriate Profession / Career Field Career Manager will act as the Board Adviser. Their role is to provide any additional guidance to the board that has not been covered in the detailed promotion requirement (see Para 6608); relevant assigning factors such as continuity of reporting; further advice on reserved rights issues and the career management perspective. For promotion to Commodore/Brigadier and above, Dir P&T/NavSec, Hd SOCTM and the appropriate Career Field Champion will be available to act as advisers to the FSOAB.

6618. Promotion Board Records

On completion of all promotion boards, the Board Secretary will prepare the SCIO generated score signing sheet, containing the details of every eligible candidate with their score, for approval by the Chair.

6619. Data Protection Act (DPA) and Selective Promotion Boards

The data contained in the historical record of the Board and any other information generated during the Board process as it affects an individual is disclosable under the DPA, but only after the announcement of the promotion selections has been made. Given that the Board's decision is a corporate one and that minutes of the proceedings are not taken, it follows that individual board members' votes and personal notes may not be truly representative of the final outcome. It is for this reason that Board Members must destroy all records and data they hold outside SCIO on completion of the Board (see also Para 0109 and Annex 1C - DPA).

6620. Promulgation

a. Provisional selective promotions are announced via MyNavyApp/SCIO and on the Workforce Appraisals and Career Progression Team DefNet webpage on the Monday following the week in which the promotion boards took place. The precise timings are captured in the boarding programme that is also on the webpage. Following the announcement, they are released to the media for publication in newspapers and on the world-wide web.

b. Selections for substantive promotion to Commander RNR, Lieutenant Colonel RMR, Captain RN, Colonel, and Commodore and Brigadier are announced via the webpage on the last Thursday of each month and released to the media at the same time once the individual and selected senior officers have been informed. Promotions to Flag and General rank are released to the media once the individual and selected senior officers have been informed. All selective promotions are confirmed in the London Gazette.

6621. Effective Dates of Promotion

Annual selective promotions will be effective as follows:

a. To OF3 (including Maritime Reserves) - on 1 Oct of the year following the selection notification.

b. To OF4:

(1) On 30 Jun of the year following the selection notification.

or

(2) When assigned to a qualifying OF4 assignment[2] in the period between selection notification and 30 Jun of the following year; subject to the following conditions:

[2] An established post in JPA where the preferred rank is OF4, the post is not rank ranged or a designated Margin post and the assignment is for a minimum of 3 months.

(a) Officers selected for promotion who are already properly established in a qualifying OF4 assignment will be substantively promoted on 1 Jul providing there are no short-term plans to relieve them.

(b) Where an OF3 selectee is assigned to a qualifying OF4 post before 1 Jul in the year of notification, they will do so in the Acting Higher Rank until 1 Jul; this time may count towards the minimum 3 months criteria for an OF4 qualifying assignment.

c. To OF5/6/7 - on taking up an assignment in the higher rank. Further details in Annex A.

d. To OF4/5/6 in Medical, Dental, Medical Services and QARNNS professions and Maritime Reserves – on taking up an assignment in the higher rank.

e. To OF7 and above - as determined by Dir P&T/NavSec in consultation with the First Sea Lord.

6622. Provisional Selection

The procedure for provisional selection and promotion to Commander and Lieutenant Commander (and RM equivalents) is designed to increase efficiency by allowing properly planned assignments. This aim will normally be met by timing the assignments of provisionally selected officers to posts complemented for the higher rank to take effect as closely as possible to the due day for confirmation of their promotion. Should circumstances arise that make it necessary to assign an officer to a post complemented for the higher rank before confirmation of the promotion, the granting of AHR will be decided by Dir P&T/NavSec at the time the assignment is made and will not depend on representations being made by the officer or any administrative authority.

6623. Confirmation of Selective Promotion

Confirmation of selective promotion is subject to continued eligibility on the effective date of promotion. Officers selected must:

a. Continue to be recommended for promotion. This will be assumed unless an adverse 'Special' Report is raised[3] and received in Dir P&T/NavSec's Department before the effective date of promotion.

b. Have not requested Early Termination[4].

c. Be medically fit for promotion (see Para 6628).

d. **RM Officers Only**. Hold a valid RMFT pass on the effective date of promotion or be in possession of an approved waiver (see Para 6606).

e. Not be awaiting Court Martial or other disciplinary proceedings. Eligibility in each case will be decided on its merit.

[3] JSP757_Pt2_Vol1 Ch 1 Annex A para 1b(8).
[4] An individual with an extant application for premature release on the effective promotion date will automatically be presumed to have refused promotion and will be deselected (see Para 6625).

6624. Candidates Refusing Promotion

Officers who, following selection for promotion, refuse such promotion will be deselected. Officers will be considered at the next annual promotion selection board following refusal providing that they continue to meet the eligibility criteria.

6625. Career Intermissions and Unpaid Leave

Officers on career intermissions and unpaid leave will continue to be considered for promotion. RNR officers on List 6 are not eligible for promotion.

6626. Medical Fitness

Officers who are medically downgraded, and those who are likely to be categorized as permanently unfit for sea service or be restricted otherwise medically in the future, will normally remain eligible for selective and non-selective promotion. The following principles apply:

a. **Personnel with a Permanently Reduced JMES.** All individuals who have been awarded a permanently reduced JMES code by RNMBOS or by ROHC will be assessed by the RNMEB for their suitability for promotion as part of their determination in retaining an individual in service. This determination will take into account age, past experience, seniority, the nature and extent of the medical limitations, and types of assignment for which the individual might be required to undertake in the current rank and higher ranks if selected for promotion or due for advancement. By default the assessment will assume that retention in service will also include the potential for service at the next higher rank/rate. If the RNMEB is unable to offer continued employment in a higher rank then the individual will be deemed medically unfit for promotion.

b. **Personnel with a Temporary JMES.** Individuals in a temporary JMES should undergo medical assessment by an accredited GMP or Consultant Occupational Physician.

(1) Where there is an expectation that the individual will regain MFD status within the next 12 months, the Medical Officer should deem the individual medically fit for promotion.

(2) Where an expectation that a temporary JMES would be removed and the individual regains a previous permanent JMES within 12 months, then individuals should be assessed as per their previous RNMEB determination (see para 6628 sub para b above).

(3) Where an individual is pregnant and has the JMES code of E6, their fitness for promotion should be assessed in light of their previous JMES, providing that there is an expectation that this will be regained following the pregnancy and period of maternity leave. If previously MFD then they should be considered fit for promotion. If they were previously in a permanently reduced JMES, they should be assessed as per their previous RNMEB determination (see para 6628 sub para b above).

(4) If temporarily downgraded prior to the pregnancy then an assessment must be made as to the likelihood of being upgraded within 12 months of a return from maternity leave and if it is likely, then the individual should be deemed fit for promotion. If it is considered not likely, then the individual will need to be referred to RNMBOS for a permanent medical category to be awarded and their eligibility is to be determined by RNMEB.

(5) Where it is likely that the individual will need a permanently reduced JMES, the Medical Officer should deem the individual unfit for promotion subject to the subsequent RNMBOS/ROHC and RNMEB recommendations. If the individual is subsequently given a permanently reduced JMES by the RNMBOS or ROHC and the RNMEB determines fitness for promotion, then seniority and pay should be back-dated to the original date of intended promotion.

(6) Any doubtful case is to be referred to the RNMEB.

SECTION 3 - NON-SELECTIVE PROMOTION

6627. Introduction

The timing of non-selective promotion is decided by seniority, service or completion of training. Full details of pay are contained in JSP 754 and training in BR 8374.

.

6628. Conditions

Non-selective substantive promotion is subject to eligibility criteria and the following additional conditions:

a. Recommended for promotion. Commanding Officers are to consider very carefully the performance of all Midshipmen and Sub Lieutenants (and equivalents) with a view to their suitability for non-selective promotion to Sub Lieutenant and Lieutenant respectively. A positive recommendation will be assumed unless an adverse Special Report[5] (see Para 5744) is raised and received in Naval Secretary's Department before the effective date of promotion.

b. Have not requested Early Termination[6].

c. Not under Character and Leadership Warning (see Para 6644) or on Quarterly Report (see Para 6645).

d. Not under Admiralty Board Warning (Professional) (see Para 6643).

e. Be medically fit for promotion (see Para 6628).

f. **RM Officers Only**. Hold a valid RMFT pass on the effective date of promotion or in possession of an approved waiver (see Para 6606).

g. Not awaiting Court Martial or other disciplinary proceedings. Eligibility in each case will be decided on its merit.

h. For the Maritime Reserves, successful completion of mandated training (Training Matrices).

6629. Notice of Promotions Due

a. A rolling two-month warning notice of anticipated non-selective promotions is published by the Officer Promotions Section monthly on the Workforce Appraisals and Career Progression Team DefNet webpage.

b. Commanding Officers of affected officers are to contact the Officer Promotions Section and appropriate Career Manager, at least 10 days before the effective date if an officer does not meet the prescribed conditions above.

[5] JSP757_Pt2_Vol1 Ch 1 Annex A para 1b(8)
[6] If an officer withdraws their Notice after the effective promotion date, and that withdrawal is approved by the Career Manager, they will be promoted with effect of the date of application.

c. BRNC (SO3 Training) is to advise the Officer Promotions Section of officers listed on the warning notice who have yet to complete INT(O) (see Para 6634).

d. Loss of seniority for delays in initial training may also be relevant (see Para 6642).

6630. Notice of Promotions Made

The notice of promotion will be sent to the London Gazette for insertion after the effective promotion date.

6631. Promotion up to Lieutenant RN[7] - Direct Entry Warfare, Engineer, Logistics and Medical Services Officers

Regardless of an individual's age or educational qualifications held on entry, all Direct Entry Warfare, Engineer, Logistics and Medical Services officers will join BRNC Dartmouth as an Officer Cadet and promote to Midshipman on successful completion of Initial Naval Training (Officers) (INT(O)). On completion of 12 months' service from their date of entry, officers who have successfully completed INT(O) will be promoted to Sub Lieutenant. Individuals who fail to complete INT(O) within a year of joining the RN should refer to Para 6642 for the rules relating to backdated awards of pay and seniority. Thereafter, officers will be eligible for promotion to the rank of Lieutenant on attaining 30 months' seniority as a Sub Lieutenant. Promotion beyond the rank of Lieutenant is by selection.

6632. Promotion up to Captain RM[8] - Royal Marines Officers

Regardless of an individual's age or educational qualifications held on entry, all Direct Entry RM officers join CTCRM Lympstone as a Second Lieutenant and will remain in the rank until successful completion of the RM officer initial training course, at which point they will be promoted to Lieutenant RM with seniority backdated to 12 months from their date of entry (see Para 6642 for the rules relating to backdated awards of pay and seniority for RM officers who fail to complete their initial training on time). Thereafter, RM officers will be eligible for promotion to the rank of Captain RM on attaining 30 months' seniority as a Lieutenant RM. Promotion beyond the rank of Captain RM is by selection.

6633. Promotion to Lieutenant RN/Captain RM[9] - Upper Yardman (UY)/Corps Commission(CC)/Senior Upper Yardman (SUY)/Senior Corps Commission(SCC)/Warrant Officer Commissioning Scheme (WO1CS) Candidates

Since the introduction of ROES, the seniority levels and promotion timescales for UY/CC and SUY/SCC individuals based on their previous experience have been revised. An individual is not considered eligible to be a UY until they are on the trained strength. While it is possible for an individual to be selected as an Officer while under Phase 1 or Phase 2 Training, they would be considered to be a Direct Entry officer. The seniority levels on commissioning through the UY/ SUY, CC/ SCC schemes and the WO1CS, are detailed in Tables 66-3 and 66-4.

a. **Table 66-3. Royal Navy.**

Reckonable service after achieving GTS	RN rank/seniority on entry (X, E, L and MS)	Time to promotion to Lieutenant
Under Trained Strength	Midshipman (considered direct entrant)	42 months
UY Ratings with under 2 years	Sub Lieutenant	30 months
UY Ratings below WO1 with over 2 years	Sub Lieutenant with 12 months seniority	18 months
SUY Ratings below WO1	Sub Lieutenant with 12 months seniority and on promotion to Lieutenant awarded an additional 6 month's seniority	18 months
SUY WO1s	Sub Lieutenant with 18 months seniority and on promotion to Lieutenant awarded an additional year of seniority	12 months
CWOs/ SUY(WO)s (between 1 May 18 and 30 Nov 20)	Lieutenant with 1 year of seniority	N/A
WO1CS (post 1 Dec 20)	Lieutenant with 1 year of seniority	N/A
SCWO (post 1 Dec 20)	Lieutenant with 3 years of seniority	N/A

b. **Table 66-4. Royal Marines.**

Reckonable service after achieving GTS	RM rank on entry.	RM Rank on Completion YO Training.	Promotion to Captain RM.
CC Officer	2nd Lieutenant	Lieutenant (back dated to 12 months from joining date)	26 months from passing out
SCC Ratings below WO1 with over 2 years	Lieutenant with 6 months' seniority and on promotion to Captain awarded an additional year of seniority	N/A	24 months from commissioning.
SCC WO1s	Lieutenant with 18 months' seniority and on promotion to Captain awarded an additional year of seniority	N/A	12 months from commissioning.
CWOs/ SUY(WO)s (between 1 May 18 and 30 Nov 20)	Lieutenant with 1 year of seniority	N/A	
Corps RSMs and WO1CS(post 1 Dec 20)	Captain with 1 year of seniority	N/A	N/A
SCWO (post 1 Dec 20)	Captain with 3 years of seniority	N/A	N/A

6634. Medical and Dental Officers

a. **Rank on Entry.** Rank on entry for a Medical or Dental officer is laid down in Chapter 48.

b. **Non-Selective Promotion.** Non-selective promotion to Surgeon Lieutenant Commander/Surgeon Lieutenant Commander (D) is as follows:

Table 66-12. Standard Progression to Surgeon Lieutenant Commander/Surgeon Lieutenant Commander (D)

Rank	Post 1 Apr 03
Surg Lt/ Surg Lt(D)	Medical Officers - automatic on date of full registration with the GMC. Dental Officers - automatic on date of successful completion of 1 year VDP training.
Surg Lt Cdr/ Surg Lt Cdr(D)	Automatic on attaining: 5 years' seniority in the substantive rank of Surg Lt 5 years' seniority in the rank of Surg Lt (D) (Acting and Substantive time to count).

c. Promotion beyond the rank of Surgeon Lieutenant Commander/Surgeon Lieutenant Commander (D) is by selection.

d. **Additional Seniority.** Additional seniority may be awarded for previous medical experience. Eligibility for this award is laid down in JSP 527 Chapter 1 Section 4 (new reference tbc).

6635. Queen Alexandra's Royal Naval Nursing Service Officers

a. **Rank on Entry.** Rank on entry for QARNNS officers is laid down in Chapter 48.

b. **Non-Selective Promotion.** Promotion to Lieutenant is automatic on attaining four years' seniority in the rank of Sub Lieutenant. Thereafter, promotion is by selection.

c. **Additional Seniority.** Additional seniority may be awarded for previous medical experience. Eligibility for this award is laid down in Chapter 48.

6636. RNR Officer Candidates and Upper Yardmen

a. On passing the AIB, and subject to final selection by the Commander Maritime Reserves (CMR), RNR officer candidates and Upper Yardmen will be promoted to the rank of Midshipman but will not wear rank insignia and will be addressed as Officer Cadets until completion of initial training at BRNC (Phase 1A Training). Promotion thereafter will be as follows:

(1) Midshipmen will be promoted to Sub Lieutenant following successful completion of Fleet Board at the end of Phase 1B Training.

(2) Promotion from Sub Lieutenant to Lieutenant is subject to successful completion of branch-specific training and on attaining a minimum of 3 years' seniority as a Sub Lieutenant.

b. Entry in a higher substantive rank may be authorised exceptionally for professionally qualified officers such as Medical and Merchant Navy officers.

6637. Delays in Initial Training - Impact on Promotion Progression[10]

a. **RN Officers.**

(1) **Phase 1 Training.** RN officers who fail to complete their Phase 1 Training (INT(O)) within 12 months of joining the Service will not be promoted to Sub Lieutenant at this point. Instead, they will be promoted once BRNC have advised the Officer Promotions Section that the training is successfully completed, subject to the conditions in para 6631. At this point, officers will be entitled to apply for backdated pay and seniority to a date 12 months from entry if their failure to complete the training on time is deemed to be attributable to the Service or is for non-Service reasons outside their control e.g. medical, welfare or compassionate. Requests for redress should be forwarded through the CO to the Officer Terms of Service Manager who, in turn, will consult BRNC and the Officer Promotions Section. All cases will be considered on their individual merits.

[10] **Post 1 Sep 13.**

(2) **Phase 2 Training.** As above, time lost by RN officers during Phase 2 Training as a result of Service reasons or non-Service reasons outside their control e.g. medical, welfare or compassionate reasons, will not normally result in an adjustment to an individual's seniority. Seniority adjustments will be applied to RN officers for back-classing, examination failure, repeated elements of professional training or warning during Phase 2 training. These adjustments are notified by NCHQ (TOS) (see Para 5741), and will affect an officer's promotion (i.e. the additional period of time will not count for seniority purposes) and also impact on pay if applied to the IBD. RN officers who are due non-selective promotion whilst on Admiralty Board Warning (Professional) will have their promotion deferred until removal from warning, at which point any seniority adjustment will be calculated by the Officer Terms of Service Manager and applied to the rank held at the time of warning. The non-selective promotion date can then be recalculated and the Officer will promote, so long as they remain otherwise eligible (see Para 6632).

b. **RM Officers.** RM officers who fail to complete their initial training at CTCRM on time will be eligible to apply through their CO to the Officer Terms of Service Manager for backdated pay and seniority (to the 12 month point from entry) if the delay in completing the training is deemed to be attributable to the Service or is for non-Service reasons outside the individual's control. All cases will be considered on their individual merits.

6638. Seniority Adjustments Following Branch/Specialisation Transfer

a. Rates of pay are linked to rank and IBD. As such, any adjustments made to an officer's seniority on transfer, as described below, will also have an effect on pay if applied to the IBD.

(1) **Untrained Strength.** If an officer under training transfers from one branch/specialisation to another, whether because of failure in the original branch/specialisation or by choice, promotion to Lieutenant RN may be deferred. Officers who have already attained the rank of Lieutenant RN may have their seniority adjusted. The need for any deferment or adjustment is determined by the officer's position in relation to that of their new peers in the branch/specialisation into which they are transferring, and is to ensure, in so far as is possible, that training that does not form part of the training pattern in the new branch does not count towards promotion. See Para 5107 b sub para (2) for further information.

(2) **Trained Strength.** For an officer on the trained strength transferring from one branch or specialisation to another, promotion may be deferred and/or seniority adjusted. This may result in the implementation of an SDRP, as described in Para 6642 sub para c. The need for any deferment, adjustment or SDRP is determined by the officer's position in relation to that of officers who joined the Service at the same time in the branch or specialisation into which they are transferring, and is to ensure, in so far as is possible, that any training which does not contribute directly to the officer's new branch or specialisation does not count towards an accrual of seniority.

b. The seniority of an officer transferring from or to a branch where seniority is granted for a degree or relevant civilian experience or both may be adjusted by more than 1 year.

6639. Training Warnings

Officers under training will not be promoted on their due date if they are under Phase 1 (Tier 3) or Phase 2 (Admiralty Board level) Character and Leadership (C&L) Warning (see Para 5740). Officers who are removed from C&L Warning due to an improvement in their performance will be promoted with effect from, and with seniority of, the date of the Commanding Officer's recommendation for removal from C&L Warning if this is later than the non-selective date. Officers who fail to achieve a satisfactory standard will be compulsorily withdrawn from training under the normal procedures detailed in Chapter 57.

6640. Quarterly Report

Officers due for non-selective promotion will not be promoted on their due date if they are under Quarterly Report (or Command Report for the Maritime Reserve). Officers who are removed from Quarterly Report due to an improvement in their performance will be promoted with effect from, and with seniority of, the date of the Commanding Officer's recommendation for removal from Quarterly Report if this is later than the non-selective date. Officers who fail to achieve a satisfactory standard will be liable to discharge under normal procedures. See also Chapter 57.

SECTION 4 - ACTING RANK ASSIGNMENTS

6641. Introduction

The following regulations cover the award of acting higher rank (AHR) to officers, as distinct from the award of substitution pay (see JSP 754 Chapter 2 Section 7 for full details). They do not apply to Acting Lieutenants who have not been confirmed in rank because they have not acquired the necessary qualifications, or to Acting Sub Lieutenants. In general, the AHR is appropriate when an officer is assigned to perform the full duties of a post at a higher rank because no officer of the required substantive rank and branch is available to do so. This may occur in a period of personnel shortage or when a holder of an assignment dies or is placed in a reduced medical category which will prevent the performance of the full duties of the post for a minimum of three months. Award of the AHR attracts the pay of the higher rank but does not accrue seniority in the higher rank. Substitution pay may be appropriate if an officer is required to perform the duties of a higher rank, normally without being assigned to the post, for a minimum of 21 consecutive days and for periods up to 6 months, and for extensions beyond six months). Relative rank and order of command regulations for AHR officers are shown in BRd 2 (QRRN).

6642. Assigning Notice

Assignments at normal notice in the AHR will be decided by the Career Management Authority before publication.

6643. Local Assignments and Transfer

The senior officer present in an area has authority to fill vacant posts immediately for Service reasons, keeping the Dir P&T/NavSec informed. If the granting of AHR is involved in filling an urgent vacant post, Dir P&T/NavSec's prior approval is required, unless the officer is due substantive promotion within three months.

6644. Selection Criteria for Granting Acting Higher Rank

a. In making selections for AHR, Career Managers should maintain similar principles to those which apply in the case of officers selected for promotion i.e. they should be prepared to accept a degree of assigning inconvenience to ensure that a worthy candidate can take up the assignment. The selection of officers for appointment in the rank of Acting Captain, Acting Commander and Acting Lieutenant Commander (other than those already provisionally selected for promotion) should normally be made from officers who have a high probability of achieving substantive promotion to the next higher rank during the AHR appointment. Over zone officers who narrowly missed promotion to Lieutenant Commander and Commander should be considered only where there is a particular service requirement to which that officer brings the necessary skills. Normally the Career Manager should nominate a minimum of two potential candidates to the appropriate SO1 Career Manager. A note is to be made in the PF of an unsuccessful candidate to provide an audit trail and record the AHR selection process. Occasions will arise when only one suitable candidate can be found to fill a particular specialist post.

b. It is most important that DDPD's approval for AHR is obtained when the best candidate to fill an important post at AHR satisfies the approval criteria at Para 6650 sub para c but does not completely satisfy the AHR selection criteria in Para 6650 sub para a above.

c. AHR may only be granted if all of the following conditions are met:

(1) The post is complemented for the higher rank without alternative. Where the complement allows for alternative ranks, the acting assignment will be in the lowest rank allowed.

(2) No suitable officer of the correct substantive rank is available. 'Suitable' is defined as complying with the Rank/List/Spec/Sub-Spec criteria in the relevant JPA Position and meeting the terms of Para 6652 below.

(3) The period of tenure is expected to exceed 3 months (this rule need not apply when an officer is due substantive promotion within this time).

(4) The officer concerned must be capable of undertaking satisfactorily the full range of tasks of the post to be filled.

(5) The relevant SO1 Branch Manager and SO1 SWPO's advice and approval has been obtained in writing except:

(a) Where an officer has been provisionally selected for promotion to the next higher rank.

(b) When the period of AHR is less than one year prior to automatic promotion due to preserved rights from previous commissions.

It should be noted that advice may depend upon a comparison of the liability and the strength for the category concerned in the period for which AHR is proposed. As a general rule, those graded A, but not selected at the last Board, are highly likely to be promoted next Board and therefore are unlikely to impact the MAuN. Those who are graded B and below are not likely to be promoted next time and therefore this will have a negative effect on the MAuN for the following year. The Naval Personnel Team may still choose to accept a reduction in the MAuN to grant AHR, particularly if the individual has a unique competence. Where agreement cannot be reached between the Career Manager and the Branch Manager, Hd CM, Hd WFP&T will adjudicate.

(6) Suitability for promotion on the most recent Appraisal Report must have been assessed as 'Yes' or higher. AHR will only be granted one step above the substantive rank held.

6645. Acting Higher Rank - Level of Approval

Final approval of AHR is given as follows:

a. **Acting Commodore.** Approval is given solely by the 1SL. When it is deemed necessary to employ a Captain as an Acting Commodore, NA will engage with Hd CM, Hd WFP&T and Dir P&T/NavSec prior to seeking formal approval from 1SL.

b. **Acting Captain.** Approval is given solely by the 1SL. When it is deemed necessary to employ a Commander as an Acting Captain, NA will engage with Hd CM, Hd WFP&T and Dir P&T/NavSec prior to seeking formal approval from 1SL.

c. **Acting Lieutenant, Acting Lieutenant Commander and Acting Commander.** AHR approval is normally given by the relevant SO1 Career Manager providing that the various criteria in Para 6650 sub para c above are met. Should a case fail to satisfy the AHR selection criteria, approval is to be given by Hd CM.

6646. Acting Higher Rank - Procedures to be followed by the Career Manager

a. **When Appropriate.**

(1) When it is intended to assign an officer to a post which is complemented for higher rank without alternative, consideration should always be given to the need to grant AHR. The case should be tested against the principles and criteria identified in the preceding paragraphs. If, having carried out this test, it is considered that AHR is justified, the structural agreement of a Branch Manager and the approval of the relevant authority (see Para 6650 sub para b) are to be sought before the appointment is made. Force majeure should be avoided. For officers already in post (see Para 6658), the agreement is to be sought before the award of AHR is confirmed.

(2) Proposals for award of AHR are to be submitted on the proforma at Annex 66B. The proforma is to be passed via the relevant desk officers for agreement and advice; if agreed at that level, the form is then to be attached to the officer's personal file and passed to the approving authority (see Para 6651). Completed proforma are to be retained with the relevant personal files. A note is to be made in the P/File of an unsuccessful candidate to generate an audit trail and record the AHR selection process.

b. **When Not Appropriate.**

(1) Experience has shown that much correspondence is generated in cases where AHR is considered to be inappropriate. It is important, therefore, that these cases are well documented in the relevant officers' personal files; the position should be made clear (in writing) to both the officer concerned and their Commanding Officer.

(2) In certain cases it may be justifiable to appoint an officer to a post complemented for higher rank (without alternative) and not grant AHR; for example:

(a) When it is for less than 3 months.

(b) When there is clear evidence that the complement is to be downgraded or rank ranged to a lower rank in the near future (Career Managers should ask Commanding Officers to initiate EAF/WAS action to change the Unit Establishment List whenever their knowledge of the post indicates that a lower rank alternative would be suitable).

(3) There will be cases where AHR cannot be granted due to the criteria in Para 6650 sub para c not having been met in full. For example, there is a suitable officer of the correct rank available but the Commanding Officer is not prepared to accept the individual or the only officer available does not have the necessary knowledge or experience to carry out all of the duties involved (i.e. they are not qualified) and it would be inappropriate to give the individual AHR. In these cases, Career Managers are to proceed carefully, having consulted Hd CM, with one of the following options:

(a) Inform the Commanding Officer that the post will have to be gapped (in which case the Commanding Officer may be able to consider the use of substitution pay for an officer within the unit filling another of the complemented posts (see Para 6652 b sub para (4) below)).

(b) Offer to appoint an officer of lower rank as a Temporary Augmentee to undertake part of the duties of the higher rank but leaving the higher rank post empty. In any such case, the Commanding Officer is to be reminded of the need produce a revised set of TORs to give the officer only those tasks which are appropriate to the individual’s knowledge or experience. The officer is to be informed in writing of the reason why AHR has not been granted and the Assignment Order is to indicate specifically that AHR will not be granted. A copy of the Appointment Order is to be retained in the officer's personal file. When assigned as a temporary augmentee, neither AHR nor substitution pay are appropriate.

(c) If the Commanding Officer indicates that they will amend the Unit Establishment List to downgrade the post to a lower rank or to allow for the lower rank as an alternative, written evidence of this should be provided before an assignment is issued. The downgrading must be fair and realistic; an officer should not be disadvantaged thereby, and they must not be asked to undertake duties which are beyond their rank or experience. The Commanding Officer would be expected to review the position’s Terms of Reference and Job Description. The officer is to be informed in writing of the reason why AHR has not been granted and the Appointment Order is to indicate specifically that AHR will not be granted.

(4) It will be clear that officers are not to be put in the position of having to fill a post without holding the appropriate rank. Career Managers are to ensure that the Nomination correspondence to the Commanding Officer explains the situation and states clearly that AHR will not be granted. A copy of this is to be filed in the officer's personal file.

6647. Acting Higher Rank in Common Appointments

Although the same criteria apply to AHR for Common Appointments (CAPPS) as for other positions, Hd WFP&T will not be willing to agree to the award of AHR unless the availability of qualified officers from all relevant specialisations has been carefully checked. Career Managers planning to nominate an officer who would require AHR to meet the rank criterion of a common appointment must discuss the subject thoroughly with SO1 CMCF DEL and SO1 SWPO in advance of the CAPPS committee's consideration of the position.

6648. Upgrading of Post to a Higher Rank

a. If a position is upgraded to a higher rank without alternative and it is intended that the same officer should continue to hold this position until a substantive relief can be assigned, consideration should be given to granting the AHR to the present holder, providing the period exceeds three months due to the needs of assigning notice. If, however, it is considered that the present holder is not suitable to carry out the higher rank duties and it is intended to relieve the individual on this count, AHR is not to be granted. In the latter example, the officer should be re-appointed no later than three months after the post is upgraded even if it means the post being gapped.

b. If, however, the present holder is due substantive promotion to the higher rank, and is judged competent to carry out the higher rank duties without further training, and it is intended that the individual remains in post on this account, AHR will be granted at the discretion of the Dir P&T/NavSec.

6649. Downgrading of Post to a Lower Rank

If a post which is held by an officer granted AHR is downgraded to a lower rank, the officer will be reassigned in the substantive lower rank from the effective date of the revision to the Unit Establishment List.

6650. Sickness while Holding the Acting Higher Rank

An officer who is medically unfit for duty for reasons beyond their own control while holding AHR may continue to hold the rank for a maximum of four months from the date of being downgraded. An officer who remains medically unfit after four months will be reverted automatically to substantive rank. When fit for duty and if not given an immediate effective assignment, the officer will be eligible to resume the former AHR and pay for any periods of courses, passage, leave etc. to which they would have been entitled. Where medical unfitness is for reasons within the officer's own control, the AHR is relinquished from the date of ceasing duty in the assignment.

6651. Relinquishment

Officers retain AHR until reassigned in the lower rank, or until review by Dir P&T/NavSec if an officer receives an adverse report or is placed on Quarterly Report. JSP 754 contains full details of the circumstances and dates covering the relinquishment of an AHR.

6652. Pay

The regulations for pay for AHR, for successive assignments in the AHR, and SUPA may be found in JSP 754 Chapter 2 Section 7. Substitution Pay (SUPA) is neither a CM retention tool nor a substitute for AHR. SUPA is not an entitlement, but may be paid to an officer who is required temporarily to undertake the full range of duties and responsibilities of a post established for an officer or civil servant of a rank/grade higher than their own which is vacant. It follows that an individual shall not be assigned on a full-time basis into a position and claim SUPA for fulfilling the duties of that position. SUPA can be utilised by the employer when an individual from elsewhere in the organisation conducts all the duties to cover a gapped position in the higher rank.

6653. Provisional Selection

The procedure for provisional selection and promotion to Commander and Lieutenant Commander (and equivalents) is designed to increase efficiency by allowing properly planned assignments. This aim will normally be met by timing the assignments of provisionally selected officers to posts complemented for the higher rank to take effect as closely as possible to the due day for confirmation of their promotion. Should circumstances arise that make it necessary to assign an officer to a post complemented for the higher rank before confirmation of the promotion, the grant of AHR will be decided by Dir P&T/NavSec at the time the assignment is made, and will not depend on representations being made by the officer or any administrative authority.

6654. Local Higher Rank

a. On occasion, particularly when working with foreign nations or external organisations, which do not recognise or do not understand the capabilities of RN officers of junior rank, it may be appropriate to grant Local Higher Rank (LHR). This would be particularly apposite if the officer concerned was required to deal extensively with the Armed Forces of countries where officers of broadly the same equivalent rank to British officers were markedly different in terms of prestige, capability or authority. LHR would be similarly apposite when a RN officer was required to work extensively with predominantly civilian organisations with little previous familiarity with the Armed Forces. Accordingly, in circumstances where an officer of the appropriate rank is filling a position (and AHR or substitution pay is not payable), it is possible to grant LHR, provided that the following conditions are satisfied:

(1) LHR is considered by the local commander to be essential to enable those external authorities with which the officer is required to deal in the course of their duties to understand and appreciate the status and capability of the officer concerned. It is envisaged that the external authorities will normally be civilian organisations or non-British military organisations with limited previous contact with the RN. LHR may be granted for the whole or part of an assignment.

(2) LHR is no more than one step above the substantive or Acting Higher rank of the officer concerned.

(3) In exceptional cases, Dir P&T/NavSec may authorise LHR two steps above the substantive rank of the officer concerned, or one step above any held.

(4) The application is approved at the appropriate level:

(a) For OF5 and OF6, application should be made in writing to NA, who will pass it via Dir P&T/NavSec to 1SL, who has authority to approve.

(b) For OF4 and below, application should be made in writing to the respective SO1 Career Manager, who has authority to approve.

b. All applications should deal with the points above, including the duration for which it is required. Officers who are granted LHR will be entitled to wear the uniform of the local rank granted. They will be entitled to the pay, allowances and general service conditions only of their substantive rank (or AHR). LHR will not attract any pension enhancement or confer any other benefit, save that an officer will be entitled to the same uniform grants as those given AHR for the purposes of striping up (and down). LHR will not incur any return of service liability.

c. LHR ceases on the day after the requirement for it lapses, or the day after a post holder ceases to hold the assignment for which it was granted.

d. Employing officers should be careful to note the difference between AHR and LHR. AHR applies where the post is complemented for an officer of a higher rank because the duties are such that an officer of higher rank should carry them out, but no officer of the correct substantive rank is available. In these circumstances, because the officer is carrying out the duties of a higher-ranking officer, it is right that they should receive the financial rewards which accompany AHR. In contrast, LHR may apply in the following circumstances:

(1) An officer is required to fill a position established for a higher rank but is ineligible for AHR (Paid), as outlined in Para 6650. In this instance, the individual may be awarded LHR until such a time that LHR is no longer required, the position is vacated, or the individual becomes eligible for AHR (Paid).

(2) Where the duties of the post can be carried out by an officer of the rank for which the post is complemented, but it is necessary to give the post holder a higher rank so that their status and abilities will be more clearly understood by those with whom they have dealings in the course of their duties.

e. For the purposes of appraisal, officers holding LHR should be assessed in their substantive rank.

6655. Local Lower Rank

Occasionally, for reasons of tradition, certain command posts will be filled by an officer of a higher substantive rank, who will wear the uniform of and be addressed as an officer of lower rank. Local Lower Rank (LLR) will be authorised by Dir P&T/NavSec. Officers holding LLR will take precedence according to their seniority in their substantive rank. Otherwise LLR will be held under the same conditions as LHR. In particular, such officers will be paid and assessed in their substantive rank.

6656. Resettlement and Terminal Leave

a. An officer leaving the Service involuntarily for reasons other than misconduct, e.g. being retired on age grounds or being made compulsorily redundant, continues to hold AHR during the period of Graduated Resettlement Time and Terminal Leave (see JSP 754).

b. An officer vacating an assignment on submitting their notice relinquishes AHR on the date of ceasing duty in that assignment. Officers will not be eligible for AHR whilst on Terminal Leave.

6657. Honorary Rank on Retirement

a. An officer who has held Acting Higher Rank (AHR) may, on retirement, be awarded that rank in an honorary capacity at the Dir P&T/NavSec's discretion provided they have held the AHR for a minimum period of two years immediately prior to retirement. An officer, who has held AHR, wishing to apply for the award of honorary rank must do so in writing to Navy People-HQ SO1 Protocol, requesting the use of the title of the higher rank. SO1 Protocol on behalf of the Dir P&T/NavSec may approve or decline the request. Any contentious cases or cases falling outside of policy will be forwarded to the Dir P&T/NavSec for a decision.

b. An officer who has held Local Higher Rank (LHR) may, on retirement, be awarded that rank in an honorary capacity at the Dir P&T/NavSec's discretion provided they have held the LHR for a minimum period of two years immediately prior to retirement. An officer, who has held LHR, wishing to apply for the awards of honorary rank must do so in writing to Navy People-HQ SO1 Protocol, requesting the use of the title of the higher rank. SO1 Protocol will refer all LHR applications to the Dir P&T/NavSec for a decision.

c. A Reserve officer may also apply for Honorary rank on retirement under the same policy and qualification periods as a and b above but is to apply in writing to Navy People-CM CAPPS RES SO1. Any contentious cases, cases falling outside of policy and all LHR applications will be forwarded to the Dir P&T/NavSec for a decision.

d. The award of honorary rank will entitle the officer to use the title of the higher rank in civilian life and to wear the uniform of that rank on occasions of ceremony. It does not give entitlement to the higher rank if they are required to return to Regular or Reserve service for any reason. All applications for retention of Honorary Rank at OF5 and above will also be subject to 1SL's approval.

ANNEX 66A

SELECTIVE PROMOTION

1. Admiral of the Fleet

Admirals of the Fleet are selected by His Majesty. Such promotions are not normally made in peacetime and, if they are, they will be in an honorary capacity.

2. Flag and General Officers and One Star Officers

a. Selections for promotion to 3 Star and 4 Star rank are made by the Chief of the Naval Staff/First Sea Lord (CNS/1SL) after consultation with His Majesty, and senior MOD and Service colleagues.

b. Selections for promotion to 1 and 2 Star rank are made by CNS/1SL and the Flag and Senior Officers Appointments Board (FSOAB) (see Para 6017 and 6018).

c. Application for promotion to OF6 will be available to a substantive SQEP OF5 with a positive recommendation 1-Up. Applications will be subject to the process described at Para 6018, subject to having completed 12 months in current role before taking up the next assignment. The FSOAB will have the option to vary this rule if required.

d. Application for promotion to OF7 will be available to a substantive SQEP OF6 with a positive recommendation 1-up and a substantive SQEP OF5 with a 'High' recommendation 2-up. OF5s will be able to pitch at a maximum of 2 OF7 roles whilst at that level. Applications will be subject to the process described at Para 6018, subject to having completed 12 months in current role before taking up the next assignment. The FSOAB will have the option to vary this rule if required. Captains and Colonels who wish to apply for 2* posts and have questions regarding pension tax implications should seek independent financial advice before submitting an application.

e. While the majority of Flag promotions invariably will be targeted at the most senior officers, provision exists for earlier selection if considered appropriate by CNS/1SL. The aim is to make promotions to Flag and General Officer rank at a steady rate in order to maintain an even flow through the Flag and General Officer List. Promotion to Flag rank is made on merit (see Para 6508) regardless of branch. In considering application of this principle, however, CNS/1SL and the Navy Board take into account the requirement to achieve a balance of promotions to Flag rank across skill sets that will increasingly be reflected by Career Fields.

f. Presentation of candidates to the FSOAB for promotion follow the principles and procedures set out in Para 6018.

g. On promotion, officers will be employed on Senior Officer Compulsory Retirement (SOCR) terms i.e. unless selected for a further assignment or promotion, compulsory uncompensated early retirement will follow on completion of the appointment or 3 years in rank (whichever is greater) (see Para 5430).

3. Captain/Colonel Rank (OF5)

a. The OF4-5 Career Field (CF) APB will select promotable candidates on merit in their primary CF.

b. Officers selected for the 'pool' who are already in the AHR will be substantively promoted on 1 Jul of the promotion year providing they are properly established in a complement position and there are no short-term plans to relieve them. However, those officers who are deployed in the AHR in short term positions will not normally be entitled to substantive promotion.

c. Officers selected for the 'pool' who are not selected for a suitable position and consequent substantive promotion within the promotion year will be considered afresh by the next board.

d. The outcome of OF4-5 promotion selection process will be released via MyNavyApp/SCIO.

e. As promotion will be dictated by the requirement, matching the needs of vacant posts with the skills and experience of the individual will be a major factor in determining who is actually promoted. In every case, CNS/1SL will consider individual nominations and the outcome will not be predictable or immediate. The final decision to promote and appoint, however, will be a strategic one insofar as wider Service requirements and normal career management considerations, will be the key criteria. Accordingly, officers selected for the 'pool' by the APB are not guaranteed promotion. Depending on the requirement and type of appointment, promotion is only guaranteed following final confirmation of appointment in the higher rank. Furthermore, for those competing against other Service or civilian candidates, promotion to substantive rank will be conditional upon winning the post.

f. The following specific rules apply to officers selected for the 'pool' for substantive promotion to OF5:

(1) The number of selections will be sized to allow a suitable range of Career Fields, competences and backgrounds to be made available to CNS/1SL to appoint; however, with such flexibility and the considerable number of tri-Service competition posts at this level, the requirement will fluctuate during the year and therefore candidates selected for the 'pool' must not assume they will be elevated to the next higher rank.

(2) Promotion to OF5 becomes effective only on taking up appointment in the higher rank. Should the post be disestablished under re-organisation or re-structuring at any stage before the arrival of the incumbent, then that officer will remain in the 'pool', even if an assignment order has been issued.

(3) Individuals selected for the 'pool', who are assigned to Op Tours, will be substantively promoted if the Op Tour preparation, deployment and POTL total 12 months or longer. To avoid any career disadvantage, the substantive rank will be applicable from the first day of the preparation period. Such promotions will count against the MAuN for that year.

g. On substantive promotion to OF5, officers will be employed on Senior Officer Compulsory Retirement terms. For OF5, this is 6 years in rank or their existing retirement age, whichever is the earlier. This policy also applies to OF4s who have been selected for Commission Extension to Retirement Age 60 and subsequently promote to OF5, i.e. they serve 6 years in rank or to their CE60 terminal date, whichever is the earlier.

4. RNR/RMR Officers

a. To satisfy the unpredictable nature of the OF4 requirements in the RNR/RMR, and to ensure that the potential for promotion of all eligible candidates is properly recognised, a process similar to that used for promotion to OF5 is used. For promotions to OF4 , Promotion Boards consider the eligible OF3 populations and produce a 'pool' of 'Promotable' candidates. Hd CM, advised by CMR, will utilise this list to run suitable candidates for appointments that need to be filled in the forthcoming year. The lists generated by the Promotion Boards, which will not be published, will be valid from 1 Jul of the year of the Board to 30 Jun of the year following the Board. Promotions to OF5 will be considered alongside the other Branches as described in Para 3 above.

b. Those officers identified as being ready in all respects now and selected for the 'pool' will be informed via MyNavy/SCIO.

c. Officers selected for the 'pool' by the Promotion Board are not guaranteed promotion. Depending on the requirement and type of appointment, promotion is only guaranteed following final confirmation of appointment in the higher rank. Furthermore, for those competing against other Service or civilian candidates, promotion to substantive rank will be conditional on winning the post. Officers short-listed, who are not selected for promotion by 30 Jun of the year following the Board, will be reconsidered by the next Board providing they remain eligible.

d. Criteria that apply to RNR and RMR seeking assignment in higher rank are the same as those for Regular officers.

5. Chaplain of the Fleet and Deputy Chaplain of the Fleet

Chaplain of the Fleet is a promoted position that engages at Flag and General Officer level and is Head of the Chaplaincy Branch. The Deputy Chaplain of the Fleet is the promoted rank of 'Principal Chaplain Royal Navy' on JPA and operates at 1*/OF5 level. Applications for Deputy Chaplain of the Fleet follow the process described at Para 6018. Application and sifting are followed by the FSOAB, with Sending Church consultation as appropriate. Principal Denominational Chaplains (PDCs) are not promoted posts and are selected by the Sending Church in consultation with the Chaplain of the Fleet.

6. Full Commission Stage (Aviator) Officers

a. Lieutenants RN and Captains RM on FCS(A) remain eligible for promotion to Lieutenant Commander and Major respectively and will compete alongside other Lieutenants RN and Captains RM on a Career Commission Stage (CCS), Career Commission (CC), Full Commission Stage (FCS) or Full Term Commission (FTC). If selected, they may elect either to remain on FCS(A) or, subject to manning requirements, transfer back to the relevant CCS/CC or FCS/FTC. Officers selected for promotion are required to notify their Career Manager in writing of their intentions within 20 days of the promotion signal.

b. Lieutenant Commanders and Majors RM on FCS(A) are eligible for promotion to Commander and Lieutenant Colonel respectively, and will compete alongside other Lieutenant Commanders and Majors RM on a CCS/CC and FCS/FTC. If selected, they can accept promotion and will be transferred back to the relevant CCS/CC or FCS/FTC. Officers who elect to remain on FCS(A) and decline promotion will not be considered at the annual promotion selection board following refusal. Officers will subsequently be presented to promotion selection boards providing they continue to meet the eligibility criteria. Officers selected for promotion are required to notify their Career Manager and Officer Promotions Section in writing of their intentions within 20 days of the promotion signal.

CHAPTER 67

RATINGS POLICY - SELECTIVE PROMOTION

SECTION 1 - BACKGROUND

6701. Background to Selective Promotion

a. In the non-technician, Engineering Technician and (from 1 Nov 06), Communications Technician specialisations, ratings join the Service in their basic branch designators (BD), whatever their age, and progress through the rate/rank structure from Able Rating to Warrant Officer 1 (WO1) in accordance with the qualifications dictated by individual specialisation requirements shown in Chapter 74 to Chapter 94.

b. From 1 Jan 24, medical personnel[1] are to refer to JSP 755 Part 2 Vol 2 – Unified Career Management (UCM) harmonised TACOS. Relevant to all medical personnel joining after 1 Jan 24. Personnel in-Service or undergoing Phase 1 or 2 training on 1 Jan 24 will remain on sS legacy TACOS. Personnel promoted post 1 Jan 24 will transfer to harmonised UCM TACOS. Promotion for medical personnel on sS TACOS will be subject to the most beneficial between harmonised UCM or legacy e.g. personnel will enter promotion zone at the earlier of the two timings and exit the promotion zone at the latest of the two dates.

c. Due to the training and attainment of qualifications required early in a rating's career, there is a need to differentiate between those qualified in their specialist area to conduct the full range of specialist and technical duties of the Able Rate and those still under training. Accordingly, the expertise of Able Ratings is recognised by use of the basic and trained BD, such as AB(WS)2 and AB(WS)1. Throughout this Chapter, 'BD2' and 'BD1' are used respectively. Able Ratings should be addressed as ET, Diver etc. as appropriate. In the remaining technician specialisations, only promotion to the rank of WO1 is by selection. Advancement to AB1, and to rates up to and including CPO in the case of Medical Technicians and legacy Communications Technicians, is time and qualification based. Further information can be found in Chapter 68.

d. Promotion is based on the concept of 'select-train-promote', achieved by Selection Boards selecting qualified ratings to be assigned to professional and/or leadership courses in the intervening period prior to a Common Promotion Date (CPD):

(1) For promotion up to and including Petty Officer level, there can be up to 3 Boards per year (31 Mar, 31 Jul and 30 Nov), depending on individual branch/specialisation requirements, with the CPD falling 12 months after the Board Date. Successful completion of the Leading Rates' Leadership Course (LRLC) and Senior Rates' Leadership Course (SRLC) (including the reduced syllabus courses run for ratings who are not Medically Fully Deployable is mandatory for promotion to LH and PO respectively.

[1] Medical Assistants remain subject to sS requirements shown in Chapter 87.

(2) For promotion to CPO, ratings are selected for promotion on a CPD of the next 31 Mar but one, e.g. the 2025PO-CPO Board will select individuals for promotion on CPD 31 Mar 27.

Promotion to WO1 will be on a Promotion Date (PD) that is the start date of a WO1 qualifying assignment during the promotion year (1 Apr – 31 Mar following the board).

e. Notwithstanding the receipt of an Assignment Order, actual attendance on training courses prior to the CPD will be subject to Service requirements. All fully qualified individuals will be confirmed in the higher rate on their nominated CPD, however, on successful completion of the training, ratings will become eligible to fill an established post in the higher rate on an acting basis. Individuals who are not able to complete the training by their CPD will be treated in accordance with the rules set out in Para 6714.

SECTION 2 - PRE-SELECTION BOARD ISSUES

6702. Preparation for Selection Boards - Promotion Authority

Head of Royal Navy Promotions (Hd Proms) provides the Secretary for all Selection Boards and maintains Promotion Dossiers. The latter will be maintained for all personnel on the trained strength of the RN and will form the basis for consideration by Selection Boards. Dossiers will be raised on receipt of an individual's first Appraisal Report and will contain Appraisal Reports along with copies of professional and leadership course reports, as applicable. The same dossiers will also be used by Engagement Stage 3 (ES3) Boards where ratings are eligible for such consideration.

6703. Eligibility for Selective Promotion

a. The eligibility criteria shown below are common throughout the Ratings Corps, however, individual branch/specialisation Chapters (74-94) may include additional requirements or contain further clarification. Should conflict exist between this Chapter and regulations in other Chapters of Part 8, the information in this Chapter is to take precedence.

b. It is an individual rating's responsibility to ensure that JPA correctly reflects all competences achieved by their Common Reporting Date (CRD) or Streamlined Eligibility Date (SED). Individuals are advised to check the relevant branch flowcharts at Chapters 74-94 or contact the Ratings' Promotion Section for advice. Divisional Officers are to conduct routine checks accordingly. Ratings must satisfy the following criteria and will not be presented to Promotion Selection Boards if JPA records do not reflect attainment of the qualifications/competencies where applicable:

(1) **Professional Knowledge.** Must have passed a Provisional Examination (PE) (or equivalent) for the higher rate, where applicable.

(2) **Promotion Recommendation.** To be considered for promotion, ratings must have received a 'Yes' or higher recommendation for promotion 1 Rank Up in their current substantive rate. In those branches where streamlined promotion is adopted, the SEDs of 31 Jan, 30 Apr and 30 Sep in any year will apply – see also Para 6703 sub para c. If a streamlined promotion candidate has been awarded a positive recommendation for promotion (as above) in the last SJAR and, since that report, has become eligible in all other respects for selection, they will be considered at the termly selection board.

(3) **Leadership Training.** To be considered for promotion, candidates must have successfully completed the relevant Leadership Course for their current rate. For example, a rating must have completed a LRLC to be considered for PO and an SRLC to be considered for CPO. Details should be recorded on JPA as competence 'Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|' and 'Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|' or similar.

(4) **Notice.** To be considered for promotion, candidates who have submitted their Notice to leave must still be serving on the day after the relevant Promotion Board sits.

(5) **Engagement.**

(a) **Promotion up to CPO**. To be considered for promotion, candidates must be serving on an Engagement Stage 1 or 2, Full Career or Open Engagement (OE1), or an Engagement Stage 3, Extended Career or Second Open Engagement (2OE) that expires after the CPD in question. For example, to be considered by the Jul 25 Board (selecting for 31 Jul 26, individuals must be serving on an ES1/ES2/FC/OE1 or ES3/EC/2OE that is due to expire on or after 1 Aug 26.

(b) **Promotion to WO2**. Recognising that selection for promotion to WO2 may bring a tailored offer of ES3, to be eligible for selection, personnel must be serving on ES2/FC/OE1 or ES3/EC/2OE that expires after 1 Apr of the year of the board. Where the engagement expiry date is before the Common Promotion Date (CPD), the Service Person must be age 59 years or younger at the CPD for them to be eligible for further ES3, and promotion will be subject to accepting the ES3 offer.

(c) **Promotion to WO1**. To be eligible for selection, personnel must be serving on ES2/FC/OE1 or ES3/EC/2OE that expires after 1 Apr of the year of the board.

(6) **Specialist/Long Training.** To be considered for promotion, candidates must not have started training for Communications Technician, Medical Technician, Naval Nurse, Dental Hygienist or a sideways entry specialisation. POs who have commenced technician training courses, or the course to become a Naval Nurse, are not considered for promotion to CPO in their source specialisation. POs selected for promotion who are candidates for such training, will be given the option of refusing promotion in order to await their respective training. If a PO, who has refused promotion, is subsequently removed from a technician training course, the facts are to be reported to the NAVY PEOPLE-PROMS Dep Hd for a decision about the rating's future promotion.

(7) **Role Performance Statement (RPS) Check.** Under streamlined promotion, the RPS Check is a part practical, part oral procedural test to check that minimum baseline standards are being maintained by ABs and LHs. Ratings are required to undertake an RPS Check at some point each year and to remain in-date on an annual basis. With the introduction of SJAR, two new 'Annual RPS Check' competencies have been created on JPA, namely 'CMS Annual RPS Check AB1(Navy)' and 'CMS Annual RPS Check LH(Navy)', each with a Pass, Waiver or Fail category and End Date. For ABs and LHs in the Engineering and Medical branches, the appropriate JPA 'Annual RPS Check' field must be entered on JPA by unit HR personnel, followed by subsequent CRDs and SEDs as required in the branch instructions. For branches that require a 'one-off RPS Check', the appropriate JPA competence that gives them that 'one-off RPS check' will continue to be applied.

(8) **Other Criteria.** To be considered for promotion, candidates must comply with any other pre-selection criteria contained in the individual specialisation flow diagrams for that rate by the CRD or SED.

c. **JPA Records.** As the Ratings' Promotion Section will only present to Selection Boards those individuals who are eligible according to JPA, Reporting/Divisional Officers and individuals must input promotion eligibility data on JPA by the individual's CRD and, where streamlined promotion is in force, at the latest by the appropriate SED of 31 Jan, 30 Apr or 30 Sep.

d. When establishing and verifying eligibility for consideration by promotion Selection Boards, the Ratings' Promotion Section will react only to data input on JPA by CRDs and SEDs. The relevant branch Chapters detail the specific JPA data entries to be made, primarily in the JPA competences area, when an individual achieves a particular promotion eligibility requirement. If the relevant JPA fields are not correctly completed, eligible ratings risk not being presented to the Board. In some instances, the JPA competences area offers more than one competence for essentially the same course and/or qualification. This is often simply a consequence of titles changing over the years.

In this event, the Ratings' Promotion Section will conduct an eligibility search for all JPA competences that relate to a particular course or qualification. There is, therefore, no need for ratings to make arrangements to replace their existing JPA competence with the current one.

Table 67-1. Naval Ratings - Report Dates and Board Seasons

Rate/Rank	Common Reporting Date	Promotion Selection Board Window (for next rank)
Able Rating	30 November	March, July and November
Leading Hand	31 January	March, July and November
Petty Officer	31 March	September - October
Chief Petty Officer	30 September	February - March
Warrant Officer 2	30 September	February – March
Warrant Officer 1	31 July	N/A
Junior Rating ES3	As above	September – November
Senior Rating ES3	As above	February – March

6704. Eligibility for Promotion in Source Specialisation Whilst on a Specialist/Long Training Course

a. Selection Boards will not consider ratings undergoing specialist training to be a Communications Technician, Medical Technician, Naval Nurse, Dental Hygienist or any other that necessitates a change in arm or specialisation (including those that are sideways entry). Ratings who have commenced the UY(E) University of Portsmouth Degree training course will not be considered.

b. Volunteers for specialist training will continue to be considered for promotion in their source specialisation. If they are selected and pass the requisite professional and leadership courses before starting their specialist training, they will be promoted to the higher rate (on an acting basis) if employed in a position that requires the higher rate and/or will be confirmed on the CPD (if reached before commencing their specialist training). If, on the day that an individual starts a specialist training course they have not yet obtained the qualifications needed for promotion, however (or they are qualified but have not reached the CPD), they will:

(1) If selected for promotion in their source specialisation, forfeit their selection and will not be considered further for the duration of the course.

(2) If not selected for promotion in their source specialisation, not be considered for promotion in their source specialisation for the duration of the course.

c. If, having elected to start a specialist training course instead of awaiting promotion, an individual subsequently opts to leave the course or fails it, the facts are to be reported to NAVY PEOPLE-PROMS Dep Hd for a decision about the rating's future promotion. Each case will be considered on its merits, however, the defining principles will be as follows:

(1) If an individual opts out of or fails the course prior to the CPD for which selected, the promotion should stand. Promotion to the higher rate (and therefore seniority) will count from the CPD if all the required criteria have been met.

(2) If opting out or failing outside the timeframe, the promotion should be forfeited, and the rating reconsidered at the next Board if eligible in all respects for the higher rate.

d. **Artificer Candidates.** Rules for former Artificer Candidates undertaking the Artificer Qualifying Course are archived in BR 1066 Change 19 (available via application to NPGO).

6705. Selection by Board

a. Selection by Board is the normal process for identifying individuals who are suitable for further training/promotion. Selection Boards will be convened by Hd Proms, in accordance with the table below - a standard Board having a Chairperson and two members.. Composition of Boards is as shown in the table below which shows the minimum rank for each Board position.

Table 67-2. Board Composition.

Promotion	Chairperson	Members
AB1-LH	Lt Cdr	Lt/WO1/WO2/CPO
LH-PO	Lt Cdr	Lt/WO1/WO2
PO-CPO	Cdr/Lt Cdr	Lt Cdr/Lt/WO1/WO2
CPO-WO2-WO1	Captain	Cdr/Lt Cdr

The Chairperson will usually be the senior member on the Board. One member will be drawn from the relevant branch/specialisation, with the other drawn from a different specialisation. The board will have a mix of male and female members.

b. In order to meet unexpected shortfalls arising after the Board has convened, a limited number of reserve selections may also be made at the same time as the main selections.

c. Observers (at CPO level and above) are welcomed at these Boards in order to gain a wider appreciation of the process. A maximum of two individuals is permitted.

SECTION 3 - POST-SELECTION BOARD ISSUES

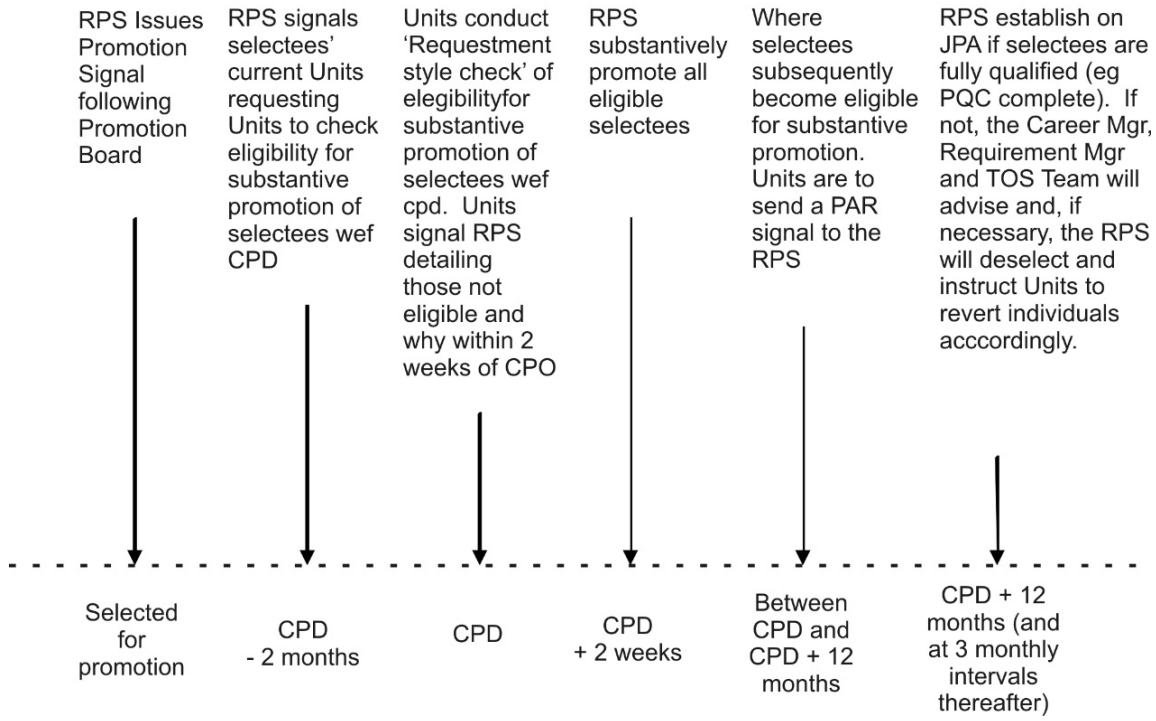
6706. Promulgation of Names of Successful Candidates

a. The names of successful candidates will be promulgated, alphabetically, shortly after each Selection Board. When an individual is selected for promotion, they are to be interviewed by their Divisional Officer within 28 days of the publication of the promotion notification. On completion of the divisional interview, individuals accepting promotion should complete the proforma at Appendix 1 to Annex A. Career Managers will select individuals for PQC attendance in merit order. The timing of PQC attendance will allow for both the service need and personal preference/factors, but individuals will be required to accept and formally acknowledge their selection. Career Managers will update CRM notes within JPA after PQC negotiation. Should an individual not accept any of the PQC dates offered, then this will constitute a refusal of promotion. The Promotion Process flow diagram at Annex A will assist the DO in navigating the promotion process. Wherever possible, CMs aims to assign successful candidates to appropriate leadership and professional courses in the period up to the CPD and then, as soon as possible afterwards, into a post in the higher rate. CMs will endeavour to assign all ratings to relevant courses on an opportunity basis but the needs of the Service remain paramount. Every effort will be made by CMs to link a professional and leadership course (where necessary) as a training package. Whilst allocation to a Professional Qualifying Course (PQC) will normally be undertaken automatically by the CM, attendance on a leadership course is, by its nature, more volatile and successful candidates should be encouraged to state their availability or preference via JPA. This further identifies that arrangement of suitable training is the common responsibility of the CM, the selectee and their CO.

b. The selections are intended to meet the expected vacancies arising during the period leading up to the CPD. To meet unexpected shortfalls, a limited number of Reserve selections will be made but will not be announced unless subsequently called forward. Reserves who are not called forward will be considered for re-selection at the subsequent Boards if still eligible for promotion; any previous reserve selection will be lost. If a sudden vacancy occurs prior to the CPD and after the Board for the next CPD has already convened, such a vacancy will necessarily be filled, temporarily, by use of the acting higher rate.

6707. Promotion Authorisation Request Procedure

a. The Promotion Authorisation Request (PAR) process for ratings selected for promotion to LH and above is summarised below:



b. Two months prior to the CPD, the Ratings' Promotion Section will signal units to verify the eligibility of ratings selected for substantive promotion on that CPD. It is important that units conduct normal 'Requestmen style' checks (see sub para (1) to sub para (11)), including obtaining the CO's approval, on all selected ratings. Units are then required to inform the Ratings' Promotion Section, by signal, within 2 weeks of the CPD, of any rating that does not meet the requirements listed at sub para (1) to sub para (11). Furthermore, action in accordance with Para 6711 should be commenced if the reason for the withholding of promotion is considered applicable. Where the rating subsequently becomes eligible for substantive promotion between that date and the nominated CPD+12 months and meets the requirements listed at sub para (1) to sub para (11), the rating's unit at the time is to signal the Ratings' Promotion Section accordingly using the PAR format. Individuals will be eligible for promotion to the higher rate if they:

(1) Are professionally qualified.

(2) Are educationally qualified.

(3) Have completed the required Service Qualification.

(4) Have been declared medically fit (pregnancy does not debar female ratings from promotion or advancement).

(5) Have more than SIX months service following a Career Check.

(6) Have the experience and personal attributes required.

(7) Have passed leadership training.

(8) Have the power to command subordinates.

(9) Are recommended as suitable to carry out the duties of the higher rate.

(10) Meet particular branch/specialisation requirements e.g. sea service.

c. At CPD+2 weeks, if no negative communication has been received, the Ratings' Promotion Section will substantively promote those qualified and eligible with effect from their CPD and will update JPA records accordingly.

6708. Duties and Responsibilities of the Higher Rate

a. The explanation of duties and responsibilities of the higher rate occurs either at the Royal Naval Leadership Academy HMS COLLINGWOOD, as part of the Leadership Course, or at the School conducting the PQC (whichever comes last).

b. The CO (or Head of Department) may wish to remind newly promoted ratings of the duties and responsibilities of their new rate. The opportunity to do this could be when they pay their joining call on the CO/Head of Department.

c. Prior to assuming the next rate, all personnel have a responsibility to ensure they meet the normal promotion criteria (see Para 6707).

d. **Certificate of Promotion.** Leading Hand, Petty Officer and Chief Petty Officer Certificates of Promotion are managed by the Command Warrant Officers and are available for duplication from the Navy Command Executive Team (NCXT) Web Site. For units unable to access the RN Web, hard copies are available from: The Command Warrant Officers, Leach Building, Whale Island, Portsmouth, PO2 8BY.

e. COs may use their discretion when arranging the occasion for presentation, but are to ensure that these certificates are presented in a timely fashion and manner which appropriately reflects the individual's achievements through their selection for promotion, and provides inspiration to others.

6709. Promotion to Warrant Officer

a. Candidates selected for promotion to WO will be offered ES3, only when required, to enable them to complete 5 years' service in their new substantive rank or to age 60 (whichever is the sooner). Any offer of ES3 for promotion will be calculated from PD for promotion to WO1, and from CPD for promotion to WO2. Where a WO2 selected for promotion to WO1 has an engagement expiry date before the PD, Career Managers can use Extensions of Service to extend them to the PD. Any offer of extended service is conditional on a rating accepting promotion to WO, and the extension will be removed if promotion is subsequently refused. There is no requirement for ratings to re-engage on an ES3 as a condition of promotion, except where the current engagement expires before the CPD or PD. This includes RM other ranks with a RN specialisation (e.g. Catering Services, Aircrew (CDO) and Medical Assistant (CDO)).

b. After all WO Selection Boards have finished sitting, the procedure will be as follows:

(1) Commanding Officers should e-mail RN Ratings Promotions Office Audit Manager (NAVY PEOPLE-Proms Audit Mgr) of candidate's intention to accept promotion. For CPOs accepting promotion to WO2, the return should also state full name (including all first names) and honours/awards (MBE/OBE etc) to assist in eventual preparation of Warrant Parchment.

(2) Where promotion includes a tailored offer of ES3, personnel will automatically have their contract extended by Proms Audit Section (PAS) unless they reject the offer and advise PAS of their decision by the deadline published in the notification for WO2, or by the PD for selection to WO1.

c. Following acceptance, promotion will be authorised by PAS as follows:

(1) Promotion to WO2: Full eligibility checks will be carried out by PAS prior to the CPD. Any fully qualified selectee assigned to WO2 position before the CPD will normally be granted acting (paid) rank iaw the Assignment Order.

(2) Promotion to WO1: The WO1 selection boards will deliver a 'bank' of selected candidates and Career Managers will match individuals to jobs during the promotion year, which runs from 1 Apr following the board, until 31 Mar the following year. Career Managers will notify PAS of intended assignments and PAS will promote fully qualified selectees on a Promotion Date (PD) that is the start date of a WO1 qualifying assignment. Those who have not been assigned, will be promoted at the end of the promotion year on 31 Mar. Where a fully qualified selectee takes up a qualifying assignment before the beginning of the promotion year (1 Apr), they will normally be granted acting (paid) rank iaw the Assignment Order

6710. Withholding of Promotion after Selection

a. If, after a rating's name has appeared on a promotion list, a CO considers that, they are no longer recommended and that promotion should be withheld, the following procedures are to be followed:

(1) An Appraisal Report (Special Circumstances) is to be raised on JPA giving reasons for recommending that a rating's promotion should be withheld. Simultaneously, a letter outlining the circumstances and confirming the raising of the appraisal is to be sent to the Navy Command Headquarters Casework Cell, copy to the Ratings' Promotion Section.

(2) The Casework Cell will approve the recommendation (or not, as appropriate), informing the Ratings' Promotion Section of the decision.

(3) If the recommendation to withhold promotion is approved, the rating's selection will remain in abeyance and direction may be given by the Navy Command Headquarters for the vacancy created to be filled from the reserve list.

(4) A rating, whose promotion has been withheld, may be recommended for promotion by the CO at any time within 6 months of the date on which the withholding of promotion was approved, or of the effective date of the Promotion Order, whichever is the earlier. This requires approval by Navy Command Headquarters.

(5) If the recommendation in Para 6711 a sub para (4) is approved, the effective date of promotion will be the date of the CO's recommendation or the CPD, whichever is later.

(6) If, six months after the date of the approval to withhold promotion or the CPD, the CO is still not prepared to recommend the rating's promotion, the selection for promotion will be cancelled.

(7) When a rating, whose promotion has been withheld, is subsequently recommended for promotion or when promotion is finally refused, a further Appraisal Report is to be rendered. This will be extracted by the Ratings' Promotion Section for inclusion in the rating's promotion dossier.

b. An individual will not be eligible for substantive promotion until the CO subsequently recommends the individual for such promotion. If eventually recommended and if eligible in all other respects, the individual will be substantively promoted and entitled to seniority and pay from the date of the CO's recommendation for promotion. If, however, 6 months after the date of the approval to withhold promotion or the CPD, the CO is still not prepared to recommend the rating's promotion, the selection for promotion will be cancelled. Accordingly, the Ratings' Promotion Section will deselect the rating.

6711. Candidates Refusing Promotion

a. Promotion refusal will be permitted at any stage, but the process must involve both the Command and the Career Manager to ensure the removal of any bias in this critical decision making process. Refusal on welfare, medical or compassionate grounds (as assessed by the unit CO), may not constitute a removal of promotion in its entirety, but should afford an individual the option to defer promotion for 12 months. If an individual wishes to deselect themselves they are to be interviewed by their Divisional Officer and respective CM[2], using the proforma at Appendix 2 to Annex A, before final approval for de-selection by their Commanding Officer. Completed proforma are to be forwarded to the appropriate CM and NAVY PEOPLE-Proms Audit Mgr. The interview process is to ensure an individual understands the full impact their decision has on their career and promotion eligibility, as well as seeking to identify options to encourage the promotion.

[2] As a minimum this should be conducted by telephone.

b. Ratings/Other Ranks who, following selection for promotion, refuse such promotion (including a refusal to attend the necessary training courses) will be deselected. Ratings/Other Ranks will automatically be removed from the next annual promotion selection board following promotion refusal. Ratings/Other Ranks who belong to branches which convene more than one promotion selection board per year will automatically be removed from the next two promotion boards following de-selection. However, where there has been a change in circumstances and a Rating/Other Rank considers themselves ready to accept future promotion, application can be made through their CoC to the Ratings' Promotion Section, who can authorise presentation at future promotion boards. In the case of notice givers, approval would be subject to withdrawal of that notice.

c. Ratings, selected for promotion, who are candidates for long training courses (see Para 6704), are to be given the option of refusing promotion in order to await technician training. In the event of a rating, who has refused promotion, subsequently being removed from these courses, the facts are to be reported to SO1 Ratings' Promotions for a decision on the individual's future promotion.

d. If an individual declines promotion to WO after accepting the promotion under the procedure in Para 6709, the CO is to inform the Ratings' Promotion Section.

e. If an individual who has submitted their Notice to leave the Service is selected for promotion, it will be conditional on the individual choosing to withdraw their Notice and that withdrawal being approved by the Career Manager.

f. If an individual submits their Notice for premature release (including applications to leave at an optional exit point) during the period between their selection for promotion and being confirmed in rate, they will automatically be presumed to have refused promotion and their selection will be cancelled. If an individual is fully qualified and is carrying out the duties of the higher rate on an acting basis, invariably, they will be allowed to retain the acting higher rate until leaving the Service providing that they continue to fill the higher rate position.

6712. Promotion Whilst on Unpaid Leave or a Career Intermission

a. Qualified ratings who, whilst fully eligible for consideration, commence unpaid leave or a career break before or during the time a Selection Board convenes, will remain eligible for selection. If unpaid leave is anticipated for more than 3 months (a Career Intermission), a Special Report is to be raised unless a routine report has been submitted within the last 3 months (to ensure completeness of reporting).

b. Time spent on unpaid leave or a Career Intermission does not count for promotion purposes. A rating's seniority in the rate will be post-dated by an amount equal to the time spent away. The adjusted seniority date is to be confirmed on JPA after the rating's return from unpaid leave or a Career Intermission.

c. If a rating is selected for WO2 or WO1 during a period of unpaid leave or career Intermission, the Ratings' Promotion Section will write to the candidate to obtain a Statement of Acceptance/Intent on return from unpaid leave. This statement will be held until confirmed on JPA within 2 weeks of the rating's return to duty. If the unpaid leave or Career Intermission starts during the year after selection and extends beyond the CPD, the effective date for promotion and seniority will be the date of return subject to normal regulations.

SECTION 4 - FACTORS IMPACTING UPON THE TIMING OF PROMOTION

6713. Ratings Selected for Promotion Since CPD 31 Mar 09

a. **Fully Qualified for the Higher Rate.** Ratings who, according to JPA, have completed the mandated career (also referred to as professional) and leadership training (if required), and are eligible for promotion in all other respects will be substantively promoted on their nominated CPD by the Ratings' Promotion Section. Individuals who qualify fully for the higher rate in advance of their nominated CPD will continue to have the opportunity of filling a position in the higher rate on an acting basis prior to their formal promotion. Such time will not count for promotion seniority purposes. For guidance in relation to those ratings who are not fully qualified for the higher rate on their CPD, refer to the rest of this paragraph.

b. **Not Fully Qualified for Promotion on CPD but Completed a Leadership Course - Entitlement to Confirmation in Higher Rate from CPD.** Ratings who, according to JPA, have completed leadership training but not completed career training by their nominated CPD due to **Service reasons**, being defined as:

(1) Operational Reasons - exigencies of the Service including the short-notice deployment of a ship to an operational theatre and military aid to the civil authorities.

(2) Workforce Constraints - for example, where a ship/unit cannot release an individual to attend a training course due to workforce shortages.

(3) The Service's inability to provide the training required in time e.g. due to a lack of available places or delays in attending or completing a training course arising from the restructuring of the professional training pipeline.

or as a result of **pregnancy and Maternity Leave** (as defined in JSP 760) will, if qualified and eligible for promotion in all other respects, be promoted by the Ratings' Promotion Section on the CPD (see Para 6707 for details of the Promotion Authorisation Request (PAR) procedure to be adopted).

c. **Not Fully Qualified for Promotion on CPD but Completed a Leadership Course - Non-entitlement to Confirmation in Higher Rate from CPD.** Ratings who, according to JPA, have completed leadership training but not completed career training by their nominated CPD due to:

(1) Non-Service Reasons Outwith an Individual's Control, defined as:

(a) Being withdrawn prior to or during a training course on compassionate or welfare grounds.

(b) Being placed in a reduced medical category as a result of injuries sustained:

(i) In preparation for or during a Leadership Course.

(ii) Whilst participating in representative sport.

(iii) Whilst on duty.

(c) Being placed in a reduced medical category as a result of illness.

will not qualify for substantive promotion on the CPD. Such ratings will, however, if completing the outstanding training within 12 months of their CPD, be substantively promoted on the day after completing their training, if eligible for promotion in all other respects, and be entitled to promotion (pay and seniority) backdated to their CPD. On qualifying fully, a PAR signal (see Para 6707) should be sent to the Ratings' Promotion Section by the rating's unit (via the CO) seeking JPA action to reflect the higher rate and to apply the award of backdated promotion.

(2) Non-Service Reasons Within an Individual's Control, defined as:

(a) A period of approved unpaid leave

(b) An approved career break

(c) If being back-classed for academic reasons or having failed a professional course, they are given another chance

(d) If, having been denied promotion on their CPD for service reasons listed at Para 6713 b sub para (1), they fail to complete the first course(s) to which assigned after the CPD (assuming that they are given every opportunity to complete the course and their failure does not lead to deselection) but complete the course(s) at the second attempt within the 12 months allowed

(e) Being subject to a Career Check

(f) Removal from a Professional or Leadership Course on grounds of misconduct or for other disciplinary reasons; the outright failure of, or refusal to attend, such courses; failure of a Leadership Course twice for commitment/attitude/preparation (CAP) reasons.

will **not** qualify for substantive promotion on the CPD. Such ratings will however, if completing the outstanding training within 12 months of their nominated CPD, be substantively promoted, if eligible for promotion in all other respects on the day after becoming fully qualified for promotion. Such individuals will not, however, be entitled to promotion backdated to the CPD. On qualifying fully, a PAR signal (see Para 6707) should be sent to the Ratings' Promotion Section by the rating's unit (via the CO) seeking JPA action to reflect the higher rate.

d. **Not Fully Qualified for Promotion on CPD and Not Completed Leadership Course**

(1) **Pregnancy or Maternity Leave.** Ratings who, according to JPA, complete the mandated career training but not leadership training, or indeed neither, by their CPD as a consequence of pregnancy or maternity leave will be entitled to receive the acting higher rate from their CPD. A PAR signal should be sent by the rating's unit, via the CO, to the Career Manager or Career Management Cell (as appropriate) for action, copy to the Ratings' Promotion Section. If, after their CPD, leadership training is completed prior to career training, the rating will, if eligible for promotion in all other respects, be substantively promoted and be entitled to pay and seniority backdated to their CPD.

(2) **Service Reasons.** Ratings who, according to JPA, complete the mandated career training but not leadership training, or indeed neither, by their CPD as a consequence of Service reasons (as defined at Para 6713 sub para b) will not qualify for substantive promotion or the acting higher rate on the CPD. Such ratings will, however, on completion of the outstanding training within 12 months of their CPD, be eligible for substantive promotion if eligible for promotion in all other respects and be entitled to apply to the Ratings' Promotion Section for backdated promotion to their CPD. Where, after the CPD, leadership training is completed prior to career training, the individual will, if eligible for promotion in all other respects, be eligible for substantive promotion and be entitled to backdated promotion to their CPD.

(3) **Non-Service Reasons Outwith an Individual's Control.** Ratings who, according to JPA, complete the mandated career training but not leadership training, or indeed neither, by their CPD as a consequence of non-Service reasons outwith their control (as defined at Para 6713 c sub para (1)) will not qualify for substantive promotion or the acting higher rate on the CPD. Such ratings will, however, if completing the outstanding training within 12 months of their CPD, be substantively promoted if eligible for promotion in all other respects and be entitled to backdated promotion to their CPD. Where, after the CPD, leadership training is completed prior to career training, the individual will, if eligible for promotion in all other respects, be substantively promoted and be entitled to backdated promotion to their CPD.

(4) **Non-Service Reasons Within an Individual's Control.** Ratings who, according to JPA, complete the mandated career training but not leadership training, or indeed neither, by their CPD as a consequence of non-Service reasons within their control (as defined at Para 6713 c sub para (2)) will not qualify for substantive promotion or the acting higher rate on the CPD. Such ratings will, however, if completing all the outstanding training within 12 months of their CPD, be substantively promoted if eligible for promotion in all other respects and be entitled to pay and seniority in the higher rate from the day after becoming fully qualified for promotion. Where, after the CPD, leadership training is completed prior to career training, the individual will, if eligible for promotion in all other respects, be substantively promoted and entitled to seniority from the day after becoming qualified for promotion.

(5) If, having failed to complete the mandated career or leadership training, or both, by their CPD, a rating qualifies fully within 12 months of the CPD, PAR signal action (see Para 6707) should be taken by units to reflect the higher rate and to award backdated promotion where appropriate.

e. **Failure to Complete the Required Training within 12 months of CPD.** Ratings who:

(1) Were substantively promoted on their CPD but had not completed the required professional training due to Service reasons or pregnancy/maternity leave (see Para 6713 sub para b).

(2) Had completed their leadership training by their CPD but were unable to complete the required professional training for non-Service reasons, as shown at Para 6713 c sub para (1) and sub para (2)).

(3) Had not completed a leadership or professional course, or both, by their CPD (Para 6713 sub para d).

must complete any outstanding training within 12 months of their CPD or be reverted (where applicable) and deselected on the instruction of the Ratings' Promotion Section. The Ratings' Promotion Section may, however, where requested by an individual's chain of command, delay the taking of such action for a further six months if it is clear that the mandated training has not been completed for Service reasons (Para 6713 sub para b) or non-Service reasons outwith an individual's control (Para 6713 c sub para (1)) and it is anticipated that the outstanding training will be completed within the discretionary period. In addition to this, a further six months may, exceptionally, be granted where pregnancy and maternity leave have prevented the completion of training; when calculating training time, periods when an individual is pregnant or on maternity leave are discounted. NAVY PEOPLE-PROMS Dep Hd may authorise a six-month extension for ratings selected for POET(ME/MESM), POET(WE/WESM), LET(ME/WE), LET(MESM/WESM) and LAET(M/AV) if their attendance on the Professional Qualifying Course has been delayed for Service reasons. In every case, ratings who complete the outstanding training within the extra time awarded will be entitled to have their promotion backdated to the CPD for which selected. Appropriate PAR signal action (see Para 6707) should be taken to inform the Ratings' Promotion Section.

UNDER NO CIRCUMSTANCES WILL RATINGS BE PROMOTED TO THE HIGHER RATE IF THEY HAVE NOT COMPLETED A LEADERSHIP COURSE.

(Rules relating to the promotion of ratings selected for CPDs before 31 Mar 09 are archived in BR1066 Change 19).

6714. Medical Fitness

Ratings/ORs who are medically downgraded, and those who are likely to be categorized as permanently unfit for sea service or be restricted otherwise medically in the future, will normally remain eligible for selective and non-selective promotion. The following principles apply:

a. **Personnel with a Permanent JMES.** All individuals who have been awarded a permanently reduced JMES code by RNMBOS or by ROHC will be assessed by the RNMEB for their suitability for promotion as part of their determination in retaining an individual in service. This determination will take into account age, past experience, seniority, the nature and extent of the medical limitations, and types of assignment for which the individual might be required to undertake in the current rank and higher ranks if selected for promotion or due for advancement. By default, the assessment will assume that retention in service will also include the potential for service at the next higher rank/rate. If the RNMEB is unable to offer continued employment in a higher rank or rate, then the individual will be deemed medically unfit for promotion.

b. **Personnel with a Temporary JMES.** Individuals in a temporary JMES should undergo medical assessment by an accredited GMP or Consultant Occupational Physician.

(1) Where there is an expectation that the individual will regain MFD status within the next 12 months, the Medical Officer should deem the individual medically fit for promotion.

(2) Where an expectation that a temporary JMES would be removed and the individual regains a previous permanent JMES within 12 months, then individuals should be assessed as per their previous RNMEB determination (see Para 6714 sub para b above).

(3) Where a Service woman is pregnant and has the JMES code of E6, her fitness for promotion should be assessed in light of her previous JMES, providing that there is an expectation that this will be regained following the pregnancy and period of maternity leave. If previously MFD then she should be considered fit for promotion. If she was previously in a permanently reduced JMES, she should be assessed as per her previous RNMEB determination (see Para 6714 sub para b above). If temporarily downgraded prior to the pregnancy then an assessment must be made as to the likelihood of being upgraded within 12 months of a return from maternity leave and, if it is likely, then the individual should be deemed fit for promotion. If it is deemed not likely, then the individual will need to be referred to RNMBOS for a permanent medical category to be given and their eligibility to be determined by RNMEB.

(4) Where it is likely that the individual will need a permanently reduced JMES, the Medical Officer should deem the individual unfit for promotion subject to the subsequent RNMBOS/ROHC and RNMEB recommendations. If the individual is subsequently given a permanently reduced JMES by the RNMBOS or ROHC and the RNMEB determines fitness for promotion, then seniority and pay should be back-dated to the original date of intended promotion.

(5) Any case where doubt arises is to be referred to the RNMEB.

6715. Educational Qualifications

It is the Rating's responsibility to ensure that they are educationally qualified in accordance with Para 9615 and that JPA correctly reflects the achieved competency prior to the award of substantive promotion. Ratings are to satisfy the Education For Promotion (EFP) requirements on the Common Promotion Date for which selected

a. A rating is fully qualified (passed appropriate leadership and career course) for the higher rate and is considered ready for promotion on the CPD for which selected.

(1) If an individual is EFP qualified, they will be promoted by the Ratings' Promotion Section with effect from CPD. If this does not apply, however, the CO is to give the rating three months from the CPD in which to become EFP qualified, but with the warning that de-selection is a possibility if this deadline is not achieved.

(2) If the rating becomes EFP qualified in the time permitted, the CO is to decide whether to backdate their promotion to the CPD. This judgement is to be based on the individual's previous efforts to gain the requisite educational qualifications and, if agreed, the promotion is to be backdated accordingly. If not, the individual is to be promoted, post CPD, on the day after becoming EFP qualified if still eligible in all other respects.

(3) If the rating fails to gain the necessary educational qualifications in the time permitted, the CO is to determine whether there are any mitigating circumstances (e.g. operational, medical or welfare reasons). If so, the CO may approve a time extension of up to three months. Beyond this, cases should be referred to NAVY PEOPLE-PROMS Dep Hd for consideration. If an extension is agreed and the rating gains the qualifications in time, the CO is to decide whether to backdate the promotion to the CPD. If agreed, the rating's promotion is to be backdated accordingly; if not, the individual is to be promoted on the day following qualification. If there are considered to be no mitigating circumstances for a rating's failure to become EFP qualified in the 3 months (or longer) allowed, the CO should recommend their deselection to the Ratings' Promotion Section.

b. A rating is eligible (passed appropriate leadership course but not career courses) for the higher rate and is considered ready for promotion on the CPD for which selected.

(1) The CO is to give the rating three months from the CPD in which to become EFP, but with the warning that deselection is a possibility if this deadline is not achieved.

(2) If the rating becomes EFP qualified in the time permitted, the CO is to decide whether to backdate their promotion to the CPD. This judgement is to be based on the individual's previous efforts to gain the requisite educational qualifications and, if agreed, the promotion is to be backdated accordingly. If not, the individual is to be promoted, post CPD, on the day after becoming EFP qualified if still eligible in all other respects.

(3) If the rating fails to gain the necessary educational qualifications in the time permitted, the CO is to determine whether there are any mitigating circumstances (e.g. operational, medical or welfare reasons). If so, the CO may approve a time extension of up to three months. Beyond this, cases should be referred to NAVY PEOPLE-PROMS Dep Hd for consideration. If an extension is agreed and the rating gains the qualifications in time, the CO is to decide whether to backdate the promotion to the CPD. If agreed, the rating's promotion is to be backdated accordingly; if not, the individual is to be promoted on the day following qualification. If there are considered to be no mitigating circumstances for a rating's failure to become EFP qualified in the 3 months (or longer) allowed, the CO should recommend their deselection to the Ratings' Promotion Section.

c. A rating is not qualified for the higher rate on the CPD for which selected (e.g. not passed leadership and/or professional training), and attains the required qualifications within 12 months of the CPD and is considered eligible for backdated promotion.

(1) If, on qualifying fully for the next higher rate, a rating is EFP qualified they are to be promoted by the CO with an effective date of promotion backdated to the CPD for which selected. If this does not apply, however, the CO is to give the rating three months from the date of qualifying for the higher rate in which to become EFP, but with the warning that deselection is a possibility if this deadline is not achieved.

(2) If the rating becomes EFP qualified in the time permitted, the CO is to decide whether to backdate their promotion to the CPD. This judgement is to be based on the individual's previous efforts to gain the requisite educational qualifications and, if agreed, the promotion is to be backdated accordingly. If not, the individual is to be promoted, post CPD, on the day after becoming EFP qualified if still eligible in all other respects.

(3) If the rating fails to gain the necessary educational qualifications in the time permitted, the CO is to determine whether there are any mitigating circumstances (e.g. operational, medical or welfare reasons). If so, the CO may approve a time extension of up to three months. Beyond this, cases should be referred to NAVY PEOPLE-PROMS Dep Hd for consideration. If an extension is agreed and the rating gains the qualifications in time, the CO is to decide whether to backdate the promotion to the CPD. If agreed, the rating's promotion is to be backdated accordingly; if not, the individual is to be promoted on the day following qualification. If there are considered to be no mitigating circumstances for a rating's failure to become EFP qualified in the 3 months (or longer) allowed, the CO should recommend their deselection to the Ratings' Promotion Section.

6716. Disciplinary Matters

a. **Career Check.** Where a Career Check is a qualification for promotion, a minimum of six months must have elapsed since a rating's last Career Check on the due date.

b. Following reversion, the Career Check requirement for eligibility to be considered at the next Selection Board is a minimum of six months (Para 7007 refers).

c. Following disrating from a substantive or acting rate, the Career Check requirement is extended to a minimum of 12 months before a rating may be re-advanced (Para 7002 refers).

d. **Suspended Sentence.** Ratings under suspended sentence who require the requisite Career Check for promotion may, if recommended, be promoted on the date they would normally be eligible.

e. **Disrating or Revision.** If, after having been selected for promotion, ratings are disrated or reverted before their actual promotion to the confirmed rate has taken place, their selection for promotion will be forfeited. After re-promotion or re-advancement, they may subsequently become eligible for selection again.

f. **Recording of Convictions for Offences and Censures on Promotion Files.** Records of convictions by Service and civilian courts, together with details of sentences or Naval Penalties awarded, are to be retained on promotion files until they are 'spent' in accordance with the Rehabilitation of Offenders Act 1974 and MOD Policy. Once 'spent', all reference to these offences is to be expunged from promotion files by the Ratings' Promotion Section.

6717. Loss of Entitlement to Promotion - Reversion and Deselection

a. Promotion will not be an issue in the following cases where, instead, ratings will be reverted (if applicable) and deselected:

(1) If outright failing a professional or leadership course, in accordance with Para 6912 sub-para a.

(2) If removed from, or withdrawn prior to, a professional or leadership course due to misconduct or other disciplinary reasons.

(3) If a second attempt of a professional or leadership course authorised in accordance with Para 6912 sub para c is subsequently failed.

(4) If refusing to attend a professional or leadership course.

(5) If submitting Notice to leave the Service after being selected for promotion.

(6) If failing to complete a course(s) within 12 months of the CPD or cancelling/being withdrawn from a professional or leadership course within 2 months of the start date (unless due to medical or operational reasons).

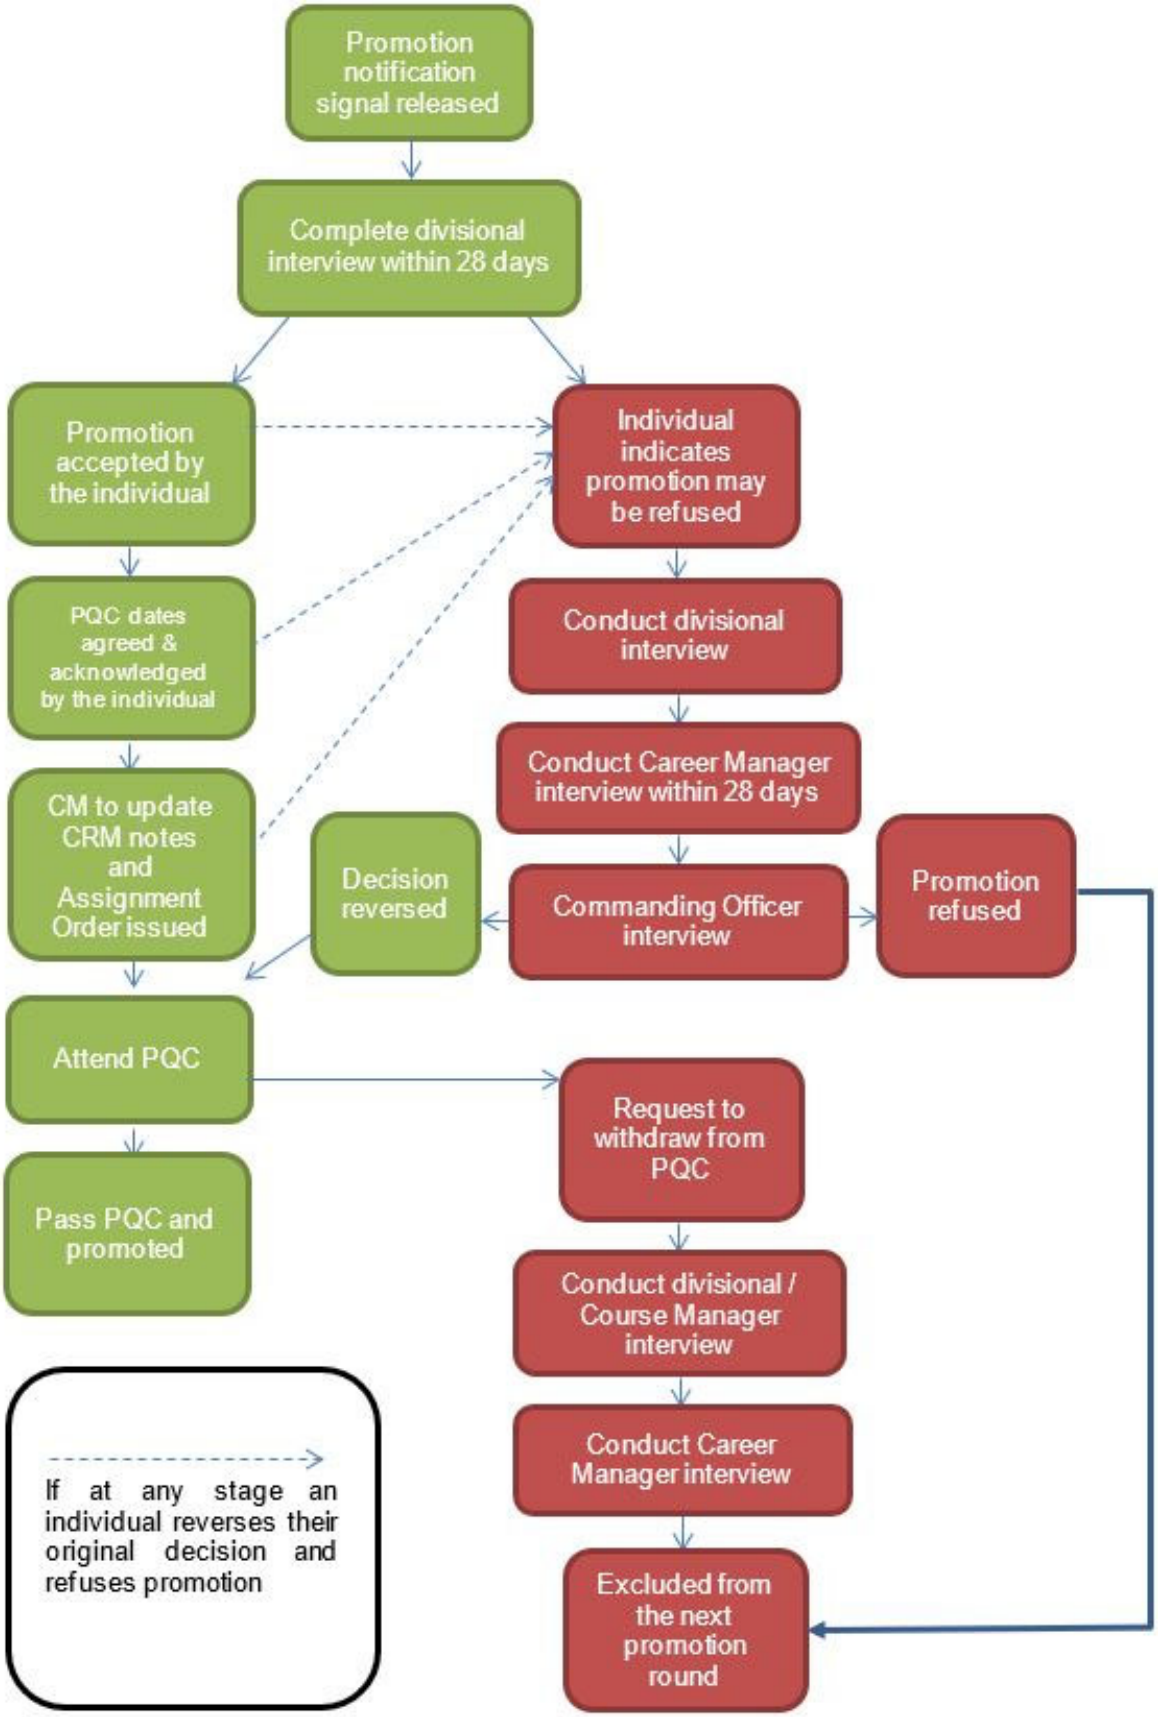
b. **Authority Requirements for Reversion.** The principles regarding the authority required to approve reversion at Para 7003 sub para f are unchanged and apply if a rating is to be reverted following signalled instruction from the Ratings' Promotion Section or because the CO considers the rating unable to perform their duties adequately. However, Para 7003 sub para f has been amended to permit COs of Lieutenant Commander rank and above to revert, without recourse to higher authority, ratings who hold substantive rank but who have not yet completed 12 months in the rank since the completion of professional training.

c. **Deselection - Appeals.** If, after a rating has been deselected, it is found that there are mitigating reasons, Service or otherwise, that may have precluded deselection a case may be made, in writing, through COs to NAVY PEOPLE-PROMS Dep Hd who may, in exceptional cases and following consultation with the Branch Manager, authorise the re-instatement of the selection, with or without penalties.

d. **Complaints Procedure.** Ratings who are reverted and/or deselected may exercise their right to make a formal Service Complaint in accordance with JSP 831.

ANNEX 67A

PROMOTION PROCESS - AIDE-MEMOIRE



APPENDIX 1 TO ANNEX 67A

ACCEPTANCE OF PROMOTION

1. This pro-forma is to be used by Divisional Officers (DOs) to interview all those who have been selected for promotion. Interviews must be conducted within 28 days of the promotion notification release date.

2. The information provided will be recorded in the individual's JPA by their Career Manager (CM) in the JPA notes section as evidence that a rating is either accepting the nomination for promotion, or wishes to self-deselect from the promotion process and not proceed onto PQC.

3. If an individual has removed themselves from any part of the selection/promotion process, then this form is to be emailed to NAVY PEOPLE-Proms Audit Mgr and their respective CM.

The Divisional Officer is to contact the respective CM to ascertain PQC availability and expected course dates within 28 days of the promotion notification release.

Once the interview is complete and this appendix completed, it should be sent to the individual's CM, an emailed copy will suffice in place of the hard copy original.

PQC start date (to be provided by CM):

I accept my promotion and have been formally notified of my PQC date and have no interfering factors that would prevent my attendance:

Name: ..... Service No.: .....

Ratings Signature: ..... Date: .....

Divisional Officer's Signature: ..... Date: .....

PCAP Notes:

Date entered on to JPA in CRM notes by CM: ……..

APPENDIX 2 TO ANNEX 67A

DE-SELECTION FROM PROMOTION

1. This proforma is for personnel who, following Divisional interview within 28 days of the promotion notification, wish to decline promotion. The questions below ensure that both the unit and individual are aware of the consequences and set the background for the subsequent CM interview.

2. Those refusing promotion must book a CM interview (CI) within the subsequent 28 day period. The CI will provide an individual with additional advice and options that should be considered prior to seeking final approval from an individual's Commanding Officer.

3. To ensure PQCs run at the maximum possible capacity, those that refuse promotion within 90 days of PQC commencement may be moved at short notice to enable the reserve candidate, or suitable replacement, to be activated.

Name: ……. Service No: …….

1. What are your reasons for refusing promotion?

2. Is there anything that might encourage you to reconsider this decision?

3. My Divisional Officer has informed me of the potential impact of this decision, and I have read BRd3(1) Art 6712.

Divisional Interview conducted on …… Signature……..

4. CM report (a brief description of the CI outcomes)

Date report entered on to JPA ……

CHAPTER 68

RATINGS POLICY - NON-SELECTIVE PROMOTION (ADVANCEMENT)

6801. Background to Non-selective Promotion

a. Currently, the following groups of ratings are subject to non-selective promotion:

(1) Ratings advanced to Able Rating BD1.

(2) Ratings up to Leading Hand in the Aircraft Control Specialisation, MA(SM) and QARNNS and up to Chief Petty Officer (CPO) in the Engineering Technician (ex-Artificers), Medical Technician and Communications Technician[1] (direct entrants pre-1 Nov 06 and sideways entrants pre-1 Sep 07) specialisations.

(3) Ratings up to Chief Petty Officer in the Engineering Technician specialisations who are Fast Track Ratings.

(4) Ratings advanced to Leading Hand who are part of the Accelerated Apprentice (AA) scheme.

(5) Ratings advanced to Leading Hand and/or Petty Officer who are part of the Undergraduate Apprenticeship Scheme (UGAS).

b. The above ratings will be advanced in rate, having served the requisite time period, not requested Early Termination[2], and fulfilled any other requirements as laid down in Chapter 74 to Chapter 90 (also see Chapter 69 Para 6914-a5) . For ratings with legacy rights to time based advancement, completion of the Senior Rates' Leadership Course (SRLC) remains a requirement for advancement to CPO.

6802. Inability to Satisfy Criteria for Advancement to Leading Hand and Above by Due Date

a. On attaining the qualifications needed for advancement to AB1, units are to signal a Promotion Authorisation Request (PAR) on behalf of ratings to the parent ACOS(P&T) Career Management Cell (CMC)/Ratings Career Manager such that the substantive rate can be input on JPA.

[1] Now named Cryptologic Technicians.
[2] If a rating withdraws their Notice after the effective date of promotion, and that withdrawal is approved by the Career Manager, they will be advanced with effect from the date of the application.

b. Medical Technicians, Cryptologic Technicians or Engineering Fast Track Ratings who are unable to obtain the mandated qualifications (including professional and/or leadership) in branch Chapters for advancement to Leading Hand and above by their due date by time (i.e. having satisfied the service qualification) may, subject to the rules below, be entitled to receive the acting higher rate (and/or subsequent backdated advancement) on completion of the service qualification period (adjusted to take account of any accelerated advancement), providing they have not submitted a request for Early Termination. Additionally, Engineering Fast Track Ratings who have completed Leadership Course (LC) by due date may be advanced substantively in line with their Select, Train and Promote peers.

(1) If Service reasons, defined as:

(a) Operational reasons – exigencies of the Service including the short notice deployment of a ship to an operational theatre and military aid to the civil authorities.

(b) Manning constraints – for example, where a ship/unit cannot release an individual to attend a training course due to workforce shortages.

(c) The Service's inability to provide the training required in time e.g. due to a lack of available places or delays in attending or completing a training course arising from the restructuring of the professional training pipeline are deemed to be the cause, or if the failure to qualify is attributable to pregnancy or maternity/paternity/adoption leave (as defined in JSP 760), individuals will be entitled to receive the acting higher rate with effect from their due date by time, subject to agreement by the appropriate authority (see Para 6802 sub para c).

(2) If Non-Service reasons out with an individual's control, defined as:

(a) Being withdrawn prior to or during a training course on compassionate or welfare grounds.

(b) Being placed in a reduced medical category as a result of injuries sustained:

i. In preparation for or during a Leadership Course.

ii. In preparation for or during a Royal Navy Fitness Test.

iii. Whilst participating in representative sport.

iv. Whilst on duty.

(c) Being placed in a reduced medical category as a result of illness are deemed to be the cause, individuals will not qualify for advancement on their due date by time. Such ratings will, however, if completing the outstanding training within 12 months of their due date, be advanced on completing the training (if eligible in all other respects) and be entitled to receive backdated advancement (pay and seniority) from their due date, subject to agreement by the appropriate authority (see Para 6802 sub para c).

(3) If Non-service reasons within an individual's control, such as:

(a) An approved period of unpaid leave.

(b) An approved career break.

(c) Being back-classed for academic reasons or having failed a Professional Course, they are given another chance.

(d) Being subject to a Career Check.

(e) Removal from a Professional or Leadership Course on grounds of misconduct or for other disciplinary reasons; the outright failure of, or refusal to attend, such courses; failure of a Leadership Course twice for commitment/attitude/preparation (CAP) reasons are deemed to be the cause, individuals will not qualify for backdated advancement to their due date by time. Such ratings will instead be advanced when fully qualified for promotion, subject to satisfying all other advancement criteria set out in the appropriate Chapters (see also Para 6802 sub para c).

c. **Authority to Advance.**

(1) **Advancement to Leading Hand and Petty Officer.** For advancement to LH and PO, Commanding Officers (COs) are empowered to decide whether a rating qualifies for the award of the acting higher rate in accordance with the criteria set out at Para 6802 sub para b. If a rating is considered to warrant the acting higher rate and is eligible in all other respects, a PAR signal is to be sent to the rating's Career Manager or CMC (as appropriate), copy to the Ratings' Promotion Section, asking for appropriate JPA action to be taken to reflect the award of the acting higher rate. The acting higher rate will be for a maximum of 12 months, after which time, if they have failed to attain the outstanding qualification(s) ratings will, exceptional reasons apart (see Para 6803 sub para a, for action to be taken), relinquish the rate. Individuals who qualify fully for the higher rate during the 12 month period, whether awarded the acting higher rate or not, are to be confirmed immediately if meeting all other advancement criteria; in such cases, COs are to send a PAR signal to the Ratings' Promotion Section, copy to the Rating's Career Manager/CMC, seeking JPA action to reflect the higher rate and to apply the award of backdated advancement if appropriate. In addition, the acting higher rate may be relinquished if professional, disciplinary or CAP reasons apply.

(2) **Advancement to Chief Petty Officer.** Authority for awarding the acting higher rate lies with the Ratings' Terms of Service Team (NAVY PEOPLE-PSP EMP TOS OR). Cases involving the time based advancement of ratings to CPO must be referred, in the first instance, in writing to the Ratings' Terms of Service Manager. On receipt of approval, if appropriate, COs are to submit a PAR signal to the rating's Career Manager, copy to the Ratings' Promotion Section, asking for appropriate JPA action to be taken to reflect the award of the acting higher rate. The acting higher rate will be for a maximum of 12 months, after which time, if they have failed to attain the outstanding qualifications (e.g. completion of Task Book; Leadership Course) ratings will, exceptional reasons apart (see Para 6803 sub para a), relinquish the rate. The acting higher rate may also be relinquished if professional, disciplinary or CAP reasons apply. Every effort is to be made to enable ratings to qualify fully at the earliest date. Individuals who qualify for the higher rate during the 12 month period will be confirmed immediately - COs are to send a PAR signal to the Ratings' Promotion Section, copy to the rating's Career Manager/CMC, seeking JPA action to reflect the higher rate.

(3) On completing outstanding training within 12 months of the due date, applications for backdated advancement, if appropriate, should be submitted through COs to the Ratings' Terms of Service Manager and should contain evidence of a rating's efforts to qualify by their due date by time. Cases will be considered on their individual merits and, where warranted, backdated advancement will be approved. In such cases, COs are to send a PAR signal to the Ratings' Promotion Section, copy to the rating's Career Manager/CMC, seeking JPA action to reflect the higher rate. Retrospective action, however, will not be permitted if, through their actions (see Para 6802 sub para b (3)), ratings are clearly responsible for their failure to satisfy the advancement criteria, either by the due date or in the succeeding 12 months. Such individuals will be advanced, instead, on the day that they eventually qualify for the higher rate.

d. For AA trainees refer to the AA Warnings and Failure Policy detailed at Annex 68K.

6803. Inability to Satisfy Criteria for Advancement to Leading Hand and Above by Due Date + 12 months

a. Ratings who fail to qualify fully within 12 months of their due date by time for advancement will typically lose any entitlement to backdated advancement when they finally become eligible for confirmation in the higher rate. If, however, 12 months after their due date, a rating believes that their continued failure to meet the criteria is attributable to Service reasons (Para 6802.b sub para (1)) or non-Service reasons outside their control (Para 6802.b sub para (2)), they may apply through their CO to the Ratings' Terms of Service Manager for an extension of the retrospective advancement qualification period and retention of the acting higher rate if applicable. The Terms of Service Team may award extensions of up to 6 months at a time. Applications should be accompanied by a copy of the individual's Full Service Documents. Individuals who qualify fully within the extra time, if granted, will be entitled to pay and seniority backdated to their due date by time.

This redress, however, will not be available to those ratings who fail to complete the training within the extended period, have an application for an extension rejected or are not entitled to an extension at all (e.g. if they are directly responsible for the time taken to satisfy the criteria). In these cases, ratings will be advanced on, and have seniority of, the day on which they finally qualify for the higher rate.

b. When a rating finally completes the outstanding training, COs are to send a PAR signal to the Ratings' Promotions Section, copied to the appropriate Career Manager, on their behalf seeking JPA action to reflect the higher rate and the award of backdated advancement only if prior approval has been granted by the Terms of Service Team.

6804. Medical Fitness

Ratings/ORs who are medically downgraded, and those who are likely to be categorized as permanently unfit for sea service or be restricted otherwise medically in the future, will normally remain eligible for selective and non-selective promotion. The following principles apply:

a. **Personnel with a Permanent JMES.** All individuals who have been awarded a permanently reduced JMES code by RNMBOS or by ROHC will be assessed by the RNMEB for their suitability for promotion as part of their determination in retaining an individual in service. This determination will take into account age, past experience, seniority, the nature and extent of the medical limitations, and types of assignment for which the individual might be required to undertake in the current rank and higher ranks if selected for promotion or due for advancement. By default, the assessment will assume that retention in service will also include the potential for service at the next higher rank/rate. If the RNMEB is unable to offer continued employment in a higher rank or rate, then the individual will be deemed medically unfit for promotion.

b. **Personnel with a Temporary JMES.** Individuals in a temporary JMES should undergo medical assessment by an accredited GMP or Consultant Occupational Physician.

(1) Where there is an expectation that the individual will regain MFD status within the next 12 months, the Medical Officer should deem the individual medically fit for promotion.

(2) Where an expectation that a temporary JMES would be removed and the individual regains a previous permanent JMES within 12 months, then individuals should be assessed as per their previous RNMEB determination (see Para 6804 sub para b above).

(3) Where an individual is pregnant and has the JMES code of E6, their fitness for promotion should be assessed in light of their previous JMES, providing that there is an expectation that this will be regained following the pregnancy and period of maternity leave. If previously MFD then they should be considered fit for promotion.

If the individual was previously in a permanently reduced JMES, they should be assessed as per their previous NSMEB determination (see Para 6804 sub para b above). If temporarily downgraded prior to the pregnancy then an assessment must be made as to the likelihood of being upgraded within 12 months of a return from maternity leave and if it is likely, then the individual should be deemed fit for promotion. If it is not deemed likely, then the individual will need to be referred to NSMBOS for a permanent medical category to be awarded and their eligibility is to be determined by NSMEB.

(4) Where it is likely that the individual will need a permanently reduced JMES, the Medical Officer should deem the individual unfit for promotion subject to the subsequent RNMBOS/ROHC and NSMEB recommendations. If the individual is subsequently given a permanently reduced JMES by the RNMBOS or ROHC and the RNMEB determines fitness for promotion, then seniority and pay should be back-dated to the original date of intended promotion.

(5) Any case of doubt is to be referred to the RNMEB.

6805. Disciplinary Matters

a. **Career Check.** Where time from a Career Check is a qualification for advancement, 6 months must have elapsed since a rating's last Career Check immediately prior to the due date.

b. Following reversion, the Career Check requirement for eligibility to be considered at the next Selection Board is a minimum of 6 months (Para 7007 refers). Similarly, there is a minimum of 6 months Career Check requirement for re-advancement.

c. Following disrating from a substantive or acting rate, the Career Check requirement is extended to a minimum of 12 months before a rating may be re-advanced (Para 7002 refers) except where Para 6915 sub para l applies for the granting of the acting higher rate.

d. **Suspended Sentence.** Ratings under suspended sentence of detention who require the requisite Career Check for advancement may, if recommended, be advanced on the date they would normally be eligible.

6806. Engineer General Service Branch Fast Track Scheme

a. The intent to introduce a Fast Track (FT) scheme under Faraday was announced in 2013. In order to cover the intervening period prior to introduction of the FT, an Interim Fast Track (IFT) scheme was introduced. IFT is covered in more detail at Annex 68E and IFT will continue to operate for those EGS ratings currently on the scheme and will remain subject to the extant IFT terms and conditions. The introduction of a FT scheme is an important element of the EGS Branch career pipeline, managing the talent of suitable individuals by selecting those ratings who are sufficiently motivated and demonstrate the necessary standards of leadership, engineering and academic ability.

The FT scheme gives EGS ratings the opportunity to accelerate their progression and be advanced based on time and qualification, affording individuals an accelerated advancement route. Selection will be via a three stage process with three entry points: initially at ET to LET, then at LET to POET and finally at POET to CPOET[3]. This takes account of individuals who develop at differing rates and gives a flexible career path to ensure that career progression through training and employment is better matched to the abilities of our technicians.

b. **Selection.**

(1) Individuals on the FT scheme will be subject to non-selective promotion through time and qualification, based on an advancement 'Due Date' calculated from when an individual joined the FT scheme. A selection process will be conducted prior to an individual being accepted for entry onto the FT scheme.

(a) **ET to LET.** The first selection opportunity will be on completion of Phase 2 Training (ET CC). This will provide the opportunity for the individual to demonstrate that they have the necessary academic ability and leadership potential to succeed on the FT scheme, and are capable of operating as a competent Leading Hand in a short timeframe. If selected, an individual will remain on the FT scheme until completion of their LET QC and LRLC. An ET selected in Phase 2 Training (ET CC) will be awarded a Due Date for advancement to LET of 24 months from the Fast Track Start Date (FTSD). The FTSDs given below for an ET in Phase 2 are determined by the stage of the training year they have reached when they are selected for the FT scheme, and will be used in the subsequent calculation for future Due Date:

i. Individuals who are selected from Phase 2 Training between 1 Apr and 31 Jul will be awarded a FTSD of the 31 Jul.

ii. Individuals who are selected from Phase 2 Training between 1 Aug and 30 Nov will be awarded a FTSD of the 30 Nov.

iii. Individuals who are selected from Phase 2 Training between 1 Dec and 31 Mar will be awarded a FTSD of the 31 Mar.

(When selected to be recorded on JPA as 'ProfessionalIFast Track LETINavyI'.)

(b) **LET to POET.** An individual who possesses the necessary academic ability and leadership skills to succeed on the FT scheme and be capable of operating as a competent Petty Officer in a short timeframe. The second selection opportunity will be on completion of Phase 3 Training (LET QC); this selection point will consider individuals who are currently on the FT scheme to LET and any individual who has demonstrated the necessary academic ability and leadership skills during their ET sea-time and/or while on LET QC.

An ET/LET selected in Phase 3 Training (LET QC) will retain the seniority date as a LET, with a Due Date for advancement to POET of 24 months from their Fast Track Start Date. (When selected to be recorded on JPA as 'ProfessionalIFast Track POETINavyI'.)

(c) **POET to CPOET.** An individual who possesses the necessary academic ability and leadership skills to succeed on the FT scheme, and be capable of operating as a competent Chief Petty Officer in a short timeframe.

(d) The selection opportunity will be on completion of POET QC; this selection point will consider individuals who are currently on the FT scheme to POET and any individual who has demonstrated the necessary academic ability and leadership skills during their LET sea time and/or while on POET QC. A LET/POET selected to the FT scheme will be awarded a Due Date for advancement to CPOET of 36 months from their FTSD. The FTSD will be determined by the point at which they are selected and will be used in the subsequent calculation for future Due Date. (When selected to be recorded on JPA as 'ProfessionalIFast Track CPOETINavyI'.)

(2) The pre-selection process will be co-ordinated by the Accelerated Technician Authority, ATA, and will seek to establish a candidate's qualifications, technical ability, potential and suitability for FT. In order to determine an individual's suitability based on aspirations, maturity, communication skills and potential to cope with the training and employment necessary in the FT Scheme's compressed timescale, the process for Phase 2 selection for FT to LET will be based on an individual's training and experience to date and include a FT Selection Interview (FTSI), and an academic examination. Candidates who are successful will then be presented to the termly FT Selection Board (FTSB), which will select individuals onto the FT scheme.

(3) The service eligibility criteria required to be considered either as a FT to LET, FT to POET or FT to CPOET is detailed within the Advancement Flowcharts at Para 6806 sub para h. The key academic and CLM requirements to be taken into consideration during the pre-selection process are as follows:

Table 68-1. Key Selection Criteria

Engineering General Service (except CIS Specialist)		
Selection Point	**Key Selection Criteria**	**Applicability**
FT Phase 1 During ET CC	1. Educational Qualifications - Maths and English GCSE Grade 4/C and above or equivalent. ET(CIS)Spec only: English, Computer Science GCSE Grade 4/C above or equivalent and vocational qualification. 2. Completed FT academic assessment. 3. Above average score or training school equivalent during Phase 2 Module Assessments. 4. Potential for Command, Leadership and Management in the next higher rate. 5. Passed Pre-Selection Interview. 6. Recommended from Phase 2 Training to be a FT to LET. ET(CIS) Spec only - Recommend from Phase 2 Training to be FT to LET (DO, CARTU C/IS).	All ET2s who volunteer for FT during Phase 2 Training.
FT Phase 2 During LET QC	1. Educational Qualifications - Maths and English GCSE Grade 4/C and above or equivalent 2. Above average score or training school equivalent during Phase 3 Module Assessments. 3. Potential for Command, Leadership and Management in the next higher rate, including RNLA assessment. 4. Recommended from Phase 3 Training to be a FT to POET and/or recommended from sea. 5. Passed Pre-Selection Interview.	All LETs who volunteer for FT during LET QC Training or have a FT positive recommend from sea for FT to POET.
FT Phase 3 During POET QC	1. Educational Qualifications - Maths and English GCSE Grade 4/C and above or equivalent 2. Above average score or training school equivalent during POET QC Module Assessments. 3. Potential for Command, Leadership and Management in the next higher rate, including RNLA assessment. 4. Recommended from POET QC Training to be a FT to CPOET and/or recommended from sea. 5. Passed Pre-Selection Interview.	All POETs who volunteer for FT during POET QC Training or have a FT positive recommend from sea for FT to CPOET.

c. **Fast Track Recommendation From Sea.** The Head of Department is to take into consideration whether the individual has demonstrated suitable levels of competence during their routine employment and that their performance merits a recommendation as a potential FT POET or CPOET candidate. The recommendation is to be recorded on JPA as 'ProfessionalIFast Track POET RecommendINavyI' or 'ProfessionalIFast Track CPOET RecommendINavyI', with supporting comments included by the 1 and 2 RO in their next SJAR. The FT sea recommendation from the SJAR will form a part of the selection process for POET or CPOET FT and should include comments against the following attributes:

(1) Engineering Aptitude (not applicable to CIS Specialist).

(2) Technical Competence.

(3) Professional effectiveness and initiative.

(4) Work ethic and capacity to complete sea competence elements within compressed time scales.

(5) Any demonstrated academic ability to cope with an accelerated career progression.

(6) Potential to be a senior rating; reliability; power of communication; potential for CLM in the Next Higher Rank (NHR), and at POET and CPOET rates; confidence to take on additional challenges and the ability to think on a level above the peer group.

(7) Management Aptitude.

(8) For CIS Specialist: Demonstrated academic ability to cope with an accelerated career progression, including WE CPOETQC (comprising technical elements) and employment as a CIS Head of Group.

d. **Transfer to Fast Track - Minimum Assignment Notice.** The FT scheme accelerates individuals through the advancement system and may require shorter than the minimum assignment notice. All individuals on the FT scheme will be required to volunteer to waive their minimum assigning notice period for courses and employment associated with their advancement. This will be acknowledged by successful candidates when they sign the Part A of the Certificate of Understanding; accepting the terms of service of FT scheme, including waiving their rights to promotion under the selective promotion route and to the full assignment notice period. Should an individual be removed from the FT scheme then Part B of the Certificate of Understanding will be used in transferring individuals back onto the standard selective promotion route and the normal assignment notice period. The Certificate of Understanding can be found at Annex 68B and signed copies will be retained by both the ATA and the individual.

e. **Attending a QC.**

(1) The planning and enrolling of individuals onto a QC will be completed by the ATA in liaison with the relevant Career Management Cell (CMC) or Career Management (CM). In general, FT personnel will be provisionally allocated a QC start date at, or shortly after, completing their current QC. Attendance on a QC will be dependent upon the completion of all of the relevant advancement criteria detailed in Flowcharts at Para 6807sub para h. Frequent liaison between the employing ship and the ATA will ensure that Training Schools, CMs, CMCs and employing ships are able to plan effective movement of FT personnel.

(2) Given the nominal LET and POET QC start dates, mandatory pre-course learning is to be commenced no later than on achieving 8 months' sea service for an FT ET and 14 months sea service for an FT LET. This will allow sufficient time to complete pre-course learning prior to attending the respective QC. The mandatory pre-course learning is detailed in BR 2000(3)(1) Chapter 4 ME and BR 2000(4)(1) Chapter 4 WE (pre-course learning is not applicable to CIS Specialists).

f. **Streaming.**

(1) FT ETs will be streamed earlier than individuals who are not on the FT scheme, by submitting a preference on JPA.

(2) MEGS FT ETs should, where possible, achieve sea employment in all Groups (ML/EL) should be achieved prior to submitting Streaming Preference on JPA. After 6 months' sea service, an individual will be allocated a stream by the ATA in consultation with Ships' Staff. Once streamed, employment on board, where possible, is to be within the allocated stream. This will enable the FT individual to gain as much experience as possible whilst in the compressed sea employment prior to being assigned to LET QC.

(3) WEGS FT ETs will be streamed on selection for Fast Track to LET.

g. **Advancement Flowcharts.** The flowcharts can be found in Annex 75E.

h. **Leadership Training.**

(1) All FT personnel are to complete LRLC or SRLC, as appropriate, as part of their NHR. Preparation for and completion of these courses is essential and although the responsibility rests firmly with the individual to be fully prepared, it is to be supplemented with appropriate coaching and mentoring by their Head of Department.

(2) There may be occasions where a FT individual is at their Due Date for advancement by time, but has not completed their QC so will not meet the advancement criteria. In consultation with the ATA, an application for the Acting Higher Rate (AHR) will be considered against the 'Inability to Satisfy Criteria for Advancement' (see Para 6802 and Para 6803).

i. **Fast Track Failure Policy and De-Selection from Scheme.** Once selected, an individual will remain on the FT scheme unless their progress, performance or standards are deemed insufficient or they voluntarily choose to remove themselves. Where an individual has not been able to maintain FT accelerated training delivery, they will be de-selected from the FT scheme, revert back to the standard selective promotion route, and continue training and employment as necessary to meet the service requirement. The FT scheme failure and de-selection policy is detailed at Annex 68D.

j. **SJAR Reporting Requirements.**

(1) Annual SJARs remain a mandatory requirement for all FT individuals and should comment on their current performance, CLM, employment and training achievements. Within the SJAR, Reporting Officers should report whether or not an individual continues to maintain a recommendation for the FT scheme and, if appropriate, the individual's potential for the next FT stage. The SJAR must contain evidence to support these recommendations.

(2) Recommendations from sea for FT candidature for ETs & LETs should be considered for all personnel who have demonstrated the technical ability and CLM attributes at the NHR.

k. **Accelerated Technician Authority.** The ATA will manage all of the accelerated schemes on behalf of the Branch Managers (BM).They will be based within HMS SULTAN and HMS COLLINGWOOD and will be responsible for all accelerated activities, to include the following: selection, organisation and management of the Accelerated Scheme ratings career planning and tracking accelerated scheme activities; all associated JPA activities; management of failure within and removal from accelerated schemes. They will also receive and manage training returns from sea units.

l. **Phase 2 Training Selections - ET.**

(1) The FT Scheme is available for ET trainees during Phase 2 Training where an individual who wishes to be considered or is recommended by their Divisional Officer will be put forward as a candidate.

(2) The ATA will manage all selection interviews; Table 68-2 provides an overview of the processes required to ensure only suitable candidates are presented. This will apply to ME and WE Phase 2 courses and will be refined within each training establishment to ensure that interviews are available regularly in order that all ETs have the opportunity to be considered for selection.

(3) The selection process relies on those candidates who are identified, or volunteer themselves, being suitably informed and mentored by the ATA and their Divisional Staff in preparation for all aspects of the selection process and individuals needs to be successful on the FT scheme.

Table 68-2. ET FT Selection Overview

Event	Description
Introduction	• An introductory brief will be presented
Candidate Identification	• Potential FT ratings identified by DO and/or individual volunteers • Academic workbook issued - detail of maths exam to be taken before Selection Board (not applicable to CIS Specialist FT) • Interview with DO • List of potential FT candidates forwarded to ATA
Candidate Examinations	• Candidates undertakes academic assessment (not applicable to CIS Specialist FT) • Candidates receive interview brief from DO/ATA
Fast Track Selection Interview	• Candidates sit interview – up to 1 hour • Candidates informed of result of interview
Fast Track Selection Board	• Successful candidates will be transferred to the FT scheme and career managed separately under Advancement promotion regulations • Successful candidates complete transfer paperwork

m. **Phase 3 Training Selections - LETQC.**

(1) The FT Scheme will be open to trainees during LETQC where an individual who wishes to be considered, and is recommended by their Divisional Officer, will be put forward as a candidate.

(2) Those ET1s who were identified as potential FT candidates during sea employment and received a JPA recommendation from their previous unit will automatically be considered providing they have maintained this recommendation during the early part of LETQC. The ATA and Training Officer will advise any candidate who has previously been recommended, but does not now meet the criteria to be presented to the panel.

Table 68-7. LETQC FT Selection Overview

Event	Description
Introduction	• An introductory FT brief will be presented
Candidate Identification	• FT recommendation from sea • Potential FT ratings volunteer or identified by DO • Interview with DO • List of potential FT candidates forwarded to ATA
Fast Track Selection Interview	• Successful candidates will be transferred to the FT and career managed separately under Advancement promotion regulations

n. **Selection Announcements.** Announcements of successful candidates will be made when all candidates have completed their respective interviews and boards. Successful candidates will be transferred to the FT scheme. The ATA at HMS SULTAN/HMS COLLINGWOOD will also add a Fast Track competence 'Professional | Fast Track LET | Navy', 'Professional | Fast Track POET | Navy' or 'Professional | Fast Track CPOET | Navy' as appropriate to successful candidates JPA records.

o. **FT ET Employment Guidance.**

(1) Due to the short time at sea there will be a necessity for FT ETs to join and be released from units at a greater frequency than normal assignment cycles. To minimise disruption, this will be managed by both the relevant CM or CMC and the Unit management.

(2) All FT ETs will be employed in specific billets alongside their selective counterparts, but due to FT ETs undertaking shorter sea assignments they must gain a wide experience of different Sections and Streams in a shorter period. FT ETs should be placed into specific billets which have less impact on OC by the frequent movements incurred. Consideration will be given to how many FT ETs are employed within a Group, Department or Unit; especially when the unit may have a programme that requires a certain amount of stability or personnel and level of OC.

(3) Unit HODs and training Co-ordinators are to ensure that adequate employment and training opportunities are afforded the FT individual to meet their necessary training achievements. FT ETs will be expected to carry out the same role as non FT ETs however the scheme will expose individuals to higher level of responsibility at an earlier career point, which will require a degree of mentoring from unit staff. With the LET fulfilling positions as either a Deputy or Section Head and POET fulfilling positions of a Section Head, consideration will be taken by the ATA to manage any potential impact on a Ships' operational capability when assigning a FT LET and POET to, and from, a platform.

(4) Where a ship's programme changes or a FT individual cannot be suitably employed (such as ships in Upkeep) and the individual will be unable to achieve their advancement criteria, Ship's Staff are to liaise with the ATA to discuss alternative employment options.

(5) The ATA will actively track, manage and, where necessary, advise units on FT training. Any unit unable to facilitate the necessary training is to contact the ATA at the earliest point.

p. **Fast Track Progress Review Process.**

(1) The ATA will maintain a spreadsheet detailing exactly at which point an individual is on the scheme, their next training target and progress towards it.

(2) Within the first week of arrival at a unit, FT personnel are to meet with the department Training Coordinator to discuss and agree timescales for achievement of advancement pre-requisites. These agreed dates are then to be recorded as Personal Objectives in JPA and copied to the relevant ATA representative.

(3) Thereafter, Training Coordinators are to conduct monthly progress reviews with each FT technician during which training progress, forthcoming deadlines and possible programme risks are to be discussed. Due to the exigencies of operational programmes the assessment of an individual's progress will, to a certain extent, remain subjective at unit level however the formal review process will allow the opportunity to refine and record training deadlines accordingly and feedback to the ATA. The proforma at Annex 68K captures the full progress review process. It is recommended that completed proformas are copied to the ATA frequently as part of continual liaison but as a minimum must be submitted as follows:

(a) No less than every two months.

(b) On the issue, escalation or removal of any FT progress warning.

q. **Fast Track Progress Warnings.**

(1) The process for warning an individual of potential removal from the FT Scheme is discrete from the RN's standard formal warning routine for ratings on the trained strength since it relates solely to either:

(a) Failure to meet required training timelines for FT advancement.

(b) Failure to retain Command recommendation for advancement on the scheme.

(2) Due to the compressed timescales necessitated by this advancement scheme, the duration between warning review and possible escalation is equally compressed to typically no more than one month and comprises two tiers: Level 1 DO's Warning and Level 2 HOD's Warning. A flowchart of the FT warnings process is detailed at Annex 68L. In all cases, units are recommended to liaise with the ATA to ensure fleet-wide consistency for management of training risk within the scheme.

(3) Should an individual move assignments whilst on FT warning the despatching unit is to write to the new unit to hand over the Warning.

(4) In recognition of the need for timely action within this advancement pipeline, the FT Progress Warnings process does not require the raising of supporting appraisal reports, instead the proforma at Annex 68M is to be utilised.

(5) Removal from the Fast Track Scheme should not be interpreted as professional inadequacy since there may be many reasons why an individual is not able to sustain the required progress against the perceived potential assessed in the Training Schools. Removal from FT will lead to individuals being subject to the standard Select, Train and Promote process.

r. **Career Management.**

(1) Career management of FT individuals will be conducted by the ATA (for EGS) and relevant CMs or CMCs (for other branches) following guidance in BRd 3(1) and BR 2000 series to ensure correct and appropriate employment is sought to facilitate the necessary FT training. The ATA (EGS) will be responsible for overseeing all aspects of the training and advancement for their respective cadre.

(2) ATAs will work to ensure there is minimal delay between assigning from course to sea, and sea to course.

(3) When considering assignments in response to any PE-OPDEF or Squad Trawl, CMs must highlight any FT ratings in order that the training implementations can be considered. FT ratings should still be considered for employment under these circumstances, provided that the impacts to training are minimised or mitigated by changes to career achievement points and dates agreed with the ATA.

(4) Where an individual, whether for Service or Non Service reasons, does not meet the timeline or criteria to return to the next higher rate qualifying course, then the place will be allocated to another FT rating or selectively promoted rating as directed by ATA. Where this occurs for Service Reasons, such as a unit being unable to release the individual due to operational requirements, then the FT rating will not be disadvantaged and will be booked on the next available course and any impact on achieving advancement will be recognised using AHR or remuneration through back pay.

6807. Engineering Submarine Branch Fast Track Schemes

For information on ESM FT schemes see Ch 73 Para 7301 and 7302.

6808. Probationary Leading Hands

a. The rank of Probationary Leading Hand (P/LHs, commonly known as PLETs) is applicable to those recruited under the AA Scheme and Royal Navy Under-Graduate Apprenticeship Scheme (UGAS).

b. All members of these schemes will join the RN as LHs but, to reflect their status as Untrained Strength (UTS), will initially be known as 'Probationary Leading Hands'. To differentiate them visually from trained LHs they will wear a white flash on their rank slides and a curved white upper sleeve flash on their No. 1 uniform and overalls.

c. The following criteria are applicable to P/LHs:

(1) P/LHs cannot exercise military command or issue lawful orders as a LH until they are confirmed in that rate. Nonetheless, any opportunities to experience leadership roles during training should be exploited.

(2) **Phase 1 & 2 Training.** During Phase 1 & 2 Training, establishments are to manage AA and UGAS personnel as they would any other Phase 1 or 2 trainees.

(3) **GS Sea Training.** After Enabling Course, EGS Accelerated Apprentice trainees will start a period of training at sea. During this stage, they will not receive the privileges of a LH. Whether embedded as a small group, or as individuals, they remain UTS and require the supervision and care suitable to that status.

(4) **Phase 3 Training Courses.** P/LHs will remain UTS while on Phase 3 courses. They can therefore only keep establishment and unit duties in a 'shadow' role, however this should not preclude them from double-banking LH duties to obtain experience and exposure. They are also subject to the AA warnings and failure policy see Annex 68K. Notwithstanding these distinctions, P/LHs on Phase 3 courses will be administered in the same way as their GTS ET and LH colleagues.

(5) **Standards of Conduct and Behaviour.** Exemplary conduct, behaviour, performance and dress is expected of P/LHs at all times. This should be reinforced at each stage of training by briefings from local staff and the AA/UGAS management teams. P/LHs may also need to undertake complementary or repeat instruction outside of core working hours. Such requirements will be at the discretion of the local management chain.

Note. *The UGAS scheme for ESM is detailed in Chapter 73.*

6809. Accelerated Apprentice (AA) Scheme

a. The AA scheme has been developed to appeal to the growing population of school leavers with Level 3 STEM qualifications (A-levels and vocational). It provides a route to exploit the potential of these individuals by expediting through-flow to LAET/POET (MEGS and WEGS) by means of a 2-year training programme. It will also add a route of entry which will be attractive to school leavers holding Engineering and Science Level 3 qualifications and is expected to contribute to the recruitment of improved talent to the RN engineering cadre. The scheme provides a bespoke training pipeline for AA personnel which accounts for their already achieved Level 3 qualifications. Once training is completed and the individual becomes a Gain to the Trained Strength (GTS), they leave the AA scheme and are treated as a standard LAET/POET(ME / WE).

b. The scheme is under DDPD governed via the NSEPB, chaired by DDPD. At Hd level, the scheme is owned by Hd BM, who delegates policy authority to the respective Branch Managers (EGS, ESM and AE). For the EGS and ESM cadres, the scheme is managed by personnel formed as an Accelerated Technician Authority (ATA), while for AE it is the Accelerated Apprentice Air Engineering Recording Authority (AA AE RA) (see Note 1). For further information on AA(SM) scheme see Ch 73 Para 7304.

c. On joining HMS RALEIGH for New Entry Training, AA recruits will be Probationary Leading Hands (P/LH). They will remain P/LHs until completion of the AA pipeline (see Note 2). Guidance on management of P/LHs can be found at Para 6808.

d. **Selection.** Due to both the accelerated nature and limited places available on the AA scheme, the recruitment process is bespoke and selective. AA candidates are recruited into their specific branch as AE, MEGS, WEGS or ESM (see Note 3). There are 2 AA intakes per year for MEGS, WEGS (2x ET(WE and 2x ET(CIS Spec) and AE, and 4 intakes per year for ESM.

(1) Recruitment of AA candidates is the responsibility of R&A. During this process the performance of candidates will be collated and recorded by the R&A Accelerated Engineer Coordinator (AEC).

(2) R&A AEC will present candidates' performance at the Final Selection Board (FSB). This will be attended by the R&A AEC, AA AE RA/ATA of the Branch and a member of the Branch Management team (OR8 or above) and will be presented with detailed feedback and thus make the final selection. To allow candidates to prepare to join the RN, the FSB is to be convened at the end of the recruiting cycle, approximately two months prior to the AA entry. The FSB also provides an opportunity between R&A and the Branch Management to review and improve the selection criteria and process.

e. For more information refer to Chapters 73 / 74 / 75 / 76 respectively for SM / MEGS / WEGS / AE specific guidance.

6810. Undergraduate Apprenticeship Scheme (UGAS)

For information on ESM UGAS scheme see Ch 73 Para 7305.

6811. MEGS Direct Entry Technician Scheme (DET)

a. The (DET) scheme is an example of a Lateral Entry (LE) route that focuses specifically on the recruitment of Suitably Qualified and Experienced Personnel (SQEP) from industry to shortage categories in the Royal Navy. Presently, the scheme is open only for entry into the MEGS cadre; achieving trained strength entry at the level of Petty Officer Technician (Marine Engineering) (POET(ME)).

b. On joining for New Entry Training, DET recruits will be Probationary Petty Officers. They advance to substantive POET at a defined point in their training pipeline (See Chapter 74 Annex 74G).

c. Once PAR has been raised to Substantive PO, Career Manager to "End Date" AA Competency.

ANNEX 68A

TERMS OF REFERENCE FOR ENGINEERING GENERAL SERVICE ACCELERATED TECHNICIAN AUTHORITY (MEGS AND WEGS)

1. Preamble

a. Career Management is about assigning the right people, with the right skill-sets, to the right job, at the right time, carefully balancing the needs of the Service and the development of the individual in support of operations, whilst maintaining MC of OC.

b. With the introduction of a number of Accelerated Technician (AT) schemes, and in order to deliver success in the schemes, an increased degree of Career Management and oversight of personnel is required.

c. The Accelerated Technician Authority (ATA) positions are OR7 posts within WFPT based in HMS SULTAN and HMS COLLINGWOOD and are responsible for supporting BM ENG SO2 in the management and oversight of the EGS ratings on an Advancement Scheme (including, but not limited to, Fast Track (FT), Advanced Apprenticeship (AA), and Direct Entry Technician (DET)).

2. Purposes

a. **Primary Purpose.** To act as a focal point for the stakeholder community on all aspects relating to the various EGS Advancement Schemes.

b. **Secondary Purposes.**

(1) The monitoring and recording of the progress of all EGS individuals on an AT scheme.

(2) Directing and supporting accelerated career scheme activities and requirements within training schools as required.

(3) To monitor AA recruitment through liaison with the CNR Accelerated Engineer Coordinator and select the candidates for the scheme as a member of the Final Selection Board (FSB).

(4) Liaising with CMCs and UPOs to ensure assignment action and UPO administration (pay, advancement, engagement status etc.) are enabled to meet the requirements of various AT schemes.

(5) Acting as a focal point for mentoring and championing the EGS members and potential members of the various AT schemes from application, recruitment and new entry through to specialist training and first complement assignment.

(6) Provide a source of advice and information for potential recruits to the scheme.

3. Accountability

ATAs are accountable to BM OR ENG SO2 for the following:

a. The selection of Fast Track ratings within the EGS Branch.

b. The management of EGS ratings on Advancement Schemes.

c. Contributing to Engineering Branch development as part of wider Naval personnel development and strategy[1].

4. Authority

ATAs are authorised to carry out the following:

a. Represent another member of the ATA Team as delegated.

b. Liaise with authorities across the MOD and Commands and elsewhere in pursuance of their purposes.

c. Sign correspondence on matters within their purpose, keeping superiors informed.

d. Represent BM ENG SO2 as required on matters relating to the Advancement Schemes.

5. Tasks

The principal tasks undertaken by ATAs are as follows:

a. **Coordinate and Attend the FSB.** The FSB will be convened roughly 2 months prior to the intake entry date to INT to select the top applicants for the scheme. The board will be convened by the ATA who is to contact BM WO1/2 to provide a board chair. CNR AEC will present the AA applicants to the board.

b. **Monitoring and Recording the Progress of all Accelerated Technicians.** The ATA will maintain a record of all individuals' progress towards achieving all training requirements for advancement prior to their AT Advancement Date/Due Date. The ATA will monitor an individual's progress towards their pre-advancement requirements[2], providing the ATA with confidence that all AT advancement requirements will be achieved on time. Analysis of candidate performance should be undertaken to develop future entry requirements for the scheme, in order that this information can be used to review entry criteria and weightings.

c. **Unit Training Co-ordinator Support.** The ATA will provide support to unit Training Co-ordinators in order to effectively support AT personnel whilst employed at sea.

d. **AT Focal Point.** The ATA team will be the focal point for all AT enquires, **supporting** Divisional Staff, Training School Staff and Career Managers in the effective management of all AT personnel.

[1] CNEO strategy which includes the personnel pillar, sits within the ES Division.
[2] As detailed in BRd 3(1) Chapter 68.

e. **Fast Track (FT) Selection Process.** The ATA will be responsible for the co-ordination of the FT Phase 1 (ET – LET), Phase 2 (LET – POET) and Phase 3 (POET-CPOET) selection process. This will include organising all FT activities, such as briefing Qualifying Course, as well as supporting the interview and selection board process under the Maximise Authorised Numbers (MAuN) as set by the Branch Management team for the particular cadre.

f. **Accelerated Scheme Transfer.** The ATA managers are to assist in the Identification and management of personnel worthy of transfer onto any of the Accelerated schemes. This is to be managed on a case-by-case basis via the appropriate Branch Manager.

6. Competencies

In general, the post holder is to be a CPO Engineering Technician of the appropriate Branch.

ANNEX 68B

CERTIFICATES OF UNDERSTANDING - TRANSFER TO OR REMOVAL FROM THE ENGINEERING GENERAL SERVICE FAST TRACK SCHEME

PART A - TRANSFER TO THE ENGINEERING GENERAL SERVICE FAST TRACK SCHEME

Being subject to: Advancement by time (in accordance with BRd 3(1) Chapter 68) and possible changes in minimum notice for assignment to sea and shore.

Part 1 - Individual's Details

Full Name (in Capitals)	Service No.	Rate

Selection Point	Date of Selection	Fast Track Start Date/LET Seniority Date	Remarks

Part 2 - Individual's Declaration[1]

I understand that during my time on the EGS Fast Track scheme:

a. I will be subject to advancement by time (as detailed in BRd 3(1) Paras 6807/6808 and Chapters 74/75*) rather than selective promotion and, therefore, I will not be considered at any Selection Boards for Promotion.

b. I may be liable to be assigned to sea or shore units at less than normal assigning notice, as detailed in BRd 3(1) Chapter 59 Section 11.

Signed: ..... Date: .....

Part 3 - Accelerated Technician Authority[2]

The above named rating has been transferred to the EGS Fast Track scheme and will be subject to advancement by time, with the following awarded due date for the next higher rate:

Advancement To	Date Due Advancement
LET / POET / CPOET*	

* delete as appropriate

Signed: ..... Rate/Rank: .....

Name (in capitals): ..... Date: .....

[1] A copy of the Certificate of Understanding Part A is to be retained by the individual.
[2] The Certificate of Understanding Part A is to be retained by the ATA for a period of 3 years after the individual leaves the FT scheme.

PART B - REMOVAL FROM THE ENGINEERING GENERAL SERVICE FAST TRACK SCHEME

Part 1 - Individual's Details

Full Name (in Capitals)	Service No.	Rate

The Above Named Rating has been removed from the EGS Fast Track scheme and will no longer be subject to time-based advancement.

The following seniority date has been determined by the Fast Track Authority and will be recorded in JPA:

Rate	Seniority Date

Part 2 - Individual's Declaration[3]

I understand that on removal from the Fast Track scheme I will:

a. Return to being subject to selective promotion as detailed in BRd 3(1) Chapter 67 and Chapter 74/75*.

b. Be liable to be assigned to sea or shore units as detailed in BRd 3(1) Chapter 59 Section 11.

* delete as appropriate

Signed: ..... Date: .....

Part 3 - Accelerated Technician Authority[4]

The Above Named Rating has been transferred to the Selective promotion scheme and will be subject to promotion by Selection from the following date:

Date: .....

[3] A copy of the Certificate of Understanding Part B is to be given to the individual.
[4] The Certificate of Understanding Part B is to be retained by the ATA for a period of 3 years after the individual leaves the FT scheme.

The following actions have been completed;

- the individual has been fully briefed on implications of removal from Fast Track and has been advised of any ROS associated to the Qualifying Courses that have been completed;
- all Fast Track competences have been removed from JPA; and
- the Individual's Seniority Date has been agreed with the FTA and recorded in JPA.

Signed: ..... Rate/Rank: .....

Name: ..... Date: .....

ANNEX 68C

FAST TRACK (WEGS AND MEGS) SELECTION INTERVIEW GUIDE

1. The Fast Track Selection Interview (FTSI) will take the following format:

a. **Board Introduction:** The FTSI president will introduce the board members and outline the requirements of the board.

b. **Self Introduction:** Candidates will be asked to give a short brief on their personal history and career to date.

c. **Training and Career Development:** Candidates should be able to demonstrate outline knowledge of the LET/POET Qualifying Courses and an understanding of ET career stream development and promotional prospects. Candidates will also be expected to demonstrate awareness of the role of LET and POET.

d. **System and General Technical Knowledge:** Candidates will be expected to demonstrate a good knowledge of basic systems that are taught during Phase 2, using diagrams if appropriate. They must be able to demonstrate an aptitude and understanding of basic engineering principles in both mechanical and electrical disciplines.

f. **General Awareness:** Candidates will be expected to have an understanding of the organisational structure of ME or WE departments from ET through to command level. Additionally, they must have an appreciation of the Royal Navy in terms of current and future equipment, platforms and operations.

2. Examiners' Guidance

Hints and guidance given to FTSB examiners regarding the standards they should be delivering/expecting:

a. Guidance for all candidates.

b. Ability to communicate orally and in writing.

c. Able to discuss various issues in a clear and logical manner.

d. Good standard of mathematics, broadly equating to GCSE Grade C or above.

3. Questions should be based, where appropriate, around scenarios the individuals would be likely to encounter on board. Use of diagrammatic explanations is acceptable. Allowances should be made for Phase 2s who may lack on board experience and may not use the correct terminology.

4. WEGS Fast Track Interview Proforma

Name & Rate		Course No	
Official Number		Date of Interview	
Age & Date Entered RN	Age Now - Joined -	QEPO on JPA	Yes / No
President		Board Member	

1. Training & Career Development - *FT Candidates should be able to demonstrate/show*: Understanding of FT and non-FT timelines and qualifications up to and including WOET(WE). What are the Leadership and Management differences between LH and PO? Do they know role of LH as LHOM and its relation to the Divisional organisation? **CIS Specific** – Understand the role of the RIC of communications at sea.	
	/10
2. Weapon Engineering Department - *FT Candidates should be able to demonstrate/show:* WE Department Family Tree from CO down and the roles, main tasks Do they have a basic Understanding of board planning, e.g. weekly planning cycle, maintenance planning etc? Understanding the terms Operational Notice, Notice for Sea and the Operational Effect. Understanding of Explosive Handling and Explosives Organisation. What is the Duty watch organisation and responsibilities? **CIS Specific** - Explain the communication services to be maintained by Ships at sea, understand the requirements for a communications intentions signal (including timeframes) and define OPCALL as well as understand the reporting chain for CIS problems at State 1,2, & 3. ***What level of detail is the candidate able to articulate? Has effort been made to expand on QC knowledge?***	
	/10

3. General Technical Knowledge - *FT Candidates should be able to demonstrate/show*: Knowledge of weapon systems and their Operational Capabilities Knowledge of internal and external communications, their capabilities and primary uses. Action Information Organisation (i.e.. How weapon and sensor systems interact on board including the Combat System Highway) Understanding the SHIPHAZ Procedures LOTO procedures and Preps for Sea routines **CIS Specific** – Demonstrate knowledge of computer networks and System networking. Knowledge of Communication Plans, Strategic, Tactical and Distress communication circuits. Explain IS systems in use onboard RN Vessels (e.g. DII/LC2) and what the systems are utilised for. Understand Basic fault finding of Communications Circuits. Knowledge of reversionary modes available to CIS systems. ***What level of detail is the candidate able to articulate? Has effort been made to expand on QC knowledge?***	
	/10
4. General Naval Knowledge - *FT Candidates should be able to demonstrate/show:* Types of vessel used in the RN and primary roles. Areas of tasking undertaken by the RN. Future platforms. ***Is the candidate's information current? Is it evident effort been made to do research?***	
	/10
5. Motivation - *FT Candidates should be able to communicate:* Why do you want to go fast track? Why do you feel you should be given the opportunity to proceed through your career at an accelerated rate ahead of your peers?	
	/10
Overall Performance on the Board: ***Use of correct engineering terminology, effective communication skills, military bearing, how they conduct themselves etc.***	
Result : ***V STRONG/STRONG/SATISFACTORY/FAIL/Demonstrates Potential for LET/POET***	**/50**
Signed: **Board President**	

5. MEGS Fast Track Interview Proforma

Name & Rate		Course No	
Official Number		Date of PSI	
Age & Date Entered RN	Age Now – Joined –	QELH on JPA	Yes/No
Education Qualifications	(*List qualifications and grades*)		
Next Assignment	(*If Known*)		
President		Board Member	

1. Training & Career Development:
Detailed understanding of FT and non-FT timelines and qualifications up to and including WOET(ME) – e.g. timescales to PE, Operator Tickets, CDJ completion etc. Candidates should know the CLM and OC delivery difference between LH and PO. Do they know the length of each career course, pre-requisites for promotion, authorisation levels at each rank, BR references, Engineering Training Squadrons etc?

V STRONG/STRONG/SAT/POOR/V POOR

2. Engineering Department/Support:
Ability to draw ME Department Family Tree from CO down and talk about roles of all individuals in the tree, detailing main tasks and interaction with other departments. Do they have an understanding how onboard planning is conducted, e.g. weekly planning cycle, maintenance planning, FTSP planning/support etc?

V STRONG/STRONG/SAT/POOR/V POOR

4. Mathematics/Problem Solving:
Engineering Mathematics, test ability to problem solve and apply sound engineering logic/judgement to arrive at sensible answers, e.g. a compartment of length A, width B and depth C is filling with sea water at a rate of ∂m3 per/hour. Given sea water density of 1029kg/m3 how deep will the water be after X seconds and how much will this volume of water weigh? If water was added for a further 25% of the total time (X + 0.25X seconds) how much deeper will the water be and how much extras will it weigh?

V STRONG/STRONG/SAT/POOR/V POOR

5. General Technical Knowledge:
Reflection on material delivered during ETICC, e.g. basic fridge cycle and symptoms of various failures, gas-flow through a GT, ICE construction, safety, roundsmanship principles. Do they have a good understanding of system operation in and out of trade, correct use of engineering terms and symbols?

V STRONG/STRONG/SAT/POOR/V POOR

6. MEGS & General Naval Knowledge: Types of vessel used in the RN and primary roles. Propulsion and weapon systems fitted; areas of tasking undertaken by the RN. Future platforms. Do they know role of LH as LHOM and with regard to Divisional organisation? **V STRONG/STRONG/SAT/POOR/V POOR**
Overall Performance on the Board: ***Use of correct engineering terminology, effective communication skills, military bearing, how they conduct themselves etc.***
Result : ***V STRONG/STRONG/SATISFACTORY/FAIL/Demonstrates Potential for LET/POET***

Signed: **Board President**	

ANNEX 68D

FAST TRACK SCHEME (EGS) - TERMS OF SERVICE AND FAILURE POLICY

1. Fast Track Terms of Service

a. The FT affords significant opportunity in terms of career progression at an earlier stage and that FT personnel will perform at a higher than average level of competence in all aspects of training and employment prior to achieving their next higher rate. The scheme is dependent on both the individual and the unit's organisation to maintain progress towards the next higher rate and to ensure this occurs the scheme will be externally assured, managed under revised terms of service and clearly defined failure policy.

b. Lack of progress within the scheme has the potential to prevent the achievement of the nominated Due Date and, therefore, it will be expected that FT personnel will be appropriately supported. The individual will be placed on warning in a timely manner to support recovery and indicate not only the failure, but the potential impact to the due date achievement. At all times an FT individual must maintain a positive recommend to remain on the scheme and for the next advancement. Any repeated training failure, CLM or NGT warnings or attitudinal problems will, in all probability, result in removal from the FT scheme.

c. Personnel selected FT during Phase 2 Training who remain on the scheme (subject to completing all eligibility criteria) will be advanced to LET. Further selection for FT to POET will be dependent upon both performances on the LET QC and recommendation to remain FT. The FT selection board during Phase 3 Training will consider all those who retain the FT recommendation from Phase 2 Training and, also, those who have a recommendation from sea (recorded on JPA as 'Professional I Fast Track POET Recommend I Navy'). Selection for FT to CPOET will be dependent on performance on the POET QC, recommendation for FT, Service History and requirement. The FT selection board during POET QC will consider all those who have a recommendation from sea (recorded on JPA as 'Professional I Fast Track CPOET Recommend I Navy'.

d. To ensure all FT personnel are fully aware of the changes to their Terms of Service on selection to the FT scheme (including, being advanced in lieu of selective promotion), individuals will sign a Certificate of Understanding (Part A). When signing, they confirm that they understand that, whilst on the FT scheme, they will not be considered at Selective Promotion Boards and also there may be occasions where the minimum time for assignment to sea and shore may not be achieved. On leaving the FT scheme, a Certificate of Understanding (Part B) will be completed and signed by the individual reversing the process, with an individual returning to Selective Promotion and minimal notice for future assignments.

e. FT will incur the same Training Return of Service (TRoS) associated with CC and QC, see Para 5304 and Table 53-C. The TRoS obligation is incurred from the start date of the course and will be applied, subject to Service needs irrespective of the final course outcome. Although TRoS is incurred from the start of the course, the actual return of service will start on completion of LETQC, POETQC or CPOETQC respectively. This will be the case for all FT personnel; individuals who are withdrawn from training, for whatever reason, or who effectively withdraw themselves from training, will have a period of TRoS applied. As a rule, this period will be determined by the FTA; taking into consideration the amount of course completed and any other mitigating factors.

2. FT Scheme Failure Policy

a. The failure policy is to be followed for all FT personnel and is aimed at ensuring individuals remain focussed on meeting the required of the FT scheme. Where it is evident that agreed targets will not be achieved, FT personnel are to be placed on warning in a timely manner to re-focus the individual and also highlight to the ATA the potential delay in the individual's progression.

b. There may be extenuating circumstances, both Service and Non Service reasons, see Para 6802 which may prolong an individual's time within the training pipeline. Delays may have an effect on the ability to meet progression to LET, POET or CPOET within the expected time and in all circumstances the ATA should be informed at the earliest point.

c. The names of ratings that, for reasons of misconduct, incompetence or lack of diligence, cannot be advanced within the set timescales are to be reported to ATA at the earliest opportunity with a recommendation on whether to be retained or removed from the FT scheme. Ship's or Training School staff are to seek the advice of the ATA and CM EGS JR WO1 during any escalation of warnings preceding the individual's due date for advancement.

3. Automatic Removal from the FT Scheme

The following occasions will be considered as reason for automatic removal from FT:

a. Submission of Early Termination request.

b. Not being recommended for advancement.

c. Failure of Leadership Course (LRLC or SRLC), see Para 7.

d. Discipline resulting in Disrating or Career Check.

e. Career Break.

4. De-Selection from the FT Scheme

a. Once selected, an individual will remain on the FT scheme unless they;

(1) Submit formal request to be removed from the scheme to ATA.

(2) Fail to complete professional qualifications/requirements at sea within the prescribed timescales.

(3) Demonstrates professional and/or performance-related reasons for unsuitability.

(4) Are removed from the scheme following escalation of warnings for other professional, CLM or NGT reasons.

(5) Selected for UY/SUY(E) Scheme (if failing on this scheme acceptance back onto the FT scheme will be on a case-by-case basis as determined by the relevant BM SO2).

b. On submission of a request for Early Termination an individual will be de-selected from the FT scheme. Unit Staff and Career Managers are to ensure they liaise with the ATA prior to accepting any notice to ensure that the individual is fully briefed on all aspects associated with removal from FT and serving notice, such as TRoS and being employed at sea during the notice period.

c. When being de-selected from the FT scheme the ATA will ensure the following actions are completed and appropriate details are recorded on the Certificate of Understanding (Part B):

(1) Individual is to be fully briefed on all aspects of removal and future promotion will be by Selection.

(2) An SJAR or Insert Slip raised detailing reasons for the de-selection.

(3) FT Certificate of Understanding (Part B), to be completed by the ATA.

(4) ATA to remove the JPA FT competence.

(5) Individual’s seniority date to be agreed with CM and recorded on JPA.

5. Volunteer for Removal from the FT Scheme

a. At any stage of the scheme an individual can volunteer to be removed from FT and revert to selective promotion. The process is detailed below and all individuals should be fully advised of the changes to their career progression when transferred back to the selective promotion route. It is recommended this is carried out by the unit HOD or CM.

b. The request by an individual for removal from the FT scheme is to be forwarded to the relevant CM for review and consideration. The CM will provide career advice to the individual including any TRoS requirement in relation to any training courses that have been completed. The process to be followed is indicated below;

(1) The FT ET is to submit a formal request detailing the explanation why they wish to be removed from the FT Scheme.

(2) If the request for removal is associated with submission of Early Termination the ATA will liaise with the CM before advising the HOD on future employment plans.

(3) If at sea in a complement billet, the ET or LET is expected to remain in that position.

(4) If the request for removal is not associated with an Early Termination but occurs on LETQC or POETQC the individual will continue on the course as subject to selective promotion. All cases will be treated individually and be approved by the relevant CM.

c. Individuals removed from the FT will be career managed by their appropriate CMC and be employed according to the Needs of the Service.

6. Failure within Professional Qualifying Courses

a. FT personnel who fail on ET CC, LETQC or POETQC will be managed by the Training Schools QC Failure Policy. All FT individuals are to be considered by the Training School for removal from the FT Scheme on achieving Tier 2 (WE)[1] and Level 2 (ME)[2] Warnings.

b. Back Class for FT personnel is only to be considered for exceptional reasons outside of any professional training failure. Where back class is necessary then the individual case will be reviewed by the Training School, ATA and CM to assess the impacts to the individuals training. Where a FT individual is being back classed then following liaison with the FTA/ATA the Training School will review the circumstances of the back classing and consider on a case-by-case basis if the individual is to remain on the FT scheme.

c. Where FT personnel fail or miss course module(s) then the Training School policy is to be followed in reprogramming modules. Where a module(s) has been missed for Service or Non-Service reasons then the ATA is to be notified in all cases. Whether an individual remains on the FT scheme will be reviewed on a case by case basis, with the final decision being made between the Training School, CM and the FTA/ATA.

[1] HMS COLLINGWOOD FOAP(T) PCD-1304
[2] HMS SULTAN TSOP3 :3:3

7. Failure of Leadership Courses

a. As Fast Track ratings it is expected that all FT personnel will allocate sufficient time and preparation to pass the necessary leadership courses that are the standard for the rank which they have been recommended.

b. Those FT personnel who fail to pass LRLC or SRLC may be de-selected from the FT scheme for not meeting the standard of leadership expected at their rank. In exceptional cases and where there is sufficient mitigation and a recommend to return to leadership course by Royal Navy Leadership Academy (RNLA) Staff a de-selection from the FT scheme waiver may be considered. This must be approved by the FTA/ATA.

c. On removal from the FT scheme following failure at LRLC or SRLC the individual will be transferred to the selective promotion route at their current rank (i.e. on failing LRLC the rating will remain as an ET1). The individual must then seek promotion by selection and will be planned to attend leadership only after further selection for the next higher rate.

8. Fast Track Scheme Rules Regarding Failure

The details given in Table 68D-1 provide reasons for failure and the associated actions to be taken. All instances will be reviewed on a case-by-case basis by the training School in consultation with the relevant CM. Where an individual is removed from the FT scheme, the ATA will complete all relevant actions for the removal of the individual from the FT scheme.

Table 68D-1. Fast Track Scheme Rules Regarding Failure

Training Point	Reason for Failure	Actions to be completed on Removal from Fast Track (Note 10)
Phase 2 Training ETICC	NGT Failure (See Para 5750) Below 75% average score or training school equivalent during Phase 2 Module Assessments not achieved (Note 1) Back Classed (Note 2) Failure of academic Module(s)	Transferred to Selective Promotion Continue in Phase 2 training (Note 3) Future assignment by CMC
Sea Employment as ET2 and ET1	Competence as a ET not achieved within 9 months sea service. Removal of FT Recommend (Note 9) Not complete AB to LH CBRNDC Taskbook	Transferred to Selective Promotion Remain at sea as ET Warning levels to be adjusted (Note 4) Assigned by CMC (Note 5)
LRLC	Failure of LRLC (See Para 6903)	Transferred to Selective Promotion Not to proceed to LETQC Assigned back to CMC and sea as ET1 (Note 7)

(Continued)

Table 68D-1. Fast Track Scheme Rules Regarding Failure (Continued)

Training Point	Reason for Failure	Actions to be completed on Removal from Fast Track (Note 10)
Phase 3 Training LETQC	NGT Failure (See Para 5750) Below 75% average score or training school equivalent during Phase 3 Module Assessments not achieved (Note 1) Back Classed (Note 2) Removal of FT Recommend (Note 9)	Transferred to Selective Promotion Assigned back to CMC as ET1 (Note 8)
Sea Employment as LET	Competence as a LET not achieved within 15 months sea service. Removal of FT Recommend (Note 9)	Transferred to Selective Promotion Remain at sea as LET Warning levels to be adjusted (Note 4) Assigned by CMC (Note 5)
SRLC	Failure on SRLC (See Para 6903) Pre course documentation in-complete for SRLC (Note 6)	Transferred to Selective Promotion Not to proceed to POETQC Assigned back to CMC as a LET (Note 7)
POETQC	NGT Failure (See Para 5750) Below 75% average score or training school equivalent during Phase 4 Module Assessments (Note 1) Removal of FT Recommend (Note 9)	Transferred to Selective Promotion Assigned back to CMC as a LET (Note 8)
Sea Employment as POET	Competence as a POET not achieved within 18 months sea service. Removal of FT Recommend (Note 9)	Transferred to Selective Promotion Remain at sea as POET Warning levels to be adjusted (Note 4) Assigned by CM (Note 5)
CPOET QC	NGT Failure (See Para 5750) Removal of FT Recommend (Note 9)	Transferred to Selective Promotion Assigned back to CM as a POET (Note 10)

Notes:

1. FT personnel are expected to demonstrate the higher levels of competence at all times. Failure to sustain this level or failure of any re-sit examination will be reviewed by the Training School, ATA and relevant CM on a case by case basis and may result in removal from the FT scheme but not necessarily from the qualifying course.

2. Where it is deemed necessary, but only in exceptional circumstances, a FT may be back classed. When back classed the individuals seniority and due dates may be adjusted accordingly as directed by the relevant CM and ATA/FTA.

3. An individual shall continue in Phase 2 Training following failure at the discretion of the Training Officer.

4. Where warning levels have been issued due to an individual failing to achieve their planned progress on the FT scheme these warnings are to be reviewed upon removal from the FT scheme and transfer to Selective promotion and removed as appropriate. Where a warning is deemed necessary within the selective promotion also then it is to remain. Full clarification from the relevant CM and ATA/FTA should be sought by units.

5. On removal from the FT scheme and transfer to Selective promotion whilst serving at sea the relevant CM or CMC is to ensure the individual remains in post unless the warning level dictates otherwise. The individual's seniority will remain that of any previous Due Date and it will be necessary to adjust all future availability dates.

6. Where an individual has failed to prepare for a leadership course which is assessed as being due to Non-Service Reasons within an individual's control, the individual is to be removed from the FT scheme.

7. On failure at LRLC or SRLC and following removal from FT Scheme it is to be recognised that the individual will have completed less time at sea than those on selective promotion. It is therefore expected that these individuals will be assigned back to sea at the earliest opportunity by the relevant CM or CMC.

8. It is assumed that the failure occurs before any due date for advancement to NHR and by not completing QC the individual is therefore not eligible for advancement. All cases will be dealt with on an individual basis by the ATA/FTA and the relevant CM.

(Continued)

Notes (Continued):

9. Where an individual is selected for FT, but subsequently does not perform to the required standards on the higher qualifying course their Divisional Officer (ET CC or QC), HOD (Employment) or Training Officer (LETQC, POETQC and CPOETQC) may make a recommendation for the individual to be removed from the FT scheme to the ATA/FTA and relevant CM.

10. On failure and removal from FT the ATA/FTA will complete all necessary actions and will also liaise with relevant CM or CMC regarding future employment and assignments. Where necessary the CMWO1 will advise on individual cases.

ANNEX 68E

INTERIM FAST TRACK SCHEME

1. The EGS IFT scheme was introduced in advance of the Steady State FT scheme and provided an opportunity for the current strength ETs and LETs to have an accelerated route to POET. Capacity within legacy POET Enabling Training, followed by the POET Qualifying Course (QC) has been utilised to provide the appropriate higher level training before a period at sea to consolidate and acquire experience.

2. With the development and introduction of the Individual Competency Framework (ICF) designed QCs, the legacy training courses are being replaced and the Enabling Training for the IFT scheme removed from the Training Programme. As a result of this, the training pipeline is being amended for those who have been selected for IFT, but have been unable to be assigned or successfully complete the POET Enabling Training. These IFT personnel are being locally managed by the ATA and assigned to a revised training package that utilises LET and POET QC.

3. To remove any confusion between the Interim and Steady State FT schemes where possible the Terms of Service and Failure Policy have been aligned. During the development of the Steady State FT scheme the current IFT policy was reviewed and updated.

4. The policy laid down is applicable to personnel who were selected onto the Interim Fast Track prior to 1 Oct 15. Unlike Steady State FT, where there is a two stage selection process, personnel who are currently on the IFT scheme retain the rights of their due date for advancement up to POET, provided that they are eligible in all respects for advancement.

5. Management of IFT Personnel

A higher degree of external management and oversight of IFT is required to ensure personnel maintain the required standards and maximise the opportunities for sea experience between training courses. The Steady State FT scheme has introduced a CM EGS JR WO1, and an ATA, which will be based in HMS SULTAN and HMS COLLINGWOOD. The CM EGS JR WO1 and relevant ATA are also the focal point for all issues relating to IFT personnel. As the Fast Track Authority (FTA), the ATA will also provide the requisite assurance to Branch Managers of progress of all personnel within the IFT scheme.

6. Transfer to Interim Fast Track – Minimum Assignment Notice

The IFT scheme accelerates individuals to POET and may require shorter than the minimum assignment notice. All individuals on the IFT scheme may be liable to be assigned to sea or shore units at less than normal assigning notice, as detailed in Chapter 59 Section 11. This will be acknowledged by individuals when they sign the Certificate of Understanding (Part A); accepting the Terms of Service detailed for IFT, including waiving their rights to promotion under the selective promotion route and accepting that they may be assigned at less than the normal assignment notice period. Should an individual be removed from the IFT scheme then the Certificate of Understanding (Part B) will be used in transferring individuals back onto the standard selective promotion route and the normal assignment notice period. The Certificate of Understanding for IFT personnel can be found at Annex 68F and signed copies will be retained by both the ATA and the individual.

7. Interim Fast Track Training Returns

The ATA will maintain a record of progress towards achieving the training requirements detailed in the flowcharts. Ship's Staff will assist with this process by submitting a Training Return to the ATA either 3 monthly or when key milestones are reached/missed. All IFT personnel will be expected to proactively manage and own their training, and present a training plan to the unit Training Co-ordinator detailing when they believe they will achieve the required next higher rate eligibility criteria. An individual's Training Plan should be reviewed and used to set SJAR Personal Objectives, aligned with the information contained on a unit's Training Return.

8. IFT Flow Charts

ENGINEERING TECHNICIAN (MARINE AND WEAPON ENGINEERING) - INTERIM FAST TRACK ADVANCEMENT FLOWCHART FOR INDIVIDUALS WHO HAVE COMPLETED POET ENABLING TRAINING AND POET QC.

The following rules apply to personnel who have been selected for the Interim Fast Track scheme and have completed POET Enabling Training and POET Qualifying Course.

LEADING ENGINEERING TECHNICIAN
Awarded an Advancement Due Date to POET of 24 months from the LET Seniority Date

Criteria for Advancement to POET (Interim Fast Track)

a. Successful completion of POET Qualifying Course recorded on JPA as ME|POET ME Qualifying Course (ME284)|Navy| or WE|POET(WE) Career (WE315)|Navy|. (Note 2)(3)(4)(6).

b. Hold Professional Qualifications SOC and MEOOW2C to be completed within 18 months' sea service; recorded on JPA as 'Professional Switchboard Operating certificate DB33)|Navy' and 'Professional Marine Engineer Officer Of The Watch 2 Certificate (MEOOW2C)|Navy' (Applicable to ET(ME) personnel only).

c. Completed OJT and Passed OPS Assessment for LET. Recorded on JPA as 'Professional|OPS for LET(ME) DQ40|Navy' or 'Professional|OPS for LET(WE) DQ40|Navy|'. (8).

d. Completed SRLC. Recorded on JPA as 'Miscellaneous|Senior Rates Leadership Course|Navy|' (Para 6909). (5)

e. In date for RNFT or hold approved waiver on date due advancement (Para 6806), recorded on JPA as 'CMS|Fitness Test|Navy|'. (1).

f. 18 months' sea service as a LET.

g. At least 6 months since last Career Check (if any) on date due advancement.

h. Recommended for advancement to POET on Appraisal Report. (7).

Advanced to
PETTY OFFICER ENGINEERING TECHNICIAN (Note 5, Note 7)
Transfer to Selective Promotion Flowchart for ICF ET and back to selective promotion rules in Chapter 67

Notes:

*1. **RNFT.** Ratings are to be in date RNFT or in possession of either a permanent medical exemption as issued by a Naval Service Medical Board of Survey (NSMBOS) or temporary exemption (as issued by the Commanding Officer) on the appropriate due date for advancement. See Para 6806 for the required JPA competence.*

2. Suitability of individuals to retake failed elements of the QC, or the requirement to be back classed, or remain on the IFT scheme, will be determined by the Commanding Officer of the relevant Training School. A repeat failure of part/all of the course will result in the individual being deselected from IFT, however, they will remain on the QC, but not on the IFT scheme (normal QC failure rules apply). Suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.

*3. **Unsuitable Candidates.** Where, during the period of the QC, candidates are found to be unsuitable for advancement to the next higher rate, they may be withdrawn from training by the Commanding Officer of the relevant Training School. In such cases, individuals will be deselected from IFT and the QC and will continue to serve in their current rate. They will transfer from IFT back to Selective Promotion as the eligibility route for future selection.*

4. Failure to complete Professional and/or Leadership Course. Refer to Para 6803 for rules on the impact on a rating's advancement if they fail to complete LET/POET QC and/or LRLC/SRLC before the due date by time or within 12 months of the due date as a result of service reasons (outwith own control) or non-service reasons (within own control).

5. All IFT personnel shall complete SRLC, as appropriate, as part of their next higher rate. Preparation for and completion of these courses is essential and, although the responsibility rests firmly with the individual to be fully prepared, is to be supplemented with appropriate coaching and mentoring by their Head of Department. There may be occasions where an IFT individual is at their Due Date for advancement by time, but has not completed their QC so will not meet the advancement criteria. In consultation with the ATA, an application for the Acting Higher Rate will be considered against the 'Inability to Satisfy Criteria for Advancement' as detailed in Para 6803.

(Continued)

Notes: (Continued)

*6. **Refusal to Complete POET QC.** Individuals who refuse to undertake the QC will be deselected from the IFT scheme, continue to serve in their current rate, and transfer back to Selective Promotion.*

7. If for any reason an LET does not achieve the eligibility criteria and subsequent recommendation for advancement, a review will be undertaken by the CM EGS JR WO1 on a case by case basis for suitability to remain on the IFT scheme. Individuals who are removed from IFT will transfer back to the Selective Promotion rules.

8. If the OPS Assessment is passed by a rating who is already qualified for advancement by service, then the seniority date for advancement will be the examination date.

9. ENGINEERING TECHNICIAN (MARINE AND WEAPON ENGINEERING) - INTERIM FAST TRACK ADVANCEMENT FLOWCHART

The following rules apply to personnel who have not completed POET Enabling Training and POET Qualifying Course.

ENGINEERING TECHNICIAN 2

Engineering Technician 1 - Pre-Advancement Requirements

a. Completed RALEIGH – Phase 1 Training.

b. Completed Phase 2 Training. (1)(2).

c. To be EFP in accordance with Para 9638 and recorded on JPA as ’Educational|RN/RM QEPO/Sgt|Navy|’.

d. Display required proficiency in accordance with competencies as laid down in the ICF as ET2, authorised by HOD. To be recorded on JPA as ‘Professional|Engineering Technician (Engineering) (GS)|Navy|ET1 Sea 1’. To be completed within 4 months sea service (applicable to ICF trained ET(ME) personnel only). (3)(4).

e. Completed Task Book for ET(ME) 2 OC (MEMOC Harbour), recorded on JPA as ‘Professiona|Achieved MEMOC (Harbour) (DQ50)|Navy’ (Applicable to legacy trained ET(ME) personnel only). (2).

f. Completed OJT TB and OPS Assessment as an ET(WE)(CIS), authorised by the HOD. Recorded on JPA as ‘Professional|OPS for AB(CIS)(QQ50)|Navy|’. To be completed within 12 months’ sea service (ET(WE)(CIS) only). (2).

g. Completed ET(WE) Task Book Section 2A. To be completed within 4 months sea service (ET(WE) only). (2).

h. At least 6 months since last Career Check (if any) on date due advancement.

i. Recommended for advancement to ET1 by HOD. Promotion Authorisation Request (PAR) forwarded to Flotilla parent Career Management Cell (CMC).

Advanced to
ENGINEERING TECHNICIAN 1

Leading Engineering Technician – Pre-Advancement Requirements

a. CBRNDC TB to be completed and recorded on JPA as 'Professional|Completion of CBRNDC Task Book (All Ratings) (9J94)|Navy|'. (3).

b. Serving on an ES1/FC/OE1 that expires after the nominated Due Date for Advancement.

c. Display required proficiency in accordance with competencies as laid down in the ICF as ET 1, authorised by HOD and recorded on JPA as 'Professional| Engineering Technician (GS)|Navy', with a Proficiency Level of 'ET1 Sea 2'. To be completed within 12 months' sea service as an ET (Applicable to ICF trained ET(ME) personnel only). (4).

d. Completed Task Book for ET(ME)1 OC (MEMOC Sea-going) recorded on JPA as 'Professiona|Achieved MEMOC (Full) (DD44)|Navy' within 12 months' sea service as an ET (Applicable to legacy trained ET(ME) personnel only) (2).

e. Streaming Preferences submitted and showing on JPA. (5).

f. Completed ET(ME or WE or CIS) OJT Task Book and OPS Assessment, recorded on JPA as 'Professional|OPS for ET(ME) DQ40|Navy' or 'Professional|OPS for ET(WE) DQ40|Navy|' or 'Professional|OPS for AB(CIS)(QQ50)|Navy|'. To be completed within 12 months' sea service (Applicable to legacy trained ET personnel only). .

g. Completed COMMS202 Career Course, recorded on JPA as Comms|AB(CIS)1/AB(CISSM)1 Career (Comms 202)|Navy| (Applicable to Ex-CIS personnel only). (7).

h. A minimum of 12 months sea service as an ET.

i. LRLC completed and recorded as JPA competency 'Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|' (Para 6909). (10).

j. Passed LET QC by nominated Due Date; recorded on JPA as ‘ME|LET(ME) Career (ME 151)|Navy’ or ‘WE|LET(WE) Weapons Career (WE 211)|Navy’ or ‘WE|LET(WE) Sensors Career (WE 212)|Navy’ or ‘WE|LET(WE) CIS Career (WE 213)|Navy’. (6)(8)(9)(14).

k. Recommended for advancement on Appraisal Report at Due Date. (11)(14)(15).

l. At least 6 months since last Career Check (if any) on date due for Advancement (if later).

Advanced to
LEADING ENGINEERING TECHNICIAN

Petty Officer Engineering Technician – Pre Advancement Requirements

a. Serving on a ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated Due Date for Advancement.

b. To be EFP in accordance with Para 9638 and recorded on JPA as ’Educational|RN/RM QEPO/Sgt|Navy|’.

c. Hold Professional Qualifications SOC and MEOOW2C to be completed within 12 months’ sea service; recorded on JPA as ‘Professional|Switchboard Operating certificate (DB33)|Navy’ and 'Professional|Marine Engineer Officer Of The Watch 2 Certificate (MEOOW2C)|Navy'. To be completed within 12 months’ sea service (Applicable to all LET(ME) personnel only).

d. Display required proficiency in accordance with competencies as laid down in the Individual Competency Framework (ICF) as LET, authorised by HOD. This is to be recorded under ‘Professional|Engineering Technician(Engineering)(GS)|Navy|LET Sea’. To be completed within 18 months’ sea service (Applicable to ICF trained personnel only). (12)(13).

e. Completed LET(ME or WE or CIS) OJT Task Book and OPS Assessment, recorded on JPA as ‘Professional|OPS for LET(ME) DQ40|Navy’ or ‘Professional|OPS for LET(WE)|Navy|’ or ‘Professional|OPS for LS(CIS) QQ40|Navy|’ (Applicable to all legacy trained LET personnel only). .

f. 18 months’ sea service as an LET.

g. SRLC completed and recorded as JPA competency ‘Miscellaneous|Senior Rates Leadership Course (RNLA 103|Navy|’ (Para 6909). (10).

h. Passed POET QC by nominated Due Date; recorded on JPA as ME|POET(ME) Career (ME153)|Navy' or 'WE|POET(WE) Weapons/Sensors POET(WESM) Career (WE 317)|Navy' or 'WE|POET(WE) CIS Career (WE 318)|Navy'. (6)(8)(9)(14).

i. Recommended for advancement on Appraisal Report at Due Date. (11)(14)(15).

j. At least 6 months since last Career Check (if any) on due date for Advancement (if later).

Advanced to
PETTY OFFICER ENGINEERING TECHNICIAN
Transfer to Selective Promotion Flowchart for ICF ET and back to selective promotion rules in BRd 3 Chapter 67

Notes:

1. On completion of ET(CC) where an ICF course has been undertaken a Career Development Journal (CDJ) will be issued. An individual who completes an OPS course will be issued the OJT Task Book.

2. ET(ME) personnel who commenced their ET(ME) career course prior to Jan 15 are to have completed and been awarded the following legacy OPS competencies for the eligibility criteria for advancement to ET 1 and LET:

a. Advancement to ET(ME)1 - Completed Task Book for ET(ME) 2 OC (MEMOC Harbour), recorded on JPA as 'Professiona|Achieved MEMOC (Harbour) (DQ50)|Navy'.

b. Advancement to LET(ME) - Completed Task Book for ET(ME)1 OC (MEMOC Sea-going) recorded on JPA as 'Professiona|Achieved MEMOC (Full) (DD44)|Navy' and awarded OPS at ET1 recorded on JPA as 'Professional|OPS for ET(ME) DQ40|Navy'.

3. On completion of the ET2 Career Development Journal (CDJ) mandated tasks and being recommended, ratings will be advanced to ET1 and issued their CBRNDC Task Book.

4. Competence as an ICF trained ET1 is achieved on successful completion of the ICF mandated competencies within the sea employment space, evidenced within the individual's CDJ. This is to be completed within 12 months' sea service as an ET.

(Continued)

Notes: (Continued)

5. IFT ETs will be streamed during their sea training phase, earlier than individuals that are not on the IFT scheme. An individual will be allocated a stream by the ATA in consultation with ships staff after 6 months sea service. Once streamed, employment on board, where possible, is to be within the allocated Stream. This will enable the IFT individual to gain as much experience as possible whilst in the compressed sea employment prior to being assigned to LET QC. This process is not applicable to IFT ET(WE)(CIS) personnel who are streamed on entry into the Service.

6. Pre-course Learning is to be completed in accordance with the policy of the Training School. Where this is not achieved, the suitability of the individual to undertake the course and also remain on the IFT scheme will be determined by the Commanding Officer of the relevant Training School on a case by case basis.

7. Meeting all the promotion criteria as detailed in Para 7508. Engineering Technician (Weapon Engineering) CIS - Entered as Warfare CIS and transferred to WE Branch in April 2015.

8. Suitability of individuals to retake failed elements of the QC, or the requirement to be back classed, or remain on the IFT scheme, will be determined by the Commanding Officer of the relevant Training School. A repeat failure of part/all of the course may result in the individual being deselected from IFT and the QC and continuing to serve in the lower rate. Suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.

9. ***Unsuitable Candidates.*** *Where, during the period of the Qualifying Course, candidates are found to be unsuitable for advancement to the next higher rate, they may be withdrawn from training by the Commanding Officer of the relevant Training School. In such cases, individuals will be deselected from Interim Fast Track and an assessment made on their suitability to remain on Qualifying Course. They will transfer from Interim Fast Track back to Selective Promotion as the eligibility route for future selection.*

10. ***Failure to complete Professional and/or Leadership Course.*** *Refer to Para 6803 for rules on the impact on a rating's advancement if they fail to complete PQC and/or LRLC/SRLC before the due date by time or within 12 months of the due date as a result of service reasons (outwith own control) or non-service reasons (within own control).*

(Continued)

Notes: (Continued)

11. ***Advancement Due Dates.*** *The following Due Dates for Advancement have been applied to individuals selected at the Jan 15 IFT Selection Board and a record of these are held by the Promotions Office and the ATA:*

a. ET 2 under Phase 2 Training at the time of Selection. A Due Date for advancement to LET of 24 months from the date of selection (to include a minimum of 12 months' sea service). A future due date for advancement to POET of 36 months' seniority, including a minimum of 18 months' sea service as an LET.

b. ET 2 at sea / ET 1 Pre-OPS at time of Selection. A Due Date for advancement to LET of 18 months from the date of selection (to include a minimum of 12 months' sea service). A future due date for advancement to POET of 36 months' seniority, including a minimum of 18 months' sea service as an LET.

c. ET 1 at OPS at the time of Selection. A Due Date to LET of 31 Mar 16. A future due date for advancement to POET of 36 months seniority, including a minimum of 18 months' sea service as an LET.

d. ET 1 / LET on LETQC at the time of Selection. These individuals were selected on merit for LET and, if not already promoted; their original CPD is to be used as their Due Date for advancement. A future due date for advancement to POET of 36 months' seniority, including a minimum of 18 months' sea service as an LET.

e. LET Pre-OPS at the time of Selection. A Due Date for advancement to POET of 31 Mar 16.

f. *LET at OPS at the time of Selection. A Due Date for advancement to POET of 6 months from the date of selection.*

12. Competence as an ICF trained LET(ME) is achieved on successful completion of the SOC, MEOOW2 and the ICF mandated competences within the sea employment space, evidenced within the individual's CDJ. This is to be completed within 18 months' sea service as a LET(ME).

13. Competence as an ICF trained LET(WE)/LET(WE)(CIS) is achieved on successful completion of the ICF mandated competences within the sea employment space, evidenced within the individual's CDJ. This is to be completed within 18 months' sea service as a LET.

(Continued)

Notes: (Continued)

14. Refusal to Undertake the QC. If a rating decides to refuse the course, they will be deselected from IFT, continue to serve in their current rate and will transfer to Selective Promotion.

15. If for any reason an ET or LET does not achieve the eligibility criteria and subsequent recommendation for advancement, a review will be undertaken by the CM EGS JR WO1 on a case by case basis for suitability to remain on the IFT scheme. Individuals who are removed from IFT will transfer back to the Selective Promotion rules. Prior to the transfer to selective promotion, a decision will be made by the FTA and CM EGS JR WO1 on the individual's seniority in current rate and suitability for next higher rate training.

10. Career Management

Individuals on the IFT scheme will continue to be assigned by the relevant CMC, but this will be overseen and directed by the CM EGS JR WO1, supported by the relevant ATA.

11. Attending a QC

a. The planning and enrolment of individuals onto a QC will be undertaken by the ATA, in liaison with the CMC. IFT personnel will be provisionally allocated a LET QC start date shortly after completing Phase 2 Training. An IFT LET will be provisionally booked on POET QC 12 months prior to course start. Attendance on both the LET and POET QC will be dependent upon the achievement of all the relevant advancement criteria detailed at Annex 68B. Frequent liaison between the employing ship and the relevant ATA will ensure that Training Schools, CMCs and employing ships can effectively plan the movement of IFT personnel.

b. With a known approximate LET and POET QC start date, the mandatory pre course learning detailed at BR 2000 (3)(1) Chapter 4 and (4)(1) Chapter 4 is to be commenced no later than the point of achieving 8 months' sea service for an ET and 14 months' sea service for an LET. This will allow sufficient time for completion prior to attending the next higher rate Qualifying Course.

c. Pre-course learning completion requirement is not applicable to IFT personnel who have already completed the POET enabling and POET QC as detailed in the Flowcharts.

12. Leadership Training

a. All IFT personnel shall complete LRLC or SRLC, as appropriate, for advancement to the next higher rate. Preparation for and completion of these courses is essential and, although the responsibility rests firmly with the individual to be fully prepared, is to be supplemented with appropriate coaching and mentoring by their Head of Department.

b. There may be occasions where a IFT individual is at their Due Date for advancement by time, but has not completed the pre-requisite LC or QC so will not meet the advancement criteria. In consultation with the ATA a Commanding Officer may award the individual the Acting Higher Rate, see Para 6802 and Para 6803.

13. Employment

a. IFT personnel will be employed in complement billets as designated by CMC. The compression of the training timeline in comparison to their non IFT counterparts is achieved through a shorter time spent at sea. The timeline does not allow for periods of employment ashore and CMCs will be directed to ensure that IFT personnel are suitably assigned to sea positions on completion of their QC.

b. IFT personnel are to be employed within ship in the same manner as their non IFT counterparts and are to perform all duties and tasks expected of their role. In order to achieve their training requirements an IFT individual is required to maintain high personal motivation and dedication, supported by the ship with suitable opportunities. With a number of LET positions being either a Deputy or Section Head, consideration will be taken by the ATA to minimise, where possible, the effects due to assigning an IFT LET to, and from, a ship.

c. Where a ship's programme changes, or an IFT individual cannot be suitably employed (such as ships in Upkeep), and the individual will be unable to achieve their advancement criteria, ship's staff are to liaise with the ATA to discuss alternative employment options.

14. Fast Track Failure Policy and De-Selection from Scheme

Once selected, an individual remains on the IFT scheme (ET to POET), unless their progress, performance or standards are deemed insufficient or they voluntarily remove themselves. Additionally, individuals will be removed from the IFT scheme if selected for the UY(E) scheme. Where an individual has not been able to meet the demands and maintain IFT accelerated training delivery they will be de-selected from the IFT scheme and will revert to the selective promotion regulations. The IFT scheme failure and de-selection policy is detailed at para 17 et seq.

15. SJAR Reporting Requirements

Annual SJARs remain a mandatory requirement for all IFT individuals and should comment on their current performance, CLM, employment and training achievements. Within the SJAR, Reporting Officers should report whether or not an individual remains recommended for IFT and, if appropriate, the individual's potential for the next IFT stage. The SJAR must contain evidence to support these recommendations.

16. IFT Terms of Service

a. The IFT affords significant opportunity in terms of career progression at an earlier stage and therefore it is expected that IFT personnel will perform at a higher than average level of competence in all aspects of training and employment prior to achieving their next higher rate. The scheme is dependent on both the individual and the unit's organisation to maintain progress towards the next higher rate and to ensure this occurs the scheme will be externally assured, managed under revised terms of service and clearly defined failure policy.

b. Lack of progress within the scheme has the potential to prevent the achievement of the nominated Due Date and it will be expected that IFT personnel will be appropriately supported, by being placed on warning in a timely manner to support recovery and indicate not only the failure, but the potential impact on the due date achievement. At all times an IFT individual must maintain a positive recommendation to remain on the scheme and for the next advancement. Any repeated training failure, CLM or NGT warnings or attitudinal problems will, in all probability, result in removal from the IFT scheme.

c. To ensure all IFT personnel are fully aware of the changes to their Terms of Service on selection to the IFT scheme (including, being advanced in lieu of selective promotion), individuals will sign a Certificate of Understanding (Part A). In signing, they confirm their understanding that, whilst on the IFT scheme, they will not be considered at Selective Promotion Boards and that there may be occasions where the minimum notice for assignment to sea and shore may not be achieved. On leaving the IFT scheme, a Certificate of Understanding (Part B) will be completed and signed by the individual which reverses the process (i.e. the individual returns to Selective Promotion and minimum notice for future assignments). The IFT Certificate of Understanding is at Annex 68F.

d. IFT will incur the same Training Return of Service (TRoS) associated with CC and QC, see Para 5304 and Table 53-C. The TRoS obligation is incurred from the start date of the course and will be applied, subject to Service needs irrespective of the final course outcome. Although TRoS is incurred from the start of the course, the actual return of service period will start on completion of LETQC or POETQC. This will be the case for all IFT personnel; individuals who are withdrawn from training, for whatever reason, or who effectively withdraw themselves from training, will have a period of TRoS applied. As a rule this period will be determined by the FTA; taking into consideration the amount of course completed and any other mitigating factors.

17. IFT Scheme Failure Policy

a. The failure policy is to be followed for all IFT personnel and is aimed at ensuring individuals remain focussed on meeting the requirements of the IFT scheme. Where it is evident that agreed targets will not be achieved, IFT personnel are to be placed on warning in a timely manner to re-focus the individual and highlight to the ATA the potential delay in the individual's progress.

b. There may be extenuating circumstances, both Service and Non Service reasons, see Para 6802, which may prolong an individual's time within the training pipeline. Delays may have an effect on the ability to meet progression to LET or POET within the expected time and in all circumstances the ATA should be informed at the earliest point.

c. The names of ratings who, for reasons of misconduct, incompetence or lack of diligence, cannot be advanced within the set timescales are to be reported to ATA at the earliest opportunity with a recommendation on whether to retain or remove them from the IFT scheme. Ship's or Training School staff are to seek the advice of the ATA and CM EGS JR WO1 during any escalation of warnings preceding the individual's due date for advancement.

18. Automatic Removal from the IFT Scheme

The following occasions will be considered as reason for automatic removal from IFT:

a. Submission of Early Termination request.

b. Not being recommended for advancement.

c. Failure of Leadership Course (LRLC or SRLC).

d. Discipline resulting in Disrating or Career Check.

e. Career Intermission.

f. Does not continue to attract a positive recommend for IFT.

19. De-Selection from the IFT Scheme

a. Once selected, an individual will remain on the IFT scheme unless they;

(1) Submit formal request to be removed from the scheme to ATA.

(2) Fail to complete professional qualifications/requirements at sea within the prescribed timescales.

(3) Demonstrates professional and/or performance-related reasons for unsuitability.

(4) Are removed from the scheme following escalation of warnings for other professional, CLM or NGT reasons.

(5) Selected for UY(E) Scheme (if failing on this scheme acceptance back onto the IFT scheme will be on a case by case basis as determined by the ATA and FTA).

b. On submission of a request for Early Termination an individual will be de-selected from the IFT scheme. Unit Staff and Career Managers are to ensure they liaise with the ATA prior to accepting any notice to ensure that the individual has been fully briefed on all aspects associated with removal from IFT and serving notice, such as TRoS and being employed at sea during the notice period.

c. On being de-selected from the IFT scheme the ATA will ensure the following actions are completed and appropriate details are recorded on the Certificate of Understanding (Part B):

(1) Individual fully briefed on all aspects of removal and that future promotion will be by Selection.

(2) Special SJAR or Insert Slip raised detailing reasons for de-selection.

(3) IFT Certificate of Understanding (Part B) completed by the ATA.

(4) ATA to remove the JPA IFT competence.

(5) Individual's seniority date to be agreed with CM EGS JR WO1 and recorded on JPA.

20. Volunteer for Removal from the IFT scheme

a. At any stage of the scheme an individual can volunteer to be removed from IFT and revert to selective promotion. The process is detailed below and all individuals should be fully advised of the changes to their career progression when transferring back to the selective promotion route. It is recommended this brief be carried out by the unit HOD or CM EGS JR WO1.

b. The request by an individual for removal from the IFT scheme is to be forwarded to the CM EGS JR WO1 for review and consideration. The CM EGS JR WO1 will provide career advice to the individual, including any TRoS requirement in relation to any training courses that have been completed. The process to be followed is indicated below:

(1) The IFT ET is to submit a formal request detailing why they wish to be removed from the IFT Scheme.

(2) If the request for removal is associated with submission of Early Termination, the ATA will liaise with CMC Career Manager before advising the HOD on future employment plans.

(3) If at sea in a complement billet the ET or LET is expected to remain in that position.

(4) If the request for removal is not associated with an Early Termination, but occurs on LETQC or POETQC, the individual will continue on course but subject to selective promotion. All cases will be treated individually and be approved by the CM EGS JR WO1.

c. Individuals removed from IFT will be career managed by their appropriate CMC and employed according to the Needs of the Service.

21. Failure within Professional Qualifying Courses

a. IFT personnel who fail on ET CC, LETQC or POETQC will be managed by the Training Schools QC Failure Policy. All IFT individuals are to be considered by the Training School for removal from the IFT Scheme on achieving Tier 2 (WE)[1] and Level 2 (ME)[2] Warnings.

b. Back Class for IFT personnel is only to be considered for exceptional reasons outside of any professional training failure. Where back class is necessary then the individual's case will be reviewed by the Training School, ATA and CM EGS JR WO1 to assess the impacts on the individual's training. Where a IFT individual is being back classed then, following liaison with the FTA, the Training School will review the circumstances of the back classing and, on a case by case basis, consider if the individual is to remain on the IFT scheme.

c. Where IFT personnel fail or miss course module(s), then the Training School policy is to be followed in reprogramming them. Where a module(s) has been missed for Service or Non Service reasons then the ATA is to be notified in all cases. Whether an individual remains on the IFT scheme will be reviewed on a case by case basis, with the final decision being made between the Training School, CM EGS JR WO1 and the FTA.

22. Failure of Leadership Courses

a. As Fast Track ratings it is expected that all IFT personnel will allocate sufficient time and preparation to pass the necessary leadership courses that are the standard for the rank which they have been recommended.

b. Those IFT personnel who fail to pass LRLC or SRLC may be de-selected from the IFT scheme for not meeting the standard of leadership expected at their rank. In exceptional cases, and where there is sufficient mitigation and a recommendation to return to leadership course by Royal Navy Leadership Academy (RNLA) Staff, a de-selection from the IFT scheme waiver may be considered. This must be approved by the FTA.

c. On removal from the IFT scheme following failure at LRLC or SRLC, the individual will be transferred to the selective promotion route at their current rank (i.e. on failing LRLC the rating will remain as an ET1). The individual must then seek promotion by selection and will be planned to attend leadership course only after further selection for the next higher rate.

[1] HMS COLLINGWOOD FOAP(T) PCD-1304.
[2] HMS SULTAN TSOP3:3:3.

23. Fast Track Scheme Rules Regarding Failure

The details given in Table 68E-1 provide reasons for failure and the associated actions to be taken. All instances will be reviewed on a case by case basis by the training School in consultation with the CM EGS JR WO1. Where an individual is removed from the IFT scheme, the ATA will complete all relevant actions for the removal of the individual from the IFT scheme.

Table 68E-1. Interim Fast Track Scheme Rules Regarding Failure

Training Point	Reason for Failure	Actions to be completed on removal from Fast Track (Note 10)
Sea Employment as ET2 and ET1	Competence as an ET not achieved within 9 months sea service. Failure of the OPS Assessment (Para 6912) Removal of IFT Recommendation (Note 9) Not completed AB to LH CBRNDC Taskbook	Transferred to Selective Promotion Remain at sea as ET Warning levels to be adjusted (Note 4) Assigned by CMC (Note 5)
LRLC	Failure of LRLC (Para 6903)	Transferred to Selective Promotion Not to proceed to LETQC Assigned back to CMC and sea as ET1 (Note 7)
Phase 3 Training LETQC	NGT Failure (Para 5750) Below 75% average score or training school equivalent during Phase 3 Module Assessments not achieved (Note 1) Back Classed (Note 2) Removal of IFT Recommendation (Note 9)	Transferred to Selective Promotion Assigned back to CMC as ET1 (Note 8)
Sea Employment as LET	Competence as a LET not achieved within 15 months sea service. Removal of IFT Recommendation (Note 9)	Transferred to Selective Promotion Remain at sea as LET Warning levels to be adjusted (Note 4) Assigned by CMC (Note 5)
SRLC	Failure on SRLC (Para 6903) Pre course documentation in-complete for SRLC (Note 6)	Transferred to Selective Promotion Not to proceed to POETQC Assigned back to CMC as a LET (Note 7)
POETQC	NGT Failure (Para 5750) Back Classed (Note 2) Removal of IFT Recommendation (Note 9)	Transferred to Selective Promotion Assigned back to CMC as a LET (Note 8)

Notes:

1. IFT personnel are expected to demonstrate the higher levels of competence at all times. Failure to sustain this level or failure of any re-sit examination will be reviewed by the Training School and CM EGS JR WO1 on a case by case basis and may result in removal from the IFT scheme but not necessarily from the qualifying course.

2. Where it is deemed necessary, but only in exceptional circumstances, an IFT rating may be back classed. When back classed, the individual's seniority and due dates may be adjusted accordingly as directed by CM EGS JR WO1 and FTA.

(Continued)

Notes: (Continued):

3. An individual shall continue in Phase 2 Training following failure is at the discretion of the Training Officer.

4. Where warning levels have been issued due to an individual failing to achieve their planned progress on the IFT scheme these warnings are to be reviewed upon their removal from the IFT scheme and transfer to Selective promotion or be removed as appropriate. Where a warning is deemed necessary within the Selective promotion route then it is to remain in place. Full clarification from the CM EGS JR WO1 should be sought by units.

5. On removal from the IFT scheme and transfer to Selective promotion whilst serving at sea, the CMC is to ensure that the individual remains in post unless the warning level dictates otherwise. The individual's seniority will remain that of any previous Due Date and it will be necessary to adjust all future availability dates.

6. Where an individual has failed to prepare for a leadership course which is assessed as being due to Non-Service Reasons within an individual's control, the individual is to be removed from the IFT scheme.

7. On failure at LRLC or SRLC and following removal from IFT Scheme it is to be recognised that the individual will have completed less time at sea than those on Selective promotion. It is therefore expected that these individuals will be assigned back to sea at the earliest opportunity by CMC.

8. It is assumed that the failure occurs before due date for advancement to the next higher rate and therefore, by not completing QC, that the individual is not eligible for advancement. All cases will be dealt with on a case by case basis by the FTA and the CM EGS JR WO1.
9. Where an ET is selected for IFT but subsequently does not perform to the required standards on the higher qualifying course their Divisional Officer (ET CC), HOD (Employment) or Training Officer (LETQC and POETQC) may make a recommendation to the CM EGS JR WO1 for the individual to be removed from the IFT scheme.

10. On failure and removal from IFT the ATA will complete all necessary actions and will also liaise with CMC regarding future employment and assignments. Where necessary, the CM EGS JR WO1 will advise on individual cases.

ANNEX 68F

CERTIFICATES OF UNDERSTANDING - TRANSFER TO, OR REMOVAL FROM THE ENGINEERING GENERAL SERVICE INTERIM FAST TRACK SCHEME

PART A - TRANSFER TO THE ENGINEERING GENERAL SERVICE INTERIM FAST TRACK SCHEME

BEING SUBJECT TO: ADVANCEMENT BY TIME (IN ACCORDANCE WITH BR 3(1) CHAPTER 68) AND POSSIBLE CHANGES IN MINIMUM NOTICE FOR ASSIGNMENT TO SEA AND SHORE

Part 1 - Individual's Details

Full Name (in Capitals)	Service No.	Rate

Date of Selection	Interim Fast Track Start Date	Remarks

Part 2 - Individual's Declaration[1]

I understand that during my time on the EGS Interim Fast Track scheme:

a. I will be subject to advancement by time (as detailed in BR 3(1) Para 6808 and Chapter 74/75*) rather than selective promotion and, therefore, I will not be considered at any Selection Boards for Promotion.

b. I may be liable to be assigned to sea or shore units at less than normal assigning notice, as detailed in BRd 3(1) Chapter 59 Section 11.

* delete as appropriate

Signed: ..... Date: .....

[1] A copy of the Certificate of Understanding Part A is to be retained by the individual.

Part 3- Accelerated Technician Authority[2]

The above named rating has been transferred to the EGS Interim Fast Track scheme and will be subject to advancement by time, with the following awarded due date for the next higher rate:

Advancement To	Date Due Advancement
POET	

Signed: ..... Rank Rate: .....

Name (In Capitals): ..... Date: .....

[2] The Certificate of Understanding Part A is to be retained by the ATA for a period of 3 years after the individual leaves the Interim FT scheme.

PART B - REMOVAL FROM THE ENGINEERING GENERAL SERVICE INTERIM FAST TRACK SCHEME

Part 1 - Individual's Details

Full Name (in capitals)	Service No.	Rate

The Above Named Rating has been removed from the EGS Interim Fast Track scheme and will no longer be subject to time based advancement.

The following seniority date has been determined by the Fast Track Authority and will be recorded in JPA:

Rate	Seniority Date

Part 2 - Individual's Declaration[3]

I understand that on removal from the Interim Fast Track scheme I:

a. Will return to being subject to selective promotion as detailed in BR 3(1) Chapter 67 and Chapter 74/75*.

b. Will be liable to be assigned to sea or shore units as detailed in BR 3(1) Chapter 59 Section 11.

* delete as appropriate

Signed: ..... Date: .....

Part 3 - Accelerated Technician Authority[4]

The Above Named Rating has been transferred to the Selective promotion scheme and will be subject to promotion by Selection from the following date:

Date: .....

[3] A copy of the Certificate of Understanding Part B is to be given to the individual.
[4] The Certificate of Understanding Part B is to be retained by the ATA for a period of 3 years after the individual leaves the Interim FT scheme.

The following actions have been completed;

a. The individual has been fully briefed on implications of removal from Interim Fast Track and has been advised of any ROS associated to the Qualifying Courses that have been completed.

b. All Interim Fast Track competences have been removed from JPA.

c. The Individual's seniority date has been agreed with the FTA and recorded in JPA.

Signed: ..... Rank/Rate: .....

Name (In Capitals): ..... Date: .....

ANNEX 68K

ACCELERATED APPRENTICE (EGS) WARNINGS AND FAILURE POLICY

INTRODUCTION

1. The AA procedures will follow Initial Training Warnings (ITW) (see Paras 5747-5751) and mirror standard warning policies in place for the Phase/Lead School. Where variations to the general population of trainees exist, they will do so due to the following:

a. The bespoke courses on the AA pipeline.

b. The infrequency of AA intakes and thus the limited opportunity to back class AA trainees. This means that failure often holds a more serious implication than it would for an AET/ET and this should be taken into consideration. To monitor this, the ATA/AA AE RA are to be informed at the earliest opportunity of escalation to a Level 2 Warning in either professional performance or Naval General Training (NGT).

c. Conducting Phase 3 courses whilst still on the Untrained Strength (UTS).

2. Throughout this document AA trainees will be classified in the following way:

a. Phase 1 until completion of Initial Naval Training (INT).

b. AA MEGS and WEGS Phase 2 trainees until completion of Sea Phase, and Phase 3 trainees thereafter.

c. AA AE trainees as Phase 2 trainees until completion of QMQS, and Phase 3 trainees thereafter.

3. For AA trainees, both professional and NGT warnings[1] may be used in the following circumstances:

a. Professional warnings may be issued if a trainee fails to progress as expected. Reasons may include, but are not limited to:

(1) Failure to meet the academic standards.

(2) Failure to meet expected CDJ / Taskbook progress.

(3) Failure to comply with safety or instructional rules.

[1] Para 5747.

b. NGT warning may be issued if the trainee fails to meet the standards expected of a probationary LET. These may include, but are not limited to, the following:

(1) Failure to demonstrate the correct attitude of an LET.

(2) Disruptive, disobedient or inappropriate behaviour.

(3) Poor punctuality.

(4) Any discipline issues.

4. A brief on the warning process will be given to all AA trainees at the start of Phase 1 Training. Trainees will sign to acknowledge receipt of this briefing.

5. Phase 1 Warnings Policy

AA trainees will fall under the same warnings policy as all trainees during INT. It should be noted that the back classing of AA recruits will be by exception and at the BM's discretion.

6. Phase 2 Warnings Policy

For the duration of this phase the AA trainees are to be managed as per the Lead Schools' warnings policy with the inclusion of the following considerations:

a. **Transfer of Warnings.** Additional considerations are to be made on the following courses:

(1) **Enabling Course.** The Chain of Command will review NGT warnings and reduce them to zero if the trainee has displayed the correct attitude and gained no further warnings related to NGT – this reduction is at the discretion of the Chain of Command in conjunction with the issuing officer. If not enacted, the trainee will carry the NGT warning to the Sea/Field Phase for review after a minimum of one month and a maximum of 3 months.

(2) **Sea/Field Phase.** In case of an AA trainee completing Sea/Field Phase with a Level 1 or Level 2 Warning, the warning will be removed. If a trainee completes Sea/Field Phase with a Level 3 Warning in place, then the ATA/AA AE RA will consider implementing the Phase 2 failure policy. If it is deemed that sufficient progress has been made, the Level 3 Warning will be removed, however if it is deemed that the shortcomings have not been met then the trainee will retain the Level 3 Warning to LETQC/LAETQC, where it will be reviewed after 3 months. Throughout this review period further shortcomings will not increase the warning but will be recorded. All evidence gathered will be used at the review date to either remove the warning, if appropriate, or implement the failure policy.

b. **Task Books.** Formal progress checks are to be conducted to ensure the AA trainees are progressing as expected. Failure to meet these expectations should attract professional training warnings.

7. Phase 3 Warnings Policy

MEGS, WEGS and AE AA trainees are on the UTS until the completion of their Qualifying Course and SRLC (MEGS / WEGS) or LRLC (AE). While UTS, all AA trainees remain subject to the standard Initial Training Warnings (ITW). In all other respects, they are to be managed in the same way as their S-T-P counterparts.

8. Phase 2 AND 3 Warning Reviews

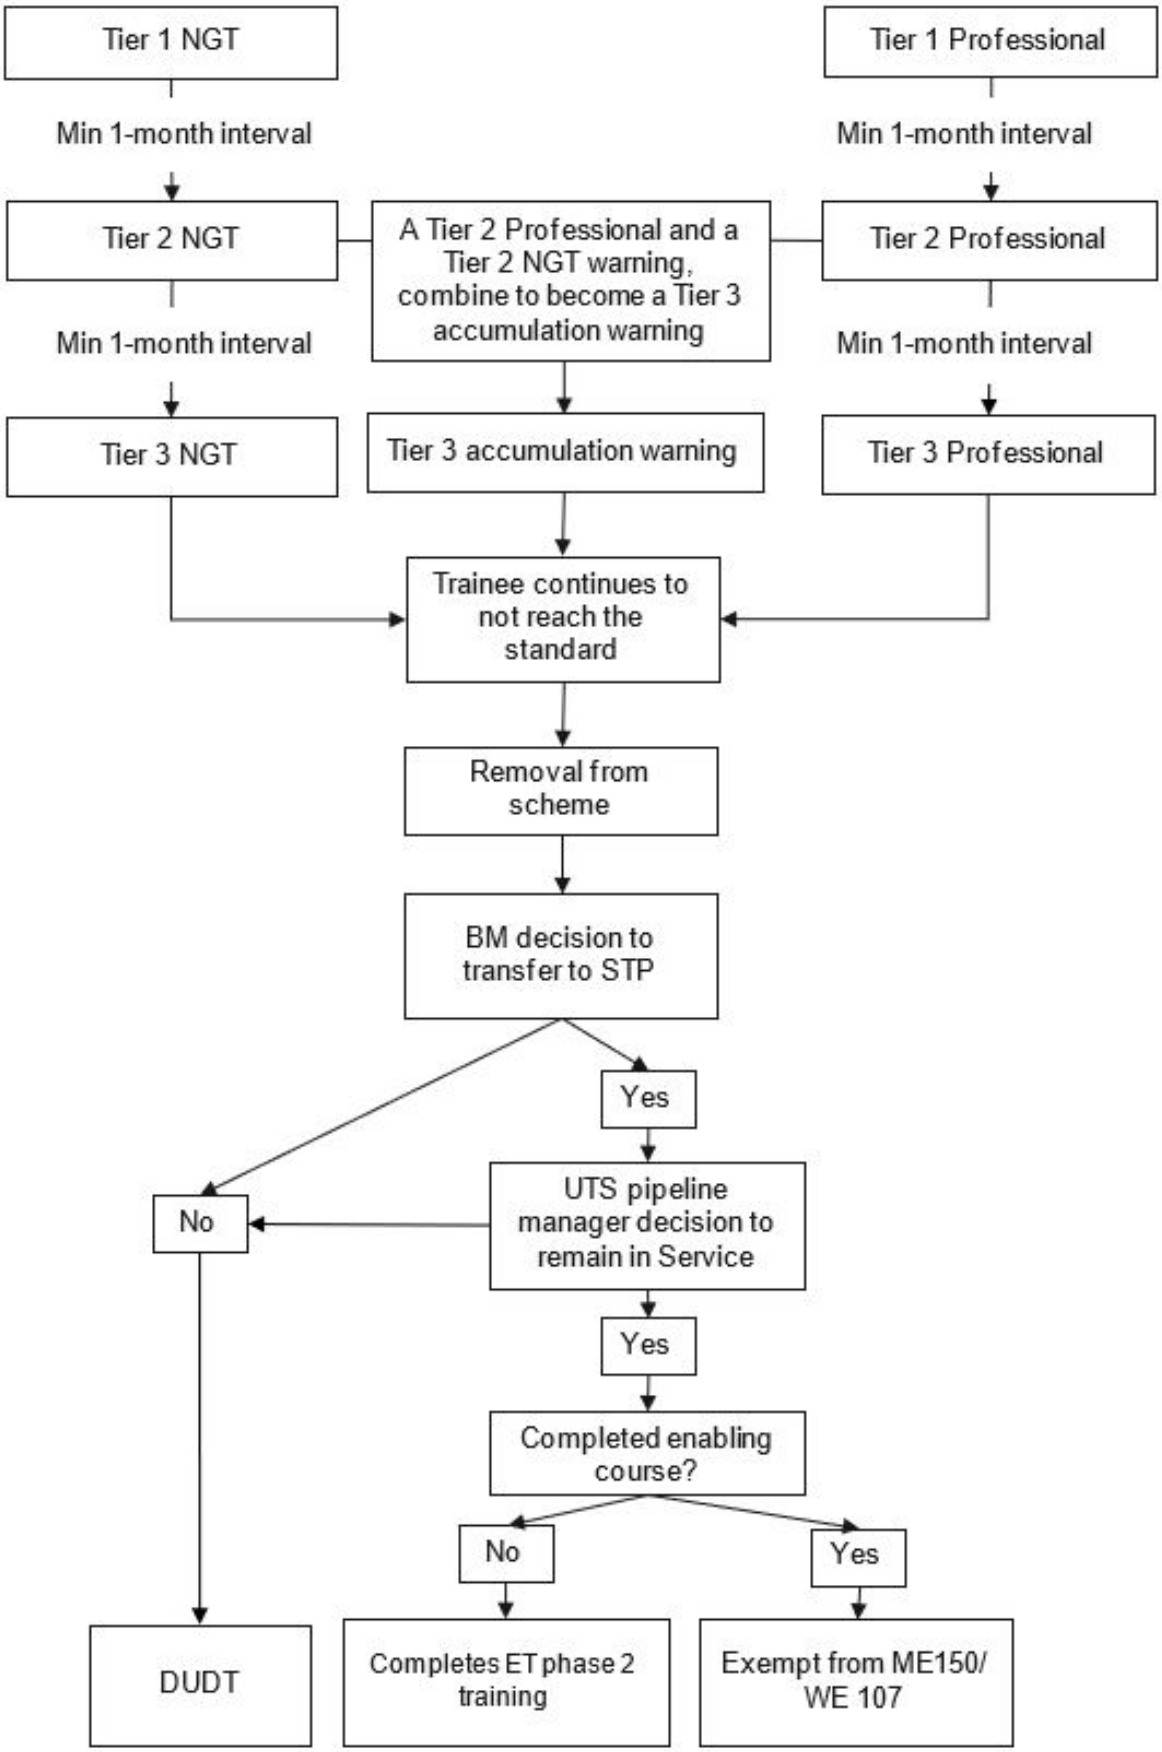
All warnings in Phases 2 and 3 should be reviewed every 1-3 months to ensure they remain valid. Despite this, additional warnings may accrue during the review period. There should, however, be a minimum interval of one month between issuing of warnings of the same type to ensure the trainee has time to address their failings. The reasons for issuing NGT and professional warnings are described in Para 3. The two warning types are discrete and used to address different failures in training. For that reason, at Tier 1, NGT and professional warnings are discrete and have no influence on each other however, in accordance with Chapter 57, if an AA trainee accrues a Tier 2 warning in both categories simultaneously, there is an automatic escalation to an accumulated Tier 3 warning.

9. Removal From AA Scheme Resulting From Warnings

If the AA trainee fails to maintain the required standard whilst on a Tier 3 warning, with authorisation from the Branch Manager (BM), they may be removed from the AA scheme and the actions followed in Para 26. In recognition of the need for timely action within the course, AA warnings do not require the raising of supporting appraisal reports. Instead, the AA/FT progress warning proforma[2] is completed.

[2] CH 68 Annex 68J.

Figure 68K-1. EGS AA Removal from Scheme (Warnings)



10. Removal From AA Scheme Resulting From Excessive Delay In Training

a. To minimise risk and allow the re-allocation of spaces on downstream courses, AA trainees may be removed from their associated scheme. If the trainee is unlikely to fulfil the necessary requirements within an additional 52 weeks of the standard scheme length, the removal may be authorised by the BM. If an AA or FT trainee is expected to meet their required training timeline by an excess of 52 weeks, outside of service reasons, they may be removed from scheme. If the 52-week delay is anticipated, the decision to remove a trainee from the scheme may be made before the 52-week limit has elapsed. The 52 weeks may be an accumulation of time over the training period and need not run consecutively.

b. The 52-week limit may include the inability of a trainee to undertake training due to an MND/MLD medical category or exceptional compassionate case. If the medical category is attributed to a service induced injury, the delay in training does not contribute towards the 52-week limit. For clarification, whether an issue is attributable to the Service, guidance should be sought from JSP 765[3]. The compassionate issue or medical category preventing training may be a combination of MND, MLD and compassionate leave and need not necessarily consist of 52 weeks of a singular type. Under the rules stipulated in JSP 760[4], pregnancy is a protected trait. Any periods of maternity/paternity leave do not count towards the 52 weeks accumulated total.

c. If an AA trainee is removed from the scheme, with authorisation from the BM, the individual may be offered a branch transfer to the Select, Train, Promote (STP) stream. The request is sent by the ATA to the NAVY TRG HQ-PM RATINGS MANAGER (NAVY PEOPLE-TRG TMG HQ SO2 UTSPM) for authorisation[5]. If the transfer is not authorised or the trainee declines the transfer, the result will be DUDT.

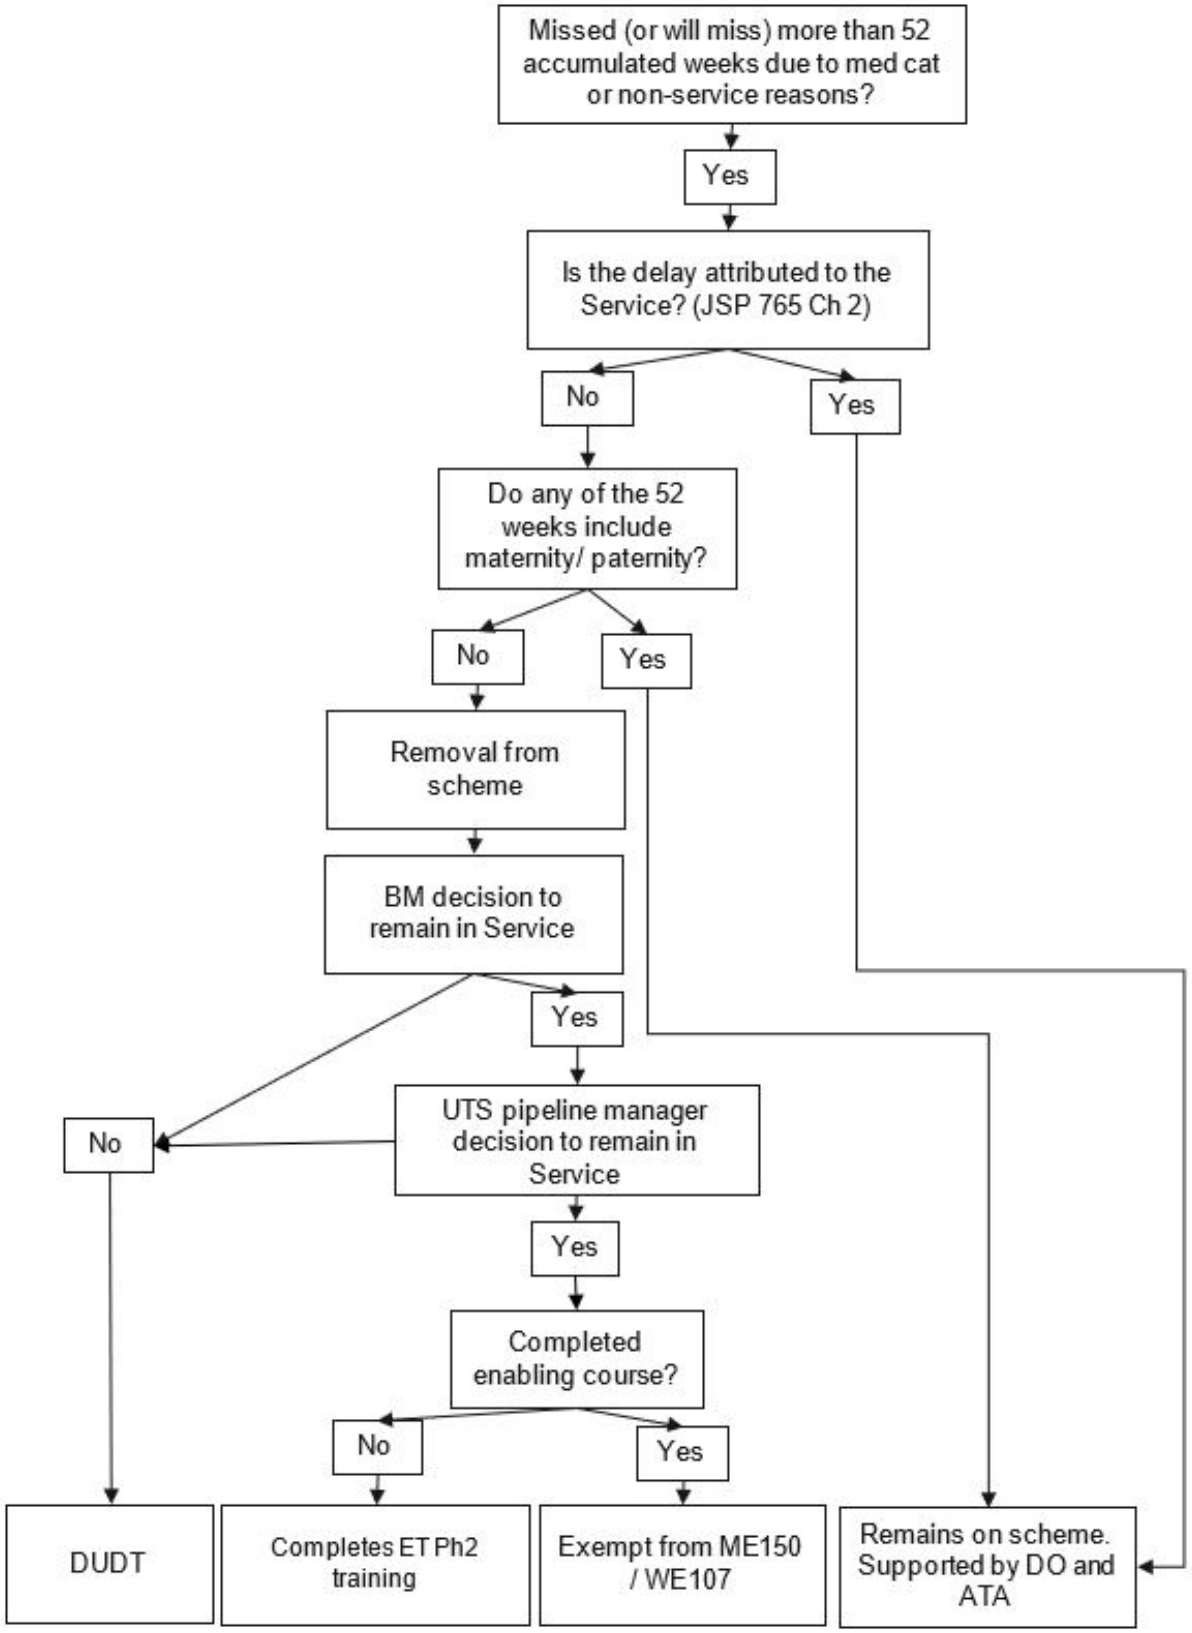
d. Should an AA trainee choose to transfer voluntarily to the STP stream, the standard authorisation process will be followed at Para 5116.

e. Individuals removed from the scheme will be awarded the rate of AB2 and paid at the level of OR-2-3, or LET and paid at the level of OR-4-3 to show consideration of their previous years' service. Any removal from the AA scheme will not affect their opportunity to apply for FT in the future after completion of LETQC. Removal from the AA scheme will prevent any future internal entry into the AA scheme.

f. For EGS: If the individual has successfully completed their AA enabling course, they are able to be employed as an AB2, according to the needs of the service. If a trainee has not completed the enabling course, they will be required to complete their respective Engineering Technician Initial Career Course. For ESM: The individual must have completed either ETICC or LETQC in order to be employed onboard as an AB2.

[3] JSP 765 Ch 2
[4] JSP 760 Ch 24.9
[5] BR3 Ch 5112

Figure 68K-2. EGS AA Removal from Scheme (Excessive Delay in Training) Flowchart



11. Phase 1 Failure Policy

a. AA trainees will be subject to the same failure policy during Phase 1 as all other trainees with the following options available following the recommendation from the Phase 1 staff:

(1) DUDT.

(2) Re-categorise to ET/AET at the BM's discretion.

(3) Branch transfer at the BM's discretion. Individuals have no automatic right to be offered a branch transfer when on the UTS and, although they can request a particular branch, availability will depend on the needs of the Service.

b. **Medical or Welfare Failure to Complete Training.** If, due to medical or welfare reasons, an AA trainee does not complete INT in time for the start of their Phase 2 Training, they are to be managed by the BM/ATA on a case-by-case basis. Options available include the following:

(1) DUDT with the option of re-applying if eligible.

(2) Continue INT when fit and do the full Phase 2 courses but remain AA.

(3) Holdover until the next AA entry.

12. Phase 2 Failure Policy

a. The options as a result of failure on the bespoke elements of the AA pipeline are as follows:

(1) **DUDT.** As all AA trainees will be on the UTS, due to MOD policy for Care of Trainees, administration of DUDT can only be undertaken by the CO or Head of a Training Establishment. As such, any AA trainee on Sea Phase recommended for DUDT must be reassigned back to the relevant Phase 2 Training Authority for DUDT action to be enacted.

(2) **Offer of Branch Transfer.** In the case of any AA facing DUDT, the relevant BM will consider whether the individual is suitable for another branch or specialisation. The trainee's DO must make a firm recommendation before a branch transfer is considered by the BM.

(3) **Offer of Re-Categorisation to AET/ET.** AA trainees do not have the option of being back-classed, owing to the infrequency of AA Enabling Courses (two per annum for GS/AE and four per annum for SM). The Phase 2 Training has been designed to be more condensed than the full Phase 2 Career Course, and as such is more challenging. The BM may therefore deem that an AA trainee who has failed the AA Enabling Course, may be successful on the normal Phase 2 Career Course, and therefore may offer the option to re-categorise as an ET in the relevant branch to complete the relevant AET/ET career courses.

(4) **Retained AA.** Retained by the BM and continue the AA pipeline on risk or offered an extension of their current phase - both options are by exception.

b. **EGS Sea Phase.** By exception, AA trainees may have an extension of the EGS Sea Phase.

c. **Failure due to Medical or Welfare Reasons.** If the AA is deemed capable of recovering the following options will be considered on a case-by-case basis:

(1) Holdover until the next AA entry.

(2) Continuance of training with bespoke management by the ATA/AA AE RA to compensate for lost training.

(3) Offer of Re-Categorise to AET/ET within the same Branch.

d. If, for medical reasons, an AA trainee cannot complete Phase 2 Training and is judged to be incapable of recovering to full medical fitness, the RNMBOS process will be enacted to remove that trainee from training under DUDT procedures.

e. **Able Rates Leadership Course (ARLC).** All AA trainees, with the exception of AA(SM)s, will need to complete ARLC during Phase 2 and in doing so will be subject to Royal Arthur Squadron's warning process. This is a standalone process and, as such, any warnings that may be received while on ARLC will not accumulate with existing training warnings from the AA training pipeline. If an AA trainee is unable to complete ARLC, however, due to either a compassionate or medical issue, this will be handled on a case by case basis, considering the point at which that individual was removed from course and their success up until that point. The AA Trainee's DO will be notified of any shortcomings via the end of course report. In the event of a complete ARLC failure, remedial action will be decided by the BM in conjunction with ARLC staff.

13. Phase 3 Failure Policy

a. If an AA trainee fails a Phase 3 Training course, following normal re-sit opportunities, the ATA/AA AE RA will liaise with the BM and the training establishment to determine a suitable course of action, on a case by case basis. As AA trainees are on the UTS they cannot be 'Returned to Unit' (RTU). The options in Para 19 remain extant but considerations should be made for back classing as these are standard S-T-P courses at the end of the pipeline and thus there is increased flexibility. This will be reviewed by the BM on a case by case basis.

b. If an AA trainee cannot proceed on their current LAET/LET/POETQC due to reasons beyond their control eg. medical downgrading, they are to be locally managed to facilitate the completion of the required modules in as timely a manner as possible. This may result in the trainee being back-classed into the next available Qualifying Course.

14. AA Failure At Leadership Course

a. Whilst attending leadership courses AA trainees are subject to Royal Arthur Squadron's warning process. This is a standalone process and, as such, any warnings that may be received whilst on leadership course will not accumulate with existing training warnings from the AA training pipeline. Time spent in a medical category rendering the trainee unable to attend leadership training, however, will count towards the 52 weeks training delay limit (Para 10).

b. If an AA trainee fails the written assessments and presentation elements of SRLC/LRLC, then further progress on the AA scheme will be at the discretion of the BM. If an AA fails SRLC/LRLC at the end of the final week they will continue with professional training on LAETQC/LET/POETQC but must also retake and re-sit the Week 4 assessment. The period at which that individual will be able to return and complete SRLC/LRLC will be managed by the AA AE RA/ATA, in consultation with RNLA and Phase 3 Qualifying Course lead school. Failure of AA trainees to complete SRLC/LRLC successfully at a 'second' attempt, not arising from medical grounds, will lead to DUDT. For AE, EGS and SM, the transfer of failed AA trainees to the STP stream may be applied, as detailed at Para 26.

15. Removal From AA Scheme

a. If an AA trainee is removed from the scheme, with authorisation from the BM, the individual may be offered a branch transfer into the Select, Train, Promote (STP) stream. The ATA is to send a request to the NAVY PEOPLE-TRG TMG HQ SO2 UTSPM for authorisation[6]. If the transfer is not authorised, or the trainee declines the transfer, the result will be DUDT.

b. Should an AA trainee choose to transfer voluntarily to the STP stream, the standard authorisation process in Para 5116 will be followed.

c. The individual will be awarded the rate of AB2 and paid at the level of OR-2-3 or LET and paid at the level of OR-4-3 , to show consideration of their previous years' service. Any removal from the AA scheme will not affect their opportunity to apply for FT in the future after completion of LETQC. Removal from the AA scheme will prevent any future internal entry into the AA scheme.

d. For EGS: If the individual has successfully completed their AA enabling course, they are able to be employed as an AB2, according to the needs of the service. If a trainee has not completed the enabling course, they will be required to complete their respective Engineering Technician Initial Career Course.

CHAPTER 69

RATINGS POLICY - GENERAL PROMOTION ISSUES

SECTION 1 - MANAGEMENT RESPONSIBILITIES

6901. Recommendations for Promotion, Advancement, Examination or Course

The rules for promotion and advancement indicate minimum requirements. The recommendation is an important part of the system and, before making recommendations, Line Managers are to satisfy themselves that:

a. **For Selective Promotion**, ratings have completed all the pre-requisite educational and provisional examinations for their current rate and are ready in all respects to be assigned to qualifying professional and leadership courses in the period prior to the appropriate Common Promotion Date (CPD).

b. **For Non-selective Promotion** (advancement), ratings have the educational and professional qualifications, experience, time served and personal attributes required, including the power to command subordinates appropriate to their rate.

c. **For Examination for Higher Rate**, ratings have made adequate preparation for the examination and that they have, or show promise of, attaining the qualities of command and personality required in the higher rate.

d. **For a Course for the Higher Rate**, ratings' professional knowledge is such as to justify further training and that they have, or show promise of, attaining the qualities of command and personality required in the higher rate.

6902. Commanding Officer's Responsibilities

a. **Responsibility for Submission of Appraisal Report Forms.** The Commanding Officer is responsible for ensuring that Appraisal Reports are completed in accordance with the guidance contained in JSP 757 and finalised on JPA within the prescribed timescale. Wherever possible, alignment should be conducted and the Subject's relative position in the order of merit given in the 2RO's section of the report. An indication of the size of the peer group concerned should also be given.

b. **Standard of Reporting on Ratings.** To ensure that only the right ratings are promoted or advanced to higher rates it is essential that, from the earliest stage in their career, the utmost care is taken when making a report or assessment. Each Commanding Officer is responsible for ensuring that a satisfactory standard of reporting is maintained. Heads of Department should assist in this task and personally check all reports and advise and instruct Divisional and other Reporting Officers as required. Inspecting Officers should always satisfy themselves that a proper standard of reporting is maintained in the units they inspect. The Ratings Promotion Section may advise when a special (or late) report may be more advantageous to a rating, particularly when reporting procedures may suffer through a period of short-term assignments.

c. **Backward Ratings.** Ratings in the categories shown below may be Discharged SHORE on grounds of inadequacy if they cannot be promoted or advanced within a reasonable period because of incompetence or for reasons within their own control. They are to be reported, with recommendations, to the appropriate authority with power to approve Discharge SHORE for consideration of their future. In this context, the length of a reasonable period should be determined by the Commanding Officer having regard to the system of promotion or advancement governing each specialisation, but reports should not normally be delayed beyond the following periods:

(1) **Legacy Artificers.** If not recommended for advancement, 6 months after becoming eligible to be advanced to PO or 12 months after becoming eligible to be advanced to CPO.

(2) **Medical Technicians.** After 2 years as a Leading Medical Technician (unless declined or failed the examination for POMA) or after 3 years as a PO Medical Technician rate (unless declined or failed the examination for CPOMA).

(3) **Medical Assistant (Submarine).** Ratings who fail to complete the MASM1 task book within 12 months post MASM1 course will be referred to MA(SM) Head of Cadre on potential grounds of inadequacy.

(4) **Engineering Technician and Non-technical Specialisations.** After 3 years served as an AB2. The manning situation in some branches and specialisations may require similar criteria for ratings above AB2. These are defined in the appropriate Chapters.

d. **Ratings Detached or Loaned.** Where ratings are detached and an Appraisal Report is due, the Commanding Officer of the parent unit remains responsible for ensuring that all necessary action is taken. This also applies to periods of loan temporary duty and passage. Similarly, action is also to be undertaken where a rating undergoes a short-term assignment within or at the end of a standard reporting period and is expected to return to the original parent unit. In all cases where the detachment is for a period of 2-6 months, a Detachment Insert Slip is to be provided. For periods in excess of six months, a full SJAR is required.

e. **Ratings Belonging to Commonwealth Navies.** Recommendations for Commonwealth ratings are to be rendered in the manner shown at Chapter 73.

6903. Erroneous Promotion or Advancement

a. If it is discovered that a rating has been wrongly promoted or advanced, e.g. because of insufficient qualifications, the following action is to be taken:

If the rating has not become fully qualified and due for promotion or advancement to the rate held by the time the error is discovered, the promotion/advancement is to be cancelled from the date of discovery and a signal sent to the Ratings Promotion Section for corrective action on JPA.

b. Errors that are discovered subsequent to ratings becoming fully qualified and due for promotion or advancement to the current rate are to be reported to the Ratings Promotion Section for corrective action.

c. Increases of pay paid for periods of erroneous promotion or advancement are recoverable in accordance with JSP 754. The Logistics Officer of the ship or establishment is to be consulted in all cases.

d. Time spent in a higher rate in consequence of erroneous promotion or advancement is allowed to count for pension purposes provided that the higher duties and responsibilities were assumed. It does not count towards seniority even when subsequently correctly promoted or advanced. In order, therefore, that the pension entitlement is clearly recorded, both the Ratings Promotion Section and Veterans UK are to be informed in writing.

SECTION 2 - MANDATORY REQUIREMENTS FOR PROMOTION OR ADVANCEMENT

6904. Sea Service

a. Where shown as a qualification for promotion or advancement in the various specialisation flow diagrams; guidance on whether a position counts as Sea Service may be found at Para 5908.

b. Such service must be carried out in the actual rate i.e. the rating must have been carrying out the duties of that rate and wearing the appropriate uniform unless otherwise stated in the specialisation Chapter concerned. For information, this does not apply to sea service undertaken in the acting higher rate (on a local acting basis) which counts as sea service only in the lower rate e.g. sea service as an Acting Leading Seaman counts as sea service as an AB Seaman 1.

c. Sea service in any given rate is the sea service undertaken from the date of promotion or advancement to that rate within the current specialisation.

d. Sea service undertaken in the same rate/different specialisation will not normally count towards time in the new specialisation.

6905. Educational Qualifications

Refer to Chapter 96, Para 9615.

6906. Medical Fitness for Promotion - JMES Criteria

Ratings/ORs who are medically downgraded, and those who are likely to be categorized as permanently unfit for sea service or be restricted otherwise medically in the future, will normally remain eligible for selective and non-selective promotion. The following principles apply:

a. **Personnel with a Permanent JMES.** All individuals who have been placed in a permanently reduced JMES code by NSMBOS or by ROHC will be assessed by the RNMEB for their suitability for promotion as part of their determination in retaining an individual in service. This determination will take into account age, past experience, seniority, the nature and extent of the medical limitations, and types of assignment for which the individual might be required to undertake in the current rank and higher ranks if selected for promotion or due for advancement. By default the assessment will assume that retention in service will also include the potential for service at the next higher rank/rate. If the RNMEB is unable to offer continued employment in a higher rank or rate then the individual will be deemed medically unfit for promotion.

b. **Personnel with a Temporary JMES.** Individuals in a temporary JMES should undergo medical assessment by an accredited GMP or Consultant Occupational Physician.

(1) Where there is an expectation that the individual will regain MFD status within the next 12 months, the Medical Officer should deem the individual medically fit for promotion.

(2) Where an expectation that a temporary JMES would be removed and the individual regains a previous permanent JMES within 12 months, then individuals should be assessed as per their previous NSMEB determination (see Para 6906 sub para a above).

(3) Where a Service woman is pregnant and has the JMES code of E6, her fitness for promotion should be assessed in light of her previous JMES, providing that there is an expectation that this will be regained following the pregnancy and period of maternity leave. If previously MFD then she should be considered fit for promotion. If she was previously in a permanently reduced JMES, she should be assessed as per her previous RNMEB determination (see Para 6906 sub para a above). If temporarily downgraded prior to the pregnancy then an assessment must be made as to the likelihood of being upgraded within 12 months of a return from maternity leave and if it is likely, then the individual should be deemed fit for promotion. If it is not deemed likely, then the individual will need to be referred to RNMBOS for a permanent medical category to be awarded and their eligibility is to be determined by RNMEB.

(4) Where it is likely that the individual will need a permanently reduced JMES, the Medical Officer should deem the individual unfit for promotion subject to the subsequent RNMBOS/ROHC and RNMEB recommendations. If the individual is subsequently given a permanently reduced JMES by the RNMBOS or ROHC and the RNMEB determines fitness for promotion, then seniority and pay should be back-dated to the original date of intended promotion.

(5) Any case where doubt exists is to be referred to the RNMEB.

SECTION 3 - LEADERSHIP TRAINING

6907. Introduction

a. There are currently two career leadership courses for RN ratings (see also Chapter 21 Section 6):

(1) **Leading Rates' Leadership Course (LRLC).** LRLC is a four week course, providing the basic building blocks of leadership training to assist personnel, selected for promotion to LH, in their development and to prepare them for their future roles as superior officers.

(2) **Senior Rates' Leadership Course (SRLC).** SRLC is a four week course, built and tailored for Naval use, which develops an individual's Command, Leadership and Management (CLM) experience, giving a thorough grounding in leadership techniques based on current theory models. These theories are exercised under stressful conditions throughout the course. The SRLC also includes an examinable 'divisional' module, recognising that all senior ratings are expected to play a full part in the divisional system of their unit.

b. Both courses are administered and conducted at the Royal Navy Leadership Academy (RNLA) in HMS COLLINGWOOD. They form part of the Navy's policy on through-career development, ensuring that those entrusted with leadership of our people are properly trained to exercise this responsibility. These skills are vital in contributing to the Moral Component of Operational Capability in the Royal Navy and supplement an individual's skills. As such, the LRLC and SRLC are mandatory requirements under selective promotion and form all or part of the training package for promotion to LH and PO respectively.

c. Under selective promotion, personnel are assigned to the appropriate leadership training by DDPD prior to the CPD (but with the timing of attendance on courses dictated by assignment priorities). Any rating who is unable to attend the first leadership course to which they are assigned is responsible for ensuring that they are re-booked on course and that they complete the training by the CPD. Failure to take this action will result in application of the rules set out at Para 6714 and Para 6802. Cancellation of a course within two months of its commencement for reasons other than operational or medical will be classed as a failure and the appropriate penalties imposed in accordance with Para 6719. If a rating, having been selected for promotion, is considered ready to attend a leadership course at short notice, DDPD should be informed of this fact. As DDPD is only able to assign ratings to courses from among those who become available between assignments, those remaining have to be spared from current assignments. Commanding Officers should note this and endeavour to spare ratings accordingly so that promotion is not affected. All personnel should be aware that it is considered a **joint responsibility of the individual and the Service to ensure timely attendance for leadership course training**.

The RNLA issues an annual RNTM providing detailed instructions covering personal pre-joining preparations, documentation required, joining instructions and an outline of the course content. All personnel attending a leadership course are to familiarise themselves with the content of the extant RNTM on the LRLC and SRLC issued by the RNLA.

d. **Re-entrants or Service Transfers.** Re-entrants, or personnel transferring from the Royal Marines, Army or RAF will have the Leadership training that they completed during their Service considered at the time of entry into the RN, and will be awarded credits as appropriate. Where a qualification is deemed to be a suitable alternative, and there would be little benefit to either the Service or the individual by their completing either LRLC or SRLC, then a waiver will be approved by Hd BM. Any waiver awarded is to be recorded on JPA by BM Coherence WO1.

e. **Attendance on LRLC - Special Rules.** As stated, the successful completion of LRLC is a mandatory pre-promotion requirement for promotion to LH in all specialisations, with the following exceptions:

(1) **Direct Entry Medical Technician/Naval Nurse/Dental Hygienists.** These ratings may be advanced to the Acting Leading Hand on completion of specialist training and be subsequently confirmed on completion of LRLC.

(2) **Sideways Entry Medical Technicians.** Ratings who have completed the LRLC may be advanced to the confirmed rate on completion of their specialist training. Ratings who have not completed LRLC may be advanced to Acting Leading Hand and subsequently be confirmed on completion of LRLC

(3) **Leading Hand Police Candidates.** The LRLC must be completed either prior to the RNPIC or within three months of completion of the RNPIC. A further extension of three months may be approved by the Branch Manager for service/medical/compassionate reasons, keeping PM(Navy) informed. Failure to complete the LRLC within this time frame will result in reversion to source branch or specialisation.

(4) **Leading Physical Trainer Candidates.** The LRLC must be completed either prior to the LPTQC or within three months of completion of the LPTQC. A further extension of three months may be approved by the Branch Manager for service/medical/ compassionate reasons, keeping RNPTS informed. Failure to complete the LRLC within this time frame will result in reversion to source branch or specialisation.

(5) **Leading Aircrewman/Leading (Photographer) Candidates.** The LRLC must be completed either prior to the LACMN/L (Phot) QC or within three months of completion of the LACMN/L (Phot) QC. A further extension of three months may be approved by the Branch Manager for service/medical/ compassionate reasons. Failure to complete the LRLC within this time frame will result in reversion to source branch or specialisation

6908. Legacy Rules - Promotion Without a Leadership Course

Prior to the introduction of selective promotion, ratings could achieve promotion or advancement to the acting higher rate (including Acting CPO) without having to complete leadership training beforehand. Completion of the appropriate course was only required for confirmation in the rate and subsequent consideration for promotion to higher rates. There are some senior ratings at PO level who have yet to complete the SRLC. With many individuals still to undertake the appropriate leadership training, ACOS(PCap) embarked on a programme to assign POs and Acting CPOs to SRLC and Acting LHs to LRLC as places become available. Individuals may assist and facilitate this process by advising ACOS(PCap) of their availability dates for leadership course training. While ratings in the acting higher rate may not be compelled to attend, **refusal to do so (if assigned) will result in their reversion**, although this will not be deemed to be a professional failure. Having been so reverted, however, ratings will then come under selective promotion rules and will have to be selected for promotion before becoming eligible for leadership training and promotion.

SECTION 4 - EXAMINATIONS

6909. Types of Examination

a. **Professional Qualifying Examinations (PQEs).** PQEs are examinations taken by ratings to qualify professionally for promotion or advancement and may take the form of a written, practical or oral examination, or any combination of the three. They may be conducted by:

(1) Officers of the Professional School - by correspondence or as otherwise arranged.

(2) Officers or Warrant Officers (WOs) of the Fleet, Squadron or Ship.

(3) A Central Examining Authority.

b. **Provisional Examinations (PEs).** PEs are taken to assess ratings' suitability for promotion to the higher rate and also to determine that they have the potential to qualify on the Professional Qualifying Course (PQC), which is a pre-requisite for promotion. PEs may be written, practical or oral, or any combination of the three, and may be conducted by:

(1) Officers of the Professional School by correspondence, or as arranged.

(2) Officers of the Fleet, Squadron or Ship.

(3) A Central Examining Authority.

Promotion chapters for each specialisation show the point at which individuals are entitled to sit PEs.

c. **Invigilation of Written PQEs and PEs.** Invigilation of a written PQE or PE for the higher rate may be conducted by any officer or rating of CPO status or above as designated by the Examining Board. Under normal circumstances, the invigilator should be at least two rates above the highest level of rating taking the examination.

d. **Local Examinations.** When, due to the exigencies of the service, it is known that it will not be possible to convene an Examining Board as detailed in the appropriate Chapters, within 4 months of the rating's application for examination, a local examination is to be convened. The Board should be constituted from available officers and/or senior ratings, advice being sought from the Professional School if necessary. The period of 4 months is extended to 6 in those cases where examinations are held at 6-monthly intervals.

e. Should the candidates fail the local examination, they may not re-apply for examination earlier than 4 months from the date of failure, with the exception of EGS PE (see Para 6910 sub para k). Should the candidates pass the local examination, they are considered for promotion purposes to have provisionally passed the examination for which they applied and referred to as the 'Date of Passing'. Passing a local examination qualifies ratings for promotion to the next higher rate when otherwise eligible.

f. **Loss of Paperwork.** When candidates have applied for an examination before the last date specified for applications and the application has failed to reach the authorities, or the examination papers have failed to reach the candidates, or the worked papers fail to reach the examining authority in time, or if the candidates are prevented from taking the examination for reasons beyond their control, Lead Schools should apply to the Ratings Promotion Section to ante-date the 'Date of Passing' (providing candidates are successful in the immediately following examination) to the date of the examination which was missed. Where it subsequently proves that a rating has achieved a PE pass before attaining one year's seniority in their current rate, where applicable, the basic date of passing is to be adjusted to the later date. In these cases, the Ratings Promotion Section is to be advised when such action is taken.

g. **Ratings in Small Vessels and Outstations.** Ratings serving in small vessels and outstations should, subject to the exigencies of the Service, be transferred temporarily to their parent base or other large ship/unit in order to have facilities to work towards the necessary examinations to gain the professional qualifications required for the higher rate.

h. **Annual OPS Checks.** Details of branch specific OPS Check requirements are contained in Chapter 74 to Chapter 90. All personnel are expected to remain at OPS while building up experience towards promotion. Maintenance of OPS is to be monitored through an OPS Check process, success in which is a pre-requisite for promotion to LH and PO. Some ratings may not achieve or maintain OPS or, in some cases, not attempt to progress themselves thereafter for any number of reasons. Individual Branch Chapters are to be consulted to determine the action to be taken in these cases.

i. **Engineering Branch Operational Performance Statement Assessments.** Engineering Branch OPS Assessments are conducted in accordance with the timescale detailed in the individual Chapter 74, Chapter 75 and Chapter 76 and the relevant competence recorded on JPA.

6910. Failure of Examinations or OPS Assessments

a. **Outright Failure of PQEs Set by Schools or Examining Authority on a PQC.** Ratings will not be promoted to the higher rate or retain the higher rate (if promoted following completion of leadership training) if not successfully completing the mandated professional and/or leadership courses. Ratings who fail outright or who are removed from the relevant Course at the appropriate School are to suffer the following penalties:

(1) Deselection from the promotion signal.

(2) Reversion from the substantive rate or relinquishment of the acting higher rate (if held) - individuals are to be reverted or lose the acting higher rate from their date of failure.

(3) Removal of a PE pass, entailing a possible loss of pay - the pay Qualification Point will be reinserted.

(4) A requirement to spend a minimum of 12 months in the lower rate and the need to re-qualify, by way of a Commanding Officer's recommendation, for subsequent consideration for promotion to the higher rate.

b. The Commanding Officer of the Training Establishment may defer an individual's removal from course if considered appropriate, pending extra instruction and immediate re-examination within that establishment and subject to negotiation with the rating's parent establishment/ship.

c. Exceptionally, if the Commanding Officer of the Training Establishment considers that the degree of failure does not justify the course failure penalties in paragraph 1, but the rating cannot be retained for further training and immediate re-examination in accordance with Para 6910 sub para b, the following procedures are to be followed:

(1) The automatic penalties of course failure are not to be applied.

(2) The Ratings Promotion Section and the rating's Commanding Officer are to be informed of the additional training required.

(3) The rating is to be assigned back to the training establishment for re-examination at the earliest possible opportunity.

(4) The rating is to be formally warned that a second failure of a course will invoke full penalties.

d. Ratings who fail at this second attempt will be subject to the automatic penalties of course failure from the date of the second failure.

e. If, during the waiting period, the rating's Commanding Officer feels that the rating should no longer be recommended for further training, the penalties of course failure are to be applied from the date the Commanding Officer informs the rating of the decision. Ratings who no longer wish to return for a second attempt are to be treated as a course refusal in accordance with Para 6911.

f. If an individual wishes to withdraw from course they are to be interviewed by either their Divisional Officer prior to course start or Course Officer post course commencement, using the proforma at Annex A. They are also to be interviewed by their CM before final approval for de-selection by the appropriate CM SO2. The interview process is to ensure an individual understands the full impact that their decision has on their career and promotion eligibility, as well as seeking to identify options to encourage the promotion.

g. Any individual who withdraws from PQC will not be considered for promotion at the next board (or next two boards for those branches who convene more than one board per year). Exceptionally, application can be made by an individual's Commanding Officer/Course Officer if there are exceptional reasons for the individual removing themselves from course.

h. **Failure of PEs and PQEs set by Fleet, Squadron, Ship or Central Examining Authority.** Ratings who fail a PE or PQE set by the Officers of the Fleet, Squadron, Ship or Central Examining Authority may be examined at an interval of not less than 4 months or, for Engineering Branches or Logistics Branch Fleet Examinations, as specified by the President of the Board or Head of Navy Logistics Training (HoNLT) and Commanding Officer Food Services Training Wing (CO FSTW), DCLPA Worthy Down, at the time of failure. The earliest date for re-examination is to be noted on the rating's history sheet and on the Application for Examination forms. For EGS candidates, Line Managers and HoDs are encouraged to arrange another PE as soon as mutually appropriate, with a minimum period of one month between attempts. Applications should be made to the unit's CO and Flotilla SMEO/SWEO to resit PE after a minimum of one month has elapsed. The decision on whether or not to approve the request will be formulated depending on the nature of the previous failure and the proposed re-assessment time scales.

i. The reasons for judging ratings to have failed are to be noted on the Application for Examination form and also discussed with the candidates.

j. Ratings failing an examination are eligible for re-examination, as specified above, for the first three attempts. They must then wait one year before being allowed a fourth attempt; further cycles of three attempts are then permitted.

k. **Failure of an OPS Assessment Set by Fleet, Squadron, Ship or Central Examining Authority**. For Engineering Branches, ratings who fail an OPS Assessment set by the Officers of the Fleet, Squadron, Ship or Central Examining Authority may be re-examined at an interval no less than that either specified by the President of the Board at the time of failure or that specified by a Warning Officer, noting the recommended review timescales given in Chapter 57. An unsuccessful OPS check is considered a failure and the warning process for reversion to the appropriate rate should commence. Candidates then have two further attempts. On failure of the third attempt the candidate should be reverted to the previous rate.

6911. Refusal to Take a Professional Qualifying Course or Professional Qualifying Examination for Confirmation

a. Ratings who refuse to take a PQC or PQE required for promotion will be:

(1) Deselected from the promotion signal.

(2) Reverted from the confirmed rate or relinquish the acting higher rate (if held).

b. An individual's refusal, together with the date on which they become eligible again, is to be reported to the Ratings Promotion Section.

c. When there appear to be valid reasons for a refusal, the case is to be reported to the Ratings Promotion Section for a decision as to whether or not they are sufficiently strong to justify exemption from the above automatic penalties.

d. **Withdrawal from Course.** If, on receipt of instructions detailing ratings to attend a course (professional or leadership), a Commanding Officer considers that a rating can no longer be recommended in accordance with Para 6901, they are to be removed from the course and suffer the penalties listed in Para 6910.

e. If, whilst undergoing a course (professional or leadership), the Commodore of the Training Establishment considers that ratings do not merit retention on course they are to be removed and suffer the penalties listed in Para 6910.

f. Ratings removed from a course for misconduct may not be put on course for at least two years and, immediately preceding the second course, must satisfy the career check requirements for promotion and advancement. Withdrawals in accordance with this clause are to be reported by letter to the Ratings Promotion Section.

6912. Application for and Reporting of Examinations for Higher Rate

a. Applications for examination are to be made in duplicate on Forms S442 as required by the various specialisation regulations. Both copies of the relevant Form are to be forwarded to the Administrative Authority or Examining Authority, who will then arrange for the examination to be conducted in accordance with the appropriate specialisation regulations.

b. On successful completion of all parts of the examination, the Examining Authority will enter the results on Forms S442 and forward one copy to the candidate's unit where the required notations are to be made on the rating's Service Documents and the competences are to be added to JPA by unit HR personnel.

c. In the case of failures, the original of the form is to be completed and forwarded to the candidate's ship or establishment for retention with the rating's divisional documentation for future reference.

d. **Local Examination.** When it is known that a formal examination will not be available within four months of the candidate's application being made, application is to be made for a local examination using Forms S442 (in triplicate), as required by the various specialisation regulations. All of the application forms are to be clearly marked 'LOCAL EXAMINATION'. If the application is approved, the Commanding Officer is to convene a Local Examination Board.

e. On successful completion of the local examination, the results are to be entered on the forms and the original forwarded to the Advancement Authority. One copy is to be used for notation purposes in accordance with Para 6912 sub para b and then retained with the rating's Divisional Documents for use by the Board at the formal examination. The third copy is to be handed to the candidate.

f. In the case of failure of the local examination, one copy of the form is to be retained with the rating's divisional documents for future reference, clearly stating the reason for failure. The remaining copies are to be destroyed following the raising of Form C170.

g. **Special Rules.** Where any specialisation has special rules for applications for examination, these are shown in the various specialisation Chapters concerned.

SECTION 5 - ACTING HIGHER RATE

6913. Use of the Acting Higher Rate

a. The acting higher rate may be used in the following situations:

(1) By anyone who, having been selected for promotion under Common Promotion Date (CPD) rules, is assigned to a position in the higher rate before the CPD in question and is fully qualified for promotion (including satisfying medical requirements), having completed all mandated training. Under the selective promotion system, ratings that have been selected for promotion will normally be promoted on a CPD. Those who subsequently qualify in all respects for the higher rate following selection, however, may be awarded the acting higher rate if assigned to and then carrying out the duties of a position, complemented for the higher rate, prior to the CPD. The individual may retain the acting higher rate until their CPD providing that they remain assigned to the position and continue to carry out the duties of the higher rate. If the individual ceases to remain assigned to the position or no longer carries out the duties of the higher rate, however, for whatever reason, they must lose the award of the acting higher rate immediately. Such awards are made subject to individuals satisfying all other relevant promotion criteria. With the exception of pregnancy, individuals who have assignments to pre-promotion training cancelled or delayed (e.g. due to operational requirements) will not be entitled to any retrospective promotion awards prior to the CPD for which selected.

(2) By non-artificer/technicians who were promoted to the higher rate before the introduction of selective promotion (however, such individuals are being assigned to leadership training where still outstanding - see Para 6908). There will remain a number of personnel who have been advanced under the previous B13 advancement system who have not yet completed the necessary professional or leadership course for confirmation in their current rate. These personnel will remain in the acting higher rate until such time as the necessary courses are completed. Individuals who, following assignment, fail or refuse to attend leadership course will lose the acting higher rate.

(3) By new entry and sideways entry Naval Nurses on completion of their specialist training. Due to the compressed nature of the training pipeline and the lack of employment as an Able Rating, Direct Entry Naval Nurses (who have not completed LRLC) may be granted the Leading Rate on an acting basis on completion of Phase 1 Training. Direct Entry Dental Hygienists may be advanced to the Acting Leading Rate in accordance with Para 8801. Confirmation in the higher rate will occur on completion of the LRLC.

(4) In exceptional cases, by branch transferees and those joining sideways entry specialisations.

(5) By artificer/technicians who are qualified by time for advancement to the higher rate but have been unable to complete the required professional or leadership training due to the exigencies of the Service.

(6) On a local acting basis (for those not selected for promotion) - see Para 6914.

(7) On an unpaid basis - see Para 6915.

b. Prior to the introduction of CPD, time in the acting higher rate counted towards any time qualification for the next higher rate. The use of the acting higher rate, however, is dependent upon a number of factors which are outside an individual's control. Consequently, to ensure that all individuals selected at the same time for the same CPD are treated in the same manner and are therefore not disadvantaged, only time spent in the confirmed rate will count for advancement/promotion purposes under the CPD scheme.

c. The following procedures for the award of the acting higher rate will apply for those individuals selected and qualified for promotion or those who are due promotion by time and/or qualification:

(1) The Career Manager (CM) or Career Management Cell (CMC) (for squadded ratings) identifies the rating who has been selected for promotion and has completed mandatory training. The CM/CMC will then assign the rating to a higher rate position and change their rank to the acting (paid) rank (as referred to in JPA).

(2) Once assigned and rank changed, the CM/CMC will note the status of the acting (paid) rank in the rank review field. This change in rank will trigger the JPAC who will then alter the pay, allowances and IBD to reflect the higher rank.

6914. Acting Higher Rate (on a Local Acting Basis)

a. The award of the acting higher rate on a local acting basis to ratings capable of performing the duties of a higher rate is a system designed to enable an individual to undertake the duties of a higher rate for a temporary period. Such advancement may be authorised (except to the rank of WO – see Para 6914 sub para o) to make good deficiencies in establishments when the higher rate allowed is:

(1) Not borne and the vacancy is not expected to be filled within 21 days.

(2) When a rating is absent from duty for Service reasons or for sickness and it is not expected that the vacancy will be filled within 21 days.

(3) When a rating is absent from a ship or establishment on compassionate leave which is expected to exceed 21 days.

(4) Not already covered by excess bearing in any higher rate in the same specialisation.

Note. *Where employment in the higher rate consists of general duties e.g. barrack guard, accommodation party etc. and it is considered that the 'same specialisation' rule need not apply, authority may be sought from DDPD to give the award to another rating, best suited to the post, provided that the overall establishment in that rate is not exceeded.*

b. A temporary manning standard does not affect the establishment for this purpose except for ships in which equipment has been placed in the state of care and maintenance. In these circumstances, a decision should be sought from DDPD (who in turn may seek higher authority) regarding the award of an acting higher rate on a local acting basis which is in excess of the temporary manning standard.

c. Careful discrimination is to be exercised in the selection of ratings for the acting higher rate on a local acting basis, particularly in the technical and medical branches. Commanding Officers are free to select any rating for an award of the acting higher rate on a local acting basis in the individual's own specialisation; however the following guidelines are to be adhered to:

(1) The individual must be capable of performing the higher duties as determined by the Commanding Officer.

(2) The individual should have been recommended for promotion 1 Rank Up (Yes, High or Excp) in their last SJAR. Where this is not the case, a SPEC SJAR should be raised recommending the individual for receipt of the Acting Higher Rate and future promotion.

(3) Although not mandatory, prior consideration should be given to ratings who have:

(a) Been selected for promotion.

(b) Passed (or are making good progress towards passing) a PE or alternative.

(c) Completed the relevant Leadership Course for the higher rate (see Para 6914.d sub para (3)) for mitigation where this is not the case). The individual should not have failed a Leadership Course within the last 12 months.

(4) The individual must be medically fit for promotion (see Para 6907).

(5) Commanding Officers have complete discretion as to the standard of conduct which should be required for the award of the acting higher rate on a local acting basis, except after being disrated (see Para 6914 sub para k).

d. **Award Process.** In order to fill a temporary vacancy:

(1) The unit is to identify the position that needs to be filled internally.

(2) The unit identifies a suitable individual who meets the promotion eligibility criteria.

(3) If no suitable Leadership Course qualified rating is available, Commanding Officers can (if required) select someone who has not completed a Leadership Course. In so doing, however, they must include planned action to mitigate the duty of care impact of employing a person at a higher rate who has not completed all the required training; both on behalf of the individual and those who they will lead. If the period of the award is to exceed six months, the award of the acting higher rate on a local acting basis should be reviewed at the six month point to ensure that the individual is performing well in the temporary vacancy. If the latter does not apply, or the individual is failing to lead successfully, consideration should be given to awarding the acting higher rate on a local acting basis to another individual, preferably one who has completed the relevant Leadership Course. Reporting the award of the acting higher rate on a local acting basis (and any change of individual at the six-month review) should be made in accordance with details at Para 6914 d sub para (4)).

(4) The unit raises an ‘Acting Promotion Authorisation Request’ by signal or electronically (to the CMC for squadded ABs and Leading Hands; the CM for all other ratings). In cases where ratings are awarded the acting higher rate on a local acting basis exceptionally, without having completed a Leadership Course, this must be made clear on the signal/e-mail.

(5) Having identified the gapped position on JPA, the CM/CMC assigns the individual to that position, changes the rank to acting rank and inserts a rank review date. This will ensure the individual has the requisite roles and responsibilities commensurate with the new rank on JPA and, additionally, will trigger the process for the JPAC to change the individual’s pay, allowances and IBD to that of the new rank.

e. Awards of the acting higher on a local acting basis rate may be authorised only one step above the substantive rate held in all specialisations.

f. Ratings holding the acting higher rate on a local acting basis are not to be employed on duties of a rate higher than that appropriate to their new position.

g. Ratings holding the acting higher rate on a local acting basis will rank in command with, and have the status and privileges of, equivalent ratings (for further information, see BRd 2 QRRN (Command).

h. **Relinquishment of the Acting Rate.** Once the review date is reached (see Para 6914.d sub para (5)), the CM/CMC will assess the need to continue to fill the position on a temporary basis and, thereby, the retention of the 'acting paid rank' by the rating. It is a unit's responsibility to inform the CM/CMC if circumstances alter and justify a change in the individual's 'acting (paid) rank' status before the rank review date. Once informed by the unit, the CM/CMC will make the necessary adjustments to the rating's rank on JPA. It should be noted that, under JPA, ratings are not reverted when they complete the period of acting higher rate on a local acting basis but relinquish their acting rank (for reversion for unsuitability see Para 6915 sub para (i)). A rating is to relinquish the acting higher rate on a local acting basis as a result of any of the following events:

(1) If the vacancy ceases to exist.

(2) If promoted or advanced to the substantive rate.

(3) If moved to another position following routine unit position rotation, or following a 6 month review (see Para 6914.d sub para (3)).

(4) If reassigned, including leave prior to next assignment.

(5) If placed on a course (whether within the establishment or elsewhere), from which they are expected to return, involving an absence of more than 35 days from the duties for which the acting higher rate on a local acting basis was granted.

(6) If absent through sickness or injury for 28 days from the date of cessation of duty.

(7) If fails, refuses to attend or is withdrawn (unless due to medical or other Service reasons) from a Leadership Course to which they have been assigned.

i. Commanding Officers in the rank of OF3 or above may order reversion from the acting higher rate on a local acting basis for unsuitability at any time (as opposed to relinquishing the acting higher rate on a local acting basis as at Para 6914sub para h)). Commanding Officers below that rank are to obtain the approval of the Navy Command Headquarters Casework Cell.

j. For disciplinary purposes, ratings holding the acting higher rate on a local acting basis will be treated in the same manner as those holding the substantive rate. In particular, ratings may be disrated to their substantive rate or to an appropriate lower rate either by court-martial or summarily, subject to the regulations applicable to the substantive equivalent to the acting rate held. The same consequential effects will apply (see JSP 830 - Manual of Service Law).

k. A rating holding the acting higher rate on a local acting basis, who is disrated in accordance with Para 6914 sub para j, must attain a minimum of one year's Career Check free service before being again granted the acting higher rate on a local acting basis or before being promoted to a higher rate under the rules at Para 6720 and Para 7002. An individual disrated from a confirmed rate must also attain a minimum of one year's Career Check free service before being granted the acting higher rate on a local acting basis. If, exceptionally, there are special reasons for granting the acting rate to an individual in any of these three categories with less than one year's Career Check free service, application is to be made to the Navy Command Headquarters Casework Cell (copy to the Ratings Promotion Section).

l. **Petty Officer (Police) and Master-at-Arms (MAA).** Where a Petty Officer(Police) (PO(P)) is assigned by DDPD to fill a MAA position, the draftee may apply in their current ship/establishment for the granting of the award of Acting MAA rate on a local acting basis without a signalled prompt from the new unit. In recognition of their special policing powers, the individual may be awarded the rate with an effective date of joining the unit or date of taking passage (e.g. in an aircraft) if travelling with other Service personnel. The rating is entitled to wear the uniform of the higher rate from that date. The effective date of relinquishing the higher rate is the day after leaving the establishment position or the date of promotion to substantive MAA, whichever is the earlier. These provisions also apply to ratings that are awarded the rate of Acting PO (Police) on a local acting basis when filling a unit Senior Regulator position.

m. **CPO Coxswain (SM).** POs who are potential branch transferees from another specialisation and are selected and qualified for transfer to CPO Coxswain (SM) but not yet promoted, who are subsequently assigned to a CPO Coxswain (SM) position, may apply in their current unit for the granting of the award of the Acting CPO Coxswain (SM) rate on a local acting basis without a signalled prompt from the new unit. In recognition of their special policing powers, the individual may be awarded the rate on a local acting basis with an effective date of joining the submarine or the date of taking passage (e.g. in an aircraft) if travelling with other Service personnel. Ratings are entitled to wear the uniform of the higher rate from that date. The effective date of relinquishing the higher rate is the day after leaving the establishment position or the date of substantive promotion to CPO, whichever is earlier.

n. **Joint Service Establishments.** Acting rates or ranks under the same conditions as above may also be granted to RN, RAF and Army personnel serving in Joint Service Establishments.

o. **Warrant Officer Rank.** AHR on a local acting basis of WO2 and WO1 will only be considered in exceptional circumstances, where all other options have been exhausted, i.e. activation of reserve candidates and/or supplementary promotion board, or if it is not feasible to do this for operational reasons. Profession Managers must be consulted prior to the award of AHR (on a local acting basis) of WO2 and WO1. Hd CM must give final approval for the award of AHR (on a local acting basis) of WO2, and DDPD for the award of WO1.

6915. Acting Higher Rate (Unpaid) - Addressable Rank

a. Promotion to the acting higher rate (unpaid), commonly known as addressable rank (and referred to on JPA as acting unpaid rank), carries no entitlement to pay, allowances or pension rights of the higher rate and may be given in the following circumstances:

(1) Where it is desired to exceed, temporarily, the authorised establishment for such purposes as special operations and training.

(2) Where it is necessary for attendance on courses or duties with other Services.

(3) Where it is necessary for prestige purposes, or to enable a rating to carry out their duties more effectively.

b. Applications should be submitted to the Career Manager for authorisation, who will make the necessary changes on JPA.

c. **Duties.** Ratings holding the acting higher rate (unpaid) will rank in command with, and have the status and privileges of equivalent ratings (for further information, see BRd 2 QRRN (Command) and BRd 3(1) Part 6 (Uniform Regulations)).

d. **Relinquishment.** The acting higher rate (unpaid) is to be relinquished when:

(1) The assignment for which the acting higher rate (unpaid) was granted is completed, including discharge to leave prior to next assignment.

(2) The course or duties for which the acting higher rate (unpaid) was granted are concluded. This includes removal from course for either professional or disciplinary reasons.

(3) The rating is promoted or advanced to either the substantive or paid acting higher rate.

(4) The rating is medically downgraded and assigned to the medical margin.

(5) The rating is remanded for trial by Court Martial or tried summarily with an offence under AFA 06 unless their Commanding Officer directs otherwise (under AFA 06, an individual is normally to be charged in their substantive rank).

(6) **Warrant Officer Rank.** In no circumstances will the acting higher ranks of WO1 and WO2 be granted on an unpaid basis. The WO rank is reserved for those who have been promoted by the Selection Board procedure and individuals receive a Royal Warrant. A CPO undertaking a WO's day to day duties may attract substitution pay (see JSP 754), where undertaking duties in addition to their own, but they are not authorised or entitled to exceed the disciplinary or structural authority equal to their seniority as a CPO.

SECTION 6 - MISCELLANEOUS

6916. Transfer Between Specialisations - Counting of Time

See Chapter 51 for more information.

6917. Promotion of Senior Upper Yardmen

Details of the scheme for promotion of Senior Upper Yardmen (SUY) are found in Chapter 50. Accelerated advancement to PO or above is sometimes given to selected candidates to enable them to obtain the necessary experience for SUY.

6918. Promotion or Advancement of Recovered Deserters

a. The following qualifications for promotion or advancement, if gained prior to desertion, are not affected by desertion:

(1) Educational qualifications.

(2) Professional and specialist qualifications unless they have been made more stringent while in desertion.

b. **Counting of Former Service.** Time spent as a deserter, prior to re-entry on a ship's books, does not count for advancement, either for the service qualification or for sea service.

c. The period of desertion may not count for promotion or advancement purposes, but time awaiting trial and time in detention or cells imposed on conviction of desertion is allowed.

d. **Removal of 'R' Notation.** On removal of the 'R' notation, the usual conditions of promotion or advancement and re-promotion or re-advancement in the branch/specialisation and rate, to which the ratings concerned are to be reverted, apply. Time spent before desertion is allowed to count for further promotion or advancement or re-promotion or re-advancement but, as stated, the time spent actually in desertion will not be allowed to count. The date of seniority in the rate and the date of passing, if qualified for the higher rate before desertion, should be adjusted accordingly.

e. **Ratings Disrated on Recovery.** Ratings disrated on recovery will be eligible for re-promotion or re-advancement in accordance with Para 7002. After re-promotion or re-advancement, they will be eligible for further promotion or advancement under the normal rules except that their seniority and, if qualified professionally for the higher rate, their basic date of passing will be the date of recovery from desertion (i.e. the date of re-entry on a ship's books) adjusted for time spent in a lower rate, or rates, after recovery.

f. **Ratings not Disrated.** Ratings who are not disrated on recovery may be advanced or promoted under the normal rules for their specialisation. The seniority and, if qualified professionally for the higher rate, the Basic Date of passing will be the date of re-entry on ships' books.

g. **Able Rate.**

(1) Special reports on the fitness for advancement of all recovered deserters of the BD2 (or equivalent) are to be forwarded to the authorities named at Para 6918.g sub para (2) on the date the rating becomes eligible for advancement under the normal rules after deducting the period actually spent in desertion.

(2) Advancement of recovered deserters to BD1 may be authorised by Commander-in-Chief, Senior Officers of Squadrons, the Captain HMS NELSON and Commandant DCEME HMS SULTAN, without reference to the MOD(N).

(3) To be eligible for advancement on completion of the necessary period of qualifying service, a rating must also be considered fit for advancement and recommended for advancement in accordance with Para 6901. If the rating is not recommended, advancement is to be delayed until the Commanding Officer is able to make the required recommendations.

(4) The advancement of ratings who are recommended by their Commanding Officers later than the date on which they are qualified by service is to be made from the date of the recommendation.

(5) Ante-dating to the date on which a rating qualified for advancement by service, or to any other date, is not permitted unless it is clear that the advancement has been overlooked, or that necessary correspondence has been lost, and that it is known that the rating would have been recommended on the date to which it is proposed to ante-date them. If a rating was qualified for advancement before desertion but they were not advanced, through no fault of their own, they may be advanced from their original date of qualifying provided that their record at that time was such that they would have been recommended. Their date of advancement is then to be immediately adjusted to the date of their re-entry on a ship’s books after recovery from desertion. This date is to be re-adjusted in respect of any subsequent desertion.

(6) Any claim, which a recovered deserter may have had to any accelerated advancement, is to be regarded as forfeited by the desertion.

(7) Time in the same branch, prior to desertion, may count towards the service qualification, and where applicable towards the sea service qualification, but a rating who is transferred from one branch to another may, for this purpose, only count 5 weeks’ service in the previous branch.

6919. Advancement of Prisoners of War and Internees

a. **Advancement to AB1.**

(1) AB2s may be advanced to AB1 on the date due by service while prisoners of war or interned. Professional and specialist qualifications are to be waived if ratings have been unable to obtain them due to their capture or internment.

(2) This advancement will not be allowed where it is established that the rating would not have been advanced on due date because of some known inefficiency. In such cases, the rating's advancement is to remain in abeyance.

(3) The advancement of ratings taken prisoner or interned will not be permitted at a date earlier than would have been due previously.

(4) Ratings who were fully qualified for advancement on a date earlier than that on which they were taken prisoner or interned but who were actually advanced may be advanced while prisoners of war or interned with effect from their original date.

b. Internees may be advanced from BD2 to BD1 and have their professional and specialist qualifications waived if ratings have been unable to obtain them during the time of internment. They cannot be waived if it is established that there was some known inefficiency prior to internment.

c. **Advancement to PO (Artificers).** Artificers may be advanced to PO, while prisoners of war or interned, on the date due by service.

d. **Promotion above Able Rate (Non-artificer/Technician) and above PO (Artificer/Technician).**

(1) Promotion beyond the Able Rate (non-artificer/technician) and advancement beyond PO (artificer/technician) will not be permitted while a rating is a prisoner of war or interned, except as provided for in Para 6919.d sub para (8).

(2) Promotion or advancement may be authorised after liberation, in accordance with the following rules, provided that the rating is not discharged from the Service on termination of hospital treatment, or foreign service or prisoners of war leave and returned to normal duty with an unbroken record of service:

(a) All the required qualifications for promotion or advancement (e.g. conduct, service, sea service, professional, specialist and educational) must be fulfilled before the selective promotion or advancement is authorised.

(b) The period of time, since the date of return to duty, taken to complete the necessary qualifications is then to be added to the date of qualification.

(c) Sea going service performed before being taken prisoner or interned will count towards any sea service qualification required.

(3) Eligibility to take examinations for further promotion or advancement, following promotion or advancement achieved in accordance with Para 6919 sub para b, is to be determined as follows:

(a) The date of eligibility to take examinations for further promotion or advancement is to be calculated from the adjusted seniority in rate.

(b) The effective date of passing the examination is to be antedated as in Para 6919.d.(2) sub para (b).

(4) Where a rating was selected before internment, DDPD may authorise promotion to the higher rate. Time-based advancement (e.g. to PO or CPO) may be approved by COs provided that the rating concerned:

(a) Applied to take the examination(s) within a reasonable period of return to duty (excluding prisoner of war leave or foreign service leave).

(b) Passed the examination(s) at the first attempt.

(5) Where a rating is eligible for selective promotion, they will be considered by the first Selection Board, subject to normal selective promotion procedures. This Board may exceptionally recommend to DDPD, for confirmation by Second Sea Lord (2SL), any retrospective promotion that it may feel to be justified.

(6) In cases where no professional qualification is required, further promotion or advancement may be authorised with similar retrospective effect as in Para 6919 sub para a.

(7) **Acting Higher Rate.** The acting higher rate held at the time of capture or internment may be retained during captivity and for a period of 61 days after repatriation or of rejoining Ratings ships whichever is earlier. Ratings will then revert to their confirmed rate.

(8) **Ratings Reported Missing or who Die in Captivity.**

(a) Ratings who are reported missing, and of whom no more is heard, may be advanced from the due date on official presumption of death, provided that the advancement was due prior to the date on which the rating was reported missing.

(b) Ratings who are first reported missing and who are subsequently reported to be prisoners of war or interned will be dealt with in accordance with Para 6919sub paras a-d.

(c) Ratings who are reported missing, of whom it is discovered that they died at a later date, and prisoners of war and internees who die in captivity, will be dealt with as in Para 6919.d.(8) sub para (a), except that the period of service performed subsequent to the date on which they were reported missing, taken prisoner of war, or interned, will be taken into account. They will be promoted or advanced to any rate for which they would have been qualified by service alone prior to the known or calculated date of their death, it being assumed that they would have obtained the necessary professional qualifications within that period.

(d) Any rating who dies in captivity or is presumed to have died in captivity, whose record of service is such that they would have been selected for promotion, is to be considered by a Selection Board for promotion. This Board may recommend to DDPD, for confirmation by 2SL, any retrospective promotion that they may feel to be justified.

6920. Special Forces - Shadow Rank Assessment Board

Badged RN/RMSF ranks (either SBS/SAS) are only entitled to SF pension and Terminal Benefits on becoming Permanent Cadre (PC) at six years SF service. If a rank dies or leaves the service for medical reasons prior to achieving PC, their terminal benefits will be based on their assessed Shadow rank, which is the rank that they could have been expected to achieve had they remained in their previous SQ. The RM Branch Manager can advise on the SRAB procedures.

ANNEX 69A

VOLUNTARY WITHDRAWAL FROM PQC

1. This section is for personnel who voluntarily remove themselves from PQC.

2. The initial interview should be conducted by either the course instructor or the individual's line management. The purpose of the interview is to explore all options and if possible look to reverse the decision.

3. If the decision remains unchanged after the interview is complete, the individual should then be booked for a CM interview before the final decision on voluntary removal is made. Given the gravity of self-withdrawal from course, the final decision must be approved at SO2 level or above.

Name: ..... **Service No:** .....

1. What are your specific reasons for removing yourself from your PQC?

2. Is there anything that might encourage you to reconsider this decision?

3. **Instructor/DO input:**

Instructor/DO Interview conducted on (date): .....

4. CM report (a brief description of the CI outcomes)

CM Name:..... **Signature:**..... **Date:** .....

Date report entered on to JPA: .....

CHAPTER 70

RATINGS POLICY - RE-PROMOTION AFTER DISRATING AND REVERSION

7001. Disrating - General Rules on Re-promotion after Disrating

a. The following rules regarding the re-promotion of individuals following disrating apply to all ratings (and include the re-instatement of promotion to the WO1 rank that was withheld following Promotion Board selection - for WO1 options, see Para 7002 sub para n). For more specific rules on the disrating of ratings, see JSP 830 (Manual of Service Law).

b. Throughout this Chapter, the term re-promotion has been used generically, however, it is accepted that ratings can be 'advanced' (by time) up to the rate of Chief Petty Officer (CPO) in some technical specialisations.

c. **Authority for Re-promotion.** The policy on re-promotion of ratings who have been disrated, either summarily or by court-martial, rests with the relevant Service (JSP 830 Ch 13 Para 101).

d. **Applications for Re-promotion.** All applications for the re-promotion of ratings who were disrated at Court Martial or Summary Hearing (not those reverted by the Higher Authority as a result of an Administrative Action) are to be submitted for consideration as detailed at Annex 54A. In the case of re-admission to a sideways entry specialisation, applications, giving details of an individual's suitability for re-entry into the sideways entry specialisation, are to be copied to the appropriate authority at Annex 70A who will make a recommendation about the rating's re-entry to that specialisation direct to the Regional Legal Office, NAVY LEGAL-RLO MAILBOX (MULTIUSER) <NAVYLEGAL-RLOMAILBOX@mod.gov.uk> for consideration by the authorised Deciding Officer (see Annex 54A).

e. **Timing of Applications.** Applications may be made up to three months before ratings are due re-promotion if there is a wish to re-promote them from the date that they first become eligible (in accordance with Para 7001 sub para d). All applications should be accompanied by a Special SJAR and a firm recommendation for promotion. In cases where a disrating was by more than one step, each stage of re-promotion requires approval.

7002. Disrating - Eligibility for Consideration for Re-promotion

a. **Career Check Requirement.** For re-promotion to all rates following disrating, a minimum period of 12 months, free of a Career Check, must be served immediately prior to the date of re-promotion e.g. ratings disrated on 1 June cannot be re-promoted before 2 June of the following year. All calculations are made in calendar months.

b. **Timing of the Re-promotion.** The period of 12 months' service without a Career Check, required by Para 7002 sub para a, is a minimum requirement to qualify for re-promotion. A CO is not to re-promote ratings disrated for misconduct unless satisfied that a rating is worthy of the higher rate in all respects and is recommended in accordance with Para 6901.

c. **Re-promotion to the Higher Rate.** Requests for the re-promotion of ratings are to be directly to the confirmed rate in which they were serving before being disrated unless disrated by more than one step (see Para 7002 sub para l). Following re-promotion to the confirmed rate, the first 12 months is to be counted as a probationary period.

d. **Effective Date of Re-promotion.** All cases of re-promotion will be effective from either the minimum 12 months or the date of the CO's recommendation (if approved), whichever is the later.

e. **Ratings not Recommended for Re-promotion Within Two Years of Disrating**. Former Leading Hand (LH), Petty Officer (PO), CPO (non-technicians), WO2 (technicians) and WO1s who are not recommended for re-promotion within two years of the date of disrating (or one year after first becoming eligible for re-promotion to these rates if disrated by more than one step), will be required to go through the full selection process, as appropriate, and will be required to obtain the necessary recommendations on an SJAR.

f. **Professional Qualifications.** Ratings will not be required to re-qualify or qualify in any new professional qualifications which may have been introduced before re-promotion to the previous rate (but see Para 7002 sub para o for ratings in sideways entry specialisations who are disrated to their source specialisation). In cases where the qualifications are Qualification Points for pay, approval for a waiver will be required from the appropriate Branch Manager.

g. **Educational Qualifications.** Ratings will not be required to qualify educationally, even if not so qualified previously, for re-promotion to a rate previously held on a permanent basis.

h. **Medical Fitness.** Ratings who have a medical category below the requirements laid down in BRd 1750A (Handbook of Naval Medical Standards) and Para 6908 are normally ineligible for re-promotion but the concessions of Para 6717 and Para 6805 are applicable to re-promotion as well as to promotion. The provisions of the aforementioned Paras concerning medical examination of ratings below the necessary medical standard are to be applied to ratings who become due and are recommended for re-promotion whilst in that category. The rating's CO is to be informed as required. Re-promotion made in consequence of reaching the required standard may not be dated earlier than the date of reaching that standard.

i. **Antedating of Re-promotion.** Re-promotion after disrating is not to be ante-dated unless the rating concerned was fit in all respects and recommended for such re-promotion on an earlier date, and approval has been unavoidably delayed.

j. **Notification to Promotion/Advancement Authority.** The Ratings Promotion Section is to be notified of all cases of re-promotion (following disrating) as they occur. If the re-promotion has been antedated, a statement of the circumstances is to accompany the notification.

k. **Disrating by More than One Step.** Ratings disrated by more than one step are eligible under these rules for re-promotion by successive steps through the rates previously held but they must serve for a minimum period of 12 months with no career check in each rate before being promoted.

l. **Selection for Promotion to a Higher Rate held prior to Disrating.** In the case of promotion, any selection gained for a higher rate prior to disrating (i.e. where such selection had not resulted in actual substantive promotion) will be deemed forfeit and the individual will be expected to go through the selection process again.

m. **Adjustment of Seniority and Basic Date.** On re-promotion, a rating's seniority is to be adjusted by post-dating the original seniority in the rate by the time served outside that rate. The adjusted seniority date will be recalculated by the Ratings Promotions Section on receipt of a Promotion Authority Request (PAR) signal.

n. **Warrant Officers.** Warrant Officers who have been disrated (either summarily or by court-martial) have the option of being discharged 'Service No Longer Required (SNLR)' rather than being considered for re-promotion in accordance with the rules above.

o. **Ratings disrated to their source specialisation** (see Para 7002 sub para p for the rules following disrating from the Aircrewman specialisation). The re-entry of ratings to sideways entry specialisations, having been disrated to their source specialisation, will be subject to the rules above and additionally:

(1) Where re-instatement into the sideways entry specialisation is not recommended, thereby resulting in individuals having to remain in their source specialisation, any professional qualifications required for promotion within the source specialisation must be obtained before re-promotion can be considered.

(2) Re-instatement into the Coxswain (Submarine) specialisation cannot be considered until the rating has spent one year as a PO in his source specialisation (i.e. one year after re-promotion to PO). Recommendations should be forwarded to the Regional Legal Office, NAVY LEGAL-RLO MAILBOX (MULTIUSER) <NAVYLEGAL-RLOMAILBOX@mod.gov.uk> for consideration by the authorised Deciding Officer (see Annex 54A).

p. **Aircrewman Specialisation.** Aircrew ratings having been disrated to their source specialisation will be subject to the rules above and additionally:

(1) Following a sentence of disrating to the Able Rate, the papers relating to the Summary Trial or Court Martial are to be forwarded to the Navy Command Headquarters to decide whether the offence should carry with it the consequential removal of the rating's flying badge.

(2) If the flying badge is removed, the rating will return to their source specialisation permanently and be subject to the rules for re-promotion within that specialisation.

(3) If it is decided that the rating should retain the flying badge, and that the rating should therefore be suitable for reinstatement into the Aircrewman specialisation at the end of the one year period (subject to normal good conduct etc), during this years' probation, the rating will:

(a) Hold the able rate in their source specialisation.

(b) Be employed in a similar position to a Leading Aircrewman.

(4) At the discretion of the Navy Command Headquarters, such a rating may be eligible for payment of the LH rate of relevant RRP provided the rating continues to be employed on duties similar to those undertaken by a Leading Aircrewman. The payment of the correct rate of RRP is to be in accordance with the rules in JSP 754.

(5) Towards the end of a rating's probationary year, the CO will make the usual recommendation, addressed to Navy Command Headquarters, for re-promotion and re-instatement into the Aircrewman specialisation as an Acting Leading Aircrewman. The Navy Command Headquarters will then confirm the rating's suitability for re-instatement and, subject to the normal re-promotion criteria, will approve both re-promotion and re-instatement at the end of the one year period.

q. **Complaints.** In accordance with JSP 831, individuals retain the right to state a complaint following a decision to withhold their re-promotion following their earlier disrating (or reversion).

7003. Reversion for Unsuitability

a. The regulations below regarding reversion, and re-promotion thereafter, apply to all rates (and include the re-instatement of promotion to the WO rank that was withheld following Promotion Board selection).

b. **Circumstances in which Reversion for Reasons of Unsuitability Should be Used.** Reversion or discharge SHORE for unsuitability (see Para 7003 sub para c and sub para d respectively) is appropriate only when ratings show a lack of knowledge or ability, deteriorating efficiency or appear unsuitable (other than for reasons coverable by disciplinary action).

c. **Ratings who have Fewer than 20 years' Reckonable Service (if Serving on an Engagement Stage 2), 18 years' Reckonable Service (if Serving on a Full Career (FC)) or 22 years' Reckonable Service (if Serving on an Open Engagement (OE)).** LHs and above who are unable to perform their duties adequately through lack of knowledge or ability, or who show themselves to be unsuitable other than for reasons coverable by disciplinary action, are liable to be reverted to a lower rate. When reversion for unsuitability is being considered on professional grounds, the Operational Performance Statement, where it exists, and pre-joining training, where it is applicable, must be considered together or separately, as appropriate, in order to enable an individual's professional performance to be assessed against the objectives that were set for the training previously undertaken. WO1s are to be given the option of being discharged SHORE in their existing rate or reversion.

d. **Ratings who have More than 20 years' Reckonable Service (ES2), 18 years' Reckonable Service (FC) or 22 years' Reckonable Service (OE) and are now Serving on an Engagement Stage 3 (ES3), Extended Career (EC) or Extensions of Original Engagements where applicable).** Where LHs and above (including WO1s), who have completed more than 20/18/22 (ES2/FC/OE1) years' reckonable service, become so inefficient in the discharge of their duties that, if they were still serving on a ES2/FC/OE, the question of their reversion would have to be considered, they are to be warned for discharge SHORE in their existing rate under the procedure in Para 7003 sub para k to sub para o instead of reversion.

e. Reversion for unsuitability is not a punishment and must not be used as a means of dealing with an offence. The character of an offence or offences for which ratings have been punished, however, may be such as to show that they are professionally unsuitable for the rate which they hold.

f. **Authority Required for Reversion.** Personnel authorised to approve applications for reversion (as per s332 of the Armed Forces Act 2006) are detailed in Annex 54A. Approval by these personnel is required for all applications for the reversion of ratings who hold substantive rank. Applications are to be submitted to the Regional Legal Office, NAVY LEGAL-RLO MAILBOX (MULTIUSER) NAVYLEGAL-RLOMAILBOX@mod.gov.uk, in accordance with the general procedure and format for administrative applications detailed at Annex 1E. See Para 6719(b) and Para 6912.

g. **Sideways Entry Specialisations.** Ratings in sideway entry specialisations who are reverted below the lowest rate in their structure must be returned to their source specialisation. Ratings who are unable to perform the duties of the lowest rate to which they can be reverted, however, may be discharged SHORE. Ratings who do not have a source specialisation to which they can be returned, if they are reverted below the lowest rate in their structure, must either be transferred to another category (if a volunteer for sea service) or discharged SHORE. Re-promotion, for those ratings not discharged, will be in accordance with Para 7007.

h. **Reporting on Individuals During Reversion.** Ratings who have been reverted for unsuitability are not to have an annual SJAR raised, however, special SJAR reports should be raised at each six-monthly interval until recommended for re-promotion (maximum four reports).

i. **Suspension of Professional Certificate.** Ratings who clearly show that they are no longer fit to hold a Professional Certificate required for promotion to the rate from which they are being reverted (e.g. a Unit Watchkeeping Certificate), may have this Certificate placed in abeyance while serving in the lower rate.

j. When the character of a proved offence or any serious failure in performance shows that a rating is clearly unsuitable for their rate on professional grounds, or other grounds where disciplinary action would be inappropriate, the case is to be investigated immediately by the CO without recourse to the warning procedure outlined below.

k. **Warnings for Reversion.** When reversion/discharge SHORE (hereafter referred to collectively as reversion) is contemplated, the individual is to be interviewed by their Divisional Officer (DO)/Head of Department (HOD). They are to be informed of their shortcomings and the warnings and reversion procedure is to be explained in detail.

l. The DO/HOD should warn the rating that if no improvement in performance occurs within a specified timescale (i.e. between three and 12 months at the DO/HOD's discretion), the rating will be reported to the CO with a view to reversion. See Para 5756 to Para 5766 for the need for Formal Warning Proforma and Special SJAR actions. Note - if the Overall Performance Grade is recorded as C, incremental pay suspension will be applied to the pay record automatically when the SJAR is finalised.

m. If, after the specified time, the rank's performance has not improved to the satisfaction of the HOD, they should appear before the CO. At this time, the individual is to be allowed to state their case and be offered the assistance of an Officer, who need not necessarily be their Divisional Officer.

n. **Action Required by Commanding Officer.** After investigation of the case, the CO has three options:

(1) Decide that the circumstances do not warrant reversion.

(2) Give the rating a further period of warning.

(3) Make immediate application for the rating's reversion.

o. **Applications for Reversion.** Applications, where appropriate, are to be submitted to the Regional Legal Office, NAVY LEGAL-RLO MAILBOX (MULTIUSER) NAVYLEGAL-RLOMAILBOX@mod.gov.uk for consideration. All applications should be made in accordance with the format and guidance for administrative applications at Annex 1E and must include a Spec SJAR. The Deciding Officer may direct that the rating is to serve a further trial period in the same or another unit, if it is considered that an additional probationary period is justified.

p. **Effective Date of Reversion.** When reversion has been approved, the decision is to be communicated to the rating by the CO. The date of such communication is the effective date of reversion.

q. **Limits of Reversion.** Ratings are not to be to be reduced in their own specialisation below the limits laid down in the Relatives Rates Table (see Annex 65A), nor may they be reduced either actually, or relatively, below the rate in which they first entered the Service.

7004. Reversion at Own Request

a. A rating may request reversion to the immediate lower rate at any time.

b. **Authority for Reversion at Own Request.** Personnel authorised to approve applications for reversion (as per s332 of the Armed Forces Act 2006) are detailed in Annex 54A.

c. **Effective Date of Reversion.** When reversion has been approved, the decision is to be communicated to the rating by the CO. The date of such communication is the effective date of reversion.

d. **Selected for Promotion.** If having been selected for promotion, a rating requests reversion at their own request, the selection for promotion will be forfeited.

e. **Re-promotion to the Higher Rate.** The re-promotion of WO1s, WO2s (technicians), CPO, PO and LH (non-technicians) who are reverted at their own request will be subject to the procedure in Para 7007.

7005. Reversion Due to Failure of Professional Training

The Commodore of the relevant training establishment may authorise immediate reversion when an outright failure of a professional qualifying course, with penalties, occurs. See Para 6719and Para 6911.

7006. Ratings Refusing Promotion

The procedure to be followed following refusal of promotion (after selection) are detailed in Para 6714.

7007. Reversion - Rules on the Re-promotion of Ratings

a. Ratings who have been reverted for unsuitability, or at their own request, are eligible for re-promotion under the general regulations for promotion and the following supplementary orders.

b. Eligibility for consideration for re-promotion is as follows:

(1) **Minimum Period in the Lower Rate.** The minimum period in the lower rate before a recommendation for re-promotion to LH, PO and CPO (non-artificer/technician), WO2 or WO1 may be made is six months.

(2) **Career Check Requirement.** The same rules will apply as for normal cases of promotion under Para 6719 and Para 6806.

(3) **Medical Fitness.** Ratings who have a medical category below the requirements laid down in BR 1750A and Para 6908 are normally ineligible for re-promotion but the concessions of Para 6717 and Para 6805 are applicable to re-promotion as well as to promotion. The provisions of the aforementioned Paras concerning medical examination of ratings below the necessary medical standard are to be applied to ratings that become due and are recommended for re-promotion whilst in that category. The rating's CO is to be informed as required. Re-promotion made in consequence of reaching the required standard may not be dated earlier than the date of reaching that standard.

(4) **Professional Qualifications.** Professional qualifications already obtained will not have to be passed again for re-promotion unless it is known that before reversion ratings were examined professionally as to their fitness to retain their rate and found wanting. Before being re-promoted however, ratings must obtain all the professional qualifications required for the higher rate at the time of re-promotion i.e. they must qualify in any examinations they have not already passed, including any higher grade qualification which has superseded a lower grade one. In addition, where a Professional Certificate has been placed in abeyance under the provisions of Para 7003 sub para i, COs are to ensure that ratings are suitable to hold such a Certificate again when recommending them for re-promotion. Recommendations for the re-promotion of such ratings are to include a statement that they are suitable to hold the Certificate again.

(5) **Educational Qualifications.** Ratings will not be required to qualify educationally, even if not so qualified previously, for re-promotion to a rate previously held on a permanent basis.

c. **Re-promotion to the Higher Rate.** All cases of re-promotion are to be directly to the confirmed rate in which the rating was serving before being reverted unless an individual was reverted by more than one step (see Para 7007 sub para d). The first 12 months following re-promotion to the confirmed rate is to be counted as a probationary period.

d. **Reverted by More than One Step.** Ratings reverted by more than one step are eligible under these rules for re-promotion by successive steps through the rates previously held, but they must serve for a minimum period of six months with no career check in each rate before being re-promoted. In this case the period of six months following re-promotion to the confirmed rate is to be counted as a probationary period.

e. **Recommendations for Re-promotion.** Applications are to be submitted, after a minimum of six months in the immediate lower rate or on first recommendation, whichever is later, the Regional Legal Office, NAVY LEGAL-RLO MAILBOX (MULTIUSER) NAVYLEGAL-RLOMAILBOX@mod.gov.uk, in accordance with the general procedure and format for administrative applications detailed at Annex 1E. Authority for re-promotion is as detailed in Annex 54A.

f. **Ratings not Recommended for Re-promotion Within Two Years of the Date of Reversion.** Ratings not recommended for re-promotion within two years of the date of reversion will be required to go through the full selection process and will be required to obtain the necessary recommendations on SJAR. Normal reporting should then recommence in accordance with JSP757.

g. **Effective Date of Re-promotion.** The effective date of re-promotion to LH, PO, CPO (non-technician), WO2 and WO1 will be the date of the CO's recommendation stated on the relevant SJAR.

h. **Further Promotion.** After ratings have regained the rate from which they were reverted, they will be promoted in accordance with the ordinary rules for promotion laid down in this BR, however, at least one day must be served in the rate to which they are restored

i. **Notification to Advancement Authority.** The Ratings Promotion Section is to be notified of all cases of re-promotion (following reversion) as they occur. If the re-promotion has been antedated, a statement of the circumstances is to accompany the notification.

j. **Counting of Time in Higher Rate.** Time served in the substantive rate before reversion will count for further promotion after that rate has been restored. The rating's seniority is to be adjusted by post-dating the original seniority by the time served in a lower rate.

k. **Ratings Reverted to Source Specialisation.** Ratings reverted to their source specialisation are to enjoy the same prospects of promotion afforded to those reverted in their own specialisation, but they will be required to obtain all professional qualifications necessary for promotion within their source specialisation.

l. Re-instatement to a sideways entry specialisation will not normally be appropriate. If re-instatement is considered to be suitable after taking into account the rating's own wishes Application may be made, by the CO to the Regional Legal Office, NAVY LEGAL-RLO MAILBOX (MULTIUSER) NAVYLEGAL-RLOMAILBOX@mod.gov.uk in accordance with the general procedure and format for administrative applications detailed at Annex 1E. In the case of re-admission to a sideways entry specialisation applications, giving details regarding suitability for re-entry into the sideways entry specialisation, are to be copied to the appropriate authority shown at Annex 70A, who will make a recommendation direct to the Regional Legal Office about the rating's re-entry to that specialisation.

ANNEX 70A

AUTHORITY FOR RE-PROMOTION OR RE-ADVANCEMENT TO A SIDEWAYS ENTRY SPECIALISATION

Specialisation	BR Chapter	Authority
Aircrewman	81	The Commanding Officer, RNAS CULDROSE
Dental Hygienist	88	DDS(TE) Aldershot

CHAPTER 71

ROYAL NAVY EXECUTIVE SPECIALISATION

7101. Introduction

Since the successful introduction of the position of Executive Warrant Officer in 2005, the quality of the people who have served in this key role and the operational and moral value of embedding them in units' Command Teams has cemented the view that the Executive function comprises a skill set of its own. However, the difficulty of managing a relatively small Common Appointments (CAPPS) scheme in the context of a significant population has resulted in opportunities being restricted for many Warrant Officers. A standalone cohort is the most effective way to develop this capability.

7102. Employment

Executive roles provide the opportunity for WO1s to develop their managerial, leadership and critical thinking skills within a wrapper of Executive responsibility. Assignments are predominantly encompassed within the afloat Executive Warrant Officer (EWO) and shore Base Warrant Officer (BWO) positions. Those WO1s with further reach and time to serve could have the opportunity to develop and grow into higher level Tri-Service positions and would compete strongly for the Senior Command Warrant Officer positions[1].

7103. Eligibility Criteria

a. Sideways Entry for existing WO1s:

Requirement	Notes
Substantive in the rank of WO1.	
Received personnel clearance.	IAW BRd 3 Para 5125 (b1).
Minimum of 30 months to serve on the point of transfer.	Those WO1 with less than 30 months should seek prior approval to apply from the Exec Specialisation WFPT WO1; if successful an Extension of Service (EoS) will be offered, dependent upon service need.
Medically Fully Deployable (MFD).	Those in a Medically Limited Deployable (MLD) MEDCAT will be considered on a case-by-case basis dependent on their restrictions.

[1] The positions of 2SLWO and FCWO have functional authority over BWO and FCWO / EWO positions respectively.

b. Sideways Entry and promotion for WO2s:

Requirement	Notes
Substantive in the rank of WO2 and recommended for promotion in their annual SJAR.	
Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after 1 Apr of the year of the board and able to serve for at least 30 months (until at least 30 Sep, 2 years after the board sits) either on the current engagement or on further ES3.	Personnel will be eligible if they are age 60 years or under on 1 Oct, 2 years after the board sits. Where the current TX date is before 30 Sep, 2 years after the board sits, sideways entry and promotion will be subject to accepting the associated ES3 offer.
Medically Fully Deployable (MFD).	Those in a Medically Limited Deployable (MLD) MEDCAT will be considered on a case-by-case basis dependent on their restrictions.
Foreign and Commonwealth personnel with sole nationality are eligible to apply but must have approval for dual nationality confirmed before transferring to the Executive Specialisation.	

7104. Application Process

a. **WO1 Volunteers.** WO1 Volunteers are to apply through their Chain of Command for personnel clearance[2] from their existing specialisation in accordance with the extant process[3]. Eligible volunteers can apply at any time. Individuals who have previously been granted workforce clearance, but were not successful at the previous transfer board, do not need to re-apply if they are within the 2-year clearance window. However, they are required to email the Exec WFPT WO1: NAVY PEOPLE-WFPT LOGS WO to register their volunteer status to be considered again at this board.

b. **Royal Marine WO1s.** Royal Marine WO1s are also eligible to transfer into the Executive specialisation and should follow the same process at Para a. However, they must be cognisant that successful selection at the board will result in a transfer out of the mainstream Corps and their future employment and career structure will be determined by the requirements of the RN Executive specialisation and not the Royal Marines.[4]

c. **WO2s (Including RM) and CPOs Selected for WO2.** Eligible WO2s should register their volunteer status with the Exec CM: NAVY PEOPLE-CM EXEC GSX SO2by e-mail. WO2 candidates will also be presented to their own specialisation selection boards, if eligible. If selected at both boards, candidates will have a choice on which career stream (Executive or own specialisation) they would wish to take.

[2] Previously termed 'manning' clearance.
[3] IAW BRd 3 Para 5125.b(1).
[4] Including, but not limited to, all assignments, further Service (EoS & ES3) and eligibility for the WO1 Commissioning Scheme.

d. **Personal Summary.** Once personnel clearance has been approved or candidature registered, all individuals will be required to write a free text summary personal (up to 500 words) that reflects their motivation and interest in pursuing an executive employment career stream as a WO1. This summary will supplement their SJAR in the selection board and affords an opportunity for individuals to directly connect with board members. All personal summaries will be destroyed post board and will not be used for any other purpose. All individuals who have had personnel clearance approved are to submit their personal summaries to the Exec CM.

e. **Notification and Assignments.** Successful individuals will be informed by a Transfer Notification and placed in a pool to await assignment. Once assigned, they formally transferred to the Executive specialisation in JPA[5].

f. **Recommendations.** Individuals will need to be recommended for Exec career stream employment in the potential text in their latest SJAR. In order to assist the board with the selection process, it is important that SJARs be kept up to date with a relevant front page. SJARs should also reflect a broader outlook on the reporting year, capturing occasions where an individual has demonstrated Exec skills, significant drive, confident and clear communication or has responsibility for tasks outside their core trade role. An indication of potential for Senior Command Warrant Officer would also be helpful in identifying those WO1s with genuine reach for those roles.

7105. Notification, Assignment and Promotion

a. Successful individuals will be informed by a Transfer Notification signal and placed in a pool to await assignment. Once assigned, they will be formally transferred to the Executive Specialisation in JPA.

b. WO2– Personnel selected for sideways entry and promotion will be substantively promoted on the date that they are assigned into an OR9 Executive position, subject to fulfilling the following pre-promotion criteria:

Requirement	Notes
At least 6 months since last Career Check (if any) on promotion date	
In date PES or waiver obtained at promotion date	Annotated in JPA as Physical Education|RN Physical Employment Standard 9RNPES)|Navy|
Continue to be recommended for promotion	

c. Selectees for promotion to WO1 will be offered a tailored ES3 if required, to allow a minimum of 5 years' service on promotion or to age 60 (whichever is sooner). Where the current engagement expiry date is before 30 Sep, 2 years following the board, promotion will be subject to accepting the ES3 offer.

[5] Note that an individual's JPA Main Trade for Pay (MTFP) will remain as their source specialisation, but their JPA Sub Branch Cap Badge (SBCB) will change to Exec.

7106. Terms of Service

There is no Recruitment and Retention Pay (RRP) specifically aligned with the Executive specialisation, standfast a few roles that are SM specific and would attract RRP(SM). Applicants should, therefore, ensure they have a thorough understand the regulations regarding Reserve Band payment of RRP when applying[6].

[6] Selection to transfer to Exec would be seen as a Service need and Reserve Band tapering would ordinarily apply where relevant.

CHAPTER 73

ESM ACCELERATED SCHEMES

7301. Engineering Submarine Fast Track ET(ESM) to LET(ESM) Scheme

a. Workforce sustainability within the Engineering Technician (ET) branch structure requires the ability for individuals to progress through their early careers at a rate appropriate to their abilities. The Fast Track (FT) scheme fulfils this function, delivering the joint benefits of quicker delivery to Leading Hand and Petty Officer (Para 7302) of suitable individuals and recognition that these individuals have the ability to progress to demanding employment more quickly. The FT schemes are open ET(MESM)s and ET(WESM)s.

b. **Selection.** Selection for the ET to LET FT scheme will take place towards the end of the MESM or WESM ET specialist training pipeline. Suitable candidates will be identified either by course managers or as volunteers, this will normally be in the form of a FT Recommend during ETICC. Exceptionally, candidates may be selected from sea following a recommendation from their Head of Department (MEO / WEO).

Table 73-1. Key Selection Criteria Engineering Submarine Service

Engineering Submarine Service (MESM and WESM(TWS/SWS/CIS))		
	Key Selection Criteria	**Applicability**
	1. Educational Qualifications - GCSE Grade A* - C, (9 – 4 for summer examinations 2017 onwards), Functional Skills Level 2 or equivalent qualifications in English Language and mathematics. 2. Above average score or training school equivalent during Phase 2 module assessments, without failure of any module. 3. Potential for Command, Leadership and Management in the next higher rate. 4. Recommended from Phase 2 Training to be a FT to LET. 5. Passed Fast Track Selection Board.	All ET2s who are identified or volunteer for FT during Phase 2 Training or identified at sea.

(1) **Selection During Specialist Training.** As required by the ATA(SM), Fast Track Selection Boards (FTSB) will take place whilst candidates are conducting their ET(WESM) or ET(MESM) training pipeline. Selection boards for ET(MESM)s will normally be towards the end ETICC at the Defence School of Marine Engineering (DSMarE); selection boards for ET(WESM)s will normally be undertaken during the last part of the ET training pipeline as detailed below:

(a) For TWS/CIS: FTSBs will take place during SMQ Course.

(b) For SWS: FTSBs will take place during TTF ET Course.

(2) **Selection from Sea.** Divisional Officers who believe they have a candidate suitable for selection should contact the ATA(SM) at the earliest opportunity. Candidates will require an SJAR (annual or special circumstances) stating the reasons for their suitability for the FT Scheme and LET Training; this must have full endorsement from the platform MEO / WEO. Once received this report will be presented to the next FTSB and the ATA(SM) will arrange a discussion with the candidate and a decision on suitability for the ET-LET FT Scheme will be made. Candidates from sea will then be aligned against other FT candidates and a final decision on acceptance on to the scheme made by the ATA(SM).

(3) **Direct Entry Fast Track.** From January 2025 Direct Entry Fast Track (DEFT) has been introduced across all Engineering branches. Suitable recruits will follow the same career route as ET(ESM) personnel who are selected for the in-service FT scheme.

c. **Due Date and Eligibility for LETQC.** Individuals on the FT scheme will be subject to non-selective promotion. Whilst on a non-selective promotion scheme ratings are not presented to Select, Train, Promote selection boards.

(1) **Selection During Specialist Training.** Candidates selected during specialist training will be awarded the JPA competency ‘SM|Fast Track ET|Navy’ at the end of their ET training pipeline, a candidates Due Date will be 24 months from this point. Fast Track ratings will be assigned to a platform for a 12 - 18-month period before being expected to be ready to proceed to LETQC.

(2) **Selection from Sea.** Candidates from sea will be awarded the JPA competency ‘SM|Fast Track ET|Navy’ upon selection on to the FT scheme, candidates Due Date will be 24 months from this point. Individuals will remain on their platform and expect to proceed to LETQC in approximately 6-9 months, noting that they would have already spent a period of time onboard prior to selection.

(3) **Direct Entry.** DEFT personnel will be awarded a ‘due date’ for promotion 24 months from Gains to Trained Strength (GTS) point. GTS point for ET(SM) personnel is defined as completion of the Phase 2 training pipeline.

(4) **Requirements prior to LETQC.** During their time onboard, and prior to becoming eligible to proceed to LETQC, ET to LET FT ratings are to complete the following:

(a) FT Task Book – Annex 73D (MESM) or Annex 73E (WESM).

(b) Receive MEO / WEO Recommend in FT Taskbook.

(c) Achieve RPS for ET1.

(d) All ESM ETs are expected to complete the Level 2 Apprenticeship Portfolio and Apprenticeship End Point Assessment prior to LETQC.

d. **Fast Track Selection Board.**

(1) WESM & MESM Fast Track Selection Boards (FTSB) will consist of a minimum of two members and must have a minimum of a Lt / Warrant Officer as the Chair. The other member must be a minimum of Petty Officer ESM.

(2) The FTSB interview will seek to establish a candidate's ability, commitment, and suitability for the Fast Track Scheme. Candidates will be questioned on aspects of their training to date and previous experience to determine suitability based on maturity, communication skills, effective intelligence, potential for further training and leadership responsibility.

(3) The FTSB will be based on the criteria laid down in Annex 73B.

(4) **Successful Candidates.** Successful candidates will be informed by the FTSB Chair or the ATA(SM), this may be a later date and not necessarily at the end of the FTSB. JPA competency (SM|Fast Track ET|Navy|) and associated Due Date will be awarded as detailed in Para 7301c. A Selection Notification detailing Fast Track selections will be produced by the ATA(SM) and uploaded on to the RN Workforce Appraisals website. Individuals are responsible for checking the competency is entered into JPA. FTSB selection records will be held by the ATA SM for 3 Years. Those accepted on to the FT Scheme are required to complete Annex 73A Part A - Certificate of Understanding and return this to the ATA(SM).

e. **Transfer to Fast Track - Minimum Assignment Notice.** The FT scheme accelerates individuals through the advancement system and may require shorter than the minimum assignment notice[1]. All individuals on the FT scheme will be required to volunteer to waive their minimum assigning notice period for courses and employment associated with their advancement. Successful candidates will acknowledge this when they sign the Part A of the Certificate of Understanding, accepting the terms of service of FT scheme, including waiving their rights to promotion under the selective promotion route. Should an individual be removed from the FT scheme then Part B of the Certificate of Understanding will be used in transferring individuals back onto the standard selective promotion route and the normal assignment notice period. The Certificate of Understanding can be found at Annex 73A, signed copies will be retained by both the ATA(SM) and the individual.

f. **Career Management.**

(1) Once selected for Fast Track candidates will be managed by the ATA(SM) and can be expected to be booked on to LETQC approximately 12 - 18 months from joining the platform for their first sea assignment, for those selected from sea this will be approximately 6-9 months. The ATA(SM) will consult with the individual's Departmental Coordinator to monitor progress and agree a suitable start date. Suggested timelines are subject to operational availability of personnel. ATA(SM) will ensure that individuals are assigned to

[1] Para 5943c.

LETQC at an appropriate time, noting the requirements of the Fast Track scheme.

(2) Upon selection to the ESM ET FT scheme, ETs are awarded a Due Date of 24 Months from award of the Fast Track competency. Providing promotion criteria is met, ETs on both the MESM and WESM FT scheme may be advanced to Acting LET on commencement of LETQC (see 6802c), if they are at, or have passed, their Due Date. This is subject to approval by the Accelerated Technician Authority Submarine (ATA(SM)) who will authorise the PAR once all criteria have been met. The acting higher rate may be removed or relinquished for professional, disciplinary or commitment (attitude / preparation) failings. Ratings will be advanced to substantive LET upon successful completion of their full LET training pipeline, including NPSC for MESMs and all specialist equipment courses for WESMs (notes 1, 2 & 3).

(3) ESM FT rating's careers will be managed by NAVY People-WFPT-ATA ESM, in conjunction with their Career Manager, for the period that they remain on a FT scheme.

g. **Streaming.** ET(WESM) TWS ratings will be streamed (Weapons / Sensors) by the WESM Career Manager (CM) prior to or during LETQC. ET(MESM)s will be streamed Mechanical or Electrical by DSMarE course staff, in conjunction with the CM during LETQC. Individuals are to ensure their preference is annotated on JPA.

h. **Professional Development.**

(1) The professional development of MESMs and WESMs will differ due to the nature of the training required. Prior to attending LETQC Fast Track Ratings are to meet the requirements of Para 7301j.

(2) Should the platform training requirements be completed early there is an opportunity for the FT Ratings to be assigned to the SubFlot Engineering Support Group (ESG) to attain the remaining Level 2 Apprenticeship elements. The movement of these ratings will be at the discretion of the Accelerated Technician Authority Submarines (ATA(SM)) in consultation with the platform Workforce & Planning Coordinators, the ESG and Career Managers. In some cases, where a seagoing platform is available in Devonport, the same mechanism will be utilised, but the Submarine Support Group will offer the equivalent support to the ESG.

i. **SJAR Reporting Requirements.** Annual SJARs remain a mandatory requirement for all FT individuals and should comment on their current performance, CLM, employment and training achievements. Within the SJAR, Reporting Officers should report whether an individual continues to maintain a recommendation for the FT scheme and, if appropriate, the individual's potential for the next FT stage. The SJAR must contain evidence to support any FT recommendations.

j. **Advancement Criteria.**

(1) Advancement from ET2 to ET1 will be iaw Table 73-2 (MESM) and 73-5 (WESM). Individuals must have met the criteria and have been advanced to ET1 prior to attending LETQC.

(2) Advancement from ET1 to Acting LET will be iaw Table 73-3 (MESM) and 73-6 (WESM).

(3) Advancement to Substantive LET will be iaw Table 73-4 (MESM) and 73-7 (WESM).

k. **Failure to Complete Professional and/or Leadership Course.** If the individual fails to complete QC and/or LRLC before the due date, or within 12 months of the due date because of Service reasons (out with own control) or non-service reasons (within own control) then BRd 3(1) Para 6802 will apply. There may be occasions where a FT individual is at their due date for advancement but has not completed their QC so will not meet the advancement criteria. In consultation with the ATA(SM), an application for the Acting Higher Rate (AHR) will be considered against the 'Inability to Satisfy Criteria for Advancement' - see BRd 3(1) Para 6802 and Para 6803.

l. **Fast Track Failure Policy and De-Selection from Scheme.** FT ratings may be removed from the scheme at any time. Where necessary the warning proforma at Annex 73F is to be used. If removed from the scheme individuals will lose the right to any associated advancement and career progression will be in accordance with Para 7412 (MESM) and Para 7509 WESM). Non-selective promotion will cease, and promotion will be by selection only. FT candidates that fail to meet the criteria below, or successfully complete the qualifying courses, will lose their FT status, remain on, or return to, a platform as an ET1/ET2. Future promotion will be by the normal selection process. Ratings may be removed from the Fast Track scheme under the following circumstances:

(1) FT recommendation is withdrawn by the Commanding Officer or Head of Department.

(2) FT candidate fails to progress as expected (in general this would be where a rating fails / is failing to complete Fast Track Taskbook and achieve MEO / WEO’s recommendation within 18 months of joining platform). The warning proforma at Annex 73F is to be used.

(3) FT candidate fails to meet the standard expected of a potential LET.

(4) FT candidate requests to be removed from the FT Scheme.

(5) FT candidate fails to successfully complete LET training pipeline.

(6) FT candidate submits application for Early Termination.

m. Once the ATA(SM) are informed of an individual who is not performing at the standard required they will consult with the individuals DepCO to determine the appropriate course of action. The FT Progress Warning Proforma at Annex 73F should be used. Liaison between the employing unit and ATA(SM) should be started at the earliest opportunity.

n. Removal from the FT Scheme should not be interpreted as professional inadequacy since there may be many reasons why an individual is not able to sustain the required progress against the perceived potential assessed in the Training School. Removal from FT will lead to individuals returning to the Select, Train and Promote pipeline.

o. Where ratings are removed from the Fast Track scheme Annex 73A Part B will be completed by the individual and the ATA(SM); the candidate is then formally removed from the scheme. ATA(SM) will end-date the FT competency and inform the Career Manager.

p. **Fast Track Progress Warnings.** The process for warning an individual of removal from the FT Scheme, is discrete from the RN's standard formal warning routine for ratings on the trained strength since it relates solely to either:

(1) Failure to meet required training timelines for FT advancement.

(2) Failure to retain Command recommendation for advancement on the scheme.

q. Due to the compressed timescales necessitated by this scheme, the duration between warning review and possible escalation is equally compressed to typically no more than one month and comprises two tiers: Level 1 - DO's Warning and Level 2 - HOD's Warning. In all cases, units are recommended to consult with the ATA(SM) to ensure fleet-wide consistency for management of training risk within the scheme. Should an individual move assignment whilst on FT warning the despatching unit is to write to the new unit to hand over the warning.

r. Recognising the need for timely action within this scheme, the FT Warnings process does not require supporting appraisal reports, instead the proforma at BRd 3(1) Annex 73F is to be used.

ET to LET FAST TRACK ET(MESM) PROMOTION FLOWCHART

Table 73-2 - FAST TRACK ET(MESM)2 to ET(MESM)1 Requirements

Completed LET(WESM)QC.	'WE|LET(WESM) Career Course(WE214)|Navy|'	Pass	1,3,4
Completed Post LETQC Specialist training at RNSMS / ATF / TTF.			1,4
At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).			

Advanced to LET (WESM)

Thereafter promotion will be in accordance with ET(WESM) regulations at Para 7509.

Notes:

1. *WESMs on the ET-LET Fast Track scheme will be advanced to Substantive LET on completion of LETQC, TWS/CIS training package at RNSMS / ATF or SWS on completion of LET Supervisor Course at TTF.*

2. *MESMs on the ET-LET Fast Track scheme will be advanced to Substantive LET on successful completion of LETQC and NPSC.*

3. *For ratings on the ET-LET Fast Track scheme LETQC pipeline includes NPSC for MESM and TWS, CIS, SWS career courses for WESM.*

4. *Failure to Complete Professional and/or Leadership Course. Refer to BR3 6803 for rules on the impact on a rating's advancement if rating fails to complete QC and/or LRLC/SRLC before the due date by time or within 12 months of the due date as a result of Service reasons (out with own control) or non-service reasons (within own control).*

5. *The ET(MESM) Task Book (MEMOC) will be issued on completion of Part 2 training (ET(MESM) career course).*

7302. Engineering Submarine Fast Track LET(ESM) to POET(ESM) Scheme

a. **Background.** The Engineering Submarines (ESM) Fast Track (FT) and Accelerated Apprentice (AA) schemes (AA) already offer an accelerated career path to LET. There remains a requirement to continue accelerating a portion of LETs in a shorter period to meet the ESM POET requirement. To enable the best candidates the opportunity to apply, all ESM LETs will be eligible for the LET – POET Fast Track scheme, regardless of their previous career path. This includes Select Train Promote (STP), ET-LET Fast Track & those on the AA(SM) scheme. Candidates will follow an accelerated pipeline from LET to POET, serving approximately18 months in a sea role as an LET. Personnel will be managed by the ATA(SM).

b. **Career Details and Extraction Points.** Individuals on the scheme will be subject to non-selective promotion to PO through time and qualification, based on an advancement 'Due Date' calculated from when an individual joined the scheme. A selection process will be conducted prior to an individual being accepted for entry onto the scheme, this is detailed in the paragraphs below. Any ESM LET who demonstrates the necessary academic ability, technical understanding, and appropriate leadership skills to support an accelerated route to Petty Officer will be considered. The selection opportunity will be during Phase 3 Training[4] and any subsequent specialist courses[5]. A Sea Recommend will also be acceptable which will be considered alongside performance during LET training. An ET/LET selected in Phase 3 Training (LETQC or subsequent specialist training) will retain their seniority date as an LET, with a Due Date for advancement to POET of 24 months from their Fast Track Start Date; this will be recorded as the JPA competency 'Professional|Fast Track POET|Navy|'.

c. **Selection Criteria.** Selection onto the LET to POET FT scheme will be merit based, supported by the individual's ability to complete the academic elements successfully, while demonstrating the leadership skills and potential required to be an effective POET. The pre-selection process will be co-ordinated by the Accelerated Technician Authority SM (ATA(SM)) and will seek to establish a candidate's qualifications, technical ability, potential and suitability for FT. To determine suitability, the process will review an individual's training, academic progress, and experience, as well as their aspirations, maturity, communication skills, engineering acumen and their potential to cope with the training and employment necessary in the FT scheme's compressed timescale. Candidates who are deemed suitable will then be presented to the FT Selection Boards (FTSB) conducted at least termly, which will select individuals for the FT scheme.

Table 73-8 - Selection Criteria LET – POET ESM FT Scheme

MESM and WESM(TWS/SWS/CIS)		
Selection Point	**Selection Criteria**	**Applicability**
LETQC / Post LETQC Specialist Courses or At Sea post LETQC	1. Educational Qualifications - GCSE Grade A* - C, (9 – 4 for summer examinations 2017 onwards), Functional Skills Level 2 or equivalent qualifications in English Language and mathematics.[6] 2. Recommended from Phase 3 Training, or from Sea. 3. Potential for Command, Leadership and Management as a Petty Officer. 4. Passed Selection Assessment with Divisional Officer.	All those on, or have completed, LETQC (MESM or WESM).

[4] Leading Engineering Technician Qualifying Course (LETQC) for WESM and Nuclear Propulsion Systems Course (NPSC) for MESM
[5] LET courses at RNSMS, TTF, ACTS or DSMarE.
[6] See BRd 3(1) Ch 9614.

d. **Selection.** Selection for the LET to POET FT scheme will take place towards the end of the MESM or WESM LET specialist training pipeline. Suitable candidates will be identified either by course managers or as volunteers. Exceptionally, candidates may be selected from sea following a recommendation from their Head of Department.

(1) **Selection During Training.** FTSBs for WESMs will normally take place towards the end of specialist PJTs in RNSMS or TTF. FTSBs for MESMs will normally take place termly on completion of NPSC (ME301). The selection process will be managed by the ATA(SM).

(2) **Selection from Sea.** Divisional Officers who believe they have a candidate suitable for selection should contact the ATA(SM) at the earliest opportunity. Candidates will require an SJAR (annual or special circumstances depending upon the timing) stating the reasons for their suitability for the FT Scheme and POET Training; this must have full endorsement from the platform MEO / WEO who must take into consideration whether the individual has demonstrated suitable levels of competence during their employment and if their performance during any qualifying boards merits a recommendation as a potential FT POET candidate. Once received, this report, along with previous SJARs and course reports, will be presented to the next FTSB and a decision on suitability for the LET-POET FT Scheme will be made. SJARS should include reference to the following attributes:

(a) Engineering aptitude.

(b) Technical Competence.

(c) Work ethic and capacity to complete sea competency elements within compressed time scales.

(d) Professional effectiveness and initiative.

(e) Any demonstrated academic ability to cope with an accelerated career progression.

(f) Potential to be a senior rating: reliability; power of communication; potential for CLM in the POET rate.

(g) Confidence to take on additional challenges and the ability to think on a level above the peer group.

(h) Management aptitude.

e. **Due Date and Eligibility for POETQC.** Individuals on the FT scheme will be subject to non-selective promotion. Whilst on a non-selective promotion scheme ratings are not presented to Select, Train, Promote selection boards. This is acknowledged by FT Certificate of Understanding Annex 73A.

(1) **Candidates from Training.** Candidates selected during specialist training will be awarded the JPA competency 'Professional|Fast Track POET|Navy|' at the end of their LET training pipeline[7]. A candidates Due Date will be 24 months from this point. Fast Track ratings will be assigned to a platform for an 18-month period before being expected to be ready to proceed to POETQC. During their time onboard a platform, and prior to becoming eligible to proceed to POETQC, LET to POET FT ratings are to complete the requirements detailed in Table 73-9 (WESM) and 73-10 (MESM).

(2) **Candidates from Sea.** Candidates from sea will be awarded the JPA competency 'Professional|Fast Track POET|Navy|' upon selection on to the FT scheme, candidates Due Date will be 24 months from this point. Individuals will remain on their platform and expect to proceed to POETQC in approximately 9-15 months, noting that they would have already spent a period of time onboard prior to selection. During their time onboard a platform, and prior to becoming eligible to proceed to POETQC, LET to POET FT ratings are to complete the requirements detailed in Table 73-9 (WESM) and 73-10 (MESM).

f. **Fast Track (LET to PO) Selection Board.**

(1) Fast Track Selection Boards (FTSB) are convened by the ATA(SM). The FTSB will consist of three members and must have a Lt Cdr from the candidate's specialisation as the chair. The other members will be at least the rank of Lt and/or WO1/WO2 including one from the Branch Management Office. The FTSB for LET to POET will take the format of a STP selection board: candidates will not be present, and the board members will review recent SJARs alongside professional course examination results.

(2) **Successful Candidates.** Successful candidates will be informed by the FTSB Chair or the ATA(SM), the JPA competency 'Professional|Fast Track POET|Navy|' will be awarded by the ATA(SM). A Selection Notification detailing Fast Track selections will be produced by the ATA(SM) and uploaded on to the RN Workforce Appraisals website. Individuals are responsible for checking the competency is entered into JPA. FTSB selection records will be held by the ATA SM for 3 Years. Those accepted on to the FT Scheme are required to complete Annex 73A Part A - Certificate of Understanding and return this to the ATA(SM).

[7] LETQC, NPSC ME301 (MESMs only) and all required Specialist Equipment courses (WESMs only).

g. **Transfer to Fast Track - Minimum Assignment Notice.** The FT scheme accelerates individuals through the advancement system and may require shorter than the minimum assignment notice. All individuals on the FT scheme will be required to volunteer to waive their minimum assigning notice period for courses and employment associated with their advancement. This will be acknowledged by successful candidates when they sign the Part A of the Certificate of Understanding, accepting the terms of service of FT scheme, including waiving their rights to promotion under the selective promotion route and to the full assignment notice period. Should an individual be removed from the FT scheme then Part B of the Certificate of Understanding will be used in transferring individuals back onto the standard selective promotion route and the normal assignment notice period. The Certificate of Understanding can be found at Annex 73A, signed copies will be retained by both the ATA(SM) and the individual.

h. **Career Management.** The planning and enrolling of individuals onto a Qualifying Course (QC) will be completed by the ATA(SM) in liaison with the relevant Career Manager (CM). In general, FT personnel will be provisionally allocated a future POETQC start date at, or shortly after completing their current LETQC, giving 18 months at sea. Attendance on a QC will be dependent upon the completion of all the relevant criteria detailed in Table 73-9 (WESM) or Table 73-10 (MESM). Frequent liaison between the employing submarine and the ATA(SM) will ensure that Training Schools, CMs and employing submarines can plan effective movement of FT personnel.

i. Where, during POETQC, FT candidates are found to be unsuitable for advancement to the next higher rate, they may be withdrawn from training by the Commanding Officer of the relevant Training School. In such cases, individuals will be deselected from FT and the QC. SP will continue to serve in their current substantive rate and transfer back to Selective Promotion as the eligibility route for future promotion.

j. Individuals who refuse to undertake the QC will be deselected from FT, continue to serve in their current substantive rate, transferring back to Selective Promotion.

k. **Professional Development.**

(1) Those on the Fast Track LET – POET scheme will be assigned to a sea going platform for a nominal 18 months from completion of their LETQC and associated professional / equipment courses.

(2) During this time, they are to complete all the requirements of Table 73-9 (WESM) or Table 73-10 (MESM), prior to attending POETQC.

(3) All LETs, including those on the FT Schemes, are expected to complete the Level 3 Apprenticeship, including completion of the Apprenticeship Portfolio and End Point Assessment.

l. **SJAR Reporting Requirements.** Annual SJARs remain a mandatory requirement for all FT individuals and should comment on their current performance, CLM, employment and training achievements. Within the SJAR, Reporting Officers

should report whether an individual continues to maintain a recommendation for the FT scheme.

m. **Advancement Criteria.**

(1) Pre-POETQC requirements are detailed in Table 73-9 (WESM) and 73-10 (MESM).

(2) Advancement to Acting Petty Officer (where eligible) will be iaw Table 73-11.

(3) Advancement to Substantive Petty Officer will be iaw Table 73-12

n. **Failure to Complete Professional and/or Leadership Course.** If the individual fails to complete QC and/or SRLC before the due date, or within 12 months of the due date because of Service reasons (out with own control) or non-service reasons (within own control) then BRd 3(1) Para 6802 will apply. There may be occasions where a FT individual is at their due date for advancement but has not completed their QC so will not meet the advancement criteria. In consultation with the ATA(SM), an application for the Acting Higher Rate (AHR) will be considered against the 'Inability to Satisfy Criteria for Advancement' - see BRd 3(1) Para 6802 and Para 6803.

o. **Fast Track Failure Policy and De-Selection from Scheme.** FT ratings may be removed from the scheme at any time. Where necessary the warning proforma at Annex 73F is to be used. If removed from the scheme individuals will lose the right to any associated advancement and career progression will be in accordance with Para 7412 (MESM) and Para 7509 WESM). Non-selective promotion will cease, and promotion will be by selection only. FT candidates that fail to meet the criteria and successfully complete the qualifying courses will lose their FT status and return to a submarine as an LET. Future promotion will be by the normal selection process. Ratings may be removed from the Fast Track scheme under the following circumstances:

(1) FT recommendation is removed by the Commanding Officer or Head of Department.

(2) FT candidate fails to progress as expected.

(3) FT candidate fails to meet the standard expected of a potential POET.

(4) FT candidate requests to return to the Select Train Promote population.

(5) FT candidate fails to successfully complete POET training pipeline[8].

(6) FT candidate submits application for Early Termination.

p. Once selected, an individual will remain on the LET-POET FT scheme unless their progress, performance or standards are deemed insufficient, or they voluntarily choose to remove themselves. Where an individual has not been able to maintain FT accelerated training progress, they will be de-selected from the FT scheme,

[8] POETQC pipeline includes NPOC for MESM and TWS, CIS, SWS career courses for WESM.

revert to the standard selective promotion route, and continue training and employment as necessary to meet the Service requirement.

q. Once the ATA(SM) are informed of an individual who is not performing at the standard required they will consult with the individuals DepCO to determine the appropriate course of action. The FT Progress Warning Proforma at Annex 73F should be used. Liaison between the employing unit and ATA(SM) should be started at the earliest opportunity.

r. Removal from the FT Scheme should not be interpreted as professional inadequacy since there may be many reasons why an individual is not able to sustain the required progress against the perceived potential assessed in the Training School. Removal from FT will lead to individuals being subject to the standard Select, Train, and Promote process.

s. Where Ratings are removed from the Fast Track scheme Annex 73A Part B will be completed by the individual and the ATA(SM); the candidate is then formally removed from the scheme, the ATA(SM) will end-date the FT competency and inform the Career Manager.

t. **Fast Track Progress Warnings.** The process for warning an individual of potential removal from the FT Scheme is discrete from the RN's standard formal warning routine for ratings on the trained strength since it relates solely to either:

(1) Failure to meet required training timelines for FT advancement.

(2) Failure to retain Command recommendation for advancement on the scheme.

u. Due to the compressed timescales necessitated by this scheme, the duration between warning review and possible escalation is equally compressed to typically no more than one month and comprises two tiers: Level 1 - DO's Warning and Level 2 - HOD's Warning. In all cases, units are recommended to consult with the ATA(SM) to ensure fleet-wide consistency for management of training risk within the scheme. Should an individual move assignment whilst on FT warning the despatching unit is to write to the new unit to hand over the warning.

v. Recognising the need for timely action within this scheme, the FT Warnings process does not require supporting appraisal reports, instead the proforma at BRd (3) Annex 73F is to be used.

Recommended for advancement to POET			
At least 6 months since last Career Check (if any) on date due advancement			
To be educationally qualified for promotion (EFP) in accordance with BR3 Para 9614 and recorded on JPA	Educational|RN/RM English Level 2|Navy| or Educational|RN/RM English Proxy A*- C|Navy|Navy| and Educational|RN/RM Mathematics Level 2|Navy| or Educational|RN/RM Mathematics Proxy A*- C|Navy|		

Advanced to POET (MESM) or (WESM)

Notes:

1. *Failure to Complete Professional and/or Leadership Course. Refer to BRd (3) 6803 for rules on the impact on a rating's advancement if rating fails to complete QC and/or LRLC/SRLC before the due date by time or within 12 months of the due date as a result of Service reasons (out with own control) or non-service reasons (within own control).*

7303. Probationary Leading Hands

The rank of Probationary Leading Hand (P/LHs, commonly known as PLETs) is applicable to those recruited under the AA(SM) Scheme and Royal Navy Under-Graduate Apprenticeship Scheme (UGAS). Further details regarding the employment of P/LHs can be found in Ch 68 Para 6808.

7304. Accelerated Apprentice(Submarines) (AA(SM)) Scheme Overview

a. The AA scheme has been developed to appeal to the growing population of school leavers with Level 3 STEM qualifications (A-levels and vocational). It provides a route to exploit the potential of these individuals by expediting through-flow to LET by means of an approximately 2-year training programme. It will also add a route of entry which will be attractive to school leavers holding Engineering and Science Level 3 qualifications and is expected to contribute to the recruitment of improved talent to the RN engineering cadre. The scheme provides a bespoke training pipeline for AA personnel which accounts for their already achieved Level 3 qualifications. Once training is completed and the individual becomes a Gain to the Trained Strength (GTS), they leave the AA scheme and are treated as a standard LET.

b. The scheme is under DDPD governed via the NSEPB, chaired by DDPD. At Hd level, the scheme is owned by Hd BM, who delegates policy authority to the respective Branch Managers (EGS, ESM and AE). For the ESM cadre the scheme is managed by the Accelerated Technician Authority (ATA(SM)).

c. On joining HMS RALEIGH for New Entry Training, AA recruits will be Probationary Leading Hands (P/LH). They will remain P/LHs until completion of the AA pipeline (see Note 1). Guidance on management of P/LHs can be found at Ch 68 Para 6808.

d. **Selection.** Due to both the accelerated nature and limited places available on the AA scheme, the recruitment process is bespoke and selective. As of January 2025 AAs are recruited by profession, being streamed into a branch during week 7 of Phase 1 training. Recruitment of AA candidates is the responsibility of Recruit and Attract (RA). During this process, the performance of candidates will be collated and recorded by the RA Accelerated Engineer Coordinator (AEC).

e. **Branch Transfer to AA(SM).** AA(SM) remains a new-to-service scheme and positions should be filled with direct entry recruits. If this requirement cannot be fulfilled with new recruits and dependent on the needs of the service, Branch Managers may elect to accept branch transfer requests into the scheme. These branch transfers should be considered for an individual when there has been an oversight or missed opportunity at the recruitment stage and not to give a second chance at application to the scheme.

f. Potential branch transfers should be identified as early as possible during Phase 1 or Phase 2 training but must be accepted prior to the end of Phase 2 training.

g. Divisional staff of the recruit should check the schemes academic requirements are met[10]. Once content, or if further guidance is required, copies of education certificates should be sent to UTS Ratings Training Pipeline Manager (NAVY PEOPLE-TRG TMG HQ UTSPM RTG). Once confirmed academic requirements are met, an Untrained Strength (UTS) branch transfer request[11] should be made by the Divisional staff.

h. Upon receipt of branch transfer request, UTS Ratings Training Pipeline Manager will contact ATA(SM) to arrange a branch transfer interview. The purpose of this interview is to assess the candidate's suitability to the scheme. A flowchart to aid branch transfer process can be found at Annex 73Q.

i. The following criteria will be reviewed and assessed during branch transfer process / interview. An interview guide can be found at Annex 73Q:

(1) Course reports (if applicable)

(2) Academic and vocational achievements

(3) Engineering acumen

(4) Knowledge of the scheme

(5) Leadership potential

j. Successful candidates will be informed by the ATA(SM), who will consult with UTS Rating Training Pipeline Manager to complete the transfer. The transfer will happen on the first day of joining the AA(SM) training pipeline. At this point, the recruit will assume the rate of Probationary Leading Engineering Technician (PLET) and contracts will be updated to reflect.

[10] Detailed in RI07_24
[11] Detailed in BRd 3(1) Ch 51 Section 2

k. **Professional Development Phase (PDP).** The PDP organisation is part of the Submarine Support Group (SSG) located in HMNB Devonport. PDP commences on successful completion of Submarine Qualification (SMQ) Dry training and finishes when the AA(SM) cohort commence their specific LETQC. AA(SM) personnel are considered Phase 3 trainees on completion of SMQ(Dry). The nominal time spent in PDP is between three and six months.

l. PDP is designed to develop the AA(SM) to a position where they are ready to attend LETQC, noting a lack of experience. Practical training is undertaken on an opportunity basis, as platform programmes allow. PDP staff should endeavour to achieve the following.

(1) PDP staff will support AA(SM) personnel to engage with the SM community, via access to platforms in Devonport. This will aid integration whilst on LETQC.

(2) In addition to formalised engineering training whilst at PDP (ME180), students will be afforded the opportunity to engage with engineering tasks on platforms over a range of specialisations.

(3) Formalised Leadership training in the form of ARLC and DLC will be delivered whilst at PDP. In addition, staff will mentor AA(SM) personnel in preparing for LRLC and their role of LET.

m. PDP will include the following courses.

(1) Able Rates Leadership Course (ARLC)

(2) AA(SM) Enabling Course - ME 180

(3) Developing Leadership Course (DLC) – RNLA 200

n. Fig 73-1 displays the AA(SM) career on a page.

Passed required LET specialist training courses.			6, 7
Complete Leading Rates' Leadership Course (LRLC).	'Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy	Pass	
Recommended for advancement.			

Advanced to LET (WESM)/(MESM) (See note 5).

Notes:

1. *Details of branch specific pipelines can be found as Annexes to this chapter.*

2. *ESM candidates are streamed MESM or WESM following SMQ(Dry).*

3. *The eligibility criteria to be recruited as an AA include that they join educationally qualified for promotion (EFP) to LET in accordance with Para 9614. Appropriate competences should be recorded on JPA. At recruitment. A professional competency should be issued: Professional|Advanced Apprenticeship|Navy|*

4. *On successful completion of the AA pipeline the individual will become a Gain to the Trained Strength and advanced to Leading Engineer Technician. They will then transfer to either the Selective Promotion Flowchart or, if selected, to the Fast Track POET Flowchart. Advanced Apprenticeship JPA competency should then be removed by CM to facilitate for Select/Train/Promote eligibility IAW para 5.*

5. *AA(SM) reach GTS as detailed in Para 7306. ATA(SM) will monitor as AA(SM) ratings reach their GTS point and will inform the UTS Pipeline Manager.*

6. *Common MESM specialist training ME301 Nuclear Propulsion Systems Course. MESM specialist courses for ME(L) streams are ME256 Propulsion Electrical Maintainer Course and ME 301 L modules. For ME(M) streams specialist courses are ME257 Propulsion Mechanical Maintainer Course and ME 258/259 M modules.*

7. *WESM specialist training courses include all equipment specific Pre-Joining Training Courses(PJTs) at RNSMS / TTF / ATF.*

7305. Undergraduate Apprenticeship Scheme (UGAS)

a. UGAS is an ESM specific scheme designed to accelerate recruits along the MESM or WESM career pipelines to POET. Details of the scheme can be found in Annex 73H and Annex 73I. UGAS ceased recruiting in 2021, however personnel remain in-service on the scheme.

b. On joining HMS RALEIGH for New Entry Training, UGAS recruits will be Probationary Leading Hands (P/LH). They advance to substantive LET and to POET at defined points in their training pipeline.

c. UGAS ratings will reach GTS as detailed in Para 7306.

d. CPOET Pre-Selection Requirements remain the same as for Select Train Promote ratings, however UGAS POETs must have achieved a minimum of 36 months in post as a substantive POET and are on ES2/FC before being eligible for selection to CPO. The transition to ES2 can be requested once a minimum of 36 months in post as a substantive POET on a platform has been achieved, which is also the qualifying point for the University phase of the UGAS tailored career pipeline.

7306. UGAS and AA(SM) Gains to Trained Strength (GTS) Point

The GTS point for each specific stream is on completion of the modules detailed below.

Table 73-14 - UGAS(MESM) and AA(SM) MESM GTS point

7307. Undergraduate Apprentice Scheme (UGAS) (WESM) - Promotion Regulations

a. The following rules apply to both 'In-Service' and 'New-to-Service' UGAS(WESM) ratings.

b. Further details of UGAS(WESM) are contained in the Annexes to this chapter:

Annex 73H - UGAS WESM Overview

Annex 73J - UGAS WESM CONOPS

Annex 73L - UGAS Example Tailored Career Agreement

Annex 73M - UGAS WESM Pipeline

Annex 73O - UGAS University Phase

c. New to Service UGAS(WESM) ratings join the Service as Probationary LETs, Para 7303 refers, and are advanced as detailed in Tables 73-16 to 73-18. In-Service UGAS(WESM) ratings entered the scheme at the appropriate point in their career and are advanced as detailed in Tables 73-17 and 73-18.

d. The UGAS scheme ceased recruiting personnel in 2021.

Advanced to POET (WESM)

[13] Para 9614.

e. Thereafter promotion will be in accordance with ET(WESM) regulations at Para 7509 for those UGAS ratings who choose to remain as a rating

f. CPOET Pre-Selection Requirements remain the same as for Select Train Promote ratings, however UGAS POETs must have achieved a minimum of 36 months in post as a substantive POET and are on ES2/FC before being eligible for selection to CPO. The transition to ES2 can be requested once a minimum of 36 months in post as a substantive POET on a platform has been achieved, which is also the qualifying point for the University phase of the UGAS tailored career pipeline.

Notes:

1. Failures and Removal. *Failure of any one of the UGAS (WESM) pipeline courses or training targets will be dealt with in accordance with the UGAS (WESM) Failure Criteria laid down in the scheme CONOPS which can include removal from the scheme. On removal from the scheme, ratings are transferred to an appropriate point in the standard ET (WESM) pipeline. They will then only be eligible for promotion to LET or POET on selection in accordance with Para 7509 and will have no further opportunity to be considered for UGAS (WESM).*

2. UGAS Advancement Regulations. *UGAS ratings are* ***only*** *eligible for advancement to Acting POET (i.e. are not entitled to substantive promotion) prior to qualifying as a POET watchkeeper. Where previously qualified, e.g. during LET training time, this qualification must be retaken/refreshed to the satisfaction of the HoD.*

7308. Undergraduate Apprentice Scheme (UGAS) (MESM) - Promotion Regulations

a. The following rules apply to In-Service and New-to-Service candidates who enter the Service under UGAS (MESM).

b. Further details of UGAS (MESM) are contained in the Annexes to this chapter:

Annex 73I - UGAS MESM Overview

Annex 73K - UGAS MESM CONOPS

Annex 73L - UGAS Example Tailored Career Agreement

Annex 73N - UGAS MESM Pipeline

Annex 73O - UGAS University Phase

c. New to Service UGAS(MESM) ratings join the Service as PLETs, Para 7303 refers, and are advanced as detailed in Tables 73-19 to 73-21. In-Service UGAS (MESM) ratings entered the scheme at the appropriate point in their career and are advanced as detailed in Tables 73-20 and 73-21.

d. The UGAS scheme ceased recruiting in 2021.

Advanced to POET (MESM)

e. Thereafter promotion will be in accordance with ET(MESM) regulations at Para 7412.

f. CPOET Pre-Selection Requirements remain the same as for Select Train Promote ratings, however UGAS POETs must have achieved a minimum of 36 months in post as a substantive POET and are on ES2/FC before being eligible for selection to CPO. The transition to ES2 can be requested once a minimum of 36 months in post as a substantive POET on a platform has been achieved, which is also the qualifying point for the University phase of the UGAS tailored career pipeline.

Note:

1. Failures and Removal. *Failure of any one of the UGAS(MESM) pipeline courses or training targets will be dealt with in accordance with the UGAS(MESM) Failure Criteria laid down in the scheme CONOPS which can include removal from the scheme. On removal from the scheme, ratings are transferred to an appropriate point in the standard ET(MESM) pipeline. They will then only be eligible for promotion to LET or POET on selection in accordance with Para 7412 and will have no further opportunity to be considered for UGAS(MESM).*

2. UGAS Advancement Regulations. UGAS personnel are **only** eligible for advancement to Acting POET (i.e. are not entitled to substantive promotion) prior to qualifying as a POET watchkeeper.

ANNEX 73A

CERTIFICATES OF UNDERSTANDING - TRANSFER TO, OR REMOVAL FROM THE ENGINEERING SUBMARINE SERVICE FAST TRACK SCHEME

PART A - TRANSFER TO THE ENGINEERING SUBMARINE SERVICE FAST TRACK SCHEME

Being subject to: Advancement by time (in accordance with BRd 3(1) Chapter 68) and possible changes in minimum notice for assignment to sea and shore.

Part 1 - Individual's Details

Full Name (in Capitals)	Service No.	Rate

Selection Point	Date of Selection	Fast Track Start Date/LET Seniority Date	Remarks

Part 2 - Individual's Declaration[1]

I understand that during my time on the ESM Fast Track scheme:

a. I will be subject to advancement by time as detailed in BRd 3(1) Para 7301/7302 rather than selective promotion and, therefore, I will not be considered at any Selection Boards for Promotion.

b. I may be liable to be assigned to sea or shore units at less than normal assigning notice, as detailed in BRd 3(1) Chapter 59 Section 11.

Signed: ..... Date: .....

Part 3 - Accelerated Technician Authority[2]

The above-named rating has been transferred to the ESM Fast Track scheme and will be subject to advancement by time, with the following awarded due date for the next higher rate:

Advancement To	Date Due Advancement
LET / POET*	

* Delete as appropriate

Signed: ..... Rate/Rank: .....

Name (in capitals): ..... Date: .....

[1] A copy of the Certificate of Understanding Part A is to be retained by the individual.
[2] The Certificate of Understanding Part A is to be retained by the ATA for a period of 3 years after the individual leaves the FT scheme.

PART B - REMOVAL FROM THE ENGINEERING SUBMARINE SERVICE FAST TRACK SCHEME

Part 1 - Individual's Details

Full Name (in Capitals)	Service No.	Rate

The Above-Named Rating has been removed from the ESM Fast Track scheme and will no longer be subject to time-based advancement.

The following seniority date has been determined by the ATA(SM) and will be recorded in JPA:

Rate	Seniority Date

Part 2 - Individual's Declaration[3]

I understand that on removal from the Fast Track scheme I will:

a. Return to being subject to selective promotion as detailed in BRd 3(1) Chapter 67 and Chapter 74/75*.

b. Be liable to be assigned to sea or shore units as detailed in BRd 3(1) Chapter 59 Section 11.

* Delete as appropriate

Signed: ..... Date: .....

Part 3 - Accelerated Technician Authority[4]

The Above-Named Rating has been transferred to the Selective promotion scheme and will be subject to promotion by Selection from the following date:

Date: .....

[3] A copy of the Certificate of Understanding Part B is to be given to the individual.
[4] The Certificate of Understanding Part B is to be retained by the ATA for a period of 3 years after the individual leaves the FT scheme.

The following actions have been completed;

- the individual has been fully briefed on implications of removal from Fast Track and has been advised of any ROS associated to the Qualifying Courses that have been completed.

- all Fast Track competences have been removed from JPA; and

- the Individual's Seniority Date has been agreed with the FTA and recorded in JPA.

Signed: ..... Rate/Rank: .....

Name: ..... Date: .....

ANNEX 73B

FAST TRACK (ESM) SELECTION INTERVIEW GUIDE

1. The Fast Track Selection Interview (FTSI) will take the following format:

a. **Board Introduction:** The FTSI president will introduce the board members and outline the requirements of the board.

b. **Self-Introduction:** Candidates will be asked to give a short brief on their personal history and career to date.

c. **Training and Career Development:** Candidates should be able to demonstrate outline knowledge of the LET/POET Qualifying Courses and an understanding of ET career stream development and promotional prospects. Candidates will also be expected to demonstrate awareness of the role of LET and POET.

d. **System and General Technical Knowledge:** Candidates will be expected to demonstrate a good knowledge of basic systems that are taught during Phase 2, using diagrams if appropriate. They must be able to demonstrate an aptitude and understanding of basic engineering principles in both mechanical and electrical disciplines.

f. **General Awareness:** Candidates will be expected to have an understanding of the organisational structure of MESM or WESM departments from ET through to command level. Additionally, they must have an appreciation of the Royal Navy in terms of current and future equipment, platforms and operations.

2. Examiners' Guidance

Hints and guidance given to FTSI examiners regarding the standards they should be delivering/expecting:

a. Guidance for all candidates.

b. Ability to communicate orally and in writing.

c. Able to discuss various issues in a clear and logical manner.

d. Good standard of mathematics, broadly equating to GCSE Grade C or above.

3. Questions should be based, where appropriate, around scenarios the individuals would be likely to encounter on board. Use of diagrammatic explanations is acceptable. Allowances should be made for Phase 2s who may lack on board experience and may not use the correct terminology.

4. WESM ET to LET Fast Track Interview Proforma

Name & Rate		**Course No**	
Official Number		**Date of Interview**	
Date Joined RN		**QEPO on JPA**	
Board President		**Board Member**	

1. Training & Career Development. *FT Candidates should be able to demonstrate/show:*

- Understanding of FT and non-FT promotion timelines and qualifications.
- What are the Leadership and Management differences between AB, LH and PO?
- What is in the FT taskbook?

Comments:	/5

2. General Technical Knowledge. *FT Candidates should be able to demonstrate/show:*

General systems overview, including basic knowledge of:

- SM Weapon systems and their Operational Capabilities.
- Knowledge of internal and external communications, their capabilities and primary uses.
- Combat System (i.e. how Sensors, Combat System and Weapon systems interact).
- *****SWS System – General Overview.

Comments:	/5

3. General Submarine Knowledge. *FT Candidates should be able to demonstrate/show:*

- Types of S/M used by the RN and their primary roles.
- Future platforms.
- How does a S/M dive, surface and manoeuver?
- Your role on board alongside and at sea.

Describe your watchkeeping role and any other responsibilities:

- Alongside.
- At sea.

Comments:	/5

4. Weapon Engineering Department. *FT Candidates should be able to demonstrate/show:* • Basic knowledge of TWS / *****SWS systems and sections. • WE Department Family Tree. • Where will they sit in the WE Department once Fast Tracked to LET?	
Comments:	/5
5. Motivation and Leadership. *FT Candidates should be able to communicate:* • Why do you want to be a Fast Track? • Why do you feel you should be given the opportunity to proceed through your career at an accelerated rate ahead of your peers? • What experience do you have of leadership / management / being in charge of others?	
Comments:	/5
6. Overall Performance on the Board: Using an online source ask 1 engineering logic or mechanical reasoning problem. Including (but not limited to): • Preparation, use of correct engineering terminology, effective communication skills, military bearing, general conduct, etc.	
Comments:	/5

Result: V STRONG / STRONG / SATISFACTORY / FAIL			/30

ANNEX 73C

FAST TRACK SCHEME (ESM) - TERMS OF SERVICE AND FAILURE POLICY

1. Fast Track Terms of Service

a. The FT affords significant opportunity in terms of career progression at an earlier stage and that FT personnel will perform at a higher-than-average level of competence in all aspects of training and employment prior to achieving their next higher rate. The scheme is dependent on both the individual and the unit's organisation to maintain progress towards the next higher rate and to ensure this occurs the scheme will be externally assured, managed under revised terms of service and clearly defined failure policy.

b. Lack of progress within the scheme has the potential to prevent the achievement of the nominated Due Date and, therefore, it will be expected that FT personnel will be appropriately supported. The individual will be placed on warning in a timely manner to support recovery and indicate not only the failure, but the potential impact to the due date achievement. At all times a FT individual must maintain a positive recommend to remain on the scheme and for the next advancement. Any repeated training failure, CLM or NGT warnings or attitudinal problems will, in all probability, result in removal from the FT scheme.

c. Personnel selected FT during Phase 2 Training who remain on the scheme (subject to completing all eligibility criteria) will be advanced to LET. Further selection for FT to POET will be dependent upon both performances on the LET QC and recommendation to remain FT. The FT to POET scheme selection board will consider all those recommended from LETQC.

d. To ensure all FT personnel are fully aware of the changes to their Terms of Service on selection to the FT scheme (including, being advanced in lieu of selective promotion), individuals will sign a Certificate of Understanding (Part A). When signing, they confirm that they understand that, whilst on the FT scheme, they will not be considered at Selective Promotion Boards and also there may be occasions where the minimum time for assignment to sea and shore may not be achieved. On removal from the FT scheme, a Certificate of Understanding (Part B) will be completed and signed by the individual reversing the process, with an individual returning to Selective Promotion and minimal notice for future assignments.

e. FT Ratings will incur the same Training Return of Service (RoS) associated with QC, see Para 5304 and Table 53C. The RoS obligation is incurred from the start date of the course and will be applied, subject to Service needs irrespective of the final course outcome. Although RoS is incurred from the start of the course, the actual return of service will start on completion of LETQC or POETQC respectively. This will be the case for all FT personnel; individuals who are withdrawn from training, for whatever reason, or who effectively withdraw themselves from training, will have a period of RoS applied. As a rule, this period will be determined by the BM; taking into consideration the amount of course completed and any other mitigating factors.

2. FT Scheme Failure Policy

a. The failure policy is to be followed for all FT personnel and is aimed at ensuring individuals remain focussed on meeting the required of the FT scheme. Where it is evident that agreed targets will not be achieved, FT personnel are to be placed on warning in a timely manner to re-focus the individual and also highlight to the ATA the potential delay in the individual's progression.

b. There may be extenuating circumstances, both Service and Non-Service reasons, see Para 6802 which may prolong an individual's time within the training pipeline. Delays may have an effect on the ability to meet progression to LET or POET within the expected time and in all circumstances the ATA should be informed at the earliest point.

c. The names of ratings that, for reasons of misconduct, incompetence, or lack of diligence, cannot be advanced within the set timescales are to be reported to ATA at the earliest opportunity with a recommendation on whether to be retained or removed from the FT scheme. SM or Training School staff are to seek the advice of the ATA during any escalation of warnings preceding the individual's due date for advancement.

3. Automatic Removal from the FT Scheme

The following occasions will be considered as reason for automatic removal from FT:

a. Submission of early termination request.

b. Not recommended for advancement.

c. Failure of Leadership Course (LRLC or SRLC), see Para 7.

d. Discipline resulting in disrating or career check.

e. Career break.

4. De-Selection from the FT Scheme

a. Once selected, an individual will remain on the FT scheme unless they:

(1) Submit formal request to be removed from the scheme to ATA.

(2) Fail to complete professional qualifications/requirements at sea within the prescribed timescales.

(3) Demonstrate professional and/or performance-related reasons for unsuitability.

(4) Are removed from the scheme following escalation of warnings for other professional, CLM or NGT reasons.

(5) Selected for UY/SUY Scheme (if failing on this scheme acceptance back onto the FT scheme will be on a case-by-case basis as determined by the relevant BM SO2).

b. On submission of a request for early termination an individual will be de-selected from the FT scheme. Unit Staff and Career Managers are to ensure they liaise with the ATA prior to accepting any notice to ensure that the individual is fully briefed on all aspects associated with removal from FT and serving notice, such as RoS and being employed at sea during the notice period.

c. When being de-selected from the FT scheme the ATA will ensure the following actions are completed and appropriate details are recorded on the Certificate of Understanding (Part B):

(1) Individual is to be fully briefed on all aspects of removal and future promotion will be by Selection.

(2) FT Certificate of Understanding (Part B), to be completed by the individual and ATA.

(3) ATA to remove the JPA FT competence.

(4) Individual's seniority date to be agreed with CM and recorded on JPA.

5. Volunteer for Removal from the FT Scheme

a. At any stage of the scheme an individual can volunteer to be removed from FT and revert to selective promotion. The process is detailed below and all individuals should be fully advised of the changes to their career progression when transferred back to the selective promotion route. It is recommended this is carried out by the unit HOD or CM.

b. The request by an individual for removal from the FT scheme is to be forwarded to the ATA for review and consideration. The CM / ATA will provide career advice to the individual including any RoS requirement in relation to any training courses that have been completed. The process to be followed is indicated below;

(1) The FT Rating is to submit a formal request detailing the explanation why they wish to be removed from the FT Scheme.

(2) If the request for removal is associated with submission of Early Termination the ATA will liaise with the CM before advising the Rating and Line Manager on future employment plans.

(3) Where a request for removal is not associated with an Early Termination but occurs on LETQC or POETQC, cases will be treated individually and be subject to approval by the relevant BM.

c. Individuals removed from the FT will be career managed by their appropriate CM and be employed according to the needs of the Service.

6. Failure within Professional Qualifying Courses

a. FT personnel who fail during Phase 2, LETQC or POETQC will be managed by the Training Schools QC Failure Policy. All FT individuals are to be considered by the Training School for removal from the FT Scheme on achieving Tier 2 / Level 2 Warning.

b. Back class for FT personnel is only to be considered for exceptional reasons outside of any professional training failure. Where back class is necessary then the individual case will be reviewed by the Training School, ATA and CM to assess the impacts to the individuals training. Where a FT individual is being back classed then following liaison with the ATA the Training School will review the circumstances of the back classing and consider on a case-by-case basis if the individual is to remain on the FT scheme.

c. Where FT personnel fail or miss course module(s) then the Training School policy is to be followed in reprogramming modules. Where a module(s) has been missed then the ATA is to be notified in all cases. Whether an individual remains on the FT scheme will be reviewed on a case-by-case basis, with the final decision being made between the Training School, CM and the ATA.

7. Failure of Leadership Courses

a. As Fast Track ratings it is expected that all FT personnel will allocate sufficient time and preparation to pass the necessary leadership courses that are the standard for the rank for which they have been recommended.

b. Those FT personnel who fail to pass LRLC or SRLC may be de-selected from the FT scheme for not meeting the standard of leadership expected at their rank. In exceptional cases and where there is sufficient mitigation and a recommend to return to leadership course by Royal Navy Leadership Academy (RNLA) Staff a de-selection from the FT scheme waiver may be considered. This must be approved by the ATA.

c. On removal from the FT scheme following failure at LRLC or SRLC the individual will be transferred to the selective promotion route at their current rank (ie. on failing LRLC the rating will remain as an ET1). The individual must then seek promotion by selection and will be planned to attend leadership only after further selection for the next higher rate.

8. Fast Track Scheme Rules Regarding Failure

The details given in Table 73C-1 provide reasons for failure and the associated actions to be taken. All instances will be reviewed on a case-by-case basis by the training School in consultation with the ATA. Where an individual is removed from the FT scheme, the ATA will complete all relevant actions for the removal of the individual from the FT scheme.

Table 73C-1. Fast Track Scheme Rules Regarding Failure

Training Point	Reason for Failure	Actions to be completed on Removal from Fast Track (Note 10)
Phase 2 Training	NGT Failure (See Para 5750) Below 75% average score or training school equivalent during Phase 2 Module Assessments not achieved (Note 1) Back Classed (Note 2) Failure of academic Module(s)	Transferred to Selective Promotion Continue in Phase 2 training (Note 3) Future assignment by CMC
Sea Employment as ET2 and ET1	Competence as an ET not achieved within 9 months sea service. Removal of FT Recommend (Note 9) Not complete MESM / WESM Taskbook	Transferred to Selective Promotion Remain at sea as ET Warning levels to be adjusted (Note 4) Assigned by CMC (Note 5)
LRLC	Failure of LRLC (See Para 6908)	Transferred to Selective Promotion Not to proceed to LETQC Assigned back to CMC and sea as ET1 (Note 7)
Phase 3 Training LETQC	NGT Failure (See Chap 57) Below 75% average score, or training school equivalent during Module Assessments not achieved (Note 1) Back Classed (Note 2) Removal of FT Recommend (Note 9)	Transferred to Selective Promotion Assigned back to CMC as ET1 (Note 8)
Sea Employment as LET	Competence as a LET not achieved within 18 months sea service. Removal of FT Recommend (Note 9)	Transferred to Selective Promotion Remain at sea as LET Warning levels to be adjusted (Note 4) Assigned by CMC (Note 5)
SRLC	Failure on SRLC (See Para 6908) Pre course documentation in-complete for SRLC (Note 6)	Transferred to Selective Promotion Not to proceed to POETQC Assigned back to CMC as a LET (Note 7)
POETQC	NGT Failure (See Chap 57) Below 75% average score, or training school equivalent during Module Assessments (Note 1) Removal of FT Recommend (Note 9)	Transferred to Selective Promotion Assigned back to CMC as a LET (Note 8)

Notes:

1. FT personnel are expected to demonstrate the higher levels of competence at all times. Failure to sustain this level or failure of any re-sit examination will be reviewed by the Training School, ATA and relevant CM on a case-by-case basis and may result in removal from the FT scheme but not necessarily from the qualifying course.

2. Where it is deemed necessary, but only in exceptional circumstances, a FT may be back classed. When back classed the individual's seniority and due dates may be adjusted accordingly as directed by the relevant CM and ATA.

3. An individual shall continue in Phase 2 Training following failure at the discretion of the Training Officer.

4. Where warning levels have been issued due to an individual failing to achieve their planned progress on the FT scheme these warnings are to be reviewed upon removal from the FT scheme and transfer to Selective promotion and removed as appropriate. Where a warning is deemed necessary within the selective promotion also then it is to remain. Full clarification from the relevant CM and ATA should be sought by units.

5. On removal from the FT scheme and transfer to Selective promotion whilst serving at sea the relevant CM or CMC is to ensure the individual remains in post unless the warning level dictates otherwise. The individual's seniority will remain that of any previous Due Date and it will be necessary to adjust all future availability dates.

6. Where an individual has failed to prepare for a leadership course which is assessed as being due to Non-Service Reasons within an individual's control, the individual is to be removed from the FT scheme.

7. On failure at LRLC or SRLC and following removal from FT Scheme it is to be recognised that the individual will have completed less time at sea than those on selective promotion. It is therefore expected that these individuals will be assigned back to sea at the earliest opportunity by the relevant CM or CMC.

8. It is assumed that the failure occurs before any due date for advancement to NHR and by not completing QC the individual is therefore not eligible for advancement. All cases will be dealt with on an individual basis by the ATA and the relevant CM.

(Continued)

Notes: (Continued):

9. Where an individual is selected for FT, but subsequently does not perform to the required standards on the higher qualifying course their Divisional Officer (ET CC or QC), HOD (Employment) or Training Officer (LETQC, POETQC) may make a recommendation for the individual to be removed from the FT scheme to the ATA and relevant CM.

10. On failure and removal from FT the ATA will complete all necessary actions and will also liaise with relevant CM or CMC regarding future employment and assignments. Where necessary the CMWO1 will advise on individual cases.

ANNEX 73D

ET(MESM) FAST TRACK TASKBOOK

Part 1 - Individual's Details

Full Name (in Capitals)	Service No.	Rate

MEMOC Task No	Requirement	MEMOC Pg No	Name (Training Co-ordinator)	Signature	Date
NA	Qualify SMQ/BSQ	NA			
MEMOC PARTS A & B:					
NA	Qualify and keep a minimum of 20 watches as MMSWk	NA			
NA	Qualify and keep a minimum of 15 duties as SDWk	NA			
1.3	Conduct rounds as an on-watch ET(MESM)	3.3			
1.4	Conduct daily and weekly Safety Checks	3.4			
1.5	Operate machinery during machinery breakdown drills	3.5			
2.1	Conduct electrical maintenance	4.3			
2.2	Conduct mechanical maintenance	4.6			
2.3	Operate the Maintenance Management System	4.11			
5.1	Participate in bulk liquids embarkation	5.3			
7.8	Rig and derig shore supply services	5.8			
7.10	Carry out Whole Ship evolutions	5.9			
8.1	Act as a member of the NBC organisation	5.10			

MEMOC PART C[1]:					
2.4	Assist with Primary mechanical system maintenance	4.11			
2.5	Assist with Primary electrical system maintenance	4.12			
2.6	Assist with basic fault diagnostics and maintenance of Secondary mechanical systems	4.13			
2.7	Assist with basic fault diagnostics and maintenance of Secondary electrical systems	4.14			

ET(MESM) RPS Check			
Requirement	**Name (TC)**	**Signature**	**Date**
Achieve RPS			

Level 2 Apprenticeship in Engineering[2]			
Requirement	**Name (TC)**	**Signature**	**Date**
Complete Apprenticeship Portfolio			
Achieve Gateway			
Complete End Point Assessment			

Part 2 - Declaration

The tasks listed above have been successfully completed[3]. The FT candidate has demonstrated the following:

a. Gained sufficient experience to progress on to the LETQC.

b. Continues to demonstrate the potential to perform satisfactorily as an LET(MESM) following further training.

c. Is recommended to attend LETQC.

Signed (MEO): ..... Rank: .....

Name (in capitals): ..... Date: .....

[1] JPA competences for MEMOC(Full) and OPS ET(MESM) to be awarded.
[2] IAW Apprenticeship Portfolio, Maritime Electrical/Mechanical (ETME)
[3] It is accepted that due to programme and time constraints not every element of the MEMOC C tasks may be achieved. The MEO must ensure that best endeavours have been made and every opportunity to achieve training is taken.

FAST TRACK (ESM) WARNING PROFORMA

Full Name	Service Number	Parent Unit
Training Coordinator	**Divisional Officer**	**HOD**

Date Initial Training Coordinator's Warning Issued		**Review Date**	
Date Level 1 Divisional Officer's Warning Issued		**Review Date**	
Date Level 2 HOD's Warning Issued		**Review Date**	
Date Unit Recommendation for Removal from Fast Track Scheme sent to ATA(SM)		Include this proforma with submission letter / email.	

Details of shortcoming that may result in removal from the Fast Track Advancement Scheme
Remedial Actions Required by next Review

TC/DO/HOD Name		**Date**	
TC/DO/HOD Signature			

I acknowledge that I have been placed on TC/DO/HOD warning/recommended (*delete as appropriate)* for removal from the Fast Track advancement scheme due to the shortcomings detailed above. I understand the remedial actions required by the above stated review date and that failure to achieve the required improvement may result in my removal from the Fast Track scheme.

Signed: ..... Date: .....

ANNEX 73G

ACCELERATED APPRENTICE (SM) WARNINGS AND FAILURE POLICY

INTRODUCTION

1. The AA(SM) procedures will follow Initial Training Warnings (ITW) (see Paras 5747-5751) and mirror standard warning policies in place for the Phase/Lead School. Where variations to the general population of trainees exist, they will do so due to the following:

a. The bespoke courses on the AA(SM) pipeline.

b. The infrequency of AA(SM) intakes and thus the limited opportunity to back class AA(SM) trainees. This means that failure often holds a more serious implication than it would for an ET and this should be taken into consideration. To monitor this, the ATA(SM) are to be informed at the earliest opportunity of warnings issued for either professional performance or Naval General Training (NGT).

c. Conducting Phase 3 courses whilst still on the Untrained Strength (UTS).

2. Throughout this document AA(SM) trainees will be classified in the following way:

a. Phase 1 until completion of Initial Naval Training (INT).

b. AA(SM) are Phase 2 trainees until completion of SMQ (Dry) and ME 180 and are Phase 3 trainees thereafter.

3. For AA(SM) trainees, both professional and NGT warnings[1] may be used in the following circumstances:

a. Professional warnings may be issued if a trainee fails to progress as expected. Reasons may include, but are not limited to:

(1) Failure to meet the academic standards.

(2) Failure to meet expected progress.

(3) Failure to comply with safety or instructional rules.

b. NGT warning may be issued if the trainee fails to meet the standards expected of a probationary LET. These may include, but are not limited to, the following:

(1) Failure to demonstrate the correct attitude of an LET.

(2) Disruptive, disobedient or inappropriate behaviour.

(3) Poor punctuality.

(4) Any discipline issues.

[1] Para 5747.

4. Phase 1 Warnings Policy

AA(SM) trainees will fall under the same warnings policy as all trainees during INT. It should be noted that the back classing of AA(SM) recruits will be by exception and at the BM's discretion.

5. Phase 2 Warnings Policy

For the duration of this phase the AA(SM) trainees are to be managed as per the Lead Schools' warnings policy with the inclusion of the following considerations:

a. **Transfer of Warnings.** Additional considerations are to be made on the following courses:

(1) **Enabling Course.** The Chain of Command will review NGT warnings and reduce them to zero if the trainee has displayed the correct attitude and gained no further warnings related to NGT – this reduction is at the discretion of the Chain of Command in conjunction with the issuing officer. If not enacted, the trainee will carry the NGT warning to the next phase for review after a minimum of one month and a maximum of 3 months.

(2) **SM Shore Phase.** In case of an AA(SM) trainee completing SM Shore Phase with a Level 1 or Level 2 Warning, the warning will be removed. If a trainee completes SM Shore Phase with a Level 3 Warning in place, then the ATA(SM) will consider implementing the Phase 2/3 failure policy. If it is deemed that sufficient progress has been made, the Level 3 Warning will be removed, however if it is deemed that the shortcomings have not been met then the trainee will retain the Level 3 Warning to LETQC, where it will be reviewed after 3 months. Throughout this review period further shortcomings will not increase the warning but will be recorded. All evidence gathered will be used at the review date to either remove the warning, if appropriate, or implement the failure policy.

b. Formal progress checks are to be conducted to ensure the AA(SM) trainees are progressing as expected. Failure to meet these expectations should attract professional training warnings.

6. Phase 3 Warnings Policy

AA(SM) trainees are UTS until completion of their specialist maintainer courses, following LETQC and LRLC (whereas their Select-Train-Promote counterparts are GTS). While UTS, all AA(SM) trainees remain subject to the standard Initial Training Warnings (ITW). In all other respects, they are to be managed in the same way as their S-T-P counterparts.

7. Phase 2 and 3 Warning Reviews

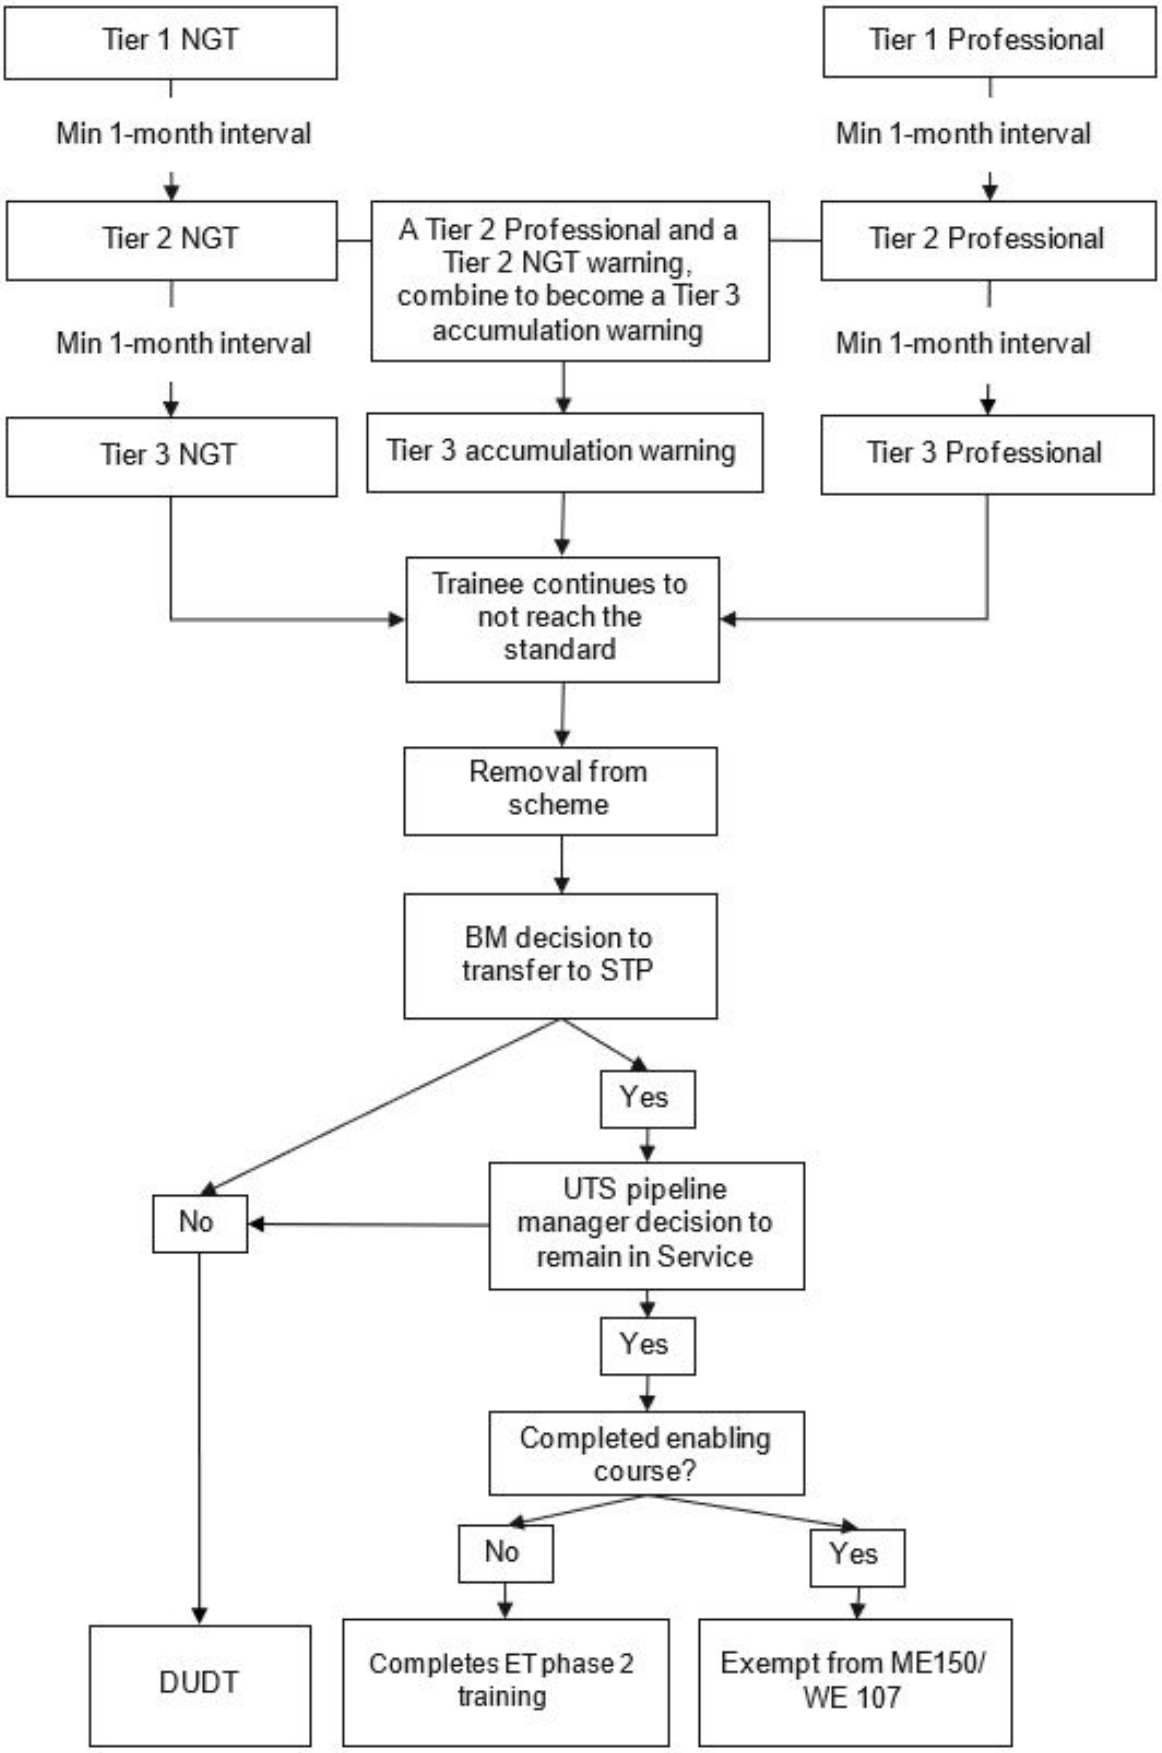
All warnings in Phases 2 and 3 should be reviewed every 1-3 months to ensure they remain valid. Despite this, additional warnings may accrue during the review period. There should, however, be a minimum interval of one month between issuing of warnings of the same type to ensure the trainee has time to address their failings. The reasons for issuing NGT and professional warnings are described in Para 3. The two warning types are discrete and used to address different failures in training. For that reason, at Tier 1, NGT and professional warnings are discrete and have no influence on each other however, in accordance with Chapter 57, if an AA(SM) trainee accrues a Tier 2 warning in both categories simultaneously, there is an automatic escalation to an accumulated Tier 3 warning. For AA(SM)s for each warning issued or escalated the ATA(SM) is to be notified. For AA(SM)s the warning proforma in Ch57 Annex D is to be used, this will be backed up by the ATA(SM) using the ATA(SM) warning proforma at Annex 73P.

8. Removal From AA Scheme Resulting From Warnings

If the AA(SM) trainee fails to maintain the required standard whilst on a Tier 3 warning, with authorisation from the Branch Manager (BM), they may be removed from the AA(SM) scheme and the actions followed in Para 14. In recognition of the need for timely action within the course, AA warnings do not require the raising of supporting appraisal reports. Instead, the AA(SM) progress warning proforma[2] is completed.

[2] CH 73 Annex 73P.

Figure 73G-1. AA(SM) Removal from Scheme (Warnings)



9. Removal From AA(SM) Scheme Resulting From Excessive Delay In Training

a. To minimise risk and allow the re-allocation of spaces on downstream courses, AA(SM) trainees may be removed from their associated scheme. If the trainee is unlikely to fulfil the necessary requirements within an additional 52 weeks of the standard scheme length, the removal may be authorised by the BM. If an AA(SM) trainee is expected to meet their required training timeline by an excess of 52 weeks, outside of service reasons, they may be removed from scheme. If the 52-week delay is anticipated, the decision to remove a trainee from the scheme may be made before the 52-week limit has elapsed. The 52 weeks may be an accumulation of time over the training period and need not run consecutively.

b. The 52-week limit may include the inability of a trainee to undertake training due to an MND/MLD medical category or exceptional compassionate case. If the medical category is attributed to a service induced injury, the delay in training does not contribute towards the 52-week limit. For clarification, whether an issue is attributable to the Service, guidance should be sought from JSP 765[3]. The compassionate issue or medical category preventing training may be a combination of MND, MLD and compassionate leave and need not necessarily consist of 52 weeks of a singular type. Under the rules stipulated in JSP 760[4], pregnancy is a protected trait. Any periods of maternity/paternity leave do not count towards the 52 weeks accumulated total.

c. If an AA(SM) trainee is removed from the scheme, with authorisation from the BM, the individual may be offered a branch transfer to the Select, Train, Promote (STP) stream. The request is sent by the ATA(SM) to the NAVY TRG HQ-PM RATINGS MANAGER (NAVY PEOPLE-TRG TMG HQ SO2 UTSPM) for authorisation[5]. If the transfer is not authorised or the trainee declines the transfer, the result will be DUDT.

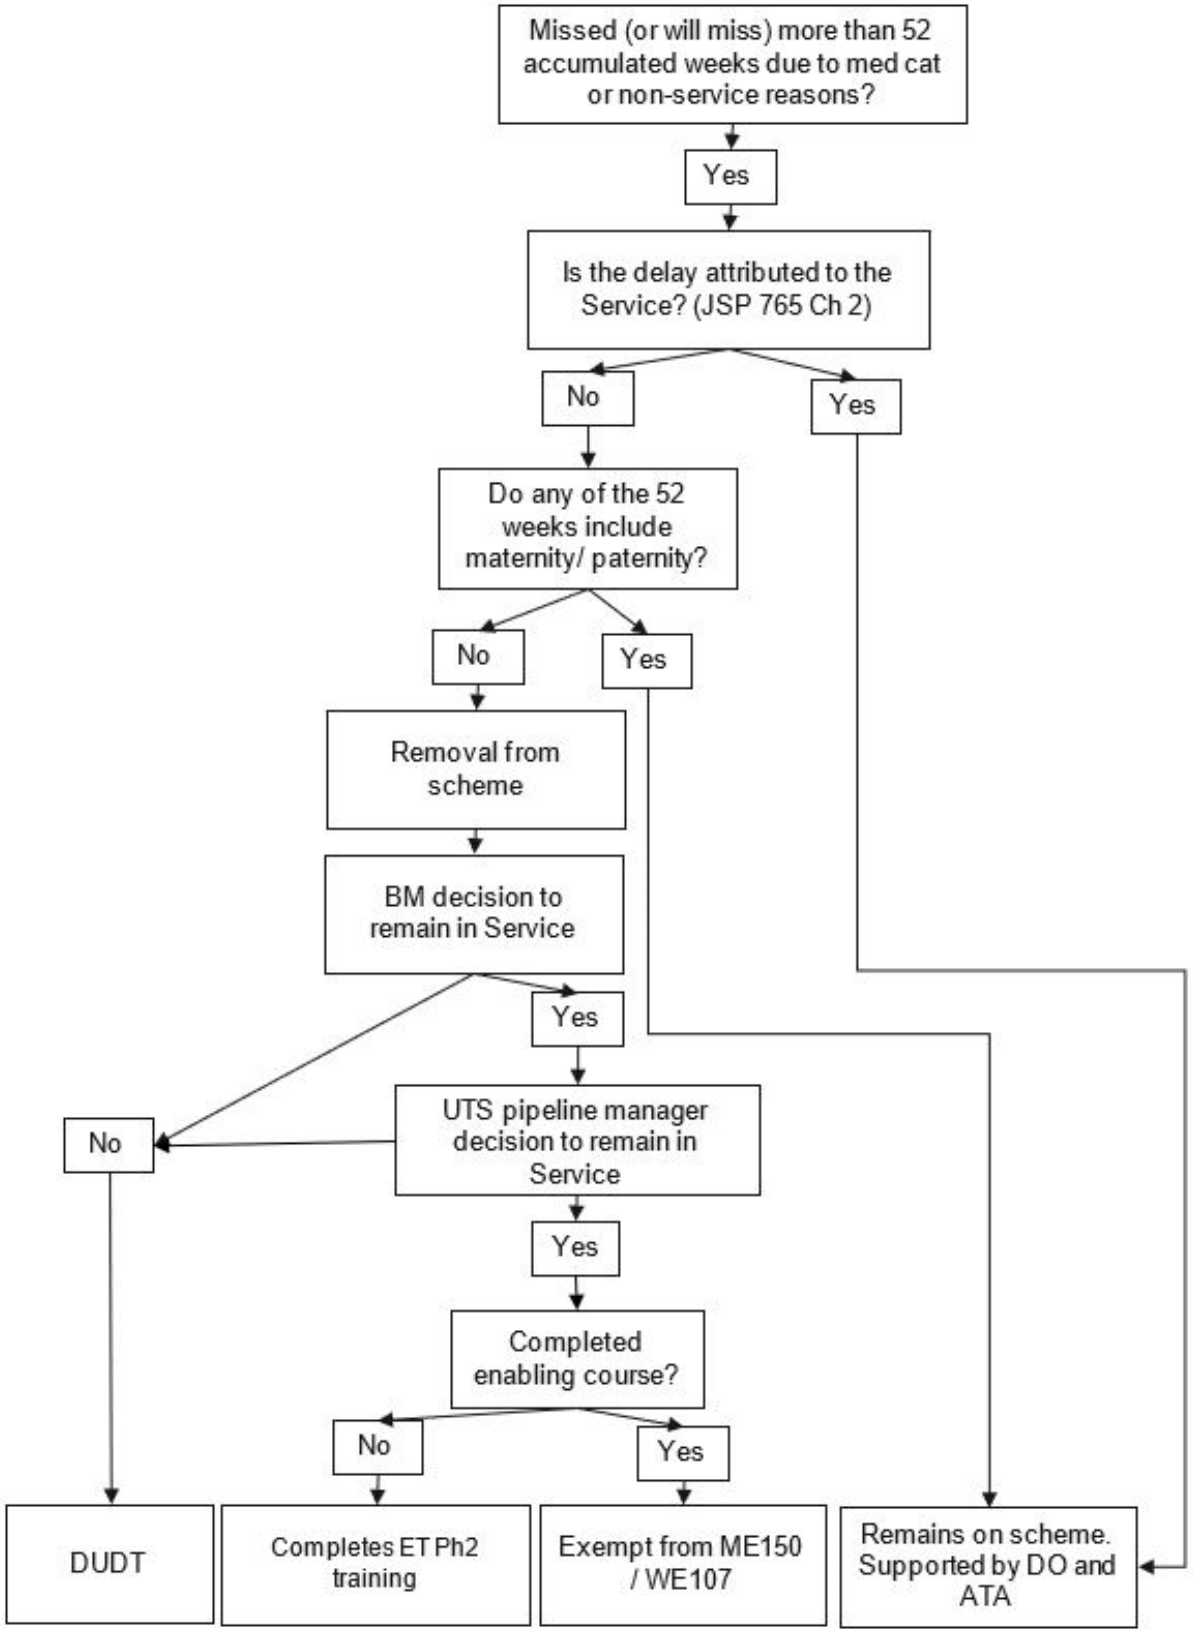
d. Should an AA(SM) trainee choose to transfer voluntarily to the STP stream, the standard authorisation process will be followed at Para 5116.

e. Individuals removed from the scheme will be awarded the rate of AB2 and paid at the level appropriate to their time in service, to show consideration of their previous years' service. Any removal from the AA(SM) scheme will not affect their opportunity to apply for FT in the future after completion of LETQC. Removal from the AA(SM) scheme will prevent any future internal entry into the AA scheme.

f. Individuals removed from AA(SM) scheme must have completed either ETICC or LETQC in order to be employed onboard as an ET2 MESM / WESM.

[3] JSP 765 Ch 2
[4] JSP 760 Ch 24.9
[5] BR3 Ch 5112

Figure 73G-2. AA(SM) Removal from Scheme (Excessive Delay in Training) Flowchart



10. Phase 1 Failure Policy

a. AA(SM) trainees will be subject to the same failure policy during Phase 1 as all other trainees with the following options available following the recommendation from the Phase 1 staff:

(1) DUDT.

(2) Re-categorise to ET at the BM's discretion.

(3) Branch transfer at the BM's discretion. Individuals have no automatic right to be offered a branch transfer when on the UTS and, although they can request a particular branch, availability will depend on the needs of the Service.

b. **Medical or Welfare Failure to Complete Training.** If, due to medical or welfare reasons, an AA(SM) trainee does not complete INT in time for the start of their Phase 2 Training, they are to be managed by the BM/ATA on a case-by-case basis. Options available include the following:

(1) DUDT with the option of re-applying if eligible.

(2) Continue INT when fit and do the full Phase 2 courses but remain AA(SM).

(3) Holdover until the next AA(SM) entry.

11. Phase 2 Failure Policy

a. The options as a result of failure on the bespoke elements of the AA(SM) pipeline are as follows:

(1) **DUDT.** As all AA(SM) trainees will be on the UTS, due to MOD policy for Care of Trainees, administration of DUDT can only be undertaken by the CO or Head of a Training Establishment.

(2) **Offer of Branch Transfer.** In the case of any AA(SM) facing DUDT, the relevant BM will consider whether the individual is suitable for another branch or specialisation. The trainee's DO must make a firm recommendation before a branch transfer is considered by the BM.

(3) **Retained AA(SM).** Retained by the BM and continue the AA(SM) pipeline on risk or offered an extension of their current phase - both options are by exception.

b. **Failure due to Medical or Welfare Reasons.** If the AA(SM) is deemed capable of recovering the following options will be considered on a case-by-case basis:

(1) Holdover until the next AA(SM) entry.

(2) Continuance of training with bespoke management by the ATA(SM) to compensate for lost training.

(3) Offer of Re-Categorise to ET within the ESM Branch.

c. If, for medical reasons, an AA(SM) trainee cannot complete Phase 2 Training and is judged to be incapable of recovering to full medical fitness, the RNMBOS process will be enacted to remove that trainee from training under DUDT procedures.

d. **Developing Leaders Course (DLC).** All AA(SM) trainees will complete DLC prior to LETQC. The AA(SM) Trainee's DO will be notified of any shortcomings. In the event of a complete failure, remedial action will be decided by the ATA(SM) in conjunction with DLC staff.

12. Phase 3 Failure Policy

a. If an AA(SM) trainee fails a Phase 3 Training course, following normal re-sit opportunities, the ATA(SM) will liaise with the BM and the training establishment to determine a suitable course of action, on a case-by-case basis. As AA(SM) trainees are on the UTS they cannot be 'Returned to Unit' (RTU). The options in Para 14 remain extant but considerations should be made for back classing as these are standard S-T-P courses at the end of the pipeline and thus there is increased flexibility. This will be reviewed by the BM on a case-by-case basis.

b. If an AA(SM) trainee cannot proceed on their current LETQC due to reasons beyond their control e.g. medical downgrading, they are to be locally managed to facilitate the completion of the required modules in as timely a manner as possible. This may result in the trainee being back-classed into the next available Qualifying Course.

13. AA Failure At Leadership Course

a. Whilst attending leadership courses AA(SM) trainees are subject to Royal Arthur Squadron's warning process. This is a standalone process and, as such, any warnings that may be received whilst on leadership course will not accumulate with existing training warnings from the AA(SM) training pipeline. Time spent in a medical category rendering the trainee unable to attend leadership training, however, will count towards the 52 weeks training delay limit (Para 9).

b. If an AA trainee fails the written assessments and presentation elements of LRLC, then further progress on the AA(SM) scheme will be at the discretion of the BM. If an AA(SM) fails LRLC at the end of the final week they will continue with professional training on LETQC but must also retake and re-sit the Week 4 assessment. The period at which that individual will be able to return and complete LRLC will be managed by the ATA(SM), in consultation with RNLA and Phase 3 Qualifying Course lead school. Failure of AA(SM) trainees to complete LRLC successfully at a 'second' attempt, not arising from medical grounds, will lead to DUDT. The transfer of failed AA(SM) trainees to the STP stream may be applied, as detailed at Para 14.

14. Removal From AA(SM) Scheme

a. If an AA(SM) trainee is removed from the scheme, with authorisation from the BM, the individual may be offered a branch transfer into the Select, Train, Promote (STP) stream. The ATA(SM) is to send a request to the NAVY PEOPLE-TRG TMG HQ SO2 UTSPM for authorisation[6]. If the transfer is not authorised, or the trainee declines the transfer, the result will be DUDT.

b. Should an AA(SM) trainee choose to transfer voluntarily to the STP stream, the standard authorisation process in Para 5116 will be followed.

c. The individual will be awarded the rate of AB2 and paid at the level appropriate to their time in service. Any removal from the AA scheme will not affect their opportunity to apply for FT in the future after completion of LETQC.

d. Individuals removed from AA(SM) scheme must have completed either ETICC or LETQC in order to be employed onboard as an ET2 MESM / WESM.

[6] Para 5116.

ANNEX 73H

UNDERGRADUATE APPRENTICESHIP SCHEME WEAPON ENGINEER (SUBMARINES) (UGAS WESM) - OVERVIEW

1. The Undergraduate Apprenticeship Scheme (UGAS) aims to significantly accelerate the advancement of appropriately able and specifically recruited ET candidates to qualify and serve as POET Operator and Maintainers in submarines. During Phase 2 training the scheme streams candidates as either as Marine Engineer (Submarines) technicians under UGAS(MESM) or Weapon Engineer (Submarines) technicians under UGAS(WESM).

2. UGAS has two different categories of membership, 'New-to-Service' and 'In-Service.' The scheme is primarily designed to attract New-to-Service personnel although it has invited applications from In-Service candidates. Opportunities for In-Service personnel to apply are promulgated by RNTM when In-Service places become available.

3. UGAS(WESM) involves a commitment of approximately 8½ years from New-to-Service candidates which can be summarised as follows:

a. Approximately 4 years of Initial Training, SMQ, LET(WESM) and POET(WESM) career/specialist courses. It also includes some sea experience as a qualified LET(WESM).

b. Approximately 3½ years sea-service, which must include a minimum of 3 years qualified service as a POET(WESM).

c. One-year in-service BEng(Hons) Engineering Degree at the University of Portsmouth.

4. At the end of the scheme candidates have the following options:

a. Request to transfer to the standard ET career pipeline and continue progression with the ET(WESM) cadre.

b. If an AIB pass has been achieved during the engagement and they are selected, join BRNC as a prospective WESM Engineer Officer.

c. Leave the Service in accordance with the Tailored Career Contract. Note that the BEng degree does not attract a Return of Service for UGAS candidates.

5. Candidates are required to inform the ATA(SM) of their end of scheme option prior to the start of their University degree, as described in Annex 73O.

6. Recruitment of UGAS(WESM) Candidates

a. Candidates join as ESM and are streamed MESM or WESM during Phase 2 training.

b. New-to-Service members join the Service on a Tailored Career Agreement (Example at Annex 73L).

c. The UGAS scheme ceased recruiting personnel in 2021.

7. Assignment of UGAS(WESM) Personnel

a. UGAS(WESM) candidates are assigned by the same career management authorities that assign Select Train Promote (STP) personnel, although the ATA(SM) will liaise with CMs to advise on scheme requirements. UGAS(WESM) career pipelines are provided below, with further details in Annex 73M, which can be used to inform assignment decisions.

b. UGAS(WESM) personnel complete the career pipeline as below.

c. Prior to LETQC, UGAS(WESM) personnel will indicate their preference to the ATA(SM) and on JPA in the normal manner and are streamed TWS Weapons, TWS Sensors, CIS or SWS by the Career Manager to suit the needs of the Service.

Table 73H-1. UGAS(WESM) Career Pipeline

	Course No	Title	Establishment
1	-	Phase 1 Training	HMS RALEIGH
2	-	SMQ	HMNB Clyde/Devonport as appropriate
3	-	Submarine Support Group (including RNLA 200 - Developing Leaders Course and ME 180 – UGAS Enabling Course)	HMNB Devonport (RNLA / HMS SULTAN)
4	WE214X	Leading Engineering Technician (WESM) Qualifying Course LET(WESM)QC	HMS COLLINGWOOD
5	RNLA 102	Leading Rates Leadership Course	RNLA
6	-	Specialist Training - TWS Weapons, Sensors, CIS or SWS Launcher, Fire Control Supervisor Course as required	RNSMS / ATF / TTF
7	-	Sea Training Phase to qualify BSQ and LET(WESM) watchkeeper (approx 12 months)	Submarine
8	WE316	Petty Officer Engineering Technician (WESM) Qualifying Course POET(WESM)QC	HMS COLLINGWOOD
9	RNLA 103	Senior Rates Leadership Course	RNLA
10	-	Specialist training as required for next Sea Assignment	RNSMS / ATF / TTF
11	-	Sea Delivery Phase to qualify and serve as a POET(WESM) (approx 42 months including min 36 months as qualified POET(WESM))	Submarine
12	-	Portsmouth University Top Up Degree Course	Portsmouth University

8. Monitoring and Management of UGAS(WESM) Candidates

a. The Accelerated Technician Authority(SM) (ATA(SM)) will monitor the progress of UGAS(WESM) candidates through liaison with Divisional Officers, CMs and Line Managers. UGAS(WESM) candidates remain subject to the normal warning procedures regarding lack of progress. However, DOs/LMs should contact the ATA(SM) if a scheme candidate becomes subject to such procedures as additional UGAS actions may be required.

b. UGAS(WESM) candidates are accelerated to POET upon qualification as a POET(WESM) watchkeeper (see Para7307). It is incumbent upon Divisional Officers/Line Managers to provide scheme candidates with appropriate mentoring and to ensure candidates undertake a wide range of development opportunities which support their ultimate aim of becoming Senior Ratings.

c. In the event that a DO/LM has concerns regarding a candidate's continued suitability for UGAS(WESM), they should contact the ATA(SM) as soon as is practicable to agree an appropriate course of action.

d. The ATA(SM) manages the scheme to the requirements of the Navy People WESM Workforce Planner. The ATA(SM) are responsible for the scheme's Concept of Operations including its terms and conditions and Units/DOs/LMs should contact the ATA(SM) for specific advice about the scheme as the need arises.

9. UGAS Warning System

a. In addition to the conventional warning procedure contained within Chapter 57, UGAS Engineering Technicians (ETs) also become subject to the UGAS Warning System once they have completed Phase 1 training, until the end of their involvement in the scheme. This warning system is designed to explain the process and consequences that might arise should an individual continue to fail to meet the high professional and personal standards expected of a UGAS candidate. It ensures that the candidate's shortfalls and recovery requirements are clearly identified, understood and acknowledged by the individual, while allowing a reasonable period of time to allow the required improvement.

b. DOs, training providers and line managers of UGAS ratings should inform the ATA(SM) of any concerns with individual's performance and any instance where a standard training/professional warning has been issued. The ATA(SM) will determine if additional UGAS associated action is required.

c. In order to de-risk the scheme and allow re-allocation of spaces on downstream courses, the UGAS Warning System allows removal of candidates if they are unlikely to achieve POET in a timely manner, for either technical/academic or CLM failings.

d. UGAS warnings follow a 3-tier structure (Verbal, Written and Final) and are issued and recorded by the ATA(SM) utilising the UGAS Warning Proforma at Annex73P. UGAS Final Warnings can, in accordance with the tailored career agreement, result in a rating's removal from the scheme. If warranted, the ATA(SM) may issue higher level warnings without first issuing any lower tier warnings. Appeals against warnings are considered by the Navy People WESM Workforce Planner.

e. **Issue of Verbal Warning.** If a UGAS candidate's performance fails to meet UGAS standard the ATA(SM) may initiate a formal review of the candidate's performance. This may result in a Verbal Warning to the candidate which will detail the problem(s); the proposed solution; the timescale for review; the future process; and the likely consequences, where improvement is not forthcoming.

f. **Verbal Warning Review.** The usual period of review for a Verbal Warning is 3 months. At the end of the review period, the ATA(SM) will again formally review the candidate's performance to determine if the requisite improvement has been made. The ATA(SM) will either remove the Verbal Warning from the candidate's UGAS record or escalate the warning to a Written Warning. In exceptional circumstances, the ATA(SM) may extend the review period for the Verbal Warning. Further failings in a candidate's performance may also warrant escalation to an immediate Written Warning.

g. **Issue of Written Warning.** If escalation is required, the ATA(SM) will issue a Written Warning to the candidate which will reiterate the on-going problem; the proposed solution; the timescale for review; the future process and the likely consequences if improvement is not forthcoming. The narrative will substantiate the escalation of the UGAS warning by elaborating on the Subject's prevailing weaknesses and/or unsatisfactory professional effectiveness. The candidate is to certify in writing that they understand why the UGAS Warning has been escalated and the advice given. The Written Warning will be retained by the ATA(SM) and the rating's DO, along with a copy provided to the candidate.

h. **Written Warning Review.** The usual period of review for a Written Warning shall be 3 months. At the end of the review period, the ATA(SM) will again formally review the candidate's performance to determine if the requisite improvement has been made. The ATA(SM) will either remove the Written Warning from the candidate's UGAS record or escalate the warning to a Final Warning. In exceptional circumstances, the ATA(SM) may extend the review period for the Written Warning. Further failings in a candidate's performance may also warrant escalation to a Final Warning.

i. **Issue of Final Warning.** If further escalation is required, the ATA(SM) will issue a Final Warning to the candidate which will reiterate and the on-going problem; the proposed solution; the timescale for review; the future process and the likely consequences, if improvement is not forthcoming. The narrative will substantiate the escalation of the UGAS warning by elaborating on the Subject's prevailing weaknesses and/or unsatisfactory professional effectiveness. The candidate is to certify in writing that they understand why the UGAS Warning has been escalated and the advice given. The Final Warning will be retained by the ATA(SM) and the rating's DO, along with a copy provided to the candidate.

j. **Final Warning Review.** The usual period of review for a Final Warning is3 months. At the end of the review period, the ATA(SM) will again formally review the candidate's performance to determine if the requisite improvement has been made. The ATA(SM) will either:

(1) Remove the Final Warning from the candidate's UGAS record.

(2) Retain the Final Warning and re-issue it to the candidate informing them of the extension to the Final Warning, giving reason for the decision and the date on which the review of the Final Warning will be made.

(3) Remove the candidate from the UGAS scheme in accordance with the candidate's Tailored Agreement.

10. Contact details for the ATA(SM) are:

ANNEX 73I

UNDERGRADUATE APPRENTICESHIP SCHEME MARINE ENGINEER (SUBMARINE) UGAS(MESM) OVERVIEW

1. The Undergraduate Apprenticeship Scheme (UGAS) aims to significantly accelerate the advancement of appropriately able and specifically recruited ET candidates to qualify and serve as POET Operator and Maintainers on submarines. During Phase 2 training, the scheme will stream candidates as either Marine Engineer (Submarine) technicians under UGAS(MESM) or Weapon Engineer (Submarine) technicians under UGAS(WESM).

2. UGAS has two different categories of membership, 'New-to-Service' and 'In-Service.' The scheme is primarily designed to attract New-to-Service personnel, although it has invited applications from In-Service candidates. Opportunities for In-Service personnel to apply are promulgated by RNTM when In-Service places become available.

3. UGAS(MESM) involves a commitment of approximately 8½ years from New-to-Service candidates which can be summarised as follows:

a. Approximately 4 years of Initial Training, SMQ, LET(MESM) and POET(MESM) career/specialist courses. It also includes some sea experience as a qualified LET(MESM), ie. qualified Category C Watchkeeper and Shutdown Supervisor.

b. Approximately 3½ years sea-service, which must include a minimum of 3 years qualified service as a POET(MESM), i.e. qualified Category B Watchkeeper.

c. One-year in-service BEng(Hons) Engineering Degree at the University of Portsmouth.

4. At the end of the scheme, candidates have the following options:

a. Request to transfer to the standard ET career pipeline and continue progression with the ET(MESM) cadre.

b. If an AIB pass has been achieved during the engagement and they are selected, join BRNC as a prospective MESM Engineer Officer.

c. Leave the Service in accordance with the Tailored Career Contract. Note the BEng degree does not incur a Return of Service for UGAS candidates.

5. Candidates are required to inform the ATA(SM) of their end of scheme option prior to the start of their University degree, as described in Annex 73O.

6. Recruitment of UGAS(MESM) Candidates

a. Candidates join as ESM and are streamed MESM or WESM during Phase 2 training.

b. New-to-Service members join the Service on a Tailored Career Agreement (Example at Annex 73L).

c. The UGAS scheme ceased recruiting personnel in 2021.

7. Assignment of UGAS(MESM) Personnel

a. UGAS(MESM) personnel are assigned by the same career management authorities that assign Select Train Promote (STP) personnel, although the ATA(SM) will liaise with CMs to advise on scheme requirements. Examples of UGAS(MESM) career pipelines are provided below, with further details in Annex 73N, which can be used to inform assignment decisions.

b. All UGAS(MESM) personnel complete the initial career pipeline before specialising as Mechanical or Electrical specialisms.

c. During LETQC, UGAS(MESM) personnel will indicate their preference on JPA in the normal manner and are streamed Electrical or Mechanical by the Career Manager to suit the needs of the Service and then follow the associated career pipeline below.

Table 73I-1. UGAS(MESM) Common Initial Career Pipeline

	Course No	Title	Establishment
1	-	Phase 1 Training	HMS RALEIGH
2	-	SMQ	HMNB Clyde/Devonport as appropriate
3	-	Submarine Support Group (Including RNLA Developing Leaders Course and ME 180 UGAS Enabling Course)	HMNB Devonport/RNLA/HMS SULTAN
4	ME176	Leading Engineering Technician (MESM) Qualifying Course LET(MESM)QC	HMS SULTAN
5	RNLA 102	Leading Rates Leadership Course	RNLA

Table 73I-2. Electrical Stream Candidates

	Course No	Title	Establishment
6	ME256	Leading Engineering Technician (MESM) Propulsion Electrical Maintainer	HMS SULTAN
7	ME301 A/V	Nuclear Propulsion Systems Course (NPSC) – Astute/Vanguard Class	HMS SULTAN
8	ME301 L A/V	Nuclear Propulsion Systems Course - Vanguard/Astute Class Electrical Modules	HMS SULTAN
9	-	Sea Training Phase to qualify BSQ, Cat D, SDWKR, Cat C and MRSDS (approx 12 months).	Submarine
10	ME264	Petty Officer Engineering Technician (MESM) Qualifying Course POET(MESM)QC	HMS SULTAN
11	RNLA 103	Senior Rates Leadership Course	RNLA
12	ME267 A	Petty Officer Engineering Technician (MESM) – Foundation Degree Elective Course (Electrical)	HMS SULTAN
13	ME265 ME33L ME440A	Petty Officer Engineering Technician (MESM) – Advanced Propulsion Electrical Maintainer + APD/CAMS	HMS SULTAN
14	ME304Y A/V	Nuclear Propulsion Operators Course (NPOC) Astute/Vanguard Class	HMS SULTAN
15	ME303 A5V	Primary Instrumentation Course (Vanguard/Astute RC&I Update)	HMS SULTAN
16	-	Sea Delivery Phase to qualify and serve as a Cat B (approx 42 months including min 36 months qualified as a Cat B)	Submarine
17	-	Portsmouth University Top Up Degree Course	Portsmouth University

Table 73I-3. Mechanical Stream Candidates

	Course No	Title	Establishment
6	ME256	Leading Engineering Technician (MESM) Propulsion Mechanical Maintainer	HMS SULTAN
7	ME301 A/V	Nuclear Propulsion Systems Course (NPSC) – Astute/Vanguard Class	HMS SULTAN
8	ME258 or 259	Mechanical Craft Training - Fitting and Turning (258) or Pipework and Welding (259)	HMS SULTAN
9	-	Sea Training Phase to qualify BSQ, Cat D, SDWKR, Cat C and MRSDS (approx 12 months).	Submarine
10	ME264	Petty Officer Engineering Technician (MESM) Qualifying Course POET(MESM)QC	HMS SULTAN

12	ME267 B	Petty Officer Engineering Technician (MESM) – Foundation Degree Elective Course (Mechanical)	HMS SULTAN
13	ME266	Petty Officer Engineering Technician (MESM) – Advanced Propulsion Mechanical Maintainer	HMS SULTAN
14	ME309 A1/A9	Adquals (Diesels and Refrigeration)	HMS SULTAN
15	ME304Y A/V	Nuclear Propulsion Operators Course (NPOC) Astute/Vanguard Class	HMS SULTAN
16	-	Sea Delivery Phase to qualify and serve as a Cat B (approx 42 months including min 36 months qualified as a Cat B))	Submarine
17	-	Portsmouth University Top Up Degree Course	Portsmouth University

8. Monitoring and Management of UGAS(MESM) Candidates

a. The Accelerated Technician Authority(SM) (ATA(SM)) will monitor the progress of UGAS(MESM) candidates through liaison with Divisional Officers, CMs and Line Managers. UGAS(MESM) candidates remain subject to the normal warning procedures regarding lack of progress. However, DOs/LMs should contact the ATA(SM) if a scheme candidate becomes subject to such procedures, as additional UGAS actions may be required.

b. UGAS(MESM) candidates are accelerated to POET upon qualification as a Category B Watchkeeper (see Para 7308). It is incumbent upon Divisional Officers/Line Managers to provide scheme candidates with appropriate mentoring and to ensure candidates undertake a wide range development opportunities which support their ultimate aim of becoming Senior Ratings.

c. In the event that a DO/LM has concerns regarding a candidate's continued suitability for UGAS(MESM), they should contact the ATA(SM) as soon as is practicable to agree an appropriate course of action.

d. The ATA(SM) manage the scheme to the requirements of the Navy People MESM Workforce Planner. The ATA(SM) are responsible for the scheme's Concept of Operations, including its terms and conditions and Units/DOs/LMs should contact the ATA(SM) for specific advice about the scheme as the need arises.

9. UGAS Warning System

a. In addition to the conventional warning procedure contained within Chapter 57, UGAS Engineering Technicians (ETs) also become subject to the UGAS Warning System once they complete Phase 1 training, until the end of their involvement in the scheme. This warning system is designed to explain the process and consequences that might arise should an individual continue to fail to meet the high professional and personal standards expected of a UGAS candidate. It ensures that the candidate's shortfalls and recovery requirements are clearly identified, understood and acknowledged by the individual, while allowing an appropriate period of time to allow the required improvement.

b. DOs, training providers and line managers of UGAS ratings are to inform ATA(SM) of any concerns with individual's performance and any instance where a standard training/professional warning has been issued. The ATA(SM) will determine if additional UGAS associated action is required.

c. In order to de-risk the scheme and allow re-allocation of spaces on downstream courses, the UGAS Warning System allows removal of candidates who are deemed unsuitable if they are unlikely to achieve POET in a timely manner, for either technical/academic or CLM failings.

d. UGAS warnings follow a 3-tier structure (Verbal, Written and Final) and are issued and recorded by the ATA(SM) utilising the UGAS Warning Proforma at Annex 73P. UGAS Final Warnings can, in accordance with the tailored career agreement, result in a candidate's removal from the scheme. If warranted, the ATA(SM) may issue higher level warnings without first issuing any lower tier warnings. Appeals against warnings are considered by the Navy People MESM Workforce Planner.

e. **Issue of Verbal Warning.** If a UGAS candidate's performance fails to meet UGAS standard the ATA(SM) may initiate a formal review of the candidate's performance. This may result in a Verbal Warning to the candidate which will detail the problem(s); the proposed solution; the timescale for review; the future process; and the likely consequences where improvement is not forthcoming.

f. **Verbal Warning Review.** The usual period of review for a Verbal Warning is 3 months. At the end of the review period, the ATA(SM) will formally review the candidate's performance to determine if the requisite improvement has been made. The ATA(SM) will either remove the Verbal Warning from the candidate's UGAS record or escalate the warning to a Written Warning. In exceptional circumstances, the ATA(SM) may extend the review period for the Verbal Warning. Further failings in a candidate's performance may also warrant escalation to an immediate Written Warning.

g. **Issue of Written Warning.** If escalation is required, the ATA(SM) will issue a Written Warning to the candidate which will reiterate the on-going problem; the proposed solution; the timescale for review; the future process and the likely consequences if improvement is not forthcoming. The narrative will substantiate the escalation of the UGAS warning by elaborating on the Subject's prevailing weaknesses and/or unsatisfactory professional effectiveness. The candidate is to certify in writing that they understand why the UGAS Warning has been escalated and the advice given. The Written Warning will be retained by the ATA(SM) and a copy provided to the candidate.

h. **Written Warning Review.** The usual period of review for a Written Warning shall be 3 months. At the end of the review period, the ATA(SM) will again formally review the candidate's performance to determine if the requisite improvement has been made. The ATA(SM) will either remove the Written Warning or escalate the warning to a Final Warning. In exceptional circumstances, the ATA(SM) may extend the review period for the Written Warning. Further failings in a candidate's performance may also warrant escalation to a Final Warning.

i. **Issue of Final Warning.** If further escalation is required, the ATA(SM) will issue a Final Warning to the candidate which will reiterate the on-going problem; the proposed solution; the timescale for review; the future process and the likely consequences if improvement is not forthcoming. The narrative will substantiate the escalation of the UGAS warning by elaborating on the Subject's prevailing weaknesses and/or unsatisfactory professional effectiveness. The candidate is to certify in writing that they understand why the UGAS Warning has been escalated and the advice given. The Final Warning will be retained by the ATA(SM) and a copy provided to the candidate.

j. **Final Warning Review.** The usual period of review is 3 months. At the end of the review period, the ATA(SM) will again formally review the candidate's performance to determine if the requisite improvement has been made. The ATA(SM) will either:

(1) Remove the Final Warning from the candidate's UGAS record.

(2) Retain the Final Warning and re-issue it to the candidate informing them of the extension to the Final Warning, giving reason for the decision and the date on which the review of the Final Warning will be made.

(3) Remove the candidate from the UGAS scheme in accordance with the candidate's Tailored Agreement.

ANNEX 73J

UNDERGRADUATE APPRENTICESHIP SCHEME WEAPON ENGINEER (SUBMARINES) (UGAS WESM) - CONOPS

1. Intent

a. The intent of UGAS (WESM) is to mitigate shortfalls of WESM Maintainers at Petty Officer level. It will achieve this by taking very able New-to-Service candidates, with high academic achievement, and accelerate them along the WESM ET career path by undertaking the following 6 phases as follows:

(1) **Initial Training Phase.** Scheme will conduct Phase 1 new entry training at HMS RALEIGH as probationary LETs (see Para 7303) and will then be assigned to the Submarine Qualification (SMQ) organisation to complete general submarine training, some of which may be in an operational submarine. This could[1] lead to the award of Submarine Badge (Dolphins). During, or shortly after, SMQ candidates will be streamed MESM or WESM. On successful completion of SMQ(Dry) (including Firefighting and submarine escape training) candidates will be awarded the appropriate engineering branch badge and 'HM Submarines' cap tally. At this point they will be designated as Phase 3 trainees, although they will remain on the Untrained Strength. This phase will take approximately 6 months in total, including an engineering safety course at HMS SULTAN and a Developing Leadership course at HMS COLLINGWOOD.

(2) **First Shore Training Phase.** Scheme members streamed WESM will then be assigned to HMS Collingwood to attend:

(a) WE213 or WE 214X LETQC (HMS Collingwood).

(b) RNLA 102 Leading Rates' Leadership Course (LRLC).

(c) Specialist training at RNSMS or the Trident Training Facility or ATF.

This phase of training will take approximately 2 years. Subject to satisfying service and eligibility criteria, candidates will substantiated as LET at the end of the LET training pipeline (i.e. LETQC, LRLC and WESM specialist training). On successful completion of the LETQC and Apprenticeship tasks and associated portfolio during the Sea Training Phase, they will be awarded a Level 3 Advanced Apprenticeship in Engineering. On successful completion of the whole LET training pipeline they will join the trained strength (GTS) iaw Para 7306.

[1] As a minimum, new to service UGAS candidates are required to complete SMQ (Dry) prior to LETQC.

(3) **Sea Training Phase.** UGAS (WESMs) will then be assigned to an operational submarine to achieve or re-affirm their submarine qualification (BSQ) and to qualify in either a TWS or SWS LET WESM watchkeeping position (dependent on specialisation). They must be carefully managed in order to conduct maintenance and repair tasks under supervision; gaining experience in operations, maintenance, section management and repair. This 'journeyman' phase of their career should take no more than 12 months. Unforeseen changes to submarine programmes or personal circumstances could extend this period.

(4) **Second Shore Training Phase.** After their sea training phase, candidates will return to HMS COLLINGWOOD to attend the WE 316 Petty Officer Engineering Technician Qualifying Course (POETQC), the Senior Rates' Leadership Course (SRLC) and further specialist training as required. This phase will last approximately 28 weeks, during which candidates will complete the Engineering Foundation Degree. At the end of this phase UGAS ratings will become eligible for advancement to Acting POET, which is successful completion of both POETQC (WE316) and SRLC, iaw the advancement criteria detailed in Para 7307.

(5) **Sea Delivery Phase.** Scheme members will be assigned to an operational submarine to conduct onboard training to qualify as WE Watchkeeping Supervisor (Duty Forward Technically Supervisor (SSN TWS)/Duty TWS Supervisor (SSBN TWS)/SCC Panel Operator/Duty SWS Supervisor). Once qualified and subject to eligibility criteria detailed in Table 73-18, they will be advanced to a substantiated Petty Officer Engineering Technician. Service as a Section Head will be at the discretion of the Weapon Engineer Officer but UGAS (WESM) candidates are expected to achieve Section Head within one year of becoming a substantive POET. This phase of their career will last approximately 38-42 months but must include a minimum of 36 months' qualified as a POET during which they must achieve OPS. At the end of this phase they will complete or be deemed to have completed any RoS outstanding for LET and POET QCs.

(6) **University Degree Phase.** The exact timing of the end of the sea delivery phase will be based around a number of factors: the need to serve a minimum of 36 months as a qualified POET WESM; any leave outstanding and the pre-requisites[2] required before candidates start[3] the 3rd year of the University of Portsmouth/Upper Yardman (Engineer) degree course to top up their Foundation Degree to BEng(Hons). Whilst reading for their degree, candidates will remain serving in the RN. There is no RoS for attaining the BEng. In the January prior to starting at the University of Portsmouth, UGAS personnel will be required to indicate to the ATA(SM) which of the paths at Para b below they will choose upon the posting of their degree results.

[2] Bridging modules are a pre-requisite for the UGAS degree scheme and typically start in July..
[3] Academic year starts in September.

b. **Options Upon Completion of the Scheme.** On completion of their one year of university study, New-to-Service UGAS (WESM) members[4] will have the following 3 choices:

(1) Transfer to the standard ET career pipeline where further progression will be subject to the normal rules for promotion.

(2) If an AIB pass has been achieved and they have been selected, join BRNC as a prospective WESM Engineer Officer.

It is recommended that all reporting requirements for selection to UY/SUY are completed prior to assignment from Sea Delivery phase.

(3) Leave the Service in accordance with the Tailored Career Agreement.

c. The UGAS (WESM) is therefore a minimum[5] 8.5-year engagement which is planned to generate a POET WESM watchkeeper/maintainer approximately 3.5 years from entry to complete a minimum of 36 months qualified service as a TWS/SWS Senior Rate. The duration of their sea assignment is variable to allow scheme members to serve a minimum of 36 months qualified before departure from their submarine to match the September start to the academic year and pre-degree bridging modules.

d. This scheme will not replace the ET WESM Fast Track/restructured ET pipeline, but should be seen as running in parallel and may be continued or stopped as required; as of Summer 2021 recruitment for UGAS personnel ceased. It is therefore NOT an immediate solution to the POET WESM shortage but allows greater future WESM flexibility and adaption for future submarine requirements.

e. It is envisaged that the cohort of UGAS(WESM) will be small (18 to qualify as either TWS or SWS POETs per year as required by WE Branch Management) and therefore it does not set a precedent for the way all submariners are recruited, managed or employed. Nevertheless, there are areas where these individuals will need to be treated differently from the standard Service entrants and they will need to be carefully, and on occasion preferentially managed, as they progress along the scheme's pipeline.

2. Recruitment

a. The scheme targets recruitment from a demographic of high achievers with proven academic ability. Potential candidates will be drawn from civilian personnel who already hold a minimum of level 3+ STEM qualifications (e.g. A Levels, BTech, HNC/D NVQ level 3). Although candidates will be badged as ETs, and mixed with conventional ETs during training, the scheme will be separate from the current ET system and candidates will need to be managed by the ATA(SM) in conjunction with the CMs.

[4] In Service UGAS members will remain on the standard ET career pipeline where further progression will be subject to the normal rules for promotion.
[5] This is a minimum because it is not possible to align exact qualification and training times, sea draft duration and Portsmouth University Degree start dates at this range.

b. The following premise underpins the scheme. A high quality[6] candidate is recruited to an approximate 8½ year engagement[7] with the offer of paid training and education that delivers an in-service engineering degree at the end of the scheme. The candidate's remuneration and reward rises rapidly to a significant figure at the 6-year point and continues during their final year on the scheme where they complete the UY degree at Portsmouth University. During the scheme this quality individual could attend an AIB to widen the available options open to them upon graduation.

c. The important factor is that the choice belongs to the individual; this is a recruiting lure. In return, the Service expects significant application from the individual during shore and sea training followed by approximately 4 years sea service, of which 3 years will be as a qualified PO(ET)WESM.

d. **Entry Requirements.** UGAS entry requirements are as follows:

(1) Age on entry of 18 - 34 years.

(2) Be a British Citizen and not hold dual nationality.

(3) Score 90 or more on the Recruit Test (not on CNR website).

(4) Hold the following qualifications (equivalent qualifications are acceptable and UGAS applications can be made before exam results are known):

(a) 5 x GCSE at grade 9 – 4(A*- C) including Maths, English and at least one science based subject.

(b) Level 3 qualifications achieving a minimum of 48 UCAS points derived from Science, Technology, Engineering and Maths subjects.

(c) Equivalent Level 3 or higher STEM qualifications (BTEC, HNC, etc.) are also acceptable. Full details are included in the UGAS CONOPS held by the ATA(SM).

3. Terms and Conditions of Service

a. **New to Service Candidates.** The approximate 8½ year engagement is non-NEM compliant, but candidates will be engaged using a Tailored Career Agreement (example at Annex 75C). However, SM programmes, training delays and the exigencies of Service life may delay progress along the UGAS(WESM) career pipeline. Therefore, it may be necessary to extend their Tailored Career Agreement to allow sufficient time for candidates to obtain the minimum 36 months qualified sea service and align the end of this to the start of the degree phase[8]. This is a function of the UGAS Scheme Manager / ATA(SM).

[6] Aged 18-34, 3 A levels (Math, science, other), RT score >= 90 other equivalent L3 STEM qualification.
[7] Such short-term engagements suit the expectation of Gen Z (future recruiting demographic) A Vision for a Future Model of Manning Submarines Adm Mathias dated Mar 15.
[8] In exceptional circumstances, candidates may be offered an opportunity to extend their engagement by 1 year to complete their training/sea assignments and attend Portsmouth University 1 year later than originally planned.

b. **In-Service Candidates.** In Service candidates who have been selected onto the scheme they will be required to progress their training. Internal candidates should complete their initial career course and then attend SMQ. Any opportunities to consolidate ET initial career training should be taken prior to their assignment to LETQC (i.e.. similar to Fast Track). Internal candidates will remain on their extant engagement (EC, ES1) but will also be issued with a signed agreement (Annex 73L) outlining their agreed progress through the scheme.

c. All candidates will be given a competence marker (UGAS) on their JPA record to denote their membership of the scheme.

d. UGAS(WESM) candidates are badged as ETs and are trained alongside normal ETs and FTs.

e. **Failures.** Failures or voluntary withdrawals during training are required to complete any RoS incurred during training and will be offered progression along the normal ET route. The only exception is for new-to-service candidates who withdraw from the scheme before qualification as a LET(WESM). These individuals must be considered on an individual basis. It may be in the interests of the Service to waiver the RoS requirement and allow them to leave the Service.

f. Substantive UGAS LETs will not be considered at the next annual promotion selection boards following removal from the scheme but will be presented to promotion selection boards thereafter providing that they continue to meet the eligibility criteria.

4. Training

a. The UGAS scheme attempts to utilise existing courses within HMS COLLINGWOOD / RNSMS / ATF / TTF and avoid the need to develop new courses or re-sequence the existing training plan. There is a requirement, however, to conduct some electrical safety testing training to ensure all new-to-service candidates can safely attend the practical modules of LETQC and subsequent specialist training. The training route is detailed at Annex 73M.

b. SMQ is a valuable qualification that will set an SM context before commencing specialist shore training and education. This is a de-risking activity that gives candidates a first exposure to submarines before the Service invests significant elements of shore training in them[9].

[9] Note qualifying SMQ(Wet)/BSQ is not compulsory prior to starting LETQC.

5. Employment Onboard

a. Despite having received maintainer education and training, UGAS (WESM) experience levels will be low when they qualify as POET WESMs. Therefore, given their limited experience profile as a maintainer, each operational SSN crew will be expected to sustain no more than two UGAS (WESM) individuals (of different sub-specialisms) or three for SSBNs (2 TWS and 1 SWS) per year. Candidates will need to be carefully managed on and across platforms in order to maximise their experience profile and opportunity to learn. With the WEO's approval, they can operate as a section head[10]. At this point the submarine may then be able to tolerate another UGAS (WESM) member. While constrained in its numbers, the scheme will alleviate forecast gapping at sea and bring relief to POET WESM alongside watch bills. These individuals will be able to perform operations and maintenance, but are not able to immediately act as a Section Head or mature diagnostician.

b. Experience will need to be built up in the first year onboard as a POET, however the quality of the individual supports the case for rapid learning abilities, whilst allowing for later selection as Upper Yardman or promotion to Warrant Officer.

6. Management of the Scheme

a. The UGAS Scheme Manager function is undertaken by the ATA(SM). Administration includes:

(1) Liaison and communication inform the actions of CNR / R&A staff, Career Managers, SubFlot and training deliverers et al to ensure flow along this novel career pipeline is as effective and efficient as possible.

(2) The ATA(SM) is required to carry out the following functions:

(a) Communicate, encourage and mentor candidates and, where necessary, interview them during recruiting and training.

(b) Liaise with training providers and CM to expedite rapid progress of candidates through training and education and ensure advancement.

(c) Liaise with CM to ensure appropriate first drafts as LETs to maximise their 12 month sea training phase.

(d) If necessary, manage any extension of their Tailored Career Agreement to allow sufficient time to obtain the minimum 36 months qualified sea service and align the end of this to the start of the degree phase[11].

(e) Maintain overview of resource implications e.g. UY scheme cost, SUL and MWS capacity, margin during training and UY degree.

[10] Full POET maintainer status will be gained on WEO recommendation for and appointment as a Section Head.
[11] In exceptional circumstances, candidates may be offered an opportunity to extend their engagement by 1 year to complete their training/sea assignments and attend Portsmouth University 1 year later than originally planned.

(3) The RoS for the in-service degree is to be waivered and this agreement is written into the Tailored Career Agreement for new-to-service candidates and the UGAS(WESM) agreement for in-service candidates.

(4) The Foundation Degree (FD) awarded during POET QC is a fundamental aspect of the UGAS entry path and is not to be diluted to an apprenticeship.

b. **Interviews.** UGAS applicants will undergo an interview to determine suitability for the scheme which will be conducted by the ATA(SM) or CNR / R&A staff.

ANNEX 73K

UNDERGRADUATE APPRENTICESHIP SCHEME MARINE ENGINEER (SUBMARINE), UGAS(MESM) - CONOPS

1. Introduction

a. The intent of the UGAS(MESM) is to mitigate shortfalls of RPOs/MCDOs/ METOWs[1] and submarine electrical and mechanical maintainers at Petty Officer level. It will achieve this by taking very able new-to-service candidates, with high academic achievement, and accelerate them along the MESM ET career path in 6 phases, as follows:

(1) **Initial Training Phase.** Scheme members will conduct Phase 1 new entry training at HMS RALEIGH as probationary LETs (see Para 7303) and will then be assigned to the Submarine Qualification (SMQ) organisation to complete general submarine training, some of which may be in an operational submarine. This could[2] lead to the award of the Submarine Badge (Dolphins). During, or shortly after, SMQ candidates will be streamed MESM or WESM. On successful completion of SMQ(Dry) (including Firefighting and submarine escape training), candidates will be awarded the 'HM Submarines' cap tally. At this point they will be designated as Phase 3 trainees although they will remain on the Untrained Strength. This phase will take approximately 6 months in total, including an engineering safety course at HMS SULTAN and a Developing Leadership course at HMS COLLINGWOOD.

(2) **First Shore Training Phase.** Scheme members streamed MESM will then then be assigned to HMS SULTAN to attend:

(a) ME176 Leading Engineering Technician's (LET) Qualification Course for MESMs (LETQC(MESM)).

(b) ME256 LET Propulsion Electrical Maintainer Course or ME257 LET Propulsion Mechanical Maintainer Course (dependent upon streaming during ME176).

(c) RNLA102 Leading Rates' Leadership Course (LRLC).

(d) ME301 Nuclear Propulsion Systems Course (NPSC).

(e) Appropriate Craft/Adqual courses[3]/FAST courses.

[1] Reactor Panel Operator/Main Control Desk Operator/Marine Engineering Technician of the Watch.
[2] As a minimum new to service UGAS candidates are required to complete SMQ (Dry) prior to LETQC.
[3] E.g. ME258 or ME259 Mechanical Craft courses or ME301L Electrical maintainer training.

This phase of training will take approximately 15 months. Subject to satisfying service and eligibility criteria, candidates will be substantiated as Leading Engineering Technician at the start of NPSC. On successful completion of the LETQC and Apprenticeship tasks and associated portfolio during the Sea Training Phase, they will be awarded a Level 3 Advanced Apprenticeship in Engineering. On successful completion of the whole LET training pipeline they will join the trained strength (GTS) iaw Para 7306.

(3) **Sea Training Phase.** UGAS (MESMs) will be assigned to a SM tagged position in an operational submarine to achieve or re-affirm their submarine qualification (BSQ), or re-qualify BSQ if already achieved at the initial training phase. They must then qualify as:

(a) Category D Watchkeeper.

(b) Category C EPO/SCPO/MMSS[4].

(c) Manoeuvring Room Shut Down Supervisor.

Once qualified, they will be eligible for full (not reserve) RRP(SM) and Category C (RRP(NP)). If they fail to achieve these requirements they will not be eligible for the pay until the milestones are achieved in the sea delivery phase. They will be carefully managed in order to conduct maintenance and repair tasks under supervision, gaining experience in operations, maintenance, section management and repair. ***This 'journeyman' phase of their career path should take no more than 12 months to meet POETQC course start dates and includes a minimum 6 months qualified as a Category C Watchkeeper and 3 months qualified as a Manoeuvring Room Shut Down Supervisor. If operational circumstances prohibit these being achieved, they can be deferred until the start of the post POETQC sea delivery phase. If this deferral is to be enacted, the ATA(SM) is responsible for recording the qualification dates and journeyman's time achieved within each position to ensure the shortfall is captured and 'worked out' at the start of the sea delivery phase, prior to the Category B qualification being awarded. Pre-Promotion requirements to POET remain iaw Para 7308.***

(4) **Second Shore Training Phase.** After their sea training phase, candidates will return to HMS SULTAN to attend:

(a) ME264 Petty Officer Engineering Technician Qualifying Course (POET(MESM)QC)[5].

(b) ME265 POET Advanced Propulsion Electrical Maintainer Course or ME266 POET Advanced Propulsion Mechanical Maintainer Course.

(c) ME304 Nuclear Propulsion Operators Course (NPOC).

(d) Senior Rates Leadership Course (SRLC).

[4] Electrical Panel Operator/Systems Control Panel Operator/Main Machinery Space Supervisor.
[5] This course is due to be replaced by the Project Faraday POETQC(SM) – course ME178.

(e) ME267 Foundation Degree module.

(f) ME303/436 POET pipeline courses.

(g) Appropriate Adqual courses[6].

Completion of these courses will conclude shore-based training on the UGAS and this phase will last approximately 15 months. During this phase, they will complete the Engineering Foundation Degree. Towards the end of this phase UGAS ratings will become eligible for advancement to Acting POET as detailed in Para 7308.

(5) **Sea Delivery Phase.** Scheme members will be assigned to an operational submarine in order to conduct onboard training to qualify as a Category B Watchkeeper (RPO/MCDO/METOW) and electrical or mechanical systems maintainer, shutdown supervisor and deputy section head. Upon qualification as a Category B Watchkeeper, and subject to the promotion eligibility criteria within Para 7308, they will be advanced to Petty Officer Engineering Technician. **If the individual has a residual Cat C/MRSDS shortfall carried over from the Sea Training Phase, this must be achieved prior to the Category B qualification being awarded**. Service as a Section Head will be at the discretion of the Marine Engineering Officer but UGAS(MESM) candidates are expected to achieve Section Head within one year of qualifying as a Category B Watchkeeper. This phase of their career will last approximately 38-44 months but must include a minimum of 36 months' qualified Category B service during which they must achieve OPS. At the end of this phase they will complete or be deemed to have completed any RoS outstanding for LET and POET QCs.

(6) **University Degree Phase.** The exact timing of the end of the sea delivery phase will be based around a number of factors: the need to serve a minimum of 36 months as a qualified Category B operator; any leave outstanding and the pre-requisites[7] required before candidates start[8] the 3rd year of the University of Portsmouth/Upper Yardman (Engineer) degree course to top up the Foundation Degree to BEng(Hons). Whilst reading for their degree, candidates will remain serving members of the RN. There is no RoS for attaining the BEng. In the January prior to starting at the University of Portsmouth, UGAS personnel will be required to indicate to the RN career management authorities which of the paths at Para b below they will choose upon the posting of their degree results.

b. **Options Upon Completion of the Scheme.** On completion of their one year of university study, New-to-Service UGAS(MESM) members will have the following 3 choices:

(1) Transfer to the standard ET career pipeline where further progression will be subject to the normal rules for promotion.

[6] eg. ME303 courses – Diesel Maintainer, Primary Instrumentation Maintainer, Refrigeration and ACP Maintainer.
[7] Bridging modules are a pre-requisite for the UGAS degree scheme and typically start in July.
[8] Academic year starts in September.

(2) If an AIB pass has been achieved and they have been selected, join BRNC as a prospective MESM Engineer Officer.

It is recommended that all reporting requirements for selection to UY/SUY are completed prior to assignment from Sea Delivery phase.

(3) Leave the Service in accordance with the Tailored Career Contract.

c. UGAS(MESM) is therefore a minimum[9] 8.5-year engagement which is planned to generate a MESM POET Cat B Watchkeeper/maintainer approximately 3.5 years from entry to complete a minimum of 36 months qualified service as a RPO/MCDO or METOW. The duration of their sea assignment is variable to allow scheme members to serve a minimum of 36 months qualified before departure from their submarine to match the September start to the academic year and pre-degree mathematics bridging modules.

d. This scheme has not replaced the ET MESM Fast Track/restructured ET pipeline, but should be seen as running in parallel and could be continued or stopped as required; as of Summer 2021 recruitment for UGAS personnel ceased. It is therefore NOT an immediate solution to the Cat B operator shortage but allows greater future MESM flexibility and adaption to successor submarine requirements.

e. It is envisaged that the cohort of UGAS(MESM) will be small (eg. 12 M and 12 L to qualify as a Cat B per year) and therefore it does not set a precedent for the way all submariners are recruited, managed or employed. Nevertheless, there are areas where these individuals will need to be treated differently from standard Service entrants and they will need to be carefully, and on occasion preferentially, managed as they progress along the scheme's pipeline.

2. Recruitment

a. The scheme targets recruitment from a demographic of high achievers with proven academic ability. Potential candidates will be drawn from civilian personnel who already hold a minimum of level 3+ STEM qualifications (eg. A Levels, BTech, HNC/D NVQ level 3. Although candidates are badged as ETs, and mixed with conventional ETs during training, the scheme is separate from the current ET system and candidates are managed by the ATA(SM) in conjunction with the CMs.

b. The following premise underpins the scheme. A high quality[10] candidate is recruited to an approximate 8½ year engagement[11] with the offer of paid nuclear training and education that delivers an in-service engineering degree at the end of the scheme. The candidate's remuneration and reward rises rapidly to a significant figure at the 6-year point and continues during their final year on the scheme where they complete the UY degree at Portsmouth University. During the scheme this quality individual could attend an AIB to widen the available options open to them upon graduation.

[9] This is a minimum because it is not possible to align exact qualification and training times, sea draft duration and Portsmouth University Degree start dates at this range.
[10] Aged 18-34, 3 A levels (Math, science, other), RT score >= 90 other equivalent L3 STEM qualification.
[11] Such short-term engagements suit the expectation of Gen Z (future recruiting demographic) A Vision for a Future Model of Manning Submarines Adm Mathias dated Mar 15.

c. The important factor is that the choice belongs to the individual; this is a recruiting lure. In return, the Service expects significant application from the individual during shore and sea training followed by approximately 4 years sea service, of which 3 years will be as a qualified RPO/MCDO or METOW.

d. **Entry Requirements.** UGAS(MESM) entry requirements are as follows:

(1) Age on entry of 18 – 34 years.

(2) Be a British Citizen and not hold dual nationality.

(3) Score 90 or more on the Recruit Test (not on CNR website).

(4) Hold the following qualifications (equivalent qualifications are acceptable and UGAS(MESM) applications can be made before exam results are known):

(a) 5x GCSE at grade 9 – 4 (A*-C), including Maths, English and at least one science-based subject.

(b) Level 3 qualifications achieving a minimum of 48 UCAS points derived from Science, Technology, Engineering and Maths subjects.

(c) Equivalent Level 3 or higher STEM qualifications (BTEC, HNC etc) are also acceptable. Full details are included in the UGAS CONOPS held by the ATA(SM).

3. Terms and Conditions of Service

a. **New To Service Candidates.** The approximate 8½ year engagement is non-NEM compliant, but candidates will be engaged using a tailored career agreement (example at Annex 74C). Submarine programmes, training delays and the exigencies of Service life, however, may delay progress along the UGAS(MESM) career pipeline. Therefore, it may be necessary to extend the Tailored Career Agreement to allow sufficient time for candidates to obtain the minimum 36 months qualified sea service and align the end of this to the start of the degree phase[12]. This is a function of the UGAS(MESM) Manager / ATA(SM).

b. **In-Service Candidates.** In Service candidates who have been selected onto the scheme, will be required to progress their training. Internal candidates should complete their initial career course and then attend SMQ. Any opportunities to consolidate ET initial career training should be taken prior to their assignment to LETQC (ie. similar to Fast Track). Internal candidates will remain on their extant engagement (EC, ES1) but will also be issued with a signed agreement (Annex 73L) outlining their agreed progress through the scheme.

c. All candidates will be given a competence marker (UGAS) on their JPA record to denote their membership of the scheme.

[12] In certain circumstances, candidates may be offered an opportunity to extend their engagement by 1 year to complete their training/sea assignments and attend Portsmouth University 1 year later than originally planned.

d. UGAS(MESM) candidates are badged as probationary LETs and are trained alongside normal ETs and FTs.

e. **Failures.** Failures or voluntary withdrawals during training are required to complete any RoS incurred during training and will be offered progression along the normal ET route. The only exception is for new-to-service candidates who withdraw from the scheme before qualification as a Category C Watchkeeper. These individuals will be considered on an individual basis as they can only serve their RoS as a Cat D but will not have attended ETICC. Dependent upon where they are in the UGAS(MESM) training pipeline, candidates may not be able to serve as a Category D Watchkeeper unless they complete ETICC. It may be in the interests of the Service to waiver the RoS requirement and allow them to leave the Royal Navy.

f. Substantive UGAS LETs will not be considered at the next annual promotion selection boards following removal from the scheme, but will be presented to promotion selection boards thereafter providing that they continue to meet the eligibility criteria.

4. Training

a. The UGAS scheme attempts to utilise existing courses within DSMarE and avoid the need to develop new courses or re-sequence the existing training plan. There is a requirement, however, to conduct some engineering safety training, to ensure all new-to-service candidates can safely attend the practical modules of LETQC and subsequent specialist training. The training route is at Annex 73N.

b. SMQ(Dry) is a valuable qualification that will set an SM context before commencing specialist shore training and education. It is a de-risking activity that gives candidates a first exposure to submarines before the Service invests significant elements of shore training in them[13].

5. Employment Onboard

a. Despite having received maintainer education and training, UGAS(MESM) experience levels will be low when they qualify as a Category B Watchkeeper. Therefore, given their limited experience profile as a maintainer, each operational crew will be expected to sustain only one UGAS(MESM) individual per watchkeeper union[14] per year. Candidates will need to be carefully managed on and across platforms in order to maximise their experience profile and opportunity to learn. With the MEO's approval, they can operate as a section head[15]. At this point, the submarine may be able to tolerate another UGAS(MESM) member. While constrained in its numbers, the scheme will alleviate forecast gapping at sea and bring relief to Shut Down Supervisor and Category B alongside watch bills. UGAS(MESM) individuals will be able to perform operations and maintenance, but are not able to immediately act as a Section Head or mature diagnostician.

[13] Note qualifying SMQ(Wet)/BSQ is not compulsory prior to starting LETQC.
[14] I.e.. 1 x RPO/MCDO AND 1x METOW per year.
[15] Full POET maintainer status will be gained on MEO recommendation for and appointment as a Section Head.

b. Experience will need to be built in the first year onboard as a POET, however the quality of the individual supports the case for rapid learning abilities, whilst allowing for later selection as Upper Yardman or Nuclear Supervisory Rating (Category A2).

6. Management of the Scheme

a. The UGAS Scheme Manager function is undertaken by the ATA(SM). Administration includes:

(1) Liaison and communication inform the actions of CNR / R&A staff, Career Managers, SubFlot and training deliverers et al to ensure flow along this novel career pipeline is as effective and efficient as possible.

(2) The ATA(SM) is required to carry out the following functions:

(a) Communicate, encourage and mentor candidates and, where necessary, interview them during recruiting and training.

(b) Liaise with training providers and CM to expedite rapid progress of candidates through training and education and ensure advancement.

(c) Liaise with CM to ensure appropriate first drafts as LETs to maximise their 12-month sea training phase.

(d) If necessary, manage any extension of their Tailored Career Agreement to allow sufficient time to obtain the minimum 36 months qualified sea service and align the end of this to the start of the degree phase[16].

(e) Maintain overview of resource implications eg. UY scheme cost, SUL & MWS capacity, margin during training and UY degree.

(3) The RoS for the in-service degree is to be waivered and this agreement is written into the Tailored Career Agreement for new-to-service candidates and the UGAS(MESM) agreement for in-service candidates.

(4) The Foundation Degree (FD) awarded during POETQC needs to be protected from reviews and any aspirations to steer training towards a higher apprenticeship that would see the FD negated.

b. **Interviews.** UGAS applicants will undergo an interview to determine suitability for the scheme, which will be conducted by the ATA(SM) or CNR / R&A staff.

[16] In exceptional circumstances, candidates may be offered an opportunity to extend their engagement by 1 year to complete their training/sea assignments and attend Portsmouth University 1 year later than originally planned.

ANNEX 73L

EXAMPLE UGAS TAILORED CAREER AGREEMENT (NEW TO SERVICE CANDIDATES)

Note. *This form is to be read in conjunction with its associated S3049 UGAS (DATE) -Notice/Attestation Form for entry/re-entry into or continuation in the Naval Service to serve on a TAILORED CAREER For The RN Undergraduate Apprenticeship Scheme - RN UGAS.*

OFFER OF A TAILORED CAREER TO:

NAME: .....

GENERAL TERMS AND CONDITIONS FOR NEW ENTRANTS OR RE-ENTRANTS JOINING THE ROYAL NAVY'S UNDERGRADUATE APPRENTICESHIP SCHEME - (RN UGAS)

It should be noted that:

Any offer made is dependent upon you meeting the required medical/fitness standards and security clearance/nationality status requirements for entry.

This letter outlines the main terms and conditions which will apply. You will also be subject to the terms and conditions in other publications and should note that terms and conditions are liable to change. Significant changes will usually be published through internal briefs and temporary memoranda, but Joint and single service references are amended regularly and you may not specifically be made aware of those which affect you. You will be treated in accordance with the terms and conditions extant at the relevant time and should ensure you remain up to date on policy which affects you. If in doubt, make enquiry through your Divisional line management.

1. Date of Entry

You will join HMS RALEIGH on ***(DATE)*** in order to undertake Phase 1 Training as a member of the Royal Navy's Undergraduate Apprenticeship Scheme (here after known as UGAS).

2. Career

a. You will initially enter on a Tailored Career (TC) of 8½ years. At this range it is expected that you will start your degree in *(DATE)*[1], with your service expected to end on *(DATE)* (after the posting of your graduation results from the University of Portsmouth/Upper Yardman (Engineer) degree course). The length of the TC may need to be altered, however, due to the uncertainties of submarine operations (which can delay sea training), the exact timing of training courses starting more than 3 years in the future, your own abilities, unforeseen changes in your personal circumstances and the need to align the end of your sea service with the start of the university academic year. This could require that your TC is marginally shortened or extended. Any such extension will be agreed with you as a normal aspect of managing a TC.

[1] This could occur in the preceding academic year.

b. UGAS is designed to accelerate individuals through the RN's general engineering and submarine training and education programme in approximately 4 years, in order to serve as a **qualified** Petty Officer Engineering Technician for a minimum of 36 months in either the ET(MESM) or ET(WESM) sub specialisation. Qualified POET service is defined as either:

(1) ET(MESM): Category B Nuclear Watchkeeper (Reactor Panel Operator[2]/Main Control Desk Operator[3], or Marine Engineering Technician of the Watch[4],[5]), or

(2) ET(WESM): Qualified Tactical Weapon System or Strategic Weapon System Maintainer & watchkeeper.

During the first part of your service you will be streamed by the RN as either UGAS(MESM) or UGAS(WESM) to serve in the ET(MESM) or ET(WESM) sub specialisations respectively. Once streamed, you will have no right to transfer to the other sub specialisation. If you choose to stay in the RN at the end of UGAS, you still will not have a right to transfer to another specialisation.

c. At the end of the Scheme, you will have a choice of:

(1) Requesting to continue in the RN as an ET(MESM) or ET(WESM) on an Engagement Stage 2 which will extend your career to 20 years' service or age 40, whichever is later.

(2) Entering the Officer Corps as a MESM or WESM sub-specialist on the Upper Yardman or Senior Upper Yardman schemes (dependent upon age), subject to passing the Admiralty Interview Board[6] (AIB) and being selected.

(3) Leaving the RN with a BEng (Hons) degree and substantial Nuclear Engineering experience which will provide you with an exceptional basis to move into a civilian career, particularly if you pursue opportunities in the wider MOD and UK Nuclear and Submarine Enterprise.

You will be required to inform your Career Manager which of these options you intend to follow at least 12 months before the end of your TC. This will allow RN career management decisions and arrangements to be made.

3. Rate, Seniority and Pay

You will enter the Royal Navy in the rank of probationary Leading Hand with a seniority of *(DATE)* and will be referred to as Leading Engineering Technician MESM. Your Incremental Basic Date will be *(DATE)* and your pay will be OR4-1 Supp 3[7].

[2] ASTUTE Class.
[3] VANGUARD Class.
[4] VANGUARD Class.
[5] ASTUTE Class.
[6] The AIB is normally sat prior to the start of the Upper Yardman Degree Course.
[7] For details of pay related matters refer to JSP 754.

4. Discipline

You will be subject to normal disciplinary regulations in accordance with the Armed Forces Act 2006 and any disciplinary action which would normally result in reversion or dis-rating may cause the termination of your TC. You will also be subject to compulsory drug testing in accordance with current policy.

5. Deployability

Although you will have the same worldwide deployment liability as a regular Service Person, as a member of the UGAS, you have been recruited specifically for service in submarines.

6. Statutory Discharge and Notice Period

a. On entry to the RN, if you are a new recruit with no former RN service, you will have a statutory right to give 14 days' notice of your wish to leave within your first 6 months of service, providing that you have completed a minimum of four weeks' service (excluding any leave periods or time forfeited). Thereafter, your on-going training and education will attract a return of service (RoS) to reflect the RN's significant investment in ensuring that you are able to serve as a **qualified** POET(MESM) or POET(WESM) for a minimum of 3 years before you start your BEng degree. The current RoS for training courses that form part of the UGAS training pipeline are detailed at Para 12. Your ability to usefully serve a RoS is dependent upon how far you have progressed along the UGAS pipeline such that you are able to qualify to serve as a technician in a submarine. Therefore and at the discretion of the Branch Manager your RoS may be waivered.

b. When not subject to a RoS, you will be eligible to submit 12 months' notice of your wish to leave the Royal Navy; however, if you take this option, you will be removed from the UGAS and placed at an appropriate point in the standard Engineering Technician (MESM or WESM as appropriate) career pipeline to serve out the outstanding period. This is also dependent upon how far you have progressed along the UGAS pipeline, however, such that you are able to qualify to serve as a technician on a submarine; therefore and at the discretion of the Branch Manager, your 12 months' notice may be waived.

7. Transfer to another Branch or Specialisation

There will be no opportunity to transfer to another branch or specialisation whilst you are on the Scheme unless it is in the interests of the service.

8. Entry to the Officer Corps

If you pass an Admiralty Interview Board (AIB) whilst on the scheme and are subsequently selected for the Officer Corps, you will not be allowed to enter BRNC until you have completed the sea delivery phase as a qualified POET(MESM) or POET(WESM). It should be noted that Upper Yardman (Engineer) officers similarly cannot join BRNC until successfully completing the BEng degree course at the University of Portsmouth.

9. Advancement

Subject to meeting your training targets and the mandated advancement criteria set out in this letter, including passing an annual Royal Naval Fitness Test, you will become eligible for consideration for accelerated advancement to the rates of substantive Leading Engineering Technician and Petty Officer Technician during your time on the UGAS. Thereafter, your advancement will be in accordance with the standard promotion criteria[8] detailed in BRd 3(1) Part 8, with selection based on merit, qualification, recommendation and requirement. In addition, you may be eligible for promotion to the acting higher rate on a local acting basis if there is a Service need eg. a vacancy at the higher rate within your role/organisation.

10. Transfer to a Longer Career or Extension to your Tailored Career

a. If your training is delayed such that you are unable to complete your sea delivery phase and university phase within this TC the following rules apply:

(1) If your training is delayed for Service reasons (eg. due to submarine programmes), an appropriate extension to your TC will be offered. If you elect to refuse an extension, you will lose your entitlement to attend university if you fail to complete the sea delivery phase.

(2) If your training is delayed due to personal reasons, an extension of service may be offered. If an extension is not offered or if an extension offer is refused, you will lose your entitlement to attend university if you fail to complete the sea delivery phase.

b. You will not be eligible to transfer to another Engagement Stage or be considered for an Extended Career until you have completed your sea delivery phase. At this point, subject to satisfactory service, you can request to transfer to an ES2 in order to extend your service to be able to complete a total of 20 years or serve until age 40 (whichever is the later). Thereafter, further extensions of service or transfers to longer engagements may be offered if there is a Service requirement. Service on a TC is permitted up to the day before an individual's 55th birthday or up to 11 years' service in total and is totally dependent on the needs of the Service.

[8] For example, CO's recommendation, in-date RN Fitness Test, passed appropriate training courses.

11. UGAS – Outline Career Description

a. Your training and career pipeline will be as follows:

(1) **Initial Training Phase (Common). You** will complete Phase 1 new entry training at HMS RALEIGH (indicative salary £31,100)[9] and will then be assigned to the Submarine Qualification (SMQ) organisation to complete general submarine training, some of which will be on an operational submarine. Subject to service opportunities (eg. submarine availability), you may qualify as a submariner and gain your Submarine Dolphins during this phase. This phase of your training will take approximately 6 months in total, (indicative salary will be £31,100). Part way through this phase you will be streamed UGAS(MESM) or UGAS(WESM), and you will also attend an engineering safety course at HMS SULTAN and a developing leadership course at HMS COLLINGWOOD.

(2) If you are streamed UGAS(MESM), on completion of the Initial Training Phase:

(a) **First Shore Training Phase.** You will then be assigned to HMS SULTAN to complete any enabling training required before attending the Leading Engineering Technician's (LET) Qualification Course for submariners (ME 176 LETQC(SM)), ME257 Mechanical or ME256 LET Propulsion Electrical Maintainer, the Leading Rates Leadership Course (LRLC), and ME301 Nuclear Propulsion Systems Course (NPSC) and appropriate Craft and Adqual courses[10]. This phase of training will take approximately 15 months. You will be advanced to the rate of substantive Leading Engineering Technician at the end of NPSC, subject to satisfying service and eligibility criteria. On successful completion of the LETQC and Apprenticeship tasks completed during the Sea Training Phase, you will be awarded a Level 3 Advanced Apprenticeship in Engineering.

(b) **Sea Training Phase.** You will then be assigned to an operational submarine to qualify or re-affirm your submarine qualification and train and qualify as a Category D Watchkeeper, Category C Electrical Panel and Main Machinery Space Operator and Nuclear Propulsion Plant Shut Down Supervisor. At this point, you will be eligible for submarine pay[11] and Category C nuclear pay[12] (indicative total salary £36,700). On qualifying as a submariner you are also eligible for a £5,000 'Golden Hello'. You will conduct electrical maintenance and repair tasks under supervision; gaining experience in operations, maintenance, section management and repair. This 'journeyman' phase of your career path should take no more than 12 months and must include a minimum 6 months qualified as a Category C Watchkeeper and 3 months qualified as a Shut Down Supervisor. Unforeseen changes to submarine programmes or your own personal circumstances could extend this period.

[9] For details of pay related matters refer to JSP 754.
[10] For example ME258 or ME259 Mechanical Craft courses
[11] RRP(SM).
[12] RRP(NP).

(c) **Second Shore Training Phase.** After your sea training phase you will return to HMS SULTAN to attend the ME264 Petty Officer Engineering Technician Qualifying Course (POETQC), the ME265 POET Advanced Propulsion Electrical Maintainer Course or ME266 POET Advanced Propulsion Mechanical Maintainer Course, the ME304 Nuclear Propulsion Operators Course (NPOC), the Senior Rates Leadership Course (SRLC), the ME267 Foundation Degree module and appropriate specialist training modules[13]. Completion of these courses will conclude your shore-based training on the UGAS(MESM); this phase can last approximately 13 months. During this phase, you will complete your Engineering Foundation Degree.

(d) **Sea Delivery Phase.** You will be assigned to an operational submarine to conduct onboard training to qualify as a Category B Watchkeeper (Reactor Panel Operator/Main Control Desk Operator[14] or ME Technician of the Watch) and electrical or mechanical systems maintainer, shutdown supervisor and deputy section head. Upon qualification as a Category B Watchkeeper, subject to eligibility criteria, you will be considered for advancement to Petty Officer Engineering Technician. Service as a Section Head will be at the discretion of the Marine Engineering Officer but UGAS(MESM) candidates are expected to achieve Section Head status within a year of qualifying as a Category B Watchkeeper. This phase of your career will last approximately 38-44 months but must include a minimum of 36 months' qualified Category B service (indicative salary £42,500 - £48,500 per annum) and will see you complete any RoS outstanding for LET and POET training.

(e) **University Degree Phase.** The exact timing of the end of your sea delivery phase will be based around a number of factors: the need to serve a minimum of 36 months as a qualified Category B operator; any leave you have outstanding and the pre-requisites[15] you need to complete before you start[16] the 3rd year of the University of Portsmouth/Upper Yardman (Engineer) degree course to top up your Foundation Degree to BEng(Hons). Whilst reading for your degree, you will still be serving in the RN and will, therefore, remain subject to the Armed forces Act 2006. There is no RoS for attaining your BEng. Before you start your first term at the University of Portsmouth, you must inform the RN career management authorities which of the paths at Para 2c you will follow upon completion of your final examinations and the posting of your degree results.

[13] For example ME303 courses – Diesel Maintainer, Primary Instrumentation Maintainer, Refrigeration and ACP Maintainer.
[14] Dependent upon class of submarine.
[15] Maths module currently delivered in June is a pre-requisite for the UY degree scheme.
[16] Academic year starts in September.

(3) If you are streamed UGAS(WESM), on completion of the Initial Training Phase:

(a) **First Shore Training Phase.** Lasting approximately 2 years, you will be assigned to HMS COLLINGWOOD to attend the Leading Engineering Technician Qualifying Course (LETQC). Subject to satisfying service and eligibility criteria, you will be advanced to LET(WESM) at the end of specialist maintainer training (either TWS or Strategic Weapon System (SWS)). On successful completion of LETQC and Apprenticeship tasks during the Sea Training Phase, you will be awarded a Level 3 Advanced Apprenticeship in Engineering.

(b) **Sea Training Phase.** You will then be assigned to an operational submarine to re-affirm your submarine qualification and train/qualify in an appropriate WESM watchkeeping position. You will also conduct electrical or mechanical maintenance and repair tasks under supervision, gaining experience in operations, maintenance, section management and repair. This ‘journeyman’ phase of your career path should take no more than 12 months and must include a minimum 6 months qualified.

(c) **Second Shore Training Phase.** After your sea training phase, you will return to HMS COLLINGWOOD to attend the Petty Officer Engineering Technician Qualifying Course (POETQC). You may also attend additional specialist training dependant on WESM Streaming at either the RNSMS or the Trident Training Facility. Completion of these courses will conclude your shore-based training for UGAS (WESM). This phase will last approximately 40 weeks, during which time you will complete your Foundation Engineering Degree.

(d) **Sea Delivery Phase.** This phase of your career will last a minimum of 36 months qualified as a POET (WESM) maintainer in either the TWS or SWS sub departments, during which time you will be assigned to an operational submarine to conduct onboard training to qualify within your specialisation and working towards Deputy Section Head. Upon qualification as TWS Senior Rate or Ship board for SWS personnel, subject to eligibility criteria, you will be considered for advancement to POET. Service as a Section Head will be at the discretion of the Weapon Engineering Officer but UGAS (WESM) candidates are expected to achieve Section Head within one year of qualifying.

(e) **University Degree Phase.** The exact timing of the end of your sea delivery phase will be based around a number of factors: the need to serve a minimum of 36 months as a qualified POET (WESM) maintainer; any leave you have outstanding and the pre-requisites[17] you need to complete before you start[18] the 3rd year of the University of Portsmouth/Upper Yardman (Engineer) degree course to top up your Foundation Degree to BEng(Hons). Whilst reading for your degree, you will still be serving in the RN and will, therefore, remain subject to the Armed forces Act 2006. There is no RoS for attaining your BEng. Before you start your first term at the University of Portsmouth, you must inform the ATA(SM) which of the paths at Para 2c you will follow upon completion of your final examinations and the posting of your degree results.

b. The UGAS Manager: ATA ESM, Neptune Admin Building, HMS NEPTUNE, HMNB CLYDE, G84 8HL | NAVY PEOPLE-WFPT ATA ESM | should be contacted if you have any queries.

c. **Removal from the Scheme.** Your Career/UGAS Manager may remove you from the UGAS if you fail to meet your training targets in a timely manner or you are deemed unsuitable for further training[19]. In such circumstances, you will be transferred to an appropriate point in the standard ET(ESM) career pipeline and your case will be dealt with in accordance with the normal rules which can include discharge. If you are retained, you will still be subject to the normal notice period or any RoS you have accrued in return for the qualifications achieved and training received. If you become unsuitable for service in submarines, you will be transferred to an appropriate point in the standard ET(ME) career pipeline and your case will be dealt with in accordance with the normal rules which can include branch transfer or discharge. Probationary LETs will be re-rated ET1. Substantive UGAS LETs will not be considered at the next annual promotion selection boards following removal from the scheme but will be presented to promotion selection boards thereafter providing that they continue to meet the eligibility criteria (See Para 67-12).

12. Return of Service for Training

a. The aim of the UGAS is to secure 36 months' **qualified** sea service from individuals as a qualified POET(MESM) or POET(WESM). This requires the RN to make a substantial training and educational investment in you. Certain elements of this training will attract a RoS, as laid out below and, consequentially, you will not be eligible to submit your notice to leave the RN during the course or the associated ROS, with the exception of the last 12 months of any RoS, ie. the last year of a RoS and the 12-month notice period can run concurrently. Your ability to usefully serve a RoS is dependent upon whether you have progressed along the UGAS pipeline far enough to able to qualify to serve as a technician on a submarine; therefore, and at the discretion of the Branch Manager, your RoS/notice period may be waived if you have not progressed sufficiently.

[17] Bridging modules are a pre-requisite for the UY degree scheme.
[18] Academic year starts in September.
[19] Eg. Exam failures and low academic performance.

Table 73L-1. Return of Service for Training

Course	RoS	Comment
UGAS(MESM) LET Qualifying Course (ME176)	24 months	Liability is incurred at the start of LET QC but the RoS starts at the end of the LET pipeline, ie. end of ME301 Nuclear Propulsion Systems Course
UGAS(MESM) POET Qualifying Course:(ME264)	36 months	Liability is incurred at the start of POET QC but the RoS starts at the end of the POET pipeline ie. end of ME304 Nuclear Propulsion Operators Course
UGAS(WESM) LET Qualifying Course: (WE213 / 214X)	24 months	Liability is incurred at the start of LET QC but the RoS starts at the end of the LET pipeline, ie. end of LET(WESM) Specialist Maintainer Training Course
UGAS(WESM) POET Qualifying Course:(WE316)	36 months	Liability is incurred at the start of POET QC but the RoS starts at the end of the POET pipeline ie. end of POET(WESM) Specialist Maintainer Training Course

b. Towards the end of a successful completion of the sea delivery phase, you will be enrolled on the University of Portsmouth degree course, however, the RoS which is typically associated with Upper Yardman (Engineer) (UY(E)) officers undertaking the BEng course is not applicable to UGAS(MESM/WESM) candidates on the basis that it forms an integral part of the UGAS(MESM/WESM) offer. Your entitlement to attend the University of Portsmouth/UY (E) degree course is conditional upon you completing the sea delivery phase (ie. providing a minimum 36 months' sea service as a qualified POET(MESM) or POET(WESM) Watchkeeper).

c. During the University phase, you will continue to be paid your RN salary and enjoy standard Service entitlements common to UY (E) officer candidates at the University of Portsmouth. As a result, you will not be subject to tuition fees or any RoS for the degree that you obtain. Your UGAS commitment will conclude 30 days after your degree results are posted and will be reflected in your TC final end date.

13. Leave Entitlement/Career Intermissions

Entitlement to Annual Leave will be in accordance with JSP 760 Chapter 1, entitlement to Maternity/Paternity/Parental Leave will be in accordance with JSP 760. You will have no entitlement to a Career Intermission on this TC. Should you take Maternity/Paternity/Parental Leave and delay your progress, however, you will require an extension to your TC; noting that attendance upon the university phase is still conditional on completion of the sea delivery phase (ie. a minimum of 36 months' qualified sea service as a qualified POET(MESM) or POET(WESM)).

ANY LEAVE NOT TAKEN BEFORE COMPLETION OF THIS AGREEMENT WILL BE FORFEITED.

14. Appraisal Reporting

Appraisal Reports are to be completed at normal reporting cycles in accordance with JSP 757.

15. Honours and Awards

You will be entitled to receive honours and awards, including campaign medals, as long as you meet the same eligibility criteria as a regular Service Person.

16. Medical/Dental Care

You will be entitled to full medical/dental care.

17. Accommodation

You will be entitled to Service Family Accommodation or Single Living Accommodation, as appropriate.

18. Continuity of Education Allowances (CEA)

You will only be entitled to CEA where you have the same worldwide deployment liability as a regular Service Person and also meet the criteria in JSP 752. You will need to obtain a CEA Eligibility Certificate.

19. Relocation Allowances (DA/RE)

You will only be entitled to relocation allowances where you have the same worldwide deployment liability as a regular Service Person and also meet the criteria in JSP 752.

20. Pension Scheme

If you are a re-entrant then you are advised to contact the JPAC Enquiry Centre at Mail Point 465, Kentigern House, 65 Brown Street, GLASGOW G2 8EX (telephone: 0141 224 3600) prior to accepting these terms for detailed advice on your entitlement to a pension or the impact on your pension if already awarded. In accordance with Treasury rules, those in receipt of an Armed Forces pension are liable to have that pension abated on re-employment in the Forces. Where an individual has taken resettlement commutation and their pension in payment is subject to abatement in whole or in part, a reduction equal to the annual amount of pension commuted will be made from their pension where there is sufficient remaining or partly from pension, partly from pay, where there is insufficient pension remaining. Where the pension is fully abated, the commutation reduction will be taken wholly from pay.

21. Reserve/Recall Liability

For new entrants with no former service, you will have a reserve liability if you complete a minimum of 2 years' service. For those with former service, your reserve liability may be affected, and further details can be found in BR 61 Chapter 2 (Officers) or Chapter 3 (Other Ranks). If you complete 20 years' total qualifying service (previous military service may count towards this) for pension (via a TC extension and/or transfer to another engagement) then that liability will be in the Recall Reserve. See also Details are in BRd 3(1) Part 7 Chapter 54 Section 9 Para 5464 and Annex 54I.

22. Resettlement/GRT/Terminal Leave

Your entitlement to resettlement/GRT/terminal leave is governed by the length of the TC. The normal minimum length of service to qualify for GRT is 6 years unless someone is medically discharged. Your Resettlement entitlement is detailed in JSP 534. Terminal leave entitlement is as set out in JSP 760 and normally comprises one day per month of service up to a maximum of 14 days.

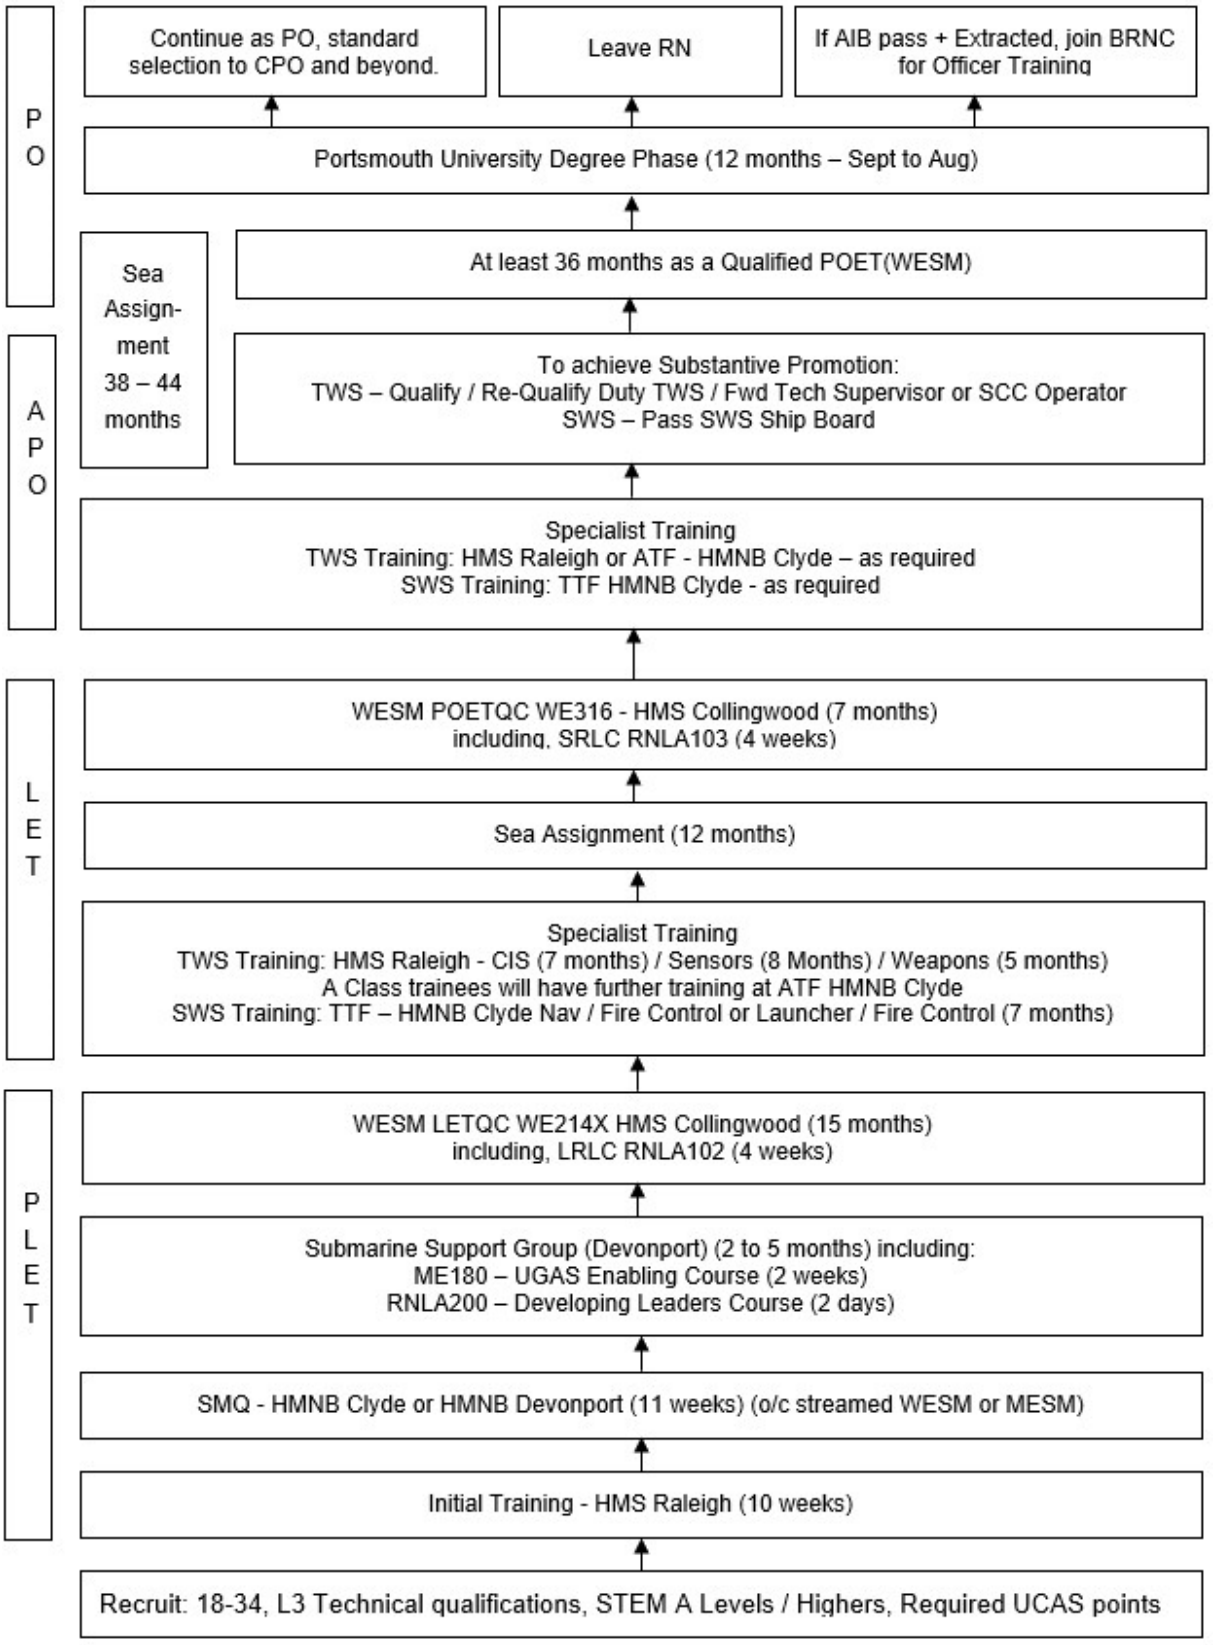
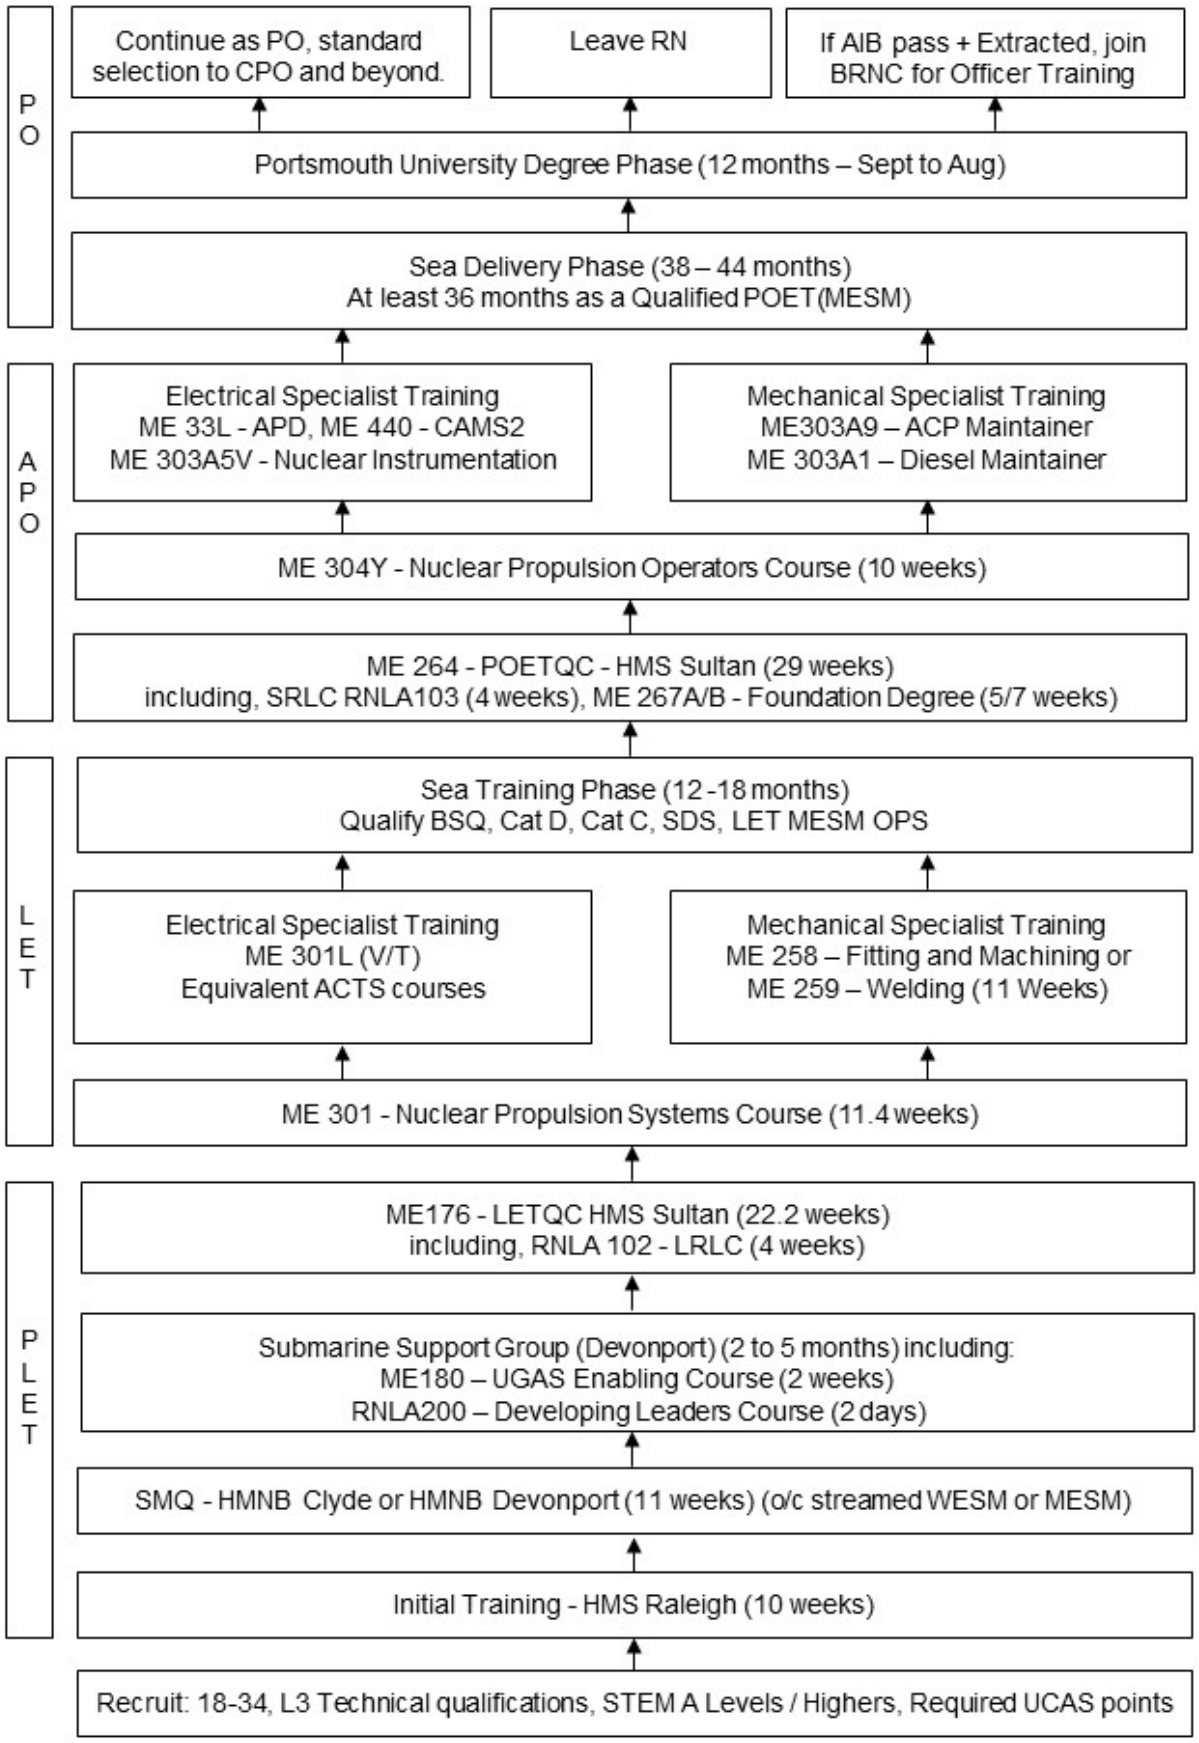
ANNEX 73M

UGAS (WESM) PIPELINE



ANNEX 73N

UGAS(MESM) PIPELINE



ANNEX 73O

UGAS UNIVERSITY PHASE

1. The final phase of the UGAS pipeline involves eligible candidates topping up the Fd Eng gained during POET training to a BEng(Hons) degree. Dependent on a candidate's Tailored Career (TC), the required degree top up course may be provided in-service or by attendance at the University of Portsmouth (UoP).

2. Separate arrangements are made for UGAS candidates who pass AIB and are selected to become commissioned officers. These candidates are to be transferred to SUY RA and AIB to be managed through UoP and on to BRNC as part of normal business. Membership of UGAS ceases upon transfer.

3. If the degree provision is made in-service, the following process applies:

Timing	Action
6 months before sea delivery phase is completed	a. ATA(SM) liaises with CM to assign UGAS POET to the relevant in-service course. b. ATA(SM), icw UGAS POET, liaises with BM/CM to determine and set the TC end date. UGAS membership ceases 30 days after the candidate's degree result is published. The TC end date should be set at a date after this that will accommodate candidates opting to leave the RN at the end of UGAS. It must allow sufficient service to cover outstanding GRT entitlement (iaw JSP534) and terminal leave. At the end date candidates opting to remain in the RN will be transferred to the appropriate ES engagement.
As required before start of in-service degree course	c. Assignment Orders issued.
Before start of in-service degree course	d. New-to-Service candidates only: Inform ATA(SM) & CM of intentions at end of the degree phase, either: (1) Request to remain as an Engineering Technician - ATA(SM) and CM arrange for transfer to ES2 on cessation of UGAS membership (30 days after degree results are posted). (2) Enter BRNC as an Engineering Officer (if AIB passed and selected) - ATA(SM) arranges transfer to UY scheme. (3) Leave the RN - ATA(SM)/CM will have set Tailored Career termination date at Action (2).
As promulgated	e. Attend in-service degree course.
30 days after degree results posted	f. UGAS membership ceases 30 days after UoP post degree results. g. For candidates remaining in the RN, transferred to ES2 contract & assignment as directed by CM.
As set at Action (2)	h. Tx date for UGAS candidates opting to leave the RN.

4. If the provision is made at UoP, the following process applies for a degree course that starts in September of year 'XX':

Timing	Action
Jan of year 'XX'	a. ATA(SM) directs Career Manager to assign UGAS POET to BRNC (Universities) from mid Jul XX (exact date varies) in time to conduct Thunderer Sqn joining routine and pre-degree bridging modules (exact dates of joining and modules set by UoP). b. ATA(SM), icw UGAS POET, is to liaise with BM/CM to determine and set the TC end date. UGAS membership ceases 30 days after the candidate's degree result is published. The TC end date should be set at a later date that will accommodate candidates opting to leave the RN at the end of UGAS. It must allow sufficient service to cover outstanding GRT entitlement (iaw JSP534) and terminal leave. At the end date candidates opting to remain in the RN will be transferred to the appropriate ES engagement. c. ATA(SM) passes details of UGAS POETs attending UoP to BRNC(Universities), SUL & MWS UY RAs (for info) and UoP Technology Admissions Office (see contact details at Para 5). d. UGAS POETs directed by ATA(SM) to complete UoP on-line application. See para 6. e. New-to-Service candidates only: Inform ATA(SM)/CM of intentions at end of UoP degree: (1) Request to remain as an Engineering Technician – ATA(SM) and CM arrange for transfer to ES2 on cessation of UGAS membership (30 days after degree results are posted - approximately July XX+1). (2) Enter BRNC as an Engineering Officer (if AIB passed and selected) - ATA(SM) arranges transfer to UY scheme. (3) Leave the RN - ATA(SM)/CM will have set Tailored Career termination date as detailed at Para 3 Action (2).
Feb - Mar 'XX'	f. Assignment orders issued. UGAS POETs arrange their accommodation in HMS NELSON WO & SR Mess, SFA or other.
Jun - Sep 'XX'	g. Join BRNC(Universities) as directed in Assignment Order and attend bridging modules. h. Proceed on leave as directed by BRNC(Universities) (as applicable)
Sep 'XX'	i. Start degree top-up course
Jun 'XX+1'	j. Complete degree course. k. UoP post degree course results.
Jul 'XX+1'	l. UGAS membership ceases 30 days after UoP post degree results. m. For candidates remaining in the RN, assignment as directed by CM
30 Aug XX+1	n. Tx date (as determined at Action e.(2)) for UGAS candidates opting to leave the RN.

Note. *Funding for UGAS candidates to attend UoP is provided under NCHQ Funding Line G47 NGA003.*

5. Points of Contact:

MWS UY RA	NAVY OP TRG-MWS WE TGSA	93825 2432
SUL UY RA	DSMarE-MERA	93843 2141
BRNC(University)	NAVY TRG BRNC-DDSON	
UoP Engineering Facilities Finance	paulinestewart@port.ac.uk	02392 842353
UoP Tuition Fee Dept		02392 845259
UoP Technology Admissions - Technology	admissions@port.ac.uk raquel.falcon@port.ac.uk	02392 845566

6. UGAS candidates attending the UoP are required to complete the university's online application. The following should be noted:

a. Applicants are to use SUL UY RA or MWS UY RA contact names as their Reference.

b. ATA(SM) and UY RA will have already sent UoP a generic reference for all candidates.

c. Do not enter Unique learner number or funding details.

d. To satisfy the requirement to submit evidence of recognised prior learning, UGAS candidates should upload their foundation degree certificates under section upload documents/educational certificates.

7. Any UGAS candidate failing the degree scheme will not attract any right or opportunity to repeat at Service expense. This includes candidates remaining in the RN at the end of the scheme who will not have any right to repeat whilst serving.

8. **SJAR Reporting.** Whilst at UoP personnel will receive a gapped SJAR, as line management will not have sufficient exposure to formulate a useful appraisal. If additional reporting is required, then personnel should inform line management to ensure sufficient engagement is achieved to warrant a full SJAR.

9. **UY / SUY Selection Reporting Requirement.** For those personnel pursuing selection to UY / SUY scheme whilst at UoP, all recommendations and reporting required should be present prior to attendance at University. Whilst at UoP, if additional Spec SJAR or Insert Slip is required by Recording Authority prior to Final Selection Board (FSB), 1RO and 2RO recommendations will refer to previous platforms assessment. This is achieved by a standard statement in the SJAR narrative. This action is necessary due to the lack of contact between the subject and any RN reporting chain. However, if the 1RO or 2 RO feels that sufficient contact has been made to warrant any recommendations, they are able to do so.

Notes:

1. *Candidates are required to achieve the minimum qualified service before starting the University Phase.*

2. *On cessation of UGAS membership, in-service candidates return to their extant ES engagement. Those wishing to leave the RN are subject to the normal rules regards submitting notice.*

3. *There is no return of service associated with the degree course.*

4. *UoP run one degree top-up course per year, starting in September.*

OFFICIAL-SENSITIVE PERSONAL (when complete)

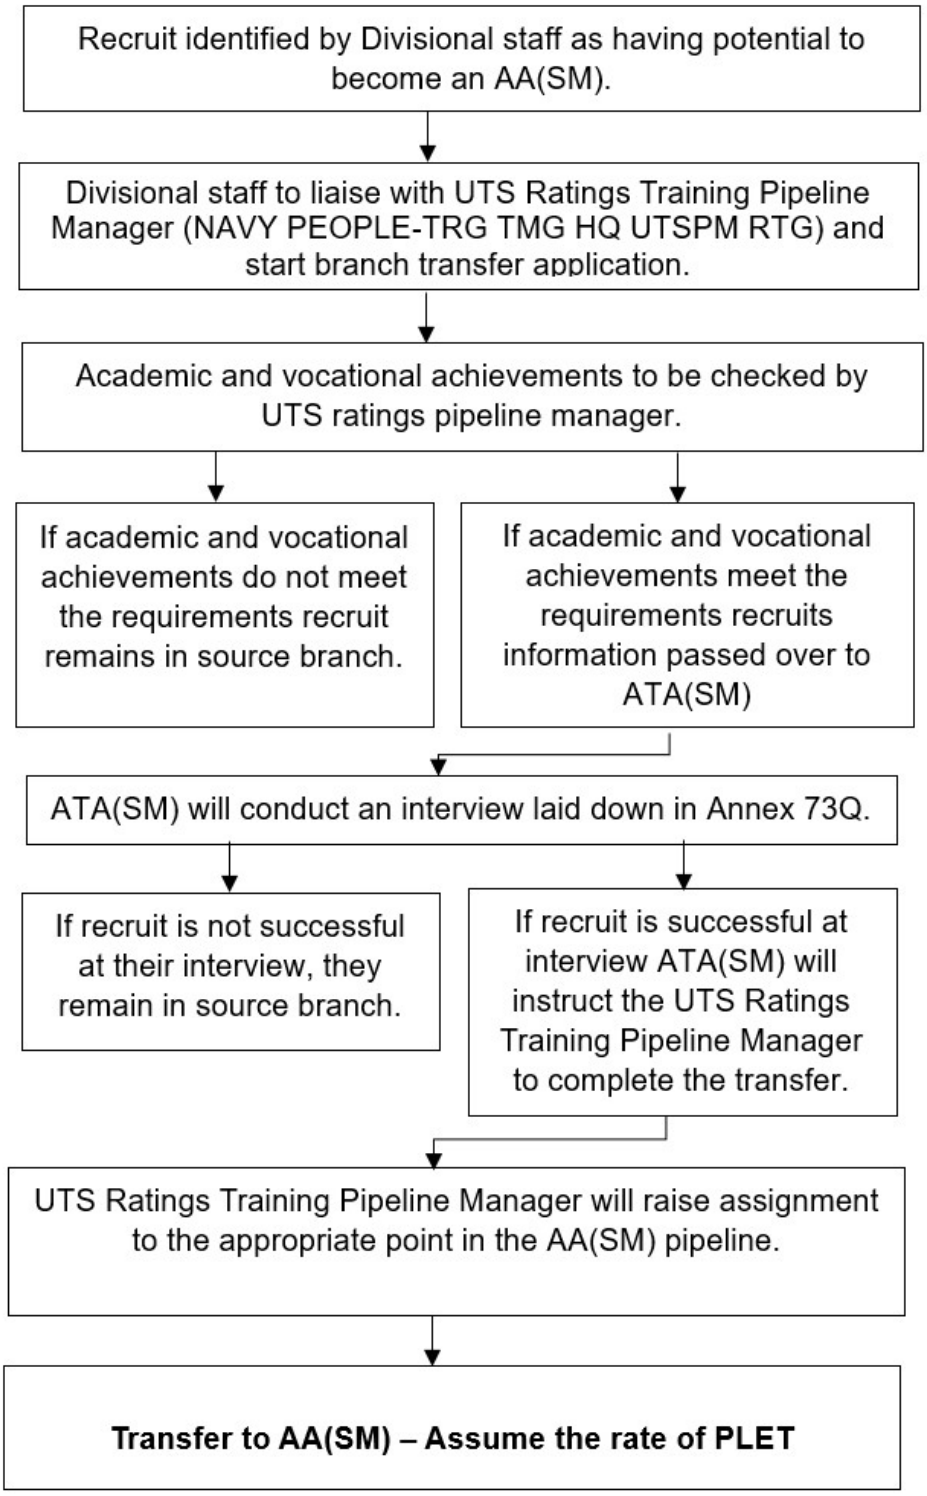
ANNEX 73Q

AA(SM) BRANCH TRANSFER AIDE MEMOIR AND INTERVIEW GUIDE

1. The flow chart below should be used by line management of personnel considering branch transfer application to AA(SM). Full details are found in Para 7304.

Figure 73Q-1. Branch Transfer Application Flowchart



2. The AA(SM) Selection Interview will take the following format:

a. **Introduction:** The interviewer will outline the requirements of the board.

b. **Candidate Introduction:** Candidates will be asked to give a brief on their background, interests and career to date.

c. **Training and Career Development:** Candidates should be able to demonstrate awareness of the LET and POET role.

d. **General Technical Knowledge:** Candidates will be expected to demonstrate a good knowledge of basic engineering systems, using diagrams if appropriate. They must be able to demonstrate an aptitude and understanding of basic engineering principles in both mechanical and electrical disciplines.

f. **General Awareness:** Candidates will be expected have an appreciation of the Royal Navy in terms of current and future platforms.

3. Questions should be based, where appropriate, around scenarios the individuals would likely have encountered before entering the RN. Use of diagrammatic explanations is acceptable. Allowances should be made for lack of board / interview experience.

CHAPTER 74

ENGINEERING PROFESSION - MARINE ENGINEERING

7401. Recommendations

Officers making recommendations for ratings' advancement, promotion, examination or courses, are to pay due regard to the conditions set out in Para 6901 and Para 6902 sub para d.

7402. Marine Engineering Examinations in the Fleet

a. All ME Professional Qualifying Certificate and Examinations are to be conducted in accordance with BR 2000(3)(1) and Chapter 69 Section 4.

b. For refusal to take a Professional Qualifying Course or mandatory examinations, see Para 6912.

7403. Return from Submarine Service to General Service

a. Ratings returning to General Service will retain their existing rate, seniority and, where appropriate, base Service Qualification (SQ). They will be required to gain/endorse the watch-keeping qualifications commensurate with their rate, in accordance with BR 2000 (3)(1) Article 0214.

b. Where ratings have been disrated/reverted prior to transfer, re-advancement will be in accordance with the rules in Chapter 70. Ratings will also be required to pass the relevant General Service career courses on re-advancement.

7404. Titles and Origins of Marine Engineering Ratings

a. The ME sub-branch comprises of Mechanics and Engineering Technicians. A full history of branch composition, including description of Marine Engineering Artificers, is available in BRd 2000(3)(1) Ch.6.

b. **Marine Engineering Mechanics.** Individuals comprise the following:

(1) Mechanics who entered after 1 Apr 94 but commenced Part II training before 6 Sep 98 were designated MEM and received common electrical and mechanical training during MEM2CC/ MEM1CC/ MEMCC. They were designated (M) or (L) prior to LMEMQC on which they received specialist mechanical and electrical training. They have a full Marine Engineering operator capability. Submarine Service Mechanics were also designated (M) or (L) prior to LMEMQC on which they received specialist mechanical or electrical training. They have a full Marine Engineering operator capability.

(2) All Mechanics who commenced Part II training after 6 Sep 98 are designated MEM and receive common electrical and mechanical training during MEICC. Submarine Service Mechanics are designated (M) or (L) prior to LMEMQC, on which they receive specialist mechanical or electrical training. They have a full Marine Engineering operator capability.

(3) General Service Mechanics who were designated MEM or MEM(L) and completed the common LMEMQC after 1 Sep 99 are designated LMEM. They have no SQ and have common electro-mechanical training and full operator capability.

c. **Engineering Technician (ET).** From April 2006, the ME sub-branch new entry consists of two ET sub-specialisations: Marine Engineering and Marine Engineering Submarine (MESM). All ETs receive common electrical and mechanical training during their ETICC. ET(MESM)s are designated either (M) or (L) whilst on LET(MESM) QC and receive specialist mechanical or electrical training. They have a full ME operator capability.

d. **Marine Engineering General Service Operating Model.** From September 2024, ET(ME) qualifying courses for NHR were structured to offer Engineer and Technician stream training. ET(ME)s are designated either ML1, EL, ML3 or Technician prior to conducting LET(ME) and POET(ME) QCs. ET(ME)s designated as ML1, EL or ML3 will receive specialist mechanical or electrical training.

(1) **Technician Training.** provides for a more watchkeeping and maintenance focused role. Training courses at METG are less academically challenging and aim to promote watchkeeping, maintenance, and general engineering principles.

(2) **Engineer Training.** provides for a more specialist role. Training courses at METG are academically challenging with individuals delivering at sea in roles akin to the traditional Deputy Section Head, Section Head and Group Head roles. They are considered as Subject Matter Experts (SMEs) for ME systems and equipment and specialise, as per already established streams, ML1, EL and ML3.

(3) **Stream Transfer.** opportunities are available to stream transfer, and this allows individuals to self-determine at what stage they may consider themselves ready to undertake specific roles. Transfer between Engineer and Technician roles is via a Streaming Transfer Board (STB) which is conducted termly by Branch. Individuals must ensure their stream preference is recorded correctly as per para 7406.b to be considered at an STB. Stream transfer is only available for LET-CPOET inclusive, they must be 12 months substantive in rank and will be subject to any RoS associated with specific training following transfer. The option to transfer between Engineer and Technician roles will cease on selection and acceptance of WO2 promotion. Stream transfer is also possible via promotion to the next higher rank, but the respective Pre-Selection Requirements must be satisfied to be considered for promotion.

(4) **MEGS FT, AA and MCC Schemes.** personnel selected for training on these schemes will train to deliver in an Engineer role. Completion of the scheme then places the individual on to STP with promotion iaw para 7406.

7405. Non-advancement and Re-advancement

a. Ratings who, for reasons of misconduct, incompetence or want of diligence, cannot be advanced or promoted within a reasonable period are to be reported to the Administrative Authority (Annex 54A) so that further retention in the Service can be considered. In cases which are subject to parliamentary correspondence or enquiry, or if the case involves security matters, recommendations are to be forwarded to the Navy Command Headquarters Casework Cell, through the appropriate Administrative Authority (Annex 54A), accompanied by all relevant Service Documents (including Appraisal Reports). The length of a reasonable period in this context must be determined by a rating's Commanding Officer, having regard to the system of advancement or promotion governing each branch/specialisation. Recommendation should not normally be delayed beyond completion of the following:

(1) ET(ME)2 - ET(ME) Harbour Watchkeeping Qualification not completed in first six months of sea service.

(2) ET(MESM)2 - MEMOC - MEMOC Parts A and B not completed in first 15 months of sea service.

(3) ET(ME)1 - ET(ME) Sea Watchkeeping Qualification on completing 12 months' sea service as an ET(ME)1.

(4) ET(MESM)1 - Full MEMOC Taskbook and RPS Assessment not passed on completing 15 months sea service as an ET(MESM)1.

b. Attention is drawn to Chapter 57 with respect to the formal warning of ratings.

c. **Re-advancement/promotion.** All ratings' re-advancement or re-promotion following disrating or reversion will be in accordance with Chapter 70. In general, re-advancement or promotion is time based and does not require re-qualification. Those seeking promotion, or requiring two years or more to regain their previous rate, will need to re-qualify in accordance with the regulations given below.

7406. Engineering Technician (Marine Engineering) - Promotion Regulations for Individual Competency Framework (ICF) Trained Ratings

a. The following rules apply to personnel who entered the RN as an Engineering Technician (Marine Engineer) and completed an Engineering Technician Initial Career Course (ETICC) on or after **23 Jan 15** and ET(ME) personnel who have completed an Individual Competence Framework (ICF) designed next higher rate Qualifying Course (QC).

b. **Streaming Preference**. The Streaming Preference is to be recorded on JPA as follows:

(1) Log on to JPA Self Service.

(2) Select – **My Career**.

(3) Select - **Employee Preferences** and in the First **'Comments'** box enters either:

(a) ML1, or

(b) EL, or

(c) ML3, or

(d) Tech

(4) Click Apply.

(5) The 1RO is to provide supporting evidence in the individual's SJAR of suitability for a streaming preference.

(6) Do Not enter the streaming preference in any other field, for example Job 1st Preference box, as SCIO will not pull the preference through to the promotions board.

7407. MEGS/MESM Fast Track Scheme

The Fast Track (FT) scheme will afford individuals an accelerated advancement route. Selection will be via a two-stage process with two available entry points; initially at ET and subsequently at LET. This takes account of individuals who develop at differing rates and gives a flexible career path to ensure that career progression through training and employment is better matched to the abilities of technicians. For full details on the ESM FT scheme, see Chapter 73.

7408. MEGS/MESM Accelerated Apprenticeship Scheme

a. **MEGS(AA):** MEGS Accelerated Apprentices (AA) join HMS RALEIGH as a Probationary Leading Hand (see Para 6809) until they become a Gain to the Trained Strength (GTS) as a POET on completion of a bespoke training pipeline (see Annex 74C). Further detail on the AA(GS) scheme may be found at Para 6810. The AA(GS) Warnings and Failure policy is laid down at Annex 68K.

b. **MESM(AA):** The first intake for ESM AA joined HMS RALEIGH in Nov 18; The MESM AA pipeline followed that of the UGAS but finished on completion of the First Shore Training Phase (see Annex 73K). Further detail on the AA(SM) scheme may be found at Ch73 Para 7304. The AA(SM) Warnings and Failure policy is laid down at Annex 73G.

7409. MEGS Maritime College Cadetship Scheme

The Maritime College Cadetship (MCC) scheme uses a combination of civilian college training and training at sea on an RN platform to expeditiously qualify a POET. This is followed by SRLC alongside their Select-Train-Promote (S-T-P) counterparts. Further detail on the MCC scheme may be found at Annex 74F.

7410. Marine Engineering Mechanics (Submarines)

a. All personnel who remain within the legacy Marine Engineering Mechanic specialisation and have not undertaken conversion training to the ET(MESM) specialisation must meet the same pre-selection and pre-promotion requirements as detailed within Annex 74B.

b. In order to meet the requirements of Nuclear Safety Management Arrangements[1] for the watchkeeping qualifications needed to meet the pre-selection criteria for the next higher rate, additional training may be required. If an individual wishes to undertake this additional training, then this will be arranged in consultation between the individual, their Career Manager and the MESM Branch Manager. On selection for the next higher rate any additional training requirements to convert them to the ET(MESM) branch will be completed with the specialisation transition occurring on the individual's CPD (subject to all pre-promotion criteria being met).

c. There is no longer a service requirement for promotion within the Marine Engineering Mechanic specialisation and all personnel must transfer to the ET(MESM) branch on promotion to the next higher rate.

[1] NRPA 3-4 'Training and Qualification of Naval Nuclear Propulsion Plant Operators and Shore Based Personnel.

ANNEX 74A

ENGINEERING TECHNICIAN (MARINE ENGINEERING) PROMOTION TABLES

1. Engineering Technician (Marine Engineering) - Promotion Regulations for Non-ICF Trained Ratings April 2006 to 22 January 2015

These personnel are considered to be Engineer trained at their substantive rank. Further promotion is iaw the promotion tables below.

2. Engineering Technician (Marine Engineering) - Promotion Regulations for Marine Engineering Mechanic Trained Ratings

Legacy trained Marine Engineering Mechanics (MEMs) are considered to be Technician trained at their substantive rank. Further promotion is iaw the promotion tables below.

ET(ME)2 to ET(ME)1

Table 74A-1. Advancement from ET(ME)2 to ET (ME)1

Requirement	Competency	Proficiency Level	Notes
Completed Phase 1 Training.			
At least 6 months since last Career Check (if any) on date due advancement.			
Completed ET(ME) Initial Career Course (ETICC).	ME|Engineering Technician (ME) Initial Career (ME150)|Navy|		
Display required proficiency in accordance with competencies as laid down in the ICF as ET(ME)2, authorised by HOD.	Professional| Engineering Technician (GS)|Navy'	'ET1 Sea 1'	1
Complete Mandated CDJ tasks (ETOW2 – To be completed within 6 months sea service).			
Recommended for advancement to ET(ME)1 by CO. Promotion Authorisation Request (PAR) forwarded to Flotilla Career Management Cell (CMC).			

Advanced to - ET(ME)1

ET(ME)1 to LET(ME)

Table 74A-2. Pre-Selection Requirements for LET(ME) Technician at Common Reporting Date (CRD)/Selection Eligibility Date (SED)

Requirement	Competency	Proficiency Level	Notes
Display required proficiency as an ET(ME)1	'Professional| Engineering Technician (GS)|Navy'	'ET1 Sea 2'	2, 3
Completed 12 months Sea service.	CMS|12 Months Sea Time AB|Navy'		
Passed Sea Watch Keeping Qualification.	Professional|ET1 Sea Watchkeeping Qualified| Navy		
Serving on an ES1/FC/OE1 that expires after the nominated Common Promotion Date (CPD) [1].			
Recommended for promotion on appraisal report at Selection Eligibility Date (SED).			4

Table 74A-3. Pre-Promotion Requirements for LET(ME) Technician

Educationally Qualified for promotion in accordance with Para 9615.			

Promoted to - Warrant Officer First Class Engineering Technician (Marine Engineering)

Notes:

1. Failure to Achieve the Eligibility Criteria for Advancement from ET(ME)2 to ET(ME)1. *For an ET(ME) 2 who is not achieving the eligibility criteria and, therefore, the subsequent recommendation for advancement, see rules at Article 7405.*

2. CDJ Competence/ICF Framework. *Display required proficiency in current rate. In accordance with competences laid down in the ICF Competency Matrix and the ICF Competency Levels; achieved within the sea employment space, evidenced within the individual's CDJ, authorised by HOD.*

3. Competent ET(ME)1s who are assigned to an operational ship with a different equipment fit to that in which the competence was gained. *Competent ET(ME)1s who are assigned to an operational ship with a different equipment fit to that in which the competence was gained must be endorsed by the MEO within 6 months' sea service (BR 2000(3)(1) Article 0214).*

4. Recommendation for Promotion. *Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation. For promotion up to the rate of PO, Streamlined Eligibility Dates (SED) of 31 Mar, 31 Jul and 30 Nov in any year will apply. If a streamlined promotion candidate has been awarded a positive recommendation for promotion (as above) in the last SJAR and, since that report, has become eligible in all other respects for selection, they will be placed before the Promotion Board.*

5. Failure to Complete Professional and/or Leadership Course. *Reference should be made to Para 6714 and 6703 b sub para 4 for rules on the impact on a rating's promotion if they fail to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (out with own control) or non-service reasons (within own control).*

6. Pre-course Learning. *Pre-course learning is to be completed in accordance with the policy of the relevant Training School. Where this is not achieved, the suitability of the individual to undertake the course will be determined on a case-by-case basis by the Commanding Officer HMS SULTAN.*

(Continued)

Notes: (Continued)

7. The suitability of individuals to retake failed elements of the QC or the requirement to be back classed. *The suitability of individuals to retake failed elements of the QC or be back classed will be determined by the Commanding Officer HMS SULTAN. A repeat failure of part/all the course may result in the individual being deselected, continuing to serve in the lower rate and their suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.*

8. Unsuitable Candidates. *Where, during the period of the Qualifying Course, candidates are found to be unsuitable for promotion to the next higher rate, they may be withdrawn from training by the Commanding Officer HMS SULTAN. In such cases, individuals will be deselected and will continue to serve in the lower rate. They will be eligible for future selection in normal course.*

9. Personnel who do not have sufficient length of service remaining to meet the requirement of any Return of Service (RoS) attached to a Qualifying Course (QC). *Personnel must agree on Form S61(Para 5304 sub para f) to serve any extension of service (EoS) that may be required to cover the length of the course and associated ROS. Acceptance of the EOS will be required prior to commencement of the relevant QC.*

10. Refusal to Undertake the QC. *If successful ratings decide to refuse the course, they will be deselected and continue to serve in their current rate.*

11. Qualifying Courses Failures. *For rules regarding failure, see Para 6912.*

12. Route to Engineer LET / POET / CPOET from Technician Promotion Table. *Personnel can move across to the Engineer Promotion Table but must be aware of any additional training requirement. Transfers will be considered by the Streaming Transfer Board.*

Notes:

1. *Failure to Achieve the Eligibility Criteria for Advancement from ET(ME)2 to ET(ME)1. For an ET(ME) 2 who is not achieving the eligibility criteria and, therefore, the subsequent recommendation for advancement, see rules at Article 7405.*

2. ***CDJ Competence/ICF Framework.*** *Display required proficiency in current rate. In accordance with competences laid down in the ICF Competency Matrix11 and the ICF Competency Levels12; achieved within the sea employment space, evidenced within the individual's CDJ, authorised by HOD.*

3. *Competent ET(ME)1s who are assigned to an operational ship with a different equipment fit to that in which the competence was gained. Competent ET(ME)1s who are assigned to an operational ship with a different equipment fit to that in which the competence was gained must be endorsed by the MEO within 6 months' sea service (BR 2000(3)(1) Article 0214).*

4. ***Recommendation for Promotion.*** *Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation. For promotion up to the rate of PO, Streamlined Eligibility Dates (SED) of 31 Mar, 31 Jul and 30 Nov in any year will apply. If a streamlined promotion candidate has been awarded a positive recommendation for promotion (as above) in the last SJAR and, since that report, has become eligible in all other respects for selection, they will be placed before the Promotion Board.*

5. ***Failure to Complete Professional and/or Leadership Course.*** *Reference should be made to Para 6714 and 6703 b sub para 4 for rules on the impact on a rating's promotion if they fail to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (out with own control) or non-service reasons (within own control).*

6. ***Pre-course Learning.*** *Pre-course learning is to be completed in accordance with the policy of the relevant Training School. Where this is not achieved, the suitability of the individual to undertake the course will be determined on a case-by-case basis by the Commanding Officer HMS SULTAN.*

(Continued)

Notes: (Continued)

7. *The suitability of individuals to retake failed elements of the QC or the requirement to be back classed. The suitability of individuals to retake failed elements of the QC or be back classed will be determined by the Commanding Officer HMS SULTAN. A repeat failure of part/all the course may result in the individual being deselected, continuing to serve in the lower rate and their suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.*

8. ***Unsuitable Candidates.*** *Where, during the period of the Qualifying Course, candidates are found to be unsuitable for promotion to the next higher rate, they may be withdrawn from training by the Commanding Officer HMS SULTAN. In such cases, individuals will be deselected and will continue to serve in the lower rate. They will be eligible for future selection in normal course.*

9. *Personnel who do not have sufficient length of service remaining to meet the requirement of any Return of Service (RoS) attached to a Qualifying Course (QC). Personnel must agree on Form S61(Para 5304 sub para f) to serve any extension of service (EoS) that may be required to cover the length of the course and associated ROS. Acceptance of the EOS will be required prior to commencement of the relevant QC.*

10. ***Refusal to Undertake the QC.*** *If successful ratings decide to refuse the course, they will be deselected and continue to serve in their current rate.*

11. ***Qualifying Courses Failures.*** *For rules regarding failure, see Para 6912.*

12. *Route to Technician LET / POET / CPOET from Engineer Promotion Table. Personnel can move across to the Technician Promotion Table but must be aware of the requirement for watchkeeping qualifications. Transfers will be considered by the Streaming Transfer Board.*

ANNEX 74B

ENGINEERING TECHNICIAN (MARINE ENGINEERING SUBMARINE) PROMOTION TABLES

1. Engineering Technician (Marine Engineering Submarine) - Entry from April 2006 - Promotion Tables

The following rules apply to New Entry personnel who entered the Service from April 2006 and legacy Mechanics post higher rate or enabling QCs, who transferred to ET as part of the Branch Development process.

ENGINEERING TECHNICIAN (MARINE ENGINEERING SUBMARINE) PROMOTION TABLES

ET(MESM)2 to ET(MESM)1

Table 74B-1 ET(MESM)2 to ET(MESM)1 Requirements

Requirement	Competence	Proficiency Level	Notes
Completed Part 1 New Entry Training and Part 2 Career Course (ETICC). On completion rating issued ETME Task book.	ME|Engineering Technician (MESM) Initial Career (ME175)|Navy|	Pass	1, 19
Completed SMQ(Wet) - Qualified Submariner.	SM|Submarine Service|Navy|	Pass	
At least 6 months since last Career Check (if any) on date due advancement.			
Completed Task Book for ET(MESM)2 (MEMOC A and B).	'Professional|Achieved MEMOC(SM) (Parts A and B) (DQ50)|Navy|'		2 – 3, 19
Recommended for advancement to ET(ME)1 by CO.			3

Advanced to ENGINEERING TECHNICIAN (MARINE ENGINEERING SUBMARINE) FIRST CLASS

ET(MESM)1 to LET(MESM)

Table 74B-2. Pre-Selection Requirements for LET(MESM) at Selection Eligibility Date (SED)

Requirement	Competence	Proficiency Level	Notes
Pass RPS ET1 MESM assessment.	'Professional|RPS for ET(MESM)|Navy'	Pass	4, 5, 19
Streaming Preference recorded on JPA as ML or EL.			
Serving on an ES1/FC/OE1 that expires after the nominated Common Promotion Date (CPD) (Para 6703 b sub para 6).			
Recommended for promotion on appraisal report at Selection Eligibility Date (SED) (Para 6703 b sub para 3).		Yes or higher	

Table 74B-3. Pre-Promotion Requirements for LET(MESM)

Requirement	Competence	Proficiency Level	Notes
Minimum 24 months length of service remaining post career course to complete attached Return of Service (RoS).			11
Completed Leading Rates' Leadership Course (LRLC) by nominated CPD.	'Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy	Pass	13, 18
Completed LET(MESM)QC by nominated CPD +12 months.	'ME|LET(MESM) Career (ME176)|Navy|'	Pass	7 – 8, 13, 18
Completed NPSC by nominated CPD+12 months	'ME|NPSC(V) - Nuclear Propulsion Systems Course (V Class) (ME301V)|Navy|' **or** 'ME|NPSC(T) - Nuclear Propulsion Systems Course (T Class) (ME301T)|Navy|' **or** 'ME|NPSC(A) - Nuclear Propulsion Systems Course (A Class) (ME301A)|Navy|'	Pass	7 – 8, 13, 18
At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).			

Promoted to –LEADING ENGINEERING TECHNICIAN (MARINE ENGINEERING SUBMARINE)

Table 74B-4 Pre-Selection Requirements for POET(MESM)

Requirement	Competence	Proficiency Level	Notes
Completed LET(MESM) Task Book.			9
If employed in an Aft ME position, to hold the Professional Qualifying Certificate Cat C Watch Keeper (EPO/SCPO **or** MMSS) **and** Manoeuvring Room Shut Down Supervisor (MRSDS). Qualification to be achieved within 12 Months Sea Service.	'Professional|SM Category 'C' Nuclear Watchkeeper|Navy|' **and** 'Professional|SM Shut Down Supervisor|Navy|'	Pass	
If employed in a Ship System position, to hold the Professional Qualifying Certificate Submarine Control Console Operator (SCCOP) **and** Duty Fwd Tech Supervisor (DFTS). Qualification to be achieved within 12 Months' Sea Service.	'Professional|SM Control Console Operator|Navy|' **and** 'Professional|SM Shut Down Duty Forward Technical Supervisor|Navy|'	Pass	
Recommended for promotion on appraisal report at Selection Eligibility Date (SED). Para 6703 b sub para 3.		Yes or higher	
Serving on an ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD. Para 6703 b sub para 6.			

Table 74B-5. Pre-Promotion Requirements for POET(MESM)

Requirement	Competence	Proficiency Level	Notes
Minimum 36 months length of service remaining post career course to complete attached Return of Service (RoS).			11
SCCOP, DFTS, Cat C and MRSDS all to be achieved. Those qualified Aft must qualify Fwd and vice versa. **(All must be achieved prior to attendance on POETQC).**	'Professional|SM Control Console Operator|Navy|' **and** 'Professional|SM Shut Down Duty Forward Technical Supervisor|Navy|' **and** 'Professional|SM Category 'C' Nuclear Watchkeeper|Navy|' **and** 'Professional|SM Shut Down Supervisor|Navy|'	Pass	
Pass RPS LET(MESM) assessment. **(Must be achieved prior to attendance on POETQC).**	'Professional|RPS for LET(MESM) DQ40|Navy'	Pass	10
Completed Senior Rates' Leadership Course (SRLC) by nominated CPD+12 months.	'Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy'	Pass	13, 18

(Continued)

Table 74B-6. Pre-Promotion Requirements for POET(MESM) (Continued)

Requirement	Competence	Proficiency Level	Notes
Completed POET(MESM)QC by nominated CPD +12 months.	'ME|POET(MESM) Qualifying Course (ME264)|Navy|'	Pass	7 - 8, 13, 18
Completed NPOC by nominated CPD+12 months	'ME|NPOC(V) - Nuclear Propulsion Operations Course (V Class) (ME304V)|Navy|' **or** 'ME|NPOC(T) - Nuclear Propulsion Operations Course (T Class) (ME304T)|Navy|' **or** 'ME|NPOC(A) - Nuclear Propulsion Operations Course (A Class) (ME304A)|Navy|'	Pass	7 - 8, 13, 18
At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).			
To be educationally qualified for promotion (EFP) iaw Para 9615.	'Educational|RN/RM English Level 2|Navy|' **Or** 'Educational|RN/RM English Proxy A*- C|Navy|Navy|' **&** 'Educational|RN/RM Mathematics Level 2|Navy|' **Or** 'Educational|RN/RM Mathematics Proxy A*- C|Navy|'	As achieved	

Promoted to – PETTY ENGINEERING TECHNICIAN (MARINE ENGINEERING SUBMARINE)

POET(MESM) to CPOET(MESM)

Table 74B-7. Pre-Selection Requirements for Chief Petty Officer (MESM) at CRD/SED

Requirement	Competence	Proficiency Level	Notes
Completed Post Course Study Guide.			9
Serving on an ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD. Para 6703 b sub para 6.			
Minimum of 3 years seniority as a PO, 12 months prior to the CPD. Para 6703 b sub para 2.			

(Continued)

Table 74B-8. Pre-Selection Requirements for Chief Petty Officer (MESM) at CRD/SED (Continued)

Requirement	Competence	Proficiency Level	Notes
Hold Professional Qualifying Certificate Double Cat B Watch Keeper. To be qualified as NRPO/NMCDO **and** NMETOW. Must have 6 months experience in one in addition to being qualified in both.	'Professional|SM Reactor Panel Operator/Main Control Desk Operator (Cat B)|Navy|' **and** 'Professional|SM Marine Engineering Technician of the Watch (Cat B)|Navy|'	Pass	
Completed 12 months Sea service as POET(MESM).	'CMS|12 Months Sea Time PO|Navy|'		16
Pass POET(MESM) RPS Assessment.	'Professional|RPS for POET(MESM) DQ31|Navy'	Pass	12
Recommended for promotion on appraisal report at CRD. Para 6703 b sub para 3.		Yes or higher	

Table 74B-9. Pre-Promotion Requirements for CPOET(MESM)

Requirement	Competence	Proficiency Level	Notes
Minimum 36 months length of service remaining post NPSupC to complete attached Return of Service (RoS).			11
Completed NPSupC by nominated CPD+12 months	'ME|NPSupC(V) - Nuclear Propulsion Supervisor Course (V Class) (ME305V)|Navy|' **or** 'ME|NPSupC(T) - Nuclear Propulsion Supervisor Course (T Class) (ME305T)|Navy|' **or** 'ME|NPSupC(A) - Nuclear Propulsion Supervisor Course (A Class) (ME305A)|Navy|'	Pass	13 - 14
Hold Professional Qualifying Certificate Cat A2 Watch Keeper by nominated CPD+12 months.	'Professional|SM Category 'A2' Nuclear Watchkeeper|Navy|'	Pass	15
At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).			

Promoted to – CHIEF PETTY ENGINEERING TECHNICIAN (MARINE ENGINEERING SUBMARINE)

CPOET(MESM) to WO2ET(MESM)

Table 74B-10. Pre-Selection Requirements for WO2ET(MESM) at CRD/SED

Requirement	Competence	Proficiency Level	Notes
Serving on an ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD. Para 6703 b sub para 6.			
Minimum of 3 years seniority as CPOET(MESM) 12 months prior to the CPD. Para 6703 b sub para 2.			
Hold Professional Qualifying Certificate Cat A2 Watch Keeper by CPD+12 months.	'Professional|SM Category 'A2' Nuclear Watchkeeper|Navy|'	Pass	15
Recommended for promotion on appraisal report at SED. Para 6703 b sub para 3.		Yes or higher	

Table 74B-11. Pre-Promotion Requirements for WO2ET(MESM)

Requirement	Competence	Proficiency Level	Notes
At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).			
To be educationally qualified for promotion (EFP) in accordance with Para 9615.		As achieved	

Promoted to – WARRANT OFFICER SECOND CLASS ENGINEERING TECHNICIAN (MARINE ENGINEERING SUBMARINE)

WO2ET(MESM) to WO1ET(MESM)

Table 74B-12. Pre-Selection Requirements for WO1ET(MESM) at CRD/SED

Requirement	Competence	Proficiency Level	Notes
Serving on an ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD. Para 6703 b sub para 6.			
To be a substantive WO2, or selected for WO2 but have yet to reach their CPD. Will be eligible for consideration regardless of the seniority held in their rate.			
Recommended for promotion on appraisal report at SED. Para 6703 b sub para 3.		Yes or higher	

Table 74B-13. Pre-Promotion Requirements for WO1ET(MESM)

Requirement	Competence	Proficiency Level	Notes
At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).			
To be educationally qualified for promotion (EFP) in accordance with Para 9615.		As achieved	

Promoted to - WARRANT OFFICER FIRST CLASS ENGINEERING TECHNICIAN (MARINE ENGINEERING SUBMARINE)

Notes:

1. *All new entrants are rated Engineering Technician (Marine Engineering Submarine) 2 (ET(MESM)2) on entry.*

2. *The ET(MESM) Task Book (MEMOC) will be issued on completion of Part 2 training (ET(MESM) career course).*

3. *On completion of ET(MESM) Task Book (Parts A and B), and on being recommended, ratings will be advanced to ET(MESM)1. Failure to complete ET(MESM) Task Book parts A and B within 15 months sea service should result in individuals being placed on warnings for discharge shore in accordance with Chapter 54 Section 7, unless extenuating circumstances exist.*

4. *Full MEMOC C is no longer required prior to undertaking RPS Assessment for ET(MESM). Prior to undertaking RPS Assessment for ET(MESM) the candidate must have completed: MEMOC(SM) Parts A and B Taskbook (tasks 2.1 to 2.3 and 4 to 8) and either:*

Any Cat D at sea watchkeeping position and Shutdown Watchkeeper

or

Submarine Control Console Junior Rate and Submarine Control Console Watchkeeper.

The Assessment is to be constituted in accordance with BR 2000(3) series (oral aspects only). Failure to achieve RPS (competence in the current rate) at ET1 within 18 months sea service as an ET(MESM)1 should result in individuals being placed on warnings for discharge shore in accordance with Chapter 54 Section 7, unless extenuating circumstances exist. Full MEMOC C must be completed prior to assignment to LET(MESM) QC.

(Continued)

Notes: (Continued)

5. *ET(MESM)1s who have been awarded a RPS and who are assigned to an operational submarine with different equipment fit to that in which the OC was gained need to re-qualify in the part of the ship to which they are assigned. Ratings who fail to gain this endorsement will lose the ET(MESM)1 RPS qualification and suffer any corresponding pay effects in accordance with JSP 754.*

6. *Selection Boards will be convened up to 3 times a year and the results of successful candidates announced on completion. Career Management will assign selected personnel to Qualifying Courses (QC) based on normal assignment principles and course capacity.*

7. *The suitability of individuals to retake failed elements of the QC, or to be back classed, will be determined by DSMarE. A repeat failure of part/all of the course will result in the individual being deselected; continuing to serve in the lower rate and their suitability for future higher rate QCs will be through the selection process and dependent on performance as reported in the annual SJAR.*

8. *Personnel selected for LET(MESM) QC will be streamed for either mechanical or electrical training, by a Selection Board whilst on the QC, with the following factors taken into consideration:*

a. ***Aptitude.*** *The Selection Board will have access to the ratings' technical and academic performance on their Part II training phase and performance whilst on the Common elements of the LET(MESM) QC will be considered.*

b. ***Commanding Officer's Recommendation.*** *Commanding Officers will be required to make a recommendation for sub-specialisation based on current performance and previous reports. Implicit in this requirement will be the need for Divisional Officers to comment, where appropriate, on a rating's aptitude for sub-specialisation training and employment in their SJAR.*

c. ***Personal Preference.*** *Ratings will be required to state their preference for sub-specialisation. The needs of the Service are paramount, however, and selection of first preference sub-specialisation cannot be guaranteed.*

d. ***Service Requirement.*** *The ESM Branch Manager will advise the Selection Board of streaming requirements.*

After selection, ratings will complete the appropriate training as part of their training pipeline. Ratings who do not wish to accept their nominated stream will be considered to have refused the higher rate QC and will remain at the lower rate.

(Continued)

Notes (Continued):

9. *The Task Books/Study Guides associated with the higher rate training pipeline are to be completed within 12 months' sea service after the QC.*

10. *The RPS Assessment for LET(MESM) will be constituted in accordance with BR 2000(3) series (oral aspects only). The date of the RPS award for the LET(MESM) will be the date of completion of the RPS Assessment having already passed the professional operator qualifications (SCCOP, DFTS, Cat C and shut down supervisor qualification). RPS is to be achieved within 30 months' sea service and prior to attending POET(MESM)QC.*

11. *Personnel who do not have sufficient length of service remaining to meet the requirement of the Return of Service (RoS) attached to the LETQC, POETQC or NPSupC may be offered an Extension of Service (EoS). Acceptance of the EoS will be required prior to start of LETQC, POETQC or NPSupC. Failure to accept an EoS will lead to the candidate being automatically de-selected.*

12. *The RPS Assessment for POET(MESM) will be constituted in accordance with BR 2000 (3) series (oral aspects only). The date of the RPS award for the POET(MESM) will be the date of completion of the RPS Assessment having already passed the professional operator qualification (Double Cat B Watch Keeper). RPS is to be to be achieved within 30 months' sea service).*

The following is applicable only to ex-mechanics (all rates) transferring to ET(MESM):

13. ***Refusal.*** *As is customary in a selection process, successful ratings will have the opportunity of refusing the course. Those doing so will be deselected and continue to serve in the lower rate.*

14. ***Unsuitable Candidates.*** *Where, during the course of the NPSupC, candidates are found to be unsuitable for promotion to CPOET, they may be withdrawn from training by DSMarE. In such cases, individuals will be deselected and will continue to serve as POETs. They will be eligible for future selection in normal course.*

15. ***Award of Submarine Service Marine Engineering Charge Certificate.*** *The Submarine Service Marine Engineering Charge Certificate will be awarded on successful completion of the NCOW training.*

16. *Completed 12 months sea service in current rank, JPA competence recorded iaw Para 5908.*

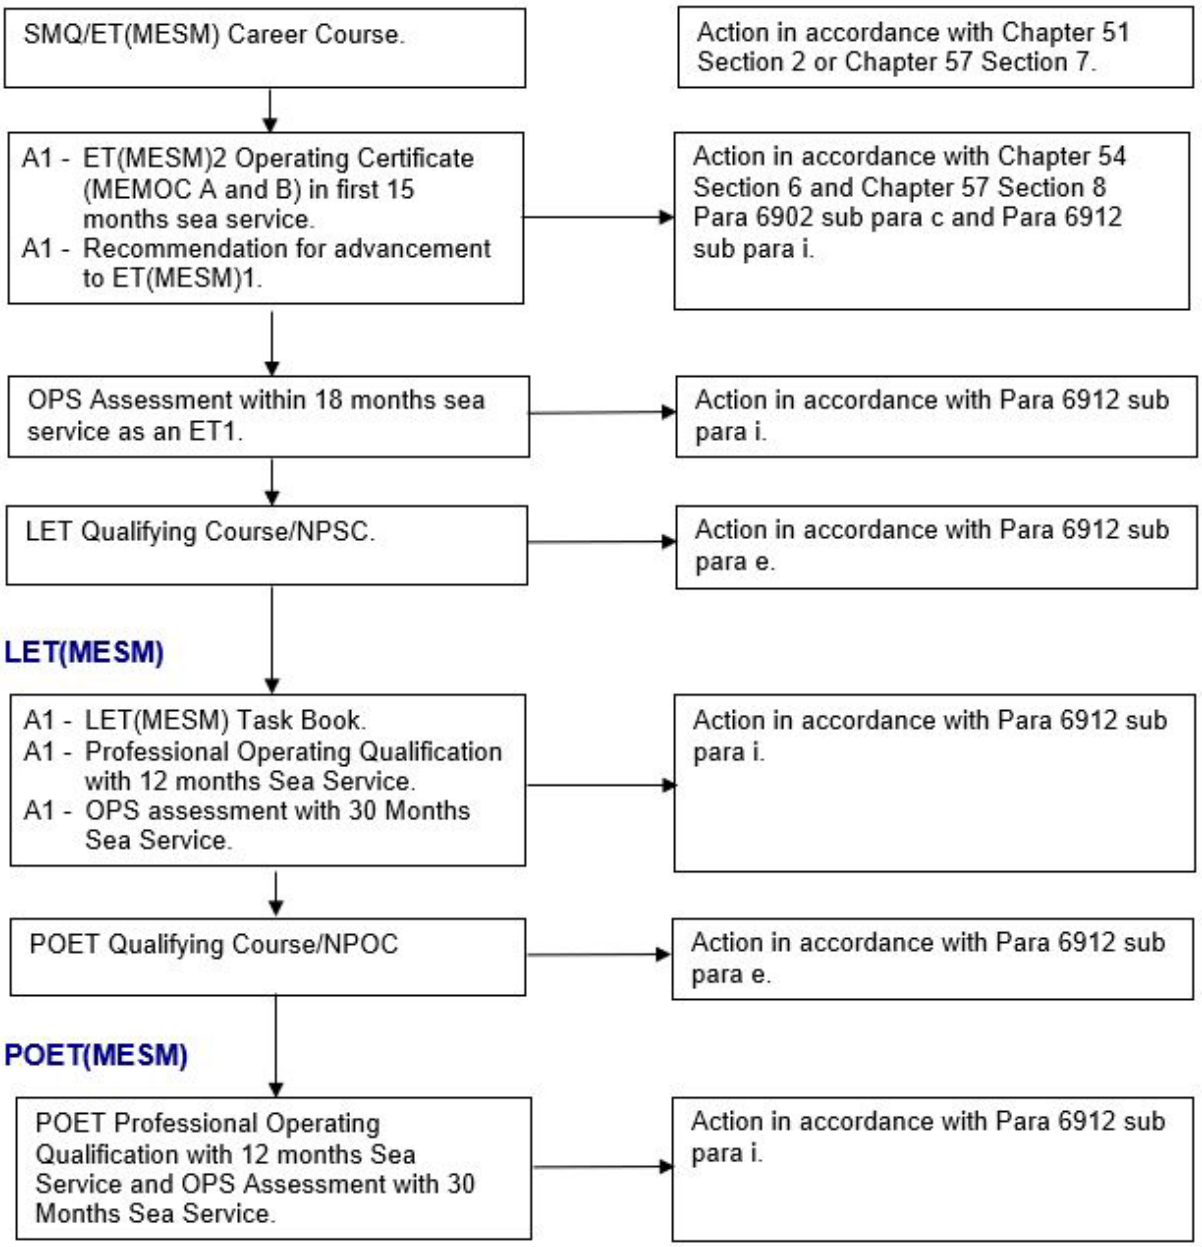
(Continued)

Notes (Continued):

17. Failure to complete Professional and/or Leadership Course. *Refer to Para 6714 for rules on the impact on a rating's promotion if they fail to complete QC and/or LRLC/SRLC before CPD+12 months as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).*

18. ***ET(MESM) – Rules Regarding Failure.*** *See Figure 74-1.*

Figure 74B-1. ET(MESM) – Rules Regarding Failure



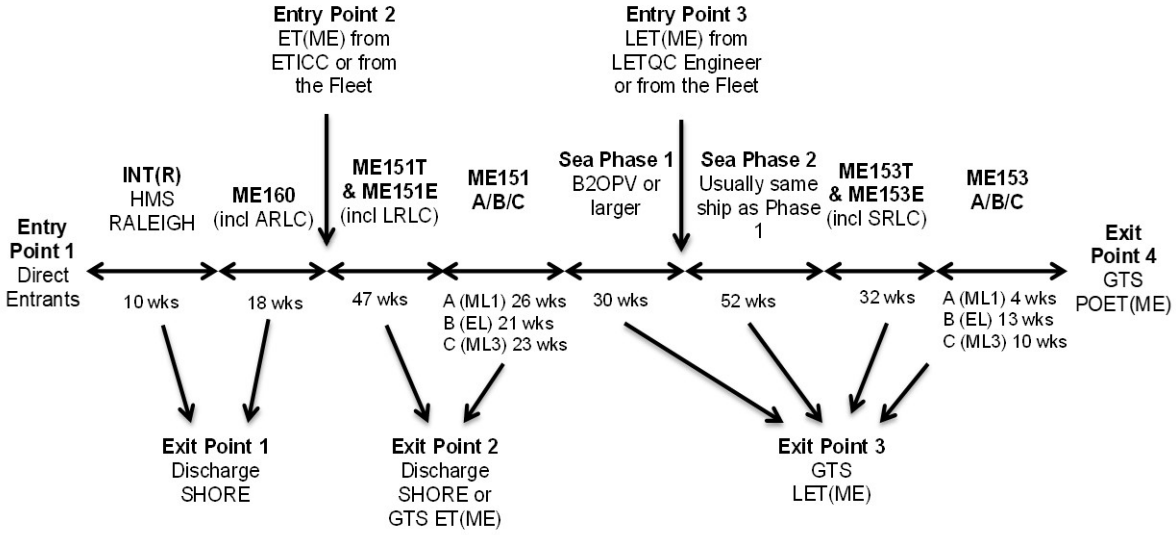
ANNEX 74C

MEGS ACCELERATED APPRENTICE (AA) SCHEME PIPELINE

1. Introduction

The aim of the MEGS AA scheme is to expeditiously qualify a POET from point of entry. Following Initial Naval Training (INT) the AA MEGS pipeline consists of a bespoke Enabling Course followed by LETQC, LRLC and Sea Phases developing both a maritime system knowledge and Naval ethos. This is followed by POETQC and SRLC alongside their Select-Train-Promote (S-T-P) counterparts.

Figure 74C-1. Pipeline Schematic



2. Pipeline Description

The majority of the scheme will be filled using direct entry candidates however extra capacity in the scheme can be filled by in service candidates.

a. **Entry Point 1.** This entry point applies for direct entrants to HMS Raleigh. They will be placed on OR4-1 Supp 3 pay spine upon the day of joining, consistent with other AA schemes. They join as Probationary LET (P/LET).

b. **Entry Point 2.** This entry point applies to ET(ME)s who have completed or are near completion of ETICC. It involves initiating candidates into the scheme at the beginning of LETQC, promoting to PLET, and transitioning to the OR4-1 Supp 3 pay spine on day one of LETQC.

c. **Entry Point 3.** This entry point will be for substantive LET(ME)s who have completed both the LETQC and the associated stream training. Candidates will enter the scheme at the beginning of Sea Phase 2 and will remain as per their original stream.

d. The training pipeline for the MEGS AA will include streaming training (ML1, EL or ML3). The pipeline also includes an 18-month sea training phase to facilitate completion of the LET Engineer CDJ, attainment of SOC and MEOOW2 qualification.

e. Trainees will undertake the sea phases individually or in small groups, shared across all surface ships B2OPV and larger, and will be borne as additional (non-liability) personnel with no specific section responsibility. The ultimate aim of the sea training phase is to obtain the qualifications described above. MEOs are free to employ these trainees as they see fit in order to achieve these aims, further the professional development of the trainees and benefit the hosting ME Department.

f. Trainees will wear Leading Hand rank slides with white flashes to denote their PLET status, however they will not wear these white flashes during the sea training phase or thereafter. This reflects the fact that LETs undergoing sea training on the AA scheme will have successfully completed LETQC and LRLC.

g. All trainees on this pipeline, regardless of entry point, are considered as untrained strength until completion of the relevant ME153 streaming course and as such will be subject to the appraisals and warnings procedures surrounding ratings on the untrained strength. Their career management throughout the training pipeline sits with the MEGS ATA CM, located in HMS Sultan.

ANNEX 74D

MEGS DIRECT ENTRY TECHNICIAN (DET) SCHEME

1. Introduction. The Royal Navy's Direct Entry Technician (DET) scheme is an example of a Lateral Entry (LE) route that focuses specifically on the recruitment of Suitably Qualified and Experienced Personnel (SQEP) from industry into shortage categories in the Royal Navy. Presently, the scheme is open only for entry into the MEGS cadre; achieving trained strength entry at the level of Petty Officer Technician (Marine Engineering) (POET(ME)).

2. Background Intent. By attracting the right civilian technicians into the Royal Navy, the DET scheme aims to exploit the previous training and experience of the lateral entrant in order to expedite their delivery of engineering competence[1] at the SR level; whilst supplementing routine methods to develop equivalent expertise via the standard Select, Train, Promote route and EGS advancement schemes[2]. The scheme demands a bespoke training package for all DET personnel that accounts for their personal blend of prior qualifications and experience. Ultimately the DET pipeline will generate qualified POET(ME) personnel within approximately 2 years of joining the Royal Navy.

3. DET Entry Standards. Alongside RT score, age and security criteria, the Statement of Requirement (SOR) for educational entry standards to the DET scheme are:

a. Level 4 qualification (HNC equivalent) in an engineering discipline.

b. Minimum of 3 years of experience in an engineering related position.

c. Supervisory experience including responsibility for line managing a minimum of 2 subordinate technicians.

d. Level 2 in English and Maths.

4. Recruitment

a. Recruitment to the DET scheme is being conducted through traditional marketing and attraction of candidates byRecruit and Attract (R&A). The RN Career website[3] has been operational with DET since Jul 15. Furthermore, all Armed Forces Careers Offices (AFCOs) are fully aware of the DET scheme[4] and are actively filtering any potential DET candidates into the scheme.

b. Assessment of entry requirement eligibility, defined in the entry Statement of Requirement, will be managed through the AFCO organisation with additional support from the R&A appointed DET Programme Manager. The main difference for the DET recruit phase is the requirement to pass a Selection Board, convened at the DET Assessment Centre.

---

[1] Operate, Maintain, Diagnose and Repair (OMDR) iaw with the Engineering General Service (EGS) Individual Competence Framework (ICF).
[2] Namely Accelerated Apprentice (AA) and Fast Track (FT).
[3] As a result of marketing feedback, the RN Careers website identifies DET as Direct Entry Petty Officer Technician (DEPOT) to clarify the exact rate that individuals will enter the Royal Navy.
[4] RI 23/17 Direct Entry Petty Officer Technicians Recruiting Process Recruiting Instruction dated 30 Jun 17.

c. Upon initial contact by a potential candidate, AFCOs/TPUK agents are to inform the DET Programme Manager who will conduct a preliminary assessment of basic eligibility and suitability against the entry SOR. There will be an initial telephone interview and CV assessment conducted between the potential candidate and the DET Programme Manager to assess whether their engineering qualifications, technical and supervisory experience meet the DET scheme expectations. This interview will also clarify for the candidate the exact TACOS and recruiting and training process. If successful at this interview the candidate will be referred to an AFCO for management. The AFCO will conduct a Recruit Test and standard recruiting interview; if successful at this stage attendance is arranged at the DET Assessment Centre.

d. The DET Assessment Centre has been designed against the competency set required of a POET(ME). It currently operates at the Admiralty Interview Board (AIB) centre and consists of:

(1) **Practical Leadership Tasks (PLTs).** The PLTs used are the same as conducted for officer candidates.

(2) **Written Technical Scenario.** The written technical scenario provides an engineer challenge for which the candidates must submit a written response. This assesses the candidate's communication, technical and management skills.

(3) **Oral Technical Scenarios.** Oral technical scenarios are conducted by a panel of WO1ET(ME)s and explore the candidate's communication, technical and management skills in a relevant and dynamic engineering scenario.

(4) **Interview.** The interview is conducted by the AIB staff and explores the individual's motivation, character, leadership and communication skills.

e. The DET Assessment Centre will operate on a termly periodicity, subject to demand.

f. If successful at the DET Assessment, the LE candidate will be subject to standard medical, fitness and security checks and attendance on a Pre-Royal Navy Course (Ratings) (PRNC(R)), before finally receiving a Tailored Career Offer to join the Royal Navy.

5. DET Terms and Conditions of Service. DET candidates enter the Royal Navy on a bespoke Tailored Career (TC) which has been developed to recognise their qualifications and experience gained in the civilian sector. These TACOS have been designed to make the offer attractive to recruit individuals whilst ensuring that current POETs are not disadvantaged. The key tenets of DET initial TACOS include:

a. A tailored career of 11 years length of service with an automatic offer to transfer to ES2 on completion of their probationary period.

b. Joining the Royal Navy as a probationary POET(ME) on IL1[5] with seniority of their joining date. During their probationary period DETs are identifiable by white flashes in addition to their epaulettes.

c. Achievement of 'Trained Strength' status and removal of the probationary rank occurs on successful completion of sea phase training requirements, SRLC and tailored ME153 series specialisation training.

d. Being subject to a Training Return of Service (TRoS) of 30 months from the achievement of Trained Strength status.

e. Having joined the Trained Strength and transferred to ES2, further promotion opportunities and regulations being governed by extant ET(ME) regulations.

6. DET Training Pipeline. The DET training pipeline incorporates 6 elements as per Figure 75B-1 and detailed further below. The ATA retains whole pipeline oversight once a DET enters Phase 1 Training.

Figure 74D-1. DET Training Pipeline Schematic

a. **Phase 1 RN Initial Training**[6]. At HMS Raleigh (10 weeks), in accordance with standard Royal Navy entrance.

b. **Waterfront Work Experience Phase.** After successful completion of Phase 1 Training, DET personnel will be employed within Engineering Delivery Groups at the waterfronts[7] in order to gain early insights into RN Engineering practices. Individuals will be mentored by an experienced POET and have opportunities to work within ships and workshops. This phase is intended to be tailored to the individual's needs and previous experiences in order to enable them to adjust to RN culture, working practices and gain a better understanding of the role they will perform as a POET before embarking on further training[8,9].

[5] DETs will not join on Initial Rates of Pay but will commence their pay Level OR6-1(Yr1) in Trade Supplement 3. Unless previous service in the Armed Forces has been conducted in which case a tailored pay scale will be developed.
[6] Unless previous service in the Armed Forces has been conducted, in which case a tailored initial training period will be considered.
[7] This is currently operating at MSU Portsmouth but is intended that, where appropriate to the individual, it could be at Devonport.
[8] The work experience phase may be before or after ME 161 course, dependent on course timings.
[9] At any time during their training pipeline it is assumed that DET personnel may be similarly employed within EDGs whilst awaiting courses or sea training positions. The duration of these periods will vary, dependent on course timings, but it is hoped that each individual will get between 3 and 8 weeks of this type of work experience before their Sea Training Phase.

c. **Phase 2 ME161 DET Enabling Course.** Technical training at HMS SULTAN; focussed on safety, engineering management, administration and mandatory training modules from LET QC and POET QC as detailed in Table 74D-1. Any further content within ME161 will vary, dependent upon the individual's qualifications and experience prior to joining the RN.

Table 74D-1. ME161 Minimum Training Elements

Subject	Content	Duration
Safety	Engineering Safety and Environmental Compliance	34 Periods
Engineering Management	UMMS	32 Periods
Administration	Engineering Administration	32 Periods
Mechanical Maintenance MDR Refrigeration	Category 3 and 4 FGAS qualification (common to ME151)	45 Periods
BSSC	Basic Sea Survival Course	1 week
LRLC	Leading Rates Command Course	4 weeks
Stability	LET Stability (common to ME151)	6 periods
CBRNDC 29	LET(ME) CBRNDC Acquaint	1 day
T23/T45 simulator	SCC Familiarisation	2 days

d. **Sea Training Phase (typically not to exceed 12 months[10]).** Utilising the ET and LET Career Development Journals, this phase will culminate in the completion of Marine Engineering Officer of the Watch 2 (MEOOW2) certificate. The Accelerated Training Authority (ATA) will liaise with the Career Manager (CM) to identify the most appropriate unit to support DET training. Wherever possible, this should be DD/FF to ensure the adequate level of training, supervision and experience can be gained[11]. During the DET Sea Training Phase the DET are to achieve the milestones listed in Table 74D-2 within targeted timelines.

Table 74D-2. DET Sea Phase Training Milestones

Milestone	Comments	Deadline for first attempt
ET(ME) Career development Journal (CDJ)	*For guidance only*[12]	N/A
Switchboard Operators Certificate (SOC)	Mandatory	6 Months
CBRNDC Taskbook	Mandatory	6 Months
LET ME CDJ	Mandatory	9 Months
MEOOW2	Mandatory	12 Months

e. **Senior Rates' Leadership Course (SRLC).** The SRLC will be undertaken in accordance with standard pipeline criteria.

[10] The duration of the phase will vary as a result of candidate's previous experience and the ship's programme.
[11] **During this training DETs will be in training margin positions and not fulfilling a complement role.**
[12] ETME CDJ to be used to create baseline system and equipment knowledge.

f. **ME153 Series Professional Stream Training.** In order to refine technical skillset and satisfy the baseline entry standard for equipment and platform PJTs, each DET will be required to undertake the Stream course of their respective specialisation. On successful completion of this stream training the DET will achieve Trained Strength status and will be awarded the rank of substantive POET(ME).

7. DET Sea Training Progress Review Process

a. Within the first week of arrival in their seagoing unit, DET personnel are to meet with the Department Training Coordinator to discuss and agree timescales for achievement of training targets.

b. Thereafter, Training Coordinators are to conduct monthly progress reviews where forthcoming deadlines and possible programme risks are to be discussed. Due to the exigencies of operational programmes the assessment of an individual's progress will, to a certain extent, remain subjective at unit level however this formal review process will allow the opportunity to refine and record training deadlines accordingly and feedback to the ATA:

(1) Monthly.

(2) Following the issue, escalation or removal of any warning.

c. The DET is expected to have achieved all training milestones within 12 months[9] of joining the sea phase training unit. A Progress Review Proforma to be used to plan and measure the progress of the DET's training is at pages 6-7 of this Annex.

d. **Warning for Failure.** The process for warning a DET for removal from the DET scheme and ultimately termination of their TC contract is iaw current UTS warning process for ratings Deemed Unsuitable During Training (DUDT)[13]. Noting the bespoke nature of each DET's training pipeline and the criticality of the sea phase, SS are to liaise with the ATA and BM for advice at every stage of this warnings process. In particular, a tailored approach will be required for agreement of review timescales and possible remedial recovery options.

8. Technical Streaming prior to joining the Trained Strength

a. Subsequent streaming into MEGS technical specialisations[14], including the nature of the tailored stream package[15], will be based on the needs of the Service, the previous experience of the DET, and their personal preference.

b. It is the responsibility of the individual to ensure that they record[16] their stream preference within 3 months of joining their sea training phase unit. Thereafter, 9 months into the sea phase the nature of the associated tailored streaming package is to be confirmed by the ATA; this will in turn confirm the DET's planned GTS date.

[13] BRd 3(1) Chap 57 Para 5748 – 5751.
[14] M1 Power and Propulsion(ML), M2 controls and Distribution (EL), M3 Ship Services (ML).
[15] Each DET will be required to complete the respective ME153 stream course in full or in part depending on prior qualification and experience.
[16] JPA Self Service – Employee, Armed Forces/Extra Information Types/Employee Preferences – Job 1st Preference.

MEGS FAST TRACK (FT) – NON-SELECTIVE PROMOTION (ADVANCEMENT)

Engineering Technician 1 (Fast Track) – Pre-Advancement Requirements

General Service ET ME		
Selection Point	**Key Advancement Criteria**	**Applicability**
	1. Completed Phase 1 Training. 2. Completed ET(ME) Career Course (ETICC), recorded on JPA as ME|Engineering Technician (ME) Initial Career (ME150|Navy|. 3. Display required proficiency in accordance with competencies as laid down in the Individual Competency Framework (ICF) as ET, authorised by HOD and recorded on JPA as 'Professional| Engineering Technician (GS)|Navy', with a Proficiency Level of 'ET1 Sea 1'. To be completed within 4 months' sea service. (See Notes 2 and 11. 4. At least 6 months since last Career Check (if any) on date due advancement. 5. Recommended for advancement to ET1 by HOD. Promotion Authorisation Request (PAR) forwarded to Flotilla parent Career Management Cell (CMC).	

Advanced to
ENGINEERING TECHNICIAN 1st Class

Leading Engineering Technician (Fast Track) – Pre-Advancement Requirements

General Service LET ME		
Selection Point	**Key Advancement Criteria**	**Applicability**
	1. Completed CBRNDC TB within 12 months of joining unit and recorded on JPA as 'Professional|Completion of CBRNDC Task Book (All Ratings) (9J94)|Navy|' (See Note 2). 2. Serving on a ES1/FC/OE1 that expires after the nominated Due Date for Advancement. 3. Educationally qualified for promotion (EFP) in accordance with Para 9615 and recorded on JPA as 'Educational|RN/RM QELH/Cpl|Navy|'. 4. Display required proficiency in accordance with competencies as laid down in the Individual Competency Framework (ICF) as ET 1, authorised by HOD and recorded on JPA as 'Professional| Engineering Technician (GS)|Navy', with a Proficiency Level of 'ET1 Sea 2'. To be completed within 9 months' sea service as an ET (See Note 11). 5. Streaming Preference submitted and showing on JPA (See Note 4). 6. 24 months' seniority from Fast Track Start Date, including a minimum of 9 months' sea service as an ET recorded on JPA as 'CMS|Fast Track ET 9 Month Sea Time|Navy'. 7. Recommended for advancement on Appraisal Report at Due Date (See Note 11). 8. Completed Leading Rates' Leadership Course (LRLC); recorded on JPA as 'Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|' (Para 6909) (See Note 8). 9. Passed LET(ME) Qualifying Course (QC) by nominated Due Date; recorded on JPA as 'ME|LET (MEGS) Common QC:(ME151T)|Navy|' and 'ME|LET (MEGS) Engineer QC:(ME151E)|Navy|' Plus: M1 Power and Propulsion: 'ME|LET(MEGS) Power and Propulsion QC: ME151A|Navy|' & 'ME|LET(MEGS) QC - Fitting and Machining (ME293)|Navy|' Or M2 Controls and Distribution: 'ME|LET(MEGS) Controls and Distribution QC: ME151B|Navy|' Or M3 Ships Services: 'ME|LET(MEGS) Ships Services QC: ME151C|Navy|' & 'ME|LET (MEGS) QC Welding and Pipework (ME294)|Navy|' (See Notes 5, 6, 7, 8, 10 and 11). 10. At least 6 months since last Career Check (if any) on date due for Advancement (if later).

CHIEF PETTY OFFICER ENGINEERING TECHNICIAN

Transfer to Selective Promotion Flowchart for ICF ET and back to selective promotion rules in BRd 3(1) Ch 67

Notes:

1. FT Selection Panels and Boards will be co-ordinated by the ATA within each training school and will be convened throughout each term. ETs selected during Phase 2 Training will be awarded an appropriate Fast Track Start Date of 31 Mar, 31 Jul or 30 Nov. The date due advancement by time to LET, subject to meeting the eligibility criteria will be 24 months from this date. Selection for FT from LET to POET will be selection by a termly Selection Board, with a date due advancement to POET, subject to meeting the eligibility criteria of 24 months from the seniority date as a LET. Selection for FT from POET to CPOET will be selection by a termly Selection Board, with a date due advancement to CPOET, subject to meeting the eligibility criteria, of 36 months from their FTSD that is determined by the point at which they are selected and will be used in the subsequent calculation for future Due Date.

2. On completion of the ET2 Career Development Journal (CDJ) mandated tasks and being recommended, ratings will be advanced to ET1 and issued their CBRN DC Task Book.

3. Competence as an ET1 is achieved on successful completion of the ICF mandated competencies within the sea employment space, evidenced within the individual's CDJ. This is to be completed within 9 months' sea service as an ET.

4. Stream Preference is to be recorded on JPA as follows:

a. Log on to JPA Self Service.

*b. Select – **My Career**.*

*c. Select - **Employee Preferences** and in the First **'Comments'** box enters either:*

(1) ML1

or

(2) EL

or

(3) ML3

d. Click Apply.

5. Pre-course learning is to be completed no later than on completion

of 8 months' sea service.

6. Suitability of individuals to retake failed elements of the QC, or the requirement to be back classed, or remain as a Fast Track, will be determined by the Commanding Officer of the relevant Training School in consultation with EGS Branch Managers. A repeat failure of part/all of the course will result in the individual being deselected from FT, however, will remain on the QC, but not on the Fast Track scheme (normal QC failure rules apply). Suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.

*7. **Unsuitable Candidates.** Where, during the period of the Qualifying Course, candidates are found to be unsuitable for advancement to the next higher rate, they may be withdrawn from training by the Commanding Officer of the relevant Training School. In such cases, individuals will be deselected from Fast Track and the Qualifying Course and will continue to serve in their current rate. They will transfer from Fast Track back to Selective Promotion as the eligibility route for future selection.*

*8. **Failure to Complete Professional and/or Leadership Course.** Refer to Para 6803 for rules on the impact on a rating's advancement if they fail to complete QC and/or LRLC/SRLC before the due date by time or within 12 months of the due date as a result of service reasons (outwith own control) or non-service reasons (within own control).*

9. Competence as an LET(ME) is achieved on successful completion of the SOC, MEOOW2 within 12 months and the ICF mandated competencies within the sea employment space, evidenced in the individual's CDJ within 15 months' sea service as a LET.

*10. **Refusal to Undertake QC.** Individuals who refuse to undertake the QC will be deselected from Fast Track, continue to serve in their current rate and transfer back to Selective Promotion.*

11. If for any reason an ET, LET or POET does not achieve the eligibility criteria and subsequent recommendation for advancement, a review will be undertaken by the Fast Track Manager on a case by case basis of suitability to remain as a Fast Track. Individuals who are removed from FT will transfer back to the Selective Promotion rules.

12. Competence as a POET(ME) is achieved on successful completion of the MEOOW1 within 12 months and the ICF mandated competencies within the sea employment space, evidenced within the individual's CDJ within 18 months' sea service as a POET

ANNEX 74F

MEGS MARITIME COLLEGE CADETSHIP (MCC) SCHEME PIPELINE

1. Introduction. The Merchant Navy use regional Maritime Colleges to deliver Level 5 academic qualifications in Marine Engineering. These cadetship programmes follow the MCA's approved programme MSN 1857, leading to the award of a Reg III/1 (unlimited power) Engineering Officer of the Watch (EOOW) Certificate of Competency (CoC). The aim of the MEGS MCC scheme is to expeditiously qualify a POET from ET level using a combination of civilian college training and training at sea on a RN platform. This is followed by SRLC alongside their Select-Train-Promote (S-T-P) counterparts.

Figure 74F-1. Cadetship Timeline

Phase	Location	Duration (approximate)
1	Maritime College	30 weeks
2	Sea	25 weeks
3	Maritime College	35 weeks
4	Sea	21 weeks
5	Maritime College	29 weeks
6	ME161 (DET course)	6 weeks
7	PJT training (including SRLC)	10 weeks

2. Timeline Description. There are subtle variations in course syllabus across the maritime colleges, but the cadetships will generally comprise of the modules listed below.

Phase	Academics	Short Courses
1	NC Shipping and Maritime Operations (SQA)	• Personal Survival Techniques (PST) • Personal Safety and Social Responsibility (PSSR) • Proficiency in Elementary First Aid • Basic Fire prevention and Fighting (with tanker endorsement) • Entry into Enclosed Spaces • Abrasive Wheels • Programme Induction • MCA Workshop Skills (Part 1) • Industrial Experience (Part 1) • Engine Room ready (Part 1)
2	MNTB training record book Distance learning maths course Merchant Navy work based learning	Note: Cadets will also need to progress with the LET CDJ for Engineer
3	L4 Marine Engineering	• Proficiency in Medical First Aid • MCA Workshop Skills (Part 2) • Industrial Experience (Part 2) • Engine Room ready (Part 2)
4	MNTB training record book	Note: Cadets will need to complete the LET CDJ for Engineer prior to returning to college for Phase 5

5	L5 Marine Engineering year 2 EOOW preparation course (COGC)	• Advanced Fire Fighting • High Voltage (Operational) • Human Element Leadership and Management (Operational) • Final exams

3. Trainee Status.

a. To match other AA schemes, MCC candidates will be advanced to Probationary LET (PLET) on their course start date and will be transferred to the OR4-1 Supp 3 pay spine. Trainees will be subject to a 36 month Return of Service from completion of the ME161 course. Promotion to POET will be on completion of SRLC.

b. Trainees will be required to wear RNPCS (Rig 22) along with LH rank slides and white flashes to denote their PLET status. Trainees will be streamed ML1/EL/ML3. Subsequent promotion to CPO will be on merit, with pre-selection eligibility aligned to their peer group.

c. During the college phases, trainees are to align with the college's leave schedules and must submit their leave requests via JPA. Whilst under training, they will be accommodated within RN-funded student accommodation on the College Campus and entitled to Food and Incidental Allowance.

d. Trainees will undertake the sea phases individually or in small groups, shared across all surface ships B2OPV and larger, and will be borne as additional (non-liability) personnel with no specific section responsibility. The ultimate aim of the sea training phase is to obtain the qualifications described above. MEOs are free to employ these trainees as they see fit in order to achieve these aims, further the professional development of the trainees and benefit the hosting ME Department.

e. All trainees on the MCC scheme are subject to the appraisals and warnings procedures surrounding ratings on the trained strength, along with METG training warnings associated with Phase 3 trainees. Their career management throughout the training pipeline sits with the MEGS ATA CM, located in METG.

4. RN Engagement. To ensure sustained engagement with Royal Navy life during their college experience, MCC cadets are mandated to regularly interact with the local RNR. These interactions are designed to immerse candidates in activities that advance their CLM development, while concurrently supporting routine operations and reinforce their RN engagement. Additionally, cadets may have the opportunity to contribute to broader community engagement initiatives, such as Armed Forces Day, Remembrance parades etc. They will also benefit from access to gym facilities and MODNET, thereby strengthening their connection to the RN and enriching their comprehensive training experience.

ANNEX 74G

GENERAL SERVICE – CAREER ON A PAGE

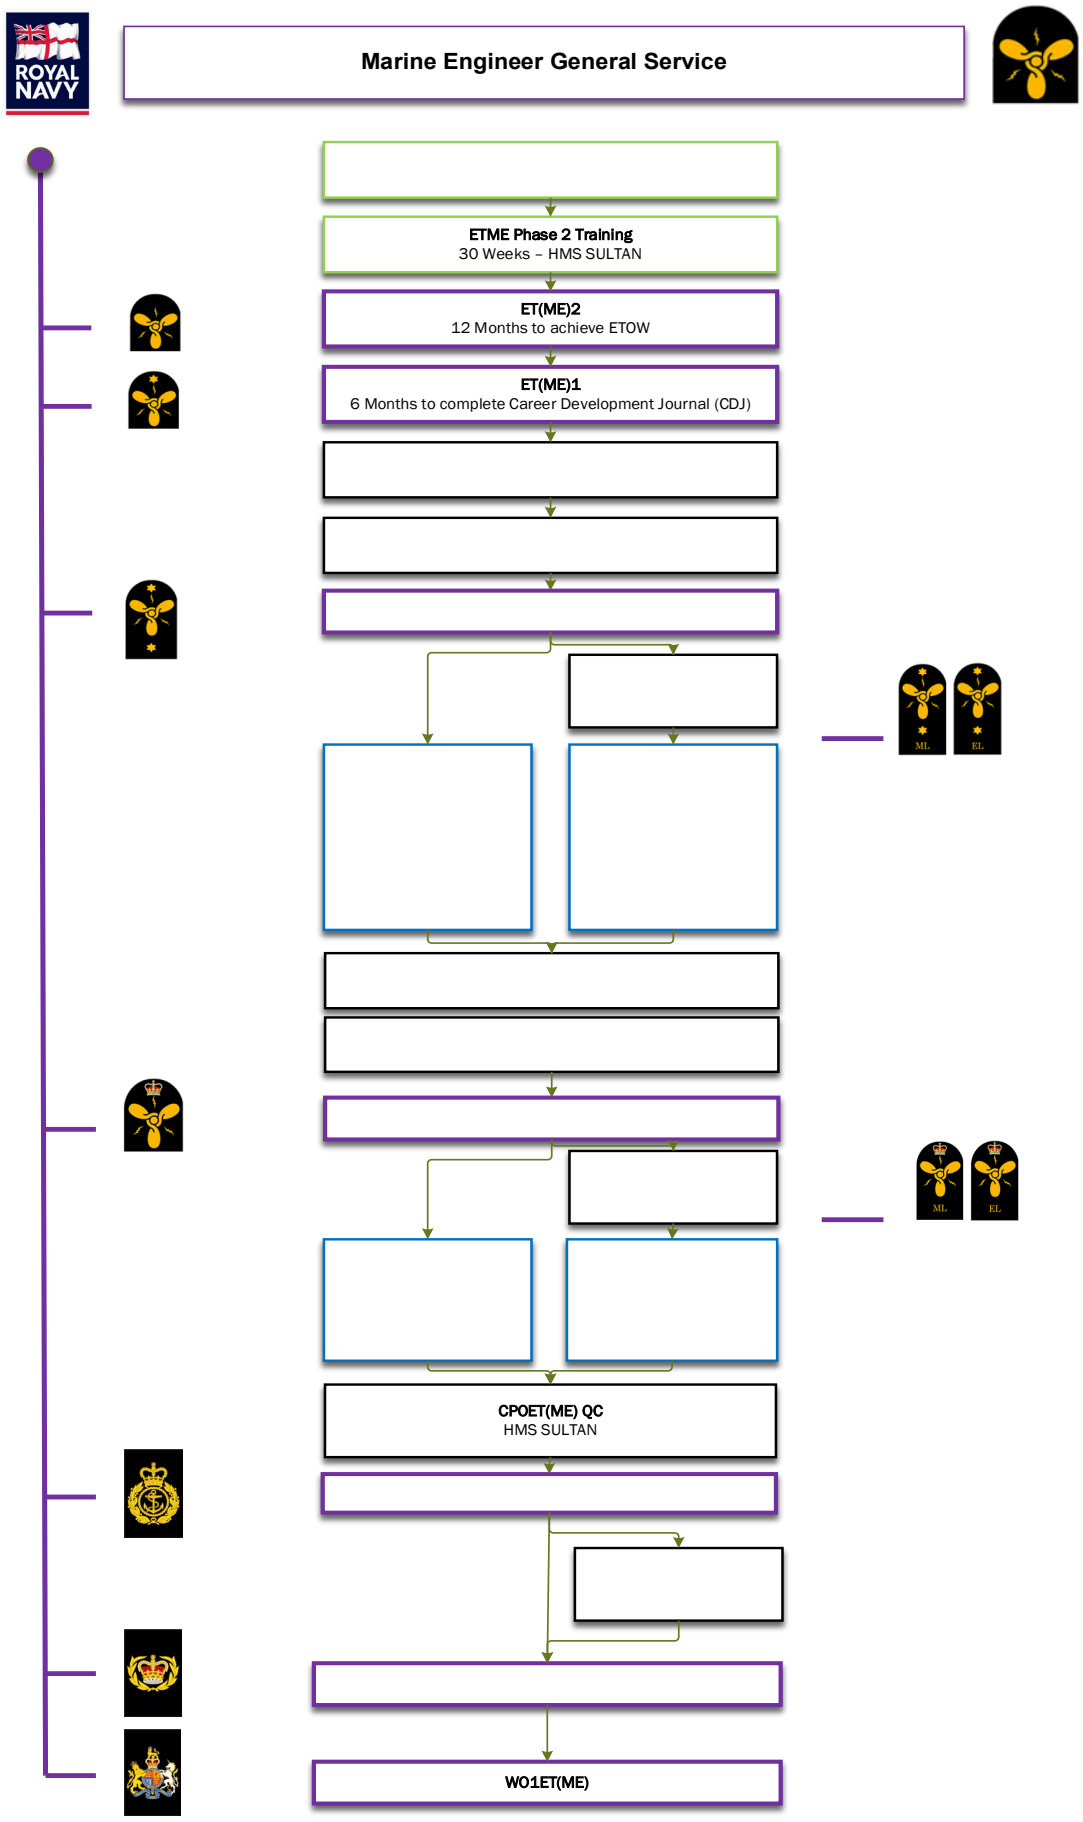
1. General Service - Career on a Page

a. The purpose of the Career on a Page is to provide a quick look at possible career progression to enable informed decisions to be made. Master documents should always be consulted to ensure that the latest information is available.

b. Ratings are advised to liaise with their Reporting Officer regarding any decisions concerning their careers prior to contacting the Career Manager.

c. Ratings seeking promotion to the Officer Corps can do so via the Upper Yardman (UY) or Senior Upper Yardman (SUY) schemes, details of which may be found in Chapter 50.

Figure 74G-1. Marine Engineering (GS) Branch - Career on a Page



Apr 25

ANNEX 74H

SUBMARINE SERVICE – CAREER ON A PAGE

1. Submarine Service - Career on a Page

a. The purpose of the Career on a Page is to provide a quick look at possible career progression to enable informed decisions to be made. Timelines are indicative averages and are always subject to change. Master documents should always be consulted to ensure that the latest information is available.

b. Ratings are advised to liaise with their Reporting Officer regarding any decisions concerning their careers prior to contacting the Branch or Career Manager. Career Managers are located in HMNB Clyde.

c. Information pertaining to Ratings training pipeline is contained within the Marine Engineering branch (SM) Career on a Page. Information relating to allowances and benefits available during a career are referenced in the Table below.

d. Ratings seeking promotion to the Officer Corps can do so via the Upper Yardman (UY) or Senior Upper Yardman (SUY) schemes, details of which may be found in Chapter 50.

e. **Optional Exit Points.** Ratings in receipt of RRP(SM) may be eligible to submit an Optional Exit Point application which will enable them to leave the service at an earlier point than their current Termination Date, without any loss of RRP; full details may be found in Annex 54K.

CHAPTER 75

WEAPON ENGINEERING GENERAL SERVICE (WEGS) & WEAPON ENGINEERING SUBMARINE SERVICE (WESM)

SECTION 1 – WEGS SPECIALISATION MANAGEMENT AND PROMOTIONS

7501. Introduction

a. The chapter covers the promotion requirements for the Weapon Engineering General Service discipline (WEGS).

b. WEGS is responsible for the workforce management and promotion requirements for Officers and Ratings within the WE, Weapons (W), Sensors (S), Communications Information Technician (CIS) and Communications Information Systems Specialist (ET(CIS) Spec) areas of employment.

(1) EGS SharePoint[1] contains useful information for Apprentices and Divisional Officers on Career Development Journals, it also includes details of the latest workforce information and points of contact for the WEGS BM team.

(2) Apprentices and Divisional Officers should refer to appropriate publications prior to contacting WEGS BMs, guidance at para g.

c. **WEGS Specialisation Terminology.** The following terminology is to be used when referring to the EGS Discipline and WEGS Specialisation:

(1) **Discipline.** Engineering General Service (EGS)

(2) **Specialisation.** Weapon Engineering (WE)

(3) **Department.** Weapon Engineering Department

(4) **Streams.** Weapons, Sensors, CIS Technician & CIS Specialists

d. **Contacts.** WEGS Specialisation Managers and the Training Requirements Authority (TRA) manage the planning and training requirements, including setting the Gained Trained Strength (GTS), promotion numbers, Maximum Authorised Number (MAuN), Extended Service (ES) and Specialisation transfers to meet the RN requirements.

e. Also responsible for developing sustainable career pathways for our workforce and acting as TRA, setting individual training requirements such as Role Performance Statements (RPS) and working with training providers to set training course volumes.

f. WEGS personnel should consult the publications referenced and their Divisional Line Management prior to consulting the Specialisation team, contact details as follows:

[1] Navy - Branch Management Engineering General Service (BM EGS) - Home (sharepoint.com)

Table 75-1. WEGS Specialisation Team Members

Rank	Global Address List Email	Role
Cdr	NAVY PEOPLE-WFPT ENG GS SO1	EGS Discipline Manager
Lt Cdr	NAVY PEOPLE-WFPT ENG WEGS SO2	Specialisation Manager
Lt	NAVY PEOPLE-WFPT TRA WEGS SO3	Training Requirements Authority
WO1WE	NAVY PEOPLE-WFPT ENG WEGS WO1	Specialisation Manager
WO2WE	NAVY PEOPLE-WFPT ENG CIS WO	Specialisation Manager

g. **Reference Publications.** This chapter should be read in conjunction with the following reference publications:

Table 75-2. WE Publications

Publication	Title
BR300	Weapon Engineering Manual (Surface Ships)
BR2000(4)(1)	Weapon Engineering Training and Examinations - General Instructions
BR2000(4)(2)	Weapon Engineering Training and Examinations - Weapon Engineering Training Courses
BR2000(4)(3)	Weapon Engineering Training and Examinations - General Service and Submarine Examinations

7502. Weapon Engineering Examinations and Assessments in the RN

a. This Article should be read in conjunction with Chap 69 and BR 2000(4)(1) and 2000(4)(3) (Weapon Engineering Training and Examinations). Every effort is to be made to arrange examinations or assessments (where appropriate) as frequently as possible and without delay to ensure that the advancement or promotion prospects of ratings are not prejudiced.

b. Reporting Officers making recommendations for ratings' advancement, promotion, examination or courses are to pay due regard to the conditions given in Para 6901.

c. The requirement to pass a PE has been removed for all ranks between ET to WO, simplifying promotion eligibility criteria and reducing the number of professional hurdles an individual must overcome to be eligible for selection. All other pre-promotion criteria remain extant.

d. Examining Boards, Local Examinations and assessments are to be oral only and are to cover appropriate syllabus as laid down in BR 2000(4). Additional oral questions can be used to probe the candidate's knowledge of their own unit.

e. Throughout the assessments, due regard is to be paid to the training, background, experience and present employment of individual candidates. Discretion is to be exercised in areas of the syllabus in which no formal training was given and in which little or no experience may have been gained. Assessors are reminded that individuals are being assessed in their current rank.

f. The Basic Date for advancement purposes is the date of passing the oral assessment, Candidates are to be either passed or failed; no marks are to be awarded.

g. The successful result of the assessment is to be entered on JPA; Competences are to be added by Unit HR personnel.

h. To ensure that ratings are competent at the current rate held, Engineering Technician Assessments (Safety Check, CDJ, HoDs Assurance) must be completed in accordance with the timescales stated in table 75-3. On successful completion of assessments, competencies are to be recorded on JPA by Unit HR personnel. If not achieved within the time scales stated above, then professional warnings should be applied, unless mitigating circumstances exist.

Table 75-3. WEGS ET Career Progression Timeline

Training milestone	Target dates (Fm joining unit)	JPA Competency Awarded
Safety Oral Board	To be achieved within 6 months	Professional | Engineering Technician (GS) | Navy | ET1 Sea 1
CBRNDC Taskbook	To be complete within 6	CBRN|Completed CBRNDC Task Book (All rank/rates)
CDJ	To be achieved by within 18 months	No Competency Awarded
HOD Assurance Board	To be achieved within 18 months	Professional | Engineering Technician (GS) | Navy | ET1 Sea 2

i. For refusal to take a Professional Qualifying Course, see Para 6912 for automatic penalties.

j. Achievement of all assessments are to be recorded on JPA for ET/LET/POET etc. It is the individual's responsibility to check JPA and verify that their records have been amended correctly.

7503. Convening and Composition of Examining/Assessment Boards

a. Examining Boards may be convened by Flotillas and by Commanding Officers of ships complemented with an officer of the WE sub-specialisation of Commander's rank. Examining Boards, where the President of the Board may be a Lieutenant Commander or Lieutenant, may also be convened by Commanding Officers of ships where the WE Officer is of Lieutenant Commander or Lieutenant's rank.

b. **Composition of Examining/Assessment Boards.** Boards are to comprise officers and/or senior ratings of the WE sub-specialisation or officers of other Engineering sub-specialisations serving in WE assignments. Details of the minimum requirement for the composition of the Examining Boards for each rate are contained in BR 2000(4)(1) Chapter 2.

7504. WEGS Promotion Table Guidance

a. Annexes 75A-75D contains the promotion tables for all WEGS pathways.

b. Legacy personnel who have not completed a ICF WEGS Career Course, will remain on their legacy pathway (Annexes 75B-75D) until selection for promotion and completion of a ICF based CC, where they will then join the Annex 75A pathway.

c. Legacy personnel with a bespoke Terms And Conditions Of Service (TACOS) should indicate their aspiration to be added to the promotions board, however, must be aware that a new TACOS may be issued upon promotion. This should be discussed with the Specialisation Managers in advance.

d. Personnel who have Service transferred (RM/ARMY/RAF to RN) will follow the Annex 75A pathway upon entry to the RN. Substantive rank will be awarded on completion of the bespoke re-entry offer pre-requisites as laid down by the Specialisation Manager and joining the Gained Trained Strength (GTS).

SECTION 2 – WEGS ACCELERATED TRAINING AUTHORITY (ATA) / FAST TRACK / MARITIME COLLEGE CADETSHIP

7505. WEGS Fast Track Scheme

The Fast Track (FT) scheme will afford individuals an accelerated advancement route. Selection will be via a two-stage process with multiple entry points available; at ET, LET and POET (GS only). This takes account of individuals who develop at differing rates and gives a flexible career path to ensure that career progression through training and employment is better matched to the abilities of technicians. For full details on the FT scheme see Annex 75E.

7506. WEGS Accelerated Apprentice Scheme

From Nov 17 WEGS Accelerated Apprentices (AA) have been joining HMS RALEIGH as Probationary Leading Hands until they become ‘Gains to the Trained Strength’ (GTS) as LETs, on completion of a 2-year bespoke training pipeline. This scheme was updated in Jan 25 to extend the PLETs training pipeline meaning they would GTS at POET over the course of 3.5 years. Once GTS, the AA will be subject to the normal selection process of a LET/POET. Full details of the Accelerated Apprentice Scheme can be found at Annex 75F with the pipeline information below. The AA Warnings and Failure policy is laid down at Annex 75F.

7507. WEGS Maritime College Cadetship Scheme

The Maritime College Cadetship (MCC) is a trial scheme and uses a combination of civilian college training and training at sea on an RN platform to expeditiously qualify a POET. This is followed by SRLC alongside their Select-Train-Promote (S-T-P) counterparts. Further detail on the MCC scheme may be found at Annex 75G.

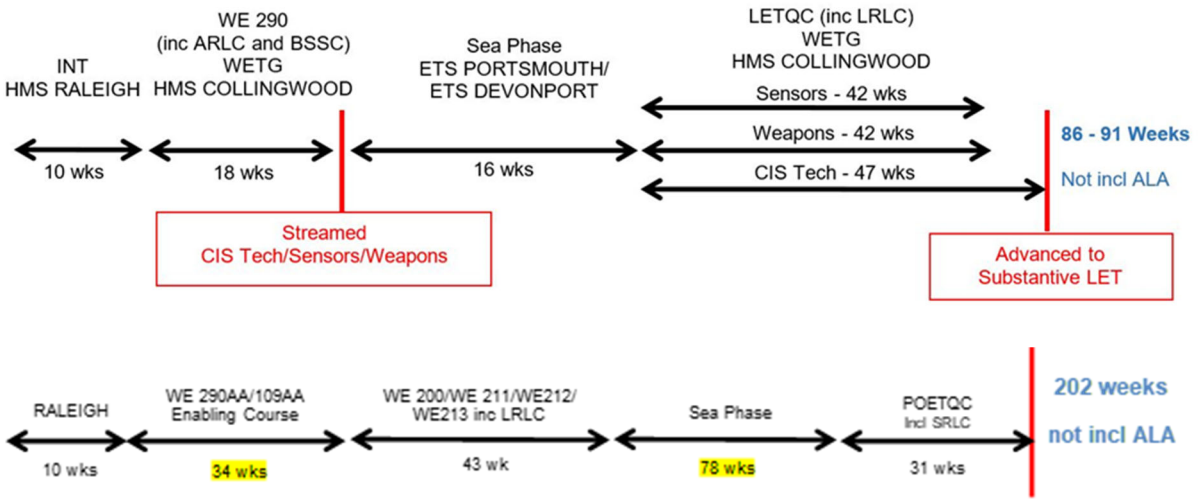
ATA / FT / MCC Contact

NAVY PEOPLE-WFPT ATA WE CPO
HMS Collingwood, Newgate Lane, Fareham. PO14 1AS
GAL: NAVY PEOPLE-WFPT ATA WE CPO

7508. Accelerated Apprentice (AA) WEGS Pipeline

The aim of the AA WEGS scheme is to expeditiously qualify a POET from point of entry. Following Initial Naval Training (INT) the AA WEGS pipeline consists of a bespoke Enabling Course, including a Streaming Selection into LETQC and LRLC. On completion of a short PJT package the PLETs will conduct an 18-month Sea Phase developing both a maritime system knowledge and Naval ethos. This is followed by POETQC and SRLC alongside their counterparts on the non-accelerated pipeline The aim of the AA WEGS scheme is to qualify a POET within three and a half years of entry.

Figure 75-1. Pipeline Schematic



7509. Pipeline Description

a. **Initial Training (INT).** The AA recruits undergo the same training as their ET counterparts and should be treated in the same manner. They will join as Probationary LET (P/LET).

b. **WE 290/109AA Enabling Courses.** WE 290/109AA develops system knowledge in preparation for LETQC and ensures AA WEGS trainees are safe to train in a technical environment.

c. **Streaming.** AA trainees will indicate their preference during their enabling course and will be streamed by ATA WEGS in consultation with WEGS BM WO1. This is not applicable to AA ET(CIS) ratings having conducted the WE 109AA CC as they're already streamed at entry.

d. **LETQC.** LETQC is the standard streamed course undertaken alongside their STP counterparts.

e. **LRLC.** LRLC is the standard 4-week course following successful completion all training.

f. **Sea Phase.** Trainees will then then be assigned to a ship for 18 months to:

(1) Consolidate the knowledge and skills learnt on WE 290/109AA/LETQC and become familiar with naval culture and experience living at sea.

(2) Complete an AA WEGS CDJ and successfully complete the HOD Assurance.

(3) Complete the CBRNDC Task Book.

g. **POETQC.** POETQC is the standard course taken alongside their STP counterparts.

h. **SRLC.** SRLC is the standard course taken alongside their STP counterparts.

i. **Return of Service (RoS).** RoS is iaw with para 5302 for Initial Training. RoS for POETQC will run concurrently.

SECTION 3 – WESM SPECIALISATION MANAGEMENT AND PROMOTIONS

7510. Recommendations

Officers making recommendations for ratings' advancement, promotion, examination or courses are to pay due regard to the conditions given in Chapter 69.

7511. WESM Examinations and Assessments in the Fleet

a. This Article should be read in conjunction with Chapter 69 Section 4 and the BR 2000(4) series. Every effort is to be made to arrange examinations as frequently as possible and without delay to ensure that the advancement or promotion prospects of ratings are not prejudiced.

b. Applications for Provisional Examinations (PE) are to be made on Forms S442 in accordance with Chapter 69.

c. If officers of the appropriate rank and specialisation required for an Examining Board are not available (see Para 7511 and Para 7512), application should be made to the Administrative Authority for suitable arrangements to be made. Alternatively, when it is known that it will not be possible to convene a Board within four months of a rating's application for examination, the examination may be conducted by the officers of the rating's own ship under the rules for Local Examinations laid down in Chapter 69.

d. Examining Boards and Local Examinations are to be oral only examination and are to cover appropriate syllabus as laid down in BR 2000(4). Additional oral questions are to be used to probe the candidate's knowledge of their own unit.

e. Throughout the examinations, due regard is to be paid to the training, background, experience and present employment of individual candidates. Discretion is to be exercised in areas of the syllabus in which no formal training was given and in which little or no experience may have been gained.

f. The basic date for advancement purposes is the date due by seniority or if later, the date of passing the oral examination, less any accelerated advancement awarded. Candidates are to be either passed or failed; no marks are to be awarded.

g. The successful result of the PE is to be entered on Form S442 and on JPA; the former being signed by all members of the Board, the latter by the President of the Board. The type of examination, 'Professional Qualifying', 'Provisional' or 'Local' is always to be clearly indicated on Form S442 and the completed form dealt with in accordance with Chapter 69. Competences are to be added by Unit HR personnel.

h. Engineering Technician Operational Performance Statement (OPS) Assessments must be completed in accordance with BR 2000(4). On successful completion of the OPS Assessment form, competencies are to be added by Unit HR personnel. If not achieved within the time scales stated above, then professional warnings should be applied, unless mitigating circumstances exist.

i. In the event of failure of examinations/assessments, see Chapter 69.

j. For refusal to take a Professional Qualifying Course or Examination, see Chapter 69 for automatic penalties.

7512. Composition of Examining/Assessment Boards

Boards are to comprise officers and/or senior ratings of the WESM sub-specialisation or officers of other Engineering sub-specialisations serving in WESM assignments. Details of the minimum requirement for the composition of the Examining Boards for each rate are contained within BR 2000(4).

7513. Local Examinations

a. Local examinations are to be convened in accordance with Chapter 69 and conducted in accordance with Para 7511.

b. Local Examination Boards are to comprise:

(1) **President.** An officer of the WESM sub-specialisation.

(2) **Member.** An officer of the WESM sub-specialisation (not under training) or a WO ET of the same specialist qualification or specialisation as the candidate.

(3) **Member.** Highest rate borne of the same specialist qualification and stream as the candidate.

c. All members of the Board may be from the candidate's own ship.

ANNEX 75A

WEGS PROMOTION TABLES

1. Guidance

a. This annex contains the promotion tables for personnel who entered the RN as an:

Engineering Technician (Weapon Engineering),

or

Engineering Technician (Communication Information Systems)

b. These personnel will have one of the following competencies:

(1) WE|ET(WE)/ET(WESM) Career (WE 107)|Navy|

(2) WE|ET(WE)CIS Career (WE 108)|Navy|

(3) WE|ET(CIS) CIS CAREER COURSE (WE109)|Navy|

c. WE107 ET(WE) career course personnel will be streamed at selection to LET. Line Managers are to ensure that ET(WE)s indicate within their JPA front page comments box, which is their preferred stream, the only approved stream choices are:

(1) ‘I wish to be streamed WEAPONS’

(2) ‘I wish to be streamed SENSORS’

(3) ‘I wish to be streamed CIS TECHNICIAN’

d. WE108 ET(WE)(CIS) career course personnel will be streamed at selection to LET. Line Managers are to ensure that ET(WE)(CIS)s indicate within their JPA front page comments box, which is their preferred stream, the only approved stream choices are:

(1) I wish to be streamed CIS TECHNICIAN

(2) I wish to be streamed CIS SPECIALIST

(3) WE109 ET(CIS) career course personnel are streamed upon entry and are therefore not required to indicate streaming preference.

e. Streaming of eligible WEGS personnel is conducted during the promotion selection boards for ET to LET only, Reporting Officers should add a comment on suitability for a recommended stream within SPs SJAR. WEGS personnel are to be aware that streaming preference may not always be offered, this could be for many factors such as Service needs. After selection to LET, WEGS personnel will no longer be required to indicate their preference on JPA as streaming has already been conducted.

f. RN eligibility and entry standards can be found within BR3(1) Ch7.

WEGS ET2 to ET1 (All streams)

Requirement	Competency	Proficiency Level	Notes
Serving on ES2/FC/OE1 or ES3/EC/2OE which expires after the CPD[8].			
Substantive WO2s, and those selected for WO2 but have yet to reach their CPD, will be eligible for consideration regardless of the seniority held in their rate[9].			
Recommended for Promotion on Appraisal Report at CRD[10].			

Table 75A-11. Pre-Promotion Requirements for WO1ET(WE)

Requirement	Competency	Proficiency Level	Notes
At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).			
Educationally Qualified for promotion in accordance with Para 9615.[11].			

Promoted to - Warrant Officer First Class Engineering Technician (Weapon Engineering) or Warrant Officer First Class Engineering Technician (Communication Information Systems)

[8] Para 6703 b sub para 6.
[9] Para 6703 b sub para 2.
[10] Para 6703 b sub para 3, 9.
[11] Para 9615.

Notes:

1. CDJ Competence/ICF Framework. *Display required proficiency in current rate. In accordance with competences laid down in the ICF Competency Matrix[12] and the ICF Competency Levels[13]; achieved within the sea employment space, evidenced within the individuals CDJ with mandatory completion, subsequently assessed and authorised by the HOD.*

2. New Entrants. *All new entrants are rated Engineering Technician (Weapon Engineering) (ET(WE)2), Engineering Technician (Weapon Engineering) (Communications and Information Systems) (ET(WE)(CIS)2)[14] or Engineering Technician (Communication Information Systems) ET(CIS)2[15] on joining Phase 1 New Entry Training.*

3. Phase 2 Training. *There are currently two streams upon joining Weapon Engineering General Service. These are Engineering Technician (Weapon Engineering) (ET(WE)) who stream on selection to LET to either Weapons, Sensors or CIS Tech and Engineering Technician (Communication Information Systems) (ET(CIS)) who single stream on joining Phase 1. The last combined ETWE(CIS)2 career course completed 6 Aug 20 with the New ET(CIS)2 career course having commenced 18 May 20.*

4. Potential Fast Track Candidates. *Assessments and recommendations from sea for potential FT candidates at ET Level are to have shown the potential to operate at the technical ability and expected CLM attributes of that of a POET. Recommend should be made on last SJAR prior to attending LET course, hence recommendation is for FT as an LET to POET.*

Potential FT candidates at LET level are to have shown the potential to operate at the technical ability and expected CLM attributes of that of a CPOET. Recommend should be made on last SJAR prior to attending POET course, hence recommended for FT as a POET to CPOET.

The recommendation is to be recorded on JPA with supporting comments included by the 1 and 2 RO in their next SJAR, competence details as follows:

*ET LEVEL - Professional|Fast Track POET Recommend|Navy **
*LET LEVEL - Professional|Fast Track CPOET Recommend|Navy| ***

**Recommend on last SJAR prior to LET course, hence recommended for FT between LET to POET*
*** Recommend on last SJAR prior to LET course, hence* recommended *for FT between POET to CPOET*

(Continued)

[12] ICF Matrix V5.4 - https://modgovuk.sharepoint.com/:x:/r/sites/defnet/Navy/_layouts/15/WopiFrame2.aspx?sourcedoc=%7bf5be280d-362f-44d0-b36f-11b71ceda32c%7d
[13] EGS ICF Competence Levels - https://modgovuk.sharepoint.com/sites/defnet/navy/Docs11/20161116.1/20140327-EGS%20ICF%20Competence%20Levels.pdf
[14] ET(CIS) single stream commenced Phase 1 - 5 May 19 and the last ET(WE)(CIS)2 WE108 course completed 6 Aug 20. (WE109 1903-1904 was made up of Single Stream ET(CIS).
[15] The first ET(CIS)2 WE109 course commenced 18 May 20.

Notes (Continued):

5. Individual Stream Preference. *The Individual's Streaming Preference is to be recorded on JPA within the section My Career, Employee Preferences, Comments, first box, using the following format:*

ET(WE) WE107 Career Course Personnel Only:

Stream Preference – Weapons
Stream Preference – Sensors
Stream Preference – CIS Tech

ET(WE)(CIS) 108 Career Course Personnel Only:

Stream Preference – CIS Tech
Stream Preference – CIS Spec

ET(CIS) Specialist Ratings who conducted the WE109 Career Course are single streamed upon entry from 1 May 2019, therefore no streaming preference is required.

Divisional Officers - The 1RO is to provide supporting evidence of suitability for the stream in the individual's SJAR.

Streaming – Ratings and Divisional Officers are to be aware that individual streaming preference will be made IAW needs of service.

6. Recommendation for Promotion. *Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation. For promotion up to the rate of PO, Streamlined Eligibility Dates (SED) of 31 Mar, 31 Jul and 30 Nov in any year will apply. If a streamlined promotion candidate has been awarded a positive recommendation for promotion (as above) in the last SJAR and, since that report, has become eligible in all other respects for selection, they will be placed before the Promotion Board.*

7. Selection Boards. *Selection Boards will be convened up to 3 times a year and the results of successful candidates announced on completion. CM will endeavour to assign selected personnel to Qualifying Courses (QC) depending on course and individual availability (OC).*

8. Failure to Complete Professional and/or Leadership Course. *Refer to Para 6714 and 6703 b sub para 4 for rules on the impact on a rating's promotion if they fail to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (out with own control) or non-service reasons (within own control).*

(Continued)

Notes (Continued):

9. *Personnel who do not have sufficient length of service remaining to meet the requirement of any Return of Service (RoS) attached to a Qualifying Course (QC). Personnel must agree to an extension of service (EoS) that may be required to cover the length of the course and associated ROS on Form S61 (Para 5304 sub para f). Acceptance of the EoS will be required prior to commencement of the relevant QC.*

10. Pre-course Learning. *Pre-course learning is to be completed in accordance with the policy of the relevant Training School. Where this is not achieved, the suitability of the individual to undertake the course will be determined on a case-by-case basis by the Commanding Officer HMS COLLINGWOOD (not applicable to CIS Specialists).*

11. The suitability of individuals to retake failed elements of the QC or the requirement to be back-classed. *The suitability of individuals to retake failed elements of the QC or the requirement to be back-classed will be determined by the Commanding Officer HMS COLLINGWOOD. A repeat failure of part/all of the course may result in the individual being deselected; continuing to serve in the lower rate and their suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.*

12. Unsuitable Candidates. *Where, during the period of the Qualifying Course, candidates are found to be unsuitable for promotion to the next higher rate, they may be withdrawn from training by the Commanding Officer HMS COLLINGWOOD. In such cases, individuals will be deselected and will continue to serve in the lower rate. They will be eligible for future selection in normal course.*

13. Qualifying Courses and PE Failures. *For rules regarding failure, see Para 6912.*

14. Refusal to Undertake the QC. *If successful ratings decide to refuse the course, they will be deselected and continue to serve in their current rate.*

ANNEX 75B

WEGS LEGACY ET(WE) PROMOTION TABLES

1. Engineering Technician (Weapon Engineering) - Legacy

a. The following rules apply to personnel who have not been trained via a Project Faraday/Mountbatten course.

b. Personnel will transfer to the WEGS career pathway detailed at Annex A on completion of a modern career course.

ET(WE)2 to ET(WE)1 - Legacy

Table 75B-1. ET(WE)2 to (ETWE)1 Requirements

Requirement	Competence	Proficiency Level	Notes
Completed Part 1 New Entry Training and Part 2 ET(WE) Career Course. On completion ratings issued ET(WE) Taskbook.			1
At least 6 months since last Career Check (if any) on date due advancement.			
Completed Task Book Section 2A (including ET 2 Safety Check Assessment).			
Recommended for advancement to ET(WE)1 by HOD.			

Advanced to - ET(WE)1

ET(WE)1 to LET(WE) - Legacy

To be educationally qualified for promotion (EFP)[12].			

Promoted to - WARRANT OFFICER FIRST CLASS ENGINEERING TECHNICIAN (WEAPON ENGINEERING)

[9] Para 6703 b sub para 6.
[10] Para 6703 b sub para 2.
[11] Para 6703 b sub para 3.
[12] Para 9615.

Notes:

1. ***New Entrants.*** *All new entrants are rated Engineering Technician (Weapon Engineering) (ET(WE)2) on joining Phase 1 Initial New Entry Training..*

2. ***Role Performance Statement (RPS) as an ET(WE)1.*** *Awarded on successful completion of both the Task Book Section 2B and the formal RPS Assessment (within 36 months from completion of Phase 2 training). The Assessment is to be constituted in accordance with the guidance from the BR 2000 Series.*

3. ***Individual Stream Preference.*** *The Individual's Streaming Preference is to be recorded on JPA within the section My Career, Employee Preferences, Comments, first box, using the following format:*

ET(WE) Legacy Career Course Personnel Only:

Stream Preference – Weapons
Stream Preference – Sensors
Stream Preference – CIS Tech

Divisional Officers - The 1RO is to provide supporting evidence of suitability for the stream in the individual's SJAR.

Streaming – Ratings and Divisional Officers are to be aware that individual streaming preference will be made IAW needs of service.

4. ***Failure to Complete Professional and/or Leadership Course.*** *Refer to Para 6714 and 6703 b sub para 4 for rules on the impact on a rating's promotion if they fail to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control). For rules regarding failure, see Para 6912 sub para f.*

5. ***Personnel who do not have sufficient length of service remaining to meet the requirement of any Return of Service (RoS) attached to a Qualifying Course (QC).*** *Personnel must agree to any extension of service (EoS) that may be required to cover the length of the course and associated ROS on Form S61 (Para 5304 sub para f). Acceptance of the EoS will be required prior to commencement of the relevant QC.*

6. ***Pre-course Learning.*** *Pre-course learning is to be completed in accordance with the policy of the relevant Training School. Where this is not achieved, the suitability of the individual to undertake the course will be determined on a case-by-case basis by the Commanding Officer HMS COLLINGWOOD.*

7. ***Selection Boards.*** *Selection Boards are convened up to 3 times a year and the results of successful candidates announced on 31 Mar, 31 Jul and 30 Nov. DDPD will endeavour to assign selected personnel to Qualifying Courses (QC) starting in the next training term but one.*

(Continued)

Notes (Continued):

8. The suitability of individuals to retake failed elements of the QC or to be re-classed. *The suitability of individuals to retake failed elements of the QC or to be re-classed will be determined by the OC WETG HMS COLLINGWOOD. A repeat failure of part/all of the course will result in the individual being deselected, continuing to serve in the lower rate and their suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.*

9. Selection Boards. *Selection Boards will select CPOET(WE)s to be assigned to the WOQC in the following training year. Shortly after each Selection Board has completed sitting, a signal originated by the Ratings' Promotions Section will promulgate the names of successful candidates in alphabetical order. DDPD will endeavour to assign all ratings to WO1QC on an opportunity basis, but the needs of the Service remain paramount.*

10. Refusal. *As is customary in a selection process, successful ratings will have the opportunity of refusing the course. Those doing so will be deselected and continue to serve in their current rate.*

11. Failure. *If a candidate fails the WOQC, their suitability to retake the course or elements therein will be considered by the Commanding Officer HMS COLLINGWOOD. A repeat failure of all/part of the course will result in deselection and the rating continuing to serve as a CPOET(WE). Suitability for future WOQC will be through the selection process and will be dependent on the rating's performance as reported by SJAR.*

12. Unsuitable Candidates. *Whilst on the WOQC, if candidates are found to be unsuitable for promotion to WO2ET(WE), they may be withdrawn from training by the Commanding Officer HMS COLLINGWOOD; they will be deselected, continue to serve as CPOET(WE)s and will be eligible for future selection in normal course.*

13. EFP Requirement for WO1. *The EFP requirement for consideration for selection for WO1 will not apply to any WO2ET(WE) GS who has been promoted to Warrant Officer under previous EFP regulations. Although EFP will not apply to any WO2 on previous EFP regulations, this will affect eligibility for selection on WOCB in that the criterion is not met.*

14. ***CPOWEM.*** Individuals wishing to be presented to the WO2 selection board must request this in writing/email to Proms and the relevant BM SO2.

15. This should be completed before the CPO CRD with supporting words in the SJAR

16. Must be completed prior to WOQC (WE 535).

[20] Para 6703 b sub para 3.
[21] Para 9615.

Notes:

1. ***ET(WE)(CIS)1 Career Course.*** *The final Comms\|AB(CIS)1/AB(CISSM)1 Career (Comms 202)\|Navy\|Career Course took place in Q1 18 and all remaining ET1 CIS Specialist now hold the competence. At this point training moved to ICF with ET(WE)(CIS) completing WE\|ET(WE)CIS Career (WE 108)\|Navy\|.*

2. ***Failure to Complete Professional and/or Leadership Course.*** *Refer to Para 6714 and 6703 b sub para 4 for rules on the impact on a rating's promotion if they fail to complete PQC and/or LRLC/ SRLC before CPD or within 12 months of CPD due to service reasons, non-service reasons (outwith own control) or non-service reasons (within own control). For rules regarding failure, see Para 6912 sub para f.*

3. ***Personnel who do not have sufficient length of service remaining to meet the requirement of any Return of Service (RoS) attached to a Qualifying Course (QC).*** *Personnel must agree to any extension of service (EoS) that may be required to cover the length of the course and associated ROS on Form S61 (Para 5304 sub para f). Acceptance of the EoS will be required prior to commencement of the relevant QC.*

4. ***Pre-course Learning.*** *Pre-course Learning is to be completed in accordance with the policy of the relevant Training School. Where this is not achieved, the suitability of the individual to undertake the course will be determined on a case-by-case basis by the Commanding Officer HMS COLLINGWOOD.*

5. ***Failure.*** *If a candidate fails the QC, their suitability to retake the course, or elements therein, will be considered by the Commanding Officer HMS COLLINGWOOD. A repeat failure of all/part of the course will result in deselection and the rating continuing to serve in the lower rate. Suitability for future QC will be through the selection process and will be dependent on the rating's performance as reported by SJAR.*

6. ***Selection Boards.*** *Selection Boards are convened up to 3 times a year and the results of successful candidates announced on 31 Mar, 31 Jul and 30 Nov. DDPD will endeavour to assign selected personnel to Qualifying Courses (QC) starting in the next training term but one.*

7. ***The suitability of individuals to retake failed elements of the QC or to be re-classed.*** *The suitability of individuals to retake failed elements of the QC or to be re-classed will be determined by the OC WETG HMS COLLINGWOOD. A repeat failure of part/all of the course will result in the individual being deselected, continuing to serve in the lower rate and their suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.*

8. ***Annual RPS Check.*** *Annual RPS must be completed and recorded on JPA prior to attending LET(CIS)/POET(CIS) Spec QC. 'NCT\|Annual RPS Check\|Navy\|'.*

(Continued)

Notes (Continued):

9. ***Professional Certification Record.*** *On completion of PO PQC, individuals will be issued a Professional Certification Record. This record is to be completed within 12 months of joining first sea going Unit as a PO. Once completed, the following competence is to be awarded by the Unit HR Admin: 'Professional\|RPS for PO LQ30\|Navy\|'.*

10. ***Selection Boards.*** *Selection Boards will select CPOET(CIS) to be assigned to the WOQC in the following training year. Shortly after each Selection Board has completed sitting, a signal originated by the Ratings' Promotions Section will promulgate the names of successful candidates in alphabetical order. DDPD will endeavour to assign all ratings to WOQC on an opportunity basis, but the needs of the Service remain paramount.*

11. ***Refusal.*** *As is customary in a selection process, successful ratings will have the opportunity of refusing the course. Those doing so will be deselected and continue to serve in their current rate.*

12. ***Failure.*** *If a candidate fails the WOQC, their suitability to retake the course or elements therein will be considered by the Commanding Officer HMS COLLINGWOOD. A repeat failure of all/part of the course will result in deselection and the rating continuing to serve as a CPOET(CIS). Suitability for future WOQC will be through the selection process and will be dependent on the rating's performance as reported by SJAR.*

13. ***Unsuitable Candidates.*** *Whilst on the WOQC, if candidates are found to be unsuitable for promotion to WO2ET(WE), they may be withdrawn from training by the Commanding Officer HMS COLLINGWOOD; they will be deselected, continue to serve as CPOET(CIS)s and will be eligible for future selection in normal course.*

14. ***CPO and WO QCs.*** *On selection to CPOET, legacy CIS SRs are required to complete both CPO (WE 320) and WO (WE 535) Career Courses. On completion they will transfer to the ICF Promotion Tables[22]. All those selected on or after the 2021 selection signal will be required to complete CPOET CC, with follow-on sea assignment[23]. Any CPOET(CIS) prior to this date will continue to follow legacy promotion requirements within these tables.*

Selection Point	**Key Advancement Criteria**	**Applicability**
	1. Serving on an ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated Due Date for Advancement. 2. Educationally Qualified for Promotion (EFP) in accordance with Para 9613 and recorded on JPA as 'Educational|RN/RM QEPO/Sgt|Navy|'. 3. Display required proficiency in accordance with competencies as laid down in the Individual Competency Framework (ICF) as a POET, authorised by HOD and recorded on JPA as 'Professional| Engineering Technician(GS)|Navy| with a Proficiency Level of 'POET'. To be completed within 18 months of joining unit (12). 4. A minimum of 24 months' sea service as a POET recorded on JPA as 'CMS|Fast Track POET 24 Month Sea Time|NAVY'. 5. Recommended for advancement on Appraisal Report at Due Date (11). 6. Passed CPOET(WE) QC by nominated Due Date; recorded on JPA as 'WE|CPO(WE) Career (WE 320)|Navy' (6), (7), (8), (10). 7. At least 6 months since last Career Check (if any) on due date for Advancement (if later).	

Advanced to

CHIEF PETTY OFFICER ENGINEERING TECHNICIAN

Transfer to Selective Promotion Flowchart for ICF ET and back to selective promotion rules in BRd 3 Ch 67

Notes:

1. FT Selection Panels and Boards will be co-ordinated by the ATA within the training school and will be convened throughout each term. ETs selected during Phase 2 Training will be awarded an appropriate Fast Track Start Date of 31 Mar, 31 Jul or 30 Nov. The date due advancement by time to LET, subject to meeting the eligibility criteria will be 24 months from this date. Selection for FT from LET to POET will be selection by a termly Selection Board, with a date due advancement to POET, subject to meeting the eligibility criteria of 24 months from the seniority date as a LET. Selection for FT from POET to CPOET will be selection by a termly Selection Board, with a date due advancement to CPOET, subject to meeting the eligibility criteria, of 36 months from their FTSD that is determined by the point at which they are selected and will be used in the subsequent calculation for future Due Date.

2. On completion of the ET2 Career Development Journal (CDJ) mandated tasks and being recommended, ratings will be advanced to ET1 and issued their CBRNDC Task Book.

3. Competence as an ET1 is achieved on successful completion of the ICF mandated competencies within the sea employment space, evidenced within the individual's CDJ. This is to be completed within 9 months' sea service as an ET.

4. Stream Preference of either ET(WE) CIS Tech, CIS Spec or S or W, as appropriate is to be submitted into JPA, within the section Personal Preference Comments 1.

5. Pre-course learning is to be completed no later than on completion of 8 months' sea service.

6. Suitability of individuals to retake failed elements of the QC, or the requirement to be back classed, or remain as a Fast Track, will be determined by the Commanding Officer of the Training School in consultation with WEGS Branch Managers. A repeat failure of part/all of the course will result in the individual being deselected from FT, however, will remain on the QC, but not on the Fast Track scheme (normal QC failure rules apply). Suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.

*7. **Unsuitable Candidates.** Where, during the period of the Qualifying Course, candidates are found to be unsuitable for advancement to the next higher rate, they may be withdrawn from training by the Commanding Officer of the Training School. In such cases, individuals will be deselected from Fast Track and the Qualifying Course and will continue to serve in their current rate. They will transfer from Fast Track back to Selective Promotion as the eligibility route for future selection.*

(Continued)

Notes: (Continued)

8. ***Failure to Complete Professional and/or Leadership Course.*** *Refer to Para 6803 for rules on the impact on a rating's advancement if they fail to complete QC and/or LRLC/SRLC before the due date by time or within 12 months of the due date as a result of service reasons (outwith own control) or non-service reasons (within own control).*

9. Competence as an LET(WE)/LET(WE)(CIS)/LET(CIS) is achieved on successful completion of the ICF mandated competencies within the sea employment space, evidenced within the individual's CDJ. This is to be completed within 15 months' sea service as a LET.

10. ***Refusal to Undertake QC.*** *Individuals who refuse to undertake the QC will be deselected from Fast Track, continue to serve in their current rate and transfer back to Selective Promotion.*

11. If for any reason an ET, LET or POET does not achieve the eligibility criteria and subsequent recommendation for advancement, a review will be undertaken by the ATA on a case by case basis of suitability to remain as a Fast Track. Individuals who are removed from FT will transfer back to the Selective Promotion rules.

12. Competence as a POET(WE)/POET(WE)(CIS)/POET(CIS) is achieved on successful completion of the ICF mandated competences within the sea employment space, evidenced within the individual's CDJ. This is to be completed within 18 months' sea service as a POET.

ANNEX 75F

WEAPON ENGINEER GENERAL SERVICE (WEGS) ACCELERATED APPRENTICE (AA) SCHEME GUIDANCE

1. WEGS AA Scheme

Generic Accelerated Apprentice Policy can be found in BR3 Ch 68.

2. Recruitment

a. **Entry Point 1.** It is envisaged that Direct Entry candidates will supply the majority, but where capacity allows, there will be opportunities for in-service candidates to apply.

b. Service personnel who meet the entry standards are eligible to apply to join the AA scheme at one of two entry points, depending on their career progress to date:

c. **Entry Point 2.** This entry point applies to ET(WE)s who have completed or are near completion of ETICC. It involves initiating candidates into the scheme at the beginning of LETQC, promoting to PLET, and transitioning to the OR4-1 Supp 3 pay spine on day one of LETQC.

d. **Entry Point 3.** This entry point will be for substantive LET(WE)s who have completed both the LETQC and the associated stream training. Candidates will enter the scheme at the Sea Phase[1] and will remain as per their original stream.

3. Application Process

a. It should be noted that in-service entry onto the AA scheme will be based on the needs of the Service, with selection boards taking place termly with maximum authorised numbers (MAuN) set by the WEGS BM WO.

b. Functional Skills Level 2 (or equivalent) in Maths and English is the entry standard applicable to all in-service candidates.

c. The following criteria will be reviewed during selection boards:

(1) SJARs (definition of merit).

(2) Career course academic grades.

(3) Academic and vocational qualifications.

[1] With the exception of LETs from the legacy AA scheme who do not yet hold ET Sea 1 and ET Sea 2 competencies – these candidates, if selected for this scheme, will join the training pipeline at the start of Sea Phase.

d. Interested candidates are to have a recommendation from their Divisional Officer/Line Manager and should apply to the WEGS ATA CM using the form at Appendix 1. A personal statement of no more than 500 words, detailing why the candidate believes they are suited to this accelerated scheme, is to be included with the application form, along with copies of any relevant academic or vocational qualifications. Application forms will only be valid for one selection board.

e. Candidates for Entry Point 2 will likely have insufficient evidence to allow the board to identify merit for the scheme. Candidates will therefore be required to sit an oral board at HMS Collingwood (or via MS Teams, if required) before consideration at the termly selection board.

f. Successful candidates will be required to sign a certificate of understanding which details the return of service[2], entitlement to advancement, and consequences of exiting the scheme via the predetermined exit points. Administration of this process will be overseen by the WEGS ATA CM.

4. Trainee Status

a. Trainees will wear Leading Hand rank slides with white flashes to denote their PLET status, however they will not wear these white flashes during the sea training phase or thereafter. This reflects the fact that LETs undergoing sea training on the revised AA scheme will have successfully completed both LETQC and LRLC.

b. Trainees joining the AA pipeline at Entry Points 2 and 3, who are already selected for LET, will remain in the sub-specialisation to which they were streamed at the point of selection.

c. All trainees on this pipeline, regardless of entry point, are considered as untrained strength and as such will be subject to the appraisals and warnings procedures surrounding ratings on WETG training[3]. Their career management throughout the training pipeline sits with the WEGS ATA CM, located in HMS Collingwood.

5. Scheme Exit Points

a. The following exit points from the AA scheme are available to personnel who are unable to successfully complete the training pipeline in full:

(1) **Exit Point 1.** Trainees unable to complete either Phase 1 (INT(R)) or Phase 2 (WE290AA/WE109AA) training will be subject to Discharge SHORE[4].

[2] Three years upon completion of the respective WE streaming course.
[3] BRd 3(1) Ch.57 Section 7.
[4] Usually Discharge SHORE (deemed unsuitable during training (DUDT)) will be the most suitable mechanism.

(2) **Exit Point 2.** Trainees unable to complete LETQC (including streaming courses) will have two options available to them:

(a) Discharge SHORE[5].

(b) Removal from the AA scheme and placed on STP. Reverted to ET(WE)[6] and considered GTS at this point.

(3) **Exit Point 3.** Trainees unable to achieve all milestones within the time allocated for the sea training phase, or complete POETQC (including streaming courses), will be considered GTS at LET(WE) and removed from the AA scheme.

b. Sea Training Returns and an End of Tour SJAR are to be completed, with Sea Training Returns submitted to the WEGS ATA CM iaw Appendix 2. The WEGS ATA CM should be consulted at all stages of the warning process, or whenever in any doubt.

c. Advancement Flowcharts.

LEADING ENGINEER TECHNICIAN AA (GENERAL SERVICE) FLOWCHART

Entry to HMS RALEIGH (See Note 1)

PROBATIONARY LEADING ENGINEER TECHNICIAN (WEGS)

Leading Engineer Technician AA (General Service) Advancement Criteria

a. Compete Phase 1 New Entry Training.

b. Complete WE290/WE109AA Enabling Course.

c. Undertake Basic Sea Survival Course and Able Rates Leadership Course, dockyard, platform and organisation visits to assist in stream decision.

d. Streaming preference submitted (2).

e. Complete respective LETQC depending on Stream preference.

f. Completed Leading Rates' Leadership Course (LRLC), recorded on JPA as 'Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|'**.**

g. Generic PJT package to assist in employability during sea phase.

h. Undertake AA Sea Time (~18 months) as UTS PLET completing CDJ, CBRNDC TB.

[5] Discharge SHORE will only be available to trainees who entered the scheme via Entry Point 1.
[6] It should be noted that reversion from PLET to ET will incur a reduction in pay.

i. Recommended for advancement.

j. Complete respective POETQC.

k. Complete Senior Rates' Leadership Course (SRLC), recorded on JPA as 'Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|'.

l. At least 6 months since last Career Check (if any) on date due advancement.

m. Once PAR has been raised to substantive POET, ATA to End Date 'AA competency'. Rating becomes GTS. (3)

Advanced to
PETTY OFFICER ENGINEER TECHNICIAN
(WEAPON ENGINEERING GENERAL SERVICE)

Notes:

1. *The eligibility criteria to be recruited as an AA include that they join educationally qualified for promotion (EFP) to LET in accordance with Para 9615. Appropriate competences should be recorded on JPA. At recruitment AA professional competency should be issued:*

Professional|Advanced Apprenticeship|Navy|

2. *Stream Preference of either CIS Spec / CIS Tech / SENS or WPNS, as appropriate, is to be recorded on JPA, within the section Personal Preference Comments 1.*

3. *On successful completion of the AA pipeline the individual will become a Gain to the Trained Strength and advanced to Petty Officer Engineer Technician. They will then transfer to either the Selective Promotion Flowchart or, if selected, to the Fast Track CPOET Flowchart. Advanced Apprenticeship JPA competency should then be removed by CM to facilitate for Select/Train/Promote eligibility.*

ANNEX 75G

WEGS MARITIME COLLEGE CADETSHIP (MCC) SCHEME PIPELINE

1. Introduction

a. The aim of the WEGS MCC scheme is to expeditiously qualify a POET from ET level using a combination of civilian college training and training at sea on a RN platform. This is followed by SRLC alongside their Select-Train-Promote (S-T-P) counterparts.

b. Following the initial success of the Marine Engineering Glasgow Maritime College Cadetship pilot introduced in 2023, funding has been approved for a comparable WE scheme in Edinburgh College for up to 3 cadets. The WEGS College Cadetship scheme commenced in Jan 25 for the first candidates.

c. The Computer Networking HND[1] is a 2-year residential course which incorporates the industry-recognised CISCO CCNA (CISCO CERTIFIED NETWORK ASSOCIATE) curriculum.

2. College Cadetship

The WEGS MCC scheme will deliver SQEP WEGS OR6 to the frontline in approximately 3.5 years. Selection of in-service candidates will be based on merit through a process outlined in paras 6-8. An indicative timeline of the cadetship is at Table 75G-1.

Figure 75G-1. Cadetship Timeline

Phase(s)	Location	Duration (approximate)
1-4	Maritime College	104 weeks (Inc ALA)
5	HMS Collingwood	TBC (Stream Dependant)
6	Sea Period as PLET	TBC(6-12 mnths)
7	Technical/PJT training (including SRLC)	TBC (3-6 mnths)

3. Timeline Description

There are subtle variations in course syllabus across the maritime colleges, but the cadetships will generally comprise of the modules listed below.

[1] HND is a Level 5 qualification in England and Wales, equivalent to the Foundation Degree awarded on completion of POQC; the HND course is intended to be taken in lieu of LETQC and POQC.

Figure 75G-2. Timeline Description

Phase	Location	Short Courses
1A, B and C	Edinburgh College	• Multiuser Operating Systems • Project Management for IT • Networking Technology • Computing: Networking • Developing Software: Introduction • Computer Systems Fundamentals • Troubleshooting Computing Problems • Team Working in Computing • Computing: PC Hardware and OS Essentials • Professionalism and Ethics in Computing • Computing: Graded Unit 1 • Network Security Concepts • Ethical Hacking
2	HMS Collingwood/RN Establishment	Note: to progress with CDJ and attend RN Courses
3A, B and C	Edinburgh College	• Routing Technology • Switching Technology • Internetworking Technology • Managing a Web Server • Server Administration • Client Operating Systems • Computing: Networking: Graded Unit 2 • Data Security • Digital Forensics
4	HMS Collingwood/RN Establishment	Note: to progress with CDJ and attend RN Courses .
5	HMS Collingwood	• Technical top up courses • BSSC/ISSC
6	Sea Phase	Marinisation/Consolidation
7	HMS Collingwood	• SRLC • PJT's • CDJ Issue • Technical top up courses • Rated POET

4. Application

Service personnel that possess or are expected to attain the competencies below by 1 Nov 24 may apply to be considered for selection for the WECC scheme:

a. Educational qualifications[2]:

(1) Five GCSEs including Mathematics, English Language and either Physics or Chemistry or Dual Science at grade 4/C

or

(2) 9-4 Scottish equivalent.

b. WE 107/109 (no module failures).

c. Not currently subject to any professional warnings or ongoing disciplinary investigation.

d. Interested candidates should apply to the WEGS Accelerated Training Authority (ATA) using the form at Annex A. A personal statement of no more than 500 words, detailing why the candidate believes they are suited to this accelerated scheme, is to be included with the application form, along with copies of any relevant academic or vocational qualifications.

e. **All applications must be received no later than 1st Nov 24.** This will allow successful applicants to be assigned by their Career Manager to an appropriate position under the WEGS ATA CM.

5. Interview

Following a pre-interview selection, based on the quality and content of the completed application forms, candidates will be invited for interview with WEGS BM SO2 and WEGS BM WO. Interviews will take place in person in Portsmouth, however virtual interviews may be arranged as required.

6. Successful Applicants

Successful applicants will be required to conduct pre-course learning prior to college start date. This documentation will be provided by course tutors via WE ATA CM.

7. Trainee Status

a. To match other AA schemes, successful candidates will be advanced to Probationary LET (PLET) on their course start date and will be transferred to the OR4-1 Supp 3 pay spine. Trainees will be promoted to POET on successful completion of SRLC and will be subject to a 36 month return of service from completion of training.

[2] Personnel with combinations of vocational and academic qualifications will be considered on a case-by-case basis through consultation with WEGS BM WO.

b. During Phases 2, 4 and beyond, Trainees will be required to wear RNPCS (Rig 22) along with LH rank slides and white flashes to denote their PLET status.

c. During the college phases, trainees are to wear smart, civilian attire and are to align with the college's leave schedules. They must submit their leave requests via JPA. Whilst under training in Edinburgh, they will be accommodated in RN-funded student accommodation on the College Campus and entitled to Food and Incidental Allowance[3].

d. All trainees on this pipeline, regardless of entry point, will be subject to the appraisals and warnings procedures surrounding ratings on the trained strength[4], along with WETG training warnings associated with Phase 3 trainees[5]. Their career management and divisional care throughout the training pipeline sits with the WEGS ATA CM, located in HMS Collingwood.

8. RN Engagement

To maintain strong engagement with the Service throughout their college experience, candidates are required to periodically visit a nearby Royal Navy establishment (WE ATA CM to facilitate). During these visits, they will have the opportunity to utilise gym facilities and gain access to MODNET, fostering a deeper connection with the Service and enhancing their overall training experience.

[3] JSP 752 Ch.5 Section 5 – Food and Incidentals Allowance.
[4] BRd 3(1) Ch.57 Section 8.

Promoted to – WO1ET (WESM)

Notes:

1. All new entrants are rated Engineering Technician (Weapon Engineering Submarine) 2 (ET(WESM)2) on entry. Individuals are streamed TWS, CIS or SWS on completion of their professional training course.

2. Phase 2 training is completed at various training establishments. All ET(WESM)s will undertake the Submarine Escape Rescue Abandonment and Survivability (SMERAS), Firefighting (CBRNDC12 SM) and Submarine Qualification (SMQ).

3. On advancement to ET(WESM)1, ET(WESM) TWS individuals are to submit their WESM preferences on JPA in the Employees Preference, Comments by stating 'WESM TWS Preference: Sensors or Weapons'

4. On completion of ET(WESM) Task Book Part 1 and Safety Check and on being recommended, ratings will be advanced to ET(WESM)1.

5. OPS assessments are to be constituted in accordance with BR 2000(4) (oral aspects only).

6. Rules regarding failure and lack of progress (see Chapter 75).

7. Personnel who do not have sufficient length of service remaining to meet the requirement of the Return of Service attached to the LETQC or POETQC may be offered an extension of service (EoS). Acceptance of the EoS will be required prior to being loaded onto QC. Failure to accept an EoS will lead to the candidate being automatically de-selected.

8. Selection Boards will be convened up to 3 times a year and the results of successful candidates announced on completion. CM will endeavour to assign selected personnel to Qualifying Courses (QC) as soon as reasonably practicable.

(Continued)

Notes (Continued):

9. The suitability of individuals to retake failed elements of the QC, or to be back classed, will be determined by the OC WETG HMS COLLINGWOOD. A repeat failure of part/all of the course will result in the individual being deselected, continuing to serve in the lower rate and their suitability for future higher rate QCs will be through the selection process and will be dependent on performance as reported in the annual SJAR.

*10. **Failure to Complete Professional and/or Leadership Course.** Refer to Chapter 67 for rules on the impact on a rating's promotion if they fail to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith control) or non-service reasons (within control).*

11. Completed 12 months sea service in current rank, JPA competence recorded iaw Chapter 59.

*12. **Refusal.** As is customary in a selection process, successful ratings will have the opportunity of refusing the course. Those doing so will be deselected and continue to serve in the lower rate. Personnel who start QC and have signed for the RoS will be held to the full duration of that RoS even if they remove themselves from QC at any point.*

ET (WESM) Communication Information Systems Submarines (CISSM) Promotion Tables

***Note.** The following rules apply to personnel who entered the RN as a Warfare CIS Specialist and transferred to the Weapon Engineering Branch on 1 Apr 15 and those streamed CISSM. No remaining legacy personnel exist in the rate of ET(CISSM)2.*

7. ET (CISSM)1 to LET (CISSM)

Table 75H-12. Pre-Selection Requirements for LET (CISSM) at Common Reporting Date (CRD)/Selection Eligibility Date (SED)

Requirement	Competence	Proficiency Level	Notes
Serving on an ES1/ FC/ OE1 that expires after the nominated Common Promotion Date (CPD). See Chapter 67.			
Recommended for promotion on appraisal report at Selection Eligibility Date (SED). See Chapter 67.			

Table 75H-13. Pre-Promotion Requirements for LET (CISSM)

Requirement	Competence	Proficiency Level	Notes
Pass ET(CISSM) OPS Assessment. **Must be completed prior to attendance on LETQC.**	'Professional|OPS for AB(CISSM)(QQ50)|Navy|'		
In date Annual RPS Check. **Must be completed prior to attendance on LETQC.**	'CMS|Annual RPS Check AB1|Navy|'		1
Completed Leading Rates' Leadership Course (LRLC) by nominated CPD+12 months.	'Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|'		4
Completed LET(CISSM) QC by nominated CPD +12 months.	'SM|LS(CISSM) Career (UP174QJN)|Navy|'		4
At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).			
To be educationally qualified for promotion (EFP) in accordance with Chapter 96.	'Educational|RN/RM English Level 1|Navy|' **Or** 'Educational|RN/RM English Level 2|Navy|' **Or** 'Educational|RN/RM English Proxy A*- C|Navy|Navy|' **&** 'Educational|RN/RM Mathematics Proxy A*- C|Navy|' **Or** 'Educational|RN/RM Mathematics Level 1|Navy|' **Or** 'Educational|RN/RM Mathematics Level 2|Navy|'		

Promoted to - LET (CISSM)

8. LET (CISSM) to POET (CISSM)

Table 75H-14. Pre-Selection Requirements for POET (CISSM) at CRD

Requirement	Competence	Proficiency Level	Notes
Completed LET(CISSM) Task book.			
Pass LET(CISSM) OPS Assessment.	'Professional|OPS for LS(CISSM) QQ40|Navy|'		
Recommended for promotion on Appraisal Report at SED. See Chapter 67.			
Serving on an ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD. See Chapter 67.

Requirement	Competence	Proficiency Level	Notes
12 months sea service as LET(CISSM).	'CMS|12 Months Sea Time LH|Navy|'		3
In date Annual RPS Check. **Must be completed prior to attendance on POETQC.**	'CMS|Annual RPS Check LH|Navy|'		1
Completed Senior Rates' Leadership Course (SRLC) by nominated CPD +12 months.	'Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|'		4
Passed POET(CISSM)QC by nominated CPD +12 months.	'SM|PO(CISSM) Career (UP175QSN)|Navy|'		4
At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).			
To be educationally qualified for promotion (EFP) in accordance with Chapter 96.	'Educational|RN/RM English Level 2|Navy|' **Or** 'Educational|RN/RM English Proxy A*- C|Navy|Navy|' **&** 'Educational|RN/RM Mathematics Level 2|Navy|' **Or** 'Educational|RN/RM Mathematics Proxy A*- C|Navy|'		

Promoted to - POET (CISSM)

9. POET(CISSM) to CPOET (CISSM)

Table 75H-16. Pre-Selection Requirements for CPOET (CISSM) at CRD

Requirement	Competence	Proficiency Level	Notes
Serving on an ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD. See Chapter 67.			
Completed PO CISSM Professional Certification Record.			2
Pass POET(CISSM) OPS Assessment.	'Professional|OPS for PO(CISSM) AQ30|Navy|'		1
Recommended for promotion on appraisal report at CRD. See Chapter 67.			

Table 75H-17. Pre-Promotion Requirements for CPOET (CISSM)

Requirement	Competence	Proficiency Level	Notes
12 months Sea Service as a POET(CISSM).	'CMS|12 Months Sea Time PO|Navy|'		3
At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).			

Promoted to - CPOET (CISSM)

10. CPOET (CISSM) to WO2ET (CISSM)

Table 75H-18. Pre-Selection Requirements for WO2ET (CISSM) at CRD

Requirement	Competence	Proficiency Level	Notes
Serving on an ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD. See Chapter 67.			
Recommended for promotion on Appraisal Report at CRD. See Chapter 67.			

Table 75H-19. Pre-Promotion Requirements for WO2ET (CISSM)

Requirement	Competence	Proficiency Level	Notes
At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).			
To be educationally qualified for promotion (EFP) in accordance with Chapter 96.			

Promoted to – WO2ET (CISSM)

11. WO2ET (CISSM) to WO1ET (CISSM)

Table 75H-20. Pre-Selection Requirements for WO1ET (CISSM) at CRD

Requirement	Competence	Proficiency Level	Notes
Serving on an ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD. See Chapter 67.			
Recommended for promotion on Appraisal Report at CRD. See Chapter 67.			

Table 75H-21. Pre-Promotion Requirements for WO1ET (CISSM)

Requirement	Competence	Proficiency Level	Notes
At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).			
To be educationally qualified for promotion (EFP) in accordance with Chapter 96.			

Promoted to – WO1ET (CISSM)

Notes:

1. ***CISSM Branch Training - Annual RPS Check.***

a. All personnel are expected to remain at RPS while building up experience towards promotion. Lead Schools will define and regulate the standards required to pass an Annual RPS Check and will promulgate them to Fleet Units. Guidance on the process of conducting RPS checks is given in BR 1984.

b. The RPS examination forms part of the annual RPS Check and is valid for 12 months from the date of the examination. The examination is to be conducted at the RPT Facility in Faslane. Ratings assigned or loaned to units outside of these geographical locations are to contact the RPT Facility Faslane to request authorisation to conduct an 'outstation RPS examination'.

2. ***Professional Certification Record.*** *On completion of PO PQC, individuals will be issued a Professional Certification Record. This record is to be completed within 12 months of joining first sea going Unit as a PO. Once completed the competence 'Professional|OPS for PO(CISSM) |Navy|' is to be awarded by the Unit HR Admin.*

3. Completed 12 months sea service in current rank, JPA competence recorded iaw Chapter 59.

4. ***Failure to Complete Professional and/or Leadership Course.*** *Refer to Chapter 67 for rules on the impact on a rating's promotion if they fail to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith control) or non-service reasons (within control).*

Annex 76D: Survival Equipment Technician – Promotion Flowchart and Failure Policy

CHAPTER 76

ENGINEERING PROFESSION - AIR ENGINEER SPECIALISATION - AIR ENGINEERING AND SURVIVAL EQUIPMENT TECHNICIANS

7601. FAA Engineering Specialisation - General Terminology

a. The Air Engineering (AE) sub-specialisation rating structure comprises technician, artificer and mechanic streams. Ratings are titled ‘Air Engineering Technician’, ‘Air Engineering Artificer’ or ‘Air Engineering Mechanic’ as appropriate and, from promotion to Leading Hand (LH) up to and including Chief Petty Officer (CPO), will specialise in one of the following trades:

Mechanical	(M)
Avionics	(Av)

b. In recognition of the wider managerial role of the Warrant Officer, AE trade categories are not retained above the rate of Chief Petty Officer.

c. The Survival Equipment (SE) sub-specialisation rating structure comprises a technician stream only. Ratings are titled ‘Survival Equipment Technician’.

7602. Fast Track Scheme for Accelerated Advancement to the Rate of Leading Air Engineering Technician and Petty Officer Air Engineering Technician

a. The Fast Track (FT) scheme consists of a sequence of training, experience and rigorous continuous assessment culminating in advancement to LAET and/or POAET on a combined time and merit basis. The FT route provides early attendance on the LAET and/or POAET Qualifying Courses (QC) with a reduced time spent at AET and LAET for ratings to gain experience on a Squadron. Individuals who successfully complete the LAET FT scheme will not be automatically selected for POAET FT and must be re-selected and pass further assessment to continue on the scheme.

b. Selection for the FT Scheme is carried out by the FT Selection Board (FTSB), chaired by NAVY PEOPLE-WFPT ENG AE SO1, selecting FT ratings three times each calendar year, dependent on the Service requirement. Such selections will be made from a pool of candidates who have already successfully passed a FT Assessment Board (FTAB) post AET QC or LAET QC. Detailed regulations for the FT scheme are contained in the Manual of Naval Air Engineering Training (MNAET). There is also a Field Nomination (FN) route for the LAET FT scheme detailed within the MNAET Chapter 1.3.

7603. Air Engineering Accelerated Apprentice Scheme for Direct Entry as a Probationary Leading Hand

a. Air Engineering Accelerated Apprentices (AE AA) join HMS RALEIGH as Probationary Leading Hands (see Para 6809) until they become a Gain to the Trained Strength (GTS) as an LAET on completion of a 2 year bespoke training pipeline (see Annex 76C). Once GTS, the AE AA will be subject to the normal selection process of a LAET.

b. In order to maintain oversight of the scheme, NAVY PEOPLE-CM OR ENG AE2 monitors the number of AE AA students in the training pipeline and coordinates their attendance on courses.

c. Further detail on the AA scheme can be found at Para 6810. The AA Warnings and Failure policy is laid down at Annex 68N.

7604. Spare.

7605. Recommendations for Promotion and Advancement - General

All recommendations for promotion and advancement are to be made with due regard to the conditions in Para 6901.

7606. Certificate of Competence to Supervise Aircraft Maintenance / Survival Equipment Maintenance

Achievement of the Certificate of Competence to Supervise Aircraft Maintenance (CCSAM) and Certificate of Competence to Supervise Survival Equipment Maintenance (CCSSEM) represents the final stages in the training and assessment process to reach the Role Performance Statement (RPS) for the LAET and LSET in terms of duties and tasks. Full details of the award of CCSAM and CCSSEM are set out in the MNAET.

7607. Aircraft Certificate of Competence

The Aircraft Certificate of Competence (ACC) is awarded on successful completion of CPOAET QC and CPOAET Workplace Training (WT) and represents the final stage in the training and assessment process to reach the RPS for the CPOAET in terms of duties and tasks. Full details, including the Enabling Objectives for the award of ACC, are set out in the MNAET.

ANNEX 76A

AIR ENGINEERING TECHNICIANS – PROMOTION FLOWCHART AND FAILURE POLICY

1. Air Engineering Technicians - Promotion Flowchart

AET 2

AE Technician 1 - Advancement Criteria

a. Complete Phase 1 New Entry Training (see Note 1).

b. For branch transfers, a minimum of Level 1 Functional Skills in English and Mathematics, and attainment of the relevant DAA scores as for AET entry.

c. Complete AET QC (Phase 2A Training) (see Note 2).

d. Complete AET WT (Phase 2B Training), and award of QM and QS (see Notes 3,4 and 5).

e. Twelve months' seniority as an AET2.

f. Recommended for advancement.

g. At least 6 months since last Career Check (if any) on date due advancement.

Advanced to
AET 1 (see Note 6)

Leading AE Technician - Pre-Selection Requirements

a. Minimum of 18 months' seniority as AET1 12 months prior to the Common Promotion Date (CPD) (Para 6703 b sub para (2)).

b. Serving on a ES1/FC/OE1 that expires after the nominated CPD (Para 6703 b sub para (6)).

c. 2RO recommendation for promotion on Appraisal Report at CRD (see Note 13).

d. Issued the Pre-LAET QC Training Performance Record Task Book. Recorded as JPA competence 'Professional |Task Book Issued (AV) – AET (SK50)|Navy' or 'Professional |Task Book Issued (M) For AET (TE80)|Navy'

Leading AE Technician – Pre-Promotion Requirements

a. Completed Pre-LAET QC Training Performance Record Task Book (see Note 5). Recorded as JPA competence 'Professional |Task Book Completed (AV) – AET (SK53)|Navy' or 'Professional |Task Book Completed (M) For AET (TE83)|Navy'

b. Passed LAET QC by nominated CPD+12 months (see Notes 4c, 8, 9 &16).

c. Completed Leading Rates' Leadership Course (LRLC) and recorded as JPA competence 'Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|' (16).

d. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

e. Educationally qualified for promotion (EFP) in accordance with Para 9615. Achieved Level 1 Functional Skills (or equivalent) in English and Mathematics at Common Promotion Date (CPD) and appropriate competences recorded on JPA.

Promoted to
LAET (M) or (AV)

Petty Officer AET- Pre-Selection Requirements

a. Hold Certificate of Competence to Supervise Aircraft Maintenance (CCSAM) and recorded as JPA competence 'FAA|Certificate Of Competency-Supervise A/C Maint|Navy|' or 'Professional|Certificate Of Competence For LAEM/LAET (TQ40)|Navy|' (Para 7606) (see Note 10).

b. Minimum of 2 years' seniority as a LAET 12 months prior to the CPD.

c. 2RO recommendation for promotion on Appraisal Report at CRD.

d. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

e. Not serving on a Navy Tailored Career.

f. Not serving on an Extension of Service.

Petty Officer AET- Pre-Promotion Requirements

a. Completed LAET WT Task Book((see Note 9).

b. Completed POAET QC by nominated CPD+12 months (see Notes 11 and 16).

c. Completed Senior Rates Leadership Course (SRLC) and recorded as JPA competence 'Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|' (see Note15).

d. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

e. EFP in accordance with Para 9615. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics at CPD and appropriate competences recorded on JPA.

Promoted to
PETTY OFFICER AET (see Note 12)

Chief Petty Officer AE Technician - Pre-Selection Requirements

a. Minimum of 3 years' seniority as a POAET 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Not serving on a Navy Tailored Career.

d. Not serving on an Extension of Service.

e. Completed Senior Rates' Leadership Course (SRLC) by nominated CRD and recorded as JPA competence 'Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|'.

f. 2RO recommendation for promotion on Appraisal Report at CRD.

Chief Petty Officer AE Technician - Pre-Promotion Requirements

a. Completed CPOAET QC by nominated CPD+12 months (see Note 15).

b. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
CHIEF PETTY OFFICER AET

Warrant Officer 2 AE Technician – Pre-Selection Requirements

a. Minimum of 3 years' seniority in the rate 12 months prior to CPD.

b. Hold Aircraft Certificate of Competence (ACC) (Para 7607). Recorded as JPA competence 'FAA|ACC Aircraft Certificate of Competence|Navy|'.

c. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

d. 2RO recommendation for promotion at CRD.

e. Not serving on a Navy Tailored Career.

f. Not serving on an Extension of Service.

Warrant Officer 2 AE Technician - Pre-Promotion Requirements

a. For CPOAETs, completed WO2AETQC by nominated CPD+12 months (see Note16).

b. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
WARRANT OFFICER 2 AET

Warrant Officer 1 AE Technician - Pre-Selection Requirements

a. No minimum seniority requirements for a serving WO2AET.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. 2RO recommendation for promotion at CRD.

d. Not serving on a Navy Tailored Career.

e. Not serving on an Extension of Service.

Warrant Officer 1 AE Technician - Pre-Promotion Requirements

a. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
WARRANT OFFICER 1 AET

Notes:

1. New entrants join the Air Engineering (AE) specialisation as an Able Rating (AET2) with a seniority of date of entry. They undergo Phase 1 Training before being assigned to the Royal Navy Air Engineering and Survival School (RNAESS) for the Air Engineering Technician Qualifying Course (AET QC) (also known as Phase 2A training).

2. Selection for the Fast Track scheme may occur during AET QC (Phase 2A) or LAET QC training. Regulations governing those selected to the Fast Track are detailed separately at Para 7602 and Annex 76B.

3. Following training at RNAESS, ratings are assigned to an Air Station for AET Workplace Training (AET WT) (also known as Phase 2B Training). During this period, ratings are required to become 'Qualified to Maintain' (QM) and 'Qualified to Sign' (QS). Regulations regarding the award of QM and QS are contained in the MNAET.

4. ***Trade Categorisation.***

a. A completed Trade Preference Card (TPC) is to be submitted within 6 months of successful completion of AET WT (award of QM/QS), but not prior to advancement to AET1. The TPC template can be found in the MNAET; it must be signed by an Air Engineer Officer (AEO)/Senior Maintenance Rating (or other Services equivalent) and submitted to the Administration Office of the Engineering Training School that provided the individual's AET WT. ETSs are to co-ordinate returns, forwarding completed TPCs to the AE Trade Categorisation Authority at RNAESS. ETSs are to manage the administration of TPC submission and hasten overdue categorisations. AE trade categorisation will be carried out on a monthly basis and the AE Ratings Career Manager (RCMAE) will be informed of the trading decision for each rating. The submission of a TPC ensures that ratings may nominate the trade of their choice, however, the requirements of the Service will remain the overriding factor. Ratings will not be allowed to change their trade preference unless authorised by the AE Branch Manager; where an individual seeks re-categorisation they are to request to do so in writing to the Trade Categorisation Authority.

b. Trade categorisation of AETs does not prevent their employment outside that trade category. Ratings will adopt their new trade category title on promotion to LAET.

c. Ratings who have successfully completed LAET QC are eligible to wear the appropriate (M) or (AV) one star trade badge.

(Continued)

Notes (Continued):

5. ***Pre-LAET QC Training Performance Record Task Book.***

a. A traded Training Performance Record Task Book (TPR) will be issued as soon as the AET is notified of their trade categorisation. Completion of a traded TPR is not a requirement for selection to LAET but it is a prerequisite for attendance at . TPRs will be prepared by RNAESS and issued by the local Engineering Training School or equivalent.

b. Completion of the TPR is the responsibility of the individual. Sufficient opportunity should exist for a rating to complete the task book within the constraints of normal assignment. It would reasonably be expected that ratings could complete the TPR on most Units within a 9 month period following its issue. For those ratings assigned to a non-Squadron position following their AET WT consolidation period, employing Units should, where practicable, maximise opportunities for TPR completion. Where this proves not to be feasible, the Unit/rating is to engage with the RCMAE to identify a suitable follow on assignment to enable TPR completion on the next Unit. Only in exceptional circumstances will RCMAE consider assigning ratings outside of normal processes in order that a TPR may be completed.

c. Once issued, TPRs are to be retained by the individual rating. Divisional Officers are to carry out routine checks on the progress of ratings in completing their TPR and are to complete the TPR Task Book Monitoring Form (TMF).

d. Completed TPRs are to be presented to the local Engineering Training School or equivalent for a JPA TPR completion competence to be added. The TPR Completion Certificate should then be dispatched to RNAESS. Loss of a TPR before it is fully completed will prejudice a rating's prospects for promotion to LAET since completion is a prerequisite for attendance at.

e. Completion of a TPR is a mandatory requirement for attendance at the LAET QC. In exceptional circumstances RNAESS will consider individual cases where TPR completion has not been possible. Reporting instructions are included in the TPR.

6. On advancement to AET1, ratings are eligible to wear one star on their (AE) specialisation badge.

7. ***Preparation for Promotion.*** *Preparation for promotion to LAET is the responsibility of the individual. Ratings should maximise the opportunities to achieve the necessary experience and educational qualifications and, in particular, must achieve a good knowledge of the work in their designated trade category.*

(Continued)

Notes (Continued):

8. A return of service for training applies to LAETs on completion of the Certificate of Competence to Supervise Aircraft Maintenance (CCSAM) Board (Chapter 53 refers).

*9. **LAET WT Task Book.***

a. A LAET WT TB shall be issued to all ratings on completion of LAET and represents those tasks to be completed to meet the Operational Performance Statement for a LAET. Completion of the TB is the responsibility of the individual and is a mandatory requirement prior to attempting the Certificate of Competence to Supervise Aircraft Maintenance (CCSAM) Board.

b. Line Management shall make sure that the completion of the LAET WT tasks is positively encouraged and actively managed within their units. To this end, LAETs undertaking CCSAM Training are not to be employed in ancillary or non-technical roles to the extent that the completion of the LAET WT tasks is prejudiced.

c. Once issued, TBs shall be retained by the individual rating until successful completion of CCSAM and then returned to RNAESS. The date that the TB is issued and completed should also be recorded on JPA as a competence.

d. Individuals who have been selected for promotion shall make sure that the Task Book completion competence ('Professional|Task Book completed (M)-LAET(SJ52)|Navy|' or 'Professional|Task Book completed (Av)-LAET(SJ51)|Navy|') is recorded on JPA prior to attendance at POAET QC.

10. Ratings who have successfully completed LAETQC, Leading Rates Leadership Course and hold CCSAM are eligible to wear 2 stars on their trade badge.

*11. **Pre-POAET QC Academic Preparation Material***

a. Preparation material for is available on the Defence Learning Environment for personnel selected for promotion to POAET. The material is a summary of the subjects which have been taught on LAETQC and acts as a refresher to ensure personnel are at the appropriate standard to start the POAET QC.

b. Whilst completion of this material is not mandatory, due to the short nature of the POAET QC there will be little opportunity for those who fall behind to catch up. Individuals are strongly recommended, therefore, to complete this refresher training to avoid the risk of being back classed or deselected.

c. A Return of Service for training applies to POAETs on completion of POAET QC (Chapter 53 refers).

(Continued)

Notes (Continued):

12. Trade badges shall be worn in accordance with Chapter 39.

*13. **Recommendation.** Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.*

*14. **Spare***

*15. **Failure to Complete Professional and/or Leadership Course.** Refer to Para 6719 for rules on the impact on a rating's promotion if they fail to complete Professional Qualifying Course and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).*

16. ***EFP requirement for WO1.** It is considered that WO2AETs have been promoted to Warrant Officer under previous EFP regulations and, as such, there is no further EFP requirement for consideration for selection for WO1.*

2. Air Engineering Technicians - Rules Regarding Failure

The action to be taken when an AET fails training or an examination is shown below:

Table 76-1. AET Failure Policy

Failure Point	Failure Action
AET2	
Phase 1 Training	Consider back classing and re-examine. Consider branch change or Discharge SHORE (Chapter 54).
Phase 2a Training AET QC	Repeated failures. Consider branch transfer or Discharge SHORE (Chapter 54).
Phase 2b Training AET WT	Tiered warnings in accordance with the MNAET and Chapter 57
AET1	
LAET QC	Tiered warnings in accordance with MNAET. Consider back classing and re-examine.
LRLC	Not to be promoted. Refer to Chapter 69.
LAET	
CCSAM	Tiered warnings in accordance with MNAET Consider reversion (see Note)
POAET QC	Tiered warnings in accordance with MNAET. Not to be promoted. Consider back classing and re-examine.
SRLC	Not to be promoted. Refer to Chapter 69.

Failure Point	Failure Action
POAET CPOAET QC	 Tiered warnings in accordance with MNAET. Not to be promoted. Consider back classing and re-examine.
CPOAET ACC WO2AET QC	 Tiered warnings in accordance with MNAET Consider reversion to POAET Tiered warnings in accordance with MNAET. Not to be promoted. Consider re-examination.

Note. *For that joined under the Accelerated Apprentice scheme there is not the option for reversion as they have not held the rate of AET. As such, the options following failure are either or by exception branch transfer to AET at the BM's discretion.*

ANNEX 76B

AIR ENGINEERING TECHNICIANS FAST TRACK SCHEME – QUALIFICATIONS FOR SELECTION AND SUBSEQUENT ADVANCEMENT

1. Air Engineering Technician Fast Track Scheme - Qualifications for Selection and Subsequent Advancement

On selection to the FT Scheme from (AET QC Training) by the Fast Track Selection Board (before or after advancement to AET1) (see Note 1).

AET 1

Leading AET - Advancement Criteria (Fast Track)

a. Minimum of 9 months' experience in a Squadron or Flight.

b. Educationally qualified for promotion (EFP) in accordance with Para 9615. Achieved minimum NAMET 5:5 or Level 1 Functional Skills (or equivalent) in English and Mathematics before selection to Fast Track Scheme and appropriate competences recorded on JPA (see Note 2).

c. Completed Pre-LAET QC Training Performance Record Task Book.

d. Recommended for advancement (see Note 3).

e. Minimum of 18 months' seniority as AET1.

f. Passed LAET QC without attracting any academic or disciplinary warnings and maintaining above average course results (see Note 4).

g. Completed Leading Rates' Leadership Course and recorded as JPA competence 'Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|'.

h. Assignment Order issued by RCMAE (see Note 5).

i. At least 6 months since last Career Check (if any) on date due advancement.

j. Rating returns to the Select-Train-Promote pipeline once substantively promoted LAET unless selected for POAET FT (see Note 1).

Advanced to
LAET (M) or (AV)

k. Subsequent promotion as per normal intake in the AET stream (Annex 76A).

l. On selection to the POAET FT Scheme from LAET QC by the FTSB (post CCSAM) (see Note 1).

POAET - Advancement Criteria (Fast Track)

a. Complete LAET WT Task Book.

b. Awarded the Certificate of Competence to Supervise Aircraft Maintenance (CCSAM) inside the stipulated timeline (within 6 months WT consolidation not including aircraft specific TEMs as defined in Para 7606 and the MNAET Para 2.2.4).

c. Minimum of 24 months' experience in a Squadron or Flight complement position, post award of CCSAM.

d. EFP in accordance with Para 9615. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics before attendance at POAET QC and appropriate competences recorded on JPA.

e. Minimum of 18 months' seniority as LAET.

f. Recommended for advancement.

g. Passed POAET QC (4).

h. Completed Senior Rates' Leadership Course and recorded as JPA competence 'Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|'.

i. At least 6 months since last Career Check (if any) on date due advancement.

Advanced to
PETTY OFFICER AE TECHNICIAN

j. Subsequent promotion is as per normal intake in the AET stream (Annex 76A).

Notes:

1. *The rules for selection to the Fast Track (FT) scheme and associated administrative arrangements are detailed in the MNAET.*

2. *Ratings will not normally be allowed to join the FT scheme unless they meet the educational requirements for promotion to LH. FT ratings will need to meet the educational requirements for promotion to before the end of LAETQC to continue on the scheme as LAETs, as will those wishing to join the Scheme at this point. No ratings will be assigned to POAET QC who do not meet the educational requirements for promotion to.*

3. *Failure to achieve the criteria stipulated for FT or to continue to demonstrate the potential for higher managerial and leadership responsibilities and for further technician training will result in removal from the FT scheme (7602). SJARs are to include a positive reference with regard to continued retention of FT status. Where the unit Level J no longer supports the rating's retention on the FT scheme, the individual is to be given a formal warning and, if no improvement is seen, should be removed from the FT scheme (informing the AE BM and AE FT Recording Authority as appropriate).*

4. *RCMAE will normally assign FT ratings to the first available LAET QC or POAET QC dependent on meeting the criteria above, continuing FT status, course availability and the needs of the Service.*

5. *FT ratings will be advanced on completion of all relevant training with a seniority date following the last day of the relevant Qualifying Course or Leadership Course whichever is the latter. Trade badges are not to be worn above the rate of LAET.*

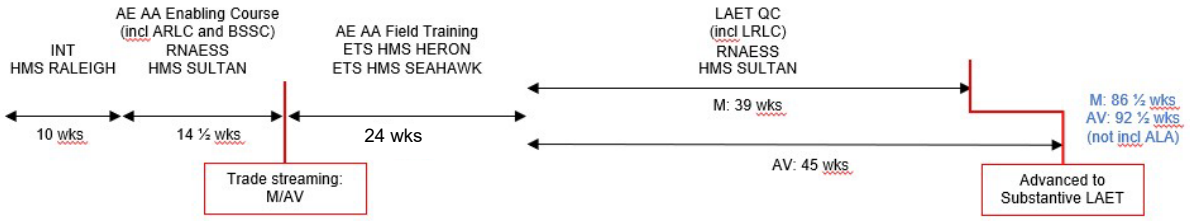
ANNEX 76C

ACCELERATED APPRENTICE (AA) AE SCHEME PIPELINE

1. Introduction

The aim of the AA AE scheme is to qualify a LAET within two years of entry. Following Initial Naval Training (INT), the AA pipeline consists of 2 bespoke technical training courses. These are principally a compression of Phase 2 for the AET pipeline, covering the same milestones but with a bespoke Task Book during AA AE Field Training at a Typed Air Station. This is followed by LAET Qualifying Course (LAETQC) and Leading Rates' Leadership Course (LRLC) alongside their AET counterparts. Further detail can be found in the Manual of Naval Air Engineering Training.

Figure 76C-1. Pipeline Schematic



2. Pipeline Description

a. **INT.** The AA recruits undergo the same training as their AET counterparts and should be treated in the same manner. They join as Probationary LAET (P/LAET).

b. **AE AA Enabling Course.** AE AA is a compressed version of the AETQC where the AA trainees develop their system knowledge and learn how to operate in the air environment safely. This will also include Able Rates' Leadership Course (ARLC) and Basic Sea Survival Course (BSSC). At the end of this time their trade preference card will be submitted to NAVY PEOPLE-CM OR ENG AE2 who will stream them as Mechanical (M) or Avionic (Av) in consultation with AE BM WO1.

c. **AE AA Field Training.** AE AA Field Training provides exposure to a squadron environment and an aircraft type. They will be expected to complete their AA Field Phase Task Book, which is based upon the standard Ph2B AET task book, with some additional CLM elements.

(1) The first 19 weeks is a compressed version of Phase 2b of the AET pipeline which culminates in achieving the Qualified to Sign (QS) and Qualified to Maintain (QM) competences.

(2) The following five and a half weeks are spent undertaking the LAET development section of the Task Book where the focus is understanding the role of a supervisor in addition to other CLM tasks.

d. **LAETQC.** LAETQC is the standard traded course alongside their Select-Train-Promote (STP) counterparts. AAs may be selected for the FT Scheme during this phase.

e. **LRLC**. LRLC is the standard 4-week course.

f. **Return of Service (RoS).** Candidates will be considered as Gains to the Trained Strength (GTS) on completion of INT(R), LRLC, LAETQC and subsequent streamed training. MTS will start from this point IAW para 5302 with personnel initially working towards their Certificate of Competence.

3. Accelerated Apprentice Scheme - Air Engineering- Advancement Flow Chart

New Entry Training (1).

PROBATIONARY LAET

Leading AET - Advancement Criteria (see Note 2)

a. Completed Phase 1 New Entry Training.

b. Completed AA AE Enabling Course.

c. Completed Basic Sea Survival Course and Able Rates Leadership Course.

d. Completed Field Phase including award of QM and QS and completion of AA Field Phase Task Book.

e. A completed Trade Preference Card (TPC) is submitted.

f. Passed all aspects of LAETQC.

g. Completed Leading Rates' Leadership Course and recorded as JPA competence 'Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|

h. Recommended for advancement.

i. At least 6 months since last Career Check (if any) on date due advancement.

Advanced to
LAET (M) or (AV) (see Note 4)

Notes:

1. *The eligibility criteria to be recruited as an AA AE include that candidates join educationally qualified for promotion to LAET in accordance with Para 9615.*

2. *Failure of career or leadership courses by an AA trainee is to be managed in accordance with the AA Warnings and Failure Policy at Annex 68K.*

3. *On successful completion of the AA pipeline, the individual will become a Gain to the Trained Strength and be advanced to Leading Air Engineer Technician. They will then transfer to either the Selective Promotion Flowchart or, if selected, to the Fast Track POAET Flowchart.*

ANNEX 76D

SURVIVAL EQUIPMENT TECHNICIAN – PROMOTION FLOWCHART AND FAILURE POLICY

1. Survival Equipment Technician - Promotion Flowchart

New Entry Training (see Note 1).

SURVIVAL EQUIPMENT TECHNICIAN 2

SET 1 - Advancement Criteria

a. Complete Phase 1 New Entry Training and SET QC (Phase 2A Training).

b. Complete SET WT (Phase 2B Training) and award of QM (see Note 2).

c. Recommended for advancement (see Note 3).

Advanced to
SURVIVAL EQUIPMENT TECHNICIAN 1

Leading Hand SET Pre-Selection Requirements

a. Minimum of 18 months' seniority as SET1 12 months prior to Common Promotion Date (CPD) (Para 6703 b sub para (2)).

b. Serving on ES1/FC/OE1 that expires after the nominated CPD (Para 6703 b sub para (6)).

c. 2RO Recommendation for promotion on Appraisal Report at CRD (4).

Leading Hand SET Pre-Promotion Requirements

d. Successful completion of Leading Rates Qualifying Course (see Notes 5 and 10).

e. Completed Leading Rates' Leadership Course; recorded as JPA competence 'Miscellaneous|Leading Rates' Leadership Course (RNLA 102)|Navy|' (see Notes 5 and 9).

f. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

g. Educationally qualified for promotion in accordance with Para 9615. Achieved Level 1 Functional Skills (or equivalent) in English and Mathematics at Common Promotion Date (CPD) and appropriate competences recorded on JPA.

Promoted to
LEADING SURVIVAL EQUIPMENT TECHNICIAN

PO SET - Pre-Selection Requirements

a. Hold Certificate of Competence to Supervise Survival Equipment Maintenance (CCSSEM) and recorded as JPA competence 'FAA|Certificate Of Competency-Supervise SE Maint|Navy' (see Note 6).

b. Completed Leading Rates' Leadership Course (LRLC); recorded as JPA competence 'Miscellaneous|Leading Rates' Leadership Course (RNLA 102)|Navy|' (see Notes 5 and 9)

c. Minimum of 2 years' seniority as LSET 12 months prior to the CPD.

d. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

e. Not serving on a Navy-Tailored Career.

f. Not serving on an Extension of Service.

g. 2RO recommendation for promotion on Appraisal Report at CRD (see Note 4).

PO SET - Pre-Promotion Requirements

h. Successful completion of Petty Officer Qualifying Course (see Notes 5 and 10)

i. Completed Senior Rates' Leadership Course (SRLC), recorded as JPA competence 'Miscellaneous|Senior Rates' Leadership Course (RNLA 103)|Navy|' (see Notes 5 and 9).

j. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

k. Educationally qualified for promotion in accordance with Para 9615. Achieved Level 2 Functional Skills (or equivalent) in English and Mathematics at Common Promotion Date (CPD) and appropriate competences recorded on JPA.

Promoted to
PETTY OFFICER SURVIVAL EQUIPMENT TECHNICIAN

CPO SET - Pre-Selection Requirements

a. Minimum of 3 years' seniority as a PO SET 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Not serving on a Navy Tailored Career.

d. Not serving on an Extension of Service.

e. Completed Senior Rates' Leadership Course, by nominated CRD and recorded as JPA competence 'Miscellaneous|Senior Rates' Leadership Course (RNLA 103)|Navy|'.

f. 2RO Recommendation for promotion on Appraisal Report at CRD.

CPO SET - Pre-Promotion Requirements

g. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
CHIEF PETTY OFFICER SURVIVAL EQUIPMENT TECHNICIAN

Warrant Officer 2 SET - Pre-Selection Requirements

a. Minimum of 3 years' seniority as CPO SET 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Not serving on a Navy-Tailored Career.

d. Not serving on an Extension of Service.

e. 2RO recommended for promotion on Appraisal Report at CRD.

Warrant Officer 2 SE Technician - Pre-Promotion Requirements

a. For CPOSETs, completed WO2QC by nominated CPD+12 months (see Note 16).

b. In date RNPES or waiver obtained at nominated CPD; recorded as JPA competence 'Physical Education|RN Physical Employment Standard (RNPES)|Navy||' (see Note 14).

c. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
WARRANT OFFICER 2 SE TECHNICIAN

Warrant Officer 1 SET - Pre-Selection Requirements

a. No minimum seniority requirements for a serving WO2SET.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. 2RO recommendation for promotion at CRD.

d. Not serving on a Navy Tailored Career.

e. Not serving on an Extension of Service.

Warrant Officer 1 SET - Pre-Promotion Requirements

f. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
WARRANT OFFICER 1 SURVIVAL EQUIPMENT TECHNICIAN

Notes:

1. *All new entrants are rated SET2 with seniority from date of entry. They undergo Phase 1 Training before being assigned to the Defence School of Air Engineering (Gosport) for the Survival Equipment Technician Qualifying Course (SET QC) (also known as Phase 2A Training).*

(Continued)

Notes (Continued):

2. *Survival Equipment Technician Workplace Training (SET WT) (also known as Phase 2B training) is primarily carried out at a Royal Naval Air Station SE section. Successful completion of SET QC and WT culminates in the award of 'Qualified to Maintain' (QM). Regulations regarding the award of QM are contained in the MNAET.*

3. *All SET2 must have successfully completed SET QC, SET WT, QM Award and a minimum of 12 months' reckonable service before being recommended for advancement to SET1.*

4. ***Recommendation.*** *Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.*

5. *Ratings selected for promotion to Leading Survival Equipment Technician (LSET) or Petty Officer Survival Equipment Technician (POSET) will be promoted on the CPD if they have successfully completed the LSETQC/POSETQC and LRLC/SRLC respectively prior to this date. Ratings who are unable to complete the relevant professional and/or leadership training by the CPD are to be treated in accordance with Para 6719.*

6. *Certificate of Competence to Supervise Survival Equipment Maintenance (CCSSEM). Survival Equipment personnel who have passed the LSET Professional Qualifying Course subsequently undergo Workplace Training at a Royal Naval Air Station SE Section. Successful completion of WT culminates in the award of CCSSEM, and regulations regarding this award are contained within the MNAET.*

7. *There are no professional or leadership training requirements for promotion to CPO SET or WO1 SET.*

8. ***Failure to Complete Professional and/or Leadership Course.*** *Refer to Para 6719 for rules on the impact on a rating's promotion if they fail to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (out with control) or non-service reasons (within control).*

9. ***Rules Regarding Failure.*** *The actions to be taken when SET ratings fail training or an examination are shown below:*

Table 76-2. SET Failure Policy

Failure Point	Failure Action
SET2 Phase 1 Training	Consider back classing and re-examine. Consider branch change or Discharge SHORE (Chapter 54).
Phase 2a Training SET QC	Repeated failures. Consider branch transfer or Discharge SHORE (Chapter 54).
Phase 2b Training SET WT	Tiered warnings in accordance with the MNAET and Chapter 57.
SET1 LSET QC	Tiered warnings in accordance with MNAET. Consider back classing and re-examine.
LRLC	Not to be promoted. Refer to Chapter 69.
LAET CCSSEM	Tiered warnings in accordance with MNAET Consider reversion.(See Note)
POSET QC	Tiered warnings in accordance with MNAET Not to be promoted. Consider back classing and re-examine.
SRLC	Not to be promoted. Refer to Chapter 69.
POSET	
CPOSET WO2AET QC	Tiered warnings in accordance with MNAET Not to be promoted. Consider re-examination.
WOSET	

Notes:

1. *With due regard to SERE course availability and planning constraints, ratings who fail SERE051 or SERE059 may be allowed to continue on to SET WT. Failure on either of these courses is subject to the warnings procedure. The training deficiency must be recorded on the rating's SJAR and include the remedial action required.*

2. *Ratings subject to the provisions of Note 1 must have passed SERE051 and SERE059 before they can successfully complete SET WT.*

CHAPTER 77

WARFARE PROFESSION

7701. General

This Chapter covers the career regulations for all General Service Warfare Profession specialisations with the exception of Divers (Chapter 78), Cryptologic Technicians (Chapter 84), Photographers (Chapter 92) and Intelligence Specialist (Chapter 94).

7702. Specialisations of the Warfare Profession (General Service)

a. The following specialisations (and sub-specialisations) exist:

Branch Designator (BD).

WS	Warfare Specialist
(AWW)	(Abovewater Warfare Weapons)
(AWT)	(Abovewater Warfare Tactical)
(UW)	(Underwater Warfare)
(EW)	(Electronic Warfare)
SEA	Seamanship
MW	Mine Warfare
H	Hydrographic
METOC	Meteorological and Oceanographic
D	Diver (See Chapter 78)
CT	Cryptologic Technician (See Chapter 84)
Phot	Photographer (See Chapter 92)
INT	Intelligence Specialist (See Chapter 94)

b. **Specialisation Selection.** General Service ratings will be recruited by profession and Individuals will be streamed into the various Warfare sub-specialisations, based on educational requirement and needs of the Service. The Warfare Ratings Profession Managers will manage requests from individuals to transfer specialisation, both within the Warfare Branch and the RN as a whole, on a case-by-case basis.

7703. Warfare Profession Training - Career Progress and Pre Joining Training

Career Progression for Warfare is detailed within Annex 77A to Annex 77F. In addition to Career training, individuals outside of the WS spectrum may be required to undertake Pre-Joining Training in accordance with the Unit Position List (UPL).

a. **Training Performance Statements, Workplace Training Task Books and Role Performance Standard**. On successful completion of PQCs for AB2, LH and PO, a WB rating will have attained the Training Performance Statement (TPS) for the current rate. Individuals will be issued with the appropriate Workplace Training Task Book (WTTB) or a Professional Certification Record (PCR). In the subsequent sea assignment, a rating will be deemed to have achieved Role Performance Standard (RPS) on successful completion of the core career workplace training section of the relevant TB (TPS + OJT = RPS) for AB / LH and PCR for PO. On achievement of RPS as an AB1, LH and PO, the Warfare Training Co-ordinator must inform the unit Human Resource (HR) administrator in order for the relevant competences (see Annexes for details) to be inputted to JPA. When an individual is advanced to AB1, the HR administrator is to ensure a Promotion Authorisation Request (PAR) is signalled to their parent Career Management Cell (CMC), which will authorise the promotion and change the rate on JPA. It is important that achievement of RPS is inputted to JPA before the PAR date; thus stating that the rating has achieved RPS before attempting to be advanced to AB1. A rating's RPS is defined and owned by the relevant Profession Manager.

b. **Mechanism for Unacceptably Slow Progression.** It is entirely possible that some ratings may not achieve RPS. Within the Warfare Profession there is no scope to employ individuals who cannot or will not progress themselves beyond AB2. It must be realised that AB2s are employed primarily to gain experience and to advance to a higher rate. It follows, therefore, that the ultimate sanction for those who cannot or will not progress beyond AB2 is an application for administrative discharge on the grounds of un-employability. Within the WS specialisations an initial warning is set at 12 months from commencement of their WTTB, whilst SEA, MW, H, and METOC are set at 18 months (unless it has been given earlier, supported with unequivocal statements of non-recommendation for promotion in an Appraisal Report). Warnings will then continue 3-monthly within the Appraisal process for an aggregate total of 18 months under warning, whereupon application for administrative discharge on the grounds of un-employability will be sought.

c. **Pre Joining Training (AWW, AWT, UW, H & METOC).** PJTs are the method of training WS ratings in a specific role, prior to joining a sea going unit, as required by the UPL. Whilst undertaking a PQC, a rating who has been assigned to a unit in a position which requires the PJT will be booked on the course, which will commence on completion of all other modules of the PQC.

(1) **Pass.** MWS is responsible for conducting PJTs and is to report successful completion and ensure that MWS training support facilitators[1] input the relevant competences to JPA.

[1] https://modgovuk.sharepoint.com/teams/61416/QMS%20Documentation/PD-1202%20Training%20Facilitation.docx?web=1

(2) **Failure.** In the event of failure[2], a written report is to be forwarded by MWS to the individual's parent unit and the receiving ship. The individual may be considered for Discharge SHORE, in accordance with Chapter 54 or, in the case of LH, immediately warned formally by the parent unit for reversion in accordance with Para 7705. As PJTs are taught at the end of a PQC pipeline, the rating will have to wait until the end of the next training pipeline before re-commencing the PJT (PD).

(3) **Second Failure.** After a second failure, LH or above will be subject to reversion for unsuitability. Able Ratings who fail a PJT a second time are not to be employed in any UPL position number that requires that competence and are not to attempt that PJT for another 12 months. The rating's parent unit is to assess the individual's employability. If deemed unemployable, the matter is to be referred to the relevant Warfare Ratings Profession Manager.

(4) **Taskbook.** On completion of the PJT, the rating may be required to complete a separate PJT TB, which will be issued in loose leaf format and is to be included in their WTTB.

d. **Initiation of DV process for AB1 EW.** On award of AB1 competency career managers are to initial the DV application process.

e. **Attendance on Next Higher Professional Qualifying Course.** A rating will not be eligible to attend the PQC for a higher rate unless the individual is in date for the Annual RPS Check in the lower rate. The PQC and LRLC / SRLC should normally be undertaken as a package. The Selection Signal will be the trigger for the CMC to load candidates on a PQC and relevant leadership course. It will not be possible to achieve this for every individual immediately, but priorities must be amended to achieve commencement of PQC at least within 12 months of selection. On implementation, it is possible that a surge in applications will exceed available places. The Career Manager's judgement will be necessary to manage pinch-points.

f. **Failure to Complete Professional and / or Leadership Course.** Refer to Para 6714 for rules on the impact on a rating's promotion if they fail to complete PQC and / or LRLC / SRLC before CPD or within 12 months of CPD because of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control). If the LH or PO PQC is refused, Para 6912 will apply.

g. **RPS Lead Authority.** The following table details the Lead School where there is an RPS Check.

	WS	SEA	MW	HM
RPS Check	MWS	MWS(STU) & MWS	MWS(STU) & MWS	MWS(STU) & HMTG

[2] https://modgovuk.sharepoint.com/teams/61416/QMS%20Documentation/PD%20-%201304%20Trainee%20Warnings%20and%20Failures.doc?web=1

Sea / MW / H RPS Checks all have both Seamanship and Specialist components, i.e..

SEA = Seamanship (MWS Seamanship Training Unit (STU)) + Tactical Communications (MWS)
MW = Seamanship (MWS(STU)) + MW (MWS)
H = Seamanship (MWS(STU)) + FOST H

7704. JPA Recording - Competences, Annual RPS Check, and Sea Time

a. **Recording of Competences.** Once a WB rating has successfully completed a PQC, WTTB or PJT and achieved RPS that competence is to be input to JPA by the appropriate unit HR administrator.

b. **Annual RPS Check.** All personnel are expected to remain at RPS while building experience towards promotion. Sub-Specialisation Training Groups or lead Schools will define and regulate the standards required to pass an Annual RPS Check and will promulgate them to Fleet Units. Guidance on the process of conducting RPS checks is given in BRd 1984 - Warfare Training Regulations.

(1) Maintenance of RPS is to be monitored through an annual RPS Check process co-ordinated by the Warfare Training Co-ordinator, who is to ensure that sufficient opportunities are provided for this purpose within the constraints of the manpower planning cycle.

(2) Ratings assigned to positions outside of core warfare disciplines are expected, where possible, to maintain RPS. It is recognised, however, that this may not be possible due to location and employment patterns. Therefore all individuals rejoining Front Line Units from shore assignments are to be given an RPS check as soon as practical after arrival, recorded on JPA as:

'CMS|Annual RPS Check AB1|Navy'.

(3) An Annual RPS Check is not a pre-selection requirement.

(4) An Annual RPS Check is a pre-requisite for all promotion career courses for AB-LH and LH-PO.

(5) Divisional Officers and Line Managers of ABs and LHs who are serving ashore when selected for the next higher rate are to arrange for an Annual RPS check via the lead training school (see table below) prior to the individual attending promotion career training.

(6) RPS qualifications will be checked on attendance of LH and PO career course training. Ratings who are not in date for an Annual RPS Check will be returned to Unit.

c. **Sea Service.** A minimum period of sea service (not including JR Squad time) is required as a pre-selection requisite for promotion to PO and CPO and is to be recorded on JPA (See Annexes for individual specialisation minimum sea time requirements). Para 6905 defines criteria for award of sea service.

7705. Appraisal Reports

a. **Appraisal Reports.** Appraisal reports are required in order to provide selection boards with the detail of an individual's performance and suitability for promotion. Appraisal reports are to be raised annually. Individuals who cannot maintain RPS, or who receive an unequivocal statement of 'non-recommendation' in a SJAR appraisal, must be given a clear plan of action to remedy the situation. This plan must be summarised in the report. If no clear improvement is forthcoming within 3-6 months, individuals should be issued with a formal Divisional Officer, HOD or Commanding Officer's warning for inadequacy. In cases where a warning has been issued and an individual has not achieved or maintained RPS within the 3-6 month period, the relevant Professions Manager is to be consulted for advice.

b. **SJAR Recommendation.** If an individual has been awarded a positive recommendation for promotion ('Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO) in the last SJAR and, since that report, has become eligible in all other respects for selection, they will be placed before the Promotion Board. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation. Ratings may be deemed as 'developing' at the annual reporting stage, but this should not be based solely on not having achieved RPS.

7706. Warfare Profession Badges

a. Specialisation badges are to be shipped on completion of Phase II training.

b. Stars and Crowns are to be shipped as follows:

1 Star	On advancement to AB1 (RPS achieved).
2 Stars	On completion of the LH PQC.
Crown	On completion of the PO PQC.

7707. Education For Promotion

A Leading Hand must be educationally qualified to Level 1 Functional Skills and a Petty Officer to Level 2 Functional Skills in English and Mathematics or a suitable equivalent for either or both of these qualifications. See Chapter 96 for further information.

7708. Warfare Profession - General Service - Promotion Flowcharts

Detailed promotion flows for each of the Warfare Profession sub-specialisations are listed in the Annexes to this Chapter (see bookmarks), along with specific notes relevant to that specialisation.

ANNEX 77A

WARFARE SPECIALIST - PROMOTION FLOWCHART

Table 77-A1 AB WS (AWT/AWW/EW/UW)2 to AB WS (AWT/AWW/EW/UW)1 Requirements

Requirement	Competency	Proficiency Level	Notes
Completed Phase 1 New Entry Training			
Completed MWS AB(WS)PQC in relevant Sub-Specialisation			
Continue instruction to achieve FS Level 1 Certificates in Adult Literacy and Numeracy			Para 7707
Assigned to sea billet			
Completed WTTB - achieved RPS as AB(WS), authorised by Warfare HOD	Professional|RPS for AB1 WS(AWT)|Navy| Professional|RPS for AB1 WS(AWW)|Navy| Professional|RPS for AB1 WS(EW)|Navy| Professional|RPS for AB1 WS(UW)|Navy|		
At least 6 months since last Career Check (if any) on date due advancement

Note. Meteorological Qualification.

a. A PO METOC rating who has passed the PQC will be assigned to an Air Station or sea billet to complete a WTTB. An individual has 3 months to complete the WTTB. The completion of the WTTB signifies an individual has achieved RPS and is to be awarded the following competence:

'Professional|RPS Meteorological Forecasting|Navy|'

b. In accordance with Aeronautical Meteorological Forecaster (AMF) guidelines there is a need to conduct an annual RPS check for all forecasters. The following competence is to be used:

'CMS|Annual RPS Meteorological Forecasting|Navy|'

c. In order to track where individuals were certified as a Bench Forecaster the following competences are to be used:

'Professional|Meteorological Bench Forecaster Culdrose|Navy|'

'Professional|Meteorological Bench Forecaster Yeovilton|Navy|'

'Professional|Meteorological Bench Forecaster Marham|Navy|'

'Professional|Meteorological Bench Forecaster JOMOC|Navy|'

'Professional|Meteorological Bench Forecaster Waddington|Navy|'

CHAPTER 78

WARFARE PROFESSION - DIVER

7801. General

This Chapter covers the specific career regulations for General Service Warfare Profession Divers.

7802. Direct Entry into the Diver Specialisation

a. In order to commence training, the following eligibility criteria apply:

(1) Be aged 18-37.

(2) Be recommended by Careers staff.

(3) Must attend and pass the Potential Diver's Assessment (PDA) at the Defence Diving School (DDS).

(4) Must pass the Diver's Physical Fitness Test (DPFT).

(5) Must hold a full UK Driving Licence. An individual who has a full driving licence from their original country can join the service. At this point they will become a resident in the UK and iaw the government policy can drive in the UK for up to 12 months from the day they became a resident. An individual must apply for a provisional licence, pass the theory and the practical test to get a full UK driving licence to continue driving on UK roads.

b. All candidates must complete a diving medical in accordance with the Diver specialisation requirements contained in BR 1750A (Handbook of Naval Medical Standards).

c. After successful completion of Phase 1 Training at HMS RALEIGH, candidates will undertake the Phase 2 Able Rate 2 (Diver) (AB2 (D)) Professional Qualifying Course (PQC). Promotion and the award of diving competences will be in accordance with Annex 78A and Annex 78B.

7803. Profession Transfer Entry into the Diver Specialisation

a. Profession transfer entry will complement direct entry to the Diver specialisation.

b. Volunteers for transfer to the Diver specialisation will be considered from ratings of any branch or specialisation and must satisfy the following eligibility criteria:

(1) Be an Able Rating (AB) who has achieved Role Performance Standard (RPS) as an AB1 on the date of application, or a Leading Hand.

(2) Passed the Diver's Physical Fitness Test in accordance with JSP 286 (The Military Diving Manual).

(3) Attended a PDA at the DDS - the PDA is valid for 2 years, after which it must be retaken if the individual has not completed the AB2 (D) course.

(4) Be aged 18-37.

(5) Be in MEDCAT MFD A4 / L1 / M1 / E1 and meet the required medical standards for the Diver specialisation in accordance with BR 1750A (renewed annually).

(6) Be recommended by their Commanding Officer for the Diver specialisation.

(7) Must hold a full UK Driving Licence. An individual who has a full driving licence from their original country can join the service. At this point they will become a resident in the UK and iaw the government policy can drive in the UK for up to 12 months from the day they became a resident. An individual must apply for a provisional licence, pass the theory and the practical test to get a full UK driving licence to continue driving on UK roads.

c. When a candidate has been recommended for the Diver specialisation, an application is to be made to PEOPLE-TRG-HQ-N5 SWP WO1, for permission to proceed to the PDA course. When the PDA has been successfully completed, workforce clearance to change branch / specialisation is to be requested via NAVY PEOPLE-TRG-HQ-N5 SWP WO1 in accordance with current regulations. Workforce clearance, if granted, will be valid for two years. The applicant will then be allocated a place on an AB Diver PQC.

d. Ratings will remain in their source specialisation until successful completion of the Diver course. Ratings who fail the course will return to their source specialisation. If, having been accepted for transfer to the Diver specialisation, a rating is selected for promotion within their source specialisation, they may take the requisite professional and leadership courses and therefore obtain promotion up until the day that Diver training is completed, provided that neither of those courses interferes with their Diver PQC. If, on the day of the latter, however, they have failed to obtain the qualifications necessary for promotion, they will forfeit their selection. If a rating opts to leave the AB(D) course or fails it, the facts are to be reported to the Source Profession Manager for a decision over the rating’s future promotion opportunities in their source specialisation.

7804. Warfare Profession Training - Career Progress and Pre Joining Training

Career Progression for ratings in the Diver specialisation is detailed in Annex 78A. In addition to Career training, individuals may be required to undertake Pre Joining Training in accordance with the Unit Position List (UPL).

a. **Role Performance Standard.** On successful completion of PQCs for AB2, LH and PO, which includes Diver and EOD training, a Diver rating will have attained the Role Performance Statement (RPS) for the current rate. On the subsequent assignment after completing professional training the Warfare Training Co-ordinator is to inform the unit Human Resource (HR) administrator in order for the relevant competences to be inputted to JPA (see Annex 78B for details). When an individual is advanced to AB1, the HR administrator is to ensure a Promotion Authorisation Request (PAR) is signalled to their parent Career Management Cell (CMC), which will authorise the promotion and change the rate on JPA. It is important that achievement of RPS is inputted to JPA before the PAR date; thus stating that the rating has achieved RPS before attempting to be advanced to AB1. A rating's RPS is defined and owned by the Professions Manager.

b. **Pre Joining Training.** PJTs are the method of training Divers in a specific role as required by UPL. Whilst undertaking a PQC, a rating who has been assigned to a unit or organisation in a position which requires the PJT will be booked on the course, which will commence on completion of all other modules of the PQC. Some PJTs are graded whilst others are Pass / Fail, as follows:

(1) **Pass.** Training establishments and units which are responsible for conducting PJT courses are to report successful completion and ensure that HR administrators input the relevant competences on JPA.

(2) **Failure.** In the event of failure, students are to be back-classed either by course module, where appropriate, or for the entire course. If a student fails an entire TEM course, a written report is to be forwarded by MWS units and establishments (as appropriate) to the individual's parent unit and the receiving ship. The individual may be considered for Discharge SHORE in accordance with Chapter 54 or, in the case of LH, immediately warned by the parent unit for reversion in accordance with Para 7806. The need to assign a rating to the next available PJT course may mean that the formal warning period may be less than 3 months. The Course Booking Cell (CBC) may allocate an individual who has failed a PJT to a place on a later PJT.

(3) **Second Failure.** After a second failure, LH or above will be subject to reversion for unsuitability in accordance with Para 7003. Able Ratings who fail a PJT a second time are not to be employed in any UPL position number that requires that competence and are not to attempt that PJT for another 12 months. The organisation or ship is to assess the individual's employability. If deemed unemployable, the matter is to be referred to the Diver Ratings Professions Manager.

c. **Taskbook.** On completion of the PJT, the rating may be required to complete a separate PJT TB, which will be issued in loose leaf format.

d. **Attendance on Next Higher PQC.** A rating will not be eligible to attend the PQC for a higher rate unless that individual is in date for the Annual RPS Check in the lower rate. The PQC and LRLC / SRLC should normally be undertaken as a package. The Promotion Selection Signal will be the trigger for the CMC to load candidates on a PQC and relevant leadership course. Although it will not be possible to achieve this for every individual immediately, priorities will be amended to achieve commencement of PQC within 12 months of selection. On implementation, it is possible that a surge in applications may exceed available places. The Career Manager's judgement will be necessary to manage pinch-points.

e. **Failure to Complete Career and / or Leadership Course.** Refer to Para 6714 for rules on the impact on a rating's promotion if the individual fails to complete PQC and / or LRLC / SRLC before CPD or within 12 months of CPD because of service reasons, non-service reasons (out with control) or non-service reasons (within control). If the LH or PO PQC is refused, Para 6912 will apply.

f. **RPS Lead Authority.** The Lead Authority responsible for an RPS Check for the Diver Specialisation is the Diving Standards Team Navy (DST(N)), on behalf of Superintendent of Diving, which ensures that diver currency and competence is maintained.

7805. JPA Recording – Competences and Annual RPS Check

a. **Recording of Competences.** Once a WB rating has successfully completed a PQC, WTTB, PJT and achieved RPS, that competence is to be input to JPA by the appropriate unit HR administrator. Annex 78B gives guidance on what, when and who has responsibility for the award of diving competences.

b. **Annual RPS Check.** Personnel are expected to remain at RPS while building experience towards promotion. Lead Authorities will define and regulate the standards required to pass an Annual RPS Check and will promulgate them to Fleet Units. Guidance on the process of conducting RPS checks is given in BRd 1984 - Warfare Training Regulations.

(1) Maintenance of RPS is to be monitored through an annual RPS Check process co-ordinated by the Warfare Training Co-ordinator, who is to ensure that sufficient opportunities are provided for this purpose within the constraints of the workforce planning cycle.

(2) Ratings assigned to positions outside of core diving disciplines are expected, where possible, to maintain RPS. It is recognised, however, that this may not be possible due to location and employment patterns. Individuals re-joining Diving Units from non-diving assignments are therefore, to be given a RPS check as soon as practicable after arrival; recorded on JPA as 'CMS|Annual RPS Check AB1|Navy'.

(3) An Annual RPS Check is a pre-requisite for all Promotion Career Courses for AB-LH and LH-PO.

(4) Divisional Officers and Line Managers of ABs and LHs who are serving ashore when selected for the next higher rate are to arrange for an Annual

RPS check via MWS DDS prior to the individual attending Promotion Career training.

(5) RPS qualifications will be checked on attendance of LH and PO Career Course training. Ratings who are not in date for RPS will be returned to Unit.

7806. Appraisal Reports

a. **Appraisal Reports.** Appraisal Reports are required in order to provide selection boards with the detail of an individual's performance and suitability for promotion. Appraisal reports are to be raised annually. Individuals who cannot maintain RPS, or who receive an unequivocal statement of 'non-recommendation' in a SJAR appraisal, must be given a clear plan of action to remedy the situation. This plan must be summarised in the report. If no clear improvement is forthcoming within 3-6 months, individuals should be issued with a formal Divisional Officer, HOD or Commanding Officer's warning for inadequacy. In cases where a warning has been issued and an individual has not achieved or maintained RPS within the 3-6 month period, the Professions Manager is to be consulted for advice.

b. **SJAR Recommendation.** If an individual has been awarded a positive recommendation for promotion ('Exceptional', 'High' or 'Yes' for 'Promotion - 1 Rank Up' on SJAR by final RO) in the last SJAR and, since that report, has become eligible in all other respects for selection, they will be placed before the Promotion Board. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation. Ratings may be deemed as 'developing' at the annual reporting stage, but this should not be based solely on non-achievement of RPS.

7807. Education for Promotion

A Leading Hand must be educationally qualified to Level 1 Functional Skills and a Petty Officer to Level 2 Functional Skills in English and Mathematics (or a suitable equivalent) for either or both of these qualifications. See Para 9615 for further information.

7808. Diver Specialisation - Promotion Flowchart

A detailed promotion flow for the Diving specialisation is at Annex 78A.

7809. Diver Specialisation - Award of Diving Competences

A detailed explanation of when Diving competences should be awarded and end dated is at Annex 78B.

7810. Employment on Clearance Diver Pay Spine

Regulations for employment on the Clearance Diver Pay Spine are at Annex 78C.

Promoted to WO1 (Diver)			

ANNEX 78B

DIVER SPECIALISATION - AWARD OF DIVING COMPETENCES

1. AB (Diver)

a. When an individual has completed the AB Professional Qualifying Course (PQC), they are deemed to be at RPS for AB2 Diver and will be eligible to receive Cat 2 Recruitment & Retention Payment (Diver) (RRP(D)). Payment of RRP(D), however, will not commence until an individual is assigned to a position that has been tagged for RRP(D) (i.e. non-Manning & Training Margin (MTM) position).

b. On completion of Career training, at the Defence Diving School (DDS) the following competency is awarded:

"Diving|AB Diver Career (DDS 100)|Navy|".

c. When an individual has completed Explosive Ordnance Disposal (EOD) at DEMMS, including the RN Elementary Underwater EOD (0807 or any subsequent update) the following competency is awarded:

"Explosives|RN Elementary UW EOD|Navy|".

d. An AB2 Diver will be eligible to receive Cat 2 RRP(D) when assigned to a position that has been tagged for RRP(D) (i.e. non-MTM position).

e. In order to ensure that RRP(D) commences at the correct time, the ship or organisation is to raise the appropriate authorisation request and competence action is to be completed by the Unit Personnel Office (UPO), as follows:

Award "Specialist Pay|Diving Pay – Cat 2 (All ranks)|Navy|".

f. A Diver is deemed to be at full RPS on completing Diver and EOD training. Once at full RPS and ready in all respects for promotion to AB1 (D) the new qualification attracts Cat 3A RRP(D).

g. In order to ensure that RRP(D) is correctly awarded, the ship / parent unit is to raise the appropriate authorisation request and competence action is to be completed by the UPO as follows:

Award "Professional|RPS for AB1 (D)|Navy|".

End date "Specialist Pay|Diving Pay - Cat 2 (All ranks)|Navy|".

Award “Specialist Pay|Diving Pay - Cat 3a EOD (All ranks)|Navy|no” when the individual has completed the Elementary UW EOD (0807) course.

2. LH (Diver)

a. When an individual has completed the DDS phase of the LH Diver PQC (DDS 101) it signifies that Category 4 diving standards have been achieved. A LH (Diver) will remain in receipt of Cat 3A RRP(D) until they are assigned to a LH (Diver) position that has been tagged for RRP(D) (i.e. non-MTM position).

b. In order to ensure individual competences are correctly updated, the following competency is awarded:

“Diving|LS Diver Career (DDS 101)|Navy|”.

c. When an individual has completed the current 0804 (Defence EOD No 2 CMD) and the 0813 (Intermediate UW EOD) or the previous 0053 Defence EOD No 2 IEDD Operator Courses at DEMMS the following competencies are awarded:

“Explosives|Defence EOD CMD No2|Joint|”.

“Explosives|RN Intermediate UW EOD|Navy|”.

d. A LH (Diver) will be eligible to receive Cat 4 RRP(D) or Cat 4A RRP(D) if they have completed the current 0804 (Defence EOD No 2 CMD) and the 0813 (Intermediate UW EOD) or the previous 0053 Defence EOD No 2 IEDD operator course but this will not commence until assigned to a LH (Diver) position that has been tagged for RRP(D) (i.e. non-MTM position).

e. In order to ensure that RRP(D) commences at the correct time, the ship or organisation needs to raise the appropriate authorisation request and competence action is to be completed by the UPO as follows:

End date “Specialist Pay|Diving Pay - Cat 3a EOD (All ranks)|Navy|no”.

Award either:

“Specialist Pay|Diving Pay - Cat 4 (Leading Rate and above)|Navy|”.

“Specialist Pay|Diving Pay - Cat 4a EOD (Leading Rate and above)|Navy|” if the individual has completed the Intermediate UW EOD course.

f. If an individual has only been awarded the Cat 4 RRP(D) and subsequently completes 0813 course (Intermediate UW EOD) a LS(D) they will be entitled to Cat 4A RRP(D). In order to ensure that RRP(D) is correctly awarded the ship / parent unit is to raise the appropriate authorisation request and competence action is to be completed by the UPO as follows:

End date “Specialist Pay|Diving Pay - Cat 4 (Leading Rate and above)|Navy|”.

Award “Specialist Pay|Diving Pay - Cat 4a EOD (Leading Rate and above)|Navy|”.

g. A LH (Diver) is deemed to be at full RPS on completing Diver and EOD training. The ship or unit is to raise the appropriate authorisation request and competence action is to be completed by the UPO as follows:

Award “Professional|RPS for LH (D)|Navy|”.

3. PO (Diver)

a. When an individual has completed the PO Diver PQC (DDS 102) phase at DDS it signifies that Category 5 diving standards have been achieved. Individuals will remain in receipt of Cat 4A RRP(D), however, until they are assigned to a PO (Diver) position that has been tagged for RRP(D) (i.e. non-MTM position).

b. In order to ensure individual competences are correctly updated, the following competency is awarded:

“Diving| PO Diver Career (DDS 102)|Navy|”.

c. When an individual has completed the DEMMS DEOC CMD 0064 (Defence EOD Operator (CMD) and the 0808 Course (RN UW Advanced EOD) or the previous EOD training consisting of the JS EOD 0801 Course; or DEOC 0052 (CMD only) operator course, they will be eligible for RRP(D) Cat 5. RRP(D) Cat 5 will not commence, however, until the individual is assigned to a PO (Diver) position that has been tagged for RRP(D) (i.e. non-MTM position).

d. A PO (D) is deemed to be at RPS on completing the DDS and EOD and the following competencies are to be awarded:

Award “Explosives|Defence EOD Op CMD|Joint|”.

Award “Explosives|RN Advanced UW EOD|Navy|”.

Award “Professional|RPS for PO(D)|Navy|”.

e. A PO (Diver) will be eligible to receive Cat 5B RRP(D) if they have completed the current DEOC CMD 0064 and the 0808 Course (RN UW Advanced EOD) or previous EOD training consisting of the JS EOD 0801 Course; or DEOC 0052 (CMD only) operator course, but this will not commence until assigned to a PO (Diver) position that has been tagged for RRP(D) (i.e. non-MTM position).

f. In order to ensure that RRP(D) commences at the correct time, the ship or organisation is to raise the appropriate authorisation request and competence action is to be completed by the UPO as follows:

End date “Specialist Pay|Diving Pay - Cat 4a EOD (Leading Rate and above)|Navy|”.

Award either:

“Specialist Pay|Diving Pay - Cat 5 (Petty Officer and above)|Navy|” or

“Specialist Pay|Diving Pay – Cat 5b EOD (Petty Officer and above)|Navy|” if completed EOD training.

g. If an individual has only been awarded the Cat 5 RRP(D) and subsequently completes the 0808 course, a PO(D) will be entitled to Cat 5B RRP(D). In order to ensure that their RRP(D) is correctly awarded, the ship / parent unit is to raise the appropriate authorisation request and competence action is to be completed by the UPO, as follows:

End date “Specialist Pay|Diving Pay - Cat 5 (Petty Officer and above)|Navy|”.

Award “Specialist Pay|Diving Pay - Cat 5b EOD (Petty Officer and above)|Navy|”.

h. When an individual is qualified to Cat 5B standard and they have completed the JS IEDD No1 Operator Course 0039 or DEOC 0052 (CMD and IEDD) or DEOC Phase 3 IEDD 0063 or DEOC IEDD 0065, they will be entitled to Cat 5A RRP(D). The following competency action is required:

Award “Explosives|Defence EOD Op IEDD|Joint|”.

End date “Specialist Pay|Diving Pay - Cat 5b EOD (Petty Officer and above)|Navy|”.

Award “Specialist Pay|Diving Pay - Cat 5a IEDD (Petty Officer and above)|Navy|”.

ANNEX 78C

EMPLOYMENT ON CLEARANCE DIVER PAY SPINE - ROYAL NAVY SENIOR RATING DIVERS

1. Origin

The Clearance Diver Pay Spine (CDPS) was introduced in 2009 as part of the recommendations of the Specialist Pay (Diving) (now RRP(D)) Quinquennial Review. Full details of the CDPS regulations are set out in JSP 754 Chapter 4 Section 11, which remains the definitive authority for CDPS eligibility.

2. Requirement

The intention of the CDPS is to create, for selected PO(D) and above at or beyond 15 years' length of service, a structure that makes non pensionable RRP(D) pay into pensionable basic pay and offers an extended career in diving / EOD employment. Personnel on CDPS are no longer eligible for RRP(D) but will receive the equivalent rate of pay as part of their new 'basic' rate of pay. This new basic rate will also have factored in the amount that is equivalent to the EOD Supplement. These enhancements are to recognize their diving and EOD skills as well as the Service's need to retain them employed in diving and diving related assignments beyond the Initial Pension Point (IPP).

3. Terms of Employment

Royal Navy Senior Rating Divers employed under the CDPS are normally to be employed on Diving, Diving Related, EOD or EOD Related assignments. A Diving / EOD assignment is one requiring an individual to undertake diving or EOD operations using their professional qualification as required by the post specification. A Diving / EOD Related assignment is one that requires the individual to utilise specialist diving or EOD knowledge and expertise but which does not necessarily require the incumbent personally to undertake diving or EOD operations.

4. Eligibility

Substantive Petty Officers, Chief Petty Officers and Warrant Officers of the RN Diver Branch will be eligible to transfer to the CDPS if they meet the following criteria:

a. Have completed Diver training at DDS and EOD training at DEMS which includes:

(1) PO(D) Professional Qualifying Course.

(2) Defence EOD Operator Training.

(3) RN Underwater Advanced EOD Training.

b. Have completed 15 years' or more paid reckonable service.

c. Are serving on a permanent pensionable engagement.

d. The following additional criteria will apply:

(1) Personnel must be in receipt of RRP(D) (either at Full or Reserve Band rates).

(2) Personnel must not have applied for Early Termination (also known as premature voluntary retirement (PVR) or Voluntary Outflow (VO)).

(3) Personnel must not have been permanently medically downgraded as unfit for diving duties. Personnel who are temporarily downgraded will have their suitability for entry onto CDPS assessed on a case-by-case basis by the Service Manning Authorities.

(4) Personnel must be able to provide a minimum of 5 years' service from date of entry to CDPS to their Normal Retirement Date.

5. Application Procedure

Application for entry to the CDPS will be through an individual's SJAR. The 'Volunteer for Further Service' box should be selected and Reporting Officers should make comment in the text on an individual's suitability for EC and CDPS.

6. Return of Service

Although there is no ROS associated with CDPS, it is recommended that personnel fully understand the implications on their pension should they choose to apply for ET (or VO) within 5 years of selection (see JSP 754 Ch 4 sect 11 Art 04.1120).

7. Selection Criteria

Transfer to CDPS is not automatic; it will be by selection. The number, skill-set and rate of personnel selected each year will be established by the Ratings' Warfare Profession Manager and will be commensurate with the Service's requirement to achieve the desired Sustainable Experience Profiles.

8. Selection Board

A CDPS Selection Board may be held at the same time as the Senior Rate Extended Career (EC) Boards. The board will be open to all PO-WO's with 15 years' or more service, as described in Para 2 above.

9. 'Opt-out' of transfer to CDPS

Individuals are permitted to 'opt-out' and those not wishing to accept the CDPS offer are to notify NAVY PEOPLE-Proms Audit Mgr.

10. Entry onto JPA

Ratings will be automatically transferred to CDPS and JPA updated IAW the CDPD Notification. Personnel will enter at their current increment and will retain their current Incremental Basic Date (IBD).

11. Extended Service

As well as introducing more favourable pension terms for divers, the CDPS may also offer an extended career for those selected. The length of extension will be subject to annual review by the Ratings' Warfare Profession Manager, who will ensure that the desired Sustainable Experience Profiles are maintained.

12. Medical Downgrading

The current single-Service regulations for medical downgrading will remain unchanged for CDPS personnel. CDPS personnel who are temporarily medically downgraded will remain on the CDPS. However, CDPS personnel who are permanently medically downgraded and cannot fill either a diving or diving related post (see para 3 above) will not remain on the CDPS. In these circumstances personnel should be offered a transfer to a non-diving specialisation (manning requirements permitting), reversion to the Main Pay scales and employed on EOD duties only (when RRP(EOD) may be paid) or discharge from the Service (see JSP 754 Pt 2 Ch 4 Sect 11 for further details).

13. Promotion

All personnel on CDPS will remain eligible for promotion to the next higher rank in accordance with current policy and as merited by the Service Manning Authority.

14. Re-entry / Transfer into the Diver Branch

Eligible PO(D)s and above who have previously served on a full time engagement and who have re-joined the Service are eligible for immediate transfer to the CDPS, provided that there is a manning requirement. On re-joining, the individual will enter the CDPS in accordance with JSP 754 04.1105 and 04.1108-04.1109. Their IBD will be the date that they enter the CDPS. Transfers from other branches / Services will be in accordance with single-Service regulations at the Able Rate level.

15. Transfer out of the Diver Branch

Personnel who transfer out of the Diver Branch will move back to a commensurate Main Pay Scale or, if this is not possible, to a Specially Determined Rate of Pay (SDRP). Unless the transfer is due to medical downgrading, personnel will forego their entitlement to an enhanced pension.

16. Pay and Pensions

Details of pay and pension for CDPS personnel can be found in JSP 754 Chapter 4 Section 11.

CHAPTER 79

WARFARE PROFESSION - SUBMARINE SERVICE

7901. General

This Chapter covers the career regulations for all Warfare Profession submarine specialisations with the exception of Coxswain (Submarine) (Chapter 83).

7902. Specialisations of the Warfare Profession (Submarine)

a. The following specialisations (and sub-specialisations) exist:

Coxswain Submarine - Cox'n (SM) - see Chapter 83.

Warfare Specialist (Tactical Submarine) - WS(TSM).

Warfare Specialist (Sonar Submarine) - WS(SSM).

b. **Specialisation Selection.** Warfare Profession (Submarine) ratings will be selected for the Warfare Specialisation (WS) at the Careers Office. WS ratings will be streamed either WS(SSM) or WS(TSM) based on the needs of the service. Individuals requesting to transfer specialisation, both within the Warfare Profession and the RN as a whole, will be managed on a case-by-case basis by the Warfare Ratings Branch Manager.

7903. Submarine Warfare Profession Training, Career Progression and Pre Joining Training

Career Progression for Warfare Profession Ratings is detailed within Annex 79A. In addition to Career training, individuals may be required to undertake Pre Joining Training (PJT) in accordance with the Unit Position List (UPL).

a. **Training Performance Statements, Workplace Training Task Books and Role Performance Standard.** On successful completion of PQCs for AB2, LS and PO, a WB rating will have attained the Training Performance Statement (TPS) for the current rate. Individuals will be issued with the appropriate Workplace Training Task Book (WTTB) or a Professional Certification Record (PCR). In the subsequent sea assignment, a rating will be deemed to have achieved Role Performance Standard (RPS) on successful completion of the core career workplace training section of the relevant WTTB (TPS + workplace training = RPS) for AB / LH and PCR for PO. On achievement of RPS as an AB1, LS and PO, the Warfare Training Co-ordinator is to inform the unit Human Resource (HR) administrator in order for the relevant competences (see Annex for details) to be inputted to JPA. When an individual is advanced to AB1, the HR administrator is to ensure a Promotion Authorisation Request (PAR) is signalled to their parent Career Management Cell (CMC), which will authorise the promotion and change the rank on JPA. It is important that achievement of RPS is input to JPA before the PAR date; thus stating that the rating has achieved RPS before attempting to be advanced to AB1. A rating's RPS is defined and owned by the Branch Manager.

b. **Mechanism for Unacceptably Slow Progression.** It is entirely possible that some ratings may not achieve RPS. Within the Warfare Profession there is no scope to employ individuals who cannot or will not progress themselves beyond AB2. It must be realised that AB2s are employed primarily to gain experience and to advance to a higher rate. It follows, therefore, that the ultimate sanction for those who cannot or will not progress beyond AB2 is an application for administrative discharge on the grounds of un-employability. Within the Submarine warfare specialisations an initial warning is set at 12 months from commencement of their WTTB (unless it has been given earlier, supported by unequivocal statements of non-recommendation for promotion in an Appraisal Report). Warnings will then continue 3-monthly within the Appraisal process for an aggregate total of 18 months under warning, whereupon application for administrative discharge will be sought on the grounds of un-employability.

c. **Pre Joining Training.** PJTs are the method of training individuals in a specific role , as required by UPL. Whilst undertaking a PQC, a rating who has been assigned to a unit or organisation in a position which requires the PJT will be booked on the course, which will commence on completion of all other modules of the PQC. Some PJTs are graded whilst others are Pass/Fail, as follows:

(1) **Pass.** Training establishments and units that are responsible for conducting PJT courses are to report successful completion and ensure their HR administrators input the relevant competences to JPA.

(2) **Failure.** In the event of failure, students are to be back-classed either by course module, where appropriate, or for the entire course. If a student fails an entire TEM course, a written report is to be forwarded by the training unit or establishment (as appropriate) to the individual's parent unit and the receiving submarine. The individual could be considered for discharge SHORE in accordance with Chapter 54 or, in the case of LS, immediately warned formally by the parent unit for reversion in accordance with Para 7905. The need to assign a rating to the next available PJT course may mean that the formal warning period may be less than three months. The Course Booking Cell (CBC), as advised by the submarine’s Coxswain, may allocate an individual who has failed a PJT or another member of the submarine's Squad to a place on a later TEM. The Coxswain must assess the manning implications.

(3) **Second Failure.** After a second failure, LH or above will be subject to reversion for unsuitability in accordance with Para 7003. Able Ratings who fail a PJT a second time are not to be employed in any UPL position number that requires that competence and are not to attempt that PJT for another 12 months. The submarine is to assess the individual’s employability within the Squad. If deemed unemployable, the matter is to be referred to the Submarine Warfare Ratings Professions Manager.

d. **Taskbook.** On completion of the PJT, the rating may be required to complete a separate PJT TB, which will be issued in loose leaf for inclusion in their current WTTB.

e. **Attendance on Next Higher Professional Qualifying Course.** A rating will not be eligible to attend the PQC for a higher rate unless they are in date for the Annual RPS Check in the lower rate, in accordance with Para 7904, and have been selected for promotion by a Board. Taskbook Certificates of Readiness (BRd 1984) and training plans that capture a rating's preparation are to be handed to the relevant Course Manager on arrival. The PQC and LRLC / SRLC should normally be undertaken as a package. The Selection Signal will be the trigger for the CMCs to load candidates onto a PQC and the appropriate leadership course. It will not be possible to achieve this for every individual immediately, but priorities must be amended to achieve commencement of PQC within 12 months of selection. On implementation, it is possible that a surge in applications will exceed available places. The Career Manager's judgement will be necessary to manage pinch-points. Where available, spare PQC training capacity may on occasion be offered to non-selected, suitably recommended, volunteers.

f. **Failure to Complete Professional and / or Leadership Course.** Refer to Para 6716 for rules on the impact on a rating's promotion if an individual fails to complete PQC and / or LRLC / SRLC before the CPD or within 12 months of the CPD because of service reasons, non-service reasons (out with control) or non-service reasons (within control). If the LH or PO PQC is refused, Para 6913 will apply. In the event of failure during a LS or PO PQC, Para 6912 will apply.

7904. JPA Recording - Competences, Annual RPS Check, Sea Time, and Pay Qualification Points

a. **Recording of Competences.** Once a Submarine WB rating has successfully completed a PQC, PJT, WTTB and achieved RPS, that competence is to be input to JPA by the appropriate unit HR administrator.

b. **Annual RPS Check.** All personnel are expected to remain at RPS while building experience towards promotion. Lead Schools will define and regulate the standards required to pass an Annual RPS Check and will promulgate them to Fleet Units. Guidance on the process of conducting RPS checks is given in BRd 1984 - Warfare Training Regulations.

(1) Maintenance of RPS is to be monitored through an annual RPS Check process co-ordinated by the Warfare Training Co-ordinator, who is to ensure that sufficient opportunities are provided for this purpose within the constraints of the workforce planning cycle.

(2) Ratings assigned to positions outside core warfare disciplines are to maintain RPS to the best of their ability. It is recognised, however, that this may not be possible due to location and employment patterns. Individuals rejoining Front Line Units from shore assignments are, therefore, to be given an RPS check as soon as practical after arrival; recorded on JPA as:

'CMS|Annual RPS Check AB1|Navy'.

(3) RPS checks for ratings that have been selected to attend PQC can be conducted only at one of the following nominated locations:

(a) FOST (North).

(b) Royal Navy Submarine School (RNSMS).

(4) An Annual RPS Check is not a pre-selection requirement. Warfare ratings that have been selected to attend a professional course, however, are required to undertake and successfully complete an RPS check. This is to be completed within 4 months of their course start date and must have been conducted by an external authority in accordance with Para 7904.b(3).

(5) An individual who does not achieve the required standard for RPS will not be allowed to attend the designated PQC. Ratings may, however, request a second RPS check be carried out by the RNSMS. This will be conducted within 4 weeks of the course start date, as long as it has been 3 months since any previous unsuccessful RPS check. A rating who refuses an RPS check, or is not at the required standard, will be returned to unit and suffer the consequences stated at Para 6912.

(6) Divisional Officers or Line Managers of ABs and LHs who are serving ashore when selected for the next higher rate are to arrange for an Annual RPS check via the OPT facilities within 4 months of the individual attending Promotion Career training.

(7) RPS qualifications will be checked on attendance of LH and PO Career Course training. Ratings who are not in date for an Annual RPS Check will be returned to Unit and suffer the consequences stated at Para 6912.

c. **Sea Service.** A minimum of 12 months sea service (not including JR Squad time) is required as a pre-selection requisite for promotion to PO and CPO and is to be recorded on JPA. See Para 6905 for full details.

7905. Appraisal Reports

a. **Appraisal Reports.** Appraisal reports are required in order to provide selection boards with the detail of an individual's performance and suitability for promotion. Appraisal reports are to be raised annually. Individuals who cannot maintain RPS, or who receive an unequivocal statement of 'non-recommendation' in a SJAR appraisal, must be given a clear plan of action to remedy the situation. This plan must be summarised in the report. If no clear improvement is forthcoming within 3-6 months, individuals should be issued with a formal Divisional Officer, HOD or Commanding Officer's warning for inadequacy. In cases where a warning has been issued and an individual has not achieved or maintained RPS within the 3-6 month period, the Professions Manager is to be consulted for advice.

b. **SJAR Recommendation.** If an individual has been awarded a positive recommendation for promotion ('Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO) in the last SJAR and, since that report, has become eligible in all other respects for selection, they will be placed before the Promotion Board. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the recommendation in the previous report. For promotion up to the rate of PO, Streamlined Eligibility Dates (SED) of 31 Mar, 31 Jul and 30 Nov in any year will apply. Ratings may be deemed as 'developing' at the annual reporting stage, but this should not be based solely on not having achieved OPS.

7906. Warfare Profession Badges

a. Specialisation badges are to be shipped on completion of Phase 2 training.

b. Stars and Crowns are to be shipped as follows:

1 Star	On advancement to AB1 (RPS achieved).
2 Stars	On completion of the LS PQC.
Crown	On completion of the PO PQC.

7907. Education for Promotion

All warfare ratings must be educationally qualified in accordance with Para 9615.

7908. Senior Ratings' Refresher Course at RNSMS

To prepare individuals for their first sea going assignment in the higher rate, a refresher course is mandatory for all CPO WS(SSM) and CPO WS(TSM) ratings on promotion. The refresher course is also open to all CPO WS(TSM) / WS(SSM) and PO WS(TSM) / WS(SSM) ratings prior to future sea assignments. Attendance will be at the discretion of the Career Manager in consultation with the individual if refresher training is required.

7909. Submarine Warfare Specialisation - Promotion Flowcharts

Detailed promotion flows for the Submarine Warfare specialisations are at Annex 79A.

ANNEX 79A

Satisfy terms of Assignment Order issued by Promotion Authority			
Promoted to WO1 WS(TSM / SSM)			

Notes:

1. GTS point.

2. Qual SM point - Marks completion of training point.

3. Professional Certification Record. On completion of PO PQC, individuals will be issued a Professional Certification Record. This record is to be completed within 12 months of joining their first sea going Unit as a PO. Once completed, an individual has achieved RPS and can be awarded the competence.

CHAPTER 80

LOGISTICS AND PERSONNEL PROFESSION - ROYAL NAVY POLICE

8001. Introduction

a. This Chapter covers the career regulations for General Service Logistics and Personnel Profession - RN Police (RNP).

b. The role of the RNP is to deliver an agile and professional policing capability for the Royal Navy.

c. The Provost Marshal Navy (PM(N)) is the competent authority for the investigation of all criminal and disciplinary offences investigated by RNP (QRRN Article 3603). PM(N) has a duty to the Defence Council for the conduct and direction of all such investigations and is to ensure that all investigations are conducted independently from the Chain of Command and free from improper interference (QRRN Article J.3604), PM(N) therefore has functional authority over all RNP personnel for these purposes.

8002. Entry into the RN Police

Entry into the RNP may be achieved in one of the following ways:

a. Profession Transfer or Lateral Transfer for Officers.

b. Service Transfer - from RM, Army or RAF.

c. Direct Entry.

8003. Profession / Service Transfer

The following criteria must be met for Profession / Service Transfers into the RN Police:

a. An AB1 or Mne with at least 12 months' service since attaining Role Performance Statement (RPS) at the date of application. A Leading Hand (LH) or Corporal (Cpl). A Petty Officer (PO) or Sergeant (Sgt) or above may be considered on a case-by-case basis.

b. Officers who have completed BRNC may apply for lateral transfer to the RN Police subject to a successful assessment period and police vetting.

c. Have a permanent medical category of Medically Fully Deployable (MFD) (A4 / L1 or L2[1] / M1 / E1) with a minimum colour perception standard of CP3.

d. Hold GCSE Grade 9-4 (2017 onwards or Grade A* - C (pre 2017) in English and Mathematics or equivalent for both qualifications in accordance with Chapter 96.

e. Six months or more service since last Career Check (if any).

[1] L2 Medical Employment Standard Code will be dependent on medical restriction. Each application will be considered by PM(N) on a case-by-case basis.

f. Have clearance for transfer.

g. Be a British citizen or dual British / other nationality status (see Annex 51A).

h. Hold a full UK manual driving licence. (An individual may attend the RNP Assessment and Selection Board however clearance to attend the Joint Police Initial Course (JPIC) will NOT be granted until an individual has a full UK manual licence and it is recorded on JPA.)

8004. Direct Entry (DE) RN Police

a. The following criteria are required for Direct Entry into the RN Police:

Entry Qualifications:

(1) **Age.** 18-37 years.

(2) **Nationality.** Be a British citizen or Dual British / other nationality status (See Annex 51A).

(3) **Educational qualifications.** 2 x GCSE (English and Maths Grade 9-4 or A*-C pre 2017).

(4) **DAA score.** 60. NR-2, MC-0, WR-2, VR-3, EC-0 & SR-1.

(5) **Visual Acuity.** 2.

(6) **Colour perception.** 3.

(7) **Hearing.** 2.

(8) **Medical Standards.** Medically Fully Deployable (MFD). (A4 / L1 or L2[2] / M1 / E1) with a minimum colour perception standard of CP3.

(9) **Driving Licence.** Full manual UK Car Driving Licence. Must be recorded on JPA.

Pre-Entry Criteria:

(1) Passed RNP Specialisation Selection Board (held during Pre Royal Navy Course (Rating) (PRNC(R)).

(2) Passed Police Vetting in accordance with RNP Vetting Policy and College of Policing Authorised Professional Practice[3].

[2] L2 Medical Employment Standard Code will be dependent on medical restriction. Each application will be considered by PM(N) on a case-by-case basis.
[3] https://www.college.police.uk/app/professional-standards/vetting

b. **Badges.** DE will wear the RNP Crown badge on completion of Phase 2, together with the appropriate rank epaulette / badge. They will not be entitled to wear the RNP specific LH epaulettes or be issued with a Service Police Warrant Card until successful completion of JPIC.

c. **Phase 1 and 2 Training.** Entrants will complete standard Phase 1 basic training at HMS RALEIGH as AB2 RNP, before progressing to Phase 2 pre-sea professional training, which combines the mandatory elements of ARLC, First Aid and BSSC with a 2 week seamanship course (SEA 105). The purpose of the Phase 2 package is to prepare DE for Phase 3 marinisation prior to proceeding to JPIC. On successful completion of Phase 2, RNP DE will become GTS. This will be recorded in JPA under 'Logistics|RNP Direct Entry Course (RNP 001)|Navy|'. Divisional care during Phase 2 will be provided by Corporate Squadron, HMS RALEIGH.

d. **Phase 3 - Marinisation Phase.** The primary purpose of the DE, ship-based, marinisation Phase is to develop Whole Ship Awareness, conduct sea watches, other ship-borne duties and to complete the AB RNP marinisation Task Book. This task book allows individuals to develop by completing tasks whilst attached to individual departments onboard. During the marinisation phase there is the opportunity to complete the AB to LH CBRNDC Task Book. Although badged as RNP, DE will NOT be qualified or be familiar with RN Policing and as such will have no policing powers until they successfully complete the JPIC; therefore they are not to be employed onboard in a policing capacity. Departmentally, DE RNP are Logistics Branch Ratings. The RNP Career Manager is responsible for engaging with the Sea SOTR cell for allocation of DE RNP to sea units.

e. **Onboard Training Programme.** DE will be expected to proactively manage and 'own' their training. In view of their lack of RN experience, however, it is intended that their training programme should be managed by the EWO / Logistics Depco to ensure that it is completed within the marinisation period.

f. **Advancement to AB1 RNP.** On completion of the marinisation TB an AB2 RNP will have achieved RPS as AB RNP. They will then be advanced to AB1 RNP. All units are to return feedback forms / completion certificates to the RNP CWO, who will inform the RNP BM and CM. An individual will be awarded the RPS competence in JPA under 'Professional|RPS for AB1 RNP|Navy|'.

g. **Career Management.** Throughout their career, DE will be career managed by the RNP CM.

h. **SJAR Reporting.** The DE selection and training pipeline mitigates the risk associated with the lack of RN service experience as much as practicable. DEs are required to progress directly from marinisation Phase to JPIC and LRLC. Due to the limited time DE spend in the marinisation Phase (up to 6 months), it is important to formally capture and comment on all aspects of their performance, such as CLM and employment and training (including Task Book progress). It is equally important to highlight any concerns regarding an individual's suitability for the RNP specialisation (to progress / timescales) to the RNP CWO, as soon as possible.

i. The SJAR process should assess the individual's attitude to training and readiness to progress and identify any areas that need to be addressed during JPIC to increase the likelihood of success at LRLC. To this end, all opportunities to demonstrate and develop CLM during marinisation Phase should be exploited. As DE are directly recruited to become LH(Police), a positive recommendation for promotion to LH is not a pre-requisite for attending JPIC. The SJAR needs only to contain a textual recommendation, therefore, to continue to the next stage of training. A Short Stand-Alone Tour (SSAT) is to be raised.

j. **Unsuitability for RNP.** It is entirely possible that some individuals may not progress within an acceptable time frame or ultimately be unsuitable for further employment within RNP. If this is the case the following procedure is to be followed:

(1) Raise a MPAR identifying all aspects of their performance (positive and negative) and agree a timeframe for the individual to address their short comings. The RNP CWO is to be kept informed at all stages.

(2) At the end of the agreed timeframe, if the individual has failed to achieve the required standard, a Special SJAR is to be raised in respect to potential future training and employment within RNP. The report is to be made in consultation with the RNP CWO.

k. **Phase 3 Joint Police Initial Course (JPIC).** On successful completion of the Marinisation Phase, AB1 RNP will be assigned to the JPIC. From this point, with the exception of failure / removal from JPIC and LRLC, standard RNP specialisation rules will apply.

l. **Training Failures.** In common with Professions Transfers, until successful achievement of RPS as LH(Police), DE will be deemed to be under training as RNP. The policy regarding removal from RN Police Professional / Career Training (JPIC) and Leading Rates Leadership Course will, therefore, apply to DE, with the exception of the option to return to source profession. In that instance, there will be two options:

(1) DE will be given career counselling and a suitable branch transfer proposed, subject to Service Need, after consultation with the relevant Professions Manager.

(2) **Discharge SHORE (Inadequacy)**[4]. Failure to complete RNP training and achieve RPS as LH(Police) implies that an individual is unable to perform the duties of the lowest rate in their professional profession specialisation, due to physical or mental incapacity (not of a nature to warrant medical discharge) or incompetence, and therefore may be discharged SHORE.

m. **Career Check.** The implications of a DE being awarded a Career Check prior to JPIC will be dealt with on a case-by-case basis by PM(N), in consultation with the Logistics and Personnel Profession Manager.

[4] BRd3(1) 5443.a(3) (Discharge SHORE (Inadequacy).

n. **RNFT/PES.** DE are required to remain in date for RNFT/PES at all times. Failure to do so will be dealt with under the normal provisions of BRd 3(1).

o. **Return of Service (ROS).** On completion of JPIC[5], individuals who Branch Transfer into RNP are required to complete a 3 year ROS This will apply to DE RNP and will supersede any other ROS.

p. **Training Holdovers.** DE on holdover will, where possible, be loaned to a Regional Command Unit (RCU) to further develop their knowledge of RNP prior to JPIC.

8005. Working with Children / Vulnerable Adults – Criminal Record Checks

a. Certain positions within the RNP require personnel to hold a valid Enhanced Disclosure level clearance certificate issued by the Disclosure and Barring Service (DBS) or through Disclosure Scotland. See Chapter 60 Section 7 on criminal record checks required by law and MOD policy.

b. Application for Criminal Record Check clearance will be made by the RNP Career Manager on assignment to one of the RNP positions.

8006. Application for Entry into the RN Police

An application form to join the RNP is to be completed; individuals are to be aware of the following cautionary statements:

a. **Financial.** The RNP is in a privileged position with regard to access to information. Applicants to the RNP should not therefore be under pressure from undischarged debts or liabilities. Most applicants have debts, such as mortgages, undischarged loans and credit / store cards and debts which, provided they are within a candidate's means and manageable are not a bar to assignment to the RNP. The RNP Application Form is the medium used by the candidate to record their financial position and contains information regarding the imposition of County Court Judgments and Bankruptcy.

b. **Convictions.** The RNP Application Form is the medium used by the candidate to record any Service and criminal convictions and contains information regarding such convictions. All convictions and cautions should be declared during the police vetting process.

c. **Police National Computer Check (PNC).** A request will be made through the PNC data base concerning information held relating to RNP applicants. In view of the nature of RNP work, applicants are exempt from the provisions of section 4(2) of the Rehabilitation of Offenders Act 1974, by virtue of the Rehabilitation of Offenders Act 1974 (Exceptions) Order 1975 S.3(a)(ii) and Schedule 1 Pt II S.6. RNP applicants are therefore not entitled to withhold information about convictions, which for other purposes are 'spent' under the provisions of the Act and in the event of employment any failure to disclose such convictions could result in disciplinary or administrative action.

[5] BRd3(1) 53C-3 (ROS for Further Training).

d. **Police Vetting.** From 1 Jun 23, all RNP are required to pass and maintain police vetting in line with the Authorised Professional Practice (APP) from the College of Policing. RNP Candidates will be required to complete the vetting application on successful completion of the RNP Selection Board. Any personnel who fail to pass or maintain vetting will be subject to vetting reviews and could be removed from the specialisation or denied entry at application. See the RNP Vetting Policy for further details.

8007. RNP Aptitude Clearance

a. When an individual has been recommended for the RNP specialisation an application is to be submitted to NAVY PEOPLE-TRG-HQ-N5 SWP WO1 for permission to proceed to aptitude.

b. When permission is granted, the individual's unit is to liaise with the RNP CWO to arrange a mutually agreed date for the applicant to attend an RNP Selection Board

c. Prior to an applicant's attendance at the Selection Board, the following is to be submitted to the RNP CWO at RNP HQ:

(1) A full hard copy record of the applicant's Appraisal Reports over the preceding 5 years.

(2) Education certificates.

(3) LRLC / SRLC reports, if applicable.

8008. RN Police - Selection Board Procedure

a. Applicants who are called to appear before the RNP Selection Board will be required to undertake the following:

(1) Written Exercise.

(2) A short presentation.

(3) A verbal communication exercise.

(4) Selection Board Interview.

b. A successful Selection Board pass and workforce clearance will be valid for 2 years.

c. The Divisional Officer, the applicant and NAVY PEOPLE-TRG-HQ-N5 SWP WO1 will be informed of the results of the RNP Selection Board by the RNP CWO.

d. On successful pass of the Selection Board, candidates are required to complete the police vetting application which will be initiated by the RNP HQ on CoreVet.

8009. Profession Transfer Workforce Clearance

a. Once an individual has passed the RNP Selection Board, workforce clearance to change Profession / Specialisation is to be requested via NAVY PEOPLE-TRG-HQ-N5 SWP WO1 in accordance with current regulations and subject to the attainment of police vetting.

b. Personnel who have successfully passed the RNP Selection Board and are waiting to be assigned to the JPIC must continue to meet the criteria at Para 8003. Failure to achieve this requirement may result in the candidate been debarred from transfer / selection to the RNP.

c. On receipt of an Assignment Order detailing a candidate for JPIC, Divisional Officers are to check that the rating meets all the requirements for the Course listed at Para 8003. Queries regarding eligibility which cannot be answered in this Chapter should be referred to the Professions Manager or the RNP CWO immediately, particularly if they concern a discipline issue, Career Check or seniority.

8010. Attending JPIC

Individuals attending JPIC must be aware of the following.

a. The JPIC attracts a training Return of Service (ROS) of 36 months from the end of course (see Chapter 53). Students must complete RN Form S2658 prior to, or on, Day 1 of the JPIC, following which the form is to be returned to the RN Police Career Manager for recording on JPA and follow up action. RNP candidates who do not accept this condition of service will be debarred from attending JPIC.

b. It is a mandatory requirement that all RNP students commencing JPIC be registered with the Royal Military Police Advanced Apprenticeship Scheme. Induction into the apprenticeship scheme will take place during Week 1 of the JPIC (see also the RNP Manual). The 3 remaining units of the Royal Military Police Advanced Apprenticeship Scheme in Policing (C&G Diploma in Policing) must be completed within 20 months of the end of JPIC. IOT complete the scheme, once the Portfolio is finalised, the student will be required to attend an End Point Assessment (EPA) at DSPS, Southwick Park. The EPA is one day where the student will conduct a written exam, portfolio talk and an environmental assessment. This will conclude the Apprenticeship scheme.

c. Public & Personal Safety Training (PPST) is fundamental to further development and promotion within RNP; it will also be conducted during training and throughout their career, therefore individuals must ensure they are physically fit and in date for RNFT/PES.

8011. Passing JPIC

On successful completion of JPIC the following rules apply:

a. An individual leaves their original specialisation and joins the RNP.

b. An individual’s seniority date is to be amended to the last date of JPIC.

c. An individual will be advanced to LH(Police) once the criteria at Annex 80A have been satisfied.

d. All LH(Police) ratings are subject to a 12-month probationary period.

e. See Para 6909 regarding non-completion of LRLC and exceptional advancement to Acting Higher Rate (AHR).

8012. Reversion and Disrating

a. If, at the end of one year's service as a LH(Police), an individual is considered to be unsuitable or unable to attain the required standard required of a LH(Police), they will be returned to their source profession or specialisation with original seniority as an AB or LH. The same process will apply to police vetting failures except where a person has advanced to a higher rank. Where this occurs engagement is to take place between the RNP HQ COS and Professions Management to determine the future employment of RNP who are unable to hold police vetting.

b. If an individual fails LRLC they will be returned to their former specialisation.

c. Failure to achieve RPS 24 months after completion of the JPIC constitutes grounds for reversion and, unless exceptional circumstances exist (the RNP Profession Manager and PM(N) is to be consulted where any doubt exists), the Commanding Officer is to initiate the reversion process. This may conclude in returning to their former specialisation and rate, with original seniority.

d. In common with other sideways entry specialisations, ratings who are reverted or disrated to the Able Rate will be returned to their former specialisation and categories. Re-advancement and future employment within the RNP will not normally be permitted. Each individual, however, will be considered on a case-by-case basis by the RNP Profession Manager in consultation with PM(N).

8013. Initial Employment of Leading Hands (Police)

On successful completion of JPIC, all newly qualified LH(Police) will generally spend a minimum of 18-20 months at a RCU for consolidation. This will normally be followed by an Operational tour and first sea assignment.

8014. JPA Recording – Competences, RPS / Annual RPS Check, RNFT and Sea Time

a. **Recording of Competences.** Once a RNP rating has successfully completed a PQC, TEM and achieved RPS, that competence is to be input to JPA by the appropriate unit HR administrator. It is the responsibility of the individual to check that JPA has been updated with the relevant competence.

b. **Achieving RPS.** The period allocated to achieve RPS is up to 24 months which allows time for probation to be completed and to generate a SQEP person to fulfil the sea role as a LH(Police). LH(Police) will be required to be competent to investigate offences without the supervision of a PO(Police).

c. **Annual RPS Check.** The continued maintenance of RPS (including RNFT/PES) is fundamental to all further development and promotion. In order to monitor individual maintenance of RPS, an annual RPS Check is to be conducted. In exceptional circumstances, some individuals may be unable to achieve the mandatory annual RPS Checks. Where this is the case, the Branch Manager should be consulted for advice.

d. **RNFT/PES.** Ratings are to be in date for RNFT/PES or in possession of either a permanent medical exemption as issued by a Royal Naval Medical Board of Survey (RNMBOS) or temporary exemption (as issued by the Commanding Officer) on the CPD. See Chapter 67.

e. **AB-LH CBRNDC TB.** If completion of the AB-LH CBRNDC TB has not already been achieved, LH(Police) must obtain this competence on joining their first sea going unit.

f. **Sea Service.** A minimum period of sea service is required as a pre-selection requisite for promotion to PO and is to be recorded on JPA. Para 6905 defines criteria for award of sea service.

8015. Education For Promotion (EFP)

The joining criteria for RNP is to hold GCSE Grade 9 – 4 (2017 onwards) or Grade A* - C (pre 2017) in English and Mathematics (or equivalent for both qualifications), and therefore an individual is educationally qualified for subsequent promotion in accordance with Chapter 96.

8016. Incidents to be Reported to Provost Marshal (Navy)

In accordance with Para 5755.b responsibility lies with RNP line management to report the following personnel incidents to PM(N) via the RNP HQ Professional Standards Department (PSD)/RNP CWO:

a. Death, life threatening injury to, or illness of RNP personnel.

b. Allegations of disciplinary or criminal conduct against RNP personnel, whether on or off duty.

c. Incidents involving RNP personnel which are likely to attract media interest.

d. All complaints made against RNP personnel, whether by civilian or military personnel.

e. All instances of RNP being placed on Formal Warning Levels 1, 2 or 3 (see Chapter 57).

8017. Suspension of RN Police Personnel from Police Duties, Insignia[6] and Warrant Cards

The professionalisation of the Service Police has dictated several changes to the conduct and standards, vetting, and training of members of the RNP. This requirement, driven by Service Justice Reform, external inspectorates and legislative change, also imposes a requirement to modernise the RNP profession and retire legacy terms associated with the former Regulating Branch. Both ethically and legally, those who wear RNP insignia are required to be vetted to College of Policing standards[7] and remain current and competent with accredited police professional training. For this reason, only regular serving members of the RNP who have passed police vetting and hold a police warrant card, are permitted to identify as RNP and exercise Service Police powers.

a. **Former RNP.** Former RNP, including veterans and those serving on FTRS commitments out with the Service Police, no longer hold current police vetting status and are not issued a warrant card. Accordingly, they are not permitted to wear any RNP insignia or use police role titles, as to do so presents risk to the individuals and to the organisation.

b. **Relevant Insignia.** To support professionalisation it is necessary to retire legacy insignia and therefore the branch badge for RNP is to be withdrawn for ratings working dress pending redesign. RNP personnel will be identified by the term 'Police' on epaulettes in all uniforms other than Number One jackets.

c. **Implementation.** With immediate effect, former RNP personnel who remain in service but are no longer on the RNP workforce complement are to remove RNP insignia. All serving and vetted members of the RNP who leave regular service are to return RNP warrant cards to the Professional Standards Department (PSD) within the RNP HQ on Whale Island where vetting status will be updated to reflect removal from police duties.

d. **Suspension from Police Duties.** RNP warrant cards will also be withdrawn when suspended from police duties for alleged misconduct, vetting decisions or irrecoverable non-conduct related matters. Where this occurs, warrant cards will be retained by the RNP PSD pending the outcome of any investigation, enquiry, or vetting review. Where an individual has their warrant card withdrawn, PM(N) may also direct the removal of RNP insignia which identifies them as a Service Police person.[8] This will be considered on a case-by-case basis and does not automatically abrogate the provision of divisional or welfare support provided by the RNP HQ and wider RN services.

8018. RN Police Officer Requirements

Divisional Officers should consult with the RNP Recording Authority (COS) and RNP CWO on the career development of potential RN Police and RM Police Troop Officer candidates. Refer to Chapter 50 for full details on RNP UY and SUY requirements.

[6] RNP insignia includes all RNP Rank Slides, MAA Ringlet, PO(Police) Tie Pins and any other RN Police accoutrements.
[7] In addition to UKSV vetting.
[8] BRd 9969 Chap 1 Art 0348 - Withdrawal of RNP Warrant Card.

8019. RNP OJARs and SJARs

Reporting Officers who are not members of the Service Police are not to comment on an individual RNP member's exercise of their investigatory functions in OJARs / SJARs (see Para 2042 sub para c).

8020. RNP Surge Capability for Major Police Investigation/Incident

In the event of a major police investigation/incident, RNP surge personnel will be assigned (MA10B RNP HQ Incident RNP Surge|1820553) by the RNP Career Manager to RNP HQ to augment the Defence Serious Crime Unit (DSCU) as required. For independence, PM(N) will formally email the relevant COs to temporarily assume command of RNP surge personnel. RNP surge personnel will be selected by RNP HQ AH (OPS), RNP CWO and the RNP Career Manager on the basis of type of investigation/incident and the competences held by individuals. Naturally, in such circumstances, normal notice for assignment is not feasible and individuals can be expected to be moved from the outset of the major investigation / incident until completion. See PM(N) Policy Notes for further details.

CHAPTER 81

WARFARE PROFESSION - FLEET AIR ARM

8101. General Terminology

a. Naval Airman entrants will be required to qualify in Aircraft Handling (AH) or Aircraft Controller (AC) specialisations. Aircrewman (ACMN) can be recruited as a Direct Entry or from within. Whilst the NA(METOC) specialisation has been superseded by the OM(HM) specialisation, branch management of legacy NA(METOC)s is undertaken by the GS Warfare Branch Manager – see Chapter 77.

b. For the purposes of this Chapter, Airman and Aircrewman refer to both male and female ratings.

8102. Examination for Advancement or Promotion - General

a. **Recommendations.** All recommendations for advancement/promotion, examination or course are to be made with due regard to the conditions in Para 6901.

b. **Application for Examination.** Applications for examination are to be made in accordance with Para 6914.

c. **Examinations.** The types of examination used in the Air categories are as follows:

(1) Professional Qualifying Examinations (PQE) - set and marked by the Specialist Schools.

(2) Provisional Examinations (PE) - set and marked by the Specialist Schools.

(3) Local - conducted by officers of the rating's own ship or squadron.

The general rules for examinations, including failures and refusal to take a Qualifying Course or Examination, are given in Para 6911 to Para 6914 and Lead School publications and apply to all examinations in the Fleet Air Arm (non-Air Engineering).

d. PE and PQE dates are published by DIN or RNTM.

8103. Removal of Aircraft Controller Qualification

The rules and procedures regarding the withdrawal of AC qualifications are detailed in BRd 768 NATMO ANNEX 3202(3)B Article 05 & BRd767 NAO FAA2102(3).

ANNEX 81A

NAVAL AIRMAN (AIRCRAFT HANDLER) SPECIALISATION – PROMOTION FLOWCHART

1. Naval Airman (Aircraft Handler) Specialisation - Promotion Flowchart

New Entry: Up to 39 years of age (see Note 1).

Table 81A-1. Naval Airman (AH)2 to Naval Airman (AH)1 - Advancement Criteria

Requirement	Competency	Proficiency Level	Notes
Completed Phase 1 New Entry Training.			
Completed Naval Airman (Aircraft Handler) Qualifying Course (Phase 2 Training).			See Notes 1, 2 and 3
Achieved RPS as NA(AH) by completion of Task Book/OJT.	Professional|RPS for NA(AH) UQ50|Navy		See Note 4.
Minimum of 6 months' seniority post completion of Naval Airman (Aircraft Handler) Qualifying Course (Phase 2 Training)			
At least 6 months since last Career Check (if any) on date due advancement.			
Awarded and advanced to NA(AH)1			
Continue instruction to achieve Functional Skills Level 2 – required for award of Trailblazer apprenticeship - in English and Mathematics.			Not required for advancement to NA1.

Table 81A-2. Leading Airman (Aircraft Handler) - Pre-Selection Requirements

Requirement	Competency	Proficiency Level	Notes
Minimum of 18 months' seniority as NA(AH)1 12 months prior to Common Promotion Date (CPD).			Para 6703 b sub para (2)
Achieved RPS as NA(AH) by completion of Task Book/OJT.	Professional|RPS for NA(AH) UQ50|Navy		See Note 4.
Serving on ES1/FC/OE1 that			Para 6703 b sub para (7)

expires after the nominated CPD.			
Recommended for promotion on Appraisal Report at CRD.			See Note 11.

Table 81A-3. Leading Airman (Aircraft Handler) – Pre-Promotion Requirements

Requirement	Competency	Proficiency Level	Notes
Passed Leading Airman (Aircraft Handler) Qualifying Course.	Professional|Professional Qualifying Examination/Course For LA (AH)/(SE) (UD40)|Navy|		See Notes 7,10 and 13
Completed Leading Rates' Leadership Course (LRLC). Competence.	Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|		
At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).			
Promoted to Leading Airman (Aircraft Handler).			

Table 81A-4. Petty Officer (Aircraft Handler) - Pre-Selection Requirements

Requirement	Competency	Proficiency Level	Notes
Passed Professional Examination for PO(AH).	Professional|Provisional Examination For POACMN and POA(AH)/(SE)/(METOC)/(PHOT) (UC30)|Navy|		See Note 5.
Minimum of one year's seniority as a LA(AH) 12 months prior to the CPD.			
Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.			
Recommended for promotion on Appraisal Report at CRD.			See Note 11.
EFP. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.			Para 9615

Table 81A-5. Petty Officer (Aircraft Handler) - Pre-Promotion Requirements

Requirement	Competency	Proficiency Level	Notes
Passed Petty Officer (Aircraft Handler) Qualifying Course.	Professional|Professional Qualifying Examination/Course For POACMN and PO (AH)/(SE)/(METOC)/(PHOT) (UD30)|Navy		See Notes 8 and 12.
Completed Senior Rates Leadership Course	Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|		
At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later)			
Promoted to Petty Officer (Aircraft Handler)			

Table 81A-6. Chief Petty Officer (Aircraft Handler) - Pre-Selection Requirements

Requirement	Competency	Proficiency Level	Notes
Completed Senior Rates Leadership Course	Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|		
Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.			
EFP. Must have achieved minimum Level 2 FS (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA			Para 9615
Recommended for promotion on Appraisal Report at CRD.			See Note 11.

Table 81A-7. Chief Petty Officer (Aircraft Handler) - Pre-Promotion Requirements

Requirement	Competency	Proficiency Level	Notes
At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later)			
Promoted to Chief Petty Officer (Aircraft Handler)			

Table 81A-8. Warrant Officer 2 (Aircraft Handler) - Pre-Selection Requirements

Requirement	Competency	Proficiency Level	Notes
Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD			
EFP. Must have achieved minimum Level 2 FS (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA			Para 9615
Recommended for promotion on Appraisal Report at CRD			See Note 11.

Table 81A-9. Warrant Officer 2 (Aircraft Handler) - Pre-Promotion Requirements

Requirement	Competency	Proficiency Level	Notes
At least 6 months since last Career Check (if any) on CPD or date due promotion (if later)			
Satisfy terms of Assignment Order issued by Promotion Authority			
Promoted to Warrant Officer 2 (Aircraft Handler)			

Table 81A-10. Warrant Officer 1 (Aircraft Handler) - Pre-Selection Requirements

Requirement	Competency	Proficiency Level	Notes
Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD			
EFP. Must have achieved minimum Level 2 FS (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA			Para 9615
Recommended for promotion on Appraisal Report at CRD			See Note 11.

Table 81A-11. Warrant Officer 1 (Aircraft Handler) - Pre-Promotion Requirements

Requirement	Competency	Proficiency Level	Notes
At least 6 months since last Career Check (if any) on CPD or date due promotion (if later)			
Satisfy terms of Assignment Order issued by Promotion Authority			
Promoted to Warrant Officer 1 (Aircraft Handler)			

Notes:

1. Ratings entering the Fleet Air Arm in the Naval Airman (AH) specialisation enter as a Naval Airman 2. They undergo Phase 1 New Entry Training at HMS RALEIGH and are then assigned to Naval Airman (Aircraft Handler) Phase 2 Qualifying Course (NA(AH)QC) at the RN School of Flight Deck Operations (RNSFDO), RNAS Culdrose.

2. Although included within the NA(AH) Phase 2 syllabus, the completion of Able Rate Leadership Course (ARLC), BSSC and NBCD 23 First Aid Level 2 are not mandatory pass elements.

3. Ratings who fail NA(AH)QC may be 'back-classed' or, unless willing to transfer to another specialisation under existing regulations, will normally be recommended for Discharge Unsuitable During Training (DUDT) by the Commanding Officer RNAS Culdrose.

4. ***Instructions for Completion of NA(AH) Task Book/OJT***

a. On completion of NA(AH)QC, NA(AH)s are required to undertake Task Book Training or On-Job Training, as applicable, to develop the individual from Training Performance Standard (TPS) to Role Performance Training (RPS), depending on their first assignment. RPS is achieved by individuals completing one of the following:

(1) The NA(AH) Duty 1 (Ship's Flight Deck Team) and Duty 2 (Ship's Hangar Team) Task Book.

(2) NA(AH) Crew firefighter (Ashore) Task Book.

b. On completion of one of the requirements listed at Note 4.a above, the individual is to be awarded JPA competence 'Professional|RPS for NA(AH) UQ50|Navy'. This competence is only to awarded by RNSFDO Staff Officer.

c. The completion of NA(AH) Task Book is no longer required for advancement to NA(AH)1 but it is to be completed for eligibility for selection for LA(AH).

5. ***Aircraft Handler Provisional Examinations (PE).*** *The PE for PO (AH) may be taken at any time by confirmed Leading Hands (or post the CPD for which selected by those who have completed pre-promotion training but have yet to be promoted for reasons shown at Para 6714 sub para c), provided that the rating's Commanding Officer considers that the candidate is adequately prepared for the Petty Officer (AH) Qualifying Course (PO(AH)QC) and has the potential for future promotion to Petty Officer. Applications for the examination should be forwarded to the Commanding Officer, RNSFDO, RNAS Culdrose, HELSTON, Cornwall, TR12 7RH, on Form S442 in duplicate. Examination papers will be forwarded to the candidate's ship or establishment and completed papers should be returned without delay. CO RNSFDO will inform Commanding Officers and Navy Command/DDPD of results.*

(Continued)

Notes (Continued):

Aircraft Handler Qualifying Courses

6. ***LA(AH) Qualifying Course (LA(AH)QC).*** *Ratings selected by the LA (AH) Promotion Board will be assigned to LA(AH)QC by the Aircraft Handler Career Manager. Candidates assigned to LA(AH)QC will be informed by joining letter of the required reading and study material that is considered will be advantageous to their performance.*

7. Ratings nominated to attend Leading Rates' Leadership Course (LRLC) within 3 months of completion of LA(AH)QC are to ensure that all LRLC pre-requisites have been accomplished. The LA(AH)QC syllabus does not allow time to be released from training to undertake these requirements.

8. PO (AH) Qualifying Course (PO(AH)QC). Ratings selected by the PO (AH) Promotion Board will be assigned to PO(AH)QC by the Aircraft Handler Career Manager.

9. Ratings nominated to attend Senior Rates' Leadership Course (SRLC) within three months of completion of POQC are to ensure that all SRLC pre-requisites have been accomplished. The PO(AH)QC syllabus does not allow time to be released from training to undertake these requirements.

10. ***Failure of LA(AH)QC/PO(AH)QC.*** *LA(AH)QC and PO(AH)QC assessment takes the form of theoretical examination and practical assessment. Ratings must achieve a pass in all phase examinations and assessments to successfully complete the courses. Failure of LA(AH)QC or PO(AH)QC will attract the penalties detailed in Para 6912.*

11. ***Failure to Complete Professional and/or Leadership Course.*** *Refer to Para 6714 for rules on the impact on a rating's promotion if they fail to complete Professional Qualifying Course and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).*

ANNEX 81B

NAVAL AIRMAN (AIRCREWMAN) SPECIALISATION – PROMOTION FLOWCHART AND QUALIFICATIONS FOR ENTRY

1. Naval Airman (Aircrewman) Specialisation - Qualifications for Entry

a. **Direct Entry Aircrewman.** Direct Entry Naval Airmen (Aircrewman) (ACMN) will arrive at HMS RALEIGH for Part 1 Training having satisfied the following entry criteria:

(1) Minimum of 2 GCSE or equivalent at Grade A-C.

(2) Nationality UK or Dual (British plus one other).

(3) Aged up to 34 years.

(4) Min RT Score 72.

(5) Aircrew medical standard achieved.

(6) Passed Flying Aptitude Tests (FATS).

(7) Successful PRNC leadership assessment.

b. **Branch Transfer Candidates.** Qualifications for transfer into the ACMN specialisation are as follows:

(1) Able Rate/Leading Hand or Substantive Mne/Cpl of any specialisation.

(2) Nationality UK or Dual (British plus one other).

(3) In date RNFT/RMFT.

(4) RN/RM candidates upper age 34.

(5) Medically Fully Deployable MES when applying for workforce clearance.

(6) Six months since last Career Check (if any).

(7) Must have achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA when applying for manning clearance.

(8) Aircrew medical standard achieved.

(9) Passed Flying Aptitude Tests (FATS).

(10) Clear potential for early promotion – positive recommendation by CO is required.

c. **Branch Transfer Procedure for Application.**

(1) Ratings and other ranks who meet the entry criteria should request workforce clearance for sideways entry into the ACMN specialisation – see Para 5125.

(2) On gaining workforce clearance, Flying Training Pipeline MGR SO2 will advise candidate of the procedure needed to achieve an initial Aircrew Medical and book Flying Aptitude Test at RAF Cranwell.

d. **Aircrewman Suitability.**

(1) The Aircrewman suitability assessment is conducted at RAF Cranwell and utilises the Flying Aptitude Test procedure. Successful candidates will return to their units to await assignment to flying training. Due to the differences in their pathway prior to extraction, FATS for RM candidates remain extant for 36 months. It is stressed that a pass of FATS does not guarantee further flying training will be given as candidates with a higher score in FATS pass will be given priority over those with lower passes. RN candidates will be streamed either Anti-Submarine Warfare (ASW) or Commando (CDO) to meet the Service requirement. RM candidates will be streamed CDO only. Candidates who are not assigned to flying training within the 2-year period of workforce clearance will need to obtain an extension of the clearance if they wish to continue with their application.

(2) Individuals who do not pass FATS should contact the Aviation Branch Manager WO1 for consideration and approval for a second and final attempt at FATS. This attempt will be 12 months from the initial FATS.

e. **Flying Training.**

(1) **Return of Service.** ACMN are required to give a minimum of 6 years' Return of Service from completion of flying training (Award of Flying Badge or 'Wings') - refer to Chapter 53. Consequently, volunteers will be required to sign a RN Form S2658 prior to being assigned to course.

(2) **Length of Training.** Candidates can expect to undertake the following courses subject to streaming:

(a) All ACMN attend a series of short courses which will include Basic Sea Survival, Aviation Maritime Survival, First Aid, Crew Resource Management, Permissive Land Survival and Aviation Medicine.

(b) **Level C SERE.** All ACMN are required to complete Level C SERE, which takes place at RAF St Mawgan (2 weeks).

(c) **RN Aircrewman Grading/Streaming.** ACMN will be streamed ASW or CDO during an assessment phase at No1 FTS Shawbury, RNAS Yeovilton and RNAS Culdrose (2 weeks).

(d) **Rotary Wing Ground School.** All ACMN attend this course at No1 FTS Shawbury for general aviation awareness training (6 weeks). On Day 1 of Ground School personnel will be transferred to the ACMN category.

(e) **Joint Aircrewman Course.** ASW Aircrewmen undertake Course 361 and 406 (5 Months) at RAF Shawbury and RAF Valley . CDO ACMN undertake Courses 320, 435 and 436 (13 months) at RAF Shawbury and RAF Valley.

(f) **Initial Acoustic Course.** 824 NAS, RNAS Culdrose for ASW ACMN (12 weeks).

(g) **Air 338 Military Skills Course.** RN (Non Commando Trained) and DE only. RNAS Yeovilton for CDO ACMN (4 weeks).

(h) **Merlin HC Mk4/4a Aircraft Conversion and Operational Conversion Phases (CTT/CTR).** 846 NAS, RNAS Yeovilton, for CDO ACMN (28 weeks).

(i) **Merlin HM Mk2 Aircraft Conversion and Operational Conversion Phases (CTT/CTR).** 824 NAS, RNAS Culdrose for ASW ACMN (50 weeks).

(3) **Failures During Flying Training.** Students suspended from flying training will be referred to the President Naval Aircrew Advisory Board (PNAAB). Confirmation of a failure will result in withdrawal from flying training and return to source branch. Direct Entry ACMN failures will be considered for transfer to other branches on a case by case basis.

(a) Students are required to achieve both the Training Performance Standard (TPS) and to have displayed sufficient spare capacity to ensure likely success at the next stage of training in order progress further. Consequently, students may achieve TPS but, due to concerns with respect to their capacity, be adjudged unlikely to progress to frontline service. These students are regarded as ‘training risks’ and will normally be referred to the President Naval Aircrew Advisory Board (PNAAB) for assessment of suitability for further flying training and subsequent recommendation for future employment within the Service (see BRd 3(1) Para 5742).

(b) Training Risk is defined as: "An individual who, in the judgement of the relevant instructional staff, does not show the capacity, character and potential to operate as an ACMN in the front-line maritime environment.”

(c) In the unusual event that an individual fails to successfully complete C of C, they will be referred to PNAAB in accordance with BR 767 and, should they be removed from flying duties as a result of that referral, they will (except in exceptional circumstances) lose entitlement to wear the flying badge.

(4) **Award of 'Wings'**. On successful completion of Flying Training and confirmation of successful completion of LRLC/CLDC, ratings will be awarded the Flying Badge ('Wings') and rated Acting Petty Officer Aircrewman or Acting Sergeant RMAC as appropriate.

(5) **Promotion in Source Branch after Selection for Training.** All individuals transferring to the ACMN specialisation will no longer be considered for promotion in their source branch once Aircrew training has started (see Para 6704).

(6) **First Assignment.** On completion of the Flying Training/Conversion to Role, ACMN will be assigned to a Front Line Squadron for a probationary period where they will be required to successfully complete On Job Task Book Training, followed by the award of a Certificate of Competence (CofC). Failure to achieve a CofC will be treated in the same manner as a failure during Flying Training and, if confirmed by NAAB, an individual will revert to source branch at their original rate/rank and seniority. Direct Entry ACMN failures will be considered for transfer to other branches on a case by case basis.

(7) **Subsequent Suspension from Flying Duties.** Post CofC, POACMN/Sgt RMAC and above who are permanently grounded for any reason may be retained in the ACMN category and employed on non-flying duties until the end of their current engagements, provided that they remain medically fit for General Service. They will be ineligible for further advancement/promotion from the date of grounding. They will be given the option of Discharge SHORE with normal terminal benefits. Any medical conditions will be assessed in accordance with current Royal Navy Medical Board of Survey (RNMBOS) process and reviewed by a Royal Navy Medical Employability Board (RNMEB).

Table 81B-1. Transfer Actions.

Action	Responsibility
Request manning clearance for sideways transfer to ACMN in accordance with Para 5119	Current unit
E-mail response – Provisionally approved/not approved	NAVY PEOPLE-TRG-HQ-N5 SWP WO1
If provisionally approved:	
Arrange Aircrew Medical under guidance of FGen NAvn FT PM SO2	FGen NAvn FT PM SO2
Attendance at FATS	FGen NAvn FT PM SO2
Email NAVY PEOPLE-TRG-HQ-N5 SWP WO1 for final approval for BT	Current Unit
Assign to flying training course to meet NCHQ CAP AV FT pipeline requirements	FGen NAvn FT SO2 / NAVY PCAP-CM OR WAR
Main Trade for Pay (MTfP) - Changed to reflect transfer to FAA on Day 1 of Ground School	NAVY PEOPLE-CM OR WAR
Assume career management responsibility on Day 1 of Ground School	NAVY PEOPLE-CM WAR FAA ACMN AC

Requirement	Competency	Proficiency Level	Notes
Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD			
EFP. Must have achieved minimum Level 2 FS (or equivalent) in English and Mathematics and the appropriate competences recorded on JPA			Para 9615
Recommended for promotion on Appraisal Report at CRD			See Note 1.

Table 81B-8. Warrant Officer 2 Aircrewman - Pre-Promotion Requirements

Requirement	Competency	Proficiency Level	Notes
At least 6 months since last Career Check (if any) on CPD or date due promotion (if later)			
Satisfy terms of Assignment Order issued by Promotion Authority			
Promoted to Warrant Officer 2 Aircrewman See Note 4			

Table 81B-9. Warrant Officer 1 Aircrewman - Pre-Selection Requirements

Requirement	Competency	Proficiency Level	Notes
Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD			
Recommended for promotion on Appraisal Report at CRD			See Note 1.

Table 81B-10. Warrant Officer 1 Aircrewman - Pre-Promotion Requirements

Requirement	Competency	Proficiency Level	Notes
At least 6 months since last Career Check (if any) on CPD or date due promotion (if later)			
Satisfy terms of Assignment Order issued by Promotion Authority			
Promoted to Warrant Officer 1 Aircrewman See Note 4			

Notes:

1. ***Recommendation.*** *Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.*

2. ***Failure to Complete Professional and/or Leadership Course.*** *Refer to Para 6716 for rules on the impact on 1a rating's promotion if they fail to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith control) or non-service reasons (within control).*

3. RMOR on promotion from CSGT to WO2 will also be required to complete the RM Advanced Command Course (ACC). In addition, on promotion from WO2 to WO1, complete the RM WO1 course in common with all RMOR (see Annex 91C).

ANNEX 81C

AIRCRAFT CONTROLLER SPECIALISATION – CAREER AND PROMOTION FLOWCHART AND QUALIFICATIONS FOR ENTRY

1. Aircraft Control Specialisation - Qualifications for Entry

a. **Direct Entry Aircraft Controllers.** Direct Entry Aircraft Controllers will arrive at HMS RALEIGH for Phase 1 Training having met the following entry criteria:

(1) Nationality or Dual (British plus one other).

(2) Aged 18-34.

(3) Min DAA Score 60.

(4) Air Traffic Control (ATC) medical standard achieved.

(5) Visual Acuity II Colour Perception 2.

b. **Branch Transfer Candidates.** Applications to the AC spec is a two-stage process. Applicants who meet the eligibility criteria will be considered for transfer, subject to Service Requirement, successful completion of Computer Based Aptitude Test (CBAT) and the training capacity of the Leading Aircraft Control Professional Qualifying Course (LACPQC).

c. Branch Transfer Procedure for Application. The application to BT to the AC spec is as follows:

(1) **Stage One.** Application to attend CBAT.

(2) **Stage Two.** Application for full Workforce Clearance (WFC)

(a) **Stage One.** Application to attend CBAT. The Divisional Officer (DO) is to ensure the applicant is fully qualified to attend IAW para 6. The DO is to email NAVY PEOPLE-TRG-HQ-N5 SWP WO1 stating the applicant's name, rate, service number, current specialisation and that they meet all pre-requisite criteria.

(b) Entry Criteria into the AC Specialisation. The minimum criteria to Branch Transfer to AC is as follows:

i. AB1 with at least 12 months' service since attaining Role Performance Standard (RPS) at the date of application or Leading Hand of any specialisation.

ii. Educationally qualified.

iii. Have at least 3 years to serve on completion of LACPQC.

iv. Nationality UK or Dual (British plus one other).

v. Upper age limit 34 years.

vi. In date RN PES.

vii. At least 6 months since last Career Check.

viii. Visual acuity II, colour perception 2.

ix. Medical Employment Standard (MES) Category is Medically Fully Deployable.

x. Recommended by Commanding Officer.

(3) If permission is granted to attend CBAT, the applicant's unit is to liaise with the SURFLOT AC Workforce Manager to arrange the CBAT. Once successfully achieved, the applicant's medical department is to complete the FMed 7 form to attend the ATC Medical Assessment.

(4) Process Post AC Grading. Unit COs and N5 SWP WO1 will be informed of the results of the pre-suitability assessments from the SURFLOT AC Workforce Manager.

(5) **Stage Two.** Application for full Workforce Clearance. Applicants passing the CBAT and achieving ATC Medical Standard, are encouraged to apply for full WFC via email to NAVY PEOPLE-TRG-HQ-N5 SWP WO1 at the earliest opportunity.

(6) On receipt of the WFC application. A decision will be made iaw BRd 3 and the results will be promulgated via email/signal to the applicant's Chain of Command. Allocation of course will be via AC UTS Pipeline Manager.

(7) Once WFC has been granted. WFPT AV WO1 will issue a letter of 'Offer' and Form S2658 detailing the required 3 years Return of Service (RoS). A signed acknowledgement of the terms of the Offer and completed Form S2658 are to be sent to NAVY PEOPLE-WFPT AV WO1.

(8) Failure during AC training. Final transfer into the AC spec will be on successful completion of LACPQC and LRLC. Personnel failing to meet the standards required on LACPQC will be returned to their source specialisation.

d. **The Training Pipeline from New Entry to Role PS LAC.** Upon completion of Phase 1 Training at HMS RALEIGH, or upon successful sideways entry the AC candidate will undertake the following professional courses:

(1) **Air 201 - Leading Aircraft Controller Professional Qualifying Course (LACPQC).** The course consists of 39 weeks training split between AIR 201 Part 1 at the RN School of Aircraft Control (RNSAC), at RNAS Yeovilton and AIR 201 Part 2 at the Aviation Training Element (AvTE) at HMS Collingwood. The training will involve teaching and developing core control skills as well as teaching Tactical Aviation Warfare, basic and enhanced Command System training. ARLC, LRLC and BSSC are completed as part of the course. Also included is a period embarked at sea in order to achieve the required live control hours for award of NATO Control Grades. NATO qualified Aircraft Controllers are then authorised to provide tactical and non-tactical control to all NATO Fixed Wing and Rotary Wing aircraft in the Maritime environment, subject to their control grade. Successful candidates will be advanced to Acting Probationary Leading Aircraft Controller (PLAC) upon completion until AIR 201 Part 1 until RPS is achieved after AIR 201 Part 2.

(2) **First Sea Assignment - TPS.** Upon successful completion of AIR 201 Part 1, PLACs will be TPS and are assigned to the SURFLOT Operational Readiness Pool (ORP) and will be placed upon a Front Line Unit with an RPS LAC. Whilst TPS, PLACs remain under training and will be under the mentorship of the SURFLOT AC Mentor Team (Para 8109, sub para e refers), in order to maximise aviation exposure and ensure task books are completed within 6 months of graduation from AIR 201 Part 1.

e. **Stars and Crowns.** Stars and Crowns are awarded as follows:

(1) 1 star awarded upon successful completion of AIR 201 Part 1 and ABLC.

(2) 2 stars awarded upon successful completion of AIR 201 Part 2, including achievement of the requisite live control hours and completion of LRLC.

(3) Crown worn on substantive promotion to POAC.

2. Aircraft Controller Specialisation - Career and Promotion Flowchart

At least 6 months since last Career Check (if any) on CPD or date due promotion (if later)			
Satisfy terms of Assignment Order issued by Promotion Authority			
Promoted to Warrant Officer 1 (Aircraft Controller)			

Notes:

1. *Branch Transfer candidates will retain their previous rate until successful completion of AIR 201Part 2. They will then be rated Leading Hand (Aircraft Controller).*

2. ***Recommendation.*** *Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion – 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.*

3. ***Failure to Complete Professional and/or Leadership Course.*** *Refer to Para 6716 for rules on the impact on a rating's promotion if they fail to complete LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).*

4. *IAW RNTM 0-051/25 these competences are required for those personnel selected prior to 1 Apr 2025 only.*

ANNEX 81D

AIRCRAFT CONTROLLER JATCC FAST TRACK SCHEME

1. Aircraft Controller Fast Track Scheme

a. General.

(1) This section covers the Aircraft Controller (AC) Fast Track (FT) Scheme, and outlines the selection and management protocols for all potential AC FT personnel.

(2) The FT scheme is an important element of the AC career pipeline, by selecting those ratings who are suitable motivated and demonstrate the necessary standards of leadership, aptitude and ability. The scheme allows AC ratings the opportunity to accelerate their progression and be advanced based on POAC PE results and 2RO recommendation rather than by selective promotion.

b. Background.

(1) **Fast Track.** The aim of the FT scheme is to afford individuals an accelerated advancement to Petty Officer and further advancement to Chief Petty Officer if all pre-requisite criteria are met.

The two key stages of the scheme:

(a) LH-PO - JATCC qualification (for accelerated advancement to PO); and

(b) PO-CPO - 3 years as substantive PO (for accelerated advancement to CPO).

(2) This takes account of individuals who develop at different rates and, when combined with the standard route to promotion, gives a flexible career path to ensure that career progression through training and employment is better matched to the abilities and expectations of ACs.

c. **Fast Track Scheme Overview. Management of FT Personnel.** To deliver success, an additional level of management and oversight of FT personnel is required. This will seek to ensure standards and assist the management of available opportunities to acquire sea experience for FT personnel. This will be provided by the Fast Track Authority (FTA)[1], the Fast Track Manager (FTM)[2] and the Fast Track Recording Authority (FTRA) RNSAC. The FTRA will be responsible for the co-ordination of the selection process of AC FT personnel using the Fast Track Selection and Review Panel (FTSRP), supported by the Fast Track Through Life Manager (FTTLM)[3] who will be the focal point for any advice and administrative issues relating to all FT personnel. The FTTLM will ensure all FT timelines are strictly adhered to.

d. **Non-Selective Promotion (Advancement).** Individuals on the FT scheme will, subject to the necessary qualifications being achieved, be subject to non-selective advancement, based on their Due Date for Advancement (Due Date[4]) as detailed within the flow chart.

(1) **FT PO.** A LH selected for FT will be awarded a Fast Track Start Date (FTSD). They will be advanced to Acting Petty Officer on commencement of JATCC and to substantive PO when they have completed 'Competent to Operate' status, with seniority back-dated to the date that they completed JATCC. If SRLC has not been completed for Service or Medical reasons by the start date of JATCC, they will have 1 year from the completion of JATCC to pass SRLC; even if they complete the validation process before SRLC, their Seniority will be adjusted to coincide with completion of SRLC.

(2) **PO - CPO.** FT POACs will be advanced to CPO 36 months from completion of JATCC, having completed their first full sea assignment as a PO AC. PO ACs who transfer to the FT scheme, as in Para 8112.e(2), will have a Due Date nominated by the FTSRP that reflects the requirement for 36 months of experience post-JATCC before advancement to CPO.

e. **Selection, Recommendation and Transfer to the FT Scheme.** The selection process will be conducted by the FTSRP, comprising of WFPT AV SO1, RNSAC OiC, RNSAC CPO and FGEN NAVN ATM WO1. There will be two selection points:

(1) **FT LH (LH to PO).** Potential FT candidates will normally be identified during DELAC or during the first sea assignment and will be boarded at the next FTSRP. The panel will select suitable individuals who meet the eligibility criteria, with selection numbers dependent on the requirement.

(2) **FT PO (PO to CPO).** PO ACs who wish to transfer to the FT scheme will be boarded by the FTSRP alongside LH ACs who also wish to join the FT scheme.

---

1. PCAP BM-AV SO1.
2. FGEN NAVN ATM WO1.
3. PEOPLE CM WAR FAA ACN AC.
4. Due Date for Advancement is the equivalent of Common Promotion Date (CPD) for selective promotion in determining seniority in the higher rate.

f. **Selection/Recommendation Process.** The selection/recommendation process will be co-ordinated by the FTRA and conducted by the FTSRP who will select FT individuals based on Computer Based Aptitude Test (CBAT) results, SJAR reports and POAC PE recommendations, and the key selection criteria outlined below in order to determine their suitability.

Table 81D-1. Selection Criteria

Selection Point	Key Selection Criteria	Candidate Pool
LH AC	1. Functional Skills Level 2 or above achieved. 2. Serving on a Full Career ES2 that expires after the nominated Due Date. 3. Level of potential for Command, Leadership and Management in the next higher rate. 4. SJAR Recommendation for JATCC and FT by the 2RO (if GTS). 5. CBAT score. 6. Recommendation from POAC PE board.	All LHs who volunteer for FT
PO AC	1. Serving on a Full Career ES2/3 that expires after the nominated Due Date. 2. Level of potential for Command, Leadership and Management in the next higher rate. 3. SJAR Recommendation for JATCC and FT by the 2RO 4. CBAT score.	All POs who volunteer for FT

g. **Transfer to Fast Track Scheme.** Candidates who are selected at the FTSRP will be forwarded to the FTTLM for inclusion on the FT scheme. Upon approval, the FTTLM will assign FT ratings to JATCC.

h. **Service on the Fast Track Scheme.** The FT scheme is designed to accelerate individuals through the advancement system in a timescale that is faster than the normal selective promotion process. To facilitate this, individuals will be carefully managed, and therefore the following exceptions to normal career management need to be applied. This will be acknowledged by successful candidates when they sign the Certificate of Understanding (Part A)[5]; accepting the terms of service of FT scheme:

(1) **Waiver of Minimum Assignment Notice.** In order to maximise sea training opportunities, individuals selected for FT may require to be assigned at less than the usual minimum assignment notice. All individuals on the FT scheme will be required to volunteer to waive their minimum assigning notice period for sea and between platforms, as well as courses and employment associated with their advancement, although all effort will be made to provide the maximum amount of notice.

[5] Once signed, the FTTLM is to award the competence 'FAA|Aircraft Controller|JATCC|Fast Track|' on JPA.

(2) **Rights to Selective Promotion whilst on FT.** Personnel will remain eligible for selective promotion IAW current pre-selection requirements found at BRd 3(1) Ch 8110. Individuals not successful at selective promotion will remain eligible for promotion in line with the FT advancement policy.

(3) **Waiver of Rights to 660/3 Separated Service.** The requirement to carefully manage individuals on the FT scheme through training courses and employment in specific roles associated with their advancement, incurs the consequence that the individual may need to be separated from their home address for regular and/or prolonged periods. All individuals on the FT scheme will be required to volunteer to waive their rights to 660/3 Separated Service for as long as they remain on the scheme, although all effort will be made to avoid excessive separated service periods.

i. **Maintenance of Performance.** All ACs on the FT scheme are to remain in date for their Annual Standards Check (ASC) until they successfully complete JATCC, and Annual ATC Medical. They should achieve a minimum score of 75% at ASC; should they fail to achieve 75% or more, their suitability for remaining on the FT scheme will be determined by the FTA on a case by case basis. Appraisal Reports for FT ratings should contain a recommendation from both 1 RO and 2 RO to remain on the FT scheme and a minimum 'B' OPG.

j. **SJAR Reporting Requirements.**

(1) SJARs and MPARs remain a mandatory requirement for all FT individuals and should comment on their current performance, CLM, employment and training achievements. Within the SJAR, Reporting Officers should report whether or not an individual continues to maintain a recommendation for the FT scheme and, if appropriate, the individual's potential for the next FT stage. The SJAR must contain evidence to support these recommendations.

(2) On completion of the FT scheme through successful advancement to CPO, an annual SJAR must be raised at the next CRD for CPO, regardless of the length of reporting period. In addition to the normal requirements for SJAR reporting, this SJAR will re-synchronise the individual with the reporting period of their peer group.

(3) On voluntary removal from the FT scheme or through de-selection, a SPEC AR[6] must be raised to record the circumstances of the removal. An annual SJAR must be raised at the next CRD for the individual's substantive rank, regardless of the length of reporting period. In addition to the normal requirements for SJAR reporting, this SJAR will re-synchronise the individual with the reporting period of their peer group.

[6] JSP 757 Pt 2 Vol 1 Para 1c(1).

k. **Substantive Advancement.**

(1) **Leadership Training.** All FT personnel must complete SRLC prior to substantive promotion. Preparation for and completion of these courses is essential and although the responsibility rests firmly with the individual to be fully prepared, it is to be supplemented with appropriate coaching and mentoring by ship's staff. The unit lead for the FT scheme is their Head of Department who must take an active interest in the performance of FT personnel. The planning and enrolling of individuals onto a SRLC will be completed by the FTTLM. In general, FT personnel will be provisionally allocated a SRLC start date at, or shortly after Transfer to Fast Track. The FTTLM is to ensure that all JPA administrative action is taken for the FT Rating's substantive advancement.

(2) **Advancement.** LACs who remain on the FT scheme will become Acting PO (subject to completing all eligibility criteria) on commencement of JATCC on their Due Date and advanced to substantive PO upon achieving 'Competent to Operate' status or SRLC, whichever is later. PO ACs who remain on the FT scheme will be advanced to CPO (subject to completing all eligibility criteria) at 36 months from completion of JATCC. In all cases, individuals who complete all eligibility criteria prior to Due Date may be advanced to the acting higher rate[7].

(3) There may be occasions where a FT LH or PO is at their Due Date by time, but has failed to satisfy the advancement criteria by their Due Date. An award of the acting higher rate will be considered by their CO[8], keeping the FTTLM informed.

l. **Fast Track Failure Policy and De-selection from FT Scheme.** Once selected, an individual will remain on the FT scheme unless their progress, performance or standards are deemed insufficient or they voluntarily choose to remove themselves. Where an individual, through their own actions or ability, has not been able to maintain FT accelerated training they may be de-selected from the FT scheme. If de-selected, personnel revert to the standard selective promotion route, and continue training and employment as necessary to meet the service requirement. The FT scheme failure and de-selection policy is detailed at sub para n.

m. **Fast Track Notes.**

(1) **Career Check.** Due to the tight timescales, imposition of a Career Check will result in automatic deselection from the FT scheme.

(2) **Unsuitable Candidates.** Where candidates are found to be unsuitable[9] for advancement to the next higher rate, they may be withdrawn from training by OiC RNSAC. In such cases, individuals will be deselected from the FT scheme. They will transfer from Fast Track back to Selective Promotion as the eligibility route for future selection.

[7] BRd 3(1) Para 6714.
[8] BRd 3(1) Para 6802c.
[9] The required attributes of the next higher rate.

(3) **Refusal to undertake the QC.** Individuals who refuse to undertake JATCC will be deselected from Fast Track, continue to serve in their current rate and transfer back to Selective Promotion.

(4) **Achieved Annual Standards Check (ASC).** It is a requirement that individuals achieve Role PS in the new rank within the timescales outlined and remain in date for their ASC throughout to ensure that each key stage is achieved without delay. Individuals must be in date for their ASC at start of JATCC.

n. **Aircraft Controller - Fast Track Advancement Flowchart.** The following rules apply to personnel selected for the AC Fast Track Scheme.

LEADING AIRCRAFT CONTROLLER
Selected for Fast Track, awarded a Fast Track Start Date with a Due Date Advancement to PO on commencement of JATCC

Petty Officer (Aircraft Controller) - Pre-advancement Requirements

a. Achieved Role PS as LAC.

b. Passed written Provisional Examination (PE) for POAC.

c. Completed Senior Rates' Leadership Course (SRLC) and recorded in JPA competence 'Miscellaneous|Senior Rates Leadership Course (RNLA 102)|Navy|'.

d. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated Due Date.

e. Recommended for advancement by CO. Promotion Authorisation Request (PAR) sent to parent Career Management Cell, copied to FTTLM and Promotions Office.

Advanced to **PETTY OFFICER (AIRCRAFT CONTROLLER)** With a Due Date for Advancement to CPO 36 months from completion of JATCC

Chief Petty Officer (Aircraft Controller) - Pre-advancement Requirements

a. Completed JATCC and recorded as JPA competence 'Competent to Operate'[10].

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated Due Date.

c. Recommended for advancement by CO. Promotion Authorisation Request (PAR) sent to parent Career Management Cell, copied to FTTLM and Promotions Office.

[10]IAW BRd 3(1) Annex 81C Table 81C-4.

Advanced to
CHIEF PETTY OFFICER (AIRCRAFT CONTROLLER)
Transfer to Selective Promotion Flowchart for Selective Promotion Table 81C-7.

n. **Fast Track Scheme Terms of Service and Failure Policy**

(1) **FT Terms of Service.**

(a) The FT scheme affords significant opportunity in terms of career progression at an earlier stage and therefore it is expected that FT personnel will perform at a higher than average level of competence in all aspects of training and employment. The scheme's success is dependent on both the individual and the unit's organisation to ensure sufficient progress is made towards the next higher rate. To ensure this occurs the scheme will be externally assured by the FTM and their team.

(b) Lack of progress within the scheme has the potential to prevent the achievement of the nominated Due Date. Where any potential weaknesses are identified, appropriate mentoring and professional development is to be provided and recorded in writing by their Line Manager and/or Divisional Officer. At all times, a FT individual must maintain a positive recommendation to remain on the scheme and for the next advancement. Any training failure, CLM or NGT warnings or attitudinal problems will, in all probability, result in removal from the FT scheme.

(c) To ensure all FT personnel are fully aware of the changes to their Terms of Service on selection to the FT scheme (including, being advanced in lieu of selective promotion), individuals will sign a Certificate of Understanding. When signing, they confirm their understanding that, whilst on the FT scheme, they will:

i. Not be considered at Selective Promotion Boards until removed from FT scheme;

ii. Be required to waive their minimum time for assignment to sea and shore and;

iii. Be required to waive their 660/3 Separated Service.

On leaving the FT scheme, a Certificate of Understanding (Part B) will be completed and signed by the individual. This reverses the process, with the individual returning to Selective Promotion and minimum notice for future assignments.

(2) **FT Scheme Failure Policy.**

(a) Where it is suspected that agreed targets may not be achieved for reasons within the control of the individual, FT personnel are to be placed on warning in a timely manner to highlight the concern to the individual and ensure a recovery plan is created and followed. This will also highlight to the FTTLM the potential delay in the individual's progression or potential for removal from the scheme.

(b) There may be extenuating circumstances[11], both Service (e.g. ship's programme) and Non-Service (e.g. compassionate or medical) reasons which may prolong an individual's time within the training pipeline. Delays may affect progression to PO or CPO within the expected time and in all circumstances the FTTLM should be informed at the earliest point.

(c) The FTM has the authority to remove personnel from the FT scheme and will do so where it is deemed appropriate, as below. The FTM will seek advice from the relevant FTA and the FTTLM before making a decision.

(3) **Removal from the FT Scheme.**

(a) ACs may be removed from the scheme in any of the following circumstances:

i. Submission of an Early Termination request or request to leave the FT scheme;

ii. Failure to achieve 75% at Annual Standards Check;

iii. Not being recommended for advancement by CO;

iv. Failure of Leadership Course;

v. Removal from JATCC course;

vi. Career Intermission[12];

vii. Poor performance relating to professional performance, including but not limited to failure to achieve a 'B' OPG, or CLM failings;

viii. Imposition of a Career Check;

ix. Other significant reason which the FTM deems sufficient to justify removal.

[11] These occasions should be rare, as the CO and FTTLM should be working to meet the tight FT timescales.
[12] Previously called Career Break.

(b) On submission of a request for Early Termination, an individual will be de-selected from the FT scheme. Unit Staff are to ensure they liaise with the FTTLM prior to accepting any notice to ensure that the individual is fully briefed on all aspects associated with removal from FT and serving notice, such as TRoS and being employed at sea during the notice period.

(c) When being de-selected from the FT scheme, the FTTLM will ensure the following actions are completed and appropriate details are recorded on the Certificate of Understanding (Part B):

i. Individual is to be fully briefed on all aspects of removal and that future promotion will be by Selection.

ii. A SPEC AR raised detailing reasons for the de-selection.

iii. FT Certificate of Understanding (Part B), to be completed by the FTTLM.

iv. FTM to remove the JPA FT competence.

v. Individual's seniority date to be agreed with FTM and recorded on JPA.

(4) **Volunteer for Removal from the FT Scheme.**

(a) An individual may volunteer to be removed from FT and revert to selective promotion at any stage in the scheme. The process is detailed below, and all individuals should be fully advised of the changes to their career progression when transferred back to the selective promotion route. It is recommended this is carried out by the unit HOD or the FTA.

(b) The individual's request for removal from the FT scheme is to be forwarded to the FTTLM for review and consideration. The FTM will retain the authority to remove any rating from the FT scheme. The process to be followed is indicated below;

i. The FT rating is to submit a formal request to the CO detailing the explanation why they wish to be removed from the FT scheme.

ii. If the request for removal is associated with submission of Early Termination the FTTLM will liaise with AC Career Manager[13] before advising the HOD on future employment plans.

iii. If at sea the rating is expected to remain in that position.

iv. If the request for removal is not associated with an Early Termination but occurs at RNSAC, the individual will be reassigned at their substantive rank. All cases will be treated individually and be approved by the FTM.

v. If the request for removal is not associated with an Early Termination but occurs at DCASO, the individual will be reassigned at their substantive rank. All cases will be treated individually and be approved by the FTM.

(c) Individuals removed from the FT scheme will be career managed by FTTLM and be employed according to the needs of the Service. It is to be recognised that the individual will have completed less time at sea than those on selective promotion. It is therefore to be expected that these individuals will be assigned back to sea at the earliest opportunity.

(5) **Failure within Professional Qualifying Courses.**

(a) FT personnel who fail on course at DCASO will be managed by the DCASO Training Failure Policy.

(b) Back Classing of FT personnel is only to be considered for exceptional reasons outside of any professional training failure. Where back classing is necessary, then the individual case will be reviewed by the FTRA and FTM to assess the impacts upon the individual's training. Where a FT individual is being back classed then, following liaison with the FTRA, the FTM will review the circumstances of the back classing and consider if the individual is to remain on the FT scheme on a case-by-case basis.

(c) Where FT personnel fail or miss course module(s) then the RNSAC policy is to be followed in reprogramming modules. Where a module(s) has been missed for Service or Non-Service reasons then the FTRA is to be notified **in all cases.** Whether an individual remains on the FT scheme will be reviewed on a case-by-case basis, with the final decision being made between the FTRA and the FTM.

(6) **Failure of Leadership Courses.**

(a) As Fast Track ratings, it is to be expected that FT personnel will allocate sufficient time and preparation to pass the necessary leadership courses.

(b) Those FT personnel who fail LRLC or SRLC may be de-selected from the FT scheme for not meeting the standard of leadership expected at their rank. In exceptional cases, and where there is sufficient mitigation and a recommendation from the Royal Navy Leadership Academy (RNLA) staff to return to leadership course, a waiver from de-selection from the FT scheme may be considered. This must be approved by the FTM.

(c) On removal from the FT scheme following failure at LRLC or SRLC, the individual will be transferred to the selective promotion route at their current rank. The individual must then seek promotion by selection and will be planned to attend leadership course only after further selection for the next higher rate.

(7) **Ratings Removal from the FT Scheme.** In all other cases units should make application to the FTM for the individual's removal. The FTTLM will conduct all administrative actions for recommendation for removal from the FT scheme.

ANNEX 81E

APPLICATION FOR THE AIRCRAFT CONTROLLER FAST TRACK SCHEME

When completed, this form must be protectively marked and forwarded to the Fast Track Authority. No JPA action is required. ***Applicants must ensure that their volunteer status is recorded on the front page of their SJAR.***

Part 1 - Individual's Details

FULL NAME (in capitals)	SERVICE No.	RATE	UNIT

Date Joined RN	Date Joined Current Unit	Current Job Title

Part 2 - Individual's Declaration[1]

I wish to apply for the Aircraft Controller Fast Track Scheme:

Signed: ..... Date: .....

Part 3 - Divisional Officer/HoD/Unit CO[2]

The application for the Aircraft Fast Track Scheme by the above-named rating is supported.

Signed: ..... Rate/Rank: .....

Name (in capitals): ..... Date: .....

Unit: ..... Role: .....

[1] A copy of this Application Form is to be retained by the individual.
[2] Part 3 must be completed by an officer of OF2 or above.

ANNEX 81F

CERTIFICATE OF UNDERSTANDING PART A

TRANSFER TO THE AIRCRAFT CONTROLLER FAST TRACK SCHEME

BEING SUBJECT TO: ADVANCEMENT BY TIME (IN ACCORDANCE WITH BRd 3(1) CHAPTER 68) AND POSSIBLE CHANGES IN MINIMUM NOTICE FOR ASSIGNMENT TO SEA AND SHORE

Part 1 - Individual's Details

FULL NAME (in capitals)	SERVICE No.	RATE

Date of Selection	Fast Track Start Date	Due Date Advancement	Remarks

Part 2 - Individual's Declaration[1]

1. I understand that during my time on the Aircraft Controller Fast Track Scheme:

   a. I will be subject to advancement by time, as detailed in BRd 3(1) Chapters 68 and 81, I will remain eligible for selective promotion. b. I may be liable to be assigned to sea or shore units at less than normal assigning notice, as detailed in BRd 3(1) Chapter 59 Section 11.

Signed: ..... Date: .....

Part 3 - Fast Track Through Life Manager[2]

2. The above-named rating has been transferred to the Aircraft Controller Fast Track Scheme and will be subject to advancement by time, with the following awarded due date for the next higher rate:

Advancement To	Due Date Advancement
PO / CPO*	

* delete as applicable

Signed : ..... Rate / Rank: .....

Name (in capitals): ..... Date: .....

[1] A copy of the Certificate of Understanding Part A is to be retained by the individual.
[2] The Certificate of Understanding Part A is to be retained by the FTTLM for a period of 3 years after the individual leaves the Aircraft Controller Fast Track Scheme.

CERTIFICATE OF UNDERSTANDING PART B

REMOVAL FROM THE AIRCRAFT CONTROLLER FAST TRACK SCHEME

Part 1 - Individual's Details

FULL NAME (in capitals)	SERVICE No.	RATE

1. The Above-Named Rating has been removed from the Aircraft Controller Fast Track Scheme and will no longer be subject to time based advancement.

2. The following seniority date has been determined by the Fast Track Authority and will be recorded in JPA:

RATE	SENIORITY DATE

Part 2 - Individual's Declaration[3]

3. I understand that on removal from the Aircraft Controller Fast Track Scheme:

b. I will be liable to be assigned to sea or shore units as detailed in BRd 3(1) Chapter 59 Section 11.

Signed: ..... Date: .....

Part 3 - Fast Track Through Life Manager[4]

4.

.....

5. The following actions have been completed;

a. The individual has been fully briefed on implications of removal from the Aircraft Controller Fast Track Scheme.

b. The Individual's seniority date has been agreed with the Fast Track Authority and recorded in JPA.

Signed: ..... Rate / Rate: .....

Name: ..... Date: .....

[3] A copy of the Certificate of Understanding Part B is to be given to the individual.
[4] The Certificate of Understanding Part B is to be retained by the FTTLM for a period of 3 years after the individual leaves the Aircraft Controller Fast Track Scheme.

Annex 82A Physical Training Instructor (PTI) - Promotion Flowchart

CHAPTER 82

LOGISTICS AND PERSONNEL PROFESSION - PHYSICAL TRAINING INSTRUCTOR

8201. General

This Chapter covers the career regulations for General Service Logistics and Personnel Profession Physical Training Instructors (PTI).

8202. Entry into the Physical Training Instructors Specialisation

Entry into the PTI Specialisation may be achieved in one of the following ways:

a. Profession Transfer.

b. Service Transfer - from Army, RAF or RM.

c. Direct Entry.

8203. Profession / Service Transfer

The following criteria must be met for entry into the PTI specialisation:

a. An AB1 or MNE with at least 12 months' service since attaining Role Performance Standard (RPS) at the date of application, a Leading Hand (LH) or Corporal (Cpl).

b. Have a permanent medical category of Medically Fully Deployable (MFD) A4/L1/M1/E1[1].

c. Hold GCSE Grade 9-4 (2017 onwards) or Grade A*-C (pre 2017) in English and Mathematics or equivalent in accordance with Chapter 96.

d. Six months or more since last Career Check (if any).

e. Have workforce clearance for transfer.

f. Be a British citizen or dual British / other nationality status (see Annex 51A).

[1] Medically Limited Deployability (MLD) will be considered on a case-by-case basis and dependant on the limitations an individual has been awarded.

8204. Direct Entry PT

a. **Entry Qualifications:**

(1) **Age.** 18-35 years.

(2) **Nationality.** British citizen or dual British / other nationality status (see Annex 51A).

(3) **Educational Qualifications.** English and Maths Grade 9-4 or, A*-C pre 2017.

(4) **DAA Score. 58** NR-2, MC-0, WR-2, VR-3, EC-0 & SR-2.

(5) **Visual Acuity.** 2.

(6) **Colour Perception.** 3.

(7) **Hearing.** 2.

(8) **Medical Standards.** Medically Fully Deployable (MFD) (A4 / L1 / M1 / E1)[2].

b. **Pre-Entry Criteria:**
Passed PT Specialisation Suitability Board (held during Pre Royal Navy Course (Rating) (PRNC(R)).

c. **Phase 1 and 2 Training.** Entrants will complete standard Phase 1 basic training at HMS RALEIGH as AB2 PT, before progressing to Phase 2 which combines the mandatory elements of ARLC, with a 2-week seamanship course (SEA 105). The purpose of the Phase 2 package is to prepare DE for Phase 3 Marinisation prior to proceeding to LPTQC. On successful completion of Phase 2, DE PT will become GTS. Divisional care during Phase 2 will be provided by Corporate Squadron HMS RALEIGH.

d. **Phase 3 - Marinisation Phase.** PT Familiarisation training will be conducted in a gymnasium under the guidance of the unit's CPOPT for a minimum of 3 months. The purpose of this phase is to prepare the individual for their PT Aptitude and future LPTQC. The DE will work within the gymnasium and complete a Task Book to ensure that they are ready for LPTQC. The DE will not be able to attend PT Aptitude until all tasks have been completed. Additionally, if an individual does not display the correct attributes expected of a future Leading Hand they may face administrative action through the warnings process. An individual will remain within the gymnasium environment until successful selection to LPTQC and Divisional care during this phase will be provided by the unit's CPOPT.

[2] MLD will be considered on a case-by-case basis and dependant on the limitations an individual has been awarded.

e. **Advancement to AB1 PT**. A DE PT will be advanced to AB1 PT on successful completion of PT Aptitude. This is to be recorded in JPA under 'Professional|RPS for AB1 PT|Navy|' and will be the responsibility of the Chief Staff Instructor (CSI) at the Royal Navy School Of Physical Training (RNSPT).

f. **Career Management.** Throughout their career, DE will be career managed by the PT CM.

g. **Unsuitability for PT**. In the case that an individual is assessed as unsuitable to progress to LPTQC, then, following consultation with CO RNSPT and Logistics and Personnel Professions Manager, the provisions of 8204 (b)i apply.

h. **Phase 3 - Training - LPTQC.** On successful completion of the PT Aptitude, DE AB1 PT will be assigned to the LPTQC, to combine with SWE. From this point in their career, standard PT Specialisation rules will apply, with the exception of failure/removal from LPTQC and Leading Rates Leadership Course (LRLC).

i. **Training Failures.** In common with Professions Transfers until successful achievement of RPS as LH (PTI), DE will be deemed to be under training. The policy regarding Removal from PT Professional / Career Training (LPTQC) and Leading Rates Leadership Course will, therefore, apply to DE, with the exception of the option to return to source profession. In that instant, there will be two options:

(1) DE will be given counselling and a suitable profession transfer proposed, subject to Service Need, after consultation with the relevant Branch Manager.

(2) Discharge SHORE (Inadequacy)[3]. Failure to complete PT training and to achieve RPS as LH (PTI) means that an individual is unable to perform the duties of the lowest rate in their professional profession specialisation, due to physical or mental incapacity (not of a nature to warrant medical discharge) or incompetence, and therefore may be discharged SHORE.

j. **Career Check.** The implications of a DE being awarded a Career Check prior to LPTQC will be dealt with on a case-by-case basis by CO RNSPT, in consultation with the Logistics Branch Manager.

k. **RN PES.** Individuals are to be in date RN PES or in possession of either a permanent medical exemption as issued by a Royal Naval Medical Board of Survey (RNMBOS) or temporary exemption (as issued by the Commanding Officer). Failure to do so will be dealt with under the normal provisions of BRd 3(1). See Chapter 67.

l. **Return of Service (ROS).** On completion of LPTQC, individuals who Profession Transfer into the PTI specialisation are required to complete a 3 year ROS. This will apply to DE PTI and will supersede any other ROS.

[3] BRd 3(1) 5443.a(3) (Discharge SHORE (Inadequacy).

m. **Training Holdovers.** On successful completion of PT Aptitude, DE candidates will return to their unit where they will remain whilst waiting assignment to the next available LPTQC.

8205. Working with Children / Vulnerable Adults - Criminal Record Checks

a. Certain positions within the PTI profession require personnel to hold a valid Enhanced Disclosure level clearance certificate issued by the Disclosure and Barring Service (DBS) or through Disclosure Scotland. See Chapter 60 Section 7 on criminal record checks required by law and MOD policy.

b. An application for Criminal Record Check will be made by the PTI Career Manager on assignment to one of the identified positions.

8206. RN Aptitude Clearance

a. When an individual has been recommended for the PTI specialisation an application is to be submitted to NAVY PEOPLE-TRG-HQ-N5 SWP WO1 for permission to proceed to aptitude.

b. When permission is granted, the individual's Unit is to liaise with RNSPT (Chief Staff Instructor) to request a place on a PT Aptitude Test. The application is to be e-mailed to NAVY PEOPLE-TMGRNSPT CSI and is to state the following information:

(1) The individual meets all criteria at Para 8203.

(2) Approval from NAVY PEOPLE-TRG-HQ-N5 SWP WO1 has been granted in accordance with the approval Email.

(3) Has the Support of the Unit to Attend a PT Aptitude and has been provided the necessary training time and supporting documentation / exposure to RN PT prior to attendance.

8207. Aptitude Test

Aptitude Tests are held in HMS TEMERAIRE. They are usually conducted in May, Sep and Dec, however an RNTM is released annually in Dec detailing PTA dates for the following training year. Joining Instructions will be sent to the individual and their DO approximately 14 days prior to the PTA commencing. Divisional Officers are to ensure that they complete and sign the medical certificate attached to the Joining Instructions after confirming the medical suitability of the individual by sighting JPA Medcat and JMES codes.

a. **Conduct of the Aptitude Test.** All elements of the PT Aptitude are compulsory. The candidate will be required to demonstrate, to the satisfaction of the Instructor, that the individual:

(1) Is physically fit and has the potential to complete the LPTQC.

(2) Possesses the required mental attitude in addition to their physical abilities. Individuals should demonstrate Naval Core Values (C2DRIL) as a matter of course and display the mental resilience to succeed in this arduous evolution.

(3) Is able to demonstrate adequate motor skills and co-ordination during physical activity (including Mountain Biking, Water activities and Indoor Climbing).

(4) Demonstrates a sound understanding of a pre-determined topic and is able to deliver a presentation on this topic with confidence, clear communication and clarity.

(5) Has a basic knowledge of anatomy and physiology.

(6) Has a basic knowledge of sports rules associated with the major sports played within the RN.

(8) Displays the potential to identify and rectify incorrect movement during fundamental movement patterns.

b. On completion of the Aptitude Test candidates, and their DO, will be informed if they have passed or failed by RNSPT. The RNSPT will inform NAVY PEOPLE-TRG-HQ-N5 SWP WO1 of the results.

8208. Profession Transfer Clearance

a. Once an individual has passed the PT Aptitude Test, clearance to change profession / specialisation is to be requested via NAVY PEOPLE-TRG-HQ-N5 SWP WO1 in accordance with current regulations.

b. Personnel who have successfully passed the PT Aptitude and are waiting to be assigned to the LPTQC must continue to meet the criteria at Para 8203. Failure to achieve this requirement may result in the candidate been debarred from transfer / selection to the PTI specialisation.

c. On receipt of an Assignment Order detailing a candidate for LPTQC, DOs are to check that the individual continues to meet all the requirements for the Course listed at Para 8203. Queries regarding eligibility which are not covered in this Chapter should be referred to the Professions Manager or Spec Adviser immediately, particularly if they concern a discipline issue, Career Check or seniority.

8209. Attending LPTQC

Once clearance has been granted, but prior to attending LPTQC, joining instructions will be issued. Where possible, individuals are to be loaded to LRLC prior to attending LPTQC. An individual MUST ensure:

a. That the medical certificate attached is signed by a Medical Officer, stating that the candidate has been medically examined within the preceding 14 days and found to be medically and physically fit to undergo the LPTQC.

b. This certificate MUST be returned to the Instructor by the date stipulated in the Joining Instructions.

c. Any individual who does not have a signed medical certificate will not be permitted to commence LPTQC.

8210. Passing LPTQC

On successful completion of LPTQC the following rules apply:

a. An individual leaves their original specialisation and join the PTI specialisation.

b. An individual seniority date is to be amended to the last day of LPTQC.

c. An individual will be advanced to LH(PTI) once the criteria at Annex 82A have been satisfied.

d. All LH (PTI) are subject to a 12-month probationary period.

e. See Para 6909.a sub para (4) regarding non-completion of LRLC and exceptional advancement to Acting Higher Rate (AHR).

8211. Reversion and Disrating

a. If, at the end of one year's service as a LH(PTI), an individual is considered to be unsuitable or unable to attain the standard required of a LH(PTI), they will be returned to their source profession or specialisation with original seniority as an AB or LH.

b. If an individual fails LRLC they will be returned to their former specialisation.

c. Failure to achieve RPS 24 months after completion of the LPTQC constitutes grounds for reversion and, unless exceptional circumstances exist (the LPTQC Profession Manager is to be consulted), the Commanding Officer is to initiate the reversion process. This may conclude in return to former specialisation and rate, with original seniority.

d. In common with other sideways entry specialisations, ratings who are reverted or disrated to AB will be returned to their former specialisation and categories. Re-promotion and future employment within the PT specialisation will be considered by the Branch Manager on a case-by-case basis.

8212. Employment for PT Individuals

a. On successful completion of LPTQC, all newly qualified LH(PTI) will normally spend a minimum of 12 months consolidating their skills at a Shore Establishment under the mentorship and guidance from a CPO(PTI). During this period, a newly qualified LH(PTI) is expected to complete their Task Book and achieve RPS.

b. In order to grow PTIs with the requisite skill sets for Joint Service Exercise Rehabilitation Instructor (JSERI) and Adventurous Training Instructor (ATI), LH(PTI) will be given exposure to both these disciplines. An individual may be considered as an ATI or ERI.

c. Sea service is not required for promotion at any stage, however, all PTI SQEP personnel are liable for assignment to a sea-going platform as required to meet the needs of the Service.

8213. JPA Recording - Competences, RPS, Annual RPS Check, RNFT, and CBRNDC Task Book

a. **Recording of Competences.** Once a PTI has successfully completed a PQC, TEM, taskbook and achieved RPS, that competence is to be recorded on JPA by the appropriate unit HR administrator. It is the responsibility of the individual to check JPA has been updated with the relevant competence.

b. **Achieving RPS.** On successful completion of LPTQC an individual will attain the Training Performance Standard (TPS) and issued with a Workplace Training Task Book (WTTB). An individual will be deemed to have achieved Role Performance Standard (RPS) on successful completion of the WTTB for LH (PTI). The period allocated to achieve RPS is up to 24 months this allows time for probation to be completed and to generate a SQEP person to fulfil the role as a LH(PTI).

c. **Annual RPS Check.** The continued maintenance of RPS (including RN PES) is fundamental to all further development and promotion. In order to monitor individual maintenance of RPS, an annual RPS Check is to be conducted. In exceptional circumstances, some individuals may be unable to achieve the mandatory annual RPS Checks. Where this is the case, the Professions Manager should be consulted for advice. LH(PTI) must complete either a General, ERI or ATI RPS depending on sub-specialisation. On completion of the Annual RPS Check an individual is to be awarded the following competence on JPA (CMS|Annual RPS Check LH| Navy). This competence should overwrite the previous year's competence and is valid for 12 months. The following personnel are authorised to conduct RPS Checks and act as signatories:

(1) A RN PT specialisation Warrant Officer or Senior Rate or assigned RM PT SNCO.

(2) In Units with no PT Senior Rates, the Executive Officer or Executive Warrant Officer.

d. **AB-LH CBRNDC TB.** It is recognised that not all specialisations, branches or trades mandate the need to complete a CBRNDC TB. If an individual falls into this category the TB must be completed on joining their first sea going unit.

8214. Education For Promotion

The joining criteria for a PTI is to hold Grade 9-4 (2017 onwards) or Grade A* - C (pre 2017) GCSE in English and Mathematics (or equivalent for either or both qualifications), and therefore an individual is educationally qualified for subsequent promotion in accordance with Chapter 96.

8215. Adventurous Training Instructors

a. Adventurous Training Instructors (ATI) are a sub-cadre of the PT Specialisation. Personnel who wish to pursue a career as an ATL must first complete LPTQC and attain RPS as a LPT in accordance with Para 8213.b.

b. To specialise as an ATL, an individual is required to be recommended by their DO.

c. Further information and contact details about ATL training may be found in BRd 51(1) Chapter 2.

8216. Exercise Rehabilitation Instructors

a. Exercise Rehabilitation Instructors (ERI) are a sub-cadre of the PT Specialisation. Personnel who wish to pursue a career as an ERI must first complete LPTQC and attain RPS as an LPT iaw Para 8213.b.

b. To specialise as an Exercise Rehabilitation Instructor (ERI), an individual is required to be recommended by their DO, Regional Trade Specialist Adviser and trade Specialist Adviser.

c. Further information and contact details about ERI training may be found in BRd 51(1) Chapter 2.

CHAPTER 83

WARFARE BRANCH - COXSWAIN (SUBMARINE)

8301. General

This Chapter covers the career regulations for Submarine Service Branch Coxswain (SM).

8302. Entry into the Coxswain (Submarine) Specialisation

Entry into the Coxswain Submarine (SM) specialisation is by Branch Transfer only. Volunteers are considered from all specialisations of the SM Service[1].

8303. Branch Transfer

The following criteria must be met for entry into the Cox'n (SM) specialisation:

a. Be either a CPO, or selected for promotion to CPO, or a PO with a minimum of 24 months' seniority in the rate from which to be selected for CPO Cox'n (SM) 12 months prior to the CPD.

b. Have a permanent minimum medical category of MLD A4 / L1 / M1 / E1.

c. Hold the (SM) Basic Sea Qualification.

d. Six months or more since last Career Check (if any).

e. Have clearance to transfer.

f. Successfully complete 'dry' SCOOW qualifying course.

g. Qualify 'wet' SCOOW prior to commencing Cox'n (SM) qualifying course[2].

h. Have successfully completed Senior Rates' Leadership Course.

i. Have at least one recommendation from a Submarine Command Qualified Officer of Commander rank or above.

j. If a PO must have a Yes recommendation or above for promotion in their last SJAR.

8304. Cox'n (SM) Aptitude Clearance

a. When an individual has been recommended for the Cox'n (SM) specialisation an application is to be submitted to NAVY PEOPLE-TRG-HQ-N5 SWP WO1 for permission to proceed to aptitude.

[1] Volunteers from General Service will be considered on a case by case basis but must qualify SM in addition to meeting all other pre-requisites.
[2] In exceptional cases, a waiver for Wet SCOOW qualification may be granted.

b. When permission is granted, the individual or unit is to liaise with the Cox'n Recording Authority to confirm the date when the applicant will attend a Cox'n (SM) aptitude.

8305. Cox'n (SM) Selection Board Procedure

The Selection Board will consist of two Command qualified individuals and one must be a Commander X (SM), Professions Manager / Career Manager, a WO1 Cox'n (SM) and FOST ST111 / 112. The board will consist of:

a. A promotion board to ensure all PO's candidates are suitable for selection to CPO.

b. Applicants will be required to undertake the following:

(1) A short presentation.

(2) A question and answer based interview.

c. The Selection Board will assess candidates' suitability based on their promotion dossier, Service Paper, Presentation and the Question and Answer based interview for suitability to proceed to Cox'n (SM) training.

d. A successful Selection Board pass and workforce clearance will be valid for 2 years.

e. The Divisional Officer, the applicant and NAVY PEOPLE-TRG-HQ-N5 SWP WO1 will be informed of the results of the Cox'n (SM) Selection Board.

8306. Branch Transfer Workforce Clearance

a. Once an individual has passed the Cox'n (SM) Selection Board, workforce clearance to change branch / specialisation is to be requested via NAVY PEOPLE-TRG-HQ-N5 SWP WO1 in accordance with current regulations.

b. Personnel who have successfully passed the Cox'n(SM) Selection Board and are waiting to be assigned to the Cox'n (SM) QC must continue to meet the criteria at Para 8303. Failure to achieve this requirement may result in the candidate been debarred from transfer / selection to start Cox'n (SM) training.

c. On receipt of an Assignment Order detailing a candidate for Cox'n (SM), Divisional Officers are to check that the rating meets all the requirements at Para 8303. Queries regarding eligibility which cannot be answered in this Chapter should be referred to the Branch Manager or the Spec Adviser immediately, particularly if they concern a discipline issue, Career Check or seniority.

8307. Passing Coxswain(SM) Professional Qualifying Course

On successful completion of Cox'n (SM) PQC the following rules apply:

a. An individual leaves their original specialisation and joins the Cox'n (SM) specialisation.

b. All individual's on the same course will have their seniority date amended to the agreed Common Promotion Date (CPD).

c. An individual will be advanced to CPO Cox'n (SM) once the criteria at Table 83-1 have been satisfied.

d. All CPO Cox'n (SM) ratings are subject to a 12-month probationary period.

8308. Reversion, Disrating and Returning to Source Specialisation

a. If an individual is considered to be unsuitable or unable to attain the required standard of a Cox'n (SM), they will be returned to their source branch or specialisation with their original seniority as a PO or CPO.

b. Failure to achieve RPS 12 months after completion of the Cox'n (SM) course constitutes grounds for reversion and, unless exceptional circumstances exist (the Cox'n (SM) Branch Manager is to be consulted where any doubt exists), the Commanding Officer is to initiate the reversion process. This may conclude in returning to their former specialisation and rate, with original seniority.

c. Individuals who voluntarily request to return to their original source specialisation within 12 months of completing Cox'ns (SM) training will be re-instated in the rate held before undergoing training with their original seniority as a PO or CPO.

d. If and individual is disrated to a rate below CPO, they will be returned to their source specialisation.

8309. JPA Recording - Competences, RPS, and RNFT

a. **Recording of Competencies.** Once a Cox'n (SM) has successfully completed a PQC, TEM and achieved RPS, that competence is to be input to JPA by the appropriate unit HR administrator. It is the responsibility of the individual to check that JPA has been updated with the relevant competence.

b. **Achieving RPS.** The period allocated to achieve RPS is up to 12 months which allows time for probation to be completed and to generate a SQEP Cox'n (SM).

8310. Education For Promotion (EFP)

Individuals must be at least a PO to transfer into the Cox'n (SM) specialisation therefore the minimum EFP is to hold Level 2 Functional Skills (or equivalent) in English and Mathematics and appropriate competences recorded on JPA, therefore an individual is educationally qualified for subsequent promotion in accordance with Chapter 96.

8311. Selection for Chief of the Boat

If, due to shortages in the Cox'n (SM) specialisation, the requirement arises for a Chief of the Boat, Fleet Commander will issue separate instructions.

CHAPTER 84

WARFARE PROFESSION – CRYPTOLOGIC TECHNICIAN

8401. General

This Chapter covers the career regulations for the Cryptologic Technician (CT) Specialisation. Divisional Officers are to ensure access to this chapter is retained as necessary for every member of the CT specialisation.

a. There are reserved rights for advancement to CPO for POCTs who joined prior to 1 Nov 06 (DE) or 1 Sep 07 (SE). Exceptionally, they will be allowed to attempt the PQE for time-based advancement to the CPO rate until the cut-off dates detailed in Table 84-1. Individuals who do not successfully complete the PQE by the eligibility closure date will adopt the career path notated in Annex 84B and will be considered for merit-based selection to CPO thereupon. If the failure to complete the PQE is due to service reasons, the Branch Manager will consider exemptions on an individual basis.

Table 84-1

Situation	CPO PQE Eligibility Closure Date
PO – eligible for advancement to CPO prior to 31 Mar 10	31 Mar 12
PO – not yet eligible for advancement to CPO by 31 Mar 10	2 years from CPO eligibility date
Not yet advanced to POCT by 31 Mar 10	2 years from CPO eligibility date

8402. Entry into the CT Specialisation

The following criteria must be met for entry into the CT specialisation:

a. **Nationality.** It is important to recognise that the nature and sensitivity of the work on which CTs are engaged necessitates certain specific nationality criteria being imposed. These are as follows:

(1) CTs must be British for entry to the specialisation and are to have held British citizenship for ten years.

(2) CTs are not to have held any other nationality in the last five years.

(3) CTs' surviving parents (including their partners) are to be solely British.

(4) Any spouse/partner is to be solely British.

(5) Surviving parents of the spouse/partner are to be solely British.

(6) Current or previous Foreign National connections (either by direct family, marriage or extension) will be judged on a case by case basis, some of which may preclude entry to the CT Specialisation.

b. **Educational Standards.** GCSE Grade C or higher in English Language and Mathematics.

c. **Visual Acuity.** 6/18.

d. **Hearing.** A Standard hearing of 2:2.

e. **Colour Perception.** A Colour Perception standard of 4.

f. **Age.** Must be between the ages of 16-37 years for direct entry.

g. **Developed Vetting (DV).** DV is the minimum security requirement.

h. **Service.** Candidates must be volunteers for service in ships and submarines.

i. **Language Training.** Candidates must be volunteers for language training, where required, to satisfy the Service need (see Para 8414).

j. **Signal Training.** Candidates must be volunteers for signal development training, where required, to satisfy the Service need Para 8415.

8403. Branch Transfer Requirements

In addition to the criteria at Para 8402 branch transfer entrants require the following:

a. Have a minimum of ten years to serve.

b. Be an AB1 who has completed the CBRNDC Task Book, or be a LH.

c. Recommended by their Commanding Officer for the CT specialisation.

d. A successful acquaint interview with a Warrant Officer 1 CT or officer who is an ex–CT (copies of the last three Appraisal Reports should be forwarded to the interviewing officer prior to this event). A subsequent letter of recommendation, by the interviewer, should be enclosed within the rating's Service Documents and a copy forwarded to RN CT SPEC AD at HQ MIXG[1].

e. Passed the CT Specialisation Selection Interview. This is convened at HQ MIXG by RNCT SPEC AD.

f. Have manning clearance for transfer.

g. Be in date RNFT.

[1] For administrative purposes, HQ MIXG should also be advised of unsuccessful interview results.

8404. Application Process

An individual must have passed a selection interview before manning clearance is authorised. No individual may attend a selection interview without PPLAN approval; the following procedure is to be used:

a. **Selection Interview Clearance.** When an individual has been recommended for the CT specialisation in accordance with Para 8403 sub para c, an application is to be submitted to Navy Command Director Personnel & Training/NavSec, for the attention of NAVY PEOPLE HQ N5 SWP WO1, requesting permission to proceed to a selection interview.

b. Once permission has been granted, the individual's unit is to liaise with RN CT SPEC AD at HQ MIXG to request a selection interview. The Divisional Officer is to forward the following:

(1) Copies of the candidate's Appraisal Reports and Insert Slips covering the last three years.

(2) A copy of Leadership Course results (if completed).

8405. CT Specialisation Selection Interviews for Branch Transfer Entry Candidates.

Interviews are held at HQ MIXG, dates of which will be made available to candidates by the HQ MIXG.

a. The selection process is of one day's duration and consists of a number of elements to assess a candidate's suitability for transferring to the CT specialisation, culminating in a formal interview. Among the qualities sought are the following:

(1) Aptitude for employment in all relevant CT Unit Establishment positions.

(2) Commitment to the Service.

(3) Capability to meet the standards required of CT training.

(4) Good personal qualities, particularly integrity, stability of performance and no obvious security risks.

(5) Leadership potential.

b. On completion of the selection interview candidates, and their Commanding Officer, will be informed if they have passed or failed. HQ MIXG is also to inform NAVY PEOPLE HQ N5 SWP WO1 of the results.

8406. Post Selection Interview Actions

a. **Branch Transfer Manning Clearance.** Once an individual has passed the Selection Interview, manning clearance to change branch/specialisation is to be requested via NAVY PEOPLE HQ N5 SWP WO1 in accordance with current regulations.

(1) Manning clearance, if granted, will be valid for two years.

(2) The individual will then be allocated a provisional place on a CTPQC.

b. On receipt of an Assignment Order detailing a candidate for CTPQC, Divisional Officers are to check that the rating meets all the requirements listed at Para 8403.

8407. Passing CT Training

On successful completion of the SIGINT Collection Course (SCC), the following rules will apply:

a. Direct entry individuals leave their original specialisation and join the trained strength of the CT specialisation.

(1) Branch Transfer Entry LHs are to be rated LH CT and adopt one star CT specialisation badges.

(2) Branch Transfer Entry AB1s are to be rated AB1 CT and adopt one star CT specialisation badges.

(3) Once all the criteria at Annex 84B have been satisfied, Direct Entry individuals will be rated AB1 CT.

b. When RPS as a LH CT has been achieved an individual will be awarded a two star CT specialisation badge.

c. Once all the criteria at Annex 84B have been satisfied, an individual will be advanced to LH CT 9 months after the completion of the SCC. The following gives further guidance:

d. When an individual has achieved RPS, their seniority date is to be adjusted to 9 months after the final day of the SCC course.

8408. Source Branch Matters

If an individual, having been accepted for Branch Transfer to join the CT specialisation, has not started training but is selected for promotion in their source branch, the following rules will apply:

a. The individual may take the requisite professional and leadership courses and, therefore, obtain promotion. However if, on the day that an individual starts CT training, the individual has not obtained the qualifications necessary for promotion; their selection will be held in abeyance.

b. Those personnel who are promoted in their source branch between passing the CT specialisation selection interview and commencing CT training can exercise either of the following options:

(1) Refuse promotion and commence CT training as planned.

(2) Accept promotion and remain in their source branch.

c. Once CT training has commenced, Sideways Entry individuals (SEs) will remain in their source branch but will be ineligible for promotion until completion of their basic CT training when subsequent promotion to LH CT will be dependent upon fulfilment of all criteria within the relevant CT specialist career profile.

d. Source Branch Submariners will automatically lose Special Service Pay (SM) effective from the first day of basic CT training.

8409. Withdrawal from Phase 1 or Phase 2 Training

a. Initial failure to complete any phase of training may result in back classing at the discretion of the relevant Head of Training. If it is judged that a trainee will be unable to complete any phase or module, however, they may, in consultation with the Commanding Officer HQ MIXG, be withdrawn from training with the following options:

(1) SEs may return to their source branch at their substantive rate.

(2) DEs will be given career counselling and a suitable branch transfer proposed after consultation with the Warfare Branch Manager.

(3) Discharge SHORE in accordance with Chapter 54.

b. Individuals who wish to withdraw from basic CT training voluntarily may be permitted to do so only after full consultation with HQ MIXG.

8410. Security Clearances

The minimum security requirement for employment in the CT specialisation is for the individual to hold a DV clearance.

a. This requires the individual to have been resident for ten years in the UK. In certain circumstances, however, particularly where the individual is of UK origin, a shorter period may be acceptable. In such cases, an application is to be made to RN PSyA for a waiver of the residency requirement.

b. Depending upon their area of employment, CTs will also need to hold various other clearances throughout their career. For many of these clearances, nationality restrictions will apply (see Para 8402 sub para a).

c. A DV questionnaire will be issued to prospective CTs approximately 12 weeks prior to joining the Service. The preferred method for an application is through the e-forms portal; under exceptional circumstances, however, a hard copy may be submitted. The completed DV questionnaire must be returned to the Defence Business Services National Security Vetting (DBS NSV) before commencing the third week of Phase 1 Training. DBS NSV will not be able to process forms submitted with less than 12 weeks' notice i.e.. in time for the HQ MIXG module at the end of Phase 2a, and those students affected may be unable to continue training.

d. Individuals who have not been granted a DV status cannot complete the HQ MIXG module of Phase 2a training, or begin Phase 2b (Initial Sea Training). Where this is as a result of refusal, rather than administrative delays, SEs will be returned to their source specialisation while DEs can either take the following routes:

(1) Transfer to another specialisation in accordance with Chapter 51.

(2) Discharge SHORE in accordance with Chapter 54.

8411. Loss of DV and/or Special Clearances

The withdrawal of a DV and/or the suspension/removal of Special Clearances will severely restrict an individual's employment/assignment potential as a CT by rendering the individual unemployable in designated specialisation positions. This could adversely impact the individual's Naval career. The decision to remove or suspend DVs or Special Clearances rests with RN PSyA and the relevant controlling authorities respectively. Such decisions are made on a case by case basis and the impact on the individual will generally depend on the reason for suspension/withdrawal. A range of options for future employment will be considered, involving a degree of personal preference where possible. For serving CT individuals who have lost their DV and or special clearance the following will be considered:

a. Transfer to another branch or specialisation in their substantive rate, within the constraints of branch transfer regulations (Chapter 51).

b. For those within their final two years' service, or who elect to submit 12 months' notice following the removal of the DV, employment in existing rate in an 'out of specialisation' position, if a suitable one is available, until completion of career or engagement or period of notice.

c. For SEs, reversion to source specialisation at the rate held before transfer to the CT specialisation.

d. Discharge SHORE, in accordance with Chapter 54.

8412. CT Branch Training - Career Progress, Targeted Employment Modules, and Pre Joining Training

Career Progression for CT Branch Ratings is detailed within Annex 84A or Annex 84B (as appropriate). In addition to Career training, individuals may be required to undertake some bespoke Targeted Employment Modules (TEMs)/Pre-Joining Training in accordance with the Unit Establishment List (UEL), as follows:

a. **Training Performance Statements, Workplace Training Task Books and Role Performance Standard.** On successful completion of the PQC for AB, LH or PO, a CT rating will have attained the Training Performance Statement (TPS) for that rate. Individuals will then be issued with the appropriate Workplace Training Task Book (WTTB). In the subsequent assignment, a rating will be deemed to have achieved Role Performance Standard (RPS) on successful completion of the core career workplace training section of the relevant WTTB (TPS + OJT = RPS) for AB/LH. On achievement of RPS as an AB1, LH or PO, the Warfare Training Co-ordinator must inform the unit Human Resource (HR) administrator in order for the relevant competences (see Annexes for details) to be inputted to JPA. When an individual is advanced to AB1 or LH, the HR administrator is to ensure that a Promotion Authorisation Request (PAR) is sent to the Career Manager, who will authorise the promotion and change the rate on JPA. It is important that achievement of RPS is inputted to JPA before the PAR date, thus stating that the rating has achieved RPS before attempting to be advanced to AB1 or LH. A rating's RPS is defined and owned by the relevant Branch Manager.

b. **Mechanism for Unacceptably Slow Progression.** It is entirely possible that some ratings may not achieve RPS. Within the CT Branch there is no scope to employ individuals who cannot or will not progress themselves beyond AB1. It must be realised that AB1s are employed primarily to gain experience and to advance to a higher rate. It follows, therefore, that the ultimate sanction for those who cannot or will not progress beyond AB1 is an application for administrative discharge on the grounds of un-employability. Within the CT specialisation, an initial warning is set at 12 months from commencement of the WTTB (unless it has been given earlier, supported with unequivocal statements of non-recommendation for advancement in an Appraisal Report). Warnings will then continue 3-monthly, within the Appraisal process, up to an aggregate total of 18 months under warning, whereupon application for administrative discharge on the grounds of un-employability will be sought.

c. **Pre Joining Training.** PJTs are the method of training CT ratings for a specific role, prior to joining a sea-going unit, as required by the UEL. Whilst undertaking a PQC, a rating who has been assigned to a unit in a position which requires the PJT will be booked on the course, which will commence on completion of all other modules of the PQC. The following outcomes are possible:

(1) **Pass.** Schools are responsible for conducting PJTs and are to report successful completion and ensure that HR administrators input the relevant competences to JPA.

(2) **Failure.** In the event of failure, a written report is to be forwarded by the School to the individual's parent unit. The individual may be considered for Discharge SHORE, in accordance with Chapter 54 or, in the case of LH, immediately warned formally for reversion by the parent unit. As PJTs are taught at the end of a PQC pipeline, the rating will have to wait until the end of the next training pipeline before re-commencing the PJT.

(3) **Second Failure.** After a second failure, LH or above will be subject to reversion for unsuitability. Ratings who fail a PJT a second time are not to be employed in any UEL position number that requires that competence and are not to attempt that PJT for further 12 months. The rating's parent unit is to assess the individual's employability. If deemed unemployable, the matter is to be referred to the relevant Warfare Ratings Branch Manager.

(4) **Taskbook.** On completion of the PJT, the rating may be required to complete a separate PJT TB, which will be issued in loose leaf format and is to be included in their WTTB.

d. **TEMs.** In addition to WTTB, LHs attending TEMs will also be issued with the relevant On Job Training TB in loose leaf format for inclusion in their current WTTBs.

e. **Completion of AB1 CBRNDC Task Book.** The CBRNDC TB may be issued prior to a rating being promoted AB1 and can be completed at any time after advancement to that rate.

f. **Attendance on Next Higher Professional Qualifying Course.** A rating will not be eligible to attend the PQC for a higher rate unless the individual is in date for the Annual RPS Check in the lower rate. The PQC and LRLC/SRLC should normally be undertaken as a package. The Selection Signal will be the trigger for the CM to load candidates on a PQC and relevant leadership course. It will not be possible to achieve this for every individual immediately, but priorities must be amended to achieve commencement of, at least, PQC within 12 months of selection. On implementation, it is possible that a surge in applications may exceed available places. The Career Manager's judgment will be required to manage points of excessive demand.

g. **Failure to Complete Professional and/or Leadership Course.** Refer to Para 6716 for rules on the impact on a rating's promotion if they fail to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control). If the LH or PO PQC is refused, Para 6913 will apply. In the event of failure during a LH or PO PQC, Para 6912 will apply.

h. **RPS Lead Authority.** A database of LH CT level tasks will be maintained by HQ MIXG (TD) and made available to each unit employing CTs as required. When units need to conduct an RPS check HQ MIXG (TD) should be contacted to issue a selection of general task questions. Additional oral questions are then to be added by the employing unit to probe the CT's knowledge of their own ship/unit and operational experience.

8413. JPA Recording - Competences, Annual RPS Check.

a. **Recording of Competences.** Once a CT rating has successfully completed a PQC, WTTB, PJT/TEM and achieved RPS, that competence is to be input to JPA by the appropriate unit HR administrator.

b. **Annual RPS Check.** All personnel are expected to remain at RPS while building experience towards promotion. HQ MIXG will define and regulate the standards required to pass an Annual RPS Check and will promulgate them to Fleet Units. Guidance on the process of conducting RPS checks is given in BRd 1984 - Warfare Training Regulations.

(1) Maintenance of RPS is to be monitored through an Annual RPS Check process co-ordinated by the Warfare Training Co-ordinator, who is to ensure that sufficient opportunities are provided for this purpose within the constraints of the workforce planning cycle.

(2) In exceptional circumstances some individuals may be unable to achieve the mandatory RPS checks. Where this is the case, HQ MIXG (RN CT SPEC AD) should be consulted for advice.

(3) An Annual RPS Check is not a pre-selection requirement.

(4) An Annual RPS Check is a pre-requisite for all promotion career courses for AB-LH and LH-PO.

(5) RPS qualifications will be checked on attendance of PO PQC. Ratings who are not in date for an Annual RPS Check will be returned to Unit.

8414. Appraisal Reports

a. **Appraisal Reports.** Appraisal Reports are required in order to provide Selection Boards with details of an individual's performance and suitability for promotion. Appraisal Reports are to be raised annually (31 Jan for all LH; 31 Mar for PO and 30 Sep for CPO). Individuals who cannot maintain RPS, or who receive an unequivocal statement of 'non-recommendation' in an SJAR appraisal, must be given a clear plan of action to remedy the situation. This plan must be summarised in the report. If no clear improvement is forthcoming within 3-6 months, individuals should be issued with a formal Divisional Officer, HOD or Commanding Officer's warning for inadequacy. In cases where a warning has been issued and an individual has not achieved or maintained RPS within the 3-6 month period, the relevant Branch Manager is to be consulted for advice.

b. **SJAR Recommendation.** If an individual has been awarded a positive recommendation for promotion ('Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO) in the last SJAR and, since that report, has become eligible in all other respects for selection, they will be placed before the Selection Board. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation. Ratings may be deemed as ‘developing’ at the annual reporting stage, but this should not be based solely on not having achieved OPS.

8415. Language Training - Aptitude Test

Ratings selected for CT training will undergo the Modern Languages Aptitude Test (MLAT) during basic training - results will be recorded and held within Training Delivery Division (TDD) at JITG Chicksands and HQ MIXG. Language training will be provided only in order to satisfy a Service need. When such a need is identified, CTs with an appropriate MLAT score will undergo further assessment of their commitment, attitude and suitability - success at which is a prerequisite for a language training assignment.

8416. Signal Development Training

Signal Development (SD) is an advanced, intensive, non-language, communications signals analysis skill. SD training will be provided only in order to satisfy a Service need and requires the individual to pass an aptitude assessment process as a pre-requisite.

CHAPTER 85

LOGISTICS AND PERSONNEL PROFESSION – WRITER, SUPPLY CHAIN AND CATERING SERVICES

8501. Promotion Boards and Eligibility

a. Logistics and Personnel Profession Promotion Boards consider all candidates from each respective specialisation on the basis of merit.

b. Promotion to Leading Hand, Petty Officer, Chief Petty Officer and Warrant Officer Class 2 and 1 will be authorised by vacancies and dependent upon selection by a Promotion Board. Details of the selection system are given in Chapter 67.

c. Reporting Officers making recommendations for promotion, confirmation or course, are to pay due regard to the regulations shown in Para 6901. As is already the case, adequate selections will also have to be made to ensure there are sufficient seagoing personnel to meet the SM requirement. To ensure that the separate GS and SM workforce requirements are met, all those selected and fit for SM service will be considered for either Arm, depending on the needs of the Service. The liability to serve in submarines is laid down in Chapter 51.

d. An individual is recommended for promotion when awarded 'Exceptional', 'High' or 'Yes' for 'Promotion - 1 Rank Up' on SJAR by the final Reporting Officer. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.

e. **Failure to Complete Professional and/or Leadership Course.** Refer to Para 6714 for rules on the impact on a rating's promotion if they fail to complete a Professional Qualifying Course (PQC) and/or LRLC/SRLC before the CPD or within 12 months of CPD as a result of service reasons, non-service reasons (out with own control) or non-service reasons (within own control).

8502. Professional Qualifying Courses

a. All Logistics PQCs are held at the Defence School of Logistics and Administration (DSLA). Candidates are nominated by Career Managers from those ratings who have been selected for promotion.

b. Failure of the PQCs will entail the penalties in Para 6911.

c. All Logistics Ratings are required to complete the Role Performance Statement Confirmation Check (RPSCC) within 3 months of attendance at PQC and have the relevant JPA competence recorded ahead of course attendance[1]. Personnel not completing RPSCC within the permitted timescales may not be permitted to attend their PQC and risk de-selection if a further place does not become available within 12 months of their CPD[2].

[1] e.g. NCT|RPSCC for LH Logistician|Navy| or NCT|RPSCC for AB Logistician|Navy|.
[2] BRd 3(1) Chapter 67 Para 6716.

Note. *There is no longer a requirement to undertake the VLE administered pre course examination. However, to aid preparation, those selected for promotion will be given unrestricted access 3 months prior to attendance at PQC as a training/revision aid. Note that the VLE is now hosted on the Defence Learning Environment (DLE) which is accessed via the Defence Gateway[3].*

d. Personnel are to be given 3 months' notice to attend PQC in order to prepare sufficiently. Individuals may waive their right to the 3 month preparation period by completing the proforma at Annex 85A and sending it to the LTO of the relevant DSLA Squadron.

e. **Day 1 Assessment at DSLA.** Noting that all course attendees will have adequately prepared for their PQC and arrived at RPS, an assessment on Day 1 (with the exception of Writers) will be undertaken based on topics covered within the RPSCC to measure the students' base knowledge at their current rate. A failure to meet the course requirements (i.e. a signed and completed RPSCC book and a failure of the Day 1 assessment) may lead to a range of formal administrative measures, including a Tier 1 Warning or RTU and/or de-selection in accordance with current DSLA policy[4]. The Day 1 assessment also allows DSLA and NCHQ to monitor the current knowledge level of those attending the course, to identify common weak areas, target mentoring appropriately and also reinforces the importance of appropriate preparation for PQC. In order to drive continual improvement, DSLA Head of Naval Training (HoNT) will provide feedback to units of personnel who fail their Day 1 assessment.

f. **Responsibility.** It is a personal responsibility to fully prepare ahead of attendance on any PQC. The nominated unit Logistics sub-specialisation Section Head is required to confirm the individual's suitability to attend PQC using the RPSCC. Additionally, the unit Logistics Officer, or nominated Officer in Charge of Logistics Duties, must ensure that individuals are given sufficient time and opportunity to undertake this task. Both will be obliged to certify an individual's RPSCC certificate within the completed RPSCC booklet and the booklet must be presented to DSLA by the individual on the first day of their PQC. The RPSCC booklets are hosted on the training page of the FLO Intranet site[4].

8503. Professional Qualifying Courses - Attendance Pre-Selection

a. The overriding principle and policy of assigning personnel to PQC is Select, Train, Promote. However, course frequency, relative short course duration and the vagaries of the Fleet's operational tempo has traditionally resulted in a degree of unused capacity on these courses. In order to capitalise on this modest capacity, Career Managers are authorised to assign appropriate personnel to LH and PO Qualifying Courses prior to selection for promotion. This will be done on an ad-hoc basis where course capacity exists and relies on Divisional Officers and Career Managers nominating only those personnel who have both the ability to successfully pass the course and sufficient opportunity to undertake the requisite pre-course preparation.

[3] It remains the responsibility of the individual to ensure they have activated their Defence Gateway account and that their contact details are correct. Access to the Defence Gateway via Dii requires an IGS account.
[4] https://modgovuk.sharepoint.com/sites/IntranetNavy/SitePages/Fleet-logistics.aspx

b. In order to ensure that no personnel are disadvantaged, no credit or positive weighting will be given at promotion boards to those personnel who have had the opportunity to undertake a career course pre-selection. In all circumstances, individuals selected for promotion will take priority and excess course places will be opened up by Career Managers 12 weeks from course start.

8504. Workplace Training Booklet

a. On completion of a Logistics PQC, individuals reach RPS in their rank when they have completed their Workplace Training Booklet (WTB). This should be achieved within 12 months of completing Phase 2 Training or the LH PQC and is to be recorded as a competence on JPA. WTBs are issued by individual DSLA Squadrons.

b. Completion of Phase 2 and Phase 3 results in Junior Ratings (JRs) leaving the DSLA at Training Performance Statement (TPS). In order to integrate that classroom training with the realities of the workplace and bring the newly qualified JRs up to the required Role Performance Statement (RPS), individuals are required to complete a WTB in their subsequent assignments.

c. Previously, completion of the WTB alone was deemed sufficient. However, following feedback from frontline units and after discussions with other training establishments, a level of assurance is required to ensure parity across the Fleet. Therefore, once the WTB has been completed, the individual will be required to sit a short oral board examination following which, if they are successful, they will be confirmed at RPS[5].

d. **Procedure.** All personnel completing Phase 2 and Phase 3 training will be issued with a WTB by DSLA which has to be completed within 12 months[6] of the date of issue (following completion of Phase 2 training or LHPQC).

e. On completion (or when nearing completion) of a WTB, the departmental SR is to contact[7] the Deputy Logistics Training Officer (DLTO) of the relevant lead squadron at DSLA. To reduce the risk of plagiarism, each squadron will be responsible for managing the provision of oral board questions on request and for all other guidance.

f. **LHPQC - Level 3 NVQ Certificate in Business and Administration.** Leading Hands attending Phase 3 LHQC at DSLA undertake the Level 3 NVQ Certificate in Business and Administration. If chosen to be undertaken, the learner is committed to making every effort to complete the qualification whilst on the LHQC and the subsequent work required afterwards. Completion of the NVQ is not a mandated requirement for achieving RPS and subsequent promotion.

[5] AB2 must complete the WTB and be at RPS to be advanced to AB1. Achievement of RPS for logistics Leading Hands is a pre-selection requirement for Petty Officer.
[6] Line managers of personnel who are struggling to complete their WTB within the 12 months are to liaise with the LTO of the relevant Squadron at DSLA.
[7] The full process for requesting oral board questions is detailed in the WTB.

g. **Recording.** Once the WTB and subsequent oral board is complete, units are to forward the completed Statement of Competency to the DLTO of the relevant lead squadron, which will annotate the competence on JPA and provide a certificate of achievement. Units are not to take independent JPA action. A suitable comment is to be included in the individual's next SJAR and the Departmental Training Log updated. A PAR, for non-selective promotion, should also be raised at this time and be forwarded to the relevant CM, who will take JPA action to promote to AB1.

h. **WTB Content Assurance.** The content of the WTB is derived directly from the RPS which is owned by NCHQ FLO Policy. These are regularly scrutinised by the Fleet Logistic WOs to ensure currency. Whenever there is a requirement to change the RPS then the WTB documentation will also be amended. Feedback from units is encouraged via the Fleet Logistic WOs and the submission of an S3018 Training Feedback Report.

ANNEX 85A

LOGISTICS AND PERSONNEL PROFESSION - PROFESSIONAL QUALIFYING COURSE - THREE MONTH PREPARATION WAIVER

Section 1 (to be completed by the individual)

Name		**Service No.**	
Course No.		**Course Start Date**	
Date Notified			

I hereby waive the three month preparation time to attend Professional Qualifying Course (PQC). I understand it is my responsibility to be fully prepared for professional training and that failure could result in de-selection for promotion.

Signed: .....

Name: .....

Date: .....

Section 2 (to be completed by Line Manager/Divisional Officer)

I approve the above-named ratings request to waive their right to the stipulated preparation time. I have advised on the requirement to ensure they are fully prepared for PQC, including the completion of the OPSCC assessment.

Signed: .....

Name: .....

Date: .....

This form is to be forwarded to the LTO of the relevant squadron in DSLA and retained for a period of two years post course start date.

ANNEX 85B

LOGISTICS AND PERSONNEL PROFESSION - FAST TRACK PROCESS AND AWARD OF HIGHER STARTING PAY FOR ROYAL NAVY CATERING SERVICES TRAINEES

1. Introduction

a. A Fast Track (FT) scheme for Phase 2 trainees who join with pre-existing catering qualifications OR sufficient demonstrable practical experience has been in effective operation since Jul 21. Those trainees joining with pre-existing qualifications or experience will attempt 2-day Skills Test. Successful trainees will be accepted onto the FT scheme and will not be required to complete the DCB(M) phase. Instead, they will be accelerated by 8 weeks to proceed directly to DCB(B) phase.

b. The Armed Forces Pay Steering Group (AFPSG) approved the introduction of Higher Starting Pay (HSP) for those CS ratings achieving the FT competence, and completing a FT probationary period, with effect from 1 Sep 23.

2. Capture of Qualifications and/or Experience

a. Where possible, personnel are to declare their catering qualifications and/or experience during Phase 2 holdover at HMS RALEIGH to CORPORATE staff. Whilst there are no specific criteria to apply for the FT scheme, a judgement will be made by the DSLA staff to determine suitability based upon evidence provided. Applicants will be required to support their application with a Reference or evidence of their existing Catering Qualifications. Irrespective of qualifications or prior experience, FT progression will be determined by successful completion of the skills test – details are provided below.

b. When informed, CORPORATE staff are to liaise directly with CTW(M) DLTO at least 3 weeks prior to trainees' arrival date at DSLA. This does not preclude a potential applicant raising their interest on arrival at DSLA. DLTO will oversee the necessary arrangements for trainees to undertake the skills test.

3. Fast Track Procedure

a. The following procedure is to be taken:

(1) Upon arrival at DSLA, all FT candidates will undertake the site induction, mandatory food hygiene and Health & Safety training in week one of the course.

(2) A 2-day skills test compromising of one theory and two craft examinations are to be undertaken early into week two of DCB(M) course. Failure of any single element will result in candidate re-joining their original class and continuing with DCB(M) phase.

(3) The successful pass of all skills test elements will negate the need for candidates to undertake the remaining 8-week DCB(M) course and they will proceed directly to DCB(B) phase. DCB(B) phase will not be shortened.

(4) Candidates who meet the experience criteria and not minimal qualification requirement and who pass the FT assessments will automatically be enrolled onto L2 Production Chef Apprenticeship.

4. Award of Higher Starting Pay (HSP)

a. Those trainees who pass the DCB(M) skills test and therefore proceed directly to DCB(B) phase will be awarded the FT competence.

b. The award of HSP at OR2-6 is based upon completion of a CS FT probationary period which is determined to be the completion of the DCB(B) Phase of training. On successful completion of DCB(B), DSLA DLTO will upload the FT Competence in JPA for successful candidates, with an effective date of the first day of the individual's Ph 2 training.

c. Those personnel achieving the FT competence will be awarded HSP backdated to the first day of their Ph 2 training. A lump sum of 'back pay' will be paid. SP will increment in the normal course thereafter.

d. Any trainee accepted into the FT scheme who fails to meet the required standard, may be required to return to the DCB(M) phase. Furthermore, any trainee who is back phased or who receives a training extension during DCB(B) phase will be withdrawn from the FT scheme. In these instances, HSP will not be awarded.

e. The award of HSP will only apply for trainees who are awarded the FT competence with an effective date on or after 1 Sep 23. There are no transitional arrangements for those who entered the FT scheme prior to that date.

Warrant Officer 1 Logistician (Catering Services) - Pre-Promotion Requirements

Requirement	Competency	Proficiency Level	Notes
At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).			

Promoted to
WARRANT OFFICER 1 LOGISTICIAN (Catering Services)

Notes:

1. RM Logistician (Catering Services) will follow the promotion flowchart described above in Para 8506. However, this cadre of personnel can undertake either JCC/SCC, or LRLC/SRLC, and this will count towards their Command training for promotion. Additionally, promotion from CSGT to WO1 does not require completion of RM Advanced Command Course (ACC) although the WO1 course should be completed in common with all Logs WO1s.

2. LLog(Stewards) who have cross-trained to LLog(Catering Services) will be eligible if they have previously achieved RPS for LLog(Steward).

3. A Fast Track (FT) scheme for Phase 2 trainees who join with pre-existing qualifications OR sufficient demonstratable practical experience has been in effective operation since Jul 21. Full details are contained in Annex 85B.

CHAPTER 86

ROYAL NAVY WELFARE

8601. Introduction

The Royal Navy Welfare specialisation (RNW), as part of the Royal Navy Family and People Support Organisation (RN FPS), provides high quality personal and community based support services to all Royal Navy personnel, reservists and their families across the wide range of social circumstances. RN FPS works in partnership with the Executive, Medical Services, Divisional and Regimental System to provide advice, guidance and professional recommendations to Commanding Officers including the outcomes of investigations relating to compassionate action. RN FPS seeks to develop and deploy resources to anticipate and prevent personal or family circumstances from reaching crisis point and which promote resilience, improved morale and wellbeing.

The RN FPS Mission Statement is:

'To provide accessible support services that strengthen and enhance the resilience and resourcefulness of Royal Navy personnel, their families and communities in order to contribute to the Moral Component and optimise Operational Capability.'

8602. Applying for Entry into the Royal Navy Welfare (RNW) Specialisation

Applications will be called for annually via a RNTM; applicants must meet the following criteria:

Table 86-1. RNW Selection Criteria

Requirement	Competency	Proficiency Level	Notes
A substantive OR4 (LH/CPL) with a minimum of 1 Year seniority and has completed Leading Rates Leadership Course with a positive recommendation for PO/Sgt (At least B OPG) or a substantive OR6.	Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|		
Must have workforce clearance.			IAW Para 5125(b1).
Be in date for PES/RMFT.	Physical Education|RN Physical Employment Standard (RNPES)|Navy|CMS|RMFT|RM|		

(Continued)

Requirement	Competency	Proficiency Level	Notes
Have a minimum of 5 years left to serve on completion of the DSWWC. Tx date to be 6 months or more from the close of RNW interview phase iaw latest RNTM.			ES3(5) may be awarded upon successful completion of training if required. There is a minimum of 36 months ROS following completion of the DSWWC.
Have at least 12 months since last Career Check (if any) at nominated CPD or date due promotion.			
Hold a Full Civilian Driving Licence (recorded on JPA at point of application.	Drivers|Dvr Lic Cat B|Joint|		
Medically Fully Deployable (MFD).			Those in a Medically Limited Deployable (MLD) MEDCAT will be considered on a case by case-by-case basis dependent on their restrictions.

8603. Selection Process

a. Individuals are to obtain CO's approval for sideways entry, forwarded to NAVY PEOPLE-TRG-HQ-N5 SWP WO1 for workforce clearance[1].

b. Submit an application pack to RNW in accordance with the current RNTM for RNW recruitment.

c. Successful applicants will be invited to attend a RNW selection day. It is an essential requirement of selection that applicants possess the required attributes, attitude and maturity to effectively perform as Specialist Case Workers and to develop their potential in the RNW specialisation.

d. The Selection Board will consider the following factors:

(1) **Suitability.** For intensive academic (Diploma in Specialist Welfare Work) and specialist welfare vocational training and continued personal and professional development throughout the time spent in the specialisation.

[1] Para 5125.

(2) **Potential.** To perform effectively in the RNW specialisation, demonstrate agility and resilience to manage the challenging life-changing/traumatic events that will be encountered.

(3) **Motivation.** Demonstration of a genuine interest in working with people, empathy and overwhelming motivation by this desire (rather than looking for an escape from current specialisation) whilst recognising the requirement to balance the needs of the Service.

(4) **Effective Communication.** Ability to communicate to all regardless of status. Communication skills (both verbal and written) are integral to the Specialist Case Worker's role.

(5) **Preparation.** Demonstrate a sound understanding of how the RNW Organisation and specialisation operates and works in direct support of CoC/Ops/Divisional and Regimental system, plus knowledge of the range of work they could get involved in and how staff are trained, supported and developed.

e. Enhanced Disclosure and Barring Service and Protecting Vulnerable Groups (Scotland) clearances achieved prior to commencement of DSWWC. Applications will be initiated by the People Support Organisation.

f. Selected applicants will attend the 7-month DSWWC to train alongside contemporaries from the Army Welfare Service at DSLA, Worthy Down.

g. Whilst on the DSWWC, candidates remain in their source specialisation; on passing the DSWWC, candidates will be eligible to transfer into RNW specialisation.

h. If transferred at OR4, candidates will be promoted to Acting PO/Sgt (unpaid) from commencement of DSWWC. They will not be rated substantive OR6 until completion of DSWWC and/or SRLC, whichever is the later. SRLC must be completed in source profession or within 12 months of DSWWC. Successful completion will then allow for seniority to be backdated to completion date of DSWWC. Failure to complete SRLC within this time frame will result in reversion and/or return to source profession or specialisation.

i. Point of contact for all enquiries is the RNW Career Manager (NAVY PEOPLE-CM LOGS SRSC RNFPS).

8604. Transfer Requirements

a. Successfully pass DSWWC and be recommended for transfer to the RNW specialisation.

b. On completion of DSWWC, all transferees will be rated PO/Sgt (RNW). CPO/CSgt RM will relinquish their rate/rank to OR6[2] (i.e. PO/Sgt) with one year's seniority[3]. If transferred as an OR4, candidates will become substantive as detailed in Para 8603.h.

c. On completion of DSWWC, a 36-month Return of Service requirement will commence.

d. All individuals transferring to the RNW specialisation will no longer be considered for promotion in their source specialisation/trade once training has started (see para 6704).

[2] RNW personnel are in Pay Supplement 1. JSP 754 Chapter 2 Section 10 details the regulations regarding pay on sideways entry and transfer to a lower pay supplement, including details on Marked Time Rate of Pay for 2 years.
[3] Seniority in rank is different to pay increment level. Pay increment level will be determined on sideways transfer iaw with Footnote 2.

CHAPTER 87

HEALTHCARE AND MEDICAL PROFESSION - MEDICAL ASSISTANT AND MEDICAL TECHNICIAN

8701. Medical Technician – Unified Career Management

a. Since 2024 all Medical Technician cadres are Career Managed by the Unified Career Management (UCM) team.

b. Personnel joining after 1 Jan 24 are subject to harmonised UCM TACOS iaw JSP 755 (Part 2 Vol 2).

c. Personnel in-Service or undergoing Phase 1 or 2 training on 1 Jan 24 remained on legacy sS TACOS as per BRd 3(1) Chapters 48 and 49.

d. Personnel promoted or who have received a change of engagement post 1 Jan 24 will transfer to harmonised UCM TACOS iaw JSP 755 (Part 2 Vol 2).

e. Promotion zones for personnel on legacy sS TACOS will be modified to ensure the most beneficial terms are applied to the individual. As such, harmonised UCM and legacy sS promotion timelines will be compared to ensure personnel will enter promotion zone at the earlier of the two timelines and exit the promotion zone at the latest of the two timelines.

f. Further detailed UCM Policy information is available via the UCM Policy – Healthcare and Medical SharePoint site.

ANNEX 87A

MEDICAL ASSISTANT SPECIALISATION – PROMOTION FLOWCHART

New Entry HMS RALEIGH

Entry: 17.5-39 years of age (see Note 1).

MEDICAL ASSISTANT 2

Medical Assistant 1 - Advancement Criteria

a. Complete Phase 1 Initial Naval Training (INT).

b. Complete Phase 2 Medical Training.

c. Complete Phase 2 Consolidation Period (see Note 3).

d. Promotion Authorisation Request to be raised by DO for CO approval (Para 6708).

e. At least 6 months since last Career Check (if any) on advancement.

f. Completion of Able Rates Leadership Course or have received Branch Manager waiver.

Advanced to
MEDICAL ASSISTANT 1

Leading Medical Assistant - Pre-Selection Requirements

a. Minimum of 18 months' seniority as a MA1 12 months prior to Common Promotion Date (CPD) (Para 6703 b sub para (see Note 3).

b. Serving on ES1/FC/OE1 that expires after the nominated CPD (Para 6703 b sub para (7)).

c. Recommended for promotion on Appraisal Report at CRD (see Note 7).

d. Achieved MA CPD Taskbook at CRD and recorded as JPA competence Medical|AB Medical Assistant Annual CPD Check|NAVY|.

e. In date for Level 2 First Aid and recorded on JPA as Level 2 First Aid (CBRNDC 23).

Leading Medical Assistant - Pre-Promotion Requirements

a. Passed Professional Qualifying Course (PQC) (4) (see Note 8).

b. Completed Leading Rates' Leadership Course (LRLC) and recorded on JPA (see Note 8).

c. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

d. Education For Promotion (EFP) qualified in accordance with Para 9614. Achieved minimum or Level 1 Functional Skills (or equivalent) in English and Mathematics at Common Reporting Date (CRD) and appropriate competences recorded on JPA.

Promoted to
LEADING MEDICAL ASSISTANT

Petty Officer Medical Assistant - Pre-Selection Requirements

a. Minimum of 2 years' seniority as a LMA 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Recommended for promotion on Appraisal Report at CRD (see Note 7).

d. Achieved LMA CPD Taskbook at CRD and recorded as JPA competence Medical|LH Medical Assistant Annual CPD Check|Navy|.

e. In date for Level 2 First Aid and recorded on JPA as Level 2 First Aid (CBRNDC 23).

Petty Officer Medical Assistant - Pre-Promotion Requirements

a. Passed Professional Qualifying Course (PQC) (see Notes 5 and 8).

b. Completed Senior Rates' Leadership Course (SRLC) and recorded on JPA (see Note 8).

c. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

d. EFP in accordance with Para 9614. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics at CRD and appropriate competences recorded on JPA.

Promoted to
PETTY OFFICER MEDICAL ASSISTANT

Chief Petty Officer Medical Assistant - Pre-Selection Requirements

a. Minimum of 3 years' seniority as a POMA 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Completed Senior Rates' Leadership Course (SRLC) and recorded on JPA.

d. Recommended for promotion on Appraisal Report at CRD (see Note 7).

e. In date for Level 2 First Aid and recorded on JPA as Level 2 First Aid (CBRNDC 23).

f. Achieved POMA CPD Taskbook at CRD and recorded on JPA as competence Medical|PO Medical Assistant Annual CPD Check|Navy|.

Chief Petty Officer Medical Assistant - Pre-Promotion Requirements

a. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
CHIEF PETTY OFFICER MEDICAL ASSISTANT

Warrant Officer 2 Medical Assistant - Pre-Selection Requirements

a. Minimum of 3 years' seniority as a CPOMA 12 months prior to the CPD.

b. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the nominated CPD.

c. Recommended for promotion on Appraisal Report at CRD (see Note 7).

d. In date for Level 2 First Aid and recorded on JPA as Level 2 First Aid (CBRNDC23).

Warrant Officer 2 - Pre-Promotion Requirements

a. At least 6 months since last Career Check (if any) on nominated CPD or date due promotion (if later).

Promoted to
WARRANT OFFICER 2 MEDICAL ASSISTANT

Warrant Officer 1 - Pre-Selection Requirements

a. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the CPD.

b. Recommended for promotion on Appraisal Report at CRD.

Warrant Officer 1 - Pre-Promotion Requirements

a. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

Promoted to
WARRANT OFFICER 1 MEDICAL ASSISTANT

Notes:

1. Entry

a. ***Educational Standard.*** *Passed the Defence Aptitude Assessment.*

b. ***Age on Entry.*** *17.5-39 years.*

c. ***Rate on Entry.*** *Medical Assistant 2 (MA2).*

2. Phase 2 Medical Training (MA2)

a. ***Course.*** *Conducted at Defence Medical Academy, Lichfield including external placements. Written and practical examinations will be conducted as part of course assessment criteria.*

b. ***MASM.*** *A separate training pathway exists for Medical Assistant (Submarines) – see 8702.*

c. ***RMMA.*** *An amended pathway exists for Royal Marine MA (6).*

d. All Branch Transfers will be subject to a 30 month TRoS iaw Chapter 53 Annex C and JSP 755 Part 2 Vol 2.

3. Phase 2 Consolidation Period

a. On successful completion of Phase 2 Training all MAs will undertake the MA consolidation period in which time they are to complete the mandated CPD workbook. All MA2 MAs will be assigned to an appropriately supported Healthcare Unit. During their consolidation period, they will not be available for position trawls and only on completion of their Workbook will they be eligible.

b. One hundred percent completion of the workbook is to be achieved by the 6-month point post Phase 2. MAs' Divisional Officers are to document a review in the workbook monthly and conduct a formal review at the 3-month point using the template provided within the workbook. The purpose of the formal review is to ensure the MA is on track for completion and to facilitate an opportunity to performance manage as required.

c. Failure to complete the workbook at the 6-month point will lead to the individual being placed on Divisional Warning for Discharge Shore (Inadequacy) iaw BRd 3(1) and direct referral to the Governing Body for MA Cadre (GBMAC) iaw BRd 1991. Additionally, the individual will remain at MA2 and undergo onward assignment for a further 6-month period.

d. On successful completion of the MA CPD workbook, the Divisional Officer/Senior Officer and MA are to sign and date the Statement of Competency Certificate in the workbook. This Certificate is to be held within the individual's Personal Development Record (PDR) and the following Role Performance Statement (RPS) competency is to be recorded by the UPO on JPA: ***MEDICAL\|AB Medical Assistant Annual CPD Check\|Navy****.*

4. Leading Rates' Professional Qualifying Course (LRPQC)

*a. **PQCs.** PQCs are held at the RNMSS INM and the dates of the course will be published annually by a DIN By passing the PQC, Medical Assistants will be professionally qualified for LMA. The general rules for examinations at Para 6911 will apply. Failures are to be dealt with in accordance with Para 6912.*

*b. **Loading of PQC.** Candidates for the course will be nominated and assigned by the Career Manager from those selected at an annual Promotion Board*

5. Senior Rates' Professional Qualifying Course (SRPQC)

*a. **PQC.** A PQC is held in RNMSS INM and the dates of the course will be published annually by a DIN. By passing the PQC, LMAs will be professionally qualified for POMA. The general rules for examinations, given in Para 6911, will apply to these examinations. Failures are to be dealt with under Para 6912.*

*b. **Loading of PQC.** Candidates for the course will be nominated and assigned by the Career Manager from those selected at an annual Promotion Board.*

6. Royal Marine Medical Assistant (RMMA)

a. Promotion for RMMA will follow the Promotional Flowchart described in Para 8701, with the exception of completion of JCC/SCC is required in lieu of LRLC/SRLC. Additionally, promotion from WO2 RMMA to WO1 RMMA will also require completion of RM Advance Command Course (ACC) and the WO1 course in common with all other RMOR (see Annex 91C).

b. RMs transferring SQ to RMMA will retain their RM seniority date on qualifying as an MA but must achieve a minimum of 18 months seniority as a MA1, 12 months prior to CPD as a Pre-Selection requirement for LMA.

c. RMMAs may be awarded the local, unpaid rank of L/Cpl for attendance on JCC. This local, unpaid rank can be held on return to Unit on successful completion of JCC until subsequent promotion to Cpl.

***7. Recommendation.** Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.*

8. Failure to Complete Professional and/or Leadership Course and/or MASM2 (SM Only). *Refer to Para 6716 for rules on the impact on a rating's promotion if they fail to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).*

9. MA CPD Taskbook

a. It is recognised that occasionally there may be factors beyond the control of the individual which preclude them from completing the Taskbook, in these circumstances an extension to the period in which to satisfy the check, or in exceptional circumstances a full waiver, may be requested. Applications for extensions or waivers will be dealt with on a case by case basis and should be made in writing by the individual's Divisional Officer or Divisional Senior Rate to the RNMSS Warrant Officer (Training), INM Alverstoke (FAO Warrant Officer (Training) (WO(T)).

b. An extension or waiver may only be issued by WO(T), who will also record the fact on a local database, held at INM, of all waivers and extensions which will be forwarded to the Promotions Office before each board. ***Individuals can still be presented at Promotion Boards, but the waiver needs to be current and mention made of it in the appraisal report in the performance section.*** *The Healthcare and Medical Profession Manager SO1 will be the final authority for any issues regarding eligibility for promotion.*

c. Failure to achieve completion of the MA CPD Taskbook will be treated as a serious matter. Should a ***unit*** *be unable to complete then RNMSS Warrant Officer (Training) (WO(T)) should be engaged for advice at the earliest opportunity. Should an* ***individual*** *consistently fail to meet the required standards of knowledge and skill throughout the year then the Divisional system should be employed appropriately and consideration should be given to warning the rating for Discharge SHORE (Professional Inadequacy).*

ANNEX 87B

MEDICAL ASSISTANT (SUBMARINE) SPECIALISATION – ADVANCEMENT FLOWCHART

Medical Assistant (Submarine) Specialisation

Entry: 17.5-39 years (see Annex 87A, Note 1).

Advancement to MA1 in accordance with Para 8701.

Advanced to
MEDICAL ASSISTANT 1 (SUBMARINE)

Acting Leading Medical Assistant - Advancement Requirements

a. Education For Promotion (EFP) qualified in accordance with Para 9614. Achieved minimum Level 1 Functional Skills (or equivalent) in English and Mathematics at date of advancement and appropriate competences recorded on JPA.

b. Serving on ES1/FC/OE1 that expires after advancement to ALMA (see Note 2).

c. Recommended for advancement iaw para 6802.c (Authority to Advance) (see Note 1).

d. Achieved MA CPD Taskbook at date of advancement and recorded as JPA competence Medical|AB Medical Assistant Annual CPD Check|Navy|.

e. Completed MASM 1 course and recorded with JPA competence: Medical|Medical Assistant Submariner 1 Course (MASM1) (ME841N)|Navy|No.

f. Completed Basic Submarine Qualification and recorded with JPA competence: SM|Submarine Service|Navy|.

g. Completed MASM 1 task book and recorded with JPA competence: Medical|Medical Profession Submarine Training MASM1 Task Book|Navy| (see Note 2a).

h. At least 6 months since last Career Check (if any) at date of advancement.

i. In date for Level 2 First Aid and recorded on JPA as Level 2 First Aid (CBRNDC 23).

Advanced to
ACTING LEADING MEDICAL ASSISTANT (SUBMARINE)

Leading Medical Assistant - Advancement Requirements

a. Passed Professional Qualifying Course (PQC) within 12 months of acting role (see Annex 87A Note 4).

b. Completed Leading Rates' Leadership Course (LRLC) and recorded as JPA competence 'Miscellaneous|Leading Rates Leadership Course (RNLA 102)|Navy|' within 12 months of acting role.

c. At least 6 months since last Career Check (if any) at date of advancement.

d. In date for Level 2 First Aid and recorded on JPA as Level 2 First Aid (CBRNDC 23).

e. Complete 12 months in the rate of ALMA(SM).

Advanced to
LEADING MEDICAL ASSISTANT (SUBMARINE)

Petty Officer Medical Assistant - Pre Selection Requirements

a. Minimum of 2 years' seniority as an LMA(SM) 12 months prior to the CPD. The two-year minimum seniority as an LMA(SM) 12 months prior to CPD is reduced to one year for Branch Transfers from MA (General Service).

b. Recommended for promotion as an LMA SM on Appraisal Report at CRD (see Note 4).

c. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after advancement to POMA.

d. Achieved LMA CPD Taskbook at CRD and recorded as JPA competence Medical|LH Medical Assistant Annual CPD Check|Navy (see Note 3).

e. In date for Level 2 First Aid and recorded on JPA as Level 2 First Aid (CBRNDC 23).

Petty Officer Medical Assistant - Advancement Requirements

a. Passed Professional Qualifying Course (PQC) for Medical Profession Senior Rating (see Note 2b).

b. Completed Senior Rates' Leadership Course (SRLC) and recorded as JPA competence 'Miscellaneous|Senior Rates Leadership Course (RNLA 103)|Navy|' (see Note 2b).

c. Complete MASM 2 training course and recorded as JPA competence Medical|SM Medical Profession Ratings Advanced Course MASM2 (ND835)|Navy| (see Note 2c).

d. At least 6 months since last Career Check (if any) at date of advancement.

e. EFP in accordance with Para 9614. Achieved minimum Level 2 Functional Skills (or equivalent) in English and Mathematics at CRD and appropriate competences recorded on JPA.

f. In date for Level 2 First Aid and recorded on JPA as Level 2 First Aid (CBRNDC 23).

Promoted to
PETTY OFFICER MEDICAL ASSISTANT (SUBMARINE)

Further promotion beyond Petty Office Medical Assistant (Submarine) in accordance with Chief Petty Officer Medical Assistant selection / promotion pathway at Annex 87A.

Notes:

1. Advancement to Acting LMA(SM) on Completion of MASM1 Training. *The effective date of advancement will be when all elements have been achieved. The recommendation is an important part of this advancement and, before making recommendations to their CO, Line Managers are to satisfy themselves that MASM meets the requirements of Para 6902.*

2. Failures.

a. Ratings who fail to complete the MASM 1 task book within 12 months post MASM 1 course will have their cases reviewed in the first instance by the Head of Cadre prior to referral to the Medical Ratings Branch Manager to ensure that all opportunities have been taken to complete the task book. This part of their training at any stage will be assessed by their Commanding Officer and Healthcare and Medical Ratings Profession Manager SO1 to determine whether a further period of training should be undertaken or whether the rating should be discharged SHORE.

b. The acting higher rate will be for a maximum of 12 months, after which time ratings will, exceptional reasons apart, relinquish the rate if they fail to attain the outstanding qualifications iaw 6802 and 6803.

c. Ratings who fail MASM 2 course outright or are removed from MASM 2 training will be deselected from the POMA(SM) selection signal and will see a requirement to spend a minimum of 12 months in the lower rate and the need to re-qualify, by way of a Commanding Officer's recommendation for subsequent consideration for selection for POMA(SM).

3. MA CPD Taskbook Refer to Para Annex 87A Note 9.

4. *Recommendation.* *Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.*

ANNEX 87C

MEDICAL TECHNICIAN SPECIALISATON (ENTRY AS STUDENT MEDICAL TECHNICIAN) – PROMOTION FLOWCHART

Entry: 17½ - 39 years of age (see Note 1).

STUDENT MEDICAL TECHNICIAN

a. Complete Phase 1 Initial Naval Training (INT).

b. Conduct Phase 2 professional course (see Note 2).

c. Graduate on completion of professional course.

Advanced to
MEDICAL TECHNICIAN

Leading Medical Technician - Advancement Criteria

a. Seniority as Medical Technician to be date of completing professional registration.

b. Obtained Full Registration with appropriate civilian professional body.

c. Provide documentary evidence of registration with civilian professional body; recorded under JPA competence Professional Healthcare Staff.

d. Recommended for advancement (Promotion Authority Request).

e. At least 6 months since last Career Check (if any) on advancement.

f. Education For Promotion (EFP) qualified in accordance with Para 9614. Achieved minimum Level 1 Functional Skills (or equivalent) in English and Mathematics and appropriate competences recorded on JPA.

Advanced to
ACTING LEADING MEDICAL TECHNICIAN

a. Completed Leading Rates' Leadership Course (LRLC) and recorded on JPA within 12 months of Phase II Training (see Note 3)

b. At least 6 months since last Career Check (if any) on advancement.

Advanced to
LEADING MEDICAL TECHNICIAN

Petty Officer Medical Technician - Advancement Criteria

a. Two years' service as a substantive Leading MT.

b. Provide documentary evidence of relevant registration with civilian professional body; recorded under JPA competence Professional Healthcare Staff.

SUBSEQUENT PROMOTION IAW PROMOTION FLOWCHARTS AT ANNEX 87C

Notes:

1. Internal recruitment of Medical Technicians

a. When volunteers are called for by the Healthcare and Medical Profession Manager, RN and QARNNS ratings may apply to be considered for any one of the following Medical Technician courses:

(1) Medical Technician (Radiographer).

(2) Medical Technician (Biomedical Scientist).

(3) Medical Technician (Operating Department Practitioner).

(4) Medical Technician (Pharmacy Technician).

b. Applications for workforce clearance should be made to the Navy Command HQ (Strategic Workforce Planning WO1) in accordance with current regulations. Workforce clearance, if approved, will be valid for two years. If clearance is approved, applications are to be forwarded to R&A SR MED PO, together with full Service Documents and documentary evidence of academic attainments held by the applicant. Inter-Service transfers, however, are to be processed through R&A, Room 202, Building 1/080, MP 73A, Jago Road, HM Naval Base, Portsmouth. PO1 3LU and applicants' units are advised to make preliminary enquiries of R&A regarding the possibility of release from the parent Service before applications are forwarded.

c. Applicants will be notified by R&A whether they are eligible to appear before a Selection Board. If ineligible, they will be made aware of any further educational qualifications required. In addition, they will be advised whether vacancies exist in their preferred specialisation and, if not, whether vacancies exist in any of the other specialisations.

d. Applicants will be eligible to appear before a Medical Technician Selection Board provided they fulfil the mandated academic requirements and also provide evidence of satisfying the following conditions:

(1) Evidence of Medical Category JMES MFD/P2 or another JMES that allows Sea Service and Land Operational Deployment. Applicants who are MLD will be considered in exceptional circumstances, advice will be taken from ROHC with Healthcare and Medical Profession Manager's decision being final.

(Continued)

Notes (Continued):

(2) Recommended for transfer on the candidate's latest SJAR.

(3) Evidence of in date workforce clearance to transfer from current branch/trade.

(4) Passed the Defence Aptitude Assessment.

(5) Provide Nurse Recruitment Assistant with a curriculum vitae, emailed to NAVY CNR-COHERENCE SR MED PO.

(6) Completed evidence of two weeks clinical experience obtained in a relevant Health Care setting with a recommendation to train in radiography/biomedical science/ODP.

(7) Provide copies of last three years' SJARs.

e. R&A, in consultation with the Healthcare and Medical Profession Manager, will convene Selection Boards as necessary and will inform Commanding Officers, copy to DDPD.

f. Subject to confirmation of availability by the Healthcare and Medical Profession/Career Manager, selected candidates will be assigned to the Margin for training.

g. The individual will remain in their current Profession/Specialisation and rate until completion of specialist training.

h. In a transfer where the rating is a Petty Officer, the new rate will be determined by the Healthcare and Medical Profession Manager on a case by case basis, dependent upon the Service requirement.

i. Seniority as Medical Technician will be the date of completing Phase I training.

j. All candidates must comply with the current ROS regulations and sign a Notice of Waiver of Right of Discharge in Consideration of Course of Training (Form S2658) in accordance with Para 5313.

3. Advancement of Students During Training. *Individuals will not be eligible for selection for promotion in their source specialisation whilst on course.*

(Continued)

Notes (Continued):

4. Transfer to Medical Technician

a. Ratings will be transferred to the Medical Technician structure when they have successfully completed professional training.

b. The effective date of transfer will be the date of completion of professional registration. The date of seniority will also be amended to this date.

c. Transfer will be to the rates shown below:

Present Rate	***Transfer To***
Able Rate	*Acting Leading Medical Technician*
Leading Hand	*Leading Medical Technician (See Para 6909 re LRLC)*
Petty Officer	*Leading Medical Technician*

Warrant Officer 1 - Pre-Selection Requirements

a. Serving on ES2/FC/OE1 or ES3/EC/2OE that expires after the CPD.

b. Recommended for promotion on Appraisal Report at CRD.

Warrant Officer 1 - Pre-Promotion Requirements

c. At least 6 months since last Career Check (if any) on CPD or date due promotion (if later).

Promoted to
WARRANT OFFICER 1 NAVAL NURSE

Notes:

1. *Candidates must fulfil the following conditions to become eligible for entry:*

a. Be between 17 years 10 months and 39 years of age. Candidates must have achieved 18 years of age by the end of the calendar month in which the Common Foundation Programme course begins.

b. The following educational qualifications provide eligibility to be considered for QARNNS student nurse selection (BSc (Hons) Nursing). The degree only entry programme commenced in 2008.

c. 120 UCAS tariff points from a maximum of three A/A2 Level Passes (or equivalent) and must include a Science–based subject:

(1) A minimum of three GCSEs at Grade 4 or above (previously Grade C) which must include English Language, Mathematics and a Science.

(2) Other Level 2 and Level 3 qualifications may be acceptable but must be endorsed by SR MED in the first instance.

(3) Any qualifications achieved overseas are to be ratified and a Statement of Comparability to be obtained from the United Kingdom National Agency for the Recognition and Comparison of International Qualifications and Skills (UK NARIC).

d. Pass an Assessment Board by the Specialist Medical Recruitment Team. The Adult Nursing board takes place in February and the Mental Health Nursing board takes place in November.

2. Advancement to Naval Nurse. *Student Naval Nurses will be advanced to Naval Nurse on successful completion of Registered Nurse Training and eligibility for registration with the Nursing and Midwifery Council (NMC). The date of advancement to Naval Nurse will be that of successful completion of Naval Nurse Training.*

(Continued)

Notes (Continued):

3. Advancement to Acting Leading Naval Nurse and Leading Naval Nurse

a. The seniority date for LNN will be the date of registration with the NMC.

b. Should a rating, on completion of Phase II Training, not be recommended for Acting LNN, the Unit Commanding Officer icw CM/Head of Discipline has the authority to withhold the advancement and recommend that the rating be reviewed by the parent establishment not less than 3 months and not more than 6 months. The rate held during this assessment period will be that of Naval Nurse. If subsequently recommended for advancement to Acting LNN (in writing to the CM), the seniority date will be the actual date of recommendation. If not recommended, consideration should be given to Discharge SHORE.

c. To enable advancement action by CM, the end of pre-registration training reports (appraisal report) provided by the DSHE for Naval Nurses must include a recommendation for advancement to Acting LNN.

d. Upon receipt of notification from the RN Leadership Academy confirming successful completion of LRLC, Unit Admin staffs are to ensure that individuals meet the requirements for substantive advancement laid down at Para 8902 and arrange for the individual to submit a request for substantive advancement by the Commanding Officer. Upon granting of substantive promotion, Unit Admin staffs are to raise a Promotion Authority Request signal to DDPD, copy to the Ratings' Promotions Section, requesting JPA action to reflect the award of substantive advancement and adjustment of seniority date.

4. Student Entry

a. Naval Nurses (Student) follow a 3 year course of practical and theoretical instruction based on the current syllabus of General Training stipulated by the Nursing and Midwifery Council (NMC). Naval Nurses (Student) undertake training at Birmingham City University (BCU), administered by the Defence School of Healthcare Education (DSHE), which is embedded within BCU.

b. QARNNS Student Naval Nurses may be seconded to certain civilian hospitals or Joint Hospital Groups (JHGs) in order to obtain specialist experience.

c. Failure will result in specialisation/branch/Service transfer if available and approved, or Discharge Unsuitable During Training.

(Continued)

Notes (Continued):

5. Recommendation. *Awarded 'Exceptional', 'High' or 'Yes' recommendation for 'Promotion - 1 Rank Up' on SJAR by final RO. Where an otherwise fully eligible candidate has received an SJAR assessment of 'Insufficient Knowledge' at last report, presentation before the next Board will be determined by the Promotion Section using the previous report recommendation.*

6. Failure to Complete Professional and/or Leadership Course. *Refer to Para 6716 for rules on the impact on a rating's promotion if they fail to complete PQC and/or LRLC/SRLC before CPD or within 12 months of CPD as a result of service reasons, non-service reasons (outwith own control) or non-service reasons (within own control).*

ANNEX 89B
